

FY 2016 PROCESSING AND FILING FEE TABLE—Continued

Document/action	FY 2016 fee
Nomination of lands	115
plus per acre nomination fee	0.11
Site license application	60
Assignment or transfer of site license	60
Coal (parts 3400, 3470)	
License to mine application	10
Exploration license application	335
Lease or lease interest transfer	65
Leasing of Solid Minerals Other Than Coal and Oil Shale (parts 3500, 3580)	
Applications other than those listed below	35
Prospecting permit application amendment	65
Extension of prospecting permit	110
Lease modification or fringe acreage lease	30
Lease renewal	525
Assignment, sublease, or transfer of operating rights	30
Transfer of overriding royalty	30
Use permit	30
Shasta and Trinity hardrock mineral lease	30
Renewal of existing sand and gravel lease in Nevada	30
Public Law 359; Mining in Powersite Withdrawals: General (part 3730)	
Notice of protest of placer mining operations	10
Mining Law Administration (parts 3800, 3810, 3830, 3850, 3860, 3870)	
Application to open lands to location	10
Notice of location *	20
Amendment of location	10
Transfer of mining claim/site	10
Recording an annual FLPMA filing	10
Deferment of assessment work	110
Recording a notice of intent to locate mining claims on Stockraising Homestead Act lands	30
Mineral patent adjudication	3,075 (more than 10 claims) 1,535 (10 or fewer claims)
Adverse claim	110
Protest	65
Oil Shale Management (parts 3900, 3910, 3930)	
Exploration license application	320
Application for assignment or sublease of record title or overriding royalty	65

* To record a mining claim or site location, you must pay this processing fee along with the initial maintenance fee and the one-time location fee required by statute. 43 CFR part 3833.

BILLING CODE 4310-84-P

DEPARTMENT OF DEFENSE
Defense Acquisition Regulations System
48 CFR Parts 204 and 237
[Docket No. DARS 2015-0009]
RIN 0750-AI29
Defense Federal Acquisition Regulation Supplement: Electronic Copies of Contractual Documents (DFARS Case 2012-D056)
AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).
ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to establish that the Electronic Data Access system is the primary tool for distributing contracts and contract data and to provide internal control procedures for data verification to ensure contract documents in the Electronic Data Access system are accurate representations of original documents. This rule also removes outmoded language that is not consistent with electronic document processes.
DATES: Effective September 30, 2015.
FOR FURTHER INFORMATION CONTACT: Ms. Tresa Sullivan, telephone 571-372-6089.

SUPPLEMENTARY INFORMATION:**I. Background**

DoD published a proposed rule in the **Federal Register** at 80 FR 4846 on January 29, 2015, to establish that the Electronic Document Access (EDA) system is the primary tool for distributing contracts and contract data and to provide internal control procedures for data verification to ensure contract documents in EDA are accurate representations of original documents; and remove outmoded language that does not resonate with electronic document processes. No respondents submitted public comments in response to the proposed rule.

II. Discussion and Analysis

There are some minor editorial changes made from the proposed rule in the final rule to clarify the distribution of signed contract copies to contractors, uploading of certain contract attachments into EDA, and what constitutes an original signature. Accordingly, paragraph (a) is added to DFARS 204.201 to clarify that contracting officers shall distribute one signed copy or reproduction of the signed contract to the contractor in lieu of the requirements at FAR 4.201(a). DFARS 204.270–1, paragraph (a), and 204.802, paragraph (a), now include statements that contract attachments that are classified, are too sensitive for widespread distribution, or cannot be practicably converted to electronic format should be provided by separate cover and not uploaded into EDA. Additionally, section 204.802, paragraph (f) is added to state that a photocopy, facsimile, electronic, mechanically-applied and printed signature, seal, and date are considered to be an original signature, seal, and date.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This

rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

A final regulatory flexibility analysis has been prepared consistent with the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, and is summarized as below. This rule is required to update guidance in the Defense Federal Acquisition Regulation Supplement (DFARS). A review of the DFARS language related to contract files and contract distribution resulted in recommendations to remove coverage that was structured to support processes for and distribution of paper files and paper copies and to add coverage reflecting current electronic processes.

This final rule amends the DFARS to make the following changes:

- DFARS 204.201, paragraph (a), clarifies that contracting officers shall distribute one signed copy or reproduction of the signed contract to the contractor in lieu of the requirements at FAR 4.201(a).
- DFARS 204.270, Electronic Document Access, states the policy that the Electronic Data Access (EDA) System, an online repository for contractual instruments and supporting documents, is DoD's primary tool for electronic distribution of contractual documents. The rule provides that contract attachments that are classified, are too sensitive for widespread distribution, or cannot be practicably converted to electronic format should be provided by separate cover and not uploaded into EDA. This section also provides policy that agencies have certain responsibilities when posting documents to EDA, to include internal control procedures that ensure electronic copies of contract documents and data in EDA are accurate representations of original documents.
- DFARS 204.802, Contract Files, is revised. The language in this section, which addresses contract file requirements for authenticating and conforming paper documents and copies, is being removed as it is outdated. A new paragraph (a) is being added, providing that electronic documents posted to the EDA system are a part of the contract file. Additionally, paragraph (f) is added to state that a photocopy, facsimile, electronic, mechanically-applied and printed signature, seal, and date are considered to be an original signature, seal, and date.

No comments were received from the public in response to the initial regulatory flexibility analysis.

