General Prefatory Statement

In its April 8, 2002, publication, the Department gave notice of 12 routine uses that apply to all of its systems of records, except for DOL/OASAM–5, DOL/OASAM–7, and DOL/CENTRAL–3. These 12 routine uses were presented in the General Prefatory Statement for that document, and appeared at Page 16825 of Volume 67 of the **Federal Register**. As a convenience to the reader of this document, we are republishing this General Prefatory Statement. This republication shall include the statement, also contained in the 2002 and 2011 publications, that pursuant to the Flexiplacement Program (also known as "telework" consistent with the Telework Enhancement Act), the system location for all systems of records may be temporarily located at alternate worksites, including remote locations, employees' homes, or at geographically convenient satellite offices at some times.

At this time, the Department proposes two new routine uses that will apply to all of its systems of records. The first proposed routine use governs the Department's ability to disclose information to a State or local government agency in charge of issuing licenses to attorneys and health care professionals. The second proposed routine use governs the Department's ability to disclose information to the United States Department of Justice and/or the Federal Bureau of Investigation that will be included in the National Instant Criminal Background Check System (NICS). The new routine uses are described in paragraphs 13 and 14 below.

A. Universal Routine Uses of the Records

The following routine uses of the records apply to and are incorporated by reference into each system of records published below unless the text of a particular notice of a system of records indicates otherwise. These routine uses *do not* apply to DOL/OASAM-5, *Rehabilitation and Counseling File*; DOL/OASAM-7, *Employee Medical Records*, and DOL/CENTRAL-3, *Internal Investigations of Harassing Conduct*.

1. To disclose the records to the Department of Justice when: (a) The agency or any component thereof; or (b) any employee of the agency in his or her official capacity; or (c) the United States Government, is a party to litigation or has an interest in such litigation, and by careful review, the agency determines that the records are both relevant and necessary to the litigation, and the use of such records by the Department of Justice is for a purpose that is compatible with the purpose for which the agency collected the records.

2. To disclose the records in a proceeding before a court or adjudicative body, when: (a) The agency or any component thereof; or (b) any employee of the agency in his or her official capacity; or (c) any employee of the agency in his or her individual capacity; or (d) the United States Government, is a party to litigation or has an interest in such litigation, and by careful review, the agency determines that the records are both relevant and necessary to the litigation, and that the use of such records is for a purpose that is compatible with the purpose for which the agency collected the records.

3. When a record on its face, or in conjunction with other information, indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular

program statute, or by regulation, rule, or order issued pursuant thereto, disclosure may be made to the appropriate agency, whether Federal, foreign, State, local, or tribal, or other public authority responsible for enforcing, investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto, if the agency determines by careful review that the records or information are both relevant and necessary to any enforcement, regulatory, investigative or prosecutive responsibility of the receiving entity, and that the use of such records or information is for a purpose that is compatible with the purposes for which the agency collected the records.

4. To a Member of Congress or to a Congressional staff member in response to an inquiry of the Congressional office made at the written request of the constituent about whom the record is maintained.

5. To the National Archives and Records Administration or to the General Services Administration for records management inspections conducted pursuant to 44 U.S.C. 2904 and 2906.

6. To disclose to contractors, employees of contractors, consultants, grantees, and volunteers who have been engaged to assist the agency in the performance of or working on a contract, service, grant, cooperative agreement or other activity or service for the Federal Government.

Note: Recipients shall be required to comply with the requirements of the Privacy Act of 1974, as amended, 5 U.S.C. 552a; *see also* 5 U.S.C. 552a(m).

7. To the parent locator service of the Department of Health and Human Services or to other authorized persons defined by Public Law 93-647 (42 U.S.C. 653(c)) the name and current address of an individual for the purpose of locating a parent who is not paying required child support.

8. To any source from which information is requested in the course of a law enforcement or grievance investigation, or in the course of an investigation concerning retention of an employee or other personnel action, the retention of a security clearance, the letting of a contract, the retention of a grant, or the retention of any other benefit, to the extent necessary to identify the individual, inform the source of the purpose(s) of the request, and identify the type of information requested.

9. To a Federal, State, local, foreign, tribal, or other public authority of the fact that this system of records contains

information relevant to the hiring or retention of an employee, the granting or retention of a security clearance, the letting of a contract, a suspension or debarment determination or the issuance or retention of a license, grant, or other benefit.

10. To the Office of Management and Budget during the coordination and clearance process in connection with legislative matters.

11. To the Department of the Treasury, and a debt collection agency with which the United States has contracted for collection services, to recover debts owed to the United States.

12. To the news media and the public when (1) the matter under investigation has become public knowledge, (2) the Solicitor of Labor determines that disclosure is necessary to preserve confidence in the integrity of the Department or is necessary to demonstrate the accountability of the Department's officers, employees, or individuals covered by this system, or (3) the Solicitor of Labor determines that there exists a legitimate public interest in the disclosure of the information, provided the Solicitor of Labor determines in any of these situations that the public interest in disclosure of specific information in the context of a particular case outweighs the resulting invasion of personal privacy.

13. To disclose information to a State or local government entity which has the legal authority to make decisions concerning the issuance, retention or revocation of licenses, certifications or registrations required to practice law or a health care profession, when requested in writing by an investigator or supervisory official of the licensing entity for the purpose of making a decision concerning the issuance, retention or revocation of the license, certification or registration of a named attorney or health care professional.

14. To disclose information to the United States Department of Justice and/or the Federal Bureau of Investigation for inclusion in the National Instant Criminal Background Check System (NICS), pursuant to the reporting requirements of the Brady Handgun Violence Prevention Act, as amended by the NICS Improvement Amendments Act of 2007.

