PROCEEDINGS AND DEBATES OF THE 103^d CONGRESS, FIRST SESSION

SENATE—Wednesday, November 10, 1993

(Legislative day of Tuesday, November 2, 1993)

The Senate met at 10 a.m., on the expiration of the recess, and was called to order by the Honorable HARLAN MATHEWS, a Senator from the State of Tennessee.

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray:

*For rulers are not a terror to good works, but to the evil. * * *—Romans 13:3.*

Almighty God, sovereign Lord of history, Ruler of the nations, as we observe the democratic process, the delicate balance between separation of powers, and the often difficult struggle of legislation, our hearts are filled with gratitude for the political process conceived by our Founding Fathers and verbalized in the Constitution. Thank you, Lord, for the United States of America and its political system.

Dear Lord, when we contemplate the fact that the opinions and demands of millions of people and thousands of special interests, not to mention the opposing views of Senators, Representatives, and their staffs, come to focus in Congress, we are amazed that the process works at all. And we realize it is the greatest system in the history of nations.

Gracious Father in heaven, may Your blessing of grace and love be focused on the U.S. Senate, that each person who works here and his/her family will be aware of that grace and love.

We pray in His name who is Love Incarnate. Amen.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore [Mr. BYRD].

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, November 10, 1993.

To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable HARLAN MATHEWS, a Senator from the State of Tennessee, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. MATHEWS thereupon assumed the chair as Acting President pro tempore.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

ORDER OF PROCEDURE

Mr. MITCHELL. Mr. President, I inquire of the Chair: Is the bill now pending before the Senate?

The ACTING PRESIDENT pro tempore. The bill will be pending as soon as it is reported by the clerk.

Mr. MITCHELL. Am I correct in my understanding that the pending business when the bill is reported is the Feinstein amendment?

The ACTING PRESIDENT pro tempore. The Feinstein amendment is the pending question.

The Senator from Maine is recognized.

SCHEDULE

Mr. MITCHELL. Mr. President, as soon as I complete my brief remarks, I will ask that the bill be reported, and the pending business will be the Feinstein amendment.

As I stated last night on the floor in a colloquy with the Republican leader just prior to the Senate's recessing, we had several meetings last evening both prior to and following the vote on the Feinstein amendment in an effort to determine the best way to proceed on the bill.

Appropriately and understandably, both Senators DOLE and HATCH on the

Republican side and Senator BIDEN and I on the Democratic side wanted to consult with our colleagues before attempting to reach agreement, if agreement is possible, and we agreed that that would occur late last evening on our side and early this morning on the Republican side. I have not yet received a response from Senators DOLE and HATCH.

Therefore, under the circumstances, I believe it appropriate that the legislation remain in its current status, that is, with the Feinstein amendment pending, and, while we are continuing our discussions, I anticipate that Senators can speak on the bill or, indeed, on any subject of their choosing, but that no action will occur to disturb the current status of the bill until such time as I have a chance to consult further with Senator DOLE.

I repeat what I have previously said on several occasions: In observance of Veterans Day, the Senate will not be in session tomorrow, Friday, or Monday. If we do not complete action on this bill today, we will remain in session for a long time, late into the night, and perhaps into the early morning hours tomorrow to make as much progress as we can before leaving. However, it is my hope that that will not be necessary and that we will, in fact, be able to complete action on the bill.

Once we return from the recess on next Tuesday, there will be a total of 9 days remaining, including next Saturday and Sunday and the Wednesday before Thanksgiving. We will be in session on that Saturday and on Sunday, if necessary.

My hope is we can complete action on business on Tuesday prior to Thanksgiving so Senators can be with their families and travel back to their home States if they intend to do so.

To reach that objective will require a good deal of progress involving very long legislative days on the days we are in session, with votes possible at any time.

I will, before this day's session is completed, make an announcement

● This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

with respect to the schedule for next Tuesday when we return.

Mr. President, I thank all my colleagues for their cooperation. I will report to the Senate as soon as I receive a response from Senators DOLE and HATCH.

I now yield the floor.

VIOLENT CRIME CONTROL AND LAW ENFORCEMENT ACT OF 1993

The ACTING PRESIDENT pro tempore. The clerk will report the pending business.

The assistant legislative clerk read as follows:

A bill (S. 1607) to control and prevent crime.

The Senate resumed consideration of the bill.

Pending:

(1) Levin amendment No. 1151, to improve Federal and State automated fingerprint systems to identify more criminal suspects. (By 49 yeas to 51 nays (vote No. 365), Senate failed to table the amendment.)

(2) Feinstein amendment No. 1152 (to Amendment No. 1151), to restrict the manufacture, transfer, and possession of certain semiautomatic assault weapons and large capacity ammunition feeding devices.

Mr. WELLSTONE and Mr. COATS addressed the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Minnesota.

Mr. WELLSTONE. I thank the Chair. I say to my colleague from Indiana I will try to be quite brief.

DOMESTIC VIOLENCE FIREARM PROTECTION AMENDMENT

Mr. WELLSTONE. Mr. President, I was hoping to have a chance to speak with the Senator from Delaware and the Senator from Utah, since I know time is of the essence, to see whether or not I might be able to obtain unanimous consent to lay the pending amendment aside. Clearly, we are not going to do that if we are involved in a very important discussion on the Feinstein amendment. That will not be my purpose. But I thought I might speak just for a short period of time about an amendment that I do plan to offer later on today as a part of the crime bill.

I urge my colleagues to support an amendment, which I call the domestic violence firearm protection amendment, and what this amendment does is take guns out of the hands of people who are violent toward their spouse or children.

Mr. President, I will just read from the headline of an editorial in the Washington Post. I believe it was November 6. I will quote, and this is an explanation of a bill introduced by Congressman TORRICELLI in the House. I introduced the same bill on the Senate side. And I want to offer this as an amendment later on today. I quote:

The bill would make it clear—

And in this particular case we will be talking about an amendment—

that if you are not responsible enough to keep from doing harm to your spouse or your children, then society does not deem you responsible enough to own a gun.

I think that it is pretty clear, Mr. President, what the Post is saying in its editorial and it is pretty clear what this amendment says: If you have been convicted of an act of violence against a spouse or a child, then you should not be able to own or to obtain a gun.

Currently under Federal law, there is a list of circumstances, including conviction of felony and mental incompetence, that prevent individuals from legally owning a gun. This amendment would add to that list those who have been convicted of violently abusing their spouse or child. Anyone who has been convicted of that kind of crime or who has a restraining order issued against them because of threatened abuse would be prohibited from obtaining a gun.

And this amendment would prohibit anyone from selling or giving a gun to someone they know or they have reason to believe has been a perpetrator of domestic violence or is the subject to a court-issued restraining order.

Mr. President, I am going to be very brief because other colleagues are on the floor. I think the best way I can summarize the importance of this amendment as a part of a crime bill to fight, to intervene, to prevent crime and violence in our country is to make it crystal clear that in all too many cases the only difference between a battered woman and dead woman is a gun. Let me repeat that one more time. In all too many painful cases the only difference between a battered woman and a dead woman is a gun. Over 4,000 women are killed each year at the hands of their spouse or a relative or a friend, and each year an estimated 150,000 incidents of domestic violence involve use of a weapon.

Mr. President, again, I could go on and on about this, but I am not going to because I think the amendment is very straightforward and I think it is self-explanatory and I think it is of such fundamental importance that my colleagues will very quickly grasp what is at stake, what is at issue.

I just want to conclude this way. For a good number of years now, my wife Sheila and I have been working on strategies, working with women and children and families and men and law enforcement people and ministers and people in the community to get a handle on and try to break this cycle of family violence. Recently, we sponsored an art exhibit from Minnesota called The Silent Witness, that came out here, that was in the Russell rotunda. Many colleagues were kind enough to come by and view it.

This exhibit was and is an extraordinary display of the impact of domestic violence. It is a memorial honoring 26 women who were murdered in Min-

nesota in 1990 in acts of domestic violence. The exhibit is made up of life-size silhouettes representing women whose lives ended violently at the hands of their husband, ex-husband, partner, or acquaintance.

Mr. President, 10 of the 26 died from gunshot wounds. Ten of the 26 died from gunshot wounds.

We must stop the violence in the streets and, Mr. President, even though I do not like to say this, we must also stop the violence in the homes.

This bill was passed by the Minnesota State Senate with only one vote against it this past year and it passed the statehouse unanimously. In the State of California, a similar bill was passed by the legislature and signed into law by Governor Wilson last month.

Mr. President, I said to the Senator from Indiana that I would be very brief, and I intend to honor that commitment to him.

I will be back on the floor later on when it will be an appropriate time to offer this amendment. I hope I will have strong support from my colleagues.

I would say to my colleagues, I have talked to a good many people in the law enforcement community and, just as important as that, a good many people who do not even agree with me, for example, on other pieces of legislation, like the Brady bill, but who have said to me, "Listen, if what you are saying has nothing to do with people's right to hunt and own sporting rifles and all the rest, but what you are saying is, in the words of the editorial from the Washington Post, "No Guns for Abusers," for gosh sake, if someone has not been responsible enough so that he—or sometimes it could be she—has a record of violence against a spouse or a child, then we have no responsibility whatsoever to enable that person to go out and buy a gun or, for that matter, own a gun."

This would provide a tremendous amount of protection for women and children and, in some cases, men in our families. It would be a huge step forward. I hope there will be good support from my colleagues.

I yield the floor.
The ACTING PRESIDENT pro tempore. The Senator from Indiana.

Mr. COATS. Mr. President, I thank my friend for his brevity and for recognizing that others want to speak.

Mr. SPECTER. Mr. President, will my colleague from Indiana yield for just a few seconds without losing his right to the floor?

Mr. COATS. I am happy to yield.

HABEAS CORPUS

Mr. SPECTER. Mr. President, I have asked Senator COATS to yield for just a moment because I have been on the floor since before 10, and I want to say very briefly that I was on the floor last night at 11:30 p.m. with the managers

and the leadership stating my intention to proceed with my amendments on habeas corpus which have been filed and, in fact, have been pending for some 4 years, going back to 1989.

It is my view that these are extremely important provisions so that criminal justice can move forward in the State system.

I have been on the floor for 5 days now—Thursday, Friday, Monday, Tuesday, and Wednesday—and I was on time for a 9:30 meeting this morning, which I heard overnight was canceled, and I will be off the floor but available on a few minutes notice to come back to the floor to present my amendments.

But I just wanted to give the Chair notice and all parties notice that I do intend to proceed with these amendments. They are listed. I am ready to go and will cooperate with the managers in presenting them at the earliest possible moment.

I thank my colleague from Indiana.

The ACTING PRESIDENT pro tempore. The Senator from Indiana.

Mr. COATS. Mr. President, we have been on this floor debating the crime bill for a week. While not all have been legislative days, 1 week has elapsed since we began.

In the 1-week period of time that the Senate has been debating the crime bill and our response to crime in our Nation, I think it is important to note that this Nation has experienced 480 murders, 2,016 rapes, 13,148 robberies and 20,855 assaults, 31,832 cars have been stolen, and 60,408 burglaries have been committed.

Those are staggering numbers. And that has occurred just in the time the Senate has been debating what our response to crime in America ought to be.

But we need to understand that crime is more than numbers, more than these cold statistics. Because for every crime committed, there are profound psychological shocks to the victim, their families, their friends, their community and this Nation. Louis Haight Harrington wrote in 1992:

Crime has made victims of us all. Awareness of its danger affects the way we think, where we live, where we go, what we buy, how we raise our children, and the quality of our lives as we age. Every citizen of this country is more impoverished, less free, more fearful, less safe, because of the ever-present threat of the criminal. Rather than alter a system that has proven itself incapable of dealing with crime, society has altered itself.

And so Congress responds—with a massive, costly, almost hysteria-driven response; \$6.5 billion for new prison construction and incarceration alternatives—three times the money we now spend on operating our Federal prison system—\$7.1 billion to put 100,000 new cops on the street—death penalty in 47 new circumstances—up from 2—13-year-olds tried and sentenced as adults.

Some of this is a necessary and appropriate response.

Because one of the primary functions of government, indeed our constitutional mandate, is to preserve domestic tranquility, and the present state of domestic affairs in this country is anything but tranquil. And so we must act.

Prison space must be provided because those engaged in violent crime have to be separated from society. We have to have prison space so we can end the revolving door of suspended sentences or reduced sentences that simply repeat the process of putting the criminal back on the street to commit more crimes.

Laws have to be passed forbidding criminal activity. And policemen have to be added if we are going to make the arrests necessary. The judicial system has to be strengthened to expedite the process.

Our direct legislative approach to crime and punishment, I think, needs to focus on two key principles. Principle No. 1, get those who pose a danger to others out of society and behind bars. In the legislation before us, we do that and we do it to an extent we have never seen before. Prisons are essential for isolating violent and dangerous criminals. That is what prisons do best; bars and walls, in these cases, are a type of societal self-defense. They mark the boundaries which the predator cannot cross.

Principle No. 2, however, I think is equally important and I am pleased we address it in this bill. We have to find alternatives for the nonviolent. It is clear there is no substitute for the punishment of prison where the violent are concerned. But it ought to be equally clear to us that some other form of punishment must be found for young, nonviolent offenders, for their sake as well as for ours. There must be some middle ground between the prison's gradual destruction of the soul and a half-hearted slap on the wrist.

This bill incorporates the concept of boot camps, something I have been promoting for some time. Boot camps are a promising alternative to traditional prisons for those individuals who are nonviolent youthful offenders, usually first-time offenders, because boot camps provide tough punishment through work, discipline, and a highly regimented program of physical training, hard labor, and drill exercises much like basic training in military camps. The goal is to punish, but unlike conventional prisons the attempt is also made to make boot camps places of character building, not character destruction.

We need to ask ourselves whether prisons should really hold young nonviolent offenders when crowded cells are not available for rapists, murderers, armed robbers, and violent drug dealers. And we need to ask ourselves whether or not we can find a way to

punish and hopefully rehabilitate these young people in a way in which the taxpayer gets a better bargain for his dollar. It is clear the establishment of boot camps is a viable alternative.

We also need to examine the whole question of restitution. The bill before us does have some designated programs and funds for some experimental programs which may incorporate the concept of restitution. Restitution for property crime is simply forcing the criminal to pay back his victim for their loss. This is not an entirely foreign idea in America.

In 1790, the first Congress enacted a law against theft that provided that any offender on conviction be fined not exceeding the fourfold value of the property stolen. One-half of this fine was to be paid to the owner of the goods and one-half was a reward to the informer and to the prosecutor. Restitution in American law is not unprecedented.

The goal of restitution is to heal the wounds of crime, not just to punish offenders. Victims deserve to be paid back for their losses. And with some offenders, restitution is a responsibility that can help change attitudes.

Psychologist Albert Eglash argues, "restitution is something an inmate does, not something done for him. . . . Being reparative, restitution can alleviate guilt and anxiety, which can otherwise precipitate further offenses."

This bill incorporates some experimental programs in the area of restitution. I think it is worthy of our attention to determine if it can make a difference. But whether or not it makes a difference in the attitude of the criminal, it certainly will make a difference in the pocketbook of the victim. Too often, we have solely focused on the criminal, the criminal's rights and punishment for the criminal, without looking at the victim and the damage and loss to the victim. And restitution can help us focus in that direction.

The bill before us today takes some important steps in these directions. We will build regional prisons for the violent; we will fund boot camps at unprecedented levels; and we will encourage programs of restitution. But when the final vote is taken on this bill, and this massive response—a response more than double what the President requested—is passed, I wonder if Senators will leave the floor secure in the knowledge that we have fully addressed the problem of crime. Will we be able to go back to our States and tell our constituents that we have fully responded to their concerns and they can now rest easy; that these new prison cells and police on the streets and new laws and death penalties and stiffer sentences—will alleviate their concerns? I assume most Senators share my sense of disquiet and unease over this question. Clearly something else is going on in society, something very

disturbing. And while our get tough on crime response is necessary—it does not begin to fully address the problem.

No matter how many police we put on the street, no matter how tough we make the penalties, no matter how many additional prison cells we build, this legislation falls short of a comprehensive solution to crime in America.

In this regard let me make two observations. First, our approach to crime and punishment I am convinced requires a more basic reassessment of fundamental questions and assumptions of our current system. The most basic of these is our nearly universal reliance on prison to solve the problem of crime. As prisons are built and filled, we have not seen the rate of crime reduced by the real reform of criminals. In just 5 years, State prison population has grown by over 85 percent, from 450,000 inmates in 1986 to 711,000 in 1991. The number of State prisons has grown from 903 in 1986 to 1,239 in 1991.

In 1973, there were 210,000 people in prison in the United States. Last year, those imprisoned in America numbered 856,000, plus 425,000 in jails waiting to be imprisoned for a longer sentence.

Our rate of incarceration was 512 per 100,000 Americans. Despite prison growth and an increase in the number of criminals incarcerated, crime has grown by 75 percent in 20 years. By some estimates, four out of five crimes in America are committed by ex-convicts. Prisons, it seems, have done little to deter or to rehabilitate.

I want to make the point here I made before and I will make again: Prisons are essential for isolating violent and dangerous criminals. That is what prisons do best. But we cannot fool ourselves that barbed wire and wasted hours are a recipe for rehabilitation, or for fully addressing the problem of crime in this country. In this regard, I believe this bill evades the fundamental causes of crime.

Quite simply, the bill is inadequate because we as legislators are not equipped to address the underlying cause of crime, which I believe is the moral breakdown in society.

In the 1950's, a psychologist, Stanton Samenow, and a psychiatrist, Samuel Yochelson, shared the conventional wisdom that crime is caused by the environment. Setting out to prove their point, they began a 17-year study involving thousands of hours of clinical testing of 250 inmates in Washington, DC. To their astonishment, they discovered the cause of crime cannot be traced to environment; it cannot be traced to poverty; it cannot be traced to oppression. Instead, they said, crime is the result of individuals making, as they put it, "wrong moral choices."

When basic values are no longer taught at home and in school, Wilson said, self-interest reigns and crime is the result. Wilson concludes:

No culture can survive without a moral consensus, shared beliefs about right and wrong, a common standard of truth. This is what defines the rules we live by. It motivates self-sacrifice. It undergirds the law. It permits freedom without anarchy. It is the agreement that society is governed more by transcendent truths than by individual desires, that society is more than the sum of the choices individuals make. Without this consensus, the individual is abandoned to self-interest alone.

Charles Colson of Prison Fellowship Ministries wrote to me recently:

It is clear that America has a crime problem. What is not as clear to many people is that the problem isn't a lack of law enforcement or sound corrections policy. It is a poverty of values. In our violent, inner-city neighborhoods and in our formerly peaceful suburbs, people are crying for the order that grows only out of moral character and moral courage.

Crime, after all is the result of moral failure—either of a failure to discern right from wrong, or of a deliberate choice of wrong over right. Crime is a mirror of a community's moral state. Today that mirror reflects a broken consensus. A set of traditional beliefs that defined the content of our character has been shattered like glass. Americans are left to pick their way among the jagged pieces.

My second observation is that there is a changing face of crime.

Crime, it was once believed, was rooted in rational acts. Poverty prompted robbery, burglary, or car theft. Murder had a motive—premeditated—or resulted from the heated passion of a moment. Rape was rooted in severe psychological sexual abnormality—traceable, not excusable, causes. Assault resulted from insults, invasion of territory, jealousy. And when we saw irrational acts, we attributed them to abuse of drugs or alcohol.

So we rationalize crime. Each crime, no matter how despicable or horrible it was, we seemed to attach an explanation to it. We thought there was at least some rational link. Even if we did not agree with that cause, we felt there was some link between the crime committed and the motive.

But today, what we are witnessing is a new face of crime and it is a profoundly disturbing face. Daily we read of crimes that defy any rational explanation and of perpetrators without conscience.

Newsweek reported that an individual by the name of Charles Conrad, 55 years old, crippled by multiple sclerosis, using a walker or wheelchair to get around, was attacked by young people—aged 17, 15, and 14—and that attack was ruthless. Police say that when Conrad returned to his suburban Atlanta condominium while they were burgling it, the boys did what they had to do: They got rid of him permanently.

Over a period of many hours—stretching from dusk on July 17 until dawn on the next day—they stabbed him with a kitchen knife and a barbecue fork, strangled him with a rope, and hit him on the head with a hammer

and the barrel of a shotgun, according to a statement one of the boys, 14-year-old Carlos Alexander Nevarez, reportedly gave to the police. At one point they realized they were hungry. So they heated up the macaroni and cheese they found in Conrad's kitchen, and washed it down with Dr. Pepper.

After dinner, they tortured Conrad some more, then left with a stereo, VCR, camcorder, and shotgun.

October 25, 1993:

Two white men were sentenced Friday to life behind bars for dousing a black tourist with gasoline and setting him on fire. The two showed no emotion when they received the maximum sentence for the attempted murder of a New York City stock brokerage clerk Christopher Wilson.

October 24, 1993:

Three schoolboys surrounded a ninth-grade classmate and stabbed him to death. Afterward they laughed and traded high-fives, like basketball players after a slam dunk.

August 31, 1993:

*** A 29-year-old Lindenhurst man was sentenced to life in prison for beating to death an 84 year old woman and cutting off her finger so he could steal her ring. After a lengthy trial, he was found guilty of intentional murder, felony murder, two counts of burglary, and one count each of arson and attempted burglary. The jury cleared him on two charges that he sexually abused victim Beatrice "Billie" Morgan, with a chair leg. They determined that the woman already was dead during the alleged abuse, so he could not be convicted of the crime *** the assistant district attorney detailed the acts of brutality.*** "I saw that woman in her own home, spread eagle on the floor with her nightclothes wrapped around her neck. I saw her with a chair leg shoved down her throat."

August 2, 1993:

In February, Margaret Ensley's 17-year-old son Michael caught a bullet in the hallway of his high school in Reseda, California. She says a teen shot her son because he thought Michael gave him a funny look.

More startling than even the crimes themselves are the attitudes behind those who commit them. A recent article in U.S. News & World Report put it this way: "Behind the rash of violence is a startling shift in adolescent attitudes. Suddenly—chillingly—respect for life has ebbed sharply among teenagers and not just in embattled inner cities." A recent survey of suburban high schoolers by Tulane researchers Joseph Sheley and M. Dwayne Smith revealed that 20 percent endorsed shooting someone "who had done something to offend or insult you." The researchers concluded, "one is struck less by the armament among today's teenagers than by the evident willingness to pull the trigger."

The Wall Street Journal recently lamented our society's loss of Guardrails. The Washington Post mused over a society increasingly characterized by incidents in which the actions of adults or children seem bereft of morality or conscience. The New Republic editorialized about a destructive sense that nothing is true and everything is permitted. The Wall Street Journal commented,

If America is to decline, it will not be because of military overstretch. Nor the trade balance, Japanese management secrets or even the Federal deficit. If a decline is underway, it's a moral one. Not petty morality about nanny taxes, but the profound morality of whether a community can insist that its members bear certain responsibilities, and enforce them when necessary.

Mr. President, If we are to fully address the problem of crime in America, we must do more than arrest the perpetrator of the crime. We must be willing to confront the moral decay of our society. But the question is how, as a legislative body, do we do this?

As we compare the problem with our response, the words of Judge Learned Hand come to mind:

I often wonder whether we do not rest our hopes too much upon laws and upon courts. These are false hopes, believe me, these are false hopes. Liberty lies in the hearts of men and women; when it dies there, no laws, no courts can save it.

Dr. Samuel Johnson observed, "How small, of all that human hearts endure/ that part which kings or laws can cure."

Responding to the heart of the crisis requires a level of work and commitment best done outside the halls of Congress, although we can have a role.

First, we must recognize and acknowledge the role of the family in the cultivation of conscience and moral restraint in children, and the tragic consequences of the disintegration of the family that is characteristic of current society.

In her Atlantic Monthly article, entitled "Dan Quayle Was Right," Barbara Dafoe Whitehead said:

Divorce and out-of-wedlock childbirth are transforming the lives of American children. In the postwar generation more than 80% of children grew up in a family with two biological parents who were married to each other. By 1980 only 50% could expect to spend their entire childhood in an intact family. If current trends continue, less than half of all children born today will live continuously with their own mother and father throughout childhood. Most American children will spend several years in a single-mother family. Some will eventually live in stepparent families, but because stepfamilies are more likely to break up than intact (by which I mean two biological parent) families, an increasing number of children will experience family breakup two or even three times during childhood.

According to a growing body of social-scientific evidence, children in families disrupted by divorce and out-of-wedlock birth do worse than children in intact families on several measures of well-being. Children in single-parent families are six times as likely to be poor. They are also likely to stay poor longer. Twenty-two percent of children in one-parent families will experience poverty during childhood for seven years or more, as compared with only two percent of children in two-parent families. A 1988 survey by the national center for health statistics found that children in single-parent families are two to three times as likely as children in two-parent families to have emotional and behavioral problems. They are also more likely to drop out of high school, to get preg-

nant as teenagers, to abuse drugs, and to be in trouble with the law. Compared with children in intact families, children from disrupted families are at a much higher risk for physical or sexual abuse.

The national Commission on America's Urban Families echoes these findings.

The trend of family fragmentation drives the Nation's most pressing social problems: Crime, educational failure, declining mental health, drug abuse, and poverty.

Research indicates that even after controlling for factors such as income, boys from one-parent homes are more likely to commit crimes and become involved in the juvenile justice system.

About one third of all children today live apart from their fathers. Father absence is an important predictor of problems such as juvenile crime, poor school performance, and adolescent pregnancy.

Dr. Urie Bronfenbrenner of Cornell University has this to say:

Controlling for associated factors such as low income, children growing up in single-parent households are at greater risk for experiencing a variety of behavioral and educational problems * * * especially the so-called "teenage syndrome" of behaviors that tend to hang together—smoking, drinking, early and frequent sexual experience, and in the most extreme cases, drugs, suicide, vandalism, violence, and criminal acts. Most of these effects are much more pronounced for boys than for girls.

In "Beyond Economic Security" Elaine Kamarck, who now works for the Vice President, and William Galston, who is the President's domestic policy adviser, formerly worked together at the Progressive Policy Institute and in their report they quote Karl Zinsmeister:

There is a mountain of scientific evidence showing that when families disintegrate children often end up with intellectual, physical, and emotional scars that persist for life * * * We talk about the drug crisis, the education crisis, and the problems of teen pregnancy and juvenile crime. But all these ills trace back predominantly to one source; Broken families:

Kamarck and Galston go on to say:

As more and more children are reared in one-parent families, it becomes clear that the economic consequences of a parent's absence (usually the father) may pale beside the psychological consequences—which include higher than average levels of youth suicide, low intellectual and educational performance, and higher than average rates of mental illness, violence, and drug use. Nowhere is this more evident than in the long-standing and strong relationship between crime and one-parent families.

Kamarck and Galston cite a recent study in which Douglas Smith and G. Roger Jarjoura found that "neighborhoods with larger percentages of youth (those aged 12 to 20) and areas with higher percentages of single-parent households also have higher rates of violent crime.

Kamarck and Galston go on to say:

The relationship is so strong that controlling for family configuration erases the relationship between race and crime and between low income and crime. This conclusion shows up time and time again in the literature; poverty is far from the sole determinant of crime.

In "Putting Children First: A Progressive Family Policy for the 1990's," Kamarck and Galston say:

Today we stand at a crossroads. We are just beginning to understand the full range of costs that society bears when families raise children less effectively. We need a progressive child centered policy that both acknowledges new realities and affirms enduring values; a policy that recognizes that two-parent families are frequently necessary—and that two-parent families are usually best.

Tragically, a growing number of America's children will never experience the nurture, and the cultivation and the transformation of values that can occur in a two-parent home. These are the millions of illegitimate children who will never see their father.

In saying this, Mr. President, I do not want to in any way diminish the enormous responsibilities and contributions being made by single-parent mothers and fathers. They bear the hardest burden of all. Most find themselves in the situation not of their own choice. They are making heroic efforts to raise children in a culture that is screaming against the values that they are trying to teach. I believe those men and women are heroic. But the facts and the statistics are clear. Whether we are talking about the economic well-being of the family or the social well-being of the family, a two-parent family is clearly superior. So we need to find ways to encourage two-parent families.

When we look at the illegitimacy that is taking place in this country, we are staggered by the numbers.

In an October 30 column in the Wall Street Journal, Charles Murray wrote:

Every once in a while the sky really is falling, and this seems to be the case with the latest national figures on illegitimacy * * * in 1991, 1.2 million children were born to unmarried mothers, within a hair of 30% of all live births. How high is 30%? About four percentage points higher than the black illegitimacy rate in the early 1960s that motivated Daniel Patrick Moynihan to write his famous memorandum on the breakdown of the black family.

The 1991 story for blacks is that illegitimacy has now reached 68% of births to black women. In inner cities, the figure is typically in excess of 80%.

George Will commented, "People tend to parent as they were parented * * * America is undergoing a demographic transformation the cost of which will be crushing."

Mr. President, it is in families that children learn the tools of economic success and the lessons of moral restraint. It is in families that they learn honesty, self-respect, compassion, and confidence. When these families fail, the effects ripple to every area and level of society. Until all of us are willing to respond to the crisis of American families, we cannot hope to put anything more than a small dent in the crime in America.

So one obvious answer is to do what we can to encourage and strengthen

families. While Government cannot legislate strong families, it can enact policies that promote the two-parent family.

There are a host of ideas shared by individuals and groups across the ideological spectrum—from the Democratic Progressive Policy Institute—to the bipartisan National Commission on Urban Families—the Conservative Family Research Council.

I have offered a number of these initiatives in various forms, and other Members have also.

These include measures restoring the rewards of marriage, child rearing and adoption; changing our economic policies to relieve the burden on families through an increase in the personal exemption and the earned income tax credit to provide much needed economic assistance. Making the workplace family friendly, promoting parental responsibility, and reforming divorce laws are additional ways in which Government can play a constructive role.

We can also look carefully at the role our education system can play in promoting character and reinforcing values.

In an odd paradox, our schools have often set themselves against the virtue of students in their charge. In the last few decades, many districts adopted programs which said, in essence, "there is no right and wrong. We are going to throw out all these values and let children pick and choose between them."—whichever ones fit the occasion, whichever ones are relevant to their particular situation. And they have done nothing but spawn a generation which is morally confused.

I recently saw the story of a high school values clarification class conducted by a teacher in Teaneck, NJ. A girl in the class had found a purse containing \$1,000 and returned it to its owner.

The teacher asked the class' reaction. Every single one of her fellow students concluded the girl had been foolish. Most of the students contended that if someone is careless, they should be punished.

When the teacher was asked what he said to the students, he responded,

Well, of course, I didn't say anything. If I come from the position of what is right and what is wrong, then I am not their counselor. I can't impose my views.

J. Allen Smith, considered a father of many modern education reforms, finally concluded,

the trouble with us reformers is that we've made reform a crusade against all standards. Well, we've smashed them all, and now neither we nor anybody else have anything left.

When we continue to initiate an education system void of standards,

Argues George Roche—

void of authority, void of responsibility, void of the ideal, is there really any question as to why the lives of our youth develop lacking

moral standards, self discipline or a sense of responsibility?

Moral education cannot be successfully cultivated by the political process. While political depends on individual character, it can do precious little to create it.

As growing numbers of families fail, there is even more pressure on the schools. Patricia Grahm, dean of Harvard's Graduate School of Education argues,

the school's responsibility for forming character is subsidiary to that of the family and perhaps even the community. But any school that does not recognize the need for enhancement of character is inadequate.

What realistically can be done? First, at least, schools should do no harm. You can argue, for example, over exactly what hospitals should do. But at the very least, they shouldn't be spreading disease. When schools contradict home-taught morality by preaching relativism and value-free decision making, they can do irreparable damage to young minds. Teaching nothing at all on the moral agenda is better than this.

Second, I believe it is clear that one thing we can agree on is to take greater pains to expose children to the moral imagination embodied in great literature. "Crime and Punishment," "the Bible," "To Kill A Mocking Bird," "Lord Jim." Works like these expose the workings of moral reasoning, the consequences of sin, the necessity of virtue.

Third is the question of using schools directly to teach moral rules. Support for the idea is overwhelming. Parents of public school students want moral values taught in schools by a majority of 84 percent in one poll.

There are models. A joint statement on moral education in public schools issued by an ecumenical group of concerned denominations published "A Lesson of Values." In it, they said:

There is broad consensus among Americans, regardless of religion and cultural background, concerning these values * * * values like honesty, compassion, integrity, tolerance, loyalty, and belief in human worth and dignity. * * * Traditionally, the family, the church or synagogue, the school, and the government have worked to educate children in basic values. But in recent years, there has been a growing reluctance to teach values in our public educational system out of a fear that children might be indoctrinated with a specific religion.

All major religions advocate these values as do the Constitution and the Bill of Rights, much of the world's greatest literature, and ethical business practices as well. We are convinced that, even apart from the context of a specific faith, it is possible to teach these shared values.

Surely, Mr. President, we can come together in our educational system and teach values where there is a consensus.

Honesty, compassion, integrity, tolerance, and loyalty and belief in human worth and dignity is not an in-

trusion of any particular faith or religion or of the church on the secular purpose of education in our school system.

There is nothing more important to the future of free institutions than the preparation of young minds—equipped with a moral compass and disciplined by a demand for excellence. Our character is at issue, and our future is at stake. We have a responsibility to help our children escape from the shadows. For the sake of their hopes. For the sake of the culture we inherited.

Third, Government can and should work to actively encourage non-Government entities and intermediary institutions.

Mentoring programs work. Big brothers—Big Sisters has paved the way for nearly a century linking at-risk children with caring role models.

The senior Senator from New Jersey [Mr. LAUTENBERG] authored and won funding for a new program called "JUMP" aiming to link kids with cops in high crime neighborhoods.

The Boy Scouts of America which have influenced the lives of 83 million young men since 1908. Its congressional charter recognizes the purpose: "To teach patriotism, courage, self-reliance, and kindred virtues."

There are other programs. Barbara Jordan and Actor Tom Selleck are heading a new effort called Character Counts Coalition. The coalition hopes to reach 20 million kids with a clear-cut message about six core Pillars of Character: trustworthiness, respect, responsibility, fairness, caring, and citizenship.

The president of the Institute of Ethics, Michael Josephson says, "What we have to do is come off these situational ethics approaches and to acknowledge there are some clear things in life. Violence is wrong. Cheating is wrong. Using and abusing other people is wrong."

But what do we all too often have in our public school system today? We have teachers that say,

Oh, it would not be right for me to take a position. After all, these students have to pick and choose from the basket of values, those which most directly apply and are applicable and relevant to them.

So we cannot have teachers standing up saying cheating is wrong, and that there are absolute moral truths.

We should consider encouraging the charitable contribution base by increasing the charitable deduction for some of these nontraditional, non-governmental entities. We should recognize that Federal investment in some of these organizations works.

Finally, Mr. President, we ought to open up the debate on the role of religion in our society. It is something that no one wants to talk about. It is something that we fear to openly address.

But no government commitment can ever fully support the psychological

and spiritual ingredients so necessary in addressing our cultural ills. No one said it better, Mr. President, than a very humble black minister from the Macedonia Missionary Church in Waycross, GA, in addressing the Children Youth Family Committee that I was ranking member of, during my tenure in the House of Representatives.

Though all the other sociological experts testified, it was left to Reverend McKinney to put it to us in a way that we needed to hear.

Reverend McKinney in addressing the problems faced by the young people of his community said:

If these problems are to be properly addressed, the individual must be ministered to in a holistic fashion: Mind, body, soul, and spirit. The government is now learning what the church has always known. It is impossible to heal a person physically without ministering to the totality of the person. This same approach must be taken when the community is being served also. An obvious example can be drawn from the programs of the public health departments of our communities. The State has recognized that technologies have reduced or eliminated many of the infectious and communicable diseases that plagued our communities in the past. The contemporary causes of illness and death are, for the most part, the diseases that develop and accelerated in severity as a result of unhealthy life styles. The Government is ill-equipped to address the issues involved with the changing of life styles.

The Government, even when it has the financial resources and the political will, cannot properly address the causes of many health and welfare issues of the poor and the disadvantaged. At best, the Government can deal with the surface symptoms of these problems.

For example, everyone in the Nation agrees that we are currently engulfed by an epidemic of teenage pregnancies. The liberal segment of the Government wished to address this issue by the unhampered and indiscriminate distribution of birth control. The church knows that birth control only addresses the physical symptoms or the results of the problem. Birth control information and articles should result in a decrease in the number of babies born to teenagers, but birth control does not address the cause of the epidemic: Sexual activity amongst the members of the community who are least prepared, physically and emotionally and financially to pursue this activity. When teenage mothers are questioned about their reason for early sexual activity, the majority respond they were seeking an expression of love and affection. Sexually active teenage males are often found to be attempting to prove their manhood.

The Government cannot adequately address the need for love of self-esteem.

Does Government have a role to play? Yes. Can Government provide the total solution to our problems? No.

That is the danger of our focusing all of our attention on the mechanics of dealing with crime without looking at the root causes or at ways to address the underlying reasons for crime.

And which solutions seem to work best? Which address more than "the surface symptoms?"

I have been much taken by an article which appeared in the Washington Post

by William Raspberry. In it, he spoke to social service providers on the front lines in the inner cities.

For 20 years, says Robert L. Woodson Sr., he had been observing the phenomenon but not really seeing it. People, including me, would check out the successful social programs—I'm talking about the neighborhood-based healers who manage to turn people around—and we would report on such things as size, funding, leadership, technique.

Only recently has it crystallized for me that the one thing virtually all these programs had in common was a leader with a strong element of spirituality.

The thing I'm talking about may or may not be specifically religious. It can happen with people who don't even go to church. But its spiritual, and the people who are touched by it know it.

Raspberry questions, "What are the implications of Woodson's insight for social service programs?" "I'm not sure I know yet," Woodson admits. I do know that the hunger I sense in America is not a hunger for things but a search for meaning. We don't yet have the scales to weigh the ability some people have to supply meaning—to provide the spiritual element I'm talking about. I do not know how the details might work themselves out, but I know it makes as much sense to empower those who have the spiritual wherewithal to turn lives around as to empower those whose only qualifications is credentials.

The power of spirituality. I think of our efforts to build prisons in this legislation, and I think of the 50,000 volunteers who work in the prisons around the world through groups like Prison Fellowship, who reach out each Christmas time and provide the wherewithal for prisoners to buy Christmas gifts for their children, 271,000 young people, through a volunteer organization. Surely it makes sense for us to discuss ways in which we can empower those groups to perform services that we cannot legislate, or that we should not legislate.

There have been studies that have compared groups of ex-offenders, those who have been ministered by various groups and those that have not. The rate of recidivism, the rate of rehabilitation is dramatically different.

These are observations which should prompt us to ask if there is a better way, or at least an additional way. These are the questions this Congress needs to press our society to address.

I fear today, Mr. President, that we will congratulate ourselves on passing "the most significant Federal effort to deal with violent crime in America that the Senate has ever considered," in the words of the chairman. Yet, we will ignore the broader challenges that our society confronts. Help for the family will be trumpeted in campaigns, only to be forgotten once elections are past. Welfare reform will provide an opportunity to be tough on those who do not work, rather than an explo-

ration of the breakdown of the inner city family. Education will be an opportunity to talk about national goals, but will we pay heed to national values?

Ultimately, the war on crime will not either be won or lost in our action on this crime bill; nor will it be won or lost in the legal changes or Government programs alone; nor will it be won by putting more police officers on the beat, building more prisons, passing tougher laws, establishing boot camps, or setting up restitution programs, because crime is the mirror image of a community's moral state. Criminal acts are not primarily failures of society or failures of deterrence; they are failures of character.

President Reagan made the point well:

Controlling time is . . . ultimately a moral dilemma—one that calls for a moral, if you will, spiritual solution. . . The war on crime will be won only when our attitude of mind and a change of heart takes place in America, when certain truths take hold again and plant their roots deep in our national consciousness.

Attitudes of mind and changes of heart. Moral truths and spiritual solutions. These are ideas that make us somewhat uncomfortable. They do not translate easily into a quick legislative fix. But the mantle and burden of leadership for this and future generations of Americans rests on our shoulders. We do have an influence on our culture which runs more deeply than the bills that we introduce or the laws that we pass.

For the sake of our future, for the sake of the civilization we have inherited, let us responsibly demonstrate the courage to challenge our culture.

I yield the floor.

Mr. DECONCINI addressed the Chair.

The PRESIDING OFFICER. (Mr. ROBB). The Senator from Arizona.

Mr. DECONCINI. Mr. President, I have had an opportunity to listen to the Senator from Indiana, and I wholeheartedly agree with his observation and pointed remarks in reference to studies of experts about the family in decay, the moral decay, and the lack of religion in our society today. I only wish that I had an answer. Maybe the Senator from Indiana has an answer of what we can do, if anything, in a body like this to correct that.

I do believe that the crime bill is not the panacea and it is not going to alter the fundamental problems that the Senator so ably pointed out. But I also believe that the crime bill is an improvement, it is something that is necessary and something that we should adopt here.

I think it can be improved even more with additional amendments, and I hope we get on with that business today.

UNANIMOUS-CONSENT AGREEMENT

Mr. DECONCINI. Mr. President, I have been authorized by both the minority and the majority side here, and the majority leader's office, to propound a unanimous consent request. I will do so at this time.

Mr. President, I ask unanimous consent that the majority leader, with the consent of the Republican leader, may at any time turn to the consideration of Calendar No. 224, S. 1301, the intelligence authorization bill and that the bill be considered under the following limitation: thirty minutes for debate on the bill, including the committee amendment, and three amendments to be offered by the managers on behalf of themselves and others, equally divided in the usual form; two hours and 10 minutes for debate on Senator METZENBAUM's sense-of-the-Congress amendment regarding the disclosure of the annual intelligence budget, with the time to be divided as follows: 75 minutes under control of Senator METZENBAUM; 45 minutes under control of Senator WARNER; and 10 minutes under control of Senator SPECTER; that no other amendments or motions to recommit be in order; that upon third reading of the bill, the Intelligence Committee be discharged from further consideration of the House companion, H.R. 2330; that all after the enacting clause be stricken and the text of S. 1301, as amended, be substituted in lieu thereof and the Senate, without any intervening action or debate, vote on final passage of H.R. 2330, as amended; that upon the disposition of H.R. 2330, the Senate insist on its amendment, request a conference with the House on the disagreeing votes of the two Houses, and the Chair be authorized to appoint conferees; and that the Senate bill be indefinitely postponed at that time.

The PRESIDING OFFICER. Is there objection to the unanimous-consent request propounded by the Senator from Arizona on behalf of the Senate majority leader and Republican leader?

The Senator from Indiana.

Mr. COATS. Mr. President, the minority has reviewed this unanimous-consent request and has no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

VIOLENT CRIME CONTROL AND LAW ENFORCEMENT ACT OF 1993

The Senate continued with the consideration of the bill.

ASSAULT WEAPONS

Mr. DECONCINI. Mr. President, returning to the crime bill before us here, I would like to make a slight further comment regarding the vote last evening on the assault weapon amendment of the Senator from California.

It was another good time for the Senate. It was a time that this body stood

up. It was a high-risk time for many Members because this is a very politically risky thing to do, and that is to participate in any kind of restrictions on the use of guns.

But indeed the Senator from California, along with many others, was able to put together an amendment that is reasonable, that preserves the rights of each person as it relates to the second amendment of our Constitution, does not infringe upon those rights, and will have some impact on the carnage and the misuse of these semiautomatic military-type assault weapons.

I compliment this Senator and I compliment this body. It is not too often that we get a chance to do that. Members took some political risk. I have been in that spot before, many times. It is always easy to say no. It is always easy not to take a chance. And there are chances here that maybe it will not stop the violence and the drug use, and what have you. But there is every provision here, including a sunset provision, so that if it does not work, the worst is going to happen is that some of these awful weapons are not going to be manufactured, imported, and sold in the United States for the period of the sunset, which is 10 years. That is not too big a risk, and the chances are based on what the law enforcement people tell us in this country that it will save lives both of law enforcement and the citizens on the street.

So, it was a high mark for this body last night that we agreed to that.

In 1991, we passed a lesser assault weapons bill that took nine weapons and banned them. That was an historic time where we passed it by one vote three times in 1991, and then in 1992, we once again passed it that time with a voice vote or with no vote. It was part of the bill.

Last night we expanded that, and the legislation is better. I think the country and the Senate is better for that.

NORTH AMERICAN FREE-TRADE AGREEMENT

Mr. DECONCINI. Mr. President, last night, as hopefully millions of Americans watched the debate between Mr. Perot and Vice President GORE, there were some clear observations, in my opinion, that need to be commented on.

No. 1 is that, although you had contentious circumstances there of these two very fine people debating very passionately their position, it was clear to this Senator—and I am a supporter of NAFTA—that indeed the Vice President was able to spell out very clearly how advantageous NAFTA is for the United States, how it will, in fact, bring about jobs, and how some of these bogus arguments that have been put up time and time again do not hold any water. They cannot be substantiated.

And, yes, there is fact and truth to the fact that Mexico is a much less eco-

nomically developed country than the United States or Canada. But I believe the Vice President clearly stated what benefits that has to us, the fact that their GNP is growing faster than ours; the fact that that government has taken very strong steps for privatization; the fact that that government under President de la Madrid Hurtado 5 years ago enacted and put Mexico into the 20th century by joining GATT and lowering their tariff down to an average now of about 9 percent. Some items are still 20 percent. They were averaging close to 80 percent prior to 5 years ago.

Also the Vice President clearly pointed out that the trade deficit has completely switched over the last 5 years from a deficit of \$5.7 billion to a surplus of \$5.4 billion, and, yes, as Mr. Perot pointed out, some of that are items that go into Mexico that are put into items that are exported. The point is they are items that are built in the United States, jobs in the United States. So it does not make any difference, in my judgment, whether or not they stay in Mexico and are used by Mexicans or they are put into objects that are sold throughout the world, including the United States. Americans made them and that is a good market.

So, my feeling is that indeed NAFTA took a step up last night, and I hope the American public agrees that we should adopt it, and I truly hope that the House of Representatives will do so.

NATIONAL SECURITY COUNCIL

Mr. DECONCINI. Mr. President, in this morning's Washington Times, there is a story about the National Security Council and the staff that is there. It is entitled "Many key staffers came up under Bush, and it is by Mr. Gertz. It is a very interesting article.

I can only comment, having been the chairman of the Intelligence Committee now for roughly 10 months, that I find the NSC to be very professional and, though I would like to see them devote more time in the area of intelligence, they have had their calendar and agenda very, very full.

But there is an interesting misquote in our misperception that could be drawn from this article, and it relates to Mr. George Tenet, who is at the NSC and has been since I believe January or February. Mr. Tenet, who was a former staff director of the Senate Intelligence Committee for 6 years, worked for Senator Heinz, then for Senator LEAHY, and then Senator BOREN on that committee. I had an opportunity to work with him for 6 years when he was staff director. He is one of the most knowledgeable people, I believe, in this country in the field of intelligence and he heads the intelligence area of the NSC.

There is a statement here:

Associates say Mr. Tenet is politically astute but lacks a thorough understanding of the intelligence business.

That is nonsense. I have seen the depth of Mr. Tenet, and he has been a source of tremendous value to the committee and I know a source of tremendous value today to the NSC.

I think, quite frankly, that if the administration followed more recommendations and advice from people like Mr. Tenet we would have less acrimony that we had in developing an intelligence budget. And we have had problems. We finally got them resolved, I believe, and finally moved ahead. But we are late in the year, well into a CR in 1994, and we have not conferenced yet nor have we based the conference report on defense appropriations that funds the intelligence department.

I have talked to Mr. Tenet a number of times. I know that his advice has been very sound to the administration and I hope that they would now start to take even more of it.

But, also, Mr. Tenet has been involved in a number of decisions that involve the intelligence gathering and interpretation of the intelligence as it relates to judgments the President must make. Mr. Tenet has given good advice and is truly one of the experts in the area of intelligence in this country.

I thank the Chair, and I yield the floor.

Mr. BAUCUS addressed the Chair.

The PRESIDING OFFICER. The Chair recognizes the Senator from Montana [Mr. BAUCUS].

NAFTA

Mr. BAUCUS. Mr. President, I would like to join the Senator from Arizona in complimenting the Vice President for his very informative statements last night during his debate with Ross Perot on the Larry King program.

The main point, Mr. President, is that NAFTA is good for America. We presently have a one-way free-trade agreement with Mexico. In other words, the United States has virtually no tariffs, and few barriers to trade of Mexican products coming into the United States, while today Mexico has high tariffs against American products attempting to try to go to Mexico. That is one-way free trade in Mexico's favor.

What does NAFTA do? NAFTA says we will remove all tariffs and lower other trade barriers close to zero so we end up with two-way free trade.

Reversing the present inequity is a very critical point. If most Americans would understand it, they would then realize that NAFTA is a good deal for America and American workers.

A complaint you sometimes hear about NAFTA is "Well, gee, it's not

good enough. It doesn't protect the environment enough. It doesn't protect labor enough. It doesn't protect jobs enough. We can do better."

Mr. President, I remind everyone that sometimes Americans let perfection be the enemy of the good. Sometimes we cannot get a whole loaf and sometimes it is better to agree on a substantial improvement, take what we have, and move forward. Later, we can build upon what we have.

I suggest, Mr. President, that is exactly what NAFTA does. It moves the ball forward. It may not be perfection, but it is much better than the status quo.

I think the Vice President made both of those points last night. He noted that NAFTA would create a two-way free-trade agreement, and that it is much better than the status quo.

I think, again, if most Americans think about these points, they are going to realize NAFTA is a good agreement for America.

VIOLENT CRIME CONTROL AND LAW ENFORCEMENT ACT OF 1993

The Senate continued with the consideration of the bill.

THE ASSAULT WEAPONS AMENDMENT

Mr. BAUCUS. Mr. President, last night, I voted against a motion to table the assault weapons amendment offered by the Senator from California [Mrs. FEINSTEIN]. I want to take this opportunity to discuss this amendment and my reasons for opposing the motion to table.

RIGHTS AND RESPONSIBILITIES

Throughout my service in Congress, I have been a strong supporter of second amendment rights. And I remain firmly convinced that the legitimate rights of American sportsmen must be protected. Our constitutional rights—including the right to bear arms—are precious.

Yet no right is absolute. Just as the right to free speech does not cover slander, certain fighting words likely to provoke violence, or yelling fire in a crowded theater, the right to bear arms must necessarily be limited when it is clearly necessary to protect society.

For this reason, I believe that every right carries with it a responsibility—a responsibility to, at a minimum, do no harm to others in the exercise of that right.

I am fortunate to represent a State where, for the most part, people exercise their second amendment rights responsibly. Montana is a State of sportsmen. Hunting is part of our heritage. It is something that makes life in Montana special. And I take a back seat to no one—absolutely no one—in protecting the legitimate rights of Montana's hunters and sportsmen.

Growing up on a ranch, I also grew up around guns. My father taught me to

hunt and to handle firearms responsibly. In the process, I developed a healthy respect for firearms and the damage they can do.

Sadly, though, this respect seems to have faded away in many communities throughout this Nation. The right to bear arms is alive and well, but the responsibility that should accompany this right is too often lacking. Too many guns—and too little respect for human life—have caused many Americans to live in fear.

Just blocks away from this Capitol, people are dying virtually every night from gunshot wounds. Washington has become known as the murder Capital of the Nation. A national disgrace.

And Washington, DC, is not unique. The story is the same in New York, Los Angeles, Detroit, and many cities across this Nation.

Beyond our cities, it is clear that crime has become a serious problem in rural America. Several years ago, I worked with the distinguished chairman of the Judiciary Committee, Senator BIDEN, to add a comprehensive rural crime title to the crime bill. And I am pleased to say that our commitment to fight rural crime continues in the crime bill that is before us today.

