issued to the City of San Diego in association with its Multiple Species Conservation Program Subarea Plan (MSCP SAP). The VPHCP would be compatible with, and would expand upon, the City’s existing MSCP SAP by adding approximately 275 acres of additional lands with vernal pools that are occupied with threatened and endangered vernal pool species. The VPHCP would conserve an additional 8 vernal pool complexes and additional 226 pools (approximately 9% more), totaling 2.8 acres of basin area, over what is currently conserved. Once adopted, vernal pool lands would be subject to the provisions of the VPHCP, in addition to the City’s MSCP SAP and other existing land use and biological resource plans, policies, and regulations.

National Environmental Policy Act Compliance

The EIR/EIS analyzes two alternatives in addition to the proposed action (i.e., permit issuance based on the VPHCP) described above. The other alternatives include a no-action (i.e., no permit) alternative and an expanded conservation alternative.

The final EIR/EIS includes all comments we received on the draft EIR/EIS and our response to those comments. After the 30 day waiting period, we will complete a Record of Decision that announces our decision on the action that will be implemented and discusses all factors leading to the decision.

Public Review

Copies of the final EIR/EIS and the VPHCP are available for review (see Availability of Documents). INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–709 (Fourth Review)]

Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe From Germany

Determination

On the basis of the record 1 developed in the subject five-year review, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the antidumping duty order on seamless carbon and alloy steel standard, line, and pressure pipe from Germany would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted this review on August 1, 2017 (82 FR 35821, August 1, 2017) and determined on November 6, 2017 that it would conduct an expedited review (82 FR 58267, November 20, 2017). The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on February 13, 2018. The views of the Commission are contained in 4760 (February 2018), entitled Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from Germany, Inv. No. 731–TA–709 (Fourth Review).

By order of the Commission.

Lisa R. Barton,
Secretary to the Commission.

In particular, the Commission is interested in comments that:
