NATIONAL SCIENCE FOUNDATION

Business and Operations Advisory Committee; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation (NSF) announces the following meeting:

Name: Business and Operations Advisory Committee (9556).

Date/Time: March 13, 2017; 1:00 p.m. to 4:00 p.m. (EST).

Place: National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230; Stafford I, Room 1235.

Type of Meeting: OPEN.

Contact Person: Joan Miller, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230; (703) 292–8200.

Purpose of Meeting: To receive, consider, discuss and appropriately treat the recommendations of its Subcommittee on the Implementation of the National Academy of Public Administration (NAPA) Recommendations.

Agenda

March 13, 2017; 1:00 p.m.—4:00 p.m.

Discussion of the Subcommittee Report; Meeting Wrap-Up.

Crystal Robinson,
Committee Management Officer.

BILLING CODE 7555–01–P

NATIONAL WOMEN'S BUSINESS COUNCIL

Quarterly Public Meeting

ACTION: Notice of open public meeting.

DATES: The National Women’s Business Council’s March Public Meeting will be held on Wednesday, March 8, 2017, from 2:00 p.m. to 4:00 p.m. EST.

ADDRESSES: The meeting will be held virtually via teleconference and webinar.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C., Appendix 2), the U.S. Small Business Administration (SBA) announces a meeting of the National Women’s Business Council. The National Women’s Business Council conducts research on issues of importance and impact to women entrepreneurs and makes policy recommendations to the SBA, Congress, and the White House on how to improve the business climate for women.

This meeting is the 2nd quarter public meeting for Fiscal Year 2017. The program, titled “A Celebration of Women Business Owners: History, Participation and Progress,” will include updates on the Council’s research and engagement efforts, a keynote on the history of women in business, and an overview of the six national organizations represented on the Council. Time will be reserved at the end of the webinar for participants to address Council Members with questions, comments, or feedback.

FOR FURTHER INFORMATION CONTACT: The meeting is open to the public; advance notice of attendance is requested. To RSVP and confirm attendance, the general public should email info@nwbc.gov with subject line: “RSVP for 03/08/17 Public Meeting.” Further teleconference and webinar details will be provided upon RSVP. For additional questions, please email info@nwbc.gov or call the main office number at 202–205–3850.

For more information, please visit the National Women’s Business Council Web site at www.nwbc.gov.

Matthew Parker,
SBA Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

Southern Nuclear Company, Inc.; Vogtle Electric Generating Plant, Units 1, 2, 3 and 4

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is making a finding of no significant impact for a proposed issuance of amendments to Renewed Facility Operating License NPF–68; Renewed Facility Operating License NPF–81; Facility Combined License NPF–91; and Facility Combined License NPF–92, held by Southern Nuclear Company, Inc. (SNC, the licensee) for the operation of Vogtle Electric Generating Plant (VEGP), Units 1, 2, 3, and 4, respectively, located in Burke County, Georgia. The proposed amendments would allow for the adoption of a common (fleet-wide) SNC Standard Emergency Plan (SEP), with site-specific annexes.

DATES: February 17, 2017.

ADDRESSES: Please refer to Docket ID NRC–2017–0046 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

• Federal Rulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2017–0046. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publically-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email at pdr.resource@nrc.gov. For the convenience of the reader, the ADAMS accession numbers are provided in a table in the “Availability of Documents” section of this document.

• NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of amendments pursuant to § 50.54 of title 10 of the Code of Federal Regulations (10 CFR), “Conditions of licenses,”
paragraph (q), to Renewed Facility Operating License Nos. NPF–68 and NPF–81; and Facility Combined License NPF–91 and NPF–92, held by Southern Nuclear Company, Inc. (SNC, the licensee) for the operation of Vogtle Electric Generating Plant (VEGP), Unit 1, 2, 3, and 4, respectively, located in Georgia, Burke County.

In accordance with 10 CFR 51.21, the NRC has prepared an environmental assessment (EA) that analyzes the environmental effects of the proposed licensing action. Based on the results of the EA, and in accordance with 10 CFR 51.31(a), the NRC has prepared a finding of no significant impact (FONSI) for the proposed amendments.

II. Environmental Assessment

Description of the Proposed Action

The proposed action would revise the VEGP, Unit 1 and Unit 2, Renewed Facility Operating Licenses, and the Facility Combined Licenses for Units 3 and 4 in order to allow the adoption of a fleet-wide SNC SEP that includes site-specific annexes. If approved, the SEP would establish an updated licensing basis for the SNC fleet of nuclear power plants (Farley, Units 1 and 2; Edwin I Hatch, Units 1 and 2; and VEGP, Units 1, 2, 3, and 4) that complies with current NRC regulations at 10 CFR 50.47, 10 CFR part 50, appendix E, and NUREG–0654/FEMA–REP–1, Revision 1.