There will be little, if any, impact on small entities as this rule primarily

affects procedures for internal Government electronic posting and distribution of contractual documents.

This rule does not require any reporting or recordkeeping, and no alternatives were identified that will accomplish the objectives of the rule.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

List of Subjects in 48 CFR Parts 204 and 237

Government procurement.

Jennifer L. Hawes,

Editor, Defense Acquisition Regulations System.

Therefore, 48 CFR parts 204 and 237 are amended as follows:

- 1. The authority citation for 48 CFR parts 204 and 237 continues to read as follows:

Authority: 41 U.S.C. 1303 and 48 CFR chapter 1.

PART 204—ADMINISTRATIVE MATTERS

- 2. Amend section 204.201 by adding paragraph (a) to read as follows:

204.201 Procedures.

* * * * *

(a) In lieu of the requirement at FAR 4.201 (a), contracting officers shall distribute one signed copy or reproduction of the signed contract to the contractor.

204.270 [Amended]

- 3. Amend section 204.270 by removing the text.
- 4. Add sections 204.270–1 and 204.270–2 to subpart 204.2 to read as follows:

204.270–1 Policy.

(a) The Electronic Document Access (EDA) system, an online repository for contractual instruments and supporting documents, is DoD's primary tool for electronic distribution of contract documents and contract data. Contract attachments shall be uploaded to EDA, except for contract attachments that are classified, are too sensitive for widespread distribution (*e.g.*, personally identifiable information and Privacy Act and Health Insurance Portability and Accountability Act, or cannot be practicably converted to electronic format (*e.g.*, samples, drawings, and models). Section J (or similar location

when the Uniform Contract Format is not used) shall include the annotation “provided under separate cover” for any attachment not uploaded to EDA.

(b) Agencies are responsible for ensuring the following when posting documents, including contractual instruments, to EDA—

(1) The timely distribution of documents; and

(2) That internal controls are in place to ensure that—

(i) The electronic version of a contract document in EDA is an accurate representation of the contract; and

(ii) The contract data in EDA is an accurate representation of the underlying contract.

204.270–2 Procedures.

The procedures at PGI 204.270–2 provide details on how to record the results of data verification in EDA. When these procedures are followed, contract documents in EDA are an accurate representation of the contract and therefore may be used for audit purposes.

■ 5. Revise section 204.802 to read as follows:

204.802 Contract files.

(a) Any document posted to the Electronic Document Access (EDA) system is part of the contract file and is accessible by multiple parties, including the contractor. Do not include in EDA contract documents that are classified, too sensitive for widespread distribution (e.g., personally identifiable information and Privacy Act and Health Insurance Portability and Accountability Act), or attachments that cannot be practicably converted to electronic format (e.g., samples, drawings, and models). Inclusion of any document in EDA other than contracts, modifications, and orders is optional.

(f) A photocopy, facsimile, electronic, mechanically-applied and printed signature, seal, and date are considered to be an original signature, seal, and date.

204.805 [Amended]

■ 6. Amend section 204.805, paragraph (1), by removing “official contract files” and adding “contract files” in its place.

PART 237—SERVICE CONTRACTING

■ 7. Revise section 237.172 to read as follows:

237.172 Service contracts surveillance.

Ensure that quality assurance surveillance plans are prepared in conjunction with the preparation of the statement of work or statement of

objectives for solicitations and contracts for services. These plans should be tailored to address the performance risks inherent in the specific contract type and the work effort addressed by the contract. (See FAR subpart 46.4.) Retain quality assurance surveillance plans in the contract file. See *http://sam.dau.mil*, Step Four—Requirements Definition, for examples of quality assurance surveillance plans.

BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

48 CFR Part 232

[Docket No. DARS 2015–0047]

RIN 0750–AI70

Defense Federal Acquisition Regulation Supplement: Contract Debts—Conform to FAR Section Designations (DFARS Case 2015–D029)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) subpart on contract debts to conform with the comparable Federal Acquisition Regulation (FAR) subpart.

DATES: Effective September 30, 2015.

FOR FURTHER INFORMATION CONTACT: Ms. Julie Hammond, telephone 571–372–6174.

SUPPLEMENTARY INFORMATION:

I. Background

DoD is amending the numbering structure for various sections in DFARS subpart 232.6 and revising section headings, where appropriate, in order to conform with the FAR. This change will align the DFARS with the same coverage in the FAR. No changes are made beyond the redesignation of DFARS subpart 232.6 section numbers and the conformation of DFARS section headings to the FAR.

II. Publication of This Final Rule for Public Comment Is Not Required by Statute

“Publication of proposed regulations”, 41 U.S.C. 1707, is the statute which applies to the publication of the Federal Acquisition Regulation. Paragraph (a)(1) of the statute requires

that a procurement policy, regulation, procedure or form (including an amendment or modification thereof) must be published for public comment if it has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure or form, or has a significant cost or administrative impact on contractors or offerors. This final rule is not required to be published for public comment, because the DFARS sections are being renumbered merely to conform to the FAR sections and the DFARS section titles are being modified to conform to the FAR section titles. The content of the DFARS sections remains unchanged. This will alleviate any confusion the contracting officers may have and aid in moving between the two regulations with ease. These requirements affect only the internal operating procedures of the Government.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

The Regulatory Flexibility Act does not apply to this rule because this final rule does not constitute a significant DFARS revision within the meaning of FAR 1.501–1, and 41 U.S.C. 1707 does not require publication for public comment.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).
