**SUPPLEMENTARY INFORMATION:**

*Title:* Trichinae Certification Program.  
*OMB Control Number:* 0579-0323.

*Type of Request:* Revision to and  
extension of approval of an information  
collection.

*Abstract:* Under the Animal Health  
Protection Act (7 U.S.C. 8301 *et seq.*),  
the Animal and Plant Health Inspection  
Service (APHIS) of the U.S. Department  
of Agriculture is authorized, among  
other things, to prohibit or restrict the  
importation and interstate movement of  
animals and animal products to prevent  
the introduction into and dissemination  
within the United States of livestock  
diseases and pests and to conduct  
programs to detect, control, and  
eradicate pests and diseases of livestock.  
In addition, under the Agricultural  
Marketing Act of 1946 (7 U.S.C. 1622),  
the APHIS Administrator has authority  
with respect to voluntary inspection and  
certification of animal products and the  
inspection, testing, treatment, and  
certification of animals.

APHIS regulations in 9 CFR part 149  
contain certification requirements for  
the voluntary Trichinae Certification  
Program, which is a cooperative effort  
by APHIS and the U.S. pork industry.  
The program is intended to enhance the  
ability of swine producers, as well as  
slaughter facilities and other persons  
that handle or process swine from pork  
production sites that have been certified  
under the program, to export fresh pork  
and pork products to foreign markets.

There are a number of information  
collection activities associated with the  
voluntary Trichinae Certification  
Program, such as requests to temporarily  
withdraw from the program, notification  
to APHIS of program withdrawal,  
requests for review of audit results or  
other determinations, certification site  
audit forms and requests for  
certification site audits, spot audits,  
animal disposal plans, animal  
movement records, rodent control  
logbooks, feed mill quality assurance  
affidavits, slaughter testing records, and  
recordkeeping.

We are asking the Office of  
Management and Budget (OMB) to  
approve our use of these information  
collection activities, as described, for an  
additional 3 years.

The purpose of this notice is to solicit  
comments from the public (as well as  
affected agencies) concerning our

information collection. These comments  
will help us:

(1) Evaluate whether the collection of  
information is necessary for the proper  
performance of the functions of the  
Agency, including whether the  
information will have practical utility;

(2) Evaluate the accuracy of our  
estimate of the burden of the collection  
of information, including the validity of  
the methodology and assumptions used;

(3) Enhance the quality, utility, and  
clarity of the information to be  
collected; and

(4) Minimize the burden of the  
collection of information on those who  
are to respond, through use, as  
appropriate, of automated, electronic,  
mechanical, and other collection  
technologies; *e.g.*, permitting electronic  
submission of responses.

*Estimate of burden:* The public  
burden for this collection of information  
is estimated to average 0.48 hours per  
response.

*Respondents:* Auditors (accredited  
veterinarians or State animal health  
officials), pork producers, mill  
managers, slaughter facility personnel,  
and personnel from approved  
laboratories.

*Estimated annual number of  
respondents:* 66.

*Estimated annual number of  
responses per respondent:* 16.

*Estimated annual number of  
responses:* 1,085.

*Estimated total annual burden on  
respondents:* 521 hours. (Due to  
averaging, the total annual burden hours  
may not equal the product of the annual  
number of responses multiplied by the  
reporting burden per response.)

All responses to this notice will be  
summarized and included in the request  
for OMB approval. All comments will  
also become a matter of public record.

Done in Washington, DC, this 26th day of  
January 2018.

Administrator, Animal and Plant Health  
Inspection Service.

BILLING CODE 3410-34-P

**DEPARTMENT OF AGRICULTURE**

**Commodity Credit Corporation**

**Withdrawal of the Notice of Funds  
Availability (NOFA) for and the  
Cancellation of the Farm-to-Fleet  
Feedstock Program Biofuel Production  
Incentive (BPI)**

**AGENCY:** Commodity Credit Corporation  
and Farm Service Agency, USDA.

**ACTION:** Notice of withdrawal and cancellation.

**SUMMARY:** The U.S. Department of Agriculture (USDA) Commodity Credit Corporation (CCC) has withdrawn support for the Farm-to-Fleet BPI Program, and is cancelling funding for the BPI payments to companies that are refining biofuel in the United States from certain domestically grown feedstocks converted to drop-in biofuel for delivery to supply biofuels to the Navy. USDA has reassessed how to best use limited available funds and has determined that the BPI is no longer a priority for CCC funding. The impact of this withdrawal is that suppliers of fuel containing a biofuel blend to the U.S. Navy are no longer eligible to receive a CCC incentive payment, through the Farm-to-Fleet BPI Program.

**DATES:** *Effective:* February 1, 2018.

**FOR FURTHER INFORMATION CONTACT:** Kelly Novak, (202) 720-4053.

**SUPPLEMENTARY INFORMATION:** A notice of funds availability for the Farm-to-Fleet Feedstock BPI was published in the **Federal Register** on December 29, 2016, (81 FR 95956-95958). The BPI payments were intended to support a joint USDA and U.S. Navy Farm-to-Fleet Program that was announced in December 2013, which provided incentive funds to companies that are refining biofuel in the United States from certain domestically grown feedstocks converted to drop-in biofuel for delivery to supply biofuels to the Navy.

