(8) the General Accounting Office, pursuant to the 1988 Anti-Drug Abuse Act, has developed a computer model that measures the potential effect of fiscal increases on one or more parts of the criminal justice system on the Judiciary, and

(10) the allocation of resources to portions of the Federal criminal justice system other than the Judiciary contributes to the need for additional judgeships that cannot be anticipated by the use of historical data alone, and

(b) **SENSE OF THE SENATE.**—It is the sense of the Senate that the Judicial Conference should be encouraged to make its recommendations to Congress for additional judgeships utilizing historical data and a workload estimate model designed to anticipate an increase in criminal filings resulting from increased funding in one or more components of the Federal criminal justice system, and to take into account the time expended in the appointive and confirmation processes.

#### JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3371), to control and prevent crime, submit the fol-

lowing joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

Exceptions are provided for parimutuel animal racing and jai-alai, as well as for sports wagering activities in the State of Nevada and the sports lotteries which have been conducted in recent years in the States of Oregon and Delaware; the State of New Jersey is given one year, if it so chooses, to have in operation sports wagering in its Atlantic City casinos.

Section 3043 of the Conference Substitute clarifies the prohibitions in existing law regarding gambling activities on foreign-flag vessels in international waters, and conforms the prohibitions regarding such activities on United States-flag ships. The term "segment of a voyage" is used in the new subsection (b)(2) of 15 U.S.C. 1175, as amended, to refer to an interval between two stops which is part of a longer overall voyage. Subsection (b)(2) works in conjunction with the other provisions of section 1175 to prohibit use or repair of a gambling device on voyages or segments of a voyage that begin and end in the same State (for example, between two islands of the State of Hawaii) if the State enacts a statute prohibiting such use or repair. A detailed explanation of the bill on which section 3043(b) is based appears in the report of the House of Representatives to accompany H.R. 3282 (H. Rept. 102–357).

Mr. BROOKS. Mr. Speaker, pursuant to House Resolution 301, I call up the conference report on the bill (H.R. 3371) to control and prevent crime.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 301, the conference report is considered as having been read.

The gentleman from Texas [Mr. BROOKS] will be recognized for 30 minutes, and the gentleman from Illinois [Mr. HYDE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Texas [Mr. BROOKS].

□ 0720

Mr. BROOKS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the time has finally come for each of us to take responsibility as citizen-legislators and fight crime with actions, not slogans. It may be hard—very hard—for some to finally

let go of what they perceive to be an election year issue, but our streets are flowing with blood and our constituents don't want any more words that fly ever so lightly into the atmosphere, signifying nothing. They are tired of promises; they are tired of politicians vying with each other to prove just who is tougher on crime; they are especially tired of purists who want 100 percent of one thing or nothing at all. Yes, crime is a wonderful issue for politicians. But crime is perhaps the most compelling social reality that threatens our daily lives. It is time to shed the issue and take on the problem.

Sunday, after 3 weeks of unconscionable political delay in the other body, the House and Senate conferees on the crime bill reached a final agreement that is historic in scope and approach. Without question, it is the toughest, most stringent crime control bill since the Federal Government was forced to take drastic steps to fight social anarchy in the 1920's and 1930's.

The bill creates 56 Federal capital punishment offenses, including the killing of law enforcement officials, death resulting from hijacking, terrorists, and drug kingpin activity, drive-by shootings, hostage taking resulting in death, child and sexual abuse resulting in death, and attempts to assassinate the President of the United States, to name just a few. These are heinous crimes, and must be dealt with appropriately. But, I ask my colleagues: Does it not serve our constituents to focus as well on preventing crime, rather than just ratcheting up the punishment after it occurs?

If we are going to take concrete steps to prevent crime, to cut down on recidivism, to support putting our police back on the streets where they belong and safeguarding our schools as learning environments, then we need programs to address these problems. And, we have them in H.R. 3371.

We have a program that puts the cop back on the beat, because there is no substitute for a direct enforcement presence. In another area, we require mandatory drug testing for all prisoners with a drug abuse history, in order to reduce repeat offender behavior.

Finally, we create a host of programs to further the use of DNA analysis and crime solving, to provide law enforcement scholarships to better train our police, to create antigang programs to combat this developing trend, and to set up boot camps for youthful offenders to learn the value of the straight and narrow before they become hardened career criminals.

Yet, in setting out harsh new penalties, and creating needed new prevention programs, we have been mindful that the very same constitution that guaranteed domestic tranquility for its citizens, also created a bill of rights for every American. This House has twice

upheld this balance between individual rights and efficient law enforcement in its effort to restructure and streamline the doctrine of habeas corpus without gutting it completely. A strict statutory time period is set within which death row petitioners must file petitions, and there is a virtual prohibition of all successive habeas corpus applications aimed at delay, delay, delay. In addition, while we want all properly obtained evidence admitted into any criminal trial, that does not include the rack and the thumbscrew; and coerced confessions have no place in our system of justice. That is made clear in H.R. 3371. This is not a dictatorship.

In the howl of the crime bill debate, a few facts tend to become lost. Let us remember as we proceed that 95 percent of all serious crime cases in this country are the province of State and local officials. In other words, this bill, which deals with Federal offenses, involves not more than one-twentieth of the criminal activity out there in America. Let us be very precise in our statements before proclaiming any crime initiative—as meritorious as this one surely is—as a panacea for the end of crime.

Let us remember one last thing. Less than 6 weeks ago, on October 16, the House of Representatives voted 305 to 118 to adopt a crime bill; the Senate also passed a crime bill; and the two have now been reconciled. Compromise is an essential element of that process, and that means not everybody will be perfectly pleased with the product. But does that mean we keep to the status quo? The substantial majority of this body, as well as the other body, wants a crime bill now. We are not willing to continue quibbling for months and months more. We want to discharge our duties to the American public and we will do so today.

I ask you to support H.R. 3371.

Mr. Speaker, I reserve the balance of my time.

Mr. HYDE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this is a disastrous time to discuss a very complicated but nonetheless critical piece of legislation, and so I beg of you to try and stay awake, as I am, because what we do here is significant, not only to our own legislative records but to our communities back home.

Back about 380 B.C. a man named Hippocrates gave some advice to physicians. He said, "First, do no harm." That is good advice for Congressmen, too: Do no harm.

I suggest to you that this bill, which is the product of an absurdity called a conference committee—and you should have been there, because they could do a miniseries about the way that railroad ran—and that conference committee report is not an anticrime bill but rather it is a step back from present law.

I will try to demonstrate that to you, and I stipulate that nobody is pro-crime, nobody is pro-criminal, nobody, but out of ignorance, which we could call euphemistically a failure to understand, out of ideology, which is certainly present in this Chamber on both sides of the aisle, some people instinctively want to protect the accused rather than the victim or, simply out of being misled by people in whom you misplace your trust, but I know well meaning people are going to support this bill.

I suggest to you it is a terrible mistake. Crime is nonpartisan. It is not Democrat. It is not Republican.

One of the letters that we rely on is from the attorneys general of the States, 31 of them, 15 of them are Democrats, and 16 of them are Republicans, so we are talking about a professional view about crime.

Our cities are turning into Beirut. Walking through a city used to be an exercise in life and liberty and the pursuit of happiness. Now it is an exercise in fear and in terror, and the pursuit of survival.

So we come here today in a spasm of spurious macho to prove to our constituents, as we beat our chests, that we are tough on crime.

If you want to be tougher on crime than this conference report, go back to your office and do not vote, because when you vote for this, you are retrenching. You are stepping back. You are retreating.

Because of its critical importance, let us examine the pretense this bill puts forward. Now, this is complicated. It is complicated for me, and I have been a lawyer since 1950.

But just to show you how misled you are, those who are within hearing of my voice, you have heard two things. You have heard there is no retroactivity, do not even use the word, said my friend from California. He said you are going to hear it. It is demagoguery. Then you heard from the member of the Committee on Rules, authority that only one petition for appeal is permissible under this conference report.

□ 0730

I submit to you both of these comments are way off the wall, much off the mark.

Let us talk about retroactivity, because that is one of the major flaws with the habeas corpus that emerges from this conference. Now, section 2256 discusses the retroactivity aspect. There is a case, Teague versus Lane, that holds that the law that was in effect at the time of the crime is the law that will control in all of these appeals, whether a direct appeal in the State courts, or a collateral appeal in the State courts, and then to the Federal court where you make another collateral appeal pursuant to habeas corpus laws.

The current law is that in all of these proceedings there shall be no retroactivity. The law that was in effect at the time is the law that controls.

Well, here is what they say, artfully, cleverly, to nullify that. Section 2256: "In an action filed under this chapter, the Court shall not apply a new rule."

Gee, that sounds great. Then they define "new rule" to make it almost impossible of attainment. What they give with one hand they take away with the other.

The description of a "new rule" now says, "For the purposes of this section, the term 'new rule' means a clear break from precedent announced by the Supreme Court of the United States that could not reasonably have been anticipated at the time the claimant's sentence became final in State court."

So under this definition, they issue a new rule, because most new rules are simply adjustments to the law and not a clear break from precedent announced by the Supreme Court of the United States that could not have been reasonably anticipated.

There is all kinds of retroactivity. Do not believe me, believe all the prosecutors in the country. Believe the 31 attorneys general, half of them Democrat, half of them Republican, the professionals. Yes, its true, they are not policemen, they are lawyers. They are prosecutors.

Now, as to successive Federal petitions, look at section 206.

If you get section 206 and you read it, you will find that you can have repeated petitions. Repeated petitions.

It says that a second or successive application that was not presented in a prior application shall be dismissed unless—unless, and that is the big word—unless the applicant shows the basis of the claim could not have been discovered by the exercise of reasonable diligence before the applicant filed the prior application or the failure to raise the claim in the prior application was due to action by the State officials, violation of the Constitution, and, get this, the facts underlying the claim would be sufficient if proven to undermine the court's confidence in the applicant's guilt of the offense or offenses for which the capital sentence was imposed, or in the validity of that sentence under Federal law. Again and again and again, reasons for additional petitions.

The attorney general of New Jersey, Robert J. Del Tufo, in a letter signed also by the attorney general of Pennsylvania, says, "This conference report is not a strong anti-crime bill. The proposals favor the convicted murderer, revictimizes the survivors of a murder victim, and penalizes the States. We urge you to reject it."

On and on and on. The prosecutors say that this conference report mugs the American people. It is a sad day when the will of the American people

to enact tougher criminal laws is so completely thwarted.

That, my friends, is something you ought to consider.

The habeas procedures adopted by this conference are worse than current law. They overturn at least 14 U.S. Supreme Court decisions that are favorable to law enforcement. They create major new obstacles to the use of the State death penalty laws.

You see, that is the unfunny joke. They add to a list of death penalty circumstances, but then they adjust their procedures so you cannot really use them. They simply enlarge the opportunities for prolonging litigation and for overturning criminal judgments.

Now, I have told you that they overruled the Supreme Court decision in *Teague v. Lane*. The report limits the definition of new rule to those that are announced by the Supreme Court and involve a clear break from precedent.

This is a novel standard. Almost all later decisions would be retroactively applicable to overturn earlier convictions and sentences that were imposed in conformity with existing law.

There is a famous case out in California, Robert Alton Harris, who brutally murdered two teenage boys in 1978. He has filed eight State habeas petitions and three Federal habeas petitions to get additional rounds of Federal litigation based on rules that would not be applied under current law and were not even in existence at the time he originally litigated his case.

Fourteen years that man has been appealing and appealing and appealing. What we want, My colleagues, is finality. Finality. That is what the victims of crime want, the victims of crime and the families. They are torn and torn reliving those tragic events until they see justice done.

Now, in addition, the habeas provisions before us allow delays of up to a full year to file a Federal habeas petition, rather than 6 months, which is the recommendation of the Powell committee. It rejects the Powell committee recommendations, which limited second and successive petitions to claims addressing guilt or innocence. Instead, it allows successive petitions to attack the validity of the sentence.

In addition, and here is something you have not heard, standards for the appointed counsel, you have to have competent counsel appointed to defend an indigent criminal defendant. But they are unworkably high in this bill.

Mandatory Federal standards for State capital trial appeals and collateral review are established that are very difficult to attain. Each defendant has to have two—two—attorneys, with years of criminal felony experience, to represent him at every stage of the process.

Now, incredibly, these attorneys are not appointed by the court, by a judge. Who appoints them? The defense bar.

And if there are not enough lawyers to go around, the statute is tolled and you wait and you wait and you wait.

So if you have been sentenced to death and you cannot get two competent attorneys who have had over 5 years of criminal felony experience, and the defense bar does not want to appoint them, nothing happens. Nothing happens. A committee of criminal lawyers appoints the defense counsel, not the court.

Now, there are 50 additional offenses for the imposition of the death penalty, but the procedures are constitutionally questionable.

Let me tell you one thing: We could go on and on and take time, but you are exhausted and so am I at this hour.

There is a case, Arizona versus Fulminante. What it holds is very simple. In that case if a law enforcement official coerces a confession out of the defendant, an involuntary confession, that confession, of course, cannot be admitted at the trial.

This case holds, and it is a Supreme Court case, that if there is other evidence sufficient to convict, you may proceed with the other evidence to convict.

Not this bill. Not this tough-on-crime bill. This reverses the Supreme Court Arizona versus Fulminante case and says if there is a coerced confession, the whole case goes out. It is not harmless error.

So that is this tough-on-crime bill. You have got a murderer and you have got plenty of evidence to convict a murderer, but because some stupid or overzealous law enforcement official coerced a confession out of him, he walks. That is the tough bill that they are asking you to support.

The exclusionary rule. The courts have finally come around to understanding that a motion to suppress the evidence because the search and seizure may have been illegal should not result in the criminal walking free, the accused walking free.

That does not accomplish anything. The policeman who made the illegal search is not punished. The only people punished are society by having the evidence of guilt suppressed.

So we have developed a good faith exception. The courts are finally coming around to recognizing a good faith exception to the exclusionary rule.

□ 0740

What we wanted to do was to extend that to warrantless searches and seizures, if they were made in good faith. Not only has the conference report reversed that or taken that out, but now one must prove that the magistrate who issued the warrant was neutral and detached. The focus in this tough anticrime bill is on the mental attitude and status of the magistrate, not the conduct of the policeman. Is that crazy? Of course it is.

That is what they have given us. They have rolled back the exclusionary rule.

Look, explain this, my friends. When we go home and we mention tough issues, we talk about health care. We talk about education. We talk about the economy. We are going to talk about crime. I would love to hear the explanation, especially from my friend back there who is paying such rapt attention and nodding his head. I want to hear him explain why the conference stripped out provisions in the House bill providing enhanced penalties for drug distribution to pregnant women. Why did they strip out increased penalties for recidivist sex offenders? Why, explain why you stripped out HIV testing for sex offenders? You took out government payment for HIV testing for rape victims. You removed the retired public safety officer death benefit program. Explain how we are so tough on crime that we took out all of those provisions.

If you can explain that, I think that is great.

This is a victory for the ACLU, not law enforcement. I suggest we would do well to listen to the professionals, the prosecutors in a bipartisan, non-partisan way if we pretend to care and want to do something effective about crime.

Mrs. SCHROEDER. Mr. Speaker, will the gentleman yield?

Mr. HYDE. I yield to the gentleman from Colorado.

Mrs. SCHROEDER. Mr. Speaker, the only thing I wanted to point out is, the gentleman is talking about this bill versus where he would like to be. I think we also have to look at this bill versus where we are. I think there is absolutely no question this bill tightens up habeas versus where it is today.

Mr. HYDE. Mr. Speaker, recapturing my time, I radically disagree with the gentleman.

Mr. BROOKS. Mr. Speaker, I yield 3 minutes and 30 seconds to the gentleman from New Jersey [Mr. HUGHES], a distinguished chairman of one of our subcommittees.

Mr. HUGHES. Mr. Speaker, I thank the gentleman for yielding time to me.

One of the most disappointing aspects of this session of Congress is that politics began about 2 months ago. Usually we have a few months, and already we are in an acrimonious debate. You would not recognize the legislation that we are debating because of the extreme rhetoric on both sides.

I was a member of the National District Attorneys Association for about 10 years. I loved it; good organization. I do not know what has happened to it. They seem to have left the reservation. They have left the reservation. I cannot imagine, with the attitude that is prevalent today, this association ever passing a bill of rights. I cannot imagine, with some of their views.

It is an old adage that a right without a remedy is nothing. And that is what habeas corpus provides.

Look, it is not about the capital offenses in here, and it is not about the provisions dealing with sex offenders, and it really is not about the exclusionary rule, as much as it is about habeas corpus. That is what we are debating. That is what it is all about.

The gentleman from Illinois [Mr. HYDE] indicated that the conference left a lot to be desired. I must say, I agree with that. But why? Why?

First of all, two Republican Senators had the crime legislation held up for 3 weeks. One of them had it held up because of the ratio, going to conference, Democrats and Republicans. And the other had it hung up over the gun legislation that was in there.

And the President had to bring them into the White House to unglue it so that we could begin to debate it. It was released on Friday, and we stayed here the weekend to try to resolve the differences.

There were a number of provisions that were dropped that I would have preferred to have held onto, which I felt would have strengthened the bill more. But unfortunately we had to drop a lot of provisions because we could not reach accommodation.

During that conference, as my colleagues on this side of the aisle know, there was a filibuster in process. And it was very difficult for us to resolve this conference. It is no way to legislate.

So I agree with my colleague from Illinois that it was not the best process, but it is the one that we were left with because on the one hand the President is demanding a crime bill and on the other hand the Republicans in the Senate are stonewalling.

Let us get right to the heart of habeas corpus. There are so many misstatements about what habeas corpus does.

First of all, the suggestion that the 1 year is unreasonable. That came from the National District Attorneys Association. That was their submission. I have their letter, their resolution. The 1 year came from them.

Second, insofar as successive petitions that my colleague from Illinois got into, read the legislation. In the first place, successive petitions, the difference between the Republicans and the President's plan and the Democratic plan is that in the Republican plan, a judge in a habeas corpus process could not reach an illegal sentence. If an individual had perjured himself in a bifurcated trial during the sentencing process and the 1 year had run, that prisoner would be executed because under habeas corpus the process had run. And they would not be able to reach him.

Insofar as retroactivity, the gentleman does a dance around that. There is no question but we redefine

new rules, and I grant the gentleman that, but it is a reasonable manner in which to modify that retroactivity provision because it deals with a clear break from precedent announced by the Supreme Court.

Finally, the President's plan would have us have two systems for defendants in this country, the opt-in provision. If in fact a person was to take advantage of habeas reforms, we provide competent counsel. If a person did not want to provide competent counsel, they do not opt in. So we have a system for the rich and a system for the poor.

It is a good bill. It is a strong bill, and I urge my colleagues to support it.

Mr. HYDE. Mr. Speaker, I yield such time as he may consume to the gentleman from Missouri [Mr. EMERSON].

Mr. EMERSON. Mr. Speaker, I rise in opposition to the bill.

Mr. Speaker, we've done it once again. Once again we have turned a crime bill into a criminals' bill. The bill is supposed to impose new Federal death penalties for heinous crimes—but with the habeas corpus provisions in this bill, these hardened criminals can't be executed—at least not without multiple appeals in both State and Federal courts. If we are going to have a death penalty for heinous crimes—and the will of the American people is demanding a death penalty—then let's have a death penalty and not a "we'll-execute-you-if-you-don't-die-of-old-age-first" penalty. Too many innocent people like Patricia Lexie are dying from senseless violence and the Congress is making it easier for criminals to get off the hook. This isn't the modestly reasonable bill on which the House worked its will. This is a compromise bill by liberals with liberals in conference. This certainly is not a bill manifesting concern for victims of crime.

We're making it easier for criminals to exclude evidence of their crimes from their trials, too. No matter if a police officer acting in good faith catches a criminal red-handed with kilos of cocaine; if the officer didn't have a warrant, those kilos of cocaine can't be used as evidence in a trial.

This bill also contains the "Brady Bill"—it requires an onerous process and waiting period for the purchase of a gun, and it requires local law enforcement to do a background check on every purchaser. Not only are we making life easier for criminals, we're making life more difficult for law-abiding citizens, who bear the real burden of these gun control provisions.

And if that's not enough, we're mandating official bilingualism in a crime bill. This bill requires the Bureau of Justice Assistance to develop models for the Safe School Antidrug Program in Spanish as well as in English. Moreover, each and every school that applies for an antidrug grant under this

program must describe the Spanish-language materials it will use before it may even be considered for a grant. This applies to every school, whether or not the school even has any Spanish-speaking students.

The gentleman who authored this Spanish-language amendment will tell you that it only applies "where appropriate." That may well have been the gentleman's intent, but quite frankly, that is not what the bill itself does. Read it yourself. This legislation itself says that each school shall include these materials in its application—it makes no mention of "when appropriate" or "when a significant number of students speak Spanish."

I strongly support doing everything we can to reach all students with our antidrug message. But this language does absolutely nothing to reach Chinese-speaking students, Vietnamese-speaking students, German-speaking students, or anyone else who speaks any other of the 150 languages spoken in this country. This language only mandates that the Federal Government operate in two languages—Spanish and English. Let's not make the same mistake. I urge you to vote against this procrime bill.

Mr. HYDE. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Wisconsin [Mr. SENSENBRENNER].

Mr. SENSENBRENNER. Mr. Speaker, the gentleman from New Jersey [Mr. HUGHES] has a very short attention span on who has been stalling the crime package. We may recall that on March 6th the President of the United States stood in this Chamber and challenged the Congress to pass a crime package within 100 days. The Committee on the Judiciary did not even hold a legislative hearing on any of the crime package during that 100 days. It took until September for the committee to mark up a bill and send it to the floor.

When it came to the floor, the rule that was requested by the gentleman from Texas [Mr. BROOKS] did not set up a conference immediately, which is the case usually when the other body passes a bill, so that we can get on with it. And the delay in setting up the conference was caused only in part by two Senators over on the other side. But in a far greater part by not asking to set up that conference at the time the House passed the bill in October.

On the merits of this proposal, this bill contains \$3.1 billion of authorizations for various kinds of law enforcement assistant programs, including safe schools and cop-on-the-beat, but not one penny of appropriations. We all know here that under the budget agreement that any increase to fund new programs in domestic discretionary spending has got to be matched with either a tax increase or a dollar-for-dollar reduction in other domestic discretionary spending programs.

Quite frankly, that is not going to happen. This year the Congress reduced the President's request for law enforcement by \$470 million. If we add \$3.1 billion on top of that, we are simply not going to find the money. It is putting an illusion in front of the local officials and the sheriffs and the local police departments all around the country that there is going to be Federal money available when every one of us here knows that that is not going to be the case.

□ 0750

That is a fraud, Mr. Speaker. It is a fraud on a lot of people who think the Congress is acting in good faith when we know that very little of that \$3.1 billion will be appropriated come appropriations bill time next year.

The second issue which I would like to bring to the attention of the Members, Mr. Speaker, is the firearms provision that is contained at the end of the Brady bill. As the Members may recall, when the House passed the Brady bill we rejected the Staggers instant check system by a rather substantial margin. A revised instant check system appeared in the conference committee version of the bill which emanated from the other body, and it says that once the instant check system is on line, the Brady bill, which applies to handgun sunsets, but the instant check system applies to all firearms purchases, not just handguns.

I have attempted to maintain an objective viewpoint on gun legislation, with my strong support of the Brady bill, but also my opposition to the semi-automatic weapons bill, which I did not think did the trick. The House agreed with my position on both of them. What I am here to tell the House this morning is that the permanent provisions relating to handguns are much broader than the Staggers provisions. It makes a provision that the gentleman from Florida, Mr. MCCOLLUM, put in, the drug bill of 1988, permanent and it triggers it as of the sunset of the Brady bill.

This is back door gun registration, there is no way of getting around it, and it expands the instant check provision to all firearms, not just the handguns and perhaps the semiautomatic weapons that are causing the problem, but the hunting rifles, the hunting shotguns, and every other firearm that is transferred through a licensed gun dealer.

This is a blank check, and when someone asks, come campaign time about this, do not say "I did not know about it when it passed," because I am telling the Members about it now.

Mr. BROOKS. Mr. Speaker, would the gentleman from Wisconsin [Mr. SENBRENNER] give me his attention just a moment? I want to commend the gentleman, because he has studied this bill very carefully and I am delighted that

he came back from Bermuda, though he missed the conference. He has shown great intelligence in reading the bill and in paying attention to it this day or two that we have had to evaluate it. I am very grateful for his attention.

Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. DINGELL], who is familiar with the gun allocations.

Mr. DINGELL. Mr. Speaker, as my colleagues know I have long been diligent in protecting the rights of firearms owners' enforcement from wrongful pieces of legislation. While I will observe that this legislation in that particular is not all that I would have liked it to have been, I will observe that it has been significantly improved by the distinguished gentleman from Texas in conference. I commend him for it.

I recognize that the other portions of the bill are good. I intend to vote for this legislation. I urge my colleagues to do likewise. The firearms provisions, which on many occasions were oppressive at different times during the career of this legislation as it went through the process, has been much improved and much cleaned up, and I believe it is a piece of legislation this body can support and I should support.

I commend the conferees and I commend my dear friend, the gentleman from Texas, for having presented this legislation to us today.

Mr. BROOKS. Mr. Speaker, I yield 3 minutes and 30 seconds to the gentleman from California [Mr. EDWARDS], the distinguished chairman of the subcommittee.

Mr. EDWARDS of California. Mr. Speaker, this is an interesting debate and I will not take a long time. I think it is curious that the Members who are opposed to the bill have neglected completely the hard-hitting provisions in the bill to fight crime, one after another. I have not heard from this side of the aisle those mentioned once, and yet our chairman, the distinguished gentleman from Texas [Mr. BROOKS] has itemized them in his opening statement. Was no one listening?

This is a crime fighting bill, and people who vote against this vote against it at their peril. The Members will not get those provisions again easily.

Now, the ranking Republican on the subcommittee that I am honored to chair of course is the distinguished gentleman from Illinois [Mr. HYDE] and I was very interested in what he said about the exclusionary rule. He made a strong pitch for it.

Let us be very clear about what we mean by the exclusionary rule. It is to allow the police to use illegal evidence in criminal trials, illegal evidence, evidence illegally, against the law, gathered.

Now, in the House we approve it, I regret to say, but why was it excluded in the bill? Why was not the present law

codified in the bill? Because Senator RUDMAN, the distinguished Senator from New Hampshire, a former prosecutor and a hard-line prosecutor, as he is always proud to say, said "Under no circumstance will the Senate of the United States legalize illegal evidence." That is why that provision is in the bill, illegal evidence, licensing the police of this country to use evidence in criminal trials illegally gathered. Does it not shock the Members even to think of it?

Now, last, habeas corpus. Let us just for a moment look at history. William French Smith was the Attorney General under Ronald Reagan. He made the statement in one of his opening speeches that they were determined to get rid of habeas corpus, they really wanted 50 different criminal laws throughout the country, because if we get rid of habeas corpus that is what we are going to have. We are going to have 50 different codes of criminal law, because there will be no appeals, no appeals, and some of the laws will never be able to be brought in line with the Bill of Rights to the Constitution.

I need to say once more I really do understand why the prosecutors are against the bill, not that any of them have read it, it is obvious. And as I say over and over again about all we have heard in the last couple of hours is our friends who are against the bill who just get up and read something from some prosecutor.

Of course, some prosecutor. Why would they not be against the habeas provisions? Because 40 percent of their convictions are overturned. They do not like to be reviewed and then have to remand back to the trial court or new hearings. Forty percent of them, those are the statistics. We had that evidence in the hearings.

Lastly, there is an emergency committee out there to save habeas corpus. Let me remind Members that four distinguished former Attorneys General of the United States are the chairmen, the co-chairmen, two Republicans and two Democrats; the two Democrats, Ben Civiletti, and Nick Katzenbach, and of course the Republicans, Ed Levy, and Elliot Richardson, all very distinguished, all good prosecutors.

Mr. BROOKS. Mr. Speaker, I yield 1 minute to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I thank my chairman for yielding. I want to build on this a bit, and that is, first of all, we have eight different groups of police officers pushing for this bill. Those are the people I feel sorry for. They are the ones on the frontlines. I do not know, there may be more than eight groups in America, but here are eight of them that back it.

Second, I want everybody to deal with the facts and not fiction. We have heard a lot of fiction here. Please get this fact sheet where it shows what is

in the Bush proposal and what is in the proposal we are talking about. If the Members want to prevent crime, this is the bill to vote for. None of these preventive measures is in the Bush proposal.

No. 1, all these different ideas that have come in, starting with \$1.2 billion to go to State and local agencies to fight crime, that is where 95 percent of the crime is.

□ 0800

Every State and locality is under tremendous crunches. I think that is why the police really appreciate this bill because they see some help finally coming, rather than more and more lectures about this; plus we have put in some very creative programs.

I also want to point out there are some other things in here that if we do not pass, we will not have them. That is like the registry for people who have been guilty of child abuse and many other such things; very positive things. Deal with the facts. Do not deal with fiction and vote for this crime bill.

Mr. HYDE. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Missouri [Mr. VOLKMER].

Mr. VOLKMER. Mr. Speaker, I rise in strong opposition to this legislation.

I believe that we here in this Congress, many of us feel we must represent our sportsmen and hunters.

This legislation is bad for our sportsmen and hunters.

The Brady bill as contained in this legislation is worse than the Brady bill that was passed by this House. I cannot understand why anybody who is concerned about their sportsmen and their hunters would like to have that man who walks in and buys a shotgun, as the gentleman from Wisconsin has said, goes in and buys a shotgun and has to have a background check, nor do I think a person who goes in and buys just a hunting rifle, a 22, single shot 22 has to have a background check.

Those of you who are serious about protecting the rights of hunters and sportsmen, I say to you, vote against this legislation.

Mr. BRYANT. Mr. Speaker, will the gentleman yield?

Mr. VOLKMER. I am glad to yield to the gentleman from Texas.

Mr. BRYANT. Mr. Speaker, if it is as the gentleman says, I say to the gentleman from Missouri [Mr. VOLKMER], why has the NRA not come out against this conference report?

The SPEAKER. The time of the gentleman from Missouri has expired.

Mr. BROOKS. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota [Mr. RAMSTAD].

Mr. RAMSTAD. Mr. Speaker, I rise in support of the conference committee report on the Omnibus Crime Control Act of 1991, H.R. 3371. Although the conference committee report includes several diluted provisions, it represents

a compromise and a truly comprehensive anticrime package.

It is time for Congress to put public safety ahead of politics. As the president of the National Fraternal Order of Police said yesterday, "I don't think we can sit back and let partisan politics tear away at a piece of legislation we in law enforcement need right now."

In these final hours of this session of Congress, the choice is this anticrime package or no anticrime package. With violent crimes in America up 10 percent from last year, and new record numbers of murders and rapes, I believe Congress must address the rising and very serious crime problem now.

This conference committee report does contain significantly tougher penalties for criminals. It imposes the death penalty for some 50 Federal crimes, including drug kingpins. It triples the penalty for drug dealers who use minors and significantly increases sentences for violent crimes involving firearms. Further, the conference committee report provides tougher penalties for selling drugs in public housing and in other drug-free zones.

This conference committee report also includes a provision that is important to all Minnesotans, the Jacob Wetterling Crimes Against Children Registration Act. This legislation will require convicted child molesters to register with local law enforcement for 10 years after their release from prison. Given the extremely high recidivism rate for sex offenders against children, law enforcement needs this national registration law for child abduction cases.

Mr. Speaker, there are other positive provisions in this package, including \$3 billion in fiscal year 1992 for hiring more law enforcement at the Federal, State, and local levels, and for local law enforcement to put more police on street patrols. As the president of the International Association of Chiefs of Police said, "We need that type of help because we're in such straits right now."

There is substantial aid for residential drug treatment and drug testing for prisoners. The bill also provides more resources for prosecutors and creates a police corps which would offer scholarships to college students who agree to serve as police officers after graduation.

Furthermore, the conference committee report restricts the appeals which State prisoners can file in Federal court. This habeas corpus reform sets a 1-year deadline on filing petitions and bars successive petitions unless new evidence emerges or a prisoner could not have reasonably included a claim in the first petition. While I share the President's concern about this diluted habeas corpus reform, I also know this provision has very little to do with removing violent criminals

from our streets. Habeas corpus affects those criminals already convicted and behind bars.

In addition, the bill allows introduction of improperly seized evidence in Federal court cases if police acted in good faith while executing a search warrant. The conference committee rejected a broader House passed version, supported by the President, that would have allowed improperly seized evidence even if police had no warrant, as long as they acted in good faith.

Mr. Speaker, this conference committee report is far from perfect, and as a member of the Judiciary Subcommittee on crime, my support comes with several reservations. But given the tragic national crime and drug epidemic that is sweeping our Nation and tearing away at our social fabric, we must choose between an imperfect crime bill or no crime bill at all. In making that choice, I conclude that this compromise conference committee report deserves enactment.

Mr. BROOKS. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Kentucky [Mr. MAZZOLI], the chairman of the Subcommittee on International Law, Immigration and Refugees of the Committee on the Judiciary.

Mr. MAZZOLI. Mr. Speaker, I appreciate my friend yielding this time to me.

Mr. Speaker, I think what we are looking for at this late hour or really this early hour, is balance. I think on balance this is a good bill, not a great bill, but a good bill. It has some very important anticrime measures in it, preventive measures, which are not on the books today which I think are very worth supporting.

But most importantly, Mr. Speaker, the two elements I would like to speak about briefly, one is that we do finally have Brady type waiting language in this bill that has taken us years and years to achieve. I would think it would be terrible if we left this moment without adopting this legislation.

Lastly, there is made permanent in here a 75 percent Federal, 25 percent local share of anticrime money, and in a time when local law enforcement efforts have got to be ratcheted up to prevent crime and at a time when the revenues locally are ratcheting lower because of problems they have in revenues, this is a very valid concern. We are now responding to local concerns.

Mr. Speaker, on the whole this is a good bill. Please support this bill.

Mr. HYDE. Mr. Speaker, I am pleased to yield 2 minutes to the distinguished gentleman from Florida [Mr. MCCOLLUM].

Mr. MCCOLLUM. Mr. Speaker, sadly the bill before us is worse than present law in two out of the three major provisions that the President asked for in his initial crime package.

We do see enhanced death penalty provisions. There is no doubt about

that, but in the area of habeas corpus, we beat a retreat because we do not provide the kind of relief that it is supposed to do. That was supposed to end the endless appeals from death row and others.

Instead, what we have done in this bill that came out of conference is to complicate matters so that the appeals time will be lengthened, and that is why this Member objects so strenuously in part to this bill.

The other thing that we do, or we were supposed to do in this bill and we do not do and we retreat from present law about it, we were supposed to allow more evidence in with respect to those cases like drug cases. We were supposed to make it easier by adopting the good faith exception to the exclusionary rule of evidence by expanding the Supreme Court decision and in principle and exception to this rule in those cases where a police officer reasonably and objectively believes that his search is legal in cases with search warrants to those cases where there are no search warrants, but he also reasonably believes that it is legal, as two circuit courts of appeal have done in this country; but instead of adopting that in the conference, which by the way we adopted on the floor of the House, this expanded exception, by a vote of 247 to 165 on the 17th of October, instead of doing that, not only do we not do that, we adopted a provision that narrows the existing Supreme Court exception and will make it more difficult to get evidence in cases where there are search warrants. That is what we have done with this situation.

We have reduced the scope of what you can get into evidence. We will have fewer convictions if you pass this bill as a result of this.

Is it any wonder prosecutors oppose this and any thinking American should oppose it, because we have beaten a retreat by lengthening the appeals time that you have from death row cases and by instead of allowing more evidence in, we have changed the rules of the Supreme Court so in search warrant cases you will have less evidence allowed.

Mr. Speaker, let us vote no on this bill. It is not a criminal justice bill.

Mr. BROOKS. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Texas [Mr. CHAPMAN], a member of the Committee on Appropriations.

Mr. CHAPMAN. Mr. Speaker, I could not disagree more with what the previous speaker said.

I say that from 8 years experience as a district attorney with hundreds of felony trials and experience as a capital murder case prosecutor.

I do not know how any Member of this body can in good faith say the habeas corpus provisions in this bill lengthen appeals in criminal cases. That is not true and every Member of this body knows it.

As a prosecutor, when you restrict the number of petitions of habeas corpus to one and impose a time limit of one year, when today there are no restrictions and no time limits, how you can say that is not a restriction of the right to habeas corpus is beyond me.

And as to successive petitions, to my friend, the gentleman from Illinois, yes, there are exceptions. There can be successive petitions, but instead of talking legal mumbo jumbo, let us talk about the real world of criminal prosecutions.

What are the exceptions? The exceptions apply when someone else confesses. Would you deny a man on death row his freedom when after his 1-year statute of limitations for habeas petition has expired, someone else confesses?

□ 0810

You would. If the State hides exculpatory evidence and does not reveal it at the trial, the defendant has no way of knowing it or getting it and you would deny him his freedom. Your position would.

When chemical or ballistic analysis years later, not available to the defendant at the trial, shows he was not guilty, would you deny him his freedom? You would. That is not reasonable.

As to the mandatory experience—and this is a prosecutor with hundreds of experiences—I cannot believe my friend from Illinois would find unreasonable that if the Government wants to take a life, that 5 years' experience by the defense attorney is unreasonable to represent him in that case. And to represent him on appeal, that 3 years of experience is unreasonable.

I have prosecuted a capital murder case. I know the onus when you as a Government lawyer want to take the life of someone. And it blows my mind that you should suggest that that should be done by defense counsel with no experience.

I think that is wrong.

Yes, there are parts of this bill that I would change, there are things that we could do better. But this is a crime bill. It limits habeas; it will prevent crime. It ought to be passed by this body.

I urge my colleagues to support it.

The SPEAKER pro tempore. (Mr. PANNETTA). The gentleman from Texas [Mr. BROOKS] has 7 minutes remaining, and the gentleman from Illinois [Mr. HYDE] has 7½ minutes remaining.

Mr. HYDE. Mr. Speaker, I yield such time as he may consume to the gentleman from Wyoming [Mr. THOMAS].

Mr. THOMAS of Wyoming. Mr. Speaker, I rise in opposition to the bill.

Mr. Speaker, here we go again.

We need an effective crime bill, and I'm ready to vote for a real crime bill. But we can't seem to shake the notion that, by controlling the access of law-abiding citizens to gun purchases, somehow we'll reduce crime.

The Brady bill language in this crime bill isn't going to keep people from selling guns out of the trunks of cars; it isn't going to stop thefts of guns from law-abiding gunowners; and it sure isn't going to stop people from using guns for illegal acts, no matter where they got them!

If the Congress was really serious about fighting crime, the conferees would have chosen the tougher provisions from each bill and brought them to us. Instead, they adopted the weaker option in several instances, and kept the antiquated language that punishes law-abiding citizens—not criminals.

Mr. Speaker, we need crime control, not gun control. This conference report just doesn't cut it on either.

Mr. HYDE. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Alabama [Mr. HARRIS].

Mr. HARRIS. Mr. Speaker, I rise in opposition to the conference committee report. This is not an anticrime bill. This is not a law enforcement bill. This is not a victims' rights bill, it is the opposite of all those things.

If this is an anticrime bill, then why does the Department of Justice oppose it? If this is a law enforcement bill, then why does the National Association of District Attorneys oppose it? If this is an anticrime or law enforcement bill, then why have more than 30 State attorneys general signed a letter urging the President to veto this bill? If this is a victims' rights bill, then why are victims' groups unalterably opposed to it?

We hear much talk today about finality of judgment and about ending the intolerable delay in carrying out sentences, including capital sentences. This bill will not make things better. Instead, it will destroy what little finality of judgment we have, and it will multiply delay many fold. The most important action the Supreme Court has taken to ensure finality of judgment is its 1989 decision in Teague versus Lane, which limits the retroactive effect of new decisions on old cases. The Teague decision helps ensure that when State courts comply with existing constitutional law their judgments will not be upset years later because of changes in the law that could not be anticipated. This bill repeals the Teague decision with a vengeance. In fact, this bill is written in such a way that the law on retroactivity will be even worse for law enforcement than it was before the Teague decision. If you want endless delay and never-ending relitigation of every criminal conviction, then you want this bill. However, if you believe, as I do, that we do not need more delay and more relitigation in our legal system, then you should join me in voting against this bill.

It is no answer to say that this bill contains a one-year statute of limitations for filing habeas corpus petitions. That requirement is so riddled with exceptions that it is worthless.

We also hear much talk today about the need for better counsel in the trial

of capital cases, and I am all for ensuring competent counsel. However, the draconian counsel provisions of this bill are designed to obstruct, delay, and prevent the imposition of capital punishment. I cannot support that. This bill would also turn over to private groups, such as capital resource centers, the authority for appointing counsel and evaluating their performance. I cannot support that.

Mr. HYDE. Mr. Speaker, will the gentleman yield?

Mr. HARRIS. I yield to the gentleman from Illinois.

Mr. HYDE. I thank the gentleman for yielding.

Mr. Speaker, the gentleman is aware that the attorney general of Texas disagrees with the gentleman from Texas [Mr. CHAPMAN] and the gentleman from Texas [Mr. BROOKS], the gentleman is aware of that?

Mr. HARRIS. I am.

Mr. Speaker, this bill seeks to effectively overrule the Supreme Court's Strickland versus Washington decision in capital cases. I cannot support that.

We also hear much talk today about women's rights and interests, and I am certainly for that. In fact, I welcome this vote, because it is an important test vote for our commitment in the area of women's rights. We sent the conference committee a bill requiring HIV testing of rapists, and a bill that would fund HIV testing for rape victims. The conference committee deleted those provisions. We sent the conference committee a bill that mandated enhanced punishment for repeat sexual offenders. The conference committee deleted that provision. How can anyone who believes in women's rights and in protecting women victims of violent sexual attack justify what the conference committee has done to our bill? How can anyone vote to approve such utter contempt for the rights and interests of women and of the victims of violent sexual attack?

The Association of National District Attorneys is right. The attorneys general of more than 30 States are right. The victims groups are right. This bill is not an anticrime bill. It will hurt, not help law enforcement. It will hurt, not help victims and survivors of crime. I urge a no bill.

Mr. BROOKS. Mr. Speaker, I yield 15 seconds to the gentleman from Texas, [Mr. BRYANT].

Mr. BRYANT. Mr. Speaker, I think one of the many things that Mr. HYDE, failed to investigate before coming to the floor today and speaking about is the nature of the Texas attorney general's office.

I say the gentleman from Illinois, Mr. HYDE, he would be interested to learn that the Texas attorney general is a civil official who has no power to prosecute criminal cases whatsoever.

Mr. HYDE. Mr. Speaker, I knew Mr. Maddox real well, his predecessor.

Mr. BROOKS. Mr. Speaker, I yield 1 minute to the gentleman from Ohio, [Mr. FEIGHAN].

Mr. FEIGHAN. I thank the gentleman for yielding.

Mr. Speaker, I want to start by expressing my gratitude to you, to Mr. SCHUMER, and to each of your hard-working staffs. This crime bill would not have been possible without your leadership, dedication, and endurance.

Although I fear that we are laboring in the shadow of a senseless veto, the bill before us is a good crime bill. It is a bill that members can be proud to vote for.

We can be proud because action on crime is something our constituents have demanded for two decades, ever since a wave of violent crime began to seriously erode the American way of life.

As a result, our children are growing up in a more frightening world, not just in our cities but in our suburbs, our small towns, and now in rural America where the largest increases in crimes of violence are taking place.

The time for a crime bill is long past overdue and now we have one. Let's pass it and get it to George Bush's desk.

Mr. Chairman, I don't claim that this is a perfect crime bill. The fact is that we don't pass much legislation that is perfect.

We can try for several more months to achieve a bill that would come closer to perfection but that would be pitting the ideal against the good. That would accomplish nothing but delay. Delay while the senseless slaughter on our streets continues.

The President has threatened to veto this bill. This would be a serious mistake. Quite literally a deadly mistake.

Because the Brady bill provisions of this legislation alone would save thousands of lives. We know that because handgun waiting periods in the various States that have already enacted them have stopped tens of thousands of illegal handgun purchases.

Criminals, the mentally incompetent, and drug addicts have not been able to complete their gun purchases because a waiting period, and the background check allowed by that waiting period, showed that they just shouldn't be armed with a handgun.

And they have been denied a handgun. And because of those denials, there are people walking the streets today who are alive and well because some criminal or addict just wasn't able to buy a handgun the way he could buy a tube of toothpaste.

But there is another side to that coin. It is the thought of all the men, women, and children who will not be with us this Thanksgiving because there was no law in place to stop some felon from buying a gun and ending their lives. Men, women, children. All races, all colors, all creeds.

People who should be with their families but are, instead, wept over as victims. Victims of handgun violence and victims of a system that refuses to do anything about it. At long last, let's do something. Let's pass this bill.

There are other good reasons to support this legislation. It includes the Anti-Terrorism Act of 1991, which will finally provide the families of victims of terrorism with a civil cause of action to seize the assets of terrorist organizations.

It also includes the Law Enforcement Scholarship Act which, by providing scholarships for career police officers, will help improve police effectiveness and reduce the number of citizen complaints against officers.

In conclusion, there are numerous reasons to support this crime bill and there is not one good reason to oppose it. House passage of this rule and this bill will represent a rare victory in the war against crime. A defeat here today or a veto by the President will represent nothing less than a surrender to forces that threaten to destroy us.

Mr. HYDE. Mr. Speaker, I yield 1½ minutes to the learned gentleman from Pennsylvania [Mr. GEKAS].

Mr. GEKAS. I thank the gentleman for yielding.

Mr. Speaker, Members of the House, the reason that we oppose this bill, we who are proponents of the death penalty, of the exclusionary rule, of reform in habeas corpus, the basic reason we oppose this bill is the careless provisions and the flawed provisions contained therein.

For instance, how many will remember the drive-by shooting debate we had in the House for the last two sessions? This bill maintains that a drive-by killer can only be convicted and be subjected to the possibility of the death penalty if there would be an intentional killing.

All the drive-by shooter has to do, under the version presently before us, the drive-by shooter simply has to show that he did not intend to kill, because the verbiage talks about an intentional killing.

That is not what the House proposed before, that is not what the House agreed upon.

We know and the general society knows that a drive-by killer, which is a scourge on our streets, who has to be driven from our streets when he acts with reckless disregard for the lives of people who are in the streets, that individual should face the possibility of the death penalty, a big flaw in this bill.

Mr. BROOKS. Mr. Speaker, what is the time remaining?

The SPEAKER pro tempore. The gentleman from Texas [Mr. BROOKS] has 5¼ minutes remaining, and the gentleman from Illinois [Mr. HYDE] has 3 minutes remaining.

Mr. BROOKS. Mr. Speaker, I yield 1 minute to the distinguished former

member of the Committee on the Judiciary, now with the Committee on Appropriations, the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. I thank the gentleman for yielding, and I commend the Committee on the Judiciary.

Mr. Speaker, this is a test of will. This is not just an anticrime bill, of epic proportions for us, this is a test of will. Is the will of the collective American people in this country going to win or are the Republicans going to win? Are they going to say that this is a procrime bill and get away with it? Or are we going to deny them the chance to deny the American people the relief they have been asking us for for years?

This is a test of will. Will we pass this, send it to the Republican President and have him veto it, so that the American people will know once and for all who stands with them and who wants to play only a game, in name only, because they just want to win for show so that they can be perceived as being against crime? They have handled white-collar crime the most miserably of any administration in the history of this country.

We are not anticrime, according to them.

□ 0820

According to them we are pro-crime, but according to their record they are pro-crime. I say, You vote for this bill, you're going to tell the American people exactly where the Democrats stand, with them in the fight against crime.

Mr. HYDE. Mr. Speaker, I yield 2 minutes to the distinguished former sheriff the gentleman from Ohio [Mr. TRAFICANT].

Mr. TRAFICANT. Mr. Speaker, I supported the bill in its original form. I oppose the bill now.

I say this to the Members of Congress as a former sheriff: We should attach a tax credit provision to this bill so every American citizen could go out and buy a flak jacket because this bill declares open season.

Mr. Speaker, I cannot believe that conference threw out the assault weapons, the ban on assault weapons. My colleagues, with all the death sentences we are talking about, we will be sentencing more Americans to the death penalty on the streets of America than we will criminals in court.

Now I am not going to take a lot of time, and I am not here to impress everybody or to maybe make a lot of friends. Congress is not going to deal with crime on the streets until they take a look at guns, and, if the NRA is going to write the gun laws of America and Congress is going to wimp out, we will never deal with the issue.

Now the NRA and the police should not be apart. They are both honorable groups. We have got to bring it together. We had an instrument. The

President wants a death penalty. We backed off in Congress, and we declared open season on the American people.

How can I justify, as a former sheriff, having policemen on the streets when these bums have more firepower than they do?

Mr. HUGHES. Mr. Speaker, will the gentleman yield?

Mr. TRAFICANT. I yield to the distinguished gentleman from New Jersey.

Mr. HUGHES. Mr. Speaker, as the gentleman from Ohio [Mr. TRAFICANT] knows, the President opposed the assault weapon bill.

Mr. TRAFICANT. I am not dealing with the President opposing it, and, if the gentleman from Texas [Mr. BROOKS] would yield me some time, I would explain my position.

Democrats and Republicans should be sitting down with the NRA. The NRA and policemen should be friends. We all stand for the same things, but, my God, you cannot have drive-by, drive-through, drive-in, drive-by murders.

Mr. Speaker, I would wish that we would consider that issue if this bill gets vetoed and we do not have the votes to override it.

I thank the gentleman from Illinois [Mr. HYDE] for yielding this time to me.

Mr. BROOKS. Mr. Speaker, I yield 2½ minutes to the gentleman from New York [Mr. SCHUMER], the distinguished chairman of the Subcommittee on Crime and Criminal Justice.

Mr. SCHUMER. Mr. Speaker, we have before us the toughest crime bill that has been before this body in 20 years, and we have a choice. Our choice is a simple one. Are we going to say, because the bill does not have this, or this, or this, I am going to oppose? Or are we going to vote for a bill that contains tough provision after tough provision?

I ask my colleagues, Do you want to go home and explain your vote against a bill that calls for the death penalty for drug kingpins? For child sex abuse? For terrorism? For killing cops? You going to explain that to your constituents? Do you want to go home and explain to your constituents and explain to yourself that you voted against increased penalties for using a gun on the street? Five years mandatory for the first penalty, 10 years mandatory for the second, 15 for the third? A provision written by the gentleman from New Mexico [Mr. SCHIFF] on that side of the aisle? Do you want to go home and explain to your constituents why you voted to allow those on death row to have 8, or 9 or 10 appeals rather than the one in this bill? Do you want to go home and explain to your constituents why you voted against more prisons so that the prisoners, the criminals, wouldn't be out on the streets? Do you want to go home and explain to your constituents why you voted against

money for cops on the beat when in so many areas of this country we do not see a police man anymore? Do you want to go home and explain to your constituents why you voted against mandatory minimums for terrorists? Who frightened so many and killed some of us?

Mr. Speaker, I say to my colleagues, If you want to do all that, my colleagues, pick a little reason that you're opposed to this bill and vote no. But I would argue to you that you're doing the wrong thing substantively because you're preventing the American people from getting good anti-crime protection, and you're also doing the wrong thing politically because I can make a much better 15-second spot pinning on you why you voted against all these tough provisions than you can explaining the Teague decision to me.

Mr. HYDE. Mr. Speaker, I yield 1 minute to the gentleman from New Mexico [Mr. SCHIFF], the former state's attorney and a member of the ill-starred conference committee.

Mr. SCHIFF. Mr. Speaker, I thank the gentleman from Illinois [Mr. HYDE] for yielding this time to me.

Mr. Speaker, I was a prosecutor for 14 years, and, as a member of the Subcommittee on Crime and Criminal Justice, I want to say there are some provisions, including provisions written by the gentleman from New York [Mr. SCHUMER] with which I approve. But this bill went wrong. This bill went wrong in conference when there was a Hail Mary pass from House Committee on the Judiciary Democrats to Senate Judiciary Democrats which selected the weakest possible position right down the line on priority issues, and my colleagues know that to be the case because that is why the National District Attorneys and the National Attorneys General opposed this bill.

In addition to that situation, there are provisions in this bill that Members of the House have never voted to approve. For example, this bill says that anyone who wants to buy a hunting rifle will have to go through a police background check, and the House, for all of its accepting the Brady bill, never accepted that. The point is that we do not have to choose between this bill and no bill.

Mr. Speaker, we will offer a motion to recommit to conference to cure the evils that we have described so that we can pass a crime control bill, not a crime encouragement bill.

Mr. HYDE. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. GOSS].

Mr. GOSS. Mr. Speaker, 1 month ago, I voted for H.R. 3371, not because I supported every provision of the bill, but because I felt that several important amendments added backbone to a bill introduced with weaknesses in major areas. It took 3 days, but this body was able to put teeth in this bill, extending the good faith exemption and turning back a crimi-

nal protection measure mistakenly described as a fairness in Death Sentencing Act. The Brady bill was included as well, demonstrating to me that the legislation, although still lacking strength in such important areas as habeas corpus reform, nonetheless was headed in the right direction.

I was optimistic that the conferees would continue in this vein, bringing us a truly tough on crime bill. It was not to be. These chosen few conferees set about dismantling much of the progress we had made, disarming some of the most significant portions of the bill. When faced with a choice, they repeatedly and deliberately chose the weaker provisions. The legislation we are left with today is nothing but a shadow. It's a big step backward and I cannot support it.

Mr. Speaker, this country is crying out for help. Our streets are unsafe, and an increasing number of juveniles have found that crime pays. Obviously we're failing in our efforts to deter violent crime. What astounds me is that the House and the other body did adopt strong stances on provisions to empower our police forces, streamline our judicial process, and protect victims with the same vigor that we use to protect criminals. So why then, with the tools available to them, and good legislation on the table, did the conferees gloss over other major provisions that would have made a difference to the American people? I am willing to compromise, but this is more like full surrender—I urge my colleagues, don't settle for next to nothing—vote "no" on the conference report.

Mr. BROOKS. Mr. Speaker, I yield myself 2¼ minutes.

Mr. Speaker, I would like to close with a few words of friendly advice for my fellow Texan down on Pennsylvania Avenue. My advice is simple: Mr. President, you don't need another civil rights bill fiasco right now. You don't need to be proclaiming your belief in a principle at one moment and then to be shown trying to undermine that principle that next moment. That only produces embarrassment—not just for the President but for our system of Government.

