

SUMMARY: The Council's Mackerel-Squid-Butterfish (MSB) Monitoring Committee will meet via webinar to develop recommendations for future MSB specifications.

DATES: The meeting will be Thursday, May 21, 2015, at 9 a.m.

ADDRESSES: The meeting will be held via webinar, but anyone can also attend at the Council office address (see below). The webinar link is: <http://mafmc.adobeconnect.com/msbmoncom2015/>. Please call the Council at least 24 hours in advance if you wish to attend at the Council office.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State St., Suite 201, Dover, DE 19901; telephone: (302) 674-2331.

FOR FURTHER INFORMATION CONTACT:

Christopher M. Moore, Ph.D. Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526-5255. The Council's Web site, www.mafmc.org will also have details on webinar access and any background materials.

SUPPLEMENTARY INFORMATION: The Council's Mackerel-Squid-Butterfish (MSB) Monitoring Committee will meet to develop recommendations for future MSB specifications. There will be time for public questions and comments. The Council utilizes the Monitoring Committee recommendations at each June Council meeting when setting the subsequent years' MSB specifications.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: May 1, 2015.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Permits for Incidental Taking of Endangered or Threatened Species.

OMB Control Number: 0648-0230.

Form Number(s): None.

Type of Request: Regular (extensions of a currently approved information collection).

Number of Respondents: 13.

Average Hours per Response: 80 hours for a permit application (including Habitat Conservation Plans), 40 minutes for transfer of an incidental take permit; 8 hours for a permit report.

Burden Hours: 394.

Needs and Uses: This request is for extension of a currently approved information collection.

The Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 et. seq.) imposed prohibitions against the taking of endangered species. In 1982, Congress revised the ESA to allow permits authorizing the taking of endangered species incidental to otherwise lawful activities. The corresponding regulations (50 CFR part 222.222) established procedures for persons to apply for such a permit. In addition, the regulations set forth specific reporting requirements for such permit holders.

The regulations contain three sets of information collections: (1) Applications for incidental take permits, (2) applications for certificates of inclusion, and (3) reporting requirements for permits issued. Certificates of inclusion are only required if a general permit is issued to a representative of a group of potential permit applicants, rather than requiring each entity to apply for and receive a permit.

The required information is used to evaluate the impacts of the proposed activity on endangered species, to make the determinations required by the ESA prior to issuing a permit, and to establish appropriate permit conditions.

When a species is listed as threatened, section 4(d) of the ESA requires the Secretary to issue whatever regulations are deemed necessary or advisable to provide for conservation of the species. In many cases those regulations reflect blanket application of the section 9 take prohibition. However, the National Marine Fisheries Service (NMFS) recognizes certain exceptions to that prohibition, including habitat restoration actions taken in accord with approved state watershed action plans. While watershed plans are prepared for other purposes in coordination with or fulfillment of various state programs, a watershed group wishing to take advantage of the exception for restoration activities (rather than

obtaining a section 10 permit) would have to submit the plan for NMFS review.

Affected Public: Business or other for-profit organizations; individuals or households; not-for-profit institutions, and state, local, or tribal government.

Frequency: Annually and on occasion.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: May 4, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.
