

of Training, Certification and Watchkeeping for Seafarers, as amended 1978 (STCW Convention), including the 2010 amendments to the STCW Convention, and the Seafarers' Training, Certification and Watchkeeping Code. The rule also made changes to reorganize, clarify, and update regulations for credentialing merchant mariners.

NVIC 03–16 describes policy for merchant mariners to qualify for and renew endorsements to Merchant Mariner Credentials for service on towing vessels. Notable provisions of this NVIC include:

1. Providing guidance on grandfathering provisions contained in the rule published December 24, 2014 (78 FR 77796).
2. Revising the “Frequently Asked Questions” to include discussion of the provisions of the new rule, and to include questions that have arisen with regularity since publication of the predecessor NVIC 04–01.
3. Revising the Towing Officer Assessment Records (TOARs) to include guidance to Designated Examiners on how to perform assessment of the tasks in the TOARs and to add certain tasks necessary to fully assess the competence of candidates for endorsements. For example, the task “Maneuver through a bridge” was added to the Near Coastal/Oceans TOAR as this TOAR is for an endorsement that will be valid where bridges are common.
4. Providing additional guidance on TOARs restricted to Local Limited Areas.
5. Providing guidance on endorsements that will be restricted to routes without locks and to service upon harbor-assist vessels or Integrated Tug Barge (ITB) and Articulated Tug Barge (ATB) vessels.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 16–123; RM–11766; DA 16–711]

Television Broadcasting Services; Cordele, Georgia

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: A petition for rulemaking was filed by Sunbelt-South Tele-Communications, Ltd. (Sunbelt), the licensee of WSST–TV, channel 51, Cordele, Georgia, requesting the substitution of channel 22 for channel 51 at Cordele. Sunbelt filed comments reaffirming its interest in the proposed channel substitution and stating that if the proposal is granted, it will promptly file an application for the facilities specified in the rulemaking petition and construct the station. Sunbelt asserts that adopting the proposal would serve the public interest because it would remove any potential interference with authorized wireless operations in the Lower 700 MHz A Block adjacent to channel 51 in Cordele. In addition, Sunbelt agrees that WSST–TV will be protected in the incentive auction at its channel 51 operating parameters even after its move to channel 22, and recognizes that as a result of repacking during the incentive auction, it may be required to move from channel 22.

DATES: This rule is effective August 8, 2016.
