

DEPARTMENT OF THE INTERIOR

1849 C Street NW., Washington, DC 20240
Phone, 202-208-3171

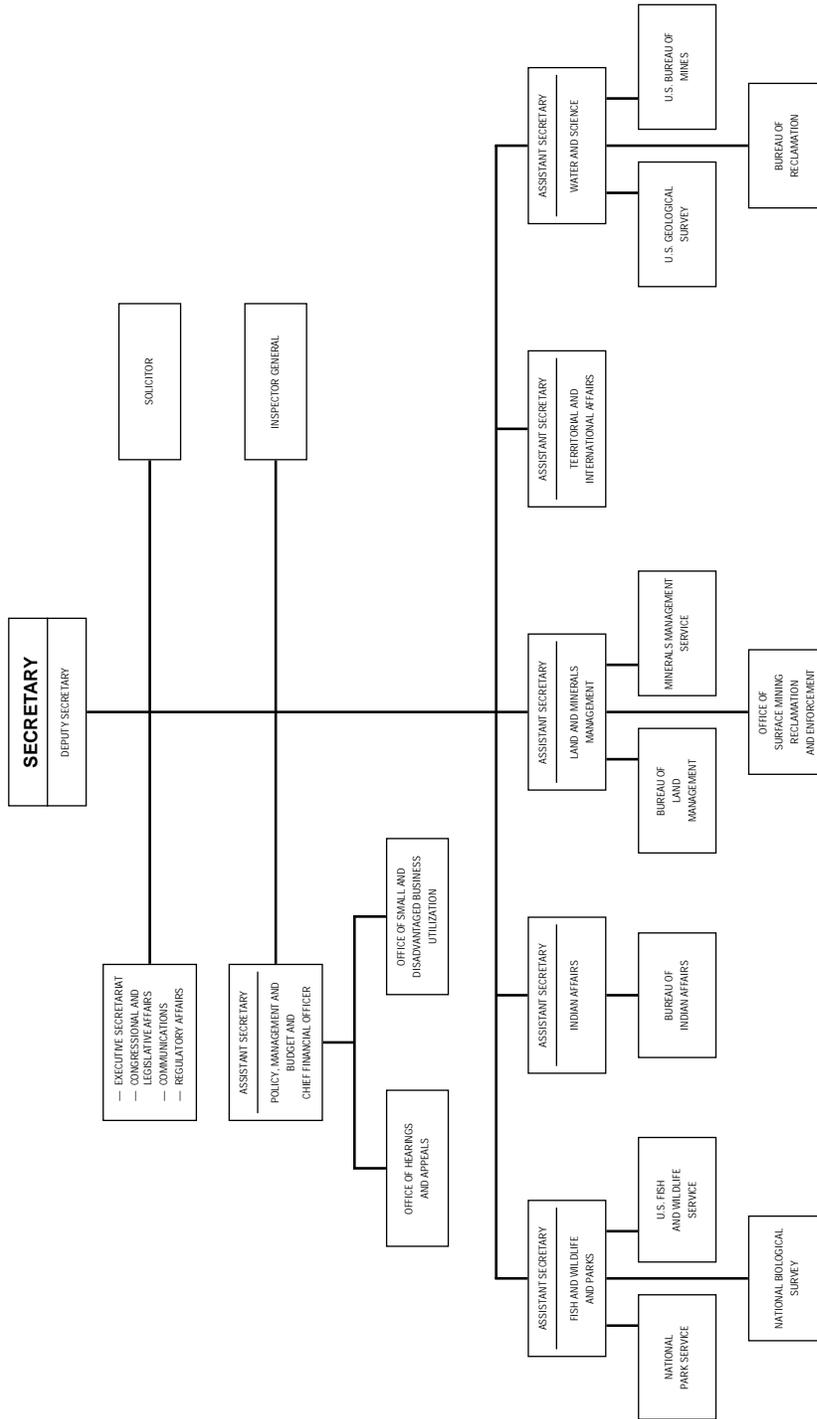

SECRETARY OF THE INTERIOR

Deputy Secretary	BRUCE BABBITT
Associate Deputy Secretary	(VACANCY)
Chief of Staff	(VACANCY)
Deputy Chief of Staff	(VACANCY)
Director of Congressional Affairs	B.J. THORNBERRY
Special Assistants and Counselors to the Secretary	MELANIE BELLER
Special Assistant to the Secretary and White House Liaison	JAMES H. PIPKIN, JOHN J. DUFFY, EWARD B. COHEN
Assistant to the Secretary and Director, Office of Communications	ROBERT K. HATTOY
Director of External Affairs	(VACANCY)
Special Assistant to the Secretary and Director, Executive Secretariat	LUCIA A. WYMAN
Assistant to the Secretary	NANCY K. HAYES
Director, Office of Regulatory Affairs	MOLLY POAG
Executive Director (President's Commission on Sustainable Development)	JULIE FALKNER
Special Assistant to the Secretary for Alaska	MOLLY H. OLSON
Special Assistant to the Secretary	DEBORAH L. WILLIAMS
Solicitor	FAITH R. ROESSEL
Deputy Solicitor	JOHN D. LESHY
Associate Solicitor (General Law)	ANNE H. SHIELDS
Associate Solicitor (Conservation and Wildlife)	(VACANCY)
Associate Solicitor (Indian Affairs)	ROBERT L. BAUM
Associate Solicitor (Energy and Resources)	(VACANCY)
Associate Solicitor (Surface Mining)	PATRICIA J. BENEKE
Inspector General	KAY HENRY
Deputy Inspector General	WILMA A. LEWIS
Assistant Inspector General (Administration)	JOYCE N. FLEISCHMAN
Assistant Inspector General (Investigations)	SHIRLEY E. LLOYD
Deputy Assistant Inspector General (Audits)	THOMAS I. SHEEHAN
General Counsel	MARVIN E. PIERCE
Assistant Secretary—Water and Science	THOMAS E. ROBINSON
Deputy Assistant Secretary	(VACANCY)
Director, U.S. Bureau of Mines	(VACANCY)
Director, U.S. Geological Survey	RHEA GRAHAM
Commissioner, Bureau of Reclamation	GORDON P. EATON
Assistant Secretary for Fish and Wildlife and Parks	DANIEL P. BEARD
Deputy Assistant Secretary	GEORGE T. FRAMPTON, JR.
Director, U.S. Fish and Wildlife Service	ROBERT P. DAVISON
Director, National Biological Survey	MOLLIE BEATTIE
	H. RONALD PULLIAM