This President has expended tremendous energy over the past 3 years proclaiming how tough he wants to be on crime. He has a chance to put those words into action by working with us here in the Congress to enact this bill. If the President really wants a crime bill, instead of just talking about crime, he can pick up the phone and ask his troops here and in the other body to get with the program. And then, he can pick up his pen and sign this tough and comprehensive anticrime measure.

If the President fails to do this, the burden is on him to tell the American people why he is against putting cops back on the beat, why he's against steering youthful offenders away from a life of crime, why he is against the death penalty for drug kingpins who kill, for torturers, rapists, and terrorists who kill. The President has quite enough to explain these days. He may

not wish to explain why voting against a crime-fighting bill will somehow be in the best interest of the American people. I urge the Members to support this conference report.

□ 0830

Mr. Speaker, I yield back the balance of my time.

Mr. HYDE. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. WALSH].

Mr. WALSH. Mr. Speaker, I rise in opposition to this bill.

Mr. McMILLEN of Maryland. Mr. Speaker, no question exists that the rampage of crime continues in this country and that we must seek ways in which to stem this violence. The House Judiciary Committee has spoken wisely on a number of improvements to the U.S. Criminal Code, and I support the legislation we consider today. However, in our zeal to fight crime in the streets of America we must not lose sight of the fact that any changes made to the United States Code must be done with full respect for the U.S. Constitution.

My votes on H.R. 3371, the Omnibus Crime Control Act of 1991, have reflected my belief in the essential integrity of the Constitution. I believe that its directives are unassailable and that this body should not radically alter its direction.

I opposed the McCollum amendment which would expand the exclusionary rule to allow the admissibility of evidence into a criminal proceeding which is obtained illegally. The committee legislation allows certain "good faith" exceptions when evidence is obtained by a law enforcement officer with a warrant. The McCollum amendment extends the admissibility of such evidence to instances where no warrant is involved. I find this an abridgement of the rights of unfair search and seizure, as guaranteed under the fourth amendment of the U.S. Bill of Rights.

My votes on habeas corpus reform further demonstrated my belief in fundamental constitutional rights. A strong case is made that the extreme workload which inundates our Federal court system demands action. We need to take steps to curb excessive and unnecessary petitions and appeals; however, that does not mean we need to sacrifice the writ of habeas corpus for reasons of expediency. The committee legislation included significant reforms without destroying the fundamental right for a Federal review of a State court decision. For these reasons, I opposed the Hyde amendments on habeas corpus.

A particularly difficult vote for me was to support the Volkmer amendment on semiautomatic firearms. While I strongly agree with the need to address the issue of urban crime and spreading violence, I felt that in our efforts to break this downward cycle of violence, we must be careful to not inadvertently ignore the rights of law abiding citizens who seek to own guns for legitimate reasons.

All of my gun control votes have been consistent in one regard; they are based on the premise that we must make it as difficult as possible for criminals and the deranged to obtain illegal and dangerous firearms, while at the same time being respectful of the right of the responsible citizen to have unfettered ac-

cess to a firearm. Unfortunately, the ban proposed in the original legislation was imprecise in its construction; it denied legitimate uses of certain guns, and it would unfairly and negatively impact domestic manufacturers.

If we really want to address the issue of criminal use of semiautomatic weapons and to limit violence, we should not try to simply ban certain categories of rifles, but, rather, look into other alternatives as cooling-off or waiting periods between the sale of a firearm and its transfer. This is a way in which we need not infringe upon legitimate gun owners' rights, while achieving the aim of controlling crime. Previously, I have supported a waiting period for handguns, and see potential in extending this to other areas. The effectiveness of this approach has been demonstrated by various States, including my home State of Maryland.

The Congress cannot ignore the plague of violence rippling through our society. Men, women, and children of all ages and of all races face the streets in fear of their own lives and property. This legislation we consider today is a positive step to addressing the problem of crime in America. By giving law enforcement officers and prosecuting attorneys more tools to catch and convict criminals, we are taking steps toward ridding our society of crime and returning the streets to the people.

Mr. ROSTENKOWSKI. Mr. Speaker, I rise in support of the conference report on H.R. 3371, the crime bill. I want to commend Chairman BROOKS for his leadership in bringing back to the House floor a conference report which fundamentally addresses the many complex and controversial issues which divided the two Houses.

I am particularly pleased that all of the revenue measures in the Senate amendment have been deleted from the conference report. It has been our consistent position that, in order to preserve the constitutional prerogatives of the House of Representatives, that revenue measures added by the Senate to a non-revenue bill are not acceptable.

There is one such Senate provision, however, that I believe deserves further study. Section 4917 of the Senate amendment would authorize up to \$30 million of unobligated funds to be transferred out of the Customs forfeiture fund to the Department of Health and Human Services to be expended for drug treatment for individuals under criminal justice supervision. I strongly believe that there is a great need to increase funding for drug treatment programs, and I have committed to holding a public hearing on this matter in the Committee on Ways and Means early next year to explore the merits of funding such programs out of the Customs forfeiture fund.

Mr. Speaker, this is an important matter and I want to assure my colleagues that it will receive the serious attention of the Committee on Ways and Means.

Mr. KOPETSKI. Mr. Speaker, I rise today in support of the conference report. Before I continue, I want to commend Chairman BROOKS for his diligent efforts and those of the Judiciary Committee staff in putting this conference report together in such a short period of time. I also want to recognize the efforts of Congressman CHUCK SCHUMER and Congressman DON EDWARDS for their efforts in this process.

This is my first crime bill as a Member of this body. I've heard a great deal of talk from

Members on both sides of the aisle that we need to be tough on crime. Well, I contend that this bill is tough on crime. This is a comprehensive crime prevention package—31 titles and over 900 pages. This is a package that Members can take home and of which to be proud.

Much attention has been given to the "big ticket" items such as the exclusionary rule, habeas corpus reform, a ban on assault weapons, and coerced confessions.

These are important but are only parts of the whole. Important parts of this bill are not being discussed. I meet on a regular basis with the law enforcement community in my district. Their primary concern is Federal assistance to the communities and strong prevention programs. Mr. Speaker, the bottom line is that this legislation goes a long way toward this end.

In this context, H.R. 3371 demonstrates clearly that this Congress is serious about waging the war on crime by engaging in a partnership with our States and local governments. Mr. Speaker, we need to dedicate ourselves to the war on crime in the same manner in which we mobilized for Operation Desert Storm. H.R. 3371 does this.

Mr. Speaker, the fact remains fighting crime costs money. Enhanced penalties, minimum sentencing, and the addition of new crimes to Federal jurisdictions requires additional judges, court personnel, court rooms, and personnel costs including an increase in the monies for indigent defense costs. If we increase the burden on the criminal justice system, let's make sure at the same time we increase the resources for the system to handle that burden. This bill does this by increasing the authorization for the Federal law enforcement agencies to \$345.5 million and providing a \$1 billion authorization for the Safer Streets and Neighborhoods Act.

Beyond this authorization, H.R. 3371 establishes a series of new grant programs that will promote the prevention of crime and will help end recidivism in the criminal justice system. I want to take this opportunity to highlight a few of these programs.

On the prevention end, H.R. 3371 establishes the Community Policing: Cop on the Beat Program; title XI, subtitle E. This program will put police officers back into the community through Federal-State-local cooperative grants. These grants will help State and local police departments and local community groups develop innovative, neighborhood-oriented policing programs.

H.R. 3371 also establishes an authorization to expand the successful Midnight Basketball Program, title XI, subtitle H, on a nationwide basis. This program keeps young people off the streets and away from drugs, alcohol, and crime during the hours of 10 p.m. and 2 a.m. It provides 80 young people in a given community with safe haven from the streets. The Midnight Basketball Program also requires that players attend employment counseling, job training, and education classes. This is a crime prevention measure that will have immediate impact on our communities.

Mr. Speaker, this bill also provides \$200 million for grants to States and local governments to ensure certainty of punishment and promote reduced recidivism among young offenders.

The Certainty of Punishment of Young Offenders title, title XI, subtitle J, encourages States and local governments to develop alternative methods of correctional and rehabilitation options including boot-camp prisons, community-based incarceration, weekend incarceration, intensive probation, electronic monitoring, home confinement, vocational and educational options, and restitution programs. I offered an amendment to this title on the floor that made sure that treatment and counseling of substance abuse include alcohol abuse, a serious problem to law enforcement officers in my district and I understand, across the country. This program will be an effective tool in turning young people away from a life of crime.

To facilitate the apprehension of criminals, H.R. 3371 works on two levels. First, H.R. 3371 provides \$30 million for law enforcement scholarships to send rank and file members of our law enforcement agencies back to school for further professional development. This will help police officers better use the developing technologies of the 21st century in fighting crime.

Second, H.R. 3371 sets up a uniform program to deal with the latest technological breakthrough in fighting crime, DNA identification [title XI, subtitle B.] This program seeks to improve the quality and availability of DNA analyses for law enforcement identification purposes by setting uniform standards and establish a national index of DNA profiles of convicted offenders. H.R. 3371 will help State and local law enforcement agencies to use effectively this valuable technology.

To end recidivism, H.R. 3371 attacks the problem of drug abuse among individuals in the criminal justice system. I was appalled to learn that there are waiting lines in the Federal penal system for inmates attempting to obtain substance abuse treatment and counseling. Recent statistics show that 60 percent of all prisoners suffer from drug or alcohol abuse. Section 1404 of H.R. 3371 requires that Federal prisons provide residential substance abuse programs for all prisoners who seek such treatment by fiscal year 1995. Studies show that prisoners who undergo such treatment are much less likely to reenter the criminal justice system after release. H.R. 3371 also provides technical and financial assistance to States to establish a similar program for State corrections facilities.

These are but a few of the programs that will make a real difference in the war on crime. H.R. 3371 also offers tough sentences. For those who believe that death penalty is a deterrent, H.R. 3371 has 50 new death penalty offenses. This bill also strengthens sentences for crimes involving firearms, child abuse, sexual violence, and terrorism. These are tough provisions.

Lastly, Mr. Speaker, I want my colleagues to know that while being tough on crime, we must be responsible. Responsible to our Federal Constitution. H.R. 3371 provides a "good faith" exception to the exclusionary rule for seizures conducted under invalid warrants.

H.R. 3371 also streamlines the Federal habeas corpus process by establishing a 1-year statute of limitations for death penalty habeas corpus cases. Mr. Speaker, this habeas corpus reform is supported by Federal and State judges, attorneys general, the American Bar

Association and over 370 law school professors.

Why is habeas corpus so important? The American Bar Association has found that in 40 percent of death penalty cases reviewed by the Federal courts, the State court conviction or sentence was based on serious violations of constitutional rights. This is not to say that 40 percent of these convictions were thrown out; it simply meant that the defendant was entitled to a new trial or new sentencing. After retrial or resentencing, some of these people were fairly retried, others were resentenced to life terms, others were acquitted of all charges, and yes, still others faced their original sentence.

Mr. Speaker, our founding fathers fought for the right of habeas corpus to ensure that the State will not wrongfully punish citizens. In this year of the bicentennial of the Bill of Rights, we are affirming the importance of habeas corpus.

Mr. Speaker, this bill represents a compromise. There are parts of this bill that I do not support including the waiting period on the purchase of handguns and the drastic increase in the number of death penalty offenses. I am supporting this legislation because the people of this country want this Congress to enact a comprehensive crime fighting package now. There is much good in it. Mr. Speaker, this is such a package. I urge my colleagues to support this conference report.

Mr. MORAN. Mr. Speaker, it is with great regret that I rise today in opposition to the conference report on H.R. 3371, the Violent Crime Prevention Act of 1991.

Our constituents are afraid. They are seeing their cities and their children being destroyed by senseless gun violence. They are seeing their schools and their communities pervaded by crack and other highly addictive drugs. They feel that their local police and courts have become powerless as more drug dealers and criminals are set free because our prison systems is too overcrowded. They are enraged that justice is not swift and that the same appeals system established by this Nation's Founding Fathers to protect individual liberties is now being used to tie up our courts and to escape punishment.

Our constituents, our police officers, our judges, and public attorneys turned to Congress asking for the tools to fight the war on crime. We have let them down.

Our constituents asked us to bring an end to the proliferation of high-powered assault weapons, fueling the ever rising homicide count. We let our constituents down. The conference committee failed to enact a ban on the domestic manufacture and sale of assault weapons.

Our court officials asked us to limit the numbers of habeas appeals choking our judicial system and preventing victimized families from resolving their pain. We let our constituents down. The conference committee failed to substantially reform the system of habeas corpus appeals.

Our constituents in the South and in urban enclaves across this country asked us to ensure that the death penalty was being administered fairly. We let them down. The conference committee struck the Fairness in

Death Sentencing Act which passed the House of Representatives.

In point after point as we go through this legislation, we see that this bill does little to protect our constituents. In page after page, as we go through this bill, we see that this legislation does not fight crime and will not make our streets any safer, our courts any more efficient, or our families and children any more secure.

It is thus, with regret that I am voting against this version of the Violent Crime Prevention Act of 1991. I hope that the Congress can readdress this issue next year and ensure that we develop a package that does protect our constituents and regains the offensive in our war on crime.

Mr. BLACKWELL. Mr. Speaker, we can't give life and we certainly don't have the God given right to take a life. This bill establishes 50 different reasons to take a life. But it does not and can not legislate a way to correct a mistake. No appeals can bring anyone back from the dead. Death makes all mistakes final.

I will never forget the case, many many years ago, of Corine Sykes, a black woman who was convicted and executed before her innocence was discovered. She died after being judged by a justice system that is not completely color blind, a justice system that is too often blinded by skin color and economic status. Repeated evidence continues to prove that the death penalty is applied in a racially biased manner. I point to the last year's General Accounting office study. It found that 82 percent of those convicted of murdering nonminority victims were more likely to be sentenced to death than those convicted of murdering minority victims.

For the life of me, I simply can not understand how we can consider, on one hand, the death penalty, and reject, on the other hand, legislation that will regulate the sale of assault type weapons. Are we saying that it is all right to sell a weapon that can only be used to kill people. But now, in fine print, we are saying if you kill, we will kill you? Today, we are debating a bill that calls for death sentencing for 50 crimes; 50 crimes. What's next, 100 crimes or 200 crimes?

I firmly believe that those convicted of committing the most heinous crimes should be incarcerated for as long as our penal system permits. But does this Congress or anyone have the right to decide when someone should live and when someone should die? No.

Does our justice system have the ability to fairly decide who should die? No.

Mr. Speaker, until we can answer yes to both of these questions with a clear conscience, I will continue to vote "no," on this and any future bills which call for the use of the death penalty.

Mr. VENTO. Mr. Speaker, I rise in opposition to the conference report to H.R. 3371.

I want to acknowledge the conferees for their work in attempting to develop an acceptable conference report. While I applaud the conferees action in including a compromise 5-day waiting period for handgun purchases and an associated background check by local law enforcement officials, nevertheless, I oppose the adoption of the conference report.

I remain concerned by the so-called habeas corpus reform provisions previously adopted in

the House which purport to streamline the implementation of the death penalty on State prisoners. Of all the circumstances where the Government should be concerned with guaranteeing the highest standards of due process of law, certainly a prisoner facing the ultimate penalty in our society, the loss of their life, deserves the most thorough and searching scrutiny of the facts in his or her case. But the conference report before us today does not meet that strict standard. Instead, it unmistakably compromises the constitutional right of habeas corpus by adopting a totally arbitrary timetable which insists that in most instances the only legally or factually relevant issues in a capital case must be asserted by a defendant within 1 year after direct appeals have been exhausted. For the unfortunate defendant who discovers exculpatory facts after this 1-year period has run, it may simply be too late to correct an injustice if a judge makes a subjective finding that the facts could have been discovered through "due diligence" by the defendant earlier.

In summary, the provision on habeas corpus reform, despite the best intentions of its proponents, tampers with the Constitution. The writ of habeas corpus was considered so important to the founders of our country that it predated the Bill of Rights and was included in article 1, section 9 of the Constitution itself.

In the Civil War, when a civilian was sentenced to death by a court martial, even though the local grand jury had refused to indict him, his life was spared when the Supreme Court granted a writ of habeas corpus in the case of *Ex Parte Milligan*. When Americans of Japanese descent were confined against their will in internment camps during World War II, again it was the writ of habeas corpus that finally won their release in the case of *Ex Parte Endo*.

Today, some of the proponents of habeas corpus reform insist that too many habeas corpus petitions are frivolous and bog down the courts in seemingly endless paperwork. However, according to the American Bar Association, petitions for habeas corpus are granted in 40 percent of all capital cases. Surely, the constitutional right of habeas corpus is important enough to avoid shortcuts in the name of some vague notion claiming judicial efficiency or because it may be politically popular today.

Mr. Speaker, I also oppose the significant expansion of the list of Federal offenses where the death penalty may be imposed to some 50 crimes. No one would suggest that these offenses are not heinous crimes. In most instances of sentencing for serious crimes, judges and juries have considerable latitude in determining a proper sentence, many of which may be severe, such as life imprisonment without possibility of parole. However, there are still wide variations among different jurisdictions about those circumstances where a judge or jury may elect to impose the death penalty. I am concerned that the conference report will increase rather than minimize such arbitrary disparities based on race, socio-economic status, and the proficiency of a defendant's legal counsel. Indeed, when the House considered the Judiciary Committee's bill, H.R. 3371, a provision designed to protect against racial discrimination in capital sentencing was dropped from the bill altogether.

There may be many aggravating factors which a judge or jury should weigh in assessing a criminal sentence, but the defendant's race should never be one of those factors. Regrettably, this conference report does not make that unequivocal statement.

Finally, I am concerned that the conference agreement codifies into law a judicially crafted good-faith exception to the exclusionary rule relating to illegally seized evidence or illegal police conduct. Under this 1984 Supreme Court ruling, evidence will not be excluded if it was obtained in good faith reliance on a warrant, even if the warrant is ultimately determined to be invalid. The reality of most criminal cases in Federal and State courts today is that convictions are won or lost on the weight of numerous exhibits of evidence rather than only one smoking gun.

A good faith exception to the warrant requirements of the fourth amendment invites police, prosecutors, judges, and juries to engage in a game of subjective speculation about what was in the minds of police when they occasionally may not act in accord with the full rights of the defendant being observed. At the same time, the so-called good faith exception will erode the prevailing standards for the overwhelming majority of police officials who have learned over the past quarter century since *Mapp versus Ohio* to comply with constitutional requirements. The most certain route to obtaining criminal convictions against guilty defendants is still good solid police work combined with strict adherence to the guarantees of the Bill of Rights.

For these reasons, Mr. Speaker, I oppose the adoption of this conference report.

The SPEAKER pro tempore (Mr. PANNETTA). Without objection, the previous question is ordered on the conference report.

There was no objection.

#### MOTION TO RECOMMIT

Mr. HYDE. Mr. Speaker, I offer a motion to recommit with instructions.

The SPEAKER pro tempore. Is the gentleman opposed to the conference report?

Mr. HYDE. Most definitely, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. HYDE moves to recommit the Conference Report on H.R. 3371 to the Committee of Conference on the disagreeing votes between two Houses with the following instructions to the Managers on the part of the House to insist on the following provisions in the House bill:

Title V, Subtitle B, Restitution of Crime Victims;

Title V, Subtitle C, HIV Testing of Sex Offenders;

Title XII, Subtitle B, Retired Public Safety Officer Death Benefit;

Title XV, Section 1505, Drug Distribution to Pregnant Women;

Title XVI, Equal Justice Act;

Title XVII, Section 1714, National Baseline Study on Campus Sexual Assault;

Title XVII, Section 1720, Exclusionary Rule;

Title XVII, Section 1724, Increased Penalties for Recidivist Sex Offenders;

Title XXIII, Death Penalty Procedures;  
Title XXIV, Death Penalty;  
And to insist on the following provisions in the Senate bill:

Title V, Subtitle A, Aviation Terrorism;  
Title V, Section 514, Offenses of violence against maritime navigation or fixed platform;

Title XLVIII, Public Corruption;  
Title XI, Subtitle B, Death Penalty Litigation Procedures for Habeas Corpus proceedings, except for 2259(b);

And to disagree to the following House provision:

Title IX, Coerced Confessions.  
And to insist that the text of H.R. 7, the "Brady Bill", as it passed the House, be included in H.R. 3371.

The SPEAKER pro tempore. The Chair would advise the Members that this motion is not debatable.

Without objection, the previous question is ordered on the motion to recommit.

There was no objection.  
The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. HYDE. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present. The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were yeas 174, nays 237, answered "present," 1, not voting 22, as follows:

Messrs. DREIER of California, ALLARD, LEACH, GINGRICH, CRAMER, PALLONE, and EDWARDS of Oklahoma changed their vote from "nay" to "yea."

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. LEHMAN of Florida. Mr. Speaker, I rushed in at the last minute. I thought I was voting on final passage. Instead I voted "yes" on the motion to recommit, and I should have changed the vote to "nay."

LEGISLATIVE PROGRAM

(By unanimous consent, Mr. MICHEL was allowed to proceed out of order.)

Mr. MICHEL. Mr. Speaker, I yield to the distinguished majority leader for the purpose of determining how much more we have to do and how soon we get out of here and so forth.

Mr. GEPHARDT. Mr. Speaker, I thank the gentleman for yielding and I wish him good morning. I never said where the sun was going to come up.

We are moving now to the vote on the crime conference. We will then move to the banking bill. There will be a rule and then that matter under conference.

We will then move to a rule on RTC, and that bill, and we have one other matter that is a must to try to get done and has to do with the Medicaid legislation that affects many of the States.

That matter is now in conference and should be ready shortly.

□ 0900

It is impossible for me to give Members a definite, absolute firm time. Each of these matters could be done in 2 hours, could be done in less than that, and obviously we are going to press to move these matters as quickly as we possibly can so that Members can make their planes.

Mr. MICHEL. Might I inquire of the majority leader then, if everything falls into place as he has outlined, would it then be in order for us to pass an adjournment resolution that takes us to January 3, with the usual caveat that the leaders, in agreement, could

within a 2-day notice call reconvene the Congress?

Mr. GEPHARDT. I believe the undertaking is to try to pass a resolution that calls for an adjournment to a date certain of January 3, with the ability of the leadership to call Members back if that needs to be done for any reason, and from the 3d then to the 23d of January, with the same caveat, and the ability of the leadership to call Members back.

Mr. MICHEL. The gentleman anticipated my next question, because I wondered whether or not we would do that adjournment resolution now? That is perfectly all right, and I guess there has to be a kind of a recess to the 3d to get the other leg of that accomplished.

Mr. GEPHARDT. If the gentleman will yield back to me, it would be a concurrent resolution, and we can go right to the banking bill and we will do that, and take up the adjournment resolution a little bit later in the schedule.

Mr. MICHEL. I thank the gentleman. The SPEAKER pro tempore (Mr. HOYER). The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

## RECORDED VOTE

Mr. HYDE. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 205, noes 203, answered "present" 1, not voting 26, as follows:

The Clerk announced the following pairs:

On this vote:

Mr. Ortiz for, with Mrs. Collins of Illinois against.

Mr. Waxman for, with Mr. Marlenee against.

Mr. Brown of California for, with Mr. Shaw against.

Mr. JAMES changed his vote from "aye" to "no."

Mr. FORD of Michigan changed his vote from "no" to "aye."

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. HOYER). All time has expired.

On this vote, the yeas are 205, the nays are 202.

The Chair will announce there was a change. There was an additional "no" vote by card that was not indicated on the slip that was handed to the Chair. The Chair's announcement made a mistake.

The Clerk. Mr. MORAN. Mr. MORAN votes no.

The SPEAKER pro tempore. When the slip was handed to the Chair, the tally clerk had not registered the vote, so that when the Chair took the slip, the Chair read a slip that did not register a vote that was on the front desk here.

Mr. GINGRICH. From our side, Mr. Speaker, let us calm that down. It has been a long, long night. A few minor errors can occur.

We thank the Chair for trying to make sure that every Member is protected in a difficult time when we are all a little tired.

The SPEAKER pro tempore. There were 205 votes in the affirmative, 203 in the negative.

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## PERSONAL EXPLANATION

Mr. BALLENGER. Mr. Speaker, unfortunately, I missed three rollcall votes. Had I

been present, I would have voted "nay" on rollcall 437, House Resolution 309, passage of the rule on the fiscal 1992 supplemental appropriation conference report; "yea" on rollcall 438, passage of House Joint Resolution 157, the fiscal 1992 supplemental appropriation conference report; and "nay" on rollcall 444, on passage of House Resolution 320, the rule providing for consideration of H.R. 3435, a bill to provide funding for the Resolution Trust Corporation.

#### PERSONAL EXPLANATION

Mr. PICKETT. Mr. Speaker, I was unavoidably absent from the House of Representatives due to official business. I wish to have the RECORD indicate that had I been present and voting, I would have voted in the following manner:

On rollcall vote No. 437, "yes"; on rollcall No. 438, "yes"; on rollcall No. 439, "yes"; on rollcall vote No. 440, "yes"; on rollcall vote No. 441, "yes"; on rollcall vote No. 442, "no"; on rollcall vote No. 443, "yes"; and on rollcall vote No. 444, "yes."

#### PERSONAL EXPLANATION

Mr. ROE. Mr. Speaker, due to a meeting away from the Capitol, I was unable to be present during rollcall vote 442, motion to commit with instructions H.R. 3371 and No. 443, final passage of H.R. 3371, Omnibus Crime Control Act. Had I been present I would have recorded my strong support of this legislation by voting "nay" on rollcall No. 442, the motion to recommit and by voting "yea" on rollcall No. 443 final passage.

□ 0920

#### GENERAL LEAVE

Mr. BROOKS. Mr. Speaker, I ask unanimous consent that all Members may have the rest of this session in order to revise and extend their remarks on the conference report just adopted.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from Texas?

There was no objection.

#### DEFENSE PRODUCTION ACT OF 1950 EXTENSION

Mr. CARPER. Mr. Speaker, I ask unanimous consent that the Committee on Banking, Finance and Urban Affairs be discharged from further consideration of the bill (H.R. 3919) to temporarily extend the Defense Production Act of 1950, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Delaware?

Mr. RIDGE. Mr. Speaker, reserving the right to object, I do so in order to yield to my friend and colleague from Delaware [Mr. CARPER] for purposes of an explanation.

Mr. CARPER. Mr. Speaker, will the gentleman yield?

Mr. RIDGE. I yield to the gentleman from Delaware.

Mr. CARPER. I thank the gentleman for yielding.

Mr. Speaker, the Defense Production Act has expired as of September 30 of this year. The purpose of this extension—and I will be asking for an amendment to this unanimous consent request in just a moment—what we really want to do is extend the Defense Production Act during our recess to March 1, 1992. During the next 2 months we will work out a conference report and bring it to the full House.

Mr. RIDGE. Is it my understanding that the gentleman has been in consultation with our colleagues in the other body and they have agreed to the extension of this period of time and they have also agreed and believe that we can finally come to a conclusion by March 1 of next year on the Defense Production Act, which we have been working on for well over a year now?

Mr. CARPER. If the gentleman will continue to yield, I think we have reached a meeting of the minds. One element that sort of kept us apart, fair trade and financial services, I think we are fairly close to an agreement on and we hope to reach that by March 1 and put this one to bed.

Mr. RIDGE. Mr. Speaker, I appreciate the gentleman's explanation, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Delaware?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3919

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. TEMPORARY EXTENSION OF THE DEFENSE PRODUCTION ACT OF 1950.

The first sentence of section 717(a) of the Defense Production Act of 1950 (50 U.S.C. App. 2166(a)) is amended by striking "September 30, 1991" and inserting "March 1, 1992".

#### SEC. 2. EFFECTIVE DATE.

This Act shall take effect on September 30, 1991.

#### AMENDMENT OFFERED BY MR. CARPER

Mr. CARPER. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CARPER: Page 1, line 7, strike out "March 30" and insert "March 1".

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from Delaware [Mr. CARPER].

The amendment was agreed to.

The bill was ordered to be engrossed and read a third time; was read the third time, and passed, and a motion to reconsider was laid on the table.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will be pleased to recognize those Members who may want to address the House for 1 minute pending the arrival of additional business.

#### THE PRESIDENT WAFFLES ON HIS ECONOMIC PACKAGE

(Mr. GEJDENSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEJDENSON. Mr. Speaker, as we enter these final hours of this session, I think that we can be proud of this Congress in achieving significant goals, significant goals on crime that just passed, on banking reform, a number of areas.

But one of the things that troubles us is a President who cannot seem to get it straight. First, he wants an economic package brought to the Congress, then he does not; then he does, again, then he does not.

It seems to me if we are serious about resolving this economy, we need more than presidential press conferences or presidential photo ops, Mr. Speaker.

We need a President who comes up here and engages the real issues of the economy. From Connecticut to California, we have an economy where workers are losing their jobs, they are losing their homes, and they can no longer afford to send their children to school.

Mr. President, stop taking photo ops; Mr. Speaker, bring the President here to work with us to try to heal this economy.

#### FUTURE HEARINGS SET FOR ECONOMIC GROWTH DEBATE

(Mr. DORGAN of North Dakota asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORGAN of North Dakota. Mr. Speaker, the Congress is going to embark on some hearings in the month of December on the subject of economic growth. We will have had by then a sufficient dose of partisanship and bickering back and forth across the political aisles, and I think the important thing for all of us to understand is that this country's economy is in serious trouble, probably more serious trouble than most of us understand.

I think what the American people who watch this process want most from us is to try to get from each side of the political aisle the best of whatever one has to offer, not the least of each of us. We need some mechanism whereby the President and the Congress, conservatives and liberals, Republicans and Democrats, will try to join together to try to put this country back on track.

Mr. Speaker, we face tough international competition. This country is losing its edge. I know there are some who say the problem is in the engine room of the ship of state. I do not believe that. I think the engine is fine. I think the problem is we have loaded this ship down with too much cargo and too much debt. I do not think the answer is sexy or fancy or anything like that. I think we need to get back to the basic virtues, the old ideas, paying your bills, putting America back on track.

I hope we see that kind of bipartisan spirit between the White House and the Congress because this country desperately needs it.

□ 0930

#### NO ONE REALLY LIKES A COMPROMISE

(Mr. BILBRAY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BILBRAY. Mr. Speaker, just a few minutes ago the people of the country saw a historic vote on a crime bill that was worked on very hard by Members of this Congress to bring forth a new crime bill that will help curtail the crime problems of this country.

Mr. Speaker, my colleagues heard a lot of arguments. They heard people on the far right who were against the bill because it did not go far enough, and, if my colleagues look at the Democrats who voted against it, they will find many Democrats from the far left who went against it because it went too far.

Mr. Speaker, it was a difficult bill. It was one that was crafted with compromise in mind, trying to find a bill that could pass this House. It was very difficult, and I commend the leadership of the Democrat Party, the majority party, for crafting that particular bill and working with the other body to get it done.

The people have to understand that many of us that supported the bill had other things that we would have liked in the bill, but, having practiced law for many years and having dealt with people on both sides of an issue, sometimes we had a compromise worked out that no one really liked, but it was a compromise that had to be done.

Mr. Speaker, we have to move forward to try to help the people of this country.

#### COUNTERANALYSIS OF THE VOTE ON THE CRIME BILL

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORNAN of California. Mr. Speaker, having grabbed about 3 hours of sleep last night sitting up while the

six couches were grabbed out of 166 Republicans, let me say that I appreciate the analysis of the crime bill we just voted on by the gentleman from Nevada [Mr. BILBRAY], my friend. Let me give a little counteranalysis.

Here is the readout: 205 to 203, 26 Members not here, some of them I saw a few hours ago, they must be asleep in their offices. Sorry they did not get over here for this vote. However our distinguished Speaker voted about 4 minutes before the end of the vote. I can appreciate that he did not want to have to come right up and break a tie, but, if we take his vote out, it is 204 to 203. That means every single vote was the margin of victory, and in our Republican Party the DMV, the Democratic margin of victory, was given to them by six Republicans. Each one of them was singularly the margin of victory.

Mr. Speaker, this is an easy veto for the President. He is obviously veto-proof. It will be sustained when he has got 203 people to draw from and there is only 145 needed.

Let me say that the most compelling thing was the letter the gentleman from Illinois [Mr. HYDE] read from the National Association of District Attorneys. They said this was a vote for criminals.

Did I hear cheering on death rows all across America? I am afraid so.

Mr. Speaker, I hope the President will veto this bill. It is an easy slam-dunk sustaining of the President's veto.

#### WHERE IS THE BILL TO ELEVATE THE EPA TO CABINET-LEVEL STATUS?

(Mr. BOEHLERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOEHLERT. Mr. Speaker, we have been in session for almost 24 hours, but that is what we are paid for, to do the people's business. Right now we are in a dead period, dead time between conference reports coming to this House so we can exercise the people's will, and during this time people like me can get up and say whatever we want for 60 seconds, speak to anybody about any subject.

Mr. Speaker, I want to speak to my colleagues on the Democrat side of the aisle. I want to ask them where the bill is to elevate the Environmental Protection Agency to cabinet-level status. I want to remind them that it was a Democrat in the Senate in cooperation with a Republican, Senator JOHN GLENN and Senator BILL ROTH, who passed that bill that now lays on the Speaker's desk ready to come up here by unanimous consent.

Mr. Speaker, the majority of Members in this House want it. Every single environmental group in America wants

it. The President has said he will sign it. He has encouraged us to act on it, and yet it lays on the Speaker's desk.

Why? Because one person, the chairman of the Committee on Government Operations, refuses to act.

Mr. Speaker, the American people deserve better. They deserve someone who will act and not turn his back on a piece of legislation that the American people demand.

#### THINGS LIBERALS VOTE FOR BESIDES A WEAK CRIME BILL

(Mr. CUNNINGHAM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CUNNINGHAM. Mr. Speaker, as a freshman on this body, first time I was upset on this House is the same week that we came aboard, and that is when the Desert Storm vote came out, and many Members of this House turned their backs on the men and women, and I think that today, next to the civil rights bill, was the hardest for me to stomach.

Mr. Speaker, in every case the conferees took the weakest position of either the Senate or the House and put it into the crime bill. I ask, "Why can't we put the strongest position in and fight crime?"

Mr. Speaker, I would like to tie in the votes of the liberals with some of the other things, the same people that voted against Desert Storm, the same people that supported the Sandinistas, that voted to burn the flag, that voted for Mapplethorpe and obscene art, to destroy the family unit, to not take drug tests, not to be tough on crime. I think, if we compile these votes, we would find the same liberal votes.

#### PROUD TO SAY, I VOTED FOR THE CRIME BILL

(Ms. OAKAR asked and was given permission to address the House for 1 minute.)

Ms. OAKAR. Mr. Speaker, I could not help hearing the last speaker attack people who voted for a crime bill.

Mr. Speaker, I am proud to say that I voted for the crime bill, and I say to the gentleman, "Of course in any bill you don't feel strongly about every provision, but the fact is overall it's a very fine bill."

One of the things that I think is an important aspect of that bill is that it finally gives assistance to the cities of this country by giving funds to the police department. We are seeing cities having less resources because we do not have an urban policy in this country, and one of the things that is on the minds and hearts of the American people is crime in the streets.

So, Mr. Speaker, I am delighted to see that there is a safe street program in this crime bill and that we funded

the police departments across the country to give them the tools to work with to assist in their combating and arresting crime, which I think is among the top issues that affect the American people.

Mr. Speaker, people do not like to see their cars stolen. They do not like to see drug peddling. They do not like to see alcoholic drivers on the roads, and so on, and the police department cannot do it alone, and the cities and rural areas cannot do it alone.

So, I am proud of this bill, and I congratulate those who worked so hard on it.

#### CALLING ON OUR HEMISPHERE

(Mr. RANGEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RANGEL. Mr. Speaker, as the House moves to complete its legislative business, I hope that we do not forget that there are thousands of people cast asea from Haiti without homes, without hope, and the President of the United States is only being restrained from sending these people back to Haiti by a Federal court judge in Miami. Some people may ask, "Well, what do we do with all these people? We can't absorb them in Miami; we can't absorb them in New York."

Well, God forbid that a country of our great wealth should even anticipate absorbing 5,000 Haitians, but it seems to me that we can use our Presidential and national influence to pick up the phone, as the President did so well in the Persian Gulf, and convince the neighboring countries that we would give them assistance, to call upon some of the industrial countries to pitch in.

Mr. Speaker, this is not just a question of poor black folks in Haiti. This is a question as to whether democracy can survive in the world, and specifically in our hemisphere.

So, while one may believe that we have asked certain portions of our country to assume too much of this moral responsibility which has a heavy fiscal burden with it, it seems to me that we have not done all that we can in reaching out to the United Nations, the Organization of American States, the Caribbean countries and say, "For God's sake, that can be your country. Pitch in and do something."

#### REPORT ON RESOLUTION WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON S. 543, COMPREHENSIVE DEPOSIT INSURANCE REFORM AND TAXPAYER PROTECTION ACT OF 1991, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. MOAKLEY, from the Committee on Rules, submitted a privilege report (Rept. No. 102-406) on the resolution (H. Res. 318) waiving all points of order against the conference report on the bill (S. 543) to reform Federal deposit insurance, protect the deposit insurance funds, recapitalize the bank insurance fund, improve supervision and regulations of insured depository institutions, and against consideration of such conference report which was referred to the House calendar and ordered to be printed.

#### WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON S. 543, COMPREHENSIVE DEPOSIT INSURANCE REFORM AND TAXPAYER PROTECTION ACT OF 1991.

Mr. FROST. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 318 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. REPT. 318

*Resolved*, That upon adoption of this resolution it shall be in order to consider the

conference report on the bill (S. 543) to reform Federal deposit insurance, protect the deposit insurance funds, recapitalize the bank insurance fund, improve supervision and regulation of insured depository institutions. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The gentleman from Texas [Mr. FROST] is recognized for 1 hour.

Mr. FROST. Mr. Speaker, for purposes of debate only, I yield 30 minutes to the gentleman from California [Mr. DREIER], pending which I yield myself such time as I may consume.

Mr. Speaker, all time yielded during debate on this House resolution is yielded for the purpose of debate only.

Mr. FROST. Mr. Speaker, House Resolution 318 is the rule providing for the consideration of the conference report on S. 543, the Comprehensive Deposit Insurance Reform and Taxpayer Protection Act of 1991. The rule waives all points of order against the conference report and against its consideration. The rule also provides that the conference report will be considered as having been read.

Mr. Speaker, this legislation will provide important borrowing authority for the FDIC. It includes a variety of provisions which would revise the Federal Deposit Insurance Program and strengthen the supervisory and regulatory processes to ensure against future crises.

The House has fully debated banking reform issues over the past few weeks. It is time to move forward and pass this legislation so that we can restore public confidence in banking system. I urge adoption of the rule and the conference report.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in reluctant support of this rule. My reluctance is not the result of what is in the rule but rather what is not in the conference report itself.

Mr. Speaker, I originally voted for H.R. 3768 in an effort to keep the process moving forward. I am concerned that while the process did move forward, the significance of this legislation headed in the opposite direction. I am referring to the fact that this banking bill does not include any of the President's structural reform proposals. Those proposals would help to restore the banking industry to profitability, and this would help to strengthen the bank insurance fund.

However, the fact remains, Mr. Speaker, that as many as 239 banks may fail next year, and the insurance fund needs billions of dollars in borrowing authority to guarantee the funds of nearly 110 million bank depositors. Once again I want to emphasize that this is not a taxpayer bill, and I underscore not a taxpayer bailout.

Mr. Speaker, in the Rules Committee, on Saturday, the chairman and ranking member of the Banking Committee provided assurances that in the next session of Congress, the Banking Committee will begin looking anew at the comprehensive legislation which we considered several weeks ago in the House. It is necessary that we overhaul the Nation's banking system.

Mr. Speaker, I want to commend the gentleman from Texas, the chairman of the committee [Mr. GONZALEZ], and the gentleman from Ohio [Mr. WYLIE], the ranking member, for their diligence in working on this bill. I hope very much that their committee will move forward so as to make sure that this will not become a taxpayer bailout.

I urge my colleagues to support the rule.

Mr. Speaker, I yield 5 minutes to the gentleman from Ohio [Mr. WYLIE], the ranking member of the Committee on Banking, Finance and Urban Affairs.

Mr. WYLIE. I thank the gentleman from California, a former important member of the Banking Committee. I certainly will not use the 5 minutes. I just want to rise in the strongest possible way to support the rule and the conference report which it makes in order.

As will be mentioned a little later on, we worked until 5 this morning on a banking bill. It is absolutely essential that we recapitalize the bank insurance fund, and that was the crux and the basis for our bill.

We do provide for \$30 billion in new lending authority, which allows us to refund the recapitalization of the bank insurance fund to the tune of \$25 billion. We do have a provision in here for early intervention, too-big-to-fail ends on January 1, 1995, a limit on broker deposits, and so forth. Essentially, the conference report we have before us includes the parameters of the House bill. I think our House conferees did an excellent job. I want to commend the gentleman from Texas, Mr. GONZALEZ, chairman of the House Committee on Banking, Finance and Urban Affairs, for the hard work and diligence he put into this. I will do that in his presence later on.

Mr. Speaker, I urge adoption of the rule.

Mr. DREIER of California. Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I urge support of the rule.

Mr. FROST. Mr. Speaker, I have no further requests for time, and I move the previous question, on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

#### TITLE II—REGULATORY IMPROVEMENT

##### Subtitle A—Regulation of Foreign Banks

#### SEC. 201. SHORT TITLE.

This subtitle may be cited as the "Foreign Bank Supervision Enhancement Act of 1991".

#### SEC. 202. REGULATION OF FOREIGN BANK OPERATIONS.

(a) ESTABLISHMENT AND TERMINATION OF FOREIGN BANK OFFICES IN THE UNITED STATES.—Section 7 of the International Banking Act of 1978 (12 U.S.C. 3105) is amended by striking subsection (d) and inserting the following new subsections:

"(d) ESTABLISHMENT OF FOREIGN BANK OFFICES IN THE UNITED STATES.—

"(1) PRIOR APPROVAL REQUIRED.—No foreign bank may establish a branch or an agency, or acquire ownership or control of a commercial lending company, without the prior approval of the Board.

"(2) REQUIRED STANDARDS FOR APPROVAL.—The Board may not approve an application under paragraph (1) unless it determines that—

"(A) the foreign bank engages directly in the business of banking outside of the United States and is subject to comprehensive supervision or regulation on a consolidated basis by the appropriate authorities in its home country; and

"(B) the foreign bank has furnished to the Board the information it needs to adequately assess the application.

"(3) STANDARDS FOR APPROVAL.—In acting on any application under paragraph (1), the Board may take into account—

"(A) whether the appropriate authorities in the home country of the foreign bank have consented to the proposed establishment of a branch, agency or commercial lending company in the United States by the foreign bank;

"(B) the financial and managerial resources of the foreign bank, including the bank's experience and capacity to engage in international banking;

"(C) whether the foreign bank has provided the Board with adequate assurances that the bank will make available to the Board such information on the operations or activities of the foreign bank and any affiliate of the bank that the Board deems necessary to determine and enforce compliance with this Act, the Bank Holding Company Act of 1956, and other applicable Federal law; and

"(D) whether the foreign bank and the United States affiliates of the bank are in compliance with applicable United States law.

"(4) FACTOR.—In acting on an application under paragraph (1), the Board shall not make the size of the foreign bank the sole determinant factor, and may take into account the needs of the community as well as the length of operation of the foreign bank and its relative size in its home country. Nothing in this paragraph shall affect the ability of the Board to order a State branch, agency, or commercial lending company subsidiary to terminate its activities in the United States pursuant to any standard set forth in this Act.

"(5) ESTABLISHMENT OF CONDITIONS.—Consistent with the standards for approval in paragraph (2), the Board may impose such conditions on its approval under this subsection as it deems necessary.

"(e) TERMINATION OF FOREIGN BANK OFFICES IN THE UNITED STATES.—

"(1) STANDARDS FOR TERMINATION.—The Board, after notice and opportunity for hearing and notice to any appropriate State bank super-

visor, may order a foreign bank that operates a State branch or agency or commercial lending company subsidiary in the United States to terminate the activities of such branch, agency, or subsidiary if the Board finds that—

"(A) the foreign bank is not subject to comprehensive supervision or regulation on a consolidated basis by the appropriate authorities in its home country; or

"(B)(i) there is reasonable cause to believe that such foreign bank, or any affiliate of such foreign bank, has committed a violation of law or engaged in an unsafe or unsound banking practice in the United States; and

"(ii) as a result of such violation or practice, the continued operation of the foreign bank's branch, agency or commercial lending company subsidiary in the United States would not be consistent with the public interest or with the purposes of this Act, the Bank Holding Company Act of 1956, or the Federal Deposit Insurance Act.

However, in making findings under this paragraph, the Board shall not make size the sole determinant factor, and may take into account the needs of the community as well as the length of operation of the foreign bank and its relative size in its home country. Nothing in this paragraph shall affect the ability of the Board to order a State branch, agency, or commercial lending company subsidiary to terminate its activities in the United States pursuant to any standard set forth in this Act.

"(2) DISCRETION TO DENY HEARING.—The Board may issue an order under paragraph (1) without providing for an opportunity for a hearing if the Board determines that expeditious action is necessary in order to protect the public interest.

"(3) EFFECTIVE DATE OF TERMINATION ORDER.—An order issued under paragraph (1) shall take effect before the end of the 120-day period beginning on the date such order is issued unless the Board extends such period.

"(4) COMPLIANCE WITH STATE AND FEDERAL LAW.—Any foreign bank required to terminate activities conducted at offices or subsidiaries in the United States pursuant to this subsection shall comply with the requirements of applicable Federal and State law with respect to procedures for the closure or dissolution of such offices or subsidiaries.

"(5) RECOMMENDATION TO AGENCY FOR TERMINATION OF A FEDERAL BRANCH OR AGENCY.—The Board may transmit to the Comptroller of the Currency a recommendation that the license of any Federal branch or Federal agency of a foreign bank be terminated in accordance with section 4(i) if the Board has reasonable cause to believe that such foreign bank or any affiliate of such foreign bank has engaged in conduct for which the activities of any State branch or agency may be terminated under paragraph (1).

"(6) ENFORCEMENT OF ORDERS.—

"(A) IN GENERAL.—In the case of contumacy of any office or subsidiary of the foreign bank against which the Board or, in the case of an order issued under section 4(i), the Comptroller of the Currency has issued an order under paragraph (1) or a refusal by such office or subsidiary to comply with such order, the Board or the Comptroller of the Currency may invoke the aid of the district court of the United States within the jurisdiction of which the office or subsidiary is located.

"(B) COURT ORDER.—Any court referred to in subparagraph (A) may issue an order requiring compliance with an order issued under paragraph (1).

"(7) CRITERIA RELATING TO FOREIGN SUPERVISION.—Not later than 1 year after the date of enactment of this subsection, the Board, in consultation with the Secretary of the Treasury, shall develop and publish criteria to be used in

evaluating the operation of any foreign bank in the United States that the Board has determined is not subject to comprehensive supervision or regulation on a consolidated basis. In developing such criteria, the Board shall allow reasonable opportunity for public review and comment.

#### Subtitle F—Truth in Savings

##### SEC. 261. SHORT TITLE.

This Act may be cited as the "Truth in Savings Act".

##### SEC. 262. FINDINGS AND PURPOSE.

(a) **FINDINGS.**—The Congress hereby finds that economic stability would be enhanced, competition between depository institutions would be improved, and the ability of the consumer to make informed decisions regarding deposit accounts, and to verify accounts, would be strengthened if there was uniformity in the disclosure of terms and conditions on which interest is paid and fees are assessed in connection with such accounts.

(b) **PURPOSE.**—It is the purpose of this Act to require the clear and uniform disclosure of—

(1) the rates of interest which are payable on deposit accounts by depository institutions; and  
 (2) the fees that are assessable against deposit accounts,

so that consumers can make a meaningful comparison between the competing claims of depository institutions with regard to deposit accounts.

##### SEC. 263. DISCLOSURE OF INTEREST RATES AND TERMS OF ACCOUNTS.

(a) **IN GENERAL.**—Except as provided in subsection (b), each advertisement, announcement, or solicitation initiated by any depository institution or deposit broker relating to any demand or interest-bearing account offered by an insured depository institution which includes any reference to a specific rate of interest payable on amounts deposited in such account, or to a specific yield or rate of earnings on amounts so deposited, shall state the following information, to the extent applicable, in a clear and conspicuous manner:

(1) The annual percentage yield.

(2) The period during which such annual percentage yield is in effect.

(3) All minimum account balance and time requirements which must be met in order to earn the advertised yield (and, in the case of accounts for which more than 1 yield is stated, each annual percentage yield and the account minimum balance requirement associated with each such yield shall be in close proximity and have equal prominence).

(4) The minimum amount of the initial deposit which is required to open the account in order to obtain the yield advertised, if such minimum amount is greater than the minimum balance necessary to earn the advertised yield.

(5) A statement that regular fees or other conditions could reduce the yield.

(6) A statement that an interest penalty is required for early withdrawal.

(b) **BROADCAST AND ELECTRONIC MEDIA AND OUTDOOR ADVERTISING EXCEPTION.**—The Board may, by regulation, exempt advertisements, announcements, or solicitations made by any broadcast or electronic medium or outdoor advertising display not on the premises of the depository institution from any disclosure requirements described in paragraph (4) or (5) of subsection (a) if the Board finds that any such disclosure would be unnecessarily burdensome.

(c) **MISLEADING DESCRIPTIONS OF FREE OR NO-COST ACCOUNTS PROHIBITED.**—No advertisement, announcement, or solicitation made by any depository institution or deposit broker may refer to or describe an account as a free or no-cost account (or words of similar meaning) if—

(1) in order to avoid fees or service charges for any period—

(A) a minimum balance must be maintained in the account during such period; or

(B) the number of transactions during such period may not exceed a maximum number; or

(2) any regular service or transaction fee is imposed.

(d) **MISLEADING OR INACCURATE ADVERTISEMENTS, ETC., PROHIBITED.**—No depository institution or deposit broker shall make any advertisement, announcement, or solicitation relating to a deposit account that is inaccurate or misleading or that misrepresents its deposit contracts.

(2) All minimum balance requirements that affect fees, charges, and penalties, including a clear description of how each such minimum balance is calculated.

(3) Any minimum amount required with respect to the initial deposit in order to open the account.

(c) **INFORMATION ON INTEREST RATES.**—The schedule required under subsection (a) with respect to any account shall include the following information:

(9) A statement, if applicable, that any interest which has accrued but has not been credited to an account at the time of a withdrawal from the account will not be paid by the depository institution or credited to the account by reason of such withdrawal.

(10) Any provision or requirement relating to nonpayment of interest, including any charge or penalty for early withdrawal, and the conditions under which any such charge or penalty may be assessed.

(d) OTHER INFORMATION.—The schedule required under subsection (a) shall include such other disclosures as the Board may determine to be necessary to allow consumers to understand and compare accounts, including frequency of interest rate adjustments, account restrictions, and renewal policies for time accounts.

"(C) BOARD MAY MAKE EXCEPTIONS FOR CERTAIN BANKS.—The Board may, by regulation, make exceptions to subparagraph (A) for member banks with less than \$100,000,000 in deposits if the Board determines that the exceptions are important to avoid constricting the availability of credit in small communities or to attract directors to such banks. **Subtitle J—Sense of the Congress Regarding the Credit Crisis**

**SEC. 456. CREDIT CRUNCH.**

(a) **FINDINGS.**—The Congress finds that—

(1) during the past year and a half a credit crunch of crisis proportions has taken hold of the economy and grown increasingly severe, particularly for real estate;

(2) to date the credit crisis has shown no sign of improvement with its effects being felt broadly throughout the Nation as business failures soar, financial institutions weaken, real estate values decline, and State and local property tax bases further erode;

(3) approximately \$200,000,000,000 of the nearly \$400,000,000,000 in commercial real estate loans now held by commercial banks are coming due within the next 2 years;

(4) banks for a variety of reasons, are reluctant to renew these maturing real estate loans;

(5) both pension funds in the United States, with assets of nearly \$2,000,000,000,000, and a stronger and more active secondary market for commercial real estate debt and equity could play a more significant role in providing liquidity and credit to the real estate and banking sectors of the economy;

(6) many regulatory practices encourage banks to reduce their real estate lending without regard to long-term historical risk; and

(7) the stability of real estate has suffered during the past decade first from tax rules that in 1981 stimulated excessive investment in real estate, and then in 1986 when rules were adopted that discourage capital investment in real estate, artificially eroding real estate values.

(b) **SENSE OF THE CONGRESS.**—It is the sense of the Congress that—

(1) immediate and carefully-coordinated action should be taken by the Congress and the President to arrest the credit crisis referred to in subsection (a) and provide a healthy and efficient marketplace that works for owners, lenders, and investors; and

(2) that efforts should be undertaken to explore measures that—

(A) modernize and simplify the rules that apply to pension investment in real estate to remove unnecessary barriers to pension funds seeking to invest in real estate;

(B) strengthen the secondary market for commercial real estate debt and equity by removing arbitrary obstacles to private forms of credit enhancement;

(C) restore balance to the regulatory environment by considering the impact of risk-based capital standards on commercial, multifamily and single-family real estate; ending mark-to-market, liquidation-based, appraisals; encouraging loan renewals; and, fully communicating the supervisory policy to bank examiners in the field; and

(D) rationalize the tax system for real estate owners and operators by modifying the passive loss rules and encouraging loan restructures.

**JOINT STATEMENT OF CONFERENCE COMMITTEE**

House and Senate conferees met for two days under a stringent deadline to consider H.R. 3768 and S. 543, bills to recapitalize the Bank Insurance Fund and to improve the Federal Deposit Insurance Corporation. On November 25, 1991, the House overwhelmingly passed a motion by a vote of 398 ayes to 3 nays to instruct its conferees to consider only issues addressed within the scope of H.R. 3768, rather than the more voluminous bill, S. 543.

The conferees exchanged several offers, and worked from these to combine parts of each bill to form this conference agreement. While the conferees certainly hold differing views about the long-term changes needed in the banking system, all agreed that in the short time available for forging this compromise, recapitalizing the BIF took top priority. The FDIC have the resources to honor its guarantee of insured deposits, so that Americans will know their funds are safe.

Solely for the purpose of consideration of title X of the Senate Bill:

QUENTIN BURDICK,  
GEORGE J. MITCHELL,

Managers on the Part of the Senate.

