

comment rulemaking requirements under the Administrative Procedure Act (APA), 5 U.S.C. 553, or any other statute. This action is not subject to the APA but is subject to TSCA, which does not require notice and comment rulemaking to take this action.

*D. Unfunded Mandates Reform Act (UMRA)*

This action does not contain an unfunded mandate of \$100 million or more as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. As such, the requirements of UMRA sections 202, 203, 204, or 205, 2 U.S.C. 1531–1538, do not apply to this action.

*E. Executive Order 13132: Federalism*

This action does not have federalism implications. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999).

*F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments*

Consistent with the EPA Policy on Consultation and Coordination with Indian Tribes, the EPA consulted with tribal officials during the development of this action. EPA coordinated and engaged with tribal partners early in the process during the development of the guidance documents as well as continued to conduct outreach to tribes during the release of the draft guidance documents. In addition, EPA held a tribal consultation with tribes that requested further information. The Agency plans to continue to work with our tribal partners to introduce the guidance and provide a forum for open dialogue with tribes.

*G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks*

EPA interprets Executive Order 13045 (62 FR 19885, April 23, 1997), as applying only to those regulatory actions that concern environmental health or safety risks that EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory action” in section 2–202 of Executive Order 13045. This action is not subject to Executive Order 13045 because it does not establish an environmental standard intended to mitigate

environmental health risks or safety risks.

*H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use*

This action is not a “significant energy action” as defined in Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not likely to have a significant adverse effect on energy supply, distribution, or use. This action is announcing the availability of guidance concerning obtaining access to CBI under TSCA, which will not have a significant effect on the supply, distribution or use of energy.

*I. National Technology Transfer and Advancement Act (NTTAA)*

Since this action does not involve any technical standards, NTTAA section 12(d) (15 U.S.C. 272 note) does not apply to this action.

*J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations*

EPA believes that this action does not have disproportionately high and adverse human health or environmental effects on minority populations, low-income populations and/or indigenous peoples, as specified in Executive Order 12898 (59 FR 7629, February 16, 1994). This action does not affect the level of protection provided to human health or the environment.

**SUPPLEMENTARY INFORMATION:**

## I. General Information

### A. Does this action apply to me?

You may be potentially affected by this action if you are a company needing assistance in creating structurally descriptive generic names for chemical substances whose specific chemical identities are claimed confidential, for purposes of protecting the specific chemical identities from disclosure and listing the substances on the TSCA Chemical Substance Inventory. This action may be of particular interest to entities that are regulated under TSCA (e.g., entities identified under North American Industrial Classification System (NAICS) codes 324, 325, and 324110, among others). Since other entities also may be interested, the Agency has not attempted to describe all the specific entities and corresponding NAICS codes for entities that may be interested in or affected by this action.

### B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through *regulations.gov* or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

You also will find this document and the "Guidance for Creating Generic Names for Confidential Chemical Substance Identity Reporting under TSCA" at <http://www.epa.gov/tscainventory>.

## II. What is the Agency's authority for this action?

As amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act in June 2016, TSCA section 14(c)(4), 15 U.S.C. 2613(c)(4), requires that EPA develop guidance regarding the determination of structurally descriptive generic names provided for chemical substances whose specific chemical identities have been claimed confidential in a TSCA notice. TSCA section 14(c)(1)(C) was amended to require submitters who assert a confidentiality claim for specific chemical identity to include a structurally descriptive generic name for the chemical substance that EPA may disclose to the public. The generic name must be consistent with EPA's guidance, and should describe the chemical structure of the substance as specifically as practicable while protecting those features of the chemical structure that are claimed as confidential and the disclosure of which would be likely to cause substantial harm to the competitive position of the claimant.

## III. What action is the Agency taking?

EPA is announcing the availability of the following guidance document: "*Guidance for Creating Generic Names for Confidential Chemical Substance Identity Reporting under TSCA.*" This guidance document is intended to assist companies in creating structurally descriptive generic names for chemical substances whose specific chemical identities are claimed confidential, for purposes of protecting the specific chemical identities from disclosure while describing the chemical substance as specifically as practicable, and for listing substances on the TSCA Chemical Substance Inventory.

EPA previously published guidance to assist companies in creating structurally descriptive generic names in an appendix to the 1985 publication of the TSCA Inventory (Appendix B, "*Generic Names for Confidential Chemical Substance Identities*," in the "*TSCA Inventory, 1985 Edition*"). The new guidance document updates and

replaces the 1985 guidance. Consistent with TSCA section 14(c)(1)(C) and 14(c)(4) requirements, the updated guidance document provides more detail and clarity to companies regarding the approach for creating structurally descriptive generic names.

As a nonbinding guidance document, this updated guidance document is a living document which may be revised periodically and without notice. In addition to seeking comments within the next 60 days, EPA welcomes public input on this guidance document at any time in the future.