Notable proposed changes are (a) adoption of a standard staff augmentation time period of 75 minutes from time of declaration of an Alert or higher Emergency Classification, (b) changes in staffing numbers, (c) changes in staffing duties, and (d) consolidation of the Joint Information Center.

The proposed action is in accordance with the licensee’s application dated August 31, 2015, as supplemented by letters dated February 17, 2016; April 8, 2016; May 13, 2016; May 26, 2016; June 9, 2016; and November 2, 2016, respectively.

Need for the Proposed Action

Nuclear power plant owners, government agencies, and State and local officials work together to create a system for emergency preparedness and response that will serve the public in the unlikely event of an emergency. An effective emergency preparedness program decreases the likelihood of an initiating event at a nuclear power reactor proceeding to a severe accident. Emergency preparedness cannot affect the probability of the initiating event, but a high level of emergency preparedness increases the probability of accident mitigation if the initiating event proceeds beyond the need for initial operator actions.

Each licensee is required to establish emergency plans to be implemented in the event of an accident. These emergency plans cover preparations for evacuation, sheltering, and other actions to protect residents near plants in the event of a serious incident.

The NRC, as well as other federal and state regulatory agencies review the subject plans to ensure that the condition of emergency preparedness provides reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency.

Separate from this EA, the NRC staff is evaluating SNC’s proposed changes to the SEP for VEGP. This review will be documented in the safety evaluation report for the proposed license amendment. The staff’s review will determine whether there is reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency. The NRC has concluded that the proposed action would not significantly affect plant safety and would not have a significant adverse effect on the probability of an accident occurring. There would be no change to radioactive effluents that affect radiation exposures to plant workers and members of the public. No changes would be made to plant buildings or the site property. Therefore, the proposed action would not result in a change to the radiation exposures to the public or radiation exposure to plant workers.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the NRC considered denial of the proposed action (i.e., the “no-action” alternative). Denial of the license amendment request would result in no change in current environmental impacts.

Alternative Use of Resources

There are no unresolved conflicts concerning alternative uses of available resources under the proposed action.

Agencies and Persons Consulted

On January 11, 2017, the staff consulted with the Georgia State official, Mr. B. Simonont, Georgia Environmental Protection Division, regarding the environmental impact of the proposed action. The state official had no comments.

III. Finding of No Significant Impact

The licensee has requested license amendments pursuant to 10 CFR 50.54(q) to adopt a fleet-wide SEP, with a specific annex, for VEGP. The NRC is considering issuing the requested amendments. The proposed action would not significantly affect plant safety, would not have a significant adverse effect on the probability of an accident occurring, and would not have any significant radiological and non-
radiological impacts. The reason the environment would not be significantly affected is because the proposed changes would only result in minor changes in staffing levels and associated vehicular traffic, along with a small increase in air pollutant emissions. This FONSI incorporates by reference the EA in Section II of this notice. Therefore, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

The related environmental documents are the “Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Regarding Vogtle Electric Generating Plant, Units 1 and 2, Final Report.” NUREG–1437, Supplement 34; and the “Final Supplemental Environmental Impact Statement for Combined Licenses (COLs) for Vogtle Electric Generating Plant Units 3 and 4,” NUREG–1947. NUREG–1437, Supplement 34 provides the latest environmental review of current operations at VEGP, Units 1 and 2 and description of environmental conditions. NUREG–1947 provides the environmental review of initial licensing of VEGP, Units 3 and 4. The finding and other related environmental documents may be examined, and/or copied for a fee, at the NRC’s Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland

20852. Publicly-available records will be accessible electronically from ADAMS Public Electronic Reading Room on the Internet at the NRC’s Web site: http://www.nrc.gov/reading-rm/adams.html.

Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC’s PDR Reference staff by telephone at 1–800–397–4209 or 301–415–4737, or send an email to pdr.resource@nrc.gov.

### IV. Availability of Documents

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.

[Docket Nos. 50–321, 50–366; NRC–2017–0045]

**Southern Nuclear Company, Inc.; Edwin I. Hatch Nuclear Plant, Units 1 and 2**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Environmental assessment and finding of no significant impact; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is making a finding of no significant impact for a proposed issuance of an amendment to Renewed Facility Operating License Nos. DPR–57 and NPF–5, held by Southern Nuclear Company, Inc. (SNC, the licensee) for the operation of Edwin I. Hatch Nuclear Plant (Hatch), Unit 1 and Unit 2, respectively, located in Appling County, Georgia. The proposed amendments would allow for the adoption of a common (fleet-wide) SNC Standard Emergency Plan (SEP), with site-specific annexes.

**DATES:** February 17, 2017.

**ADDRESSES:** Please refer to Docket ID NRC–2017–0045 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- Federal Rulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2017–0045. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.
- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html.
