

wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under E.O. 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in E.O. 13132.

Also, this rule does not have tribal implications under E.O. 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42

U.S.C. 4321-4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves an emergency safety measure limiting access to the area described as the Bayou Chene beginning at mile 130.0 on the Atchafalaya River extending north through the Bayou Chene and ending at Mile 85.0 of the Intercoastal Waterway. This emergency situation requires a safety zone lasting longer than one week so a preliminary environmental analysis checklist and a categorical exclusion determination are being prepared and will be made available as indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

General Services Administration Acquisition Regulation (GSAR); Removal of Unnecessary Construction Clauses and Editorial Changes

AGENCY: Office of Acquisition Policy, General Services Administration (GSA)

ACTION: Final rule.

SUMMARY: This final rule amends the General Services Administration Acquisition Regulation (GSAR) coverage on Construction and Architect-Engineer Contracts, including provisions and clauses for solicitations and resultant contracts, to remove unnecessary regulations.

DATES: *Effective:* January 27, 2016.

FOR FURTHER INFORMATION CONTACT: For clarification of content, contact Ms. Christina Mullins, General Services Acquisition Policy Division, GSA, by phone at 202-969-4066 or by email at Christina.Mullins@gsa.gov. For information pertaining to status or publication schedules, contact the Regulatory Secretariat at 202-501-4755. Please cite GSAR case 2015-G508.

SUPPLEMENTARY INFORMATION:

I. Background

The General Services Administration (GSA) published a proposed rule in the **Federal Register** at 80 FR 45498 on July 30, 2015 to revise sections of GSAR Part 536, Construction and Architect-Engineer Contracts, and Part 552, Solicitation Provisions and Contract Clauses, to remove unnecessary construction clauses. No comments were received on the proposed rule.

II. Discussion of Analysis

No changes were made to the rule as there were no comments received.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

GSA does not expect this final rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, at 5 U.S.C. 601, *et seq.*, because the rule only deletes unnecessary sections and clauses and does not contain substantive changes. However, a Final Regulatory Flexibility Analysis (FRFA) has been prepared.

There were no comments submitted in response to the initial regulatory flexibility analysis provided in the proposed rule. The final rule changes will not have a significant economic impact on a substantial number of small entities. The rule changes do not place any new requirements on small entities. The section, provision and clause associated with project labor agreement is no longer a requirement based on Executive Order 13202 and because Executive Order 13502 was incorporated into FAR Subpart 22.5. The provisions and associated clauses for specialist, working hours, use of premises, measurements, samples, heat, and government use of equipment are considered technical requirements that are contained in the scope of work or specifications.