Director, National Park Service	ROGER G. KENNEDY
Assistant Secretary—Indian Affairs	ADA E. DEER
Deputy Assistant Secretary	MICHAEL J. ANDERSON
Commissioner of Indian Affairs	(VACANCY)
Deputy Commissioner of Indian Affairs	HILDA MANUEL
Assistant Secretary—Land and Minerals Management	ROBERT L. ARMSTRONG
Deputy Assistant Secretary	SYLVIA V. BACA
Director, Minerals Management Service	CYNTHIA L. QUATERMAN
Director, Bureau of Land Management	(VACANCY)
Director, Office of Surface Mining Reclamation and Enforcement	ROBERT URAM
Assistant Secretary—Territorial and International Affairs	LESLIE M. TURNER
Deputy Assistant Secretary	ALLEN P. STAYMAN
Assistant Secretary—Policy, Management and Budget	BONNIE R. COHEN
Director, Office of Hearings and Appeals	BARRY E. HILL
Director, Office of Small and Disadvantaged Business Utilization	(VACANCY)
Deputy Assistant Secretary for Human Resources	THERESA TRUJEQUE
Director, Office of Equal Opportunity	E. MELODEE STITH
Director, Office of National Service and Educational Partnerships	DELORES L. CHACON
Director, Office of Personnel	WOODROW W. HOPPER, JR.
Director, Ethics Staff	GABRIELE J. PAONE
Director, Drug Program Coordination Staff	KATHLEEN M. MEALY
Chief, Personnel Services Division	SHARON ELLER
Counselor to the Secretary and Deputy Assistant Secretary for Policy	JOSEPH L. SAX
Director, Office of Environmental Policy and Compliance	WILLIE R. TAYLOR
Director, Office of Policy Analysis	BROOKS B. YEAGER
Director of Fiscal Resources	ROBERT J. LAMB
Director, Office of Acquisition and Property Management	PAUL A. DENETT
Director, Office of Budget	MARY ANN LAWLER
Director, Office of Financial Management	R. SCHUYLER LESHNER
Director, Office of Information Resources Management	(VACANCY)
Director of Operations	CLAUDIA P. SCHECHTER
Director, Office of Construction Management	OSCAR W. MUELLER, JR.
Director, Office of Administrative Services	ALBERT C. CAMACHO
Director, Office of Aircraft Services	ELMER J. HURD
Director, Office of Enforcement and Security Management	JOHN J. GANNON
Director, Office of Occupational Safety and Health	(VACANCY)
Director, Office of Hazard and Fire Programs Coordination	JAMES C. DOUGLAS

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources.

DEPARTMENT OF THE INTERIOR

This includes fostering sound use of our land and water resources; assessing and protecting our fish, wildlife, and biological diversity; preserving the environmental and cultural values of our national parks and historical places; and providing for the enjoyment of life through outdoor recreation. The Department assesses our mineral resources and works to ensure that their development is in the best interests of all our people by encouraging stewardship and citizen participation in their care. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under United States administration.

The Department of the Interior was created by act of March 3, 1849 (43 U.S.C. 1451), which transferred to it the General Land Office, the Office of Indian Affairs, the Pension Office, and the Patent Office. It was reorganized by Reorganization Plan No. 3 of 1950, as amended (5 U.S.C. app.).

Over the years, other functions have been added and removed, so that its role has changed from that of general housekeeper for the Federal Government to that of custodian of the Nation's natural resources.

Office of the Secretary

Secretary The Secretary of the Interior reports directly to the President and is responsible for the direction and supervision of all operations and activities of the Department. The Office of the Secretary includes the offices of Deputy Secretary, the Assistant Secretaries, and Inspector General. Some areas where public purposes are broadly applied include:

Fish and Wildlife and Parks The Assistant Secretary for Fish and Wildlife and Parks discharges the duties of the Secretary with the authority and direct responsibility for programs associated with conservation in the use of natural and cultural resources; and the enhancement, protection, and monitoring of fish, wildlife, vegetation, and habitat. The Assistant Secretary represents the Department in the coordination of marine environmental quality and biological resources programs with other Federal agencies. The Assistant Secretary also exercises Secretarial direction and supervision over the United States Fish and Wildlife Service, the National Biological Service, and the National Park Service.

Water and Science The Assistant Secretary (Water and Science) discharges the duties of the Secretary with the authority and direct responsibility to carry out the statutory mandate to manage and direct programs that support the development and implementation of water, mineral, and science policies and assist the development of economically and environmentally sound resource activities. The Assistant Secretary oversees the programs of the Bureau of Reclamation, the United States Bureau of Mines, and the United States Geological Survey.

The Office of the Assistant Secretary provides advice on Earth science matters to the Secretary and represents the Department of the Interior in interagency efforts on a range of scientific issues. **Land and Minerals Management** The Assistant Secretary (Land and Minerals Management) discharges the duties of the Secretary with the authority and direct responsibility for programs associated with public land management; operations management and leasing for minerals on public lands, including the Outer Continental Shelf to the outer limits of the United States economic jurisdiction; minerals operations management on Indian lands; surface mining reclamation and enforcement functions; and management of revenues from Federal and Indian mineral leases.

The Assistant Secretary exercises Secretarial direction and supervision over the Bureau of Land Management, the Minerals Management Service, and the Office of Surface Mining Reclamation and Enforcement.

Indian Affairs The Assistant Secretary (Indian Affairs) discharges the authority and responsibility of the Secretary for

activities pertaining to Indians and Indian affairs. The Assistant Secretary is responsible for exercising Secretarial direction and supervision over the Bureau of Indian Affairs by:

- providing the Secretary with detailed and objective advice on matters involving Indians and Indian affairs;
- identifying and acting on issues affecting Indian policy and programs;
- establishing policy on Indian affairs;
- maintaining liaison and coordination between the Department of the Interior and other Federal agencies that provide services or funding to Indians;
- representing the Department in transactions with Congress;
- monitoring and evaluating ongoing activities related to Indian affairs; and
- undertaking or providing leadership in special assignments and projects for the Secretary.

Territorial and International Affairs
The Office of the Assistant Secretary (Territorial and International Affairs) was established by Secretarial Order 3046 of February 14, 1980. The Assistant Secretary discharges the authority and responsibility of the Secretary for activities pertaining to U.S. insular areas and the Freely Associated States (Republic of the Marshall Islands and Federated States of Micronesia) and for the coordination of international affairs of the Department.

The Assistant Secretary is responsible for building mutually beneficial partnerships to facilitate locally determined economic, social, and political development in the U.S. insular areas of Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands (Republic of Palau). The degree to which the Office conducts activities to further these objectives in a specific insular area depends on the status of the local government, its relationship to the Secretary of the Interior, and the extent of development already achieved within the insular area.

