for the modified sections of the draft general permit sets forth principal facts and the significant factual, legal, methodological and policy questions considered in the development of these sections of the draft permit and is available upon request. A brief summary is provided as **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT:

Additional information concerning the draft General Permits may be obtained between the hours of 9 a.m. and 5 p.m. Monday through Friday, excluding holidays, from Newton Tedder, Office of Ecosystem Protection, 5 Post Office Square—Suite 100, Boston, MA 02109-3912; telephone: 617-918-1038; email: tedder.newton@epa.gov.

SUPPLEMENTARY INFORMATION: All NPDES permits must be consistent with applicable state water quality standards and regulations. Since the release of the original draft general permit, NHDES has made changes to their water quality standards. On November 22, 2014, Env-Wq 1701.03, "Compliance Schedules in NPDES Permits" was adopted. The rule allows for compliance schedules to be included in NPDES permits. EPA has amended the language in Section 2.1.1, Section 2.2, and Appendix F and has added specific schedules leading to compliance with water quality standards consistent with Env-Wq 1701.03 and 40 CFR 122.47.

Additionally, EPA received numerous comments on Section 2.2 and Appendix H seeking clarity on the proposed requirements. Accordingly, EPA has revised Section 2.2 and Appendix H to provide clarity of permit requirements and certainty on applicability of permit provisions.

EPA also received multiple comments on Section 2.3.6 seeking clarification on requirements, closer adherence to state law and a reduced administrative burden. EPA has revised Section 2.3.6 to address these comments.

The proposed language changes to Section 2.1.1, Section 2.2, Section 2.3.6, Appendix F and Appendix H of the New Hampshire Draft Small MS4 Permit along with statement of basis for the proposed changes can be found at http://www.epa.gov/region1/npdes/stormwater/MS4_2013_NH.html. In addition, all comments received on the proposed language modifications will be posted on the same Web site.

A comprehensive summary of the basis for the all draft permit conditions including the applicable statutory and regulatory authority is included in the original fact sheet to the 2013 draft permit available at: <http://www.epa.gov/region1/npdes/stormwater/nh/2013/>
