

clarity of the Guidelines. NMFS also requests residents of Utqiagvik (Barrow) to advise on the preferred name of their town to be used in this planning/communication document. We understand the official name is now Utqiagvik, but many responders may be more familiar with the name Barrow in the near future.

Dated: January 5, 2017.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XF122

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Post-Data Workshop Webinar for Atlantic Blueline Tilefish; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 50 Post-Data Workshop Webinar.

SUMMARY: The SEDAR 50 assessment of the Atlantic stock of *blueline tilefish* will consist of a series of workshops and webinars: Stock ID Work Group Meeting; Data Workshop; Assessment Workshop and Webinars; and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 50 Post-Data Workshop Webinar will be held on Thursday, February 2, 2017, from 1 p.m. to 5 p.m.

ADDRESSES: *Meeting address:* The meetings will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julia Byrd at SEDAR (see **FOR FURTHER INFORMATION CONTACT** below) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.
www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Julia Byrd, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North

Charleston, SC 29405; phone (843) 571-4366; email: julia.byrd@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the Pre-Data Workshop webinar are as follows:

Participants will finalize data recommendations from the Data Workshop and provide early modeling advice.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management

Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 10 business days prior to the meeting.

The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 6, 2017.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

Proposed Information Collection; Comment Request; NTIA/FCC Web-Based Frequency Coordination System

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice; information collection.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on this proposed information collection, pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before March 13, 2017.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6612, 1401 Constitution Avenue NW., Washington, DC 20230 (or via email at JJessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Bruce M. Washington at bwashington@ntia.doc.gov, (202) 482-6415.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Telecommunications and Information Administration (NTIA) hosts a web-based system that collects specific identification information (*e.g.*, entity name, location and projected

range of the operation) from applicants seeking authorization by the Federal Communications Commission (FCC) to operate in radio frequency (RF) bands that are shared on a co-primary basis by federal and non-federal spectrum users. The web-based system provides a means for non-federal applicants to rapidly determine the availability of RF spectrum in a specific location, or the need for detailed frequency coordination of a specific newly proposed assignment within the shared portions of the radio spectrum. It allows proposed radio site information from non-federal applicants to be analyzed, and a real-time determination made as to whether a potential for RF interference to, or from, existing Federal government radio operations exists in the vicinity of the proposed site. This web-based coordination helps expedite the coordination process for non-federal applicants while assuring protection of government data relating to national security. The information provided by non-federal applicants also will assist in the protection of the applicant's station from interference from future government operations.

II. Method of Collection

NTIA collects the data by means of an Internet-based system. The system provides real-time responses for an applicant to obtain either: (1) A validation of the coordination of a single frequency, or (2) a notification of the unavailability of a frequency at one site which will require further coordination by the FCC and NTIA.

III. Data

OMB Control No: 0660-0018.

Form No.: N/A.

Type of Review: Regular submission (extension of currently approved information collection).

Affected Public: Applicants seeking to operate in the 71-76 GHz, 81-86 GHz, and 92-95 GHz radio frequency bands.

Estimated Total Number of Annual Respondents: 4,000.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 1,000.

Estimated Total Annual Cost to Public: \$0.00.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have a practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the

proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sheleen Dumas,

PRA Department Lead, Office of the Chief Information Officer.

BILLING CODE 5001-03-P

DEPARTMENT OF DEFENSE

Department of the Navy

Record of Decision (ROD) for the United States Marine Corps Santa Margarita River Conjunctive Use Project (SMR CUP) at Marine Corps Base (MCB) Camp Pendleton, California

AGENCIES: Bureau of Reclamation (Reclamation), Department of the Navy (DoN).

ACTION: Record of Decision.

SUMMARY: The Department of the Navy (DoN), after carefully considering the environmental consequences of the proposed action, announces its decision to implement a project for the conjunctive use of surface water and groundwater within the Lower Santa Margarita River (SMR) Basin. The DoN has selected the preferred alternative as identified in the 2016 Final Environmental Impact Statement (EIS)/ Environmental Impact Report (EIR). This alternative consists of construction and operation of new facilities for adaptive management of surface water and groundwater resources that would be achieved through the enhanced diversion of SMR surface waters to groundwater recharge ponds and the active use of groundwater aquifers for water storage. The proposed action would resolve the water rights disputes between the United States (on behalf of the Marine Corps) and Fallbrook Public Utility District (FPUD) and satisfy the United States District Court for the Southern District of California order to find a "physical solution" to the ongoing litigation in *United States v. Fallbrook Public Utility District, et al.* The Proposed Action would also efficiently meet the long-term water demands of Marine Corps Installations (MCI) West-MCB Camp Pendleton and FPUD, reduce FPUD's dependence on imported water, maintain watershed resources, and improve water supply reliability by managing the yield of the Lower SMR Basin. The DoN and Reclamation are the designated co-lead agencies for review of this project under the National Environmental Policy Act (NEPA), and FPUD is the designated lead agency for review of this project under the California Environmental Quality Act (CEQA) in the preparation of the joint EIS/EIR.

This ROD documents why the DoN has chosen to implement the preferred alternative as described in the 2016 Final EIS/EIR. The ROD includes descriptions and discussions of the anticipated environmental impacts of the proposed action as well as all practical means to avoid or minimize environmental impacts from the selected alternative. It also includes descriptions and discussions of all related actions and their anticipated impacts.

FOR FURTHER INFORMATION CONTACT: SMR CUP EIS Project Manager, Commanding General, Marine Corps Installations West-Marine Corps Base Camp Pendleton, CA 92055-5010, Attn: Environmental Security, 760-725-1721.

SUPPLEMENTARY INFORMATION: Pursuant to Section 102(2)(c) of the NEPA of