Yet, up until recently, violent crime—gun related crime—was something that most Montanans just did not worry about. Today, however, I cannot say that Montana has escaped the increase in gun violence.

Several weeks ago, for instance, two rival youth gangs met in a confrontation in the parking lot of a Billings fast food restaurant. While most of the injuries were caused by baseball bats, one young man took a hand gun and shot a rival gang member in the arm.

And last July, a Billings man shot and killed his sister-in-law. He then grabbed his two young children and fled in his car, with the police in hot pursuit. Once cornered, he attempted to use his own children as human shields while firing at the police.

THE NEED FOR DECISIVE ACTION

To be frank, this is an agonizing issue for me and many of my fellow Montanans.

For many years, I have contended that this and other gun control measures would not work. I continue to believe that stiff penalties, more police, and better law enforcement were the best ways to stem the violence.

For this reason, I have supported virtually every amendment that would have imposed the death penalty for gun-related killings. Just yesterday, for instance, I supported Senator D'AMATO's amendment imposing stiff mandatory sentences for gun crimes.

But despite all we have done—and all the money we have spent—to clamp down on crime, we have still fallen short. The killings continue.

According to the FBI, the number of violent crimes committed with a firearm has almost quadrupled over the

past three decades. And these numbers have risen most sharply over the past 8 years.

While my vote on the amendment by the Senator from California will cause some controversy at home, I am not the first Senator from Montana to have reached the conclusion that we must take action to halt the spread of guns and violence in our society.

Back in 1968, in the wake of Robert Kennedy's assassination, our former majority leader, Mike Mansfield, reached a similar conclusion. Senator Kennedy's assassination had a profound effect on Senator Mansfield. Yet it was the senseless Washington murder of Thad Lesnick, a young Marine lieutenant from Fishtail, MT, that Senator Mansfield said "was finally decisive in persuading me to the need for adequate firearms control legislation."

Although Senator Mansfield addressed this issue over 25 years ago, his words and his wisdom can provide guidance for us here today. Senator Mansfield said:

I have made my decision because I believe a Senator owes the people of his State not merely an echo but also a judgment. And in my judgment, dangerous and disturbing trends have developed in gun traffic and gun usage in this Nation. Guns as such are not the source of the difficulty, but these trends in irresponsible handling are part and parcel of the rising tide of violence that has come to plague the land.

In these circumstances, I can no longer accept the position that the best response is no response. In my judgment, that is not an acceptable answer in view of the spread of murder and mayhem by firearms. * * * It is not an answer in view of the easy access to deadly weapons which is open to maniacs and madmen. It is not an answer in view of the problems of maintaining law and order which confront the hard-pressed police in the Nation's cities. To leave things as they are, in short, is not an adequate answer to one of the highest rates of gun killings and maiming—accidental or deliberate—in the world.

That was Senator Mansfield 25 years ago. It is haunting to think even how much more true those words are today.

PROTECTING THE PUBLIC SAFETY AND
SPORTSMEN

When I began this statement, I stressed the importance of protecting the rights of sportsmen—the hunters and marksmen who enjoy shooting sports; who understand the importance of exercising their second amendment rights responsibly.

Moreover, I believe that most of Montana's sportsmen understand the need to control the spread of gun-related violence. And I believe most of these Montanans are also willing to accept reasonable restrictions on access to the most dangerous types of firearms, so long as these restrictions do not threaten their rights to use and purchase sporting weapons.

I share this concern. I see the need to restrict access to truly dangerous weapons—those weapons most likely to be used in the commission of a violent

crime—weapons like the so-called Street Sweeper shotgun.

But any such restrictions must meet two fundamental tests: First, they must be narrowly crafted so as to protect the legitimate second amendment rights of hunters and sportsmen; and second, they must be directly related to reducing gun-related violence.

I believe the amendment before us last night meets both elements of this test.

It is narrowly crafted. This amendment would provide iron-clad, copper riveted protection for over 650 models of rifles, pistols, and shotguns presently lawfully in the hands of American sportsmen. Not a one of these weapons would be affected by the passage of this amendment. In fact, passage of this amendment puts the Senate on record as endorsing the rights of sportsmen to own and use these weapons.

Mr. President, I ask unanimous consent that a list of these protected weapons be printed in the RECORD following these remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. BAUCUS. Beyond this, a number of provisions in this amendment affirmatively protect the rights of American sportsmen. These include:

A grandfather provision that will prevent the confiscation of any weapons already legitimately in the hands of any American citizen. Absolutely nobody lawfully owning one of these weapons today will have it taken away;

An exclusion for all weapons manually operated by bolt, pump, lever, or slide action;

An exclusion for semiautomatic rifles with a fixed magazine;

An exclusion for ammunition feeding devices capable of feeding less than 10 rounds; and

An exclusion for permanently inoperable and antique firearms.

Along with the narrow scope of this amendment, it is clearly directed at reducing gun violence. The Senator from California has spoken eloquently about the tragedies assault rifles have caused in her native State.

And it has been pointed out that the weapons prohibited by this amendment are those most likely to be used in the commission of a violent crime.

Even in a relatively low crime State like Montana, the proliferation of assault weapons is causing serious problems.

I was shocked to learn that in the city of Billings alone, there have been three recent potentially violent incidents involving assault weapons.

On two occasions over this past summer, Billings police apprehended a skinhead on his way to a local bar. On both occasions, this skinhead possessed an assault rifle. And on both occasions, he told the police he wanted to "kill some Mexicans."

And Billings Police Chief Wayne Inman—who also supports passage of this amendment—recently learned of a threat upon his life by an individual known to own an assault rifle.

If these sorts of incidents can occur in Billings, MT, they can occur anywhere in America. No American is safe. And Congress must act.

I realize that passage of this amendment is not a panacea for the problems of violence in our society. We need stiff penalties. And we need to restore family values to our most troubled and violent areas—indeed, our entire Nation.

But, on the whole, I believe passage of the Feinstein amendment will help. It is one step toward halting the violence. And it is the right thing to do for America.

As I mentioned earlier, this was a difficult vote for me and many of my colleagues from rural and Western States who voted with Senator FEINSTEIN. If we were to follow the course of least resistance, the course of political expediency, we would have voted the other way.

But that would have been the wrong thing for America—and, at least in the long run, I also believe that would have been the wrong thing for Montana.

Several years ago, historian Arthur Schlesinger, Jr., published a book entitled "The Disuniting of America." Schlesinger contends that the centrifugal forces of special interest politics are tearing this country apart: urban interests take on rural interests; environmentalists clash with industry; business bashes labor, and labor comes back at business full force; and, in this instance, the gun lobby feuds with law enforcement.

In short, nobody compromises, nobody looks beyond their own narrow special interest, and nothing gets done.

In this case, a number of my colleagues and I tried to look beyond special interest and do what is right for the entire Nation—including our cities.

I hope that Senators from more urban States would think about this. We are a nation. Whether you represent a State that is primarily urban or rural, I believe it is important to consider the impact your vote will have on other regions of the country—on Americans different than your constituents.

Recently, we have seen a number of proposals come before this body that would be harmful to rural America and the West. Whether the issue is the farm program, grazing fees, the Wool Act, highway funding, the mining law, or water rights, I urge each of my colleagues to think, think for a moment about how your vote may help or hurt people in other regions of the country. If we do this more often, I believe we will disprove Dr. Schlesinger's thesis. And I believe America—all of America—will be better off for it.

EXHIBIT 1

ASSAULT WEAPONS COMPROMISE DISCUSSION
DRAFT—PROPOSED APPENDIX A: PROTECTED
GUNS

CENTERFIRE RIFLES—AUTOLOADERS

Browning BAR Mark II Safari Semi-Auto Rifle.
Browning BAR Mark II Safari Magnum Rifle.

The PRESIDING OFFICER. The Chair recognizes the Senator from Washington [Mrs. MURRAY].

Mrs. MURRAY. Mr. President, I rise today in strong support of the amendment offered by the Senator from California [Mrs. FEINSTEIN]. For several days now, we have heard speech after speech about violent crime in our society. We have heard about the fear of violence spreading throughout our Nation. Some of my colleagues said we need more police officers on the street. Some wanted tougher sentences and some want more jails. We have agreed to amendments to do all of those things. We agreed to "three strikes and you're out," and we voted \$22 billion to put more police on the streets, build boot camps, and more jails. These efforts are long on punishment and short on prevention. More police, tougher sentences, and more jails will not stop the fear.

I read an article in last week's U.S. News & World Report that described how many junior and senior high school students fear for their safety. After going home and talking to my own two teenagers about their experience, I think the problem is far worse than they described. One 17-year-old told me that the armed guards with walkie-talkies in his high school make him feel more like he is in Bosnia than in a public education system.

How can we expect our children to cope with the level of stress that most adults cannot handle? How can we expect our children to learn anything, when they literally fear for their lives?

While violence, and especially gun violence, has reached epidemic proportions in this Nation, we are witnessing a very chilling development. Our children are becoming numb to it. It is becoming normal. Kids are bombarded by violence every day. They watch it on television, they see it in movies and magazines, and they hear it in music. Some elementary school students in Seattle and Tacoma have written poems about violence. Children now must pass through a metal detector before going to math class. Is it any wonder respect for life among our Nation's teenagers is disappearing?

My own daughter, Sara, told me a few weeks ago she is afraid of going to

high school next year. She is not afraid because Federal criminal sentences are not tough enough; she is scared because the student next to her might have a gun in her backpack. She is scared because she knows just by their presence, guns can suddenly turn arguments into bloody horror scenes.

It is time to leave the debate about how to punish crime and go back a few steps as to why we have violence in the first place. Senator JOHN KERRY spoke eloquently about the roots of violence last week. The American Psychological Association recently reported that the hopelessness of poverty, often intensified by discrimination, sets a stage of anger, discontent, and violence. Give children easy access to guns and we have all the makings for a tragedy of monumental proportion. It is frightening how familiar the statistics have become to every one of us.

According to the Centers for Disease Control, every 14 minutes, someone in America dies from a gunshot wound. Every single day, 14 children are killed with guns and more than a quarter of a million kids take guns to school. Harvard School of Public Health reports that 59 percent of the schoolchildren in this country said they could get a handgun if they wanted one. A gun in the home is 43 times more likely to be used to kill its owner, a family member, or a friend than kill that intruder we all worry about, according to a University of Washington study.

This is the cost of gun violence in human terms. The numbers are staggering, and the health care costs of gun violence are staggering as well. At Harbor View Hospital in Seattle, WA, both the number of gunshot victims and the cost of treating them have doubled in the last 7 years. According to Dr. Fred Vera of Harbor View, the average gunshot wound admission at Harbor View cost \$8,000. The Surgeon General, Dr. Elders, testified last week that gun injuries cost our health care system \$3 billion a year or more.

My question is, Who is paying for this violence? More than 80 percent of the cost of gunshot injuries is paid for by us: public funds. Every one of us pays the health care costs of gun violence through higher taxes, increased insurance fees, or in dollars not spent on other health care. Everyone, including those who do not own guns and those whose children have been killed or permanently disabled, are subsidizing gun violence.

American taxpayers also ante up \$28 million a year to subsidize federally licensed firearms dealers who only pay \$10 a year for a license to sell guns. Yet, the Federal licensing agency is so underfunded that it even issued a gun dealer license to two dogs. If we do not know who is selling guns, how do we know that they are being sold legally? It is time to put a stop to this. Taxpayers should not have to subsidize the

health care costs of gun violence, and we are not talking here about the hunters or guns used for sporting purposes. We are talking about handguns, assault weapons, and ammunition for those guns. These are the vehicles of violence. The people who manufacture them, sell them, and buy them are the ones who should pay.

Assault weapons, which Senator FEINSTEIN's amendment would ban, are especially horrible. Just ask any emergency room nurse or doctor.

Recently, I heard a young person say:

I don't understand why so many adults talk about violence but don't do anything about it.

By adopting the Feinstein amendment, the Senate of the United States can say to that boy, to my children, and to people across this country that we have done something.

I heard one of my colleagues a few moments ago refer to the fact that many Senators took a risk last night by voting with Senator FEINSTEIN on this amendment. I remind all of us of the risks our children, our families, our neighbors take when they step out into the streets of America today.

We have to get beyond the rhetoric involved in the gun debate. We have to bring together our families, our neighbors, our communities and begin to find solutions to the ever-increasing violence facing us today.

I look forward to supporting my colleague, Senator FEINSTEIN, on this amendment and working with all of the Senators over the next year to face this tough issue.

Thank you, Mr. President.

Mr. BINGAMAN addressed the Chair.

The PRESIDING OFFICER. The Chair recognizes the Senator from New Mexico [Mr. BINGAMAN].

Mr. BINGAMAN. I thank the Chair.

(The remarks of Mr. BINGAMAN pertaining to the introduction of S. 1647 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. BINGAMAN. Mr. President, before yielding the floor, I wish to advise my colleagues on one other matter. While I voted to table the pending amendment for the reasons I have stated, I will not support efforts to delay an up-or-down vote on the amendment pending before the Senate, or to delay final action on the pending crime bill. In my opinion, it is important that the Congress move ahead with this authorizing legislation and the many useful provisions in the bill should not be jeopardized by our disagreements in this area.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Chair recognizes the Senator from Colorado [Mr. BROWN].

Mr. BROWN. I thank the Chair.

TRAGEDY IN SOMALIA

Mr. BROWN. I rise out of concern over the incident that occurred on October 3 in Somalia where 18 Americans were killed and 76 wounded and another captured. I rise out of concern not because those deeds and those losses can be undone, but out of concern that this Nation learn from its mistakes and make sure we do not repeat them.

Immediately after that event, reports appeared in the press that the commanding officer of the troops had requested armored vehicles for the safety of his troops and for the necessity of properly carrying out the mission.

I immediately responded with Senator D'AMATO in asking the Secretary of Defense for the facts. The report was of great concern because it appeared that at least some of the deaths and a significant portion of the wounded occurred because proper equipment was not available.

We sent a letter 3 days later on October 6 to the Secretary of Defense and spelled out questions with regard to that incident and asked the Secretary for the facts.

We asked him: Did the United States commander in Somalia ask for armored reinforcements? We asked: What did he ask for specifically? We asked: Did his request reach your desk? We asked: Did he make a decision upon the request? We asked what that decision was. And we asked if he denied the request for equipment necessary for the men in the field, why he had denied that request.

Mr. President, the Secretary has refused to answer the letter. More than a month has passed and the Secretary has not even acknowledged the letter. He has gone to the press, though, and talked about these subjects but without giving Congress the facts.

In addition, the Secretary, in spite of requests from this Senator and others, has declined to appear before the Foreign Relations Committee. The Foreign Relations Committee is a proper forum, I believe, because clearly the U.N. command and the operations of the United Nations come under the Foreign Relations Committee's jurisdiction.

While there have been hearings in Armed Services, there has yet to be a formal open hearing so the press and the public can understand the answers to these important questions.

I was thus delighted to hear the other day that the distinguished chairman of the Armed Services Committee will be holding an open hearing with regard to that matter.

Mr. President, on October 14, the Senate considered and passed a resolution calling for an investigation and public hearings into the tragedy of October 3. The military disaster in Mogadishu would be the subject.

I think the Armed Services Committee's action to follow up with that

hearing is a responsible and a positive development. What is more, I think it is appropriate for this Chamber to ensure that its committees do investigate this incident.

What is suggested by the newspaper reports is that, indeed, there was a request by the commanding officer of the troops in the field for equipment for the safety of those individuals, and it was turned down, turned down not for military reasons but because for political reasons it may have been uncomfortable.

It raises a concern that possibly policy is being made in the Defense Department, not on the basis of what is good for the men and women who serve this country in the field but for other political considerations.

The Foreign Relations Committee did have hearings on this subject and the representative of the Defense Department was Mr. Slocombe. Mr. Slocombe was asked this series of questions in his hearing. Because the Secretary had talked about the Chiefs of Staff, he was asked about the position of the Chiefs of Staff with regard to this recommendation for additional equipment. Mr. Slocombe refused to comment. He did not take executive privilege. He simply refused to comment. He was asked: What did General Powell do? Did he favor the request by General Johnson? Here is what Mr. Slocombe said:

As a matter of principle, I think questions as to what advisers to the President and the Secretary of Defense recommended ought to be addressed to them and not come from third-party sources, which I would be.

Even though Mr. Slocombe had knowledge of that area, he refused to comment on that. The problem, of course, was that Secretary Aspin had declined to come before the committee and answer the committee's questions, and he had declined to respond to letters to him personally. And the Secretary and Mr. Slocombe refused to answer the follow-up questions that were sent to their office.

Mr. President, what we have here is a simple effort to cover up the facts, to hide from the truth, to refuse to let the facts come out on a tragic event that could have been avoided. There are reports in the press which indicate that our men ran out of ammunition waiting for reinforcements; that they did not have to wait 7 hours; that some of them may have waited 10 hours, and some perhaps even longer, and that because we did not have the armored vehicles to bring the reinforcements, they could not get to them. Their bodies were dismembered by the enemy after they ran out of ammunition. It appears that the wounded and some of the deaths may well have been directly attributable to the lack of proper equipment and the lack of proper equipment directly attributable to the Secretary's refusal to honor the re-

quest of the commander of the troops in the field.

Mr. President, at the very least, we ought to find out what the facts are. I have tried to find out the facts by writing letters of inquiry to the Secretary, which he has refused to even acknowledge. I have tried to find out the facts by asking him to come to testify, and he has declined. I have tried to find out the facts by questioning the representatives of the Defense Department that have come before the Foreign Relations Committee and they refused to answer.

Are the subjects so sensitive because of national security concerns they cannot be aired publicly? The fact is, leaked from the Defense Department has been a variety of information intended to give the Secretary's point of view but not all of the facts—veiled references to the Joint Chiefs of Staff without indicating what the chiefs of staff specifically recommended or not, and a refusal to indicate what the chiefs of staff had recommended.

There is a report in the Washington Post where the reporter reveals that he has looked at a series of classified cables and documents on this subject. The irony is these were the very cables and documents and information which the Secretary of Defense had refused to disclose to the committees of Congress, and yet they are selectively made available to the press in a campaign by the Secretary, a campaign not to inform the public or get the facts out but to get half the facts out.

Mr. President, we followed up in every single way I know how.

We have requested hearings. We passed a resolution on the floor requiring hearings. We have asked for attendance. We have asked for testimony. We have asked for written answers.

So the willingness of the chairman of the Armed Services Committee to hold hearings I think is significant, and it is important. It is important not because of what the Secretary of Defense may or may not have done. It is important not because there may have been leaking of classified information which the Secretary has refused to reveal to Congress.

It is important because every parent who sends a child to serve in the armed services of this country has a right to expect that this country will stand behind the men and women who serve this Nation in the field. They have a right to expect that when we have tanks, equipment, and personnel carriers and they are needed on the battlefield, that whoever is Secretary of Defense will stand up for the men and women who serve this Nation and at least provide them the equipment. It is also important, I believe, that whoever is the Secretary of Defense not be in a position to cover things up.

So an honest, open, thorough, objective inquiry I believe will benefit this

entire Nation. But more than anyone else, it will benefit the men and women who serve this country because I hope out of it comes a conviction and a concern and an understanding that the people who command our troops care about them; that it is more important to the people who command our troops that our troops be protected than is the political plays and background the politicians take; that we value the men and women who serve this country more than we do covering up the facts.

The ultimate good of this hearing will come not only in fixing responsibility for the disaster, but in making sure that similar disasters do not happen again.

There is one thing I was always impressed with about the U.S. Marine Corps. Perhaps many were impressed. But one thing more than any other is that when I saw marines train, practice, and drill, I saw not only the sergeants stand side by side with the men as they went through their training, but I saw the lieutenants, captains, colonels, and generals come down and share their burdens, eat their food, and share the conditions they lived under. It became obvious that the men and women who serve in the armed services, at least in the Marine Corps, from the bottom to the top, not only cared about each other and supported each other, but had a feeling that they were in this together.

When we get to a point where the commanding officer of troops in the field needs equipment which is readily available and the leadership of our defense establishment will not make it available to them, then it is time for a change.

I hope this hearing will not only bring out the facts, but will serve as a vehicle to effect that change in our Defense Establishment.

Mr. President, I yield the floor.

Mr. D'AMATO addressed the Chair.

The PRESIDING OFFICER (Mr. FEINGOLD). The Senator from New York.

Mr. D'AMATO. Mr. President, I ask that I may be permitted to proceed as if in morning business for 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. D'AMATO. Mr. President, I begin on a sentence of my colleague, Senator BROWN, as it relates to this entire debacle that took place in Mogadishu on October 3, 1993.

The fact of the matter is that we have not received candid replies to the questions that Senator BROWN and I have raised. The letter which we sent on October 6, 1993, to Secretary Aspin, asked several questions about the decisions concerning the request by the United States commander in Somalia for armored reinforcements. While the Secretary has not answered our letter, the media reported what happened as being contrary to Secretary Aspin's statements about what happened.

I have to tell you the more we hear, the more obvious it becomes that these statements are absolutely inconsistent, at the very least, with what a reasonable person would say are truthful.

I believe it is absolutely essential that the Armed Services Committee not only reviews this matter, but also sees to it that the Secretary is placed under oath as it relates to the questions that the members will put to him.

I believe that the statements of the Secretary have been inconsistent with the facts. I understand that the Armed Services Committee has already commenced work on this issue, and that it is absolutely imperative that not only should the Secretary be placed under oath but, if necessary, subpoenas should be issued making available the relevant documentation as it relates to just what requests were made and when they were issued.

Let me refer to the article which appeared on October 31, 1993, in the Washington Post entitled, "The Words Behind a Deadly Decision; Secret Cables Review Maneuvering Over Request for Armor."

I put the full text of that article into the RECORD last Friday.

Let me quote the article's report in the first instance.

Later, in explaining his decision to refuse armor, Aspin, on ABC's "This Week With Brinkley," said the request was never put in terms of protecting troops. It was put in terms of the mission of delivering humanitarian aid.

Mr. President, the article goes on to say:

That was not correct. Montgomery's message, a copy of which Powell handed Aspin on September 23, had this heading: Subject: U.S. Force Protection. In the body of the message, Montgomery said, "The primary mission of the armor would be to protect U.S. forces."

Let me say that squares up exactly with what I have been told at briefings with General Hoar. I was told that this did not take place once, but twice. I was told that General Hoar himself absolutely supported the request for these tanks. He disapproved the artillery, but supported the tanks—we are only talking about 4 tanks and 14 Bradleys—and that General Colin Powell fully supported those requests.

Mr. President, that is so important, I want to repeat it again: Secretary Aspin said:

It was never put into terms of protecting troops. According to this report, it was explicitly for troop protection.

We have a right to get down to the bottom of this. And when we have aides who are putting out statements on behalf of the Secretary of Defense or the Joint Chiefs, the Joint Chiefs were never asked their opinion. The Joint Chiefs did not participate. This was a decision that came up the line, up the chain of command, from General Montgomery to General Hoar to General

Powell, who as the head of the Joint Chiefs, passed this request on to Secretary Aspin; not once, but at least twice, and maybe even a third time he spoke to him about it.

I have to tell you, Secretary Aspin's explanations—wreak—wreak—with coverup for his own inexplicable actions. If you listen to what he said at his news briefing—which suddenly the White House shut off; when he was briefing at the White House, they just shut it off when CNN was carrying it—they said he was concerned about the backlash from the Congress and from the United Nations. You cannot have it two ways.

Mr. President, the same article goes on to say that General Montgomery said:

I am increasingly concerned about the timid behavior of the U.N. coalition whence the security of our force rests.

Montgomery said at the close of his message to General Hoar:

We must ensure our own security. I believe that U.S. forces are at risk without it.

I do not know what could be clearer. I think it is absolutely important that we get to the truth and to the facts without the obfuscation that basically has been what we have heard to date.

Yet, the Aspin apologists will now say that people misunderstood, even the President misunderstood, suggesting that Aspin did not say what Clinton reported. We have the President drawn into this situation now. I do not believe the President was ever consulted on this matter, and I do not think he has been given the truth yet.

Mr. President, I have to tell you, I spoke to three young men—one who comes from New York, one from Pennsylvania, and the other from Texas. The young lieutenant who spoke to me said, "Senator, it took 13 hours after I was shot to be evacuated, and I was shot at 5 o'clock on October 3. They did not get me out until 6 o'clock in the morning the following day."

So when we hear about these reports and hear our troops were 3 miles away and it took them something like 9 hours, and they almost had to commandeer those tanks to get there, I do not know what more General Montgomery could have done or General Hoar or General Powell. They made their request and that was turned down. Now we hear the request really did not come for troop protection. There was a split in the Joint Chiefs.

Really, what we have had is nothing but a coverup. Secretary Aspin himself has been attempting to cover up this situation. He can say with all due candor that he is paid to make these decisions, that is right, but not on the basis of politics and political expedience on the basis of what our troops need to protect themselves. Indeed, if these communiques were declined, as has been indicated by the media, we need to remedy the situation. I believe

Secretary Aspin certainly has demonstrated that he is incapable of being the person who should be the Secretary of Defense.

Mr. President, I want to know because there have been many rumors, and I do not know whether they are true or not. I want to know if Morton Halperin took part in a decision to deny the request for armored reinforcements. I heard rumors to that effect. I do not know, but I think the committee should ask this question. Did Mr. Halperin recommend against sending the tanks? What role, if any, did he play in the decision? Did the Secretary consult with him? What are the facts and where are the papers that record this decision, and will we have an administration that comes forth and says that, for some reason, they must claim Executive privilege to keep the facts from the people?

I think the fact of the matter is that there has been a terrible injustice done to the young men who lost their lives, to those who were wounded unnecessarily, and that those tanks could have made a difference. But, certainly, if that was the case, I believe the American people have a right to know and that our young men and women, whom we call upon to put their lives on the line in the most dangerous situations, understand and know that we will do all that we can to protect them, and that where there have been errors, they will be corrected and we will see to it that never again will this situation repeat itself. I do not have confidence in that situation at this time, none at all, not in Secretary Aspin, and certainly not in what he has issued up to today as his reasons for this debacle.

So I hope that when this hearing is held, it will be held in the circumstances that permit a total and full disclosure of all of the facts, so that we can determine whether or not the Secretary's explanations have been indeed factual.

I yield the floor.

Mr. NUNN. Mr. President, I ask unanimous consent to proceed, along with my colleague from Georgia, for approximately 15 or 20 minutes between us, on the subject of NAFTA this morning, not being related to the crime bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUPPORTING NAFTA

Mr. NUNN. Mr. President, I announce my support for the North American Free-Trade Agreement, NAFTA. I do so after taking a close look at NAFTA and talking to people on both sides of the issue, particularly people from Georgia, about its potential ramifications. My bottom line assessment is that NAFTA is in the best interest of Georgia and the Nation as a whole.

Mr. President, my colleague from Georgia, Senator COVERDELL, and I

have discussed this subject over the last several months, particularly over the last several weeks. I know he has another engagement in a few minutes. I will at this point yield to him for comments, and following his comments, I will give my own.

SUPPORT FOR NAFTA

Mr. COVERDELL. Mr. President, I appreciate the senior Senator yielding to me. I also compliment him on the effort that he and his staff have made over these past several months to consult on this momentous agreement, and it is an honor to join him here today in a mutual statement in support of the North American Free-Trade Agreement.

Mr. President, this has not been an easy decision. It is a very complex agreement. It has many ramifications for our State, but I believe that this agreement represents a defining moment for the people of our Nation, for all the families and businesses of our Nation, a defining moment for the future of our Nation.

If there was ever a decision that called on fair-minded leadership, it deals with this difficult and complex treaty, the North American Free-Trade Agreement.

I am hoping that the leadership of this Nation will step forward at all levels and understand the very far-reaching ramifications that this agreement will have for our country, for this hemisphere, and for our position and stature in the world as we approach the new century.

The United States, by anyone's definition, is the only superpower now in the world. Not only has that superpower status been founded in our economic power but, in great part, it has been defined by our immense military strength. The muscle, the military muscle, of the United States has done perhaps more than any other single thing to define a peaceful and civil order in our world in the last half century.

The military muscle of the United States is still a preeminent factor in determining the standing and order in our world. But I think it ought to be clear to all of us that for the United States to continue to hold the status of superpower, it must be viewed and it must be framed in economic muscle.

The battles of the future, the definition of the world in the next century, will be determined by economic muscle, economic capacity, economic ability to compete.

We have done extensive research on this agreement, as it pertains to Georgia and prepared a white paper that has led to the decision we are making here today.

I see Georgia, my State, as a trade opportunity State. Fortunately, the gross State product of the State of

Georgia is \$130 billion. After assembling almost limitless data on the agreement, we have concluded that \$120 billion of the \$130 billion gross State product will be enhanced, broadened, made better by the treaty. That is 92 percent of our gross State product that will be improved, that will point to new opportunity, new jobs, new businesses.

I think it is worthy of note that our State is a port State, a gateway to our hemisphere, and that contributes substantially to the decision we have made with regard to the benefits that will accrue to our State as a result of the North American Free-Trade Agreement.

Canada and Mexico are the first and third largest recipients of exports from the State of Georgia. Already, 45,000 Georgians are employed because of exports to these two countries. Every evidence we have suggests that these jobs will expand dramatically under the new treaty, the new agreement.

Let me quickly say that as in anything this is complex. It is not perfect, and it is not without imperfections. There are sectors of our economy that feel less comfortable about the agreement.

Our offices have expended numerous resources to try to assure that the efforts in the agreement to keep the trade playing field level are secure.

In the case of peanuts, a very large commodity, the largest amount of which are produced in the State of Georgia, we have been very concerned about point of origin. That means there is a concern that peanuts would come from outside the jurisdiction of the agreement and come through Mexico into our country.

We have secured, through the efforts of many Members of the Senate, comforting language, language that secures the point of origin provisions in the agreement.

We have secured language that certifies that imported peanuts must meet the same standards that our producers must meet in order to put quality products in the marketplace.

So, while we are encouraged by the enormous benefits that accrue to 92 percent of our economy, we do not disregard the concerns for the remaining sectors of the economy and great efforts have been taken and will continue to be taken to assure that those sectors of our economy are treated fairly under this agreement.

Mr. President, the last point that I will make and then yield back to the senior Senator from Georgia is this: This is no time for the United States to run from the future. This is a time when we should speak to the pride of this Nation. To quote a very famous Democrat, President Franklin D. Roosevelt, "The only thing we have to fear is fear itself."

The opponents of this agreement have espoused fear. There is no reason

for America to be afraid of the future. There is no reason to be afraid of the future. We have the best workers in the world. We have the best productivity numbers in the world. We produce the most educated work force in the world. This is a time to be bold. This is a time to exert leadership. This is a time to tell the world that the United States will become an insurmountable economic power in world trade. This is a time for all Americans to seize our destiny and to make the next century, as was the past century, a century for America.

Thank you, Mr. President.

I yield back to the senior Senator from Georgia and again thank him for his courtesy in the process we have just engaged.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. NUNN. Mr. President, I thank my friend and colleague from Georgia, Senator COVERDELL, not only for his remarks today, but it has been a great pleasure for me to work with him, trying to analyze how this rather complex, complicated agreement that is with so many people not only important but also emotional, and how to analyze it in a rational way to see how it really affects our State and the people we represent in Georgia and also how it affects the course of our Nation and our country.

It has been a pleasure working with him, and he and I have worked together and come to the same conclusion both by working together and by our independent analysis.

So I am very grateful for his comments and for his cooperation in representing our people.

Mr. President, the Senator from Georgia has referred to various segments of our Georgia economy. I am going to talk about those also before he leaves the floor, and I know he must leave.

We have winners. We have some that are perhaps losers. And we have some that are mixed in this process. What we have tried to do is to those who were perceiving themselves as losers in the NAFTA agreement we have tried to do everything we can and I think have succeeded to a considerable extent to ease some of the transitions that these industries are going to have to go through.

The Senator has already referred to peanuts, and that is absolutely true in the case of peanuts and the people who produce peanuts. It is also true with the textile industry itself as a whole at the beginning of this process, and their position now is such that most of the textile industry is endorsing the NAFTA agreement because improvements have been made. Also, it is true in other agricultural areas, and I think it is true in several areas relating to apparel, and those areas.

So, it is not that we are saying that everyone is going to be a winner here.

We are saying, on balance, we have, we believe, in our State a net benefit, a net increase in jobs, a net increase in business activity, a net increase in exports, and, bottom line, a benefit for overall the people of Georgia.

It has been a pleasure for me to work with the junior Senator from Georgia on this matter, and I thank him.

Mr. President, I rise today to announce my support for the North American Free-Trade Agreement [NAFTA]. I do so after taking a close look at NAFTA and talking to many people on both sides of the issue about its potential ramifications. My bottom line assessment is that NAFTA is in the best interests of Georgia and the Nation as a whole.

Mr. President, many Americans, as we all know, are fearful of NAFTA, and I understand that, given the prolonged recession of recent years, the fragile recovery that we are still in from this recession, a recovery that does not carry with it much in the way of new job creation and, in an overall sense, not in keeping with normal recoveries, as well as the well-financed campaign aimed at preventing NAFTA's enactment, and it has been well organized, and it has been well financed. For all of those reasons, many people believe, understandably, that NAFTA will threaten their economic livelihood.

There is no doubt that the last several years have been economically difficult for millions of Americans and many people in my own State, but NAFTA has not caused these problems and defeating NAFTA will not cause these problems to go away.

As President Clinton said in his September 14 White House speech:

It is no use to deny that these fears and insecurities exist. It is no use denying that many of our people have lost in the battle for change. But it is a great mistake to think that NAFTA will make it worse. Every single solitary thing you hear people talk about that they're worried about can happen whether this trade agreement passes or not, and most of them will be made worse if it fails. And I can tell you it will be better if it passes.

Just as the country suffered from the shortsighted protectionist policies of the 1930's and prospered from the bold and imaginative free trade policies following World War II, the United States stands to benefit greatly from free trade, not protectionism. U.S. economic growth and prosperity are not elements of a zero sum game. They are the results of attempts to expand the size of the economic pie, not efforts to divide a fixed pie into smaller and smaller pieces. This holds true for both NAFTA and the Uruguay round of GATT.

I believe my colleague, BILL BRADLEY, neatly summed this up in a September 16 editorial to the Wall Street Journal. He stated that:

Defeating NAFTA won't create jobs, control immigration, or clean the environment.

Either we address the problems of economic transformation head on, or we bury our heads in the sand, blame NAFTA for situations it did not create, and accept a lower standard of living and a fraying social fabric. * * * NAFTA opens more than a trade door. It will enhance our nation in ways that are absolutely critical to growth, progress, and security in the 21st century.

Mr. President, many of our Nation's jobs are directly attributable to exports. It is estimated that one out of every six manufacturing jobs depends on exports and that the crops on 1 out of every 3 acres planted by America farmers is destined for export. The Commerce Department estimates that every billion dollars in exports creates 20,000 jobs in this country. And, one of the United States recent economic success stories is our trade balance with Mexico.

In 1986, the Government of Mexico under the leadership of President Salinas began a series of unilateral initiatives to reduce its trade barriers. With this partial opening of its market to imports, United States exports to Mexico since 1986 have increased from \$12 billion a year to over \$40 billion a year in 1992.

And that is from 1986 to 1992; more than a tripling of exports in 6 years.

In Georgia alone, exports have increased from \$108 million in 1987 to \$463 million in 1992, an increase of over 320 percent in Georgia in that brief period of time. Mexico is now the third largest export market for the United States, trailing only Canada and Japan. The average Mexican consumer already buys much more per capita of American goods and services than the average consumer in Japan, and this is true even though the average Mexican consumer earns roughly one-sixth of the Japanese consumer.

While these steps to reduce trade barriers are laudable, Mexico still has much greater trade barriers, tariff and nontariff alike, than exist in the United States. Today, on average, Mexican tariffs are 2½ times those in the United States. Under NAFTA, these differences will be phased out, some immediately and some over 5, 10, or 15 years. For instance, after enactment of NAFTA, the percentage of United States exports entering Mexico duty free would rise from 20 to 50 percent; after 5 years, it would be 66 percent and after 10 years, 99 plus percent. A similar phaseout also holds true in the U.S. market. Among the sectors of our economy that will benefit the most from removal of Mexican barriers are automobiles, chemicals, pharmaceuticals, household appliances, machine tools, industrial machinery and equipment, electronics, textiles, telecommunications, and financial services.

To give an example of what this tariff and other nontariff reductions means to an American industry, I would like to highlight briefly

NAFTA's impact on the U.S. automotive industry. Voices within the industry are divided on NAFTA—management of the Big Three automobile producers strongly supports NAFTA and the United Automobile Workers strongly oppose it. Georgia is proud of its Ford Atlanta assembly plant which produces the best-selling Ford Taurus and Mercury Sable and General Motors' Doraville assembly facility which produces the Oldsmobile Cutlass Supreme and soon will add minivan production to this facility.

Since 1925, Mexico has maintained high tariff and nontariff barriers to automobile imports. These barriers have led many American firms to build assembly plants in Mexico to sell cars both in Mexico and back across the border in the United States. NAFTA will eliminate these penalties in Mexico against American automobile companies. The American Automobile Manufacturers Association estimates that Big 3 exports to Mexico will rise from roughly 1,000 to over 60,000 in the first year of NAFTA alone. In the longer terms, we also need to realize the tremendous potential of the Mexican auto market. A Congressional Budget Office study stated that there were fewer than 8 cars for every 100 people in Mexico compared to 57 per 100 in the United States. This is a huge untapped market.

I understand that many automotive workers fear that production will continue to shift to Mexico. American manufacturers argue however that when trade surplus requirements and tariffs on American-made cars are eliminated in Mexico they will be able to move production for some models back to more efficient American plants. As Thomas Schoenbaum, a University of Georgia Law School professor and the executive director of the Dean Rusk Center for International and Comparative Law, pointed out in "The North American Free-Trade Agreement [NAFTA]: A Guide for the Perplexed":

The precise impact of the NAFTA on the automotive industry will depend, however, on future decisions by the Big Three auto makers and how they restructure their Mexican operations. However, under NAFTA there will be less incentive for U.S. manufacturers to transfer production to Mexico. This should mean more jobs for U.S. workers.

In addition to the automotive industry, there are a number of other Georgia industries which will benefit from NAFTA. Economists at the Federal Reserve Bank of Atlanta reviewed the agreement and see NAFTA as a winner for Georgia electronics, high technology, engineering services and timber. I concur with their assessment. Given Georgia's natural comparative advantage in high technology companies, particularly in medical fields, this will be an area we will benefit from for years to come under NAFTA.

Mr. President, one area of NAFTA I looked at particularly closely was the

agricultural sector, which is a vital element in Georgia's economy. Currently the American farmer is at a disadvantage because fully one quarter of American agricultural exports to Mexico must enter under import licenses awarded by the Mexican government. Under NAFTA, these import licenses would be terminated, which would open a large market for American farm products.

However, this is of little consolation to Georgia's peanut farmers. They are extremely concerned about NAFTA's impact on their livelihood, first because of possible flooding of the United States market with lower quality Mexican peanuts and second that Mexico will become an export platform for peanuts grown in Argentina and China and exported into the United States, to take advantage of NAFTA's favorable tariff treatment.

In the first case, the historical evidence does not show Mexico to be a major producer of peanuts. Its climate is dry and it lacks the irrigation capacities. The fact is that United States exports of shelled peanuts to Mexico have quadrupled since 1987 and most experts believe that a developing Mexico will increase its demand for United States products. A 1992 United States Department of Agriculture study concluded that Mexico will continue to be a net importer of peanuts, and that there is little reason to expect Mexico to become a net supplier of peanuts to the United States.

As to the possibility that Mexico will become an export platform for non-NAFTA peanuts, peanut producers are not alone in this justifiable concern. NAFTA addresses these concerns through export surge and point of origin provisions designed to protect our economy's interest from such abuses.

Professor Schoenbaum noted that NAFTA contains a bilateral safeguard procedure (which) may be invoked so that tariffs snapback to pre-NAFTA levels for up to 3 years if increased imports cause or threaten serious injury to a domestic industry. He goes on to note that NAFTA also includes:

*** strict country-of-origin rules so that non-NAFTA nations cannot use a NAFTA country as a low-tariff export platform for entry into the North American market. NAFTA is therefore designed to limit the benefits of the agreement to products originating in North America.

The point of origin provisions must be effectively enforced and the Clinton administration has pledged to do so. It is also important to note that peanut tariffs will not be completely eliminated for 15 years, the longest protection period allowed under NAFTA.

I have tried to be as helpful as possible in bringing the concerns of Georgia peanut farmers before the U.S. Trade Representative. I am pleased that NAFTA preserves the United States rights to apply our current

quality standards to imports of shelled and in-shell peanuts. I am also pleased that the implementing legislation will ensure that future imports of peanut paste and peanut butter, which are currently exempt from section 22 provisions, meet quality and grade standards comparable to those of Marketing Agreement 146. I joined Senator HEFLIN and several other colleagues last month in asking the administration to include these safeguards in the NAFTA implementing legislation. In summary, special consideration was given to peanuts, but obviously this is not sufficient to address all the peanut farmers' concerns about NAFTA.

Mr. President, on the whole, I believe these concerns are outweighed by the benefits NAFTA will bring to Georgia's and America's farmers. The National Cotton Council, the National Corn Council, the National Cattleman, the National Broiler Council, the Pork Producers, and the American Soybean Association all support NAFTA. These groups, representing a substantial portion of Georgia commodity interests, make it clear they believe that Georgia agriculture will benefit from NAFTA. The Georgia Commissioner of Agriculture Tommy Irvin also supports NAFTA.

Mr. President, another industry important to Georgia is the textile and apparel industry. Similar to Georgia's agricultural community, the case is mixed here. The textile groups broadly support NAFTA. Given the enormous investment this industry has made in new plant and equipment, manufacturing and management processes, and worker training, the textile industry believes it can compete and succeed in a free trade agreement with Mexico. Looking at its recent successes, I have no reason to doubt it.

The apparel industry, however, has not, or has been unable to make, the same level of investments, and it is very concerned about competing with the Mexican apparel industry given the low wage rate and the differences in environmental and safety standards between the United States and Mexico. These are valid concerns, and I have looked at them carefully, but I have concluded that most of these concerns would exist with or without NAFTA.

NAFTA answers some of these concerns, particularly through the side agreements on labor and environmental standards, but the bottom line is that the apparel industry will have to continue to adjust to the changing economic times and these adjustments will not be easy. NAFTA will not be a cloud with a silver lining. However, I believe that its worker retraining programs and its provisions which limit qualifying products in the textile and apparel industries will help ease these adjustments.

Mr. President, I have in my remarks today a rather detailed analysis of certain sectors that are very important in the Georgia economy.

For instance, automobile production is very important in Georgia. We are very proud of the Ford plant in Atlanta, GA. We are very proud of the General Motors plant in Doraville. The best selling car in America, the Taurus, is made in Atlanta, GA. We have an awful lot of good workers there.

Mr. President, there are many people in the automobile production business who are concerned about NAFTA. There are many who are very much for it, and there are many who are very much against it.

I think the best analysis I have seen on this subject has been done by Mr. Thomas Schoenbaum, who is a dean and professor of law at the University of Georgia. We also have the benefit of an analysis from the Federal Reserve Bank of Atlanta. In both of these analytical products, they were not setting out to prove anything. These analyses were tempered by being away from Washington and not tainted by the advocacy positions that everyone here in Washington seems to take. I believe that these are convincing presentations relating to the overall net benefit to Georgia.

The Federal Reserve Bank, for instance, says the clear winners in Georgia include high technology, engineering services, electronics, and timber.

The Schoenbaum study says that clearly automobiles are a winner and that there will be more jobs in the automobile industry because of this.

It also is clear, when you look at the number of individual commodity groups in Georgia that have endorsed NAFTA, that they believe it is in the best interest of Georgia's agriculture, at least their commodities.

So, overall, Mr. President I am convinced that this agreement is in the best interest of our State.

Mr. President, I will refrain from citing the many numerous studies that have been conducted about the overall economic impact of NAFTA on the United States. Almost all of them conclude that on a jobs basis that NAFTA will be a net producer of jobs in the United States. The truth is no one can predict with certainty the exact number of jobs that will be gained or lost under NAFTA. And no one can predict with certainty the timeframe under which this will occur. I am convinced, however, that both Georgia and the Nation will be a net gainer of jobs from this agreement.

The argument that cheap labor in Mexico will kill a million jobs here in the United States presumes that the cost of labor is the primary or even sole factor in determining when and where to locate a business enterprise. If this were true, Botswana, Bangladesh, and Haiti would be international economic powerhouses.

We know that is not true. We know from history that is not true. We know, after World War II, everything we have done to expand trade, even with nations with much lower wage rates, has ended up building jobs in this United States.

In the last 10 or 12 years, we have had rough relationships with some of our competitors, Japan and others, but it was not because of wage differentials. It was because of other economic factors.

If this were true, if wage rates determined the be-all and end-all of trade patterns, then Mercedes-Benz would not have recently decided to open a new plant here in the United States. They would have gone to some other location.

Mr. President, we all know that the cost of labor is but one of a number of factors business planners take into account. There is the training and skill of our workers, the productivity of labor, availability of raw materials, the size and quality of the local transportation and communications networks—the list goes on and on. Claims that the passage of NAFTA will suck 1 million jobs south imply that there is today some kind of barrier preventing United States businesses from going to Mexico. But no such barrier exists.

Much of the criticism of NAFTA should more accurately be directed at the status quo. Most of the arguments against NAFTA apply more aptly to the current United States-Mexico trade arrangement; that is, low United States tariffs, high Mexican tariffs, maquiladora plants in Mexico along the United States border polluting the environment and lax labor laws. Each of these existing problems is being addressed by NAFTA, not caused by NAFTA. And, as President Salinas of Mexico aptly pointed out when commenting on the environmental side agreement, "It is not automatic that with growth the environment will improve, but it is automatic that with poverty the environment will worsen."

Mr. President, we not only stand to benefit directly from NAFTA, but also indirectly—via improvements in the Mexican economy. Not only will it mean that the average Mexican wage earner will have more funds available to buy United States goods which they have already shown they like to buy, but over the long term it will certainly ease the immigration crisis that we are facing on our southern border with Mexico. Millions of Mexicans—and other Latin Americans—are trying to flee their countries every year in search of better paying jobs. Clearly most Mexicans would prefer to stay in their home in Mexico, but there are few jobs. If their economy grows along with ours, there will be more jobs available to them at home. These jobs will be for many years to come lower paying, lower technology jobs by our stand-

ards, but nonetheless better jobs than are available today throughout Mexico.

Over the long haul, NAFTA will enable and require Mexico to tighten its environmental laws and its labor safety laws. It is clear looking around the world that any country that is not experiencing growth finds it very difficult to devote significant resources to improving the environment, labor conditions, education or infrastructure. Improvements in these areas taken cumulatively are in both Mexico's and our Nation's common interest.

I realize that my decision will not be warmly received by some in Georgia, but, in my judgment, passage of NAFTA is in our best interests in the long term. NAFTA's defeat will not only undermine our relations with Mexico, it will sour them with our friends throughout Latin and South America, and it will certainly further jeopardize the conclusion of the Uruguay round of GATT. Like NAFTA, the Uruguay round is not perfect, but it goes a long way toward bringing about a global, free, and fair trading system. And, as we all know, America and its workers not only compete well, but usually win, in that environment.

Mr. President, history shows that protectionism is economically self-defeating in the long run. We ought to know. We have tried it before, with disastrous results. For America's long-term economic health, we must promote expanded free trade. Therefore, I shall vote in support of NAFTA.

Mr. President, we must also recognize that the NAFTA is much more than a trade agreement. NAFTA is a major test of our foreign policy in the post-cold war world. The treaty represents a continuation of the spectacularly successful liberalization of world trade spawned by the historic Bretton Woods Agreement concluded at the end of World War II. It represents a historic opportunity for an expanded and enduring partnership with Mexico, and ultimately all of Latin America.

Mr. President, NAFTA represents a refusal to turn our backs on the outside world. It represents the courage not to take counsel of our fears in an era of hard times.

In closing, I would say NAFTA is just plain economic sense. We must not retreat to economic protectionism and ultimately political isolationism of the kind that sparked the worldwide Great Depression of the 1930's, which in turn helped fan the flames of fascism throughout Europe.

The United States cannot afford to repeat the trade and foreign policies it pursued in the 1920's and 1930's. Maybe we did not know any better then, but we have no excuse now. We now know that expanding trade works, and protectionism over the long haul does not work. We know that international political engagement works, and that isolationism and nativism do not.

I conclude that passage of NAFTA is in the best interests of the State of Georgia and our Nation and I will support it.

I yield any time I have remaining.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Parliamentary inquiry, Mr. President. Are we in morning business?

The PRESIDING OFFICER. We are on the crime bill, so the Senator would need consent in order to speak in morning business.

Mr. DOMENICI. Mr. President, I ask unanimous consent I be permitted to speak for up to 15 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, will the Senator yield for another unanimous-consent request?

Mr. DOMENICI. Of course.

Mr. HELMS. Mr. President, when the distinguished Senator from New Mexico has finished his remarks I ask unanimous consent I be recognized to make some.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. I thank the Chair and thank the distinguished Senator.

NAFTA

Mr. DOMENICI. Mr. President, I was on the floor for part of the speech that Senator NUNN just delivered. Frankly, I did not plan it this way, that I would be here following him. But I am very pleased that in this RECORD my remarks will follow his. I am not sure they will be as eloquent as his, but nonetheless, when I see Senator NUNN come to the floor with some very difficult problems in his own State and speak with such firmness about our future, and with such positive overtones, I get the feeling I am on the right side even more so than I thought this morning when I woke up and decided to speak about NAFTA.

So let me take a few minutes to tell my colleagues why I think this is the right thing.

First, in 1979, I say to Senator NUNN, believe it or not when I was a junior Senator and he was already moving ahead in his expertise in armed services, obviously I did not have a lot of big assignments. We were still in the minority. In fact I graduated a bit from my two assignments which, believe it or not, were space and public works. Two years into my assignment they abolished the Space Committee, so I had one assignment and that assignment had another Senator from New Mexico very senior to me on the same committee. So when I hear Senators complain about assignments, it seems to me things worked out all right for the Senator from New Mexico, even though I did not have very good ones to start with.

In 1979 I introduced a legislation calling for a North American integrated market. I do not know that was NAFTA, but clearly at that time many Senators, far less junior than I, and trade experts, admired that initiative but said it is never going to happen.

Now I see a tremendous momentum building in the direction of integrated markets in this hemisphere. In fact, practically the entire economic profession is in favor of NAFTA because it makes good economic sense for our country—period.

I ask unanimous consent to have a letter signed by 300 economists in support of NAFTA printed in the RECORD at this point.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

SEPTEMBER 1, 1993.

President BILL CLINTON,
The White House,
Washington, DC.

DEAR MR. PRESIDENT: As economists, we feel it is necessary to set the record straight on the costs and benefits of the North American Free Trade Agreement.

While we may not agree on the precise employment impact of NAFTA, we do concur that the agreement will be a net positive for the United States, both in terms of employment creation and overall economic growth. Specifically, the assertions that NAFTA will spur an exodus of U.S. jobs to Mexico are without basis. Mexican trade has resulted in net job creation in the U.S. in the past, and there is no evidence that this trend will not continue when NAFTA is enacted. Moreover, beyond employment gains, an open trade relationship directly benefits all consumers.

