The EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at http://www.regulations.gov or in person at the EPA Docket Center, EPA WJC West Building, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1742. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act, the EPA is soliciting comments and information to enable it to determine whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval.

The Clean Air Act (CAA) contains several provisions directing the EPA to require source owners to conduct monitoring to support the requirement for certification as to their status of compliance with applicable requirements. These provisions are set forth in section 504 and section 114 of the CAA. Under CAA section 504(c), each operating permit must “set forth inspection, entry, monitoring, and reporting requirements to assure compliance with the permit terms and conditions.” See also CAA section 504(a) (each permit shall require reporting of monitoring and such other conditions as are necessary to assure compliance). CAA section 504(b) allows us to prescribe by rule, methods and procedures for determining compliance recognizing that continuous emissions monitoring systems need not be required if other procedures or methods provide sufficiently reliable and timely information for determining compliance. Section 114(a)(1) of the CAA provides additional authority concerning monitoring, reporting, and recordkeeping requirements. This section provides the Administrator with the authority to require any owner or operator of a source to install and to operate monitoring systems and to record the resulting monitoring data. We promulgated the Compliance Assurance Monitoring rule, 40 CFR part 64, on October 22, 1997 (62 FR 54900), pursuant to these provisions. In accordance with CAA section 114(c) and CAA section 503(e), the monitoring information source owners must submit must also be available to the public except under circumstances set forth in section 114(c) of the CAA. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA’s regulations are listed in 40 CFR part 9.

We are soliciting comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting election submission of responses.

Respondents/affected entities: Entities potentially affected by this action are all facilities required to have an operating permit under Title V of the CAA. See section 502(a) of the CAA, which defines the sources required to obtain a Title V permit. See also 40 CFR 70.2 and 71.2.

Respondent’s obligation to respond: Mandatory under Title V of the CAA. See section 502(a) of the CAA, which defines the sources required to obtain a Title V permit. See also 40 CFR 70.2 and 71.2.

Estimated number of respondents: There are 24,121 pollutant specific emission units (PSEUs), where the number of respondents is the number of PSEUs subject to the compliance assurance monitoring rule, and 116 permitting authorities. Therefore, the estimated number of respondents is 24,237 (total).

Frequency of response: At least every 6 months per Title V, 70.6(a)(3)(ii)(A) and (B).

Total estimated burden: 51,080 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $1,998,453 (per year), includes $90 annualized capital and operation and maintenance costs.

Changes in Estimates: There is an increase of 607 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to adjustments to the estimates (e.g., to account for permit issuance increases). There is an increase of 1,114 respondents in the average annual number of respondents. This increase is due to an increased number of permitting authorities (4 more) and to an estimated increase in the number of PSEUs (1,110 more).

Dated: July 1, 2016.

Kevin Culligan,
Acting Director, Sector Policies and Programs Division.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0984]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission)
invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before September 9, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0984.
Title: Section 90.35(b)(2), Industrial/Business Pool, and 90.175(b)(1), Frequency Coordinator Requirements.
Form No.: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit entities, and State, Local or Tribal Government.
Number of Respondents and Responses: 2,500 respondents; 2,500 responses.
Estimated Time per Response: 1 hour.
Frequency of Response: One time reporting requirement and Third party disclosure requirement.
Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154(i), 181, 303(g), 303(r), and 332(c)(7).

Total Annual Burden: 2,500 hours.
Annual Cost Burden: None.
Privacy Act Impact Assessment: No impact(s).
Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: Sections 90.35 and 90.175 require third party disclosures by applicants proposing to operate a land mobile radio station. If they have service contours that overlap an existing land mobile station they are required to obtain written concurrence of the frequency coordinator associated with the industry for which the existing station license was issued, or the written concurrence of the licensee of the existing station.

This information will be used by Commission personnel in evaluating the applicant’s need for such frequencies and to minimize the interference potential to other stations operating on the proposed frequencies.

Federal Communications Commission.
Gloria J. Miles, Federal Register Liaison Officer, Office of the Secretary.
