

driver. Some of these drivers record their hours worked on an “exempt” log. Other drivers complete a grid log, even though they meet the 100 air-mile radius exemption. Both types of paper logs are time consuming for the drivers and the Safety Department. For this reason, RDS has embarked on the use of a vehicle recording device, which has helped increase the company’s safety performance. It accurately records all of the drivers’ activities including on-duty time, driving time, and total hours for the day. RDS is using the Geotab 7 system, a global positioning system (GPS) that tracks the location of the vehicle.

This electronic system allows for accuracy and “real-time” follow up. RDS believes that with this system it is improving the safety of the motoring public by ensuring that the drivers do not falsify their log books or operate when they are tired. Additionally, proactive measures have been implemented by RDS to improve highway safety. RDS states that the use of a daily log book or an “exempt” log does not enable the carrier to monitor and respond to these events in “real-time.” Violations are discovered 12 to 24 hours later. However, with the electronic tracking system all departments see the events in “real-time” and can respond immediately. This GPS system has allowed the Safety Department to reduce the time spent auditing log books after the fact.

RDS believes that the use of the Geotab 7 system, along with their increased focus on driver training and education, goes beyond compliance with the Federal regulations. The system has allowed them to provide “real time” oversight of the company’s safety program. Every time a driver exceeds posted speed limits an email alert is sent to the Safety Department, dispatchers, and terminal management. Drivers are notified via email and phone when safe to do so, advising them of the need to slow down. Drivers also receive email notifications, letters, and phone calls for instances of harsh cornering and hard braking. When notified of these critical events, RDS’s drivers receive critical information on why and how to improve vehicle handling to avoid rollovers, and how to better judge following distance and other issues to avoid hard braking.

RDS states that its procedures are designed to ensure that it leases only the highest caliber of drivers with a proven record of safe driving. RDS is committed to ensuring that its drivers operate in a way that protects the motoring public.

#### IV. Method To Ensure an Equivalent or Greater Level of Safety

If this exemption is granted, RDS proposes to implement the following conditions on its use of this exemption:

- Allow FMCSA and the State enforcement partners access to its data as both a monitoring and training tool. This would be provided to the Agency and State partners by granting them access at any time through RDS’s web portal.
- RDS will maintain a Satisfactory safety rating.
- RDS drivers will carry a copy of the exemption with them when operating the CMV.
- RDS will conduct a minimum of four safety meetings per year.
- RDS will continue their ongoing immediate notification and training for any drivers who exceed a speed limit.
- RDS will continue its ongoing immediate notification and training for any drivers who exceed the HOS limits.

A copy of the RDS application for exemption is available for review in the docket for this notice.

Issued on: June 27, 2017.

#### DEPARTMENT OF TRANSPORTATION

##### Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2016-0354]

##### Agency Information Collection Activities; Extension of a Currently-Approved Information Collection: Accident Recordkeeping Requirements

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (PRA), FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval. FMCSA is requesting approval to extend a currently-approved ICR entitled “Accident Recordkeeping Requirements.” This ICR relates to Agency requirements that motor carriers maintain a record of accidents involving their commercial motor vehicles (CMVs). On March 22, 2017, FMCSA published a **Federal Register** notice announcing an increase in the Agency’s

estimate of the total information-collection (IC) burden of this requirement and asked for public comment. No comments were received. The regulatory burden has not changed, but the population of motor carriers has increased, both organically and because the Agency now includes the population of intrastate motor carriers in this ICR.

**DATES:** Please send your comments by August 7, 2017. OMB must receive your comments by this date to act quickly on the ICR.

**ADDRESSES:** All comments should reference Federal Docket Management System (FDMS) Docket Number FMCSA-2016-0354. Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the OMB Desk Officer, DOT/FMCSA, and sent via electronic mail to *oira\_submission@omb.eop.gov*, faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Mr. Robert F. Schultz, FMCSA Driver and Carrier Operations Division, DOT, FMCSA, West Building 6th Floor, 1200 New Jersey Avenue SE., Washington, DC 20590. Telephone: 202-366-4325. Email: *MCPD@dot.gov*.

##### SUPPLEMENTARY INFORMATION:

*Title:* Accident Recordkeeping Requirements.

*OMB Control Number:* 2126-0009.

*Type of Request:* Extension of a currently approved information collection.

*Respondents:* Motor Carriers.

*Estimated Number of Respondents:* 886,122 motor carriers.

*Estimated Number of Responses:* 120,522.

*Estimated Time per Response:* 18 minutes.

*Expiration Date:* July 31, 2017.

