

would occur for only 2 hours per day and there would be at least one day in between pile driving activity when installing the permanent piles. Impact pile driving would result in the loudest sound levels; however, CBS would install only 6 piles with an impact hammer (4 30-in and 2 48-in piles) to proof the pile after driving it with a vibratory hammer. Proofing a pile is relatively short-term activity with 400 strikes occurring over 10 minutes per pile. Considering this and the fact only one pile would be installed per day, if PTS occurs, it is likely slight PTS (*e.g.*, PTS onset). Due to the brief duration of expected exposure, any Level B harassment would be temporary and any behavioral changes as a result are expected to be minor.

In summary and as described above, the following factors primarily support our determination that the impacts resulting from this activity are not expected to adversely affect the species or stock through effects on annual rates of recruitment or survival:

- No mortality is anticipated or authorized.
- The number of piles in the design has been reduced to the lowest amount practicable (other designs required more piles); therefore, the amount of pile activity is minimal at 16 days over the course of 3 months.
- The majority of pile driving is scheduled to occur in October prior to peak humpback whale habitat use.
- Shut-down zone mitigation designed to avoid Level A harassment of low frequency cetaceans and otariids will occur during impact pile driving.
- Extremely limited impact pile driving would occur (ten minutes per day for six non-consecutive days).
- The project and ensonified areas include a cove and dead-end bay (Silver Bay) with no significant marine mammal habitat.

Based on the analysis contained herein of the likely effects of the specified activity on marine mammals and their habitat, and taking into consideration the implementation of the monitoring and mitigation measures, NMFS finds that the total marine mammal take from the specified activity will have a negligible impact on all affected marine mammal species or stocks.

#### Small Numbers

As noted above, only small numbers of marine mammals may be authorized to be incidentally taken under Section 101(a)(5)(D) of the MMPA for specified activities other than military readiness activities. The MMPA does not define small numbers and so, in practice,

NMFS compares the number of individuals taken to the most appropriate estimation of abundance of the relevant species or stock in our determination of whether an authorization is limited to small numbers of marine mammals.

NMFS has authorized a very small amount of Level A takes of marine mammals. Level B takes are more numerous and still only constitute between 0.01 and 6.6 percent of a given stock (Table 5). For pinnipeds, the number of takes likely represents repeated exposures of a smaller number of animals; therefore, the percent of stock taken is likely even smaller. Finally, the area where these takes may occur represents a negligible area with respect to each stock's range; therefore, it is unlikely a larger percentage of a stock's population would move through the action area.

Based on the analysis contained herein of the specified activity (including the mitigation and monitoring measures) and the anticipated take of marine mammals, NMFS finds that small numbers of marine mammals will be taken relative to the population size of the affected species or stocks.

#### Unmitigable Adverse Impact Analysis and Determination

Alaska Natives have traditionally harvested subsistence resources, including sea lions and harbor seals. In 2012 (the most recent year for which information is available), the community of Sitka had an estimated subsistence take of 49 harbor seals and 1 Steller sea lion (Wolf *et al.* 2013). CBS contacted the Alaska Harbor Seal Commission, the Alaska Sea Otter and Steller Sea Lion Commission, and the Sitka Tribe of Alaska and these organizations expressed no concerns about the project. Therefore, NMFS has determined that the total taking of affected species or stocks will not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

#### Endangered Species Act (ESA)

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally, in this case with the Alaska Regional Office,

whenever we propose to authorize take for endangered or threatened species.

There are two marine mammal species under NMFS' jurisdiction that are listed as endangered or threatened under the ESA with confirmed or possible occurrence in the action area: the wDPS of Steller sea lions and the humpback whale Mexico DPS. NMFS issued a Biological Opinion concluding that the issuance of the IHA is likely to adversely affect, but is not likely to jeopardize, the continued existence of the threatened and endangered species under NMFS' jurisdiction and is not likely to result in the destruction or adverse modification of critical habitat. The Biological Opinion for this action is available on NMFS' Web site (<http://www.nmfs.noaa.gov/pr/permits/incidental/construction.htm>).

#### Authorization

NMFS has issued an IHA to CBS authorizing the take of small numbers of six marine mammal species incidental to the GPIIP dock modification project, Sawmill Cove, Alaska, containing the previously discussed mitigation, monitoring and reporting requirements.

Dated: October 6, 2017.

### COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

#### Procurement List; Deletions

**AGENCY:** Committee for Purchase From People Who Are Blind or Severely Disabled.

**ACTION:** Deletions from the procurement list.

**SUMMARY:** This action deletes products and services from the Procurement List previously furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

**DATES:** *Date deleted from the Procurement List:* November 12, 2017.

**ADDRESSES:** Committee for Purchase From People Who Are Blind or Severely Disabled, 1401 S. Clark Street, Suite 715, Arlington, Virginia, 22202-4149.

**FOR FURTHER INFORMATION CONTACT:** Amy B. Jensen, Telephone: (703) 603-7740, Fax: (703) 603-0655, or email [CMTEFedReg@AbilityOne.gov](mailto:CMTEFedReg@AbilityOne.gov).

**SUPPLEMENTARY INFORMATION:**

**Deletions**

On 9/8/2017 (82 FR 42546–42547), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed deletions from the Procurement List.

After consideration of the relevant matter presented, the Committee has determined that the products and services listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 8501–8506 and 41 CFR 51–2.4.

**Regulatory Flexibility Act Certification**

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action may result in authorizing small entities to furnish the products and services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the products and services deleted from the Procurement List.

**End of Certification**

Accordingly, the following products and services are deleted from the Procurement List:

**Products**

*NSN—Product Name:* 2910–00–740–9419—Strap, Fuel Tank

*Mandatory Source of Supply:* Employment Source, Inc., Fayetteville, NC

*Contracting Activity:* Defense Logistics Agency Land and Maritime

**NSNs—Product Names:**

**DEPARTMENT OF DEFENSE****Department of the Army, Corps of Engineers****Notice of Intent To Prepare an Environmental Impact Statement for the Peckman River Basin Flood Risk Management Study**

**AGENCY:** U.S. Army Corps of Engineers, DOD.

**ACTION:** Notice of Intent.

**SUMMARY:** Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers, New York District (Corps) is preparing an integrated Feasibility Report/Environmental Impact Statement (EIS) laws for the proposed Peckman River Basin Flood Risk Management Feasibility Study. The study is assessing the feasibility of flood risk management alternatives to be implemented within the congressionally authorized study area with a specific emphasis on the Township of Little Falls and the Borough of Woodland Park in Passaic County, New Jersey.

**ADDRESSES:** Pertinent information about the study can be found at: <http://www.nan.usace.army.mil/Missions/Civil-Works/Projects-in-New-Jersey/Peckman-River-Basin-Flood-Risk-Management-Feasibility-Study/>.

Send written comments and suggestions concerning the scope of issues to be evaluated within the EIS to Kimberly Rightler, Project Biologist/NEPA Coordinator, U.S. Army Corps of Engineers, New York District, Planning Division, Environmental, 26 Federal