CCC funds, administered by the Farm Service Agency (FSA), were used for BPI payments to help increase the domestic consumption of agricultural commodities in the biofuel market. Up to \$50 million of CCC funds was announced as being available through FY 2018. This notice withdraws the availability of BPI payments for deliveries not yet solicited or procured by the U.S. Navy and Defense Logistics Agency (DLA) Energy office and cancels USDA support for biofuel blends solicited by the DLA Energy office and US Navy. Specifically, FSA will continue to make the BPI payments required under the existing commitments. BPI payments will continue to be made to the eligible claimant awarded a contract under DLA Energy's Rocky Mountain West solicitation (SPE600-17-R-0709) and BPI payments will be made on any awards resulting from the Rocky Mountain West and Inland East Gulf solicitations published prior to the publication of this withdrawal. No BPI payments will be made related to any

DLA Energy solicitations that are announced after this withdrawal is published.

## DEPARTMENT OF COMMERCE

### National Telecommunications and Information Administration

[Docket Number: 131219999-7305-03]

RIN 0660-XC009

#### First Responder Network Authority; Revised National Environmental Policy Act Procedures and Categorical Exclusions

**AGENCY:** First Responder Network Authority, National Telecommunications and Information Administration, U.S. Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The First Responder Network Authority ("FirstNet") publishes this notice of its final procedures for implementing the National Environmental Policy Act ("NEPA"). The final procedures include a revised list of, and replace, previously established categorical exclusions ("CEs") and extraordinary circumstances.

**DATES:** These procedures take effect as of February 1, 2018.

**FOR FURTHER INFORMATION CONTACT:** Eli Veenendaal, First Responder Network Authority, National Telecommunications and Information Administration, U.S. Department of Commerce, 3122 Sterling Circle, Suite 100, Boulder, CO 80301 or [elijah.veenendaal@firstnet.gov](mailto:elijah.veenendaal@firstnet.gov).

**SUPPLEMENTARY INFORMATION:**

#### I. Background

The Middle Class Tax Relief and Job Creation Act of 2012 (47 U.S.C. 1401 *et seq.*) (the "Act") established the First Responder Network Authority ("FirstNet") as an independent authority within the National Telecommunications and Information Administration ("NTIA"). FirstNet's statutory mission is to take all actions necessary to ensure the establishment of a nationwide public safety broadband network ("NPSBN").<sup>1</sup> Moreover, the Act meets a long-standing and critical

national infrastructure need to create a single, nationwide interoperable network that will, for the first time, allow public safety entities such as police officers, fire fighters, emergency medical service professionals, and other public safety personnel to effectively communicate with each other across agencies and jurisdictions.

On April 28, 2014, FirstNet, as a newly created federal entity, published a notice in the **Federal Register** finalizing its NEPA implementing procedures.<sup>2</sup> These NEPA implementing procedures provided the framework for FirstNet's establishment of a NEPA compliance program and for applying the appropriate level of NEPA review for major federal actions related to the deployment of the NPSBN. More specifically, FirstNet's NEPA implementing procedures supplemented the Council on Environmental Quality ("CEQ") regulations and provided guidance to FirstNet employees and potential Applicants regarding the procedural requirements for the application of NEPA.<sup>3</sup>

As it has continued to mature as an organization, FirstNet has identified the need to modify its NEPA implementing procedures and revise its list of categorical exclusions and extraordinary circumstances (CEs) to ensure that such procedures better align with FirstNet's statutory mission and activities related to the deployment of the NPSBN, as well as better assist FirstNet in complying with NEPA as well as CEQ and Federal Communications Commission ("FCC") regulations. More specifically, FirstNet, as both an independent federal authority and a licensee of the FCC, must satisfy its own NEPA obligations as well as comply with FCC-promulgated NEPA procedures.<sup>4</sup>

Accordingly, on June 23, 2017, FirstNet published for comment proposed revisions to its NEPA implementing procedures and

<sup>2</sup> FirstNet, National Environmental Policy Act Implementing Procedures and Categorical Exclusions, 79 FR 23,950 (April 29, 2014).

<sup>3</sup> The term "Applicant" means any person, entity, or federal, state, tribal, or territorial government body that seeks to take an action related to the Nationwide Public Safety Broadband Network (NPSBN) or an action that is otherwise under the direct control and responsibility of FirstNet, including, but not limited to, actions that occur under any type of agreement related to the use of the spectrum licensed to FirstNet under station license call sign WQQE234, or actions requiring the approval of or funding provided by FirstNet.

<sup>4</sup> See generally 40 CFR 1507.3 (stating federal agencies with overlapping NEPA requirements related to the same project are encouraged to streamline their NEPA implementing procedures to avoid duplicative NEPA review).
