transmission owners, and certain distribution providers).

56. Of the 1,100 affected entities discussed above, we estimate that approximately 857 or 78 percent\(^70\) of the affected entities are small. As discussed above, proposed Reliability Standard CIP–003–7 enhances reliability by providing criteria against which NERC and the Commission can evaluate the sufficiency of an entity’s electronic access controls for low impact BES Cyber systems, as well as improved security controls for transient electronic devices (e.g., thumb drives, laptop computers, and other portable devices frequently connected to and disconnected from systems). We estimate that each of the 857 small entities to whom the proposed modifications to Reliability Standard CIP–003–7 applies will incur one-time costs of approximately $3,360 per entity to implement this standard, as well as the ongoing paperwork burden reflected in the Information Collection Statement (approximately $39,480 per year per entity). We do not consider the estimated costs for these 857 small entities to be a significant economic impact.

57. Based on the above analysis, we propose to certify that the proposed Reliability Standard will not have a significant economic impact on a substantial number of small entities.

V. Environmental Analysis

58. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.\(^71\) The Commission has categorically excluded certain actions from this requirement as not having a significant effect on the human environment. Included in the exclusion are rules that are clarifying, corrective, or procedural or that do not substantially change the effect of the regulations being amended.\(^72\) The actions proposed herein fall within this categorical exclusion in the Commission’s regulations.

VI. Comment Procedures

59. The Commission invites interested persons to submit comments on the matters and issues proposed in this notice to be adopted, including any related matters or alternative proposals that commenters may wish to discuss. Comments are due December 26, 2017.

Comments must refer to Docket No. RM17–11–000, and must include the commenter’s name, the organization they represent, if applicable, and address.

60. The Commission encourages comments to be filed electronically via the eFiling link on the Commission’s Web site at http://www.ferc.gov. The Commission accepts most standard word processing formats. Documents created electronically using word processing software should be filed in native applications or print-to-PDF format and not in a scanned format. Commenters filing electronically do not need to make a paper filing.

61. Commenters that are not able to file comments electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

62. All comments will be placed in the Commission’s public files and may be viewed, printed, or downloaded remotely as described in the Document Availability section below. Commenters on this proposal are not required to serve copies of their comments on other commenters.

VII. Document Availability

63. In addition to publishing the full text of this document in the Federal Register, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the Internet through the Commission’s Home Page (http://www.ferc.gov) and in the Commission’s Public Reference Room during normal business hours (8:30 a.m. to 5:00 p.m. Eastern time) at 888 First Street NE., Room 2A, Washington, DC 20426.

64. From the Commission’s Home Page on the Internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number of this document, excluding the last three digits, in the docket number field.

65. User assistance is available for eLibrary and the Commission’s Web site during normal business hours from the Commission’s Online Support at 202–502–6652 (toll free at 1–866–208–3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502–8371, TTY (202) 502–8659. Email the Public Reference Room at public.referenceroom@ferc.gov.

By direction of the Commission.

Issued October 19, 2017.

Nathanial J. Davis, Sr.,
Deputy Secretary.

[Docket No. USCG–2016–0723]

RIN 1625–AA09

Drawbridge Operation Regulation; Atlantic Intracoastal Waterway, St. Augustine, FL

AGENCY: Coast Guard, DHS.

ACTION: Advance notice of proposed rulemaking; withdrawal.

SUMMARY: The Coast Guard is withdrawing its advance notice of proposed rulemaking (ANPRM) concerning the Bridge of Lions (SR A1A) across the Atlantic Intracoastal Waterway, mile 777.9, at St. Augustine, Florida. The City of St. Augustine proposed to modify the bridge operating schedule to alleviate vehicle traffic congestion. However, the Coast Guard has determined it would be inappropriate to move forward with a notice of proposed rulemaking. The Coast Guard believes placing additional restrictions to the bridge would add additional hazards to mariners and effect the safe navigation of vessels awaiting bridge openings.

