Minority Business Development Agency

[For the Minority Business Development Agency statement of organization, see the *Federal Register* of Mar. 17, 1972, 37 FR 5650, as amended]

The Minority Business Development Agency, formerly the Office of Minority Business Enterprise, was established by the Secretary of Commerce on November 1, 1979, and operates under the authority of Executive Order 11625 of October 13, 1971. The Agency develops and coordinates a national program for minority business enterprise.

The Agency was created to assist minority businesses in achieving effective and equitable participation in the American free enterprise system and in overcoming social and economic disadvantages that have limited their participation in the past. The Agency provides national policies and leadership in forming and strengthening a partnership of business, industry, and

government with the Nation's minority businesses.

Management and technical assistance is provided to minority firms on request, primarily through a network of Minority Business Development Centers funded by the Agency, as well as Minority Enterprise Growth Assistance (MEGA) Centers. Specialized business assistance is available to minority firms or potential entrepreneurs.

The Agency promotes and coordinates the efforts of other Federal agencies in assisting or providing market opportunities for minority business. It coordinates opportunities for minority firms in the private sector. Through such public and private cooperative activities, the Agency promotes the participation of Federal, State, and local governments, and business and industry in directing resources for the development of strong minority businesses.

Regional Offices—Minority Business Development Agency

National Oceanic and Atmospheric Administration

U.S. Department of Commerce, Washington, DC 20230
Phone, 202-482-2985

[For the National Oceanic and Atmospheric Administration statement of organization, see the *Federal Register* of Feb. 13, 1978, 43 FR 6128]

The National Oceanic and Atmospheric Administration was formed on October 3, 1970, by Reorganization Plan No. 4 of 1970 (5 U.S.C. app.). Its principal functions are authorized by title 15, chapter 9, United States Code (National Weather Service); title 33, chapter 17, United States Code (National Ocean Survey); and title 16, chapter 9, United States Code (National Marine Fisheries Service).

The Administration's mission is to explore, map, and chart the global ocean and its living resources and to manage, use, and conserve those resources; to describe, monitor, and predict conditions in the atmosphere, ocean, Sun, and space environment; to issue warnings against impending destructive natural events; to assess the consequences of inadvertent environmental modification over several scales of time; and to manage and disseminate long-term environmental information.

The Administration is responsible for reporting the weather of the United States and its possessions and provides weather forecasts to the general public;

issuing warnings against such destructive natural events as hurricanes, tornadoes, floods, and tsunamis; and providing services in support of aviation, marine activities, agriculture, forestry, urban air-quality control, and other weather-sensitive activities. The Administration also monitors and reports all non-Federal weather modification activities conducted in the United States.

The Administration conducts an integrated program of management, research, and services related to the protection and rational use of living marine resources and their habitats, and protects marine mammals and endangered marine species. It prepares and issues nautical and aeronautical charts, provides the Nation's precise geodetic surveys, and conducts broad research programs in marine and atmospheric sciences, solar-terrestrial physics, and experimental meteorology, including weather modification. The Administration also predicts tides, currents, and the state of the oceans; conducts research and development aimed at providing alternatives to ocean dumping; and develops sound national policies in the areas of ocean mining and energy. It provides Federal leadership in promoting wise and
