with the protection of investors and the public interest. Therefore, the Commission designates the proposed rule change to be operative upon filing.11 At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. Self-Regulatory Organizations; Nasdaq ISE, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Calculation of the Member Order Routing Program

December 14, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),1 and Rule 19b–4 thereunder,2 notice is hereby given that on November 29, 2017, Nasdaq ISE, LLC (“ISE” or “Exchange”) filed with the Securities
I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Schedule of Fees to amend the calculation of the Member Order Routing Program.

While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on December 1, 2017.

The text of the proposed rule change is available on the Exchange’s website at http://ise.cboiwallstreet.com/, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

Currently, an EAM that is MORP eligible receives a rebate for all unsolicited Crossing Orders of $0.05 per originating contract side, provided that the member executes a minimum ADV in unsolicited Crossing Orders of 30,000 to 99,999 originating contract sides though their MORP designated sessions. If the member executed greater than 100,000 originating contract sides, the rebate for all unsolicited Crossing Orders is $0.07 per originating contract side.6 No rebate is paid for volume below 30,000 originating contract sides.

With respect to the Facilitation and Solicitation Break-Up Rebate, any EAM that qualifies for the MORP rebate by executing an ADV of 30,000 originating contract sides or more on their MORP designated sessions is also eligible for increased Facilitation and Solicitation break-up rebates7 for their Non-ISE Market Maker,8 Firm Proprietary,9 Broker-Dealer,10 Professional Customer,11 and Priority Customer orders.12 Currently, MORP eligible members that execute a qualifying ADV in unsolicited Crossing Orders of at least 30,000 originating contract sides, receive a Facilitation and Solicitation break-up rebate that is $0.35 per contract for regular and complex orders against pre-existing orders and quotes on the Exchange’s orderbooks. The applicable fee for Crossing Orders is applied to any contracts for which a rebate is provided.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange operates the Member Order Routing Program (“MORP”),3 which is a program that provides enhanced rebates to order routing firms that select the Exchange as the default routing destination for unsolicited Crossing Orders.4 This proposal seeks to exclude options overlaying NDX5 from the calculation of MORP for purposes of rebates.

Eligible MORP Electronic Access Members (EAMS) that execute a monthly average daily volume (ADV) in unsolicited Crossing Orders of 30,000 originating contract sides or more on their MORP designated sessions are eligible for increased Facilitation and Solicitation break-up rebates in addition to enhanced rebates for Unsolicited Crossing Orders. Break-up rebates, which are shown in the table below, apply instead of rebates described in Sections I, II, and III of the Schedule of Fees, and will be provided for contracts that are submitted to the Facilitation and Solicited Order Mechanisms that do not trade with their contra order except when those contracts trade against pre-existing orders and quotes on the Exchange’s orderbooks. The applicable fee for Crossing Orders is applied to any contracts for which a rebate is provided.

Facilitation and Solicitation Break-Up Rebates are as follows:

5 NDX represents options on the Nasdaq 100 Index traded under the symbol NDX (“NDX”).

6 The rebate for the highest tier achieved is applied retroactively to all eligible contracts traded in a given month. For purposes of determining whether the member meets the above ADV thresholds, any day that the Exchange is not open for the entire trading day or the Exchange instructs members in writing to route their orders to other markets may be excluded from such calculation; provided that the Exchange will only remove the day for members that would have a lower ADV with the day included.

7 Break-up rebates are provided for contracts that are submitted to the Facilitation and Solicited Order Mechanisms that do not trade with their contra order except when those contracts trade against pre-existing orders and quotes on the Exchange’s orderbooks. The applicable fee for Crossing Orders is applied to any contracts for which a rebate is provided.

8 A “Non-ISE Market Maker” is a market maker as defined in Section 3(a)(38) of the Securities Exchange Act of 1934, as amended, registered in the same options class on another options exchange.

9 A “Firm Proprietary” order is an order submitted by a member for its own proprietary account.

10 A “Broker-Dealer” order is an order submitted by a member for a broker-dealer account that is not its own proprietary account.

11 A “Professional Customer” is a person or entity that is not a broker/dealer and is not a Priority Customer.

9 See Securities Exchange Act Release No. 74706 (April 10, 2016), 80 FR 20522 (April 16, 2016) (SR–ISE–2015–11). A Member may designate one or more sessions to be eligible for MORP. A session is connection to the exchange over which a member submits orders. See Section V.C. of the Schedule of Fees. If a session is designated as eligible for MORP all requirements for the program must be met for that session.

4 A “Crossing Order” is an order executed in the Exchange’s Facilitation Mechanism, Solicited Order Mechanism, Price Improvement Mechanism (“PIM”) or submitted as a Qualified Contingent Cross (“QCC”) order. For purposes of the fee schedule, orders executed in the Block Order Mechanism are also considered Crossing Orders.
in Select Symbols, $0.15 per contract for regular orders in Non-Select Symbols, $0.80 per contract for complex orders in Non-Select Symbols, and $0.15 per contract for regular and complex orders in foreign exchange option classes (“FX Options”).