In consultation with the Assistant Secretary of State for East Asian and Pacific Affairs, who is responsible for

government-to-government relations with the Freely Associated States, the Assistant Secretary for Territorial and International Affairs is responsible for general oversight of all Federal programs provided to the Freely Associated States of the Republic of the Marshall Islands and the Federated States of Micronesia under the Compact of Free Association.

The Assistant Secretary also serves as the Department's focal point for analysis, development, and review of the Department's policy and programs pertaining to international activities and the opportunities for support of U.S. foreign policy through the use of the Department's natural resource and environmental expertise.

For further information, contact the Office of Territorial and International Affairs, Department of the Interior, Washington, DC 20240. Phone, 202-208-4822.

Policy, Management and Budget
The Assistant Secretary (Policy, Management and Budget) discharges the authority of the Secretary for all phases of management and administrative activities, serves as the principal policy adviser to the Secretary, and is the Department's Chief Financial Officer.

Office of the Solicitor

The Office of the Solicitor performs all of the legal work of the Department with the exception of that performed by the Office of Hearings and Appeals, the Office of Congressional and Legislative Affairs, and the Office of Inspector General. The Solicitor is the principal legal advisor to the Secretary and the chief law officer of the Department.

The headquarters office, located in Washington, DC, consists of five Divisions. The Division of Conservation and Wildlife is responsible for legal matters involving the programs of the Assistant Secretary for Fish and Wildlife and Parks, the National Park Service, the National Biological Service, and the U.S. Fish and Wildlife Service. The Division of Energy and Resources is responsible for legal matters involving the programs of the Assistant Secretary (Water and Science), the Assistant Secretary (Land and Minerals Management), the Bureau

of Land Management, the United States Bureau of Mines, the United States Geological Survey, the Bureau of Reclamation, and the Minerals Management Service. The Division of Indian Affairs is responsible for legal matters involving the programs of the Assistant Secretary (Indian Affairs) and the Bureau of Indian Affairs. The Division of Surface Mining provides legal advice to the Assistant Secretary (Land and Minerals Management) on surface mining matters and to the Office of Surface Mining Reclamation and

Enforcement. The Division of General Law is responsible for general administrative law and legal matters involving programs under the jurisdiction of the Office of the Secretary, the Assistant Secretary (Policy, Management and Budget), and the Office for Equal Opportunity. Administrative and support services for the Office of the Solicitor are provided by the Division of Administration.

The field organization of the Office is divided into seven regions, each headed by a Regional Solicitor.

Regional Offices—Office of the Solicitor

Region	Address	Telephone
ALASKA—Alaska	Suite 300, 4230 University Dr., Anchorage, AK 95508-4626	907-271-4131
NORTHEAST—Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Vermont, Virginia, West Virginia, Wisconsin	Suite 612, 1 Gateway Ctr., Newton Corner, MA 02158-2802	617-527-3400
PACIFIC NORTHWEST—Idaho, Montana, Oregon, Washington	Suite 60, 500 NE. Multnomah St., Portland, OR 97232	503-231-2125
PACIFIC SOUTHWEST—Arizona, California, Hawaii, Nevada, Pacific Territories, Utah	Rm. E-2753, 2800 Cottage Way, Sacramento, CA 95825-1890	916-976-2141
ROCKY MOUNTAIN—Colorado, Iowa, Kansas, Missouri, Nebraska, Wyoming	Rm. D-105, P.O. Box 25007, Denver, CO 80225	303-231-5353
SOUTHEAST—Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virgin Islands	Suite 304, 75 Spring St. SW., Atlanta, GA 30303	404-331-5504
SOUTHWEST—Arkansas, Louisiana, New Mexico, Oklahoma, Texas	Suite 200, 2400 Louisiana Blvd. NE., Albuquerque, NM 87110-4316	505-883-6700

For further information, contact the Associate Solicitor for Administration, Office of the Solicitor, Department of the Interior, Washington, DC 20240. Phone, 202-208-6115.

Office of Inspector General

The Office of Inspector General provides policy direction and conducts, supervises, and coordinates all audits, investigations, and other activities in the Department designed to promote economy and efficiency or prevent and detect fraud and abuse.

In the insular areas of Guam, American Samoa, the Virgin Islands, and the Commonwealth of the Northern Mariana Islands, the Office performs the functions of government comptroller through audit of revenues and receipts and expenditure of funds and property pursuant to the Insular Areas Act of 1982 (48 U.S.C. 1422).

Regional Offices—Office of Inspector General

Agana, GU (A)	Suite 807, 238 Archbishop F.C. Flores St., 96910	700-550-7279

For further information, contact the Office of Inspector General, Department of the Interior, Washington, DC 20240. Phone, 202-208-4356.

Office of Hearings and Appeals

The Office of Hearings and Appeals is a unit of the Office of the Secretary and is headed by a Director, who reports administratively to the Assistant Secretary (Policy, Management and Budget).

The Office of Hearings and Appeals is responsible for departmental quasi-judicial and related functions.

Administrative law judges and three formal boards of appeal render decisions in cases pertaining to contract disputes; Indian probate and administrative appeals; public and acquired lands and their resources; submerged offshore lands of the Outer Continental Shelf; surface coal mining control and reclamation; claims under the Alaska Native Claims Settlement Act; and enforcement of the importation and

transportation of rare and endangered species. The Director of the Office of Hearings and Appeals may assign administrative law judges or other officials from the Office of Hearings and Appeals for the purpose of holding rulemaking hearings and may also assign administrative law judges or establish ad hoc boards of appeal to meet special requirements of disputes not falling under one of the previously listed categories. Board decisions are final for the Department.

The Office includes the headquarters organization and nine field offices for administrative law judges.

For further information, contact the Office of Hearings and Appeals, Department of the Interior, 4015 Wilson Boulevard, Arlington, VA 22203. Phone, 703-235-3810.

Bureaus**United States Fish and Wildlife Service**

[For the United States Fish and Wildlife Service statement of organization, see the *Code of Federal Regulations*, Title 50, Subchapter A, Part 2]

The United States Fish and Wildlife Service's national responsibility in the service of fish, wildlife, and people spans more than 120 years to the establishment in 1871 of a predecessor agency, the Bureau of Fisheries. First created as an independent agency, the Bureau of Fisheries was later placed in the Department of Commerce. A second predecessor agency, the Bureau of Biological Survey, was established in 1885 in the Department of Agriculture.

In 1939 the two Bureaus and their functions were transferred to the Department of the Interior. They were

consolidated into one agency and redesignated the Fish and Wildlife Service in 1940 by Reorganization Plan III (5 U.S.C. app.).

Further reorganization came in 1956 when the Fish and Wildlife Act (16 U.S.C. 742a) created the United States Fish and Wildlife Service and provided for it to replace and succeed the former Fish and Wildlife Service. The Act established two Bureaus within the new Service: the Bureau of Commercial Fisheries and the Bureau of Sport Fisheries and Wildlife.