DATES: The notice of proposed rulemaking published on March 15, 2017 (82 FR 13785), is withdrawn on October 26, 2017.

ADDRESSES: The docket for this document, USCG–2016–0723 is available at http://www.regulations.gov. Type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this document.

FOR FURTHER INFORMATION CONTACT: If you have questions about this document, call or email LT Allan Storm, Sector Jacksonville, Waterways Management Division, U.S. Coast Guard; telephone 904–714–7616, email Allan.H.Storm@uscg.mil.

SUPPLEMENTARY INFORMATION: Background Information and Regulatory History

On March 15, 2017, the Coast Guard published an ANPRM entitled “Drawbridge Operation Regulation; Atlantic Intracoastal Waterway, St. Augustine, FL.” in the Federal Register (82 FR 13785). The advance notice of proposed rulemaking sought comments and information concerning a request from the City of St. Augustine to change the operating schedule for the Bridge of Lions across the Atlantic Intracoastal Waterway, St. Augustine, Florida amending the twice an hour operating schedule to a 7 a.m. to 9 p.m. period. The City of St. Augustine was concerned that vehicle traffic was becoming exponentially worse with each passing season and that the current operating schedule was contributing to vehicle traffic backups.

Withdrawal

The Coast Guard received 386 comments, of those, 62 comments were duplicate entries, 204 comments were in favor for the requested change and 120 were against the requested change. The comments in favor of the change generally felt the additional restrictions to the bridge would help alleviate vehicular traffic on or around the bridge and the surrounding area. For the comments that opposed the change, by and large, the main concern was safety of mariners due to strong tidal currents and the high level of vessel activities occurring in the waters near the bridge. Strong currents, the close proximity of mooring fields and marinas would hamper the ability to “keep on station” while waiting for a bridge opening. Also, sailing vessels waiting for bridge opening would be required to be moving constantly all the while avoiding other waiting vessel traffic. The requested change to the operating schedule would extend the twice an hour draw opening schedule by an additional three hours into the evening. Concern was expressed by having to wait for an opening in darkness, stating this would cause additional hazards due to vessels already underway, traffic lights against the city and vehicular lights adjacent to the waterway. The Coast Guard acknowledges all of the above safety concerns, and for that reason, we find that any benefits of the possible additional restrictions to the Bridge of Lions do not outweigh the additional hazards to vessels and mariners transiting the area around the bridge. The current regulation as written in 33 CFR 117.261(d) will remain in effect.

Peter J. Brown,
Rear Admiral, U.S. Coast Guard, Commander, Seventh Coast Guard District.

[Docket No. 2017–10]

Exemptions To Permit Circumvention of Access Controls on Copyrighted Works

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Notice of proposed rulemaking.

SUMMARY: The United States Copyright Office (“Copyright Office” or “Office”) is conducting the seventh triennial rulemaking proceeding under the Digital Millennium Copyright Act (“DMCA”), concerning possible temporary exemptions to the DMCA’s prohibition against circumvention of technological measures that control access to copyrighted works. In this proceeding, the Copyright Office has established a new, streamlined procedure for the renewal of exemptions that were granted during the sixth triennial rulemaking. It is also considering petitions for new exemptions to engage in activities not currently permitted by existing exemptions. On June 30, 2017, the Office published a Notice of Inquiry requesting petitions to renew existing exemptions and comments in response to those petitions, as well as petitions for new exemptions to engage in activities not currently permitted by existing exemptions. The Office has carefully considered the comments received in response to that Notice. With this Notice of Proposed Rulemaking (“NPRM”), the Office intends to recommend each of the existing exemptions for readoption. This NPRM also initiates three rounds of public comment on the newly-proposed exemptions. Interested parties are invited to make full legal and evidentiary submissions in support of or in opposition to the proposed exemptions, in accordance with the requirements set forth below.

DATES: Initial written comments (including documentary evidence) and multimedia evidence from proponents and other interested parties who support the adoption of a proposed exemption, as well as parties that