B. System Location—Flexiplace Programs

The following paragraph applies to and is incorporated by reference into all of the Department's systems of records under the Privacy Act, within the category entitled, **SYSTEM LOCATION:**

Pursuant to the Department of Labor's Flexiplace Programs (also known as

“telework” pursuant to the Telework Enhancement Act), copies of records may be temporarily located at alternative worksites, including employees’ homes or at geographically convenient satellite offices for periods of time. All appropriate safeguards will be taken at these sites.

C. Government-Wide Records

Two systems of records are reported by the Department of Labor for all federal agencies since this Department has overall responsibility for the administration of the programs in connection with which these systems of records have been compiled. It is presumed that most, if not all, federal agencies maintain systems of records comprising a portion of the government-wide systems of records. In order to avoid duplication in reporting, the Department is reporting these systems on behalf of all agencies. The Department has control over these systems to the same extent as the Office of Personnel Management has control over systems of records containing federal employee personnel records.

1. Federal Employees’ Compensation Act Files—DOL/GOVT-1: All records relating to injury or death of civilian employees or other persons entitled to benefits under the Federal Employees’ Compensation Act are the records of the Office of Workers’ Compensation Programs (OWCP of the Department of Labor). OWCP asserts control of these records under the provisions of 5 U.S.C. 8149 and Department regulations at 20 CFR 10.10. This system applies to copies of claim forms and other documents relating to a compensation claim maintained by the employing agency. This system, however, does not apply to other medical or related files not created pursuant to the Federal Employees’ Compensation Act which may be in the possession of an agency. This system is entitled DOL/GOVT-1, Office of Workers’ Compensation Programs, Federal Employees’ Compensation File.

Initial determinations on requests for access, amendment or correction of records maintained in this system of records shall be made by the OWCP district office having jurisdiction over the particular claim. SYSTEM NAME:

Office of Workers’ Compensation Programs, Federal Employees’ Compensation Act File.

SECURITY CLASSIFICATION:

Most files and data are unclassified. Files and data in certain cases have Top Secret classification, but the rules concerning their maintenance and disclosure are determined by the agency that has given the information the security classification of Top Secret.

SYSTEM LOCATION:

The central database for DOL/GOVT-1 is located at the DOL National office and the offices of OWCP’s contractor. Paper claim files are located at the various OWCP district offices; claim files of employees of the Central Intelligence Agency are located at that agency. Copies of claim forms and other documents arising out of a job-related injury that resulted in the filing of a claim under the Federal Employees’ Compensation Act (FECA) may also be maintained by the employing agency (and where the forms were transmitted to OWCP electronically, the original forms are maintained by the employing agency). In addition, records relating to third-party claims of FECA beneficiaries are maintained in the Division of Federal Employees’ and Energy Workers’ Compensation, Office of the Solicitor, United States Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and/or their survivors who file claims seeking benefits under FECA by reason of injuries sustained while in the performance of duty. FECA applies to all civilian Federal employees, including various classes of persons who provide or have provided personal service to the Government of the United States, and to other persons as defined by law such as State or local law enforcement officers, and their survivors, who were injured or killed while assisting in the enforcement of Federal law. In addition, FECA covers employees of the Civil Air Patrol, Peace Corps Volunteers, Job Corps students, Volunteers in Service to America, members of the National Teacher Corps, certain student employees, members of the Reserve Officers Training Corps, certain former prisoners of war, and

employees of particular commissions and other agencies.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system may contain the following kinds of records: Reports of injury by the employee and/or employing agency; claim forms filed by or on behalf of injured Federal employees or their survivors seeking benefits under FECA; forms authorizing medical care and treatment; other medical records and reports; bills and other payment records; compensation payment records; formal orders for or against the payment of benefits; transcripts of hearings conducted; and any other medical, employment, or personal information submitted or gathered in connection with the claim. The system may also contain information relating to dates of birth, marriage, divorce, and death; notes of telephone conversations conducted in connection with the claim; information relating to vocational and/or medical rehabilitation plans and progress reports; records relating to court proceedings, insurance, banking and employment; articles from newspapers and other publications; information relating to other benefits (financial and otherwise) the claimant may be entitled to; and information received from various investigative agencies concerning possible violations of Federal civil or criminal law. The system may also contain information relating to certain claims under the War Hazards Compensation Act (WHCA).

The system may also contain consumer credit reports on individuals indebted to the United States, information relating to the debtor's assets, liabilities, income and expenses, personal financial statements, correspondence to and from the debtor, information relating to the location of the debtor, and other records and reports relating to the implementation of the Federal Claims Collection Act (as amended), including investigative reports or administrative review matters. Individual records listed here are included in a claim file only insofar as they may be pertinent or applicable to the employee or beneficiary.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 8101 *et seq.*, 20 CFR 1.1 *et seq.*

PURPOSE(S):

FECA establishes the system for processing and adjudicating claims that Federal employees and other covered individuals file with the Department's OWCP seeking monetary, medical and similar benefits for injuries or deaths

sustained while in the performance of duty. The records maintained in this system are created as a result of and are necessary to this process. The records provide information and verification about the individual's employment-related injury and the resulting disabilities and/or impairments, if any, on which decisions awarding or denying benefits provided under the FECA must be based.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those Department-wide routine uses set forth in the General Prefatory Statement to this document, disclosure of information from this system of records may be made to the following individuals and entities for the purposes noted when the purpose of the disclosure is both relevant and necessary and is compatible with the purpose for which the information was collected:

a. To any attorney or other representative of a FECA beneficiary for the purpose of assisting in a claim or litigation against a third party or parties potentially liable to pay damages as a result of the FECA beneficiary's FECA-covered injury and for the purpose of administering the provisions of Sections 8131–8132 of FECA. Any such third party, or a representative acting on that third party's behalf, may be provided information or documents concerning the existence of a record and the amount and nature of compensation paid to or on behalf of the FECA beneficiary for the purpose of assisting in the resolution of the claim or litigation against that party or administering the provisions of Sections 8131–8132 of FECA.

