

(3) Employee *C* retired on February 1, 1998. During his last year of employment, he earned \$23,000. He discovers on April 15, 2002, that he has a compensable occupational disease resulting in a 50% permanent impairment. See § 702.601(b). Because he retired more than one year before this date, his payrate for calculating compensation is the FY 2002 national average weekly wage, or \$483.04. See § 702.603(b). He is entitled to weekly compensation of \$161.01 ($\$483.04 \times 2 \div 3 \times 50\%$). *C* dies from the disease on June 1, 2015, leaving two survivors. The payrate for calculating death benefits is the FY 2015 national average weekly wage, or \$688.51. See § 702.604(b). The survivors' aggregate calculated compensation rate is \$459.01 ($\$688.51 \times 2 \div 3$). But because compensation cannot exceed $\frac{1}{2}$ part of *C*'s last year of earnings, aggregate weekly death benefits payable for FY 2015 are limited to \$442.31 ($\$23,000 \div 52$). For FY 2016, *C*'s survivors are entitled to a 2.10% section 10(f) adjustment resulting in weekly death benefits of \$452.00 ($\$442.31 \times .021 = \9.29 , rounded to the nearest cent; $\$442.31 + \$9.29 = \$451.60$, rounded to the nearest dollar). *C*'s survivors would continue to receive section 10(f) adjustments in subsequent fiscal years.

Minimum Rates

§ 702.808 What weekly minimum rates apply to compensation for partial disability?

There is no minimum rate for compensation paid for partial disability, whether temporary or permanent.

§ 702.809 What weekly minimum rates apply to compensation for temporary total disability?

(a) The minimum compensation payable for temporary total disability is the lower of:

(1) The minimum rate in effect on the date of disability, or

(2) The employee's average weekly wage on the date of disability.

(b) Example: Employee *A* suffers a covered workplace injury on May 6, 2014. He is temporarily totally disabled until November 6, 2015, when he returns to work. His average weekly wages at the time of disability were \$500.00. Because his calculated compensation rate (*i.e.*, 66 and $\frac{2}{3}\%$ of \$500.00, or \$333.34) is lower than the \$336.67 FY 2014 minimum rate, *A*'s compensation is raised to \$336.67 for the entire period of his disability.

§ 702.810 What weekly minimum rates apply to compensation for permanent total disability?

(a) The weekly minimum compensation payable for the fiscal year in which the employee became permanently and totally disabled is the lower of:

(1) The minimum rate in effect on the date of disability, or

(2) The employee's average weekly wage on the date of disability.

(b) For all periods the employee is permanently and totally disabled in subsequent fiscal years, the weekly minimum compensation payable is the lower of:

(1) Each subsequent fiscal year's minimum rate, or

(2) The employee's average weekly wage on the date of disability.

(c) Example: Employee *A* suffers a covered workplace injury on April 1, 2003, and is permanently totally disabled from that day forward. He was earning \$250.00 a week when he was injured. His calculated compensation rate is \$166.67 ($\$250 \times 2 \div 3$). The FY 2003 minimum rate is \$249.14. Because *A*'s calculated compensation rate is below the FY 2003 minimum rate, and his actual weekly wage is above that rate, he is entitled to compensation at the minimum rate of \$249.14 from April 1, 2003, to September 30, 2003. The FY 2004 minimum rate is \$257.70. Because *A*'s actual weekly wages on the date of disability are lower than the FY 2004 minimum rate, *A*'s minimum weekly compensation rate for FY 2004 is \$250.00. His weekly compensation rate for FY 2004, however, is higher because of a section 10(f) adjustment. For FY 2004, *A*'s compensation rate is increased by a 3.44% section 10(f) adjustment, raising his compensation level to \$258.00 ($\$249.14 \times .0344 = \8.57 ; $\$249.14 + \$8.57 = \$257.71$, rounded to the nearest dollar).

§ 702.811 What weekly minimum rates apply to death benefits?

(a) The average weekly wage used to compute death benefits is the greater of—

(1) The deceased employee's average weekly wages; or

(2) The national average weekly wage in effect at the time of the employee's death.

(b) The weekly minimum rate does not apply to death benefits.

Signed at Washington, DC, on April 13, 2018.

Julia K. Hearthway,
Director, Office of Workers' Compensation Programs.

II. Background

On January 23, 2017, MSHA published a final rule (January 2017 rule) amending the standards then in effect on examinations of working places in metal and nonmetal mines, 30 CFR 56.18002 and 57.18002 (82 FR 7680). The January 2017 final rule, which was scheduled to become effective on May 23, 2017, was stayed until June 2, 2018 (82 FR 46411). On September 12, 2017, MSHA published a proposed rule that would make limited changes to the January 2017 final rule (82 FR 42765). The final rule, published

April 9, 2018 (83 FR 15055), is effective on June 2, 2018.