*Frequency of Response:* On occasion.

*Estimated Total Annual Burden:* 36,157 hours [120,522 accidents × 18 minutes per response/60 minutes in an hour].

*Definition:* “Accident” means an occurrence involving a CMV operating on a public road that results in: (1) A fatality, (2) bodily injury to a person who, because of the injury, immediately receives medical treatment away from the scene of the accident, or (3) one or more motor vehicles being towed from the scene due to disabling damage (49

CFR 390.5 and as well as in section 390.5T while in effect).

### Background

Title 49 of the Code of Federal Regulations, section 390.15(b), requires motor carriers to make certain specified records and information pertaining to CMV accidents available to an authorized representative or special agent of the FMCSA upon request or as part of an inquiry. Motor carriers are required to maintain an “accident register” consisting of information concerning all “accidents” involving their CMVs (49 CFR 390.15(b)(see “Definition: Accident,” above). The following information must be recorded for each accident: Date, location, driver name, number of injuries, number of fatalities, and whether certain dangerous hazardous materials were released. In addition, the motor carrier must maintain copies of all accident reports required by insurers or governmental entities. Motor carriers must maintain this information for three years after the date of the accident. Section 390.15 does not require motor carriers to submit any information or records to FMCSA or any other party.

This ICR supports the DOT strategic goal of safety. By requiring motor carriers to gather and record information concerning CMV accidents, FMCSA is strengthening its ability to assess the safety performance of motor carriers. This information is a valuable resource in Agency initiatives to prevent, and reduce the severity of, CMV crashes.

The Agency increases its burden estimate from 26,700 to 36,157 hours. The regulatory requirement has not changed for accident recordkeeping. The increase is due to two revised estimates: (1) The population of motor carriers subject to the regulation, from 520,000 to 886,122, and (2) the number of reportable accidents, from 89,000 to 120,522. The Agency has amended the population of motor carriers to include the accident recordkeeping burden of intrastate motor carriers. In past estimates, the Agency had taken the position that the accident recordkeeping of intrastate carriers occurred as a result of State law. However, the OMB has directed FMCSA to include such intrastate activities in its IC estimates, so we do so in this burden estimate statement for the first time. The Agency estimates that 886,122 motor carriers are subject to accident register requirements (508,367 interstate and 377,755 intrastate motor carriers). The Agency further estimates that the number of accidents that must be reported by intrastate or interstate motor carriers is 120,522.

The Agency received no comments to the 60-day **Federal Register** notice published on March 22, 2017 (82 FR 14793).

### Public Comments Invited

FMCSA requests that you comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for FMCSA to perform its functions, (2) the accuracy of the estimated burden, (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information, and (4) ways that the burden could be minimized without reducing the quality of the collected information.

Issued under the authority delegated in 49 CFR 1.87 on: June 28, 2017.

### Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2007-28043]

#### Hours of Service (HOS) of Drivers; American Pyrotechnics Assn. (APA) Application for Exemption From the 14-Hour Rule; Request To Add New Member to Current APA Exemption

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice of final disposition.

**SUMMARY:** FMCSA announces its decision to grant an exemption to the American Pyrotechnics Association’s (APA) new member-company, Pyro Shows of Alabama, Inc., from the prohibition on driving commercial motor vehicles (CMVs) after the 14th hour after the driver comes on duty. During the 2016 Independence Day period 51 APA members held such an exemption, effective during the period June 28 through July 8 each year through 2020. APA advised FMCSA of the discontinuance of the exemption for one carrier; with the addition of the new member the total remains at 51. The exemption granted to Pyro Shows of Alabama, Inc. will terminate at the same time as the other 50 exempted carriers. FMCSA has determined that the terms and conditions of the exemption ensure a level of safety equivalent to, or greater than, the level of safety achieved without the exemption.

**DATES:** These exemptions from 49 CFR 395.3(a)(2) are effective from June 28

through July 8, at 11:59 p.m. local time, each year through 2020.

#### ADDRESSES:

**Docket:** For access to the docket to read background documents or comments, go to [www.regulations.gov](http://www.regulations.gov) at any time or visit Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays. The on-line Federal Docket Management System (FDMS) is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments on-line.

**Privacy Act:** In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to [www.regulations.gov](http://www.regulations.gov), as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at [www.dot.gov/privacy](http://www.dot.gov/privacy).

**FOR FURTHER INFORMATION CONTACT:** Mr. Thomas Yager, Chief, FMCSA Driver and Carrier Operations Division; Office of Carrier, Driver and Vehicle Safety Standards; Telephone: 614-942-6477.
