CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2012–0054]

Agency Information Collection Activities; Proposed Collection; Comment Request; Safety Standard for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission (“CPSC” or “Commission”) requests comments on a proposed extension of approval of a collection of information under the safety standard for automatic residential garage door operators, approved previously under OMB Control No. 3041–0125. The Commission will consider all comments received in response to this notice before requesting an extension of this collection of information from the Office of Management and Budget (“OMB”).

DATES: Submit written or electronic comments on the collection of information by February 1, 2016.

ADDRESSES: You may submit comments, identified by Docket No. CPSC–2012–0054, by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <http://www.regulations.gov>. Follow the instructions for submitting comments. The Commission does not accept comments submitted by electronic mail (email), except through www.regulations.gov. The Commission encourages you to submit electronic comments by using the Federal eRulemaking Portal, as described above.

Written Submissions: Submit written submissions by mail/hand delivery/courier to: Office of the Secretary, Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504–7923.

Instructions: All submissions received must include the agency name and docket number for this notice. All comments received may be posted without change, including any personal identifiers, contact information, or other

personal information provided, to: <http://www.regulations.gov>. Do not submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. If furnished at all, such information should be submitted in writing.

Docket: For access to the docket to read background documents or comments received, go to: <http://www.regulations.gov>, and insert the docket number CPSC–2012–0054, into the “Search” box, and follow the prompts.

FOR FURTHER INFORMATION CONTACT:

Robert H. Squibb, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504–7815, or by email to: rsquibb@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Automatic Residential Garage Door Operators.

OMB Number: 3041–0125.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of automatic residential garage door operators.

Estimated Number of Respondents: An estimated 19 firms that conduct performance tests and maintain records based on the test results to maintain UL certification and verify compliance with the rule.

Estimated Time per Response: Based on staff’s review of industry sources, each respondent will spend an estimated 40 hours annually on the collection of information related to the rule.

Total Estimated Annual Burden: 760 hours (19 firms × 40 hours).

General Description of Collection: On December 22, 1992, the Commission issued rules prescribing requirements for a reasonable testing program to support certificates of compliance with the Safety Standard for Automatic Residential Garage Door Operators (57 FR 60449). These regulations also require manufacturers, importers, and private labelers of residential garage door operators to establish and maintain records to demonstrate compliance with the requirements for testing to support certification of compliance. 16 CFR part 1211, subparts B and C.

Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of

information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission’s functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: November 30, 2015.

Emergency Preparedness and Response at the Pantex Plant

AGENCY: Defense Nuclear Facilities Safety Board.

ACTION: Notice, recommendation.

SUMMARY: Pursuant to 42 U.S.C. 2286a(b)(5), the Defense Nuclear Facilities Safety Board has made a

recommendation to the Secretary of Energy concerning the need to address specific deficiencies with, and strengthen regulatory compliance of, the emergency preparedness and response capability at the National Nuclear Security Administration’s Pantex Plant that require timely resolution.

DATES: Comments, data, views, or arguments concerning the recommendation are due on or before January 4, 2016.

Recommendation 2015-1 to the Secretary of Energy

Emergency Preparedness and Response at the Pantex Plant, Pursuant to 42 U.S.C. 2286a(b)(5) Atomic Energy Act of 1954, as Amended

Dated: November 23, 2015

The Defense Nuclear Facilities Safety Board (Board) recommends that deficiencies identified with the implementation of existing requirements in Department of Energy (DOE) Order 151.1C, *Comprehensive Emergency Management System*, be corrected at the Pantex Plant to ensure adequate protection of workers and the public. During a series of interactions,¹ we identified three areas of concern regarding the site’s emergency preparedness and response capability. Pantex Plant personnel took action in response to some of the concerns identified, but significant concerns still exist. We conclude that each area of concern by itself has the potential to threaten the adequate protection of the public health and safety in the event of an operational emergency. Those areas of concern are (1) inadequate drill and exercise programs, (2) no demonstrated capability to provide timely, accurate information to the public regarding off-site radiological consequences, and (3) inadequate technical planning bases and decision-making tools. We believe that DOE and the National Nuclear Security

¹ Interactions included the Board’s March 2013 public meeting and hearing in Amarillo, TX, two Board technical staff reviews in October 2012 and December 2014, and exercise observations in January and August 2014 and February 2015.
