

the date on which this preliminary rescission is issued, unless the deadline for the final results is extended.⁹

Assessment Rates

Jianglong's entries are currently subject to the PRC-wide rate. Although we intend to rescind this new shipper review, we initiated an administrative review for the period February 1, 2014, through January 31, 2015, which also covers the entries subject to this new shipper review.¹⁰ Accordingly, we will instruct U.S. Customs and Border Protection (CBP) to continue to suspend entries during the period February 1, 2014, through January 31, 2015, of subject merchandise exported by Jianglong until CBP receives instructions relating to the administrative review covering the period February 1, 2014, through January 31, 2015.

Cash Deposit Requirements

Effective upon publication of the final rescission or the final results of this new shipper review, we will instruct CBP to discontinue the option of posting a bond or security in lieu of a cash deposit for entries of subject merchandise by Jianglong. If we proceed to a final rescission of this new shipper review, the cash deposit rate will continue to be the PRC-wide rate for Jianglong. If we issue final results of the new shipper review, we will instruct CBP to collect cash deposits, effective upon the publication of the final results, at the rate established therein.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This new shipper review and notice are in accordance with sections 751(a)(2)(B) and 777(i) of the Act and 19 CFR 351.214(f).

Dated: May 21, 2015.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

RIN 0693-XC049

Request for Information Regarding Online Platforms To Promote Federal Science and Technology Facilities, Products, and Services

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice; Request for Information (RFI)

SUMMARY: The National Institute of Standards and Technology (NIST) and other member laboratories of the Federal Laboratory Consortium for Technology Transfer (FLC) offer a variety of specialized scientific and technical facilities, products, and services to the public, including access to instrumentation, reference materials, software, and calibrations. Access to such services is provided in a variety of ways, and may require the payment of fees or other costs and/or an application or agreement. NIST and other members of the FLC request information from the public regarding recommendations for online platforms that can broaden awareness and make it easier for the public to search for, locate, learn about, and obtain access to these facilities, products, and services. The information received in response to this RFI will be provided by NIST to various interagency groups for consideration and used to publicize various federal facilities and resources.

DATES: Comments must be received by 5:00 p.m. Eastern time on June 29, 2015. Written comments in response to the RFI should be submitted according to the instructions in the **SUPPLEMENTARY INFORMATION** section below. Submissions received after that date will be considered to the extent practicable.

ADDRESSES: Electronic comments regarding the RFI should be addressed to Dr. Courtney Silverthorn by email to courtney.silverthorn@nist.gov.

FOR FURTHER INFORMATION CONTACT: Dr. Courtney Silverthorn, Senior Interagency Policy Specialist, National Institute of Standards and Technology, Technology Partnerships Office, 100 Bureau Drive MS 2200, Gaithersburg, MD 20899, 301-975-4189, or by email to courtney.silverthorn@nist.gov.

SUPPLEMENTARY INFORMATION: Private sector online platforms could improve the availability of scientific and technical resources and services in a number of ways. For example, a private sector online platform might maintain a database of such resources and provide a simple way for a member of the public to initiate access. NIST and other member laboratories will evaluate submitted platforms for technology and research capability matches and may contact appropriate platforms directly to arrange for possible publication of specific facilities, products, and/or services. NIST and other members of the FLC are especially interested in recommendations that can broaden awareness and improve access at no cost to the government.

As part of the Open Data initiative, NIST and other members of the FLC can make data about the resources of interest available to the public. For examples, see:

<https://flcbusiness.federallabs.org/FLCBiz/app/search-equipment-and-facilities>

<http://www.nist.gov/user-facilities.cfm>

<http://www.nist.gov/calibrations/>

<http://www.nist.gov/srm/index.cfm>

<http://www.nist.gov/srd/index.cfm>

To respond to this RFI, please submit written comments by email to Dr. Courtney Silverthorn at courtney.silverthorn@nist.gov in any of the following formats: ASCII; Word; RTF; or PDF. Please include your name, organization's name (if any), and cite "Online Technology Platforms RFI" in the subject line of all correspondence.

