groundwater pumping would not impact the mapped plumes associated with Installation Restoration Program sites and would be monitored and managed through the AMP/FOP.

Utilities

Significant impacts to existing utilities would not occur due to project design, implementation of SCMs, and implementation of the AMP/FOP. Cumulative Impacts: Implementation of the Preferred Alternative, when considered in combination with other past, present, and reasonably foreseeable future actions identified in the Final EIS/EIR, will not result in significant cumulative impacts on the human environment. Many potential impacts are localized and are of relatively short duration. With the implementation of BMPs, SCMs, and mitigation measures described in the Final EIS/EIR, cumulative impacts on geological resources, water resources, biological resources, cultural resources, air quality, hazardous materials and wastes, and utilities resulting from implementation of the Preferred Alternative would be negligible.

Mitigation Measures: Projects comprising the Preferred Alternative will be designed to minimize impacts to the maximum extent practicable and will be implemented using SCMs, BMPs, and the AMP/FOP, as discussed under Agency Coordination and Consultation below. Special conservation and construction measures listed in the Final EIS/EIR will be implemented as part of the action as conditions of construction contracts for the projects. The DoN has identified specific avoidance, minimization, and mitigation measures for impacts to biological resources.

Unavoidable impacts to jurisdictional wetlands and other waters of the United States may require mitigation. The development of a mitigation and monitoring plan is a requirement of Clean Water Act Sections 401 and 404 permit applications for activities that would discharge dredge or fill materials into Waters of the United States. This plan will include details regarding site appropriateness, preparation (e.g., grading), contouring, planting specifications (including seed mixes and plant palettes), and irrigation design (if determined necessary), as well as maintenance and monitoring procedures (including monitoring period and reporting).

Agency Coordination and Consultation: No cooperating agencies participated in the EIS/EIR process; however, MCI West-MCB Camp Pendleton completed consultation with the USFWS and NMFS under Section 7 of the Endangered Species Act and with Native American tribes and the California State Historic Preservation Office (SHPO) under Section 106 of the National Historic Preservation Act. In accordance with Section 401 and 404 of the Clean Water Act, coordination is also underway with the San Diego Regional Water Quality Control Board (RWQCB) and U.S. Army Corps of Engineers (USACE).

USFWS: Endangered Species Act Section 7 Consultation

MCI West-MCB Camp Pendleton submitted a Biological Assessment to the USFWS on September 15, 2015, and received a Final BO on August 15, 2016, concluding that the proposed action is not likely to jeopardize the continued existence of Federal threatened and endangered species and state special status species within the project area, including least Bell’s vireo, southwestern willow flycatcher, and arroyo toad.

NMFS: Endangered Species Act Section 7 Consultation

MCI West-MCB Camp Pendleton submitted a Biological Assessment to NMFS on February 10, 2014, and received a Final BO on September 28, 2016, concluding that the proposed action is not likely to jeopardize the continued existence of the southern California steelhead.

SHPO/Native American Tribes: National Historic Preservation Act, Section 106 Consultation

MCI West-MCB Camp Pendleton submitted a consultation letter to the SHPO on March 19, 2012, requesting concurrence on the Finding of Effect for the proposed action, and received concurrence on September 19, 2013. MCI West-MCB Camp Pendleton consulted with the following Native American Tribes: La Jolla Band of Mission Indians; Pala Band of Mission Indians; Pechanga Band of Luiseño Mission Indians; Rincon Band of Luiseño Indians; Pala Band of Mission Indians, Soboba Band of Luiseño Indians; San Luis Rey Band of Luiseño Indians; Juaneño Band of Mission Indians-Acjachemen Nation (Belarde); Juaneño Band of Mission Indians-Acjachemen Nation (Rivera/Romero); and Juaneño Band of Mission Indians-Acjachemen Nation (Reyes). The Rincon Band of Luiseno Indians requested to be kept informed on all updates for the project. The Pala Band of Mission Indians concurred with the USACE and San Diego RWQCB: Clean Water Act Sections 401 and 404

MCI West-MCB Camp Pendleton has submitted a Section 401 water quality certification application to the San Diego RWQCB and a 404 individual permit application to the USACE for the Preferred Alternative. To the maximum extent practicable, MCI West-MCB Camp Pendleton will avoid and minimize impacts to waters of the United States and will implement pre-and post-construction BMPs for sediment and erosion control. The proposed action will also comply with the MCI West-MCB Camp Pendleton Integrated Natural Resources Management Plan.

Conclusion: After careful consideration of the purpose and need for the proposed action, the analysis contained in the Final EIS/EIR, and comments received on the Draft and Final EIS/EIR from Federal, State, and local agencies, Native American Tribes, non-governmental organizations, and individual members of the public, I have decided to proceed with Alternative 1, the Final EIS/EIR Preferred Alternative, which entails improvements to existing facilities and construction of new facilities to efficiently meet the long-term water demands of MCB Camp Pendleton and FPUD, reduce FPUD’s dependence on imported water, maintain watershed resources, and improve water supply reliability by managing the yield of the Lower SMR Basin.

A.M. Nichols,
Lieutenant Commander, Judge Advocate General’s Corps, U.S. Navy, Federal Register Liaison Officer.

DEPARTMENT OF DEFENSE

Department of the Navy

Meeting of the U.S. Naval Academy Board of Visitors

AGENCY: Department of the Navy, DoD.
ACTION: Notice of Partially Closed Meeting.