b. To Federal agencies that employed the claimant at the time of the occurrence or recurrence of the injury or occupational illness in order to verify billing, to assist in administering FECA, to answer questions about the status of the claim, to consider rehire, retention or other actions the agency may be required to take with regard to the claim or to permit the agency to evaluate its safety and health program. Disclosure to Federal agencies, including the Department of Justice, may be made where OWCP determines that such disclosure is relevant and necessary for the purpose of providing assistance in regard to asserting a defense based upon FECA's exclusive remedy provision to an administrative claim or to litigation filed under the Federal Tort Claims Act.

c. To other Federal agencies, other Government or private entities and to private-sector employers as part of

rehabilitation and other return-to-work programs and services available through OWCP, where the entity is considering hiring the claimant or where otherwise necessary as part of that return-to-work effort.

d. To Federal, State or private rehabilitation agencies and individuals to whom the claimant has been referred for evaluation of rehabilitation and possible reemployment.

e. To physicians, pharmacies, and other health care providers for their use in treating the claimant, in conducting an examination or preparing an evaluation on behalf of OWCP and for other purposes relating to the medical management of the claim, including evaluation of and payment for charges for medical and related services and supplies.

f. To medical insurance or health and welfare plans (or their designees) that cover the claimant in instances where OWCP has paid for treatment of a medical condition that is not compensable under FECA, or where a medical insurance plan or health and welfare plan has paid for treatment of a medical condition that may be compensable under FECA, for the purpose of resolving the appropriate source of payment in such circumstances.

g. To labor unions and other voluntary employee associations from whom the claimant has requested assistance for the purpose of providing such assistance to the claimant.

h. To a Federal, State or local agency for the purpose of obtaining information relevant to a determination concerning initial or continuing eligibility for FECA benefits, and for a determination concerning whether benefits have been or are being properly paid, including whether dual benefits that are prohibited under any applicable Federal or State statute are being paid; and for the purpose of utilizing salary offset and debt collection procedures, including those actions required by the Debt Collection Act of 1982, to collect debts arising as a result of overpayments of FECA compensation and debts otherwise related to the payment of FECA benefits.

i. To the Internal Revenue Service (IRS) for the purpose of obtaining taxpayer mailing addresses for the purposes of locating a taxpayer to collect, compromise, or write-off a Federal claim against such taxpayer; and informing the IRS of the discharge of a debt owed by an individual. Records from this system of records may be disclosed to the IRS for the purpose of offsetting a Federal claim from any

income tax refund that may be due to the debtor.

j. To the Occupational Safety and Health Administration (OSHA) for purpose of using injury reports filed by Federal agencies pursuant to FECA to fulfill agency injury reporting requirements. Information in this system of records may be disclosed to OSHA by employing agencies as part of any Management Information System established under OSHA regulations to monitor health and safety.

k. To contractors providing services to the Department or any other Federal agency or any other individual or entity specified in any of these routine uses or in the Department's General Prefatory Statement who require the data to perform the services that they have contracted to perform, provided that those services are consistent with the routine use for which the information was disclosed to the contracting entity. Should such a disclosure be made to the contractor, the individual or entity making such disclosure shall ensure that the contractor complies fully with all Privacy Act provisions, including those prohibiting unlawful disclosure of such information.

l. To the Defense Manpower Data Center—Department of Defense and the United States Postal Service to conduct computer matching programs for the purpose of identifying and locating individuals who are receiving Federal salaries or benefit payments and are delinquent in their repayment of debts owed to the United States under programs administered by the Department in order to collect the debts under the provisions of the Debt Collection Act of 1982 (Pub. L. 97-365) by voluntary repayment, or by salary or administrative offset procedures.

m. To a credit bureau for the purpose of obtaining consumer credit reports identifying the assets, liabilities, expenses, and income of a debtor in order to ascertain the debtor's ability to repay a debt incurred under FECA, to collect the debt, or to establish a payment schedule.

n. To consumer reporting agencies as defined by Sec. 603(f) of the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or in accordance with Sec. 3(d)(4)(A)(ii) of the Federal Claims Collection Act of 1966 as amended (31 U.S.C. 3711(f)) for the purpose of encouraging the repayment of an overdue debt, the amount, status and history of overdue debts, the name and address, taxpayer identification (SSN), and other information necessary to establish the identity of a debtor, the agency and program under which the claim arose,

may be disclosed pursuant to 5 U.S.C. 552a(b)(12).

o. To a Member of Congress or to a Congressional staff member in response to an inquiry made by an individual seeking assistance who is the subject of the record being disclosed for the purpose of providing such assistance.

q. To the National Institute for Occupational Safety and Health (NIOSH), for the purpose of performing statistical analyses of injury and illness patterns to identify patterns and locations of high incidence, help devise safety and return-to-work interventions, and guide worker safety and health research. The statistical analyses performed by NIOSH will assist OWCP and OSHA in their efforts to reduce the occurrence of employment injuries, assist employees in achieving a smooth transition and return to work following employment injuries, and improve Federal employee safety and health.

r. To the General Services Administration (GSA), for the purpose of permitting GSA and its investigators to evaluate information about potential exposures to hazardous substances to non-GSA federal employees in buildings or complexes managed by GSA.

s. To investigators in employing agency Offices of Inspector General, for the purpose of assisting in the investigation of potential fraud by recipients of compensation benefits under the FECA for their agencies, and for the purpose of assisting in evaluation of compliance by employing agencies with timely filing requirements under the FECA and its implementing regulations as well as for audits related to the employing agencies' handling of their portion of the FECA claims process.

t. To a Federal, State or local agency charged with the responsibility for investigating compliance with laws relating to health and safety, for the purpose of assisting such agency in

Access by authorized personnel only. Computer security safeguards are used for electronically stored data and locked locations for paper files. Only personnel having an appropriate security clearance may handle or process security files.