NIST is specifically interested in receiving input pertaining to the following questions:

(1) What is the web address of the online platform you are recommending? Is the platform specific to a particular research sector (*i.e.* molecular biology, physical sciences, calibration services, etc.) or is it a general platform?

(2) What is the cost model of the online platform you are recommending? Is there a listing fee, a percentage of the service fee retained, or is it a no-cost information listing only?

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD075

Endangered Species; File No. 18136

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit modification.

SUMMARY: Notice is hereby given that Larry Wood, LDWood BioConsulting, Inc., 425 Kennedy Street, Jupiter, FL 33468 has been issued a modification to scientific research Permit No. 18136.

ADDRESSES: The modification and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone: (301) 427-8401; fax: (301) 713-0376.

FOR FURTHER INFORMATION CONTACT:

Amy Hapeman or Brendan Hurley; phone: (301) 427-8401.

SUPPLEMENTARY INFORMATION: On February 3, 2015, notice was published in the **Federal Register** (80 FR 5739) that a modification of Permit No. 18136, issued September 30, 2014 (79 FR 74712), had been requested by the above-named individual. The requested modification has been granted under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

Permit No. 18136 authorizes the permit holder to continue to describe the abundance and movements of an aggregation of hawksbill sea turtles (*Eretmochelys imbricata*) found on the barrier reefs of southeast Florida. Up to 50 sea turtles may be approached during dives for observation and photographs annually. Up to 25 additional animals may be hand captured, measured, flipper and passive integrated transponder tagged, photographed, tissue sampled, and released annually. Twelve hawksbills may be captured for

the above procedures and fitted with a satellite transmitter prior to their release annually. The permit has been modified to authorize work in the waters of Miami-Dade and Monroe Counties. The permit is valid through September 30, 2019.

Issuance of this modification, as required by the ESA was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: May 19, 2015.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Gulf of Alaska Trawl Groundfish Fishery Rationalization Social Study—Catcher Processor Socio-Cultural Survey.

OMB Control Number: 0648-xxxx.

Form Number(s): None.

Type of Request: Regular (request for a new information collection).

Number of Respondents: 495.

Average Hours per Response: Catcher-Processor Company Management survey, 1 hour; Catcher-Processor Shipboard Management and Catcher-Processor Deck and Processing Crew surveys, 30 minutes each.

Burden Hours: 255.

Needs and Uses: This request is for a new information collection.

Historically, changes in fisheries management regulations have been shown to result in impacts to individuals within the fishery. An understanding of social impacts in fisheries—achieved through the collection of data on fishing communities, as well as on individuals who fish—is a requirement under several federal laws, including the

National Environmental Policy Act (NEPA) and the Magnuson-Stevens Fishery Conservation and Management Act (MSA) (as amended 2007). The collection of this data not only helps to inform legal requirements for the existing management actions, but will inform future management actions requiring equivalent information.

Fisheries rationalization programs have an impact on those individuals participating in the affected fishery, as well as their communities and may also have indirect effects on other fishery participants. The North Pacific Fishery Management Council is considering the implementation of a new, yet to be defined, rationalization program for the Gulf of Alaska groundfish trawl fishery. A data collection was conducted in 2014 (OMB Control No. 0648-0685) to obtain relevant socio-cultural information about current participants in most sectors of this fishery.

The proposed data collection complements this 2014 effort by collecting comparable information from individuals participating in the catcher processor fleet that operates in the North Pacific. The data collected will be used to develop a baseline description of the catcher processor sector operating in the North Pacific that can be used to analyze impacts that future fisheries management changes, such as the new bycatch management changes being developed for the Gulf of Alaska trawl fishery, may have on catcher processor businesses, as well as individuals and communities that are dependent on this sector. The measurement of these changes, combined with those noted in the 2014 survey, will lead to a greater understanding of the social impacts new management measures may have on the individuals and communities.

Affected Public: Individuals or households; business or other for-profit organizations.

Frequency: One time.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: May 22, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.
