business unit rather than AAPs based on establishments. Functional affirmative action programs (FAAPs) are designed to provide contractors with the option of creating AAPs that better fit their business needs. To develop and implement a FAAP, Federal contractors must receive written approval from the Director of OFCCP. On December 17, 2012, OFCCP issued Directive Number 305, Functional Affirmative Action Programs, which replaced Directive 296. This Information Collection Request (ICR) addresses the recordkeeping and reporting requirements involved in the procedures for obtaining a FAAP agreement as well as updating, modifying and certifying an existing FAAP agreement.

A separate ICR, approved by the Office of Management and Budget (OMB) under OMB number 1250–0003, addresses developing establishment-based AAPs and scheduling compliance evaluations for supply and service contractors with establishment-based AAPs.

II. Desired Focus of Comments: The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the compliance and enforcement functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: The Department of Labor seeks the approval for the renewal of OMB approval of this ICR so that it can enforce the anti-discrimination and affirmative action provisions of the legal authorities it administers.

SUPPLEMENTARY INFORMATION:

Title: Information on Meetings with Outside Parties Pursuant to Executive Order 12866.

Abstract: E.O. 12866, “Regulatory Planning and Review,” issued by President Clinton on September 30, 1993, establishes and governs the process under which OIRA reviews agency draft and proposed final regulatory actions. Consistent with the disclosure provisions of E.O. 12866, OIRA provides information about its work related to regulatory reviews on Reginfo.gov at www.Reginfo.gov and on OIRA’s Web site at https://www.whitehouse.gov/omb/oira. OIRA makes public all substantive communications with any party outside the Executive Branch concerning regulatory actions under review. If the OIRA Administrator or his/her designee meets with outside parties during a review, the subject, date, and participants of the meeting are disclosed on the Reginfo.gov Web site, as well as any materials distributed at such meetings.

These meetings occur at the initiative and request of an outside party. Any member of the public may request a meeting about a regulatory action under OIRA review, and may invite other outside parties to attend. OIRA’s role in these meetings is limited to listening to feedback on the regulation under review. OIRA invites representatives from the agency or agencies issuing the regulatory action. OIRA and agency staff may ask clarifying questions, but do not take minutes. OIRA does, however, post on Reginfo.gov any written materials provided by outside parties, including the initial meeting request.
To ensure transparency associated with meetings pursuant to E.O. 12866, OIRA is proposing to collect—and then post publicly—the following information from outside parties that request a meeting with OIRA to present their views on a regulatory action currently under review:

1. Names of all attendees who will be present at the meeting from the outside party or parties. Each attendee’s organization or affiliation. If an attendee is representing another organization, please provide the name of the organization the attendee is representing.
2. The name of the regulatory action under review on which the party would like to present its views.
3. Electronic copies of all of briefing materials that will be used during the presentation.
4. An acknowledgment by the requesting party that all information submitted to OIRA pursuant to this collection and meeting request will be made publically available at Reginfo.gov.

This effort will streamline the current process for outside parties when requesting a meeting and will ensure transparency and accuracy of the docket that OIRA keeps in accordance with the disclosure provisions of E.O. 12866. OIRA welcomes any and all public comments on the proposed collection of information such as the accuracy of OIRA’s burden estimate, the practical utility of collecting this information, and whether there are additional pieces of information that should be collected from meeting requestors to further the disclosure provisions of E.O. 12866.

Current actions: Proposal for new information collection requirement.

Type of review: New.
Affected public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Governments.

Expected average annual number of respondents: 200.
Average annual number of responses per respondent: 2.
Total number of responses annually: 400.

Total average annual burden: 200 hours.

Request for comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.
