(B) ensure that environmental reviews and authorization decisions involving multiple agencies are conducted in a manner that is concurrent, synchronized, timely, and efficient;

(C) provide for agency use, to the maximum extent permitted by law, of environmental studies, analysis, and decisions conducted in support of earlier Federal, State, tribal, or local environmental reviews or authorization decisions; and

(D) ensure that agencies apply NEPA in a manner that reduces unnecessary burdens and delays as much as possible, including by using CEQ's authority to interpret NEPA to simplify and accelerate the NEPA review process."

Pursuant to Section 5(e)(i) of Executive Order 13807, CEQ identifies the following initial list of actions that it intends to undertake to enhance and modernize the Federal environmental review and authorization process:

1. To comply with Section 5(b)(iv) of Executive Order 13807, CEQ intends to develop with the Office of Management and Budget (OMB), and in consultation with the Federal Permitting Improvement Steering Council (Permitting Council), a framework providing for the implementation of One Federal Decision. This framework may be supplemented with additional guidance and directives as needed.

2. To comply with Section 5(d) of Executive Order 13807, CEQ will refer various requests for designation of State projects pursuant to Executive Order 13766 to the Permitting Council, Department of Transportation and U.S. Army Corps of Engineers as appropriate. CEQ will, as appropriate in response to any additional requests from States, refer projects that qualify for designation as high priority projects in accordance with Section 5(d) of Executive Order 13807.

3. To comply with Section 5(e)(i) of the Executive Order, CEQ intends to (a) revise, modify or supplement its existing guidance regarding:

- i. Establishing, Applying, and Revising Categorical Exclusions under NEPA, with supporting information regarding established Categorical Exclusions;
- ii. Preparing Environmental Assessments;
- iii. Improving the Process for Preparing Efficient and Timely Environmental Reviews under NEPA;
- iv. Appropriate Use of Mitigation and Monitoring and Appropriate Use of Mitigated Findings of No Significant Impact; and
- v. Environmental Collaboration and Conflict Resolution;

(b) review existing CEQ Regulations implementing the procedural provisions of NEPA in order to identify changes needed to update and clarify those regulations; and

(c) issue such additional guidance to agency heads as CEQ may deem necessary to simplify and accelerate the NEPA process for infrastructure projects, including infrastructure-specific guidance to be compiled in a NEPA practitioners' handbook for infrastructure project proposals, to address issues including but not limited to the following:

- i. public involvement, including meetings and sufficiency of notice;
- ii. deference to the lead Federal agency with regard to key NEPA elements such as the development of the statement of purpose and need and range of alternatives;
- iii. appropriate cumulative impacts analysis methodologies or tools for infrastructure projects;
- iv. sources of information that may be relied upon in analyzing impacts;
- v. reliance on prior studies, analyses or decisions for projects within the same general locations; and
- vi. reliance on State, local and tribal environmental impacts analyses for purposes of NEPA.

4. To comply with Section 5(e)(iii), CEQ will convene an interagency Executive Order 13807 Working Group, consisting of agency Chief Environmental Review and Permit Officers, the OMB Director, and representatives of other such Federal agencies as CEQ shall deem appropriate. The working group shall review the NEPA implementing regulations and other environmental review and authorization procedures and policies of Federal agencies that are members of the Permitting Council to identify impediments to the efficient and effective processing of environmental reviews and authorizations for infrastructure projects and to identify agencies that require an action plan to address the identified impediments. Based on this review, involved Federal agencies shall develop their action plans setting forth the actions they will take as well as timelines for completing those actions, and submit their action plans to CEQ and OMB for comment. Each agency's action plan shall, at a minimum, establish procedures for a regular review and update of categorical exclusions, where appropriate. CEQ anticipates that the working group will address a number of issues relating to environmental reviews, including but not limited to consultations pursuant to Section 7 of the Endangered Species Act, compliance with Section 106 of the

National Historic Preservation Act, and permitting and certifications pursuant to the Clean Water Act.