Mr. NEAL of North Carolina. Mr. Speaker, pursuant to House Resolution 318, I call up the conference report on the Senate bill (S. 543 to reform Federal deposit insurance, protect the deposit insurance funds, recapitalize the Bank Insurance Fund, improve supervision and regulation of insured depository institutions, and for other purposes.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore (Mr. STUDDS). Pursuant to House Resolution 318, the conference report is considered as having been read.

□ 1040

The gentleman from North Carolina [Mr. NEAL] will be recognized for 30 minutes, and the gentleman from Ohio [Mr. WYLIE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. NEAL].

Mr. NEAL of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this is essentially very similar to the bill that has passed the House. My colleagues may be interested to know that the Committee on Banking, Finance and Urban Affairs conferees were in conference with the Senate conferees essentially from yesterday morning at 9:30, on and on all day, into the evening, until this morning at something like 5 o'clock, and we finally came to this agreement which, as I say, is in most major respects very much like the bill that passed the House recently by an overwhelming margin.

Mr. Speaker, I think the significant thing to say about this legislation is that it is essential. There is a problem.

The bank insurance fund needs money, and, if it were not for that problem, we would not be here.

Now this bill provides some money to fix that problem for the short term, but I will have to report to our colleagues that, as far as fixing the problem for the long term, we do not do it.

We do provide some very significant regulatory reform, a couple of hundred pages of it. That is all to the good. But we knew how to do much more, and we should have done much more.

Mr. Speaker, our Subcommittee on Financial Institutions Supervision, Regulation and Insurance, after many days of hearings and study over a long period of time, reported out legislation that would have in a major way reformed the banking system of this country. It would have made the system safer, and sounder and more competitive, would have provided for economic diversity in terms of services, products and services, would have provided geographic diversity for safety and soundness. That bill passed our subcommittee with no votes against it. I think the vote was 35 to zero, something like that.

Well, Mr. Speaker, we took it to the full committee. The full committee worked its will on it, found a few more little problems, and the bill, very much the same bill, passed the full committee by about a 60-40 margin. But because of a lot of little manipulations that I will not go into now, we never really got a chance to vote on that major reform package.

Now I mention it at this time because one of these days, I would say to my colleagues, we must return to that. We must modernize this system. If we do not modernize the system, we will be back here again sometime in the future looking for more money to bail out banks. I do not want to vote one penny to bail out banks.

Mr. Speaker, there is a way to fix this system. We should provide geographic diversity, we should provide product diversity for safety and soundness, we should modernize the system so that it serves our savers, and our consumers and the businesses of this country so that we can be competitive in world trade. Now that is the challenge.

Mr. Speaker, we are engaged now in a stopgap measure. It is necessary. We have no choice. But very soon we must return to this subject and engage in a major reform.

Mr. Speaker, I reserve the balance of my time.

Mr. WYLIE. Mr. Speaker, I rise in strong support of the conference report on H.R. 3768, the banking reform bill. As I do that, I want to compliment the distinguished chairman of the Committee on Banking, Finance and Urban Affairs who has worked so diligently, and so hard and so long. Without his persistent efforts we would not be here

today. He encouraged us to work on this bill through the day yesterday, for almost 24 straight hours, until 5 o'clock this morning; and we came up with a very good bill in my judgment. Although the path has been arduous, the compromise before us encompasses pretty much the parameters of the House passed bill.

No one was completely satisfied with the product that we came out with, but clearly this is the most important issue that we have before the First Session of the 102nd Congress. Other important issues are not included: interstate banking, banking and commerce, modification of Glass-Steagall are still unanswered and will have to be revisited early next year. However the bill before us is a good compromise given where we started from when we went into our conference yesterday with Members of the other body.

First and foremost the bill provides the funding to recapitalize the bank insurance fund, and again I repeat again and again that this is not a taxpayer bailout. There is no taxpayer money authorized in this bill. This is a loan which will be repaid by the banking industry through an increase in premiums. This money will be used solely to protect depositors. Not one cent will be used to pay off any shareholders or any directors.

Mr. Speaker, we must recapitalize the bank insurance fund to show depositors that the government stands behind the promise to protect their deposits. We must show the American people that their money is protected by the full faith and credit of the United States Government. It would be irresponsible not to provide the FDIC with this crucial funding, as I have stated, before we adjourn.

Besides funding, Mr. Speaker, the bill does incorporate a number of very important reforms. It calls for annual examinations and independent audits. It implements a tripwire system of prompt early intervention to handle troubled institutions before they fail, and to minimize taxpayer losses. To further minimize the taxpayer liability, the bill limits brokered deposits to only those banks with the highest capital levels.

Furthermore, it establishes risk-based premiums. Risk-based premiums will reward well-capitalized and prudently managed institutions. Such a system will restore equity to the system and encourage high capital levels.

Although this legislation is not as comprehensive as some would like, it does make a number of important reforms. It is essentially the House bill which we passed by an overwhelming margin here last week. The capitalization, again I repeat, is must legislation, and I, therefore, urge my colleagues to approve the conference report on this crucial bill.

I would just add one other caveat, and that is that we did add to the bill

a provision which was not before the Committee on Banking, Finance and Urban Affairs legislation, and that has to do with the so-called Lamp F decision. What it does is it extends the statute of limitations for securities and fraud cases. It is regarded as very important, and the distinguished chairman of the Committee on Energy and Commerce has signed off on that, according to the distinguished chairman of the House Committee on Banking, Finance and Urban Affairs, the gentleman from Texas [Mr. GONZALEZ]. We have a good package and I urge an aye vote.

Mr. Speaker, I reserve the balance of my time.

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent that I may be permitted to assign the balance of the time to the various Members seeking recognition.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. GONZALEZ. Mr. Speaker, essentially what we have, as the gentleman from Ohio [Mr. WYLIE] stated, is what we were under the mandate, because the bill overwhelmingly passed the House, to stick to the House version that passed with a vote of 344 to 64, and we did that. Essentially what we have here is more than just what has been referred to as a narrow bill. This is an achievement, and I just merely want to thank my colleagues on the Committee on Banking, Finance, and Urban Affairs.

□ 1050

We have walked the plank three times and, with this, four times.

Also, I wanted to compliment and thank, express my profound gratitude to the gentleman from Ohio [Mr. WYLIE] and people like the gentleman from New Jersey [Mrs. ROUKEMA] and the members of the minority as well as to our conferees from the State side who I think performed wonderfully.

We settled down 24 hours ago at 9:30 and kept going until 5:00 this morning when the conference rose. So I just merely wanted to express my profound gratitude. I am very proud of the Committee on Banking, Finance and Urban Affairs and of our colleague and of the House Members as a whole.

Mr. Speaker, I am pleased to report to the House that we have completed a successful House-Senate conference on the banking legislation. We have produced an excellent bill that will move us a giant step forward in restoring confidence in our Nation's financial system.

S. 543, the Federal Deposit Insurance Corporation Improvement Act of 1991, meets the priority of refinancing the bank insurance fund by providing an immediate line of credit of \$30 billion at the Treasury Department. This ensures that depositors at the Nation's 12,300 banks will have protection for their funds.

The bill represents a new day for regulation of the Nation's banks. Key to this new approach will be a requirement for prompt intervention by regulators when the vital signs of a bank reach a critical point. This means that banks will no longer be allowed to slip away while the regulators wring their hands and hope for a better day—all at the expense of the taxpayer. S. 543 requires action to protect the bank and the insurance fund.

S. 543 also requires that the Federal Deposit Insurance Corporation resolve failed banks by the method least costly to the taxpayers. The discount window at the Federal Reserve, which dispenses below market interest rate loans to banks, will now operate under specific criteria that will prevent backdoor bailouts. Pouring money into sick financial institutions does more harm than good, as evidenced by a House Banking Committee study which showed that 90 percent of the banks that received loans from the discount window failed in the end anyway.

This conference report requires annual audits and annual examinations—both essential to a healthy banking system.

Not only our domestic banks, but foreign banking entities in the United States must now operate under a new set of regulatory requirements. The rogue banks like Banca Nazionale del Lavoro [BNL] and the Bank of Credit and Commerce International [BCCI] will no longer escape scrutiny in this Nation.

Mr. Speaker, I am also proud of the people issues we were able to deal with to make certain that consumers got a better break at insured institutions.

The conference report contains the House version of the Truth in Savings legislation that has languished through four Congresses without reaching final passage. This legislation, pushed through by our colleague, ESTEBAN TORRES, chairman of our Consumer Affairs and Coinage Subcommittee, puts an end to deceptive advertising and confusing information about savings rates. People who put their hard-earned dollars in financial institutions will know the terms precisely and will be in a position to shop for the best rates.

The conference report also contains important new steps forward in fair lending enforcement, including better requirements for more complete disclosure of banks' performance under the Community Reinvestment Act [CRA]. We've also closed a loophole that has let many mortgage banks escape reporting under the Home Mortgage Disclosure Act [HMDA]. The bill also provides protections against the willy-nilly closing of branches, particularly in innercity neighborhoods. Banks must now provide customers and the communities 90-day advance notice before closing branches and leaving neighborhoods without service.

Mr. Speaker, there are many who would have preferred that we had produced a bill with broader powers for banks—the right to expand into new activities and new markets. These provisions were brought to the House floor twice this month and they failed. This legislation would have failed again had the conferees been foolish enough to ignore the House's wishes.

But, I hope that the long fight over expanded powers for banks does not obscure

the tremendous advances represented by this bill. It is a landmark piece of legislation that will serve the Nation and its financial system well.

Many will continue to mislabel the refinancing of the bank insurance fund as a bailout. This charge ignores the fact that the money provided from Treasury is a loan and the conference report requires that the funds be repaid by the banks on a specific schedule extending over 15 years. The prompt refinancing of BIF through this credit arrangement and the accompanying regulatory safeguards are the very best insurance against a taxpayer's bailout.

Mr. Speaker, S. 543 is extremely important legislation. The conference report should be adopted.

Mr. Speaker, I yield 5 minutes to our ranking majority member of the committee and the chairman of the Financial Institutions Subcommittee, the gentleman from Illinois [Mr. ANNUNZIO].

Mr. ANNUNZIO. Mr. Speaker, 8 months ago, the Subcommittee on Financial Institutions, which I chair, began hearings on a major banking bill. It was the beginning of a long legislative journey. This morning we are seeing the end of that journey and hopefully a new beginning in the commercial banking industry.

I strongly support the conference report before the House today. I want to commend the chairman of the committee, the gentleman from Texas [Mr. GONZALEZ] and the banking Republican, CHALMERS WYLIE for the leadership they have shown throughout the entire legislative process on this bill.

Mr. Speaker, I doubt if any bill in recent memory has been the subject of so much attention and scrutiny as this bill has been. But I think the turmoil that has surrounded this bill has actually made for a better bill. No section of this bill was won without hours of discussion and hundreds of votes. Too many cooks spoil the broth may be an old wives' tale, but the cooks of this legislative broth did a great job.

I am particularly proud of several provisions in this bill that I authored, including the requirement that every federally insured financial institution be examined at least once a year. The early intervention procedures will make certain that brain dead banks are not kept open on the misguided belief that they can grow into recovery.

The whistleblower section will make certain that those dedicated public servants who expose corruption and wrong-doing will not be punished for making that information public.

And most importantly, when the banks borrow \$30 billion to replenish the bank insurance fund, my amendment will make certain that the banks, not the taxpayers will have to repay those loans.

Mr. Speaker, I urge adoption of the conference report.

Mr. WYLIE. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. Mr. Speaker, I will certainly try not to use all of the 5 minutes in rising to, regrettably, oppose this legislation, since it seems that everybody seems to be for it.

I do want to, first of all, commend the chairman of the committee and my friend, the gentleman from Ohio [Mr. WYLIE], and the subcommittee chairman and ranking members and everybody who has labored so diligently on this effort.

I know that this is probably the only bill that could come before the House. But I just want to state my concerns once again as I do when the House passed this measure, that I am afraid that we are simply not solving the problem. When this bill passed the House it was a non-reform bill. I said that then, and also predicted that the Senate would not improve on it. Sadly, I believe the bill before us now shows that I was correct.

This legislation, which does recapitalize the FDIC's bank insurance fund with a \$70 billion loan from the taxpayers does nothing in the way of meaningful, significant reforms. I know that despite the considerable funds in this bill, we are going to be back here next year, and I think all of you know that too. Then we will really have to revisit the issue and approve some major reforms. We will be doing that in an election year, and that is going to be very, very difficult.

My first regret about this bill today is that it does nothing to maintain firewalls that keep bankers and the banking business out of everybody else's business, such as real estate, and insurance, and securities and everything else. Instead, it leaves those walls open so that they can continue to do what they have been doing in the past: losing money and being bailed out by the taxpayers of this Nation.

The second and more important problem that we have not dealt with at all in the bill is the issue of multiple deposit insurance guarantees available to investors. Despite today's \$100,000 limit on deposit insurance, a family can effectively insure up to \$1,400,000 of its savings in not just one bank but as many banks as they want. As long as that kind of system is in place, we will never solve this problem.

As I mentioned in our earlier debate on the bill, when I came to this Congress 13-14 years ago, I sold all of my stock and all of my businesses, as I had to. I took that money and put it into certificates of deposit. Since coming to Washington I have not only found that I am 100-percent Scotsman, tight with a dollar, but I also found myself instructing my wife by phone in upstate New York on how to go out and find whatever insured bank she could get with the highest possible return on our investment from dollars and certificates of deposit. Forgetting to look for a long-established conservative bank,

even in our hometown, she did that and I did it. If we did that, ladies and gentlemen, everybody in this country did that, and that is how we got ourselves in the mess today. Unfortunately, in this bill we have totally ignored doing anything about it.

An amendment to this bill, which would have required only one insured deposit of up to \$100,000 per individual, would have gone a long way toward solving this problem. Although we have not done that, we are going to have to do it, and you had better think about it too because in March or April we will be back here again doing the same thing.

I hesitantly oppose the legislation, but I do commend the gentlemen for the hard work that went into it.

Mr. GONZALEZ. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. ANNUNZIO], for the purposes of a colloquy.

Mr. ANNUNZIO. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I would like to take a minute to ask the distinguished chairman of the Banking Committee, Mr. Gonzalez to join me in a colloquy. I would like to ask the chairman if it is not true that under the new qualified thrift lender test in the conference report if it is the intent of the conferees that the increase from 30 to 35 percent of the consumer lending basket prohibits a savings and loan from placing loan application in an automobile or appliance showroom et cetera, and then have the sales people give their customers the loan applications. Is it not true that the intent of this provision is that consumers wishing to borrow money from the S&L for consumer loans under the increased loan authority are expected to deal directly with the S&L and not with a third party or middleman in any way whatsoever.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. ANNUNZIO. I am happy to yield to the gentleman from Texas.

Mr. GONZALEZ. Mr. Speaker, on both counts, absolutely, the gentleman is correct. That is right.

Mr. ANNUNZIO. I want to once again extend my thanks and appreciation to the chairman.

Mr. GONZALEZ. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I thank the chairman for yielding me this time.

I want to commend the committee. I think that we did a good job in terms of the conference. Certainly we had give and take with the Senate, but, frankly, we came in, we used the House bill, and while we made modifications with our Senate colleagues, I think that it is a good product, and it deserves the support of the House.

Candidly, it does not have the powers in the branch banking and the security

power issues that were so contentious in this House.

We came up to the floor twice, and we sunk twice, and everyone can get involved in their own revisionist history as to why that happened.

Today I think the task is before us to improve the deposit system, to reform it, and I think we have done the best we can as a Congress of 535 Members with this problem.

We have written new prescriptive language in this law to guide the administration and the regulators. There is less flexibility, for the banking regulators, but I think our experience has indicated that such limits are necessary.

We have obviously capitalized the BIF fund which is a principal responsibility based on the statements of Mr. Taylor, the new Director of the FDIC, that is essential before the House adjourns to back the deposits of hundreds of millions of people across this country that have savings in our financial institutions.

□ 1100

This is a comprehensive bill. It is a solid foundation that we can build on next year. We can deal with the powers issues. We have a sound foundation of deposit insurance now, and limiting the powers and addressing the issues of too big to fail of banks. We cannot deal with the symbolic issue of \$100,000 accounts, but I think, candidly, that is more symbolic than substantive. The central issue of cost is to get the banks off the track of too big to fail. There are problems remaining with systematic risk that is in this measure but hopefully that should be limited in terms of the safeguards and tripwires we put in this measure, including early intervention and other necessary approvals.

Mr. Speaker, I think this is a good bill and I hope Members will support it.

Mr. WYLIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I think I would be remiss if I did not publicly thank the minority members who participated in this conference last night and yesterday. I would like to say that the gentleman from Iowa [Mr. LEACH], the gentleman from Florida [Mr. MCCOLLUM], the gentlewoman from New Jersey [Mrs. ROUKEMA], the gentleman from Nebraska [Mr. BEREUTER], the gentleman from Pennsylvania [Mr. RIDGE], the gentleman from Wisconsin [Mr. ROTH], the gentleman from California [Mr. MCCANDLESS], and the gentleman from Louisiana [Mr. BAKER] were in attendance throughout and gave of their best to this fine product we have before us.

I would also like to thank the minority staff and majority staff for all of the fine work they did do this legislation. It was a very difficult and trying experience.

Mr. VENTO. Mr. Speaker, will the gentleman yield?

Mr. WYLIE. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Speaker, I would ask the gentleman from Ohio [Mr. WYLIE], what about the gentleman from Louisiana [Mr. BAKER]?

Mr. WYLIE. Mr. Speaker, reclaiming my time, yes, I have Mr. BAKER's name on here. I add him to my list, also, Mr. Speaker.

Mr. Speaker, I reserve the balance of my time.

Mr. GONZALEZ. Mr. Speaker, I yield 3 minutes to the gentleman from Kansas [Mr. SLATTERY].

Mr. SLATTERY. Mr. Speaker, first I would like to commend the gentleman from Texas [Mr. GONZALES] and the ranking minority member, the gentleman from Ohio [Mr. WYLIE], and all those that have worked tirelessly to bring this legislation to the floor today.

I think there are five basic reasons why we should be pleased with this legislation and support it. First of all, this legislation does provide for the recapitalization of the Bank Insurance Fund.

We are not bailing out the banks. We are merely honoring a promise and a commitment that was made to depositors in this country 50 years ago. We have no choice. We have to recapitalize the bank insurance fund.

The "too big to fail" doctrine that many of our small community banks across this country have been very, very concerned about has also been changed. I happen to believe the provisions in this legislation requiring the President, the Treasury Department, the Federal Reserve and FDIC to certify in writing that a bank would cause systemic risk if it was allowed to fail is going to have the effect of putting the brakes on the use of the too big to fail doctrine. I think that is a very important reform.

In addition to that, there are other regulatory reforms empowering the regulators to intervene at an early stage, to use least cost resolution and also have annual audits of banks across the country. As far as I am concerned, all of this is good.

Another important reform is the change in the area of brokered deposits. Under this legislation we would prohibit undercapitalized institutions from accepting brokered deposits, this is another very important reform.

Many people who have observed the banking crisis in this country believe very strongly that brokered deposits have played a big role in creating the mess we are in. That is being corrected.

In addition to that, we are empowering the Federal Reserve System to regulate much more carefully foreign banks operating in this country, to deal with future BCCI type problems. This is also good.

Mr. Speaker, I know some of my colleagues wish we would have repealed Glass-Steagall and empowered the banks to get involved in the securities industry. We did not do that. This is one Member who is glad that we did not do that.

I believe one of the big achievements of this session is the defeat of efforts to repeal Glass-Steagall. Over the long term this will serve the taxpayers and consumers of this country well.

Mr. Speaker, I strongly urge Members to support this reform package. I know that next year we will have the opportunity to come back and revisit the question of interstate branch banking and revisit the question of Glass-Steagall. But today this is as good as we can do.

Mr. Speaker, this is a significant step forward. It is good legislation. It is deserving of strong bipartisan support. So I strongly urge my colleagues to join me in supporting this legislation.

Mr. WYLIE. Mr. Speaker, I respectfully yield such time as she may consume to the gentlewoman from New Jersey [Mrs. ROUKEMA], who was a very good member of our conference.

Mrs. ROUKEMA. Mr. Speaker, I thank the gentleman my ranking member, the gentleman from Ohio [Mr. WYLIE] for yielding. I do want to concur with some of the comments that have been made by the gentleman from Kansas [Mr. SLATTERY]. The gentleman alluded to the fact there are some very good parts to this bill. The tenor of his remarks were positive, and I want to underscore, that really we should not be ashamed of this product.

Mr. Speaker, we went through a procedure that resulted in the defeat of 2 bills that embodied more comprehensive reforms. Rightly or wrongly, the judgment was made by this body that we were not going to enter into new powers such as security and insurance powers with the attendant problems of how to define firewalls. Rightly or wrongly, that decision was made.

But I would suggest that when we are dealing with those kinds of complex issues that could have profound consequences that if we are going to err at all, we should err on the side of caution.

In this bill we have some excellent reforms with respect to capital requirements; with respect to early intervention and with respect to stronger, regulatory, requirements. There are reforms to be proud of. We must also say that with respect to new powers, firewalls, and interstate banking, we have some work to be done.

Mr. Speaker, because we could not come to those conclusions at this particular time, it does not mean that the product that we come out with in the new year will not be better for the time and effort that has already been expended on this matter.

Mr. Speaker, I do want to say, for those who are concerned, because I

think there is a general tenor of regret that we have not reformed the deposit insurance fund, by limiting deposit insurance to \$100,000 per customer.

Mr. Speaker, in my opinion, that was the correct decision to make. I understand that this decision is open to debate; but it is not open to debate to question the really fundamental reforms that we did put in this legislation.

It has already been mentioned that we have addressed in a very meaningful way "the too big to fail doctrine." I think that is quite a substantial accomplishment.

In addition, we have put limitations on brokered deposits. This particular issue of the brokered deposits and the level of capitalization that is needed in institutions that are permitted to use brokered deposits occupied a great deal of our time and effort. There was extended debate.

But the provision of brokered deposits is a meaningful one. It is restrictive, and it is a major reform in this bill.

Mr. Speaker, we have restrictions on pass-through insurance, the foreign deposits, and the risk-based premiums, in which I take some pride of authorship. I had a lot of help from others, but the fact is we are now basing the premium payments from the banks into the fund on the basis of the risks and the type of investments that they make.

Mr. Speaker, I think all in all there is nothing to be hesitant about here. We have meaningful reform. We are leaving to another day some of those questions that were more divisive, and merely more problematic in many ways, and for good reason. So we will have a number of engines that can lead us to the second level of reform next year.

In the meantime, we are protecting the depositors, we are restoring faith in the system, and, I think, Mr. Speaker, that the fact that we passed this bill 344 to 84 when it left the House the first time, and in this measure we have 95 percent of the House bill, that it is deserving of our support. Maybe we can get unanimous support.

Mr. WYLIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would just add that the gentlewoman from New Jersey [Mrs. ROUKEMA] deserves a high compliment for leading the charge on the risk-based premium issue. She has been very diligent on this. The amendment that was adopted is pretty much her handiwork and, in that regard, made a real contribution to our deliberations.

Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana [Mr. BAKER], who certainly made a very tremendous contribution to the conference deliberations.

Mr. BAKER. Mr. Speaker, I thank the gentleman for yielding. I certainly appreciate his kind comments and ex-

tend to him and to the chairman of the Committee on Banking, Finance and Urban Affairs my appreciation for their hard work and diligence in bringing this measure to the House floor.

As we are all painfully aware, taxpayers of this country are indeed frustrated with the current condition of the financial marketplace. Everyone back home expects us to resolve the current problems without additional taxpayer dollars, to make sure our banks are operated in a safe and sound manner and that their deposits remain free from threat of loss.

□ 1110

The bill we have before us this morning goes a long way toward making important reforms. Certainly there is much yet to be done. The question of additional bank powers and commercial ownership of institutions were provisions contained in the bank bill as reported by the Committee on Banking, Finance and Urban Affairs earlier this session. And unfortunately they are not addressed in the measure before us now.

But equally important are those important regulatory tools necessary to intervene at an early time in a bank's business activities so that franchise value is preserved, so that taxpayer funds are protected and so that ultimately we are not called upon as a Federal deposit insurer to pay off losses of troubled institutions.

This legislation takes many progressive steps to allow regulators to do their jobs much more efficiently than they have been able to do in the past. It also makes some significant changes with regard to the operation of the thrifts. Provisions relating to the qualified thrift lender test which are included in this legislation will ensure that some 180, perhaps 200 thrifts in this country who were well-run, well-capitalized institutions will not arbitrarily be closed for their failure to meet a government standard relating to the construction of their lending portfolio, a technical change, for sure, but one very important in minimizing cost to the taxpayer.

I commend the bill and I hope the House will adopt it.

Mr. GONZALEZ. Mr. Speaker, I yield such time as he may consume to the gentleman from Massachusetts [Mr. MARKEY].

Mr. GONZALEZ. Mr. Speaker, I yield 2 minutes to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I rise in strong support of the conference report, the FDIC Recapitalization and Improvement Act of 1991.

Mr. Speaker, this bill before us today is critical to protecting the millions of depositors throughout our banking system and it is needed to protect our economy. The only protection between depositors and the potential loss of

their hard-earned money when a bank closes its doors is the FDIC's bank insurance fund, which is currently on the verge of insolvency. Make no mistake about it; a delay in recapitalizing the bank insurance fund will imperil the funds of depositors and our entire economy. It would not be responsible to vote against this bill and permit a return to the desperate economic times of our parents and grandparents.

This provides additional enforcement powers to bring foreign banks to comply with our regulations.

First, a provision I offered which I believe will limit the loss of the taxpayers which occurs when banks and savings and loans fail. In summary, this provision will permit any depository institution to combine with any savings association insurance fund member, and vice versa. This provision will encourage the use of private capital to acquire and merge financial institutions which may otherwise fail and end up costing the taxpayers a great deal of money.

The second provision which I strongly support will protect the retirement pensions of millions of Americans. The provision will continue the 25-year-old FDIC practice of providing pass through deposit insurance on a pro rata basis for pension plans. Again, this is good legislation since it will protect the pensions of millions of Americans at a time many of them are concerned about the safety of their deposits and investments in financial institutions. Stability of the banking system is also enhanced since, if deposit insurance for pension plans is discontinued, pension fund managers will probably move their pension fund deposits to financial institutions which they perceive as "too-big-to-fail". This movement of funds will undermine the stability of small banks. The amendment also provides fairness since so-called 401(k) plans—which are offered to management—will continue to receive pass through deposit insurance. It is only fair to also protect the retirement pensions of hard working Americans of all incomes.

Again, I want to commend Chairman GONZALEZ for his leadership regarding this legislation. I urge all Members to support the conference report.

Mr. WYLIE. Mr. Speaker, I yield myself such time as I may consume.

I would just say that I think the chairman and I have reason to be very proud of the product which came out of the conference last night, and I urge adoption of the conference report.

Mr. GONZALEZ. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. SCHUMER].

Mr. SCHUMER. Mr. Speaker, first let me compliment the gentleman from Texas, Chairman GONZALEZ, and the gentleman from Ohio, [Mr. WYLIE], for their persistence in getting to this point. Obviously this is not a day for

great celebration. We all tried to pass bills or we all believed there was a need for real reform, dramatic and sweeping reform. We could not agree on what that reform was.

I say to the reform-minded Members, our day will come. There will be real reform. The banking system is sick and demands it. But this bill, given the fact that we could not have reform, is the best that could have been done. Anyone who feels it does not have much reform is sadly mistaken. The higher capital standards, the early intervention, the too-big-to-fail, those are three significant changes in the way the banking system will work.

In my judgment, the system will still stay sick. These are measures that deal with the sickness after the disease. But they do not cure it. They do not remove it. They do not remove it. We have to deal with the inextricable relationship between insured deposits and what banks can do with them to cure the disease.

But if one is sick, and this system is, and we could not come up with a cure, then having this kind of medicine is the best and right way to go. And this demands, I think, that we pass it.

It is a comprehensive bill within those confines. As I said, the three reforms, major reforms in there, are very important. We should pass them.

Once again, I want to say, it took a lot of persistence and hard work on the part of the chairman and on the part of the ranking minority member and the members of the committee to come up with this package. It is a package no one has to hang their head low about. We will come back next year and we will try again to cure the patient, the banking system, of the awful disease that it has.

Mr. GONZALEZ. Mr. Speaker, I yield 1 minute to the gentleman from New York [Mr. FLAKE], a member of the committee.

Mr. FLAKE. Mr. Speaker, certainly it is a good day for those of us who have shared, as a part of the Committee on Banking, Finance and Urban Affairs, as we are able to commend both our chairman, the gentleman from Texas [Mr. GONZALEZ] and the ranking minority member, the gentleman from Ohio [Mr. WYLIE]. They have been very fair in allowing us to put up our amendments before them and allowing the committee to make its decision.

Two particular areas that I am very pleased with are still in the bill; one of them—the gentleman from Pennsylvania [Mr. RIDGE] and I sponsored an amendment for green-lighting, which is our tempt to try to deal with the problem of "red-lighting" by many of our banks, which allows us to be able to create community development banks so that those communities where there is a need to create housing, it might be able to be done.

I think that this is worthwhile. I think it is a fair and just means of trying to solve that problem.

Second, the Freedom National Bank issue. We have been fighting ever since the closing of Freedom, asking for fairness and justice as it relates to the Freedom Bank issue.

It is now in the bill. We are thankful to the chairman for fighting to keep it there, and we are grateful for the opportunity to be able to stand today to commend them and to say that this is a bill that everybody in the House ought to support.

The Committee on Banking, Finance and Urban Affairs has worked hard on it, and it needs to pass this House.

Mr. WYLIE. Mr. Speaker, I yield such time as he may consume to the gentleman from Michigan [Mr. HENRY].

Mr. HENRY. Mr. Speaker, I rise in opposition to the legislation.

Mr. Speaker, I regret that I cannot support the measure before us. While we all recognize the urgent need to recapitalize the FDIC, the problem with this legislation is that it treats the symptoms of a weakened banking system rather than treating the root causes.

As Secretary Brady has indicated, simply putting funds into the FDIC without also strengthening the competitive position of the banking industry only invites the need for future appropriations. The record will show that I supported many of the reforms which insured better capitalization by the banks. It will also show, however, that I have been consistent in my belief that the administration was correct in insisting that broadened banking powers are essential to addressing the root problems of the banking industry.

Regrettably, the achievements taken by the Senate in this direction were undone by the House in its consideration of the banking legislation. And it is unfortunate that during the conference process, the Senate repudiated its former position. Hence, we are left with a bailout for the FDIC—but without meaningful reform which will allow banks to become profitable. Given that fact, I cannot support the current legislation.

Mr. GONZALEZ. Mr. Speaker, for the purpose of a colloquy, I yield 2 minutes to the gentleman from Rhode Island [Mr. REED].

Mr. REED. Mr. Chairman, in section 451 of H.R. 3768, the Federal Deposit Insurance Corporation Improvements Act, referring to Rhode Island, references are made to investment grade ratings.

I understand that the highest grade rating means AAA; one less than the highest grade rating means AA; and two less than the highest grade rating means A.

Is my understanding correct?

Mr. GONZALEZ. Mr. Speaker, if the gentleman will yield; yes, it is.

Mr. REED. Mr. Speaker, I would also at this time like personally to commend the gentleman from Texas [Mr. GONZALEZ] for his extraordinary help to my home State of Rhode Island, and the gentleman from Ohio [Mr. WYLIE],

the ranking minority leader, for his help, particularly the gentleman from Kentucky [Mr. HUBBARD] and the gentleman from Massachusetts [Mr. FRANKS] and the gentleman from Wisconsin [Mr. KLECZKA], who also helped us immensely.

With this help, with this loan guarantee, I hope we can help the people of Rhode Island. With this bill I hope we can help the people throughout the United States to avoid the crisis that we have faced in Rhode Island.

I close again by commending the gentleman from Texas, Chairman GONZALEZ, for his extraordinary help.

Mr. DINGELL. Mr. Speaker, I commend the gentleman from Texas [Mr. GONZALEZ] the chairman of the Committee on Banking, Finance and Urban Affairs for the conference report on the banking bill (S. 543). That conference report includes a compromise worked out between the chairman and ranking member of the Senate Banking Committee and the House Energy and Commerce Committee to reverse the retroactive application of the Supreme Court's decision in *Lampf versus Gilbertson*. This provision is urgently needed to avoid dismissal of securities fraud cases that were timely filed prior to the Court's decision. It is our intent that "any private civil action implied under section 10(b) of the Act that was commenced on or before June 19, 1991 (1) which was dismissed as time barred subsequent to June 19, 1991, and (2) which would have been timely filed under the limitation period provided by the laws applicable in the jurisdiction, including principles of retroactivity, as such laws existed on June 19, 1991" shall have their clear meaning and shall not be interpreted to exclude any private civil action falling squarely within the plain meaning of the words of this statute.

This provision is critically important because *Lampf* has resulted in the dismissal of many private rule 10b-5 actions against figures in major financial scandals, including Charles Keating, Michael Milken, and others. Those cases can now be reinstated on motion by the plaintiff not later than 60 days after the date of enactment of this section.

I would also note that the conference report includes in title IV amendments reported by the Committee on Energy and Commerce with respect to payment system risk reduction and netting contracts (see H. Rept. 102-157, part 4). The definition of the term "broker or dealer" in section 402 in the conference report includes language worked out between the Senate Banking Committee and the Committee on Energy and Commerce to include "to the extent consistent with this title, as determined by the Board of Governors of the Federal Reserve System, any company that is an affiliate of a company described in subparagraph (A) that is engaged in the business of entering into netting contracts." It is our intent that the term "affiliate" shall have the meaning as determined by section 3(a)(19) of the Securities Exchange Act of 1934 and sections 2(a)(2) and 2(a)(3) of the Investment Company Act of 1940, and that the Federal Reserve Board shall exercise this authority to include these entities in order to reduce the credit exposure of these entities and thus to reduce systemic

risk. It is our belief that this is consistent with this title. I commend the conferees for including this important provision.

I urge my colleagues to vote "aye" on the conference report.

CONGRESS OF THE UNITED STATES,

Washington, DC, November 25, 1991.

HON. THOMAS S. FOLEY,

*The Speaker, U.S. House of Representatives, Washington, DC.*

DEAR MR. SPEAKER: As you know, the House-Senate conference on S. 543, the Comprehensive Deposit Insurance Reform and Taxpayer Protection Act, is under way to discuss the issues primarily within the jurisdiction of the respective Banking Committees. As was discussed on Friday, November 22, Members and staff of the Senate Committee on Banking, Housing, and Urban Affairs have been meeting with Members and staffs of other House Committees to resolve issues contained in the Senate bill that are outside the jurisdiction of the House Committee on Banking, Finance and Urban Affairs. We are pleased to report that agreement has been reached between the Chairman and Ranking Member of the Senate Banking Committee and the House Energy and Commerce Committee<sup>1</sup> on a provision to return the law regarding the statute of limitations for securities fraud cases that were pending on June 19, 1991 to that which applied in the jurisdiction on that date. This has the effect of reversing the retroactive application of the Supreme Court's decision in *Lampf versus Gilbertson*. This provision is urgently needed to avoid dismissal of securities fraud cases that were timely filed prior to the Court's decision.

In light of the agreement between the bipartisan leadership of the two committees of jurisdiction, we respectfully request that you appoint Members of the House Committee on Energy and Commerce (Messrs. Dingell, Markey, and Lent) as conferees to the

<sup>1</sup> Messrs. Markey, Dingell, Wyden and Harris, the sponsors of companion House legislation (H.R. 3185) have approved the compromise language, as have Messrs. Lent and Rinaldo.

banking conference for the purpose of including this provision in the Conference Report.

Sincerely,

Donald W. Riegle, Jr., Chairman, Committee on Banking, Housing and Urban Affairs, U.S. Senate.

John D. Dingell, Chairman, Committee on Energy and Commerce, U.S. House of Representatives.

U.S. HOUSE OF REPRESENTATIVES,  
COMMITTEE ON ENERGY AND COMMERCE,  
Washington, DC, November 26, 1991.

HON. HENRY B. GONZALEZ,  
*Chairman, Committee on Banking, Finance and Urban Affairs Washington, DC.*

DEAR HENRY: I am writing to you in your capacity as Chairman of the House conferees on S. 543, the Comprehensive Deposit Insurance Reform and Taxpayer Protection Act, to advise you that this Committee has resolved its differences with the Senate Banking Committee on Section 1126 (Limitation on Securities Private Rights of Action). Consistent with the procedures outlined by the Speaker, we are writing to the Speaker to request appointment of Energy and Commerce conferees solely for the purpose of including this provision in the Conference Report.

On June 21, 1991, in a landmark 5-4 decision that alters the settled law of nine Circuits, the Supreme Court selected Section 9(e) of the 1934 Act (15 U.S.C. sec. 781(e)) as the statute of limitations for private actions under Rule 10b-5 of the 1934 Act: one year from discovery, but in no event more than three years from the underlying violation. *Lampf, Pleva, Lipkind, Prupis & Petigrow v. Gilbertson*, No. 90-333 (U.S. June 20, 1991). Although the decision altered the law of the Circuit from which the case originated, the Court applied the new limitations period and dismissed respondents' claims as time-barred.

Moreover, in *James B. Beam Distilling Co. versus Georgia*, No. 89-689 (U.S. June 21, 1991), the Supreme Court changed the rules on retroactive application of civil decisions. This ruling portends full retroactive application of the new, shortened limitations period for private Rule 10b-5 actions established in *Lampf, Pleva*. In *Beam*, the Court ruled that where—as in *Lampf, Pleva*—the case announcing a new rule of federal law has applied that new rule to the litigants in the case, it is error for other courts to refuse to apply the rule retroactively. Thus, the *Beam* decision has resulted in dismissal of many currently pending private Rule 10b-5 actions against Charles Keating, Michael Milken and other figures in major financial scandals. According to a survey by our Telecommunications and Finance Subcommittee, suits totaling \$652 million have been thrown out as a result of the Court's ruling. Motions to dismiss an additional \$4.55 billion of suits are pending, and motions to dismiss a further \$1.21 billion of suits are expected. As Arthur R. Miller, Bruce Bromley Professor of Law, Harvard University Law School, testified before the Subcommittee:

As a result, a number of lower courts have dismissed as untimely many important securities cases that victims originally filed in a timely fashion and thereafter prosecuted for long periods of time and at great expense. In some instances, the *Lampf* decision threatens verdicts already rendered. This completely unfair result undermines the reliance of parties on precedent and significantly undermines the principle of *stare decisis*.

The compromise to be included in the Conference Report is urgently needed to allow timely filed cases to be reinstated and to

avoid dismissal of further securities fraud cases that were timely filed prior to the Court's decision. In light of your Committee's extensive hearings on Charles Keating and the circumstances surrounding the failure of Lincoln Savings and Loan, we hope that you will support this result.

Sincerely,

JOHN D. DINGELL,  
Chairman.

PUBLIC CITIZEN,  
November 22, 1991.

Hon. JOHN DINGELL,  
Chairman, Committee on Energy and Commerce,  
U.S. House of Representatives, Washington,  
DC.

DEAR MR. CHAIRMAN: We would like to commend you for co-sponsoring H.R. 3185, the Securities Investors Legal Rights Act of 1991, which would restore vital protections to consumers and investors that were taken away by the recent Supreme Court decision of *Lampf v. Gilbertson*. This proposal is critically important because it would establish a reasonable statute of limitations for securities fraud cases, while restoring lawsuits that were brought in reliance on the law as it stood prior to *Lampf*.

As you may know, the Senate Banking Committee added a similar proposal to banking legislation earlier this year. In a compromise made during floor consideration of the measure this week, the *Lampf* proposal was modified so that, while it continues to protect lawsuits pending when *Lampf* was decided, it does not change the statute of limitations for future cases. While we are disappointed that the proposal was weakened in this way, we strongly support the compromise to protect fraud victims who relied on pre-*Lampf* rules in bringing their lawsuits.

We are writing to urge you to accept the Senate compromise when the House and Senate banking bills are reconciled. We believe that it is critical to pass the retroactive piece of the *Lampf* legislation before it is too late to protect pending or recently dismissed lawsuits. We would like to work with you next year to enact the rest of the proposal, so that the securities laws can once again afford fraud victims a meaningful remedy against those who conceal their fraudulent activities.

Thank you again for your leadership in the fight against (in Al Capone's phrase) the legitimate rackets.

Sincerely,

MICHAEL WALDMAN,  
Director, Congress Watch.  
PAMELA GILBERT,  
Legislative Director, Congress Watch.  
LEGISLATIVE ALERT,  
November 25, 1991.

Hon. EDWARD J. MARKEY,  
Chairman, Subcommittee on Telecommunications and Finance, House Committee on Energy and Commerce, Washington, DC.

DEAR MR. CHAIRMAN: On behalf of the millions of workers and retirees whose retirement savings are invested by pension plans, the AFL-CIO supports H.R. 3185, the Securities Investors Legal Rights Act of 1991.

H.R. 3185 is needed to reverse *Lampf v. Gilbertson*, a recent Supreme Court ruling which could destroy claims by thousands of defrauded investors who had been pursuing their rights in court in a timely manner. The Court's 5-4 decision held that private actions pursuant to Section 10(b) and Rule 10b-5 of the Securities Exchange Act of 1934 must be brought within one year after the injured party discovers the fraud and no later than

three years after the fraud has occurred. The majority disregarded years of lower court precedent and applied its new rule retroactively to all cases currently pending in federal courts nationwide.

The *Lampf* decision ignores the reality of financial fraud which is by its very nature complex, difficult to detect, and often perpetrated against the most vulnerable in society. Because of *Lampf*, victims of some of the worst financial scandals in recent history will be unable to recover their losses, a result particularly harmful for senior citizens dependent on pension and other retirement investment income. A shortened limitations period protects the most stealthy and sophisticated criminals, while punishing pension funds and other innocent investors. As Justice Kennedy wrote in his dissent to *Lampf*, the majority simply tips the scale too far in favor of wrongdoers.

Here is a sampling of just a few of the financial manipulators who will not need to compensate their victims because of the legal loophole created by *Lampf*:

Executive Life Insurance CEO Fred Carr and assorted securities firms that are the subject of eight consolidated fraud cases filed between April and December 1990 have already sought to have their cases dismissed under the new, shorter limitations period. Meanwhile, thousands of workers and retirees lost significant portions of their meager monthly pension checks because of that long concealed scandal.

In *Anixter v. Home-Stake Production Co.* the Tenth Circuit Court of Appeals recently dismissed a \$310 million jury verdict against the perpetrators of one of the most widely publicized financial scandals of the 1970s. In that case thousands of investors were swindled by a Ponzi scheme, a sophisticated fraud that can maintain the illusion of a profit-making enterprise for many years. The Court cited *Lampf* and noted the draconian nature of the result in its opinion.

The Kansas Professional Employees Retirement System recently discovered that it was the victim of a complex fraud that occurred over 3 years ago. That pension fund's beneficiaries will suffer a multi-million-dollar loss if the *Lampf* decision stands.

We agree with S.E.C. Chairman Richard Breeden that private fraud suits are an essential element in enforcing federal securities laws since the S.E.C. does not have adequate resources to detect and prosecute all violations of the federal securities laws. Because Rule 10b-5 violations inherently involve fraud and concealment, the removal of a meaningful opportunity for private action by security holders is an invitation to abuse.

The purposes of the securities laws—to deter fraud and to preserve investor confidence in the market—are well served by this remedial legislation. We therefore support and urge swift Congressional approval of H.R. 3185.

Sincerely,

ROBERT M. MCGLOTTEN,  
Director, Department of Legislation.

Mr. BACCHUS. Mr. Speaker, I voted against S. 543 today because I am very concerned that this legislation opens the back door of the Treasury wide open to a taxpayer bailout of commercial banks that could rival the scandalous bailout of the savings and loans.

S. 543 recapitalizes the Bank Insurance Fund through a loan from the taxpayers that is supposed to be repaid from across-the-board increases in bank premiums. FDIC Chairman William Seidman recently stated that the banking industry could not sustain the increase in

premiums needed to repay the loan. Significantly higher premiums would undoubtedly cause more bank failures, with the taxpayers footing the bill. And under the financing scheme included in S. 543, the only alternative to higher premiums would also be to have the taxpayers foot the bill. I would have preferred to have the most profitable banks, with the most capital, loan the needed money to the BIF, as they offered to do. We should go to the taxpayers as a last resort, not a first resort.

Mr. MACHTLEY. Mr. Speaker, it has now been almost a year since the closure of Rhode Island's credit unions. Thirteen institutions remain closed, over \$1 billion remains frozen, nearly 20 percent of Rhode Island's citizens remain without their money.

Since that day in Rhode Island's history, times have gotten worse. Rhode Island's unemployment has skyrocketed to 9.8 percent. Our State deficit is among the highest in the Nation. To put it simply, We are in a depressed recession.

Travelling through my district, I have personally heard and received thousands of letters and calls since the crisis occurred from helpless citizens who have their life's savings frozen in the closed credit unions.

I constantly hear about the deep economic difficulties this crisis is causing in my State. My constituents want to know how do they pay for the basic necessities? Their rent? Their mortgages? Their children's education? Their medical bills? Their groceries? How can they go on if all of their money is tied up in institutions whose doors have not opened for a year?

Over the past 11 months, members of Rhode Island's congressional delegation have been working hard to create a Federal response which will not cost the American taxpayer one penny. With the strong support of Chairman Gonzalez, the conference report to H.R. 3768 includes a \$180 million Federal loan guarantee for Rhode Island.

This provision, which has passed in the House in every prior banking reform bill, has been scored as budget neutral by the Congressional Budget Office. This provision to the conference report allows Rhode Island to borrow money for the sole purpose of repaying depositors whose accounts were frozen as a result of the insolvency of their private insurer.

I strongly support adoption of the conference report and urge other members to support it as well.

Mr. MARKEY. Mr. Speaker, I rise in support of S. 543, and seek to focus my remarks in particular upon Section 476, which is a compromise version of H.R. 3185, the Securities Investors Legal Rights Act of 1991, which I introduced earlier this year with Chairman DINGELL, and Messrs. WYDEN and HARRIS. The adopted compromise rights at least the most egregious wrong of last summer's Supreme Court decisions, *Lampf* versus *Gilbertson*. This section would reverse the Court's retroactive application of that decision to dozens of cases across the country brought in the Federal courts by defrauded investors.

For the last 4 years, I have worked with my colleagues at the Telecommunications and Finance Subcommittee to expand the rights of

small investors and the sanction authority of the Securities and Exchange Commission in confronting securities fraud, through legislation on insider trading, stock market reform, enforcement remedies and penny stock reform among others. Yet with one stroke of the pen last spring, the Supreme Court of the United States plunged a sword directly at the heart of victims of securities fraud. In that one action, the case of *Lampf versus Gilbertson*, the Supreme Court signed over a multibillion dollar check to Michael Milken, Charles Keating, and a coalition of special interests which produced the financial wreckage of the 1980's. And threatened as well the recovery of billions of taxpayer dollars in S&L and bank failures attributable to securities fraud.

On November 21, 1991, I released a compilation of the effects to date of the Supreme Court's ill-considered decision to impose a severely restricted statute of limitations on securities fraud actions. As of today, over \$650 million of securities fraud claims have been dismissed in suits brought all over the country long before the Supreme Court's decision. More shockingly, over \$4 billion of fraud claims, including those against Milken, Keating, and Fred Carr, are threatened with pending dismissal motions solely as a result of *Lampf*, and that decision's retroactive application to every securities fraud case pending as of last summer.

For over 50 years, victims of securities fraud could file civil law suits pursuant to Section 10 of the Securities Exchange Act of 1934 under time limitations generally determined by appropriate State statutes, many with generous statutes of limitation. The *Lampf* decision reversed this long-standing practice. The Court ruled that any litigation instituted pursuant to section 10(b) of the Securities Exchange Act of 1934 and rule 10b-5 must be initiated within 3 years after the violation has occurred and within 1 year after discovery of the facts constituting that violation. Even more importantly, the Court applied its decision retroactively, denying thousands of victims whose cases are currently pending their rightful day in court.

In handing down its decision, the Court rejected the argument made by the Securities and Exchange Commission, among others, that it should have applied the explicit 5-year statute of limitations contained in the Insider Trader and Securities Fraud Enforcement Act, a piece of legislation I coauthored with Energy and Commerce Committee Chairman DINGELL and subcommittee ranking Republican member RINALDO in 1988. This 5-year limitation established an appropriate time frame for investors to uncover any wrongdoing while at the same time not punishing investors who may not discover the crime until a few years later.

The language of Section 476 unambiguously reverses the *Lampf* ruling's application of the 1-year and 3-year statute of limitations period to thousands of cases which were filed prior to June 19, 1991, and which were pending as of that date. Furthermore, it permits the reinstatement of any suit which may have been dismissed post-*Lampf* as a result of the *Lampf* decision.

As the statute specifically states, its application is to "any private civil action implied under section 10(b)" of the Securities and Exchange Act of 1934 "that was commenced on or be-

fore June 19, 1991." For all of those cases, without exception, the applicable limitation period is that "provided by the laws applicable in the jurisdiction, including principles of retroactivity, as such laws existed on June 19, 1991." Thus, this language would apply directly to the case and parties of *Lampf versus Gilbertson* itself, insofar as that case was a "private civil action implied under section 10(b)" and was "commenced on or before June 19, 1991."

The 1980's left us a legacy of financial fraud unparalleled in its size and scope. From the crime factories run out of savings and loans to the chicanery in the junk bond market to consumer rip-offs in limited partnership rollups, we are only now beginning to sort through the financial damage done in that decade. The language contained in this bill will directly reverse an egregious Supreme Court decision and will prevent the stripping away of legal rights of thousands of Americans. While I hope and fully expect to address the broader concerns of H.R. 3185 early next year, at this time I urge the adoption of this compromise language to alleviate the immediate injustice posed by *Lampf*.

Mr. LEHMAN of California. Mr. Speaker, perhaps the most visible change to average bank customers in this comprehensive banking bill will result from provisions requiring banks and savings institutions to clearly and uniformly disclose the interest rate, fees, and terms of savings and checking accounts. In all of the protracted debate over interstate banking, deposit insurance reform, and insurance sales, it should not be overlooked that true bank reform is that which provides the consumer with the ability to make banks more competitive.

As the primary sponsor of truth-in-savings legislation through five Congresses, I have considerable interest in seeing this measure enacted. As you may be aware, truth-in-savings has been approved unanimously by the House since the 99th Congress. Final passage of the bill has been delayed over the years after being caught up in the ongoing struggle to enact broader banking reform. It seems appropriate that enactment of truth-in-savings legislation coincides with the culmination of this effort.

The truth-in-savings provision which I have shepherded through Congress will give consumers the necessary tools to comparison shop in what has become an increasingly confusing and complex financial services marketplace. The delay in enacting this legislation has only heightened the need for it. As the banking markets become more sophisticated and as new and innovative products and services are offered, the consumer's confusion continues to grow over where to invest, how yields are calculated, what fees will be incurred, and how minimum balances affect their interest. Simple and understandable disclosure of terms, fees, conditions, and yields will go far to improving customer awareness.

Passage of truth-in-savings reform is long overdue and I applaud its inclusion in this measure. Bank reform which serves the customer's interest is the most important bank reform of all.

Mr. GONZALEZ. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore [Mr. HOYER]. Without objection, the previous question is ordered on the conference report.

There was no objection.

The conference report was agreed to. A motion to reconsider was laid on the table.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore [Mr. HOYER]. The Chair would simply advise the Members that the leadership is trying to work out some procedures with respect to legislation to be considered. That is the reason for the discussions that are ongoing. As soon as agreement is reached, the House will move forward.

#### ELEVATING EPA TO CABINET LEVEL

(Mr. BOEHLERT asked and was given permission to address the House for 1 minute.)

Mr. BOEHLERT. Mr. Speaker, while we are waiting, I wonder if I might ask a question of the Chair.

The SPEAKER pro tempore. The Chair has not seen the bill on the calendar yet, just anticipating the gentleman's question.

Mr. BOEHLERT. Mr. Speaker, would the Chair like to borrow my glasses, because all of us would like to see on the calendar that bill which would elevate the Environmental Protection Agency to Cabinet level status, and we are quite concerned, Mr. Speaker, that it is unnecessarily being delayed.

The American people are being denied something that is very important that they want. Our colleagues in the House on a bipartisan basis are being denied something we very much want. Every single environmental group in the country is being denied something that they very much want. The Administration is being denied something that it has worked assiduously on for the past year with Democrats and Republicans.

Can we not, Mr. Speaker, have some hope that this will be on the agenda sometime before we take leave of this fine institution?

The SPEAKER pro tempore. Frankly, the Chair would advise the gentleman from New York that the only information the Chair can pass along to the gentleman is that it is not currently on the agenda that the Chair has before it.

Mr. BOEHLERT. I wonder, Mr. Speaker, if we might have a personal colloquy to discuss how we might get it on the agenda?

The SPEAKER pro tempore. The Chair has answered to the extent of the Chair's knowledge.

The Chair thanks the gentleman for his inquiry.

Mr. BOEHLERT. I am in good humor, Mr. Speaker, despite the fact that we first appeared here about 24 hours ago to call attention to this shortcoming of this session.

I am ever hopeful, ever optimistic, and I thank the Chair.

The SPEAKER pro tempore. It is a good attitude to have.

#### APPOINTMENT OF MEMBER TO BRITISH-AMERICAN INTERPARLIAMENTARY GROUP

The SPEAKER pursuant to the provisions of section 168(b) of Public Law 102-138, the Chair appoints the following Member to the British-American Interparliamentary Group on the part of the House: Mr. HAMILTON, Indiana, chairman.

□ 1140

The SPEAKER pro tempore (Mr. HOYER). Again the Chair would call to the attention of the Members and others who may be interested that the House is waiting for an agreement. In these last hours of the session, the leadership is trying to move a few bills. There are some agreements that have to be reached before they get to the floor.

#### TAXPAYER BILL OF RIGHTS ACT OF 1991

(Mr. PICKLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PICKLE. Mr. Speaker, last week, I was joined by a number of my colleagues in introducing H.R. 3838, the Taxpayer Bill of Rights Act of 1991. This important legislation is a well-balanced and responsible package of reform measures that will provide taxpayers with long-needed and significant protections in their dealings with the IRS.

H.R. 3838 is a bipartisan effort and was introduced with the unanimous support of the Ways and Means Subcommittee on Oversight. The bill contains 33 provisions, and almost 80 recommendations, addressing inequities or problems that taxpayers experience in dealing with the IRS.