A recent review by the Congressional Budget Office fairly summarizes professional opinion:

"... NAFTA, if passed, would produce both winners and losers, but that the total gain to winners would be larger than the total loss of the losers in both Mexico and the United States. The effects on the U.S. economy—both good and bad—would be small for many years because (1) U.S. tariffs and other trade barriers are already small, (2) elimination of the tariffs and other barriers would be phased in slowly, and (3) the Mexican economy is only about 4 percent of the size of the U.S. economy. The benefits would grow over time, however, as the Mexican economy [grows] larger."

Working with our neighbors to build a strong partnership in North America is a desirable parallel track to multilateral efforts for an open world trading system. We urge your support for the North American Free Trade Agreement.

Mr. DOMENICI. Every living President and all recent Secretaries of State, all U.S. Trade Representatives support this accord. We have heard the point that "it makes good economic sense" made here on the floor over and over again, clearly and succinctly. Let me quickly review the reasons why this is true:

Tariffs going in the right direction—down; international markets expanding trade to produce high value, high-wage jobs, and paying an average of 12 percent higher wages than an average American job; average United States wages and incomes increasing, and a net increase of up to 170,000 jobs; more United States exports flowing south; the result will be higher paychecks for Mexican workers who spend about three-fourths of every export dollar in the United States; illegal immigration pressures decreasing, and more resources for environmental cleanup, cross-border crime prevention, and drug interdiction; and last, an integrated continental economy successfully competing head on with regional trading blocs in Europe and the Far East.

How do we know we will get these results? Actually, it seems to me absolutely beyond questioning credibility—that this is a treaty that we can almost predict the results, and they are positive. And those who are gloomy about our future are dreaming up facts that are just not so.

Look at what has happened between the United States and Mexico over the last 8 years, as Mexico unilaterally reduced trade restrictions, deregulated and privatized. We are going to get more of that, not less, once we adopt NAFTA, and what happened with Mexico moving in the right direction, but not all the way they will go when NAFTA is adopted. Between 1985 and 1991, the last year for which we have total facts, even without a full NAFTA, Mexican import purchases from the United States increased 144 percent; twice what we bought from them. Despite their modest incomes, average Mexicans spent about \$450 annually on our products while our affluent trading partners in Japan bought only 385 dollars' worth.

We are interested in opening the Japanese markets and we are debating closing the Mexican markets, or leaving them in a state of disrepair, and already they are spending more per capita on American goods than Japan.

As a result, the United States trade balance with Mexico has grown from a deficit of \$5.5 billion as recently as 1985 to a surplus of \$5.4 billion last year. You add the two, from negative to positive, and a tremendous increase in exports to Mexico and jobs in America,

high-paying jobs in America, is the result.

Since they opened their markets, more than 400,000 new jobs have been created in this country, raising the total number of Mexico-tied jobs in this country to over 700,000.

So what is it that still troubles people about NAFTA? I am not talking about special interests. I am not talking about the labor unions who clearly, I believe, are trying to hold back international trade. I cannot understand why the change has occurred, but seemingly it has and it is all built on the back of NAFTA.

I am going to talk not about those kinds of interests, but the interests of real people with real concerns about the deficit, about the direction of our economy—those in New Mexico, those in every State around who are just paying attention and trying to understand and have no special interest other than a genuine concern for economic prosperity and jobs.

Many of these concerns come from altered workforce strategies by business. These are reflected by longer work weeks, more overtime, but fewer new jobs as business reacts to higher employment overhead and Government mandates.

I believe that NAFTA is like Zozobra. Zozobra is an effigy that is ignited every year in the city of Santa Fe. Zozobra represents old man gloom, sorrow, worry, bad thoughts and ideas. And every year in the city of Santa Fe they burn old man gloom.

NAFTA is being used as a Zozobra symbol, a focus about our economic fears, about our future, about worry, about lack of confidence. And we ought to burn old man gloom with the adoption of this amendment.

We have these kinds of fears. Just last week the conference board consumer confidence survey reported another decline in people's expectations about their economic future.

The economic expectations index declined to 65.4 percent, the lowest in more than a year and a half. But allaying our fears about the future on the back of NAFTA is just not justified. The truth is that any negative consequences could not possibly be big enough to justify torching NAFTA. The burning of Zozobra is part of a day's fun in Santa Fe, the capital of New Mexico, but burning NAFTA now will make our problems greater in the future.

Let us put the fears in perspective. There will be no wholesale relocation of U.S. factories and jobs. First, the economy of Mexico is only the size of Los Angeles today. Second, Mexico gives up the most. Mexicans must reduce trade barriers that are 6 feet tall by comparison. We remove 6-inch curbing, nothing more than a bump; for our tariffs are small in comparison to theirs—and I repeat—Mexicans will re-

duce their trade barriers and the trade barriers are 6 feet tall. By comparison, we remove a 6-inch curb, nothing more than a bump.

The average trade tariff in the United States running against Mexican-made goods is a mere 4 percent. Mexico's is an average of 10 and, in many instances, 20 percent, meaning if you try to sell something American in Mexico, you just add 20 percent to the cost and pay it to the coffers of Mexico as a tax or a tariff. Obviously, if we are doing well now selling to them, how much better are we going to do when the tariffs are down?

On the other hand, eliminating these Mexican tariffs, as high as 20 percent, will do much more to create jobs in the North as Mexico's markets open and Mexico's economy grows. Let me use a couple of examples.

The impact of NAFTA on the auto industry is a good example of aggravated but misplaced facts. Fact: Currently car manufacturers in Mexico face a 2.5-percent duty and unrestricted access to the American market today; a 2.5-percent duty and unrestricted access by Mexican auto manufacturers selling automobiles here.

Fact: Currently, United States automakers have virtually no access to Mexico. To export, they must manufacture cars in Mexico, use 36 percent Mexican content, export from Mexico roughly twice the value of cars they seek to sell there and, finally, pay a 20-percent duty on the cars that are imported.

Under NAFTA, Mexico eliminates all of those restrictions. The big three automakers exported 1,000 vehicles to Mexico last year, a pittance—1,000. They tell us now that they can export 60,000 automobiles in the first year of NAFTA. Carmakers believe that it will bring \$1 billion in new revenues, thus protecting American high-paying jobs, precisely what we want to do in this hemisphere. The Commerce Department says it could be closer to \$2 billion. But let us take the automobile manufacturers' \$1 billion and 60,000 cars, compared with 1,000 cars today made in America and sold in Mexico.

Frankly, how can those who are interested in a future for the workers who work for the automobile manufacturers of America oppose NAFTA on the basis that it is bad for their jobs?

The attraction of Mexico's now legendary cheaper labor force is exaggerated. Cheaper labor is not more productive nor better labor, otherwise all jobs would be flowing to Haiti.

More to the point, killing NAFTA would not stop firms from moving jobs overseas. There is nothing to stop them from moving now. Let me repeat that: More to the point, killing NAFTA would not stop firms from moving overseas. There is nothing to stop them from moving now.

The alternative to locating in Mexico is not necessarily continued United

States production but relocation to Asia or Europe. While United States wages can be as much as seven times higher than Mexican wages, United States manufacturing workers can be seven times as productive. That is the way to stay competitive and that is the way we want to keep it—expanding high-wage, high-value jobs.

For the first time in history, a trade pact is tied to a concrete environmental agreement, the integrated environmental plan for the Mexican-United States border. The irony is that only with NAFTA will our Mexican neighbors generate the resources to clean up the problems that impact on all residents—Mexican and American—in that border region. What I am saying is, if you defeat NAFTA, put a damper on the growth that is occurring, you will get less environmental cleanup, not more.

Studies show that economic prosperity and environmental quality rise together. So this plan, improving the environment, addresses the ecological problems along the border and lays the groundwork for fixing them.

Finally, the most important reason for passing NAFTA is not what it will do for us but what we and the hemisphere will lose if we fail to pass it. NAFTA serves as a beacon to all Latin America. In fact, Argentina's President, President Menem, calls it his highest priority, even though his country is not a part of it.

To Mexico, NAFTA means institutionalizing the Salinas government's free market reforms that have been stimulating their economy since the late 1980's. A more prosperous Mexico will help to relieve illegal immigration and the pressures that it brings, and help provide political stability to this hemisphere.

These are sunny days in Mexico now because of the Salinas government and its movement toward open markets and prosperity, but that was not always the case. If we derail Salinas' train, we may not like the direction future Mexican governments take. And I am certain of that. That has not been spoken of enough. But if you derail this after all the effort of the party, PRI, his party, the cabinet and Salinas, what they told their people, I cannot believe that future Mexican governments are going to look favorably on their neighbors to the north.

In fact, I see some enormous problems as Mexico decides, and then the rest of Latin America, that the United States does not care, does not care about them, does not care about their growing prosperity; that all we worry about is what certain demagogues say, and certain demagogues who say, everything going wrong with America is because of the open trade that is now going on with Mexico and that will go on even more so if we approve NAFTA.

So in summary, our economic future depends on our ability and willingness

to compete, not repeat, these global markets of today. This country cannot build a wall of protectionism around itself and hope to maintain a standard of living for our children. We must compete, and the expanded markets offered by NAFTA give us the incentive and the means to hone our global edge.

I submit that even though Mexico is a small country, the signal we send by defeat of NAFTA will be out of all proportion to the size of the Mexican market now as it might integrate with ours. The ripple will affect Central and South America, where we have an opportunity to open even a larger market for our high-paying jobs and manufactured products.

It will also perhaps break the multilateral agreements that are being worked out, it will weaken the President, and who knows what is going to happen to those, and we desperately need them as everybody understands.

From a more general perspective, the gains from NAFTA to the people of North America are great: Higher standards of living, stronger economies and governments, stability and security but with no threat to our national sovereignty since any party can withdraw with 6 months notice. I do not know why we are discussing this issue of sovereignty when it is written right in the treaty any country can get out.

The PRESIDING OFFICER (Mr. CAMPBELL). The Senator's time has expired.

Mr. DOMENICI. I ask for 2 additional minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Any of the three can get out with 6 months official notice. We want the principles embodied in NAFTA to be the wave of the future for us around the world. We cannot afford to turn our backs on our own backyard. I understand that President Salinas will visit the Far East in December, shortly after we vote on the NAFTA implementing legislation. I hope that finding a substitute trade relationship is not added to his agenda. I hope, when he leaves, he leaves saying we are doing for ourselves in our own backyard. But I tell you, if he leaves with a defeated NAFTA, on his agenda will be a proposal for new trade relationships with other countries that are just waiting to enter that market.

So, Mr. President, it is my pleasure today to indicate on the Senate floor that I support NAFTA. Frankly, I have been on the side of NAFTA from the beginning. But as I witnessed the debate and the discussions, it seemed to me that the time was today for me to come down and put in perspective as best I could what we are really talking about.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Carolina [Mr. HELMS] is recognized.

Mr. NUNN. Mr. President, will the Senator from North Carolina yield me about 2 minutes on a brief statement about an important matter—

Mr. HELMS. Certainly.

Mr. NUNN. I think Senators would like to know about. I would appreciate it very much if I could have a couple minutes.

First, let me thank the Senator from New Mexico for an excellent statement which I identify with in almost every respect.

CHRISTENING OF THE U.S.S.
"JOHN C. STENNIS"

Mr. NUNN. Mr. President, tomorrow is a day that I believe our colleagues in the Senate would all like to know about because I think our hearts and minds, even though many of us will be in other parts of the country and even the world, will be with the people who will be dedicating a new giant aircraft carrier called the U.S.S. *John C. Stennis*, which will be christened tomorrow.

The ship befits the man. To me personally, John Stennis was both valued friend and patient mentor. But he was also a giant of the Senate, as well as a steady, able, and wise participant in the shaping of American foreign and defense policies during the cold war.

Indeed, Senator Stennis' service in the Senate coincided with the beginning and the end of that critical period in the history of the free world. John Stennis came to the Senate in 1947—the year the Marshall plan was announced and the Truman doctrine pronounced. He left the Senate in 1989, the year the Berlin Wall came down.

Simply consider the scope of the national military agenda of those 42 years. For just a few of the highlights: George F. Kennan's famous "Long Telegram." The 1947 Key West Agreements and the surrounding inter-service rivalries. The Berlin airlift of 1948. The formation of NATO in 1949. The Korean war of 1950–53 and the establishment of a large peacetime U.S. military presence in Europe. The Eisenhower administration's embrace of massive retaliation and new-look policies, and extension of containment to Asia. The Kennedy administration's adoption of flexible response and mutual assured destruction policies. The failed Bay of Pigs invasion and subsequent Cuban missile crisis. The Johnson administration's increased involvement in the Vietnam war and subsequent fraying of bipartisan consensus on foreign and defense affairs. The promulgation of the Nixon doctrine in 1969. The hollow forces and the legislative-executive branch disputes on foreign policy prerogatives in the immediate post-Vietnam era. The termination of conscription and passage of the War Powers Act in 1973. Subsequent Soviet attainment of strategic nuclear parity and the appearance of destabiliz-

ing MIRVed systems. The collapse of the American position in Iran, the Soviet invasion of Afghanistan, and President Carter's extension of containment to the Persian Gulf. The bitter controversy within NATO over the so-called neutron bomb. The SALT I and Panama Canal Treaties. The decision to create a rapid deployment force, and a failed hostage rescue mission in Iran that prompted calls for military reform. The serious decline in the manpower quality of the All-Volunteer Force in the 1970's. The election of Ronald Reagan and subsequent largest peace time military buildup in American history. The Soviet campaign to stop NATO from deploying Pershing II nuclear missiles as a counter to Soviet SS-20 missiles. President Reagan's 1983 announcement of the strategic defense initiative and the controversy that program provoked for the remainder of the decade. United States intervention in Lebanon and Grenada. The monumental 1986 Defense Reorganization Act. Indirect United States intervention in the Iraq-Iran war. The INF Treaty.

Mr. President, Senator Stennis played a role in all of these events. I cannot begin to summarize his impact on American defense policy during this period. But let me point to a few recurring themes in his approach to defense policy.

First, Senator Stennis consistently supported a strong defense. He supported whatever was necessary to protect this country, even in those times when it was not popular in some circles to support defense spending and even the American military itself.

At the same time, Senator Stennis was downright intolerant of wasted and misspent dollars. He always opposed those who wished to write the Pentagon a blank check. He scrutinized any program that was poorly managed or that was not really needed, and was not afraid to say, as he once did, that "To support military readiness a Senator does not have to be a wastrel."

Senator Stennis was also a staunch foe of the recurring isolationist impulse in the American body politic. At a critical juncture in American history, he stood with President Harry Truman in support of extending an American commitment to Europe's defense in peacetime—an act which spared non-Communist Europe from Soviet aggression from 1949 until 1989, the year of Senator Stennis departure from the Senate—and of the beginning of the end of not only of the Soviet Empire in Eastern Europe but also of the Soviet Union itself. In this country in the late 1940's there was strong public and congressional opposition to entering the kind of dreaded entangling alliance in Europe of which George Washington warned in his Farewell Address. But Senator Stennis, like Truman, had the courage and vision to recognize that America could no longer

turn its back on the world, that America had to engage its military power overseas on behalf of freedom if yet another world war was to be avoided. He voted to join NATO and to put powerful America military forces in Europe, where some of them still remain.

Senator Stennis remained a steadfast ally of the Atlantic alliance. He understood that NATO wasn't simply a favor to Europe, but rather was central to American security. In the late 1960's and early 1970's, as Vietnam war-induced sentiment against all overseas United States military involvement mounted in the Senate, Senator Stennis exerted his critical influence to thwart proposals for the pellmell, unilateral withdrawal of United States troops from Europe.

At the same time, Mr. President, Senator Stennis remained suspicious of excessive military involvement overseas. Like his great colleague Richard Russell, whose Senate seat I was honored to inherit in 1972, John Stennis never blindly signed on to any and all proposals to intervene overseas in the name of anticommunism. During the Eisenhower years, he warned against getting sucked into the doomed French war to retain Indochina as a colony, and a decade later he remained wary of the initial Johnson administration decisions that committed the United States to an open-ended and ultimately tragic war in Vietnam.

Once committed to any war, however, Senator Stennis believed that American fighting forces should be provided the means necessary to accomplish the objectives assigned to them. And those means included not just material support, but also the requisite operational authority and latitude to conduct military operations consistent with broad political guidance. Senator Stennis rejected academic theories that held war to be first and foremost an act of discrete political communication. He rejected gradualist applications of force, and unwarranted civilian intrusion upon the operational prerogatives of field commanders. He had no patience with micromanagement, be it congressional micromanagement of the Pentagon or White House micromanagement of battlefield commanders.

Mr. President, it is testimony to Senator Stennis' enduring influence on the course of this country's defense policy that he joins Chester Nimitz, Dwight Eisenhower, Abraham Lincoln, Carl Vinson, George Washington, and Theodore Roosevelt as the only other Americans after whom a Nimitz-class carrier has been named.

Senator Stennis' career in the Senate was an inspiration to me in my original decision to run for the Senate over 20 years ago. From my first days in the Senate, he was a teacher, ally, and cherished friend. As chairman of the Armed Services Committee, he set a

daunting standard for all of his successors. Mr. President, in all my years in the Senate, no higher honor has come my way than serving alongside this giant.

May God bless the U.S.S. *John C. Stennis* and all those who will serve on her.

I thank the Senator from North Carolina.

Mr. HELMS. The Senator is quite welcome. I will say to him that I share his affection and regard for John Stennis. Senator NUNN and I came to the Senate on the same day and we have served on the same committees from time to time. But I might add that Senator Stennis's daughter is a North Carolinian and she will christen the ship tomorrow.

THE CLINTON DEFENSE REVIEW: A PRESCRIPTION FOR DISASTER

Mr. HELMS. Mr. President, I have often and proudly observed that the people of North Carolina are honored that our State is home to a great many of the world's most famous and honored combat units. To more than 25 percent of the troops who fought in Desert Storm, North Carolina is the place they call home.

So I am honored, on the eve of Veterans Day, to express my gratitude that as a U.S. Senator from North Carolina, I am representing America's Guard of Honor—the 82d Airborne Division; the 2d Marine Division; the Special Operations Command; the Special Forces—the famous Green Berets—along with many Marine Corps and Air Force fighter squadrons. Add to that honor roll thousands of guardsmen and reservists and it is obvious that North Carolina is not only "First in Freedom," North Carolina is also "First in National Defense."

Having said that, Mr. President, on behalf of these outstanding young men and women across North Carolina I have pledged to do everything humanly possible to ensure that when they are called to duty it will be limited to defending the vital interests of the American people, not fulfilling the fantasies of Mr. Boutros-Ghali and his acolytes in the Washington political arena.

In the last year American soldiers and marines have been sent to Somalia, Bangladesh, Liberia, Macedonia, Haiti, and the Republic of Georgia. We are lurching from crisis to crisis without a clear understanding of our own national interest. With the collapse of the Soviet bloc we have no coherent defense strategy and our young people are being sent into harm's way while the United Nations gets around to deciding what is and what is not, a legitimate use of American power.

At the same time we are committing more Americans to ventures sanctioned by the United Nations, the Clinton administration seems bound and

determined to destroy the morale and effectiveness of our Armed Forces. First, it was the threat of placing open homosexuals in the barracks, and women in combat; then it was sending combat troops to Somalia without adequate equipment; now it is the so-called Bottom-Up Review which will cut our military to the bone thereby creating perilous risks for our national security.

The administration's whiz kids are swiftly dismantling the military safety net built by Ronald Reagan and George Bush. They slavishly adhere to the discredited notion that military downsizing is essential for economic prosperity. We have been down that road before and each time, without exception, we have met catastrophe—after World War I, World War II, Korea, and Vietnam.

As a result of the President's plans, our manpower and combat strength will be slashed by at least 40 percent before this decade is out. The White House has already announced that defense spending will be cut by a further \$127 billion beyond what the Bush administration planned by 1998. As such, the Bottom-Up Review—"designed to streamline a more combat ready force"—is a fraud—and it ought to be identified as such and recognized as such—because the President has already determined that America's defense needs will be guided by his domestic spending priorities not by the strategic realities of a very hostile world.

In addition to downsizing the Armed Forces, the Bottom-Up Review asks how many wars should the military be asked to fight at any given time and what role does the United States play in regional disputes around the globe.

Early in 1993, the Clinton administration proposed that the Pentagon adopt a win-hold-win strategy, whereby ground forces would fight one war and have the Air Force and the naval air arm hold down the second front until land units can be transferred to the scene. After pointed criticism from the military, the Congress, and our allies—particularly South Korea and Great Britain—the White House quickly jettisoned win-hold-win. In response to skeptics, Secretary Aspin then stated that in the event of war, America's strategy will be, to quote the Secretary:

*** our forces must be able to fight and win two major regional conflicts, and nearly simultaneously.

Yet, the win-win strategy enunciated by Secretary Aspin is empty rhetoric when you look at it. If enacted, the Bottom-Up Review will lead to disastrous reductions. It recommends cutting the number of troops on active duty to less than 1.4 million. The Clinton carrier force will be between 8 and 12 ships, yet 1 carrier will be used only for training. The total number of ships

in the fleet will fall from 545 to between 300 and 340. Our 15 carrier air wings will be reduced to 8. The number of Active Army divisions will be reduced from 16 to 10, possibly 8, and the number of Reserve divisions from 10 to 6. Marine expeditionary units will move from 3 to 2. Our active fighter wings will drop from 36 to 20, while on-line bombers will be reduced from 268 to between 120 and 140.

The Clinton-Aspin plan contends that troop shortfalls will be made up by the massive deployment of so-called smart weapons, such as laser guided bombs, brilliant antitank munitions, sensor-fuzed weapons, and satellite guided projectiles. The strategy rests on the assumption that these smart weapons will be deployed in such numbers as to overwhelm two simultaneous armored offensives on the scale of those seen in the Arab-Israeli wars. But, many of these weapons are not even available to the military now or in the future. The sensor-fuzed weapons are not scheduled to be on-line until late 1994 and the brilliant anti-tank weapons are still on the drawing board and even if they were deployable we do not have the means to pay for them.

As we saw in Desert Storm, the capabilities of these weapons are often oversold. Problems perpetually exist with maintenance and the inability to use these weapons in bad weather or at night limits their effectiveness. Remember, all of our technological wonders could not prevent Saddam Hussein's second rate missile force from raining death and destruction on helpless Israeli civilians. The largest number of American casualties in Desert Storm came when one Scud missile broke through our Patriot system and killed dozens of American airmen asleep in their bunks.

The administration wants to place all of our eggs in the high-technology basket which experience has constantly shown to be full of holes, especially when research is underfunded as it is. It should be made clear that this administration is proposing massive cuts in research and development for all of the Armed Forces—the means by which these smart weapons would be developed. As one Marine Corps general remarked:

The U.S. military is expected to execute its mission with weapons that are not yet developed, carried on platforms that aren't adapted for them.

Mr. President, there are more problems. As we draw down our forward deployed forces around the globe the importance of our military transportation system concomitantly increases. During Desert Storm, the Department of Defense commandeered every available American merchant vessel. We even rented foreign flagged ships. Yet, it still took us almost 6 months to build up enough forces to launch offensive operations against Iraq. We cannot

assume that a future adversary will repeat Saddam Hussein's mistakes and foolishly allow us to engage in an unopposed, protracted set-piece buildup.

The win-win strategy depends on air and sealift forces which the United States does not now possess nor is in a position to acquire under the Clinton-Aspin plan advanced by Mr. Clinton and Mr. Aspin.

According to the Rand Corp. the margin for error with such limited fighting and transportation capabilities is very small. If two conflicts broke out within 1 month, Rand notes that, "the strains on tanker and airlift forces alone would prevent the United States from deploying forces to the second conflict in a timely manner." Yet air and sealift is drastically cut.

Let there be no mistake about it, we are returning to the days of the hollow force, when troops trained without equipment, weapons had no ammunition, and half the fleet was docked because there were no spare parts or adequate crews. If the Congress acquiesces, the Clinton-Aspin cuts will result in a military which is profoundly smaller and substantially weaker than the force which destroyed Saddam Hussein's army. As the American Defense Institute noted in an August 27, 1993, briefing:

*** this force would be unable to successfully handle a conflict such as Desert Storm and repel a North Korean attack on South Korea—precisely what Aspin's win-win strategy seeks to accomplish.

This strategy makes it more probable that we will have to resort to the use of nuclear weapons in order to prevent defeat.

Mr. President, as I noted earlier, while this administration is gutting our conventional strength it is also injecting our forces in regional conflicts from Haiti to Macedonia. These operations are having a devastating impact on readiness.

Ambassador Jeanne Kirkpatrick recently remarked that "peacekeeping is more a function of money than it is troops or equipment." So where are we getting the money to pay for operations in Bosnia, Somalia, and Haiti? It is certainly not from our financial contributions to the United Nations nor from overhead at the State Department. The money for so-called peacekeeping is coming directly from the training, readiness, and maintenance funds of the Navy, Marine Corps, Army, and Air Force. Let me go down the list:

NAVY

To pay for its contribution to operations in Somalia, the Navy has had to borrow over \$25 million from its maintenance account. The Navy now has a repair backlog of 150 aircraft and over 250 aircraft engines. The American Defense Institute also reports that the maintenance backlogs of the Navy—which also includes needed overhauls of the fleet—exceed over \$750 million.

MARINE CORPS

The Marines have spent well over \$100 million to pay for humanitarian and peacekeeping operations in Bangladesh and Somalia. These funds are being taken from the readiness account of the corps at the same time that the Clinton administration is reducing the budget for training. The current maintenance backlog of the Marine Corps is over \$150 million.

ARMY

The Army is paying for peacekeeping operations in the Somalia and the Sinai out of maintenance and training funds. The Army's repair backlog is over \$600 million.

AIR FORCE

The Air Force is funding humanitarian and peacekeeping operations in Bosnia, Somalia, and Bangladesh from its maintenance accounts which are in arrears for almost \$250 million.

The Bottom-Up Review did not stop with plans to overhaul conventional programs. On October 29, 1993, the Clinton administration produced its assessment of American nuclear policy. After studying the plan, it appears to this Senator that the United States is about to go out of the nuclear weapons business.

Pariah states like Iraq, Iran, Libya, and North Korea are on the verge of uncovering nuclear arsenals but more importantly Russia continues to pose the greatest danger for our long-term security. The Russian nuclear assembly line continues to roll on. While we have not deployed a new nuclear weapons system in over a decade the Russian Defense Ministry is developing new delivery systems, including mobile ICBM's, and it continues to engage in full blown nuclear exercises designed to practice for attacks on the United States. In a report of the Center for Security Policy, Frank Gaffney, former Assistant Secretary of Defense under President Reagan, notes:

*** according to the head of the Russian Ministry of Atomic Energy, Victor Mikhailov, the Russians possess far larger stocks of nuclear weapons than has been assumed by Western intelligence. They also reportedly continue to operate a "Doomsday machine" capable of automatically launching attacks if fallible sensors suggest that nuclear weapons have been used against Russia.

Secretary Aspin says that America must focus on the proliferation of nuclear weapons to the third world not "the old Soviet threat." That is fine, on its face, but what is our response to the threat of thousands of nuclear warheads located throughout the former Soviet Union which are still pointed at the United States? Our intelligence community can not guarantee that the government in Moscow exercises adequate command and control over nuclear weapons in Russia and the republics. It is exceedingly dangerous to discount the nuclear threat posed by an

unstable Russia because such a scenario does not fit neatly into the administration's politically correct view of how things should be.

Mr. President, what proposals have emerged from the Bottom-Up Review of our nuclear deterrent? If they look like proposals lifted from the agenda of the so-called peace movement of the 1960's, 1970's, and 1980's it is not a coincidence. This is where the recommendations of the review will lead us:

First, declare an end to American nuclear testing;

Second, suspend production of nuclear weapons;

Third, shut down most of the nuclear weapons infrastructure such as labs and production facilities.

Fourth, permit domestic supplies of critical materials, such as tritium, plutonium, and enriched uranium to degenerate.

Fifth, adopt a no first use policy;

Sixth, keep a large percentage of ballistic missile submarines in port while confining those at sea to predesignated "sanctuaries";

Seventh, separate land based warheads from their delivery vehicles; and

Eighth, discontinue research and development of a strategic defense system.

If these proposals are adopted the Clinton administration will have reduced, if not destroyed, the readiness and credibility of our nuclear deterrent as well as eliminated—in the form of SDI—any means of defending against ballistic missile attack should other means fail to stop an aggressor. I am not willing to accept such a risk and neither are the American people.

Mr. President, I have scarcely scratched the surface of the national security problems we face. The Clinton-Aspin defense proposals send the wrong signal, at the wrong time, to our friends and foes. The hope of a new world order is no basis for a defense policy. No matter how optimistic we are about peace, that optimism must always be tempered by the reality of hard historical experience. That experience tells us that we must support our ideals with military strength and the will to act when our interests are threatened.

Vigilance is the price of freedom. As Margaret Thatcher said, "Ronald Reagan won the cold war without firing a shot." That is what happens when we remain strong. Unfortunately, the Clinton-Aspin defense program takes America in the wrong direction and is a prescription for a more dangerous future for this country and the American people.

I yield the floor.

Mr. LEAHY addressed the Chair.

The PRESIDING OFFICER. The Senator from Vermont [Mr. LEAHY] is recognized.

THE NAFTA DEBATE

Mr. LEAHY. Mr. President, I just wanted to note, along with others, that all of us were here until late last night, and as a result most of us were either on the floor or in our respective Cloakrooms to get a chance to see the debate between the President of the Senate, Vice President GORE, and Ross Perot. I know I did.

I just wanted you to know how proud I was of the Vice President. I thought he handled a very complex subject in a very clear fashion, and marshaled his facts well and stated them well.

He resisted the impulse to resort to one-liners, or to try to obfuscate or simplify a subject which should not be. I think that he gave both the administration and himself a great deal of credit in that. I was not one who was thrilled at the prospect of the debate in the first place, but having seen it, I think that the Vice President was the clear winner on the issue. I commend him for that.

VIOLENT CRIME CONTROL AND LAW ENFORCEMENT ACT OF 1993

Mr. LEAHY. Mr. President, I would like to speak on the crime bill that we have before us. It is something I have given a great deal of thought to as I have listened to the debate here.

In some ways, this debate makes me think of debates we sometimes have on military matters or questions of whether the United States should send forces into action. We hear a lot of people, whether it is in this Chamber or outside, who have never been in the military or never faced combat or never have been involved in it, who will sometimes give the strongest speeches about how we ought to just send the troops in there and charge this hill and take that valley, and so on and so forth. And they are not the ones that do it. I sometimes think that the debate loses touch with the reality of the situation—that is, on military matters.

Here we are talking about crime. I must admit that there has been almost an attitude among some to see who can be more against crime. Well, we can pass a sense-of-the-Senate resolution stating that all Senators are against crime, if that is going to make people feel better. All Members, all Governors, all mayors, all editorial writers, all news writers, and everyone else—all are against crime. We all ought to state that but not try to prove how much we are against crime by doing things that lose sight of reality.

Nobody here condones the violent crime that is taking place in this country. Nobody wants the type of drug-addicted society that is ruining the opportunities for our young people, that is destroying their future, destroying our cities, and destroying the lives of so many innocent bystanders.

I have spent some time working in the criminal justice system. I have prosecuted murder cases. I daresay I probably have prosecuted as many murder cases as all but two or three people in this body. I prosecuted rape cases and sexual assault cases and child molestation cases. I do not say that as somebody running for prosecutor or county sheriff. I say it because I come here with some sense of what is involved.

I think we are making some basic mistakes in this body when we assume that we have to start federalizing every single crime there is. It is a mistake to assume that just because there is a headline one of us might want to hold up for the day to demonstrate how tough we are on crime, that we have to go and make whatever the crime is a Federal crime, as though there are no State authorities, as though there are no local authorities, as though the States do not have a State police system or a local police system or county police system, as though they do not have prosecutors and judges within the States. We are concerned about the grim facts. There was one very horrifying case of carjacking in this area. It is terrible if somebody jumps in your car, puts a gun or a knife or club in your face and drives off leaving you injured or killed. That is a terrible thing. But should we suddenly be directing the FBI to get involved in this?

If we feel that the State and local authorities are not up to it, well then, give them the tools. We have suddenly added billions and billions of dollars to this crime bill, just like that, in one amendment. We added more money into this crime bill than virtually all of the painful cuts we are going to make by taking money from education and money from the elderly and money from environmental protection and money from nutrition and money from school lunches and everything else, and we have dumped it into the crime bill, just like that, to show just how tough we are.

Let us not suddenly waste this by saying, oh, yes, the FBI, the Federal authorities are going to start taking over all of these local crimes. I think that is a mistake. It is not that we are in favor of child molestation or sexual crimes or carjacking or murder or stabbings or gang warfare if we say they do not all have to be Federal crimes. There are things that the Federal authorities can do and the State authorities cannot, such as take on major interstate drug rings. Your local State police or county police or sheriffs are not going to be able to handle that. The FBI, the Justice Department, and the DEA can do that. If you have major cases involving armed gangs moving from State to State, again, they can do that. But, Mr. President, I do not want the FBI to suddenly be called into cases best handled at the

local level. It really means that we are telling the Justice Department and the American people that we have given up on our own States, on our own local authorities.

I doubt very much if there is a single Senator who votes for this extension of Federal authority who will go home to his or her home State and say: I voted this way because I have no faith in the chief of police of this city, or, I have no faith in the district attorney of this district or county; I have no faith in the Governor of my State to utilize whatever State police authority he or she might have.

We are not going to do that. But that is basically what we are saying. We are coming close to making it a Federal crime to jaywalk if the street is connected to a main road in your town which goes out to a State road which might connect to an interstate highway. Let us just make jaywalking across that street a Federal crime. Somebody can undoubtedly make the nexus to interstate commerce.

I think, Mr. President, that we end up looking like we are involved in some kind of a bidding war to say that we are all against crime, so dump in all of the money you can as fast as you can, federalize as many crimes as you can. But, if something really comes up that might actually affect crime, back off in a hurry. If somebody says maybe we should not have teenagers armed with greater armament than our Marines in Mogadishu might have; if we say maybe we ought to restrict that armament in our cities, then someone says, well, wait a minute, this is going a little bit too far. We are not that hairy chested about crime prevention. We better back away from that.

If we say maybe we ought to take some of the social steps to restore the family, you can say, well, we do not need to talk about those kinds of things. I mean, that is nice, wishful thinking. It is the same where we say we will pass a new law that you have to be careful what you show on television. You cannot show violence or this or that and the other thing. That way we will fight crime.

Does anybody stop to think that maybe the parents ought to say to those children "Do not watch that program"?

When my children were growing up, when there was something I did not want them to watch, they did not watch it. It was the same way with me. I did not expect someone to stand up in the U.S. Senate and pass a law saying what I could and could not watch.

Maybe we ought to find some ways of strengthening the family. Maybe we should ask ourselves why children think they have to carry guns to school? Then we should remove the guns from where children can get them.

I have owned guns since I was 12 or 13 years old. I was a champion shooter in

college, and that was one of the ways I helped make it through college. I am very proud of that. I own many guns today, semiautomatics, both handguns and rifles. I am not too concerned about having my choice of what kind of guns I might own limited a little bit if we could stop having cities that have become fortresses of fear.

People are afraid to go out and get in their car and go to the corner store. When they are going to their car, because they walk three blocks they are afraid what might happen along the way.

Passing a Federal law and turning everything over to the FBI will not stop that. But helping the cities and local authorities might and putting some basic values back in our schools—where you tell people they will graduate and go through school only if they really do learn how to read and write and not just pass them on—telling people they are responsible for their individual actions will also help. But making a spectacle of ourselves here in the U.S. Senate by seeing who can out bid whom by making more things Federal crimes will not solve the problem.

I recall when I was a prosecutor saying I needed help with training for our local police, training for our prosecutors, and training for our judges—I remember going to the State legislature and hearing them say: "We are going to show how tough we are on crime. We are going to double the penalty of almost every crime there is in the books." I said, "Whoopee. Whoopee."

Crimes are being committed because people think they are not going to get caught, in the first place. Simply increasing the penalty is not going to make any difference.

I use an easy example. You have two warehouses full of television sets. One has an alarm system, and one does not. The one without the alarm system has double the penalty. It is known which has which. In which one do you think there is going to be a burglary? Which one do you think gets burglarized? Obviously, it is the one without the system because people feel they will not get caught.

In most of these crimes, people are not going to get caught by Federal authorities. They are going to get caught, if they get caught, by local authorities. That is what we ought to be strengthening; that is where we ought to be helping.

Let us not try to fool people into thinking we are tough on crime because we have simply federalized virtually every crime in the book.

I had not meant to speak this long on the subject. When I came to the Chamber, there were not other Senators waiting to speak. I believe there are now. I will shortly yield the floor.

I refer just once again to the issue of guns. We can do symbolism or we can do reality. In my estimation, the Brady

bill is pure symbolism. Eliminating a whole class of weapons that have no place in hunting or in sports may well do something. It may well be a step. A modest step was taken last night in that regard. I think it was a justifiable step.

It is not a position that I would have taken I believe 20 years ago or 19 years ago when I came to the Senate, but it is a different country than it was 19 years ago.

There are always different concerns. My State has probably one of the highest rates of gun ownership in the country. It has, I think, the second lowest crime rate in the country, proving that simply having guns does not mean increased crime is a necessary corollary. We have virtually no gun control laws and we have the second lowest crime rate in the country.

That does not address the reality in a lot of our cities. I know that people in this country, a country that should be the most free and is the most Democratic Nation on Earth, walk in fear day by day. I know that there is not a Member in this Chamber who dares walk out of here and go 5 blocks when we leave this session as we often times do at midnight or 1 a.m. There is not a Member of the U.S. Senate who would dare walk five or six blocks from the U.S. Senate by themselves late at night without fear in their heart. Time and time again we leave here at 1 o'clock in the morning. We leave and our cars are usually parked at the foot of the steps of this Capitol. We walk down well-lit steps with police officers standing there, get in the cars and drive home. We have an awful lot of staff members, men and women, who do not have that luxury, and they walk out of here in fear.

What is this country coming to? This is the Nation's Capitol. It is a symbol of democracy for the whole world. We need to get our house in order. We are not going to get our house in order by symbolism. We are not going to get it in order by rhetoric. It is going to take long, tough, difficult steps.

This crime bill has a number of those long, tough, and difficult steps. But I am afraid that some of us are not resisting the temptation to so load it down with symbolism that we ruin the chance to do something about crime in this country. Some of us are more interested in one-upmanship and symbolism than we are in substance.

Stop the rhetoric. Face the reality. That is what we should do. We should trim out a lot of the Federalized crimes. We should direct resources where they will do the most good. We should understand that we have a failing family structure in this Nation that is being ignored, is being ignored by our schools, by our homes, by our churches, by ourselves. And no matter what we put in the crime bill, it will not do any good until we face that.

We have to understand that we cannot seek the lowest common denominator in our schools but the best in our schools.

We have a lot of steps beyond this bill. Of all the speeches we might give here, all the chest pounding we might do, and all we say we are doing to make this country strong, I would ask only this question of every Senator: If you leave here at 1 o'clock in the morning, do you want to walk to where your car is if it is five blocks from here?

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Chair recognizes the Senator from California [Mrs. BOXER] for 5 minutes.

Mrs. BOXER. Mr. President, I thank the Chair very much.

I thank my colleague and my friend from Maryland, Senator MIKULSKI, for allowing me to proceed ahead of her.

Mr. President, if you would indicate when the 5 minutes are about to approach, I will wrap up.

THE CRIME BILL

Mrs. BOXER. Mr. President, while we are waiting for an agreement on how to proceed on the crime bill, I wanted to make some comments about what occurred last night when the Senate failed to table the Feinstein amendment which would ban certain types of assault weapons.

I want to state how proud I am of the Senator from California, my senior Senator DIANNE FEINSTEIN. She refused to get beaten down. She never gave up on the fight to ban these weapons, even though, believe me, many were saying to her this a futile effort.

She made a bill that was acceptable to enough of us. And the guns that are banned in that amendment are guns that can kill a lot of people fast. They are not guns for hunting, not guns for protecting one's own home, but basically they are guns that are turning our country into the killing fields.

Now, there may or may not be an agreement forthwith on the Feinstein amendment. I hope there is, because I know that amendment will now be agreed to, and the message will be clear that we intend to bring peace back to our streets, our roads, our homes, and our schools.

Mr. President, we need that message to go out from this beautiful Chamber.

I want to take just a couple of minutes to talk about some amendments that I hope will be offered to this bill and, if not to this bill, if there are other ways we can move these amendments forward. I want to speak very briefly about them.

First of all is the clinic access bill, which is very important. We have people who are exercising their constitutional rights going to birth control clinics and health clinics being abused, being hurt, being stopped from exercising

their constitutional rights, being stopped.

So this bill is very important. I am working with Senator KENNEDY and my other colleagues on it.

I want to talk about the fact that today in about 37 States you can find someone's license number, see it on his or her car, call up the motor vehicle bureau and find out the personal name and address of that driver. This is a real problem. Many people do not even know this is the case.

In California, Rebecca Shafer, an actress, was slain because someone found out her home address. This is something that we need to take up. I have a lot of support for this amendment. I hope to offer it, if possible. I have, I believe, a very good solid majority here for that.

In addition, I do not even think people understand that the DMV [department of motor vehicles] sells your name to marketing firms and that is why you get so much junk mail at home. They know lots of things about you, I say to my fellow Americans, that you think they do not know.

And under our amendment, you would be able to opt out and tell the DMV you no longer want that information sold. So I am very hopeful we can get that amendment up.

Very quickly, I have an amendment which would stop gun license tampering. We have people who apply for one kind of gun license and then they wind up forging the documents, and it is a very dangerous situation. I have a lot of support from the Department of the Treasury that regulates guns. They say, "In our experience, falsified licenses are being used to make large purchases of firearms for illegal resale." I hope to have an opportunity to offer that amendment.

Last, we have an amendment that would increase the penalties for those who forge documents of illegal immigrants. And that is a very important issue.

In closing, Mr. President, this crime bill is going down a very fast track. Should it close down, I hope we are going to have other opportunities to offer these amendments.

And I wanted to make one point more. Not only do we pass laws here that are important—this crime bill is very important—but people in the private sector are doing some good things. Bass Tickets in San Francisco is offering two free tickets to any bay area show to anyone who is willing to trade in a gun. So we have the private sector that is getting the message—too many guns; we have the U.S. Senate that is getting the message—too many dangerous assault weapons; and I am proud to be part of this debate.

Again, I want to thank my colleague, my dear friend, the Senator from Maryland, for allowing me the chance to precede her in this free time that we have here today.

I yield the floor.

Ms. MIKULSKI addressed the Chair.

The PRESIDING OFFICER. The Chair recognizes the Senator from Maryland [Ms. MIKULSKI].

Ms. MIKULSKI. Thank you very much, Mr. President.

Mr. President, I rise today to add my strong support as a cosponsor to the Violent Crime Control and Law Enforcement Act of 1993.

We can not tolerate any more what is happening on our streets. Children in our cities are hostages in their own homes. Kids in Baltimore are afraid to play jacks on their white marble steps or to walk out after dark to go to the library.

We cannot continue to turn the other cheek when a nun is raped and strangled to death in her own convent. Or a mother is beaten to death in the home she grew up in. Or a 10-year-old is killed in a drive-by shooting.

We have to find a way to contain crime and help those who practice self help. We have to find and hold up those innovative ideas that say yes to those who say no.

Our communities are living a fragile existence. We can not tolerate a proliferation of violence.

My principles for fighting crime are: prevention; police; and punishment.

First, prevention: what are we doing to prevent crime?

What are we doing to prevent women from the horror of being raped?

We need to support rape prevention, rape shelters and crisis centers. We have to eliminate this fear. Mothers and daughters going to the grocery store shouldn't have to fear the terror of rape.

We need to make investments in our youth before the trouble begins. That is why we should get boys and girls clubs going in public housing projects and support the midnight sports leagues. These are the positive programs that make a difference.

For many young people in our cities today, gangs are the only option if they want a social life—or want to feel like they belong. We need to show there are other things to do.

We also have to prevent nonviolent offenders from getting into more trouble. The way to do that is to promote boot camps.

Maryland's boot camp in Jessup teaches standards and responsibility. I support the boot camp concept for non-violent offenders.

These are not the cop-killers or the drive-by shooters, but young adults who have committed burglaries or gone the wrong way with drugs.

These young adults at the boot camp: Wake up at 5 in the morning—go through calisthenics and drills;

Weed roadsides and clean public places; and

Deal with a drill sergeant in their face.

These military style boot camps help them gain discipline and a sense of responsibility and self-esteem. If they can survive the boot camp, they will have the confidence to accomplish anything.

In Maryland, more than 800 offenders have graduated from the Boot Camp Program. Graduates of the Boot Camp Program are 50-percent less likely to return to prison than other inmates.

Second police: Any crime bill should increase police officers on the streets. We need to get police—out of patrol cars; out from behind desks and the piles of paper; and put them back on the streets.

Budget strapped police departments across America focus sending their uniformed officers out on 911 calls. They should have the resources to contain and prevent crime.

That is what community policing does. It brings the high tech police forces of the 1990's into the community to be high touch. And it is going on in Maryland.

In Silver Spring, police officers located in the urban business district patrol the community on bicycles. In Baltimore, police are walking the beat, getting to know their neighbors, and empowering people to speak up and prevent crime before it happens.

We have to support new and innovative approaches to policing. This bill will put 100,000 more community police officers on the street to:

Solve problems before they become violent;

Get people involved in their community and encourage them to speak up about where the thugs hang out; and

Gives kids a chance to be friends with the local cop instead of the local drug dealer.

Finally punishment: We must make sure violent criminals are put away and serve their time. This bill will do that.

We have to make sure our penal system receives the respect it deserves, so criminals do not disregard it because they know they will be out the door as soon as they walk in.

Punishment should be swift and certain. And we should increase penalties for repeat violent offenders. Take a tougher stand on those dealing in illegal firearms. And enhance the Federal penalty for those dealing drugs near public housing. This bill does all those things.

We need a strong response to crime. We need to provide real resources that will make a difference.

And we need to stop the tolerance of violence that has led to a war zone in our cities and suburbs.

DEDICATION OF VIETNAM WOMEN VETERANS MEMORIAL

Ms. MIKULSKI. Mr. President, while we are talking about crime on our

streets and those things that give Americans pause and even fear, I think on the eve of Veterans Day we should remember those things about our country that give us pride, give us energy, and renew our sense of patriotism and a sense of duty.

And that is why tomorrow, as we celebrate Veterans Day, I want to express my gratitude to all those who served so valiantly, especially for those who gave the ultimate sacrifice or those who bear the permanent wounds of war.

There will be a special event that occurs tomorrow. On this Veterans Day 1993, we will celebrate a special event to commemorate one of the forgotten chapters in our recollection of Vietnam—the American Vietnam women veterans. Tomorrow we will unveil and dedicate the Vietnam Women Veterans Memorial, an event which is long overdue.

I recall the distinguished Senator from Colorado, presiding today, was one of the first Galahads in the House of Representatives to support the cause of the Vietnam Women Veterans Memorial. And today at lunch, the women who served in Vietnam paid tribute to the Senator for his support for not only their statue but their cause.

I, too, am one of the cosponsors of the authorizing legislation for this memorial. I am honored to be part of this celebration.

After a decade of planning and fundraising and hearings and congressional legislation, this memorial is finally ready. At long last, we will pay a tribute to the unsung heroes of the Vietnam war—the women who served there and the civilian women who risked their lives there.

Later on, within the next year or so, there will be a memorial in Arlington to all of the women who served in all of our wars—the Revolutionary War, the Civil War, the Spanish-American War, World War I, World War II, Korea, Vietnam, and Desert Storm.

Tomorrow, however, we will give special thanks to those who served in Vietnam. There are 265,000 American military women who volunteered during that era. Eleven thousand of them went to Vietnam. Eight of those women lost their lives in the service of their country.

These valiant women were there to save lives. They were nurses, lab technicians, physical therapists—mostly in medical tasks. They nursed the sick, helped the injured to heal, and for the dying, they were often the last comfort.

But for our women vets, the numbers of men on the wall would be far greater.

History operates in some unique ways. We entrusted our women vets to take care of our boys in Vietnam. And how ironic that, two decades later, it is a woman U.S. Senator who has been entrusted to oversee the appropriations of the Department of Veterans Affairs.

As the Chair of the VA, HUD, and Independent Agencies Appropriations Subcommittee, I believe our country's commitment to veterans, both men and women, should be measured not by words but by deeds.

As the scripture says, "Not by their words but by their deeds shall you know them."

There is a Latin phrase—and you do not have to write it down—that says: Exegi monumentum aere perennius.

The translation is: We must work to build a monument more lasting than bronze.

And that is what we need to do for America's vets, both men and women, who served in the Vietnam war.

I believe that, as we have our statues, we also need to show a monument more lasting than bronze in the services that we provide American vets, and particularly VA medical care.

A special recognition needs also to be provided to women Vietnam vets. Our women Vietnam vets have served many of the same agonies as did the men—whether it was posttraumatic stress or exposure to Agent Orange.

But, as a group, these women have never been given due recognition.

Until recently, the Department of Veterans Affairs had not had a good record in treating women vets. While there are 1.2 million women veterans in the United States of America from all of our wars, only 78,000 of them use VA hospitals. Why? Because up until recently and up until the Clinton administration, VA hospitals were simply not user friendly to the women.

That is why I added \$11.5 million to the VA budget over the last 2 years for programs for women vets—counseling for sexual trauma, the purchase of supplies and equipment unique to the biomedical needs of women; adding \$16 million to construction of privacy facilities for both acute-care services and long-term services.

And we have also directed the Department of VA to ensure that the quality of care for women be as good, if not better, in the private sector.

These gallant women who served there can continue to count on me to fight for this funding, as do the men who served in Vietnam. They, too, will know that as we move to new health insurance reform, we are going to make veterans care the best of the best.

Tonight, women who served in Vietnam are gathering in Washington. Tomorrow, they will march down Constitution Avenue. They will be joined by people like yourself who served and supported them.

Later on, tomorrow night, there will be a vigil. And when we participate, I hope we think of a Vietnam nurse name Dusty.

Dusty did two tours in Vietnam, from 1966 to 1968. What kept her going was that she thought she could make a difference.

She comforted a dying soldier by the name of David and she wrote a poem to his honor, which she left at the Vietnam Memorial. She said:

Hello, David—
My name is Dusty.
I'm your night nurse.
I will stay with you.
I will check your vitals every 15 minutes.
I will document inevitability.
I will hang more blood and give you something for your pain.
I will stay with you and will touch your face.
Yes, of course,
I will write your mother and tell her you were brave.
I will write your mother and tell her how much you loved her.

Dusty went to Vietnam as a young nurse to care, help, and to heal the sick. She came home herself psychologically wounded. Today she is married to a businessman who has no idea she was ever a nurse or ever in Vietnam. I hope tomorrow she comes forward and maybe she, herself, will read for us the concluding part of her poem.

Despite all the facts and statistics citing the outstanding job the Army, Navy, and Air Force doctors and nurses did in Vietnam, many faced a hostile public when they came back. Some nurses in uniform at U.S. airports were even spat upon by war protesters while waiting for their flights home.

For some heroines of care and healing like Dusty, it has taken more than 20 years to ease their painful nightmares and raise their hopes and ease their sufferings. In the final segment of her poem to David, Dusty wrote this:

Goodbye, David—my name is Dusty.
I'm the last person you will see.
I'm the last person you will touch!
I'm the last person who will love you.
So long, David—my name is Dusty.
David, who will give me something for my pain?

Tomorrow, when we dedicate the Vietnam Women's Memorial, I hope we give Dusty and a quarter of million others who served, something for the pain.