RETENTION AND DISPOSAL:

All case files and automated data pertaining to a claim are destroyed 15 years after the case file has become inactive. Case files that have been scanned to create electronic copies are destroyed after the copies are verified. Electronic data is retained in its most current form only, and as information is updated, outdated information is deleted. Some related financial records are retained only in electronic form, and destroyed six years and three months after creation or receipt.

MSHA—DOL Mine Safety and Health Administration Systems of Records**DOL/MSHA-1****SYSTEM NAME:**

Mine Safety and Health Administration Standardized Information System (MSIS).

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Mine Safety and Health Administration (MSHA)—Program Evaluation and Information Resources (PEIR), U.S. Department of Labor, Denver, Colorado. Some records in paper form are located at:

MSHA—Educational Development and Policy (EPD), U.S. Department of Labor, Denver, Colorado (Health safety training and examination, qualification and certification records);

MSHA—Coal Mine Safety and Health, U.S. Department of Labor, Arlington, Virginia and district and field offices (Coal respirable dust and other enforcement records);

MSHA—Metal and Nonmetal Mine Safety and Health, U.S. Department of Labor, Arlington, Virginia and district and field offices (Exposure and other enforcement records; Radon daughter exposure records);

MSHA—Office of Assessments, Accountability, Special Enforcement and Investigations, U.S. Department of Labor, Arlington, Virginia (Discrimination investigations and civil/criminal investigations) and Wilkes-Barre, Pennsylvania (Penalty assessments).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

MSHA enforcement personnel who conduct inspection or investigation activities at mines; individuals for whom personal dust samples have been submitted for analysis; individuals with evidence of the development of coal workers' pneumoconiosis (black lung disease) as defined under 30 CFR part 90; individuals who MSHA has certified or qualified to complete certain mining tasks or has approved to provide training; individuals who are indebted to the United States in the form of a civil penalty; individuals with ownership interests in mines and individuals listed as responsible for health and safety at mines; individuals involved in accidents, occupational injuries, or occupational illnesses; individuals for whom mine operators are required to calculate and record radon daughter exposure in each calendar year; individuals who have been allegedly discriminated against in violation of the Federal Mine Safety and Health Act of 1977, as amended (Mine Act); individuals who are alleged to have knowingly or willfully committed violations of the Mine Act; and individuals who are criminally prosecuted or who are assessed a monetary civil penalty for violations of the Mine Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records for the mine identification number and legal identity report contain information which includes: Mine (including mill) name, company name, ownership information, Taxpayer Identification Number (TIN), mine location, operating status, and individuals listed as responsible for health and safety at mines. Records for mine inspection personnel time and activity, inspections, citations and orders issued to operators; sampling data on personal exposure of non-identified miners and MSHA personnel to radiation, dust, noise, and other contaminants; and comprehensive health surveys at mines.

Since 2008, MSHA requires certain individuals to submit their Taxpayer Identification Numbers (which includes Social Security Numbers), to receive their unique MSHA Individual Identification Numbers (MIIN). The MIIN is substituted for the Social Security Number (SSN), eliminating the need for miners and other individuals to provide their SSNs on certain documents submitted to MSHA.

Coal Respirable Dust records contain information such as the mine and company name, mine identification number, designated areas in the mine and designated occupations where samples were taken, occupations and SSNs of individuals sampled (before 1981) and of 30 CFR part 90 miners (after 1980), date sampled, concentration of respirable dust measured in the miners' work environment, tons of material produced during sampling shift, sampling time, and SSN of the certified person taking the sample. Since 2008, MIINs replaced SSNs for identifying Part 90 miners sampled and the certified person taking the samples. Consequently, SSNs are no longer collected on sample records.

Qualification and Certification records contain mine identification number, MSHA identification number, training course codes, instructor's name and SSN, date of training, name and SSN of persons who have taken training and examinations to become qualified or certified for certain mine tasks or approved instructors, and the results of any monitoring of an instructor. Since 2008, MIINs replaced SSNs for persons trained and for the instructors of the courses. Consequently, SSNs are no longer collected in Qualification and Certification records.

Penalty Assessment records contain proposed civil penalty assessments, civil penalty payment information, bankruptcy information, delinquent debt referrals to Treasury for collection, and civil penalty final orders of the

Federal Mine Safety and Health Review Commission on individuals.

Accident, injury, and occupational illness records include the mine name and identification number; date, time, and place of occurrence; type and description of accident; and name and partial SSN for the individual injured or reporting an occupational illness. For 1978 and subsequent years, only the last four digits of the SSN are collected.

Radon Daughter Exposure records contain the mine identification number, mine name, section, township, range, county, and state of mine location, operator, time period, miner's name, current year's radon daughter exposure, and cumulative radon daughter exposure in working level months (WLM). Prior to 2008, SSNs were collected for miners exposed to radon daughters; MSHA no longer collects SSNs. A "Miner's Identification Number" is now used for these records.

Discrimination investigation records include the name, address, telephone number, social security number, occupation, place of employment, other identifying data, and allegation information from complainants, mine operators, miners, and other individuals. This material includes interview statements and other data gathered by the investigator.

