Information Collection Requirement

OMB Control Number 1652-0043; Law Enforcement/Federal Air Marshal Service Physical and Mental Health Certification. Pursuant to 49 U.S.C. 44917, TSA has authority to provide for deployment of Federal Air Marshals (FAMs) on passenger flights and provide for appropriate training, equipping, and supervision of FAMs. Pursuant to this authority, TSA requires that applicants for the Law Enforcement/Federal Air Marshal Service positions meet certain medical and mental health standards.

TSA uses a Mental Health Certification form to facilitate the determination of applicants' and incumbents' ability to meet established medical standards and safely and effectively perform the essential functions of the public safety law enforcement position. TSA is revising the collection to include additional forms to assist in the determination. These forms include a Practical Exercise Performance Requirements (PEPR) form, and a Treating Physician Status Report (TPSR) form, in conjunction with further evaluation requests as needed. TSA is also revising the name of the collection from "Office of Law Enforcement/Federal Air Marshal Service Mental Health Certification" to "Law Enforcement/Federal Air Marshal Service Physical and Mental Health Certification."

The Law Enforcement/Federal Air Marshal Service (LE/FAMS) has established medical guidelines designed to ensure FAMs can safely and effectively perform the tasks essential to the arduous, rigorous, and hazardous functions of the FAM position. The medical guidelines ensure a level of health status and physical and psychological fitness for this public safety law enforcement position which requires a high degree of responsibility. Medical guidelines are based on cognitive, physical, psychomotor, and psychological abilities related to the essential job functions of a FAM. Medical examinations include, but are not limited to, cardiac, pulmonary, audiometric, and visual acuity testing. Incumbent FAMs undergo medical examinations every other year until the age of 45, and annually thereafter, while in a FAM position. Based on conditions identified during the pre-employment or recurrent periodic examination, the applicant/employee may be required to provide a completed PEPR form, or TPSR form, signed by his/her physician in order to determine if the FAM is medically qualified.
