BILLING CODE 6560-50-P

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 63**

[EPA-HQ-OAR-2010-1042; FRL-9970-08-OAR]

RIN 2060-AT58

**National Emission Standards for Hazardous Air Pollutants for Wool Fiberglass Manufacturing; Flame Attenuation Lines****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Withdrawal of direct final rule.

**SUMMARY:** Because the Environmental Protection Agency (EPA) received adverse comment, we are withdrawing the direct final rule for the National Emission Standards for Hazardous Air Pollutants for Wool Fiberglass Manufacturing; Flame Attenuation Lines, published on July 27, 2017.

**DATES:** Effective October 24, 2017, the EPA withdraws the direct final rule published at 82 FR 34858, on July 27, 2017.

**FOR FURTHER INFORMATION CONTACT:** For questions about this action, contact Mr. Brian Storey, Sector Policies and Programs Division (D243-04), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-1103; fax number: (919) 541-4991; and email address: [storey.brian@epa.gov](mailto:storey.brian@epa.gov).

**SUPPLEMENTARY INFORMATION:** On July 27, 2017, the EPA published a direct final rule (82 FR 34858) and parallel proposal (82 FR 34910) to amend the National Emission Standards for Hazardous Air Pollutants for Wool Fiberglass Manufacturing to provide affected sources a 1-year extension to comply with the emission limits for flame attenuation lines. We stated in that direct final rule that if we received adverse comment by August 28, 2017, the direct final rule would not take effect and we would publish a timely withdrawal in the **Federal Register**. We subsequently received adverse comment on that direct final rule and are withdrawing it. We will address those comments in any subsequent final action, which will be based on the parallel proposed rule also published on July 27, 2017. As stated in the direct final rule and parallel proposed rule, we

will not institute a second comment period on this action.

Dated: October 18, 2017.

**E. Scott Pruitt,**  
*Administrator.*

■ Accordingly, the amendments to the rule published on July 27, 2017 (82 FR 34858), are withdrawn as of October 24, 2017.

[FR Doc. 2017-23054 Filed 10-23-17; 8:45 am]

BILLING CODE 6560-50-P

**DEPARTMENT OF TRANSPORTATION****National Highway Traffic Safety Administration****49 CFR Part 593**

[Docket No. NHTSA-2017-0061]

**List of Nonconforming Vehicles Decided To Be Eligible for Importation****AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).**ACTION:** Final rule.

**SUMMARY:** This document revises the list of vehicles not originally manufactured to conform to the Federal Motor Vehicle Safety Standards (FMVSS) that NHTSA has decided to be eligible for importation. This list is published in an appendix to the agency's regulations that prescribe procedures for import eligibility decisions. The list has been revised to add all vehicles that NHTSA has decided to be eligible for importation since October 1, 2016, and to remove all previously listed vehicles that are now more than 25 years old and need no longer comply with all applicable FMVSS to be lawfully imported. NHTSA is required by statute to publish this list annually in the **Federal Register**.

**DATES:** Effective October 24, 2017.

**FOR FURTHER INFORMATION CONTACT:** George Stevens, Office of Vehicle Safety Compliance, NHTSA, (202) 366-5308.

**SUPPLEMENTARY INFORMATION:** Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for sale in the United States, certified under 49 U.S.C. 30115, of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Where there is no substantially similar

U.S.-certified motor vehicle, 49 U.S.C. 30141(a)(1)(B) permits a nonconforming motor vehicle to be admitted into the United States if its safety features comply with, or are capable of being altered to comply with, all applicable FMVSS based on destructive test data or such other evidence as the Secretary of Transportation decides to be adequate.

Under 49 U.S.C. 30141(a)(1), import eligibility decisions may be made "on the initiative of the Secretary of Transportation or on petition of a manufacturer or importer registered under [49 U.S.C. 30141(c)]." The Secretary's authority to make these decisions has been delegated to NHTSA. The agency publishes notices of eligibility decisions as they are made.

