DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2016-1061]

Termination of U.S. Coast Guard Rebroadcast of HYDROLANT and HYDROPAC Information

ACTION: Notice of rebroadcast termination.

SUMMARY: The United States Coast Guard is ceasing the rebroadcast of HYDROLANT and HYDROPAC (defined below) navigational warnings over HF SITOR (defined below). There is no requirement for the Coast Guard to rebroadcast this information, although the Coast Guard has been voluntarily doing so for a number of years, and doing so is duplicative of the National Geospatial-Intelligence Agency's broadcast. The information will continue to be disseminated by the National Geospatial-Intelligence Agency.

DATES: The Coast Guard will cease rebroadcasting HYDROLANT and HYDROPAC navigational warnings on August 30th, 2018.

FOR FURTHER INFORMATION CONTACT: For information about this document, please call or email Derrick Croinex, Chief, Spectrum Management and Telecommunications Policy, U.S. Coast Guard (Commandant CG-672); telephone: 202-475-3551; email: derrick.j.croinex@uscg.mil.

SUPPLEMENTARY INFORMATION: On May 14, 2018, we published a notice in the **Federal Register** at 83 FR 22276 that the Coast Guard was considering no longer rebroadcasting HYDROLANT and HYDROPAC navigational warnings over HF SITOR (High Frequency Simplex Teletype Over Radio service). HYDROLANT warnings are Navigational Warnings Categorized by their Atlantic Ocean Location. HYDROPAC warnings are Navigational Warnings Categorized by their Pacific Ocean/Pacific Rim Location. Both are products of the National Geospatial-Intelligence Agency. The May notice included relevant background information on these navigational warnings and reasons for terminating rebroadcast. After a full consideration of

the matter, including public comment, we have decided to stop rebroadcast. The Coast Guard will cease rebroadcasting HYDROLANT and HYDROPAC navigational warnings in 30 days.

In the notice, we requested feedback from the public on the proposed termination. The comment period closed on July 13, 2018. We received one submission in response to our inquiry. The commenter was concerned that the information contained in the Coast Guard rebroadcast would no longer be available. In response to the comment, we would like to reiterate that the HYDROLANT and HYDROPAC products will still be available via satellite from the National Geospatial-Intelligence Agency as originally intended. The Coast Guard is only terminating the rebroadcast of these products, and only these products, via HF. All other HF Broadcast content will continue to be available.

This notice is issued under authority of 14 U.S.C. 93(a)(16) and in accordance with 5 U.S.C. 552(a).

Dated: July 30, 2018.

Derrick J. Croinex,

Chief, Spectrum Management and Telecommunications Policy.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2018-0002; Internal Agency Docket No. FEMA-B-1844]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. For rating purposes,

the currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will be finalized on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Insurance and Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sacbabit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbabit@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.
