Needs and Uses: The Commission requested OMB approval for new disclosure requirements pertaining to subpart CC of part 1 of the Commission’s rules. This subpart was adopted to implement and enforce Section 6409(a) of the Middle Class Tax Relief and Job Creation Act of 2012. Section 6409(a) provides, in part, that “a State or local government may not deny, and shall approve, any eligible facilities request for a modification of an existing wireless tower or base station that does not substantially change the physical dimensions of such tower or base station.” 47 U.S.C. 1455(a)(1). In subpart CC, the Commission adopted definitions of ambiguous terms, procedural requirements, and remedies to provide guidance to all stakeholders on the proper interpretation of the provision and to enforce its requirements, reducing delays in the review process for wireless infrastructure modifications and facilitating the rapid deployment of wireless infrastructure.

The following are the information collection requirements in connection with subpart CC of part 1 of the Commission’s rules:

• 47 CFR 1.40001(c)(3)(i)—To toll the 60-day review timeframe on grounds that an application is incomplete, the reviewing State or local government must provide written notice to the applicant within 30 days of receipt of the application, clearly and specifically delineating all missing documents or information. Such delineated information is limited to documents or information meeting the standard under paragraph (c)(1) of Section 1.40001.

• 47 CFR 1.40001(c)(3)(iii)—Following a supplemental submission from the applicant, the State or local government will have 10 days to notify the applicant in writing if the supplemental submission did not provide the information identified in the State or local government’s original
notice delineating missing information. The timeframe for review is tolled in the case of second or subsequent notices of incompleteness pursuant to the procedures identified in paragraph (c)(3). Second or subsequent notices of incompleteness may not specify missing documents or information that were not delineated in the original notice of incompleteness.

- 47 CFR 1.40001(c)(4)—If a request is deemed granted because of a failure to timely approve or deny the request, the deemed grant does not become effective until the applicant notifies the applicable reviewing authority in writing after the review period has expired (accounting for any tolling) that the application has been deemed granted.

These collections are necessary to effectuate the rule changes that implement and enforce the requirements of Section 6409(a).

Federal Communications Commission.

Federal Register Liaison Officer, Office of the Managing Director.