Under 49 U.S.C. 30141(b)(2), a list of all vehicles for which import eligibility decisions have been made must be published annually in the **Federal Register**. On October 1, 1996, NHTSA added the list as an appendix to 49 CFR part 593, the regulations that establish procedures for import eligibility decisions (61 FR 51242). As described in the notice, NHTSA took that action to ensure that the list is more widely disseminated to government personnel who oversee vehicle imports and to interested members of the public. See 61 FR 51242-43. In the notice, NHTSA expressed its intention to annually revise the list as published in the appendix to include any additional vehicles decided by the agency to be eligible for importation since the list was last published. See 61 FR 51243. The agency stated that issuance of the document announcing these revisions will fulfill the annual publication requirements of 49 U.S.C. 30141(b)(2). *Ibid.*

**Regulatory Analyses and Notices***A. Executive Order 12866, Regulatory Planning and Review*

Executive Order 12866, "Regulatory Planning and Review" (58 FR 51735, October 4, 1993), provides for making determinations about whether a regulatory action is "significant" and therefore subject to Office of Management and Budget (OMB) review and to the requirements of the Executive Order. The Executive Order defines a "significant regulatory action" as one that is likely to result in a rule that may:

(1) Have an annual effect on the economy of \$100 million or more or adversely affects in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or Tribal governments or communities;

(2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order. This rule will not have any of these effects and was not reviewed under Executive Order 12866. It is not significant within the meaning of the DOT Regulatory Policies and Procedures. The effect of this rule is not to impose new requirements. Instead it provides a summary compilation of decisions on import eligibility that have already been made and does not involve new decisions. This rule will not impose any additional burden on any person. Accordingly, the agency believes that the preparation of a regulatory evaluation is not warranted for this rule.

#### B. Environmental Impacts

We have not conducted an evaluation of the impacts of this rule under the National Environmental Policy Act. This rule does not impose any change that would result in any impacts to the quality of the human environment. Accordingly, no environmental assessment is required.

#### C. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, we have considered the impacts of this rule on small entities (5 U.S.C. 601 *et seq.*). I certify that this rule will not have a significant economic impact upon a substantial number of small entities within the context of the Regulatory Flexibility Act. The following is our statement providing the factual basis for the certification (5 U.S.C. 605(b)). This rule will not have any significant economic impact on a substantial number of small businesses because the rule merely furnishes information by revising the list in the Code of Federal Regulations of vehicles for which import eligibility decisions have previously been made. Accordingly, we have not prepared a Final Regulatory Flexibility Analysis.

#### D. Executive Order 13132, Federalism

Executive Order 13132 requires NHTSA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." Executive Order 13132 defines the term "Policies that have federalism implications" to include

regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." Under Executive Order 13132, NHTSA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or NHTSA consults with State and local officials early in the process of developing the regulation.

This rule will have no direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government as specified in Executive Order 13132. Thus, the requirements of section 6 of the Executive Order do not apply to this rule.

#### E. The Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4) requires agencies to prepare a written assessment of the costs, benefits and other effects of proposed or final rules that include a Federal mandate likely to result in the expenditure by State, local or tribal governments, in the aggregate, or by the private sector, of more than \$100 million annually. This rule will not result in additional expenditures by State, local or tribal governments or by any members of the private sector. Therefore, the agency has not prepared an economic assessment pursuant to the Unfunded Mandates Reform Act.

#### F. Paperwork Reduction Act

Under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), a person is not required to respond to a collection of information by a Federal agency unless the collection displays a valid OMB control number. This rule does not impose any new collection of information requirements for which a 5 CFR part 1320 clearance must be obtained. DOT previously submitted to OMB and OMB approved the collection of information associated with the vehicle importation program in OMB Clearance No. 2127-0002. An extension of this information collection is awaiting approval.

#### G. Civil Justice Reform

Pursuant to Executive Order 12988, "Civil Justice Reform," we have considered whether this rule has any

retroactive effect. We conclude that it will not have such an effect.

#### H. Plain Language

Executive Order 12866 requires each agency to write all rules in plain language. Application of the principles of plain language includes consideration of the following questions:

- Have we organized the material to suit the public's needs?
- Are the requirements in the rule clearly stated?
- Does the rule contain technical language or jargon that is not clear?
- Would a different format (grouping and order of sections, use of headings, paragraphing) make the rule easier to understand?
- Would more (but shorter) sections be better?
- Could we improve clarity by adding tables, lists, or diagrams?
- What else could we do to make the rule easier to understand?

If you wish to do so, please comment on the extent to which this final rule effectively uses plain language principles.

#### I. National Technology Transfer and Advancement Act

Under the National Technology and Transfer and Advancement Act of 1995 (Pub. L. 104-113), "all Federal agencies and departments shall use technical standards that are developed or adopted by voluntary consensus standards bodies, using such technical standards as a means to carry out policy objectives or activities determined by the agencies and departments." This rule does not require the use of any technical standards.

#### J. Privacy Act

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78).

