have received an application from Phillips 66 Pipeline, LLC (applicant), for an incidental take permit under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.; Act). The applicant has agreed to follow all of the conditions in the habitat conservation plan for the project. The permit would authorize take of the Santa Barbara distinct population segment of the federally endangered California tiger salamander (Ambystoma californiense), as well as the threatened California red-legged frog (Rana draytonii), incidental to otherwise lawful activities associated with the Cal Coast Pipeline Replacement Project Habitat Conservation Plan (HCP). We invite public comment on the application, the draft habitat conservation plan, draft low-effect screening form, and environmental action statement.

Background

The Santa Barbara distinct population segment of the California tiger salamander was listed by the Service as endangered on January 19, 2000 (65 FR 3096). The California red-legged frog was listed by the Service as threatened on May 23, 1996 (61 FR 25813). Section 9 of the Act (16 U.S.C. 1531 et seq.) and its implementing regulations prohibit the “take” of fish or wildlife species listed as endangered or threatened. “Take” is defined under the Act to include the following activities: “[T]o harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532); however, under section 10(a)(1)(B) of the Act, we may issue permits to authorize incidental take of listed species. “Incidental take” is defined by the Act as take that is incidental to, and not the purpose of, carrying out of an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species are in the Code of Federal Regulations at 50 CFR 17.32 and 17.22, respectively. Under the Act, protections for federally listed plants differ from the protections afforded to federally listed animals. Issuance of an incidental take permit also must not jeopardize the existence of federally listed fish, wildlife, or plant species. All species included in the incidental take permit would receive assurances under our “No Surprises” regulations (50 CFR 17.22(b)(5) and 17.32(b)(5)).

The applicants have applied for a permit for incidental take of the California tiger salamander and California red-legged frog. The potential taking would occur as a result of activities associated with the construction of the new Cal Coast Pipeline in suitable habitat for the covered species.

Our Preliminary Determination

The Service has made a preliminary determination that issuance of the permit is neither a major Federal action that will significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4321 et seq.; NEPA), nor will it individually or cumulatively have more than a negligible effect on the species covered in the HCP. Therefore, the permit qualifies for a categorical exclusion under NEPA.