Mr. President, tomorrow, as we have on every Veterans Day since we celebrated the World War I Armistice at the 11th hour, on the 11th day, in the 11th month, a grateful nation will give thanks and honor to the men and women who have fought to preserve our democracy and our way of life for more than two centuries—America's veterans.

To all those who have served so valiantly, especially for those who made the ultimate sacrifice, they have my thanks and those of all Americans.

On Veterans Day 1993, however, we will celebrate a special event to commemorate one of the forgotten chapters in our recollection of Vietnam—America's Vietnam women veterans. We will unveil and dedicate the Vietnam Women Veterans Memorial—an event which is long overdue.

As one of the cosponsors of the authorizing legislation for this memorial,

I am honored to be a part of this celebration. After a decade of planning, fundraising, hearings, and congressional legislation, this memorial is finally ready. And at long last we pay tribute to the unsung heroes of the Vietnam war.

We should give a special thanks to those women who served in Vietnam, particularly Diane Carlson Evans and Diana Hellinger, and the other members of the Vietnam Women's Memorial project, who kept the dream alive for this memorial.

Despite the skepticism and the controversy over whether or not such a memorial should even be built, they kept their rudder steady, and their ship on course. They should be so proud of your remarkable accomplishment.

There were 265,000 American military women who volunteered to serve during the Vietnam war. Eleven thousand of them went to Vietnam. And eight of our sisters lost their lives in service to their country.

These valiant women were there to save lives. They were the nurses, and technicians, and physical therapists—mostly in medical tasks.

They nursed the sick, helped the injured to heal, and for the dying were often the last comfort as they left this world for the next.

But for our women vets, and number of names on the wall would be far greater.

History always operates in unique ways. We entrusted our women vets to take care of our boys in Vietnam. And how ironic that two decades later it is a women U.S. Senator who has been entrusted to oversee the budget and operations of the Department of Veterans Affairs.

As the Chair of the VA, HUD and Independent Agencies Appropriations Subcommittee, I believe that our country's commitment to veterans, including our sister veterans, should be measured not by our words, but by our deeds.

As the Scriptures say, "Not by their recent words, but by their deeds shall ye know them."

So as we celebrate this new testament to our women Vietnam veterans, those of us in Congress must work to build a monument more lasting than bronze.

Our women Vietnam vets have suffered from many of the same agonies as did our boys in combat—whether it was posttraumatic stress disorder or exposure to agent orange.

And as a group, these women have never been given due recognition.

Until recently, the Department of Veterans Affairs has not had a good record in treating women vets. While there are 1.2 million women veterans, only 78,000 of them use the VA hospital system. And this is primarily because VA hospitals are simply not user-friendly to women.

That is why I added \$11.5 million to VA's budget over the past 2 years for programs for women veterans. This includes counseling for traumas like sexual abuse, and the purchase of unique supplies and equipment.

We also added \$16 million this part year for the construction of privacy facilities within VA hospitals to accommodate the unique needs of women.

We have also directed the Department to ensure that quality of care for women veterans is at least as good as—if not better than what is available in the private sector. Until my subcommittee intervened, when a women vet went to a VA hospital for a pap smear or a mammography, the VA did not have to make sure its lab testing standards equaled those the Department of Health and Human Services required of other hospitals.

And these women can count on me to continue fighting for additional funding and legislation to make further improvements in the care of women veterans, including in particular critical preventive care programs like mammographies.

I believe our new Secretary of Veterans Affairs is taking steps to improve the care women receive in the VA, and I commend him. He has shown a sensitivity to the needs of women veterans and the women who work in the VA system, and for that we should all be grateful. I think he would tell you that his own awareness is shaped in some small part because of the nurses who helped him in his own recovery from the wounds of war.

Finally, I am proud to say that I am a cosponsor of the Vietnam Women's Memorial Coin Act, upon which I hope the Congress can act in the 103d Congress.

It is with great excitement that I anticipate attending the dedication of the Vietnam Women's Memorial tomorrow. It will give our Nation a chance to say hats off to all those fine women who helped make the end of the cold war possible.

And it should renew in this Senate and the entire country a commitment to provide for our women vets by what we do for them, not just what we say about them.

Without these brave women, our great Nation could not have paved the way for democracy across the globe. We are proud of them—because they were there when our boys needed them. Let us hope we are there for them when they need us.

Mr. President, I ask unanimous consent the article from the Retired Officer magazine containing Dusty's poem be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Retired Officer magazine,
November 1993]

HEROINES OF HEALING

(By Col. Henry J. Pratt, USAR-Ret.)

In high school, her nickname was Dusty, and she loved taking science classes that allowed her to work with test tubes and use chemistry lab reference books. Dusty's guidance counselor suggested the bright teenager continue schooling and become a science librarian. But Dusty joined the Army and became a nurse. Because she got grade promotions earlier than usual, she was a registered nurse and in Vietnam by the time she was 21 years old.

Dusty did two tours in Vietnam from 1966 to 1968. What kept her going then—and what helps a little now—is the knowledge that she made a difference. She was a skilled, caring and dedicated nurse.

David is the soldier Dusty remembers most. Years after her Vietnam nursing experiences, she wrote a poem about this 19-year-old serviceman who died in a combat hospital thousands of miles from his home and family. The poem was found one day at the Vietnam Veterans Memorial in Washington, D.C. Anonymously she had penned:

Hello, David—

My name is Dusty.

I'm your night nurse.

I will stay with you.

I will check your vitals every 15 minutes.

I will document inevitability.

I will hang more blood and give you something for your pain.

I will stay with you and will touch your face.

Yes, of course.

I will write your mother and tell her you were brave.

I will write your mother and tell her how much you loved her.

Dusty went to Vietnam as a young nurse to care, help and heal, but she came home so psychologically wounded herself that to survive, she changed her name, her profession and her past. Today, she is married to a businessman who has no idea his wife was ever a nurse, ever in the Army or ever in Vietnam.

Nursing the sick, wounded and dying GIs in Vietnam was very different than in the earlier wars, World War II and Korea. Formally established front lines were absent, creating a myriad of problems. Among them was the fact that GIs frequently didn't know who or where the enemy was.

Lethal mines, high-velocity missiles and treacherous booby traps often caused multiple wounds that required multiple amputations. The swift and efficient medevac helicopter, which transported the wounded from firefights to hospitals where there were doctors and nurses, became both a curse and a blessing.

Official figures show that about 11,000 U.S. military women, all volunteers, were stationed in Vietnam during the war. Ninety percent were nurses in the U.S. Army, Navy and Air Force. Other American women served in Vietnam as doctors, physical therapists. Medical Service Corps personnel, air traffic controllers, communications and intelligence workers and clerks.

More than a quarter of a million women served our country during the 12 years of the Vietnam War. Thousands were stationed in Japan, Guam, Hawaii, the Philippines or at stateside hospitals. Many Navy women served off-coast on the *USS Repose* and the *USS Sanctuary*.

In March 1962, the first contingent of 13 nurses was assigned to the 8th Field Hospital in Nha Trang, located in South Vietnam's

eastern-central region. It was the only U.S. Army hospital in-country for three years, and the unit's medical experiences helped set precedents for other treatment facilities that followed. Then came the big buildup in 1965, beginning with the 3rd Field Hospital, Saigon. Following the 1968 Tet offensive, the number of nurses sent to Vietnam increased gradually as the buildup of troops continued, with the U.S. Army Corps reaching its peak strength of 900 in 1969. By March 1973, the last nurses had departed the Republic of Vietnam, two months after the cease-fire.

The weapons used to kill, as well as the sites where many GIs were injured—in rice paddies and along waterways where human and animal feces were common—made Vietnam a "dirty war," wrote MGen Spurgeon Neel, former U.S. Army deputy surgeon general, in his book, "Medical Support of the U.S. Army in Vietnam, 1965-70." "Yet, helicopters were able to evacuate most casualties to medical facilities before a serious wound could become worse," says Neel. "There were practically no conditions under which the injured were denied timely evacuation; all were surmounted by the capabilities of the air ambulances and the skill of their crews."

A string of field and evacuation hospitals stretched from Camp Evans near the demilitarized zone to the swollen rice paddies around Can Tho. Each of the hospitals had a nursing staff on hand to receive soldiers directly from battle areas and treat them until they could return to duty or be air evacuated to Japan or the continental United States (CONUS).

According to Neel, the Vietnam War produced the most critically wounded soldiers ever to survive evacuation to in-country or mainland hospitals. Still, despite the incredible efforts of hospital staffs, many GIs died. Those who survived endured months and even years of reconstructive surgery and rehabilitation.

The war killed more than 58,000 Americans. Their names are on the Vietnam Veterans Memorial wall in Washington, D.C. Another 350,000 service people were wounded. Among the wounded are some 75,000 permanently disabled veterans, many of whom are amputees living in wheelchairs today.

Nurses who served in Vietnam say coping with the fear and the unforgettable sights of blood and multiple amputations was a way of life. Like the soldiers they treated, nurses could die from sudden gunfire, land mines triggered by motor vehicles, a chopper crash or, more slowly, from a variety of rare diseases.

To cope, nurses, like combat troops, practiced what psychiatrists call "persistent denial," convincing themselves they would never be killed or injured. Denial helped make life in Vietnam at least marginally tolerable. Nurses worked 12-hour shifts, six days a week at most hospitals. Some nurses said they didn't mind all the work because it helped time go by faster. It also helped the denial process.

What was life like in an Army evacuation hospital? The 93rd Evac, located near Long Binh, was unique in design, says Evangeline Jamison of Walnut Creek, California, who served there as chief nurse in November 1966. The 93rd Evac was the only medical facility in Vietnam shaped in the form of a cross, with four Quonset huts forming each wing and a nursing station in the center.

Living arrangements at the 93rd Evac were primitive, particularly in the early war years. The hospital was staffed with about 60 nurses, who wore fatigues both on and off-

duty. The nurses slept in bunk beds in their Quonset huts.

Lack of air conditioning and an average daytime temperature of more than 100 degrees made sleeping difficult, especially for those who worked on the night shift. Bathroom facilities consisted of a crude shower and outdoor toilets. Everything was covered by the ubiquitous Vietnam dust and later, during the monsoon season, by a sea of mud.

With little off-duty recreation available, nurses would head for the officers club, where lonely soldiers begged them to talk and dance. This distraction worked for a while, but most of the nurses, who were already exhausted, soon sought rest and stayed away. Loneliness and boredom contributed to another tragedy of the war, some nurses became hooked on drugs or alcohol.

Obtaining personal items, especially feminine care items, was never easy or convenient for nurses stationed deeper in-country. In Pleiku, which was the supply line's end, the nurses with the 71st Evac never did get the tampons they ordered.

Hourly or daily, depending upon the hostility level, hundreds of patients flooded into these treatment facilities. Injured and seriously ill GIs were choppered in, often just barely breathing and with arms or legs torn off, jaws or eyes missing, backs broken or with big holes in their chests and stomachs.

During these emergencies, nurses had to pitch in among the pools of blood and perform duties usually performed by physicians. Nurses became adept at triage, inserting chest tubes, doing tracheotomies, debriding wounds and closing up patients after an operation so the surgeon could proceed to the next wounded person.

Neel found that between January 1965 and December 1970, there were 133,447 wounded admitted to medical treatment facilities in Vietnam, and of these, 97,659 were sent to hospitals. The hospital mortality rate for this period was 2.6 percent, compared to 4.5 percent in World War II and 2.5 percent in Korea.

"The very slight increase in hospital mortality in Vietnam over Korea," says General Neel, "was a result of rapid helicopter evacuation, which brought into the hospital mortally wounded patients, who, with earlier, slower means of evacuation, would have died en route and would have been recorded as killed in action."

Despite all the facts and statistics citing the outstanding job that our Army, Navy and Air Force doctors and nurses did in Vietnam, many faced a hostile public when they came back. Some nurses in uniform at U.S. airports were even spat upon by war protesters while waiting for their flights home. For some heroines of care and healing, like Dusty, it has taken more than 20 years to erase their painful nightmares, raise their hopes and ease their suffering.

In the final segment of her poem to David, Dusty wrote:

Goodbye, David—my name is Dusty.

I'm the last person you will see.

I'm the last person you will touch.

I'm the last person who will love you.

So long, David—my name is Dusty.

David, who will give me something for my pain?

[From the Retired Officer magazine,
November 1993]

HONORING VIETNAM'S WOMEN VETERANS

This month, many Vietnam women veterans, along with other women who served in-country, are finally receiving the respect and recognition long due them. On November 11,

Veterans Day, the Vietnam Women's Memorial will be dedicated in Washington, D.C. Twenty years after the Vietnam War ceasefire, a grateful America is finally honoring its sister veterans—the women whose skill, caring and dedication helped save lives.

Designed by noted sculptor Glenna Goodacre of Santa Fe, New Mexico, the bronze memorial statue depicts three female nurses, all wearing combat fatigue uniforms. One cradles a wounded male soldier. Another nurse kneels in shock and disbelief over the horror of the war, and a third nurse looks skyward for a medevac helicopter.

The memorial stands directly across from the wall—the Vietnam Veterans Memorial. Designed by Maya Lin and dedicated 11 years ago, the wall contains the names of more than 58,000 war dead, eight of these names are of women nurses.

Near the wall is a statue by Frederick Hart, added in 1984, showing three infantrymen in Vietnam. While it is an emotionally powerful monument, it didn't speak for, recognize or honor the women who also served.

Then, in 1983, Vietnam veteran Army nurse Diane Carlson Evans of Northfield, Minnesota, came up with an idea for a memorial honoring women who had served in the war. Evans knew that if women had not served well in Vietnam, many more thousands of names of dead GIs would be on the wall.

Thousands of GIs in Vietnam died with a woman nurse beside them. For many, a gallant, brave and caring nurse was the last person they saw. Thousands more men, among the 350,000 who were wounded, were saved by a nurse's prompt, skillful and concerned medical treatment.

Evans has worked tirelessly and without pay on the memorial project for the past 10 years, while raising her family, in an effort to gain recognition, for the gallant service performed by women in Vietnam. In addition to those who were nurses, an unspecified number of civilian women worked for the American Red Cross, as news correspondents, with the United Service Organizations (USO), the American Friends Service Committee, the Catholic Relief Service or other humanitarian groups. Evans' efforts won the support of every major U.S. veterans group, governmental commissions, Congress and President Ronald Reagan, who, in 1988, signed a bill authorizing the building of the Vietnam Women's Memorial.

To Evans, having the Vietnam Women's Memorial dedicated on Veterans Day is a dream come true. With the memorial's dedication, thousands of brave, skilled and caring women who served in Vietnam will be honored at last, and we will be one step closer to the healing of our nation.—H.J. PRATT.

The PRESIDING OFFICER (Mr. KERRY). The Chair recognizes the Senator from New Jersey [Mr. BRADLEY].

Mr. BRADLEY. Mr. President, I would like simply to compliment the Senator from Maryland for her eloquent statement. It is a very important event tomorrow and I think she has commemorated it with her usual strength, integrity, and sincerity.

NAFTA

Mr. BRADLEY. I do not know how many million Americans watched Vice President GORE and Ross Perot debate the North American Free-Trade Agreement last night but my guess is it was

a considerable number, well into the millions. Immediately after the debate, there was a quick CNN poll where a vast majority supported the view that the Vice President made his points rather decisively and effectively. And I agree with that poll.

During the last couple of days, I have spoken on the floor of the Senate to state why I think the North American Free-Trade Agreement is enormously important to the future of our country. Two days ago, I talked about how it will generate jobs in the manufacturing sector and in the service sector. I talked about the 60,000 autos that will be sold in the first year as opposed to the 1,000 autos that were sold just last year. I talked about the tremendous demand for capital equipment on a continuing basis. I talked about the need for all sorts of small manufactured exports that will flow to Mexico.

I also pointed out that the Mexican economy is only 23 percent manufacturing. It is 60 percent services. And with the North American Free-Trade Agreement, if it passes, we will finally be able to penetrate the service sector of the Mexican economy, a service sector that is not young people over a griddle flipping hamburgers as opponents of this agreement would have us believe, but is everything from construction to transportation to the export of pharmaceuticals, computer software, film distribution, civil engineering, oil drilling, power equipment, and powerplants. All of these will be open, now, for U.S. exports.

On the section that is manufacturing, it is quite understandable. The reality is that United States companies have already invested in manufacturing in Mexico. That is what we had to do in order to get access to that market. It was a closed market, 100 percent tariffs and nontariff barriers that effectively blocked the export of United States manufactured goods to Mexico. That is why there is a Ford Hermosillo plant; that is why there are other investments in Mexico by the manufacturing industries of this country.

But with NAFTA, that will not be necessary. In an automobile market where, last year in Mexico, they bought 750,000 autos—people say they do not have any money down there to buy the goods. Last year they bought 750,000 autos. By the end of this decade it will be a million autos. And they do not have the capacity to meet that demand in Mexico. That means that over a long period of time, there will be a dramatic increase in the export of automobiles and vehicles. The reality is that the North American Free-Trade Agreement will generate jobs in the manufacturing sector; it will generate jobs in the service sector.

I pointed out in an earlier speech this week, one industry—just one pharmaceutical company—said they will increase jobs by 800 to 1,000 if this passes,

because of intellectual property guarantees in Mexico that do not now exist. In other words, you cannot counterfeit a drug. If you invented a drug, you sell it, you get the credit. If you produce the drugs in the United States, you export them to Mexico.

The same thing with film distribution; the same thing with the fastest growing export we have in the export market, computer software.

Right now, the energy industry of Mexico is basically a closed industry. Under this agreement we will be able to invest in oil drilling, we will be able to invest in natural gas. The result will be that Mexico will produce more oil and more natural gas. When they produce more oil and more natural gas, they will have more to export to the United States. The result will be we will be less dependent on insecure sources of oil in the Persian Gulf and we will be able to get our oil from our neighbor to the south because of the North American Free-Trade Agreement.

There is also a fundamental misconception on the issue of jobs out there. That is, it is widely recognized that all exports generate jobs. But it is not true that all imports subtract jobs. Think a minute about the product I was just speaking of—oil. We import 750-800 million barrels of oil on an annual basis. We import that oil. That is counted as an import from Mexico in the trade figures, imports subtracted from exports. But these imports do not cost American jobs. In fact, they fuel American jobs, literally, by giving us more oil to use in our industrial machinery.

At the same time, an import that comes into the United States does not just come to the dock or airport and stop there. There have to be people employed in America to distribute it, to market it, to sell it. The reality is, therefore, that the notion that you can tabulate jobs by simply subtracting imports from the exports is wrong. The reality is, exports always produce jobs, but imports also produce jobs. The net balance out of this is that more jobs will be produced—more net jobs will be produced with the North American Free-Trade Agreement than without it in both the manufacturing sector and in the service sector.

Yesterday I talked about why I thought this was a historic moment, why this was a legitimate moment to analogize with Thomas Jefferson's decision as to whether to purchase Louisiana or not, or Lincoln and Johnson's decision as to whether to purchase Alaska, or Harry Truman's decision as to whether to reject isolationism and embrace the world economy and try to structure it so we can have an increase in world trade across the board. All of those decisions required vision. All those decisions affected the kind of country that we are. All of those decisions were not easy when they were

made. Whether it was Thomas Jefferson or Lincoln and Johnson or whether it was Harry Truman, they saw the historic moment for what it was and they made the decision. The result is that we are a better country today because of it.

We are a continental power, we have an enormous Alaska as a State of the Union. We have structured a world system of trade and finance that has produced the highest standard of living for the greatest number of people in world history.

That now brings us to today's comments.

I want to address what happens if the North American Free-Trade Agreement is rejected next Wednesday when the House of Representatives convenes.

First, let me suggest that the rejection of the North American Free-Trade Agreement by the Congress of the United States will be viewed around the world as a self-destructive act. It will be viewed by our partners in Europe, in Japan, the developing world, Latin America as a self-destructive act. It is so much in our interest to pass the North American Free-Trade Agreement that when the United States, as the world's greatest power, does not take an action which the rest of the world perceives to be so clearly in its interest, it has ramifications.

There was a time before when we made that mistake. That was back in the early thirties when we passed Smoot-Hawley. Precisely at the time of the depths of the Depression, we decided we would cut off trade with the world. The connection is the rest of the world could not understand it because precisely at the time where Britain and the world economy was no longer able to hold things together, the United States, by the passage of the Smoot-Hawley tariff, chose not to hold things together, chose not to expand, chose not to think of the future, but only that moment. It led to a broader and deeper depression.

So make no mistake, Mr. President, the world will view a vote of "no" on NAFTA next week as a self-destructive act. It will also have more real ramifications for the President of the United States, President Bill Clinton. I believe if the North American Free-Trade Agreement is defeated next week, it will damage his ability to lead in the world; I think it will damage his ability to deal with Congress; I think it will damage his chances for reelection in 1996.

I believe that if the North American Free-Trade Agreement is defeated, that in the month of December, when we are supposed to be completing the GATT trade round, the agreement worldwide, multilateral trade agreement, that either we will not get any agreement or the agreement we get will be less than we could have gotten. The French will not really put on their table what their

final offer is in agriculture. The Japanese will not put on the table what their final offer is in agriculture. We will end up with less of an agreement than we could have gotten. The result will be less trade worldwide and the result at home will be fewer jobs in the export sector.

That will have a direct impact on the President's promise to create 8 million jobs by 1996. As I said, I also think it will damage the relationship with Congress.

Last August, we had a big debate in the Congress about a budget. This was the make-or-break issue for the President of the United States. The reality is that if we had not gotten the budget last August, we would have probably stayed here during the August recess. We would have hammered out something. It would not have been the end of the world. There might have been more spending cuts, a little less tax increase, but we would have come up with some kind of budget. There would have been the next day.

That is not the case here, Mr. President. If the Congress rejects the North American Free-Trade Agreement, it is rejecting the moment when it is offered and there will not come another moment. I think that people have to understand the dynamics of Mexican politics in order to understand why that is so.

A friend of mine, one of Mexico's leading environmentalists, says this is the most historic event in Mexican history since the revolution, the NAFTA. And, indeed, I agree that this is the most historic event in Mexico since the revolution.

Since the revolution, Mexican politics have had an aura that was, shall we say, anti-American. They have sided frequently with the Cubans in the United Nations; they voted against us on many different measures. They had a knee-jerk reaction and, yet, if you are ever in Mexico City, I urge people to go to the Museum of Intervention where they describe all the times the United States intervened militarily in Mexico's affairs. You can say, maybe it was not so irrational, that attitude. But clearly it existed. That ended in the mid-1980's with President de la Madrid and was accentuated and furthered under the leadership of President Carlos Salinas and, for the first time, the Mexicans reached their hand north to the United States and offered a hand of partnership.

If the United States rejects this agreement, it is essentially turning its back on Mexico, looking down at Mexico. It is essentially saying that we reject this once-in-a-century offer by the leaders in Mexico. I believe that would have a tremendously damaging impact. There will be a Presidential election next year in Mexico. A rejection of NAFTA would mean a different kind of Presidential candidate, probably one

much more nationalistic. Clearly in the middle of a Presidential election, there could not be a renegotiation of NAFTA. In my view, it would structure things negatively for the United States-Mexican relationship for the foreseeable future. If it goes down, I hope it will not be that way forever, but it clearly would be for the foreseeable future.

In addition, Mr. President, a rejection of the North American Free-Trade Agreement would send a message that ripples all the way through Latin America, where for the first time since the end of the 19th century, liberal democracy has triumphed, liberal democracy means respect and openness for democracy. It also means open markets; it means a robust private sector; it means seeking worldwide investment; it means seeking to export and accepting imports.

For the first time since the end of the 19th century, Latin America has now essentially opted for this model. It is for better or worse—and I think for better—the American model, and Mexico is the best example of a society that transformed itself. For those of us, for example, in this body who huff and puff about cutting spending, under President Salinas, Mexico has cut spending the equivalent of three Gramm-Rudmans in 4 years. We have not been able to get through one in 5 years. It has opened its markets. It has restored some credibility to its political process. It has a long way to go. In my view, it is not a full democracy yet, but there are two states that have non-PRI governors and it is making progress. Therefore, it is the best example of a leadership that is beginning to transform the country, according to the principles of open trade and liberal democracy, and the market is the allocator of resources.

If we reject this, that says, well, you have done everything we have ever asked of you, Mexico. We wanted you to deregulate, we wanted you to open your markets, we wanted you to allow foreign investment, we wanted you to stop subsidizing, et cetera, et cetera. You have done all that, but still, you are not going to be able to have a partnership with the United States.

What will that say to Argentina that also has taken this move in this direction, or to Chile which has taken a move in this direction, or to Colombia, or to Venezuela? It will essentially say to these countries: No matter what you do, we will always find something wrong where we cannot become partners because of what we find wrong.

So, Mr. President, if this agreement is rejected next Wednesday, it will be a self-destructive act widely perceived. It will affect the President's relationship with the world in terms of his ability to lead. It will produce a GATT agreement that is less than it otherwise

could be. It will damage his relationship with Congress, perhaps even damage his prospect for national health insurance, and it will damage his reelection prospect in 1996.

Mr. President, if it is rejected next week, my deepest regret will be for what that action has prevented us from accomplishing, and that relates a little bit to what I said yesterday. If we have the North American Free-Trade Agreement, we have a unique opportunity to be able to demonstrate how a great power leads in a post-cold-war world.

The problems of the Mexican-U.S. relationship, while unique, have some parallels elsewhere. Europe, for example, has countries to the east and countries to the south. Countries to the south are Moslem countries. In my view, it is unlikely that there will be any significant consolidation with Europe of those countries, for cultural reasons. Countries to the east are part of the Western tradition. What has Europe done? Europe has applauded the end of communism but has said, "We will accept none of your exports. Anything you can sell us, if you have comparative advantage, that is good, but we will not accept them"—the exact opposite of what the United States is proposing to do with Mexico.

I would argue that the lost opportunity, in defeating the NAFTA, would be the opportunity to lead the world by the power of an example that is rooted in pluralism and a Western tradition and rooted in optimism in liberal democracy and rooted in the hope that people can build a better life for themselves if they cooperate with each other and if they think of the future and not the past.

Not that people who oppose this agreement are not wise or are not caring people. Obviously, they are. They are just looking in the rear view mirror. They are looking in the rear view mirror, and they are seeing job loss for the assortment of other changes that I elaborated in the first speech 2 days ago—world markets, international competition, the knowledge revolution, the giant debt.

They see people losing jobs and say to themselves, "Well, we care about them." Of course, we care about them. We should do something for them. We should have health care for them; we should have lifetime education; we should have pension security. But we should not kill off the one hope that a lot of Americans have, and that is a job in the export sector. To defeat NAFTA would go a long way to killing off that hope.

So, Mr. President, I think next Wednesday is going to be a decisive day for this country. It will be a historic vote. If it passes the House, it will come to the Senate. We will have a lot of time to talk about the pros and cons of this issue. But as I think about the votes that I have cast in the Senate in

the last 15 years, I really cannot imagine a more important vote or a vote that will have a longer range impact on the nature of our society, the prospect for our children to have a higher standard of living, and our ability to lead the world by the power of our own example.

I yield the floor.

Mr. RIEGLE addressed the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. RIEGLE. Mr. President, I ask to speak as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. RIEGLE. I thank the Chair.

May I inquire as to how much time the Senator from New Jersey consumed?

The PRESIDING OFFICER. The Senator from New Jersey spoke for approximately 23 minutes.

Mr. RIEGLE. I thank the Chair.

NAFTA

Mr. RIEGLE. I wish to respond to several of the points that the Senator from New Jersey made because I feel very strongly that passage of the NAFTA will be terribly destructive to our country. It will be very damaging to the job base of America. I wish to cite some reasons why I hold that view.

Let me start with the New York Times today, the front page, where other Members of Congress from the very region of the Senator from New Jersey have examined this issue and have come to an entirely different view than the one he expresses. I certainly have respect for him and the view he holds. I just strongly disagree with it.

The headline on the story is "Democrats in New York Area Oppose Clinton on Trade Pact." It also talks about Republicans who oppose him as well. I just want to read a few paragraphs:

As evidence of the steep hill President Clinton must climb if he is to win congressional approval next week of the North American Free Trade Agreement, no Democrat in the New York, New Jersey and Connecticut delegations in the House of Representatives is committed to voting for it.

Three Democratic representatives—Floyd H. Flake, Nita M. Lowey of New York and Robert G. Torricelli of New Jersey—say they have still not decided which way they will go when the trade pact is put to a vote on November 17. But the other 25 Democrats in the three states are firmly opposed to the agreement.

The opponents include such normal Clinton loyalists as Representatives Charles B. Rangel of Manhattan, an influential member of the New York delegation, Charles E. Schumer of Brooklyn, who went out of his way to rally support for the President's budget last summer, and Rosa DeLauro of New Haven, whose husband, Stanley B. Greenberg, Mr. Clinton's pollster, is working hard on behalf of the agreement.

Now listen to this. I am continuing to quote:

The 22 Republican representatives from the three states are divided. Some conservatives

who usually advocate free trade are opposing the pact because they think their congressional districts would suffer. One example is Gerald B.H. Solomon who represents the Hudson River Valley from just north of the New York metropolitan area almost to the Canadian border.

Now listen to this:

The strong opposition to the measure in the New York region is somewhat surprising since many of the area's most important employers, including banks, brokerage houses, insurance companies, pharmaceutical manufacturers and publishing concerns, would indisputably benefit from improved trade with Mexico. Senator Bill Bradley of New Jersey, for one, emphasizes this point when he tries to round up votes for the measure.

I will put the rest of the article in the RECORD. Everything I just read is a direct quotation.

Let us go back to who the winners are. Banks, brokerage houses, insurance companies, pharmaceutical manufacturers and publishing concerns are the ones they cite here. It is not surprising to me that 25 Democrats—

Mr. BRADLEY. Will the Senator yield?

Mr. RIEGLE. Not just at this point, but I will when I have consumed an equal amount of time as did the Senator from New Jersey.

It is not surprising to me that every single Democrat in the House delegation that has taken a position, from the States of New Jersey, New York, and Connecticut, understand that NAFTA will be very damaging to their region of the country and to the whole country. So I have a very strong disagreement with the arguments that were made just a moment ago by the Senator from New Jersey, as do his colleagues, according to this New York Times story on the front page of the paper today.

Now, to the issue of a pluralistic society. We have a pluralistic society in America today, although I am afraid we are losing it. We are losing it to violence. We are losing it to a growth of the underclass, a breakdown of the social order, the grinding down of the middle class—not enough jobs for our people.

I have seen jobs by the thousands leave my State of Michigan to go to Mexico. Under NAFTA many thousands more will leave Michigan, New York, New Jersey, and other States to go to Mexico.

How do I know that? First of all, the economic hydraulics tell us that, if we are realistic about it, you cannot have a situation with these wage differentials where a Mexican worker is paid one-seventh on average of what an American worker is paid and not see these jobs migrate down to the low wage levels, the low environmental standards, the lack of enforcement of labor laws in the workplace, and other things of that kind.

We have seen it already. It is manifest. It is going to multiply the minute

these investment guarantees go into place that are so attractive to the bankers, the securities companies, and the others that are cited in this New York Times article today. Those are the economic elites. Yes, they are the winners under NAFTA. There are people who will carry their case for them. On the other side, the working people of this country are the losers under NAFTA because the number one export to Mexico if NAFTA passes will be American jobs, jobs that we desperately need in this country.

I want Mexico to do well, but not at the expense of this country. We are losing our own country today. We are losing our own pluralism because we do not have enough jobs for our own people.

Some have said, well, if we lose jobs to Mexico, we will put something new in place. We will have maybe an economic security platform. There is no money for an economic security platform. That is not provided for in the NAFTA agreement. There is no program that is going to provide a guaranteed job at the same wage, or hopefully even a better wage, for somebody who loses their job to Mexico. There is nothing proposed along that line.

This is an agreement where the elite of this country, the economic elite who stand to gain, have taken a position directly against the working people of this country.

It is just that plain. It is wrong. People who look at it for any length of time understand it. No other country has ever gone into a free trade agreement with a bordering nation where the standard of living and the labor costs are as low and as vastly different as they are from ours.

When Turkey wanted to come into the Common Market with Europe, with differentials about the same as between ourselves and Mexico, they were turned away. Turkey was turned away. And other countries with a lesser gap—Portugal, Spain, and Greece—were allowed in, but only on the condition that they would raise their standards.

Do you know what the minimum wage today is in Mexico? It is 58 cents an hour. They are talking about saying, well, in the future it will be better—unlike the past, where the living standards have been dropping over the last 10 years for workers in Mexico—over the last 10 years, the real wages for workers in Mexico have gone down; that is the 10-year record. They will go down further in the future, in my view.

Yes, the Mexican Government, as dictatorial as it is, has made a promise that they will allow wages to go up by the increase in productivity. Suppose productivity is 7 percent. Suppose they keep their promises, although they have a lousy record of keeping their promises even to their own people. Amnesty International, which looks around the world to dictatorial govern-

ments, lists Mexico as one of the worst in the world in terms of human rights abuse and responding properly to the needs of their own people.

But suppose they kept this promise, and they allowed a 7 percent wage increase. If that was the productivity increase, year by year, of a 50-cents-an-hour minimum wage, it would take years—years and years—before they would even begin to reach the minimum wage in this country today.

That is why jobs are going to flee south of the border. The other day, President Clinton went to some of the business supporters of NAFTA because he was trying to get votes desperately in the House. He is not getting them out of the Northeast from the House Members because they are smart enough to know how damaging this will be to their region of the country, as is reported in the papers here today.

But he went to the business leaders and he said: Look, I am having a tough time rounding up the votes in the House because everybody is figuring out we are going to lose jobs to Mexico. So he asked the business leaders supporting NAFTA if they would make a public pledge that they would not close plants in America in the future and send those jobs to Mexico. Do you know what the business leaders said? "Sorry, Mr. President, we are not prepared to make that pledge."

Why are they not willing to make that pledge? Because they know darned good and well they are going to have to move jobs to Mexico. In fact, some of these investment companies that are the winners here that are cited in this article are right now out raising millions and millions of dollars of capital, investment capital.

What are they raising it for? They are raising it to go out and buy manufacturing companies here in the United States, manufacturing companies that have a low rate of profitability. And the plan is to buy those plants, close them down, move the plant operation down to Mexico, employ Mexican workers who are only paid one-seventh as much as the American workers who would be losing their jobs; and once the business is relocated in Mexico, run it for 2 or 3 years, improve the profit margins because of low labor costs, drive up the price of the stock, and then sell the stock at a profit.

Meanwhile, you are going to have thousands and tens of thousands of American workers here in New Jersey, in Michigan, and in other States who lose their jobs and have no prospect today of ever finding other jobs.

We talk about job retraining. It is a meaningless phrase. I got a letter the other day from a man in Texas with a masters degree who has been through three job retraining programs and still cannot find a job. I have top graduates from the University of Michigan, from Michigan State University with

straight 4-point averages, great college records, outside activities, part-time job experience, and so forth, circulating their resumes, not finding any jobs and ending up unemployed, going back home to live with their parents. Are they disillusioned about America? You bet they are. Because we do not have a direct job strategy for this country.

Do you know what NAFTA is? NAFTA is a job strategy for Mexico. If it passes, God forbid, next Wednesday, you are going to have 60 million new Mexican workers joining our North American labor force. They will be coming in at average wages of about \$1.25 an hour. That is going to take a lot of jobs out of this country and take them into Mexico. And it is going to continue to pull down wage levels in America. We cannot afford to have our wage levels drop any more in America. They have been dropping for 20 years.

Now, in most families, you have both husband and wife going to work in order to make any semblance of a living. But in many cases, both of them are now having to work two jobs. So both mother and father, probably working four jobs in many families that I know about today, are trying to eke out enough money to support a family because they earn so little in each of the jobs.

How long are we going to let that go on? We wonder about crime in this society. What are the opportunities for young people today in the inner cities, particularly the minority youth? The unemployment rates are 50, 60, 70 percent. Why? There are no jobs. We need jobs in America. We need a jobs plan for this country. And NAFTA is not that. NAFTA is a jobs program for Mexico.

That is why the Mexican Government is spending tens of millions of dollars to ram it through the Congress. It is why the business interests in this country, the economic elite who stand to make billions by moving these jobs, are for it. That is why Bill Brock, former Senator, former Trade Ambassador for this country, has been employed by the Mexican Government at the figure of \$360,000 a year—our former Chief Trade Ambassador is now a lobbyist for Mexico—to ram this thing through.

That is more, by the way, than we pay the President of the United States. That is the kind of special-interest money and pressure that is driving this thing.

But it is going to be destructive of what is left of the middle class in this country, and of our industrial base. We need our industrial base. We do not have replacement jobs. When I hear the economic elite talk about this, whether they run corporations or write newspaper editorials or teach in academic settings, when I ask them if they are willing to work for one-seventh of what they are now being paid—in other

words, to compete head-on with Mexican labor, which is what our manufacturing workers are being asked to do—then they want no part of it. They want no part of it.

In fact, if NAFTA were to work in such a way as it would with the economics to replace the editorial writers, the executives, and the academic people by Mexican replacements earning one-seventh of what they are now presently making here in the United States, they would be against this in a "New York minute".

But, no. They are out of the line of fire. So they are quite willing to feed other Americans into the line of fire.

That is what is wrong with this country these days. We have forgotten about looking after our own people. People in America need work. They need it to live. They need it for dignity. They need it for identity in this society. If you do not have a job in America today, you are a nobody.

There is a story in the paper today. We have 500,000 American veterans who are homeless in America today. Those are veterans, people that wore the uniform of this country, who went off and risked their lives, came home, and not only cannot find a job, but they are homeless, living on hot-air grates, park benches, under doorways and bridges. That is how serious the problem is. Yet, some people wrongly think it is fine to send more jobs to Mexico.

There is a better way. FRITZ HOLLINGS, our colleague from South Carolina, has laid it out. What we need is a common market arrangement where we deal product by product and area by area.

And when they raise their standards up to a point and when it is fair competition based on cost of labor, environmental standards, and workplace standards, then we will have an open trading relationship. We ought to have it, and we ought to want to have it. But it is not smart nor right to rip America apart in the name of creating more jobs in Mexico and enriching the economic elite that will cash in on this to the tune of tens of billions of dollars.

Do you want to know the proof of that? Look yesterday at what happened to the currency market with respect to the peso in some of the Mexican stocks. Yesterday, the value of the Mexican currency went down quite sharply. I do not know what it is doing today. Why did it go down? Because now there is an expectation that NAFTA may well be defeated next week in the House of Representatives—and I hope it is. But what it shows you is that the speculators have been bidding up the price of the peso, and now they are caught short because the American people are speaking and will speak over this weekend, the debate last night notwithstanding. When Members go home this weekend, they

are going to hear from people of their district about their justifiable concerns about the threat to their jobs from this NAFTA agreement.

That is exactly where we stand today. It is essential that this NAFTA be turned down. This package, negotiated by George Bush and Carla Hills, is not worth the paper it is written on. And to try to dress it up with side agreements that have no meaningful enforcement power does not make it one bit better.

I have talked with workers in Michigan 2 weeks ago; I met with women who lost their jobs because the plant was closed and taken to Mexico. They talked to me with tears running down their faces as to how demeaning it is to lose their job and not find a replacement job, to buy all their clothes in yard sales. You cannot demean the American people this way. I know that at the top reaches of our society, where there is lots of money and lots of privilege, NAFTA may look wonderful because that crowd is out of the line of fire. It might have some attractiveness here in the Senate because the people that get hit between the eyes come from a different strata of society.

If we are not going so stand up for them now in the Senate and in the House, I am not sure we have any right to be here. People need work in America today. We are about to put out revised unemployment statistics that will show the unemployment rate in America is much higher than we have been told it is. In fact, the way we calculate the statistics today, if a worker works as little as 1 hour a week, they are counted as employed. You try to live and support yourself or your family on 1 hour of work a week. Yet, we say that person is employed.

We must vote down this NAFTA. The notion that somehow by enlarging the market with this meager amount of income that Mexico has to spend to enlarge the North American market by 4 percentage points, which is what Mexico would bring in if we go into the NAFTA, and at the same time bring in 60 million additional workers from Mexico into the United States work force, to bring in 60 million workers earning \$1.25 an hour on average, in order to get a 4-percent increase in market share, is economic lunacy—unless you are one of the big shooters that is going to cash in on it.

So I understand why the investment houses in New York like it, because they are railroading capital down to Mexico every single day. They got caught short a little yesterday because the peso dropped, and they may lose some more money—and good riddance. If this thing goes down in the House of Representatives next Wednesday, as it should, those speculators, those people trying to cash in on moving jobs from America to Mexico, deserve to lose their money. Better they should lose

their money than some worker and family across this country, numbering in the hundreds of thousands, who would lose their jobs and livelihoods and the ability to even hold their families together.

Our No. 1 requirement in America today is to have more private sector jobs, not in the year 2000 or the year 2010 and at some future time way down the line. People need to eat today and need to feed their children tonight, and they need to get up in the morning and have work to do to provide for their family tomorrow and next week and next month. That is the issue. That is why Bush and Quayle were thrown out, because they missed the boat on the economic issue. Quite to the contrary, I say to my friend from New Jersey, if this thing passes, this will finish Bill Clinton, not reelect him. This is a major miscalculation.

The working people of this country understand this issue because their lives are at stake. We have come to not value their lives very much, in all of the lofty conversation and with all of the lobbyists rolling in here. You know, with all of the big money effort by the Mexicans and all of the big corporate interests and all of the big New York investment interests promoting NAFTA, they roll in here and they have all these wonderful arguments why NAFTA is a good thing. The rank and file people cannot afford a plane ticket to come to Washington to make their case. That is why we are not seeing them. If they could get here, they would fill this place; they would have a ring of people around this building so far you could not see the end with the naked eye, because people are desperate for work in America today. They need to have the work. We cannot afford to send the jobs to Mexico—and to have the effrontery to suggest that we should do that, that we should have a jobs program for Mexico when we cannot put our own people to work—I find that insulting, especially given their own terrible record on human rights and the deprivation of their own people in their own society.

If you try to form a union today to get the wages up in Mexico, you are likely to disappear—I mean really disappear. You are subject to violence and subject to being assassinated if you try to challenge the existing order down there. That is why Amnesty International, as I said, listed them as one of the most dictatorial regimes in this hemisphere.

This whole thing is about big money, big money as against average, every day working people. This is a critical test. It will be a test as to whether the little people of this country still have enough strength to be able to fight back for themselves to protect their own economic future and that of their children.

So I have had it with all of the conversation from the economic elite, who

are out of the line of fire, living off of the fat of the land, with large incomes and great savings accounts and all kinds of nice retirement benefits. They are not the ones that are going to take it on the chin. They are not the ones that are going to have their lives turned upside down when a plant is closed and the jobs are moved to Mexico.

When the last typewriter plant closed in upstate New York and went to Mexico, what happened to those workers? How are they doing today? Have they gotten into a nice retraining program and into nice new jobs? Of course not. That is why every single Democrat in the Congress from the States of New York, New Jersey, and Connecticut that has taken a position on NAFTA—that is all but 3; there are 25 or so that have all taken positions against the NAFTA—against the NAFTA. So let us not be misled on this thing. This is a critical issue for our country and a critical issue for our people.

I want to just end on the theme of pluralism, because I feel as strongly about it as anybody here. You know, we brought African-Americans to this country 300 years ago in chains, in the holds of slave ships. If you look at maps and drawings of those ships, they were made to lay right down on the floor of the slave ship. They actually had a chalk drawing on the floor so they could put as many people in as possible. The children were dropped off first at some port of call in the Caribbean, and the mothers and fathers were taken further up the coast of North America and dropped there. That is what happened in terms of ripping families apart. For all these years now, we have been trying to overcome that problem and have been trying to get social and economic justice for African-Americans in this country, and for Hispanic-Americans, and for Americans of other backgrounds and ethnic and racial origins.

But in order to do that, in order to be a melting pot in America, you have to have enough work to go around. If you do not have work to go around, we fight among ourselves. We fight over the few jobs. We have to have enough jobs for all of our people. We cannot afford to be shipping hundreds of thousands of additional jobs to Mexico at this time. Our economy is in trouble. Make no mistake about it. We have the defense downsizing. Virtually every corporation in America is reducing employment levels, furloughing people. People are going out, circulating résumés. They cannot find work. You are finding people with Ph.D.'s in engineering working in McDonald's, working at other tasks below their skill levels. That is all they can find in order to make a living just to keep food on the table.

Before we bring 60 million workers into our work force from Mexico earn-

ing \$1.25 an hour on average, we have to think about what the impact will be here on our own people. That is our first responsibility.

I know some have this great world view, and I care about the rest of the world—I do very much. But if the American experiment fails because we do not manage our own economy properly and hold our own social order together, we have not proven anything except that we let democracy slip out of our hands.

We have guns all across this society. That is what we have been debating here the last 2 days. I do not want to see a country driven to a point of desperation where people who want to work and have the skills to work and desire and need to work cannot find work, and the jobs are being taken en masse down to Mexico.

That is what we have been seeing in my State of Michigan, and we are increasingly seeing it across the country.

I hope the country is going to be smart enough to understand the dangers involved here. We need to defeat the NAFTA. And I say to every House Member that I hope they have the courage to withstand the pressure from the economic elitists, withstand the arm twisting from the White House, all overtures that if you vote this way we will give you this or that. I hope they will stand up against that.

The NAFTA vote ought not to be for sale. We ought to turn out NAFTA and start over with a fresh negotiation that can look after the jobs and interests of working people and all the people of this country. If it is defeated, that is exactly what will happen.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. DECONCINI. Mr. President, I am glad to yield to the Senator from Ohio for a minute or two, whatever he wants without losing my right to the floor to propound a unanimous consent.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Arizona will retain the right to the floor, and the Senator from Ohio is recognized.

Mr. METZENBAUM. Mr. President, I appreciate the courtesy of my friend from Arizona.

I rise to commend and thank the Senator from Michigan.

Day in and day out, week in and week out, he has been the spokesperson for the workers of this country and leading the opposition to the NAFTA on the floor of the U.S. Senate.

He is aware of the problems and the challenges that are faced by the workers of this country should the NAFTA be enacted.

Senator RIEGLE has come to this floor on many occasions to speak out on this issue. He has held a major rally in his own State. He has been a champion of the cause of working people in

this country on behalf of all of them and all Americans.

I rise to express my appreciation to him.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. DECONCINI. Mr. President, it is my intent, with the concurrence of the other side of the aisle, to proceed to S. 1301, the intelligence authorization.

However, the Senator from Washington has been here for a long time, waiting to speak, as is the Senator from Rhode Island.

I ask unanimous consent request that the Senator from Washington has 5 minutes to speak as if in morning business on whatever subject and the same for the Senator from Rhode Island, and then we proceed immediately to S. 1301.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The Senator from Washington is recognized for 5 minutes.

Mrs. MURRAY. I thank the Senator from Arizona.

A TRIBUTE TO WASHINGTON STATE VETERANS

Mrs. MURRAY. Mr. President, I rise today to pay tribute to those brave men and women across America and across my State of Washington who have served in the Armed Forces. My father is a veteran, and it is with great pride that I come to the Senate floor today to share my thoughts on the observance of Veterans Day this Thursday, November 11, 1993.

We are reminded time and time again by the radio, newspapers, and television that peace is a rare commodity. Day after day, the images brought to us from around the globe serve as a constant reminder of the price of our freedom. And while it has been said many times before, each year we must remind ourselves that the profound costs of securing our freedom do not end when the guns stop firing and the troops come home.

America's veterans deserve the Nation's respect, thanks, and admiration. But even more, our veterans must be provided with the necessary assistance to help heal the physical and mental wounds of war.

For a time during the Vietnam war, I volunteered at the VA hospital in Seattle, where I saw first hand the difficulties and challenges facing veterans returning from war. I will never forget the pain and anguish, both mental and physical, that many young men and women experienced.

As the daughter of a disabled veteran, I understand the challenges that Washington State veterans and their families face everyday. I have always believed that this country has a special responsibility to provide the highest quality health care and benefits possible to these courageous men and women.

When the parades end and the crowds go home, our veterans need and deserve our support more than ever. Every soldier who returns from war must readjust to civilian life. Some have physical disabilities and need intensive medical care. Some suffer from posttraumatic stress disorder, and others need job counseling or educational assistance.

Tragically today, thousands of veterans live on America's streets, homeless and without care. Even as we struggle with the tough choices necessary to bring down our Nation's troubling deficit, we cannot allow these men and women to fall through the cracks. Whatever challenges we face as a nation, we can never compromise on the care we provide our veterans and their families. They delivered for us. Now we must deliver for them.

Tomorrow is an especially important day for women veterans. Here in Washington, DC, the first memorial specifically in honor of women veterans will be dedicated. This memorial, the product of a decade of commitment and hard work, will commemorate the approximately 11,000 American military women who served in Vietnam. The memorial will provide a healing ground for the thousands of women who served in Vietnam as nurses, physicians, physical therapists, air traffic controllers, and in many other capacities—most of whom were in the midst of conflict, some of whom died. The women who served as medical personnel in Vietnam dealt with extraordinary injuries and worked under extremely harsh conditions.

In addition to the women who were actually stationed in Vietnam during the war, the Vietnam Women's Memorial honors the 265,000 women who served this Nation during the Vietnam war all over the world and in a variety of occupations. These women were stationed throughout Asia, Hawaii, and elsewhere in the United States, caring for the wounded and dying.

Many of the women who served our country during the Vietnam war have had no network of support to rely on since those difficult days. The new memorial will provide them with a place to come together and to heal. The Vietnam Women's Memorial to be dedicated tomorrow will serve as a companion to the treasured Vietnam Veterans Memorial, and I commend all of those who have worked so hard to bring this memorial to life for their most valuable contribution to this city and our Nation.

Mr. President, Washington State is the proud home of more than 650,000 veterans. Tomorrow, across the State of Washington, families and friends will gather to pay tribute to the brave men and women who served, and in some cases died, to preserve our freedom. On this day, and throughout the rest of the year, we must honor our

veterans not only with flags and ceremonies but through active support for the programs, services, and research so vital to our Nation's courageous service men and women.

I am proud to observe Veterans Day 1993, and I am honored to join with the President, the Congress and the citizens of this great Nation in recommitting ourselves to the cause of caring for our veterans and their families.

I thank the Chair.

The PRESIDING OFFICER. Under the previous order, the Senator from Rhode Island is recognized for 5 minutes.

NAFTA: SHORT-TERM PAIN WILL RESULT IN LONG-TERM GAIN

Mr. PELL. Mr. President, I speak today regarding the decision I have reached on the North American Free-Trade Agreement, commonly known as NAFTA. I come to this point after months of listening to, reading, and reviewing the hearings on this issue and after visiting with and listening to the views of hundreds of Rhode Islanders who support this proposal and many others who oppose it. Indeed, there has been no lack of opinion on this issue for this trade agreement has sparked the largest and most comprehensive public debate on international trade that I have witnessed in all my years in the Senate. In that connection, I watched the televised encounter between the Vice President GORE and Ross Perot last night and was particularly struck by the excellent points that the Vice President made. The broader debate on this issue is a positive development for it represents a long-overdue acknowledgment of the interconnectedness of the global economy and world marketplace. Today, more than ever before, the United States cannot afford to be indifferent to the rules and conduct of world trade.