Civil and criminal investigation records include the name, address, telephone number, social security number, occupation, place of employment, and other identifying data concerning individuals who are the focus of civil or criminal investigations along with allegation information from miners, mine operators, and other individuals. This material includes interview statements and other information gathered by the investigator.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, AND RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Files are stored electronically and/or on paper.

RETRIEVABILITY:

Records are retrieved by a case code number, unique to the client utilizing the program. These numbers are cross-indexed by name.

SAFEGUARDS:

a. Authorized Users: Access to these records is limited to EAP Administrators who work directly with clients of the program and their immediate staffs (including counselors, secretaries, and contract or consortia administrators, counselors or secretaries). OASAM EAP Administrators as well as EAP Administrators and Coordinators from other Federal agencies who contract with OASAM, whether or not they directly provide clinical services, may have access to the records for the purposes of program evaluation, destroying records at the end of the period of maintenance, and transferring

records from one EAP contractor to another. OASAM may also contract with either a private organization or other Federal agency to destroy these records. The personnel of these record destruction organizations or agencies may have access to the records at the end of their period of maintenance for the purpose of transferring records from the EAP location to a destruction site and subsequently destroying the records.

b. Physical Safeguards: All paper records are stored in metal filing cabinets equipped with at least combination locks and *preferably* locking crash bars. These file cabinets are in secured areas, accessible only to the EAP staff outlined above, and are locked when not in use. These records are always maintained separate from other systems of record. Computers containing records are discrete from other computer systems and/or are password protected. Computers are also stored in secured areas, accessible only to the EAP staff outlined above.

c. Procedural Safeguards: All persons having access to these records shall already have been trained in the proper handling of records covered by the Privacy Act and 42 CFR part 2 (Confidentiality of Alcohol and Drug Abuse Patient Records). These acts restrict disclosures to unique situations, such as threats of physical harm, medical emergencies, and suspected child abuse, except where the client has consented in writing to such disclosure. Clients of the EAP will be informed in writing of the confidentiality provisions. Secondary disclosure of released information is prohibited without client consent.

RETENTION AND DISPOSAL:

Records are retained for three (3) years after the client's last contact with the EAP, or until any relevant litigation is resolved, or any periodic evaluation reports required by the U.S. Office of Personnel Management, DOL, or other authorities are completed, in accordance with <http://www.archives.gov/records-mgmt/grs/grs01.html> (item #26). Some OASAM EAPs provide substance abuse evaluations as part of Federal Drug-Free Workplace Program. These records will be retained for five years after contact with the program has ceased or any litigation is completed. Individual states may require longer retention. The rules in this system notice should not be construed to authorize any violation of such state laws that have greater restrictions.

DOL/OASAM-7

SYSTEM NAME:

Employee Medical File System Records (Not Job Related).

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

For current employees, records are located in a health unit or dispensary of the Federal Occupational Health (FOH), U.S. Public Health Service, Department of Health and Human Services, or in a health unit or dispensary of another Federal or private sector entity which provides health services, under an interagency agreement or other contractual arrangement, to DOL employees. Medical records maintained by one of the latter entities may be considered the property of the entity providing care to the DOL employee; however, records maintained by FOH are considered the property of DOL.

For former employees, most records will be located in an Employee Medical Folder (EMF) stored at the National Personnel Records Center operated by the National Archives and Records Administration (NARA). Agencies may retain some records on former employees for a limited time.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals covered are those of the following who have received voluntary employee health services provided by the agency under the authority of 5 U.S.C. 7901:

a. Current and former DOL employees as defined in 5 U.S.C. 2105;

b. DOL contract employees and other visitors (including minors and employees of other Federal agencies) who may have received emergency care from the health unit or dispensary.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system is comprised of records developed as a result of the provision of voluntary employee health services offered by the agency under the authority of 5 U.S.C. 7901. These records contain the following information:

a. Medical history and other biographical data on those employees requesting voluntary periodic health examinations;

b. Test reports and medical diagnoses based on voluntary periodic health examinations or voluntary health screening program tests (tests for single medical conditions or diseases);

c. History of complaint, diagnosis, and treatment of injuries and illnesses cared for by the health unit or dispensary;

d. Vaccination records.

Note: Listed below are other types of medical records which are *not* covered by this system of records. Rather, they are covered by a government-wide system of records (OPM/GOVT-10), which is managed by the U.S. Office of Personnel Management (OPM), even though the records are not in OPM's physical custody. The routine uses of such records are defined in the Privacy Act Notice for OPM/GOVT-10. Such records include:

a. Medical records, forms, and reports completed or obtained when an individual applies for a Federal job and is subsequently employed;

b. Medical records, forms and reports completed during employment as a condition of employment, either by the employing agency or by another State or local government entity, or a private sector entity under contract to the employing agency;

c. Records pertaining to and resulting from the testing of the employee for use of illegal drugs under Executive Order 12564. Such records may be retained by the agency (e.g., by the agency Medical Review Official) or by a contractor laboratory. This includes records of negative results, confirmed or unconfirmed positive test results, and

documents related to the reasons for testing or other aspects of test results;

d. Reports of on-the-job injuries and medical records, forms, and reports generated as a result of the filing of a claim for Workers Compensation, whether the claim is accepted or not. (The official compensation claim file is not covered by the OPM system; rather, it is part of DOL's Office of Workers Compensation Program (OWCP) system of records);

e. All other medical records, forms, and reports created on an employee during his/her period of employment, including any retained on a temporary basis and those designated for long-term retention (*i.e.*, those retained for the entire duration of Federal service and for some period of time after), except that, records maintained by an agency dispensary are included in this system of records only when they are the result of a condition of employment or related to an on-the-job occurrence including, for example, records of the specialized health services made available to investigative personnel of the Wage-Hour Division, under interagency agreement between PHS and DOL's Employment Standards Administration.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Secretary of Labor has promulgated regulations which exempt information contained in this system of records from various provisions of the Privacy Act depending upon the purpose for which the information was gathered and for which it will be used. The various law enforcement purposes and the reasons for the exemptions are as follows:

