Background
Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The CCFICS is responsible for:
(a) Developing principles and guidelines for food import and export inspection and certification systems, with a view to harmonizing methods and procedures that protect the health of consumers, ensure fair trading practices, and facilitate international trade in foodstuffs;
(b) Developing principles and guidelines for the application of measures by the competent authorities of exporting and importing countries to provide assurance, where necessary, that foodstuffs comply with requirements, especially statutory health requirements;
(c) Developing guidelines for the utilization, as and when appropriate, of quality assurance systems to ensure that foodstuffs conform with requirements and to promote the recognition of these systems in facilitating trade in food products under bilateral/multilateral arrangements by countries;
(d) Developing guidelines and criteria with respect to format, declarations and language of such official certificates as countries may require with a view towards international harmonization;
(e) Making recommendations for information exchange in relation to food import/export control;
(f) Consulting as necessary with other international groups working on matters related to food inspection and certification systems; and
(g) Considering other matters assigned to it by the Commission in relation to food inspection and certification systems.

The CCFICS is hosted by Australia. The U.S. attends CCFICS as a member country to the Codex.

Issues To Be Discussed at the Public Meeting
The following items on the Agenda for the 23rd Session of the CCFICS will be discussed during the public meeting:
• Discussion paper on system comparability/equivalence;
• Discussion paper on the use of electronic certificates by competent authorities and migration to paperless certification;
• Discussion paper on third party certification (with broad parameters);
• Discussion paper on consideration of emerging issues and future directions for the work of CCFICS;
• Discussion paper on food integrity/food authenticity as emerging issues; and
• Other business and future work.

Each issue listed will be fully described in documents distributed, or to be distributed by the Secretariat before to the Committee Meeting. Members of the public may access or request copies of these documents (see ADDRESSES).

Public Meeting
At the April 6, 2017, public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be submitted at the meeting or sent to Mary Stanley, U.S. Delegate for the 23rd Session of the CCFICS (see ADDRESSES). Written comments should state that they relate to activities of the 23rd Session of the CCFICS.

Additional Public Notification
Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this Federal Register publication on-line through the FSIS Web page located at: http://www.fsis.usda.gov/federal-register. FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, Federal Register notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: http://www.fsis.usda.gov/subscribe. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

BILLING CODE 3410–DM–P

DEPARTMENT OF COMMERCE

Office of Policy and Strategic Planning
[Docket Number: 170302221–7221–01]

Impact of Federal Regulations on Domestic Manufacturing

AGENCY: Office of Policy and Strategic Planning, Department of Commerce.

ACTION: Notice; request for information (RFI).

SUMMARY: The Department of Commerce is seeking information on the impact of Federal permitting requirements on the construction and expansion of domestic manufacturing facilities and on regulations that adversely impact domestic manufacturers. As directed by President Trump’s Memorandum of January 24, 2017, “Streamlining Permitting and Reducing Regulatory Burdens for Domestic Manufacturing,” the Secretary of Commerce, in coordination with the Secretaries of Agriculture and Energy, the Administrator of the Environmental
For Further Information Contact: For questions about this notice, contact: Carter Hallman, U.S. Department of Commerce, Office of Policy and Strategic Planning, at 202–482–7466. Please direct media inquiries to the Department of Commerce Office of Public Affairs at 202–482–4883, or publicaffairs@doc.gov.

**SUPPLEMENTARY INFORMATION:** President Trump’s Memorandum of January 24, 2017, “Streamlining Permitting and Reducing Regulatory Burdens for Domestic Manufacturing” (82 FR 8667) directs the Secretary of Commerce to conduct outreach to stakeholders concerning the impact of Federal regulations on domestic manufacturing. The Department of Commerce is soliciting comments from the public concerning Federal actions to streamline permitting and reduce regulatory burdens for domestic manufacturers. For the purposes of this effort, “domestic manufacturers” refers to private businesses located in the United States (and its territories) engaged in the mechanical, physical, or chemical transformation of materials, substances, or components into new products, consistent with the 2017 North American Industry Classification System (NAICS) definition of Sector 31–33: Manufacturing.

Responses to this RFI will inform the Secretary’s report to the President which will set forth guidelines for Federal permitting and regulatory agencies to streamline Federal permitting processes for domestic manufacturing and reduce regulatory burdens affecting domestic manufacturers. The plan will be coordinated with related activities under existing laws (e.g., FAST-41) and executive actions (e.g., Executive Order 13771 on “Reducing Regulation and Controlling Regulatory Costs,” (82 FR 9339, Jan. 30, 2017)).

**Request for Information**

Given the nature and importance of the Presidential Memorandum, the Secretary requests information from stakeholders about how the construction, operation, and expansion of domestic manufacturing facilities are affected by (1) the process of acquiring Federal permits required for the construction, expansion, or operation of such facilities and (2) the burdens of complying with Federal regulations for manufacturing facility construction, expansion, or operation.

Through this RFI, the Department is seeking information from stakeholders (such as manufacturers, trade associations, and other interested parties) about the Federal permitting process and regulatory burdens affecting domestic manufacturing. The Secretary seeks information that will assist the Department in developing a proposal to reduce regulatory burdens and streamline or otherwise improve the permitting process by understanding the cumulative burden of federal regulations and permits and by improving efficiency, transparency, and certainty in the process.

You may respond to any, all or none of the following questions/requests for information, and may address related topics. Please identify the questions or topic areas each of your comments addresses. These questions are directed towards domestic manufacturers and their stakeholders. Responses may include estimates. Please indicate where the response is an estimate. Respondents may organize their submissions in response to this RFI in any manner, and all responses that comply with the requirements listed in the DATES and ADDRESSES sections of this notice will be considered.

**General Information:**

1. What are the top four regulations (by citation) that you believe are most burdensome for your manufacturing business or sector? List the NAICS code(s) for your business or facilities.
2. Where are your facilities located?
3. Briefly describe the most onerous aspect of your permitting process.
4. If you could make one change to the permitting process applicable to your manufacturing business or facilities, what would it be? How could the permitting process be modified to better suit your needs?
5. Are there Federal, State, or local agencies that you have worked with on permitting whose practices should be widely implemented? What is it you like about those practices?

**Regulatory Burden/Compliance:**

1. Please list the top four regulations that you believe are most burdensome for your manufacturing business. Please identify the agency that issues each one. Specific citation of codes from the Code of Federal Regulations would be appreciated.
2. How would regulatory compliance be simplified within your industry or sector?

Executive Secretary.

The City of Conroe, Texas, grantee of FTZ 265, submitted a notification of proposed production activity to the FTZ Board on behalf of Bauer Manufacturing LLC dba NEORig (Bauer), located in Conroe, Texas. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 24, 2017.

Bauer already has authority to produce pile drivers and leads, boring machinery, foundation construction equipment, foundation casings and related parts and sub-assemblies, tools and accessories for pile drivers, and stationary oil/gas drilling rigs and related sub-assemblies within Site 1 of FTZ 265. The current request would add foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Bauer from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, Bauer would be able to choose the duty rates during customs entry procedures that apply to the company’s finished products previously approved by the FTZ Board (duty rate ranges from duty-free to 5%) for the foreign-status materials/components noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: V-belts (without