H.R. 3838 was developed after the Subcommittee on Oversight conducted an extensive investigation into the problems that taxpayers frequently encounter with the IRS. Many of these problems were brought to the subcommittee's attention by Members of this body who had heard of the difficulties from their constituents. Further, to develop this bill, the subcommittee

held a series of hearings and visited IRS processing and taxpayer service offices around the country to review their operations, practices, and procedures. We considered numerous recommendations for improving the tax system which were made by individual taxpayers, tax professionals, and IRS employees.

H.R. 3838 is a good, pro-taxpayer reform package. With regard to certain issues, I recognize that this is an ongoing process, and therefore, intend to continue working with the IRS, Treasury, and others to fine-tune and improve the legislation. I urge you to join with me and my colleagues on the Committee in supporting the Taxpayer Bill of Rights Act of 1991.

Mr. BOEHLERT. Mr. Speaker, will the gentleman yield?

Mr. PICKLE. I yield to the gentleman from New York.

Mr. BOEHLERT. I thank the gentleman for yielding.

Mr. Speaker, H.R. 3838, the Taxpayer Bill of Rights Act of 1991, I have had the opportunity to see the Dear Colleague letter of the gentleman from Texas, and I think it is a very fine piece of legislation and will be glad to support it.

Mr. Speaker, I wonder if the gentleman from Texas might join in supporting legislation that I am planning to introduce later today. It is called the Environmentalists Bill of Rights. It will give to the environmentalists and all those people across America, and our Republican and Democratic colleagues in this House, what they want and very much deserve, and that is cabinet-level status for the Environmental Protection Agency.

I think, as my colleague from Texas knows, the United States is the only developed Nation in the industrialized world that does not have cabinet or ministerial level for its top environmentalists in the Government. That is something I would like to correct.

I am sure my colleague would like to help in that.

Mr. PICKLE. I would be delighted to have a copy of the gentleman's bill and to join his name to the measure that we have introduced.

Mr. BOEHLERT. I thank the gentleman.

#### THE ADMINISTRATION, NOT CONGRESS, IS TO BLAME FOR THE DELAY IN FUNDING RTC

(Mr. ANNUNZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. ANNUNZIO. Mr. Speaker, last week I received a letter from Peter H. Monroe, President of the Oversight Board of the Resolution Trust Corporation. In part, Mr. Monroe says that congressional delay in providing funds costs taxpayers \$4 million for every day that funding is delayed.

I suggest that Mr. Monroe does not have his facts straight. It is the administration, not Congress, that has delayed RTC funding.

On May 28, I wrote to Secretary of the Treasury Brady asking him to send an RTC bill to the Congress immediately to avoid any last minute delays.

The administration did not send a bill to Congress for 129 days, and in fact, it was only after the gentleman from New Jersey [Mrs. ROUKEMA] introduced her own bill, that the administration finally sent up its bill. Using the administration's own figures, the 129-day delay means that the administration's unwillingness to forward a request to Congress amounts to a \$516 million cost to the American people.

The RTC may not be good at placing blame, but it does know how to spend money. Only Imelda Marcos in a shoe store can spend money faster than the RTC.

#### THE RIGHT OF EVERY AMERICAN: COMPREHENSIVE HEALTH CARE

(Ms. OAKAR asked and was given permission to address the House for 1 minute.)

Ms. OAKAR. Mr. Speaker, I hope when we return that we will address what I consider to be a crisis in our country, and that is that we have 37 million Americans who have no access to health care, and we have another 40 million who are underinsured, and 8 million who are in need of long-term care; that is, home care and nursing home care. In our country one must be dirt poor to be able to get quality nursing home care, and it demeans families who have children with chronic diseases, and it demeans elderly who have saved all their lives for their golden years and all of a sudden find themselves in a predicament to get the kind of care they need.

Mr. Speaker, I think we can do it cheaper and with higher quality than the average American has today, even if one has insurance. We spend \$750 billion in this country on health care. We spend 12.5 percent of our GNP. Canada spends about 8.5 percent; France, and England, and Italy, and Australia, about 8 percent of their GNP, and yet we have all of these American people, most of whom are from working families, who have no access to health care.

Mr. Speaker, I have a bill that will do just that, H.R. 8. I think we can have a high standard of coverage with acute care, with preventative care, wellness programs for children, immunization, mammography, prostate screening for men, and all the other important early detection and preventative health care needs, and more dollars for research so that we find cures to diseases. We include long-term care with homemaker

services and home services, and it costs about five-sevenths of what the American people pay today, so we can do it better in this country.

We should have, as every American's right, access to comprehensive, high-level health care. We are the only industrialized country, besides South Africa, that does not guarantee that right.

So, my colleagues, let us commit ourselves to listening to the American people. I do not think we are listening the way we should, and I certainly do not think the President has health care on his agenda. So, let us commit ourselves to what I think is a right of every American, comprehensive health care.

**REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 3435, RESOLUTION TRUST CORPORATION REFINANCING, RESTRUCTURING, AND IMPROVEMENT ACT OF 1991**

Mr. DERRICK, from the Committee on Rules, submitted a privileged report (Rept. No. 102-408) on the resolution (H. Res. 320) providing for the consideration of the bill (H.R. 3435) to provide funding for the resolution of failed savings associations and working capital for the Resolution Trust Corporation, to restructure the Oversight Board and the Resolution Trust Corporation, and for other purposes, which was referred to the House Calendar and ordered to be printed.

**RESOLUTION TRUST CORPORATION REFINANCING, RESTRUCTURING, AND IMPROVEMENT ACT OF 1991**

Mr. DERRICK. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 320 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

**H. RES. 320**

*Resolved*, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 3435) to provide funding for the resolution of failed savings associations and working capital for the Resolution Trust Corporation, to restructure the Oversight Board and the Resolution Trust Corporation, and for other purposes. All points of order against consideration of the bill are hereby waived. Immediately after dispensing with the first reading, the bill shall be considered for amendment. No amendment to the bill shall be in order except: (1) the amendment in the nature of a substitute recommended by the Committee on Banking, Finance and Urban Affairs now printed in the bill; and (2) the amendment in the nature of a substitute printed in the report of the Committee on Rules accompanying this resolution. Each amendment shall be considered as having been read and each shall be debatable for not

to exceed thirty minutes, equally divided and controlled by the proponent and a Member opposed thereto. Neither amendment shall be subject to amendment, and all points of order against the amendments are hereby waived. If both amendments are adopted, only the latter amendment which is adopted shall be considered as finally adopted and reported back to the House. At the conclusion of the consideration of the bill for amendment, the Committee shall rise and report the bill to the House, and the previous question shall be considered as ordered on the bill and amendment thereto to final passage without intervening motion except one motion to recommit, which may contain instructions if offered by Representative Michel of Illinois or his designee, or without instructions.

The SPEAKER pro tempore. The gentleman from South Carolina [Mr. DERRICK] is recognized for 1 hour.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from California [Mr. DREIER], and pending that, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 320 is the rule providing for the consideration of H.R. 3435, the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991. The rule provides no separate time for general debate. The rule makes in order only two amendments: First, the Banking Committee amendment in the nature of a substitute now printed in the bill, and second, the Barnard substitute now printed in the report to accompany the rule. Each substitute is debatable for 30 minutes.

The substitute amendments are considered under the king-of-the-hill procedure. Under this procedure, only the last amendment adopted is finally adopted and reported back to the House. The substitutes are not subject to amendment, and all points of order are waived against the amendments.

Finally, the rule provides one motion to recommit without instructions, or one motion to recommit with instructions if offered by Representative MICHEL.

Mr. Speaker, this is a vitally important bill. It provides the funding needed to continue the work of the Resolution Trust Corporation and to make some needed improvements in the structure and operations of the Corporation.

Mr. Speaker, this rule permits the House to complete its business quickly, and fairly. I urge adoption of the resolution.

Mr. DREIER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. speaker, given the controversial nature of the RTC funding bill and the time constraints we face, I believe this is an appropriate rule, and I will support it. The RTC has run out of funds to continue closing down as many as 400 insolvent institutions that remain open. Delaying this legislation will

only add to the costs to the U.S. taxpayer, as much as \$400 million by February.

In addition, the bill does not contain many of the objectionable provisions that worked to undermine the legislation reported out by the Committee on Banking, Finance and Urban Affairs on November 20. However it does include reforms to expedite the sale of assets of failed thrifts, which is very important. It also streamlines what many people have found is inefficient management at the Resolution Trust Corporation.

□ 1200

Mr. Speaker, I am deeply disappointed, however, that the rule does not make in order an important Republican amendment containing a package of economic growth incentives. That package would effectively reduce the cost of the savings-and-loan cleanup by addressing the economic problems that have contributed to thrift failures.

At the same time, it would help struggling families by lowering taxes, creating jobs, and expanding the economy. It acknowledges that the economic downturn is led by the real estate industry, and we are willing to provide the incentives to improve real estate values and lower the cost of the RTC's funding needs.

I am very heartened to know that the President will be working with us to submit a comprehensive economic growth package following his State of the Union Address. I believe, in light of the fact we have offered several Republican amendments in the Committee on Rules and failed in our effort to get those in, that we should proceed.

We have a number of requests for time. I will end up supporting this rule, Mr. Speaker.

Mr. Speaker, I reserve the balance of my time.

Mr. DERRICK. Mr. Speaker, I yield 2½ minutes to the gentleman from Illinois [Mr. ANNUNZIO].

Mr. ANNUNZIO. Mr. Speaker, during the debate on the RTC funding legislation, it will be alleged that congressional delay in passing the funding costs the taxpayers \$4 million for every day that the legislation is not passed. There are figures that are put forth by the Resolution Trust Corporation itself.

While I do not want to dispute what delay costs the American taxpayers, I strongly challenge the assertion that the delay in getting funding for the RTC is the fault of the Congress.

The delay in gaining RTC funding is squarely on the back of the administration. It was the administration that delayed RTC funding, not Congress, and once Congress started an RTC bill moving through the Banking Committee, it was the RTC that lobbied against most of the reform provisions that were attempted to be placed in the RTC funding bill. In short, the RTC wants to

money, but it does not want to do anything to make sure that the taxpayers are protected.

On May 28, I wrote to the Secretary of the Treasury in my capacity as chairman of the Financial Institutions Subcommittee, asking him not to delay in sending an RTC funding bill to the Congress. I pointed out that we could not wait until the last minute to deal with RTC because of the many needed reforms that had to be placed in the bill.

I promised the Secretary an immediate hearing on the legislation, but I had to wait 129 days before the administration sent up its funding request. In fact, the administration only sent up its funding request after the gentle lady from New Jersey submitted her own bill on RTC funding.

Apparently embarrassed that it had dropped the ball, the administration, shortly thereafter, sent up its own bill, but once again, 129 days after I had asked the Secretary of the Treasury to send a bill up immediately.

Mr. Speaker, if there was such urgency in the RTC funding, why did the administration wait nearly a quarter of a year before sending Congress a bill? Based on the RTC's own figures, the delay costs \$4 million a day. The administration's delay in sending a bill to Congress has cost the taxpayer \$516 million.

So if anybody wants to talk about delay during the debate let them talk about the administration's delay. Congress moved swiftly on an RTC bill after the administration delayed 129 days in sending it to the Congress. The administration must accept the blame for the delay, and it should not try to use Members of this House to shift the blame to the Congress where it does not belong.

Mr. DREIER of California. Mr. Speaker, I yield 5 minutes to the gentleman from Florida [Mr. MCCOLLUM], a hard-working member of the Committee on Banking, Finance and Urban Affairs, and the vice-chairman of the Republican conference.

Mr. MCCOLLUM. Mr. Speaker, I thank the gentleman for yielding me this time.

I rise today to urge my colleagues to defeat this rule, to vote down the previous question, so an appropriate rule can be made in order, because what happened in the Committee on Rules, and I think in the committee as a whole as well, is a real travesty for the American taxpayer.

We were not allowed to make in order amendments that would save, in my judgment and the judgment of many others, anywhere from \$25 to \$35 billion from the cost in the loss of the RTC in resolving thrifts in this country, and in addition to that, I believe, and in connection with that, we could have saved and may still be able to save as many as 70 or 80 institutions or

more that may otherwise be closed unnecessarily simply because they are not able to meet capital standards and simply because of supervisory goodwill.

Two amendments were offered before the Committee on Rules by the Republican leadership task force. One of them was a comprehensive substitute.

I want to say up front that this has nothing to do with the growth plan that you are going to hear discussed here in a minute that the Republicans authored. This is a comprehensive substitute that in and of itself, freestanding, could have saved these billions of dollars if we had had a chance to vote on it out here today, but we have not.

This particular comprehensive substitute would have brought back a substantial portion of supervisory goodwill that is on the books at many of these institutions today, and I want to explain that more in a minute. It would have given the Office of Thrift Supervision the discretion to save many more, because it would have allowed him some time to make up for capital that they do not have right now in their standards and delinked what is going to be an increase in the capital standards very shortly to much higher standards connected with banks here next year. It would have given the Office of Thrift Supervision the discretion to halt a lot of real estate sales that otherwise would have occurred.

It would have also provided three economic growth incentives in itself, a capital gains tax reduction, partial reinstatement of passive-loss rules for real estate, and penalty for use of IRA's for the purchase of primary residences.

The thing I want to focus on most of all was an independent freestanding amendment that I offered before the Committee on Rules that was held non-germane by the Democratic leadership both in the full committee and the Democratic leadership of the Committee on Rules that would, in my judgment, in one fell swoop have saved \$25 to \$35 billion. That concerns what is known as supervisory goodwill. That is what a lot of savings and loans took on the books in an agreement with the Home Loan Bank Board back in the decade of the 1980's, in return to take on some failing savings and loans.

These were healthy savings and loans we are talking about who took this on with the promise that they would have 40 years to pay it off. In 1989 we decided that that was not such a good idea. It probably was not. But instead of giving them a reasonable time to pay back that goodwill and pay it off and raise capital in other ways, we said you have got to get rid of that, or it cannot count towards capital over the next 5 years. We now have gotten rid of or closed through the RTC and the Thrift Supervision Office most of the really bad savings and loans. We now have quite a number of institutions out

there with about \$4 billion of this supervisory goodwill that are perfectly healthy, whose core earnings are good, who are in the black, under regular management, but we are about to close them.

We have no need to do that. We have no business to do that. For about \$2 billion we can buy back supervisory goodwill from about 70 of these institutions.

The studies of the folks that are doing this closing can tell us, and have told us, that these institutions have about \$180 billion in total assets. We also know that the closing costs to the RTC of closing these institutions is running now about 15 to 20 percent of total assets.

So it is very easy to see if we do not have to close those institutions you can save \$25 to \$35 billion, and the only cost is about \$2 billion.

It does not make sense. There is one savings and loan in my area of Florida recently that was closed at a cost that was estimated by the Office of Thrift Supervision to be \$170 million.

The cost of buying back supervisory goodwill from the otherwise healthy institution was running in the black on its core earnings would have been only \$50 million, a savings to the taxpayers.

We could have saved the taxpayers at least \$120 million in that one institution alone. That is an example of the folly of not buying back some supervisory goodwill when those are healthy institutions out there was only failing is the fact that they are not going to be able to meet the capital standards we enacted in 1989, simply because of these so-called supervisory goodwill that we contracted with them on that they took on at the request of the Government in the first place, a very egregious mistake.

I submit to my colleagues that it is a travesty for the Democratic leadership in the Committee on Rules not to allow us the opportunity today to save this kind of money.

We are being asked to vote for \$80 billion in recapitalization of the RTC in order to take care of it over the next few years, in order to close down all of this.

We may get some other substitutes for short-term funding. We are talking about billions and billions of dollars. We do not need to be spending that. We could be saving a good hunk of that. We do not need to be closing all of those institutions.

We are making a horrible mistake here today by not having that kind of opportunity to have those savings.

I encourage my colleagues to vote against the rule; vote down the previous question. Let us have another opportunity at that, and if none of that succeeds, for gosh sakes, vote against the folly of what is out here today, and vote against the final passage of these bills.

□ 1210

Mr. DERRICK. Mr. Speaker, I yield 1 minute to the gentleman from Texas [Mr. GONZALEZ], the chairman of the Committee on Banking, Finance and Urban Affairs.

Mr. GONZALEZ. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise merely to ask the nature of the rule. I have not had the chance to see the rule. My basic question is, what is the basic intent of the rule?

Mr. DERRICK. Mr. Speaker, will the gentleman yield?

Mr. GONZALEZ. I yield to the gentleman from South Carolina.

Mr. DERRICK. Mr. Speaker, the basic text is the Banking Committee text.

Mr. GONZALEZ. As it was approved by the Committee on Banking and Urban Affairs?

Mr. DERRICK. That is right. Then Barnard is a substitute, and it is a king of the hill rule. In other words, you will vote on the original text, then vote on the Barnard substitute, and then there is a motion to recommit with or without instructions to the gentleman from Illinois [Mr. MICHEL].

Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I rise in support of the rule. I want to thank the Committee on Rules for folding in an amendment that I offered which built upon an amendment that was offered in committee by the gentleman from Texas [Mr. GONZALEZ] and the gentleman from Ohio [Mr. WYLIE]. One of the reasons why I am convinced at times the American people do not support this agency and Congress as well is because of the lack of accountability. We hear of huge legal fees, the 7,000 people employed, the lack of computerized database, et cetera, and we wonder what are they really doing.

On the other hand, they have an awesome job to do. It is not easy to provide for this cleanup of the S&L crisis.

It seems very clear to me that the operations of the RTC have not been fully supported by the Congress or the American people. I believe this is because the Congress has not had sufficient information which allows us to carefully monitor and understand the many complex activities of the RTC. Specifically, we have not had the benefit of receiving regular quarterly and semiannual reports from the RTC regarding the progress of the sales of RTC assets, the progress made in auction sales of assets, the funding activities of the RTC, the use of seller financing to encourage sales of RTC assets, or the many other activities of this corporation. These are critical elements of the RTC's operations which need to be more closely monitored.

My amendment today expands upon the good work done by Chairman GONZALEZ. In addition, as an indication of

its bipartisan support, language very similar to my amendment was offered by Mr. WYLIE as part of a substitute amendment he offered during full committee consideration of the RTC bill.

The language of the amendment includes quarterly reports from the RTC to the Banking Committees of the House and Senate which describe the following:

First, the total value of sales of RTC assets during the quarter;

Second, the total book value of asset sales;

Third, estimated fair market value of assets;

Fourth, net RTC recovery on the assets sold;

Fifth, subtotals by category of assets (i.e., commercial real estate, residential real estate, performing loans, nonperforming loans, etc.);

Sixth, the progress made on auction sales of assets;

Seventh, the amount and effectiveness of RTC's seller financing program;

Eighth, Federal financing bank loans status and activities;

Ninth, activities of the RTC Board; and

Tenth, activities and plans of the RTC to eventually phase out its operations.

I firmly believe we need to receive more information which gives the Congress and the public a better understanding of the complex operations of the RTC. This is the only way we can monitor the activities and the progress of the RTC in its mission to dispose of hundreds of billions of dollars of assets or the implications of the many other activities of the RTC. This is common-sense legislation which will result in a better run RTC.

So I was very, very pleased that the Committee on Rules allowed an amendment that would allow for RTC to regularly report quarterly and semi-annually to the progress of the sales of RTC assets to Congress, the progress made in auction sales of their assets, the funding activities of RTC, the use of seller financing to encourage the sales of RTC assets by a Federal agency.

Although some will point out by delay it is a \$4 million a day additional cost to the taxpayers, perhaps that is not as great a concern as the fact that at this moment there are some 88 institutions which are now under RTC control representing 4½ million depositors around this Nation who are waiting on funding of the RTC to get their money back as a result of our inability to fund RTC activities.

The average size of those deposits is about \$9,700. They are not large depositors, but there are 4.5 million of them around the country.

Much will be said about the failure of the RTC to act responsibly. Of 670 seized institutions, 582 have been sold or closed. Of \$358 billion worth of assets under their control, over 60 percent, \$210 billion, have now been disposed of.

But the more important issue as to how we got into this mess in the first place, of 871 criminals charged, 661 convictions have been rendered.

During the first 6 months of 1991, for the first time since 1986, the thrift industry has shown a profit. Now is not the time to turn our back on the industry.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the distinguished gentleman from Georgia [Mr. BARNARD].

Mr. BARNARD. Mr. Speaker, this amendment is an attempt by myself, Mr. WYLIE, Mr. VENTO, Mr. MCCANDLESS, Mr. KLECZKA, and Mr. BAKER to provide an alternative for Members to consider on the floor. Given the very short time available to us to get a bill through the House and Senate, we have tried to develop an alternative whose major provisions are as close to the Senate language as possible with the exception of the RTC funding. The Senate bill provides \$80 billion while our alternative provides such sums as are necessary until April 15, with a cap of \$25 billion.

The RTC is a difficult vote for Members and this is our best judgment as to what Members of both parties can support on the floor. As you know, it is vital that we provide some funding for continued RTC operations, as costs rapidly escalate when insufficient funds are available to resolve institutions in receivership.

The amendment that we have crafted is designed to provide enough loss funding and working capital to carry the RTC through until at least the end of March. Hopefully we can reach a consensus on a longer term bill that will pass the floor by that time. As I just mentioned, we did not provide an absolute funding figure in the amendment, but instead provided a cutoff date of April 1 with a cap of \$25 billion.

There are 88 thrifts in the resolution process and the RTC should resolve as many of these as possible to staunch the hemorrhaging and lower the cost to the taxpayer. Rather than try and guess precisely how much funding the RTC would need April 1, we decided to provide "such sums as necessary." This is not a blank check for the RTC by any means since the language we chose does not permit the RTC to obligate itself past April 1, effectively making it a drop dead date. Additionally, there are substantial operational constraints that prevent the RTC from excessive spending. They can handle only a certain number of institutions at any given time. A rough estimate of how much they would spend would be in the area of \$20 billion.

In addition to the funding provisions, the amendment adopts the RTC restructuring provisions agreed to in the Senate which provide for a single board and which are a substantial improvement.

It retains the housing provisions of H.R. 3435 as adopted in the full committee. It retains the minority provisions adopted in the subcommittee print of H.R. 3435.

An alternative in this form would represent a good faith effort to acknowledge Congress's concern for the taxpayer and minorities as well as the need for affordable housing while getting on with the task at hand.

Thank you for considering my views and I hope that you will make this alternative in order.

Mr. DREIER of California. Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania [Mr. WALKER], our chief deputy whip.

Mr. WALKER. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, as we approach this rule, this will be our last chance to try to get an economic growth package in this particular session of Congress.

Let me talk about the parliamentary situation. By defeating the previous question to this rule, it would permit an amendment to be offered. That amendment would say within the rule that we would bring an economic growth package to the floor. That would give us a chance to debate that economic growth package.

Should we defeat the previous question, we would be recognized to offer such an amendment. We would be prepared to do that, and then we are also prepared to offer an economic growth package.

There has been some talk that no such package really exists. Here it is. It is 67 pages. It does in fact represent a significant attempt to get economic growth going in the country.

This is a bill where it makes sense to do it. The RTC would not need additional taxpayer funding in a growing economy. If you had a growing economy, the likelihood is that the recapitalization of real estate alone would ensure the solvency of RTC and we would not have to be here for large amounts of money.

This 67-page package that I talk about would save the taxpayers further bailout money and would put them back to work in those situations where they are unemployed. It would keep their jobs intact where they are working, but fearful of the future.

□ 1220

After all, that is what America really wants. It wants jobs and it wants confidence in our economic future.

We can start down the road toward that kind of situation today and we can do so by passing this package.

We are likely to hear in the course of the debate about this package that somehow it does not represent a middle-class package. I know that there is a table being circulated that was brought up on the floor yesterday indicating that a substantial portion of

this does not go to the middle-class. The fact is that they are only telling us part of the story.

First of all, only 2 of the 12 provisions in this package were analyzed in that study. Meaning that five-sixths of the package was not analyzed, much of which goes to the middle-class.

Let me give one example, eliminating the earnings test on social security was not analyzed. Yet that helps middle-income senior citizens to a great extent. It brings them down from a 70-percent tax bracket that many of them are in. And yet that is not analyzed as part of the Democrats' package.

It is also interesting to note that even the analysis that they had done indicates that people making between \$20,000 and \$30,000 a year, almost 55 percent of them are going to get capital gains tax breaks in this particular package; people making between \$30,000 and \$40,000 a year, 72 percent of them. That is middle-class America. And what it means is that we are not getting a real story about the nature of this package as it affects middle-income America.

I would ask that we defeat the previous question. Help us bring about an economic growth package by bringing it to the floor today, and I hope that we can effect passage of that package and get the economy growing again.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield two minutes and 30 seconds to the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, we have just heard another description of an economic growth package. It is the 11th hour, the 12th hour now of the legislative session. We see the construction of it in the 12th hour, of a 27- or 47-page bill that has been written in recent evenings and without hearings.

We are told that we ought to pass this bill in order to jump-start the American economy. Some of the bill has been analyzed. We understand that the engine of this bill is a classic approach to provide capital gains tax reductions.

The question is, who will receive those tax reductions? The answer is very simple. The folks that have capital gains. Who has capital gains? A lot of people have some. So a lot of people get a very small benefit. But a few people have a lot, and those few will get an enormous benefit. The fact is, no matter how you describe it, this is not new. This is not improved. This is classic tax policy proposed by our friends on the other side.

About 70 percent of the benefit will go to those folks whose incomes are above \$100,000 a year.

The fact is, anyone who seriously looks at this as a package is going to score it to say that this loses revenue. I know the Treasury Department has conveniently told them it does not, but

the CBO and joint tax and others say this is a loser. So the proposition we have before us is to say, let us increase the federal deficit in the 12th hour of the legislative session so they can offer the wealthiest of the country a tax break.

Is that the way to jump-start the American economy? It is not the way to put this American economy back on track to solve the real problems, and are not the real problems that we have too much debt? It is not a case that the rich are not rich enough. We do not have to offer them more largesse with deep tax cuts.

What we have to do, it seems to me, is propose an economic package that does the basics, restores the old virtues. Pay your bills. The best thing we could do for the American economy is decide as Democrats and Republicans that we are going to start paying our bills and reduce the deficit.

When we reduce the deficit, this ship of state will be back sailing on the seas to the road to economic health again. That is the way to improve the economy of this country.

Mr. RUSSO. Mr. Speaker, will the gentleman yield?

Mr. DORGAN of North Dakota. I yield to the gentleman from Illinois.

Mr. RUSSO. Mr. speaker, for those of us who have looked at the package, is it not a fact that 57 percent of the tax breaks go to people over \$200,000?

Mr. DORGAN of North Dakota. Mr. Speaker, yes. And 70 percent goes to those over \$100,000.

Mr. RUSSO. Mr. Speaker, if the gentleman will continue to yield, and for those people over \$200,000, they will get \$11,000 tax cut, and people under \$50,000 will get a whopping \$85.

Mr. DORGAN of North Dakota. Mr. Speaker, that is correct.

Yesterday, when I learned of this package, I called it the dollar and a quarter tax cut. A dollar and a quarter a week to the middle-income families so they save up for 5 or 6 weeks, maybe they chip together and send one person to a movie with this tax cut to middle-income families. Of course, they do not have enough left over for popcorn, just one movie ticket, 5 weeks of middle-class tax relief. The folks on the other end, \$11,000 a year tax cut to those whose incomes are over \$200,000 a year.

Listen, that is tired economic policy that has failed. That is not going to jump-start this economy. Let us come up with some new ideas that help middle-income families, give them something to work with.

They will be the engine for this American economy, to get this country moving again.

Mr. DREIER of California. Mr. Speaker, I yield 4 minutes to the gentleman from Minnesota [Mr. WEBER], the distinguished secretary of the Republican conference and a member of the Committee on Appropriations.

Mr. WEBER. Mr. Speaker, I rise in opposition to the rule. As has been stated quite well by the preceding speakers, the issue hanging over this Congress is indeed the economy. And this is the best of a bunch of poor vehicles available to us, admittedly at the 11th hour, to do something about it.

I oppose the rule because it does not afford us the opportunity to do something about the economy. Mr. Speaker, the economy needs help now. I am not going to talk about the details of the proposal. Other speakers are going to talk about that.

I would like to focus for a minute on something that I think Members on both sides of the aisle could agree on if we could get out of this supercharged last minute environment. Our economy is hurting a great deal. Yesterday we found that consumer confidence had dropped below the levels of the 1982 recession. I talk to people and they say they are puzzled by this. How can it be? After all, unemployment is not at levels that it was at at that time. We actually saw some small upturn in the economy in the last quarter.

Why is it that consumer confidence is going through the floor? There are a number of other indicators we have to look at to understand the depth of the economic problem we face right now.

The value of residential fixed assets has fallen 10 percent in this country in the last 18 months, Mr. Speaker. Why is that important? For the average middle-class American, the kind of people that my friend from North Dakota was just talking about, that is their only asset. Their only asset is their home and the possessions that are inside that home.

When they see the value of that asset falling, that sets off all sorts of red lights and warning signals in their minds about their own financial security.

I believe that that contributes materially to the drop in consumer confidence, even among people who are not unemployed and who do not have any great fear of being unemployed.

Housing starts are at the level of the 1920's. New business formation has fallen 5 years in a row, and that is where the engine of growth normally comes from in this economy.

We found out yesterday that the auto industry for all practical purposes has entered the double dip of this recession that many of us have been concerned would happen.

Mr. Speaker, all I am suggesting is, despite the fact that it is the 11th hour, we should act now. We should try to do something about the economy now.

The fact that it is the 11th hour, by the way, sort of does not state the fact that we have been here all 11 hours. It is not as if this issue crept up on us in the Congress.

We could go back over all the speeches in this well, and 1-minute speeches

and special orders for the last year about the lack of action on a domestic agenda, lack of action on the economy. We knew there was a problem. We have been talking about a problem.

If we are now here incapable of acting at the 11th hour, we have no one to blame but ourselves.

Mr. Speaker, I further oppose this rule because of the issue itself, the narrow issue of the RTC. Look at the numbers. Eighty billion dollars so far has been spent on the RTC.

□ 1230

Eight hundred thirty billion dollars so far, \$830 billion more officially projected, of which we are going to authorize up to \$25 billion, but the unofficial estimates range from \$200 to \$500 billion. What is that \$300 billion swing all about? It is our inability to accurately predict the value of the properties held by the RTC. We are potentially playing with up to \$300 billion more of our taxpayers' money.

We have to spend some of that. I understand that. I voted for the S&L bill. I feel it is a responsible thing to do. But today the responsible thing to do is to take those minimal steps necessary to assure that at least through tax policy we have enhanced the value of those properties to the maximum degree possible to minimize the cost to the taxpayers.

Mr. Speaker, I do not know if I am going to vote against this bill in the event that we fail to amend it. I do not want to vote for it, but I want to do the responsible thing. But I will tell the Members, beyond today I can guarantee them if we do not do some things like capital gains tax reduction and restoration of passive loss deductibility, which will enhance the value of those and all the other real estate properties in the country, this is one Member that feels that he has lived up to his obligation to help the savings and loan problem. I for one will not be voting for one more nickel down the RTC rathole as long as this Congress refuses to take those steps necessary to minimize the cost of that bailout.

Vote against the previous question. Vote against the rule.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentlewoman from Ohio [Ms. KAPTUR].

Ms. KAPTUR. Mr. Speaker, I thank the gentleman for yielding time to me.

I rise in support of this rule but will vote against the final bill, whether it has an open-ended appropriation in it or whether or not it specifies such sums as are necessary, or whether it says \$80 billion or \$60 billion more. I want to explain the reasons for that.

First of all, I think it is absolutely wrong that, as last year, we bring up such an important measure in the closing minutes of this session. I think it is absolutely wrong, and I do not thank

the leadership on either side of the aisle for doing that to us and to the American people.

All of us here understand our responsibility to protect the depositors of this country. We understand that and we do not like being told that we do not understand that as part of this measure. But what is wrong about this bill is that it again asks the average taxpayers of our country to bear the costs of the S&L bailout. They have already paid up to \$110 billion and the GAO estimates that overall they will end up paying over \$371 billion. We have to ask the important question: If the taxpayers are going to be asked to pay the costs, what are the benefits that can go to the average taxpayer.

I have four proposals. All we are being asked to vote on here is the Bush bond bailout scheme. Basically the committees here gave to us the Bush proposal to vote on, which I do not support at all.

Alternative financing proposals have been offered. One involves the measure by the gentleman from Louisiana, BILLY TAUZIN, that would give tax exemptions to average depositors who put money into federally insured institutions, and it says to them if they put in up to \$500 they do not have to pay Federal taxes on that. Revenue costs of that are about \$1.2 billion, but it would help to promote savings inflows in institutions.

Mr. Speaker, I will give the other three proposals during a succeeding time.

All of those who serve here understand our obligation to protect the depositors of the American consumer in our Nation's saving and loans and banking institutions, but the question of a Member like myself is: At whose expense? Who should be paying to protect those deposits?

Mr. Speaker, essentially what has been happening is the administration's bill asks the taxpayers, the people listening, again to shoulder a S&L bailout. The U.S. taxpayer has already buoyed up failing S&L's to the tune of \$110 billion. Our tax dollars are going to pay for the damage just in that industry, and economists estimate that taxpayers will be asked to add as much as \$115 billion, not million, billion dollars more to that total, and then the General Accounting Office tells us that the overall cost of the bailout may rise just for the savings and loans as high as \$371 billion before it is all over.

The pit truly seems bottomless. The focus should be on how to pay for the damage in this S&L debacle and do so on behalf of the American taxpayer.

The Bush bill is appallingly deficient on balancing taxpayer costs, the taxes the taxpayer is being asked to pay, with the benefits that go directly to the taxpayer. In essence what has been happening here in Washington is that the Bush administration and the bank-

ing industry, in alliance with powerful States that have the most to gain from this administration's proposal, have succeeded, succeeded in diverting public attention away from the cost of the taxpayer bailout and who is paying for it.

Meanwhile, the hidden interest payments on the Bush bond scheme to pay for the S&L mess and flow out of the Treasury to the tune of billions each year, and the American taxpayer has nearly forgotten that this in fact is going on.

Alternative financing proposals have been quashed in various congressional committees. The tax committees in both Chambers, the Committee on Ways and Means in this Chamber, essential to finding a fair solution to paying for this, have remained resoundingly silent.

Members of Congress like myself want a Democratic alternative bill that is fair to the average American taxpayer. They must benefit directly from the costs they are being asked to bear. There are plenty of ideas that hold promise. It is amazing to me that the financial press, the committees of jurisdiction, and brilliant economists have chosen to be so vastly uncreative in fashioning a fair answer for the American public who are paying the bill.

I want to just discuss four approaches that can be taken to resolve this serious financial crisis in the S&L industry. One part of the answer involves focusing on restoring healthy banks by encouraging more deposit inflows into those institutions. In this way, Federal policy could change from what it is today, merely propping up sick institutions and going bankrupt while you are doing it, to, rather, building healthy institutions.

For example, a proposal has been introduced in this House by my colleague, Congressman BILLY TAUZIN, called the Save America Act of 1989. This legislation exempts from taxable income interest up to a certain level earned in passbook savings accounts in federally insured institutions, so if you are a depositor out there and you put your money in a bank or a savings and loan or a credit union, up to a certain level the interest you earn would be tax free.

That tax incentive would create huge increased deposit flows to banks as well as savings and loans and other financial institutions like credit unions, and those very institutions would be able to improve their capitalization, they would be able to pay their assessments in taxes, they would be able to make safer investments, and most of all they would be able to cut their umbilical cord to the U.S. Treasury. Taxpayers would directly benefit from such an approach, and the costs that the taxpayers are currently paying would actually accrue back to them in

the form of reduced tax payments to the Government of the United States.

Now, the institutions that would be benefiting from the deposit inflows would be asked to pay more in taxes, but that is only fair. And in this case the permission to remain in business and to receive increased deposit flows would be taxed by the Government and those taxes would go to pay for the bailout that is needed in the industry.

You do not hear much talk around here about how to make institutions more healthy. The talk always here is about how to prop up sick institutions.

A second set of choices involves how to democratize, and I like to use that word, the bond offerings that are currently in place to try to pay the cost of the bailout. Now, most of the American public does not realize that the way that this is being paid for currently is that every month the U.S. Treasury markets securities, and that the bailout bonds that are being used to pay for the insured accounts, depositors' accounts in institutions, are actually being floated by our Treasury Department.

In fact, these bonds are really not being sold to the average American taxpayers. What happens is that the majority of them are sold through 20 Wall Street bond houses which get really nice fees from the taxpayers for acting as intermediaries, and then those bond houses offer them to those who are in the buying public of bond buyers. Only about 10 percent of the people in our country currently purchase bonds. This certainly is not a very democratic system.

My idea would be to ask the Treasury Department to change the way that it markets and sells bonds, to make them broadly available to the American public. But I will tell you this, the Treasury Department will hate this idea. So will the Federal Reserve, because they have gotten real comfortable in dealing with those 20 bond houses, and you have seen recently how some of them have gotten in real trouble as a result of their finagling up on Wall Street and taking advantage of their special relationship.

But in view of the hemorrhage we are dealing with in this industry, U.S. taxpayers must be convinced that their sacrifices have a return, and if they are going to be asked to pay any of the bill on these banking messes, then by golly, the Treasury Department of this country which is asking them to pay for it should give them a benefit in the form of a bond that they can buy and earn the interest on. Business as usual at Treasury securities offerings can no longer prevail.

The average citizen of our country does not even know where to go to buy a Treasury security. In fact, only 25 percent, just one quarter of U.S. households, even own savings bonds, and the U.S. Treasury continues to sell bonds

through its cozy relationship with about a dozen and a half bond houses up in New York. It is really time to democratize the sale of U.S. Treasury securities through banks, through savings and loan, through credit unions. My gosh, we could even do it through post offices.

Let average Jane and Joe Citizen earn the 8 to 9 percent interest the big bond buyers enjoy. You know, America used to do that, until our financial industry became so concentrated. We have all seen what happened with Salomon Bros. recently when they took advantage of their special relationship with Treasury and all their big CEO's and presidents had to resign up there in New York.

Would it not be wonderful if bonds in denominations of as low as \$25 could be made available to the ordinary consumer? You would think that is what the U.S. Treasury Department, which collects taxes from every one of those consumers, you would think that would be the business they were in.

Not so. The U.S. Treasury, which loves to collect taxes from U.S. citizens, should be directed in a bill that comes out of this House, a Democratic bill, to design a bond offering to benefit the taxpayers footing this bill.

A third set of choices in how to dig ourselves out from under the S&L mess involves targeted taxes and plugging tax loopholes to raise the needed revenue. Over a 5-year period it would be reasonable to impose temporary surtaxes across the financial service industry which benefited from the S&L scam and bank transactions.

It is really amazing that no such idea has been offered yet. But if you watch the corridors of power in Washington, you can understand why. Instead, hard-working taxpayers struggling to get by in this recession. American people who are unemployed in my district and cannot even get the benefits of more than 6 weeks of unemployment compensation, are being asked to shoulder the load of this banking mess.

Two Members of the House Committee on Ways and Means, the gentleman from North Dakota [Mr. DORGAN], and the gentleman from New Jersey [Mr. GUARINI], have introduced a bill to plug tax loopholes for savings and loan owners that would recoup up to \$5 billion by avoiding something called double-dipping in tax submissions by those institutions.

These funds could also then be applied to the amounts needed to salvage current problems within the banking industry. The gentleman from Massachusetts [Mr. DONNELLY], has introduced legislation to recapture overgenerous tax breaks which the S&L's received in 1988. I have been pushing legislation with the gentleman from Michigan [Mr. WOLPE], that passed in the Committee on Banking, Finance and Urban Affairs, but some-

how never made it onto this floor, what would make States pay for the proportion of the cleanup which their own failed thrifts caused by requiring those States that incurred excessive costs to pay an extra Federal deposit insurance premium if the thrifts want to remain federally insured.

The gentleman from Pennsylvania [Mr. KANJORSKI] has introduced legislation to permit private civil suits to be filed to recover funds from those who have plundered our Nation's savings and loans. The gentleman from Massachusetts [Mr. KENNEDY] proposes to levy a tax on those who enjoyed the benefits of our financial system through the Fedwire and Clearing House Interbanks Payments system to raise billions annually.

Mr. Speaker, I bring up these examples in the tax system merely to point out that money could be raised in alternative ways to pay for the savings and loan and banking crisis. Those bills have not been permitted here on the floor.

A fourth set of solutions involves getting rid of weaknesses in the current financial system that caused the problems in the first place, most especially overly generous deposit insurance in multiple accounts. Let us put together a bill that helps our real constituents—average Americans, sick of paying for the high times and the cunning of the few during the 1980's.

Mr. DREIER of California. Mr. Speaker, I would like to respond to the statement made by my good friend, the gentlewoman from Ohio [Ms. KAPTUR], and state that the figures we have been hearing of \$60, \$70, and \$80 billion are not in fact, on track. We got an amendment from the Committee on Rules which has this structured as "such sums as may be necessary, not to exceed \$25 billion."

Mr. Speaker, I yield 3 minutes to my friend, the gentleman from Pennsylvania [Mr. SANTORUM].

Mr. SANTORUM. Mr. Speaker, 26 hours ago I came here at the beginning of the mother of all sessions, and before I get into my remarks I want to commend the chairman and the ranking members and all of those who worked very hard and diligently through the night on all of these conference reports to get them to the floor and to have them voted on, and I want to offer my congratulations on doing so. It was very important work.

I also want to comment on the civility of the debate throughout the evening. I am on a half hour's sleep tonight and a lot of Members likewise, and I think we have all handled ourselves very responsibly and respectfully. As a freshman Member I want to comment on that, and encourage the action to continue. I will try to depart from that decorum.

But 26 hours ago I came here and asked in a 1-minute speech that we

consider an economic growth package. This is our opportunity. This is the vote on the rule to allow us to have an opportunity to offer our economic growth package today here on the floor before we leave.

Many speakers have already gotten up on our side and talked about what is in the package, and those on the other side have responded. If I can make a couple of comments, the gentleman from North Dakota [Mr. DORGAN], just made the statement that we got the Treasury Department to score this and they will do whatever we want them to do. I would remind the gentleman from North Dakota that in the budget agreement of last year the Treasury Department is responsible for scoring. We accepted that. They scored at \$400 million plus. We accept that.

The gentleman from North Dakota [Mr. DORGAN], also said that the real need is for budget reduction. In the next couple of months the Republicans are going to be, or at least some members of the Republican Party, are going to be offering an alternative package that makes a budget reduction, and I extend my hand to the gentleman from North Dakota and Members on the other side of the aisle to come back here next year and to try to do spending cuts and deficit reductions, because I agree with the gentleman that we do need to do something.

I want to compliment the chairman of the Committee on the Budget for the work he has been doing on trying to find areas where we can cut spending to reduce the deficit.

The other thing I would like to comment on is the chart that the gentleman from Illinois brought to the floor, and has been referred to about the redistribution effects of this proposal. This chart is irrelevant. I would say to the gentleman from Illinois that we are proposing an economic growth package to create jobs, not an economic redistribution to create votes. This is not a relevant chart. What is relevant is to show how many jobs are created.

I would agree with the gentleman from \$100 to someone making \$200,000 a year may not be a substantial amount of money, but a \$25,000 job to someone who is unemployed is a very substantial amount of money, is important to those people, and that is what this package is about. He is arguing apples and oranges.

What we are talking about is jobs. What we are talking about is growth. We are not talking about the Government redistributing the income of this country. That is the relevant issue, not this.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I thank the gentleman for yielding time to me.

I rise to support the rule and the previous question. I would say that someone commented that the reason the S&L's are problems is because of our tax policy. Indeed that is the case. In 1981 we passed a tax policy that did not make business sense; it made tax sense one could receive a tax break, a big tax benefit by investing in buildings and overbuilding and doing a variety of things, and clearly the S&L's financed that, the banks financed that. Now we are sitting with 25 percent excess commercial property in most parts of the nation and such property is not occupied.

In 1986 we passed the tax bill to correct the 1981 tax law. We corrected it, all right, and the fact of the matter is overnight some of those investments that made tax sense and did not make business sense and went immediately into the red, and some of those S&L's lost money, and many investors across this country lost money.

Today we are being asked in the last minute here, without even the type of analysis that went into those other tax bills, which I think I have indicated that serious problems developed with such policy and some expect us to act on a package that was introduced just last night. Ideas, some of these have been around for a long time, that people are receptive to, many are new and unknown, I would just point out the folly of pursuing this type of policy. These issues, even when we think we know what we are doing, do not always come out with the right consequences. The examples of 1981 and 1986 stand as a caution. Hopefully we will heed it. Vote yes on the previous question and the rule before the house today.

Mr. DREIER of California. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin [Mr. GUNDERSON].

Mr. GUNDERSON. Mr. Speaker, let me apologize to everyone who wants to catch a plane and get out of here. But do not blame those of us concerned about RTC. We are not the ones who scheduled it at 12:40 on Wednesday afternoon.

Let us understand why we are asking Members to vote no on a previous question in simple economics. We just by voice vote authorized the borrowing of \$70 billion for FDIC. We now are going to commit \$25 billion of taxpayer money to the RTC. That is \$100 billion that this Congress is going to commit in less than 1 hour.

The reason we are concerned about what is happening is it is like providing blood transfusions to a bleeding patient without ever sewing up the wound. You cannot do enough if you do not solve the problem and only treat the symptoms.

□ 1240

The fact is the RTC and the FDIC have been told, liquidate your acquired

properties as fast as possible. The net effect of that in a recession is to destroy literally the value of all other real estate around it.

What we are trying to do is get the opportunity to bring forth the economic growth package to restore some value in real estate so we do not have to come back next spring and add even more taxpayer dollars to the RTC.

First it was \$50 billion, then it was \$30 billion, up to \$80 billion. Now we are going to provide \$25 billion more to the RTC. That is \$105 billion of taxpayers money to treat the symptom, not once trying to get at the disease.

Mr. Speaker, we have a chance to solve the problem if we vote no on the previous question. We beg you to do that, not in the interest of getting out of here, but in the interest of the taxpayers of this country and the economy that we are here to serve.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Illinois [Mr. DURBIN].

Mr. DURBIN. Mr. Speaker, as we approach the Thanksgiving season, I am sure that President Bush has visions of Camp David in his head. Instead, the President was badgered to think of Camp Gingrich, and to try to embrace this last-minute scheme by our Republican colleges to try to jump-start the economy.

The centerpiece of the Republican's so-called growth plan is a reduction of the capital gains tax rate, in effect a tax cut for the wealthy.

Let us be honest. Is this the right medicine at this time for our economy? Take a look at the holiday season we now face, a season critical for our Nation's economy, particularly for our retailers. At this moment American consumers, American families are deep in personal debt. They fear layoffs and dismissals. There is real uncertainty about our Nation's economy and its future.

Can we overcome this recession mentality, this consumer reluctance, by giving an \$11,000 tax break to people who make over \$200,000 a year?

The Republicans would calm the fears of working families by giving massive tax breaks to millionaires.

In my mind, this is not the way to come out of this recession. A real growth plan does not put Donald Trump on Santa's knee with a longer wish list. A real growth plan goes back to the traditional Democratic approach which we favor and support in several pieces of legislation.

Give the tax break to working families. Have the wealthier Americans pay more. Give the spending power back to the working families who had to sacrifice through 10 years of Reagan-Bush supply side economics. That in my mind is more sensible. It is fair and it will work.

The so-called Republican growth plan is still unfair. It gives the tax breaks

to the people who do not need them and sacrifices the kind of economic growth we need for America's working families.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 1 minute to the gentleman from California [Mrs. BOXER].

Mrs. BOXER. Mr. Speaker, I thank the gentleman for yielding this time to me.

Mr. Speaker, the Republicans have a tax package and they think it is good. A first look says to us that it is a giveaway to those over \$200,000 a year. Now, maybe it is better than that. Maybe it is only a giveaway to those with \$175,000 a year and above.

The point is let us not rush. Let the Ways and Means Committee look at it, the Republicans and the Democrats.

I want to remind this body that the last time a Republican Member of the Senate had a good idea, which he got from the President, dealing with credit card caps, and maybe it is a great idea, it was acted on rashly. The market dropped 125 points. I used to be a stockbroker. I know how volatile that can be.

Let us not make political points here. Let the Ways and Means Committee do its job. Let us look at a true economic growth and investment and incentive package in a bipartisan way and get this country moving again.

Mr. DREIER of California. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Oklahoma [Mr. EDWARDS], the chairman of the Republican Policy Committee.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I oppose the ordering of the previous question because we have here a rule that excludes not only the economic growth package that some of us feel very strongly this Congress ought to deal with quickly, but because it excludes consideration of the McCollum amendment, an amendment that in my opinion is necessary to send a message that is the responsibility of the regulators not to rush into situations that close down thrifts, but to find ways to keep them open.

I have a situation in my part of the country where we are not only having property dumped on the market and destroying real estate values, but that we are finding thrift institutions could be forced out of business.

It seems to me that the people who are running the RTC need to get a clear signal from the Congress that that is not the way we want business done and we cannot do it with this kind of a rule.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 3 minutes to the gentleman from California [Mr. PANETTA].

Mr. PANETTA. Mr. Speaker, I rise in support of the rule and obviously in support of ordering the previous question.

I think all of us share a common concern and a deep concern about the state of the economy. We are, as has been pointed out by both sides, looking at the weakest economy in the post-war era, whether you are looking at growth, productivity, unemployment growth and the deficit.

The most important thing is that we are dealing with a very fragile and sensitive economy and something that we ought not to just take for granted.

It is a sensitive and fragile economy and not one that we ought to simply take for granted or try to play political games with at this point in time.

The worst thing we can do right now, the very worst thing we can do in the Congress, is to raise expectations of the public that somehow there is a quick fix or a magic solution to the problems that confront the economy. It is going to take a lot of hard work on both sides to develop the kind of comprehensive program that does not just try to provide some tax incentives, but also looks at meaningful investments within our economy that will provide the kind of long-term growth that all of us are interested in.

The worst thing we can do right now is to take up a tax proposal that has had absolutely no hearings in the Ways and Means Committee, that has had no one focusing on the consequences of this proposal. It is a 60-page proposal that was developed, obviously, within the last 24 hours in terms of legislative language. That is not a way to do business when you are facing a fragile economy.

Last, the worst thing we can do is repeat the mistakes of the past. I get very suspicious when the promise is made that somehow we can cut taxes for everyone, particularly the wealthy, and that it will not involve any increase in the deficit.

I heard that same promise in 1981 and we have reaped the whirlwind.

This is not the way to do business. We can do better. The American people expect us to do better. The President of the United States can do better.

Mr. DREIER of California. Mr. Speaker, I yield 1 minute to the distinguished gentleman from San Diego, California [Mr. HUNTER], the chairman of the Republican Research Committee.

Mr. HUNTER. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, this is not a last minute Johnny-come-lately proposal.

I looked over the statistics the other night. President Bush in the last 24 months has brought up his economic growth plan in 95 speeches. He has given 27 press conferences in which he brought up his economic growth plan. We have worked long and hard to put this together.

Now, 8.6 million Americans are unemployed as we leave for the holiday. I

think we have to conclude that an economic growth and jobs plan is the unfinished business of 1991 for this Congress.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK of Massachusetts. Mr. Speaker, I thank the gentleman for yielding me this time.

First, Mr. Speaker, let us be clear what we are doing. The RTC which was created in 1989 after the problems that the savings and loan industry had during the 1980's, what the committee and the Congress did was to give President Bush and his Treasury Department exactly the structure it wanted to have. That was the way that you wanted it structured and that is the way we have it.

Since then, there has been a drain on the Treasury that has come from having to pay off depositors; so the question is whether or not you want to pay off the depositors or not.

□ 1250

Now, one argument we had today was we should not vote for this now because it does not include supervisory goodwill.

Members should understand what supervisory goodwill is. It is from the "proof, you are a malted" school of creating capital. The man goes into the candy store and says, "Make me a malted." The man says, "Poof, you are a malted."

Supervisory goodwill is when somebody says, "I need some capital for my S&L," and you say in Congress, "Poof, you have some capital." There is no money there. Supervisory goodwill is not good currency; the ruble has a higher understanding. It is simply an artificial construct.

To defeat this bill as we have been asked to do because it does not restore supervisory goodwill is to express a very strong nostalgia for never-never land.

Then we have the tax package. And I agree with my friend who says, well, from the standpoint of the tax package, this is not the 11th hour; it is the 27th hour. We have passed the international dateline already.

This is a tax package which as far as distribution is skewed to the rich and the gentleman from Pennsylvania quite honestly said the chart was irrelevant. Irrelevant is something you say in a political debate, something which is embarrassing and true. You cannot refute it, you say it is irrelevant. So they have now stipulated to the truth of the distributional facts that Members on our side have talked about.

Then what they do, they brought the tax package up without any real support in their own administration, too late to do any good. I think the most carefully planned thing about this tax

package is if we have been in such a terrible economic situation, where was it in May, June, July, when people say we needed unemployment compensation?

It is a tax package carefully crafted to be brought out too late to possibly be voted on.

Mr. DREIER of California. Mr. Speaker, I yield such time as he may consume to the chairman of the Republican Study Committee, the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Speaker, I thank the gentleman for yielding time to me, and I support defeat of the previous question.

Mr. DERRICK. Mr. Speaker, I reserve the right to close.

Mr. DREIER of California. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DERRICK. Mr. Speaker, let me yield myself such time as I may consume in order to make a brief remark before we move to close.

You know, in 1980 we were the largest creditor nation in the world; today we are the largest debtor nation in the world.

In 1980 we had an annual deficit around \$60 billion. Now it is up between \$300 and \$400 billion.

In 1980 we had a debt, a total indebtedness of this Government of about \$1 trillion; today it is about \$3 to \$4 trillion.

We did all of that in 10 years. We did that under two Republican administrations. And I do not give them all the blame for it. The Congress had to vote on it as well.

But I think we need to look at why that happened.

I think one of the reasons that that happened and one of the primary reasons is that someone always had a quick fix, starting out with Gramm/Latta in 1981, and moving on down through the 1980's.

The position that this country finds itself in today, and our country is hurting economically speaking, is that we are having to pay for the mistakes that we made during the 1980's.

I think it is really precipitous, and I cannot believe that anyone on the other side of the aisle is serious about taking up a growth package here at this late date when you have part of the economists who say it will cost the taxpayer \$23 to \$28 billion; you have other economists say that it is not going to cost anything.

