interested parties; and local libraries and newspapers. In response to Tennessee’s application and the NOI, the Commission received comments from affected landowners, interested individuals and organizations, elected officials, and federal, state, and local agencies. The primary issues raised by the commentors included concerns about increasing pressure in older pipelines, exposed pipelines, and corrosion; concerns about repurposing existing pipelines for transport of natural gas liquids; air quality and noise impacts; karst topography and cumulative impacts.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time spent researching proceedings by automatically providing notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

The FERC’s eLibrary system can also be used to search formal issuances and submittals from the public docket. To use, select the “eLibrary” link, select “General Search” from the eLibrary menu located at www.ferc.gov/docs-filing/elibrary.asp, enter the selected date range and “Docket Number” excluding the last three digits (i.e., CP15–88), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208–3676, TTY (202) 502–8659, or at FERCOnLineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Additional information about the Project is available from the Commission’s Office of External Affairs at (866) 208–FERC or on the FERC Web site (www.ferc.gov).

Dated: June 30, 2016.

Nathaniel J. Davis, Sr.,
Deputy Secretary.
