SUPPORTING INFORMATION: In an April 19, 2011 Federal Register notice (76 FR 21938), the FAA in cooperation with the National Park Service (NPS) provided notice of its intent to develop an EA for the ATMP at Big Cypress National Preserve, pursuant to the National Parks Air Tour Management Act of 2000 (Pub. L. 106–181) and its implementing regulations contained in 14 CFR part 136, subpart B, National Parks Air Tour Management. The ATMP process for Big Cypress National Preserve was initiated based on receipt of an application for operating authority from an existing commercial air tour operator to conduct commercial air tour operations over this park unit. In accordance with NPATMA and based on the existing level of operations at the time of the application, the FAA issued interim operating authority (IOA) to the commercial air tour operator to conduct an annual total of 1,260 commercial air tours over the park until such time as an ATMP was developed. The FAA and NPS began preparing an EA to comply with the National Environmental Policy Act (Pub. L. 91–190), which requires Federal agencies to consider the environmental impacts associated with a major federal action.

The FAA Modernization and Reform Act of 2012 (Pub. L. 112–95) amended various provisions of NPATMA. One provision provided that as an alternative to an ATMP, to manage commercial air tour operations over a national park, the NPS and the FAA, may enter into a voluntary agreement with a commercial air tour operator (including a new entrant commercial air tour operator and an operator that has IOA) that has applied to conduct commercial air tour operations over a national park. The FAA and NPS entered into voluntary agreements with one existing and one new entrant commercial air tour operator for tours over Big Cypress National Preserve. The voluntary agreements became effective in December 2015. Copies of the voluntary agreements can be found at: http://www.faa.gov/about/office_org/headquarters_offices/arc/programs/air_tour_management_plan/park_specific_plans/big_cypress/.

As the agencies and the operators entered into voluntary agreements for commercial air tour operations over Big Cypress National Preserve, an ATMP is no longer required. Therefore, the FAA, in cooperation with the NPS, has stopped work and discontinued the preparation of the ATMP and EA for Big Cypress National Preserve.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2014–0384]

Qualification of Drivers; Exemption Applications; Hearing

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemptions; request for comments.

SUMMARY: FMCSA announces its decision to renew exemptions for five individuals from the hearing requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) for interstate commercial motor vehicle (CMV) drivers. The exemptions enable these hard of hearing and deaf individuals to continue to operate CMVs in interstate commerce.

DATES: The renewed exemptions were effective on the dates stated in the discussions below and will expire on the dates stated in the discussions below. Comments must be received on or before August 2, 2017.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, 202–366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64–224, Washington, DC 20590–0001. I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for two years if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The statute also allows the Agency to renew exemptions at the end of the two-year period.

The physical qualification standard for drivers regarding hearing found in 49 CFR 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person:

First perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5–1951.
49 CFR 391.41(b)(11) was adopted in 1970, with a revision in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid. The exemption was extended in 1975 and in 1986, and the current two-year period started in 2017.

The five individuals listed in this notice have requested renewal of their exemptions from the hearing standard in 49 CFR 391.41(b)(11), in accordance with FMCSA procedures. Accordingly, FMCSA has evaluated these applications for renewal on their merits and decided to extend each exemption for a renewable two-year period.

II. Request for Comments

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

III. Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application. In accordance with 49 U.S.C. 31136(e) and 31315, each of the twelve applicants has satisfied the renewal conditions for obtaining an exemption from the hearing requirement (80 FR 57032; 80 FR 60747). In addition, for Commercial Driver’s License (CDL) holders, the Commercial Driver’s License Information System (CDLIS) and the Motor Carrier Management Information System (MCMIS) are searched for crash and violation data. For non-CDL holders, the Agency reviews the driving records from the State Driver’s Licensing Agency (SDLA). These factors provide an adequate basis for predicting each driver’s ability to continue to safely operate a CMV in interstate commerce.

The five drivers in this notice remain in good standing with the Agency and have not exhibited any medical issues that would compromise their ability to safely operate a CMV. The exemptions are extended subject to the following conditions:

1. Each driver must report any crashes or accidents as defined in 49 CFR 390.5; and
2. Report all citations and convictions for disqualifying offenses under 49 CFR part 383 and 49 CFR 391 to FMCSA. In addition, the driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official. The driver is prohibited from operating a motorcoach or bus with passengers in interstate commerce. The exemption does not exempt the individual from meeting the applicable CDL testing requirements. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if:

(a) The person fails to comply with the terms and conditions of the exemption;
(b) The exemption has resulted in a lower level of safety than was maintained before it was granted; or
(c) Continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

IV. Conditions and Requirements

The exemptions are extended subject to the following conditions:

1. Each driver must report any crashes or accidents as defined in 49 CFR 390.5;
2. Report all citations and convictions for disqualifying offenses under 49 CFR part 383 and 49 CFR 391 to FMCSA. In addition, the driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official. The driver is prohibited from operating a motorcoach or bus with passengers in interstate commerce. The exemption does not exempt the individual from meeting the applicable CDL testing requirements. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if:

(a) The person fails to comply with the terms and conditions of the exemption;
(b) The exemption has resulted in a lower level of safety than was maintained before it was granted; or
(c) Continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

V. Conclusion

Based upon its evaluation of the nine exemption applications, FMCSA renews the exemptions of the aforementioned drivers from the hearing requirement in 49 CFR 391.41(b)(11). In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for two years unless revoked earlier by FMCSA.
