Versar, Inc., considered the nominated peer review candidates and also conducted an independent search for scientific experts to augment the list of publically-nominated candidates.

Selection Process: Versar, Inc., considered and screened all candidates against the selection criteria described in the March 1, 2016, and June 3, 2016, **Federal Register** notices (81 FR 10617 and 81 FR 35760, respectively), which included the candidates being free of any conflict of interest and being available to participate in-person in a two-day, public, peer review meeting in the Washington, DC, area. Versar, Inc., narrowed the list of potential reviewers for the second panel to 12 candidates. EPA is now soliciting comments on the interim list of 12 candidates.

EPA requests that the public provide relevant information or documentation on the experts that the contractor should consider in evaluating these candidates. Once the public comments on the interim list of candidates have been reviewed and considered, the contractor will select the final list of peer reviewers.

Responsibilities of Peer Reviewers: Peer reviewers will be charged with evaluating and preparing written comments on EPA's draft MCLG Approaches Report. Versar, Inc., will provide reviewers with a summary and compilation of public comments on the draft MCLG Approaches Report submitted to EPA's docket (ID number EPA-HQ-OW-2016-0438) during the 45-day public comment period, for their consideration. Reviewers will participate in a two-day meeting expected to be held in the Washington, DC, metro area, projected to occur in late fall of 2017 (exact date to be determined), to discuss the scientific basis supporting these materials. Following the meeting, Versar, Inc., will provide a report to EPA, summarizing the peer reviewers' evaluation of the scientific and technical merit of the draft MCLG Approaches Report and the peer reviewers' full responses to the charge questions. EPA will make the final peer review report available to the public (exact date to be determined). In

preparing the final MCLG Approaches Report, EPA will consider the peer review report as well as the written public comments submitted to the docket.

II. Interim List of Peer Reviewers

Versar, Inc., is considering the following candidates for the peer review panel. Biosketches are available through the EPA docket at <http://www.regulations.gov> (Docket ID No. EPA-HQ-OW-2016-0439). After review and consideration of public comments and consultation with EPA's Scientific Integrity Official, Versar, Inc., will select from this list, the final list of peer reviewers, who will, collectively, best provide expertise spanning the previously mentioned areas of knowledge and experience and, to the extent feasible, best provide a balance of perspectives. EPA will announce the peer review panel meeting date, location and registration details, along with the final list of peer reviewers selected by Versar, Inc., at least 30 days prior to the meeting.
