under Title IV pension insurance

of ERISA is required to file a premium

payment and information prescribed by

PBGC for each premium payment year.

Premium information must be filed
electronically using “My Plan
Administration Account” (“My PAA”) through PBGC’s website except to the
extent PBGC grants an exemption for

good cause in appropriate

circumstances, in which case the

information must be filed using an

approved PBGC form. Under § 4007.10

of the premium payment regulation,

plan administrators are required to

retain records about premiums and

information submitted in premium

filings.

Premium filings report (i) the flat-rate

premium and related data (all plans), (ii) the variable-rate premium and related

data (single-employer plans), and (iii) additional data such as identifying

information and miscellaneous plan-

related or filing-related data (all plans).

PBGC needs this information to identify

the plans for which premiums are paid,

to verify whether the amounts paid are
correct, to help PBGC determine the

magnitude of its exposure in the event

of plan termination, to help track the

creation of new plans and transfer of

participants and plan assets and

liabilities among plans, and to keep

PBGC’s insured-plan inventory up to
date. That information and the retained

records are also needed for audit

purposes.

The collection of information under

the regulation has been approved by

OMB through March 31, 2018, under

control number 1212–0009. On January

24, 2018 (at 83 FR 3369), PBGC gave

public notice that it intended to request

extension of OMB approval of this

collection of information for three years

and invited public comment. No

comments were received. An agency

may not conduct or sponsor, and a

person is not required to respond to a

collection of information unless it

displays a currently valid OMB control

number.

PBGC estimates that it will receive

23,700 premium filings per year from

23,700 plan administrators under this

collection of information. PBGC further

estimates that the annual burden of this

collection of information is 10,439

hours and $16,392,500.

Abstract of Proposed Collection

The Electronic Application for Immigrant Visa and Alien Registration (DS–260) is used to collect biographical information from individuals seeking an immigrant visa. The consular officer uses the information collected to elicit information necessary to determine an applicant’s eligibility for a visa.

Methodology

The DS–260 will be submitted electronically over an encrypted connection to the Department via the internet. The applicant will be instructed to print a confirmation page containing a bar coded record locator, which will be scanned at the time of processing.

Additional Information

The Department is revising the collection to add several additional questions for immigrant visa applicants. One question lists multiple social media platforms and requires the applicant to provide any identifiers used by applicants for those platforms during the five years preceding the date of application. The platforms listed may be updated by the Department by adding or removing platforms. Additional platforms will be added only if collection is consistent with the uses described in the Supporting Statement and after Office of Management and Budget approval. In addition, the applicant will be given the option to provide information about any social media identifiers associated with any platforms other than those that are listed that the applicant has used in the last five years. The Department will collect this information for identity resolution and vetting purposes based on statutory visa eligibility standards. Other questions seek five years of previously used telephone numbers, email addresses, and international travel; all prior immigration violations; and whether specified family members have been involved in terrorist activities. The “Sign and Submit” statement will provide applicants information related to correcting records within Federal Bureau of Investigation databases and additional information regarding the immigrant visa medical examination. Applicants from countries where female genital mutilation/cutting (FGM/C) is prevalent will be provided a link in the DS–260 to an electronic pamphlet that covers the illegality of the practice in the United States. Further, applicants will be required to check a box verifying
