The public closure is necessary for the period of time from August 10, 2015, through September 21, 2015, because of the Burning Man event activities in the area, starting with fencing the site perimeter, final setup, the actual event (August 30 through September 7), initial phases of cleanup, and concluding with final site cleanup.
The public closure area comprises about 13 percent of the Black Rock Desert playa. Public access to other areas of the playa will remain open and the other 87 percent of the playa outside the temporary closure area will remain open to dispersed casual use.
The event area is contained within the temporary closure area. The event area is defined as the portion of the temporary closure area (1) entirely contained within the event perimeter fence, including 50 feet from the outside of the event perimeter fence; and (2) within 25 feet from the outer edge of the event access road; and includes the entirety of the aircraft parking area outside the event perimeter fence.
The temporary closure and temporary restrictions are necessary to provide a safe environment for the participants of the Burning Man event and to members of the public visiting the Black Rock Desert, and to protect public land resources by addressing law enforcement and public safety concerns associated with the event. The event is expected to attract approximately 70,000 paid participants to a remote rural area, more than 90 miles from urban infrastructure and support, including public safety, transportation, and communication services. During the event, Black Rock City, the temporary city associated with the event, becomes the tenth-largest population area in Nevada. This event is authorized on public land under Special Recreation Permit #NVW03500–15–01.
