DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 520 and 529

[Docket No. FDA–2016–N–0002]

Oral Dosage Form New Animal Drugs; Approval of New Animal Drug Applications

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of 43 supplemental new animal drug applications (NADAs) and 52 supplemental abbreviated new animal drug applications (ANADAs) for revised labeling reflecting a change in marketing status from over-the-counter (OTC) to prescription (Rx) for antimicrobial drugs of importance to human medicine administered to food-producing animals in medicated drinking water. These applications were submitted in voluntary compliance with the goals of the FDA Center for Veterinary Medicine’s (CVM’s) Judicious Use Initiative.

DATES: This rule is effective December 31, 2016.

FOR FURTHER INFORMATION CONTACT: George K. Haibel, Center for Veterinary Medicine (HFV–6), Food and Drug Administration, 7519 Standish Pl., Rockville, MD 20855, 240–402–5689, george.haibel@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: FDA is amending the animal drug regulations to reflect approval of 43 supplemental NADAs and 52 supplemental ANADAs for revised labeling reflecting a change in marketing status from OTC to Rx for antimicrobial drugs of importance to human medicine administered to food-producing animals in medicated drinking water. These applications were identified as being affected by guidance for industry (GFI) #213, “New Animal Drugs and New Animal Drug Combination Products Administered in or on Medicated Feed or Drinking Water of Food-Producing Animals: Recommendations for Drug Sponsors for Voluntarily Aligning Product Use Conditions with GFI #209,” December 2013 (http://www.fda.gov/downloads/AnimalVeterinary/GuidanceComplianceEnforcement/GuidanceforIndustry/UCM299624.pdf). Their change to Rx marketing status is consistent with the FDA CVM’s initiative for the Judicious Use of Antimicrobials. The affected applications follow:

The animal drug regulations are also being amended to reflect several non-substantive changes in format. These technical amendments are being made to improve the consistency and readability of the regulations.

Elsewhere in this issue of the Federal Register, FDA is amending the animal drug regulations to reflect approval of similar supplemental NADAs and ANADAs changing the marketing status of antimicrobial drugs administered to food-producing animals in medicated feed.

This rule does not meet the definition of “rule” in 5 U.S.C. 804(3)(A) because it is a rule of “particular applicability.” Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801–808.
PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS

1. The authority citation for part 520 continues to read as follows:

§ 520.110 [Amended]

2. In § 520.110, in paragraph (d)(3), remove “Prepare fresh medicated water daily.” and as the last sentence add “Federal law restricts this drug to use by or on the order of a licensed veterinarian.”

§ 520.441 [Amended]

§ 520.445 [Amended]

4. In § 520.445, in paragraph (d)(3), as the last sentence add “Federal law restricts this drug to use by or on the order of a licensed veterinarian.”

§ 520.444 [Amended]

§ 520.423 Erythromycin.

* * * * * *

(d) * * *

(i) Amount. Administer 0.500 gram per gallon for 5 days.
* * * * * *

(iii) Limitations. Do not use in replacement pullets over 16 weeks of age. Do not use in chickens producing eggs for human consumption. Withdraw 1 day before slaughter. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

§ 520.1265 Lincomycin and spectinomycin powder.

* * * * *

(d) * * *

(3) Limitations. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

10. In § 520.1484, revise paragraphs (e)(1)(iii) and (e)(2)(iii) to read as follows:

§ 520.1484 Neomycin.

* * * * *

(e) * * *

(1) * * *

(iii) Limitations. Discontinue treatment prior to slaughter as follows: Cattle, 1 day; sheep, 2 days; swine and goats, 3 days. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

§ 520.1660d Oxytetracycline powder.

* * * * *

(d) * * *

(3) Limitations. Do not use in birds producing eggs for human consumption. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

11. In § 520.1660a, revise the section heading and paragraphs (e)(1) and (e)(3) to read as follows:

§ 520.1660a Oxytetracycline and carbamycin.

* * * * *

(e) * * *

(1) Amount. Administer 1.0 gram of oxytetracycline and 1.0 gram carbamycin per gallon for not more than 5 days.

* * * * *

(3) Limitations. Not for use in chickens producing eggs for human consumption. Withdraw 24 hours before slaughter. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

§ 520.1263c [Amended]

8. In § 520.1263c, in paragraph (b)(1), remove “No. 016592” and in its place add “Nos. 016592 and 054771”; in paragraph (d)(1)(iii), remove “051259” and in its place add “054925”, and as the last sentence add “Federal law restricts this drug to use by or on the order of a licensed veterinarian.”; and in paragraphs (d)(2)(iii) and (d)(3)(iii), add “Federal law restricts this drug to use by or on the order of a licensed veterinarian.”

9. In § 520.1265, add paragraph (d)(3) to read as follows:

§ 520.1044c Gentamicin sulfate oral solution.

* * * * *

(d) * * *

(3) Limitations. Withdrawal period: 10 days. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

§ 520.1044a Gentamicin sulfate oral powder.

* * * * *

(d) * * *

(3) Limitations. Not for use in chickens producing eggs for human consumption. Withdraw 1 day before slaughter.

§ 520.1263b Oxytetracycline.

* * * * *

(d) * * *

(3) Limitations. Do not use in turkeys for food for at least 3 days following treatment. Federal law restricts this drug to use by or on the order of a licensed veterinarian.
those products sponsored by Nos. 054628. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(B) * * *

1. Amount. Administer 400 milligrams/gallon for 7 to 14 days. Not to be used for more than 14 consecutive days.

(C) * * *

1. Do not use in birds producing eggs for human consumption. Withdraw 5 days prior to slaughter those products sponsored by Nos. 054771 and 061623 in § 510.600(c) of this chapter. Withdraw 4 days prior to slaughter those products sponsored by No. 054628. Zero-day withdrawal for those products sponsored by Nos. 057561 and 069254. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(C) * * *

1. Amount. Administer 25 milligrams per pound of body weight daily for up to 14 days. Not to be used for more than 14 consecutive days.