In 1970, under Reorganization Plans 3 and 4 (5 U.S.C. app.), the Bureau of Commercial Fisheries was transferred to the Department of Commerce. The Bureau of Sport Fisheries and Wildlife, which remained in Interior, was

renamed by an act of Congress in April 1974 (16 U.S.C. 742b) as the United States Fish and Wildlife Service.

The Service is composed of a headquarters office in Washington, DC, 7 regional offices, and a variety of field units and installations. These include more than 500 national wildlife refuges and 166 waterfowl production areas totaling more than 92 million acres; 78 national fish hatcheries; and a nationwide network of wildlife law enforcement agents.

The United States Fish and Wildlife Service is responsible for migratory birds, endangered species, certain marine mammals, and inland sport fisheries. Its mission is to conserve, protect, and enhance fish and wildlife and their habitats for the continuing benefit of the American people. Within this framework, the Service strives to foster an environmental stewardship ethic based on ecological principles and scientific knowledge of wildlife; works with the States to improve the conservation and management of the Nation's fish and wildlife resources; and administers a national program providing opportunities to the American public to understand, appreciate, and wisely use these resources.

In the area of resource management, the Service provides leadership for the protection and improvement of land and water environments (habitat preservation), which directly benefits the living natural resources and adds quality to human life. Activities include:

- surveillance of pesticides, heavy metals, and other contaminants;
- studies of fish and wildlife populations;
- ecological studies;
- environmental impact assessment, including hydroelectric dams, nuclear power sites, stream channelization, and dredge-and-fill permits; and
- environmental impact statement review.

The Service is responsible for improving and maintaining fish and wildlife resources by proper management of wildlife and habitat. It also helps fulfilling the public demand for recreational fishing while maintaining

the Nation's fisheries at a level and in a condition that will ensure their continued survival. Specific wildlife and fishery resources programs include:

- migratory birds: wildlife refuge management for production, migration, and wintering; law enforcement; game, bird population, production, and harvest surveys;
- mammals and nonmigratory birds: refuge management of resident species, law enforcement, protection of certain marine mammals, and technical assistance;
- coastal anadromous fish: hatchery production and stocking;
- Great Lakes fisheries: hatchery production of lake trout and fishery management in cooperation with Canada and the States; and
- other inland fisheries: hatchery production and stocking of Indian lands, and technical assistance.

The Service provides national and international leadership in identifying, protecting, and restoring endangered species of fish, wildlife, and plants. This program includes:

- developing the Federal Endangered and Threatened Species List, conducting of status surveys, preparing recovery plans, and coordinating efforts nationally and internationally;
- operating national wildlife refuges;
- law enforcement;
- foreign importation enforcement; and
- consultation with foreign countries.

Public use and information programs include preparing leaflets and brochures; operating environmental study areas on Service lands for use by school groups and teachers; operating visitor centers, self-guided nature trails, observation towers, and display ponds; and providing recreational activities, such as hunting, fishing, and wildlife photography.

The Service's Federal aid programs apportion funds generated by excise taxes on sporting arms and equipment to the States and territories for projects designed to conserve and enhance the Nation's fish and wildlife resources.

National Park Service

The National Park Service was established in the Department of the Interior on August 25, 1916 (16 U.S.C. 1).

The National Park Service is dedicated to conserving unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. The Service is also responsible for managing a great variety of national and international programs designed to help extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.

The National Park Service has a Service Center in Denver that provides planning, architectural, engineering, and other professional services. There are more than 365 units in the National Park System, including national parks and monuments; scenic parkways, preserves, trails, riverways, seashores, lakeshores, and recreation areas; and historic sites associated with important movements, events, and personalities of the American past.

Activities The National Park Service develops and implements park management plans and staffs the areas under its administration. It relates the natural values and historical significance of these areas to the public through talks, tours, films, exhibits, publications, and other interpretive media. It operates campgrounds and other visitor facilities and provides—usually through concessions—lodging, food, and transportation services in many areas.

The National Park Service also administers the following programs: the State portion of the Land and Water Conservation Fund, Nationwide Outdoor Recreation coordination and information and State comprehensive outdoor recreation planning, planning and technical assistance for the National Wild and Scenic Rivers System, and the National Trails System, natural area programs, the National Register of Historic Places, national historic landmarks, historic preservation, technical preservation services, Historic American Buildings Survey, Historic American Engineering Record, and interagency archeological services.

National Biological Service

The National Biological Service (NBS) became operational on November 11, 1993, through the transfer of certain functions of the following Interior bureaus: U.S. Fish and Wildlife Service, National Park Service, Bureau of Land Management, Minerals Management Service, Office of Surface Mining Reclamation and Enforcement, U.S. Geological Survey, and Bureau of Reclamation.

The mission of NBS is to work with others to provide the scientific understanding and technologies needed to support the sound management and conservation of our Nation's biological resources. To accomplish this mission, NBS undertakes research, inventory, monitoring information sharing, and technology transfer activities to foster an

understanding of biological systems and their benefits to society. Through these activities, NBS provides essential scientific support, technical assistance, and information required for sound management and policy decisions regarding the Nation's biological resources. NBS establishes partnerships with other Federal, State, and local agencies; with museums and universities; and with private organizations in order to bring coherence to largely uncoordinated efforts and to further fulfill its mission.

NBS consists of a Headquarters Office, located in Washington, DC; 4 regions, located in Lafayette, LA; Denver, CO; Seattle, WA; and Leetown, WV; 16 science centers; 88 field stations; and 54 cooperative research units, all located at colleges and universities.

For further information, contact the Public Affairs Office, National Biological Service, Department of the Interior, 1849 C Street NW., Washington, DC 20240. Phone, 202-482-3048.

United States Bureau of Mines

The United States Bureau of Mines was established July 1, 1910, in the Department of the Interior by the Organic Act of May 16, 1910, as amended (30 U.S.C. 1, 3, 5-7). The 1910 act has been supplemented by several statutes, including those authorizing production and sale of helium, and research on environmental problems associated with minerals.

The Bureau is primarily a research and factfinding agency. Its goal is to help ensure that the Nation has adequate supplies of nonfuel minerals for security and other needs. Research is conducted to provide the technology for the extraction, processing, use, and recycling of the Nation's nonfuel mineral resources at a reasonable cost without harm to the environment or the workers involved.

The Bureau also collects, compiles, analyzes, and publishes statistical and economic information on all phases of nonfuel mineral resource development, including exploration, production, shipments, demand, stocks, prices, imports, and exports. Special studies are frequently made on subjects of particular national interest, such as the effects of potential economic, technologic, or legal developments on resource availability. The effects of policy alternatives on mineral supply and demand are also analyzed.

