

responsive comment period, no objection to that request is received, USTR may conclude there are no reasons to prevent a determination that the particular product should be excluded from the safeguard measure, and may conclude, based on the interagency group's review of the request, any comments on the requests, and other relevant information, that the product should be excluded.

C. Future Requests

At this time, USTR will not consider requests for exclusion received after March 16, 2018. USTR will monitor developments in the U.S. market for CSPV products and, if warranted, provide for additional requests for exclusion at a later date.

D. Submission Instructions

USTR seeks requests and responses to requests with respect to the issues described in Section III.A through a public comment process. To be assured of consideration, you must submit written comments by 11:59 p.m. EST on March 16, 2018, and any written responses to those comments by 11:59 p.m. EST on April 16, 2018. All comments must be in English and must identify on the reference line of the first page of the submission "Comments Regarding Requests for Product Exclusions From the Solar Products Safeguard Measure."

We strongly encourage commenters to make on-line submissions using the www.regulations.gov website. To submit comments via www.regulations.gov, enter docket number USTR-2018-0001 on the home page and click "search." The site will provide a search-results page listing all documents associated with this docket. Find a reference to this notice and click on the link entitled "Comment Now!" For further information on using www.regulations.gov, please consult the resources provided on the website by clicking "How to Use Regulations.gov" on the bottom of the home page. We will not accept hand-delivered submissions.

The www.regulations.gov website allows users to provide comments by filling in a "Type Comment" field, or by attaching a document using an "Upload File" field. We prefer that you provide comments as an attached document in Microsoft Word (.doc) or Adobe Acrobat (.pdf) format. If the submission is in another file format, please indicate the name of the software application in the "Type Comment" field. File names should reflect the name of the person or entity submitting the comments. Please do not attach separate cover letters to electronic submissions; rather, include

any information that might appear in a cover letter in the comments themselves. Similarly, to the extent possible, please include any exhibits, annexes, or other attachments in the same file as the comment itself, rather than submitting them as separate files.

As noted above, we strongly discourage the submission of business confidential information and its inclusion may prevent a full consideration of the product exclusion request. In any event, including business confidential information in a submission should be extremely circumscribed. Additionally, the filer must provide a public version and the file name of the business confidential version should begin with the characters "BC". Any page containing business confidential information must be clearly marked "BUSINESS CONFIDENTIAL" on the top of that page and the submission should clearly indicate, via brackets, highlighting, or other means, the specific information that is business confidential. A filer requesting business confidential treatment must certify that the information is business confidential and would not customarily be released to the public by the submitter.

As indicated above, filers of submissions containing business confidential information must submit a public version of their comments. The file name of the public version should begin with the character "P". The "BC" and "P" should be followed by the name of the person or entity submitting the comments. Filers submitting comments containing no business confidential information should name their file using the name of the person or entity submitting the comments.

We emphasize that submitters are strongly encouraged to file comments through www.regulations.gov. You must make arrangements for any alternative method of submission with Yvonne Jamison at (202) 395-9666 in advance of transmitting a comment. You can find general information about USTR at www.ustr.gov.

We will post comments in the docket for public inspection, except business confidential information. You can view comments on www.regulations.gov by entering docket number USTR-2018-0001 in the search field on the home page.
