and 214 of the Commission’s Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: http://www.ferc.gov/docs-filing/eFiling/filing-req.pdf. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL18–143–000]

Take notice that on May 3, 2018, pursuant to sections 206, 306, and 309 of the Federal Power Act, 16 U.S.C. 824e, 825e, and 825h and Rule 206 of the Federal Energy Regulatory Commission’s (Commission) Rules of Practice and Procedure, 18 CFR 385.206, Public Service Electric and Gas Company (Complainant) filed a formal complaint against Consolidated Edison Company of New York, Inc. (Respondent) alleging that Respondent is preventing the removal of dielectric fluid that recently leaked from electric transmission facilities known as the B and C lines that Complainant and Respondent co-own. Complainant asserts that good utility practice requires the removal of the dielectric fluid and retirement of the B and C lines as currently constructed, as more fully explained in the complaint.

Complainant certifies that copies of the complaint were served on contacts for the Respondent, the New York Public Service Commission, and the New Jersey Board of Public Utilities.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestors parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondents’ answer and all interventions, or protests must be filed on or before the comment date. The Respondents’ answer, motions to intervene, and protests must be served on the Complainant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible on-line at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on May 23, 2018.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. RD18–1–000, RD18–2–000, RD18–3–000, and RD18–5–000]

Commission Information Collection Activities; (FERC–725E): Comment Request; Revision

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of revised information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on revisions to the information collection, FERC–725E (Mandatory Reliability Standards for the Western Electric Coordinating Council), in Docket Nos. RD18–1–000, RD18–2–000, RD18–3–000, and RD18–5–000 and will be submitting FERC–725E to the Office of Management and Budget (OMB) for review of the information collection requirements.

DATES: Comments on the collection of information are due July 10, 2018.

ADDRESSES: You may submit comments identified by Docket Nos. RD18–1–000, RD18–2–000, RD18–3–000, and RD18–5–000 by either of the following methods:

• eFiling at Commission’s Website: http://www.ferc.gov/docs-filing/eFiling.asp

• Mail/Hand Delivery/Courier: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: http://www.ferc.gov/help/submission-guide.asp. For user assistance, contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208–3676 (toll-free), or (202) 502–8659 for TTY.

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/downloading comments and issuances in this docket may do so at http://www.ferc.gov/docs-filing/docs-filing.asp.

FOR FURTHER INFORMATION CONTACT:
Ellen Brown may be reached by email at DataClearance@FERC.gov, telephone at (202) 502–8663, and fax at (202) 273–0873.

SUPPLEMENTARY INFORMATION:

Title: FERC–725E, Mandatory Reliability Standards for the Western Electric Coordinating Council.

OMB Control No.: 1902–0246.

Type of Request: Revision to FERC–725E information collection requirements, as discussed in Docket Nos. RD18–1–000 and RD18–3–000.

Abstract: The North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC) filed four joint petitions to modify/retire WECC regional Reliability Standards.

On March 8, 2018, NERC and WECC filed a joint petition in Docket No. RD18–2–000 requesting Commission approval of:

• Regional Reliability Standard BAL–004–WECC–3 (Automatic Time Error Correction), and

• the retirement of existing regional Reliability Standard BAL–004–WECC–2.

The petition states: “Regional Reliability Standard BAL–004–WECC–3

1 The joint petition and exhibits are posted in the Commission’s eLibrary system in Docket No. RD18–2–000 [BAL–004–WECC–3 Petition].
seeks to maintain Interconnection frequency and to ensure that Time Error Corrections and Primary Inadvertent Interchange (“PRI”) payback are effectively conducted in a manner that does not adversely affect the reliability of the [Western] Interconnection.” 2 The proposed modifications to the standard focus on the entities using a common tool. All other proposed changes are for clarification. The Commission is not changing the reporting requirements, nor is it modifying the burden, cost or respondents with this collection, and sees this as a non-material or non-substantive change to a currently approved collection.

On March 16, 2018, NERC and WECC filed a joint petition in Docket No. RD18–5–000 3 requesting Commission approval of:

- Regional Reliability Standard FAC–501–WECC–2 (Transmission Maintenance), and

The petition states: “The purpose of FAC–501–WECC–2 is to ensure the Transmission Owner of a transmission path identified in the table titled “Major WECC Transfer Paths in the Bulk Electric System” (“WECC Transfer Path Table” or “Table”), including associated facilities, has a Transmission Maintenance and Inspection Plan (“TMIP”) and performs and documents maintenance and inspection activities in accordance with the TMIP.” The modifications to the existing standard are for clarification of the transmission owner’s obligations and to directly incorporate the list of applicable transmission paths. This list is currently posted on the WECC website and has not changed. The Commission is not changing reporting requirements nor is it modifying the burden, cost or respondents with this collection, and sees this as a non-material or non-substantive change to a currently approved collection.