I have decided that I will support NAFTA with its accompanying side agreements. I will do so because I believe that in the long run, NAFTA is good for the country as a whole and in particular for my home State of Rhode Island. NAFTA is good for the United States because it will lead to the creation of good, high-wage jobs here in this country as we become the cornerstone of the world's largest free trade zone involving over 365 million consumers who generate over 6.5 trillion dollars' worth of trade annually. NAFTA is good for my home State of Rhode Island because the industries which will benefit most from the agreement are of those that we have in Rhode Island. NAFTA is good because it inaugurates an era in which environmental protection is incorporated in international trade agreements. NAFTA is good because it advances the elimination of trade barriers worldwide, a goal established following

World War II and to which we will be one step closer with culmination of the Uruguay round of GATT talks. NAFTA is good because it marks the commitment of the United States to the positive development of our relationship with Mexico with favorable consequences for future relations with other countries struggling to establish market-based democracies in Central and South America. NAFTA is good because it prepares and positions the United States for the reality of the world marketplace in the 21st century. For all of these reasons, NAFTA should be approved by the Congress when it is considered in the upcoming weeks.

I have reached this conclusion after carefully and thoroughly examining many concerns about the agreement which can be loosely grouped into three basic categories. They are: First, preservation of U.S. jobs and labor standards; second, protection of the environment; and third, implications for international relations in North America and the Western Hemisphere. In each of these areas I have come to the determination that my concerns have been met and that the arguments for NAFTA outweigh those against it.

1. JOBS AND LABOR STANDARDS

Central to the debate over NAFTA are the questions about what impact the agreement will have on jobs, wages, and labor standards in this country. This is appropriate, for as we contemplate adjusting the rules by which this country participates in international trade, we must concentrate on preserving our economic base, providing opportunity for job growth in this country, and protecting the living standards and working conditions which we have labored so hard over the years to achieve. It would be unwise and reckless for us not to appreciate the struggles that our parents and grandparents have gone through to establish humane and responsible workplaces for our workers and an economic base which has the resources and adaptability to insure prosperity for our children.

Likewise, it would be equally foolish to subscribe to the notion that we can afford to be indifferent to changes in the global economy and not adapt our trading rules when it makes sense to do so. As the world changes, we must recognize reality and do what we can in Government to foster rather than hinder economic opportunity and job creation through our trade laws.

In the end, after sifting through all the arguments presented on both sides, my concerns over the potential negative impacts on jobs and labor standards have been met.

First with regard to the sheer numbers of jobs likely to be created or lost, the studies on this issue are widely variant with some predicting substantial job gain and others showing massive job loss. What can one make of

these conflicting views? After looking at the cumulative total of the serious attempts to predict the job impact of NAFTA, I come to the conclusion that there will be modest job growth. Indeed, 22 of 23 independent studies on NAFTA and 16 of 19 living Nobel Prize winning economists—the other three withheld an opinion—all assert that NAFTA will be good for employment in the United States. This confirms my own long-held general belief that free trade is in the best interest of the United States because, given equalized trading rules, we have the ability to be competitive with anyone. This will hold true for NAFTA and the addition of the Mexican market. The reduction of trade barriers in North America will result in somewhat more jobs being created in the United States than are lost.

In Rhode Island, numerous major manufacturers and employers in my State have contacted me stating their support of NAFTA and the belief that it will create opportunity for them to expand their exports and boost their sales. They include companies like Hasbro, American Tourister, Textron, Taco, Allied Signal, and A.T. Cross as well as textile and fabric manufacturers, machinery suppliers, computer companies, and advertisers. They include members of the financial services industry like Fleet Bank and Rhode Island Hospital Trust. Indeed, the largest manufacturing sector in Rhode Island, the jewelry industry, has stated its strong support for the agreement, believing that tariff-free access to the Mexican market will continue the trend of increasing sales to Mexico which began when Mexico began lowering its tariffs in 1987. It is clear that Rhode Island businesses expect to benefit from increased exports as a result of NAFTA.

But the conclusion that there will not be massive job loss but rather modest job gains from NAFTA is not the end of the inquiry about whether or not this is good for American workers. If we gained a million jobs from NAFTA but saw wages drastically reduced, workplace safety protection disappear, and the gradual erosion of benefits such as health care and unemployment compensation, then this agreement would not be worth signing. In this regard, the President, the relevant Federal agencies, and the Congress have made their intentions clear that this will not be allowed to happen and I am convinced that all will follow through on their commitments.

First of all, the harmonization of workplace standards such as safety concerns, child labor, and the minimum wage will be harmonized upward from Mexico's current law, not down from the United States. Moreover, the United States and individual States are free to impose whatever additional safeguards they may want within their

own jurisdictions. Second, no administration in history has ever taken so seriously the Federal Government's responsibility to ensure quality health care for all Americans. American workers' health care benefits are not threatened by NAFTA. Third, the administration has pledged worker retraining programs which will ensure that workers who do lose their job because of NAFTA—or any other cause for that matter—will have the opportunity to gain the skills to find new jobs in today's modern work force.

All in all, I believe that American workers have much to gain from the agreement, and that the potential negative effects have been thoughtfully and adequately addressed so that their impact will be as minimal as possible. It is also important that with NAFTA, the United States will be committing itself to a strategy of competing with Japan and Germany and other advanced nations for the high-tech, high-wage jobs of the future rather than the jobs of the past. As a result, I believe that the American worker of tomorrow will stand a much better chance of maintaining the standard of living that he enjoys today.

2. PROTECTION OF THE ENVIRONMENT

Regarding environmental protection, I believe NAFTA moves forward in the effort to combat destructive practices throughout North America. I note that the major environmental groups are themselves split over whether or not to endorse NAFTA. In my view, I feel that there are three compelling reasons in the environmental arena which argue for the approval of NAFTA.

First, this trade agreement marks the first time in our Nation's history that environmental issues have ever even made it to the negotiating table in an international trade agreement. This is important for if NAFTA is approved, it will set a precedent that the environment can and should be part of future trade agreements. If NAFTA is not approved on environmental grounds, its rejection may augur ill for its inclusion at all in future trade negotiations. I believe that it is important that we recognize the importance of establishing once and for all that environmental issues belong in international trade negotiations.

Second, the environmental problems from which we recoil in Mexico, especially on the Mexican border, are not the product of NAFTA but rather the product of not having something like NAFTA which requires that the Mexican Government actually do something about its environmental problems. Without NAFTA, companies committing irresponsible and often criminal acts of pollution will have no incentive to change their ways. Nor will the Mexican Government face any additional pressure to crack down on them. Indeed, many predict that the problems will actually get worse. NAFTA gives

the United States the ability to challenge abuses and require that Mexico cannot disregard protection of the environment.

Third, contrary to the assertions of those opposing NAFTA, nothing in the agreement or side agreements will allow the circumvention of environmental laws in this country. Concern has been raised about the possibility of losing control over who will decide environmental standards. This agreement will allow local control to remain in place. States and local jurisdictions will retain full authority to establish and maintain whatever environmental standards they wish. This is important in Rhode Island where we have a proud tradition of establishing and maintaining high standards of environmental protection. This agreement does nothing to threaten this tradition.

In sum, I believe that while the environmental provisions of the agreement are not perfect—we could have a speedier dispute resolution process for example—we are better off with the agreement than without it. Without NAFTA we have no ability to effect change in Mexico. Our companies would still have to compete with Mexican companies and to the extent that Mexican companies are ignoring environmental protection now to gain competitive advantage they will still do so. Moreover, I again note that with NAFTA, we begin down the road of international recognition of the inclusion of environmental protection in our trade agreements, accelerating the day when it will no longer be considered extraordinary to have environmental provisions considered in all trading arrangements. For these reasons, I believe that NAFTA should be supported on environmental grounds.

3. INTERNATIONAL RELATIONS IMPLICATIONS

One area that has not received nearly as much attention it should is how the acceptance or rejection of NAFTA by the United States will affect the relations between the countries involved as well as the rest of Central and South America. This issue, however, should not be ignored. Without doubt, the acceptance or rejection of NAFTA will send signals throughout the hemisphere about the direction the United States will take as it embraces the next century. It is important, then, that we determine what message will be sent if we choose to accept or reject NAFTA and how much of a role should that play in our decisionmaking process?

If we accept NAFTA, it is almost universally agreed that reaction in Mexico, Canada, and the rest of the Western Hemisphere will be positive. Such an action would signal a willingness by the United States to use its influence to further an ongoing effort to reduce the barriers between our countries with the goal of common advantage. It serves our purpose to be responsible,

interested, openminded, and engaged when it comes to determining the international economic affairs of our region. Support of NAFTA by the United States would be viewed as all these things in Mexico, Latin America, and South America. Moreover, it would provide support and credibility to the young and struggling efforts to establish democracies throughout the nations of these regions. Mexico, it is clear, does not have the democratic tradition of the United States. Abuses of power and influence are still a reality today. But progress is being made and NAFTA furthers that progress. We should encourage that.

In addition, I believe we must acknowledge the rise of regional trading blocs around the world, namely in the European Community and in the Pacific Rim, and what advantages a competitive North American free trade block would allow. Eventually, the free trade zone may grow to encompass all of North and South America enabling us to prepare for what will be the reality of the 21st century in world trade. If we draw in and build tariff walls around the United States, we will be ignoring the clear trend in the rest of world trade and thereby place ourselves at a disadvantage in the future world marketplace.

Yet another consideration is the impact NAFTA will have on illegal immigration. In the long run, I believe that with the stabilization of the workplace conditions and the raising of the standard of living in Mexico, as well as the location of industry away from the United States-Mexican border, illegal immigration will decline. Moreover, it is additionally predicted that as stable employment becomes available in Mexico, illegal immigrants in this country will return to Mexico. NAFTA will do more to reduce illegal immigration than it will to increase it.

The importance of these considerations cannot and should not be dismissed. The United States gains tremendously from expanded trade, new markets, and cordial relations in the Western Hemisphere and to the extent that NAFTA and free trade can further these aims, it should be considered as a factor favoring approval of the accord.

On the contrary, should the United States reject NAFTA, there will be a negative backlash in Mexico and to a lesser extent throughout Central and South America. The Government of Mexico has staked much of its political capital in negotiating NAFTA, working against years of mistrust and outright antagonism toward the United States which was part and parcel of official government policy for most of this century. It would be all too easy for anti-American sentiment to rise again if the United States were to reject an agreement which was negotiated in good faith and at great risk by those in power in Mexico. It also can be reason-

ably assumed that Mexico would not engage in the foreseeable future in any negotiations of concern to the United States. Such an event would be a setback for hemispheric affairs and would be extremely regrettable.

Given these likelihoods of international reaction, the question becomes how much should this be taken into consideration in the calculus of whether to support NAFTA? While consideration of these factors should not be overriding, they also cannot be ignored if we are to be responsible in hemispheric affairs and they would argue with a clear voice for supporting NAFTA.

SUMMARY

In conclusion, after examining all of the arguments which have been presented in this complex and far-reaching agreement, I repeat that we should support NAFTA. In making this decision, I note that I am going against the sentiments of many of my friends in the labor community whom I have supported over the years for their tireless work in furthering the concerns of American workers. Undoubtedly I will continue to do so but simply believe that in the end, the American worker will benefit from this agreement. I have no illusions that some will not lose their jobs but with an appropriate safety net, we can provide a future where new, better jobs will be available for them. I have often said that this agreement amounts to short-term pain for long-term gain and if NAFTA is implemented, I look forward to the day that we can look back and point to our having the courage to take this historic and important step forward.

HEMISPHERIC DIALOG ON THE BROADER MEANING OF THE NORTH AMERICAN FREE-TRADE AGREEMENT

Mr. DODD. Mr. President, I attended a remarkable event today, and I would like to take a few moments to tell my colleagues about it.

This event—attended by officials of the United States, Mexico, Canada, the Organization of American States and Inter-American Dialogue—took place at the Inter-American Development Bank. The bank and its president, Dr. Enrique Iglesias, organized it to demonstrate the broad-based support that exists for the North American Free-Trade Agreement throughout the Americas, and I commend Dr. Iglesias for his efforts. All too often we overlook the regional implications of our imminent decision on this agreement, and I think today's event helped put those implications in sharper focus.

For this reason, I believe the gathering was a historic one. It symbolizes a shift in the relationship between the United States and its neighbors to the south. While the geographic distance between the United States and the

other nations of the hemisphere is relatively small, the economic and political distance has been distressingly wide over the years.

The countries of Latin America and the Caribbean largely closed off their economies to ours. Economic nationalism was the ideology; protectionism and high barriers to trade were the result.

In recent years, nothing short of a revolution has swept the hemisphere. Cross-border tariffs have fallen; cross-border trade has grown. Mutual suspicion has dissipated; mutual understanding has increased. A hemisphere that was long divided by differences over ideology and economics has come together around the shared principles of democracy and trade.

This message came through clearly in five video-taped speeches delivered to this morning's gathering by heads of state from all across the hemisphere. Gonzalo Sanchez de Lozada, President of Bolivia; Cesar Gaviria Trujillo, President of Colombia; Rafael Leonardo Callejas R., President of Honduras; P.G. Patterson, Prime Minister of Jamaica; and Luis Alberto Lacalle, President of Uruguay, all spoke eloquently of the broader implications of Congress' decision on the North American Free-Trade Agreement.

As these leaders made clear, the eyes of the entire hemisphere are on this body: Congress' decision will reverberate throughout the Americas. These nations will interpret a vote for the trade agreement as a signal that the United States remains true to its historic ideal of free trade and that it supports the course of reform most of our neighbors have pursued.

Conversely, the five heads of state also made it clear that a vote against the free-trade agreement would be seen as a cold, hard slap in the face to reformers who have been pushing the painful changes that the United States has long urged them to adopt.

I would like to give my colleagues the opportunity to read for themselves what these five leaders said this morning, and I hope Members will keep these words in mind when they cast their votes on the North American Free-Trade Agreement next week. I ask unanimous consent that the five statements appear at this point in the RECORD.

There being no objection, the statements were ordered to be printed in the RECORD, as follows:

GONZALO SANCHEZ DE LOZADA, PRESIDENT OF BOLIVIA

NAFTA is of vital importance for the world, for our hemisphere, and for my country, Bolivia. By uniting the economies of Canada, the United States, and Mexico, NAFTA creates the world's largest trading bloc. It will be like a sun, and the rest of the economies of our hemisphere will be like planets in orbit around it, bringing down

trade barriers between our nations and having, eventually access to this wonderful system of free trade, standardization of democratic practices, labor laws and environmental sensitivity.

We can't underestimate how important NAFTA is as a symbolic message of inclusion and not of exclusion. For the first time in history, the countries of the developed world invite the underdeveloped world to join in the great project which will be a project to create wealth, to bring social justice and more equality in the framework of freedom.

We think that the dynamics of this market will be so important that it will oblige other trading blocs around the world to start to bring down the walls which they are building in preparation for trade wars. We think it will be what will lead the world into a truly world economy. And in this way, it will bring hope to the underdeveloped part of the world with work, with dedication to education and health, with care toward the environment. And with justice, we can export not just violence and drugs, but products, creativity, and value-added.

We must understand that without NAFTA things will be very dark indeed. With it, it will be a beacon of hope, although we know that time will go by before we're reincluded in that trading market. But we know that eventually, as we achieve certain standards and as we achieve levels of growth and maturity and development in our economies, we have the possibility of having trade and not only looking for aid.

As the Cold War has finished, there is no longer the incentive for the developed world to bring aid to our countries. And this means that we must look for trade. A country like Bolivia that stopped hyperinflation in democracy, the first country in Latin America to do so, and opened up its markets, and has achieved stability, not only economic but democratic stability—we know that we must have trade if we want to continue and if we want to have a future. And it is for this reason that we're so devoted to and so interested in seeing that NAFTA takes place, and we can look forward with confidence to the future, not with preoccupation and uncertainty.

So, on behalf of the present but especially on behalf of the future, I would very strongly say that this decision—a positive decision on the NAFTA treaty—will be a historical decision and a very positive one. We will be waiting then, full of hope, for the final decision and thinking that it is for the good of the countries involved, but especially for the whole of Latin America, for the whole of America in the future years.

CESAR GAVIRIA TRUJILLO, PRESIDENT OF
COLOMBIA

Throughout history, Latin America and the United States have striven to create a real partnership for the Americas, a relationship based on mutual benefit and equal opportunity. For years, we talked about the importance of having trade and not just receiving aid from the United States. But it was just talk, nothing else. In the past, foreign assistance was the predominant means by which the United States helped emerging nations to develop their economies. Until now, Latin American nations raised protectionist walls around themselves while the United States looked towards other markets to expand its trade.

Two developments have significantly altered that scenario: the North American Free Trade Agreement and the silent economic and democratic revolution undergone by Latin America. NAFTA is a watershed in

our history. We view this initiative as a critical step towards the creation of a hemispheric free trade zone of democratic nations. NAFTA is a means to achieve greater prosperity for all the Americas, north and south of the Rio Grande. It's also a catalyst for political change as well as for strengthening democracy and respect for human rights throughout the region.

My own country, Colombia, is an example of how economic integration and the opening of markets within a democratic framework can bring about progress and prosperity for its citizens. The Colombian government is deeply committed to trade reform and reduced tariff rates from an average of 48% in 1987 to 11.4% today. As a result of this policy change, U.S. exports to Colombia increased a dramatic 68% last year, creating an estimated 45,000 new jobs for American workers. Members of the U.S. Congress who are uncertain as to whether NAFTA will be good for their constituencies have only to look at the example of the dynamic rise of U.S.-Colombian trade since its liberalization. Hasn't Colombia taken important steps to promote the kind of economy envisioned by NAFTA? As a result of these actions, our trade with a country like Venezuela increased from \$500 million in 1990 to \$1 billion in 1992, and they reached \$1.5 billion at the end of the current year.

You may ask yourself, What does all this have to do with NAFTA? A great deal. NAFTA is a continuation of the trade liberalization process under way throughout Latin America, including negotiations of MERCOSUR, the Andean Pact, the G3 (Colombia, Venezuela and Mexico) as well as the talks to reduce Central American and Caribbean tariffs. Colombia and its South American neighbors support NAFTA because we believe it's a critical step to the economic integration of the Americas.

Given our successful experience, we are startled by the growing calls for isolationism and protectionism ignited by the NAFTA debate in some quarters of the United States. After all, the United States has benefited from developing successful trade relations around the world, and rising exports are driving the U.S. economic recovery. This demonstrates that free trade produces concrete economic benefits for everyone who has the courage to overcome initial fears.

As the U.S. Congress prepares to cast its historic vote on NAFTA, its members should be aware that it represents much more than just signing a treaty. Its passage or its defeat will have lasting effects on the entire continent. Moreover, NAFTA's defeat may stifle further progress, a loss for both industrialized and developing nations.

As President Clinton stated recently, the real job gains from NAFTA will come when we take the agreement and take it to Chile, to Argentina, to Colombia, to Venezuela, to other market-oriented democracies in Latin America and create a consumer market of 700 million people—soon to be over a billion people in the next century. Thank you.

RAFAEL LEONARDO CALLEJAS R., PRESIDENT OF
HONDURAS

Barely one week ago in Guatemala, the presidents of six Central American countries, including mine, Honduras, unanimously approved absolute support of the North American Free Trade Agreement, NAFTA. In spite of the uncertainties it generates in our own societies and economies, we understand that the free trade agreement between the United States, Canada, and Mexico opens a unique opportunity to generate increases in trade, and consequently, gains in economic growth,

and therefore higher benefits for our people. All that we request is that NAFTA open the alternative for the six Central American countries; that once we constitute ourselves into a free trade zone, we have access to NAFTA under conditions that make us competitive with the other partners, especially Mexico.

We don't fear this type of association because we believe—and I personally—that free trade is the alternative for economic development and growth. So why fear? Obviously in this new world there are winners and losers. Those who lose are the groups, the persons, the societies and countries that persist on a protectionist alternative. We believe, I believe, that competition is clearly associated with free trade; and therefore, I can stress that we hope that you support the NAFTA free trade agreement. And that once it is approved—which we hope it will be—then you support us, the Central American countries, in order that jointly we can proceed to adapt ourselves and incorporate ourselves to the biggest market of the world.

This decision will change the realities of the whole Western Hemisphere, and it's most probable that when NAFTA is signed, other countries on the continent will be clearly adapted to this mentality. Let's go ahead, let's support NAFTA. Let's request that the Congress of the United States, the Senate of the United States, that they too understand the realities of globalization of this new world. And push forward. Obviously there are risks involved. But the biggest risk of all is not making the right decisions with respect to NAFTA.

P.G. PATTERSON, PRIME MINISTER OF JAMAICA

The end of the Cold War that for so long dominated the world provided leaders and governments with a welcome opportunity to end their preoccupation with destruction and to concentrate their energies and resources on human development on this planet which we all inhabit.

Experience has shown that the free market system provides the best method by which to achieve economic growth and social development. For this system to be effective, there must be the opening of world markets and an end to protectionism. Tariff barriers must be removed. The world economy will be increasingly globalized, market driven and technologically oriented.

Here in Jamaica, we have taken the tough decisions to transform our economy into one that is market driven. My administration has, with unswerving determination, taken the road toward full transformation of our economy. We have begun the process of simplifying and improving the effectiveness of our tax and incentive systems. We are pursuing a policy of privatization. Our private sector is now taking up the challenge to move our economy into the 21st century of free trade, where competition is intense and protectionism is no more.

We in the Western Hemisphere must ensure that we are not left behind as other countries around the world develop regional trading blocs, large in size and of great market potential.

Within the Caribbean and Latin American region we have strengthened our economic and trading associations through CARICOM, the planned association of Caribbean states, and through new trading initiatives with the countries of Latin America.

We firmly believe that the North American Free Trade Agreement (NAFTA) offers a unique opportunity to build mutually beneficial relationships between the three nations involved. We view NAFTA as the first

important step towards a hemispheric free trade area that has the potential to lift the standard of living of the people of this hemisphere, thereby ensuring the spread of democracy and the maintenance of political stability.

We believe the coming into being of NAFTA would mark a historic moment for the people of the hemisphere and the people of the world. As with every new experience, there will be moments of initial apprehension. There will be the need for adequate transitional provisions. But it is indeed a bold step in the direction that we must all take. Thank you.

LUIS ALBERTO LACALLE, PRESIDENT OF THE
REPUBLIC OF URUGUAY

The people and government of Uruguay are following with great interest these final stages of negotiation of the treaty amongst the governments of Canada, Mexico and the United States. We see it as a very important milestone in the history of the end of the 20th century. We see it as a natural tendency of uniting markets, of creating wider economic zones. That is a tendency we see the world over. But in this case, as Mexico belongs to Latin America, we see it as a historical step toward renewed and more fruitful relationships between North America and its southern neighbor Mexico. And of course, we see it as a signal that perhaps in the future we will be able to widen that kind of cooperation.

It is true the history of the United States tells us very loudly that trade and prosperity through the opening of markets is a reality. That everyone benefits when there is more trade. That jobs will be created. That opportunities will be also created. So we do think that it is in the best philosophy and interest of the concerned parties in the first place. But it is also in the best interest of a more developed and deep relationship with the rest of Latin America that this treaty be approved. These days, when we see that trade is the central issue of politics, when people are demanding more than anything to be able to trade more freely and to generate opportunities, we do think that this is a step in a very positive direction.

My colleagues here in South America, we recently had a meeting in Santiago de Chile, and it was in the center of our discussions: the final decision on the NAFTA treaty. So if I could convey to the people of Congress in the United States, to the people in business, to the people in labor unions, some kind of message, I would say that the rest of America is looking very keenly at this decision because it can be a signal of better days for everybody. We are thinking not in terms of one administration, of one government, but in terms of creating stable economic relationships, and of course through that, more stable institutions, and stronger democracy all over America.

We are no longer as Latin Americans part of a problem; we are part of the solution. Many millions of jobs in the United States depend on trade with Latin America. I would almost say all of our imports—80% of them—come from the United States. So all kinds of cooperation, all kinds of opening of opportunities will be seen as a very positive sign, not only by governments, not only by presidents, but by the people that work and live in my country.

INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1994

The PRESIDING OFFICER. Under the previous order, the clerk will report S. 1301.

The legislative clerk read as follows:

A bill (S. 1301) to authorize appropriations for fiscal year 1994 for intelligence activities of the United States Government and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The Senate proceeded to consider the bill, which had been reported from the Committee on Armed Services, with an amendment on page 14, line 24, to strike "(c)" through "Treasury" on page 15, line 2.

So as to make the bill read:

S. 1301

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Intelligence Authorization Act for Fiscal Year 1994".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—INTELLIGENCE ACTIVITIES

Sec. 101. Authorization of appropriations.

Sec. 102. Classified schedule of authorizations.

Sec. 103. Personnel ceiling adjustments.

Sec. 104. Community Management Account.

TITLE II—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

Sec. 201. Authorization of appropriations.

Sec. 202. Technical corrections.

TITLE III—GENERAL PROVISIONS

Sec. 301. Increase in employee compensation and benefits authorized by law.

Sec. 302. Restriction on conduct of intelligence activities.

TITLE IV—CENTRAL INTELLIGENCE AGENCY

Sec. 401. General Counsel of the Central Intelligence Agency.

Sec. 402. Technical amendments to the CIA Act and National Security Act.

TITLE V—DEPARTMENT OF DEFENSE

Sec. 501. Foreign language proficiency pay for members of the reserve components of the Armed Forces.

Sec. 502. National Security Education Trust Fund.

TITLE VI—FEDERAL BUREAU OF INVESTIGATION

Sec. 601. Federal Bureau of Investigation counterintelligence access to consumer credit records.

TITLE I—INTELLIGENCE ACTIVITIES

SEC. 101. AUTHORIZATION OF APPROPRIATIONS.

Funds are hereby authorized to be appropriated for fiscal year 1994 for the conduct of the intelligence activities of the following elements of the United States Government:

- (1) The Central Intelligence Agency.
- (2) The Department of Defense.
- (3) The Defense Intelligence Agency.
- (4) The National Security Agency.
- (5) The National Reconnaissance Office.
- (6) The Central Imagery Office.
- (7) The Department of the Army, the Department of the Navy, and the Department of the Air Force.
- (8) The Department of State.
- (9) The Department of the Treasury.
- (10) The Department of Energy.
- (11) The Federal Bureau of Investigation.

SEC. 102. CLASSIFIED SCHEDULE OF AUTHORIZATIONS.

(a) SPECIFICATIONS OF AMOUNTS AND PERSONNEL CEILINGS.—The amounts authorized

to be appropriated under section 101, and the authorized personnel ceilings as of September 30, 1994, for the conduct of the intelligence activities of the elements listed in such section, are those specified in the classified Schedule of Authorizations prepared by the Select Committee on Intelligence of the Senate to accompany (S. 1301) of the One Hundred Third Congress.

(b) AVAILABILITY OF CLASSIFIED SCHEDULE OF AUTHORIZATIONS.—The Schedule of Authorizations shall be made available to the Committee on Appropriations of the Senate and the Committee on Appropriations of the House of Representatives and to the President. The President shall provide for suitable distribution of the Schedule, or of appropriate portions of the Schedule, within the executive branch.

SEC. 103. PERSONNEL CEILING ADJUSTMENTS.

(a) AUTHORITY FOR ADJUSTMENTS.—The Director of Central Intelligence may authorize employment of civilian personnel in excess of the number authorized for fiscal year 1994 under section 102 of this Act whenever the Director determines that such action is necessary for the performance of important intelligence functions, except that such number may not, for any element of the intelligence community, exceed 2 percent of the number of civilian personnel authorized under such section for such element.

(b) NOTICE TO INTELLIGENCE COMMITTEES.—The Director of Central Intelligence shall promptly notify the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate whenever the Director exercises the authority granted by this section.

SEC. 104. COMMUNITY MANAGEMENT ACCOUNT.

(a) AUTHORIZATIONS OF APPROPRIATIONS.—There is authorized to be appropriated for the Community Management Account of the Director of Central Intelligence for fiscal year 1994 the sum of \$144,588,000. Within such amounts authorized, amounts identified for the Advanced Research and Development Committee shall remain available for obligation through September 30, 1995.

(b) AUTHORIZED PERSONNEL LEVELS.—The Community Management Account of the Director of Central Intelligence is authorized 237 full-time personnel as of September 30, 1994. Such personnel of the Community Management Account may be permanent employees of the Community Management Account or personnel detailed from other elements of the United States Government.

(c) REIMBURSEMENT.—During fiscal year 1994, any officer or employee of the United States or a member of the Armed Forces who is detailed to the Community Management Account from another element of the United States Government shall be detailed on a reimbursable basis, except that any such officer, employee, or member may be detailed on a nonreimbursable basis for a period of less than 1 year for the performance of temporary functions as required by the Director of Central Intelligence.

TITLE II—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated for the Central Intelligence Agency Retirement and Disability Fund for fiscal year 1994 the sum of \$182,300,000.

SEC. 202. TECHNICAL CORRECTIONS.

(a) CORRECTIONS.—The Central Intelligence Agency Retirement Act (50 U.S.C. 2001 et seq.) is amended as follows:

(1) In section 101(7)—

(A) strike out the comma after "basic pay" and insert in lieu thereof "and"; and

(B) strike out ", and interest determined under section 281".

(2) In section 201(c), strike out "proviso of section 102(d)(3) of the National Security Act of 1947, (50 U.S.C. 403(d)(3))" and insert in lieu thereof "requirement in section 103(c)(5) of the National Security Act of 1947 (50 U.S.C. 403-3(c)(5))".

(3) In section 211(c)(2)(B), strike out "the requirement under section 241(b)(4)" and insert in lieu thereof "prior notification of a current spouse, if any, unless notification is waived under circumstances described in section 221(b)(1)(D)".

(4) In section 221—

(A) in subsection (a)(4), strike out "(or, in the case of an annuity computed under section 232 and based on less than 3 years, over the total service)";

(B) in subsection (f)(1)(A)—

(i) insert "after the participant's death" before the period at the end of the first sentence; and

(ii) strike out "after the participant's death" in the second sentence;

(C) in subsection (g)(1), strike out "(or is remarried)" and insert in lieu thereof "(or is remarried, "; and

(D) in subsection (j), strike out "(except as provided in paragraph (2))".

(5) In section 222—

(A) in subsection (a)(7), strike out "any other annuity" the first time it appears and insert in lieu thereof "any survivor annuity";

(B) in subsection (c)(3)(C), insert "the participant" before "or does not qualify"; and

(C) in subsection (c)(4), strike out "shall terminate" and all that follows and insert in lieu thereof "in the case of a spouse, shall terminate on the last day of the month before the spouse dies, and, in the case of a former spouse, shall terminate on the last day of the month before the former spouse dies, or on the last day of the month before the former spouse remarries before attaining age 55".

(6) In section 224(c)(1)(B)(i), strike out "former participant" and insert in lieu thereof "retired participant".

(7) In section 225(c)—

(A) in paragraph (3), strike out "any other annuity" the first time it appears and insert in lieu thereof "any survivor annuity"; and

(B) in paragraph (4)(A), strike out "1991" and insert in lieu thereof "1990".

(8) In section 231(d)(2), strike out "241(b)" and insert in lieu thereof "241(a)".

(9) In section 232(b)(4), strike out "section 222" and insert in lieu thereof "section 224".

(10) In section 234(b), strike out "sections 241 and 281" and insert in lieu thereof "section 241".

(11) In section 241—

(A) in subsection (c), strike out "A lump-sum benefit that would have been payable to a participant, former participant, or annuitant, or to a survivor annuitant, authorized by subsection (d) or (e) of this section or by section 234(b) or 281(d)" and insert in lieu thereof "A lump-sum payment authorized by subsection (d) or (e) of this section or by section 281(d) and a payment of accrued and unpaid annuity authorized by subsection (f) of this section";

(B) redesignate subsection (f) as subsection (g); and

(C) insert after subsection (e) the following new subsection (f):

"(f) PAYMENT OF ACCRUED AND UNPAID ANNUITY WHEN RETIRED PARTICIPANT DIES.—If a

retired participant dies, any annuity accrued and unpaid shall be paid in accordance with subsection (c)."

(12) In section 264(b)—

(A) in paragraph (2), insert "and" after the semicolon at the end;

(B) in paragraph (3), strike out "and to any payment of a return of contributions under section 234(a); and" and insert in lieu thereof ", and the amount of any such payment;"; and

(C) strike out paragraph (4).

(13) In section 265, strike out "Act" each place it appears and insert in lieu thereof "title".

(14) In section 291(b)(2), strike out "or section 232(c)".

(15) In section 304(i)(1), strike out "section 102(a)(3)" and insert in lieu thereof "section 102(a)(4)".

(b) RETROACTIVE EFFECTIVE DATE.—The amendments made by subsection (a) shall be effective as of February 1, 1993.

TITLE III—GENERAL PROVISIONS

SEC. 301. INCREASE IN EMPLOYEE COMPENSATION AND BENEFITS AUTHORIZED BY LAW.

There are authorized to be appropriated to carry out the purposes of this Act such additional amounts for fiscal year 1994 as may be necessary for increases in salary, pay, retirement, and other employee benefits authorized by law.

SEC. 302. RESTRICTION ON CONDUCT OF INTELLIGENCE ACTIVITIES.

The authorization of appropriations in this Act does not constitute authority for the conduct of any intelligence activity which is not otherwise authorized by the Constitution or the laws of the United States.

TITLE IV—CENTRAL INTELLIGENCE AGENCY

SEC. 401. GENERAL COUNSEL OF THE CENTRAL INTELLIGENCE AGENCY.

(a) POSITION ESTABLISHED.—The Central Intelligence Agency Act of 1949 (50 U.S.C. 403a et seq.) is amended by adding at the end the following:

"GENERAL COUNSEL OF THE CENTRAL INTELLIGENCE AGENCY

"SEC. 20. (a) There is a General Counsel of the Central Intelligence Agency appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b) The General Counsel of the Central Intelligence Agency is the chief legal officer of the Central Intelligence Agency.

"(c) The General Counsel of the Central Intelligence Agency shall perform such functions as the Director of Central Intelligence may prescribe."

(b) PAY FOR POSITION.—Section 5315 of title 5, United States Code, is amended by adding at the end the following:

"General Counsel of the Central Intelligence Agency."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect one year after the date of the enactment of this Act.

SEC. 402. TECHNICAL AMENDMENTS TO THE CIA ACT AND NATIONAL SECURITY ACT.

(a) AMENDMENTS TO CIA ACT.—The Central Intelligence Agency Act of 1949 (50 U.S.C. 403a et seq.) is amended as follows:

(1) In section 5(a)—

(A) strike out "Bureau of the Budget" and insert "Office of Management and Budget"; and

(B) strike out "sections 102 and 303" and insert in lieu thereof "subparagraphs (B) and (C) of section 102(a)(2), subsections (c)(5) and (d) of section 103, subsections (a) and (g) of section 104, and section 303".

(2) In section 6, strike out "section 102(d)(3)" and insert in lieu thereof "section 103(c)(5)".

(3) In section 19(b)—

(A) strike out "231" in the subsection heading and in the matter after clause (iv) and insert in lieu thereof "232"; and

(B) strike out "(50 U.S.C. 403 note)".

(b) AMENDMENTS TO NATIONAL SECURITY ACT.—Section 103(d)(3) of the National Security Act of 1947 is amended by striking out "providing" and inserting in lieu thereof "provide".

TITLE V—DEPARTMENT OF DEFENSE

SEC. 501. FOREIGN LANGUAGE PROFICIENCY PAY FOR MEMBERS OF THE RESERVE COMPONENTS OF THE ARMED FORCES.

(a) BONUS AUTHORIZED.—Section 316(c) of title 37, United States Code, is amended by striking out paragraphs (1) and (2) and inserting in lieu thereof the following:

"(1) Under regulations prescribed by the Secretary concerned, when a member of a reserve component who is entitled to compensation under section 206 of this title meets the requirements for special pay authorized in subsection (a), except the requirement prescribed in subsection (a)(1), the member may be paid an annual foreign language maintenance bonus.

"(2) The amount of the bonus under paragraph (1) shall be determined by the Secretary concerned but may not exceed the annual equivalent of the maximum monthly rate of special pay authorized under subsection (b) for a member referred to in subsection (a)."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect with respect to the first month that begins more than 90 days after the date of the enactment of this Act.

SEC. 502. NATIONAL SECURITY EDUCATION TRUST FUND.

(a) CREDITING OF GIFTS TO THE NATIONAL SECURITY EDUCATION TRUST FUND.—Section 804(e) of the Intelligence Authorization Act, Fiscal Year 1992 (50 U.S.C. 1904(e)) is amended by adding at the end thereof the following:

"(3) Any gifts of money shall be credited to and form a part of the Fund."

(b) REPEAL OF AUTHORIZATION REQUIREMENT.—Section 804(b) of such Act is amended—

(1) by striking "(1)";

(2) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2); and

(3) by striking paragraph (2).

[(c) TRANSFER OF FUNDS REQUIREMENT.—The Secretary of Defense shall transfer \$25,000,000 from the National Security Education Trust Fund to the miscellaneous receipts account of the Treasury.]

TITLE VI—FEDERAL BUREAU OF INVESTIGATION

SEC. 601. FEDERAL BUREAU OF INVESTIGATION COUNTERINTELLIGENCE ACCESS TO CONSUMER CREDIT RECORDS.

Section 608 of the Fair Credit Reporting Act (15 U.S.C. 1681f) is amended—

(1) by striking "Notwithstanding" and inserting "(a) DISCLOSURE OF CERTAIN IDENTIFYING INFORMATION.—Notwithstanding"; and

(2) by adding at the end the following new subsection:

"(b) DISCLOSURES TO THE FBI FOR COUNTERINTELLIGENCE PURPOSES.—

"(1) CONSUMER REPORTS.—Notwithstanding the provisions of section 604, a consumer reporting agency shall furnish a consumer report to the Federal Bureau of Investigation when presented with a written request for a

consumer report, signed by the Director of the Federal Bureau of Investigation (hereafter in this section referred to as the 'Director') or the Director's designee, which certifies compliance with this subsection. The Director or the Director's designee may make such a certification only if the Director or the Director's designee has determined in writing that—

"(A) such records are necessary for the conduct of an authorized foreign counterintelligence investigation; and

"(B) there are specific and articulable facts giving reason to believe that the consumer whose consumer report is sought is a foreign power or an agent of a foreign power, as defined in section 101 of the Foreign Intelligence Surveillance Act of 1978.

"(2) IDENTIFYING INFORMATION.—Notwithstanding the provisions of section 604, a consumer reporting agency shall furnish identifying information respecting a consumer, limited to name, address, former addresses, places of employment, or former places of employment, to the Federal Bureau of Investigation when presented with a written request, signed by the Director or the Director's designee, which certifies compliance with this subsection. The Director or the Director's designee may make such a certification only if the Director or the Director's designee has determined in writing that—

"(A) such information is necessary to the conduct of an authorized foreign counterintelligence investigation; and

"(B) there is information giving reason to believe that the consumer has been, or is about to be, in contact with a foreign power or an agent of a foreign power, as defined in section 101 of the Foreign Intelligence Surveillance Act of 1978.

"(3) CONFIDENTIALITY.—No consumer reporting agency or officer, employee, or agent of such consumer reporting agency may disclose to any person, other than those officers, employees or agents of such agency necessary to fulfill the requirement to disclose information to the Federal Bureau of Investigation under this subsection, that the Federal Bureau of Investigation has sought or obtained a consumer report or identifying information respecting any consumer under paragraph (1) or (2), nor shall such agency, officer, employee, or agent include in any consumer report any information that would indicate that the Federal Bureau of Investigation has sought or obtained such a consumer report or identifying information.

"(4) PAYMENT OF FEES.—The Federal Bureau of Investigation shall, subject to the availability of appropriations, pay to the consumer reporting agency assembling or providing credit reports or identifying information in accordance with procedures established under this title, a fee for reimbursement for such costs as are reasonably necessary and which have been directly incurred in searching for, reproducing, or transporting books, papers, records, or other data required or requested to be produced under this subsection.

"(5) LIMIT ON DISSEMINATION.—The Federal Bureau of Investigation may not disseminate information obtained pursuant to this subsection outside of the Federal Bureau of Investigation, except to the Department of Justice as may be necessary for the approval or conduct of a foreign counterintelligence investigation.

"(6) RULES OF CONSTRUCTION.—Nothing in this subsection shall be construed to prohibit information from being furnished by the Federal Bureau of Investigation pursuant to a subpoena or court order, or in connection

with a judicial or administrative proceeding to enforce the provisions of this Act. Nothing in this subsection shall be construed to authorize or permit the withholding of information from the Congress.

"(7) REPORTS TO THE CONGRESS.—On a semi-annual basis, the Attorney General of the United States shall fully inform the Permanent Select Committee on Intelligence and the Committee on Banking, Finance and Urban Affairs of the House of Representatives, and the Select Committee on Intelligence and the Committee on Banking, Housing, and Urban Affairs of the Senate concerning all requests made pursuant to paragraph (1) and (2).

"(8) DAMAGES.—Any agency or department of the United States obtaining or disclosing credit reports, records, or information contained therein in violation of this subsection is liable to the consumer to whom such records relate in an amount equal to the sum of—

"(A) \$100, without regard to the volume of records involved;

"(B) any actual damages sustained by the consumer as a result of the disclosure;

"(C) such punitive damages as a court may allow, where the violation is found to have been willful or intentional; and

"(D) in the case of any successful action to enforce liability under this subsection, the costs of the action, together with reasonable attorney's fees, as determined by the court.

"(9) DISCIPLINARY ACTIONS FOR VIOLATIONS.—If a court determines that any agency or department of the United States has violated any provision of this subsection and the court finds that the circumstances surrounding the violation raise questions of whether or not an officer or employee of the agency or department acted willfully or intentionally with respect to the violation, the agency or department shall promptly initiate a proceeding to determine whether or not disciplinary action is warranted against the officer or employee who was responsible for the violation.

"(10) GOOD-FAITH EXCEPTION.—Any credit reporting agency or agent or employee thereof making a disclosure of credit reports or identifying information pursuant to this subsection in good-faith reliance upon a certificate by the Federal Bureau of Investigation pursuant to provisions of this subsection shall not be liable to any person for such disclosure under this title, the constitution of any State, or any law or regulation of any State or any political subdivision of any State.

"(11) LIMITATION OF REMEDIES.—The remedies and sanctions set forth in this subsection shall be the only judicial remedies and sanctions for violations of this subsection.

"(12) INJUNCTIVE RELIEF.—In addition to any other remedy contained in this subsection, injunctive relief shall be available to require compliance with the procedures of this subsection. In the event of any successful action under this subsection, costs together with reasonable attorney's fees, as determined by the court, may be recovered."

The PRESIDING OFFICER. Under the previous order, there will be 30 minutes of debate, equally divided, on the bill itself. There is an agreement for 2 hours and 10 minutes for debate on the amendment of the Senator from Ohio [Mr. METZENBAUM]. Three amendments are in order during the time of debate on the bill itself.

The pending question at this time is the committee amendment on page 14, line 24.

Is there any further debate on that amendment?

If not, the question is on agreeing to the amendment.

The committee amendment on page 14, line 24, was agreed to.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. DECONCINI. Mr. President, I thank the Chair for the restatement of the unanimous-consent agreement and the adoption of the amendment.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. DECONCINI. Mr. President, it is a distinct privilege for me in this my first year as chairman of the Select Committee on Intelligence, to present to the Senate, along with my distinguished colleague from Virginia and vice chairman of the committee, Senator WARNER, S. 1301, the Intelligence Authorization Act for fiscal year 1994.

As always, this has been a bill arrived at by the committee after many hours of hearings and briefings, after digesting literally thousands of pages of budget justification program relating to every intelligence program undertaken by our Government.

Indeed, Mr. President, I daresay that there is not another area of Government activity that receives the kind of detailed scrutiny of its activities from the Congress than does the area of intelligence. We are blessed with a particularly talented, knowledgeable staff who serve well the interests of the committee and the Senate as a whole.

Mr. President, this bill authorizes funding for fiscal year 1994 for all of the national intelligence activities of the Federal Government, to include those of the Central Intelligence Agency, the National Security Agency, the Defense Intelligence Agency, the National Reconnaissance Office, the Central Imagery Agency, and the intelligence elements of the military departments, the FBI, and the Departments of State, Treasury, and Energy. In addition, it provides certain administrative authorities which I will explain in more detail at the end of my statement.

Because the amount authorized for national intelligence programs is classified by the executive branch, as well as the amounts authorized for specific programs, I am unable to provide specifics in an open session of the Senate. Every Senator is entitled to know, however, what is being authorized for every intelligence activity if he or she desires. As we do each year, the committee invited Members to come to its offices to see the specific numbers for themselves, or, if they preferred, to be briefed on them.

While I am unable to provide the specific numbers, Mr. President, the bill we are recommending today represents

a significant cut from the administration's original request and would essentially hold the line at or just below last year's appropriated level. This would mean that for a fifth consecutive year, dating back to the fall of the Berlin Wall and collapse of the Soviet Union, the budget for national intelligence activities has declined. Overall, if this bill is enacted, intelligence resources will have shrunk 13 percent in real terms when compared with 1989 appropriations.

Last year, the cut imposed by Congress was particularly severe, the largest percentage cut in at least 20 years. In addition to these funding cuts, Congress levied an across-the-board 17.5-percent reduction in personnel in all intelligence agencies, including the CIA, by 1997. So, there should be no mistake, Mr. President, intelligence has been cut and cut severely over the last 5 years. Functions are being consolidated, and agencies are being streamlined.

The administration, moreover, continues to tell us that it intends to fulfill its pledge to cut the prior administration's projected spending for intelligence by \$7 billion over the next 4 years. It is optimistic that intelligence capabilities can be further restructured in a way that additional savings will be possible. At the same time, it urges us to work with it to draw down in a measured way which will leave the United States with a flexible but adequate capability to gather and analyze information needed by the President and other policymakers, by our military forces, and by literally thousands of other intelligence consumers in government and industry. The cuts being recommended to the Senate in this year's authorization bill, in my view, represent such a measured approach.

Yes, the world has changed. We no longer face the same sort of threat to our survival that we faced during the cold war. At the same time, we cannot ignore the legitimate and continuing demands being placed upon intelligence.

To begin with, the focus of United States intelligence during the cold war, namely the military threat posed by the Soviet Union and its Warsaw pact allies, though changed, has not entirely disappeared. There remain in the Russian Republic and the former Soviet Republics of Ukraine and Kazakhstan roughly 30,000 strategic and tactical nuclear weapons. While the governments of these republics are no longer hostile to the United States and presently seem unlikely to become so, control of these weapons, to prevent their loss to extremist states or terrorists, remains a significant concern of the United States.

Indeed, the United States has a serious stake in preventing the proliferation of weapons of mass destruction, whether they be nuclear, chemical, or

biological weapons, as well as the proliferation of missile systems able to deliver these weapons over long distances. It is clear that several states—some of whom are hostile to the United States or have unstable relationships with neighboring countries—countries like North Korea, Libya, Iran, and Iraq—are attempting to become nuclear states or are developing chemical or biological weapons. Should they succeed in developing these capabilities, other states in the same region may decide they have no alternative but to follow a similar path.

The intelligence community monitors the control and movement of existing weapons of mass destruction and tracks the development and production of these weapons and the systems designed to deliver them. The results of these efforts have been the basis for diplomatic actions by the United States and increasingly are being provided to international bodies charged with monitoring compliance with treaties designed to prevent the spread of such weapons and related delivery systems.

The intelligence community also provides virtually the sole means of verifying many bilateral and multilateral agreements signed by the United States. In addition, the intelligence community plays a key role in terms of advising U.S. diplomats involved in negotiating such agreements.

In a similar vein, the intelligence community is asked to monitor the effectiveness of international economic or military sanctions which might be imposed on other countries by the United Nations or by the United States on a unilateral or multilateral basis. Frequently the results of these efforts have led to diplomatic or military actions to enforce or effectuate the sanctions or embargoes concerned.

A large part of the intelligence community's efforts are devoted to support of U.S. military forces, which, with the end of the superpower conflict, must prepare for a variety of new contingencies. While clearly the threat of nuclear devastation has lessened, longstanding ethnic, cultural, and political rivalries previously held in check by the superpower conflict have been unleashed. Regional conflicts have been spawned around the globe, and it has become increasingly difficult to predict where U.S. military forces might be deployed, what their objectives will be once deployed, or what type of military threat they might face. The job of the intelligence community is to anticipate where such deployments might occur and maintain an information base capable of supporting such contingencies.

This function entails not only identifying the capabilities and vulnerabilities of opposing military or paramilitary forces, but also gathering information to be used in planning U.S.

operations, targetting data to guide U.S. smart weapons, data to counter enemy radars and sensors which otherwise might threaten U.S. aircraft, and other military support functions.

Once U.S. forces are deployed, the intelligence community typically brings to bear its entire capability in their support, both to achieve the rapid success of the mission and to protect U.S. lives and resources.

Increasingly, the intelligence community is also supporting the operational deployments of U.N. peacekeeping forces as well, providing intelligence on threats to the safety and mission of such forces. This has recently occurred in support of United Nations operations in Cambodia and Bosnia and Herzegovina. Clearly, where United States forces are participating in United Nations operations, as they currently are in Somalia, the level of intelligence support is substantially enhanced.

In addition to supporting military operations, the intelligence community also provides support to the planning of U.S. military force structures and tactics, as well as to the research, development and acquisition of military weapons and equipment by the Department of Defense. Even in an era of military downsizing, the intelligence community continues to provide literally thousands of defense planners and contractors with information concerning foreign military capabilities which must be taken into account as they assess U.S. military needs of the future and build the capabilities to match them.

The end of the cold war has also seen increasing recognition of the importance of a strong domestic economy as an element of U.S. national security. This recognition has caused a reexamination of the intelligence community's capabilities and proper role in terms of supporting the competitive position of U.S. industry abroad. While there are clear pitfalls to be avoided in this area, intelligence agencies are increasingly being called upon by Federal agencies which are charged with promoting U.S. competitiveness abroad—principally, the Departments of State, Commerce, and the Treasury—to alert them to cases in which there is a need to keep the playing field level for U.S. business interests abroad. Similarly, the Federal Bureau of Investigation [FBI] and other elements of the intelligence community provide information to firms within the United States which indicates such firms may be the subject of an intelligence attack by foreign governments or by persons or companies acting under the sponsorship of a foreign government.

The intelligence community also plays important, though largely unseen, roles in the areas of counterterrorism and counternarcotics.

The FBI intelligence division has responsibility for tracking and monitoring possible international terrorist activity within the United States. The CIA and other intelligence agencies are involved in monitoring terrorist activities abroad. Such monitoring includes tracking the movements of known or suspected terrorists, developing information on their training, tactics, operations and equipment, and developing information regarding the relationships between terrorist groups and foreign governments. The information developed as a result of such monitoring is shared by the United States with the authorities of other governments whose nationals or resources might be threatened by terrorist activities. The objectives of such monitoring are to prevent terrorist incidents from taking place, such as the recent action by the FBI to prevent a series of bombings and assassinations in New York City, or to apprehend and prosecute the perpetrators of terrorist acts, such as the recent bombing of the World Trade Center or the downing of Pan Am 103 several years before. In each of the cases cited, the intelligence community played a significant role in preventing or redressing terrorist incidents involving U.S. citizens or property.

The role of the intelligence community in countering international narcotics activities is also significant but not well appreciated. U.S. intelligence capabilities are frequently used to determine where narcotic substances are being grown or produced in foreign countries, to determine where narcotics are being shipped or transported, to understand the network used to produce and distribute these narcotics, or to learn where proceeds from their sale are being used or deposited. This information is turned over not only to U.S. drug enforcement authorities, but to appropriate authorities in other governments to identify and locate the individuals involved in such activities and to preclude them from successfully carrying out their plans. Often, there is only an indirect benefit to the United States, and more often than not the role of U.S. intelligence agencies is not publicly acknowledged by other governments. Suffice it to say, the involvement of U.S. intelligence often provides the key to a successful raid on a drug installation in a foreign country or a successful interception of narcotics in international transit.