#### K. Executive Order 13045, Economically Significant Rules Disproportionately Affecting Children

This rule is not subject to Executive Order 13045 because it is not "economically significant" as defined under Executive Order 12866, and does not concern an environmental, health, or safety risk that NHTSA has reason to believe may have a disproportionate effect on children.

*L. Notice and Comment*

NHTSA finds that prior notice and opportunity for comment are unnecessary under 5 U.S.C. 553(b)(3)(B) because this action does not impose any regulatory requirements. This rule merely revises the list of vehicles not originally manufactured to conform to the FMVSS that NHTSA has decided to be eligible for importation into the United States since the last list was published in October, 2016.

In addition, so that the list of vehicles for which import eligibility decisions have been made may be included in the next edition of 49 CFR parts 572 to 999, which is due for revision on October 1, 2017, good cause exists to dispense with the requirement in 5 U.S.C. 553(d) for the effective date of the rule to be delayed for at least 30 days following its publication.

**List of Subjects in 49 CFR Part 593**

Imports, Motor vehicle safety, Motor vehicles.

In consideration of the foregoing, part 593 of Title 49 of the Code of Federal Regulations is amended as follows:

**PART 593—[AMENDED]**

■ 1. The authority citation for part 593 continues to read as follows:

**Authority:** 49 U.S.C. 322 and 30141(b); delegation of authority at 49 CFR 1.95.

■ 2. Appendix A to part 593 is revised to read as follows:

**Appendix A to Part 593—List of Vehicles Determined To Be Eligible for Importation**

(a) Each vehicle on the following list is followed by a vehicle eligibility number. The importer of a vehicle admissible under any eligibility decision must enter that number on the HS-7 Declaration Form accompanying entry to indicate that the vehicle is eligible for importation.

(1) “VSA” eligibility numbers are assigned to all vehicles that are decided to be eligible for importation on the initiative of the Administrator under § 593.8.

(2) “VSP” eligibility numbers are assigned to vehicles that are decided to be eligible under § 593.7(f), based on a petition from a manufacturer or registered importer submitted under § 593.5(a)(1), which establishes that a substantially similar U.S.-certified vehicle exists.

(3) “VCP” eligibility numbers are assigned to vehicles that are decided to be eligible under § 593.7(f), based on a petition from a manufacturer or registered importer submitted under § 593.5(a)(2), which establishes that the vehicle has safety features that comply with, or are capable of being altered to comply with, all applicable FMVSS.

(b) Vehicles for which eligibility decisions have been made are listed alphabetically, first by make, then by model, then by model year.

(c) All hyphens used in the Model Year column mean “through” (for example, “1995–1999” means “1995 through 1999”).

(d) The initials “MC” used in the Make column mean “Motorcycle.”

(e) The initials “SWB” used in the Model Type column mean “Short Wheel Base.”

(f) The initials “LWB” used in the Model Type column mean “Long Wheel Base.”

(g) For vehicles with a European country of origin, the term “Model Year” ordinarily means calendar year in which the vehicle was produced.

(h) All vehicles are left-hand-drive (LHD) vehicles unless noted as RHD. The initials “RHD” used in the Model Type column mean “right-hand-drive.”

(i) For vehicle models that have been determined to be eligible for importation based on a petition submitted under § 593.5(a)(1), which establishes that a substantially similar U.S.-certified vehicle exists, and no specific body style(s) are listed, only the body style(s) of that vehicle model that were U.S.-certified by the original manufacturer are eligible for importation. For example, if the original manufacturer manufactured both sedan and wagon body styles for the described model, but only certified the sedan for the U.S. market, the wagon body style would not be eligible for importation under that determination.

**VEHICLES CERTIFIED BY THEIR ORIGINAL MANUFACTURER AS COMPLYING WITH ALL APPLICABLE CANADIAN MOTOR VEHICLE SAFETY STANDARDS**

