## FEDERAL ELECTION COMMISSION

### 11 CFR Chapter I

[Notice 2017-17]

#### Change of Address; Technical Amendments

**AGENCY:** Federal Election Commission.

**ACTION:** Final rule.

**SUMMARY:** The Federal Election Commission (“FEC” or “Commission”) will relocate to a building with a different street address in 2018 and is amending its regulations referencing its current street address to reflect this change in location.

**DATES:** This rule is effective January 1, 2018.

**FOR FURTHER INFORMATION CONTACT:** Mr. Tony Buckley, Attorney, or Mr. Eugene Lynch, Paralegal, (202) 694-1650 or (800) 424-9530.

**SUPPLEMENTARY INFORMATION:** On March 5, 2018, the Federal Election Commission will officially relocate to a new street address: 1050 First Street NE, Washington, DC 20463. Until March 5, 2018, the Commission will continue to reside and accept mail at 999 E Street NW, Washington, DC 20463.

The Commission is promulgating these amendments without advance notice or an opportunity for comment because they fall under the “good cause” exemption of the Administrative Procedure Act. 5 U.S.C. 553(b)(B). The Commission finds that notice and comment are unnecessary here because these amendments are merely technical; they effect no substantive changes to any rule. For the same reason, these amendments fall within the “good cause” exception to the delayed effective date provisions of the Administrative Procedure Act and the Congressional Review Act. 5 U.S.C. 553(d)(3), 808(2). Moreover, because these amendments are exempt from the notice and comment procedure of the Administrative Procedure Act under 5 U.S.C. 553(b), the Commission is not required to conduct a regulatory flexibility analysis under 5 U.S.C. 603 or 604. See 5 U.S.C. 601(2), 604(a). Nor is the Commission required to submit

these amendments for congressional review under the Federal Election Campaign Act of 1971, as amended, the Presidential Election Campaign Fund Act, as amended, or the Presidential Primary Matching Payment Account Act, as amended. See 52 U.S.C. 30111(d)(1), (4) (providing for congressional review when Commission “prescribe[s] a “rule of law”); 26 U.S.C. 9009(c)(1), (4), 9039(c)(1), (4) (same).

[Docket No. FAA-2017-1110; Special Conditions No. 33-021-SC]

**Special Conditions: Light Helicopter Turbine Engine Company (LHTEC), CTS800-4AT; 30-Minute All Engines Operating Power Rating**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final special conditions; request for comments.

**SUMMARY:** These special conditions are issued for the Light Helicopter Turbine Engine Company (LHTEC), CTS800-4AT turboshaft engine model. This engine model will have a novel or unusual design feature associated with a 30-minute all engines operating (AEO) power rating. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for this design feature. These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.

**DATES:** The effective date of these special conditions is January 10, 2018. We must receive your comments by January 25, 2018.

**ADDRESSES:** Send comments identified by docket number FAA-2017-1110 using any of the following methods:

- *Federal eRegulations Portal:* Go to <http://www.regulations.gov> and follow the online instructions for sending your comments electronically.

- *Mail:* Send comments to Docket Operations, M-30, U.S. Department of Transportation (DOT), 1200 New Jersey Avenue SE, Room W12-140, West Building Ground Floor, Washington, DC 20590-0001.

- *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

- *Fax:* Fax comments to Docket Operations at 202-493-2251.

*Privacy:* In accordance with 5 U.S.C 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to [www.regulations.gov](http://www.regulations.gov), as described in the system of records notice (DOT/ALL-

14 FDMS), which can be reviewed at [www.dot.gov/privacy](http://www.dot.gov/privacy).

*Docket:* Background documents or comments received may be read at <http://www.regulations.gov> at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Christopher Richards, AIR-6A2, Engine and Propeller Standards Branch, Aircraft Certification Service, 1200 District Avenue, Burlington, Massachusetts 01803-5213; telephone (847) 361-0837; facsimile (781) 238-7199; email [Christopher.J.Richards@faa.gov](mailto:Christopher.J.Richards@faa.gov).

**SUPPLEMENTARY INFORMATION:** The FAA has determined that notice of, and opportunity for prior public comment on, these special conditions is impracticable because these procedures would significantly delay issuance of the Type Certificate approval and thus, delivery of the affected engines.

In addition, the substance of these special conditions has been subjected to the notice and comment period in prior instances, and has been derived without substantive change from those previously issued. It is unlikely that prior public comment would result in a significant change from the substance contained herein. Therefore, because a delay would significantly affect the certification of the engine, which is imminent, the FAA has determined that prior public notice and comment are unnecessary and impracticable, and good cause exists for adopting these special conditions.

**Comments Invited**

We invite interested people to take part in this rulemaking by sending written comments, data, or views. The most helpful comments reference a specific portion of the special conditions, explain the reason for any recommended change, and include supporting data. We will consider all comments we receive by the closing date for comments. We may change these special conditions based on the comments we receive.

**Background**

On April 14, 2017, LHTEC applied for an amendment to Type Certificate No. TE2CH to include the new CTS800-4AT turboshaft engine model. The CTS800-4AT turboshaft engine model is a derivative model in the CTS800 turboshaft engine series. The CTS800-