For further information, contact the Office of Public Information, United States Bureau of Mines, Department of the Interior, 810 Seventh Street NW., Washington, DC 20241. Phone, 202-501-9649.

United States Geological Survey

The United States Geological Survey (USGS) was established by act of March 3, 1879 (43 U.S.C. 31), which provided for "the classification of the public lands and the examination of the geological structure, mineral resources, and products of the national domain." The act of September 5, 1962 (43 U.S.C. 31(b)), expanded this authorization to include such examinations outside the national domain. Topographic mapping and chemical and physical research were recognized as an essential part of the investigations and studies authorized by act of March 3, 1879, and specific provision was made for them through subsequent legislation.

Provision was made in 1894 for gauging the streams and determining the water supply of the United States. Authorizations for publication, sale, and distribution of material prepared by USGS are contained in several statutes (43 U.S.C. 41-45; 44 U.S.C. 1318-1320).

USGS is also authorized to maintain an archive of land-remote sensing data for historical, scientific, and technical purposes, including long-term global environmental monitoring; establish a National Geologic Mapping Program; expedite the production of a geologic-map data base; establish and support the Federal Geographic Data Committee, which is chaired by the Secretary of the

Interior; and serve as the designated lead agency for the Federal Water Information Coordination Program.

The Geological Survey's primary responsibilities are: investigating and assessing the Nation's land, water, energy, and mineral resources; conducting research on global change; and investigating natural hazards such as earthquakes, volcanoes, landslides, floods, and droughts. To attain these objectives, USGS prepares maps and digital and cartographic data; collects and interprets data on energy and mineral resources; conducts nationwide assessments of the quality, quantity, and use of the Nation's water resources; performs fundamental and applied research in the sciences and techniques involved; and publishes and disseminates the results of its investigations in thousands of new maps and reports each year.

For further information, contact the Public Affairs Office, United States Geological Survey, Department of the Interior, 119 National Center, Reston, VA 22092. Phone, 703-648-4460.

Office of Surface Mining Reclamation and Enforcement

The Office of Surface Mining Reclamation and Enforcement (OSM) was established in the Department of the Interior by the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1211).

The Office's primary goal is to assist States in operating a nationwide program that protects society and the environment from the adverse effects of coal mining, while ensuring that surface coal mining can be done without permanent damage to land and water resources. The main objectives, now that most coal-mining States have assumed primary responsibility for regulating coal mining and reclamation activities within their borders, are to oversee mining regulatory and abandoned mine reclamation programs in States with primary responsibility, to assist States in meeting the objectives of the act, and to regulate mining and reclamation activities in those States choosing not to assume primary responsibility.

The Office's headquarters is located in Washington, DC. In addition, regional coordinating centers, located in Pittsburgh, PA; Alton, IL; and Denver, CO; provide technical support to the States and to OSM's 13 field offices and 8 area offices. The field offices interact with State, tribal and Federal agencies, assisting the States in implementing their regulatory and reclamation programs. The regional coordinating centers also review mine plans and permit applications on Federal lands.

Activities The Office establishes national policy for the conduct of the surface mining control and reclamation program provided for in the act, reviews and approves amendments to previously approved State programs, and reviews and recommends approval of new State program submissions. Other activities include:

- managing the collection, disbursement, and accounting for abandoned mine land fees;
- administering civil penalties programs;
- establishing technical standards and regulatory policy for reclamation and enforcement efforts;
- providing guidance for environmental considerations, research, training, and technology transfer for State, tribal and Federal regulatory and abandoned mine land reclamation programs; and
- monitoring and evaluating State and tribal regulatory programs, cooperative agreements, and abandoned mine land reclamation programs.

Bureau of Indian Affairs

The Bureau of Indian Affairs was created as part of the War Department in 1824

and transferred to the Department of the Interior when the latter was established in 1849. The Snyder Act of 1921 (25 U.S.C. 13) provided substantive law for appropriations covering the conduct of activities by the Bureau of Indian Affairs. The scope and character of the authorizations contained in this act were broadened by the Indian Reorganization Act of 1934 (25 U.S.C. 461 *et seq.*), the Indian Self-Determination and Education Assistance Act of 1975, as amended (25 U.S.C. 450), title XI of the Education Amendments of 1978 (20 U.S.C. 2701 note), and the Hawkins-Stafford Elementary and Secondary School Improvement Amendments of 1988 (20 U.S.C. 2701).

The principal objectives of the Bureau are to encourage and assist Indian and Alaska Native people to manage their own affairs under the trust relationship to the Federal Government; to facilitate, with maximum involvement of Indian and Alaska Native people, full development of their human and natural resource potential; to mobilize all public and private aids to the advancement of Indian and Alaska Native people for use by them; and to promote self-determination by utilizing the skill and capabilities of Indian and Alaska Native people in the direction and management of programs for their benefit.

Activities In carrying out these objectives, the Bureau works with Indian and Alaska Native people, tribal governments, Native American organizations, other Federal agencies, State and local governments, and other interested groups in the development and implementation of effective programs for their advancement.

The Bureau also acts as trustee for their lands and moneys held in trust by the United States, assisting them to realize maximum benefits from such resources.

Minerals Management Service

The Minerals Management Service was established on January 19, 1982, by Secretarial Order 3071, under the authority provided by section 2 of Reorganization Plan No. 3 of 1950 (5 U.S.C. app.), and further amended on May 10 and May 26, 1982.

Secretarial Order 3087, dated December 3, 1982, and amendment 1, dated February 7, 1983, provided for the transfer of royalty and mineral revenue management functions, including collection and distribution, to the Minerals Management Service and transferred all onshore minerals management functions on Federal and Indian lands to the Bureau of Land Management.

The Service assesses the nature, extent, recoverability, and value of leasable minerals on the Outer Continental Shelf. It ensures the orderly and timely inventory and development, as well as the efficient recovery, of mineral resources; encourages utilization of the best available and safest technology; provides for fair, full, and accurate returns to the Federal Treasury for produced commodities; and safeguards against fraud, waste, and abuse.

Offshore Minerals Management The Service is responsible for resource evaluation, environmental review, leasing activities (including public liaison and planning functions), lease management, and inspection and enforcement programs for Outer Continental Shelf lands.

Five-year oil and gas leasing programs are developed for leasing on the Outer Continental Shelf in consultation with the Congress, the 23 coastal States, local governments, environmental groups, industry, and the public.

The Service conducts extensive environmental studies and consultations with State officials prior to issuing leases. Once leases have been issued, inspectors conduct frequent inspections of offshore operations, and environmental studies personnel collect more data to ensure that marine environments are kept free of pollutants. **Royalty Management** The Service is responsible for the collection and distribution of all royalty payments, rentals, bonus payments, fines, penalties, assessments, and other revenues due the Federal Government and Indian lessors as monies or royalties-in-kind from the extraction of mineral resources from Federal and Indian lands onshore and from the leasing and extraction of mineral resources on the Outer Continental Shelf.