You have some economists that say 70 percent of it will go to the very wealthy; others who disagree.

Mr. Speaker, these are things we need to have some reasonable certainty about before we move ahead with a package this far-reaching and this important. I do not say the package is all bad. Some of the parts of the package I have supported myself. But I think it

would be very precipitous, very ill-advised and I think the people would look unkindly if we were to do that.

Mr. Speaker, having said that, I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DREIER of California. Mr. Speaker, I object to the vote on the ground a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently, a quorum is not present.

The Sergeant at Arms will notify absent Members.

The Vote was taken by electronic device, and there were—yeas 248, nays 144, not voting 42, as follows:

The Corporation shall allow such purchasers reasonable access to an eligible condominium property for purposes of inspection.

"(B) OFFERS TO SELL.—For the 180-day period following the date on which the Corporation makes an eligible condominium property available for sale, the Corporation may offer to sell the property, at the discretion of the Corporation, to 1 or more of the following purchasers:

"(i) Qualifying households.

"(iii) Public agencies.

"(iv) For-profit entities.

**"(C) LOWER-INCOME OCCUPANCY REQUIREMENTS.—**

"(i) IN GENERAL.—Except as provided in clause (ii), any nonprofit organization, public agency, or for-profit entity that purchases an eligible condominium property shall (I) make the property available for occupancy by and maintain it as affordable for lower-income families for the remaining useful life of the property, or (II) make the property available for purchase by any such family who, except as provided in subparagraph (E), agrees to occupy the property as a principal residence for at least 12 months and who certifies in writing that the family intends to occupy the property for at least 12 months. The restriction described in subclause (I) of the preceding sentence shall be contained in the deed or other recorded instrument.

"(ii) MULTIPLE-UNIT PURCHASES.—If any nonprofit organization, public agency, or for-profit entity purchases more than 1 eligible condominium property as a part of the same negotiation or purchase, the Corporation may (in the discretion of the Corporation) waive the requirement under clause (i) and provide instead that not less than 35 percent of all eligible condominium properties purchased shall be (I) made available for occupancy by and maintained as affordable for lower-income families for the remaining useful life of the property, or (II) made available for purchase by any such family who, except as provided in subparagraph (E), agrees to occupy the property as a principal residence for at least 12 months and who certifies in writing that the family intends to occupy the property for at least 12 months. qualifying household or lower-income family of the requirement under subparagraph (D) and the requirements relating to residency of a qualifying household or lower-income family (under paragraph (9)(L) and subparagraph (C) of this paragraph, respectively). The Corporation may grant any such a waiver only for good cause shown, including any necessary relocation of the qualifying household or lower-income family.

The preceding sentence may not be construed to require all eligible condominium properties offered or sold as part of the same negotiation or purchase to be located in the same structure.

"(G) RENT LIMITATIONS.—Rents charged to tenants of eligible condominium properties made available for occupancy by very low-income families shall not exceed 30 percent of the adjusted income of a family whose income equals 50 percent of the median income for the area, as determined by the Secretary, with adjustment for family size. **SEC. 518. APPLICABILITY.**

The amendments made by this title shall not apply to any eligible residential property or eligible condominium property of the Resolution Trust Corporation, that is subject to an agreement for sale entered into by the Corporation before the date of the enactment of this Act.

The CHAIRMAN. Under the rule, the gentleman from Texas [Mr. GONZALEZ], will be recognized for 15 minutes, and the gentleman from Ohio [Mr. WYLIE], the Member opposed, will be recognized for 15 minutes.

The Chair recognizes the gentleman from Texas [Mr. GONZALEZ].

Mr. GONZALEZ. Mr. Chairman, I yield myself such time as I may consume.

It is absolutely essential that the Congress provide further funding to the Resolution Trust Corporation. Unpleasant, distasteful as this may be, it is an inescapable responsibility.

Congress has insured deposits in the Nation's banks and savings and loan associations—we stand behind those deposits. Since our laws have made the commitment, we must honor it.

The Resolution Trust Corporation is necessary because the savings and loan insurance fund went broke. So what I bring to you is a report on the RTC bill reported by the Banking Committee and an urgent plea that you join in providing adequate financing not only for the bank insurance fund when it is considered later today, but that you join in providing the money needed to close out the business of the Resolution Trust Corporation.

The RTC has only one job—to pay off the insured deposits in failed savings and loan associations. In the process of doing that, it must incur losses because the assets of those institutions are not worth enough to cover the cost of the insured liabilities—the deposits. The cost of this operation has been greater than anyone expected, in large part because the economy has performed worse than expected. The poor economy has caused more institutions to fail, and it has also caused the value of the assets held by RTC to be lower than expected—meaning that there are more cases to handle, and that each one costs more than expected.

RTC has accomplished a great deal—it has resolved 587 dead thrifts and paid off almost 19 million accounts in 45 States.

What is left to be done? There are about 85 institutions in conservatorship now, and there are about 220 more that are likely to fail. These institutions have about \$200 billion worth of assets. If losses in those institutions run to 40 percent of assets, we can expect RTC to spend about \$80 billion to wind up its affairs. If losses are at a lower rate or there are fewer failures the need would be less. But one thing is certain: the job has to be done, and if we delay it will cost more. The final cost may be \$65 billion, it may be \$80 billion—but whatever the loss is, it must be covered, if we are going to keep faith with the insured depositors. The RTC is unpopular, its job is unpleasant, but it fulfills the Federal commitment to protect depositors. In short, like the mortician, it performs a necessary and unavoidable service. Once this job is done, the savings and loan insurance fund should again become self-sustaining, as it was for decades before the disaster of the eighties.

I would like now to report to you the action of the Banking Committee on

H.R. 3535, the RTC funding and reform bill.

Your committee reported this bill on a vote of 27 ayes and 25 nays. During the markup we considered 70 amendments, many of them difficult, and some of them very controversial.

The greatest controversy is of course about funding.

We considered one suggestion, a permanent, indefinite appropriation—a blank check to get the job done. This was rejected with only 7 votes in favor.

We considered another proposal, \$80 billion—the sum estimated as necessary to finish the job outright, and that got only 17 aye votes.

As reported, the bill authorizes \$20 billion. After that amount is consumed, any additional authorization would require that the President and the joint congressional leadership submit a pay as you go plan. However, as amended by Mr. WYLIE, that pay as you go plan could not include any taxes or revenue enhancements of any kind—it would all have to come from a spending reduction plan. This plan in turn would be predicated on an ability to pay basis.

In short, no funding option is easy. But the responsibility of adopting a bill that provides all that is required, is inescapable. We cannot leave without acting favorably.

In addition to funding, this bill contains provisions to make the operations of RTC more efficient, more accountable and more flexible. It greatly improves the operation of the RTC's affordable housing program. It improves other property disposition programs by encouraging greater flexibility in financing, for example. But the issue at hand is this: Do we want to finish the job? Will we provide the money to protect the depositors in those 300 or so institutions that have failed or soon will fail? That is the heart of the issue.

Let me reiterate this one thing: The money expended in this program is for the protection of innocent depositors. It does not help anyone else. If we fail to provide this funding, we will put in question the integrity of deposit insurance guarantees—and those guarantees are vital in today's very shaky economy. The truth is, if we don't protect those deposits, we will worsen the credit crunch, we will make things worse, and we will have reneged on the Federal guarantee.

It is not easy to honor this commitment—the vote in your committee demonstrates that. But honor it we must.

□ 1320

Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts [Mr. KENNEDY], a very active and very permanent member of the committee.

Mr. KENNEDY. Mr. Chairman, I rise in support of the committee bill, and in opposition to the Barnard substitute.

The Barnard substitute fails to offer any real reform of the way in which this bailout is currently paid. And real reform is what the American people are screaming for.

As everyone knows, the bailout is currently funded entirely by deficit financing. This borrow and spend scheme roughly triples the cost of the bailout in interest. It adds hundreds of billions of dollars to the national debt. Worst of all, it sends the bill for this debacle to working families, their children, and even their grandchildren. They'll be paying for this mess for the next 30 years. That's why they're so upset: they are getting stuck with a tab for a party to which they were never even invited.

The Barnard substitute just continues this unfair, costly, borrow and spend policy. By contrast, the committee bill contains real reform. It would cut funding for the bailout from \$80 billion to \$20 billion, and require the President to fund all remaining losses on a pay-as-you-go basis. Right now there is an outrageous double standard at work in the way we pay for Government programs. We can't come up with even a few million dollars around here for food aid or housing or school loans without having to find offsetting revenues. Yet, the President and others have no trouble adding hundreds of billions of dollars to the country's debt to bail out failed thrifts. If pay-as-you-go is good enough for housing, for health care, for food stamps, and for education, then it should be good enough for the S&L bailout.

Now, I am well aware that the committee bill contains a Republican-sponsored measure that would prohibit any tax increases to fund thrift losses. Many of my Democratic colleagues say that this amendment confirms their worst fears about a pay-as-you-go bailout: that it will take funds from vital social programs. Let me just make a couple of points in response. First, I share their concerns. I don't think I take a back seat to anyone in this body when it comes to supporting social programs. That's why I suggested that the Rules Committee allow an amendment to permit us to tax the wealthiest 5 percent of the population to help pay for this problem. After all, the wealthy are the ones who most benefited from the thrift crisis, and they are best able to pay for it now. Beyond that, though, the money does not have to come out of social programs. It can come out of defense. And it can come out of the sale of the RTC's sale of its assets. Right now, the RTC is sitting on over \$150 billion in assets. A lot of these assets could pay for losses.

The bottom line is that we who support social programs have got to realize that, by heaping this problem into the deficit, we are just hurting the programs we are trying to protect. Interest on our national debt will top \$230

billion next year—more than all discretionary social spending combined. If we want to have money in the future to pay for social programs, we have got to stop this mindless deficit spending for unpopular programs.

In sum, the committee bill will end the morally indefensible and economically senseless way in which we currently pay for this bailout. It will require some tough choices, that's for sure. But we were not elected to make easy ones. I urge its adoption, and the defeat of the Barnard substitute.

Mr. WYLIE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I oppose the substitute that is before us now because of the Kennedy proposal that is contained in it. It was referred to as pay-go. What it does is simply require that the President would have to submit a plan to Congress to pay for these funds over the next 5 years without increasing the deficit.

During the course of the consideration of this bill in the committee, I offered an amendment that said that the President could not offer in his proposal to pay for it with a tax increase. That amendment was adopted.

Now we are looking at what has commonly been referred to as cut-go. In other words, in order to pay for the \$60 billion, other programs would have to be cut, but the President would have to come up with a recommendation as to how those other programs could be cut.

Now, this is in violation of the budget summit agreement which was entered into last year, which said that these funds would not go to reduce other programs.

Mr. Chairman, the words "bailout" were used several times by the gentleman from Massachusetts [Mr. KENNEDY]. I submit that that is a misnomer. Nobody is being bailed out. The people who are being paid or are receiving these moneys are the depositors in these failed institutions.

The U.S. Government has a clear obligation. We have said that we stand behind those deposits with the full faith and credit of the U.S. Government. What this money goes for then is to pay them off. But in order to pay them off, we have to have the money in the Resolution Trust Corporation fund. Right now that fund is broke. The Resolution Trust Corporation estimates that there is something like \$4 million a day being lost to the taxpayer because they do not have the funds to close these institutions timely.

Mr. Chairman, the Kennedy amendment, as I suggest, would give the Resolution Trust Corporation \$20 billion. Then before they could get any more money, this so-called pay-go provision would have to be eliminated.

Mr. Chairman, the committee bill is pretty good otherwise. I prefer the Barnard-Wylie substitute because it deletes the pay-go provision and deletes

the provision which I had offered as an amendment which would say that none of these could be used from taxpayer money.

Mr. Chairman, I support that concept, that no new taxes should go to pay for these programs. On the other hand, we do need to get the money before us now, and we are not going to do it if this provision, the Kennedy pay-go provision, is in it.

Mr. Chairman, I reserve the balance of my time.

Mr. GONZALEZ. Mr. Chairman, I yield such time as he may consume to the gentleman from Kentucky [Mr. HUBBARD].

Mr. HUBBARD. Mr. Chairman, the bill reported from the House Banking Committee, which is now being offered as an amendment to the bill before us, itself includes an amendment offered in committee by the gentleman from Florida, Mr. MCCOLLUM, that is designed to enhance the viability and lending capacity of certain thrift institutions. The McCollum amendment permits the Office of Thrift Supervision to grant exceptions from currently applicable capital requirements to institutions that own subsidiaries engaged in activities that are not permissible for national banks. Specifically, the provision authorizes exceptions from a schedule provided in the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 [FIRREA] phasing out the degree to which a thrift institution's interest in any such subsidiary may count toward the computation of the thrift's capital. These subsidiaries often hold investments defined by the Office of Thrift Supervision as equity investments, which include a wide variety of investments in real estate. Under the McCollum provision, thrifts with subsidiaries that hold such investments can receive exceptions if the strict criteria specified in the provision are met.

The case for the McCollum provision is a strong one. When Congress enacted the phaseout schedule of FIRREA, it assumed that thrifts with subsidiaries covered by the schedule would divest themselves of the subsidiaries or their nonconforming investments as the schedule increasingly reduced the regulatory capital position of the institution. It did not assume, however, that the weakness of the market for those subsidiaries and investments would make divestiture a practical impossibility for most thrifts. In light of the current market conditions, the House Banking Committee agreed with Congressman MCCOLLUM that some relief from the FIRREA schedule should be authorized on a case-by-case basis. The Office of Thrift Supervision, which would administer the exceptions provided by the amendment, also supported the provision and is a strong proponent of its enactment.

It is important to note, however, that the rationale for the amendment applies equally to a situation that differs marginally from the specific fact situation covered by the amendment. Some thrift institutions now own equity investments not indirectly through a subsidiary but rather directly through the parent itself. The Office of Thrift Supervision's regulations provide for capital treatment for such investments that closely parallels the treatment provided to thrifts with subsidiaries engaged in such in-

vestments. A thrift with equity investments must phase out the degree to which such investments may count toward meeting the institution's risk based capital requirement. The phaseout schedule is exactly the same as that provided by FIRREA for thrifts with subsidiaries that hold such investments. As with the subsidiaries, the schedule was constructed based on the assumption that the investments would be divested. As with the subsidiaries, it has now become apparent that the market for the investments is so weak as to preclude divestiture in most cases.

It follows that while the language of the McCollum provision does not specifically cover thrift institutions holding equity investments other than through a subsidiary, the policy of the provision is directly applicable to such institutions. If the provision is enacted, therefore, the Office of Thrift Supervision should revise its regulations as they relate not only to the subsidiaries specifically referred to in the provision but also to institutions that own equity investments directly. Any other course would create an imbalance in the capital regulatory system that cannot be supported by any legitimate public policy consideration.

Mr. GONZALEZ. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. BROOKS], distinguished chairman of the Committee on the Judiciary and my distinguished fellow Texan and dean of the Texas delegation.

Mr. BROOKS. Mr. Chairman, I have a question really.

Section 1133 of S. 543 which was accepted by the conferees on the banking bill is a pending antitrust issue that should rightfully be determined in the courts. Since the matter involves litigation between Sears and VISA, Congress should let the matter be determined by the tenth circuit. I would like to clarify for the record that nothing in the language of section 1133 is intended to interfere with the pending Sears-VISA litigation.

Mr. GONZALEZ. Mr. Chairman, I questioned that last night. Unfortunately, I wish I had had the aid of my chairmen, but I did not. To be specific, the date they have in that amendment, August 9, 1989, is the date of the enactment of FIRREA. FIRREA, which we are enacting now, it certainly was never the intention to retroactively abridge or restrict the legal rights of anybody.

Mr. WYLIE. Mr. Chairman, I yield 1½ minutes to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Chairman, I rise opposed to the substitute. The theme that the Democratic Party has, that the economic growth package is only for the rich, is not true. They have marketed that very well. I will give that to them. But I would ask that we combine both the Democratic and Republican goods and bads and do something. In the desert bill, all the amendments except the Vento-Blaz

amendment were bad on the Republican side. In the crime bill, all of the issues were wrong.

In the RTC, we are not allowed to offer any amendments. I just had a call from a boat builder in San Diego about 45 minutes ago. He said he called the gentleman from Illinois [Mr. ROSTENKOWSKI]. He called the gentleman from Missouri [Mr. GEPHARDT], and he has called on every Member he can because he employs 150 blue-collar workers that are going to lose their jobs.

So is it a luxury tax for the rich, or do we cut the tens of thousands of jobs and hurt the blue-collar workers? People change their buying habits. The luxury tax in the package, it takes the luxury tax out of the general fund. It costs more, and it was a mistake.

The Senate just did a straw man and would repeal the luxury tax.

What about the earnings test for the senior citizens? We do not call them senior citizens. They are chronologically gifted.

Mr. WYLIE. Mr. Chairman, I yield 3 minutes to the gentleman from Texas [Mr. JOHNSON].

Mr. JOHNSON of Texas. Mr. Chairman, I represent Texas' Third District, Dallas, one of the areas hardest hit by the S&L failures and the RTC. Fifty-five percent of the RTC-controlled property is in Texas, which just happens to be \$10.4 billion of real estate. As far as the Texas real estate market is concerned, the RTC is the only show in town. And it's a horror show.

I have, here, a few of the over 3,000 responses to my RTC newsletter poll. It was no surprise that 99 percent of the Dallas-area residents who responded, said they don't want to give the RTC another red cent. Texans are tired of being held hostage by the RTC.

Mr. Speaker, I don't believe Congress realizes just where the taxpayer's money is going. The RTC says it spent the previous \$80 billion only to bail out depositors, but that isn't true. Those dollars also go toward operating costs and other expenditures by the RTC.

Right now, the RTC's southwest region alone, is spending \$50 million a year in salaries and \$1.6 million a year in rent for office space in one of the plush buildings in Dallas. You'd be hard pressed to find a more blatant abuse of tax dollars.

As a matter of fact, at the rate the RTC is going right now, we really don't know if the additional \$80 billion will be enough to clean up the failed S&L's and guarantee the end of the RTC.

The RTC was created to accomplish two things—to salvage failing thrifts and, as quickly as possible, liquidate their assets. We've given the RTC plenty of money to do the first half of its job. But on the asset disposal side, cash offers sit for months at a time while tax dollars go down the drain. As America falters on economic recovery—the RTC is stockpiling its assets

and inadvertently controlling entire real estate markets.

With this \$80 billion, the RTC is going to shut down S&L's with a vengeance. I just wish they would use the same vengeance to sell off the assets they already control. The assets they stockpile are costing the taxpayers millions in maintenance fees and carrying costs. Mr. Chairman, we're pouring American tax dollars down a black hole. We're never going to get this S&L mess cleaned up, until the RTC understands that it is hamstringing any economic recovery for this Nation.

I can't say this any plainer—Congress must refuse to pay another penny to the RTC until we're given a specific agenda on how they plan to effectively dispose of real estate assets.

As if the incompetency and mismanagement isn't enough, last year, the RTC spent an estimated \$300 million—some reports even say \$500 million on private lawyers' fees and legal expenses.

Mr. Chairman, the taxpayers are being rolled. Americans don't want, don't need, and certainly don't deserve to have to pony-up another \$80 billion for the RTC. I urge my colleagues to reject this bill and send a message to the RTC—This is not a permanent deal. The American taxpayers have had enough.

Mr. ORTON. Mr. Chairman, will the gentleman yield?

Mr. JOHNSON of Texas. I yield to the gentleman from Utah.

Mr. ORTON. Mr. Chairman, could the gentleman describe for this group what percentage of the RTC assets were within his district and what percentage of the \$160 billion of losses attributable to the RTC are found in Dallas? I am astounded that the people of Dallas say no more funding to bail out their real estate market.

Mr. JOHNSON of Texas. Mr. Chairman, they are fed up with it. That is what.

Mr. WYLIE. Mr. Chairman, I yield 2 minutes to the gentlewoman from Maryland [Mrs. MORELLA].

Mrs. MORELLA. Mr. Chairman, I rise in support of a critical, anticredit crunch provision of H.R. 3435.

For many months, I have been deeply concerned about the credit crunch paralyzing our economy. Many economists and analysts agree that mortgage and construction financing has been largely cut off even for feasible, viable rental property and commercial projects. As one local developer recently told me, "Builders are finding it difficult to finance the construction of new homes, even when they have signed contracts from purchasers."

Mr. Chairman, an economy in trouble cannot recover if the building industry, which employs millions of people and spends billions of dollars on goods and services annually, cannot obtain financing for the construction of even

presold homes—the safest investments in the building industry. For this reason, I asked my friend and colleague, Congressman WYLIE, the ranking member of the Banking Committee, to incorporate into H.R. 3435 language which would rationalize the regulatory process as it applies to construction loans on presold homes. As a result, H.R. 3435 stipulates that new construction loans for presold single and multi-family homes will carry a 50 percent, rather than a 100 percent, risk weighting. The banking committee unanimously adopted this proposal, which was already under serious consideration by the Office of Thrift Supervision.

I wish to thank Congressman WYLIE for his generous help in achieving this critical anticredit crunch measure. In addition, I would like to thank Mr. Bill Warfield, formerly of the professional minority staff of the Banking Committee, now with the Appropriations Committee, who provided invaluable assistance in this effort. My appreciation also to Joe Ventrone and Kyle Lundstedt of Congressman WYLIE's staff for their thorough research and diligent follow-through on this important provision. To Mario Correa and Helen McDonald of my staff, thank you.

I urge my colleagues to take action against this debilitating credit crunch by supporting H.R. 3435.

□ 1340

The CHAIRMAN. The Chair advises at this point in the debate that the gentleman from Ohio [Mr. WYLIE] has 5½ minutes remaining, and the gentleman from Texas [Mr. GONZALEZ] has 3 minutes remaining. The gentleman from Texas [Mr. GONZALEZ] has the right to close.

Mr. WYLIE. Mr. Chairman, I yield myself 1 minute to comment on the statement by the gentlewoman from Maryland [Mrs. MORELLA]. She honed in on a very important provision in this bill, which is in there as a result of an amendment which I offered and it has to do with risk weighting on housing loans for purposes of capital requirements.

This issue came up in the Committee on Rules this morning, and what it does is direct the financial institution regulators to place single-family presold home construction loans in the 50 percent risk-weighted category of minimum capital standards, so they get a double advantage there. They are not rated 100 percent on risk weighting. This is the minimum standard as permitted by the BASL agreement, and for that reason would make the money go further.

Mr. GONZALEZ. Mr. Chairman, I yield such time as he may consume to the gentleman from Vermont [Mr. SANDERS].

Mr. SANDERS. Mr. Chairman, I thank the gentleman for yielding. We

have been here for 27 hours. We are tired, and I fear that the significance and impact of what we are doing now is not fully appreciated.

Mr. Chairman, the taxpayers of this country have already been hit up for \$80 billion and today we are talking about another \$80 billion, and there may be more to come.

Very simply, Mr. Chairman, one, I cannot support legislation which simply dumps this \$80 billion payback into the deficit. That is absolutely irresponsible. We must have the courage to go forward on a pay-as-you-go basis.

Secondly, Mr. Chairman, in the last dozen years the wealthiest people in this country have become much wealthier, are paying less in taxes, and the working people have become poorer and are paying more in taxes. The payback must be based on a progressive basis. We cannot ask the middle class and the working class to bail out the S&Ls.

Mr. WYLIE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I would just observe that I was a little bit taken aback by the statements from the gentleman from Texas [Mr. GONZALEZ], who is a very good member of the House Committee on Banking, Finance and Urban Affairs. As was pointed out by the gentleman from Utah [Mr. ORTON], most of the money going to failed thrifts have gone to the State of Texas. I think 80 percent of all the failed S&Ls are in that particular area of the country. I know that he would not want us to leave here today without voting more money to close down some more of those failed thrifts.

My position is a no vote on the substitute, an aye vote on the substitute offered by Mr. BARNARD that has been worked out with Members on the other side of the House here, and the amendment which is before us now is flawed because of the pay-go provision. The Members in the other body would not take this bill if that is contained in it. I urge a no vote now.

Mr. GONZALEZ. Mr. Chairman, will the gentleman yield?

Mr. WYLIE. I yield to the gentleman from Texas.

Mr. GONZALEZ. Mr. Chairman, I just want to enlighten the Members about Texas. We heard about Dallas from the gentleman from Texas [Mr. JOHNSON].

I want to tell every one of my colleagues and fellow Americans that in San Antonio, my district, the only thing RTC has not gotten yet is the Alamo, and we have drawn the line and we are going to fight to the death.

Mr. WYLIE. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. GONZALEZ. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Kansas [Mr. SLATTERY] to close the debate.

Mr. SLATTERY. Mr. Chairman, I rise today in support of the committee bill. I rise in support of the concept of pay as you go. I do so for one simple reason. That is that if we would agree next year to pay for this \$60 billion over a 5-year period we would save the taxpayers of this country \$100 billion in interest costs over the 30-year payment plan that the administration and probably the majority here today favor.

As far as I am concerned it is a simple concept. We have a moral obligation to pay our bills. This is not a pleasant thing to pay for. It will not be easy to pay for it next year, but it is right that we figure out how to pay for it next year even in an election year.

I know the hour is late and I am going to be very brief and just ask the Members to vote for the concept of pay as you go. We can find \$60 billion in cuts in a \$1.4 trillion budget over a 5-year period. That is \$12 billion a year. That is not unreasonable. With all due respect to the gentleman from Ohio, Mr. WYLIE, it does not violate the budget agreement.

Any suggestion that by reducing the deficit further than the agreement called for last November, somehow we have breached the budget agreement I think is standing logic on its head. I think all of us understand that that agreement certainly was not an end-all in dealing with the deficit problem. This will help us solve that problem by requiring us to come together next year and develop a plan to pay for at least \$60 billion of this terrible problem.

I believe so strongly that we have the moral obligation to do this for our kids and grandkids, and to stop handing them all these unpaid bills.

Mr. WYLIE. Mr. Chairman, if the gentleman will yield, I might join the gentleman. He says "we." I think he means we in Congress.

Mr. SLATTERY. Mr. Chairman, reclaiming my time, I would just observe that the President of the United States has told the people of this country that he can solve all these problems without any additional revenue. If he can do that I would like to see his plan. That is what this whole concept envisions. After he would lay his plan on the table the heat would be on us to produce. I think that given his leadership, this body could produce. I urge my colleagues to vote for the committee bill, vote for the concept of pay as you go, and to stop handling all these unpaid bills to our kids and grandkids.

The CHAIRMAN. Under the rule, all time has expired.

The question is on the committee amendment in the nature of a substitute.

The Committee amendment in the nature of a substitute was rejected.

The CHAIRMAN. It is now in order to consider the amendment in the nature of a substitute printed in House Report 102-408.

Mr. BARNARD. Mr. Chairman, I offer an amendment in the nature of a substitute.

The CHAIRMAN. Under the rule, the gentleman from Georgia [Mr. BARNARD] will be recognized for 15 minutes, and a Member opposed will be recognized for 15 minutes.

Mr. WYLIE. Mr. Chairman, I am not opposed to the amendment, but I would like to claim the 15 minutes in opposition.

The CHAIRMAN. If there is no objection, and no Member rises in opposition, the 15 minutes which have been allotted to the opposition to the amendment can be allotted by unanimous consent to the gentleman from Ohio [Mr. WYLIE].

Without objection, the gentleman from Ohio [Mr. WYLIE] will be recognized for 15 minutes.

There was no objection.

The CHAIRMAN. The Chair recognizes the gentleman from Georgia [Mr. BARNARD].

Mr. BARNARD. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, we are about to make a very, very serious vote. I do not think anybody questions the fact that we have got to fund the Resolution Trust Corporation. It is very important. It is very vital that we do that.

The reason that our substitute is being offered this afternoon is not at all because of the fact that the committee did not do hard work. I want to congratulate the distinguished chairman of the House Committee on Banking, Finance and Urban Affairs for the very arduous task he went about in trying to structure this RTC bill.

Mr. Chairman, the reason we are here today is because the original bill contained 80-some-odd amendments. It was a very voluminous document. Unfortunately, the Senate bill is nowhere like the bill that we have just voted down. The bill that we are offering today has many similar features. No. 1, it does not have an \$80 billion price tag.

□ 1350

We only put in this bill as much money as the RTC needs up until April 1, 1992, with a \$25 billion cap.

We also have in here a restructuring of the RTC which is identical to the language in the Senate bill.

Believing that there are some very good features in the House bill, we have incorporated in our bill minority provisions as well as low-cost housing.

So I would say, please support this substitute. It will enable us to get a bill to the Senate and have early passage and that will also facilitate us going home.

Mr. Chairman, I yield to the gentleman from Minnesota [Mr. VENTO], a cosponsor of our amendment.

Mr. VENTO. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in support of the bill.

I think it is disappointing, obviously, to see the total work product of the Banking Committee not receive an affirmative vote here, but I think the reality is that the Senate did not consider a comprehensive bill. They are unwilling to accept various substantial amendments that were in the House measure, and therefore were left with a narrower bill, a narrow bill that is 80 pages long.

I am very pleased with the restructuring that has been accepted by the Senate, been accepted by the Treasury, and the other provisions of this bill. I think we have forged some important provisions dealing with housing and some of the other products of the committee, such as the treatment of minorities and women.

I am especially pleased that we do meet our obligations. It does mean we will have to come back next April, but I think we can leave passing this assured that the savings and loan deposits and the savings of individuals in them will be safeguarded.

Mr. BARNARD. Mr. Chairman, I yield 2 minutes to the gentleman from North Carolina [Mr. NEAL].

Mr. NEAL of North Carolina. Mr. Chairman, I do not think this is a pleasant task today. This is not a pleasant task for us to do at all. None of us want to do it, but we have two choices. We either do not pass anything, go home, leave the RTC without money, and it will not be able to close down bankrupt savings and loans, will not be able to pay off depositors, and there will be a run on banks. There will be absolute chaos. We cannot let it happen. It is unfortunate, but we cannot let it happen.

Now, we have rejected a big bill, \$80 billion, a so-called cut-as-you-go provision. This bill cuts the money way back, gives them temporary funding. It means we will be back in here next April trying to do the job better.

Anyone who does not like this bill will have that opportunity in April to help improve on procedure.

The gentleman from Texas who spoke earlier frankly amazed me, a Republican Member. If he does not like the administration, talk to the administration, his own administration. They are the ones running this thing. If it is not being run right, talk to them, get them to run it better.

We ought to try to build some of that in our law.

Mr. Speaker, I do not believe we have a choice. We have to give this organization some short-term funding now or there will be runs on banks. That is our choice. It is an unpleasant one. This is a minimum amount of money. We must unfortunately pass it.

Mrs. ROUKEMA. Mr. Chairman, will the gentleman yield?

Mr. NEAL of North Carolina. I am happy to yield to the gentlewoman from New Jersey.

Mrs. ROUKEMA. Mr. Speaker, I want to associate myself with the gentleman's remarks.

Also, I hope that we have noted the loss to the Treasury or the RTC over this time of \$4 million a day with further delays.

Mr. NEAL of North Carolina. Mr. Chairman, the gentlewoman is correct.

Mr. WYLIE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in strong support of the Barnard-Wylie substitute which is before us now, a bill to provide such funds as may be necessary, but not to exceed \$25 billion and it runs out on April 1; so, unfortunately, they have to come back to us on April 1, probably.

I would have preferred just having such funds as may be necessary with certain auditing restrictions, auditing requirements, et cetera, but that did not prevail.

This substitute also provides for a number of restructuring provisions. In particular, I would call attention of the Members to a provision which I was able to get in having to do with risk-weighting of housing loans for purposes of capital requirements.

This amendment directs the financial institution regulators to place seasoned low-risk family loans into the 50-percent risk-weighted category as permitted by the Basle Agreement.

I have here in my hand a letter from the National Association of Homebuilders, which says:

In view of both the historic role that housing production has played in leading the nation out of past recessions and the credit crisis we continue to experience, it is critical that the true level of risk associated with the types of housing loans addressed by the Wylie amendments be reflected in the risk weighting of such loans.

That is a strong endorsement of my amendment.

The Barnard-Wylie substitute also contains a number of other reforms

with reference to affordable housing. The program is opened up to eligible properties held in conservatorship.

Finally, the Barnard-Wylie substitute contains two provisions which I mentioned, one is the risk-weighting to combat the credit crunch, and the other is a presold single family and seasoned multifamily loans arrangement in the bill.

As I indicated a little earlier, this provision has been worked out with Members of the other body, so if we are able to send it to them they will receive it with no objection.

Mr. BARNARD. Mr. Chairman, I yield 2 minutes to the gentleman from Iowa [Mr. LEACH].

Mr. LEACH. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, I will try to use less than the 2 minutes.

Let me just say this is perhaps the most anguishing vote any of us will make this year or any year in the Congress.

The background is very simple. The greatest public policy mistake of the century was made and this Congress was part of it, not exclusively; State legislatures, the executive branch also contributed.

But the issue today is not whether there are losses. They are there, they are real, they are inescapable, but whether we will have a recession turn into a depression. At risk with a vote of this nature is the understanding that taxpayers are going to take a hit. A far more onerous circumstance is that the country will take a wallop if we say no.

So Mr. Chairman, I would just simply urge my colleagues to vote yes on both the substitute amendment and final passage, with the understanding that you will not be voting with pride, but out of necessity.

Mr. WYLIE. Mr. Chairman, I yield 2½ minutes to the gentleman from Utah [Mr. ORTON].

Mr. BARNARD. Mr. Chairman, I also yield 2½ minutes to the gentleman from Utah.

The CHAIRMAN. The gentleman from Utah [Mr. ORTON] is recognized for a total of 5 minutes.

Mr. ORTON. Mr. Chairman, I do not think I will take the entire 5 minutes.

Mr. Chairman, I reluctantly must rise in opposition to this amendment.

I must say, the gentleman from Dallas, TX, has virtually convinced me that if the people of Texas, of all places, are in opposition to funding the RTC, then I find it very, very difficult to ask the people of my district to help put up hundreds of billions of dollars which have gone down the rat hole in Texas, and I am quite offended by that; but the reason I am standing in opposition today is not because of the impassioned pleas of the people in Dallas, but it is because of the last 10 months of

my life that I have spent virtually sequestered in the Banking Committee working on these issues.

Now, we in the Banking Committee have worked very hard for months. We have had hearings. We have had committee markups. We have had subcommittee markups, and we labored mightily and came forth with a bill.

□ 1400

That bill was not perfect, but that bill contained a number of fairly non-controversial structural amendments which passed by a majority of the vote of the subcommittee and the full committee; structural amendments which are aimed and directed specifically at improving the operation of the RTC, aimed at reducing the hundreds of billions of dollars of losses and reducing delays that the RTC has in operating and functioning and carrying out its mandate.

Now, I, like everyone here, realize that the RTC must be funded. I do not like doing it. The problem was created long before I got here. I was in Washington speaking out publicly about the failed policies that brought us to this point.

And in fact I would favor waiving some jurisdictional bounds and making some tax changes that are directly involved with regard to the RTC, the reduced value of real estate assets directly attributable to passive loss rules and the capital gains rules.

By doing a couple of kinds of those directed things, indeed we could show the people of America that we not only understand the problem but that we are willing to stand up and do something about it.

But what I am frustrated about here today is not that we cannot cross jurisdictional lines but that when a committee with jurisdiction comes forward with a bill that then we have as the substitute a bill which has not been marked up in our committee, which has not been debated in our committee, which includes the provisions which one gentleman on the committee and the Committee on Rules believe ought to be included in the final bill.

Now, if we are going to act in that fashion, I submit to you that we may as well abolish the Committee on Banking, Finance and Urban Affairs and turn it over to the Committee on Rules.

For this purpose, I must reluctantly rise in opposition to this amendment because I simply think it is the wrong way to go. Rushing in here at 2 in the afternoon on Wednesday, when everyone is trying to catch an airplane home, to go home to Thanksgiving, and bring this kind of substitute and push it through on a voice vote on the floor is the wrong way to go. And if I am the only person in this House who stands up in opposition to it, then I believe I will be vindicated in the future. It is the wrong amendment.

Mr. Chairman, early this morning the House and Senate conferees completed their efforts on the FDIC Recapitalization and Improvement Act, S. 543/H.R. 3768. I applaud the efforts of the Banking conferees to resolve the differences between the House and Senate versions of this critically important legislation. The resulting legislation is a very workable banking bill worthy of the support of Members of the House of Representatives. The bill recapitalizes the FDIC's bank insurance fund—making good on the Government's commitment to stand behind depositors in federally insured institutions. The bill also makes a number of other important changes to the regulation of the banking industry including ending the FDIC's current "too big to fail" doctrine, strengthening Federal supervision of banks, and requiring prompt intervention by Federal regulators for banks in financial difficulties.

In the course of the conference committee's deliberations, it adopted section 1133 of the Senate bill dealing with the transfer of assets by the RTC. While I agree with the thrust of the section, that the RTC should not be unduly impeded in its attempts to dispose or otherwise transfer the assets of failed depository institutions, this provision threatens to interfere with a current legal dispute. Specifically, it threatens an ongoing litigation between Sears and VISA in the U.S. District Court in Utah posing significant issues in antitrust and commercial law. Mr. Chairman, I do not believe this provision should be construed to interfere with that dispute. In particular, I think that adoption of this provision should not impede the court in dealing with the complex antitrust issues presented by the case. Further, it is clear that while section 1133 does require a person to continue to provide services to a transferee of the RTC, nothing in this section should be interpreted to require that person to increase or expand those services or otherwise modify those services in any way.

Mr. BARNARD. Mr. Chairman, will the gentleman yield?

Mr. ORTON. I yield respectfully to the gentleman from Georgia [Mr. BARNARD]. Mr. Chairman, I have worked with the gentleman from Georgia for days and weeks in the committee, and I appreciate the work that he has done. But this amendment is the wrong way to go.

Mr. BARNARD. I thank the gentleman for yielding.

Mr. Chairman, I would just like to assure the gentleman that this Member did everything possible to include every amendment, but we hit a roadblock. The roadblock roughly was from our colleagues from the North. We communicated with them. Their bill had no semblance at all to the bill that the committee passed out. We would have gotten nothing.

I do think it is dutiful—

Mr. ORTON. Mr. Chairman, reclaiming my time, I would submit then the proper way to act, this bill came out of subcommittee over a month ago and it came out of committee over a week ago and we have been sitting around waiting for a rule for a week. We have

had time to get this to the floor to vote on it, to send it to them to have a conference committee and deal with it in a proper manner.

Mr. Chairman, I urge my colleagues to vote "no."

Mr. WYLIE. I yield myself such time as I may consume just to reply to the gentleman who was just in the well that every single provision in the Barnard-Wylie substitute was considered by the House Committee on Banking, Finance and Urban Affairs and approved. We took out some amendments which were approved by the House Banking Committee because they were controversial, and we tried to get an agreement with the Members on the other side of the Capitol as to what they would take. We think we have worked that out.

Mr. Chairman, I yield 1 minute to the gentleman from Florida [Mr. MCCOLLUM].

Mr. MCCOLLUM. Mr. Chairman, I reluctantly rise in opposition to this amendment and to this bill, and I associate myself with the remarks of the gentleman from Utah [Mr. ORTON].

I think passing something in the name of funding the RTC at this hour when we are talking about billions of dollars we do not have to be spending if we just have reforms in this whole process.

An amendment this gentleman wanted to offer, I discussed with the Committee on Rules. It was not allowed, either not allowed in the committee by the chairman or by the Rules Committee, that would literally save \$25 to \$30 billion, in my judgment, and that of quite a number of other people, simply by not having us close down all the institutions that are now on the list to be closed. They have already closed the bad ones that are out there. The ones that are in the black and are earning, fine, who do not meet certain capital standards we set up in 1979 because we were in a recession, and they cannot meet them now, simply should not be closed. We should not be dumping real estate on the market like we are.

We need fundamental reforms out here before this Member can come out and vote for the billions of dollars in this bill, and we are not having that chance.

Mr. Chairman, despite my strong reservation regarding the rule, I wish to highlight a particular provision in the amendment offered by the Banking Committee. That provision would assist certain thrift institutions in remaining healthy and viable institutions and will prevent a senseless dumping of real estate investments into already weakened markets. The Financial Institutions Reform, Recovery and Enforcement Act, which we passed 2 years ago, requires that the value of subsidiaries engaged in activities not permissible for national banks, such as owning real estate, be phased out of calculations of a thrift institution's capital. When we enacted this phaseout, we expected that institutions could simply divest the

real estate owned by the subsidiary or divest the subsidiary itself. The Congress did not foresee the precipitous drop in real estate markets that has occurred in many areas. These depressed markets make divestiture of real estate a virtual impossibility for most thrifts. Divestiture in these circumstances would serve only to further depress current markets.

For these reasons, the House Banking Committee adopted the provision I am supporting when I offered it in committee as an amendment to the RTC legislation now before us. The provision would give the Office of Thrift Supervision authority to provide relief from the FIRREA phase-out on a case-by-case basis if certain narrowly defined criteria were met. The OTS strongly supports this authority.

It should also be noted that exactly the same practical and policy concerns apply to real estate owned directly by thrift institutions. The OTS now applies the FIRREA phaseout schedule to such directly owned real estate under its risk-based capital regulations. Inflexible administration of that schedule, as with the FIRREA schedule itself, will lead to divestitures that will severely damage institutions and unnecessarily aggravate the weakness of current markets. Therefore, it is my hope that the agency will revise its rules to allow case-by-case relief from its regulatory schedules for thrifts that own real estate directly. It is important to the health of the thrift industry that relief be granted to both categories, subsidiary investors and direct investors.

The CHAIRMAN. The gentleman from Ohio [Mr. WYLIE] has 8½ minutes remaining.

Mr. WYLIE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the gentleman's amendment would use goodwill as capital. We crossed that bridge a long time ago. That is why some of us had to oppose it.

Mr. Chairman, I would yield 2 minutes to the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL. Mr. Chairman, I will be very brief, make a comment or two, and then would like to propound a question to the distinguished majority leader.

Let me say, echo the remarks made by so many here today, that this is not a pleasant task to address ourselves to the subject matter at hand. But, as we have no alternative, then when one charges that we are out there with a bailout here and a bailout there, and, yes, we have salted away some, some private entrepreneurs out there who betrayed their public trust.

It is not always those in public life who are guilty of that. In the private sector it happens every once in a while, and it sure did in spades in the savings-and-loan and bank institution failures. But most of the money is not going to take care of the families of those who salted away. If I remember the figures correctly, 19 million depositors have their deposits guaranteed, an average

of \$9,700. Now, that is where the big buck and the big money goes, to reimburse those depositors whose deposits are guaranteed by law. And we have got to make them whole. We cannot default on that role and responsibility.

That is why I am supporting the Barnard/Wylie substitute and will vote for the bill.

I would like to conclude by simply propounding a rather critical question to the distinguished majority leader.

If the amendment of Representative BARNARD passes, which will set a date certain for the consideration of a second RTC recapitalization bill, is it the intention of the majority to schedule around the middle of March consideration of the economic growth packages, including one to be offered by, certainly, our side under fair procedures? That is the question I would like to propound.

Mr. GEPHARDT. Mr. Chairman, if the gentleman would yield, and I would ask the gentleman from Georgia [Mr. BARNARD] to yield 3 additional minutes to me.

Mr. BARNARD. I yield 3 minutes to the gentleman from Missouri [Mr. GEPHARDT].

Mr. GEPHARDT. Mr. Chairman, it would be our intention to address the growth packages in this manner. I would say to the gentleman that we have had quite a debate over the last week about economic growth. It is obvious that on both sides of the aisle we have great concerns about the economy, great concerns about the loss of these savings-and-loan institutions and a desire on both sides to develop a growth package for our country.

The chairman of the Committee on Ways and Means, the gentleman from Illinois [Mr. ROSTENKOWSKI], in fact intends to have hearings in December and in January to hear testimony.

Mr. Chairman, it would be irresponsible, I think, on anyone's part to try to enter into, today or tomorrow, trying to develop on the floor a growth package. But obviously, with proper investigation and proper work, we ought to be able to do that.

Now, we have different ideas, fundamental differences sometimes on how this should be done. The tax measures that we favor are ones that are targeted at people in the middle. Sometimes we believe that yours are targeted in the wrong area. You have your own views. We have our views.

I would say to the gentleman: I would hope that in that this is very important to our country, and to issues like this one, that even though we will differ, we can find ways to resolve those differences even if it is by debate and vote. And where we can agree, I would hope we would agree and bring forth economic growth packages that have similarities—that have differences—bring them to this floor, decide them, and get them in a position

where they can be put on the President's desk at an early date so that we can change the laws of our country to move this economy in a positive direction.

□ 1410

Mr. Chairman, I would finally say that I think this is a very important vote for all of us. It is a vote that, as I said on the banking bill a couple of weeks ago, nobody wants to make. This is an unpleasant task, but I hope we will all remember that we are not bailing out anyone other than our constituents who have their deposits in these institutions.

Mr. Chairman, it is my understanding that the average deposit in these institutions is around \$9,000. We are not talking about millionaires in most cases. We are talking about average, middle-income Americans. If we vote for this, their deposits will be secure. If irresponsibly we vote against it, then they will not be secure.

I urge Members on both sides of the aisle to back this measure today with a large positive vote.

Mr. WYLIE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I urge an aye vote on the Barnard-Wylie substitute.

Mr. Chairman, I yield back the balance of my time.

Mr. BARNARD. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment in the nature of a substitute offered by the gentleman from Georgia [Mr. BARNARD].

The amendment in the nature of a substitute was agreed to.

Mr. ANNUNZIO. Mr. Chairman, I rise in the strongest possible opposition to this and to any RTC funding bill without adequate safeguards and reforms. None of the bills that are before the House at the present moment contain those safeguards.

During our discussions of RTC, you will be told that the administration warns that any delay in immediately refunding the RTC will cause a \$300 to \$500 million additional cost to the taxpayers. Let me suggest that the administration has already cost the taxpayers \$516 million in delays in seeking RTC funding. It is the administration, not Congress that has brought about this delay.

Let me explain. On May 28, I wrote to the Secretary of the Treasury pointing out that the administration would be asking for additional funding for the RTC during this session of Congress. I said that last year the administration waited until the final days of the Congress to ask for the funding and then blamed Congress for the delay. I asked the Secretary of the Treasury to forward the legislation seeking the additional funding immediately so that Congress could begin working on the problem and not have to wait until the final days, if not the final hours, of the current session.

Now remember, that letter was sent on the 28th of May. I still have not received a response to that letter, and I announced that unless there was a bill before the House, I would

not hold a markup on the RTC funding bill. Finally, the gentlewoman from New Jersey, Mrs. ROUKEMA, introduced an RTC funding bill. Only after she had introduced her bill, did the administration send up an identical bill. And 3 days later, I scheduled markups on the legislation and promptly reported the administration's request from the Financial Institutions Subcommittee, which I chair.

The administration had delayed sending its request to Congress for 129 days. And using the administration's own figures that a delay costs \$4 million for each day the funding is not passed, that means that the administration's unwillingness to forward a request to Congress amounts to \$516 million. If the administration wants to talk about delays, let it first explain its own delays.

Mr. Chairman, I have never been a great fan of the RTC, and I have been opposed to additional funding for RTC, particularly because the Secretary of Treasury, when he first testified on the savings and loan crisis, indicated that it would only cost \$50 million to solve the problem. We have already appropriated \$80 million, and today we will be asked to appropriate anywhere from \$20 to \$80 billion more, and there is no end in sight.

I cannot support the funding request today because most of the reforms and safeguards that were put into the funding bill during the subcommittee markup were subsequently taken out of the bill when the full committee marked it up a few days ago. In short, we are being asked today to hand over billions and billions of dollars, with no changes from existing RTC operations, and with no guarantee that the money will be spent to pay off depositors at failed thrifts.

We will be told during these debates that the RTC needs the money to pay off depositors. And without additional funding, depositors might not receive their money back when an institution goes under. That statement is simply not true. I can assure Members of this body that no one knows how much of the funds will be used to pay off depositors, and I can also assure Members of this body that a portion of the money, perhaps a large portion, will be used to continue the empire building of the RTC.

Mr. Chairman, only Imelda Marcos, in a shoe store, spends money faster than the RTC. The money we are being asked to approve today is not necessarily to pay off depositors. It is for many other things. Although the legislative history of the RTC suggests that the agency will not have any employees, but rather will use employees borrowed from other agencies, the RTC already has some 7,500 employees, and its ranks are growing daily.

The RTC's monthly payroll is \$37.3 million. The agency is topheavy with high-paying jobs. Twenty-eight employees of the RTC are paid in excess of \$103,100 a year, and that is just their pay, without any bonuses. This agency has the highest per capita payroll of any agency in the U.S. Government. The average salary of the RTC is \$76,000 a year.

At a time when your constituents and mine are losing their jobs, the RTC is making sure that its employees are treated to the best.

During subcommittee markup, I successfully authored an amendment to cap the number of RTC employees as of October 1 of this year.

I wanted to make certain that any money that went to the agency would be used primarily to pay off depositors and not to pad payrolls. My amendment was adopted easily. To my astonishment, however, when the bill reached the full committee, the payroll cap was removed, primarily because the RTC said it had to have more employees.

In the subcommittee I was also successful in getting a cap on RTC salaries to prevent the obscene growth of this bloated bureaucracy. But in full committee, that cap was replaced by what literally can be considered a pay increase for RTC top employees, since it raised the pay ceiling to well above the current level for most RTC employees. The new pay level actually encourages RTC to give pay increases to its top level employees.

Now it would be bad enough if the RTC was doing an outstanding job and providing service to the American people, but I don't know of a single Member of this House who has not received numerous complaints from constituents about RTC. I am willing to bet there is not a single Member of the House who will come to this floor and say that they are completely happy with the operations of the RTC. I have received complaints from Members who said their constituents cannot get phone calls returned, they cannot get on the bidding list, and that when contracts are let out, they don't have a chance to be considered for any of the RTC work.

I have tried for the past 2½ years to get RTC to sell more of its assets. But the Agency is moving forward with very little speed in this area. I have repeatedly urged the agency to use the auction method to dispose of property. And the agency has consistently refused to go that route contending that it won't work, and would actually result in lower prices for RTC property.

Yesterday the RTC finally gave in to my demands and held a large-scale auction. And did the agency lose money—did the properties go for fire sale prices? Hardly. In fact, the agency got 28.6 percent more than current market value for the properties, and much more than it was asking for the properties on negotiated sale prices. It was cheaper and quicker to conduct the auction, yet RTC has fought me on auctions for 2½ years.

Despite the success of yesterday's auction, the agency continues to resist auctions. In the subcommittee I was successful in pushing for an amendment that would have required the agency to auction off any property that it held on its books for more than 6 months. In addition, any property that was currently in negotiations when the 6-month period expired, would receive an extra period of time that would have given the agency up to 11 months before it would have had to auction the property. And to prevent fire sale prices, I gave the RTC the right to set the minimum terms and conditions for the auction sale prices. When my amendment reached the full committee, it was voted out of the bill because the RTC did not want to use auctions.

I am convinced, Mr. Chairman, that the RTC does not want to sell properties, and some Members of this body support the RTC in its unwillingness to sell properties even at above-market prices. It is too simple to go to the taxpayers and say, "You pay." And when the

payers and say, "You pay." And when the RTC runs out of money, the agency simply says to the taxpayers, "You pay again, and again, and again."

I would have voted for this bill had the safeguards I authored in subcommittee and other safeguards authored by other Members been contained in this legislation. But because they were stripped out of the bill, I cannot support this legislation.

We cannot ask the American taxpayer to continually pick up the bill for the RTC when much of the money that it spends is in a highly questionable, if not illegal, manner. We even had to adopt an amendment that prohibits the RTC from reimbursing its members for liquor purchases. Does that sound like an agency that is operating in the public interest? The spending of the RTC and its sister agency, the Federal Deposit Insurance Corporation, has been so scandalous that I recently published a staff study outlining some of the questionable expenditures of the agency.

Here are some of the highlights of that study. I encourage Members to get a copy of that study before they vote on this bill.

FDIC purchased 3,000 copies of Asian cookbooks at a cost of \$7,364.

Artwork in the individual hotel suites at the Seidman Center cost \$84,353, while the remainder of the building houses at least \$93,149 worth of art.

FDIC headquarters in Washington spent \$6,330 over a 5-month period to purchase plants in addition to paying \$1,303 per month to maintain them.

The RTC ordered 36 RTC coffee mugs and 12 RTC golf shirts for a total cost of \$3,098.33. Earlier, the FDIC purchased 2,400 FDIC coffee mugs at a cost of \$6,210.

Leather daily planners and refills were purchased for Washington FDIC and RTC executives for more than \$6,000.

FDIC paid a Washington company \$31,274 to have various brass statues and certain brass leasehold improvements rubbed down with oil on four occasions.

Approximately 115 participants at a 4-day conference cost \$65,724, including more than \$2,000 in liquor charges.

In conclusion, let me point out that we are not voting to pay off depositors today, we are voting money to feed the lavish lifestyle of an agency that should be shut down and have its function turned over to the private sector.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. HOYER) having assumed the chair, Mr. DURBIN, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 3435) to provide funding for the resolution of failed savings associations and working capital for the Resolution Trust Corporation, to restructure the Oversight Board and the Resolution Trust Corporation, and for other purposes, pursuant to House Resolution 320, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

The question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. SOLOMON

Mr. SOLOMON. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. SOLOMON. I am, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. SOLOMON of New York moves to recommit the bill H.R. 3435 to the Committee on Banking, Finance and Urban Affairs.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The motion to recommit was rejected.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DANNEMEYER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. The Chair will count. Two hundred twenty-one Members are present, a quorum.

Mr. DANNEMEYER. Mr. Speaker, on that, I demand a division.

On a division (demanded by Mr. DANNEMEYER) there were ayes—112; noes—63.

PARLIAMENTARY INQUIRY

Mr. DANNEMEYER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. DANNEMEYER. Is 175 a quorum?

The SPEAKER pro tempore. Clearly the Chair cannot force everybody to stand every time the Chair asks the person to stand. That is not within the power of the Chair.

Mr. DANNEMEYER. Does there seem to be some glue around?

May I ask for a recorded vote?

PARLIAMENTARY INQUIRY

Mr. THOMAS of California. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. THOMAS of California. Mr. Speaker, do Members have the right to vote or not vote?

The SPEAKER pro tempore. Yes.

Mr. THOMAS of California. And they could choose not to vote?