a. Criminal Law Enforcement: In accordance with 5 U.S.C. 552a(j)(2), information compiled for this purpose is exempt from all of the provisions of the Privacy Act except the following sections: (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), and (11), and (i). This material is exempt because the disclosure and other requirements of the Privacy Act would substantially compromise the efficacy and integrity of OIG operations in a number of ways. The disclosure of even the existence of these files would be problematic. Disclosure could enable suspects to take action to prevent detection of criminal activities, conceal evidence, or escape prosecution. Required disclosure of information contained in this system could lead to the intimidation of, or harm to, informants, witnesses and their respective families or OIG personnel and their families. Disclosure could invade the privacy of individuals other than subjects and disclose their identity when confidentially was promised or impliedly promised to them. Disclosure could interfere with the integrity of information which would otherwise be privileged (see, e.g., 5 U.S.C. 552(b)(5)), and which could interfere with the integrity of other important law enforcement concerns: (see, e.g., 5 U.S.C. 552(b)(7)).

The requirement that only relevant and necessary information be included in a criminal investigative file is contrary to investigative practice which requires a full and complete inquiry and exhaustion of all potential sources of information. See, 5 U.S.C. 552a(e)(1).

Similarly, maintaining only those records which are accurate, relevant, timely and complete and which assure fairness in a determination is contrary to

established investigative techniques. See, 5 U.S.C. 552a(e)(5). Requiring investigators to obtain information to the greatest extent practicable directly from the subject individual also would be counter-productive to the thorough performance of clandestine criminal investigations. See, 5 U.S.C. 552a(e)(2). Finally, providing notice to an individual interviewed of the authority of the interviewer, the purpose which the information provided may be used, the routine uses of that information, and the effect upon the individual should he/she choose not to provide the information sought, could discourage the free flow of information in a criminal law enforcement inquiry. 5 U.S.C. 552a(e)(3).

b. Other law enforcement: In accordance with 5 U.S.C. 552a(k)(2), investigatory material compiled for law enforcement purposes (to the extent it is not already exempted by 5 U.S.C. 552a(j)(2)), is exempted from the following provisions of the Privacy Act: (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f). This material is exempt because the disclosure and other requirements of the Act could substantially compromise the efficacy and integrity of OIG operations. Disclosure could invade the privacy of other individuals and disclose their identity when they were expressly promised confidentiality. Disclosure could interfere with the integrity of information which would otherwise be subject to privileges, see *e.g.*, 5 U.S.C. 552(b)(5) and which could interfere with other important law enforcement concerns. See, *e.g.*, 5 U.S.C. 552(b)(7).

c. Contract Investigations: In accordance with 5 U.S.C. 552a(k)(5), investigatory material compiled solely for the purpose of determining integrity, suitability, eligibility, qualifications, or employment under a DOL contract is exempt from the following sections of the Privacy Act: (c)(3), (d), (e)(1), (e)(4)(G), (H), (I) and (f). This exemption was obtained in order to protect from disclosure the identity of confidential sources when an express promise of confidentiality has been given in order to obtain information from sources that would otherwise be unwilling to provide necessary information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Secretary of Labor has promulgated regulations which exempt information contained in this system of records from various provisions of the Privacy Act depending upon the purpose for which the information was gathered and for which it will be used. The various law enforcement purposes and the reasons for the exemptions are as follows:

a. Criminal Law Enforcement: In accordance with 5 U.S.C. 552a(j)(2), information compiled for this purpose is exempt from all of the provisions of the Privacy Act except the following sections: (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), and (11), and (i). This material is exempt because the disclosure and other requirements of the Privacy Act would substantially compromise the efficacy and integrity of OIG operations in a number of ways. The disclosure of even the existence of these files would be problematic. Disclosure could enable suspects to take action to prevent detection of criminal activities, conceal evidence, or escape prosecution. Required disclosure of information contained in this system could lead to the intimidation of, or harm to, informants, witnesses and their respective families or OIG personnel and their families. Disclosure could invade the privacy of individuals other than subjects and disclose their identity when confidentiality was promised or impliedly promised to them. Disclosure could interfere with the integrity of information which would otherwise be privileged (see, e.g., 5 U.S.C. 552(b)(5)), and which could interfere with the integrity of other important law enforcement concerns. (see, e.g., 5 U.S.C. 552(b)(7)).

The requirement that only relevant and necessary information be included in a criminal investigative file is contrary to investigative practice which requires a full and complete inquiry and exhaustion of all potential sources of information. See, 5 U.S.C. 552a(e)(1).

Similarly, maintaining only those records which are accurate, relevant, timely and complete and which assure fairness in a determination is contrary to established investigative techniques. See, 5 U.S.C. 552a(e)(5). Requiring investigators to obtain information to the greatest extent practicable directly from the subject individual also would be counter-productive to the thorough performance of clandestine criminal investigations. See, 5 U.S.C. 552a(e)(2). Finally, providing notice to an individual interviewed of the authority of the interviewer, the purpose which the information provided may be used, the routine uses of that information, and the effect upon the individual should he/she choose not to provide the information sought, could discourage the free flow of information in a criminal law enforcement inquiry. 5 U.S.C. 552a(e)(3).