(C) * * *

2. Do not use in birds producing eggs for human consumption. Withdraw 5 days prior to slaughter those products sponsored by Nos. 054771 and 061623 in § 510.600(c) of this chapter. Withdraw 4 days prior to slaughter those products sponsored by No. 054628. Zero-day withdrawal for those products sponsored by Nos. 057561 and 069254. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(C) * * *

2. Amount. Administer 100 milligrams per colony, administered via either a 1:1 sugar syrup (equal parts of sugar and water weight to weight) or dusting with a powdered sugar mixture. The drug is administered in 3 applications of sugar syrup or 3 dustings at 4- to 5-day intervals.

(C) * * *

3. The drug should be fed early in the spring or fall and consumed by the bees before main honey flow begins to avoid contamination of production honey. Remove at least 6 weeks prior to main honey flow. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

13. In § 520.1696b, redesignate paragraph (c) as paragraph (d) and add new paragraph (c), and revise redesignated paragraph (d)(3) to read as follows:

§ 520.1696b Penicillin G powder.

(c) Related tolerances. See § 556.510 of this chapter.

(d) * * *

(3) Limitations. Discontinue treatment at least 1 day prior to slaughter. Not for use in turkeys producing eggs for human consumption. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

§ 520.2123b [Amended]

14. In § 520.2123b, remove paragraph (d)(1)(ii); redesignate paragraphs (d)(1)(ii) and (iii) as paragraphs (d)(1)(ii) and (iii); and in paragraph (d)(2), as the last sentence add “Federal law restricts this drug to use by or on the order of a licensed veterinarian.”

§ 520.2184 [Amended]

15. In § 520.2184, in paragraph (d)(3), remove the first sentence, and as the last sentence add “Federal law restricts this drug to use by or on the order of a licensed veterinarian.”

§ 520.2200 [Amended]

16. In § 520.2200, in paragraphs (d)(1)(iii) and (d)(2)(iii), as the last sentence add “Federal law restricts this drug to use by or on the order of a licensed veterinarian.”
PART 529—CERTAIN OTHER DOSAGE FORM NEW ANIMAL DRUGS

23. The authority citation for part 529 continues to read as follows:

§ 529.1660 Oxycetracycline.

(a) * * *

(d) * * *

(3) Limitations. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Dated: December 20, 2016.

Tracey H. Forfa,
Deputy Director, Center for Veterinary Medicine.

21 CFR Parts 556 and 558

[Docket No. FDA–2016–N–0002]

New Animal Drugs for Use in Animal Feed; Approval of New Animal Drug Applications; Withdrawal of Approval of New Animal Drug Applications

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of 71 supplemental new animal drug applications (NADAs) and 35 supplemental abbreviated new animal drug applications (ANADAs) for revised labeling reflecting a change in marketing status from over-the-counter (OTC) use to use by veterinary feed directive (VFD) for antimicrobial drugs of importance to human medicine administered to food-producing animals in medicated feed. Where applicable, FDA is also withdrawing approval of those parts of the NADAs that pertain to use of these antimicrobial drugs for growth promotion indications. These actions are being taken at the sponsors’ requests because these particular medicated feeds will no longer be manufactured or marketed. These applications were submitted in voluntary compliance with the goals of FDA Center for Veterinary Medicine’s (CVM’s) Judicious Use Initiative. In addition, the animal drug regulations are also being amended to reflect several non-substantive changes in format. These technical amendments are being made to improve the consistency and readability of the regulations.

DATES: This rule is effective December 30, 2016.

FOR FURTHER INFORMATION CONTACT: George K. Haibel, Center for Veterinary Medicine (HFV–6), Food and Drug Administration, 7519 Standish Pl., Rockville, MD 20855, 240–402–5689, george.haibel@fda.hhs.gov.

SUPPLEMENTARY INFORMATION:

I. Supplemental Approval of Revised Labeling and Withdrawal of Approval of Portions of NADAs Pertaining to Production Indications

FDA is amending the animal drug regulations to reflect approval of 71 supplemental NADAs and 35 supplemental ANADAs for revised labeling reflecting a change in marketing status from OTC use to use by VFD for antimicrobial drugs of importance to human medicine administered to food-producing animals in medicated feed. Where applicable, FDA is also withdrawing approval of those parts of the NADAs that pertain to use of these antimicrobial drugs for growth promotion indications. These actions are being taken at the sponsors’ requests because these particular medicated feeds will no longer be manufactured or marketed.

These applications were identified as being affected by guidance for industry (GFI) #213, “New Animal Drugs and New Animal Drug Combination Products Administered in or on Medicated Feed or Drinking Water of Food-Producing Animals: Recommendations for Drug Sponsors for Voluntarily Aligning Product Use Conditions with GFI #209”, December 2013 (http://www.fda.gov/downloads/AnimalVeterinary/GuidanceComplianceEnforcement/GuidanceforIndustry/UCM299624.pdf). Their change to VFD marketing status is consistent with FDA CVM’s initiative for the Judicious Use of Antimicrobials.

The animal drug regulations for medicated feeds are also being amended to reflect several non-substantive changes in format. These technical amendments are being made to improve the consistency and readability of the regulations.
