recreational vessels, passenger vessels, fishing vessels and deep draft vessel;  
• The economic impact of bar closures and restrictions on the maritime community; and  
• Preferred methods of notification for bar restrictions and closures.

IV. Public Participation and Request for Comments

We encourage you to submit comments through the Federal portal at http://www.regulations.gov. If your material cannot be submitted using http://www.regulations.gov, contact the person in the FOR FURTHER INFORMATION CONTACT section of this document for alternate instructions. In your submission, please include the docket number for this notice of inquiry and provide a reason for each suggestion or recommendation.

We accept anonymous comments. All comments received will be posted without change to http://www.regulations.gov and will include any personal information you have provided. For more about privacy and the docket, visit http://www.regulations.gov/privacyNotice.

All public comments will be available in our online docket at http://www.regulations.gov and can be viewed by following that website’s instructions.

This document is issued under authority of 33 U.S.C. 1231.

Dated: February 1, 2018.

James B. Pruett,
Captain, U.S. Coast Guard, Acting
Commander, Eleventh Coast Guard District.

BILLING CODE 9110–04–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; KY; Fine Particulate Matter and Ozone NAAQS Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve portions of State Implementation Plan (SIP) revisions submitted by the Commonwealth of Kentucky, through the Kentucky Division for Air Quality, on December 21, 2016 and August 29, 2017, on behalf of the Louisville Metro Air Pollution Control District (District). EPA is proposing to approve the portions of the submittals that modify the District’s Ambient Air Quality Standards regulation, as incorporated into the SIP. The revisions to the SIP that EPA is proposing to approve pertain to changes to the District’s air quality standards for fine particulate matter (PM_{2.5}) and ozone to reflect the 2012 PM_{2.5} and 2015 ozone national ambient air quality standards (NAAQS). EPA is proposing to approve these portions of the SIP revisions because the Commonwealth has demonstrated that they are consistent with the Clean Air Act (CAA or Act). EPA will act on the other portions of the December 21, 2016, and August 29, 2017, submittals in a separate action.

DATES: Written comments must be received on or before March 12, 2018.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R04–OAR–2017–0550 at https://www.regulations.gov. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit https://www2.epa.gov/dockets/commenting-epa-dockets.

FOR FURTHER INFORMATION CONTACT: Madolyn Sanchez, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. Ms. Sanchez can be reached via telephone at (404) 562–9644 or via electronic mail at sanchez.madolyn@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Sections 108 and 109 of the CAA govern the establishment, review, and revision, as appropriate, of the NAAQS to protect public health and welfare. The CAA requires periodic review of the air quality criteria—the science upon which the standards are based—and the standards themselves. EPA’s regulatory provisions that govern the NAAQS are found at 40 CFR 50—National Primary and Secondary Ambient Air Quality Standards. In this rule, EPA is proposing to approve the portions of the revisions to the Jefferson County air quality regulations 1 addressing Regulation 3.01, Ambient Air Quality Standards, in the Kentucky SIP, submitted by the Commonwealth on December 21, 2016, and August 29, 2017. Regulation 3.01 is amended 2 by updating air quality standards in Section 7 for PM_{2.5} and ozone to reflect the most recent NAAQS, removing the numbering of the subsections in Section 7, and making textual modifications to the footnotes. The SIP submittals amending the Jefferson County regulations to incorporate the most recent PM_{2.5} and ozone NAAQS can be found in the docket for this rulemaking at www.regulations.gov and are summarized below.

II. EPA’s Analysis of Kentucky’s Submittal

On December 14, 2012 (78 FR 3086), EPA promulgated a revised primary annual PM_{2.5} NAAQS, strengthening it from 15.0 micrograms per cubic meter (µg/m^3) to 12.0 µg/m^3, and retained the existing primary 24-hour PM_{2.5} standard at 35 µg/m^3. Accordingly, in the August 29, 2017, SIP submittal, the District revised Regulation 3.01, Ambient Air Quality Standards, to update the primary air quality standard for PM_{2.5} to be consistent with the NAAQS that were promulgated by EPA in 2012. EPA has reviewed this change to the Jefferson County regulation for PM_{2.5} and has made the determination that this change is consistent with federal regulations.

On October 1, 2015 (80 FR 65292), EPA promulgated revised 8-hour primary and secondary ozone NAAQS, strengthening both from 0.075 parts per

---

1 In 2003, the City of Louisville and Jefferson County governments merged and the “Jefferson County Air Pollution Control District” was renamed the “Louisville Metro Air Pollution Control District.” However, each of the regulations in the Jefferson County portion of the Kentucky SIP still has the subheading “Air Pollution Control District of Jefferson County.” Thus, to be consistent with the terminology used in the SIP, EPA refers throughout this notice to regulations contained in the Jefferson County portion of the Kentucky SIP as the “Jefferson County” regulations.

2 The District refers to the revised version of Regulation 3.01 in its December 21, 2016, submittal as “Version 6” and the revised version of Regulation 3.01 in its August 29, 2017, submittal as “Version 7.” Upon EPA’s final approval of changes to Regulation 3.01, the text of the regulation in the SIP will reflect Version 7.
In this rule, EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is proposing to incorporate by reference Jefferson County Regulation 3.01, Ambient Air Quality Standards, effective September 21, 2016, and February 15, 2017, which was revised to be consistent with the current NAAQS. EPA has made, and will continue to make, these materials generally available through www.regulations.gov and/or at the EPA Region 4 Office. (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information).

IV. Proposed Action

EPA is proposing to approve the Commonwealth of Kentucky December 21, 2016, and August 29, 2017, SIP revisions identified in section II above, because these changes are consistent with the CAA.

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a).

Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. This action merely proposes to approve state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4); and
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19805, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Relational matters, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Authority: 42 U.S.C. 7401 et seq.

Onis “Trey” Glenn, III, Regional Administrator, Region 4.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; AL; Section 128 Board Requirements for Infrastructure SIPs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a State Implementation Plan (SIP) submission, submitted by the State of Alabama, through the Alabama Department of Environmental Management (ADEM), on October 24, 2017. This submission addresses the Clean Air Act (CAA or Act) requirements applicable to Alabama state boards or agency personnel with respect to the approval of permits or enforcement orders. The submission also specifically addresses requirements for implementation of the following national ambient air quality standards (NAAQS): 1997, 2006, and 2012 Fine Particulate Matter (PM2.5), 2008 8-hour Ozone, 2008 Lead, 2010 Nitrogen Dioxide (NO2), and 2010 Sulfur Dioxide (SO2). The CAA requires that each state adopt and submit a SIP for the implementation, maintenance and enforcement of each NAAQS promulgated by EPA. Whenever EPA promulgates a new or revised NAAQS, the CAA requires the state to make a new SIP submission establishing that the existing SIP meets the various applicable requirements, or revising the SIP to meet those requirements. This type of SIP submission is commonly referred to as an “infrastructure” SIP. In this proposed action, EPA is proposing to approve the October 24, 2017, submission with respect to: (1) The requirements applicable to state boards of the CAA; and (2) the related state board infrastructure SIP requirements for the 1997, 2006, and 2012 PM2.5, 2008 8-hour Ozone, 2008 Lead, 2010 NO2, and 2010 SO2 NAAQS. In addition, EPA is proposing approval of ADEM’s