Finally, Mr. President, the President and other key policymakers have a continuing need for secret, nonpublicly available information regarding the intentions and capabilities of other governments. To be sure, the world political environment has become far more open and foreign leaders more accessible since the end of the cold war. Communications between the United States and other governments, aided

by the explosion of technology in recent years, have become more voluminous, direct, and timely. News media instantly flash images and commentary concerning world events to all points of the globe.

Still, the President needs a capability to assess what other governments are saying. Are events as they seem? Can the President rely upon what other governments are saying privately or what they state publicly? How firm is their position? What is their reaction likely to be if the United States takes a particular action and not another? Are U.S. interests threatened and, if so, how?

The intelligence community, by attempting to gather and analyze information concerning the actions or attitudes of other governments which is not publicly available, is often able to provide unique insights to the President and other policymakers. On occasion, this information has provided a reliable basis for a significant U.S. diplomatic or military initiative which would not have otherwise been attempted. This is not to say that the contribution made by U.S. intelligence has always been unique or reliable or actionable. I, myself, have criticized the intelligence community's analysis regarding the former Soviet Union and Iraq's military strength during the Persian Gulf war. I simply note that at times the contribution of intelligence has been invaluable.

In short, Mr. President, we have to stay ready. It makes no sense for us to close our eyes and ears to developments around the world which could ultimately save U.S. lives and resources. This funding level authorized by this bill leaves us in a strong position, and I believe deserves broad, bipartisan support within this body.

In addition to authorizing funds for intelligence, the bill achieves a number of other purposes. Let me summarize the key provisions very briefly.

Title I of the bill contains the annual authorizations for the funding and personnel levels of the community management staff, the element used by the Director of Central Intelligence to support his role as head of the U.S. intelligence community.

Title II of the bill authorizes the annual appropriation for the CIA retirement and disability fund and contains a series of technical amendments correcting errors in the CIA Retirement Act enacted last year.

Title III of the bill contains general provisions governing intelligence activities which appear in each year's authorization.

Title IV would create a statutory position of general counsel for the CIA, to be appointed by the President and subject to Senate confirmation. At present, the general counsel is appointed by the Director of Central Intelligence and is not subject to Senate confirmation.

Senator GLENN offered this amendment at the committee markup explaining that in his view Senate confirmation of the CIA general counsel would be an important safeguard in terms of ensuring that qualified attorneys rather than political cronies are appointed to this key position. This provision had bipartisan support within the committee.

Title IV also contains a series of technical amendments to the CIA Act of 1949 and the National Security Act of 1947.

Title V provides the Secretaries of the military departments with authority to offer enhanced payments to members of military reserve components who maintain proficiency in foreign languages. At present, the maximum that can be paid to reservists as an incentive to maintain such proficiency is \$185 per year, or a little over \$15 per month. The bill would allow the military to pay up to \$100 per month, the same as active duty military.

Title V also contains a minor amendment to the National Security Education Act and repeals the requirement in the law for an annual authorization in order to remove money from the trust fund established by the act. An annual appropriation would still be required.

Finally, title VI of the bill would amend the Fair Credit Reporting Act to grant the Federal Bureau of Investigation access to consumer credit records in counterintelligence and terrorism investigations. This authority was requested by the administration and was justified to the committee as an important adjunct to the FBI's investigative authorities.

I am pleased to note that the Committee on Banking, Housing and Urban Affairs, which has jurisdiction over the Fair Credit Reporting Act, consented to our committee doing this on our bill and has worked closely with us in crafting appropriate wording.

Mr. President, those are the key features of this year's intelligence authorization bill. It is a responsible bill which enjoys bipartisan support from our committee. I urge my colleagues to support it.

Mr. President, I yield to my vice chairman, Senator WARNER.

The PRESIDING OFFICER. The Senator from Virginia is recognized.

Mr. WARNER. Mr. President, first I would like to commend the chairman of the committee, Senator DECONCINI. We have worked, I think, in a bipartisan spirit, together with the members on our committee, to forge this important piece of legislation. We have also been assisted by very capable staff on this.

Mr. President, I support passage of S. 1301, the Intelligence Authorization Act for fiscal year 1994. It has been a privilege to work with the chairman of our Select Committee on Intelligence,

Mr. DECONCINI, in fashioning a bill to ensure that the Nation has the intelligence capabilities it needs for the future. We also appreciate the fine cooperation we received from the chairman, Mr. NUNN, and the ranking Republican, Mr. THURMOND, of the Committee on Armed Services.

With the end of the cold war and the dissolution of the Soviet Union and its Warsaw pact military alliance, the United States had hoped for a new world order with stable and steady progress toward greater democracy, freedom, and free enterprise. What the United States faces in the post-cold-war era, however, is a more chaotic environment with multiple challenges to U.S. interests that complicate the efforts of the United States and cooperating nations to achieve the desired progress. In an unstable world of diverse and increasing challenges, the need for robust and reliable intelligence capabilities has grown rather than diminished.

Enactment of S. 1301 will help build and maintain the intelligence capabilities we need.

America faces a world in which ethnic, religious, and social tensions spawn regional conflicts; a number of nations possess nuclear weapons and the means to deliver them on a target; other nations seek nuclear, chemical, or biological weapons of mass destruction and the means to deliver them; terrorist organizations continue to operate and attack U.S. interests; international drug organizations continue on a vast scale to produce illegal drugs and smuggle them into the United States; and U.S. economic interests are under constant challenge. Of course, the United States continues to have a vital interest in close monitoring of developments in the independent Republics on the territory of the former Soviet Union.

As is reflected in the minority views accompanying the intelligence committee report on the bill (S. Rept. 103-115), I would have preferred a level of funding for intelligence activities higher than the committee recommended. Among other things, such activities are an important force-multiplier for our Armed Forces in meeting an increasing variety of challenges. Funding for the full range of Federal activities has grown extremely tight, especially in recent months as Congress has considered fiscal year 1994 funding bills, which is appropriate to protect American taxpayers interests. It is in this context that I support passage of S. 1301 to move the process forward. Within the overall level the committee has set for intelligence funding—which must, of course, remain secret—the committee has generally distributed the funding among the various intelligence programs effectively, to maximize the capability achieved from the given level of resources.

I support the four committee amendments, which are:

The Armed Services Committee amendment relating to the National Security Education Act;

The Intelligence Committee amendment relating to pay retention for certain FBI New York personnel;

The Intelligence Committee amendment requiring a report on gaps in U.S. intelligence capabilities; and

The Intelligence Committee amendment that revises section 307 of the National Security Act and ratifies a past funding transaction.

I will oppose the amendment to be offered by the junior Senator from Ohio to express the sense of Congress that the intelligence budget should be disclosed.

I regret that we were unable to reach a timely agreement with our majority colleagues on the Armed Services Committee on an amendment to section 504 of the National Security Act of 1947. The amendment the select committee was pursuing would have made it legally unnecessary to pursue supplemental intelligence authorization statutes in situations in which funds are appropriated for intelligence activities in excess of, or in the absence, of authorization of appropriations for such activities. It is our intention to pursue such an amendment to section 504 promptly as separate legislation. I introduced such legislation on October 21, 1993 (S. 1578) to solve the problems created by section 504, as set forth in detail in my statement upon introducing S. 1578, which is printed in the CONGRESSIONAL RECORD of that date.

I urge passage of S. 1301 with the four committee amendments.

Mr. President, I will summarize in just several sentences.

We are downsizing the Armed Forces of the United States. We do that by necessity because of the budget situation in the United States today. I personally think we are moving too fast in that direction. We have cut back too far.

But, nevertheless, the Nation's intelligence, as gathered by the various components—the Central Intelligence Agency, the Defense Intelligence Agency, the National Security Agency, the National Reconnaissance Office, and other departments and agencies that work in the intelligence field—becomes a force multiplier. By providing timely and accurate intelligence for our Armed Forces, our intelligence agencies help us use our smaller Armed Forces to maximum effect.

The intelligence gathered by these intelligence services is fed to our decisionmakers, from the President on down, and becomes a force multiplier to help compensate for the reduction in defense spending.

So I urge our colleagues to adopt this bill. It is a good bill. It is carefully forged.

Regrettably it does not, dollarwise, meet the intelligence budget request for fiscal year 1994 of the President of the United States. I was very much in favor of the budget request of the President of the United States, which provided for strong U.S. intelligence capabilities. But it was not in the judgment of the majority of the committee to support that level of funding. I was overruled. I accept that judgment that the committee decided to mark to a lower figure.

I would also make just a few remarks on the amendment just adopted by the Senate. It is an amendment relating to the national security education trust fund, which is a concept that originated primarily with Senators BOREN, NUNN, myself, and others. I am very pleased that that is incorporated as a part of the bill.

Mr. President, the Committee on Armed Services, on which I serve in addition to being vice chairman of the Select Committee on Intelligence, recommended a single amendment to the intelligence authorization bill.

The Armed Services Committee amendment would strike from the bill a provision that would return to the Treasury \$25 million from the national security education trust fund. That trust fund finances a program of scholarships for undergraduate study abroad, graduate study in the United States, and grants to institutions of higher learning devoted to the study of foreign languages and cultures.

The Armed Services Committee amendment supports the National Security Education Program and had our support. We are pleased to support this program originated by Senator BOREN when he was chairman of the Select Committee on Intelligence.

The PRESIDING OFFICER. Who yields time?

Mr. DECONCINI. Mr. President, I yield myself whatever time is necessary.

Mr. President, S. 1301 was reported by the Senate Select Committee on Intelligence by a vote of 12 to 5 on July 28, 1993. It was subsequently referred to the Committee on Armed Services, pursuant to the provisions of Senate Resolution 400 of the 94th Congress, and has now been reported by that committee with one minor amendment, which has just been discussed, regarding the National Security Education Act and has just been adopted.

Mr. GLENN. Mr. President, I rise in support of the fiscal year 1994 Intelligence Authorization Act. This marks the first budget cycle that the Senate Select Committee on Intelligence, of which I am a member, has been under the capable leadership of Chairman DENNIS DECONCINI and Vice Chairman JOHN WARNER. I would like to take this time to express my great respect and admiration for these two gentlemen and their fine work on the committee.

My colleague from Arizona has recently made the difficult decision to retire from the Senate after his current term expires. I know that this was a difficult decision for Senator DECONCINI, but he has many reasons to be proud of his record here in the Senate. It has been a pleasure serving with him on the Senate Intelligence Committee and I look forward to continue serving with Senator DECONCINI on the committee through next year under his chairmanship.

Despite my concerns with the level of reductions contained in this legislation, I ultimately supported final passage of the committee's markup of the fiscal year 1994 intelligence authorization bill. Under Chairman DECONCINI's leadership, I believe that the reductions made to the intelligence budget in our committee markup were generally reasonable and responsible. Some of my Senate colleagues are anxious to further reduce the intelligence budget. I strongly oppose any such effort and would urge my colleagues to do the same.

Mr. President, I believe that intelligence comprises an unique and irreplaceable component of America's national security infrastructure and should be treated accordingly. With the end of the cold war—which existed in a comparatively stable and predictable international environment—the need for a robust and reliable intelligence capability has grown rather than diminished. In the wake of the dissolution of the Soviet Union, the so-called new world order is anything but orderly.

As the recent parliamentary crisis in Russia and the continued upheaval in the former republics clearly demonstrates, America continues to have significant interests in developments in the former Soviet Union. The intelligence community must continue to aggressively monitor these changes.

To the extent that we need to reduce resources to certain intelligence targets, we must focus more of our intelligence capabilities and resources on other security threats such as the proliferation of weapons of mass destruction, drug smuggling, terrorism, environmental change, arms control monitoring, low-intensity conflict in the Third World, and the illicit export of high-technology items.

Mr. President, in this period of enormous change and uncertainty, the need for timely and accurate intelligence is particularly compelling. Indeed, the United States depends on intelligence to detect and monitor these changes in the international system so we can reallocate increasingly scarce national security resources in a more efficient manner.

The effectiveness of United States military forces in Somalia, Iraq, Panama, and elsewhere are directly attributable to timely and effective intel-

ligence. Without question, accurate and timely intelligence is our greatest force-multiplier—particularly at a time when we are significantly reducing our defense spending. When the day comes that the United States must rebuild our national defense—to confront a threat that is now difficult to foresee, we must do so from the strongest and most reliable intelligence base possible.

This body should overwhelmingly oppose any effort to take a meat ax to America's intelligence budget.

Mr. President, I would like to address another aspect of the legislation before the Senate today. The bill contains a provision I sponsored in committee requiring Presidential nomination and Senate confirmation of the CIA general counsel. Currently, only three CIA officials—the Director of Central Intelligence [DCI], the Deputy Director of Central Intelligence [DDCI], and the inspector general [IG]—are confirmed by the Senate.

The precedent for White House and Senate involvement in the selection of senior CIA officials was established at the inception of the present-day U.S. intelligence establishment. The National Security Act of 1947 provided for Presidential nomination and Senate confirmation of the DCI, and the same procedure for selection of the Deputy Director of Central Intelligence (DDCI) was established in 1953. In 1989, President Bush signed legislation into law which created a statutory inspector general [IG] for the CIA with a requirement that the nominee be confirmed by the Senate.

The general counsel position was in existence when the CIA was established in 1947. The CIA general counsel is responsible for providing legal advice to the DCI and the Agency as a whole on all matters, and is responsible for determining the legality of CIA activities and for guarding against any illegal or improper activity.

The responsibilities of CIA's general counsel are in some ways more significant than those of other general counsels in view of the extremely sensitive programs involved that directly affect our Nation's security. Many of the legal issues are unique to the CIA and have to be treated without the extensive public discourse and numerous precedents that aid other general counsels. The incumbent CIA general counsel deserves the status of a Presidential appointment and Senate confirmation as well as the prestige that this status will give the incumbent in inter-agency deliberations.

Mr. President, I sponsored this provision because I am convinced that the confirmation process has become an increasingly important means to insure the accountability of senior level executive branch officials to the American people through their duly elected representatives in the Congress. This is

particularly true of the CIA, which plays a special role in our Government.

Indeed, the CIA is unique among all Federal agencies in the level of trust it demands from the American public and the Congress. And the CIA is unique from other intelligence agencies such as the Defense Intelligence Agency [DIA], the National Security Agency [NSA], the National Reconnaissance Office [NRO], and the FBI.

Although the CIA is not charged primarily with policymaking, it plays a significant role in the formulation of national security policy. The close relationship between the CIA and policymakers is recognized in the legislation that established the CIA.

Among the duties assigned to the CIA by section 103(d)(5) of the National Security Act of 1947 as amended is to "perform such other functions and duties related to intelligence affecting the national security as the President or the National Security Council may direct." This broad provision has been interpreted to include, among other things, the CIA's role in planning and implementing various types of sensitive activities overseas—including covert action, which is, need I remind my colleagues, operational U.S. policy.

As the CIA has grown over the years, its support to U.S. national security policies has broadened into many different areas. The individual who holds the CIA general counsel position advises the DCI and the DDCI about the legality of CIA activities. The DCI and the DDCI are in turn responsible for providing leadership and direction not only to the CIA, but the entire U.S. intelligence community as well. Thus, the CIA general counsel plays a significant role supporting the entire national security infrastructure of our Nation.

Unlike other intelligence agencies such as NSA, DIA, the NRO, or the FBI, the CIA is not organizationally subordinate to another department of the Federal Government—by statute, it directly supports the President and the National Security Council. NSA, DIA, and the NRO are agencies of the Department of Defense, and the FBI is subordinate to the Department of Justice. In addition, the CIA, unlike the NSA, DIA, the NRO, and the FBI and all other components of the intelligence community, is the only intelligence agency—and indeed the only Federal agency—that is not subject to GAO audits. This organizational independence places the CIA in a different category from other components of the intelligence community and argues for a greater degree of scrutiny of high-level agency officials.

Mr. President, I would also note that at the present time, all components of the intelligence community—except the CIA—are part of departments with statutory general counsels—or the equivalent—who are appointed by the

President, and confirmed by the Senate. In some departments the title of general counsel does not exist, but essentially similar functions are performed by solicitors or legal advisers.

Specifically, the general counsels of the Department of Energy and the Department of the Treasury are confirmed, as is the Department of State's legal advisor. The FBI is an element of the Department of Justice, which has a Senate confirmed Assistant Attorney General in the Office of Legal Counsel. The Defense Intelligence Agency [DIA], the National Security Agency [NSA], and the National Reconnaissance Organization [NRO] are all elements of the Department of Defense—which has its general counsel confirmed.

The CIA, as a result of its size and importance within the Federal Government, should be treated in the same manner as other departments, including those having national security responsibilities. The Senate Select Committee on Intelligence has taken the lead in the last few years in seeking to provide a clearer statutory framework for intelligence agencies—and this initiative is a logical part of this effort.

Mr. President, Senate confirmation of the CIA general counsel is not a new idea. Indeed, it has been recommended to the Senate several times over the last two decades.

For example, the Church Committee, in its final report in 1976, recommended that the CIA have a general counsel nominated by the President and confirmed by the Senate.

A similar recommendation in favor of Senate confirmation of the CIA general counsel was made by the congressional committees investigating the Iran-Contra affair in 1987. During the Iran-Contra affair, the CIA's general counsel drafted a retroactive Presidential finding to justify the Reagan administration's covert arms-for-hostages policy and provide after-the-fact authorization for CIA operations. This finding, in part, directed "the Director of Central Intelligence not to brief the Congress of the United States * * * until such time as I may direct otherwise." The final version of this covert action finding was not reported to the Congress for almost a year when public disclosure of the Iran-Contra affair made it impossible to continue to hide the finding from the intelligence committees.

Concerns about the working of the CIA General Counsel's Office were raised more recently.

Earlier this year, the staff of the Senate Select Committee on Intelligence completed an investigation of the intelligence community's role in the BNL-Atlanta affair. The committee staff report documented a number of instances where the performance of the CIA General Counsel's Office was deficient. The most egregious of all the shortcomings documented in this epi-

sode was the preparation and release of a letter by the CIA General Counsel's Office to the Department of Justice—a public letter which lawyers at the CIA subsequently acknowledged was incomplete and misleading. Essentially, the letter failed to acknowledge information that the CIA had in its possession which might well have been pertinent to a Federal sentencing hearing in Atlanta.

If not for the diligence of the Senate Select Committee on Intelligence and others in Congress who—unlike the American public—had access to enough secret information to recognize that the letter was misleading, this action might have gone unnoticed. Instead, the controversy over the letter led CIA back to its secret files, where it found even more information relevant to the BNL-Atlanta case that had never been disclosed to the court or even to Federal prosecutors.

The committee staff report also found that the CIA General Counsel's Office had been remiss in responding to the concerns of the presiding judge at the Atlanta hearing, Judge Marvin Shoob. In addition, the report also found shoddy staff work performed by the CIA General Counsel's Office in terms of responding to Justice Department requests—as well as ensuring that the CIA itself was meeting its obligations under applicable case law.

Undeniably, mistakes can occur in any office and errors in judgment can take place whether or not the head of the CIA General Counsel's Office is confirmed by the Senate. But I do think that this unfortunate episode underscores the importance of the functions the CIA General Counsel's Office performs on a daily basis. Not only does this office serve an important advisory function to the DCI, but the CIA General Counsel's Office is also the point of interface with the Department of Justice and the courts. It is therefore essential that the CIA have someone in this position who not only understands intelligence, but the law enforcement system and judicial process as well. Our best guarantee of attaining this objective is to make sure that the Senate has an opportunity to assess the CIA general counsel's qualifications through the confirmation process.

Mr. President, I believe that both the Iran-Contra and the BNL-Atlanta examples clearly demonstrate why it is important that the top legal office of the Central Intelligence Agency be fully accountable to the Congress and the American people through the Senate confirmation process. I am convinced that Senate confirmation of the CIA general counsel would make the individual holding that important office far more sensitive to the fact that the Congress shares both the power and the responsibility for our nation's security.

And when confronted with decisions such as whether to deliberately ignore the requirement to provide notification to the congressional intelligence committees or publicly release deceptive information, a CIA general counsel who has faced the scrutiny of the confirmation process would likely think twice before considering whether or not it is possible to safely disappear in the fog of unaccountability at the CIA.

Mr. President, it is important to note that on the infrequent occasions when a presidential nominee is rejected, it is often because the nominee is considered to lack the requisite professionalism for the position. Hence, the confirmation process tends to support professionals against any administration's efforts to place unqualified non-professionals into senior positions in the Federal Government.

Senate confirmation is a constructive means of enhancing public and congressional confidence in the senior leadership of the CIA. This is accomplished not only by ensuring that the nominee has the necessary qualifications for the job, but that the nominee is also firmly committed to the intelligence oversight laws and will be truthful, candid, and forthcoming in dealing with Congress.

In view of their responsibilities in supporting the National Security Council in sensitive areas of policy formulation, I believe that Senate confirmation of the CIA general counsel will ultimately serve to create confidence and rapport between the nominees and the legislative branch. Through the record established during confirmation, the nominee and the SSCI could clarify and establish a common understanding of the position's role and responsibilities, develop a constructive working relationship, and define the appropriate constraints on CIA activities. This process will go a long way toward avoiding problems as a result of misunderstandings, which in turn could lead to abuses of authority.

Mr. President, some might argue that the DCI should make his or her own selection for this position and that we should be wary of anyone vetted through the so-called political swamp of the White House nomination process. This highly dubious line of reasoning presupposes that DCI's will be infallible in making selections for senior positions at the CIA. A review of the CIA's history and senior CIA officials appointed to their positions by past Directors of Central Intelligence would result in the inescapable conclusion that some of these individuals—ostensibly placed in their positions without the political taint of the confirmation process—have been far from divinely inspired choices.

Alternatively, I would note that today there are currently three officials at the CIA—Director Jim Woolsey, Deputy Director Bill Studeman,

and Inspector General Fred Hitz—who have been vetted through the dreaded White House political swamp and survived the Senate confirmation process intact. All three of these fine public servants have proven themselves to be excellent in their respective positions out at the CIA—and none of them seems to be worse off from the Senate confirmation experience.

Some have argued that requiring Senate confirmation of a senior position at the CIA—or anywhere else in the Federal bureaucracy—somehow politicizes the office. In fact, just the opposite is true. The confirmation process can only block the President from appointing a particular individual—it cannot compel the nomination of anyone with a particular viewpoint preferred by the Senate.

As Alexander Hamilton stated in the *Federalist Papers* No. 66:

It will be the office of the President to nominate, and with the advice and consent of the Senate to appoint. There will, of course, be no exertion of choice on the part of the Senate. They may defeat one choice of the Executive and oblige him to make another; but they cannot themselves choose—they can only ratify or reject the choice he may have made.

In other words, without a requirement for Senate confirmation, there is nothing to prevent the politicization of a senior Federal Government position by an administration. Indeed, Senate confirmation should do more to prevent politicization than to promote it. As Dr. Richard Betts of Columbia University has stated, "considering the difference between the power to appoint and the power to review the appointment, politicization comes from the Executive more readily than from Congress. If a President or * * * DCI wish to put unqualified political cronies in sensitive CIA positions, they can do so, as of now, without challenge."

It should also be noted that the confirmation of senior officials in Government has traditionally worked to protect against the politicization of these positions, while failure to confirm has worked to protect the President's political prerogatives. For example, senior Government officials who are not confirmed—such as the White House Chief of Staff and the Assistant to the President for National Security Affairs—have been exempted from the confirmation process precisely to prevent Congress from interfering with the President's political control of these positions on the President's personal staff.

Indeed, Senate confirmation will help prevent politicizing the position of the CIA general counsel by raising the standards of this important post. Because the nominee must appear before the Senate Select Committee on Intelligence [SSCI], the nominee is more likely to be scrutinized carefully—by both the executive branch and the Con-

gress—than otherwise. This process would help preclude a hasty or ill-considered appointment by a single individual—the DCI.

Requiring Senate confirmation of the CIA general counsel is no more likely to politicize the operation of the Central Intelligence Agency than would the existing requirement to confirm the DCI, the DDCI, and the inspector general.

Mr. President, I would also like to point out to my colleagues that under the legislation passed by our committee, the DCI—as well as the President—can remove the statutory CIA general counsel from office. Also, the committee report states specifically that the "establishment of the statutory position does not impair or affect the existing authority" of the DCI, and that the DCI should be afforded "substantial flexibility to decide from time to time what authorities to delegate and duties to assign to the CIA general counsel."

The bill also stipulates a one-year period before the statutory CIA general counsel provision takes effect—allowing the Agency and the administration adequate time to take any necessary administrative and personnel actions for this transition to take place.

Mr. President, I strongly believe that accountability is the fundamental objective of congressional oversight of intelligence.

And intelligence oversight imposes a unique burden on the two congressional intelligence committees which serve as surrogates, not only for the Congress as a whole, but the American people. Because congressional oversight of the CIA and the rest of the intelligence community must necessarily be conducted in the black box of secrecy, the committees must demand accountability and possess the will to conduct thorough oversight. I would also point out to my colleagues that the CIA is the only intelligence agency over which the Senate Select Committee on Intelligence has sole and exclusive authorization and oversight jurisdiction in the Senate.

Before the two intelligence oversight committees were created in the mid-1970's, Congress conducted what I refer to as oversight by oversight of U.S. intelligence—preferring to know little more than it was told by the CIA. As one Senator stated some years ago: "It is not a question of reluctance on the part of CIA officials to speak to us. Instead, it is a question of our reluctance, if you will, to seek information and knowledge on subjects which I personally * * * would rather not have. * * *"

Mr. President, this is an attitude that this body can ill-afford, particularly in the post-cold-war era.

I am second to no one in my support for a strong, effective, and responsible CIA. Nevertheless, the Central Intelligence Agency, like any large bureauc-

racy, is capable of waste, abuse, mismanagement, and incompetence. Because the CIA is such a vast and secretive organization, it is essential that it be made fully accountable for its actions.

Intelligence activities are consistent with democratic principles only when they are conducted in accordance with the law and in an accountable manner to the American people through their duly elected representatives. I am convinced that the confirmation process is a constructive means of demanding accountability, thereby enhancing public and congressional confidence in the senior leadership of the CIA.

Senate confirmation of the CIA's general counsel will serve to strengthen the accountability of the CIA—and ultimately enhance the effectiveness of this important agency.

Mr. President, I urge my colleagues to support this bill as reported out of our committee.

AMENDMENTS NOS. 1154, 1155, AND 1156

Mr. DECONCINI. Mr. President, there are three additional amendments. I send them to the desk and ask for their immediate consideration and ask the three amendments be considered en bloc.

The PRESIDING OFFICER. The clerk will report the three amendments en bloc.

The legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for himself and Mr. WARNER, proposes amendments en bloc numbered 1154, 1155, and 1156.

Mr. DECONCINI. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendments are as follows:

On page 11, after line 2, insert the following:

SEC. 304. REPORT ON INTELLIGENCE GAPS.

(a) REPORT.—The Director of Central Intelligence and the Secretary of Defense jointly shall prepare and submit by February 15, 1994, to the Select Committee on Intelligence, the Committee on Armed Services, and the Committee on Appropriations of the Senate, and to the Permanent Select Committee on Intelligence, the Committee on Armed Services, and the Committee on Appropriations of the House of Representatives a report described in subsection (b).

(b) CONTENTS OF REPORT.—The report required by subsection (a) shall—

(1) identify and assess the critical gaps between the information needs of the United States Government and intelligence collection capabilities, to include the identification of topics and areas of the world of significant interest to the United States to which the application of additional resources, technology, or other efforts would generate new information of high priority to senior officials of the United States Government;

(2) identify and assess gaps in the ability of the intelligence community (as defined in section 3(4) of the National Security Act of 1947) to provide intelligence support needed by the Armed Forces of the United States

and, in particular, by the commanders of combatant commands established under section 161(a) of title 10, United States Code; and

(3) contain joint recommendations of the Director of Central Intelligence and the Secretary of Defense on appropriate means, to include specific budgetary adjustments, for reducing or eliminating the gaps identified under paragraphs (1) and (2)."

Page 2, line 2, insert the following after the item relating to Section 303 (as added by committee amendment No. 2):

"Sec. 304. Report on Intelligence Gaps."

AMENDMENT No. 1155

(Purpose: To provide temporary pay retention for certain FBI employees)

On page 11, after line 2, insert the following:

SEC. 303. TEMPORARY PAY RETENTION FOR CERTAIN FBI EMPLOYEES.

(a) The Federal Employees Pay Comparability Act of 1990 as contained in Section 529 of the Treasury, Postal Service and General Government Appropriations Act, 1991 (Public Law 101-509) is amended by striking section 406 and inserting in lieu thereof:

"SEC. 406. FBI NEW YORK FIELD DIVISION.

"(a) No employee of the Federal Bureau of Investigation assigned to the New York Field Division prior to September 29, 1993 in a position covered by the demonstration project created by section 601 of the Intelligence Authorization Act for Fiscal Year 1989 (Public Law 100-453), as amended, shall have his or her total pay reduced as a result of the termination of the demonstration project, unless that employee ceases or has ceased at any time after that date to be employed in a position covered by the demonstration project: *Provided*, That, beginning on September 30, 1993, any periodic payment under section 602(a)(2) of the Intelligence Authorization Act for Fiscal Year 1989 for any such employee shall be reduced by the amount of any increase in basic pay under title 5, United States Code, including an annual adjustment under section 5303, locality-based comparability payment under section 5304, initiation or increase in a special pay rate under section 5305, promotion under section 5334, periodic step increase under section 5335, merit increase under section 5404, or other increase to basic pay under any provision of law."

"(b) The amendment made by subsection (a) shall take effect as of September 30, 1993, and shall apply to the pay of employees to whom the amendment applies that is earned on or after that date."

(b) On page 2, line, insert in the table of contents the following after the item relating to section 302—

"Sec. 303. FBI New York Field Division."

AMENDMENT No. 1156

(Purpose: To amend Section 307 of the National Security Act of 1947 and to ratify a funding transaction)

On page 11, after line 2, insert the following:

SEC. 303. AMENDMENT TO SECTION 307 OF THE NATIONAL SECURITY ACT AND RATIFICATION OF A PAST TRANSACTION.

(a) AMENDMENT TO SECTION 307 OF THE NATIONAL SECURITY ACT OF 1947.—Section 307 of the National Security Act of 1947 is amended by striking "provisions and purposes of this Act" and inserting in lieu thereof "provisions and purposes of this Act (other than the provisions and purposes of sections 102, 103, 104, 105 and titles V, VI, and VII)".

(b) RATIFICATION OF FUNDING TRANSACTIONS.—Funds obligated or expended for the Accelerated Architecture Acquisition Initiative of the Plan to Improve the Imagery Ground Architecture based upon the notification to the appropriate committees of Congress by the Director of Central Intelligence dated August 16, 1993 shall be deemed to have been specifically authorized by the Congress for purposes of Section 504(a)(3) of the National Security Act of 1947.

On page 2, line 2, insert in the table of contents the following after the item relating to section 302—

Sec. 303. Amendment to Section 307 of the National Security Act of 1947 and Ratification of Past Transaction.

Mr. DECONCINI. Mr. President, I am offering three committee amendments to S. 1301, numbers 1154, 1155, and 1156, respectively. Let me briefly explain the purpose of each amendment.

Amendment No. 1155 provides that employees of the FBI Field Division in New York who were receiving certain retention payments as part of a previously authorized demonstration project will not suffer a loss in pay as a result of the termination of that project. Senator D'AMATO, an outstanding member of our committee, first brought this matter to our attention and has taken the lead in developing the amendment I offer today.

Let me elaborate briefly. Pursuant to authority contained in the Intelligence Authorization Act for fiscal year 1989, a 5-year demonstration project was established in the FBI Field Division in New York whereby employees assigned to that division received a one-time payment to relocate to the New York office and thereafter received periodic payments up to 25 percent of their basic pay so long as they remained employed. The demonstration project terminated on September 29, 1993.

The Department of Justice and Office of Personnel Management recently concluded that in the absence of new legislation, the payments being made under the demonstration project must terminate on the date the project itself terminates; that is, September 29, 1993.

In order to avoid what in some cases would be a considerable loss of pay by individuals already receiving that pay, the administration has requested that the Congress provide authority to continue the payments under the project to those who have been receiving them. However, it has agreed that in the interests of fairness the basic pay of such employees should not rise in the future until the level of payments being made under the demonstration project has been surpassed as a result of incremental increases in the compensation of the employees concerned.

This is the policy embodied in the committee amendment. It has the approval of the administration and has been cleared with the Committee on Appropriations. It is a sensible compromise which will ensure that FBI employees in New York who have un-

dertaken financial obligations in anticipation that the payments under the demonstration project would continue beyond the demonstration project itself are not unfairly penalized. I urge the adoption of this amendment.

Amendment No. 1154 would require a joint report from the Director of Central Intelligence and the Secretary of Defense to the appropriate committees of the Congress identifying gaps in U.S. information needs and the intelligence collection capabilities of the United States available to satisfy them. Where possible, the report will also include actions recommended to eliminate or close the gaps to satisfy the requirements of both civilian policymakers and military commanders in the field.

Senator DANFORTH was instrumental in developing this proposal, and, once this analysis has been completed, I believe it will provide a very valuable basis to assess future budget requests. I commend the Senator for his initiative.

The third and final amendment, No. 1156, has two purposes.

The first is to amend section 307 of the National Security Act of 1947, which provides a general authorization for any funds necessary and appropriate to carry out the provisions and purposes of the act, to make clear that such general authorization does not satisfy the requirement of section 504 of the National Security Act of 1947 that there be a specific authorization by the Congress in order for intelligence agencies to obligate or expend funds available to them. Subsection (a) of the amendment addressed this issue.

The second purpose of this amendment is to ratify a previous transaction notified to the appropriate committees of the Congress as satisfying the requirement of section 504 for a specific authorization by the Congress. This transaction involved the obligation of certain funds for an accelerated architecture acquisition initiative of the plan to improve imagery ground architecture, which was notified by the Director of Central Intelligence to the appropriate committees of the Congress on August 16, 1993. The proposed transaction met with no substantive objection from the committees concerned. The purpose of subsection (b) of the amendment is to deem this transaction, as a matter of law, as satisfying the requirement of section 504(a)(3) of the National Security Act of 1947.

Mr. WARNER. Mr. President, as I have stated, I support passage of S. 1301 with the Armed Services Committee amendment and the three Intelligence Committee amendments. Each of the three Intelligence Committee amendments addresses a problem with U.S. intelligence activities that the Intelligence Committee has examined. One deals with pay retention for certain

FBI personnel in New York, one requires a report on gaps in U.S. intelligence, and one amends section 307 of the National Security Act and ratifies a past funding transaction so that it complies with section 504 of the National Security Act of 1947. These amendments address satisfactorily the problems the committee has examined, and these select committee amendments are accepted.

AMENDMENT TO PROVIDE PAY RETENTION TO CERTAIN FBI PERSONNEL IN NEW YORK

The Intelligence Authorization Act for fiscal year 1988 (Public Law 100-453) authorized a 5-year demonstration project to provide retention bonuses and mobility payments to certain employees of the Federal Bureau of Investigation's New York Field Office, because of concerns about attracting and retaining talented FBI counterintelligence personnel for service in the expensive New York area. Congress has since addressed on a Governmentwide basis pay for Federal employees in high-cost-of-living areas, with enactment of the Federal Employees Pay Comparability Act (Public Law 101-509) and other legislation relating to Federal employee locality pay.

The demonstration project expired on September 29, 1993. Absent further legislation, the FBI personnel covered by the demonstration project would receive a cut in pay, compared to what they had received under the demonstration project. Because FBI headquarters had innocently but erroneously represented to such employees to believe that the employees would continue to receive the higher pay, and the employees relied on such representations, the committee believes that legislation to address the employees' pay is appropriate.

The question has arisen of how best to provide relief to the affected FBI employees, coordinate it with implementation of the new legislation regarding locality pay, and avoid pay inequities among similarly situated Federal employees. The Department of Justice proposed that current FBI personnel who were receiving the special pay and benefits provided under the demonstration project continue to receive them until the pay and benefits provided under other laws equals the amount payable to those personnel covered by the demonstration project. The demonstration project would end now in the sense that no one new could qualify for benefits under the demonstration project, but those individuals who were receiving benefits under the demonstration project at the time of its expiration would continue to receive the benefits as long as they continue to meet the criteria that applied under the demonstration project.

The Senator from New York [Mr. D'AMATO], a distinguished member of the Select Committee on Intelligence, has the committee's appreciation for

bringing the pay situation of FBI employees in New York to the committee's attention and for his origination of the committee amendment to correct the situation.

AMENDMENT RELATING TO INTELLIGENCE GAPS

To manage effectively the resources of the United States devoted to intelligence activities, and indeed to decide what that level of resources should be, the United States must assess what it needs to know, what it does know, and what it does not know about events abroad. To assist the Secretary of Defense, the Director of Central Intelligence, and the Congress in allocating resources for intelligence, the committee is proposing an amendment to the bill to require an executive branch report assessing the gaps in U.S. intelligence capabilities and recommending how to address those gaps.

The Senator from Missouri [Mr. DANFORTH], a distinguished member of the Select Committee on Intelligence, has originated this amendment to ensure that the executive and legislative branches have the information they need to address funding for U.S. intelligence activities effectively next year and in the years beyond.

AMENDMENT TO REVISE SECTION 307 OF THE NATIONAL SECURITY ACT AND TO RATIFY A FUNDING TRANSACTION

Section 307 of the National Security Act of 1947 contains a general statement that there are authorized to be appropriated such sums as may be necessary and appropriate to carry out the provisions and purposes of the act. Such general language does not suffice to meet the requirements in section 504 of the National Security Act that, to obligate or expend funds for an intelligence or intelligence-related activity, such funds must be specifically authorized by the Congress, which means that the amount of funds was authorized by statute to be appropriated for that activity. To make that point explicit in section 307, the amendment excludes from the scope of section 307 the intelligence provisions of the National Security Act of 1947.

The committee amendment also ratifies a transaction proposed to the committee by the Director of Central Intelligence on August 16, 1993, relating to the accelerated architecture acquisition initiative of the plan to improve the imagery ground architecture. The committee's review of the proposed transaction brought to light a need for changes to section 504 of the National Security Act to allow this transaction and others like it to go forward under the law.

The committee plans to proceed with separate legislation to make the necessary changes to section 504 to take care of the problem permanently. The committee understands, however, that the Director of Central Intelligence went forward with the funding transaction proposed by the letter of August

16, 1993; the proposed amendment is necessary to ratify that transaction, which otherwise would run afoul of section 504 of the National Security Act. The committee amendment ratifies explicitly the transaction proposed by the Director by letter dated August 16, 1993, because the review of that transaction first brought to the committee's attention that the phrase "specifically authorized by the Congress" in section 504(a)(3) of the National Security Act, like section 504(a)(1), required enactment of an authorization statute and could not be satisfied by a scheme of notification to and concurrence by committees of the Congress. Transactions prior to the August 16, 1993, action which were undertaken based on the mistaken, but good faith, belief that the phrase "specifically authorized by the Congress" in sections 504(a)(1) and (a)(3) of the National Security Act could be satisfied by notification to and concurrence by committees of the Congress also are intended to be deemed ratified, which protects certifying and disbursing officers.

Section 504 of the National Security Act of 1947 currently allows obligation and expenditure of appropriated funds for intelligence activities only in three situations. First, the appropriated funds may be used for an intelligence or intelligence-related activity when such use of the funds for the activity has been "specifically authorized by the Congress," a phrase defined in the statute. Second, the appropriated funds may be used for an intelligence or intelligence-related activity when the funds involved are funds appropriated for the CIA Reserve for contingencies and the congressional intelligence and appropriations committees have been notified. Third, the appropriated funds may be used for an intelligence or intelligence-related activity if they were specifically authorized by Congress for a different activity and the activity for which they are instead proposed to be used is of higher priority, is based on unforeseen requirements, and the congressional intelligence and appropriations committees have been notified.

The phrase "specifically authorized by the Congress" as defined and used in sections 504(a)(1) and (a)(3), means specifically authorized by statute, a requirement that cannot be satisfied by notification to and concurrence by committees of Congress. That interpretation is mandated under the constitutional principles enunciated in *INS v. Chadha*, 462 U.S. 919 (1983), is supported by the text of the very legislative provision originally adding the provision to the National Security Act, is supported by the legislative history reflected in a statement on the House floor at the time of the adoption of the final version of the legislation in 1985, and is supported by the consistent practice of the Congress since then in enacting waivers of section 504(a)(1) as

part of appropriations continuing resolutions enacted at the close of fiscal years when the annual intelligence authorization bills had not yet been enacted. My statement upon introduction of the Intelligence Authorization Process Adjustment Act (S. 1578), printed in the CONGRESSIONAL RECORD of October 21, 1993, sets this matter forth in further detail.

Provisions of section 504 require notification to appropriate committees of Congress of certain proposed funding transactions. Those provisions were enacted with the understanding that, as a matter of comity between the executive and legislative branches, the concurrence of the committees will be obtained before certain proposed transactions go forward. The statutory requirements in Section 504 for advance notification to the committees of Congress are consistent with the Constitution (see *Sibbach v. Wilson*, 312 U.S. 1, 24 (1941)). Any theory that a statutory requirement for notification of the congressional intelligence committees in advance of the use of funds for intelligence or intelligence-related activities could in any way be construed as an unconstitutional condition has been considered and is rejected. Such a theory was propounded in the erroneous and recently published July 31, 1989 advisory opinion, addressing never-enacted legislation, by the Assistant Attorney General of the Office of Legal Counsel concerning notification of the intelligence committees of use of funding for certain CIA activities.

In proceeding with the amendment to section 307 of the National Security Act and with the ratification of the transaction proposed on August 16, 1993, the committee is aware that there remains important unfinished business. The committee needs to pursue legislation to amend section 504 of the National Security Act to allow—after statutory notification to congressional committees, and with a nonstatutory, continued understanding that the concurrence of the committees will be awaited—use of funds for intelligence activities in excess of or in the absence of authorization by statute of appropriation of those amounts for those activities. A similar regime of statutory notification and non-statutory concurrence should apply when funds appropriated for one activity are intended to be used for a different intelligence or intelligence-related activity. Accordingly, the committee should pursue legislation to amend section 504 to achieve three goals: First, ensure compliance with the Constitution and laws of the United States in the funding and conduct of intelligence activities; second, preserve the Congress' power of the purse with respect to these sensitive activities; and third, ensure sufficient flexibility for the executive branch in the conduct of intelligence activities.

I urge the adoption of the three intelligence committee amendments to S. 1301.

FEDERAL BUREAU OF INVESTIGATION NEW YORK DEMONSTRATION PROJECT PAY RETENTION AMENDMENT

Mr. D'AMATO. Mr. President, I want to begin by commending the senior Senator from Arizona, the very able chairman of the Intelligence Committee and my good friend, for his inclusion in the committee amendment of an amendment to correct a technical problem with statute language relating to the end of the FBI's New York demonstration project. I also want to thank our vice chairman, my friend, the distinguished senior Senator from Virginia, for his support and assistance with this amendment.

This amendment is very simple. What it does is provide for pay retention for FBI personnel assigned to the New York Field Division after the end of the New York demonstration project.

Without this amendment, FBI employees assigned to the New York field division face real pay cuts—let me say this again—real pay cuts—of 8 percent for special agents, of 17 percent for GS-grade support personnel, and of 25 percent for Wage Grade support personnel.

This situation arises because the New York demonstration project, which was established by section 601 of the Intelligence Authorization Act of 1989, expires on October 23, 1993. The demonstration project was created because of the difficulty the FBI was experiencing in recruiting new personnel or transferring personnel into the New York Field Division, due primarily to the very high cost of living in the New York City metropolitan area.

As a result of this problem, the FBI could not fully staff the New York Field Division, endangering important investigations and operations. Congress responded to this problem by authorizing the FBI to pay \$20,000 lump sum payments to FBI special agents who accepted reassignment to the New York Field Division for a 3-year tour of duty. We also authorized periodic payments of an additional 25 percent of basic pay to such personnel.

The Federal Bureau of Investigation informed us that they were having similar difficulty with support personnel, so we expanded the demonstration project to include all personnel assigned to the New York Field Division. We did this when we adopted section 601 of the Intelligence Authorization Act of 1990.

The New York demonstration project was intended to meet this critical need. In addition, it was intended to be a prod to the Federal personnel management structure to address the hardships high cost of living areas posed to Federal employees across the Nation. With passage of the Federal Employees Pay Comparability Act, Public Law

101-509, in 1990, a structure was established to provide for locality pay for Federal employees in high cost-of-living areas.

The New York demonstration project worked. It dramatically reduced attrition and made the New York Field Division an attractive assignment for experienced special agents and enabled the division to recruit and hire the specialized support personnel some of its operations require.

Mr. President, I ask that the executive summary of the August 1993 "Fourth Annual Assessment of the FBI's New York Demonstration Project," published jointly by the U.S. Office of Personnel Management and the Federal Bureau of Investigation, be printed in the RECORD at the end of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

One provision of this act, section 406, contained language that the FBI thought would protect the personnel receiving New York demonstration project special pay once the project ended. Because this pay retention provision was adopted, no FBI employee had reason to believe that he or she might face a very serious real cut in pay when the project ended.

Many FBI employees signed mortgages, bought cars, and made college plans for their children based upon the level of pay they were receiving under the New York demonstration project and that they thought had been guaranteed by passage of section 406 of FEPCA.

However, this August, the Office of Personnel Management and the Department of Justice Office of Legal Counsel concluded that section 406 did not, in fact, grandfather these employees' pay. The FBI was told that when the New York demonstration project terminated by operation of section 601(b) of the statute that created it, the FBI had no legal authorization to continue to pay former demonstration project pay recipients at their former pay rates.

Mr. President, this situation is thoroughly discussed in an August 23, 1993, memorandum from Mr. Walter Dellinger, Acting Assistant Attorney General, to Mr. Joseph R. Davis, Assistant Director, legal counsel of the Federal Bureau of Investigation.

I ask unanimous consent that this memorandum be printed in the RECORD at the end of my remarks.

Accordingly, the FBI has asked for legislative assistance to address this situation. Attorney General Reno, the Office of Personnel Management, and the Office of Management and Budget have declared that seeking such a legislative remedy is administration policy.

Mr. President, what we have here is an appeal to equity and fairness. If we

do not pass this amendment, FBI special agents and support personnel investigating the World Trade Center bombing and the Sheik Rahman's Islamic Fundamentalist terror network will be in danger of having their homes foreclosed upon, their cars repossessed, and their children forced to leave school.

Finally, this amendment only grandfathered the pay levels FBI New York Field Division personnel are now receiving. The demonstration project itself still ends on October 23, 1993. After that date, no new personnel will be entitled to receive either the lump sum payment or the periodic payments. Only the total level of pay will be protected for persons already receiving the periodic payments.

Mr. President, the language of the amendments provides that increases in all other statutorily authorized pays—including promotions, step increases, and cost of living increases—will be offset against payments under this grandfather clause.

What this means is that every person now receiving New York demonstration project pay will effectively be under a pay cap until the combination of the total increases from these other pay provisions exceeds the amount of New York demonstration project payments. Only then will they be able to receive a higher level of pay.

Mr. President, I ask my colleagues to vote for this amendment. I know my colleagues well enough to know that they will not thank the very law enforcement personnel who took great personal risks and worked long hours to break the World Trade Center bombing case and the Islamic Fundamentalist terrorist ring cases by cutting their pay.

EXHIBIT 1

FOURTH ANNUAL ASSESSMENT OF THE FBI'S NEW YORK DEMONSTRATION PROJECT—EXECUTIVE SUMMARY

In September 1988, President Reagan signed the Intelligence Authorization Act, Fiscal Year 1989, authorizing the New York Demonstration Project. The demonstration project permits lump-sum mobility payments of \$20,000 upon directed assignment to the New York Office for those employees who sign a three-year service agreement, relocate from a different geographical area, and agree to reside within approximately 50 miles of the office. It also provides retention allowances of 25 percent of basic pay to New York Office employees. Originally, demonstration project allowances and payments were provided to all Special Agents and approximately 35 percent of the support employees in the office. In November 1989, pursuant to Public Law 101-193, all employees of this division became eligible for project payments. Retention allowances are paid biweekly, but are not considered to be part of basic pay. This report addresses the fourth year of the demonstration project, covering the period of October 1991 through September 1992.

The cost of the project for Fiscal Year 1992 was \$13,258,084, \$1.3 million less than projected due to reductions in retention payments made to offset geographic pay adjust-

ments for law enforcement officers and interim geographic adjustments for all other employees. Total project costs to date are \$63,642,948; estimated costs for Fiscal Year 1993 are comparable to those of Fiscal Year 1992 and are projected to be \$13,254,594.

During the time period addressed by this report, the FBI was unexpectedly confronted with two significant organizational challenges which affected the administrative operations of the New York Office. First, of the employees predicted to separate from the FBI during this fiscal year (due to resignations or retirements), only 25-30 percent elected to do so and attrition was significantly less than expected. Agency-wide, the FBI exceeded its authorized target staffing level by more than 700 employees and a general hiring freeze was imposed in May of 1992. To complicate matters further, in response to changes in the geopolitical arena associated with the end of the cold war, the Department of Justice mandated a shift in program emphasis, requiring the FBI to reallocate some of its resources away from foreign counterintelligence work to violent crime matters. The impact of the hiring freeze and the shift in program emphasis on the New York Office are addressed in this report.

SPECIAL AGENTS

Staffing: Due to policy changes concerning target staffing level allocations for Special Agents assigned to the New York Office, they began Fiscal Year 1993 one percent over their authorized staffing level; prior to the project, staffing levels ranged from six to 12 percent below authorized levels.

Resignations: Since the project was implemented, Special Agent resignations have declined by 98 percent, from 41 to one. During each of the three years prior to the project, an average of eight Special Agents resigned annually upon receiving transfer orders to New York; since the project began, only three Special Agents have resigned under transfer.

Tenure: Average tenure of Special Agents assigned to this office has now been increased by 19 percent or 16 months. Supervisory tenure also increased by an average of a year and a half.

Transfers: Prior to the demonstration project there were no transfers of senior Special Agents into this office as their Office of Preference. Since project inception, there have now been 45 such transfers. Additionally, the presence of Newark Special Agents on this list has now declined, returning to predemonstration project levels, due largely to the number of Office of Preference transfers into the New York Office already granted to Newark Special Agents, as well as the provision of a 16 percent Special Pay Adjustment for Law Enforcement Officers for Special Agents assigned to Newark.

SUPPORT EMPLOYEES

The support complement in the New York Office encompasses professional, administrative, technical, and clerical personnel who provide direct operational support to FBI Special Agents.

Staffing: During the first year of the project, approximately 65 percent of the support staff was excluded from the project and the office was five percent below its target staffing level. During the second and third years of the project, when all employees were included, the office exceeded its authorized target staffing level by one percent. During the project's fourth year, due to increases in target staffing level allocations for support personnel, the office slipped below its authorized target staffing level by one percent.

Resignations: Support resignations have declined from 15 percent during the first year of the project to three percent in Fiscal Year 1992. Specifically, when only 35 percent of the support complement received project allowances in 1989, there were 120 support resignations. During the project's fourth year when all employees were included, resignations dropped to 23.

Tenure: As expected, due to hiring increases resulting from the provision of more competitive salaries, tenure was initially diluted. However, during the project's fourth year, tenure finally rose by 10 months or 11 percent.