<p>(a) All passenger cars less than 25 years old manufactured before September 1, 1996, that, as originally manufactured, are equipped with an automatic restraint system that complies with Federal Motor Vehicle Safety Standard (FMVSS) No. 208 .....</p> <p>(b) All passenger cars manufactured on or after September 1, 1996, and before September 1, 2002, that, as originally manufactured, are equipped with an automatic restraint system that complies with FMVSS No. 208, and that comply with FMVSS No. 214;</p> <p>(c) All passenger cars manufactured on or after September 1, 2002, and before September 1, 2007, that, as originally manufactured, are equipped with an automatic restraint system that complies with FMVSS No. 208, and that comply with FMVSS Nos. 201, 214, 225, and 401;</p> <p>(d) All passenger cars manufactured on or after September 1, 2007, and before September 1, 2008, that, as originally manufactured, comply with FMVSS Nos. 110, 118, 138, 201, 208, 213, 214, 225, and 401;</p> <p>(e) All passenger cars manufactured on or after September 1, 2008 and before September 1, 2009 that, as originally manufactured, comply with FMVSS Nos. 110, 118, 138, 201, 202a, 206, 208, 213, 214, 225, and 401;</p> <p>(f) All passenger cars manufactured on or after September 1, 2009 and before September 1, 2010 that, as originally manufactured, comply with FMVSS Nos. 118, 138, 201, 202a, 206, 208, 213, 214, 225, and 401;</p> <p>(g) All passenger cars manufactured on or after September 1, 2010 and before September 1, 2011 that, as originally manufactured, comply with FMVSS Nos. 118, 138, 201, 202a, 206, 208, 213, 214, and 225;</p> <p>(h) All passenger cars manufactured on or after September 1, 2011 and before September 1, 2017 that, as originally manufactured, comply with FMVSS Nos. 138, 201, 206, 208, 213, 214, and 225.</p> <p>(i) All passenger cars manufactured on or after September 1, 2017, and before May 1, 2018, that as originally manufactured, comply with FMVSS Nos. 138, 201, 206, 208, 213, 214, 225, and insofar as it is applicable, 226.</p> <p>(j) All passenger cars manufactured on or after May 1, 2018, and before September 1, 2022, that as originally manufactured, comply with FMVSS Nos. 111, 138, 201, 206, 208, 213, 214, 225, and insofar as it is applicable, with FMVSS No. 226.</p>	<p>VSA-80</p>

VEHICLES CERTIFIED BY THEIR ORIGINAL MANUFACTURER AS COMPLYING WITH ALL APPLICABLE CANADIAN MOTOR VEHICLE SAFETY STANDARDS—Continued

(e) All multipurpose passenger vehicles, trucks, and buses with a GVWR of 4,536 kg (10,000 lb) or less manufactured on or after September 1, 2007 and before September 1, 2008, that, as originally manufactured, comply with FMVSS Nos. 110, 118, 201, 202, 208, 213, 214, and 216, and insofar as they are applicable, with FMVSS Nos. 138 and 225;	
(f) All multipurpose passenger vehicles, trucks, and buses with a GVWR of 4,536 kg (10,000 lb) or less manufactured on or after September 1, 2008 and before September 1, 2009, that, as originally manufactured, comply with FMVSS Nos. 110, 118, 201, 202a, 206, 208, 213, 214, and 216, and insofar as they are applicable, with FMVSS Nos. 138 and 225;	
(g) All multipurpose passenger vehicles, trucks, and buses with a GVWR of 4,536 kg (10,000 lb) or less manufactured on or after September 1, 2009 and before September 1, 2011, that, as originally manufactured, comply with FMVSS Nos. 118, 201, 202a, 206, 208, 213, 214, and 216, and insofar as they are applicable, with FMVSS Nos. 138 and 225;	
(h) All multipurpose passenger vehicles, trucks, and buses with a GVWR of 4,536 kg (10,000 lb) or less manufactured on or after September 1, 2011 and before September 1, 2012, that, as originally manufactured, comply with FMVSS Nos. 201, 202a, 206, 208, 213, 214, and 216, and insofar as they are applicable, with FMVSS Nos. 138 and 225;	
(i) All multipurpose passenger vehicles, trucks, and buses with a GVWR of 4,536 kg (10,000 lb) or less manufactured on or after September 1, 2012 and before September 1, 2017, that, as originally manufactured, comply with FMVSS Nos. 201, 206, 208, 213, 214, and 216, and insofar as they are applicable, with FMVSS Nos. 138, 222, and 225;	
(j) All multipurpose passenger vehicles, trucks, and buses with a GVWR of 4,536 kg (10,000 lb) or less manufactured on or after September 1, 2017, and before May 1, 2018, that as originally manufactured, comply with FMVSS Nos. 138, 201, 206, 208, 213, and 214, and insofar as they are applicable, with FMVSS Nos. 222, 225, and 226;	
(k) All multipurpose passenger vehicles, trucks, and buses with a GVWR of 4,536 kg (10,000 lb) or less manufactured on or after May 1, 2018, and before September 1, 2022, that as originally manufactured, comply with FMVSS Nos. 111, 138, 201, 206, 208, 213, and 214, and insofar as they are applicable, with FMVSS Nos. 222, 225, and 226.	
(a) All multipurpose passenger vehicles, trucks, and buses with a GVWR greater than 4,536 kg (10,000 lb) manufactured before August 1, 2019	VSA-82
(b) All multipurpose passenger vehicles, trucks, and buses with a GVWR greater than 4,536 kg (10,000 lb) manufactured on or after August 1, 2019, and before September 1, 2022, that as originally manufactured, comply with FMVSS 136 insofar as it is applicable.	
All trailers and motorcycles less than 25 years old	VSA-83

**RIN 0648–XF758**

**Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery of the South Atlantic; Re-Opening of the Commercial Sector for Blueline Tilefish**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; re-opening.