b. Other law enforcement: In accordance with 5 U.S.C. 552a(k)(2), investigatory material compiled for law enforcement purposes (to the extent it is not already exempted by 5 U.S.C. 552a(j)(2)), is exempted from the following provisions of the Privacy Act: (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f). This material is exempt because the disclosure and other requirements of the Act could substantially compromise the efficacy and integrity of OIG operations. Disclosure could invade the privacy of other individuals and disclose their identity when they were expressly promised confidentiality. Disclosure could interfere with the integrity of information which would otherwise be subject to privileges, see *e.g.*, 5 U.S.C. 552(b)(5) and which could interfere with other important law enforcement concerns. See, *e.g.*, 5 U.S.C. 552(b)(7).

c. Contract Investigations: In accordance with 5 U.S.C. 552a(k)(5), investigatory material compiled solely for the purpose of determining integrity, suitability, eligibility, qualifications, or employment under a DOL contract is exempt from the following sections of the Privacy Act: (c)(3), (d), (e)(1), (e)(4)(G), (H), (I) and (f). This exemption was obtained in order to protect from disclosure the identity of confidential sources when an express promise of confidentiality has been given in order to obtain information from sources that would otherwise be unwilling to provide necessary information.

i. Disclosure to Treasury and DOJ in pursuance of an *ex parte* court order to obtain taxpayer information from the IRS. A record from a system of records may be disclosed, as a routine use, to the Department of Treasury and the Department of Justice when the OIG seeks an *ex parte* court order to obtain taxpayer information from the Internal Revenue Service.

j. Disclosure to a consumer reporting agency in order to obtain relevant investigatory information. A record from a system of records may be disclosed, as a routine use, to a "consumer reporting agency" as that term is defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f) and the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)), for the purposes of obtaining information in the course of an investigation, or other matters related to the responsibilities of the OIG.

k. Disclosure in accordance with computer matching laws, regulations, and/or guidelines. A record may be disclosed to a federal, state, or local agency for use in computer matching programs to prevent and detect fraud and abuse in benefit programs administered by those agencies, to support civil and criminal law enforcement activities of those agencies and their components, and to collect debts and overpayments owed to the agencies and their components. This routine use does not provide unrestricted access to records for such law enforcement and related anti-fraud activities; each request for disclosure will be considered in light of the applicable legal and administrative requirements of a computer matching program or procedure.

l. Disclosure to any law enforcement agency for inclusion in a database, system, or process. A record from a system of records may be disclosed, as a routine use, to any law enforcement agency for inclusion in a database, system, or process designed to generate investigative leads and information to be used for law enforcement purposes. This routine use also permits the disclosure of such records to any law enforcement agency with responsibility for investigating any investigative leads

or information generated by the database, system, or other process in which the records were included.

m. Disclosure to any inspector general, receiver, trustee, or other overseer of any entity with respect to matters within the investigative jurisdiction of the United States Department of Labor (DOL) or the DOL OIG. Assistant Inspector General for Labor Racketeering and Fraud Investigations, and Assistant Inspector General for Inspections and Special Investigations, Office of Inspector General, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210.

NOTIFICATION PROCEDURE:

Inquiries should be mailed to: Disclosure Officer, Office of Inspector General, U.S. Department of Labor, 200 Constitution Ave NW., Washington, DC 20210.

RECORD ACCESS PROCEDURE:

A request for access should be mailed to the System Manager.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be mailed to the System Manager.

RECORD SOURCE CATEGORIES:

Information contained in this system is obtained from individual complaints and complainants, witnesses, interviews conducted during investigations, Federal, state and local government records, individual and company records, claim and payment files, employer medical records, insurance records, court records, articles from publications, published financial data, corporate information, bank information, telephone data, service providers, other law enforcement organizations, grantees and sub-grantees, contractors and subcontractors, and other sources that

may arise during the course of an investigation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Secretary of Labor has promulgated regulations which exempt information contained in this system of records from various provisions of the Privacy Act depending upon the purpose for which the information was gathered and for which it will be used. The various law enforcement purposes and the reasons for the exemptions are as follows:

a. Criminal Law Enforcement: In accordance with 5 U.S.C. 552a(j)(2), information compiled for this purpose is exempt from all of the provisions of the Privacy Act except the following sections: (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), and (11), and (i). This material is exempt because the disclosure and other requirements of the Privacy Act would substantially compromise the efficacy and integrity of OIG operations in a number of ways. The disclosure of even the existence of these files would be problematic. Disclosure could enable suspects to take action to prevent detection of criminal activities, conceal evidence, or escape prosecution. Required disclosure of information contained in this system could lead to the intimidation of, or harm to, informants, witnesses and their respective families or OIG personnel and their families. Disclosure could invade the privacy of individuals other than subjects and disclose their identity when confidentially was promised or impliedly promised to them. Disclosure could interfere with the integrity of information which would otherwise be privileged (see, *e.g.*, 5 U.S.C. 552(b)(5)), and which could interfere with the integrity of other important law enforcement concerns: (see, *e.g.*, 5 U.S.C. 552 (b)(7)).

The requirement that only relevant and necessary information be included in a criminal investigative file is contrary to investigative practice which requires a full and complete inquiry and exhaustion of all potential sources of information. See, 5 U.S.C. 552 a(e)(1).