Proposal

This proposal would exclude options overlying NDX from the monthly ADV when calculating the originating contract side for unsolicited Crossing Orders executed by an eligible EAM on their MORP designated sessions. NDX would not be subject to unsolicited Crossing Orders rebates and Facilitation and Solicitation break-up rebates. NDX will continue to be subject to Section I Index Options pricing for simple orders and Non-Select pricing for complex orders.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act, in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act, in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange's proposal to exclude options overlying NDX from the monthly ADV when calculating unsolicited Crossing Orders rebates and also from Facilitation and Solicitation break-up rebates is reasonable because the MORP will continue to be attractive to members that participate in the program. Under MORP, which is a voluntary rebate program, the Exchange currently provides enhanced rebates to EAMs that connect directly to the Exchange and provide their clients with order routing functionality that includes all U.S. options exchanges, including ISE. Even with the exclusion of NDX from the MORP monthly ADV and rebates, the Exchange still believes that Members will continue to be incentivized to participate in the program. The Exchange today prices Index Options separately from other multiply-listed options. This practice of pricing certain products separately is not novel.

The Exchange’s proposal to exclude options overlying NDX from the monthly ADV when calculating unsolicited Crossing Orders rebates and also from Facilitation and Solicitation break-up rebates is equitable and not unfairly discriminatory because no Member would be eligible to include NDX in monthly ADV and receive MORP rebates. The Exchange would uniformly calculate tiers and pay rebates associated with MORP.

Any EAM that participates in the program will be provided the rebates on an equal and non-discriminatory basis based on the order flow executed on the Exchange.

B. Self-Regulatory Organization’s Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act, the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. Order routing firms that participate in MORP and select the Exchange as the default routing destination for unsolicited Crossing Orders will continue to receive enhanced rebates. The exclusion from NDX from the monthly ADV when calculating unsolicited Crossing Orders rebates and also from Facilitation and Solicitation break-up rebates will apply uniformly to all ISE Members. Other exchanges price certain symbols differently.

The Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competitive venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and rebates to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed fee changes reflect this competitive environment.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 1017, entitled “Openings in Options,” to specify the obligations of a Specialist when entering Valid Width Quotes during the Opening Process.

The text of the proposed rule change is available on the Exchange’s website at http://nasdaophlx.cchwallstreet.com/, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to amend Rule 1017, Openings in Options, to amend the obligations of a Specialist when entering Valid Width Quotes during the Opening Process. In addition, the Exchange proposes to make clear the obligations of a Specialist and a Phlx Electronic Market Maker once an options series has opened.

Currently, Rule 1017(d)(i) provides, the Opening Process for an option series will be conducted pursuant to paragraphs (f)–(k) of Phlx Rule 1017 below on or after 9:30 a.m. if: The ABBO, if any, is not crossed; and the system has run two minutes (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange’s website) of the opening trade or quote on the market for the underlying security in the case of equity options or, in the case of index options, within two minutes of the receipt of the opening price in the underlying index (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange’s website) of the opening price in the underlying index during the Opening Process if a Phlx Electronic Market Maker has entered an order pursuant to Rule 1017(d)(i)(B) and (C) within the timeframe specified for the Specialist to enter a Valid Width Quote in the case of index options, following the receipt of the opening price in the underlying index during the Opening Process if a Phlx Electronic Market Maker entered an order pursuant to Rule 1017(d)(i)(B) and (C) within the timeframe specified for the Specialist to enter a Valid Width Quote in the case of index options, following the receipt of the opening price in the underlying index during the Opening Process. The Specialist assigned in a particular instance of an order submitted for an index option must enter a Valid Width Quote, in 90% of their assigned series, not later than one minute following the dissemination of a quote to trade the market for the underlying security or, in the case of index options, following the receipt of the opening price in the underlying index.

The proposed rule change would not require the Specialist to enter a Valid Width Quote for the 10% of their assigned series, not later than one minute following the dissemination of a quote or trade the market for the underlying security or, in the case of index options, following the receipt of the opening price in the underlying index.

The Specialist assigned in a particular U.S. dollar-settled FCO must enter a Valid Width Quote, in 90% of their assigned series, not later than 30 seconds after the announced market opening. The Specialist must promptly enter a Valid Width Quote in the remainder of their assigned series, which did not open within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the opening price in the underlying index or, with respect to a U.S. dollar-settled FCO, following the announced market opening.

The Exchange proposes to make clear that a Specialist has the obligations specified in Phlx Rule 1017(d)(ii) to promptly enter a Valid Width Quote in the remainder of their assigned series in cases where the Specialist’s assigned series was not already opened by a Phlx Electronic Market Maker as permitted by Rule 1017(d)(i) as noted herein. The Specialist would continue to have the ultimate obligation to open each assigned series, however this rule change would not require the Specialist to enter a Valid Width Quote for the 10% of their assigned series, not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the opening price in the underlying index during the Opening Process if a Phlx Electronic Market Maker entered an order pursuant to Rule 1017(d)(i)(B) and (C) within the timeframe specified for the Specialist to enter a Valid Width Quote as specified in Rule 1017(d)(ii) of the underlying index during the Opening Process.

Also, the Specialist assigned in a particular U.S. dollar-settled FCO must enter a Valid Width Quote for 10% of their assigned series, not later than 3 [sic] seconds after the announced market opening during the Opening Process if a Phlx Electronic Market Maker entered an order pursuant to Rule 1017(d)(i)(B) and (C) within the timeframe specified for the Specialist to enter a Valid Width Quote in the case of index options, following the receipt of the opening price in the underlying index during the Opening Process.

B. Statutory Basis for the Proposed Rule Change

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.23