ATTITUDES

In response to questions contained on the December 1992 attitude survey, the following data provides important insight into the perceptions of employees:

Ninety-five percent report strong satisfaction in working for the FBI (down slightly from 97 percent the previous year);

Eighty-nine percent report satisfaction with the amount of job security provided by employment with the FBI (down slightly from 90 percent the previous year);

Eighty-nine percent report their jobs are interesting, (the same as the previous year);

Seventy-nine percent believe their jobs provide personal satisfaction, (down slightly from last year);

Only eight percent of respondents indicated that they will look for outside employment during the next year (up slightly from the seven percent of respondents indicating such intentions on the 1991 survey);

Seventy-six percent of survey respondents believe they have good supervisors, (a one percent decrease from the previous year);

Seventy-six percent of respondents stated that the demonstration project has improved their standard of living (an increase of five percent); and

Thirty-four percent of survey respondents reported satisfaction with their salaries (up slightly from 33 percent).

CONCLUSION

The fourth year of the demonstration project cost the FBI \$13.3 million; \$1.3 million less than initial projections due to the provision of additional compensation initiatives. To date, many of the primary objectives of the project have been successfully addressed. However, a downturn in the economy, resulting in fewer employment opportunities, and internal policy changes, such as the extension of the retirement ceiling, have quite likely impacted New York Office employees, making it difficult to specifically attribute recent positive changes in the office directly to this project.

Nevertheless, since the demonstration project began, the Special Agency resignation rate has declined by 98 percent and resignations of Special Agents under transfer to the New York Office have been eliminated. At the beginning of Fiscal Year 1993, the New York Office was one percent over its Special Agent target staffing level. On the support side, the New York Office slipped to one percent below its support target staffing level for the first time since the project was extended to all employees. Additionally, support resignations dropped from 120 to 23 and sick leave usage held steady with the previous year's level.

Lastly, employee satisfaction with the FBI as an organization remained constant, as did satisfaction with job security and supervisory personnel. Although satisfaction with overall compensation remains low at 34 percent, it reflects a slight improvement over

previously reported satisfaction levels. Overall, 88 percent of survey respondents believe they have meaningful work, 78 percent are satisfied with their current work assignments, and 76 percent of survey respondents believe the demonstration project has improved their standard of living.

DEPARTMENT OF JUSTICE,
OFFICE OF LEGAL COUNSEL,
Washington, DC, August 23, 1993.

Memorandum for Joseph R. Davis, Assistant Director, Legal Counsel, Federal Bureau of Investigation

Re: Construction of § 406 of the Federal Employees Pay Comparability Act of 1990

This memorandum responds to your request for our opinion whether § 406 of the Federal Employees Pay Comparability Act of 1990 (FEPCA), 104 Stat. 1427, 1467,¹ preserves extraordinary benefits payable under § 601 of the Intelligence Authorization Act, Fiscal Year 1989, Pub. L. No. 100-453, Stat. 1904, 1911 (1988), as amended by § 601 of the Intelligence Authorization Act, Fiscal Year 1990, Pub. L. No. 101-193, 103 Stat. 1701, 1710 (1989) (collectively, § 601), even after expiration of § 601's payment authority. We conclude that § 406 does not preserve the benefits payable under § 601 beyond the expiration of the latter provision.

Section 601 establishes a demonstration project that attempts to improve recruitment and retention at the New York Field Division (NYFD) of the Federal Bureau of Investigation (FBI) by increasing the pay of NYFD employees. See H.R. Rep. No. 591(I), 100th Cong., 2d Sess. 11-12 (1988). Pursuant to § 601, any FBI employee transferred to the NYFD receives a lump sum payment of up to \$20,000, conditioned upon the employee's agreement to serve at least three years in that office. § 601(a)(1). In addition, all employees in the NYFD receive periodic bonus payments of between 20% and 25% of their basic pay for the period covered by the bonus. § 601(a)(2). Section 601(b) provides that these benefits will terminate five years after the program is established by the FBI. We understand from you that this date falls on September 30, 1993.

FEPCA institutes a system of pay adjustments for general schedule employees throughout the Federal government, including locality pay to accommodate the higher cost of living in certain areas. Under FEPCA, special agents in the NYFD currently receive a 16 percent premium over base pay to account for New York's higher cost of living. Similarly, support staff who receive pay under the general schedule receive an 8 percent premium. Support staff who receive pay under the federal wage system do not receive any premium. See FEPCA §§ 101, 404, 104 Stat. at 1429-30, 1466; Exec. Order No. 12786, Schedule 9, 5 U.S.C. § 5304 note.

Thus, § 601 and FEPCA each provide extra pay for NYFD employees (except for wage employees who receive benefits under § 601 but not FEPCA). FEPCA's § 406, however, instructs the Office of Personnel Management (OPM) to coordinate the two programs to ensure that their payments are not cumulated:

Notwithstanding [§ 601], as amended, the Office of Personnel Management shall reduce the rate of periodic payments under such section as the provisions of this Act [FEPCA] are implemented: Provided, That no such reduction results in a reduction of the total pay for any employee of the New York Field Division of the Federal Bureau of Investigation. Notwithstanding such [§ 601],

the Office of Personnel Management may make such periodic payments inapplicable to employees newly appointed to, or transferred to, the New York Field Division on or after January 1, 1992.

The main clause in the first sentence of § 406 clearly does not authorize a continuation of § 601 benefits beyond the life of the demonstration project. On the contrary, it expressly directs OPM to reduce § 601 payments to NYFD employees as FEPCA is implemented. The second sentence of § 406 also contemplates the curtailing of § 601; it instructs that employees hired after January 1, 1992, need not receive any § 601 benefits.

Notwithstanding this general thrust of § 406, it has been suggested that the proviso in the first sentence might be intended as independent authority to "grandfather" current NYFD employees with continued extra pay at the § 601 level. The suggestion is that the proviso forbids any reduction in the total pay of NYFD employees as a result of a reduction in § 601 benefits. Therefore, because the termination of § 601 benefits will otherwise cause a reduction in the total pay of NYFD employees (because FEPCA's benefits are lower and also do not extend to wage employees), it is urged that the proviso operates to authorize continued pay at the § 601 level.

This suggestion misconstrues the purpose of the proviso. As indicated above, the main clause of § 406 directs OPM to reduce § 601 payments in response to FEPCA. That clause, however, does not specify by how much the payments are to be reduced. It is the proviso that limits OPM's discretion in this regard. The proviso precludes any reduction of § 601 benefits that "results in a reduction of the total pay for any employee of the [NYFD]." In effect, this means that OPM may not reduce § 601 benefits by more than one dollar for every dollar introduced under FEPCA; if it did, an employee's total pay would be reduced, in violation of the proviso. Thus, for each reduction in § 601 payments implemented pursuant to the main clause of § 406, the proviso caps the reduction at the amount of FEPCA dollars that the employee receives, which prevents any net loss of pay.

It must be understood that the proviso's protection applies only with respect to OPM's reduction of § 601 benefits pursuant to § 406. This much is established by the phrase, "no such reduction," which unmistakably links the proviso's operation with the preceding clause. See also 2A N. Singer, *Sutherland Statutory Construction* §§ 47.08, 47.09 (5th ed. 1992) (in general a proviso should be strictly construed to relate to the enactment of which it is part). In this case, the reduction of pay will occur as a result of the winding down of § 601's internal clock, and not pursuant to § 406. Thus, the proviso will not be triggered. Accordingly, § 406 cannot be said to authorize continued extra pay at the § 601 rate.²

Please let us know if we may be of further assistance.

WALTER DELLINGER,
Acting Assistant Attorney General.

FOOTNOTES

¹FEPCA was enacted as § 529 of the Treasury, Postal Service and General Government Appropriations Act, 1991, Pub. L. No. 101-509, 104 Stat. 1389 (1990). All references to provisions of FEPCA in this memorandum will cite the internal section numbers and corresponding pages in the statutes at large.

²We can find no references in the legislative history of FEPCA (nor were any presented to us) to suggest that § 406 was intended to continue § 601 benefits beyond their natural span.

Mr. DANFORTH. The amendment I have originated relating to intelligence

gaps is designed to accomplish one simple task: To inform members of congressional committees responsible for the intelligence budget of what policymakers and warfighters most want to know but are unable to learn with existing intelligence resources. A clear understanding of our intelligence gaps—ranked according to our national security priorities—is a prerequisite to any responsible sizing of our intelligence and defense budgets.

Currently each major intelligence agency provides a congressional budget justification book outlining proposed initiatives for the next fiscal year. These books also suggest the enormous accomplishments which the past year's efforts have secured. Such agency-by-agency review of programs, systems and architectures made sense during the cold war; the adversary was well understood and the threat it posed was of an evolutionary kind.

Yet in today's world, threats are likely to develop and dissipate quickly. Strategic plans and their attending security requirements fluctuate. We must not wait for war, an unexpected nuclear explosion or new terrorist attack to clarify the deficiencies in our collection capabilities. We must anticipate them and we must end them before they tie our hands or cost us lives.

To accomplish this end, the executive branch must help Congress understand in concrete terms what the intelligence community is not good at but should be. Congress needs to know when and how changing national security priorities change intelligence collection requirements and stretch our capabilities across agencies and programs. Congress must also be convinced that any gaps—real or impending—will be efficiently addressed. What requirements do the huge amounts of resources, labeled only as base funds, fulfill? What gaps in information justify new resource expenditures in which agency's programs and why? How do we know resources cannot be transferred from other accounts?

This amendment simply requires the Director of Central Intelligence and the Secretary of Defense to present to Congress by March of next year, a report on the key gaps in our intelligence collection capabilities, ranked according to policy priorities. This report will include an assessment of how next fiscal year's budget submission affects or closes those gaps and, when appropriate, why new appropriations must be sought.

Fortunately, the DCI has just approved a refined requirements process which will capture information on policy needs and collection capabilities for budgeting purposes. Moreover, the National Intelligence Council is productively engaged in systematic review and evaluation of our national estimates so that these gaps can be identified and corrected as efficiently as possible. I heartily endorse these efforts

and hope that they are fully implemented.

This amendment will ensure that the appropriate congressional committees are fully apprised of the results of these new evaluative processes within the context of our annual budgetary reviews. If the results of these new initiatives are as significant as I expect them to be, the report called for in this bill will become a useful annual instrument for illuminating and measuring our intelligence priorities.

The PRESIDING OFFICER. The question is on agreeing to the amendments en bloc.

The amendments (Nos. 1154, 1155, and 1156) were agreed to en bloc.

Mr. WARNER. Mr. President, I move to reconsider the vote by which these amendments were agreed to.

Mr. DECONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DECONCINI. Mr. President, I do want to say that the support that we have had from the vice chairman is appreciated by this Senator. He and I have had some disagreements on where we should go with national intelligence. But there is no one for whom I have more respect or who knows more about armed services and the defense of this country than the Senator from Virginia, who has also served this country with a distinguished career as Secretary of the Navy.

We have forged what I believe is a good bill. It is not perfect, by any means, but it approaches the intelligence necessities here for our national security in such a way that I believe the national intelligence agencies can provide the necessary information that is necessary for our national security. I feel that without the Senator from Virginia we would not be here today. We had a long time getting this bill up. I am glad the Senator was able to help me in that capacity.

I also want to thank the staff on both the minority and majority sides for their long, long efforts in putting this together.

Mr. President, under the previous order, the only amendment to be offered is a sense-of-the-Congress amendment to be offered by the Senator from Ohio [Mr. METZENBAUM] calling for disclosure of the intelligence budget. Under the previous order, debate on the Metzenbaum amendment is limited to 2 hours and 10 minutes, with 75 minutes being controlled by the Senator from Ohio, 45 minutes controlled by the Senator from Virginia, and 10 minutes for the Senator from Pennsylvania [Mr. SPECTER].

I am hopeful, Mr. President, that we will not use all this time, because I think this subject matter has been discussed at some length, but I know the Senator from Ohio feels very strongly and wants to go into the background of this.

Mr. WARNER. Mr. President, if I may just join my colleague and express my appreciation for his personal comments here. I certainly share those sentiments with respect to the Senator from Arizona.

I look forward to next year. We have a very fine committee under our joint leadership. I think we achieved the Senate's wishes in terms of our Nation's intelligence.

Mr. DECONCINI. I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio is recognized.

AMENDMENT NO. 1157

Mr. METZENBAUM. Mr. President, on behalf of myself, Mr. BOREN, Mr. MURKOWSKI, Mr. INOUE, Mr. MOYNIHAN, Mr. DURENBERGER, Mr. LEAHY, Mr. BUMPERS, and Mr. WOFFORD, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Ohio [Mr. METZENBAUM], for himself, Mr. BOREN, Mr. MURKOWSKI, Mr. INOUE, Mr. MOYNIHAN, Mr. DURENBERGER, Mr. LEAHY, Mr. BUMPERS, and Mr. WOFFORD, proposes an amendment numbered 1157.

Insert at the appropriate point the following new section:

"SEC. . SENSE OF CONGRESS REGARDING DISCLOSURE OF ANNUAL INTELLIGENCE BUDGET.

"It is the sense of Congress that, in each year, the aggregate amount requested and authorized for, and spent on, intelligence and intelligence-related activities should be disclosed to the public in an appropriate manner."

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, I hope those who are cosponsors of this amendment will see fit to join us on the floor. There certainly will be time available for them if they wish to be heard.

This is just a minor amendment that Members of the Senate should readily support. Although it is a minor amendment, however, there is a significant reason for us to adopt it.

I am pleased to report that it is cosponsored by all the former chairmen of the Senate Intelligence Committee who still serve in the Senate; that is, Senators INOUE, DURENBERGER, and BOREN; by all but one of the former vice chairmen of the committee who are still serving; that is, Senators MOYNIHAN, LEAHY, and MURKOWSKI; and by Senators BUMPERS and WOFFORD.

As my colleagues know, the budget that this bill addresses is, in fact, classified. Indeed, in the budget documents we receive from the executive branch, the figure for the total intelligence budget is classified "Secret." In theory, pursuant to Executive Order 12356, this means that unauthorized disclosure of that number "reasonably could be expected to cause serious damage to the national security."

But that does not mean, of course, that you cannot read estimates of that number. A witness before our committee once called it the worst-kept secret in Washington. And earlier this year, a Washington Post article based at least partly on an interview with the outgoing Director of Central Intelligence included a detailed chronology of the requests and the cuts in the fiscal year 1993 national and tactical intelligence budgets—to the nearest \$100 million.

Yet, that budget figure is still classified. The American people may read leaks, estimates, or rumors on that figure. But nobody is permitted to tell them honestly and openly how much of their hard-earned money is being spent on U.S. intelligence programs.

I wish we could enact something much stronger than the amendment I have just introduced. But I regret to say that anything stronger than this would be opposed by the administration. And that is a great disappointment to this Senator and to many others in this body and in this country.

Two years ago, the version of the Intelligence Authorization Act for fiscal year 1992 that was passed by the Senate did contain language to require, beginning in 1993, disclosure of the total amount requested, authorized, and spent for intelligence and intelligence-related activities.

I had proposed that initiative in the Intelligence Committee markup, and I was very pleased that it gained the support both of our chairman, Senator BOREN of Oklahoma, and of our vice chairman, Senator MURKOWSKI of Alaska.

Both of those fine gentlemen have since left the Intelligence Committee, but both are cosponsors of the present amendment, for which I am most grateful. Their steadfastness is a reminder that the issue of leveling with the American people has real continuity. It does not go away; rather, it lasts through the years.

President Bush opposed the Senate's language 2 years ago and threatened to veto the authorization bill over it. Faced with that threat, our House colleagues became nervous and the Committee of Conference settled on sense-of-Congress language instead. The language that was enacted was as follows:

It is the sense of Congress that, beginning in 1993, and in each year thereafter, the aggregate amount requested and authorized for, and spent on, intelligence and intelligence-related activities should be disclosed to the public in an appropriate manner.

The very same language was enacted again last year, in the Intelligence Authorization Act for fiscal year 1993, without any debate or opposition.

My colleagues will note that the language I am proposing today is essentially the same as that previous language. I have merely dropped the reference to the year 1993, since that year is already upon us.

The amendment before us would, thus, simply restate the policy that Congress has enacted each of the last 2 years. It does not require budget disclosure; it merely keeps us from backsliding on the issue and it indicates that the Congress believes that the number should be disclosed; and it is a message to the President and the head of the Central Intelligence Agency.

This year we have a new President of the United States of whom we are very proud. He has proclaimed a new commitment of openness in Government. I expected and encouraged the President, therefore, to determine how best to disclose the intelligence budget total and, in the words of a popular advertising slogan, to "just do it."

As I said in a letter to the President last February:

With the end of the Cold War, there is a new requirement to buttress public trust in U.S. intelligence. The old forces that once assured a consensus on the need for secret intelligence no longer exist.

A limited budget disclosure such as that which Congress has recommended would be an important, and simple, first step toward creating a new basis for that public trust.

On March 27, the President replied as follows:

*** I take seriously your suggestion that our Administration disclose the aggregate amount spent on intelligence when we submit our Fiscal Year 1994 budget to the Congress. But as Jim Woosley and the rest of our national security team attempt to structure new intelligence priorities, my hope is that you will allow us the opportunity to evaluate carefully both the benefits and legitimate concerns which are associated with such public disclosure.

I willingly gave the administration more time to adopt a policy on this matter, confident that there were no concerns that could not be readily answered. But the new Director of Central Intelligence has rather old-fashioned views on this issue. He fears that disclosure of the budget total would result in his budget being cut. He also argues—without justification, in my view—that such disclosure would lead inexorably to more detailed budget disclosure.

Mr. President, intelligence budget disclosure is an old issue. And although the administration has not moved smartly on this issue, we are making some gradual progress.

In the old days, opponents of disclosing the intelligence budget total used to argue that disclosure of even this one figure would provide important intelligence information to foreign countries. That argument is no longer used. People realize that little or no intelligence information can be gleaned from this figure, even though it does provide a useful indicator of budget priorities to the American people, which the American people have a right to know.

Two years ago, the Senate Intelligence Committee asked several wit-

nesses whether any danger to the national security would result from disclosing the intelligence budget total. On March 21, 1991, Admiral Bobby Inman, former Deputy Director of Central Intelligence in the Reagan administration, spoke directly to this issue, saying:

Our worry has been *** that somehow if we release those figures, it was going to help foreign intelligence services figure out where to go burrow in and conduct effective counterespionage. And I have increasingly had difficulty in seeing where just the total figures were going to let them do that.

Admiral Inman said that we could even disclose the budget totals by agency without harming the national security. We chose not to go that far, but here was a former NSA Director and Deputy DCI assuring us that such highly aggregated budget figures can be disclosed without betraying any sensitive information.

Two months later, we had a hearing with some of the old boys who had held major CIA positions in the earliest days of the cold war. One of those witnesses was Ray Cline, an aide to Wild Bill Donovan in OSS who went on to become CIA Deputy Director for Intelligence and then Director of the State Department Bureau for Intelligence and Research. He commented on budget disclosure as follows:

If you are talking just about the total, I think it is entirely appropriate now to make it public. I don't see any reason not to. *** It really was the kind of fascination with clandestinity that caused it to be kept [secret] so long.

Perhaps because of such testimony as that, the next Director of Central Intelligence actually supported disclosure of the intelligence budget total. On September 16, 1991, responding to a question from Senator WARNER of Virginia in the first of his confirmation hearings, Robert Gates testified as follows:

I don't have any problem with releasing the top line number of the Intelligence Community budget. I think we have to think about some other areas as well.

The following day, in response to a question from Senator CHAFEE of Rhode Island, Dr. Gates added that his stand was "premised on my belief that it would send a good signal to the American people of change" that would reflect the intelligence community's adjustment to a changing world.

That need to "send a good signal to the American people of change" is still with us, Mr. President. The American people need some assurance that in a post-cold war world, U.S. intelligence programs will no longer be run on a cold war basis.

In particular, the American people need assurance that their views will be considered when Congress and the executive branch decide how much of the national treasury to spend on this function of Government. And that is what disclosure of the intelligence

budget total would accomplish, for it would permit the American people to compare what we spend on intelligence with what we spend on other Government activities—on housing, on education, on the U.S. Navy, or whatever the case may be.

Clearly, if the American people are ever to trust their secret arms of Government, the time has come to trust the American people in turn with the basic fact of how much we spend on intelligence. I am, frankly, baffled, Mr. President, by the thought that anybody would still fear that disclosure of this budget figure would harm the national security.

I know some people still say that if we release one number, we will go on to release more details. That is the so-called slippery slope argument. It is sort of like original sin, or eating just one potato chip: once we start, presumably we will be unable to control our base impulses to disclose more and more information.

Having served over 6 years on the Intelligence Committee, I must say that I trust my colleagues not to do that. We handle very sensitive matters all the time. And if we and the executive branch agree on the proper extent of intelligence budget disclosure, I am utterly confident that none of us would breach that agreement and make improper disclosures.

As I noted earlier, there are already plenty of leaks and press reports regarding the intelligence budget figure. But that is not how the intelligence budget should be handled.

The fact is that the executive branch's historic preoccupation with secrecy in this matter is precisely what has bred this city's cynical acceptance of leaks and rumors of intelligence budget information. The best way to stop leaks is to adopt a sensible disclosure policy, one that accepts the public's right to know this information when it can be released without harming the national security.

The argument that disclosure of the intelligence budget total would lead to cuts in that budget is more interesting. I have to admit that I think it would do just that, or at least it might do that. I think the American people would object to spending so much on intelligence. If the budget figure is more than the American people want spent on intelligence, then why should we be spending it? Are we not here to reflect the views of the people whom we represent?

I also think the American people would be right if they thought that the budget should be cut. Too much is spent on intelligence today, and a leaner Intelligence Establishment would be both more efficient and more effective.

When it comes to the intelligence budget, then, you may count me on the same side as Gen. Bill Odom, the former NSA Director, who testified to the Intelligence Committee as follows:

*** I would not be at all hesitant to impose a 15- to 20-percent reduction on intelligence in the next couple of years and let them scramble. ***

But you do not have to favor budget cuts to support this modest bit of openness. This bit of openness has nothing to do with whether you favor a higher budget or lower budget. Some of my colleagues look at our total Defense bill and say that intelligence is a bargain by comparison. But they, too, are not afraid to let the American people know how much this costs. It is the old bureaucrats who do not want the American people to be told how much money the executive branch wants or spends for intelligence.

Frankly, those bureaucrats are being shortsighted in their approach to budget disclosure. The world has changed. Intelligence budget cuts are very likely unavoidable, given the end of the cold war and our economic problems at home.

Even CIA Director Woolsey may recognize this. In a letter to many of us on October 5, he wrote as follows:

I certainly recognize and support the urgent need to reduce the budget deficit by cutting back on expenditures. Intelligence cannot be immune from such reductions.

So the handwriting is on the wall: the intelligence budget is very likely to be cut, at least in the short run, whether the budget total is disclosed or not.

Disclosure of the budget figure will simply permit the American people to take part in deciding budget priorities, as they should do in this great democracy. The American people have a right to be told—in a regular and official way, rather than through leaks and rumors—how much is actually being spent on intelligence.

And that right of the American people is especially important to us in the Congress. That is because we, too, must deal with a climate of voter distrust. And continued Government secrecy on something as basic as the intelligence budget total preserves not the budget itself, but rather the people's distrust both of intelligence and of congressional oversight.

Mr. President, I am certain that some day disclosure of the intelligence budget total will be permitted. The American people's right to know this information is clearly implied—if not required—by clause 7 of article 1, section 9 of the U.S. Constitution, which reads as follows:

No Money shall be drawn from the Treasury, but in Consequence of Appropriations, made by Law; and a regular Statement and Account of the Receipts and Expenditures of all public Money shall be published from time to time.

That is from the Constitution.

It has become abundantly clear that there is no real security justification for keeping the intelligence budget total secret. So if the executive branch continues to hide this information

from the people, it will only look more and more out of date. I believe that this is a President who is very much up to date. I believe that this is a President who is very much with it. I believe that the President of the United States has been misinformed and misadvised in connection with this issue.

I hope that the administration will see the light sooner, rather than later, and simply disclose the intelligence budget total. Our continued expression of concern on this issue should serve to hasten that day. If it does not, Mr. President, then some day both Houses of Congress must summon the courage to require this modest and sensible disclosure.

For now, however, renewing our traditional expression of the "sense of Congress" will send a useful message of our continued commitment to openness in Government and specifically of our belief that a measure of openness can be achieved on the intelligence budget without endangering the national interest.

I urge my colleagues to join me and the other cosponsors of this amendment in supporting this basic commitment to open Government.

I yield the floor.

Mr. WARNER addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio yields the floor.

The Chair recognizes the Senator from Virginia [Mr. WARNER].

Mr. WARNER. Mr. President, I yield to myself such time as I require.

The PRESIDING OFFICER. The Senator is recognized.

Mr. WARNER. Mr. President, the distinguished Senator from Ohio said the President of the United States was misinformed. I bring to his attention that the Director of Central Intelligence and the Central Intelligence Agency were established in 1947, so does that mean Presidents Truman, Eisenhower, Kennedy, Johnson, Nixon, Ford, Carter, Reagan, Bush, and Clinton were all misinformed, I ask the Senator?

I doubt that. Under the Constitution, they—the Presidents—are the Commander in Chief. Under the Constitution, they are the chief architect of foreign policy. Nothing is more essential to the discharge of those two constitutional responsibilities than the collection of intelligence.

They were not misinformed, I say to the Senator. They were fully informed. They made a careful decision, which has been consistent throughout the Presidency since 1947, that the top figure or any other figures relating to the Nation's intelligence should not be disclosed.

If I may ask a question of my colleague from Ohio, how many major nations of the world adhere to the objective of the Senator from Ohio and disclose their top line intelligence budget?

Mr. METZENBAUM. I have not the slightest idea, and I do not think it would be relevant.

Mr. WARNER. That to me just shows the fallacy of this whole debate. The other major nations do not do it.

Mr. METZENBAUM. I say to my colleague, I do not believe the United States is supposed to follow Germany, or England, or France, or the former Soviet Union, or Russia, or any other nation in this world. I believe this relates to an obligation of this Congress and this Government to report to the people of America, and we are not responsible to other nations. I am amazed that my colleague would suggest that.

Mr. WARNER. Mr. President, the Senator from Ohio has answered my question. Not a single, major nation in this world discloses the top line of their budget. And why? Because intelligence is an interlocking, interdependent network. When we have problems in various areas of the world, we call on colleagues in those nations to help us supplement such knowledge as we may or may not have.

That is one of the fundamental reasons. Intelligence is an interlocking, interdependent network. If we were to adopt the resolution as advocated by my friend from Ohio, it would begin to undermine that very structure of interdependent, interlocking network of intelligence throughout the world that makes it possible to preserve freedom and our security. If cooperating countries saw us disclosing our intelligence budget, they might become concerned about what else we would disclose.

I say to my colleague, why did 265—I repeat, 265—Members of the House of Representatives vote no on a proposition comparable to that of the Senator from Ohio? Only 168 went along with that proposition.

I do not know what we gain as a nation standing alone, as the Senator points out, in disclosing this. I can show nothing on the positive side to contributing to the national dialog on national defense. But I can show you any number of negatives, strong negatives, for not adopting the resolution of the Senator from Ohio.

Indeed, this would, in my judgment, undermine a most valuable asset that we have in that our President must act on a moment's notice both in matters of national security as well as foreign policy, while the Congress is dispersed across the United States.

So, Mr. President, I now yield the floor.

Mr. METZENBAUM. Will the Senator yield for a question?

Mr. WARNER. Mr. President, I yield to the Senator from Maine such time as he may require.

Mr. METZENBAUM. Will the Senator yield for a question?

Mr. WARNER. Of course. Mr. President, we will yield only on both sides.

We would yield on the time of the Senator from Ohio because I gave him time to try to make his point. I only need half the time to make mine.

Mr. METZENBAUM. Twice as many people want to come over and speak on my side, want to be a cosponsor and want to protect their rights.

The PRESIDING OFFICER. The Chair would ask whose time is being yielded?

Mr. WARNER. Mr. President, I suggest the time of the Senator from Ohio. I will yield for a question.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. METZENBAUM. Would the Senator from Virginia care to expand upon the point he just made that the President has to be prepared to act on a moment's notice when there is a problem anywhere throughout the world, and explain what relevance that has to this amendment, which only says that the American people are entitled to know how much we are spending on intelligence and is a sense of the Congress?

Mr. WARNER. Precisely. I thank the Senator.

Mr. President, the answer to that is as follows. Often that decision he must make in a matter of seconds is dependent on the quality and the quantity of the intelligence he has at hand. I have a fundamental precept that to adopt this amendment begins to erode the international network of contributions, interlocking contributions by other nations of the world because they will become suspect as to how we manage our intelligence here and what we will keep secret.

Mr. METZENBAUM. I thank the Senator from Virginia for his response. But I have to say that I think it is a non sequitur. I do not think it is a response to the question, but we will let it go at that.

The PRESIDING OFFICER. Who yields time?

Mr. WARNER. Mr. President, I yield such time to the Senator from Maine as he may require.

The PRESIDING OFFICER. The Chair recognizes the Senator from Maine, [Mr. COHEN].

Mr. COHEN. Mr. President, I came in only on the very tail end of that particular exchange, but let me offer a few observations. As I understand it, the Senator from Ohio is offering this amendment because the public has a right to know.

The public does know through its elected officials, Members of the House and Members of the Senate. We sit in deliberation day after day after day and listen to the presentations on budgetary and other matters. Reports are made to the Senate Armed Services Committee and the House Armed Services Committee. Every Member in this Chamber has access to those numbers. And so the public does have knowledge through its elected officials.

But the Senator from Ohio wants to go further. He is suggesting the public has a right to know the bottom line number that we spend for intelligence. I would then raise the question, to what end? Is it for the purpose of allowing our constituents to know whether we are spending too much for intelligence? If that is the purpose, then you have to ask the next question. How will they know?

Assume you give them the figure of \$5 billion, \$10 billion, \$15 billion, \$50 billion. How is the public to make a judgment as to whether that is too much or too little unless they know what? Unless they know all of the other factors involved.

So the next question will be, how much are we spending for satellite coverage? How much are we spending for human intelligence? How much are we spending for covert activity? How much are we spending for a whole variety of programs that the intelligence community and the President recommend and believe is in our national security interest to pursue?

That is the only way the public has any measure of knowing whether there is too much money being allocated for intelligence or too little.

So the notion that somehow we are going to disclose to the public the bottom line figure and that is going to inform the public I think is sheer nonsense—I think it is sheer nonsense—unless we are willing to say the public has a right to know the components that make up that total budgetary figure. Then you can make the argument the Senator from Ohio is making. Then the public will be in a position to make a judgment as to whether we are spending too much or too little.

Now, I was tempted to come over here and offer a second-degree amendment to the amendment of the Senator from Ohio, and that would be to have the markup of the Intelligence Committee conducted in the open. Make it open, and that way the public through C-SPAN or any other network could then listen to the debate and the presentations made to the members of the committee. Then the public would be able to judge whether or not their Senators are measuring up to what is perceived to be their responsibility to the public as to whether we are making the right kinds of decisions.

Are we spending too much on satellite coverage over Iraq? Are we spending too little on satellite coverage over Libya? Should we have greater resources devoted to what used to be the Soviet Union? Will there be a proliferation of nuclear weapons? Who is watching this? Is it enough, or is the cold war over? Do we have to be concerned about 30,000 nuclear weapons rolling around over there or the chemicals being developed even to this day by Iraq or those in Iran—or the biological weapons, or do we not need to be

concerned about them because the cold war is over?

I submit to you, Mr. President, and to my colleagues in the Senate, disclosing the bottom-line figure of what we spend on intelligence will not contribute one iota to the public's understanding of what goes into the makeup of that intelligence budget, and we have determined as a Senate and as a House that that knowledge should not be made public. We have imposed sanctions on the Members not to disclose that information under penalty of being expelled from this place and prosecuted by the Justice Department if they disclose the components of that particular budget.

Yet, if you really want to say the public has a right to know, you have to take the next step. And the next step is to allow the public to see what are the ingredients of that budget, and allow not only our public, but every nation's public, to understand the ingredients of what makes up our intelligence community.

We had something of this debate last spring when there was a motion made, apparently successfully as I recall, to cut \$1 billion out. I argued strenuously against that because I thought it was ill-advised. But that is another matter.

But the Members at least had access to the budget figures. They had access to go over and examine what the budget was so they could make a reasonable determination as to whether they favored more or less for the intelligence community. I tried to point out that it is ironic that many of the Members who were calling for greater reductions in spending for intelligence also were demanding more from the intelligence community, better analyses, better human intelligence. We all know it takes a long time to develop good agents in the field, to develop the kind of intelligence that is necessary. But that is another issue altogether.

I see the chairman of the committee. I respect the kind of work he has been doing in the intelligence field, both in the FBI and the CIA, as well as all of our intelligence community. But at least he has access to that information. I think he would be the last one to say let us disclose everything that the budget is made up of.

I find it ironic also that here we are prepared, at least on the part of some, to disclose a bottom line, a specific figure, on what we spend for intelligence activities in this country. And yet we adopt some broad categories for financial disclosure on the part of Members. It struck me as I was coming over here that we are very protective of our own particular personal situation. We have categories, zero to \$10,000, \$10,000 to \$50,000, \$50,000 to \$200,000, whatever the assets might be. We are very general and vague about protecting things that we deem to be of some private nature.

Yet, this is the most private. The secrets of this country are the most private. They are the most important. Yet, we say, let us just disclose the specific numbers. I submit to you if you disclose the number this time, that is just the beginning and not the end because next year in the next debate there will be an effort to say it does not tell us anything. How can we as a public, the American people, judge exactly what is being spent? Tell us more. How much will this satellite cost? How much will that satellite cost? What will it do? Where will it go? How often will it cycle over that specific area? You mean to say we are spending that amount of money for this particular system? We could do a whole lot better by getting four systems for that one with a little less capability.

So the debate will start not in the Senate Intelligence Committee or the Armed Services Committee, but in the general public forum.

Mr. President, I know there are a lot of speakers who would like to talk on this issue. But I would say that I spent a good deal of time on this committee. I still take a great interest in its activities and mission. I can think of nothing positive that will come from an amendment like this should it pass. I can see a whole lot of negatives.

So I want to alert my colleagues that, if this were to pass, I would be prepared to move that we open up the intelligence process so that the public really can know and can see its Members in operation, reviewing the systems, the programs, and the activities that come before the Members, and let the public make a judgment as to whether we are fulfilling our responsibilities.

I think that is really the logical consequence of this amendment. But simply to tell the public we are serving you by telling you the bottom-line figure really is misleading them into thinking they will be able to make a judgment as to whether it is too much or too little.

Is it too much because the percentage of defense spending is coming down? There are Members on both sides of the aisle who will point out to you that as defense spending is coming down you really want to increase your intelligence, not decrease it. Intelligence is a force multiplier. It does not matter how many weapons you have, how many systems you have to fight a war if you cannot see and you cannot hear and, moreover, you do not understand what is going on in the world. We need more intelligence, not less.

So then you can find yourself locked into some kind of arbitrary formulation that if you just keep squeezing that defense budget down, we can take more and more out of intelligence. That is the wrong way to go. But that

would be the force of that particular line of argument.

So, Mr. President, I suggest that there is no good to come from this amendment. It is misleading the public to suggest that they will now know something of very positive value that will enable them to make a judgment as to whether we are spending too much on intelligence. We would then have to disclose all of the ingredients of the intelligence budget. And that, I think, would lead to a great compromise of our national security interests.

Mr. WARNER addressed the Chair. The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, I express my appreciation to my friend and colleague, with whom I have served for almost 15 years on the Armed Services Committee. A comparable argument can be made: That the Senate go into that committee's work and make disclosures on all types of programs that the Armed Services Committee handles. I would be against that. The basic point is that the people in the United States elected us to come here to discharge the trust they reposed in us, and in such instances, to discharge that trust in a way that we maintain the confidentiality of sensitive national defense matters.

I thank the Senator from Maine for his very valuable contribution. He has served 8 years on the Senate Intelligence Committee, the last 4 of which he was the vice chairman of that committee. He knows of what he speaks.

Mr. SPECTER addressed the Chair. The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. Mr. President, as I listen to the arguments on the pending issue, I do not find that they are very compelling, candidly, on either side. But I think that the balance of persuasion is on the side of and in favor of disclosure.

When the Senator from Virginia talks about strong negatives, I did not hear him say any strong negative at all.

He talks about "interlocking independence." I really do not know what that means. He talks about undermining an asset of a President. Whatever asset the President has by way of intelligence, he has it or he does not have it. But the disclosure of the total figure seems to me not to have any real disadvantage at all.

The question as to what is the advantage, I suggest, is not too great either. I think there is some advantage, Mr. President, of having the total figure because it does show some relationship to what the figure was in the past, what the figure was in relation to the total budget, what the figure was in relation to the defense budget.

The Senator from New York [Mr. MOYNIHAN], introduced a similar reso-

lution back in 1990 where I joined him. At that time, the then chairman of the committee, the Senator from Oklahoma [Mr. BOREN], and the Senator from Maine [Mr. COHEN], then vice chairman, took the floor and suggested that there be hearings on the subject. I served 6 years on the Intelligence Committee myself and am looking forward to going back next year for my final 2 years, hopefully as chairman—that will only require a Republican majority—and, if not, then as vice chairman.

I do not recall whether the hearings were held. This was referred from the proceedings we had back in 1990. I have heard the statements from quite a number of the former heads of the CIA, Mr. Inman and Mr. Gates, both of whom favor disclosure. One factor which weighs in my mind is the constitutional provision, article I, clause 7, which says:

No money shall be drawn from the Treasury but as a consequence of the appropriations made by law, and a regular statement of account of the receipts and expenditures of all public moneys shall be published from time to time.

On its face, the statement about a regular statement of accounts of expenditures of all public moneys shall be published from time to time would appear to include this type of a disclosure.

I have great respect for my colleague from Maine with whom I served on the committee for 6 years, and also my colleague from Virginia. Based on what has been said thus far, I have not seen any strong reason for nondisclosure.

When the Senator from Maine talks about disclosure as to Members' programs, it should be more precise. If so, I would have no objection to that. I think that kind of disclosure really is on the high side anyway. I look at the totals in the newspapers about my net worth, and it is a lot higher than my actual net worth.

When the Senator from Virginia talks about disclosures on the Department of Defense budget, there are precise figures which are made there. But in the absence of some compelling reason why there should not be disclosure—and I know of none from the arguments today, or from my service on the Intelligence Committee, or from my service in the Senate, or from my general activities as a citizen—then there is some value in that, in combination with the factor that we have twice passed a sense-of-the-Senate resolution calling for disclosure.

I am informed that this year the sense-of-the-Senate resolution was not included on the expectation that there would be a stronger resolution compelling disclosure. I wonder, as I listen to the amendment of the Senator from Ohio, why his amendment does not call for mandatory disclosure. So in the context of this record, it seems to me

that it would be a step backward to treat even from the sense-of-the-Senate resolution. That is why, on a narrow reading, without very powerful arguments on either side, my inclination is to support the amendment of the Senator from Ohio.

Mr. WARNER. Might I briefly reply to my colleague from Pennsylvania, who could quite likely become the vice chairman of the Intelligence Committee next year, succeeding me on the committee.

Mr. SPECTER. Quite likely the chairman.

Mr. WARNER. My point in a most serious vein is that you questioned my statement with respect to the defense budget. There are many programs to which we refer by the generic term of "special access programs." The funding for those programs is not a matter of public record.

Second, you expressed concern about my point with respect to the interdependency of other nations in our intelligence network. Each day our intelligence agencies are working in a cooperative way with their counterparts in many nations. It is that flow back and forth which contributes to the quality and, indeed, in many instances, the quantity of the intelligence made available to our President as Commander-in-Chief.

I point out that nine Presidents, I say to my friend from Pennsylvania, have had the authority to disclose the U.S. intelligence budget if they wished, and each of them has declined to do so, including the current officeholder of the Presidency.

Mr. SPECTER. By way of brief reply, I am well aware of the provisions in the Department of Defense budget as to nondisclosure. Nonetheless, I thank my colleague from Virginia for pointing that out.

Not only are those figures not disclosed to the public, but there is substantial effort to avoid disclosure of those figures to Senators. I recall one day in 1982 or 1983 when there was an issue on the Senate floor involving \$100 million, and I asked what it was about. I was taken into the Cloakroom by the then chairman of the Armed Services Committee, and we had quite a discussion as to whether a sitting Senator, albeit a junior one, ought to know about it. So I think Senators ought to know about those figures, even though some other Senators might say no. There are good reasons why those figures are not subject to public disclosure. I do not think that impacts on the pending argument in any way.

When the Senator from Virginia talks about working in cooperation with intelligence agencies in other countries, I am well aware of that. But I do not think total disclosure will have a negative impact on foreign cooperation. When the Senator from Virginia says that no President has made

a voluntary disclosure, I have not seen any President make any voluntary reduction of a scintilla of executive power. I am not impressed by the fact that Presidents do not give up anything, even if it is a semicolon. I balance this weight in favor of the Senator from Ohio.

How much time do I have remaining, Mr. President?

The PRESIDING OFFICER. The Senator from Pennsylvania has 4 minutes remaining.

Mr. SPECTER. I thank the Chair.

The PRESIDING OFFICER. The Senator from Virginia has 27 minutes remaining.

The Chair recognizes the Senator from Rhode Island, Senator CHAFEE.

Mr. CHAFEE. Mr. President, I rise in opposition to the amendment of the Senator from Ohio.

Senator METZENBAUM argues that greater openness regarding the intelligence budget will somehow prove to be of value to the American people without jeopardizing national security. Let's examine this concept for a moment.

I would like to ask the Senator from Ohio, if greater openness regarding intelligence is desirable, why is he only proposing to release the total budget figures? Why not release the budgets on each intelligence agency? Why not release the budget figures for specific satellite programs? Why is he only proposing to release the overall figures for intelligence spending instead of more detailed budgetary information? Obviously, we cannot provide such information without damaging our security.

Mr. President, I would like to suggest that revealing the intelligence budget total could be worse than meaningless, because it could very well lead to unauthorized disclosures that would compromise some of the substantial investments we have made on sophisticated technical collection systems. That is where most of our intelligence dollars are. In addition, if greater scrutiny leads to more leaks, this amendment could ultimately jeopardize sensitive relationships with over countries and deter potential agents who might fear for their personal safety.

Anyone who doubts the slippery slope argument should recall what happened with the B-2 bomber. The fact is, it simply became impossible to support the B-2 program without a detailed discussion of the plane's capabilities. Information regarding the plane's range, payload, radar cross section, armaments and other characteristics quickly became public once we began to debate the B-2 bomber's cost. In the case of the B-2, this has been a useful and necessary debate and one that has not damaged U.S. national security. I say that because the plane's incredible capabilities serve as a deterrent to potentially hostile nations. Further, this aircraft is so sophisticated that there

is little prospect other countries can duplicate it or develop effective countermeasures. Intelligence capabilities, however are often highly perishable. Billions of dollars have been invested in intelligence capabilities that could be rendered useless if they were disclosed.

Intelligence is inherently a secret business and will always remain so. The sponsors of this amendment implicitly acknowledge that fact by indicating that they do not want to reveal the details of classified programs. If the details of the intelligence budget remain secret, then the only impact this amendment can have is to frustrate a curious public and politicize the intelligence budget. If the details do not remain confidential, then the impact will of course be to compromise programs that we rely on to protect our soldiers and citizens.

The Senator from Ohio says that the overall intelligence figure is a poorly guarded secret, and its release will cause no harm. Why not release other poorly guarded intelligence information? There have been leaks regarding some of our intelligence satellites, which are very expensive, why not declassify the budget figures for these programs? Perhaps that would enable us to come down to the Senate floor and offer amendments regarding different intelligence satellites. Clearly, this is a very slippery slope.

Mr. President, I believe this amendment is falsely advertised. Its sponsors have no intention of permitting the public to see or understand how their intelligence dollars are spent. They readily admit that they have no intention of revealing sensitive programs or capabilities. So the idea that the public will be better informed, or in a position to evaluate intelligence spending, is pure hyperbole. What the proponents want to do is to put a bulls eye on the intelligence budget, and hold it up as a target for public ridicule, recognizing full well that we cannot engage in a meaningful public debate regarding intelligence programs.

There are many opportunities here in Congress, within the confines of at least six committees, to freely debate the intelligence budget. The Senate intelligence committee has hearings and briefings virtually every week, as does its House counterpart. We have an audit team that travels to distant parts of the world to examine the minute details of intelligence programs. The Senator from Ohio, who serves on the intelligence committee, and the Senator from Arkansas, who serves on the appropriations panel, have every opportunity to review this budget and offer committee amendments proposing specific reductions. Their party controls both the White House and the Congress. In these committees, there is a level playing field because intelligence costs and capabilities can be freely discussed. But the

sponsors of this legislation have not had much luck on a level playing field, so they now want a public debate on a tilted field where they can discuss costs but others cannot discuss capabilities.

I believe that all of us in the Senate support the concept of openness. Yet, we also all realize that there is a great deal of Government information that should remain confidential. For example, we all agree that the data compiled by the FBI during background investigations should not be made public, although some could argue that the public would be better informed if the FBI records regarding the administration's nominees were made public. There are appropriate limits on openness and the public expects us to protect sensitive information. Similarly, we all agree that many defense and intelligence programs need to remain classified in order to protect national security.

Mr. President, if you want to politicize the intelligence budget, invite unauthorized disclosures, or have a meaningless or even misleading public debate about intelligence spending, then you should vote for this amendment. That's all that revealing the top line figures can produce. On the other hand, if you believe that the intelligence, armed services and appropriations panels do their jobs properly, and provide effective oversight; and if you believe that intelligence, like foreign policy, should not be a partisan issue, you should oppose this amendment.

Indeed, I want to ask the Senator from Ohio a couple of questions, if I might.

If the objective is greater openness so the public can better understand the intelligence budget, why do you only reveal the total budget figure? Why not get into the details of each of the agencies, for example, and why not release the budget figures for specific satellite programs? It seems to me, then, one can compare the budgets of agencies A and B and C, and what the various capabilities are of the overhead programs; that is the way to really make sense out of this. Whereas, if you just argue about an overall fixed sum, intelligence costs x billions of dollars, so what? I am curious. Will the Senator help me on that?

Mr. METZENBAUM. I am happy to respond to my colleague and friend from Rhode Island. I think you can compare it to other expenditures in Government. We spend x dollars on the intelligence budget as compared to so many dollars that we know we are spending on education, or on crime, or on issues that challenge us with respect to the environment. So we have a chance to make a comparison, and the American people have a right to know whether we are spending half as much, twice as much, or five times as much on intelligence as we are on other worthwhile programs.

Mr. CHAFEE. I appreciate that from the Senator. I have a limited amount of time. I did ask a question, and he was very kind to respond. But I am caught in the situation where I have to receive very brief answers—unless, of course, the Senator could respond on some other time. Is that possible? Could the Senator get any time to respond to me?

Mr. METZENBAUM. Mr. President, I will respond on my own time.

The PRESIDING OFFICER. The Senator from Ohio has 54 minutes remaining.

Mr. METZENBAUM. The other point has to do with the fact that if we went too far, there were some who are more knowledgeable than I about intelligence, who have actually worked in this field, who would indicate a concern that if we got into the specifics of spending so much on this program or on that program, that others throughout the world might be able to divine, discern, or determine just how far we are in this particular intelligence-gathering process, and that it might serve some useful purpose for them as far as their being able to relate to America's strategic advantage or disadvantage.

For that reason, I have not advocated the specifics. I am frank to say that I am not sure that I could not be persuaded that there would be an advantage to going further than this amendment.

But this amendment really goes just the very slightest amount. It merely says that it is the sense of the Congress that this one number should be made public.

It is a fact that we have already enacted this. We passed this very same thing last year and the year before, saying that it is the sense of the Congress that in 1993 the numbers should be made public.

This does not even say that. It does not say the 1993 figure should be made public, but it indicates that the Congress has not backed off its commitment to the concept that this number should be made public.

As I said before in offering the amendment, I am very proud of the fact that just about every former chairperson and vice chairperson, with one or two exceptions, are cosponsors of this amendment.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. CHAFEE. Mr. President, I voted against it in the past and I will vote against it in the future. I am quite consistent here.

I think it is bad business. You get a total figure. It does not do you any good. You get x billions of dollars on intelligence. So what are you getting—a new satellite system? Are you using new type of equipment? Are you establishing CIA representatives in such and such a country? You do not know anything significant when you only get a

lump sum figure. Therefore, you start down a slippery slope of having to get disclosures of what you are going to spend the money on.

When you go out to buy a car, you see what you are going to get for your money. What kind of a car is it? Is it some kind of clunker, or does it have all these marvelous things with the upholstery that smells like leather, and all those other wonderful options? That is what you find out when you are going out to buy a car. You just do not work with a lump sum.

It seems to me that all that can come of the Senator's amendment, if approved, is that with the details of the budget remaining secret, as it does under his amendment, it only frustrates the public, which wants to find out more about how the money is spent.

Some say that there have already been leaks regarding some of our satellites, for example, which are very expensive, and perhaps by disclosing the lump sum and then getting down into more detail, we would be able to come on to this floor and discuss the capabilities of the various intelligence satellites. But that in itself I believe would be a great mistake.

You might say, well, here we are. We are all moving around in the dark. That just is not so. We have six committees in the Congress, three in each body, that have the capability of knowing every single detail of the intelligence budget, the Appropriations Committee, the Intelligence Committee, and the Armed Services Committee.

Any Senator on those committees or any Senator, really, in the Senate who wants to know the details of the budget of the Intelligence Agency, all he has to do is go find out. The difference is, are we going to discuss it here on the floor and reveal it entirely to the public? I think that would be a great mistake. You might say oh, well, nowhere else do we keep anything a secret. That just is not so.

We all know that the FBI records concerning nominees that come up to us are not made public. When we get a nominee come before us, there is an FBI report on that individual. That is not made public. That is kept secret. Think of it. That wicked word "secret" is used, but the facts are that for good reason the public expects us to protect sensitive information.

I believe if you want to politicize the intelligence budget, if you want to invite unauthorized disclosures, if you want to have misleading or meaningless public debate about intelligence spending, then go ahead and vote for this amendment.

I think it would be a mistake. I hope the Senate will reject the amendment of the Senator from Ohio.

I thank the Chair.

The PRESIDING OFFICER. Who yields time?

The Senator from Ohio.

Mr. METZENBAUM. Mr. President, I yield 10 minutes to the former vice chairman of the Intelligence Committee, Senator MOYNIHAN.

The PRESIDING OFFICER. The Senator from New York [Mr. MOYNIHAN] is recognized for 10 minutes.

Mr. MOYNIHAN. I thank my friend from Ohio.

Mr. President, once again I rise to discuss this matter with a combination of concerns, not the least of which is that the honor and the reputation of the Central Intelligence Agency should be left intact at the end of the cold war for which it was established and through which time it has existed.

I would tell the Senate an anecdote which I think we might all learn from or recognize. It takes place in 1984 and that wonderful gentleman from Massachusetts, Mr. Boland was retiring. He had been chairman of the House Select Committee on Intelligence. A reception was given for him on the House side. It was quite an elaborate reception, I may say, and some industrial firms, electronic firms, and aerospace firms paid for it. The Speaker of the House was there. I was asked to come over representing the Senate committee to say just a word or two of friendship to our departing counterpart.

About halfway through this, a senior official of the intelligence community came up and said: "Senator, everyone has known for years that if an activity in the executive branch wishes to thrive, it gets itself a pair of committees on Capitol Hill to look after them. Senator, could you explain to me how it has taken something called the intelligence community 30 years to figure this out," as he looked at all this happiness going on about him because, indeed, the Intelligence Committee had been then only 4 years old, barely that.

Here we are 10 years later, more or less, with the mission of this intelligence activity having been, finished. The committee continues to insist that it exists. It is a pattern all over Government but a particularly difficult pattern in this case.

The Central Intelligence Agency has had a mixed experience.