Similarly, maintaining only those records which are accurate, relevant, timely and complete and which assure fairness in a determination is contrary to established investigative techniques. See, 5 U.S.C. 552a(e)(5). Requiring investigators to obtain information to the greatest extent practicable directly from the subject individual also would be counter-productive to the thorough performance of clandestine criminal investigations. See, 5 U.S.C. 552a(e)(2). Finally, providing notice to an

individual interviewed of the authority of the interviewer, the purpose which the information provided may be used, the routine uses of that information, and the effect upon the individual should he/she choose not to provide the information sought, could discourage the free flow of information in a criminal law enforcement inquiry. 5 U.S.C. 552a(e)(3).

b. Other law enforcement: In accordance with 5 U.S.C. 552a(k)(2), investigatory material compiled for law enforcement purposes (to the extent it is not already exempted by 5 U.S.C. 552a(j)(2)), is exempted from the following provisions of the Privacy Act: (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f). This material is exempt because the disclosure and other requirements of the Act could substantially compromise the efficacy and integrity of OIG operations. Disclosure could invade the privacy of other individuals and disclose their identity when they were expressly promised confidentiality. Disclosure could interfere with the integrity of information which would otherwise be subject to privileges, see *e.g.*, 5 U.S.C. 552(b)(5) and which could interfere with other important law enforcement concerns. See, *e.g.*, 5 U.S.C. 552(b)(7).

c. Contract Investigations: In accordance with 5 U.S.C. 552a(k)(5), investigatory material compiled solely for the purpose of determining integrity, suitability, eligibility, qualifications, or employment under a DOL contract is exempt from the following sections of the Privacy Act: (c)(3), (d), (e)(1), (e)(4)(G), (H), (I) and (f). This exemption was obtained in order to protect from disclosure the identity of confidential sources when an express promise of confidentiality has been given in order to obtain information from sources who would otherwise be unwilling to provide necessary information.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those universal routine uses listed in the General Prefatory Statement to this document, disclosure of information from this system of records may be made to the following individuals and entities for the purposes noted when the purpose of the disclosure is both relevant and necessary and is compatible with the purpose for which the information was collected:

a. To any attorney or other representative of an EEOICPA beneficiary for the purpose of assisting in a claim or litigation against a third party or parties potentially liable to pay damages as a result of the beneficiary's compensable condition, and for the purpose of administering the provisions of §§ 3641–3642 of the EEOICPA. Any such third party, or a representative acting on that third party's behalf, may be provided with information or documents concerning the existence of a record and the amount and nature of compensation paid to or on behalf of the beneficiary for the purpose of assisting in the resolution of the claim or litigation against that party or administering the provisions of §§ 3641–3642 of the EEOICPA.

b. To the United States Department of Energy, its contractors and subcontractors, and the Federal agency that employed the employee at the time of the alleged exposure, as well as to other entities that may possess relevant information, to assist in administering the EEOICPA, to answer questions about the status of the claim, to consider other actions the agency or entity may be required to take with regard to the claim, or to permit the agency or entity to evaluate its safety and health program. Disclosure to other Federal agencies, including the Department of Justice, may be made when OWCP determines that such disclosure is relevant and necessary for the purpose of providing assistance in regard to asserting a defense based upon the EEOICPA's exclusive remedy provision to an administrative claim or to litigation filed under the Federal Tort Claims Act.

c. To the personnel, contractors, grantees, and cooperative agreement holders of the Department of Energy, the Department of Health and Human Services, the Department of Justice, and other Federal agencies designated by the President to implement the Federal

compensation program established by the EEOICPA, for the purpose of assisting in the adjudication or processing of a claim under that Act.

d. To physicians, pharmacies, and other health care providers for their use in treating the claimant, conducting an examination, preparing an evaluation on behalf of OWCP, and for other purposes relating to the medical management of the claim including evaluation of a payment for charges of medical and related services and supplies.

e. To medical insurance or health and welfare plans (or their designees) that cover the claimant in instances where OWCP had paid for treatment of a medical condition that is not compensable under the EEOICPA, or where a medical insurance plan or health and welfare plan has paid for treatment of a medical condition that may be compensable under the EEOICPA, for the purpose of resolving the appropriate source of payment in such circumstances.

f. To a Federal, State or local agency for the purpose of obtaining information relevant to a determination concerning initial or continuing eligibility for EEOICPA benefits, and for a determination concerning whether benefits have been or are being properly paid, including whether dual benefits that are prohibited under any applicable Federal or State statute are being paid. In addition, for the purpose of utilizing salary offset and debt collection procedures, including those actions required by the Debt Collection Act of 1982, to collect debts arising as a result of overpayments of EEOICPA compensation and debts otherwise related to the payment of EEOICPA benefits.

h. Where an investigation, settlement of claims, or the preparation and conduct of litigation is undertaken, a record may be disclosed to (1.) a person representing the United States or the Department in the investigation, settlement or litigation, and to individuals assisting in such representation; (2.) others involved in the investigation, settlement, and litigation, and their representatives and assistants; and (3.) a witness, potential

witness, or their representatives and assistants, and to any other person who possesses information pertaining to the matter, when such disclosure is necessary for the conduct of the investigation, settlement, or litigation, or is necessary to obtain information or testimony relevant to the matter.

L. 97–365) by voluntary repayment, or by salary or administrative offset procedures.

j. To a credit bureau for the purpose of obtaining consumer credit reports identifying the assets, liabilities, expenses, and income of a debtor in order to ascertain the debtor's ability to repay a debt incurred under EEOICPA, to collect the debt, or to establish a payment schedule.

k. The amount, status and history of overdue debts, the name and address, taxpayer identification (SSN), and other information necessary to establish the identity of a debtor, the agency and program under which the claim arose, may be disclosed pursuant to 5 U.S.C. 552a(b)(12) to consumer reporting agencies as defined by section 603(f) of the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or in accordance with section 3(d)(4)(A)(ii) of the Federal Claims Collection Act of 1966 as amended (31 U.S.C. 3711(f)) for the purpose of encouraging the repayment of an overdue debt.

Note: Disclosure of information contained in this system of records to the subject of the record, a person who is duly authorized to act on his or her behalf, or to others to whom disclosure is authorized by these routine uses, may be made over the telephone or by electronic means.