The revenues generated by minerals leasing are one of the largest nontax sources of income to the Federal Government. As specified by law, these revenues are distributed to the States, to the general fund of the Treasury, and to Indian tribes and allottees.

The basic organization of the Service consists of a headquarters in Washington, DC, with program components located in Herndon, VA; the Royalty Management Program, headquartered in Lakewood, CO; three Outer Continental Shelf regional offices; and two administrative service centers.

Bureau of Land Management

The Bureau of Land Management (BLM) was established July 16, 1946, by the consolidation of the General Land Office (created in 1812) and the Grazing Service (formed in 1934).

The Federal Land Policy and Management Act of 1976 (90 Stat. 2743) repealed and replaced many obsolete or overlapping statutes. It provides a basic mission statement for the Bureau and establishes policy guidelines and criteria for the management of public lands and resources administered by the Bureau.

The Bureau's basic organization consists of a headquarters in Washington, DC, a Service Center in Denver, CO, a Fire Center in Boise, ID, and a Training Center in Phoenix, AZ, which have BLM-wide support responsibilities; and a field organization of State, district, and resource area offices. The Bureau also utilizes a system of advisory councils to assist in the development of management plans and policies.

The Bureau is responsible for the total management of more than 270 million acres of public lands. These lands are located primarily in the West and Alaska; however, small scattered parcels are located in other States. In addition to minerals management responsibilities on the public lands, BLM is also responsible for subsurface resource management of an additional 300 million acres where mineral rights are owned by the Federal Government.

Resources managed by the Bureau include timber, solid minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species,

rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas, and open space. Bureau programs provide for the protection (including fire suppression), orderly development, and use of the public lands and resources under principles of multiple use and sustained yield. Land use plans are developed with public involvement to provide orderly use and development while maintaining and enhancing the quality of the environment. The Bureau also manages watersheds to protect soil and enhance water quality; develops recreational opportunities on public lands; administers programs to protect and manage wild horses and burros; and, under certain conditions, makes land available for sale to individuals, organizations, local governments, and other Federal agencies when such transfer is in the public interest. Lands may be leased to State and local government agencies and to nonprofit organizations for certain purposes.

The Bureau oversees and manages the development of energy and mineral leases and ensures compliance with applicable regulations governing the extraction of these resources.

The Bureau has responsibility to issue rights-of-way, in certain instances, for crossing Federal lands under other agencies' jurisdiction. It also has general enforcement authority.

The Bureau is responsible for the survey of Federal lands and establishes and maintains public land records and records of mining claims. It administers a

program of payments in lieu of taxes lands in counties and other units of local
 based on the amount of federally owned government.

Bureau of Reclamation

The mission of the Bureau of Reclamation is to manage, develop, and protect, for the public welfare, water and related resources in an environmentally and economically sound manner.

The Reclamation Act of 1902 (43 U.S.C. 371 *et seq.*) authorized the Secretary of the Interior to administer a reclamation program that would provide the arid and semiarid lands of the 17 contiguous Western States a secure, year-round water supply for irrigation. To perform the mission, the Reclamation Service was created within the United States Geological Survey. In 1907 the Reclamation Service was separated from the Survey, and in 1923 was renamed the Bureau of Reclamation.

The Reclamation program has helped to settle and develop the West by providing for sustained economic growth, an improved environment, and an enhanced quality of life through the development of a water storage and delivery infrastructure, which provides safe and dependable water supplies and hydroelectric power for agricultural, municipal, and industrial users; protects and improves water quality; provides recreational and fish and wildlife

benefits; enhances river regulations; and helps control damaging floods.

With this infrastructure largely in place, the Reclamation program is now focusing greater emphasis on resource management and protection than on development. Following a balanced approach to the stewardship of the West's water and related land and energy resources, the Bureau:

- works in partnership with others to develop water conservation plans, provide for the efficient and effective use of water and related resources, and improve the management of existing water resources;
- designs and constructs water resources projects, as authorized by the Congress;
- helps to develop and supports or enhances recreational uses at Reclamation projects;
- conducts research and encourages technology transfer to improve resource management, development, and protection;
- ensures that the lands it manages are free from hazardous and toxic waste and assists other Federal and State agencies in protecting and restoring surface water and ground water

resources from hazardous waste contamination;

—operates and maintains its facilities to ensure reliability, safety, and economic operation to protect the public, property, and the Nation's investment in the facilities, and to preserve and enhance environmental resources; and

—provides engineering and technical support to Federal and State agencies, to Native American tribes, and to other nations to help accomplish national, regional, and international resource

management, development, and protection objectives.

Through contracts with project beneficiaries, the Bureau arranges repayment to the Federal Treasury for construction, operation, and maintenance costs. Approximately 80 percent of all direct project costs are repaid to the Government.

Reclamation project facilities in operation include 355 storage reservoirs, 69,400 miles of canals and other water conveyances and distribution facilities, and 52 hydroelectric powerplants.

Sources of Information

Inquiries on the following subjects should be directed to the specified office, Department of the Interior, Washington, DC 20240.

Contracts Contact the Office of Acquisition and Property Management, Room 5526. Phone, 202-208-6431.

Departmental Museum Provides information regarding departmental activities. Publications and other literature are available to the public free of charge. Located in Room 1238 (Museum), Main Interior Building. Phone, 202-208-4743.

Employment Direct general inquiries to the Office of Personnel or visit any of the field personnel offices.

Publications Most departmental publications are available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. All other inquiries regarding publications should be directed to the individual bureau or

office's publications or public affairs office.

Information regarding bibliographies on select subjects is available from the Information Services Branch of the Natural Resources Library. Phone, 202-208-5815.

Reading Room Natural Resources Library, Main Interior Building. Phone, 202-208-5815.

Telephone Directory The Department of the Interior telephone directory is available for sale by the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

United States Fish and Wildlife Service
Inquiries on the following subjects should be directed to the specified office, U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC 20240.

Contracts Contact the Washington, DC, headquarters Division of

Contracting and General Services (phone, 703-358-1728); or any of the regional offices.

Employment For information regarding employment opportunities with the U.S. Fish and Wildlife Service, contact the Headquarters Personnel Office (phone, 703-358-1743); or the regional office within the area you are seeking employment.

Import/Export Permits To obtain CITES permits for the import and export of wildlife, contact the Office of Management Authority. Phone, 703-358-2104.

Public and News Media Inquiries Specific information about the U.S. Fish and Wildlife Service and its activities is available from the Office of Current Information (phone, 202-208-5634); or the public affairs officer in each of the Service's regional offices.

