

transconf/pastsips.htm. The adequate MVEBs are provided in Table 1 below:

TABLE 1—KNOXVILLE, TENNESSEE
1997 ANNUAL PM_{2.5} MVEBS
[Tons per year or tpy]

	2014	2028
PM _{2.5}	444.78	* 245.00
NO _x	15,597.73	* 7,171.14

* This includes a safety margin of 10.39 tpy for PM_{2.5} and 2,613.27 tpy for NO_x in 2028.

Transportation conformity is required by section 176(c) of the Clean Air Act. EPA's conformity rule, 40 CFR part 93, requires that transportation plans, programs, and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do so. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the NAAQS.

The criteria by which EPA determines whether a SIP's MVEBs are adequate for transportation conformity purposes are outlined in 40 CFR 93.118(e)(4). We have also described the process for determining the adequacy of submitted SIP budgets in our July 1, 2004 (69 FR 40004), final rulemaking entitled, "Transportation Conformity Rule Amendments for the New 8-Hour Ozone and PM_{2.5} National Ambient Air Quality Standards and Miscellaneous Revisions for Existing Areas; Transportation Conformity Rule Amendments; Response to Court Decision and Additional Rule Changes." Please note that an adequacy review is separate from EPA's completeness review, and it should not be used to prejudice EPA's ultimate approval of Tennessee's 1997 Annual PM_{2.5} SIP revision for the Knoxville Area. Even if EPA finds a budget adequate, the SIP revision could later be disapproved.

Within 24 months from the effective date of this notice or until such time that the 1997 PM_{2.5} NAAQS is revoked for the Knoxville Area, the transportation partners will need to demonstrate conformity to the new MVEBs, if the demonstration has not already been made, pursuant to 40 CFR 93.104(e). See 73 FR 4419 (January 24, 2008).

Authority: 42 U.S.C. 7401 *et seq.*

Dated: February 15, 2017.

Kenneth R. Lapierre,

Acting Regional Administrator, Region 4.

Cross-Media Electronic Reporting: Authorized Program Revision Approval, Mecklenburg County, State of North Carolina

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of Mecklenburg County's request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA's approval is effective March 10, 2017.

FOR FURTHER INFORMATION CONTACT: Karen Seeh, US Environmental Protection Agency, Office of

Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements. Once an authorized program has EPA's approval to accept electronic documents under certain programs, CROMERR § 3.1000(a)(4) requires that the program keep EPA apprised of any changes to laws, policies, or the electronic document receiving systems that have the potential to affect the program's compliance with CROMERR § 3.2000.

On June 30, 2016, the Mecklenburg County Land Use & Environmental Services Agency (LUESA) submitted an application titled "GovOnline System" for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed LUESA's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out