The SPEAKER pro tempore. Yes.

Mr. THOMAS of California. And that would be the discrepancy between the Chair's count on the quorum and the Chair's count for a division?

The SPEAKER pro tempore. The gentleman from California [Mr. THOMAS] is correct.

Mr. DANNEMEYER. Mr. Speaker, I demand a recorded vote.

A recorded vote was refused.

The bill was passed, and a motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. MAZZOLI. Mr. Speaker, I was unavoidably absent for rollcall vote No. 444, concerning passage of House Resolution 320, the rule for H.R. 3435, the Resolution Trust Corporation Restructuring Act. Had I been present, I would have voted "yea."

AUTHORIZING CORRECTIONS IN ENGROSSMENT OF H.R. 3435, RESOLUTION TRUST CORPORATION REFINANCING, RESTRUCTURING, AND IMPROVEMENT ACT OF 1991

Mr. BARNARD. Mr. Speaker, I ask unanimous consent that the Clerk may be allowed to make technical and conforming changes in H.R. 3435, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

PROVIDING FOR ADJOURNMENT OF THE HOUSE AND THE SENATE FROM WEDNESDAY, NOVEMBER 27, 1991, TO FRIDAY, JANUARY 3, 1992, AND ADJOURNMENT OF THE HOUSE FROM FRIDAY, JANUARY 3, 1992, TO WEDNESDAY, JANUARY 22, 1992

Mr. GEPHARDT. Mr. Speaker, I offer a concurrent resolution (H. Con. Res. 260) and I ask unanimous consent for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the concurrent resolution.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 260

*Resolved by the House of Representatives (the Senate concurring).* That when the House and Senate adjourn on the calendar day of Wednesday, November 27, 1991, in accordance with this resolution, they stand adjourned until 11:55 a.m. on Friday, January 3, 1992, or until noon on the second day after Members are notified to reassemble, whichever occurs first.

SEC. 2. That when the Congress convenes on January 3, 1992, for the second session of the 102d Congress, the House shall not conduct organizational or legislative business

and when it adjourns on that day, it stand adjourned until noon on Wednesday, January 22, 1992, or until noon on the second day after Members are notified to reassemble pursuant to section 3 of this concurrent resolution, whichever occurs first.

SEC. 3. The Speaker of the House and the Majority Leader of the Senate, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and the Senate, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

#### LEGISLATIVE PROGRAM

Mr. GEPHARDT. Mr. Speaker, I ask for this time to explain the resolution and give the Members a sense of the schedule.

Let me first say on the schedule that there obviously could be a vote on this adjournment resolution in the next few moments. It is not debatable, and we will move to vote very rapidly if there is a vote.

After that, there is one additional matter that I am aware of that may require a vote, and that has to do with the Medicaid legislation which is here, and we will be coming forward with a rule, and there could be a vote on it at the end of its consideration.

Other than that, there should not be further votes, assuming the adjournment resolution passes.

Let me say this: This concurrent resolution provides that the House will, when we finish business today, recess until 11:55 a.m., January 3, 1992, at which time we will conclude the first session of this, the 102d Congress. At 12 noon that day, January 3, 1992, we will convene the second session of the 102d Congress and will then immediately proceed to recess until January 22, 1992.

During these recess periods, the House will be subject to the call of the Chair. If it becomes necessary or desirable to reconvene the two Houses to act on the President's returned veto of legislation we are sending to him for his consideration or because the scheduled work of the committees which has been described produces economic legislation which is ready for floor action or for other reasons, we will be able to reconvene in a timely manner.

Any such reconvening of the House will be done in the consultation with the leadership on both sides of the aisle.

That concludes my explanation of the concurrent resolution.

Mr. MICHEL. Mr. Speaker, will the gentleman yield?

Mr. GEPHARDT. I am happy to yield to the gentleman from Illinois.

Mr. MICHEL. Mr. Speaker, I have been asked how long a timeframe would we expect for that Medicaid proposition, or if it appeared to be interminable, then would we just give up, or is there a point there of no return?

Mr. GEPHARDT. I would say that we do have to pass a rule. It is my under-

standing that it will be very rapid. The consideration of the bill should not take more than 15 or 20 minutes, after which there could be a vote. I am not saying that there definitely will be, but I think there could be a vote. We do not expect other votes, however.

Mr. LENT. Mr. Speaker, will the gentleman yield?

Mr. GEPHARDT. I am happy to yield to the gentleman from New York.

Mr. LENT. Mr. Speaker, I just wanted to point out that we have concluded the conference on the Medicaid moratorium legislation, and the chairman of the Subcommittee on Health, the gentleman from California [Mr. WAXMAN], has indicated to me that he would be willing to bring this final piece of legislation up under a unanimous-consent request without the necessity of going through the rule process.

I would ask the gentleman from California if that is a correct statement.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. GEPHARDT. I am happy to yield to the gentleman from California.

Mr. WAXMAN. I would like at the appropriate time to ask for unanimous consent so we could take this bill up without requiring the Committee on Rules to meet and report out a rule. It would not be my intention to ask for a rollcall vote on a rule or on final passage, but this is not only within my discretion. Other Members may want to have a vote. But I think that this is an issue we could dispose of with relatively little debate, and if my choice were to prevail, without a vote that would require all the Members to stay here.

Mr. DANNEMEYER. Mr. Speaker, will the gentleman yield?

Mr. GEPHARDT. I am happy to yield to the gentleman from California.

Mr. DANNEMEYER. Mr. Speaker, I was not a member of the conference committee, but I am on the committee that had jurisdiction over this, the subcommittee, and I have no objection to having the matter come up on the floor by unanimous consent at this time without the necessity of going to the Committee on Rules.

Mr. GEPHARDT. May I state also to the Members one additional concern that they should be aware of. The other body is still in session, and there may be the need for votes. I do not know that there will be votes, I do not anticipate votes, but as long as they are in session, completing business that we have already completed, we never can be absolutely certain that they will not send something back here that will require some kind of a vote.

So if Members are very concerned about being absolutely guaranteed that they will not miss a vote, I cannot stand here at this moment and tell you that I can guarantee you that there will not be some further votes required this afternoon.

Mr. PACKARD. Mr. Speaker, will the gentleman yield?

Mr. GEPHARDT. I am happy to yield to the gentleman from California.

Mr. PACKARD. Mr. Speaker, I simply want to remind the Members that we are now down to about the last flights of the day, and some of us may not get home if we do not catch that last flight. I hope that we are not playing games.

Mr. GEPHARDT. I share the gentleman's view, and I know that all Members will try to respect the needs of our Members.

Mr. FOLEY. Mr. Speaker, will the gentleman yield?

Mr. GEPHARDT. I am happy to yield to the gentleman from Washington.

Mr. FOLEY. Mr. Speaker, before the House concludes its business, I might just note that the House has been in continuous session now for about 26½ hours, and during that time we have had the very steady assistance of all of the staff of the Members of the Congress, of the committees, of the legislative counsel, of our pages, of all who serve the House and serve it so well, and I think we should express our appreciation to those who have worked consistently to bring this session to a completion.

The SPEAKER pro tempore. Without objection, the concurrent resolution is agreed to.

There was no objection.

A motion to reconsider was laid on the table.

#### AUTHORIZING THE SPEAKER AND THE MINORITY LEADER TO ACCEPT RESIGNATIONS AND TO APPOINT COMMISSIONS, BOARDS, AND COMMITTEES, NOTWITHSTANDING ADJOURNMENT

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that notwithstanding the adjournment of the first session of the 102d Congress until January 3, 1992, the speaker and the minority leader be authorized to accept resignations, and to appoint commissions, boards, and committees authorized by law or by the House.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from Missouri?

There was no objection.

□ 1430

#### AUTHORIZING MEMBERS TO REVISE AND EXTEND THEIR REMARKS IN THE CONGRESSIONAL RECORD

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that all Members of the House shall have the privilege, until the last edition authorized by the Joint Committee on Printing is published, to extend and revise their own remarks in the CONGRESSIONAL RECORD

on more than one subject, if they so desire, and may also include therein such short quotations as may be necessary to explain or complete such extensions of remarks. But this order shall not apply to any subject matter which may have occurred, or to any speech delivered subsequent to the adjournment of Congress.

The SPEAKER. Is there objection to the request of the gentleman from Missouri?

There was no objection.

#### APPOINTMENT AS DIRECTOR OF CONGRESSIONAL BUDGET OFFICE

The SPEAKER laid before the House the following appointment as Director of the Congressional Budget Office:

CONGRESS OF THE UNITED STATES,  
Washington, DC, November 27, 1991.

Pursuant to section 201(a)(2) of the Congressional Budget Act of 1974, the Speaker of the House of Representatives and the President pro tempore of the Senate hereby appoint Dr. Robert D. Reischauer to serve as Director of the Congressional Budget Office for the term beginning on January 3, 1991, and expiring on January 3, 1995.

THOMAS S. FOLEY,

Speaker of the House of Representatives,

ROBERT C. BYRD,

President Pro Tempore of the Senate.

#### DESIGNATION OF HON. STENY H. HOYER TO ACT AS SPEAKER PRO TEMPORE TO SIGN ENROLLED BILLS AND JOINT RESOLUTIONS THROUGH JANUARY 3, 1992

The SPEAKER laid before the House the following communication:

U.S. HOUSE OF REPRESENTATIVES,  
Washington, DC, November 27, 1991.

I hereby designate the Honorable Steny H. Hoyer to act as Speaker pro tempore to sign enrolled bills and joint resolutions through January 3, 1992.

THOMAS S. FOLEY,

Speaker of the House of Representatives.

#### DO WE WANT ECONOMIC GROWTH? ENACTING NATIONAL ENERGY POLICY

(Mr. ALEXANDER asked and was given permission to address the House for 1 minute and to revise and extend his remarks and to include extraneous material.)

Mr. ALEXANDER. Mr. Speaker, the economy continues to sag under the heavy burden of an unguided economic policy and a \$4 trillion national debt, \$3 trillion of which was incurred during the past decade.

During the same 10 years, 1980 to 1990, the Department of Commerce reported that the United States paid about \$1.2 trillion to import foreign energy.

Mr. Speaker, it is no wonder that the economy is sick and needs a transfusion. A majority of understandably alarmed Republicans have written the

President to warn that the Nation is enduring "a stagnant economy and an uncertain future."

Do we want economic growth?

Early next year, we have the opportunity to pump new life into the economy by passing a national energy policy.

It should be a policy aimed at significantly reducing this Nation's dependence on foreign oil and stopping the flow of billions-upon-billions of our dollars into the coffers of foreign oil producers. In other words, we should adopt a policy which keeps this money at home.

I can think of no greater single economic stimulus than paying ourselves for our fuel.

In Sunday's Washington Post, Edwin Rothschild spelled out the benefits of a \$5-per-barrel reduction in oil prices. The benefits were great.

The reduction would:

Have the effect of an immediate \$300 billion tax cut.

It would increase the GNP by 1.4 percent.

It would reduce inflation.

It would increase disposable income.

It would reduce both the trade deficit and the budget deficit by stimulating economy activity.

Not bad for five bucks a barrel.

But, what oil producers give, they can take away.

The benefits to our Nation of the oil price reduction, in other words, will last only as long as certain foreign oil producers decide they will last.

It doesn't have to be this way.

We have the means to make these benefits permanent by changing directions in energy, by moving to depend more on our own natural resources and less on imported oil.

Yes, we have the means. But, we lack the will.

Admittedly, it is easier to continue to depend on foreign oil, at least until it runs out.

It is less work, less trouble, less mentally taxing to continue business as usual. It is also less patriotic.

We cannot afford business as usual.

I believe that the figures in Mr. Rothschild's article show clearly the folly of sticking our heads in the sand.

Those figures also show the benefits of rolling up our sleeves and going to work on this problem.

By increasing the use of farm-grown ethanol, for example, we can greatly improve the agricultural economy.

And, that will improve the economies of our Nation's rural areas which will, in turn, have a ripple effect in the cities.

It is also important to remember that American farmers will be more reliable fuel suppliers than foreign oil producers.

One of the problems in crafting a new agenda in energy, Mr. Speaker, is that we are a Nation of forgetters—at least when the gas tank is full.

We forget the oil embargoes.

We forget the huge price hikes.

We forget the tanker reflagging.

We forget going to war to protect our oil supplies.

We forget that our Nation, that America is being held hostage—to foreign oil.

But, our faulty memory is costing us—and costing us dearly in both lives and treasure.

It is cowardly to continue on this path because that will leave the solution of this problem to our children.

I believe it is up to us.

Mr. Speaker, a new national energy policy must have as its goal the breaking of our addiction to foreign crude.

And, the economic benefits from our efforts will be permanent, not a temporary gift bestowed by oil barons.

Yes, our economy needs help. And, we can give it a big shot in the arm by formulating a new energy policy which will make us more self-reliant.

I can think of no more lasting legacy this Congress could leave than an innovative energy policy which will make America and her people more free and more independent than they are today.

Again, it is important to remember that the economic benefits of a \$5-a-barrel drop in oil prices will not be realized unless leaders in Saudi Arabia and Kuwait decree it.

Our Revolution was fought because we were being dictated to by a foreign power. The situation in energy today is no different.

America is being dictated to by those who supply her oil. Much of our economic, military, and foreign policy is established with oil in mind.

I do not want my country to be dependent on the decisions of foreign leaders.

We should be more independent.

We can be more independent.

Unless we resist the future and forget the past.

AN OIL CARD UP HIS SLEEVE

(By Edwin S. Rothschild)

As President Bush watches the economy falter and public support for his domestic leadership erode, he may be considering the one option that can stimulate the economy and deliver his margin of victory next November: getting oil prices down. A reduction in world oil prices of \$5 per barrel in 1992 would have the lubricating effect of an immediate \$300-billion tax cut. This option would, of course, require the assistance of Saudi Arabia's King Fahd, the emir of Kuwait and other Persian Gulf producers, but all of these have been obliging in the past to White House entreaties and are in a good position to oblige Bush now.

It is well known that lower oil prices have an immediate, stimulative economic impact. On an annual basis, a \$5 per barrel drop in oil prices would increase U.S. GNP by about 1.4 percent, reduce inflation and increase disposable income. Lower oil prices would directly reduce the huge U.S. trade deficit and the economic activity stimulated would also reduce the budget deficit because of higher tax

revenues and reduced demand for public benefits.

In addition to lowering the price of gasoline to consumers, a \$5 price cut would reduce operating costs for the airline, trucking and chemical industries. Even though an oil price decline would hurt domestic oil producers, Bush might well conclude that jump-starting the economy—and thus helping to reassure his reelection—is far more important than the complaints of a few noisy Texans.

In any event, other than hoping that consumers increase their spending—and so reduce their savings—to bring the country out of recession, the Bush administration does not have any domestic economy policy levers it can pull. Most economic analysts agree that the President's alternative policy options are blocked by either political or economic considerations.

Short-term interest rates are at their lowest level in 18 years. Lowering short-term interest rates much more would hamper the Treasury's ability to borrow. A tax cut for the middle class, while politically appealing, could not take effect soon enough and would increase the size of the already huge deficit.

By the same token, increasing government spending to stimulate the economy would increase the deficit as well as violate the budget agreement and Republican doctrine, so most observers rule out this option. Finally, stimulating U.S. exports by devaluing the dollar is not likely because the Japanese and Europeans, upon whom we are dependent to finance our trade and budget deficits, would resist such a move.

But domestic levers are not the only weapons in the president's arsenal. There are also his close friends in the Middle East, the most important of whom is King Fahd of Saudi Arabia.

There are several recent precedents for cooperation between the Saudi monarch and American presidents. For example, in 1986, the Reagan-Bush administration persuaded Fahd to open Saudi oil spigots to reduce world oil prices from \$29 to \$18 a barrel. Together with the devaluation of the U.S. dollar engineered by then-secretary of the treasury James Baker, the oil price crash boosted U.S. economic growth. (It also triggered an economic collapse in Texas, Louisiana and other oil-producing states and hastened the S&L crisis.)

King Fahd's commitment to U.S. oil and foreign policy was also shown during the Reagan administration's secret war against the Sandinistas. In February 1985, when he visited Reagan, the king agreed to contribute at least \$24 million to the cause at the request of then-national security adviser Robert McFarlane.

In 1988, during the Iran-Iraq War, the administration sent the Navy to protect Saudi and Kuwaiti oil tankers. As a Washington Post editorial in May 1988 observed, "Because of the number of Navy ships now in the gulf, and their demonstrated readiness to hit back at Iranian provocation, America's standing among the gulf Arabs is currently high. One result is that the price of oil will for the present stay low." William Randol, a highly regarded Wall Street analyst, was even more direct, stating in a June 1988 analysis, "Some have maintained that there is a secret pact between the United States and Saudi Arabia that provides for the continued presence of the U.S. Navy in the Persian Gulf in exchange for Saudi Arabia's agreement to keep oil price down between now and the November presidential election."

For its part, the Bush administration has been highly supportive of the Saudi monarch.

The most salient example of that support was, of course, the Persian Gulf War, which was premised on protecting the Persian Gulf monarchies and U.S. access to the world's most abundant and cheapest source of crude oil. Recently the king, delighted with the war's outcome, was effusive in his praise of Bush saying, "A man of this caliber deserves to head the United States another time."

In the earlier election years 1986, 1988 and 1990, crude oil prices fell considerably. Market conditions during 1992 will be different from conditions in those years. (Between January and June of this year crude prices fell \$5 a barrel.) But Bush has reason to expect that he can rely on his Persian Gulf oil-producing friends to keep their oil output high enough to depress prices.

First of all, the International Energy Agency expects little near-term growth in world oil demand. Secondly, even though Soviet production and exports are expected to decline, the Kuwaiti oil industry is roaring back and should be producing about 500,000 barrels per day by early next year. The Saudis, for their part, are at work increasing production capacity and could probably produce 9 to 10 million barrels a day, if necessary.

In addition, it is likely that Iraq will be able to export about 500,000 barrels a day, an increasing likelihood as the Bush administration tones down its criticism of Iraqi non-compliance with U.N. resolutions. Analysts also expect increased production from North Sea producers. Finally, stocks of oil are quite high. All of these factors indicate that if Saudi Arabia, Kuwait and the United Arab Emirates decide to maximize their production, they could easily propel a \$5 drop in world oil prices.

Fahd's willingness to pump extra oil to reduce oil prices in 1992 would be only a continuation of a close mutually supporting economic, political and military relationship that will ensure continued U.S. arm sales and military protection in the volatile Persian Gulf, and coincidentally help his friend George Bush. The only downside is that while an oil price drop would improve the president's—and the U.S. economy's—short-term prospects, it would not necessarily have a positive long-term effect on the economy. Once the election is safely over, the Saudis would, in all likelihood, reinstate their production policy to maintain world prices at or nearly \$20 a barrel. Thus, unless the economy recovered for other reasons, higher oil prices in 1993 could simply resurrect the recession.

Mr. DORGAN of North Dakota. Mr. Speaker, will the gentleman yield?

Mr. ALEXANDER. I yield to the gentleman from North Dakota.

Mr. DORGAN of North Dakota. Mr. Speaker, I just want to say that the gentleman from Arkansas [Mr. ALEXANDER] has been a leader on these energy issues, especially ethanol and other national energy policy issues, for a long, long time.

The point the gentleman makes is an important point to understand, that putting our country on the right track on an energy policy is an economic growth stimulus plan. It will strengthen this country from within if we begin to do the things we should do in energy policy to make this country move toward greater energy independence.

Mr. Speaker, I commend the gentleman from Arkansas [Mr. ALEXAN-

DER]. He has a voice that has continued to be raised year after year after year.

Mr. Speaker, I hope all of us next year can work on an energy policy that strengthens this country.

Mr. ALEXANDER. Mr. Speaker, reclaiming my time, the gentleman from North Dakota [Mr. DORGAN] has likewise joined in as an early advocate of a national energy policy and in the development and use of alternative fuels, those that we can produce here in our own Nation.

Mr. Speaker, the benefits to our economy can be far beyond our imagination. Just imagine if we had, back in the early 1980's, developed a national energy policy and reduced our dependence on foreign oil by as much as 50 percent. We could have saved \$500 billion.

#### MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. McCathran, one of his secretaries.

#### TRIBUTE TO BOB JOHNSON

(Mr. SANTORUM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SANTORUM. Mr. Speaker, this is the first opportunity I have had to come to the well since I found out some very tragic news in Pittsburgh yesterday afternoon. I come here with profound grief personally and for the city of Pittsburgh over the loss of the hockey coach for the Pittsburgh Penguins, a great hero, a sports hero, "Badger" Bob Johnson.

Mr. Speaker, Bob Johnson took a team of very gifted athletes in Pittsburgh that had never won anything and had high expectations every year, and, through his positive attitude, through his tirelessness and conviction that these people could achieve, molded this team and made it a winner.

Mr. Speaker, Bob Johnson impressed upon this team and impressed upon a community a can-do positive attitude. He was always upbeat. It was always a great day for Bob Johnson.

Mr. Speaker, even after he discovered after the season that he had inoperable brain cancer, Bob Johnson was upbeat. Bob Johnson was positive, and Bob Johnson was a winner. Pittsburgh will dearly miss that positive influence in their community. The kids in Pittsburgh who looked up to him and admired him will miss him.

Mr. Speaker, if I could take just a second to share my own personal experience with Bob Johnson. When the Penguins came here to Capitol Hill and to the White House to meet with the President, Bob and his tremendous wife Martha, who was with him, were there with the Penguins. But you would have

thought Bob was the trainer or the water boy.

□ 1440

He stood in the background and allowed his team, his athletes to revel in the day and just for him to soak in their joy. And to marvel, to marvel in their success and not seek any attention for himself.

He was a great man. Pittsburgh will miss him. I will miss him, and this country will miss men like Bob Johnson.

Mr. WEBER. Mr. Speaker, will the gentleman yield?

Mr. SANTORUM. I yield to the gentleman from Minnesota.

Mr. WEBER. Mr. Speaker, I would like to associate myself with the remarks of the gentleman from Pennsylvania. It is my understanding that Bob Johnson is a native of Minnesota and that he has many friends back there. I appreciate the very moving remarks the gentleman has made and I would like to associate myself with those remarks.

Mr. SANTORUM. Mr. Speaker, I will be placing even further remarks in the RECORD at a later date.

#### FUNDING FOR HEAD START

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, I must say I am very, very disappointed as we leave here that one more time I do not think we have treated America's children fairly. I am going to ask unanimous consent to put in the RECORD a Wall Street Journal article written this Tuesday by Herbert Stein, who is the former chairman of President Nixon's Council of Economic Advisers. I think it is very important what he said in this column.

What he said in there is that the proper way to have a growth package is to do things like fully fund Head Start, to fully fund things that are investments in human beings, because human beings are the ones that are going to be out and be competing in the future.

If we look at our history and the past growth charts of this budget in the 1980's, we have done exactly the wrong thing. We are investing in the wrong thing because it shows that the investment in children has only been one-tenth of any other investment anywhere else in the Federal Government.

I hope when we come back we can finally begin to remedy this oversight. I have been so hopeful that when both the House and the Senate had passed their commitment that at least that would stay in. It makes me very sad that we are leaving here and that was taken out. But let us hope that over the holiday we will have time to reflect upon this and get these priorities back into the budget.

I think Nixon's economic adviser is right. Head Start and programs like that are the way to get this country moving again, and it is very essential that we get refocused on it.

I include for the RECORD a copy of the article to which I referred.

[From the Wall Street Journal, Nov. 26, 1991]

#### WRONG REASONS TO OPPOSE A TAX CUT

(By Herbert Stein)

I am not in favor of a tax cut. I would like to write that on the blackboard 100 times, because what I say here will almost certainly be misinterpreted. But I am uncomfortable with bad reasoning, even when it sometimes leads to the right conclusion. I think that the common reasons about a tax cut today is bad.

No wisdom is more conventional these days than the proposition that the large budget deficit renders ineffective the traditional instruments of anti-recession fiscal policy—cutting taxes and increasing expenditures. The argument is that increasing deficits would undermine confidence, raise interest rates, depress investment and prolong the recession.

#### AS LOGICAL AS HOOVER

This argument may be correct. Sixty years ago, during the Depression, Herbert Hoover believed it. In fact, he followed the argument to its logical conclusion. If a tax cut would weaken confidence and worsen the Depression, a tax increase would inspire confidence and promote recovery. So, he raised taxes. President Hoover was not a dishonorable man or a foolish one. He was worse; he was unlucky. No one today is willing to be as logical as President Hoover, but many would go halfway. They would say that today's taxes are like Baby Bear's bed—"just right." To raise them or to lower them would be dangerous.

The confidence argument is very tricky. No one really knows what affects the confidence of investors, or by how much. The "how much" part is important. If, for example, taxes are cut, there will be a number of consequences other than the effect on confidence. The result will depend on the net of these consequences.

Suppose that income tax rates are cut by some large amount across the board, reducing federal revenue by, say, \$50 billion a year. Shoppers return to the malls, cash registers are ringing, inventories are being worked down, profits are rising. Are investors going to bang their foreheads and say: "Egad, the deficit is rising. We better hunker down, sell bonds, and stop investing"? And if they do, will the negative effect be so great as to offset the positive effects of higher consumer spending? All one can honestly say is that one doesn't know.

When talk about a tax cut blossomed recently, long-term interest rates rose. This rise was commonly interpreted as due to the tax-cut talk, and as a sign that cutting taxes would have a negative effect on the economy. Aside from the fact that journalistic explanations of daily interest-rate moves are a weak reed for policy, this reasoning is seriously incomplete. The standard "textbook" description of the way in which a tax cut would stimulate the economy includes a rise of interest rates.

The increase in the budget deficit tends to raise interest rates, and that tends to restrain investment. At the same time, the cut in taxes raises consumers' spending, which tends to raise investment to meet the enlarged market for consumers' goods. Wheth-

er the net of these two tendencies is an increase or decrease of investment is unclear, but total spending—investment plus consumption—rises. The rise of interest rates contributes to the expansion of the total economy by reducing the demand for money. Possibly this textbook model does not work. But to jump from the fact or prospect of an increase of interest rates to the conclusion that stimulative fiscal policy is ineffective would require evidence and analysis that is surely absent in the present discussion.

Today's paralysis about the deficit is puzzling after the experience of the strong recovery from the deep Reagan recession in the face of, or perhaps led by, the soaring Reagan budget deficits. Perhaps the feeling is that although, as Adam Smith said, there is a great deal of ruin in a nation, the Reagan administration used it all up. Certainly many people are being misled by a simple-minded picture of the history and prospects of the deficit. They see an enormous increase in the deficit for the current fiscal year, to about \$350 billion, and extrapolate that into an explosion.

The fact is that this year's deficit is heavily influenced by two extraordinary and temporary factors—the savings and loan bailout and the recession. Realistically, our long-run prospect, and it is the long-run that mainly counts, is for the deficit to level out around \$180 billion and for both the deficit and the debt to be on a declining path relative to gross national product.

Nervousness today about the use of anti-recession fiscal policy is aggravated by an unrealistic view of the 1990 budget agreement. Although hardly anyone likes the 1990 agreement very much, there is a common feeling that it is the last barrier that keeps us from sliding down the easy descent to Avernus. (Ah, fourth-year Latin!) Any departure from the agreement, however small, is regarded as opening the door to uncontrollable, unlimited, expenditures and deficits. President Bush encourages this attitude by describing any budget proposal he dislikes as a "budget-buster." But that is not the way the world works.

Budgets may be bent, modified, or enlarged, but they are not busted. There remains a budget, and many more decisions to be made and lots of opportunities to undo what may be done today if it turns out to be the wrong thing to do. The president has a veto power, and none of his vetoes has been overridden. He does not have to worry that he cannot prevent a little pussycat of a tax cut from turning into a raging lion.

The 1990 budget agreement was a particular expression for a particular point in time of a few more durable principles. They were:

- (a) That gradual reduction of the deficit was important.
- (b) That limiting expenditures and increasing revenue were both eligible means for achieving that end.
- (c) That because of certain unpredictable conditions, including the costs of the savings and loan bailout, the costs of various entitlements, and the state of the economy, a precise path for the total deficit could not be prescribed.
- (d) That for some categories of expenditures, ceilings enduring for several years could be established.
- (e) That the world is uncertain, and room has to be left for departure from some of the terms of the agreement when the president and Congress concur without the other terms being invalidated.

If our leaders would describe our policy in this way, they would be able to think of

what needs to be done now without necessarily implying that any step they take is over the edge of a cliff.

Since I have gone this far, you may wonder why I am not in favor of a tax cut now. I have two reasons:

First, the recession so far has been moderate—milder than the average post-war recession—and I see no persuasive evidence that we will not have, with the assistance of active monetary policy, an ordinary recovery. In that case, extraordinary fiscal stimulus is unnecessary and a potential source of future inflation.

#### SEVERE AND PROTRACTED

Second, even if I thought the recession would be more severe and protracted, and monetary policy less potent, than I do, and fiscal stimulus therefore more indicated, I would not start by cutting taxes. I would ask what is the most important use of the tens of billions of dollars of potential output that is not being used and should be used if the economy is to recover.

My answer would not be to increase the consumption of Middle America, which would be the main consequence of cutting taxes. I would rather fund Head Start fully, make sure that states have the money to provide the training, social services and jobs called for by the new welfare program, beef up the struggle against crime, and keep the libraries and schools open. (A county neighboring Washington is planning to cut the school year because it is running out of money!) I would also accelerate public construction and military procurement, with the intent of bringing into 1992 some of the work that would otherwise be done in 1994 and 1995.

Of course, in saying this I am only saying what everyone else says. That is, everyone wants to do for the recession what he always wanted to do, recession or not. The people who want to cut particular taxes—such as the capital gains tax—always want to cut those taxes, in good times or bad. There is nothing wrong with that. But we should be candid and recognize that we are talking about competing priorities and values, and not about “neutral” means for curing a recession.

#### DEATH IN THE FOREST

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute, and to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, several weeks ago, the National Geographic Society's “Explorer” program devoted important segments to the illegal poaching of black bears. Sickening indeed were the scenes of black bear corpses lying on the forest floor, with their gallbladders removed and paws chopped off.

Most people are unaware of the fact that our forests are silently being emptied in order to satisfy the heavy demand for bear body parts from customers in Korea, Japan, and Taiwan. In this gruesome business, Asian herbal dealers purchase bear gallbladders from poachers, and then ship them overseas where they are prized for various curative properties. The gallbladder is dried, pulverized, and sold in capsule form to those who believe that

it will cure blood disorders, cancer, and even hemorrhoids.

According to law enforcement officials, the trade in bear gallbladders has become so frenzied that counterfeiters will often substitute pig and cow gallbladders for the real article. Some dealers now ask poachers to provide a videotape documenting the removal of the gallbladder—a bizarre “certificate of authenticity” if there ever was one. Mr. Speaker, this is an outrage and one that I plan to address in the form of legislation when the Congress reconvenes in 1992.

#### OCTOBER SURPRISE

(Mr. LIVINGSTON asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. LIVINGSTON. I will be brief, but for the last 6 or 8 weeks I have been coming to the well of the House to chastise the Democratic leadership for its intent to proceed with an investigation known as the October surprise. That is the investigation of the alleged activities of the Reagan administration before they came to office to deal with the Ayatollah in order to keep our hostages—our American hostages—held hostage in Iran in order to gain political advantage.

That was an investigation based on myth and was totally debunked by the authors of the articles appearing in the New Republic and in Newsweek. It was thrown out by Members of the Senate. They chose not to investigate it.

The GAO said there was nothing to it, and yet Members of this House insisted that there was something there and they should go forward with the investigation.

I came day after day saying that there was nothing to it, and I just want to applaud the Democratic leadership for realizing there was nothing to it. There was no political advantage to go forward with that investigation, and we did not bring it to the floor of the House.

I think it is good for the country that we start thinking about the problems that face this country today and not mythical aberrations that might have transpired according to liars and con men some 12 years ago.

#### HAITIAN REFUGEES

(Mr. RANGEL asked and was given permission to address the House for 1 minute.)

Mr. RANGEL. Mr. Speaker, it is getting close to the end of this session and I do hope at the appropriate time that I will be able to make a unanimous-consent request hoping that we can agree that the President has done a remarkable job in striking out against the oppression that exists in Haiti and encouraging the Organization of Amer-

ican States to intervene to bring peace and to restore or reinstitute a legitimate government in Haiti and that we hope that he will continue to reach out to other countries to provide such type of safe haven for the poor wretched souls that are fleeing for their lives from an out-of-control bandit, vicious terrorist army that overthrew the legitimate government.

I want to thank the Republican side for cooperating. The effort still continues, and I hope that before we finally adjourn some agreement can be made with the White House, working with the legislative body, to say that with all of our efforts we would not have to return these people to Haiti.

#### THE ECONOMIC GROWTH PACKAGE

(Mr. SCHEUER asked and was given permission to address the House for 1 minute.)

Mr. SCHEUER. Mr. Speaker, we have heard a lot about an economic growth package these past couple of days. I think we have to ask ourselves, what constitutes an effective economic growth package. For the Republicans, we know it means a capital gains tax cut for the rich.

A capital gains tax is not the cure to all that ails us. Yes, we should index capital gains, and maybe make the holding period longer, but if we think that pushing through a capital gains tax cut at this late hour will solve our economic woes, we are only kidding ourselves.

Making our economy more conducive to economic growth is a long-term problem, and passing short-term solutions to long-term problems, as we all know, is not a good idea.

If we want to spur long-term growth we need to increase savings, investment, and productivity, and a capital gains tax cut is not a very effective way to do this.

The best way to spur savings is to reduce our national deficit. Soaring Federal spending continues to place an incredible drain on our economy. If you want to consider tax policy, then a targeted investment tax credit is a much more effective growth tool than a capital gains tax cut.

The other thing we must do is improve our productivity. To do this we must make our work force better prepared and better educated, and we must improve the efficiency of the equipment we use. A better educated, more skilled work force will make our industries more competitive and spur growth.

Before I close, I would like to read a couple of sentences from an Op Ed piece that appeared yesterday.

I am not in favor of a tax cut \* \* \* I would ask what is the most important use of the tens of billions of dollars of potential output that is not being used and should be used if the economy is to recover.

My answer would not be to increase the consumption of Middle America, which would be the main consequence of cutting taxes. I would rather fund Head Start fully, make sure that States have the money to provide the training, social services and jobs, \* \* \* beef up the struggle against crime, and keep the libraries and schools open.

This letter was not written by some left wing, Democratic yahoo. It was written by Herbert Stein, the conservative Chairman of President Nixon's Council of Economic Advisors, and currently a fellow at the American Enterprise Institute, and it was published in yesterday's Wall Street Journal on the Op Ed page.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. HOYER). The Chair will announce that the Chair reserves the right and specifically puts on notice all Members that the House may, at any time, at the designation of the Chair, return to the regular order of legislative business.

#### BANKING LEGISLATION

(Mr. HOAGLAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOAGLAND. Mr. Speaker, we passed two important bills earlier this afternoon, a banking bill and the RTC refunding bill. I would like to talk a little bit about the relationship between those two bills at this time. I think this is an appropriate time to make the remarks that I would like to make, and I think are an important part of filling in the picture on those two bills.

The RTC bill that we just passed that authorizes borrowing up to an additional \$25 billion underscores the reservations many Members have about the banking bill.

As we well know, because of failures in the late 1970's and early 1980's to deal properly and effectively with the problems of the thrift industry, failures here in Congress, failures at the State level, failures in the administration, we have already incurred since 1989, \$80 billion in losses in institutions that we have taken over through the Office of Thrift Supervision and the Resolution Trust Corporation. That is in addition to the billions of dollars that we incurred before 1989 when we refunded the bank insurance fund to the tune of \$15 billion in about 1987 and 1988, and also we had a series of year-end tax breaks for institutions that were being taken over in late 1988.

This experience with the savings and loan crisis once again today makes clear to us how tremendously expensive our failure to deal adequately with

problems in the financial services institutions industry can be, how terribly costly they can be.

The banking bill we passed earlier today was the subject of some celebration by those who spoke before passage, and in fact it is a good bill as far as it goes. It is a good bill in that it enhances the regulatory structure of those organizations that oversee banks, the FDIC and the Office of Comptroller of the Currency, and the Associated Regulators, and it makes a lot of very positive changes in the regulatory structure. We have heard talk about early intervention, annual onsite examinations, and on and on, significant reforms. But we must point out also that that is not without considerable additional cost to the industry, because all of those additional regulatory features do cost the industry additional funds, some of which are passed on to the depositors and to the citizens of our country.

The point I would like to make is that, as has been stated so often before, the banking industry is in decline. It is losing market share. In the last 20 years it has made a series of investments in real estate or foreign countries that have turned out to be poor investments, and is suffering a number of structural problems. Many of those structural problems relate back to depression era statutes that are currently on the books that simply need to be revised, and we are not going to stem the decline in the banking industry if all we do is enhance the regulatory part of the equation.

We also have to take important steps to make the industry more competitive, to make the industry more profitable, and to make banking failures less likely. We need to do things like interstate branching which will provide millions of dollars of savings in the administration of banks around the country. We need to seriously consider giving the banks the ability to sell and make money off of additional products, products that their competitors currently use, large financial industry rates that banks cannot offer, a whole range of financial services that banks under the provisions of the Bank Holding Company Act and other Federal statutes are prohibited from offering. Until we make these fundamental structural changes, the industry is going to continue to decline.

In other words, regulatory enhancements alone like those we enacted today, are not going to be enough. I think it is very, very important for us to recognize that we do not want to be in a position 10 years from now to look back to this year, this August, September, October when the Banking Committee reported out a good bill, H.R. 6 that my colleague from New York [Mr. FLAKE], actively participated in, and that bill was emasculated on the floor, and a whole range of things were taken

out of that bill that were intended to make banks more profitable and more competitive, because that ultimately is the thing that is going to stave off a sort of kind of recovery in the banking industry, taxpayer financed, that we have to implement in the savings and loan industry.

□ 1500

So let me just say in conclusion, Mr. Speaker, that yes, it was a good bill we passed today, but only as far as it goes. We have much, much more work to do and we simply have got to put back on the plate, back before this body, these very significant structural reforms.

Let me make one final point in closing. We have accomplished a great deal this year. The Banking Committee reported out a bill the likes of which the committee has never reported before, and that bill was debated on the floor of this House. These issues have not been debated out here before that in a long, long time.

So the silver lining is that they were debated.

Also, it is very important to get through any legislative body reforms in 1 year from the time we try it the first time.

We have to remember that we have got to come back time and time again until we get these changes made.

#### A TRIBUTE TO TWO GREAT TEACHERS

(Mr. FLAKE asked and was given permission to address the house for 1 minute.)

Mr. FLAKE. Mr. Speaker, I rise today to take advantage of this opportunity to pay tribute to two very special persons in my life. Both of them were teachers during my youth. I would suggest that without their involvement in my life and in my development, I would not be standing as a Member of the House of Representatives today.

The first person is Mrs. Gladys Grice, to whom I pay tribute posthumously today. She is a teacher I met in my third grade year. She was also my fourth grade teacher, because my early years of education started in a four-room classroom in which there were eight grades.

I entered into the third grade with Mrs. Grice, and the next year I moved across the room to the fourth grade.

In order to get to the Korthville Elementary School where Mrs. Grice taught, we had to pass three white schools so that we could go to the only black school in the district; but Mrs. Grice never allowed us to make excuses and alibis for the fact that we had to find our way to this little school in the country in order to be educated. Rather, she demanded of us a degree of excellence that made all her students realize that it was not about color, but it

was really about whether one had a will to excel. She was a very creative woman who in 1 year of my life, my fourth grade year when I had to stay out of school for a whole semester, came each Friday to my house and brought me my homework, picked up homework from the previous week and she would mark it and then bring back another batch of homework.

It was a very good thing Mrs. Grice did, because she lived almost a hundred miles away from where the school was. She went 16 miles out of her way to extend herself to me as a student.

Today, I would like to pay tribute to her because I believe that she represents the epitome of what teachers can do and ought to do if they are seriously concerned about educating our students. It would be marvelous if our educational system had in it more persons like Gladys Grice who took the time to make the sacrifice to assure that students excelled to the degree of their potential.

The second person whom I would like to pay tribute is Mrs. Jewel Simpson Houston. I also met Mrs. Houston as a very young man. She was my history teacher in high school, and during my high school years I worked in the bookstore at school which turned out to be moments that she monitored and managed me as I did my homework. Without her guiding and directing my life, I suspect that I could not be standing here this day.

I saw her about a month ago. She said she never could have imagined that in her teaching of civics and history that she would have a student who would be a Representative in this body.

Mr. Speaker, I am very pleased to pay this tribute, because she took extra time with me. After school she took me to various places, taught me public speaking, and in due time I became the president of a number of church organizations throughout the State of Texas.

One of the things that I attribute to my success even as a pastor is the simple fact that she took time to teach me public speaking. She took time to take me to places where I aspired to and was accepted in positions of leadership, and it is out of those positions of leadership that I was blessed to be able to come forth as a pastor and as a Member of this House of Representatives.

Mrs. Jewel Houston went to a small college in Texas called Quinn. She went on to Texas Southern and received her master's degree. She still lives, though she has retired after 34 years of service both as a teacher and as a counselor in education in the Aldine-Carver School District in Houston, TX.

Mr. Speaker, I pay tribute to both these women because both of them have made sacrifices to improve the lives of so many hundreds of young people, and I stand as an example of

what can be done when teachers are committed, dedicated, concerned, and willing to make the sacrifice, demanding of their students a degree of excellence which those students by nature would not believe they had.

Again, she would not allow us to make excuses about being black, but she told us that we could be the best that we could possibly be if we were taught enough for it.

Mrs. Grice, Mrs. Houston, thank you.

REPORT ON FISCAL YEAR 1992 REDUCTION IN TRAVEL AND TRANSPORTATION—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore (Mr. RANGEL) laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Appropriations and ordered to be printed.

(For message, see proceedings of the Senate of today, November 27, 1991.)

A MOST SIGNIFICANT HIGHWAY BILL

(Mr. WISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WISE. Mr. Speaker, as the session winds down, I think there has been a lot that is significant that has been accomplished in terms of economic recovery. The most significant bill that I have heard Members on both sides of the aisle address themselves to is the highway bill. I hope that is a harbinger of things to come, because what the highway bill does is to mark the first significant public investment that has occurred in probably a decade in this country. The 1986 highway bill was significant. This one takes that one even further. What this bill does is to put \$151 billion over a 6-year period into a highway program; not enough, Mr. Speaker, it is not enough, but it is a healthy start.

So its most immediate result will be to create up to 2 million new jobs in construction in the industries that will benefit from this and flow from this.

But I hope just as the Congress has put itself into public investment, it will also look at other kinds in the months to come; aviation, for instance, water and sewer, construction grants programs, schools and other facilities, and I think very significantly telecommunications, because there is an infrastructure that needs to be developed.

Some quick statistics, Mr. Speaker. One is that Japan with half our population and half our gross national product is spending more today in real dollars in infrastructure development, in

public infrastructure investment, than does the United States; quite a telling statistic.

Another interesting statistic I think, Mr. Speaker, is that studies are beginning to show that for the first time investments in infrastructure directly correlate with increases in productivity.

You may wonder why we have been running a flat line in this country for a number of years.

□ 1510

Because perhaps it is our infrastructure today, in terms of our gross national product, is exactly one-half of what it was 20 years ago.

So this highway bill today I hope and believe can mark a significant change from that.

I hope that we understand that a \$1 investment in infrastructure is not like \$1 spent in a transfer payment or buying something. That dollar comes back time after time after time. Indeed, it generates new tax revenues.

Whole portions of my State I can see an economic birth and sometimes a rebirth because of massive investments in infrastructure which permit the private sector to make the investments they need to make.

I am very encouraged and hope that this investment that we see today is a sign of things to come because our country is saying we want to be building again.

CORRECTING TECHNICAL ERRORS IN ENROLLMENT OF S. 543, COMPREHENSIVE DEPOSIT INSURANCE REFORM AND TAXPAYER PROTECTION ACT 1991

Mr. RANGEL. Mr. Speaker, I offer a concurrent resolution (H. Con. Res. 261) and ask unanimous consent for its immediate consideration.

The Clerk read the title of the concurrent resolution.

The SPEAKER (Mr. FLAKE). Is there objection to the request of the gentleman from New York?

Mr. HUNTER. Mr. Speaker, reserving the right to object, I would ask my friend, the gentleman from New York, has this been cleared with the Republican leadership?

Mr. RANGEL. Mr. Speaker, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from New York.

Mr. RANGEL. I thank the gentleman for yielding.

Mr. Speaker, yes, it has been; not only with the leadership but with the minority, the Banking Committee on the Senate side as on the House side.

## AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. HOYER) at 4 o'clock and 34 minutes p.m.

CONFERENCE REPORT ON H.R. 3595,

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicaid Voluntary Contribution and Provider-Specific Tax Amendments of 1991".

SEC. 2. PROHIBITION ON USE OF VOLUNTARY CONTRIBUTIONS, AND LIMITATION ON THE USE OF PROVIDER-SPECIFIC TAXES TO OBTAIN FEDERAL FINANCIAL PARTICIPATION UNDER MEDICAID.

(a) IN GENERAL.—Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by adding at the end of the following new subsection:

"(w)(1)(A) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State (as defined in paragraph (7)(D)) under subsection (a)(1) for quarters in any fiscal year, the total amount expended during such fiscal year as medical assistance under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during the fiscal year—

"(i) from provider-related donations (as defined in paragraph (2)(A)), other than—

"(I) bona fide provider-related donations (as defined in paragraph (2)(B)), and

"(II) donations described in paragraph (2)(C);

"(ii) from health care related taxes (as defined in paragraph (3)(A)), other than broad-based health care related taxes (as defined in paragraph (3)(B));

"(iii) from a broad-based health care related tax, if there is in effect a hold harmless provision (described in paragraph (4)) with respect to the tax; or

"(iv) only with respect to State fiscal years (or portions thereof) occurring on or after January 1, 1992, and before October 1, 1995, from broad-based health care related taxes to the extent the amount of such taxes collected exceeds the limit established under paragraph (5).

"(B) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State under subsection (a)(7) for all quarters in a Federal fiscal year (beginning with fiscal year 1993), the total amount expended during the fiscal year for administrative expenditures under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during such quarters from donations described in paragraph (2)(C), to the extent the amount of such donations exceeds 10 percent of the amounts expended under the State plan under this title during the fiscal year for purposes described in paragraphs (2), (3), (4), (6), and (7) of subsection (a).

"(C)(i) Except as otherwise provided in clause (ii) subparagraph (A)(i) shall apply to donations received on or after January 1, 1992.

"(ii) Subject to the limits described in clause (iii) and subparagraph (E), subparagraph (A)(i) shall not apply to donations received before the effective date specified in subparagraph (F) if such donations are received under programs in effect or as described in State plan amendments or related documents submitted to the Secretary by September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

"(iii) In applying clause (ii) in the case of donations received in State fiscal year 1993, the maximum amount of such donations to which such clause may be applied may not exceed the total amount of such donations received in the corresponding period in State fiscal year 1992 (or not later than 5 days after the last day of the corresponding period).

"(D)(i) Except as otherwise provided in clause (ii), subparagraphs (A)(ii) and (A)(iii) shall apply to taxes received on or after January 1, 1992.

"(ii) Subparagraphs (A)(ii) and (A)(iii) shall not apply to impermissible taxes (as defined in clause (iii)) received before the effective date specified in subparagraph (F) to the extent the taxes (including the tax rate or base) were in effect, or the legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

"(iii) In this subparagraph and subparagraph (E), the term 'impermissible tax' means a health care related tax for which a reduction may be made under clause (ii) or (iii) subparagraph (A).

"(E)(i) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for the portion of State fiscal year 1992 occurring during calendar year 1992 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in the portion of that fiscal year.

"(ii) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for State fiscal year 1993 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in that fiscal year.

## RECESS

The SPEAKER pro tempore (Mr. RANGEL). The Chair declares a recess until approximately 4 p.m.

Accordingly (at 3 o'clock and 31 minutes p.m.), the House stood in recess until a time in excess of 4 p.m.

"(F) In this paragraph in the case of a State—

"(i) except as provided in clause (iii), with a State fiscal year beginning on or before July 1, the effective date is October 1, 1992,

"(ii) except as provided in clause (iii), with a State fiscal year that begins after July 1, the effective date is January 1, 1993, or

"(iii) with a State legislature which is not scheduled to have a regular legislative session in 1992, with a State legislature which is not scheduled to have a regular legislative session in 1993, or with a provider-specific tax enacted on November 4, 1991, the effective date is July 1, 1993.

"(2)(A) In this subsection (except as provided in paragraph (6)), the term 'provider-related donation' means any donation or other voluntary payment (whether in cash or in kind) made (directly or indirectly) to a State or unit of local government by—

"(i) a health care provider (as defined in paragraph (7)(B)),

"(ii) an entity related to a health care provider (as defined in paragraph (7)(C)), or

"(iii) an entity providing goods or services under the State plan for which payment is made to the State under paragraph (2), (3), (4), (6), or (7) of subsection (a).

"(B) For purposes of paragraph (1)(A)(i)(I), the term 'bona fide provider-related donation' means a provider-related donation that has no direct or indirect relationship (as determined by the Secretary) to payments made under this title to that provider, to providers furnishing the same class of items and services as that provider, or to any related entity, as established by the State to the satisfaction of the Secretary. The Secretary may by regulation specify types of provider-related donations described in the previous sentence that will be considered to be bona fide provider-related donations.

"(C) For purposes of paragraph (1)(A)(i)(II), donations described in this subparagraph are funds expended by a hospital, clinic, or similar entity for the direct cost (included costs of training and of preparing and distributing outreach materials) of State or local agency personnel who are stationed at the hospital, clinic, or entity to determine the eligibility of individuals for medical assistance under this title and to provide outreach services to eligible or potentially eligible individuals.

"(3)(A) In this subsection (except as provided in paragraph (6)), the term 'health care related tax' means a tax (as defined in paragraph (7)(F) that—

"(i) is related to health care items or services, or to the provision of, the authority to provide, or payment for, such items or services, or

"(ii) is not limited to such items or services but provides for treatment of individuals or entities that are providing or paying for such items or services that is different from the treatment provided to other individuals or entities.

In applying clause (i), a tax is considered to relate to health care items or services if at least 85 percent of the burden of such tax falls on health care providers.

"(B) In this subsection, the term 'broad-based health care related tax' means a health care related tax which is imposed with respect to a class of health care items or services (as described in paragraph (7)(A) or with respect to providers of such items or services and which, except as provided in subparagraphs (D) and (E)—

"(i) is imposed at least with respect to all items or services in the class furnished by all non-Federal nonpublic providers in the State (or, in the case of a tax imposed by a unit of local government, the area over which the unit has jurisdiction) or is imposed with respect to all non-Federal, nonpublic providers in the class; and

"(ii) is imposed uniformly (in accordance with subparagraph (C)).

"(C)(i) Subject to clause (ii), for purposes of subparagraph (B)(ii), a tax is considered to be imposed uniformly if—

"(I) in the case of a tax consisting of a licensing fee or similar tax on a class of health care items or services (or providers of such items or services), the amount of the tax imposed is the same for every provider providing items or services within the class;

"(II) in the case of a tax consisting of a licensing fee or similar tax imposed on a class of health care items or services (or providers of such services) on the basis of the number of beds (licensed or otherwise) of the provider, the amount of the tax is the same for each bed or each provider of such items or services in the class;

"(III) in the case of a tax based on revenues or receipts with respect to a class of items or services (or providers of items or services) the tax is imposed at a uniform rate for all items and services (or providers of such items or services) in the class on all the gross revenues or receipts, or net operating revenues, relating to the provision of all such items or services (or all such providers) in the State (or, in the case of a tax imposed by a unit of local government within the State, in the area over which the unit has jurisdiction); or

"(IV) in the case of any other tax, the State establishes to the satisfaction of the Secretary that the tax is imposed uniformly.

"(ii) Subject to subparagraphs (D) and (E), a tax imposed with respect to a class of health care items and services is not considered to be imposed uniformly if the tax provides for any credits, exclusions, or deductions which have as their purpose or effect the return to providers of all or a portion of the tax paid in a manner that is inconsistent with subclauses (I) and (II) of subparagraph (E)(ii) or providers for a hold-harmless provision described in paragraph (4).

"(D) A tax imposed with respect to a class of health care items and services is considered to be imposed uniformly—

"(i) notwithstanding that the tax is not imposed with respect to items or services (or the providers thereof) for which payment is made under a State plan under this title or title XVIII, or

"(ii) in the case of a tax described in subparagraph (C)(i)(III), notwithstanding that the tax provides for exclusion (in whole or in part) of revenues or receipts from a State plan under this title or title XVIII.

"(E)(i) A State may submit an application to the Secretary requesting that the Secretary treat a tax as a broad-based health care related tax, notwithstanding that the tax does not apply to all health care items or services in class (or all providers or such items and services), provides for a credit, deduction, or exclusion, is not applied uniformly, or otherwise does not meet the requirements of subparagraphs (B) and (C). Permissible waivers many include exemptions for rural or sole-community providers.

"(ii) The Secretary shall approve such an application if the State establishes to the satisfaction of the Secretary that—

"(I) the net impact of the tax and associated expenditures under this title as proposed by the State is generally redistributive in nature, and

"(II) the amount of the tax is not directly correlated to payments under this title for items or services with respect to which the tax imposed. The Secretary shall by regulation specify types of credits, exclusions, and deductions that will be considered to meet the requirements of this subparagraph.

"(4) For purposes of paragraph (1)(A)(iii), there is in effect a hold-harmless provision with respect to a broad-based health care related tax

imposed with respect to a class of items or services if the Secretary determines that any of the following applies:

"(A) The State or other unit of government imposing the tax provides (directly or indirectly) for a payment (other than under this title) to taxpayers and the amount of such payment is positively correlated either to the amount of such tax or to the difference between the amount of the tax and the amount of payment under the State plan.

"(B) All or any portion of the payment made under this title to the taxpayer varies based only upon the amount of the total tax paid.

"(C) The State or other unit of government imposing the tax provides (directly or indirectly) for any payment, offset, or waiver that guarantees to hold taxpayers harmless for any portion of the costs of the tax.

The provisions of this paragraph shall not prevent use of the tax to reimburse health care providers in a class for expenditures under this title nor preclude States from relying on such reimbursement to justify or explain the tax in the legislative process.