Publications The U.S. Fish and Wildlife Service has publications available on subjects ranging from the National Wildlife Refuge System to endangered species. Some publications are only available as sales items from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. Further information is available from the Publications Unit, U.S. Fish and Wildlife Service, Washington, DC 20240. Phone, 703-358-1711.

National Park Service

Contracts Contact the nearest regional office, Administrative Services Division, National Park Service, P.O. Box 37127, Washington, DC 20013-7127 (phone, 202-523-5133); or the Denver Service Center, P.O. Box 25287, 12795 West Alameda Parkway, Denver, CO 80225 (phone, 303-969-2110).

Employment Employment inquiries and applications may be sent to the Personnel Office, National Park Service, Department of the Interior, Washington, DC, and to the field area offices and individual parks. Applications for seasonal employment (which must be received between September 1 and January 15) should be sent to the Division of Personnel Management,

National Park Service, P.O. Box 37127, Washington, DC 20013-7127. Phone, 202-208-5074. Schools interested in the recruitment program should write to: Chief Personnel Officer, National Park Service, P.O. Box 37127, Department of the Interior, Washington, DC 20013-7127. Phone, 202-208-5093

Films The National Park Service has many films on environmental and historical themes. For a list of these films and sales and for information on how to obtain them, write: National Technical Information Center, Springfield, VA 22161. Phone, 703-487-4650.

Grants-in-Aid For information on grants authorized under the Land and Water Conservation Fund, the Urban Park and Recreation Recovery Program, and the Historic Preservation Fund, write the National Park Service, P.O. Box 37127, Washington, DC 20013-7127. Phone, 202-343-3700 or 202-343-9564.

Publications Items related to the National Park Service are available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. Items include *The National Park System Map & Guide*, *The National Parks: Index 1993*, *National Parks: Lesser Known Areas*, and *The Civil War at a Glance*, an official handbook series highlighting specific parks, publications in archaeology, several commemorative posters, and thematic brochures. Contact the Consumer Information Center, Pueblo, CO 81009, for other publications about the National Park Service. For general park and camping information, write to the National Park Service, Office of Public Inquiries, P.O. Box 37127, Room 3424, Washington, DC 20013-7127.

United States Bureau of Mines

Contracts Contact the Branch of Procurement, United States Bureau of Mines, Department of the Interior, 810 Seventh Street NW., Washington, DC 20241. Phone, 202-501-9259.

Employment For information on employment opportunities throughout the United States, contact the Chief, Division of Personnel, United States Bureau of Mines, Department of the

Interior, 810 Seventh Street NW., Washington, DC 20241. Phone, 202-501-9600.

Films Requests for film loans should be directed to: Motion Pictures, United States Bureau of Mines, P.O. Box 18070, Cochran Mill Road, Pittsburgh, PA 15236. Phone, 412-892-6845.

Publications *Mineral Industry Surveys* (monthly, quarterly and annual), *Metal Industry Indicators* (economic newsletter), bimonthly list of *New Publications of the Bureau of Mines* and *Technology News* (periodic fact sheet) can be obtained without charge from the U.S. Bureau of Mines, Branch of Production and Distribution, P.O. Box 18070, Cochran Mill Road, Pittsburgh, PA 15236. *Commodity and State Annual Reports*, *Mineral Yearbooks* in three volumes (Vol. I—Metals and Minerals, Vol. II—Domestic, and Vol. III—International), *U.S. Bureau of Mines Publications and Articles* (listing), and *Special Publications* (e.g., *Mineral Commodity Summaries*, *CD-ROM's*, etc.) can be purchased from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 371954, Pittsburgh, PA 15250-7954.

Information on other Bureau of Mines publications is available from the Superintendent of Documents, U.S. Government Printing Office, Mail Stop SSOM, Washington, DC 20402. Paper and microfiche copies of most publications, such as reports of investigations, bulletins, information circulars, U.S. Bureau of Mines publications and articles (listing), and special publications, etc., issued after 1970 are available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. Phone, 703-487-4650.

Electronic Information Commodity statistics, abstracts of publications, bimonthly lists of publications, and other information are available through the following three systems:

Internet Access: To use the U.S.

Bureau of Mines Gopher server on Internet, connect to: gopher.usbm.gov port 70, using gopher client software; or contact the Systems Administrator for technical questions on 412-892-6499, or klevemmc@miner.usbm.gov

Mines Data: Computer bulletin board. Log on via modem through 202-501-0373, or call 202-501-0406 for technical assistance.

Mines FaxBack: Return fax service. Use the touch-tone handset attached to your fax machine's telephone jack. (ISDN [digital] telephones cannot be used with fax machines.) Dial 202-219-3644. Listen to the menu options and punch in the number of your selection, using the touch-tone telephone. After completing your selection, press the start button on your fax machine.

United States Geological Survey Contracts, Grants, and Cooperative Agreements Write to the Administrative Division, Office of Procurement and Contracts, 205 National Center, 12201 Sunrise Valley Drive, Reston, VA 22092. Phone, 703-648-7373.

Employment Inquiries should be directed to one of the following Personnel Offices:

Recruitment and Placement, 215 National Center, 12201 Sunrise Valley Dr., Reston, VA 22092. Phone, 703-648-6131.

Rm. 135, U.S. Post Office Bldg., W. 904 Riverside Ave., Spokane, WA 99201. Phone, 509-353-2524.

EROS Data Center, Sioux Falls, SD 57198. Phone, 605-594-6151.

Maps Maps are sold by the Branch of Distribution, United States Geological Survey, Box 25286, Denver Federal Center, Denver, CO 80225 (phone, 303-236-7477); and the Earth Science Information Centers (see General Inquiries). Information about the status of U.S. Geological Survey mapping in any State and availability of maps by other Federal and State agencies can be obtained from the Earth Science Information Center, 507 National Center, 12201 Sunrise Valley Drive, Reston, VA 22092. Phone, 800-USA-MAPS; or in Virginia, 703-648-6045.

Outreach/External and Media Affairs The Public Affairs Office of the U.S. Geological Survey coordinates external contacts and special events, responds to news media inquiries, arranges interviews, and prepares news and releases and other informational products pertaining to Survey programs and activities. The headquarters office is located at 119 National Center, 12201 Sunrise Valley Drive, Reston, VA 22092. Phone, 703-648-4460. News media service also is available in Menlo Park—San Francisco. Phone, 415-329-4000.

Publications The U.S. Geological Survey publishes technical and scientific reports and maps, described in the monthly periodical *New Publications of the U.S. Geological Survey*, with yearly

supplements; *Publications of the U.S. Geological Survey, 1879-1961*; *Publications of the Geological Survey, 1962-1970*; and a variety of nontechnical publications described in *General Interest Publications of the United States Geological Survey*.

