SUPPLEMENTARY INFORMATION:

I. Background

The interim instruction announced via this notice explains the current regulatory requirements for organic

certification and documentation needed to import organic products into the United States, and certifiers' responsibilities in reviewing or issuing import related documents. The instruction also recommends best practices that certifiers may use in order to comply with existing regulatory requirements.

The USDA AMS National Organic Program (NOP) facilitates international trade of organic products by authorizing certifiers around the world to certify farms and businesses to the USDA organic regulations and by establishing trade arrangements with foreign countries. Foreign operations are subject to the same requirements as domestic operations, and organic products verified to be in compliance with these regulations or arrangements can be imported for sale into the United States.

The interim instruction is available from AMS on its Web site at <http://www.ams.usda.gov/rules-regulations/organic>. When finalized, the final instruction will be available in "The Program Handbook: Guidance and Instructions for Accredited Certifying Agents (ACAs) and Certified Operations". This Handbook provides those who own, manage, or certify organic operations with guidance and instructions that can assist them in complying with the USDA organic regulations. The current edition of the Program Handbook is available online at <http://www.ams.usda.gov/rules-regulations/organic/handbook>.

II. Significance of Guidance

This interim instruction is being issued in accordance with the Office of Management and Budget Bulletin on Agency Good Guidance Practices (GGPs) (January 25, 2007, 72 FR 3432–3440).

The purpose of GGPs is to ensure that program guidance documents are developed with adequate public participation, are readily available to the public, and are not applied as binding requirements. The interim instruction represents AMS' efforts to clarify and strengthen compliance with existing regulations on these topics. It does not create or confer any rights for, or on, any person and does not operate to create additional regulatory requirements that legally bind AMS or the public. Guidance documents are intended to provide a uniform method for achieving compliance with the USDA organic regulations, thereby reducing the

burden on certified organic operations to develop their own methods and simplifying audits and inspections. Alternative approaches that can demonstrate compliance with the Organic Foods Production Act, as amended (7 U.S.C. 6501–6522), and its implementing regulations are also acceptable.

III. Electronic Access

Persons with access to Internet may obtain the interim instruction at either AMS' Web site at <http://www.ams.usda.gov/nop> or <http://www.regulations.gov>. Requests for hard copies of the interim instruction can be obtained by submitting a written request to the person listed in the **ADDRESSES** section of this Notice.

Authority: 7 U.S.C. 6501–6522.

Dated: October 19, 2017.