"(5)(A) For purposes of this subsection, the limit under this subparagraph with respect to a State is an amount equal to 25 percent (or, if greater, the State base percentage, as defined in subparagraph (B)) of the non-Federal share of the total amount expended under the State plan during a State fiscal year (or portion thereof), as it would be determined pursuant to paragraph (1)(A) without regard to paragraph (1)(A)(iv).

"(B)(i) In subparagraph (A), the term 'State base percentage' means, with respect to a State, an amount (expressed as a percentage) equal to—

"(I) the total of the amount of health care related taxes (whether or not broad-based) and the amount of provider-related donations (whether or not bona fide) projected to be collected (in accordance with clause (ii)) during State fiscal year 1992, divided by

"(II) the non-Federal share of the total amount estimated to be expended under the State plan during such State fiscal year.

"(ii) For purposes of clause (i)(I), in the case of a tax that is not in effect throughout State fiscal year 1992 or the rate (or base) of which is increased during such fiscal year, the Secretary shall project the amount to be collected during such fiscal year as if the tax (or increase) were in effect during the entire State fiscal year.

"(C)(i) The total amount of health care related taxes under subparagraph (B)(i)(I) shall be determined by the Secretary based on only those taxes (including the tax rate or base) which were in effect, or for which legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

"(ii) The amount of provider-related donations under subparagraph (B)(i)(I) shall be determined by the Secretary based on programs in effect on September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

"(iii) The amount of expenditures described in subparagraph (B)(i)(II) shall be determined by the Secretary based on the best data available as of the date of the enactment of this subsection.

"(6)(A) Notwithstanding the provisions of this subsection, the Secretary may not restrict States' use of funds where such funds are derived from State or local taxes (or funds appropriated to State university teaching hospitals) transferred from or certified by units of government within a State as the non-Federal share of expenditures under this title, regardless of whether the unit of government is also a health

care provider, except as provided in section 1902(a)(2), unless the transferred funds are derived by the unit of government from donations or taxes that would not otherwise be recognized as the non-Federal share under this section.

"(B) For purposes of this subsection, funds the use of which the Secretary may not restrict under subparagraph (A) shall not be considered to be a provider-related donation or a health care related tax.

"(7) For purposes of this subsection:

"(A) Each of the following shall be considered a separate class of health care items and services:

"(i) Inpatient hospital services.

"(ii) Outpatient hospital services.

"(iii) Nursing facility services (other than services of intermediate care facilities for the mentally retarded).

"(iv) Services of intermediate care facilities for the mentally retarded.

"(v) Physicians' services.

"(vi) Home health care services.

"(vii) Outpatient prescription drugs.

"(viii) Services of health maintenance organizations (and other organizations with contracts under section 1903(m)).

"(ix) Such other classification of health care items and services consistent with this subparagraph as the Secretary may establish by regulation.

"(B) The term 'health care provider' means an individual or person that receives payments for the provision of health care items or services.

"(C) An entity is considered to be 'related' to a health care provider if the entity—

"(i) is an organization, association, corporation or partnership formed by or on behalf of health care providers;

"(ii) is a person with an ownership or control interest (as defined in section 1124(a)(3)) in the provider;

"(iii) is the employee, spouse, parent, child or sibling of the provider (or of a person described in clause (ii)); or

"(iv) has a similar, close relationship (as defined in regulations) to the provider.

"(D) The term 'State' means only the 50 States and the District of Columbia but does not include any State whose entire program under this title is operated under a waiver granted under section 1115.

"(E) The 'State fiscal year' means, with respect to a specified year, a State fiscal year ending in that specified year.

"(F) The term 'tax' includes any licensing fee, assessment, or other mandatory payment, but does not include payment of a criminal or civil fine or penalty (other than a fine or penalty imposed in lieu of or instead of a fee, assessment, or other mandatory payment).

"(G) The term 'unit of local government' means, with respect to a State, a city, county, special purpose district, or other governmental unit in the State."

(b) CONFORMING AMENDMENTS.—(1) Section 1902(t) of such Act (42 U.S.C. 1396a(t)) is amended—

(A) by striking "Except as provided in section 1903(i), nothing" and inserting "Nothing", and

(B) by striking "taxes (whether or not general applicability)" and inserting "taxes of general applicability".

(2) Section 1903(i) of such Act (42 U.S.C. 1396(i)) is amended by striking paragraph (10) inserted by section 4701(b)(2)(B) of the Omnibus Budget Reconciliation Act of 1990.

(c) EFFECTIVE DATE.—(1) The amendments made by this section shall take effect January 1, 1992, without regard to whether or not regulations have been promulgated to carry out such amendments by such date.

(2) Except as specifically provided in section 1903(w) of the Social Security Act and notwith-

standing any other provision of such Act, the Secretary of Health and Human Services shall not, with respect to expenditures prior to the effective date specified in section 1903(w)(1)(F) of such Act, disallow any claim submitted by a State for, or otherwise withhold Federal financial participation with respect to, amounts expended for medical assistance under title XIX of the Social Security Act by reason of the fact that the source of the funds used to constitute the non-Federal share of such expenditures is a tax imposed on, or a donation received from, a health care provider, or on the ground that the amount of any donation or tax proceeds must be credited against the amount of the expenditure.

(3) The interim final rules promulgated by the Secretary of Health and Human Services on October 31, 1991 (56 Federal Register 56132), relating to the State share of financial participation under the Medicaid program, is hereby nullified and is no effect. No part of such rule shall be effective except pursuant to a rule promulgated after the date of the enactment of this Act and consistent with this section (and the amendments made by this section).

### SEC. 3. RESTRICTIONS ON AGGREGATE PAYMENTS FOR DISPROPORTIONATE SHARE HOSPITALS.

(A) REPEAL OF PROHIBITION OF UPPER PAYMENT LIMIT FOR DISPROPORTIONATE SHARE HOSPITALS.—Section 1902(h) of the Social Security Act (42 U.S.C. 1396a(h)) is amended by striking "to limit" the first place it appears and all that follows through "special needs or".

"(1) IN GENERAL.—

"(A) APPLICATION OF STATE-SPECIFIC LIMITS.—Except as provided in subparagraph (D), payment under section 1903(a) shall not be made with respect to any payment adjustment made under this section for hospitals in a State (as defined in paragraph (4)(B)) for quarters—

"(i) in fiscal year 1992 (beginning on or after January 1, 1992), unless—

"(I) the payment adjustments are made—

"(a) in accordance with the State plan in effect or amendments submitted to the Secretary by September 30, 1991,

"(b) in accordance with the State plan in effect or amendments submitted to the Secretary by November 26, 1991, or modification thereof, if the amendment designates only disproportionate share hospitals with a Medicaid or low-income utilization percentage at or above the Statewide arithmetic mean, or

"(c) in accordance with a payment methodology which was established and in effect as of September 30, 1991, or in accordance with legislation or regulations enacted or adopted as of such date; or

"(II) the payment adjustments are the minimum adjustments required in order to meet the requirements of subsection (c)(1); or

"(ii) in a subsequent fiscal year, to the extent that the total of such payment adjustments exceeds the State disproportionate share hospital (in this subsection referred to as "DSH") allotment for the year (as specified in paragraph (2)).

"(B) NATIONAL DSH PAYMENT LIMIT.—The national DSH payment limit for a fiscal year is equal to 12 percent of the total amount of expenditures under State plans under this title for medical assistance during the fiscal year.

"(C) PUBLICATION OF STATE DSH ALLOTMENTS AND NATIONAL DSH PAYMENT LIMIT.—Before the beginning of each fiscal year (beginning with

fiscal year 1993), the Secretary shall, consistent with section 1903(d), estimate and publish—

"(D) CONDITIONAL EXCEPTION FOR CERTAIN STATES.—Subject to subparagraph (E), beginning with payments for quarters beginning on or after January 1, 1996, and at the option of a State, subparagraph (A) shall not apply in the case of a State which defines a hospital as a disproportionate share hospital under subsection (a)(1) only if the hospital meets any of the following requirements:

"(i) The hospital's Medicaid inpatient utilization rate (as defined in subsection (b)(2)) is at or above the mean Medicaid inpatient utilization rate for all hospitals in the State.

"(ii) The hospital's low-income utilization rate (as defined in subsection (b)(3)) is at or above the mean low-income utilization rate for all hospitals in the State.

"(iii) The number of inpatient days of the hospital attributable to patients who (for such days) were eligible for medical assistance under the State plan is equal to at least 1 percent of the total number of such days for all hospitals in the State.

"(iv) The hospital meets such alternative requirement as the Secretary may establish by regulation, taking into account the special circumstances of children's hospitals, hospitals located in rural areas, and sole community hospitals.

"(E) CONDITION FOR OPTION.—The option specified in subparagraph (D) shall not apply for payments for a quarter beginning before the date of enactment of legislation establishing a limit on payment adjustments under this section which would apply in the case of a State exercising such option.

"(2) DETERMINATION OF STATE DSH ALLOTMENTS.—

"(A) IN GENERAL.—Subject to subparagraph (B), the State DSH allotment for a fiscal year is equal to the State DSH allotment for the previous fiscal year (or, for fiscal year 1993, the State base allotment as defined in paragraph (4)(C)), increased by—

"(B) EXCEPTIONS.—

"(i) LIMIT TO 12 PERCENT OR BASE ALLOTMENT.—A State DSH allotment under subparagraph (A) for a fiscal year shall not exceed 12 percent of the total amount of expenditures under the State plan for medical assistance during the fiscal year, except that, in the case of a high DSH State (as defined in paragraph (4)(A)), the State DSH allotment shall equal the State base allotment.

"(ii) EXCEPTION FOR MINIMUM REQUIRED ADJUSTMENT.—No State DSH allotment shall be less than the minimum amount of payment adjustments the State is required to make in the fiscal year to meet the requirements of subsection (c)(1).

"(3) STATE SUPPLEMENTAL AMOUNTS.—The Secretary shall determine a supplemental amount for each State that is not a high DSH State for a fiscal year as follows:

"(A) DETERMINATION OF REDISTRIBUTION POOL.—The Secretary shall subtract from the national DSH payment limit (specified in paragraph (1)(B)) for the fiscal year the following:

"(i) the total of the State base allotments for high DSH States;

"(ii) the total of State DSH allotments for the previous fiscal year (or, in the case of fiscal year 1993, the total of State base allotments) for all States other than high DSH States;

"(iii) the total of the State growth amounts for all States other than high DSH States for the fiscal year; and

"(iv) the total additions to State DSH allotments the Secretary estimates will be attributable to paragraph (2)(B)(ii).

"(B) DISTRIBUTION OF POOL BASED ON TOTAL MEDICAID EXPENDITURES FOR MEDICAL ASSISTANCE.—The supplemental amount for a State for a fiscal year is equal to the lesser of—

"(i) the product of the amount determined under subparagraph (A) and the ratio of—

"(I) the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year, to

"(II) the total amount of expenditures made under the State plans under this title for medical assistance during the fiscal year for all States which are not high DSH States in the fiscal year, or

"(ii) the amount that would raise the State DSH allotment to the maximum permitted under paragraph (2)(B).

"(4) DEFINITIONS.—In this subsection:

"(A) HIGH DSH STATE.—The term 'high DSH State' means, for a fiscal year, a State for which the State base allotment exceeds 12 percent of the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year.

"(C) STATE BASE ALLOTMENT.—The term 'State base allotment' means, with respect to a State, the greater of—

"(i) the total amount of payment adjustments made under subsection (c) under the State plan during fiscal year 1992 (excluding any such payment adjustments for which a reduction may be made under paragraph (1)(A)(i)), or

"(ii) \$1,000,000.

The amount under clause (i) shall be determined by the Secretary and shall include only payment adjustments described in paragraph (1)(A)(i)(I).

"(i) the product of the State growth factor and the State DSH payment limit for the previous fiscal year, or

(C) LIMITS ON AUTHORITY TO RESTRICT DSH DESIGNATIONS.—Subsection (b) of such section is amended by adding at the end the following new paragraph:

"(4) The Secretary may not restrict a State's authority to designate hospitals as disproportionate share hospitals under this section. The previous sentence shall not be construed to affect the authority of the Secretary to reduce

payments pursuant to section 1903(w)(1)(A)(iii) if the Secretary determines that, as a result of such designations, there is in effect a hold harmless provision described in section 1903(w)(4)."

(d) STUDY OF DSH PAYMENT ADJUSTMENTS.—(1) IN GENERAL.—The Prospective Payment Assessment Commission shall conduct a study concerning—

(A) the feasibility and desirability of establishing maximum and minimum payment adjustments under section 1923(c) of the Social Security Act for hospitals deemed disproportionate share hospitals under State medicare plans, and

(B) criteria (other than criteria described in clause (i) or (ii) of section 1923(f)(1)(D) of such Act) that are appropriate for the designation of disproportionate share hospitals under section 1923 of such Act.

(2) ITEMS INCLUDED IN STUDY.—The Commission shall include in the study—

(A) a comparison of the payment adjustments for hospitals made under such section and the additional payments made under title XVIII of such Act for hospitals serving a significantly disproportionate number of low-income patients under the medicare program; and

(B) an analysis of the effect the establishment of limits on such payment adjustments will have on the ability of the hospitals to be reimbursed for the resource costs incurred by the hospitals in treating individuals entitled to medical assistance under State medicare plans and other low-income patients.

(3) REPORT.—Not later than January 1, 1994, the Commission shall submit a report on the study conducted under paragraph (1) to the Committee on Finance of the Senate and the Committee on Energy and Commerce of the House of Representatives. Such report shall include such recommendations respecting the designation of disproportionate share hospitals and the establishment of maximum and minimum payment adjustments for such hospitals under section 1923 of the Social Security Act as may be appropriate.

(e) EFFECTIVE DATE.—(1) The amendments made by this section shall take effect January 1, 1992.

(2) The proposed rule promulgated by the Secretary of Health and Human Services on October 31, 1991 (56 Federal Register 56141), relating to the standards for defining disproportionate share hospitals under the medicare program, shall be withdrawn and canceled. No part of such proposed rule shall be effective except pursuant to a rule promulgated after the date of the enactment of this Act and consistent with this section (and the amendments made by this section).

#### SEC. 4. REPORTING REQUIREMENT.

(a) IN GENERAL.—Section 1903(d) of the Social Security Act (42 U.S.C. 1396b(d)) is amended by adding at the end the following:

"(6)(A) Each State (as defined in subsection (w)(7)(D)) shall include, in the first report submitted under paragraph (1) after the end of each fiscal year, information related to—

"(i) provider-related donations made to the State or units of local government during such fiscal year, and

"(ii) health care related taxes collected by the State or such units during such fiscal year.

#### JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3595), to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the medicare program and to maintain the treatment of intergovernmental transfers as such a source, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

#### 1. USE OF VOLUNTARY CONTRIBUTIONS, PROVIDER-SPECIFIC TAXES, AND INTERGOVERNMENTAL TRANSFERS BY STATES TO RECEIVE FEDERAL MATCHING FUNDS UNDER MEDICAID

##### Current Law

The Technical and Miscellaneous Revenue Act of 1988, as amended by the Omnibus Budget Reconciliation Act of 1990, prohibits the Secretary from issuing any final regulation prior to December 31, 1991, changing the treatment of voluntary contributions or provider-paid taxes used by States to receive Federal matching funds. The Omnibus Budget Reconciliation Act of 1990 prohibits the Secretary from denying or limiting payments to a State from expenditures attrib-

utable to taxes, whether or not of general applicability, imposed with respect to the provision of medical services. The Secretary is permitted to deny matching funds for Medicaid payments made to reimburse a hospital, nursing facility (NF), or intermediate care facility for the mentally retarded (ICF-MR) for taxes imposed by a State solely with respect to such facilities.

#### House Bill

Extends the moratorium on issuance of new regulations through September 30, 1992. Permanently prohibits the issuance of regulations that change the treatment of public funds used as the State share of Medicaid, including funds contributed by an agency that provides Medicaid services. Provides that any regulation changing the treatment of voluntary contributions may not apply to contributions made before January 1, 1993, except that FY 1993 Federal financial participation (FFP) related to a State's use of contributions must not exceed the amount of FFP related to such contributions in FY 1991. Prohibits the Secretary from reducing payments to States based on quarterly State expenditure estimates because such estimates include amounts attributable to contributions, intergovernmental transfers, or provider-paid taxes, or from assessing any penalty or taking other regulatory action against a State related to its use of such contributions, transfers, or taxes. The prohibitions apply to payments for quarters beginning on or after January 1, 1992, and ending on or before September 30, 1992 (for intergovernmental transfers and provider-paid taxes) or December 31, 1992 (for voluntary contributions), and to actions taken by the Secretary during the same periods.

#### Senate Amendment

Provides that, for the purpose of computing Federal matching funds, State Medicaid spending for a quarter (other than in Arizona) is to be reduced by the amount of any revenues received by the State or a local government on or after January 1, 1992, from:

Provider-related donations (donations from a medical provider, related entity, or administrative contractor), except "bonafide" donations, and donations in the form of payment for outstanding Medicaid eligibility workers. Beginning in Federal FY 1993, donations related to outstationing are limited to 10 percent of State administrative costs.

Health care related taxes (those related to provision of health services and 85% paid by providers or those not equally imposed on non-health items) that are not broad-based. Broad-based taxes are defined as those uniformly imposed on all non-Federal nonpublic providers in the same class in the State or locality or all items or services in the class furnished by such providers. A tax is imposed uniformly if the amount, rate, and or base for the tax is the same for all subject providers, and the tax does not provide for credits, deductions or exclusions that have the effect of refunding all or a portion of the tax. A tax may be uniform even if it applies only to services not covered under Medicaid or Medicare non-Medicare revenues. The Secretary may treat a tax as broad-based on application by the State if the tax and related spending are generally redistributive and the tax and Medicaid payments are not directly correlated. Waivers may include exemptions for rural or sole community providers.

Health care related taxes that are broad-based but to which a hold harmless provision applies. A hold harmless provision is one that provides for: a non-Medicaid payment to the provider that is correlated to the tax or

to differences between the tax and Medicaid payments; Medicaid payment varying on the basis of taxes paid; or the State or locality guarantees that some or all of the tax will be offset in some way.

Broad-based taxes in amounts that exceed 25 percent of the State share of Medicaid or (if greater) the State's "base percentage" in all or part of State fiscal years beginning on or after January 1, 1992, and before October 1, 1995. The base percentage is equal to the total of provider donations and/or health care related taxes (whether or not permissible) projected to be collected during the State 1992 fiscal year, divided by the estimated State share of Medicaid spending for the year. In the case of a tax not in effect (or increased) during the full base year, the Secretary is to compute the base percentage as if it were in effect for the full year. Donations are to be counted only under a program in effect or reported to the Secretary by September 30, 1991; taxes are to be counted if they were in effect or legislation or regulations had been adopted, as of November 22, 1991.

Permits matching for certain otherwise prohibited revenues received before October 1, 1992 (for States with fiscal years beginning on or before July 1), January 1, 1993 (for States with fiscal years beginning after July 1), or July 1, 1993 (for a State that has an enacted provider tax on November 4, 1992, or whose legislature is not scheduled to meet in 1992 or 1993); prohibits a disallowance or withholding of FFP related to donations or taxes before the applicable date. Matching is permitted for donations only under a program in effect or reported to the Secretary by September 30, 1992. Countable donations for a State's 1993 fiscal year may not exceed those for the State's 1992 fiscal year. Matching is permitted for non-broad-based taxes, or broad-based taxes with a hold harmless provision, only if the taxes were in effect or legislation or regulations had been adopted, as of November 22, 1991. Increases after that date are not permitted. The sum of allowed donations and taxes (including broad-based taxes) for the part of a State's fiscal year occurring in calendar year 1992, or for all of State fiscal year 1993 may not exceed 25 percent (or the base percentage) of the State share of Medicaid.

Prohibits the Secretary from restricting States' use of funds derived from State or local taxes (including funds appropriated to State-owned teaching hospitals) transferred from or certified by local government units (including units that are providers) unless the transfers exceed the 40 percent limit on local government sharing in Medicaid or stem from otherwise prohibited donations or taxes.

#### Conference Agreement

The agreement includes the Senate amendment with modifications. The Secretary is required to withdraw the October 31, 1991, interim final rule with respect to donations and taxes. The Secretary may not change current treatment of intergovernmental transfers except through the formal APA regulatory process (except as needed to deny matching for public funds described in section 1903(w)(6)(A) that are derived from donations or taxes that would not otherwise be recognized). Use appropriations made to State university teaching hospitals is to be treated as a permissible transfer. The conferees note that current transfers from a country or other local teaching hospitals continue to be permissible if not derived from sources of revenue prohibited under this act. The conferees intend the provision

of section 1903(w)(6)(A) to prohibit the Secretary from denying Federal financial participation for expenditures resulting from State use of funds referenced in that provision.

#### 2. RESTRICTIONS ON AGGREGATE PAYMENTS FOR DISPROPORTIONATE SHARE HOSPITALS

##### Current Law

Prohibits the Secretary from limiting payment adjustments made by States to hospitals serving a disproportionate number of low-income patients with special needs.

##### House Bill

No provision.

##### Senate Amendment

Effective January 1, 1992, establishes a national limit on disproportionate share hospital payment adjustments during each fiscal year equal to 12 percent to total Medicaid spending for that year. Limits a State's disproportionate share adjustment:

In the part of FY 1992 beginning on or after January 1, 1992, to those made under the State plan in effect or as submitted by September 30, 1991, or under a methodology established in an effect by that date, or legislation or regulation adopted by that date. A State plan amendment in effect or submitted by November 26, 1991, may be used if it designates only disproportionate share hospitals with a Medicaid or low-income percentage at or above the Statewide arithmetic mean. Higher payment adjustments are permitted if necessary to meet the minimum prescribed by Medicaid law.

For FY 1993 and subsequent fiscal years, to the amount of the State's disproportionate share hospital (DSH) allotment. The DSH allotment for a State is equal to the previous year's allotment (or, for FY 1993, its "base allotment"), increased by the State growth factor and the State supplemental amount for the fiscal year. The base allotment is equal to the greater of the State's payment adjustment during FY 1992 (subject to the limits for that year) or \$1 million. The growth factor is the annual percentage increase in the State's Medicaid spending. The supplemental amount is an amount payable to States that are not high DSH States. (A State is a high DSH State for a fiscal year if its base allotment exceeds 12 percent of its total Medicaid spending for that fiscal year.)

The supplemental amounts are established from a pool whose size is determined by subtracting from the amount of the national DSH limit the amounts of: (a) the base allotment for high DSH States, (b) total allotment to non-high DSH States for the previous year, (c) total "growth amounts" for non-high DSH States for the current year, and (d) any additional amounts needed to bring State's payment adjustments up to statutory minimums. A State's growth amount is the greater of: the State's allotment for the previous year times the growth factor; or the difference between the allotment for the previous year and 12 percent of total current year Medicaid spending. The supplemental amount for each non-high DSH State is the lesser of (a) a share of the pool proportionate to the State's share of all Medicaid spending by non-high DSH States or (b) the amount that would raise the State's allowable payment adjustments to 12 percent of its Medicaid spending.

Requires the Secretary to publish State allotments and national limits for each fiscal year before the beginning of the year. Limits on payment adjustments do not apply in Arizona.

Prohibits a State from using DSH payment adjustments to hold providers harmless for

health care related taxes after the effective date of limits on the use of such taxes. With this exception, prohibits the Secretary from restricting a State's authority to designate disproportionate share hospitals.

*Conference Agreement*

The agreement includes the Senate amendment, with modifications.

After January 1, 1996, a state will not be subject to the aggregate limit on payment adjustments if it designates as DSH's only facilities whose low-income or Medicaid utilization rate exceeds the state mean, that account for at least 1 percent of all Medicaid days in the state, or that meet other criteria established by the Secretary, taking into account the special circumstances of rural, sole community, and children's hospitals.

This option will be available only after Congress has established limits in law on payment adjustments to DSH hospitals for states electing the option. The Prospective Payment Assessment Commission is required to submit a report to Congress by January 1, 1994, on appropriate methods for establishing appropriate minimum and maximum adjustment amounts and criteria for DSH designation.

Mr. WAXMAN. Mr. Speaker, I call up the conference report on the bill (H.R. 3595) to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the Medicaid Program and to maintain the treatment of intergovernmental transfers as such a source, and ask unanimous consent for its immediate consideration in the House and ask that it be considered as read.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. LENT. Mr. Speaker, reserving the right to object, I do not intend to object.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield so I can say a few words about this conference report?

Mr. LENT. Mr. Speaker, I yield to the gentleman from California [Mr. WAXMAN], the distinguished chairman of the Subcommittee on Health and the Environment.

Mr. WAXMAN. Mr. Speaker, this conference report represents the agreement between the House and Senate conferees on what passed this House, a moratorium on regulations being proposed by the Department of Health Care Financing Administration in the Department of Health and Human Services. This whole issue began when the White House proposed new limits on Medicaid. This is the program that provides the only health insurance for 28 million poor Americans. Most of them are under 18, over 65, or totally disabled. In response to those proposals the House voted overwhelmingly to place a moratorium on any regulatory changes. With a threatened Presidential veto of the House passed moratorium over their heads, the Governors were told to negotiate a new package or face the original OMB regulation. They reached an agreement.

I want to put this in context. The administration put the Governors in an untenable position. They acted understandably to avoid the uncertainty of these court fights to declare invalid these proposed regulations and the uncertainty for their budgets.

But I want to tell my colleagues that the agreement that the administration forced upon the Governors is not a good agreement. I think it is going to do them well in a very short run, but it is going to do a great deal of disservice to the millions of Americans who are poor, elderly, disabled, women, and children who rely on the disproportionate share in institutions, the public hospitals, the children's hospitals, to give them care because in that agreement the Governors and the administration put limits on the reimbursement for those institutions.

Mr. Speaker, we worked on the framework of that agreement, and I regretted the fact that the Governors accepted this agreement rather than to call for moratoriums so the whole matter could be discussed and thought through rather than make an important and really quite fundamental change in the Medicaid Program without a lot of scrutiny and evaluation of the consensus.

But we are here today to enact legislation that I think we are going to all regret in a very short period of time, but we have very little choice before us.

So, I will present this conference report. I myself will vote against it because I do not want to be associated with it, but I know that this agreement will pass and will become law, and we will have to revisit these issues on another occasion.

Mr. LENT. Mr. Speaker, further reserving the right to object, I rise to strongly support the conference report on H.R. 3595, the Medicaid Moratorium Amendments of 1991. It reflects the agreement that we have just reached with the Senate conferees.

It is consistent with H.R. 3900, the Medicaid Voluntary Contribution and Provider-Specific Tax Amendments of 1991, introduced by Mr. MICHEL and myself on Saturday. That bill represented the agreement between the National Governors' Association and the administration as of that date.

Since then, further discussions have taken place among the administration, the NGA, and the Senate. I am very pleased that a final agreement was reached.

In terms of provider taxes, the legislation replaces the OBRA '90 provider-specific tax provisions with language stipulating that Federal money will be available only if the tax uniformly applies to all providers in a class, and to all the health-related business of the providers. A class of providers would be, for example, all hospitals, all physicians, or all nursing homes in the State. A tax on "all business of providers" would include taxes such as a gross revenues tax, a tax based on inpatient days, or a head tax on all patients.

And unlike the current financing scams, these taxes would in fact be

bona fide taxes on all providers. These taxes would be truly redistributive. Tax revenues would flow from rich hospitals to public hospitals that serve the poor. And this legislation would forbid hold-harmless arrangements in which States rebate the tax revenue directly back to the providers, after the State has received the Federal matching payments.

In addition to the requirement that these taxes be bona fide taxes, the legislation also provides a percentage limit on their use. For purposes of calculating Federal matching, total revenues from these broad-based provider taxes may not exceed 25 percent. This provision ensures the integrity of the Medicaid Program by guaranteeing financial participation of both the States and the Federal Government.

The legislation prohibits the States from receiving Federal payments for revenues obtained from donations by or on behalf of providers. An exception to this rule is created for donations for moneys related to personnel costs for workers in hospitals and clinics who determine Medicaid eligibility of beneficiaries. The total amount of donations permitted under this exception may not exceed 10 percent of the State's total Medicaid administrative expenses.

Several States have raised concerns about the impact of the Health Care Financing Administration [HCFA] regulation on intergovernmental transfers. This bill provides that States may continue to use funds transferred to the State from counties, cities, or other governmental entities as the State share of Medicaid expenditures. The use of such transfers would, however, be disallowed if the source of the funds was donations or taxes that would not otherwise be recognized as the non-Federal share under this legislation.

Mr. Speaker, this is a reasonable compromise which has been agreed to by the conferees. It restores the basic tenet of the Medicaid Program—which is shared financial responsibility between the Federal Government and the States.

Mr. ROSTENKOWSKI. Mr. Speaker, will the gentleman yield?

Mr. LENT. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Illinois, the distinguished chairman of the Committee on Ways and Means, for the purpose of a clarification.

□ 1640

Mr. ROSTENKOWSKI. Mr. Speaker, I am pleased to support the conference report on H.R. 3595, the Medicaid Moratorium Amendments of 1991.

The conference agreement would allow States to continue to receive essential matching payments for Medicaid costs funded with revenues from provider-specific taxes. It would also

protect the current policy regarding intergovernmental transfers.

On September 12, 1991, the Health Care Financing Administration published interim final regulations that would have severely restricted Federal matching payments to States.

This regulation would have created financial chaos for many State Medicaid Programs. It is clearly contrary to the letter and spirit of the Medicaid provisions of the 1990 Budget Reconciliation Act.

If implemented, the regulation would have been devastating for the Medicaid beneficiaries and health care providers in many States. In my own State of Illinois, many hospitals would not have been able to survive.

Because the regulation would have taken effect in the middle of the 1992 fiscal year for most States, State governments would have had no choice but to cut payments for disproportionate share providers, eliminate important benefits, or restrict eligibility.

The State of Illinois acted responsibly in relying on Federal law when it enacted the provider assessment program, and the State, its hospitals, and its economy should not be thrown into disarray because of unwarranted and arbitrary Federal agency decisions.

Under this conference agreement, the current level of provider-specific taxes in Illinois would be allowed through 1995. Intergovernmental transfers may not be affected.

In addition, under the compromise payments to disproportionate share hospitals would be permanently limited to 12 percent. These hospitals provide health care services to our most vulnerable fellow citizens. While I understand that this cap is not a problem for hospitals in Illinois, I have serious reservations about any limit on payments for disproportionate share hospitals.

Until every American has health insurance, I would be concerned about a policy that may reduce payments to hospitals that provide critical health care services in Chicago and in other American cities.

This conference agreement represents a good compromise. Although I would have liked the Secretary to withdraw the regulations altogether, I support the provisions of the conference agreement.

I urge my colleagues to support this important conference report.

Mr. Speaker, I would ask if the gentleman from New York would yield further in order that I may engage in a colloquy with the gentleman from California [Mr. WAXMAN].

Mr. LENT. Mr. Speaker, further reserving the right to object, I am happy to yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. Mr. Speaker, I would like to request a clarification regarding the disproportionate share hospital provisions of current law and this bill.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. LENT. Further reserving the right to object, I yield to the gentleman from California.

Mr. WAXMAN. I would be pleased to respond to a question from the gentleman from Illinois.

Mr. ROSTENKOWSKI. I want to be sure that this agreement does not infringe on State flexibility with respect to determining the level of disproportionate share payments for a given hospital.

I would like to reaffirm that it was the intent of OBRA '90 to give States the option of taking other factors into consideration when determining payment adjustments for disproportionate share hospitals.

Is it your understanding that some of the other factors a State may take into consideration may include but are not limited to:

Intensity of care;  
The provision of services essential to the Medicaid and low-income patients of a State;  
The efficiency of hospitals as measured through occupancy rates or other factors reasonably related to efficiency;

Medicare, Medicaid, and/or low-income utilization levels;

The types of services that are predominantly furnished by a hospital;

Geographic location; or  
Any combination of these and other factors?

Mr. WAXMAN. Mr. Speaker, if the gentleman will yield further, the answer is yes.

It was the intent of the Congress that the third payment option of section 1923(c) included in OBRA '90 would allow States to take into consideration these, and other factors when calculating disproportionate share hospital payment adjustments.

This would be true as long as the factors apply equally to all hospitals of each type and result in an adjustment that is reasonably related to the costs, volume, or proportion of services provided to low-income patients.

Mr. ROSTENKOWSKI. Mr. Speaker, if the gentleman will yield further, I would like to thank the gentleman for his clarification. I know the gentleman from California is very learned in this area, and I particularly want him to realize the importance of these provisions to the State of Illinois.

Mr. LENT. Mr. Speaker, further reserving the right to object, in conclusion, I would like to address my gratitude to the two gentlemen from California, Mr. WAXMAN and Mr. DANNEMEYER, for their efforts, and also acknowledge the very fine contributions of some of the people on my staff: Howard Cohen, Mary McGrane, and Melody Houghton, and also Ed Grossman and Noah Woofsy, two attorneys in the Office of Legislative Counsel, for the ex-

cellent work that they have done in drafting this very complex agreement.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. LENT. Further reserving the right to object, I yield to the gentleman from California.

Mr. WAXMAN. Mr. Speaker, I want to join with the gentleman in saluting our staff, and I want to single out Andy Schneider of our subcommittee staff who put in an enormous amount of effort in this legislation.

Mr. LENT. Further reserving the right to object, I thank the gentleman for his contribution and I extend thanks to those members of his staff.

Mr. RITTER. Mr. Speaker, we are faced with the difficult task of reconciling a ballooning Medicaid Program—one that has increased more than 2,000 percent since its inception in 1965, with States that are struggling just to maintain basic health care coverage for their poorest citizens.

All this at a time of economic stagnation.

How have we gotten into this horrendous situation? Because many in Congress have seen fit to push one Medicaid mandate after another to the point of diminishing whatever flexibility the States had for dealing with this situation on their own.

Now the States have come up with very creative financing schemes. Indeed, I do not condone the manner in which my own State, Pennsylvania, has dealt with its Medicaid funding problems. And it's obvious that such a system must change. But, I cannot in good conscience watch my State be immediately cut off from funds for certain prenatal care programs, drug and alcohol treatment, or catastrophic illness, for example. The States need a reasonable transition period to find other funding options. Pennsylvania is a prime example where administrative deficiencies cannot be allowed to harm large numbers of people.

So, as a Pennsylvanian concerned about fellow Pennsylvanians, I will support this legislation.

I commend the administration and the National Governors' Association for the rational agreement that they have reached. This agreement will give States enough time and flexibility to meet their Medicaid obligations in the coming years.

The bottom line is that we in Congress must reduce the pressure—the mandate madness that forces States to go around the spirit of the law.

Mr. LENT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the conference report.

There was no objection.

The conference report was agreed to.

A motion to reconsider was laid on the table.

#### CORRECTING ENROLLMENT OF S. 543, COMPREHENSIVE DEPOSIT INSURANCE REFORM AND TAXPAYER PROTECTION ACT OF 1991

Mr. RANGEL. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate concurrent resolution (S. Con. Res. 83) to correct the enrollment of the bill (S. 543) to reform Federal deposit insurance, protect the deposit insurance funds, recapitalize the bank insurance fund, improve supervision and regulation of insured depository institutions, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. WELDON. Mr. Speaker, reserving the right to object, and I will not object, but I understand that our leadership is in support of the initiative as proposed by my colleague and friend, the gentleman from New York [Mr. RANGEL].

Mr. RANGEL. Mr. Speaker, will the gentleman yield?

Mr. WELDON. I yield to the gentleman from New York.

Mr. RANGEL. Mr. Speaker, the gentleman from Pennsylvania [Mr. WELDON] is correct.

Mr. WELDON. Mr. Speaker, will the gentleman from New York explain the initiative, please?

Mr. RANGEL. Yes, Mr. Speaker.

When the conference was held this morning, inadvertently the language that is in this concurrent resolution specifically leaves out a banking institution. There was an attempt to restore it, and I then went through the leadership on both sides of the Committee on Banking, Finance and Urban Affairs, the counsel and the Speaker, and by unanimous consent I was able to pass the concurrent resolution that was supposed to remedy the defect that all of the conferees intended that would be included in the conference report. After that passed, that was sent over to the Senate. The Senate passed this concurrent resolution, which was resting at the House, and it was this resolution that I have just had taken from the Speaker's desk that was the intent of both the House and the Senate conferees.

As a result of the difficulty here, Mr. Speaker, the gentleman from Ohio [Mr. WYLIE] immediately went to the majority leader, the gentleman from Missouri [Mr. GEPHARDT], and counsel of both sides shared the information with the leadership on both sides, and they concurred that this was an inequity that could be corrected in this manner.

□ 1900

Mr. WELDON. Mr. Speaker, I thank the gentleman for his explanation, and I am happy that we were able to work with our distinguished colleague, the gentleman from New York, Mr. RANGEL, and the distinguished Senator from New York, Mr. D'AMATO, in this important initiative.

Mr. RANGEL. Mr. Speaker, I thank the minority for its consideration of this matter. It is very important. I thank the gentleman, and I thank the Chair.

Mr. WELDON. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. GEPHARDT). Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate concurrent resolution, as follows:

S. CON. RES. 83

*Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill, S. 543, the Secretary of the Senate shall make the following correction:*

At the appropriate place, insert:

**SEC. . SPECIAL INSURED DEPOSITS.**

For purposes of the Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.), the deposits of the Freedom National Bank of New York and the deposits of Community National Bank and Trust Company of New York that—

(1) were deposited by a charitable organization as such term is defined by New York State law, or by a religious organization; and

(2) were deposits of such bank on the date of its closure by the Office of the Comptroller of the Currency, shall be fully insured notwithstanding any other provisions of the Federal Deposit Insurance Act.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

**ENGLISH: LET'S MAKE IT OFFICIAL**

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Missouri [Mr. EMERSON] is recognized for 5 minutes.

Mr. EMERSON. Mr. Speaker, I recently had the good fortune to meet with Dr. Robert M. Spiro, a member of the board of the American Security Council. In the course of our visit, Dr. Spiro expressed his grave concern about the increasing division of our society among racial and ethnic lines. He and I share the view that America's strength lies in our unity, and that the English language is the common thread that ties our many races, religions, and cultures together.

Dr. Spiro has written an excellent article outlining a few of the reasons why we need a common language. I respectfully request that the article be reprinted in the RECORD, and I commend the article to each of my colleagues. Please take a few minutes to read why America needs official English.

ENGLISH: LET'S MAKE IT OFFICIAL

(By Robert H. Spiro, Jr.)

It is a truism, accepted at home and abroad, that the United States of America is a diverse nation, pulsating with the heartbeats of a hundred ethnic groups, harking back to every other nation on the entire globe.

All continents, races, ethnic groups, languages, tribes, and families have contributed to the making of America.

America is a vast "melting pot" with ties to all humanity, and it is remarkable that despite 200 years of constant stirring and adding new ingredients to the brew, the pot does not boil over. The search for unity, harmony, order and tranquility was expressed eloquently in the Preamble to the Constitution, and has been a constant theme in American history.

Throughout two centuries of national history, this exciting Nation has searched for a central concept, unity. Midway in its history, a terrible Civil War, by far the blood-

iest in the New World, tore the Nation apart. Twenty-two northern states, inspired by Lincoln, faced eleven seceding states. Four million men were mobilized and 600,000 died in fierce fighting. There were many "causes" for this conflagration, but the basic issue was the right to secede, to separate, to disrupt the unity of the Nation.

Diverse ethnic ties are constantly dividing the Nation, and cultural tensions frequently pull it apart. Its many religions are increasingly varied, while many citizens decry all religions. Nothing is more important than a single common language, spoken by all citizens.

A COMMON LANGUAGE IS THE CEMENT THAT BINDS THE NATION

A nation speaking one language is stronger, more firmly united, and more secure than a nation divided by language barriers and the consequences of those barriers—acrimony and ethnic conflict. It is apparent that the strongest of the many new immigrant nations of the modern world are those with a common language.

Canada, self governing since 1867, is officially bilingual, a fact which engenders bitter conflict. Martin G. W. King, a Canadian who edits an insurance industry magazine in Washington, D.C., has written eloquently about "O Canada! Coming Apart at the Seams?" Washington Post, May 27, 1990.

He laments, "And yet my country is falling apart . . . Throughout the 1960s and 1970s, Canadian governments tried to mend the country's increasingly tattered social fabric by promoting 'unity and diversity.' The country became officially bilingual, and new laws required that even cereal boxes be printed in both official languages. Civil servants were provided with crash courses in each other's language."

Yet the demands of separatists in Quebec have become increasingly strident, and there have been kidnapping and murders. And now, after the failure of the Meech Lake Accords of 1987, Canada is facing even greater discord and the possible secession of its second largest province, which also in 1987 adopted "laws that made Quebec a unilingual French province, with draconian provisions forbidding even public restaurant signs in anything but French." Canada has become unglued.

Belgium, another advanced western nation, features a French-speaking majority together with Flemish and German minorities. It is a nation bitterly divided and at war with itself.

Sri Lanka, formerly Ceylon, has seen sharp rivalry and civil war between its two language groups, the Sinhali and the Tamils.

India, with 123 languages and over 600 dialects, has severe conflicts among its ethnic components, greatly exacerbated by language differences.

But many say of the United States: "What's the problem? English has been our common language for more than 200 years. We have no problem." But we do have a problem. Puerto Rico, which has been officially bilingual for 89 years (since 1902), when the Official Language Act was passed by its legislature, has just voted (March 1991) to make Spanish the sole official language of the Commonwealth.

Yes, it is true that English has been our common language for more than 200 years. America has welcomed millions of immigrants from every nation under the sun. In the first decade of this century, more than one million a year came to these shores. Almost without exception, those immigrants eagerly, almost fiercely, embraced the Eng-

lish language, certain their future was dependent upon their learning English and adopting the "American Way of Life" in the exciting New World, to which they had voluntarily come.

Today, new waves are bringing immigrants from Central and South America, Mexico, the Caribbean, Cambodia, Vietnam, Japan, China and Korea, and many other places. Some—by no means a majority—resist Americanization, and which to create old-country enclaves in the United States. This is understandable, and is by no means a new phenomenon.

America must resist Balkanization, with its attendant hostilities and rivalries. It is wonderful to remember one's roots, to cherish one's native language and culture; but a permanent move to a new country symbolizes a fresh start, a new commitment—a new birth in a new world!

Surely the problem is a complex one. If America is to have a second language, which one shall it be? Waves of immigration throughout history occasioned by wars, persecutions, droughts and famines, earthquakes and floods, social and volcanic upheavals, have sent successive floods of immigrants to this land from four continents and the islands of the sea. If there is a second language, then there must be a third, fourth, and a fifth, ad infinitum.

Perhaps an excellent example of the complexity of the issue is to be found in a local high school in northern Virginia where there are thousands of new immigrants. In the JEB Stuart High School in Fairfax County, VA, are 1600 students. They represent 60 nations speaking 35 different languages. In fact, there are so many different ethnic contingents that JEB Stuart High offers four 4 levels of English as a second language.

How can the language problem affect you as an English-speaking U.S. citizen? Picture yourself applying for a business permit in a foreign language; or attending a city council meeting in which the council member speaks in another language; or dealing with a police officer who doesn't speak English; or fretting with an I.R.S. agent whose language is not English. This is not as far-fetched as one may imagine. It is said that the City Council of Sweetwater, Florida, does not conduct its meetings in English.

I know of no one supporting English as the official language who asserts the superiority of English. English is not necessarily "superior" to any other language. But it is the historic and common language of the United States, and a common national language is essential to national harmony and unity.

There are a few apparent exceptions, like Switzerland, but they are indeed few, and are in very special circumstances with a long evolutionary history. The strongest of the many new immigrant nations in the modern world are those with a common language, such as the United States, Australia, and New Zealand.

The point is obvious. The U.S. is derived from diverse ethnic, national, and religious groups, held together by the glue of a common language. The English language is for the United States the cement that bonds the Nation, unifies the people.

There is also an important security factor. As a reserve military officer, I am concerned about the effect of multiple language usages of military strength. Defeat in battle will surely result from the inability of men and women in the military forces to communicate in one common language. Only thus can clear, understandable, and unmistakable military orders be issued, understood, and carried out.

Here, then is a rational language policy, good for individuals and good for the nation:

1. The U.S. must remain united by one language, not divided by two.

2. Non-English speaking newcomers must be encouraged to learn English quickly, to develop fluency in English as soon as possible as the crucial first step in their integration into American life. This is in their best interest, and the nation's.

3. Bilingual education courses must aim toward moving students rapidly into standard, English-speaking classrooms as soon as possible, within one or two years, three at the most.

4. To be consistent with the English language requirement for U.S. citizenship, ballots for U.S. elections should be in English.

5. New Americans should be encouraged, in all constructive ways, to remember and honor their roots, which is a time-honored tradition deep in American history.

6. All U.S. citizens should be encouraged to study and use foreign languages both to enhance their personal growth and cultural understanding, and to promote better communication with all mankind.

The effort to make English official is a very positive program. It denigrates no ethnic group nor demeans any language. It is imperative that this great democratic and immigrant republic, devoted to human rights and dedicated to liberty, protect its unity by legally declaring the common language, English, to be the official language of the Republic.

The Congress has run hot and cold on the issue. But eighteen (18) states so far have amended their constitutions to make English official. This year, on January 3, 1991, Representative Bill Emerson of Missouri, with 38 co-sponsors, introduced House Resolution 123 declaring English the official language of the Government of the United States. At a September 1991 Capitol kickoff of the national campaign to make English official, members of Congress lauded English as the common bond among Americans and called for the passage of H.R. 123.

California, the largest state, with a very large percentage of new Americans, in 1986 passed Proposition 63. Exactly 73.2 percent of all voters approved the amendment to make English the official language of the state.

Florida, the fourth largest of the states, made English official in 1988 by a resounding affirmative vote of 83 percent. Other states with approved amendments are Arkansas, Arizona, Colorado, Georgia, Illinois, Indiana, Kentucky, Mississippi, Nebraska, North Carolina, North Dakota, South Carolina, Tennessee, Virginia, Alaska, and Hawaii.

Thus almost half of the requisite 38 states to amend the Federal Constitution have already approved the English Language Amendment. Let us hope that by the year 2000 we shall attain the approval of both 38 states and the Congress. With an approved English Language Amendment we shall assure the continuing unity and strength of the Nation in the 21st century.

#### THE ROUGE RIVER DEMONSTRATION PROJECT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Michigan [Mr. DINGELL] is recognized for 5 minutes.

Mr. DINGELL. Mr. Speaker, following the adjournment of the 1st session of the 102d Congress, numerous elected officials, community leaders, and dedi-

cated volunteers will converge on the historic Henry Ford estate to celebrate a major funding victory for a critically important environmental project in southeastern Michigan: the cleanup of the Rouge River. The upcoming event will provide an opportunity to explain the expenditure of funding provided for the Rouge River national wet weather demonstration project in the fiscal year 1992 VA, HUD, and independent agencies appropriations legislation, Public Law 102-139. In advance of this event, it is my privilege today to formally outline the purpose of this project.

The \$46 million appropriation, offered as a grant to the Wayne County Division of Public Works [DPW], represents what I hope will be the cornerstone of the Rouge River demonstration project outlined in the attached "Rouge River Basin Wide Water Quality Management Program: A National Demonstration Project." This outline is based on the Southeastern Michigan Council of Government's Remedial Action plan which enjoys the support of the Environmental Protection Agency, the Michigan Department of Natural Resources, and 48 communities representing 1.5 million people residing in the Rouge River Basin.

This project is a major step in an ongoing effort to make the Rouge River cleaner and safer for our communities. Over the past 4 years, the U.S. Environmental Protection Agency has worked with the State of Michigan, Wayne County, the Southeast Michigan Council of Governments [SEMCOG], local governments, and the Friends of the Rouge, a citizens group, to help perfect a design and engineering plan to accomplish the objectives of this innovative demonstration project.

Throughout the continuous and lengthy process to obtain funding, my colleagues, Representatives WILLIAM D. FORD and BOB TRAXLER, and I, have worked closely with Mr. James E. Murray, director of the Wayne County DPW to develop this project. We believe that the resulting Rouge River demonstration project will assist communities throughout the Rouge River Basin in reducing point source discharges, combined sewer overflows, and stormwater runoffs. It will also serve as national model for wet weather discharge for urban communities throughout the country in meeting nationally imposed standards.

The comprehensive Rouge River demonstration project will directly and indirectly assist established and independent efforts which serve the goal of improving the environmental quality of the Rouge River. These funds are intended to be used expressly for the purpose outlined in the statutory language of the legislation, committee report 102-94, conference report 102-226, and amplified by the attached "Rouge River Basin Wide Water Quality Man-

agement Program: A National Demonstration Project" outline prepared by the Wayne County DPW.

By cleaning up one of the greatest single sources of pollution to the Great Lakes, this important demonstration project will restore the Rouge River as a cleaner and more valuable resource, protect the health of millions of residents living in its proximity, and improve the environmental quality of the Great Lakes.

As this critically important project gets underway, I want to salute all of the elected officials and dedicated community leaders and volunteers who have assisted in Rouge River cleanup efforts. I thank them for their past contributions, and look forward to working with them as we proceed to strengthen and preserve the environmental quality of the Rouge River.

I insert into the RECORD, for the edification of my colleagues, the excellent "Rouge River Basin Wide Water Quality Management Program: A National Demonstration Project" outline. The plan follows:

**ROUGE RIVER BASIN WIDE WATER QUALITY MANAGEMENT PROGRAM: A NATIONAL DEMONSTRATION PROJECT**

The Rouge River Basin contains a wide range of urban, suburban and rural areas. The river has become increasingly stressed by the pollutants introduced by the urbanization process. Discharges from industry, waste treatment facilities, combined sewer wet weather overflows, and urban stormwater runoff combine to produce river reaches that continually fail to meet minimum water quality standards.

Past and current efforts have focused on the control or elimination of continual discharges to the river by industry and government. Yet, water quality within the basin has not shown significant noticeable improvement. Water quality within the Rouge River and similar urban watersheds is adversely affected by intermittent discharges of pollutants during wet weather events.

Current federal and state regulatory programs have begun to address the wet weather pollution problem on two separate fronts.

The first is the required elimination or reduction of overflows from combined sewer systems. These sewage collection systems carry both sanitary sewage and stormwater runoff within the same network of pipes. During dry weather, all flows are transported to the wastewater treatment plant for treatment and discharge. In periods of rainfall, storm runoff is transported within portions of the same pipe network. Since wastewater conveyance and treatment facilities cannot be economically sized to transport or treat all storm flows, significant amounts of the combined flows overflow to the receiving waters. These flows contain pollutants associated with both domestic and industrial wastes as well as those from surface runoff.

The second program recently initiated by the US EPA deals with the reduction of pollutant loads from separate storm water collection systems within larger urban communities. It has been documented that significant quantities of pollutants are carried to rivers and streams by rainwater as it washes roadways, rooftops, parking lots, construction sites, and industrial facilities. Even

after reduction of pollutant loads from point sources and CSOs large portions of the urban watershed will fail to meet water quality standards due to pollutant loads contained in stormwater runoff.

Within the Rouge River basin regulatory efforts are currently concentrating on the numerous CSO discharges which have been identified. Strict criteria for storage and treatment of all flows from these combined sewer overflows are being developed by the regulatory agencies. These standards are being incorporated into wastewater municipal permits issued by the Michigan Department of Natural Resources under delegation from the US EPA. These requirements have been developed apart from determination of cost effectiveness and without consideration of stormwater impacts on the receiving waters.

Reduction of pollutant loading to urban river systems which are of a scale large enough to impact water quality will be an exceptionally costly undertaking. Yet, thus far, no attempt has been made to assess the relative costs and benefits associated with various levels of CSO and Urban Non-Point control when they are applied to a common watershed. Current policies and regulations consider each of these components independently and do not recognize their common effects on urban water quality.

The Wayne County Department of Public Works has prepared a outline for a demonstration program which will use the Rouge River Basin to demonstrate the impacts of both CSO reduction technologies and urban non-point control strategies on receiving water quality. The program is intended to determine a method of selecting the most cost effective mix of controls while assuring maximum use of the resource.

The program is designed to provide the basis for final planning and implementation of remedial measures within the Rouge River Basin. Full scale construction of selected CSO retention basins as well as full implementation non-point strategies will take place as part of the program. Analysis and modeling of results obtained from these pilot studies will form the basis for development of a decision support system capable of assisting future planning efforts. Care will be taken in structuring the demonstration program and in developing the decision support system to assure transferability to other similar urban watersheds throughout the Great Lakes Region.

The Rouge River Basin Wide Water Quality Management Program will be composed of a number of closely interrelated components. These are outlined below.

1. Development of a basin wide Geographical Information System (GIS) which will become the basis for collecting, organizing, and analyzing data on Rouge River basin characteristics. The GIS will provide a link between historical watershed data, measured quality improvements at demonstration locations, and predictive modeling tools which can extend local resultant improvements to estimates of basin wide impact. Coupled with the data base will be a interactive decision support system designed to allow policy planners to readily ascertain the impacts of modifications to the overall basin management strategy.

2. Collection and verification of physical data on the drainage networks within the Rouge Basin. This information will be compiled for both the natural drainage courses making up tributary streams to the Rouge and the man-made modifications to the drainage network be they open drains or enclosed conduits.

3. Design and implementation of a comprehensive program of water quality sampling and analysis. This program will supplement previous efforts to quantify water quality problems within the Rouge. Permanent sampling stations will be located at key locations within the watershed where base line dry and wet weather samples can be taken. These stations will be located within the receiving waters both upstream and downstream of proposed improvement sites. This will allow site specific assessment of impacts achieved by the implementation of the control measures.

4. Development and implementation of predictive models of the watershed. Mathematical models of the watershed hydrology, the stream and drain network hydraulics, and the water quality impacts of planned improvements will be developed. Similar models dealing with the transport through the river network of polluted sediments will be developed. Finally, based on these modeling efforts, a risk assessment tool will be formulated which will be able to link these models of the physical system to the decision support tool provided above.

5. Establishment and Implementation of a series of Best Management Practices (BMPs) to reduce the effects of urban non-point pollution to the Rouge. These BMPs will be tested on three to six sub-watersheds within the Rouge Basin. They will consist of a mix of structural improvements such as end-of-pipe detention basins and nonstructural approaches such as street sweeping, catch basin cleaning, and land planning requirements. Water quality within receiving waters prior to and after implementation of the measures will be analyzed in order to quantify effects of the procedures.