The Commission’s request to OMB will reflect the following:

- Elimination of the burden associated with regional Reliability Standard VAR–002–WECC–2 (Automatic Voltage Regulators), which is proposed for retirement (addressed in Docket No. RD18–1 and discussed below); 4
  - elimination of the burden associated with regional Reliability Standard PRC–004–WECC–2 (Protection System and Remedial Action Scheme Misoperation), which is proposed for retirement (addressed in Docket No. RD18–3 and discussed below) 8
  - non-material or non-substantive changes (discussed above) in Docket Nos. RD18–2 and RD18–5.

On March 7, 2018, NERC and WECC filed a joint petition in Docket No. RD18–1–000 requesting Commission approval to retire the WECC regional Reliability Standard VAR–002–WECC–2 (Automatic Voltage Regulators). According to the petition, the purpose of the proposed retirement is based on WECC’s experience with regional Reliability Standard VAR–002–WECC–2 which has shown that the reliability-related issues addressed in the regional standard are adequately addressed by the continent-wide voltage and reactive (“VAR”) Reliability Standards 9 and that retention of the regional standard would not provide additional benefits for reliability.

On March 9, 2018, NERC and WECC filed a joint petition in Docket No. RD18–3–000 requesting Commission approval to retire the WECC regional Reliability Standard PRC–004–WECC–2 (Protection System and Remedial Action Scheme Misoperation). The purpose of the proposed retirement is based on NERC and WECC’s belief that since the initial development of this regional standard, other continent-wide Reliability Standards 7 have been developed that have made the requirements of this regional Reliability Standard redundant and no longer necessary for reliability in the Western Interconnection.

Type of Respondents: Transmission owners, transmission operators, generator operators, and generator owners.

Estimate of Annual Burden: 8 Details follow on the changes in Docket Nos. RD18–1–000 and RD18–3–000 which will be submitted to OMB for approval in a consolidated package under FERC–725E.

Estimate of Changes to Burden Due to Docket No. RD18–1: The Commission estimates the reduction in the annual public reporting burden for the FERC–725E (due to the retirement of regional Reliability Standard VAR–002–WECC–2) as follows: 9 10

8 Details

Standards for the Bulk-Power System, OMBControl No. 1902–0263); PRC–001–1.iii) (System Protection Coordination) are included in FERC–725A (Mandatory Reliability Standards for the Bulk-Power System, OMB Control No. 1902–0244).

**Comments:** Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

Total Reduction in Burden for FERC–725E, for Submittal to OMB. The total reduction in burden due to the proposed retirements of regional Reliability Standards VAR–002–WECC–2 and PRC–004–WECC–2 is detailed below:

- Total Reduction of Annual Responses: 901.
- Total Reduction of Burden Hours: 6,722.
- Total Reduction of Burden Cost: $489,955.

Estimate of Changes to Burden Due to Docket No. RD18–3: The Commission estimates the reduction in the annual public reporting burden for the FERC–725E (due to the retirement of regional Reliability Standard PRC–004–WECC–2) as follows:

**Total Reduction in Burden for FERC–725E, for Submittal to OMB.**

- Total Reduction of Annual Responses: 901.
- Total Reduction of Burden Hours: 6,722.
- Total Reduction of Burden Cost: $489,955.

11 The reductions in burden and cost shown in the table are the same figures as those in the current OMB-approved inventory for the reporting and recordkeeping requirements, now being retired.

12 The hourly cost (for salary plus benefits) uses the figures from the Bureau of Labor Statistics for three positions involved in the reporting and recordkeeping requirements. These figures include salary (http://bls.gov/oes/current/naics2_22.htm) and benefits (http://www.bls.gov/news.release/ecred.nr0.htm) and are: Manager: $89.07/hour, Engineer: $64.91/hour, and File Clerk: $31.19/hour.

The hourly cost for the reporting requirements ($76.99) is an average of the cost of a manager and engineer. The hourly cost for recordkeeping requirements uses the cost of a file clerk.
