

determinations in which the complete initial questionnaire has not been issued as of August 6, 2015.

The second part of Section 505 amends Section 773(c)(5) of the Tariff Act of 1930, 19 U.S.C. 1673b(c)(5), to permit the Department to disregard price or cost values without further investigation if it has determined that certain subsidies have existed with respect to those values, or if those price or cost values were subject to an AD order. This amendment clarifies the Department's authority for its existing practice, and does not impose any new requirements on the parties to AD proceedings that would require them to submit additional information or argument. Accordingly, we will apply this provision to determinations made on or after August 6, 2015.

Section 506 of the Act amends Section 782(a) of the Tariff Act of 1930, 19 U.S.C. 1677m(a), to identify the factors that the Department may take into account in determining whether accepting voluntary responses would be unduly burdensome. This amendment complements the Department's voluntary respondent analysis and does not require parties to AD and CVD proceedings to submit additional information or argument. Accordingly, we will apply this provision to determinations made on or after August 6, 2015.

Classification

Pursuant to 5 U.S.C. 553(b)(A), notice and comment are not required for this rule because its intent is to interpret the Trade Preferences Extension Act to apply as explained above and to provide notice to the public. This interpretation is meant to lend clarity to the statutory terms and will reduce or eliminate any possible confusion about the application of the Act without creating any new law, rights or duties. See *General Motors Corp. v. Ruckelshaus*, 742 F.2d 1561, 1565 (D.C. Cir. 1984) (en banc) (finding that EPA's rule was interpretive because "the agency regarded its rule as interpretive"; "[its] entire justification for the rule is comprised of reasoned statutory interpretation, with reference to the language, purpose and legislative history of the [provision]"; and "most importantly, the rule did not create any new rights or duties . . ."). Because notice and an opportunity for comment are not required, no regulatory flexibility analysis is required and none has been prepared. The rule has been determined to be not significant for purposes of Executive Order 12866.

SUPPLEMENTARY INFORMATION:

A. Executive Summary

1. Purpose

The legal authority for this rule is Section 702 of the National Defense Authorization Act for Fiscal Year 2015.

This interim final rule implements Section 702 (c) of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 which states that beginning October 1, 2015, the pharmacy benefits program shall require eligible covered beneficiaries generally to refill non-generic prescription maintenance medications through military treatment facility pharmacies or the national mail-order pharmacy program. Eligible covered beneficiaries are defined in sections 1072 (5) and 1086 of title 10, United States Code.

2. Summary of the Major Provisions of the Interim Final Rule

TRICARE beneficiaries are generally required to obtain all prescription refills for select non-generic maintenance medications from the TRICARE mail order program (where beneficiary copayments are much lower than in retail pharmacies) or military treatment facilities (where there are no copayments). Covered maintenance medications are those prescribed for chronic, long-term conditions that are taken on a regular, recurring basis, but do not include medications to treat acute conditions. TRICARE will follow best commercial practices, including that beneficiaries will be notified of the new rules and mechanisms to allow them to receive adequate medication during their transition to mail for their refills. The statute and rule authorize a waiver of the mail order requirement based on patient needs and other appropriate circumstances.

3. Costs and Benefits

The effect of the statutory requirement, implemented by this rule, is to shift a volume of prescriptions from retail pharmacies to the mail order pharmacy program. This will produce savings to the Department of approximately \$88M per year and savings to beneficiaries of
