or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. FLEX states that no new construction or changes to the Liquefaction Project facilities will be required for the short-term exports requested in the Application. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Interested persons will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, notices of intervention, or motions for additional procedures.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) Emailing the filing to fergas@hq.doe.gov, with FE Docket No. 18–03–LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in ADDRESSES; or (3) hand delivering an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in ADDRESSES. All filings must include a reference to FE Docket No. 18–03–LNG. Please Note: If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties’ written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Office of Regulation and International Engagement docket room, Room 3E–042, 1000 Independence Avenue SW, Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: http://www.fe.doe.gov/programs/gasregulation/index.html.

DEPARTMENT OF ENERGY

Notice of Public Meeting of the Supercritical CO2 Oxy-Combustion Technology Group

AGENCY: National Energy Technology Laboratory, Office of Fossil Energy, Department of Energy.

ACTION: Notice of public meeting.

SUMMARY: The National Energy Technology Laboratory (NETL) will host a public meeting via WebEx February 27, 2018, of the Supercritical CO2 Oxy-combustion Technology Group, to address challenges associated with oxy-combustion systems in directly heated supercritical CO2 (sCO2) power cycles.

DATES: The public meeting will be held on February 27, 2018, from 1:00 p.m. to 3:00 p.m. EST.

ADDRESSES: The public meeting will be held via WebEx and hosted by NETL.

FOR FURTHER INFORMATION CONTACT: For further information regarding the public meeting, please contact Seth Lawson or Walter Perry at NETL by telephone at (304) 285–4469, by email at Seth.Lawson@netl.doe.gov, Walter.Perry@netl.doe.gov, or by postal mail addressed to National Energy Technology Laboratory, 3610 Collins Ferry Road, P.O. Box 880, Morgantown, WV 26507–0880. Please direct all media inquiries to the NETL Public Affairs Officer at (304) 285–0228.

SUPPLEMENTARY INFORMATION:

Instructions and Information on the Public Meeting

The public meeting will be held via WebEx. The public meeting will begin at 1:00 p.m. and end at 3:00 p.m. Meeting details will be available prior to the meeting on the NETL website, https://www.netl.doe.gov/events/sco2-tech-group. Interested parties may RSVP, to confirm their participation and receive login instructions, by emailing Seth.Lawson@netl.doe.gov. The objective of the Supercritical CO2 Oxy-combustion Technology Group is to promote a technical understanding of oxy-combustion for direct-fired sCO2 power cycles by sharing information or viewpoints from individual participants regarding risk reduction and challenges associated with developing the technology.

Oxy-combustion systems in directly heated supercritical CO2 (sCO2) power cycles utilize natural gas or syngas oxy-combustion systems to produce a high temperature CO2 working fluid and have the potential to be efficient, cost effective and well-suited for carbon dioxide (CO2) capture. To realize the benefits of direct fired SCO2 power cycles, the following challenges must be addressed: Chemical kinetic uncertainties, combustion instability, flowpath design, thermal management, pressure containment, definition/prediction of turbine inlet conditions, ignition, off-design operation, transient capabilities, in-situ flame monitoring, and modeling, among others.

The format of the meeting will facilitate equal opportunity for discussion among all participants; all participants will be welcome to speak. Following a detailed presentation by one volunteer participant regarding lessons learned from this or her area of research, other participants will be provided the opportunity to briefly
share lessons learned from their own research. Meetings are expected to take place every other month with a different volunteer presenting at each meeting. Meeting minutes shall be published for those who are unable to attend.

This meeting is considered “open-to-the-public”; the purpose for this meeting has been examined during the planning stages, and NETL management has made specific determinations that affect attendance. All information presented at this meeting must meet criteria for public sharing or be published and available in the public domain. Participants should not communicate information that is considered official use only, proprietary, sensitive, restricted or protected in any way. Foreign nationals, who may be present, have not been protected in any way. Foreign nationals, considered official use only, communicate information that is domain. Participants should not publish and available in the public domain. Those who are unable to attend.

Dated: January 10, 2018.
Heather Quedenfeld.
Associate Director, Coal Technology Development & Integration Center, National Energy Technology Laboratory.

FOR FURTHER INFORMATION CONTACT:
Requests for additional information or copies of the information collection instrument and instructions should be directed to John M. Sullivan, GC–63, Department of Energy, 1000 Independence Ave. SW, Washington, DC 20585; Fax: (202) 586–0971; or email at: john.m.sullivan@hq.doe.gov.

SUPPLEMENTARY INFORMATION:
This information collection request contains: (1) OMB No. 1910–5165; (2) Information Collection Request Title: Davis-Bacon Semi-Annual Labor Compliance Report; (3) Type of Request: Three-year extension without changes; (4) Purpose: To obtain information from the Department of Energy Management and Operation, Facilities Management Contractors, and recipients of financial assistance whose work is subject to the Davis-Bacon Act; (5) Annual Estimated Number of Respondents: 75; (6) Annual Estimated Number of Total Responses: 150; (7) Annual Estimated Number of Burden Hours: 2 per respondent for total of 300 hours per year; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: $0.00 annually.

Statutory Authority: 29 CFR part 5, Section 5.7(b).

Issued in Washington, DC, on January 25, 2018.

DEPARTMENT OF ENERGY
Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Notice and request for OMB review and comment.

SUMMARY: The Department of Energy (DOE), pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years, an information collection request with the Office of Management and Budget (OMB). All Federal agencies administering programs subject to Davis-Bacon wage provisions are required to submit to the Department of Labor (DOL) a report of all new covered contracts/projects and all compliance and enforcement activities every six months. In order for the DOE to comply with this reporting requirement, it must collect contract and enforcement information from Recovery Act funded Loan and Loan Guarantee Borrowers, DOE direct contractors, and other prime contractors that administer DOE programs subject to Davis-Bacon requirements.

DATES: Comments regarding this collection must be received on or before March 2, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at (202) 395–4650.

ADDRESSES: Written comments should be sent to: DOE Desk Officer at Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW, Washington, DC 20503.

And to: John M. Sullivan, GC–63, Department of Energy, 1000 Independence Ave. SW, Washington, DC 20585; Fax: (202) 586–0971; or email at: john.m.sullivan@hq.doe.gov.