Book and Digital Data Series (CD-ROM) publications are sold by the U.S. Geological Survey's Branch of Distribution, Denver Federal Center, Box 25286, Denver, CO 80225 (phone, 303-236-7477), and by the U.S. Geological Survey's Earth Science Information Centers (see General Inquiries).

Open-file reports, in the form of microfiche and/or black and white paper copies, diskettes, and CD-ROM's are sold by the United States Geological Survey, Open File Reports—ESIC, Denver Federal Center, Box 25425, Denver, CO 80225. Phone, 303-236-7476.

Single copies of a variety of nontechnical leaflets, technical reports, books, and special interest publications on Earth science subjects and U.S. Geological Survey activities are available to the public upon request from the United States Geological Survey, Branch of Distribution, Denver Federal Center, Box 25286, Denver, CO 80225. Phone, 303-236-7477. Bulk quantities may be purchased from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Reading Rooms Facilities for examination of reports, maps, publications of the U.S. Geological Survey, and a wide selection of general Earth science information resources and historical documents are located at the U.S. Geological Survey's libraries at the National Center, 12201 Sunrise Valley Drive, Reston, VA 22092; Denver Federal Center, Building 20, Box 25046, Denver, CO 80225; 345 Middlefield Road, Menlo Park, CA 94025; and 2255 North Gemini Drive, Flagstaff, AZ 86001; and Earth Science Information Centers (see General Inquiries). Maps, aerial photographs, geodetic control data or index material, and cartographic data in digital form may be examined at the following Earth Science Information Centers:

Rm. 1C402, 507 National Center, 12201 Sunrise Valley Dr., Reston, VA 22092.
 1400 Independence Rd., Rolla, MO 65401.
 Bldg. 3101, Stennis Space Ctr., MS 39529.
 Box 25046, Bldg. 25, (MS 504), Lakewood Center, Denver Federal Ctr., Denver, CO 80225.
 345 Middlefield Rd., Menlo Park, CA 94025.
 4230 University Dr., Anchorage, AK 99508-4664.

Spacecraft and aircraft remote sensor data may be examined at the EROS Data Center, Sioux Falls, SD 57198. Phone, 605-594-6151.

Water Data Information on the availability of and access to water data acquired by the U.S. Geological Survey and other local, State, and Federal agencies may be obtained from the National Water Data Exchange, 421 National Center, 12201 Sunrise Valley Drive, Reston, VA 22092. Phone, 703-648-5663.

Office of Surface Mining Reclamation and Enforcement

Contracts Contact the Procurement Branch, Office of Surface Mining, Department of the Interior, 1951 Constitution Avenue NW., Washington, DC 20240. Phone, 202-343-4685. TDD, 202-208-2737.

Employment For information on employment opportunities throughout the United States, contact the Chief, Division of Personnel, Office of Surface Mining, Department of the Interior, 1951 Constitution Avenue NW., Washington, DC 20240. Phone, 202-208-2965. TDD, 202-208-2737.

Bureau of Indian Affairs

Inquiries regarding the Bureau of Indian Affairs may be obtained by calling the Office of Public Affairs at 202-208-3710, or writing to the Chief, Office of Public Affairs, 1849 C Street, NW., Mailstop 1340 MIB, Washington, DC 20240.

Minerals Management Service

Inquiries on specific subjects should be directed to the appropriate headquarters office at 1849 C Street NW., Washington, DC 20240, or to the appropriate Minerals Management Service field office.

Public and News Media Inquiries

Specific information about the Minerals Management Service and its activities is available from the Chief, Office of Communications and Governmental Affairs, Room 4260, (MS 4013), 1849 C Street NW., Washington, DC 20240.

Bureau of Land Management

Contracts Contracts in excess of \$25,000 for public land projects are awarded by the Contracting Office of the Denver Service Center. Phone, 303-969-6502. Contracts for Federal information processing are awarded by the Information Resources Acquisition Branch of the Denver Service Center. Phone, 303-236-6498. Contracts for public land projects in the States of Oregon and Washington are awarded by the Contracting Office in Portland, OR. Phone, 503-952-6216.

Employment Initial appointments to the Bureau are made from registers established by the Office of Personnel Management as a result of examination announcements issued by area offices of the Office of Personnel Management throughout the country. The following Office of Personnel Management announcements are applicable to most professional positions within the Bureau. Announcement No. 421, Biological and Agricultural Sciences; Announcement No. 424, Engineering, Physical Sciences and Related Professions. The Mid-Level and Senior-Level registers are also used in a limited number of cases for social sciences professionals and other positions.

Inquiries should be directed to the Service Center, any Bureau of Land Management State Office, or to the Personnel Officer, Bureau of Land Management, Department of the Interior, Washington, DC, from whom the booklet *Career Opportunities in the BLM* is available.

General Inquiries The Bureau occasionally sells tracts of land, but generally by public auction and never for less than fair market value. It acts as the leasing agent for mineral rights on public and other federally administered lands. Information may be obtained from

any of the State offices or from the Bureau of Land Management, Office of Public Affairs, Department of the Interior, Washington, DC 20240. Phone, 202-208-3435.

Publications The annual publication *Public Land Statistics*, which relates to public lands, is available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Reading Rooms All State offices provide facilities for individuals who wish to examine status records, tract books, or other records relating to the public lands and their resources.

Small Business Activities The Bureau has four major buying offices that provide contacts for small business activities. The Service Center Branches of Procurement (phone, 303-969-6502) and Information Resources Acquisition (phone, 303-236-6498) are responsible for the western States' activities, except for Oregon (phone, 503-952-6218), which is a major buying office. All other small business contacts may be made to the small business specialist at the Eastern States office (phone, 703-440-1596); or the Washington office of the Bureau (phone, 202-452-5170).

Speakers Local Bureau offices will arrange for speakers to explain Bureau programs upon request from organizations within their areas of jurisdiction.

Bureau of Reclamation

Contracts The Advance Construction Bulletin and Advance Equipment Bulletin give information to contractors, manufacturers, and suppliers. Available from the Acquisition and Assistance Division, Building 67, Denver Federal Center, Denver, CO 80225. Phone, 303-236-8040 (ext. 227).

Employment Information on engineering and other positions is available from the Personnel Office, Denver (phone, 303-236-3834); or from the nearest regional office.

Publications Publications for sale are available through the National Technical Information Service. Phone, 1-800-553-6847.

Speakers and Films A volunteer speaker service provides engineers and scientists for schools and civic groups in the Denver area. Films are available on free loan. For speakers or films, contact the Reclamation Service Center in Denver, CO (phone, 303-236-7000).
