Nominations to the Science Advisory Committee on Chemicals; Request for Comments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document provides the names and affiliations of nominees currently under consideration for appointment to the Science Advisory Committee on Chemicals (SACC) established pursuant to the Frank R. Lautenberg Chemical Safety for the 21st Century Act. The purpose of the SACC is to provide independent advice and expert consultation, at the request of the EPA Administrator, with respect to the scientific and technical aspects of risk assessments, methodologies, and pollution prevention measures or approaches. The Agency, at this time, anticipates selecting approximately fourteen members to serve on the Committee. Public comments on the nominees are invited, as these comments will be used to assist the Agency in selecting the new chartered Committee members.

DATES: Comments must be received on or before January 9, 2017.

ADDRESSES: Submit your comments, identified by docket identification (ID)

¹ Available at <http://elibrary.ferc.gov/IDMWS/common/opennat.asp?fileID=14297574>.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. This action may be of interest to those involved in the manufacture, processing, distribution, disposal, and/or interested in the assessment of risks involving chemical substances and mixtures. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. What is EPA's authority?

This committee is being established under FACA, 5 U.S.C. Appendix 2, and pursuant to the Frank R. Lautenberg Chemical Safety for the 21st Century Act, which amended the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 *et seq.*

II. Background

The SACC is being established under FACA section 9(a), and pursuant to TSCA section 2625(o), as amended, to provide advice and recommendations on the scientific basis for risk assessments, methodologies, and pollution prevention measures or approaches.

EPA's Office of Pollution Prevention and Toxics (OPPT) manages programs

under TSCA (as amended), 15 U.S.C. 2601 *et seq.* and the Pollution Prevention Act (PPA), 42 U.S.C. 13101 *et seq.* Under these laws, EPA evaluates new and existing chemical substances and their risks, and finds ways to prevent or reduce pollution before it is released into the environment. OPPT also manages a variety of environmental stewardship programs that encourage companies to reduce and prevent pollution.

The SACC will be composed of approximately 14 members who will serve as Special Government Employees or Regular Government Employees (RGEs). The SACC expects to meet in person or by electronic means (*e.g.*, webinar) approximately 3 to 4 times a year, or as needed and approved by the Designated Federal Officer (DFO). Meetings will be held in the Washington, DC metropolitan area. The charter will be in effect for 2 years from the date it is filed with Congress. After the initial 2-year period, the charter will be renewed as authorized in accordance with section 14 of FACA (5 U.S.C. Appendix 2, Section 14). A copy of the charter will be available on the EPA Web site and in the docket.

III. Charter

A Charter for the SACC will be issued in accordance with the requirements of FACA.

A. Qualifications of Members

Members are scientists who have sufficient professional qualifications, including training and experience, to provide expert comments on the scientific and technical aspects of risk assessments, methodologies, and pollution prevention measures or approaches. No persons shall be ineligible to serve on the Committee by reason of their membership on any other advisory committee to a Federal department or agency or their employment by a Federal department or agency (except the EPA). The Administrator appoints individuals to serve on the Committee for staggered terms of 1 to 3 years. Panel members are subject to the provisions of 40 CFR part 3, subpart F, Standards of Conduct for Special Government Employees, which include rules regarding conflicts of interest. Each nominee selected by the Administrator, before being formally appointed, is required to submit a confidential statement of employment and financial interests, which shall fully disclose, among other financial interests, the nominee's sources of research support, if any.

B. Applicability of Existing Regulations

EPA's existing regulations applicable to Special Government Employees, which include advisory committee members, will apply to the members of the Science Advisory Committee on Chemicals. These regulations appear in 40 CFR part 3, subpart F.

C. Process of Obtaining Nominees

On August 26, 2016, EPA published a **Federal Register** inviting public nominations for the Science Advisory Committee on Chemicals (81 FR 58925) (FRL-9950-66). The nomination period ended on October 11, 2016. In response, the Agency received approximately 100 nominees. EPA considered the following criteria to select candidates from these nominations: Interest and availability to participate in committee meetings, absence of financial conflicts of interest, absence of the appearance of a loss of impartiality, scientific expertise, and backgrounds and experiences that would contribute to the diversity of scientific viewpoints on the committee, including professional experiences in government, labor, public health, public interest, animal protection, industry, or other groups.

Based on these criteria, EPA has identified 29 candidates for further consideration for membership on the SACC. Nine of these candidates are members of the existing EPA Chemical Safety Advisory Committee. The following are the names and professional affiliations of these candidates. Brief biographical sketches for these candidates are posted on the EPA Web site at <https://www.epa.gov/TSCA-Peer-Review>.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OGC-2016-0693; FRL-9956-37-OGC]

Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with section 113(g) of the Clean Air Act, as amended

(“CAA” or the “Act”), notice is hereby given of a proposed consent decree to address a lawsuit filed by Center for Biological Diversity, Center for Environmental Health, and Clean Air Council (collectively “Plaintiffs”) in the United States District Court for the Northern District of California: *Center for Biological Diversity, et al. v. McCarthy, et al.* No. 4:16-cv-04092-PJH (N.D. Cal.). On July 21, 2016, Plaintiffs filed a complaint alleging that Gina McCarthy, in her official capacity as Administrator of the United States Environmental Protection Agency (“EPA”) failed to perform certain duties mandated by the CAA in relation to implementation of the 1997 and 2008 National Ambient Air Quality Standard (“NAAQS”) for ozone, respectively. Specifically, Plaintiffs allege that EPA failed to make required findings of failure to submit, and to take final action on State Implementation Plan (“SIP”) submittals. On November 14, 2016, Plaintiffs filed a first amended complaint. The proposed consent decree would establish deadlines for EPA to take certain specified actions related to implementation of the 1997 and 2008 ozone standards, respectively.

DATES: Written comments on the proposed consent decree must be received by January 9, 2017.

ADDRESSES: Submit your comments, identified by Docket ID number EPA-HQ-OGC-2016-0693, online at www.regulations.gov. For comments submitted at www.regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from www.regulations.gov. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (“CBI”) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA generally will not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit

<http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Derek Mills, Air and Radiation Law Office (2344A), Office of General Counsel, U.S. Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone: (202) 564-3341; fax number: (202) 564-5603; email address: Mills.Derek@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Consent Decree

This proposed consent decree would resolve a lawsuit filed by Plaintiffs seeking to compel the Administrator to take actions under CAA section 110(k). Under the terms of the proposed consent decree, EPA would agree to sign a notice addressing the alleged failure to issue a finding of failure to submit for certain 2008 ozone NAAQS nonattainment and OTR SIP submissions addressing elements from the areas and states listed in the proposed consent decree no later than January 19, 2017. If any State makes a listed SIP submittal, and EPA makes a completeness determination as to that submittal, prior to January 19, 2017, then EPA’s obligation to address that submittal in the aforementioned notice is automatically terminated. EPA would also agree to take certain final actions to address certain submitted plans pursuant to sections 110(k)(2)-(4) of the CAA no later than the dates indicated in the proposed consent decree for the 1997 and 2008 ozone NAAQS, respectively. If any State withdraws a listed submittal, then EPA’s obligation to address that submittal through the aforementioned action is automatically terminated. Please see the proposed consent decree, located in the docket for this notice, for specific dates and additional details.

Under the terms of the proposed consent decree, EPA will send notice of each action to the Office of the Federal Register for review and publication within 15 days of signature. In addition, the proposed consent decree outlines the procedure for the Plaintiff to request costs of litigation, including attorney fees.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed consent decree from persons who are not named as parties to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such