SUMMARY: The U.S. Naval Academy Board of Visitors will meet to make such inquiry, as the Board shall deem necessary, into the state of morale and discipline, the curriculum, instruction, physical equipment, fiscal affairs, and
academic methods of the Naval Academy. The executive session of this meeting from 11:00 a.m. to 12:00 p.m. on March 27, 2017, will include discussions of new and pending administrative/minor disciplinary infractions and non-judicial punishment proceedings involving midshipmen attending the Naval Academy to include but not limited to individual honor/conduct violations within the Brigade; the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. For this reason, the executive session of this meeting will be closed to the public.

DATES: The open session of the meeting will be held on March 27, 2017, from 9:00 a.m. to 11:00 a.m. The executive session held from 11:00 a.m. to 12:00 p.m. will be the closed portion of the meeting.

ADDRESSES: The meeting will be held at the U.S. Naval Academy, Annapolis, MD. The meeting will be handicap accessible.

FOR FURTHER INFORMATION CONTACT: Lieutenant Commander Eric Madonia, USN, Executive Secretary to the Board of Visitors, Office of the Superintendent, U.S. Naval Academy, Annapolis, MD 21402–5000, 410–293–1503.

SUPPLEMENTARY INFORMATION: This notice of meeting is provided per the Federal Advisory Committee Act, as amended (5 U.S.C. App.). The executive session of the meeting from 11:00 a.m. to 12:00 p.m. on March 27, 2017, will consist of discussions of new and pending administrative/minor disciplinary infractions and non-judicial punishments involving midshipmen attending the Naval Academy to include but not limited to, individual honor/conduct violations within the Brigade. The discussion of such information cannot be adequately segregated from other topics, which precludes opening the executive session of this meeting to the public. Accordingly, the Department of the Navy/Assistant for Administration has determined in writing that the meeting shall be partially closed to the public because the discussions during the executive session from 11:00 a.m. to 12:00 p.m. will be concerned with matters protected under sections 552b(c) (5), (6), and (7) of title 5, United States Code. (Authority: 5 U.S.C. 552b)

A.M. Nichols,
Lieutenant Commander, Judge Advocate General’s Corps, U.S. Navy, Federal Register Liaison Officer.

DEPARTMENT OF ENERGY
National Energy Technology Laboratory

Notice of Intent To Grant an Exclusive License

AGENCY: National Energy Technology Laboratory, Department of Energy.

ACTION: Notice of intent to grant an exclusive license.

SUMMARY: This notice is issued in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i). The National Energy Technology Laboratory (NETL) hereby gives notice that the Department of Energy (DOE) intends to grant an exclusive license to practice the invention described and claimed in U.S. Patent Application Number 14/619,501, “Variable Grid Method for Simultaneously Visualizing Uncertainty and Attribute Trends Associated with Spatial Data” to VariGrid Explorations, LLC, a small business, having its principal place of business in Missouri City, Texas. The patent application is owned by the United States of America, as represented by DOE. The prospective exclusive license complies with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

DATES: Written comments, objections, or nonexclusive license applications must be received at the address listed below no later than fifteen (15) days after the date of this published Notice. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

ADDRESSES: Comments, applications for nonexclusive licenses, or objections relating to the prospective exclusive license should be submitted to Jessica Sosenko, Technology Transfer Program Manager, U.S. Department of Energy, National Energy Technology Laboratory, P.O. Box 10940, Pittsburgh, PA 15236–0940 or via facsimile to (412) 386–4183. Written comments, objections, or nonexclusive license applications must be received at the address listed below no later than fifteen (15) days after the date of this published Notice. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

FOR FURTHER INFORMATION CONTACT: Jessica Sosenko, Technology Transfer Program Manager, U.S. Department of Energy, National Energy Technology Laboratory, P.O. Box 10940, Pittsburgh, PA 15236; Telephone (412) 386–7417; Email: jessica.sosenko@netl.doe.gov.

SUPPLEMENTARY INFORMATION: Section 209(c) of title 35 of the United States Code gives DOE the authority to grant exclusive or partially exclusive licenses in Department-owned inventions where a determination is made that, among other things, the desired practical application of the invention has not been achieved, or is not likely to be achieved expeditiously, under a nonexclusive license. The statute and implementing regulations (37 CFR 404) require that the necessary determinations be made after public notice and opportunity for filing written comments and objections.

VariGrid Explorations, Inc., a small business, has applied for an exclusive license to practice the invention and has a plan for commercialization of the invention. DOE intends to grant the license, upon a final determination in accordance with 35 U.S.C. 209(c), unless within 15 days of publication of this notice, NETL’s Technology Transfer Manager (contact information listed above), receives in writing any of the following, together with supporting documents:

(i) A statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed license; or

(ii) An application for a nonexclusive license to the invention, in which the applicant states that it already has brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The proposed license would be exclusive, subject to a license and other rights retained by the United States, and subject to a negotiated royalty. DOE will review all timely written responses to this notice, and will grant the license if, after expiration of the 15-day notice period, and after consideration of any written responses to this notice, a determination is made in accordance with 35 U.S.C. 209(c) that the license is in the public interest.

Issued: December 15, 2016

Grace M. Bochenek,
Director, National Energy Technology Laboratory.
