SUPPLEMENTARY INFORMATION:

I. Background

In the *Federal Register* of October 13, 2017, FDA published a notice of availability with a 60-day comment period to request comments on the draft guidance for industry entitled “Determining Whether to Submit an ANDA or 505(b)(2) Application.”

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on factors for applicants to consider when determining which one of the abbreviated approval pathways under the Federal Food, Drug, and Cosmetic Act is appropriate for the submission of a marketing application to FDA. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

The Agency has received a request for a 30-day extension of the comment period for the draft guidance. The request conveyed concern that the requestor did not have sufficient time to develop a meaningful or thoughtful response to the draft guidance.

FDA has considered the request and is reopening the comment period for the draft guidance for 30 days, until February 12, 2018. The Agency believes that a 30-day reopening of the comment period allows adequate time for interested persons to submit comments to ensure that the Agency can consider the comments on this draft guidance before it begins work on the final version of the guidance.

II. Electronic Access

Persons with access to the internet may obtain the draft guidance at either <https://www.fda.gov/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/default.htm> or <https://www.regulations.gov>.

Dated: January 8, 2018.

Leslie Kux,

Associate Commissioner for Policy.