**SUMMARY:** NMFS announces the re-opening of the commercial sector for blueline tilefish in the exclusive economic zone (EEZ) of the South Atlantic through this temporary rule. The most recent commercial landings data for blueline tilefish indicate the commercial annual catch limit (ACL) for the 2017 fishing year has not yet been reached. Therefore, NMFS re-opens the commercial sector for blueline tilefish in the South Atlantic EEZ for 8 days to allow the commercial ACL to be caught, while minimizing the risk of the commercial ACL being exceeded.

**DATES:** This rule is effective 12:01 a.m., local time, October 24, 2017 until 12:01 a.m., local time, November 1, 2017.

**FOR FURTHER INFORMATION CONTACT:** Mary Vara, NMFS Southeast Regional Office, telephone: 727–824–5305, email: *mary.vara@noaa.gov*.

**SUPPLEMENTARY INFORMATION:** The snapper-grouper fishery of the South Atlantic includes blueline tilefish and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared

by the South Atlantic Fishery Management Council and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

As specified at 50 CFR 622.193(z)(1)(i), the blueline tilefish commercial ACL is 87,521 lb (39,699 kg), round weight.

NMFS is required to close the commercial sector for blueline tilefish when the commercial ACL specified at 50 CFR 622.193(z)(1)(i) is reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS previously projected that the commercial ACL for South Atlantic blueline tilefish for the 2017 fishing year would be reached by July 18, 2017. Therefore, NMFS published a temporary rule to close the commercial sector for South Atlantic blueline tilefish effective on July 18, 2017, through the end of the 2017 fishing year (82 FR 31924; July 11, 2017). However, a recent landings update indicates that the commercial ACL for blueline tilefish was not met as of July 18, 2017.

In accordance with 50 CFR 622.8(c), NMFS temporarily re-opens the commercial sector for blueline tilefish on October 24, 2017. The commercial sector will remain open for 8 days to allow for the commercial ACL to be reached. The commercial sector will close 8 days later, at 12:01 a.m., local time, November 1, 2017, and remain closed until January 1, 2018, the start of the next fishing year. NMFS has determined that this re-opening will allow for an additional opportunity to commercially harvest blueline tilefish while minimizing the risk of exceeding the commercial ACL.

The operator of a vessel with a valid Federal commercial vessel permit for South Atlantic snapper-grouper having blueline tilefish onboard must have landed and bartered, traded, or sold such blueline tilefish prior to 12:01 a.m., local time, November 1, 2017. During the subsequent commercial closure, all sale or purchase of blueline tilefish is prohibited. The recreational sector for blueline tilefish in South Atlantic Federal waters is closed from January 1 through April 30, and from September 1 through December 31, each

year, and the bag and possession limits for blueline tilefish in or from South Atlantic Federal waters are zero through December 31, 2017. Additionally, these bag and possession limits apply to the harvest of blueline tilefish in both state and Federal waters in the South Atlantic on board a vessel with a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper.

**Classification**

The Regional Administrator, NMFS Southeast Region, has determined this temporary rule is necessary for the conservation and management of blueline tilefish and the South Atlantic snapper-grouper fishery and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.8(c) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The Assistant Administrator for NOAA Fisheries (AA) finds that the need to immediately implement this action to temporarily re-open the commercial sector for blueline tilefish constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), as such procedures are unnecessary and contrary to the public interest. Such procedures are unnecessary because the rule implementing the commercial ACL and AMs has been subject to notice and comment, and all that remains is to notify the public of the re-opening. Such procedures are contrary to the public interest because of the need to immediately implement this action to allow commercial fishers to harvest the commercial ACL of blueline tilefish from the EEZ, while minimizing the risk of exceeding the commercial ACL. Prior notice and opportunity for public comment would be contrary to the public interest because it would not allow for the re-opening of the commercial sector before the end of the fishing season.
