Notice Suspending Implementation of the Environmental Impact Statement and Record of Decision for the Philadelphia International Airport Capacity Enhancement Program

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Suspending implementation of the Environmental Impact Statement (EIS) and Record of Decision (ROD) for the Philadelphia International Airport (PHL) Capacity Enhancement Program (CEP).

SUMMARY: The FAA is suspending further implementation of the December 2010 ROD for the Philadelphia International Airport (PHL) CEP. However, unforeseen changes in the aviation industry and aircraft activity have resulted in considerably less activity at PHL. Actual operations at PHL in 2016 were 394,022, nearly thirty percent lower than originally forecasted. PHL is no longer experiencing severe congestion or significant delays. Over recent years, there has been no indication or reason to believe that forecasted operations and associated delays at PHL will reach the level experienced at the time FAA approved the CEP ROD.
