Background

The purpose of this strategic plan is
to define and prioritize occupational
safety and health research and
prevention activities for NIOSH in the
oil and gas exploration and production
industry through 2025. This strategic
plan focuses on conducting priority
research to prevent injuries, illnesses
and fatalities to workers employed in

communications. The plan also includes
performance measures that describe
specific research activities that will be
used to guide research, measure
progress, and evaluate the success of the
NIOSH Oil and Gas Sector Program in
improving safety and health in this
high-risk industry.