6. Design and construction of CSO detention and treatment facilities. A major portion of the effort associated with this demonstration will be focused on the location, design and construction of CSO abatement facilities within the Rouge River Basin. A coordinated effort will be provided to assure that facilities which planned, designed and built by various operating agencies throughout the basin will cover a range of CSO remediation approaches. Designs will be varied between control structures to allow testing of different approaches. Standards will be put forth to provide for sufficient sampling and analysis of both influent and effluent water quality throughout the entire range of rainfall and runoff events.

7. Public information and Reporting. The program is intended to provide a sound basis for further remedial planning and implementation within the Rouge Basin. For this reason an intensive public information effort will be undertaken. Key findings and general information will be distributed to the local technical community for use in future planning and design. And the general public will be kept informed as to the progress being made toward improving the water quality within the Rouge River. Appropriate findings will be published for use by others dealing with similar urban wet weather pollution problems within the Great Lakes Area.

It is currently envisioned that the program will be funded by the US EPA with certain administrative oversight provided by the MDNR. Overall program execution proceed under the direction of the Wayne County Department of Public Works who will act as the Lead Agency in charge of all program activities.

Management support to the Lead Agency will be provided by a Program Management Team comprised of staff from the county and

consultants. The US EPA Large Lakes Laboratory will provide leadership and direction in the development of the GIS and the decision support system. They will also play a significant role in the selection and implementation of the mathematical models used for prediction of future conditions. SEMCOG will coordinate the activities of a group of technical advisory groups assembled to oversee the activities of key program teams.

The responsibility for the majority of data collection, facility design, construction and operation will remain with the local Operating Agencies which currently have responsibility for sanitary sewers, storm drainage facilities and combined sewers. The Program Management Team will provide standards to be incorporated within local facility design, but final design, construction and operation will remain with the local units of government.

#### RAIDS ON CALIFORNIA PUBLIC RETIREMENT PLANS MUST BE BLOCKED

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. STARK] is recognized for 5 minutes.

Mr. STARK. Mr. Speaker, last week, my distinguished colleague, Mr. ROYBAL of California, chairman of the Select Committee on Aging, and I as chairman of the Joint Economic Subcommittee on Investment, Jobs and Prices, chaired a hearing into the use of public employee pensions to balance State and local budgets and its impact on public employees, retirees, and taxpayers.

In the hearing, we heard testimony from elected public officials from Illinois and Rhode Island; from executives of labor organizations; from a labor economist, and from a noted trust lawyer.

What we learned from this hearing was that raids on public pension plans are becoming commonplace. State and local politicians are diverting funds obligated to be deposited into these retirement savings trusts to offset the financial requirements of current government operations. By these actions, these State and local officials are guaranteeing massive new public debt in the future. One of the witnesses, Arnold M. Schneider, executive director of the American Association of Classified School Employees, told us that "we are witnessing the disintegration of retirement savings trust funds through diversion and expropriation. It is not the same as the savings and loan crisis—it is worse."

He explained that there is no Federal program to guarantee losses—no Pension Benefit Guaranty Corporation coverage for State and local public worker pension plans. There are not even any Federal laws protecting these trust funds, such as the Employee Retirement Income Security Act [ERISA], which applies only to the private sector workers.

While witnesses brought up raids in Illinois, Rhode Island, and Texas and

raised concern with regard to underfunding and diversions of assets in West Virginia and Oklahoma, grave concern was expressed about actions in my State of California.

The California Public Employees' Retirement System [CalPERS], serves 700,000 active employees of the State, the State universities, and 2,300 local government entities such as school districts, as well as 250,000 retirees and survivors who receive an average pension benefit payment of less than \$700 a month.

Notwithstanding the fact that the funds to administer CalPERS comes from its earnings and not from the taxpayers or the State general fund, the legislature and the Governor control its budget.

Through most of the 1980's, the workload of CalPERS increased, but the size of the staff has not expanded at a rate to meet the challenge. For example, in the 1986-87 fiscal year, 765 CalPERS employees provided services to less than 800,000 persons in the plan. By the last fiscal year, only 44 more employees had been added to provide services to 150,000 more persons.

As a result, people—particularly the disabled and senior citizens—pay the price in the form of cruel delays. Elderly and disabled persons, for example, sometimes are off the payroll for at least 6 months before they receive their first retirement checks.

The short staffing of CalPERS is also resulting in the plan being defrauded. Actual retirement benefits—the pensions—that retirees receive are based upon a formula that involves their pay and length of service.

It is rare, but from time to time, some public employers, particularly small ones, such as fire districts, will inflate their payroll records so that a favored retiring fire chief, for example, can get a bigger pension.

CalPERS tries to prevent this kind of abuse, but there are today only 8 payroll auditors charged with reviewing the payrolls of 2,300 employers of 750,000 persons. Although additional auditors had been requested there has been a 1½-year delay in filling these positions.

This severe control by the State is impairing the exercise by the board and its staff of their fiduciary duties to administer the plan for the exclusive benefit of active workers and retirees. CalPERS is doing the best it can, but it needs help.

Last summer, the Governor took steps to assert even greater control over CalPERS.

He sought without success to sack the current board of trustees and stack it with his own puppets. Currently, a 13-member board oversees the operations and investments of CalPERS. This board consists of six members elected by active and retired employee groups, four members appointed by the Governor, one chosen by the State legislature and, finally, the elected State treasurer and controller.

The Governor said that the board was not accountable to the taxpayers. Mr. Schneider said that the record provides evidence of a different story. In 1966, for each dollar of revenue paid into CalPERS: 34 cents came from employees; 39 cents from employers; and 27

cents from investment income. Today, for each dollar of revenue paid into the plan: 11 cents comes from employees; 18 cents comes from employers; and 71 cents comes from investment income.

Indeed, in the past 5 years, employer contributions have been reduced by \$2.1 billion because of CalPERS investment performance. In the past 10 years, the State employer's rate has decreased 38.5 percent.

With the help of the legislature, the Governor last summer eliminated two supplemental accounts containing \$1.9 billion. The earnings in these accounts had been used to restore the purchasing power of pensions paid to the oldest and poorest retirees. Wilson did not actually remove the money from the trust fund. As the State employer, he claimed these funds as credits against future employer payments into the plan.

In addition to several other complex changes made in benefit structure formulas, the Governor was also successful in stripping from the CalPERS board the authority to choose its own actuary, and set assumptions which insure plan stability. Instead, this responsibility has been placed in the office of the Governor.

A public plan's actuary makes the critically important assumptions regarding investment income and benefit costs to the trust fund. The annual contributions to the fund by State and other public employers are calculated on the basis of these assumptions. With the actuary under the control of the employer, there is accountability to the plan, board, or the beneficiaries.

Thus, the actuary is free to make politically motivated assumptions regarding plan earnings, and thereby, give credence to reduced contributions into the fund by the State and local public employers.

In summary, witnesses before the hearing told us:

First, the government of the State of California controls the CalPERS budget and this is indirectly causing cruel delays in elderly and disabled people obtaining payments to which they are entitled and even fraud against the plan.

Second, the Governor also took control of CalPERS' actuarial functions.

Third, finally, he has diverted 41.9 billion in funds.

For all practical purposes, the Governor of California will dominate CalPERS if he can take control of the investment decisions, which is a power currently vested in the board of administration.

During the course of our research that led up to the November 20, 1991 hearing, we obtained information that a sponsor is being sought for legislation to be introduced in the California Legislature next month that would remove control of investment decisions from the CalPERS board.

I am troubled by this possibility and I am very concerned that it could lead to an absence of effective checks and balances within the governing structure of the trust fund. In the past, in California and other States, this absence has led to behavior that ultimately was harmful to the plan beneficiaries.

Several years ago, the Federal Bureau of Investigation conducted an investigation of an

investment decision made by the California State Teachers' Retirement System. This California statewide retirement plan for teachers has a board that is essentially controlled by the Governor, in contrast to CalPERS which has 13 board members, only 4 of whom are appointed by the Governor and the majority of whom are either elected by beneficiary and employee groups or the public at large.

After evading investigators for 4 years, the former chairman of the State Teachers' Retirement System surrendered himself to Federal authorities and in September 1987 pled guilty to extortion, conspiracy, misuse of funds, and tax evasion in connection with a scheme involving the channeling of a loan of \$50 million in teacher pension funds to a wildcat oil company owned by an ex-convict. A Federal grand jury had accused the former pension plan official of accepting a \$1.5 million bribe in connection with the loan from which the ex-convict got \$1.5 million of the retirement trust funds.

Elsewhere, Governors' appointees to public employee pension plans are running afoul of the law. On the day of our November 20, 1991, hearing, the press reported that former board members of the Kansas Public Employees Retirement System are the subject of an investigation by a special prosecutor appointed to handle potential criminal cases resulting from questionable investment decisions. The State securities commissioner filed felony fraud charges on November 18, 1991, against a former chairman on the board. All trustees of the Kansas plan are appointees of the Governor.

In another November 20, 1991, report, the Philadelphia Inquirer said that an internal investigation commissioned by the Pennsylvania Public School Employees Retirement System has developed allegations of kickbacks and other payments to a board member from investments consultants to the plan. Information, including reports of "the mailing of envelopes stuffed with cash," have been forwarded to law enforcement authorities.

In each of these instances of questionable conduct, the trust funds suffered losses of the workers' retirement savings.

CalPERS has never been the subject of even alleged improprieties in its 60-year history. It is the Nation's largest public employee trust fund containing \$66 billion in retirement savings of almost 1 million working and retired public employees. Therefore, I hope that the Governor and legislature will not alter the effective, efficient, and accountable manner in which CalPERS is administered.

The witnesses before our November 20, 1991, hearing were nearly unanimous in their call for legislation. A few even called for new Federal criminal sanctions for trust fund tampering by elected officials.

The Select Committee on Aging and the Joint Economic Subcommittee Investment, Prices, and Jobs are going to continue congressional oversight of public employer conduct with regard to active and retired workers' retirement savings trust funds. Congressional staff will be continuing their inquiry through the upcoming recess and we will examine their findings early next year.

Mr. Speaker, to help further explain the importance of this issue and the abuses which

are occurring in California, I would like to include in the RECORD at this point my opening statement at an August 19, 1991, hearing in California:

OPENING STATEMENT OF CONGRESSMAN PETE STARK

Last month, California's Governor took \$1.6 billion from 900,000 active and retired members of the California Public Employees' Retirement System (CalPERS).

He took \$1,800 from each police officer, fire fighter, school cafeteria worker and other public employees—and a quarter of million others who are retired.

But the Governor was unsuccessful in his effort to sack the CalPERS Board. He said the Board had to go because it was too responsive to employees, and not responsive enough to employers.

The State's Constitution and laws say that pension funds must be used solely for the benefit of active participants and retirees. This is known as the "exclusive benefit rule."

There's an exclusive benefit rule in the Federal Internal Revenue Code, too. The tax code says that pension plans administered for the exclusive benefit of workers and retirees may, as a result, enjoy exemption from Federal tax. That means employee contributions to such plans may be made with before-tax dollars.

The only Federal law protecting public employee pensions from being stolen by employers is in the Internal Revenue Code. The remedy for violation of this rule is loss of the tax exempt status of the plan.

Let's be clear. A public employer can steal money from a trust fund and the only Federal remedy would be to take away the tax exempt status of the pension plan. Who pays? Not the thief. The workers would pay.

Contributions to their own retirement would then be made with after-tax dollars.

That is neither acceptable to me nor would it be acceptable to the members of the House of Representatives Ways and Means Committee or the majority of the House and Senate, for that matter.

The question is: Do public employees need Federal protection from expropriation and diversions of retirement savings by their employers?

The Chief Executive Officer of a corporation cannot rip off an employee pension fund. The CEO could go to jail. In the private sector, pensions are protected from employer thefts by the Employee Retirement Income Security Act (ERISA).

But no Federal crime was committed by the Chief Executive Officer of California when he expropriated the retirement savings of public employees.

Public employee pension funds are not covered by ERISA because the Congress was convinced that public officials—public employers—meet a higher standard of conduct than their private sector counterparts.

Not only are public employers accountable to taxpayers and the subject of press scrutiny, but also, it was argued, State laws would prohibit elected officials from engaging in the kind of conduct ERISA banned in the private sector.

I am not extolling the virtues of ERISA—especially its administrator. ERISA is administered by the Department of Labor. The Labor Department stood by and watched corporate crooks replace federally protected worker pensions with cheap annuities purchased from insurance companies that had to be taken over by regulators.

Beware of any proposal that would suggest that the Department of Labor will help working and retired people.

However, there is much in ERISA that is good:

ERISA contains a standard of conduct for fiduciaries. So does State law. But the Governor, who swore to uphold that law and others, broke it.

ERISA contains an exclusive benefit rule. The State law—even the constitution—does too. The Governor took an oath to uphold the law and constitution, but he has violated that oath.

The State courts will decide these issues. Notwithstanding that decision, the Congress has an obligation to ask some questions:

Should public employees and their unions and associations have the right to go to Federal Court to protect their retirement savings?

Should government executives—from Governors to Mayors—be subject to ERISA-like civil and criminal penalties for stealing their employees' retirement money from trust funds?

Theft of trust funds—retirement savings—is a crime against senior citizens—a cruel and unusual one.

The purpose of this hearing today is to learn about the impact of Assembly Bill 702 on the retirement trust fund; the views of the people with regard to whether there should be a Federal role to protect those funds; and, if so, what that role should be.

#### SOCIAL SECURITY AMENDMENTS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ROSTENKOWSKI] is recognized for 5 minutes.

Mr. ROSTENKOWSKI. Mr. Speaker, as the 102d Congress completes its business for 1991, I am deeply disappointed that it did not approve the package of Social Security amendments that the Committee on Ways and Means proposed adding to H.R. 2967, the Older Americans Act Amendments of 1991. These amendments would have made life a bit more comfortable for thousands of senior citizens who need our help. They would have improved Social Security benefits for elderly widows—those widows who are the poorest of the elderly; and they would have liberalized the Social Security retirement earnings test in a way that provides maximum assistance to middle-income working seniors.

I am particularly disappointed that the amendments were not approved because they enjoyed such strong support. Clearances were received from members of the Senate Finance Committee who said they would accept our package if the House sent it to them. Moreover, several key House Republicans indicated that they found the package acceptable. In short, we came very close to enacting needed Social Security improvements with broad appeal and broad support. It is unfortunate for Social Security beneficiaries across the country that the Congress could not reach consensus on going the last mile and enacting this important legislation.

#### LEGISLATION TO AUTHORIZE THE STATE OF NEW YORK TO IMPOSE PILOTAGE REQUIREMENTS FOR THE HUDSON RIVER MORE STRINGENT THAN FEDERAL LAW

The SPEAKER pro tempore. Under a previous order of the House, the gentle-

woman from New York [Mrs. LOWEY] is recognized for 5 minutes.

Mrs. LOWEY of New York. Mr. Speaker, today I rise to introduce legislation to empower the State of New York to enact pilotage requirements for the Hudson River that are more stringent than Federal law.

In March 1989, the most devastating oilspill in U.S. history taught Americans a cruel lesson: Pilotage is an issue of grave environmental significance. The captain of the *Exxon Valdez* left the bridge in the hands of an inexperienced mate, and a few mistakes later, millions of gallons of oil were gushing into Prince William Sound. In response, the Congress approved the historic Oil Pollution Act of 1990, a dramatic step forward in oilspill prevention and response.

Despite its broad scope, the OPA postponed needed action on one of the most important elements in accident prevention: Pilotage. The law calls for an examination of Federal pilotage standards as part of a comprehensive study of the causes of oilspills. But the Coast Guard says that up to 80 percent of all oilspills result from some kind of human error. The *Exxon Valdez* spill showed that having the wrong person at the wheel, even temporarily, can result in unprecedented environmental devastation.

Mr. Speaker, the Hudson River cannot afford to wait for another study.

In October of last year, the wrong person was at the helm of a tanker carrying 204,000 gallons of kerosene up the Hudson River. With virtually no experience on the river, the pilot grounded the vessel on Diamond Reef, one of the Hudson's most notorious hazards. Only luck prevented this spill, and over 60 like it on the Hudson since 1981, from being catastrophic.

The Hudson River is one of North America's most remarkable natural resources because of the breathtaking variety of activities it supports. It is home to perhaps our most important striped bass spawning area, contains thousands of acres of tidal wetlands, and provides drinking water to numerous communities including New York City. On top of all of that, it continues to support heavy commercial and recreational vessel traffic.

Yet, under current Federal law, a massive tank barge carrying thousands of gallons of oil on the Hudson River is not required to have a licensed pilot on board. In fact, in most cases, it is not subject to Federal pilotage requirements at all. The State of New York understands the value of this precious resource but is barred by Federal law from enacting more stringent pilotage requirements that would provide the Hudson with desperately needed protection.

It is time for the Congress to recognize that pilotage standards—first and foremost—are an environmental issue. While the need to preserve the ability of oil transport companies to operate profitably deserves careful consideration, the current system, locked in place by outdated Federal laws, virtually assures that mariners lacking adequate local knowledge will be at the helm of tank vessels brimming with oil. Resources like the Hudson River are too important to sacrifice to minimal Federal pilotage standards that often require no pilot at all.

Mr. Speaker, the existing pilotage statute turns environmental law on its head. The vast majority of environmental laws are drafted with the expectation that States will enact tougher standards to respond to local circumstances. The pilotage law makes that impossible. If the Clean Water Act were written like the pilotage statute, States would be barred from imposing water quality standards more stringent than Federal law in order to save endangered waterways and protect human health. That's absurd.

Federal pilotage laws are the product of a different era, before the American people fully realized that having the wrong person at the helm of a tank vessel can result in an environmental disaster. *Exxon Valdez* changed that forever. We should not wait for a *Valdez* on the Hudson to fix the pilotage statute.

The legislation I am introducing is a modest attempt to empower the State of New York, through which virtually all the Hudson River passes, to enact more stringent pilotage requirements within its borders. The State has the experience, the resources, and the commitment to work with the interests involved to craft additional pilotage requirements that will protect the river without impeding commerce.

New York, for example, is in the process of convening the first of a series of meetings with industry and environmentalists to examine pilotage in the New York area and to work on methods of raising the standard of practice on New York waterways. In addition, the Governor's Task Force on New York's coastal resources, on which I sit, today released its final report. It includes a recommendation that the State pursue efforts to strengthen pilotage requirements. Under existing Federal law, however, the State is hamstrung in attempting to implement this recommendation.

Mr. Speaker, a clear and present danger exists on the Hudson River and Federal law expressly prohibits the State of New York from responding. We must not wait for another disaster before we remove that barrier.

Mr. Speaker, I am including in the RECORD at this point the text of the bill I am introducing.

H.R.—

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 8501 of title 46, United States Code, is amended—*

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following new subsection:

“(e) Notwithstanding any other provision of law, the State of New York may establish any requirement applicable to the pilotage of vessels on the Hudson River upstream of 41°00'00" north latitude, that is more stringent than any requirements that apply to that pilotage under this title.”

#### CLOSE THE REVOLVING DOOR TO TOP TRADE OFFICIALS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas [Mr. GLICKMAN] is recognized for 5 minutes.

Mr. GLICKMAN. Mr. Speaker, McDonnell Douglas, one of the great pioneers of com-

mercial aviation, last week announced it was selling a 40-percent stake in its commercial airliner business to Taiwan Aerospace Corp. This move should sound alarm bells in the White House and Capitol. What is wrong in this country when an industry giant like McDonnell Douglas is forced to go begging to the Far East for capital to stay in business?

It is no secret the Reagan and Bush administrations have failed to push for fair trade practices by our economic competitors. Diplomatic and strategic concerns related to the cold war always put the interests of American corporations on the back burner. Economic concerns have been considered by Presidents Reagan and Bush to be less important than maintaining friendly relations with a pro-western ally. Now, United States dependence on foreign capital to finance the deficit has withered any muscle we might use in trade negotiations with the Japanese. We need to change our approach to trade policy before we lose any more of our jobs and vital industries.

One symptom of our ailing trade policy is the revolving door which allows U.S. Government trade negotiators to represent the interest of U.S. corporations and industries, and then take the experience, knowledge and contracts they have developed and sell them to the highest bidder. All too often, U.S. corporate heads find the Commerce or USTR official, in whom they confided and trusted, sitting opposite them at the negotiating table or representing their opponents in an antidumping proceeding. This is wrong and should not be encouraged by U.S. policy.

The revolving door hurts our trade position in myriad ways. It results in constant turnover in personnel and loss of seasoned negotiators. It casts doubts on the notion that our Government zealously represents American interests in trade negotiations. It may also damage or inhibit the performance of a U.S. negotiator if he or she has in mind a job working for one of the foreign corporations or governments involved in the negotiations. Finally, the personal relationships between current U.S. Government employees and former employees working for foreign interests may taint the conduct of proceedings seeking an objective evaluation of a trade complaint.

The PBS show "Frontline" recently reported on an antidumping proceeding brought against Japanese producers of flat computer screens before the International Trade Commission. Representing a Japanese company accused of dumping was a former Chairman of the ITC. The economic analysis bolstering the defense of the dumping claim was prepared by another former Chair of the ITC. As much as I would like to believe their participation would have no influence on the proceeding, some people, including the former Chairmen, believe their services are more valuable than some other expert in trade law. There is a quality beyond expertise that makes a former Chairman of the ITC a very valuable advocate.

The same can be said of other former top U.S. officials, like agency heads and undersecretaries, who go to work for foreign interests after leaving Government service. One of the top executives of Airbus Industries, a French Government-subsidized airplane manufacturer that pushed McDonnell Douglas from the No. 2 position in the industry, is a

former Secretary of Transportation. I cannot prove a link between the former Secretary's position and the U.S. Government's failure to attack the subsidies to Airbus which gave it an unfair advantage in the global aircraft market, but there could be one. Why did the administration allow unfair competition to so weaken McDonnell Douglas that it had to look for new capital from Taiwan?

The cold war is behind us, and we must use this opportunity to begin to exercise some economic nationalism on the trade front. My colleague, Representative ROD CHANDLER of Washington, and I are introducing legislation that would create a lifetime ban on working for a foreign government or foreign controlled corporation for level 1 and 2 appointees of the executive branch and officials involved in trade negotiations, which would involve people at USTR, ITC, Commerce Department, and Defense Department.

The purpose is manifold: To stop opportunists who use political influence to get trade jobs in the Government, blocking out people who would choose public service as a career rather than a pitstop; to remove the financial incentives for experienced trade negotiators to leave public service; to stop the flow of insider information about trade negotiations and individual corporations to foreign interests; and to remove the unfair advantage foreign competitors gain by having a former high-level U.S. official represent them before a Federal agency, tribunal, Congress, or the White house.

The message of this bill is clear; government service is public service, not a training program for financial self-enrichment. If that is not your interest, do not seek an appointment in the next administration or a job negotiating the most sensitive issues of U.S. economic survival. Someone must begin to realize the United States is being taken to the cleaners by the Japanese and other trading partners. We need to begin to fight for our own, to keep U.S. corporations strong, and to preserve American jobs.

#### RESOLUTION FOR ACTION ON YUGOSLAVIA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. PANETTA] is recognized for 5 minutes.

Mr. PANETTA. Mr. Speaker, today I am introducing legislation to urge the President to bring to bear the full force of the United States immediately to work toward a permanent peace in Yugoslavia and a negotiated settlement of the interethnic conflict in that fractured collection of republics. The resolution calls on the President to press the U.N. Security Council urgently to impose worldwide economic sanctions, including a halt in the shipment of oil, against Serbia and to work closely with the former Soviet Union to encourage that nation's critical participation in the effort to force the Yugoslav Federal Army to abandon its violent war on Croatia and to allow peaceful negotiations to resolve the conflict.

Additionally, the resolution implores the President to support the stationing of U.N. peacekeeping troops between Serbian and Croatian personnel, to withhold recognition of border changes achieved through violence, to

extend humanitarian aid immediately to besieged civilians in Croatia and to refugees of the war, and to call for protection for minority enclaves within Croatia and Serbia.

Mr. Speaker, I have submitted statements on this crisis to the House of Representatives twice in the last month. Each time I have voiced my strongest concern that the President and the administration are simply not doing enough to resolve the Serbo-Croatian war. In fact, they have done very little. The President has not responded to the plethora of calls from the Congress and from around the Nation for his leadership and the resources and expertise of the State Department.

Over 7,000 people have died since the start of the war last spring. Serbia now occupies 40 percent of Croatia, and the Yugoslav Federal Army continues to attack other border cities, holding entire populations hostage in brutal sieges and fanning the flames of historic interethnic hatred and violence. The people of Yugoslavia are engulfed in the competing drives for power by Serbia's nationalist autocratic leadership and the Yugoslav Federal Army, beholden to no one and bound to retain if not expand its power.

How much more suffering and how many deaths must Yugoslavia endure before the United States Government becomes seriously involved in the effort to resolve the crisis? This war is the bellwether of future potential interethnic conflicts in Eastern Europe and the former Soviet Union. As Yugoslavia goes, so will go Nagorno-Karabakh. If the President truly intended to contribute to a new world order, he would seize this opportunity to prevent Yugoslavia's descent into disorder.

The United Nations and the U.N. Security Council have demonstrated their enormous new prestige and sway in international conflicts in the past several years, from El Salvador to the Middle East to Cambodia to Namibia. I know that many of my colleagues share my view that the President and Secretary of State ought to work closely with the U.N. Security Council, the European Community, and newly reappointed Soviet Foreign Minister Shevardnadze to arrange a comprehensive package of worldwide economic sanctions against Serbia and a framework for negotiations leading to a permanent cease-fire and a national settlement.

This resolution expresses the sense of Congress that the President should take these critical steps now. I would hope that the introduction of the resolution would spark the administration to action, and I invite my colleagues to join me in entreating the President to act now.

#### H. CON. RES.—

Whereas the American people share a strong desire for a permanent peace in Yugoslavia;

Whereas an expeditious resolution of the Serbo-Croatian conflict is in the national interest of the United States;

Whereas Serbo-Croatian violence has claimed the lives of over 7,000 people, most of whom were innocent civilians;

Whereas both Serbian and Croatian forces have broken 13 cease-fires arranged by the European Community within hours of their implementation;

Whereas the Yugoslav Federal Army has clearly joined forces with Serbian forces, violating its constitutional mandate to remain nonpartisan and to guarantee the peace;

Whereas nationalist leaders in Serbia and Croatia have greatly exacerbated the conflict through ad hominem appeals to historic ethnic tensions and incited the escalation of the conflict toward civil war;

Whereas Serbian forces have devastated and occupied the Croatian city of Vukovar, taken control of 40 percent of Croatia, and laid siege to the city of Dubrovnik;

Whereas the Helsinki Final Act, the Paris Charter, and other Conference on Security and Cooperation in Europe documents by which Yugoslavia is bound contain principles on human rights and fundamental freedoms, the equal rights and self-determination of peoples, and guidelines concerning the peaceful resolution of disputes;

Whereas the European Community has been unable to resolve the conflict;

Whereas the European Community and the United States have imposed economic sanctions on Yugoslavia;

Whereas the world community's response to the Serbo-Croatian conflict will be a bellwether of the outcomes of other potential inter-ethnic conflicts in Eastern Europe and Central Asia; and

Whereas the Yugoslav Federal Army continues to threaten to expand and escalate the conflict and a fresh approach to the conflict is required; Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring).* That it is the sense of the Congress that the President should—

(1) condemn the ongoing violence, the cycle of atrocities and retributions in Yugoslavia, in lieu of political negotiations;

(2) immediately bring to bear the full diplomatic force of the United States to work toward a permanent cessation of hostilities leading to a negotiated settlement and peace in Yugoslavia;

(3) urge the United Nations Security Council to impose worldwide economic sanctions (including petroleum shipments) against Serbia pending a permanent resolution of the conflict;

(4) work closely with the former Soviet Union to encourage its critical participation in efforts to impose sanctions against Serbia and to resolve the conflict;

(5) support the stationing of a United Nations peacekeeping force between Serbian and Croatian forces once a permanent cease-fire takes effect;

(6) withhold recognition of border changes in the region brought about by force;

(7) immediately extend humanitarian assistance to besieged civilians in Croatia and to refugees of the conflict; and

(8) call for protection for minority enclaves within Croatia and Serbia.

#### HONORING THE PRINCE GEORGES COUNTY PARKS AND RECREATION FOUNDATION, INC.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Maryland [Mr. HOYER] is recognized for 5 minutes.

Mr. HOYER. Mr. Speaker, I rise today to pay tribute to the community service of Lucille C. Brogden, president of the Prince Georges County Parks and Recreation Foundation. This year represents the last year in her role as president of the foundation where she has been volunteering her invaluable services since 1987. In her role as president, Lucille Brogden has worked hard to raise funds to support parks and recreation, conservation, education and cultural activities within Prince

Georges County in an effort to enhance the quality of life for all citizens of the county.

Whether by telephone or in person, every day Lucille worked to improve the operation of the foundation. In her role with the board of the foundation, she was instrumental in raising the funds necessary to restore the historic Riverdale Mansion. Lucille Brogden has also taken the two annual fundraising activities and make them the most successful ever, allowing the foundation to issue more grants to help meet the crucial needs of the different communities within the county.

Additionally, Ms. Brogden has played an instrumental role in the creation of the National Fund for the Patuxent Wildlife Research Center, which is a special foundation created to assist in the funding of the operation of a national visitors center that will be built at the Patuxent Wildlife Research Center. As my colleagues know, this Congress has provided \$15 million for the construction of this visitors center which will be a premier educational wildlife center for visitors to our Nation's capital. Ms. Brogden was instrumental in helping build the community consensus that led to the creation of this visitors center and which will be critical in sustaining the center.

Mr. Speaker, leadership is about stepping up to bat when you see a need. Lucille Brogden is a leader—and she has stepped up to bat time and time again and has hit more than a few home-runs. I congratulate her upon her service as president and commend her impressive record of community service and wish her every success in the future.

#### HOPES FOR PEACE IN YUGOSLAVIA

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Maryland [Mrs. BENTLEY] is recognized for 60 minutes.

Mrs. BENTLEY. Mr. Speaker, over last weekend, Cyrus Vance and Lord Carrington called Franjo Tudjman and Slobodan Milosevic to peace talks in Geneva which resulted in the 14th cease-fire in the current crisis.

The efforts of these two mediators have been herculean, and I believe that there is finally a light at the end of the tunnel, and none too soon.

All inhabitants of Yugoslavia long have tired of this senseless civil war that is tearing their country apart. The chance for a peaceful settlement is now, as a number of situations currently are looming that threaten even this chance for peace.

According to an article entitled "Yugoslav Army, Hailing Vukovar, Calls Its Own Tune", by correspondent Blaine Harden in Saturday's Washington Post, the Yugoslav National Army is out of control and fighting for its own gains, instead of acting in its capacity as a guarantor of the human rights of the Serbian minority in Croatia.

In addition, Franjo Tudjman, President of Croatia, has arrested Dobroslav Paraga, leader of the Croatian Party of the Pure Right, an opposition group in Croatia that is very vocal in its criticism of the Tudjman's regime, and advocates a greater Croatia encompassing parts of Serbia and Bosnia-Herzegovina, for planning an armed coup against his Govern-

ment. Paraga slights Tudjman for even considering a settlement in the current crisis, believing instead that the war should be expanded.

On October 16, I spoke on the floor about Mr. Paraga, whose party appears to be thriving in Croatia, and who represents a very real threat to President Tudjman. While it is acknowledged that Tudjman is an unabashed nationalist, whose policies have aggravated the current crisis in Yugoslavia, these policies pale in comparison to those of the Croatian Party of the Pure Right, who openly base themselves on the Second World War Ustashe movement. If Mr. Paraga were to gain power, I shudder to think of the carnage that might take place at his hands.

These additions to the already complex situation in Yugoslavia could spell the end to any hope for an early peace.

A number of very good media analyses regarding the various players in Yugoslavia have come out over the last week in addition to Mr. Harden's article on the military. I would like to list some of these articles at the onset, and recommend them to anyone wishing to expand their understanding of the Yugoslav conflict. I will be quoting from them extensively, I also ask that they be included in the RECORD at the end of my text.

These articles are: "Why the 'Abominable Serbs' Do Have a Case," Nora Beloff, the European, November 21-28, 1991; "Croatia's Borders: Over the Edge," David Martin, the New York Times, November 22, 1991; "The Last Best Hope For Yugoslavia," Stephen S. Rosenfeld, the Washington Post, November 22, 1991; "Hope and History in Yugoslavia," Nora Beloff, the Washington Post, November 19, 1991; and "Yugoslavia Teeters on Brink of Cataclysm," Alan Ferguson, the Toronto Star, November 17, 1991.

The carnage in Yugoslavia must stop, Mr. Speaker. Unofficial estimates of the amount of casualties that I have received in my office are more than 20,000 since the outbreak of hostilities. The damage to the infrastructure of the disputed areas in Croatia, and cultural monuments, both Serbian and Croatian, is phenomenal. The economic damage to both the Republics is just as great, and long difficult winter lies ahead.

It is important to understand the concerns of the various players involved in the current conflict to understand how to resolve it. I would like to start with the Federal Army.

I quote from Mr. Harden's article:

The federal army, with at least 100,000 men in arms and a well paid officers' corps, consumes more than half the federal budget. This year's disintegration of Yugoslavia, particularly the secession last summer of the republics of Croatia and Slovenia, is having a devastating economic effect on the military.

Taxes from the two breakaway republics, by far the richest in the Yugoslav federation, were instrumental in allowing the army to provide its primarily Serbian officers with a privileged life of free housing, vacation villas and big pensions.

As the army gears up for more territorial conquest in Croatia, questions are being raised, even among nationalist Serbian politicians, about what the generals are fighting for and who controls them. Is the army protecting the ethnic Serb minority in Croatia or its own privileges?

What is not in question is that the army, in the name of saving Serbs from Croatian "genocide," is beginning to move against Croatian cities where there are very few ethnic Serbs to save.

Mr. Harden continues later in the article:

While the army steps up its offensive, there are signs that Serbia's leadership may want to wind down a civil conflict that is ruining the republic's economy and turning Serbia into an international pariah.

Serbia and the army have been criticized by the EC and the U.S. government as aggressors in the war. The EC singled out Serbia when it imposed economic sanctions on Yugoslavia this month, and it has called for the United Nations to impose an oil embargo that would cripple the federal army.

Serbian President Slobodan Milosevic, a hard-line nationalist who is widely blamed in the west as the principal provocateur behind the Yugoslav civil war, now appears to be seeking a way to consolidate Serbian gains in Croatia and, at the same time, stop the fighting.

This week he has showered support on a plan to bring U.N. peace-keeping forces into the Croatian war zone. Milosevic is scheduled to meet here on Saturday with U.N. envoy Cyrus Vance and EC peace mediator Lord Carrington for further discussions on how the peace-keepers would be deployed. It will be Milosevic's third meeting this week on the plan.

Local Serb politicians inside Croatia have also met with Vance this week and reportedly have welcomed the U.N. plan as a way to stop the fighting. The plan would put the United Nations in charge of security inside a Croatian zone where neither Croatian nor Serbian armed units could operate.

The army has been less than enthusiastic about the plan. General Marko Negovanovic, a deputy defense minister, has said the army would not pull out of Croatia to leave the protection of Serbs to foreigners.

The war began here in June after Croatia declared its independence. The declaration frightened the 600,000 ethnic Serbs who live in that republic, and many of them participated in an insurrection backed by Serbia and the army. Serbian forces have since managed to seize control of one-third of Croatia's territory.

As the war has continued, however, some Serbian politicians in Croatia have complained that the conflict is being directed by the army without regard to what local Serbs want.

"At this moment, we do not want Osijek because ethnically it is a Croatian town," said Caslav Ocic, who is the foreign minister of what is being called a Serbian autonomous zone that has been carved by fighting out of eastern Croatia. Ocic said there is little communication between politicians and the army, and that the military is trying to impose a simple armed solution on a complex political problem.

Military analyst Milos Vasic, who writes for the liberal Belgrade magazine Vreme, said this week that the army is fighting a war for its own survival. "The army doesn't want to be commanded by anyone," Vasic said.

He argued that an end to the civil war would force the army to withdraw into Serbia, whose collapsed economy cannot afford to pay the generals' bills."

Alan Ferguson also comments on the role of the Federal military in the current crisis. I quote from his article:

But the assault on the ancient coastal city of Dubrovnik stripped away what little

credibility the army retained. Even Serb journalists laughed out loud over an army communique which said it had entered a village near the city, "at the urging of citizens" who "came out into the streets and welcomed our soldiers heartily" and had "wondered why the army had not arrived even earlier to liberate them."

Milosevic, whose interests have mostly coincided with those of the army, is now believed to be trying to distance himself from the Dubrovnik debacle. The battered port city does not figure in his plans to win autonomy for the swathes of Croatian territory already under Serbian control.

The crafty ex-banker, who once said that foreign troops would never be welcome on Yugoslav soil, is now putting his money on a United Nations peacekeeping force to seal the gains in the Krajina. For the first time since the conflict began, Milosevic, Tudjman, and the army are all agreed: a peacekeeping force is necessary, though all have their different reasons.

The negotiations led by Britain's Lord Carrington, chairman of the European community's Yugoslav peace conference, are taking place amid a number of significant developments.

Support for the war in Belgrade, never strong, is fast ebbing away. Thousands of young Serbs have fled to avoid the draft and peace groups, muzzled by the official media, are at last making their voice heard.

Economic activity has ground almost to a halt, particularly in Croatia where up to one-third of the republic's industrial infrastructure has been destroyed.

Federal institutions are in limbo—the federal presidency, supposedly the commander-in-chief of the army, has virtually ceased to exist, leaving the army to operate outside of any political control.

Cries for even more blood can still be heard from extremist groups in both Croatia and Serbia. But the brutalizing effect of the war has already exacted a heavy price—child psychologists find students writing essays beginning: "The war will only end when we kill all the Croats or they kill all of us."

And most ordinary people, by far the majority, want peace.

The most likely solution, the one now being worked on, would allow Croatia to secede, but with its Serb-dominated territories given autonomy under the protection of a U.N. peace-keeping force and allowed eventually to vote on their future allegiance.

The alternative, if this peace effort fails, is a likely extension of the war into Yugoslavia's other republics with the potential of setting the whole Balkan peninsula alight. One senior Yugoslav diplomat in Belgrade said that if peace is achieved, "everything will change—Milosevic and Trudjman will be swept aside and the army in its present form will disappear."

Others are less sure that the army, still a powerful political force, will surrender its authority so easily. Some predict a post-war struggle for power in Serbia in which the army launches a last-ditch bid for survival by crushing the emerging democracy in the republic.

"I predict they'll be bombing Belgrade by January," said a prominent peace activist this week. She wasn't joking.

As you can see, Mr. Speaker, the Federal army's agenda is much different than that of Mr. Milosevic's wish to guarantee the human rights of the Serbian minority in Croatia. The lumping of the two together as seen in much of the press has done much to discredit the

concerns of the Serbian minority in Croatia to live without being persecuted.

And Croatian President Franjo Tudjman did not do much to allay the fears of a repeated genocide against this much maligned minority. Tudjman is both openly anti-Semitic and a Holocaust revisionist. In fact, a November 25 New Republic article by Robert D. Kaplan reviews one of his recent publications, "Wastelands—Historical Truth."

I quote from this article.

Tudjman's primary concern is not the fate of the Jews, but the role of the Croats in the mass murder of Serbs. Yet the route his mind travels on the way to his destination is telling: "The estimated loss of up to 6 million dead is founded too much on both emotional, biased testimonies and on exaggerated data in the postwar reckoning of war crimes and squaring of accounts with the defeated . . . in the mid-'80s, world Jewry still has the need to recall its "holocaust" by trying to prevent the election of the former U.N. Secretary General Kurt Waldheim as President of Austria!"

Mr. Kaplan continues later in the article regarding the Jasenovac concentration camp:

Jasenovac was a World War II concentration camp manned by the Croatian Ustashe in which Jews, Gypsies, and, more significantly, Serbs were murdered. For decades Serbs have maintained that "at least 700,000" people were killed at Jasenovac. Croats have long said that the number was more like 60,000. The discrepancy between these two sums is as good a litmus test as any for the vastness of the psychological gulf separating Serbs from Croats \* \* \*

But for Tudjman, the figure of 60,000 given by Croat nationalists is still too high: he reckons no more than 40,000 inmates perished \* \* \*

As he explains it, even the figure of 40,000 overstates Ustashe crimes, since the liquidation apparatus was largely controlled by Jews \* \* \*

Therefore, according to Tudjman, the mass murder of Serbs by Croats during World War II is not an issue, since not all that many Serbs were killed in the first place, and those who were slaughtered were mainly done in by the Jews. Case closed.

Mr. Speaker, shades of David Duke.

President Tudjman also invited the return to Croatia of the Croatian Party of the Pure Right, by which he currently is being threatened, previously banned from Yugoslavia under communism.

Many of the Ustashe movement's principals escaped Europe and Nuremberg war crime trials after the war, and some members of the Croatian emigre community have openly sympathized with the movement, returning to join Dobroslov Paraga's reincarnated Party of the Pure Right, of which I spoke on October 16 of this year.

Tudjman, upon election, enacted a series of laws redesignating the Serbian minority in Croatia, which it previously had considered an equal, as a national minority. He denied their rights to the use of the Cyrillic alphabet, and while officially denied as Government policy, also forced ethnic Serbs living in Croatia to sign loyalty oaths to the Republic of Croatia under threat of termination of employment.

Serbs in Croatia were fired en masse from Government controlled jobs, and local political officials went to pains to mark Serbian homes with crosses, reminiscent of similar actions during the Second World War.

Even today, Serbs living in the metropolitan centers in Croatia still are forced to sign loyalty oaths, and frequently are harassed and discriminated against, their houses and churches subject to vandalism, themselves subject to threats of bodily harm and death. This has resulted in thousands of Serbs leaving Zagreb, which had a population of around 100,000 before the outbreak of hostilities.

Compare this to the approximately 100,000 Croats currently residing in Belgrade, who report very few, if any instances of this type focused toward them as Croats living in Serbia.

I quote Dr. John Lampe, specialist on Balkan affairs at the Woodrow Wilson Center, who was also a witness for a Helsinki Commission hearing on human rights here in Washington a few weeks ago, from his November 1991, report, "Yugoslavia from Crisis to Tragedy":

[Western Journalists] have generally proved less sensitive to the failure of Croatia's democratically elected government to live up to the promises of free press, free markets, and the protection of minority rights that would have reassured its 600,000 Serbs and challenged the Serbian public to demand that their government follow the Croatian model. Instead we have seen less privatization in Zagreb than in Belgrade and the trumpeting of constitutional provisions and national symbols that make the Croats the only "nationality" (others are "pucanstva," or populations without recognized ethnic identity, or at best, "minority groups"). While the new government did not order the loyalty oaths to Croatia and the firing of Serbs at enterprise that has widely occurred, neither has it intervened to prevent such abuses.

I also quote David Martin, who I might add is an authority on Yugoslavia, having served there with the British Secret Service in the Second World War, and since having written many books on that area of the world, including "Web of Disinformation: Churchill's Yugoslav Blunder," a critical expose on the complicity of Kim Philby and his circle of Communists in allowing Tito to assume control of Yugoslavia.

Franjo Tudjman, Croatia's President and former Tito general, has done little to alleviate Serbian's fear of an independent Croatia. He said last year that the Ustashe regime, which ruled occupied Croatia from 1941 to 1945, "reflected the centuries old aspirations of the Croat people." A recent article in The Guardian of London quoted Mr. Tudjman as saying he was thankful that his own wife did not have any Jewish or Serbian blood, and that for the Jews, "genocidal violence is a natural phenomenon, in keeping with the human-social and mythological-divine nature. It is not only allowed, but even recommended."

Mr. Tudjman's treatment of the Serbs has gone beyond this unfortunate rhetoric. Since Croatia declared independence in June, the Serbs in Croatia have been the victims of a campaign of harassment. Serbs working for the Croatian government were dismissed. Serbian schools were banned. The Victims of Fascism Square in Zagreb was renamed the Square of the Sovereigns of Croatia. Mr. Tudjman's decision to adopt a flag modeled on the Ustashe flag has only made matters worse.

I also quote Mr. Ferguson again:

Tudjman, a stiff and autocratic leader not prone to advice, gave Milosevic the ammunition

tion he needed. His "mupes"—interior ministry police—went barging into communities dominated by ethnic Serbs to raise the Croatian flag—an emblem closely identified by the Serbs with the hated insignia of the wartime Ustashe fascists.

Ms. Beloff says in the Washington Post:

In Croatia and Slovenia, as in Serbia, the post-communist movements have been national rather than liberal, even though all three now brandish democratic and free enterprise slogans. In Croatia the ex-Partisan general Franjo Tudjman was elected president. He had fallen out with Tito and served two prison sentences on charges of nationalism. By the time I first met him in 1980, he was already pathologically anti-Serb. He has allowed himself to be surrounded by Ustashe sympathizers, many of them returning from Canada and Australia.

Tudjman armed his followers, and though they were unable to break into the all-Serb regions, which were ferociously defended, in areas of Croat majority they made life for the Serbs impossible. With jobs denied and homes burnt down, tens of thousands fled long before the federal army and the international community intervened. On a smaller scale, the Serbs retaliated.

In Dubrovnik, one year ago, a young Croat girl running her own travel agency described the ravages of the Tudjman regime. To her horror, this little Venice was being transformed into a nationalist stronghold, and she found herself ostracized by her fellow-citizens for rejecting ethnic hatreds which she felt were ruining the country.

And in the European:

When Tudjman came to power he misguidedly dispatched his armed followers to try to take over official buildings and police stations from Serb areas, where the right to autonomy had existed since the 17th century. The Hapsburgs had given land and home rule to Serb refugees from the Ottoman empire, in return for helping in defending them against the Turks.

Armed Serb groups fighting in Croatia are motivated by memories of the wartime genocide and are as fanatically self-righteous as the Croats, now fighting to the death in Vukovar. These refuse to admit—and in the case of the younger generation, probably do not even know—the Ustashi holocaust \*\*\*

The monstrous behavior of the federal army of the Milosevic government and some Serb irregulars does not justify attributing all the violence to the 'abominable Serbs'. Since Tudjman became president, Serbs in mixed regions have been harassed, deprived of jobs, had their homes burnt down and more than 100,000 have been forced to flee.

In addition, Mr. Speaker, Mr. Tudjman has maintained a hard line stance on the Croatian border question that has been based on borders drawn under Tito's Communist regime. I regard these as illegal, as all actions under a totalitarian regime should be considered. If the border question must be addressed, let it be based on a Yugoslavia that was not gerrymandered under Nazi and Communist rule, using, as I have advocated, the borders that existed previous to 1941, or even 1936.

Ms. Beloff comments on the border question:

The internal borders, which we treat as permanent features of Yugoslavia, were in reality drawn up secretly by Tito's men in 1943 and were designed as administrative boundaries, within a centrally planned Stalinist state. Tito himself was, of course,

aware of the vitality of ethnic feeling, and after physically liquidating his enemies and potential enemies, he suspended terror and ruled primarily by playing off the communities against each other.

Mr. Martin does also:

However well intentioned, the community and the U.S. are misguided in their approach. Yugoslavia's internal borders are recent inventions of a communist dictator and have no historical validity \*\*\*

The Serbs cannot be blamed for fearing the rebirth of an extremist Croatia. But one must ask the community and the U.S. why frontiers established by a communist dictator, no matter how much they may violate the more compelling concept of ethnic frontiers, must be considered legally valid for all time.

Politically stability cannot be achieved by giving Mr. Milosevic ultimatums. Surely there is a more moral, humane and politically acceptable way of delineating frontiers. For example, shouldn't some provision be made for the use of a plebiscite or for arbitration procedures? Even now, it may not be too late for the community to shift its position in a manner that allows for frontier changes in both directions.

There is much evidence that the Serbian public would favor a compromise settlement. Among other things, there has been little persecution of Croats in Serbia.

Mr. Speaker, I have said before, and I will say again, that Serbians—myself included—do not stand in the way for independence for Croatia. However, many questions must be addressed before recognition is taken. At the top of my list is the fact that Tudjman's government is considered "democratic." "Democratic" is a very unfortunate misnomer when applied to the current regime in Croatia.

Franjo Tudjman, President of Croatia, like Milosevic, was elected on a nationalist platform, which I may add, was virulently anti-Serb. Upon gaining power, he placed former Communists in the majority of his administration posts, and in fact, has replicated the institutional structure of the former Communist government down to the township level. Croatia is a one-party state, with any opposition openly suppressed by the current regime.

Despite having been elected in April 1990, he has enacted very little, if any democratic reform in the Republic of Croatia; no privatization of business, no viable opposition parties, no independent press.

And now we read in the news, of the arrest of Paraga and other officials within his party for "planning an armed rebellion." This has led to demonstrations for his release in Zagreb. According to AP wire reporter Richard Meares:

The HSP has been winning support among despairing Croats, largely through the reputation for bravery and toughness which its paramilitary wing HOS has gained in war zones of the breakaway Yugoslav republic.

Dressed in black and clutching machine guns, HOS fighters—who act as an army within the Croatian national guard—led small demonstrations in the rain on Zagreb's main square demanding Paraga's release.

"If he is not freed, then Tudjman and the others have signed their own death certificates," one speaker told the 200-strong crowd on Sunday.

Paraja says the HOS has 10,000 men who volunteered because they felt Tudjman was incapable of protecting Croatia, which has lost a third of its land to the Serb-led army

in fighting which erupted after Croatia declared independence from Yugoslavia in June.

The fall of Vukovar at the end of a three-month siege by Yugoslav forces last week has intensified public disillusionment with Tudjman \*\*\*.

Mr. Speaker, questions must be asked such as, on one hand, the assassination of Ante Paradzik, second in command of the Croatian Party of Rights, said to have been shot to death by Croatian soldiers at a road block earlier this fall, or the arrest of Paraga, as is happening now.

On the other hand questions about such a ultra-nationalist leader, Paraga, who advocates all-out war against Serbia, and bases his movement on the World War II Ustashe, responsible for the murder of more than a half a million Serbs, Jews, and Gypsies.

But Tudjman's actions extend beyond these immediate instances. According to a November 15 UPI report by correspondent Nesho Djuric:

The Croatian government arrested the party's chief of security two weeks ago after a gun battle in downtown Zagreb which left one Croatian national guardsman dead and one seriously wounded. The Croatian Party of Rights rejected government claims that its forces initiated the attack.

And, according to a Washington Post article Tuesday by correspondent Blaine Harden.

In another development, a reliable source reported that six people were killed in three gunfights between police and other uniformed men in Zagreb.

There was no official confirmation but police were presumably hunting members of the nationalist Party of Rights, whose leader, Dobrostav Paraga was arrested Friday on allegations of planning an armed rebellion. The party opposes any truce while the army occupies any of Croatia.

Not that a similar situation does not exist in Serbia as well, Mr. Speaker, I quote Blaine Harden in today's Washington Post.

The nationalist bullies of Serbia are young, clean shaven and neatly dressed. They carry clubs and smash typewriters.

Their targets are fellow Serbs who doubt the wisdom of an ethnic war.

As Serbia's conflict with the breakaway republic of Croatia intensified this month, the kids with clubs have been busy harassing Serbian antiwar activists and busting up their office furniture.

Since Serbia is an authoritarian state, anti-war activists say the bullies could not freely operate without the tacit approval of the government and the Serb-dominated federal army. These institutions, as the war has intensified, have manifested a ruling style that marries old-fashioned communist thuggery with latter day nationalist zeal.

Groups like these are responsible for the ransacking of the Yutel offices in Belgrade, which they considered too liberal, and for an active campaign of harassment against any-

body who is not a fervent nationalist. Yutel is an independent television network.

The complicity of the Belgrade government in such actions ranks on that of Tudjman's involvement with Paraga's party. Neither is commendable, and both indicate the need for true democracy throughout Yugoslavia.

Mr. Speaker, as the war progresses, the actions of the main players are getting more and more outrageous. With a lack of total press freedom in both republics, the true voice of the people is not being heard. Instead the populus is being blasted with propaganda from their respective governments, widening the schism between two groups which lived in harmony for many years.

Atrocity reports abound on both sides of this unfortunate situation, and I do not doubt that they exist, fueled by the martial attitudes touted by their respective leaders.

In fact, Amnesty International has just published a report on these claims, and I would like to quote from a press statement on the report:

**AMNESTY ACCUSES YUGOSLAVIA COMBATANTS OF TORTURE, MURDER**

LONDON, Nov. 25—Amnesty International said on Monday that all sides in the fighting in Yugoslavia had tortured prisoners and deliberately killed non-combatants.

The London-based human rights group said: "Reports from the war zones of Yugoslavia over the past four months show that all sides in the conflict have blatantly flouted international human rights and humanitarian standards that explicitly forbid the murder and torture of captured combatants and civilians not actively involved in the fighting."

Amnesty called on all parties to stop deliberate attacks on unarmed civilians taking no part in the fighting and to spare the lives of combatants who surrendered.

Its statement said the many thousands killed in the fighting included unarmed civilians who were victims of summary executions and other deliberate and arbitrary killings and combatants captured by police, military and paramilitary forces.

"Information about such gross human rights abuses has often been contradictory and allegations frequently difficult to verify," Amnesty said.

But there have been a series of incidents well-documented in the media and by official sources showing clearly the deliberate killing of civilians and wounded or surrendered soldiers and the torture of prisoners.

Amnesty said it was impossible to judge the scale of human rights violations in Yugoslavia.

I added: "What is clear is that people not involved in the fighting are being arbitrarily and deliberately killed or tortured, and these outrages must stop."

Mr. Speaker, the basis of the current conflict is the human rights of the Serbian minority in Croatia. The Serbian minority's rights suffered previous to, and continue to suffer after, the outbreak of hostilities.

There are a host of questions to be addressed if there is to be a solution to the crisis. Blame can, and should, be addressed to both sides of the current conflict. Both Tudjman's and Milosevic's maintenance of hard-line stances regarding the recognized problems of minority rights and border resolution are doing nothing to lead to a peaceful end of the Yugoslav crisis.

The current overtures for peace by both parties, and willingness to allow peace-keeping forces into the disputed areas, are a step in the right direction to ending this senseless conflict.

Mr. Speaker, let us hope that with the latest attempts by Cyrus Vance and Lord Carrington to come to a resolution of, or at least halt the bloodshed, that the attitude of irrationality and unwillingness to compromise that defines the current conflict can be overcome, and a lasting peace taking into account the concerns of all parties can be forged. If it is not, we will be facing a situation that makes the current situation look tame in comparison.