Present at the creation of the Agency was Dean Acheson. There are many of us who perhaps remember Dean Acheson in this Chamber. He was a man of great perspicacity when the Agency was created in July 1947. In his memoirs, he wrote, "I had the gravest forebodings about this organization and warned the President"—that would be President Truman—"that as set up neither he, the National Security Council, nor anyone else would be in a position to know what it was doing or to control it," an experience President John F. Kennedy had within the first 4 months of his administration.

The Agency has done important things, but I do not think it could es-

cape the general proposition that it vastly overestimated the size and power of the Soviet Union and failed completely to see its demise.

Only today we were talking at lunch about the problem of nuclear weapons in the Ukraine, an independent Ukraine, a prospect that was absolutely inaccessible to the community mind of the 1980's.

Adm. Stansfield Turner, who headed the Central Intelligence Agency under President Carter, wrote in *Foreign Affairs* 2 years ago, that here and there was sought insight in the intelligence community about the weaknesses of the Soviet Union during the cold war but, in the main, the corporate view failed totally.

That is an admiral standing up to the facts. Rocks and shoals: If your ship goes aground, you are held accountable.

We missed it. He said a revisionist view is coming into place, but it ought not. Yet it has.

My friend, the gallant Senator, and former Secretary of the Navy, has spoken of the Agency's work and how things might be revealed about it.

This April 15, we opened the *New York Times* to learn that the administration had asked for a substantial increase in intelligence spending. At a time when this Senator was devising a means to cut moneys from charity hospitals in the central cities of this country, the secret proposal to increase was made public. It was public all the time. It is an instrument of national policy to give out CIA material when it is in the interest of the administration.

Now they are moving on to painful matters. I received a letter from a man I respect greatly, the present head of the Agency, not long ago telling us that, "Yes, the cold war is over but," said Mr. Woolsey, "the demise of the Soviet Union has had no effect on international narcotics cartels which continue to pour poison into this country."

I wrote him to say that if I understand the word "cartel" correctly a cartel is a group of businesses which get together to restrict supply in order to raise prices. Well, theoretically, we should welcome the existence of drug cartels, because they would be sending less of this poison, as it were.

The answer came back, "We said 'cartel,' but that is not what we meant," and so forth. Well, if you do not mean what you say, why have you said it?

Finding activities like narcotics interdiction and such like, that is called organizational maintenance. It is normal for a bureau to seek ways to survive. Every suburban county in this country has extension agents of the Department of Agriculture advising on how to grow better lawns and to get more corn. But do we really want it and is it really in the interest of the intelligence community?

The intelligence community is too large by half. Its military intelligence is not used by the military: They have their own intelligence. It is just not the nature of the military to take a civilian agency's advice in matters having to do with war and peace.

Its economic intelligence is at the level where, 2 years before the Berlin Wall came down, the Central Intelligence Agency estimated that the per capita gross domestic product in East Germany was higher than in West Germany. I know that drives them crazy when one says that, but they did. Any taxi driver in Berlin could have told you it was not so, but the internal logic of our model told us it was.

Back in the 1950's, they developed models which showed the Soviet economy growing at something like a 6-percent rate a year, at rates in which the Soviet economy would now surpass the American economy. The internal logic of those models was never accessible because they are secret. Secrecy conceals intelligence. It conceals failure, and it conceals mistakes. Do you not correct your mistakes?

So President after President was driven by the impression of an enormous power in the Soviet Union that was not there. At a time in the late 1970's, we estimated the size of the Soviet economy to be about 60 percent of the United States GNP. It was, in fact, perhaps 20 to 25 percent. The difference had enormous strategic consequences. The arms buildup went on far past the time in which it need have done. And we are left with ethnic strife and missiles spread across Eurasia that we had no contingency plans for.

This is a very modest proposal. The Senator from Ohio has been restrained, has been respectful, has been factual. I hope he might be heard.

Mr. President, I yield the floor and I thank the Chair.

The PRESIDING OFFICER. The Senator from New York has yielded the floor.

Mr. WARNER addressed the Chair.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, I yield 7 minutes to the Senator from Alaska.

The PRESIDING OFFICER. The Senator from Alaska, Senator STEVENS, is recognized for 7 minutes.

Mr. STEVENS. Mr. President, I oppose the amendment of the Senator from Ohio, and I join the Senator from Virginia in opposing it very strongly.

Having been associated with defense appropriations for many years, we have dealt with the intelligence structure. This past year, I decided I would attempt to, and have, become a member of the Intelligence Committee because of some of the trends I perceived in that committee, and I wanted to find out a little bit more what was happening. This amendment is a good example of that.

If the Senator from Ohio really wants to force this disclosure, he should offer an amendment to do it. It is another sense of the Senate. It just states a policy of some people that they would like to start down the track of destroying the intelligence apparatus of this country.

As a practical matter, now is the worst time that I have known since I have been in the Senate to start down this track. We know we are reducing the intelligence budget. It is being reduced much lower than I would like to have it reduced.

As a matter of fact, I wish we could talk about some of the votes that have taken place in the committee. I wish we could come out here and tell the American public who is reducing it down so low.

But to go down this track of now disclosing the numbers would confirm to some of our potential enemies throughout the world what we have done, what we are doing to reduce the redundancy in our intelligence system, what we are doing to lower the support for some of the most sustainable systems we have ever developed, and what we are doing to increase the risk to our defense.

Now, having been so involved in the defense structure in terms of watching the funding for defense, we will soon be here to tell the Senate that we have funded, to the maximum extent possible, the authorization bill. That is not to say we provided the kind of money that we need for the defense of the United States. It is going very low. As a matter of fact, the intelligence level is too low, and to say now we should start disclosing that is just like starting to draw a nice, big picture of what it is like.

A nation such as ours needs secrets. We need to have the ability for people to worry about what we will be able to do should they challenge our interests or our people abroad. We saw that in the Persian Gulf. We disclosed some of our secrets in the actions in the Persian Gulf, and we now are rebuilding some of those. We are developing new concepts, albeit at a very low level. That means we have to make decisions.

Now, I see no reason, no reason at all, for even passing a sense-of-the-Senate resolution on this matter.

Again I say, and I ask the Senator from Ohio, if he really wants it done, why does he not make it a matter of law?

We now have one of the finest Directors of the Central Intelligence Agency. He is from the other side of the aisle. He has worked with us openly through the years as a very well-known, articulate Democrat. Jim Woolsey has indicated he opposes this. He is in transition in intelligence. Why should we ask this man, give him a sense-of-the-Senate resolution that says, "Oh, by the way, we are not going to pass a law saying you have to, but why don't you disclose your budget?"

Now, as a practical matter, to my knowledge the President of the United States has not supported this, either.

And I believe when people become Presidents, when they become Directors of the CIA, when they have the job, they have a different sense of responsibility than when they are the ex-Presidents and ex-Directors of the CIA.

I am not an ex-Senator, and I do not look forward to becoming an ex-Senator in the near term. And I do not expect to vote to start down the path of telling our potential enemies what we are working on by virtue of showing them our ever-decreasing budget.

Now, that is my point to you. If you start that this year, I guarantee you will show next year how much more we requested and how much more we have the next year.

We are on a path, as far as I am concerned, of reducing the intelligence support down to the level where it increases the risk of the security of this country.

Now, for those people who support this, I will tell you, you are wrong. You are wrong. As a matter of fact, we ought to have a meeting like we used to have out here and talk about this in camera.

Do you know why we cannot do that, Mr. President? It is because we have the television cameras. They did not tell me that when I voted for television in the Senate.

We really cannot go into the security interests of the United States before the Senate now because there is no way to disconnect the apparatus that is here to provide the public knowledge as to what the public should hear.

I think the public trusts us to deal with the security interests of this country. They know we need intelligence on foreign activities. They know we need systems to deal with those potential enemies of the United States. This is no way to treat it, by asking us to tell the Director of the CIA, it is the sense of the Senate you should disclose what we have authorized you to spend.

To me it is wrong to ask us to take a position on that. If we want to make it a matter of law, bring it out here and make it a matter of law. But this idea of telling the Director of the CIA, make public what you have, and once you start down the path you will do it every year, and pretty soon anyone who is involved in the system will be able to see what we peeled off.

Periodically we surge. Periodically, we have to surge, in terms of support of systems like this, adding new systems that cost money and then pulling some out. There is no reason to demonstrate that we are doing that. Because anyone who reads that can say within 2 or 3 years we are going to be fielding a new system; in 2 or 3 years we might be retiring a system when we reduce. That kind of information ought to be kept close.

It has been pointed out when I came to the Senate there were four people in the Senate who had knowledge of this budget; four people. Today, we have three full committees and we have a rule that every Member of the Senate can go to a classified area and obtain a full briefing on what is in this budget. We have gone to the point where we do not just have a few people examining this budget. But we do still have a system of being able to keep the confidence, keep the intelligence secrets we must have in order to preserve a system and, by the way, just in closing, to protect the lives of people who are out there throughout the world to try to help gather this information to provide for our defense and sustain our economy.

I oppose this amendment.

The PRESIDING OFFICER (Mr. LIEBERMAN). Who yields time? The Senator from Virginia.

Mr. WARNER. Mr. President, momentarily I will yield the floor, but I ask unanimous consent to have printed in the RECORD following the remarks of the distinguished Senator from Alaska, the pertinent part of the document from the Executive Office of the President which indicates the policy of the Clinton administration. It is dated October 18, 1993. I read one sentence:

Furthermore, the Administration opposes any change to S. 1301 that would disclose, or require the disclosure of, the aggregate amount of funds authorized for intelligence activities.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

STATEMENT OF ADMINISTRATION POLICY—S. 1301—INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1994

OFFICE OF MANAGEMENT AND BUDGET, EXECUTIVE OFFICE OF THE PRESIDENT.

Washington, DC., October 18, 1993.

The Administration supports S. 1301. The Administration will seek to manage prudently reductions of the intelligence authorization contained in the bill, but notes that S. 1301 already makes cuts beyond those in the House bill. The Administration will oppose any amendment that would further reduce intelligence spending beyond what the Select Committee on Intelligence has recommended. Furthermore, the Administration opposes any change to S. 1301 that would disclose, or require the disclosure of, the aggregate amount of funds authorized for intelligence activities. The current procedure that provides for the authorization of appropriations in a classified annex continues to be appropriate.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, I yield myself such time as I use.

Just in response briefly to the Senator from Alaska, who indicated he just recently came on the Intelligence Committee, I would like to point out to him three former chairpersons of the committee and three former vice chairpersons of the committee, three of

whom are Members of his party and three of whom are Members of my party, all are cosponsors of this amendment. One of them is from the same State as the Senator who just spoke, from Alaska.

Having said that, I think we might get some gems of wisdom from the former chairman, the immediate past chairman of this committee.

Therefore, Mr. President, I yield 3 minutes to the Senator from Oklahoma.

Mr. WARNER. Will the distinguished Senators from Ohio and Oklahoma permit the Senator from Nebraska, who has been waiting for some period of time, to use 3 minutes of the time under the control of the Senator from Virginia?

Mr. METZENBAUM. I have no objection. Mr. President, may we just then yield 3 minutes on Senator WARNER's time to Senator EXON, and 3 minutes of my time to Senator BOREN.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. EXON. I thank the Chair, Senator WARNER, and my colleagues for their consideration. I am going to be very brief.

Certainly the amendment offered by my distinguished friend from Ohio, with a very impressive list of cosponsors on the sense-of-the-Senate resolution, might make some believe it should be agreed to.

I rise because a substantial portion of the funding for our intelligence agencies, and they are far flung—we hear the CIA, time and time again. I suspect most of the people in America think most or all of the intelligence money goes to the CIA. I am not going to get into the disposition of the total intelligence budget but that portion of the intelligence budget known as defense intelligence comes through my subcommittee. It has for many, many years.

Certainly Senator BOREN, Senator WARNER, I believe my friend from Ohio, and certainly the present chairman, the distinguished Senator from Arizona, and others know that for many, many years I have been holding a club over this, saying we have to cut down the expenditures on international intelligence especially in the areas I have first jurisdiction over.

I would simply echo the comments made by the Senator from Alaska. We have made significant reductions, in cooperation with Senator BOREN when he was chairman, and now the new chairman Senator DECONCINI—with their counterparts on the other side of the aisle. So significant cuts, in billions of dollars, have been made.

I am not going to go so far as the Senator from Alaska, when he said he thought we are spending too little today on national security intelligence. But I would say it is probably about right. Certainly those who are in

a position of responsibility, in my opinion, have done a very, very good job in making recommended reductions. I think we are on the right track. I do not believe we should go down the track, though, as suggested in the sense-of-the-Senate resolution by the Senator from Ohio for several reasons.

The President of the United States is not for it. Some say they are disappointed that the new President of the United States is not for this. Probably before he was President of the United States he, like so many others, said we should spend this much less. I simply say, Mr. President, now that the cold war is over the demands on our defense agency I think are more.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. WARNER. I am pleased to yield 2 additional minutes to the Senator from Nebraska.

Mr. EXON. Mr. President, I would simply say, with the new challenge facing our defense intelligence and national intelligence agencies, and CIA, the problems they face today are increased significantly over when we were concentrating only on the Soviet Union. To put it another way, there are more hot spots and trouble spots, potentially, around the world, than we had 5 years ago.

So I say this is the wrong road we are going down. I emphasize that if and when we ever put out publicly what the total billions of dollars in expenditures are, I can hear now, with the offsetting requirements we have in the budget bill, when somebody comes up with a very, very good program,

It is only \$100 million. Let us just take that out of defense intelligence or the CIA, or out of the intelligence budget total.

I think it is a step in the wrong direction. The President of the United States, the Commander-in-Chief opposes it; the head of the CIA opposes it; most of the military leadership involved in military intelligence, which is my domain, are opposed to it. I simply say while it sounds good I agree with the Senator from Alaska, I believe the people of the United States recognize when you start making disclosures, then the question is how much are you spending for that satellite? How much are you spending for this human intelligence?

I am afraid when we announce what it is we open up a can of worms. The demands are going to be made, how are you spending it and in what areas?

When you get down to that level, then we have concerns. I have no basic concern with the lump-sum disclosure, but I cannot vote for the sense-of-the-Senate resolution because I am afraid, as the Senator from Alaska has indicated so forcefully, once we start down that road it is going to be picked to pieces and when you start picking it to pieces, then you are going to reveal to potential enemies how much we are

spending and approximately in what areas.

I hope we will defeat the sense-of-the-Senate resolution.

I yield the floor and reserve the remainder of any time.

The PRESIDING OFFICER. The Senator from Oklahoma has been yielded time by the Senator from Ohio.

Mr. BOREN. Mr. President, I thank the Chair and thank my colleague from Ohio for yielding to me.

I have been listening to this discussion. It is a matter that has been debated for a long time. It was being debated during the time when I served on the Intelligence Committee and had the privilege of serving as chairman.

This is, in my mind, a relatively close question. It is a matter about which very honorable people, sincere people—and let me say highly intelligent and capable people—can differ.

There is a strong argument that can be made on both sides. On balance, I come down on the side of those who feel it is appropriate to reveal the aggregate figure. As others who have spoken previously, I would be very concerned if we went further than that. If I really thought that it was going to lead to demands that would be complied with or full disclosure of major items in the budget, differentiating how much we were spending on certain technical systems—for example, human intelligence in certain parts of the world—I would not be for it. I do not think it will necessarily lead to those kinds of steps that would follow on.

I also do not support this amendment because I believe that we ought to dismantle the intelligence community. I heard some of the comments made by the Senator from New York earlier who has advocated very sharp cuts, if not the dismantling, of the intelligence institutions, as we now know them, in our country. At a time in which we are undergoing rapid change in our world, at a time when we are cutting back on the defense budget, at a time in which we are going to have fewer and fewer forces in a forward position around the world, I strongly believe that that is the time when you need intelligence even more than you needed it before. You need early warning, you need an understanding of what is going on in very complex areas of the world, and you need to know about it as soon as possible because we are not so forward in position, we are not able to respond quickly militarily.

We all know that intelligence is a force multiplier: The better information you have, the more you can cope with an emergency with a smaller number of forces. If we are indeed going to go forward and cut the defense budget as has been felt necessary, it is even more important we have a strong intelligence capability.

Having said all of that, let me return directly to the subject of this amendment. I have always believed that even

though, of necessity, the intelligence operations and budgets and programs must be essentially conducted in secret—there are many things that have to be secret—that we should go as far as we possibly can in protecting those things that should be kept secret.

I see the Senator from Maine on the floor who served as vice chairman while I served as chairman. We were known as something of fanatics about safeguarding those things that should be kept confidential and secret in the national interest. We developed very strong rules in our committee about disclosing classified information.

My philosophy is this: Those things that should be kept secret, keep them secret, have very strong rules that make certain, that do everything you can to keep them secret in the national interest. But those things that do not have to be kept secret, that can be known by the full Congress, that can be known by the American people, allow those things to be made public so that you have as much accountability as you can possibly have in the intelligence process.

So much has to be secret that I think it is healthy when we share with the American people as much as we can. We tried to do that in the confirmation process with Mr. Gates, to give the American people a glimpse into how the intelligence community operates, how the analysts work, how the operators work, to the maximum degree possible. It is a shame that most of the successes—we heard some of the failures of the intelligence community discussed publicly—it is a shame that the successes cannot be known publicly. By very definition, often the success is a success because the program worked and it remained secret. I think if the American people knew more about the quality and caliber of those serving in the intelligence community, they would feel better about it than they do. They would have a more positive view of the work of those people in intelligence, who often risk their lives and who are people of enormous talent, than they do.

So let me just say this: Since I think we need as much accountability as we can have, I think our committees of the two Houses, the two Intelligence Committees, because they do operate largely in secret, should be under as much constraint as possible to make sure that the budgets are held to levels where they should be, that we get the full dollar's worth out of a dollar invested.

I do not think it is going to compromise the basic capability of our country, I do not think it is going to compromise too much information if we share the total figure with the public as to how much is being expended on intelligence matters, just as I did not think that we compromised anything by having open hearings on the

proposed reorganization of the intelligence community to cope with changes in the post-cold-war world, just as I did not think it was unhealthy for us to share, during confirmation process, with the American people as much as we possibly could about the operation of the intelligence community.

It is a delicate balance between what can be shared with the public and what should not be shared in the national interest. I realize honest people can differ as to where that balance should be struck. I simply believe we should share with the people as much as we can, we should be as accountable as we possibly can be, just as I always believe that in judging covert actions, we should always make sure that those actions, if they were known by the American public, would be actions that would be approved of as being consistent with basic American values.

The committee operates in a trusteeship role.

Mr. COHEN. Will the Senator yield?

Mr. BOREN. I will yield in a moment. It is under the very able leadership of the distinguished vice chairman and the distinguished chairman, Senator WARNER and Senator DECONCINI. It is under fine leadership, and these are issues, as I said, that honest people can differ about. I simply believe the balance will be better struck by agreeing to the Metzenbaum amendment.

Mr. COHEN. Will the Senator yield for a question?

Mr. BOREN. I will be happy to yield.

Mr. WARNER. Can the question be answered on the time of the Senator from Ohio? Because we are rather short on this side.

Mr. BOREN. How much time is remaining to this Senator?

Mr. METZENBAUM. Take another minute or two.

The PRESIDING OFFICER. There are 34½ minutes remaining on the time allocated.

Mr. BOREN. Mr. President, I believe the Senator from Ohio yielded me a couple extra minutes.

Mr. COHEN. Will the Senator explain to me how the public is going to be in a better position to know whether the Senate and the House are acting appropriately in terms of its allocation of funds by the simple disclosure of the bottom line figure? For example, assume that it were \$50, \$60, or \$70 billion—giving an exaggerated figure, obviously, in order to not disclose any figures—assuming that was the case, how does the public really know whether or not that is an appropriate amount? It has no basis to know, if there were a 10-percent increase, as to whether or not that was for a new satellite system.

Let me suggest to my colleagues, the Senator and I were involved in a very delicate matter to get a particular type of system paid for that could not come

out of the intelligence budget. We went to great, extraordinary lengths to do that. That was not a matter that I think the Senator from Oklahoma or the Senator from Maine would want to make a matter of public record, in terms of what the system was or its costs or its function and when it is going to be deployed and under what circumstances. Those are the kinds of issues that really have no business being in the public domain.

Yet, I submit to my friend from Oklahoma, with whom I served for so many years, that the mere disclosure of the bottom-line figure tells the public very little. And when you say it is a close question, I ask whether or not it is better to err on the side of preventing us from going to the next stage, which is tell us what the ingredients of the intelligence budget are.

Mr. BOREN. I will say to my colleague—and it is rare I differ with him on any matter of intelligence policy. Usually we see eye to eye, and we certainly do 99 percent of the time. I do not think we necessarily will go down to the next stage, and I do think that, at least in some sense, it would inform the American people. If, indeed, we are spending \$50 billion on intelligence, which we obviously are not, or \$60 billion, certainly we would have a sense that we have gotten out of hand; it is far too much. If we are spending \$1 billion on intelligence or \$2 billion on intelligence, which I am glad to say we are not, that would inform us of doing far too little in terms of the intelligence capability.

So within certain parameters, I think it does inform, to a degree—not to a large degree. That is the reason I say it is a close question.

Mr. COHEN. Will the Senator yield further?

Mr. BOREN. In just a moment. I will say also that the figure has often been bandied about in the press. There has been speculation about the figure. You can say, "Well, it has never been confirmed one way or the other," and I am not here commenting on the accuracy of every press report. They have not always been the same number. Generally they have been in the same ballpark.

I think even that it is generally a widely discussed matter that when something continues to be discussed over and over again, it almost then causes a disregard for those things that should be kept secret. That is the reason I believe in sort of building a very strong line between something that can be told, that really is not going to hurt the national security interests, and those things that clearly are on the other side of the line, and we should go to the wall to protect those things from ever being known.

My colleague makes a good case. I cannot quarrel with the arguments that he makes. I simply do not think we necessarily go all the way down the

primrose path if we release this one figure, which is often bandied about in the press already.

Mr. COHEN. Can I ask a further question? In the Senator's judgment, is it appropriate that the intelligence budget should be considered as a percentage of the defense spending or a percentage of the total budget? He indicated \$50 billion would be, obviously, too much; \$2 billion too little. How does the Senator go about calculating what is a fair percentage for the intelligence budget to be based upon?

Mr. BOREN. I would look at both, frankly. I think as defense budgets go down, I honestly think the percentage of the total Defense budget devoted to intelligence has to go up because it is a force multiplier, as I said earlier.

I think, in terms of total spending, you still have to look at the total resources of the country. Whether or not we are educating our children properly and a lot of other areas of Government spending ultimately relate to our national security in the broadest sense.

So I think there has to be some balance kept. So I would really look at both of those figures.

Mr. COHEN. That is the basis on which the American people make a judgment, the percentage of the defense spending plus the percentage of the total budget? On that they can make a proper determination of the intelligence needs of the country?

Mr. BOREN. I do not think the American people are going to make an exact determination, but I think they will have some general idea as to whether or not the Congress is staying within the bounds of some reason, or within the border of some reason.

Mr. COHEN. How do you determine what is reasonable under the circumstances?

Mr. BOREN. I would say to my colleague, by the two measures he just talked about.

Mr. COHEN. Is it the threat that drives or should shape the budget, or is it the budget that shapes what we appropriate for intelligence matters?

Mr. BOREN. I think we have enough discussion of public policy matters in foreign policy and defense policy, and we discuss Defense appropriations on this floor, which we certainly do quite openly except for a very few programs. I think the American people have a common sense, basic judgment about the nature of the threat facing this country and would have some parameters with which to judge whether or not we are in the ballpark on defense spending by looking at an aggregate number.

Mr. COHEN. I thank my friend from Oklahoma.

The PRESIDING OFFICER. Who yields time?

The Senator from Virginia.

Mr. WARNER. Mr. President, I wonder if I could ask one short question to

my colleague from Oklahoma on the time allocated to the Senator.

Mr. BOREN. Mr. President, I would have to ask the Senator from Ohio. I do not want to intrude upon his time.

Mr. METZENBAUM. On whose time? Mr. WARNER. The Senator from Ohio. We gave the Senator 2 minutes for every minute we have.

Mr. METZENBAUM. I am running out of time. I have other speakers coming. I did not interrupt the Senator from Maine and the Senator from Oklahoma.

Mr. WARNER. Will the Senator yield a minute for him to reply to a short question?

Mr. METZENBAUM. I yield 1 minute. Mr. WARNER. Mr. President, I thank my friend from Ohio.

I think the key words used in the Senator's presentation to the Senate are that this is a "delicate balance." I repeat, that is a very wise and judicious characterization of this debate, a "delicate balance." Then I ask my friend, why, given that it is a "delicate balance," would the Senator want to go against the collective judgment of nine Presidents, the majority in the other body, the House of Representatives, and the fact that no other nation, major nation, in the world has taken the initiative as sought by the Senator from Ohio? Why would the Senator want to upset that "delicate balance"?

Mr. BOREN. Mr. President, as always, the Senator from Virginia asks a very difficult question, and now I wish I had not agreed to yield to such a difficult question because he asks it very well.

I would just have to say that there are others who have other judgments. Presidents, I think institutionally, hesitate to share this information just as they are always skeptical about oversight itself and do not always see the positive nature of oversight of a process.

There are others, I would say, not just myself but others, who have shared the responsibilities in the Intelligence Committee and in the intelligence community who have been in favor of open accounts.

The PRESIDING OFFICER. The time has expired.

Mr. BOREN. It is a judgment each Senator will have to carefully make.

The PRESIDING OFFICER. Who yields time?

Mr. METZENBAUM and Mr. WARNER addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, I yield 10 minutes to the chairman and manager of the bill.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. DECONCINI. I thank my friend from Ohio.

Mr. WARNER. Mr. President, if I might interrupt, we have one Senator

who cannot stay. Can we allocate him 4 minutes, Mr. President, I ask the Senator from Arizona?

Mr. DECONCINI. On the Senator's time.

Mr. WARNER. Yes. I thank the Senator for his courtesy.

Mr. President, I allocate 4 minutes to the Senator from Wyoming.

Mr. WALLOP. Mr. President, I thank the Chair and thank the Senators.

Mr. President, a curious thing. America is a great country that does nice things, but it is not a great country because it does nice things. It is a great country because it does strong and wise things.

This is not a strong and wise thing. It may well be a nice thing. It may well satisfy some curious need to be "a well-informed public." But the public cannot be well informed through this amendment. Foreign intelligence agencies can be well informed through this amendment but the public cannot be.

The Senator from Oklahoma was talking about the needs and the common sense of the American people. They have it in spades. But they cannot possibly be expected to know of the changing circumstances worldwide day in and day out. Our requirements for intelligence, I am sure the Senator from Virginia would agree, are much more complicated than they were during the cold war. We have missile proliferation. We have what is coming out of China. We have what is coming out of Pakistan. We have what is coming out of India. We have what is coming out of Iran and Iraq. We have what is coming out of Libya. We have places in the world that are taking untold, unpredictable, and unknown, unknowable steps.

Now, those circumstances are going to change, and they do not require the same kinds of intelligence purposes that we had before.

What sort of information is the public going to derive by our satisfying those needs through a changing bottom line figure? The bottom line figure is going to give them absolutely nothing, to know the needs of America and whether or not they are going to be met.

What this does is a little bit like sort of a prurient peep show—having given you a little look, you want to look under the sheet now. You want the movie to become more explicit and yet more explicit.

The fact is that what America needs—it is an intelligence world—is very well satisfied by the amount of information that is now provided through the Senate of the United States in its what, three committees and through the House of Representatives and its three committees.

We have untold numbers—in the judgment of the Senator from Wyoming, almost irresponsible numbers—of people now knowing the details, plus

the fact there is not a Senator here who cannot satisfy his or herself as to the details of the intelligence community if they wish.

Now, I suspect that those who are voting for this have never come to the committee and asked to be informed. It is too darned difficult to be informed. It is easier just to have us come and publish it.

My friends, that is not the responsible road to travel. Great nations remain strong, great nations by doing wise things. This is nice to know. This is not needed to know. What is needed to know the Senator from Ohio can get and any other Senator can get, any other Member of the House of Representatives can get. They need to have the ambition to go get it. When they have taken those steps, maybe the Senate ought to agree that a further step would be taken. But until that time, I suggest this is just a way, a lazy man's way, of finding out information that means little or nothing when published, literally nothing, except to foreign intelligence agencies who can draw great inferences by tracking that figure.

I thank the Senator from Virginia. I thank especially the Senator from Arizona for allowing me to proceed in front of him.

Mr. WARNER. Mr. President, we do thank the Senator from Wyoming.

The PRESIDING OFFICER (Mrs. FEINSTEIN). Who seeks recognition?

Mr. WARNER. Madam President, I simply say that the Senator from Wyoming has nearly a decade of service on the Senate Intelligence Committee.

Mr. DECONCINI addressed the Chair. The PRESIDING OFFICER. The Senator from Arizona.

Mr. DECONCINI. Madam President, I am going to proceed on the time allocated to me from the Senator from Ohio.

I thank the Senator from Ohio for bringing this to us again. The distinguished former chairman from Oklahoma, Senator BOREN, has operated this committee longer than anybody I believe, and he certainly has an understanding of what is dangerous or what is necessary for security reasons and has imposed some very tight rules, along with the Senator from Maine when he was the vice chairman, and the Senator from Virginia and I have attempted to maintain that.

I think it is very important that some information be kept secret. Why is that? The American public may say, well, tell everything. Because there are many, many dangers involved in the gathering of intelligence, those who gather it, those who inform, those who take pictures, those who give information, and instruments, if that is all exposed, even the amounts that are paid for or contributed to such activities, would jeopardize some people.

It is interesting to note how many nations today are looking at the Unit-

ed States. I know the Senator from Virginia often gets visitors from foreign countries. We had some parliamentarians here from Bulgaria. They want to know about the oversight. We have had parliamentarians from Romania. We have had parliamentarians from Hungary, from Russia, and from the Ukraine.

I have talked to most of them. They want to know what we do. They want to know, well, how much does it cost? Of course, I cannot tell them. They say, well, in your democracy, do you not publish that? We tell them no, we cannot do that because of the reasons I have explained.

Even the U.K., having talked to Members of the Parliament there on both sides of the aisle, talk about oversight for the first time. They have literally no parliamentary oversight. They do not know, the members, what is spent. They want to know.

Then of course the question is, we know, does the public need to know? Indeed I think there is some public information and public purpose for the amendment that is before us today.

It is my best judgment that I have to disagree with my friend from Alaska, who said we do not spend enough on intelligence. I would ask him or anybody else who thinks we do not spend enough to show me one program that we have cut, one program that this committee has cut, or the appropriations defense committee, which will be on the floor shortly, that we have cut that has damaged or jeopardized the national security. We have not.

We did not do everything that was requested of us because it costs a lot of money. And it is time that we reduce the expenditures, not only of the Defense Establishment and the defense part of our bill, but also the intelligence.

That is where I think the Senator from Virginia and I have tried to steer this committee. Perhaps the Senator would have gone a little bit further with the expenditures, and I might have gone a little further with reductions. But we have reached a compromise. Nothing has been jeopardized.

The Senator from Alaska sits on the Defense Appropriations Committee as the ranking member. I sit on that committee too. That committee that will be before us on the floor shortly cut more than the authorizing committee, than this committee did.

So now we are not jeopardizing the national intelligence and the national security capabilities of this country by this bill or the appropriations bill.

Look at the increase of what has been spent on intelligence. Of course the figure is secret. We have all read about amounts that are in the newspapers, the press. I cannot confirm nor deny. But we know from just those stories it is a lot of money. And rightfully so.

The public asks me. Is that an accurate figure? I am sorry. I cannot tell you. They say, well, if it is, it is a lot of money.

Then you get to the point where the Senator from Maine says what is it for? I am sorry. I cannot tell you what it is for. Why not? Well, because of the reasons I have explained.

But yet they would like to know just how much you are spending. I have to come down on the side of the Senator from Ohio. I think it is a proper thing to tell them this is what we are spending, and then explain it to them. It is not difficult to explain to them why you cannot disclose each figure or each category of the expenditures.

So we are faced here with a public confidence or lack of public confidence. When we see in the decade of the eighties where the intelligence expenditures went up over 100 percent more than the defense expenditures did under the Reagan and partially the Bush administration—and I voted for it—I thought, yes, sir, the President is correct. We have to spend that money on intelligence. We have to know what the Soviets are doing. We have to understand what they are doing, and we have to follow it.

We saw the Senator from New York point out how improperly intelligence can be used and how improperly it was used in analyzing the Soviet Union. We were told year after year that the Soviet Union had an economy second to none, except the United States. And we know it is a basket case. When it fell as it did, we know now that that intelligence was misused. Maybe they had too much money. Maybe there was a wrong direction coming from the executive branch to that agency. "You cook up what we want. You work for us." And then use that for public policy.

That is wrong in my judgment. What does Congress do when some agency does something like that? You start cutting away at their budget, and rightfully so. That is what we have done. We have done that with other agencies who have misused the public trust, and to the credit of Mr. Woolsey, he has changed that, and also to the credit of Mr. Gates, his predecessor, who I did not support because I was afraid he would not have the courage to change the direction of the Central Intelligence Agency as to what kind of information was brought forward to the National Security Council, the White House, and to the Congress of the United States.

There is one example after another. During the Persian Gulf war, we received daily briefings on that war. We were told what the casualties would be. We were told what a great army Saddam Hussein had, sixth largest, fourth largest army, the state of the art technology from the former Soviet Union, had the faster tanks. We found out they did not have those. We knew it.

We had intelligence information that was wrong. And I contend that it was purposely supported in order to build public opinion. That is not what intelligence is for. It is so the people who need that information can make a judgment.

So what do you do with an agency that misuses—that is what I think happened—the public trust and the public funds? You start reducing, you oversee, and you ask the questions. Why? That is what we have done here.

The Senator from Ohio says, well, let us just tell the public. The Senators from Maine, Alaska, Wyoming, or Virginia will say, wait a minute. They do not need to know. If they need to know, they will want to know about every specific item.

The public is not as dumb as some of us might think that on occasion they are. If the public knew that 100-percent increase in the intelligence budget over the 10-year period during the eighties, I think they would ask us all some questions. And we had better have some answers for them.

Then when they looked at it, found out that the Soviet Union was not the second-largest economy that our Government said it was, they would say, well, did you get a good amount of information for the money you spent?

I think that is a valid public information policy to have out. That is what the Senator is asking us to do. I am not afraid to explain it to the public in Arizona. I am not afraid at all to say, yes, that is what we spent. I cannot explain every program but I think it is important for them to know and they will judge—and rightfully so—they should judge how much we spend on defense, how much we spend on intelligence, how much we spend on health care, and how much we spend anyplace else.

So, Madam President, I think the Senator has approached this in a most reasonable way, and not as the Senator from Alaska who I have great respect for and work not only on this committee of defense and many other committees of appropriations whom I have great respect for. Why does he not just go out and do it all, and make it law? Or the Senator from Maine, say do all the programs, and make it law? Well, that would be irresponsible. And I do not think it is appropriate.

The Senator has only asked to start to build the confidence in the public that the amount of money totally spent, the total amount is this much. If you are going to spend more next year, maybe you should explain why. Maybe because there are areas in the former Yugoslavia that we need to know more information about, or areas in Africa, or some other continent that we need to know more about, or the political or economic changes in Asia or some other place. And explain that. If they are not there, then why is the budget going up?

Mr. STEVENS. Madam President, will the Senator yield for one question, respectfully?

Mr. DECONCINI. I am happy to yield on his time.

Mr. WARNER. We have to allocate the time of the Senator from Ohio.

The PRESIDING OFFICER. The time of the Senator from Arizona has expired.

Mr. WARNER. How much time does the Senator from Virginia have?

The PRESIDING OFFICER. You have 2 minutes and 50 seconds.

Mr. WARNER. I wish to allocate now 2 of those minutes to the Senator from Maine. Madam President, we have the pending question of the Senator from Alaska.

Mr. DECONCINI. My time has expired. I will ask the Senator from Ohio to yield an additional couple of minutes after the Senator from Maine is finished.

The PRESIDING OFFICER. The Senator from Alaska is recognized for the present time for 2 minutes.

Mr. METZENBAUM. I yield the Senator from Arizona 1 minute.

Mr. WARNER. Parliamentary inquiry.

Mr. STEVENS. One second. Go ahead.

Mr. WARNER. If I understand, Madam President, the Senator from Virginia has 2 minutes and 50 seconds.

The PRESIDING OFFICER. That is correct.

Mr. WARNER. I ask that 2 of those minutes be given to the Senator from Maine.

The PRESIDING OFFICER. I beg your pardon. I thought you said Alaska.

Mr. WARNER. I thank the distinguished Chair, and 50 seconds remaining under the control of the Senator from Virginia.

Mr. STEVENS. Madam President, I will take 1 minute. As chairman—

The PRESIDING OFFICER. Does the Senator from Ohio yield for these purposes?

Mr. METZENBAUM. What is the question?

Mr. STEVENS. I want to ask the Senator from Arizona a question, and I need 1 minute for him to answer it.

Mr. METZENBAUM. I yield 1 minute to the Senator.

Mr. STEVENS. I am on the committee with the Senator from Arizona, who is our chairman. The chairman just said if next year we had to increase it, we could explain why.

As a member of your committee, am I at liberty to explain why we have increased the intelligence budget? Could I come out here and tell the public what we increased it for?

Mr. DECONCINI. I believe the Senator could come out here and, in the areas that it was increased and in the areas it was decreased, make some general statements as to why we spent

that much. I think the Senator from Alaska decreased it in appropriations, and I support it. I suspect you are going to vote for the conference report here that cuts more than this committee. How are you going to explain that? I think you can explain it.

I reserve the remainder of my time.
The PRESIDING OFFICER. The Senator from Maine is recognized for 2 minutes.

Mr. COHEN. Madam President, the Senator from Arizona said, "Show me a program that we have cut which jeopardized the national security." The problem is that you cannot point to any program that has been cut until there has been a disaster. After you have a disaster, that is the one way you can tell. Like in Somalia, apparently a decision was made to reject a recommendation coming from the field commanders that was approved all the way through the Chairman of the Joint Chiefs. It was rejected. A disaster ensued. A decision was made that somehow contributed, or appeared to have contributed, to a very sad incident in that country.

The Senator from New York has indicated he would like to abolish the CIA and transfer all of its responsibilities to the State Department. I have to ask the question: Is the mission of the CIA, as the Senator from New York has said, over? Are the nuclear weapons in the world over? Is Libya over? Is China over? Does it matter if North Korea builds a nuclear weapon? Does the NSA matter anymore? Do we disband it all and give it to the State Department? A lot has been said that is critical of our Central Intelligence Agency and the intelligence community.

I would like to submit, for the RECORD at least, that I believe it was our agency's activity that contributed to the defeat of the Soviet Union in Afghanistan. I think that was of seminal importance in leading to the dismantlement of that empire. They were bogged down and defeated in Afghanistan largely due to the efforts of our agency.

How about the success in the discovery of the Krasnoyarsk ABM radar? Our intelligence community said that is a violation of the ABM Treaty. That is not a satellite-tracking system. That is an ABM battle management system. Over the objections of many on the other side and many in the other House, and listening to the argument and lies of Mr. Gorbachev, who said it is only for satellite tracking purposes, our intelligence community was correct.

Also, with respect to the Persian Gulf, let us give our intelligence community credit that the Persian Gulf war was won largely as a result of the kinds of intelligence provided to our military, notwithstanding the kind of statements made on the floor today.

Mr. DECONCINI. I have a few seconds left, I believe.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. DECONCINI. To respond, we saw General Schwarzkopf criticize the intelligence. That is what we have tried to correct in the committee and in the appropriations process. We know that there is always some good intelligence, and that is correct; there are some very good examples, even in the Persian Gulf, where overall the intelligence was not good, at least as told to the oversight committee. I was there every day listening to it, and it turned out to be pretty ugly.

Mr. COHEN. We won the war pretty well.

Mr. METZENBAUM. Madam President, I will suggest the absence of a quorum to be charged to the parties if nobody wishes to speak. I see that Senator SPECTER wishes to speak.

Mr. WARNER. I object. We only have 50 seconds left. I seek recognition.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Madam President, I have to respectfully disagree with the chairman of the committee, which I seldom do, about the reports that he tells us of the gulf war. The Senator from Maine is exactly right. He tells us it was key to the execution of that conflict, and while General Schwarzkopf bore in on certain real-time features and the need to improve that, there was no overall indictment by him or anybody else.

Mr. COHEN. It was real-time tactical intelligence.

Mr. WARNER. The Senator is correct. It was real-time tactical intelligence.

Madam President, I move to table and ask for the yeas and nays.

The PRESIDING OFFICER. The motion to table is not in order while time remains.

Mr. WARNER. I ask that at the appropriate time the Senator from Virginia be recognized for the purpose of moving to table.

Mr. DECONCINI. I object.

The PRESIDING OFFICER. There is objection.

Mr. WARNER. I know exactly when and where that can be done. I am just trying to accommodate the Senate.

Mr. SPECTER. Madam President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has 4 minutes.

Mr. SPECTER. Madam President, I agree with the most recent comments made by the Senator from Maine concerning the value of the Central Intelligence Agency. In supporting the amendment by the Senator from Ohio, I do not do so on the grounds that it is a way to weaken or undercut or cripple the CIA. I believe the CIA is a very important agency. I believe that the CIA may well be in a better position to command more support for its operation if its funding is disclosed and if

there is a greater public understanding of what is going on in the intelligence community.

When we are debating the total appropriation figure, as I said earlier, I think it is a close question. I have not yet heard, at least to my satisfaction, any forceful reasons to oppose total disclosure. I think the tilt is in favor of disclosure, and it accords with the constitutional provision which calls for disclosure. But I believe there are many phases of the CIA's activities which require substantial support, like human intelligence, the issue of locating terrorists, which is a big issue for the United States. There are major areas of deficiency. For example, we do not have sufficient intelligence on the ground. We had sufficient ideas as to what was happening in the Soviet Union prior to August 19, 1991.

It may well be that if the public had more of an idea, there would be more public support for the CIA. I think there are some areas which do have to remain secret. My colleague from Virginia made a comment to me that my earlier remarks were not clear as to whether there were funds in the Department of Defense which are black box, not publicly disclosed. There may be ambiguity in the RECORD on my comments. Permit me to make it plain that there are such funds in the DOD budget which are not subject to public disclosure, and necessarily so. But to the extent that disclosure may be made in a free society, it is highly desirable. Just because other countries do not do it—no country is as free and open as the United States. My view is that we can derive considerable strength from that openness, and I think the CIA would, in fact, be stronger with this minimal disclosure. It is only a sense of the Senate.

How much time do I have remaining?

The PRESIDING OFFICER. The Senator has 1 minute 15 seconds.

Mr. SPECTER. I would be glad to yield that time to the Senator from Virginia.

Mr. WARNER. Madam President, this has been an excellent debate. A key statement was that it is a very delicate balance whether or not to proceed with this amendment.

The Senator from Maine pointed out in a very forceful manner, as I have endeavored to do, if it is a delicate balance, why should we do it? How do you go back home to your constituencies and say that we have changed the positions of nine consecutive Presidents? And say that we have taken a position inconsistent with every other nation in the world? If we were to do so, we may have jeopardized not only the lives and the safety of some of our agents serving overseas, but indeed the men and women in the Armed Forces, who so highly depend upon the quality and quantity and accuracy of our intelligence, which could be jeopardized.

Madam President, as I understand the Chair is about to rule the time of the Senator from Virginia has expired.

The PRESIDING OFFICER. I think you got it.

The Senator from Ohio.

Mr. METZENBAUM. Madam President, I yield up to 10 minutes or such time as the Senator uses in excess of 10 minutes to the Senator from Arkansas.

The PRESIDING OFFICER. The Senator from Arkansas is recognized.

Mr. BUMPERS. Madam President, I thank the Senator from Ohio for yielding. I will not take 10 minutes.

I came over to express my very strong support for the Senator's amendment.

Let me say, first of all, that I do not believe there is a single person in the Senate naive enough not to know that the reason Members of Congress do not want the macro figures on the amount of the intelligence budget is because not having them makes it almost impossible to have an intelligent legitimate debate on how much we ought to be spending. How can the American people evaluate whether they think it is too much or not?

Some people around here take the position it is none of the American people's business; we have to do a certain amount of intelligence; we are going to do it no matter what the cost; and this is really none of their concern.

A lot of the people who are involved in making up this number feel the same way about Members of the United States Senate. If you are not on the Intelligence Committee or the Armed Services Committee, the subconscious or maybe overt belief is that other Members of the Senate have no business talking about this issue.

I have been so gun shy, even though it has been published, in trying to cut the intelligence budget. This year I consistently referred to the New York Times and the Los Angeles Times and what they say the intelligence budget is, \$28 billion.

We are not here today debating about whether that is enough or too much. I personally feel, as you all know, that it is too much.

At the height of the cold war, when we were spending 65 to 70 percent of it spying on the Soviet Union, it was not much more than that. You get the same justification for the intelligence budget as you get for the B-2, the super collider, and the space station: We have already spent so much; you cannot cut funding.

The Senator from Virginia, who I consider one of the very finest men in the United States Senate, one of the most courageous and certainly my dear friend, just got through saying we might jeopardize our agents. Nobody here really wants to jeopardize an agent, an on-the-ground human agent that the CIA might have someplace.

While we are not debating the amount of the intelligence budget, I

want you to think about this: Our intelligence budget is bigger than the entire defense budget of 10 NATO countries. Our intelligence budget is bigger than the French defense budget. You think about that. And the present CIA director, unlike his predecessor, Robert Gates, is strenuously opposed to making this total figure public.

Mr. WARNER. Madam President, could I ask a 10-second question of my good friend.

Mr. BUMPERS. Absolutely.

Mr. WARNER. The Senator questioned the statement by the Senator from Virginia with respect to the statement not only regarding intelligence agents abroad but the men and women of the Armed Forces. Tell me how releasing this figure is going to increase their ability to perform the mission, be they agents or men and women of the Armed Forces? That is the question you have to ask. How will it increase their safety abroad or their security if it is released?

Mr. BUMPERS. It does not increase or decrease their ability to carry out their mission. That is not my reason for being here. I am not trying to cut the feet out from under the intelligence community. They perform a useful function. Nobody denies that.

But I am just simply saying, What kind of nonsense is it for us to come here as 100 men and women of the United States Senate and say we cannot dare mention the total amount we are talking about? You know what the debate was about on the intelligence budget when I was trying to cut it. Someone said, We have already cut 3.7 percent. But then the question is for the ordinary citizen of the country and most of the United States Senators, 3.7 percent of what? Nobody had a clue. Maybe 3.7 percent of \$50 billion or \$10 billion.

It was 3.7 percent from the President's request, which was a substantial increase over last year's budget.

The President is my dear friend, and I forgive him because he is a first-year President, and this is a very arcane subject. But you think about it. You think about it—us standing around here not knowing a percentage of what we are cutting. It is just such powerful nonsense. It has nothing to do with jeopardizing agents on the ground. It has nothing to do with the reconnaissance or anything else. What it has to do with is, Is the figure too high or is it too low and how on Earth can you know if you do not know what the figure is?

I thought the Senator from Virginia was going to challenge me on the statement I made about how we spend more on intelligence than the French spend on defense. I was wrong by \$5 billion. They spend \$33 billion on defense, and we spend \$28 billion on intelligence according to the press.

But look at this: Italy, \$5 billion less on their entire defense budget than we

spend on intelligence; Saudi Arabia, \$15 billion; China—look at that—we spend almost twice as much on intelligence as China spends on its entire defense budget, and every time we are threatened by the Chinese military we jump under our desk. In South Korea, one of our stepchildren, who we defend, they are putting up \$13 billion, not half as much as we spend on intelligence.

Good Lord.

The amount we spend is important, and if you cannot deal with this, you cannot deal with anything else unless you know what you are talking about.

Mr. WARNER. Madam President, now I ask: Is the Senator informing the Senate and indeed the American public as to the total of the U.S. commitment to intelligence? If so, it seems to me that could be very much a violation of the rules of the Senate.

Mr. DECONCINI. Will the Senator yield?

Mr. WARNER. I will not yield.

It would be a violation of the rules of the Senate to disclose information submitted in confidence by the executive.

Mr. BUMPERS. Do I have the floor?

Mr. METZENBAUM. Regular order.

The PRESIDING OFFICER (Mr. CONRAD). If the Senator will yield for a moment, the Senator from Arkansas retained the floor.

Mr. BUMPERS. He asked a question.

The PRESIDING OFFICER. Is the Senator yielding for the purpose of a question?

Mr. WARNER. That is correct.

The Senator yielded, and I was propounding the question when others sought to interject. I retain the floor, and I pose the question.

The PRESIDING OFFICER. No. The Senator from Virginia does not retain the floor. The Senator from Arkansas retains the floor. The Senator from Virginia asked for permission to ask a question.

Mr. WARNER. Mr. President, the permission was granted, and I was in the course of asking the question when others sought to interject.

The PRESIDING OFFICER. The Senator may proceed to ask a question.

Mr. WARNER. Mr. President, the question to my colleague is: Does that figure marked "U.S. intelligence" represent—

Mr. BUMPERS. Right.

Mr. WARNER. Their \$28 billion?

Then I ask the question without confirming or denying the accuracy of the number stated on the chart the Senator is displaying: The rules of the Senate state that Members may not disclose publicly information which is transmitted by the President in confidence to the Senate.

Mr. BUMPERS. Mr. President, to answer the Senator's question, see this big asterisk here next to the number on the chart. It is down here. That is according to the Los Angeles Times, August 4, 1993, and the Senator's ques-

tion is precisely why I am over here supporting the amendment of the Senator from Ohio because the Senator would deprive me or anyone else from using anything except press reports. I know what the figure is, but I am not telling the world what I know. I am telling the world what has been reported in the Los Angeles Times, and that is about what 80 of the Senators in this body has to go by—what they read in the newspaper.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Ohio.

Mr. METZENBAUM. Mr. President how much time does the Senator from Ohio have remaining?

The PRESIDING OFFICER. The Senator has 4 minutes 42 seconds.

Mr. METZENBAUM. Mr. President, I yield 3½ minutes to the Senator from Alaska.

Mr. MURKOWSKI. I thank the Senator.

Mr. President, I have served on the Intelligence Committee for 8 years and 2 years as vice chairman of the committee.

I support the Metzenbaum amendment, which expresses the sense of the Congress that the President disclose the aggregate amount of the intelligence budget.

This is not a new position for me. While I served as vice chairman of the Select Committee on Intelligence, I supported a similar measure which emerged in a conference agreement with our House counterparts, and some speaking against it today also supported it then.

Providing the public with the total funding provided to the intelligence community will not harm our national security, nor should it compromise our ability to engage in sensitive intelligence activities. I rely on intelligence professionals, like Robert Gates, in arriving at these conclusions. During our confirmation hearings of Bob Gates to be Director of Central Intelligence, he acknowledged that releasing the overall budget figure would do no harm.

In fact, under Director Gates and President Bush, the intelligence community began promoting greater openness in dealing with the public on a variety of subjects. For example, Director Gates testified in open sessions, before various congressional committees on activities in the former Soviet Union, on proliferation of nuclear and other weapons, and other topics affecting our national security. To me, giving the public more information from our intelligence experts, not less, proves the worth of our investment in our national intelligence system.

This has led me to support this sense-of-Congress approach, which urges the President to release the gross intelligence budget figure. The public ought to understand that we take our Nation's intelligence mission very seriously, and that we are willing to spend

a large amount of money to maintain an active and effective intelligence capability. I have no difficulty defending spending levels for our intelligence community, nor any individual portion of it. It is money well spent, and is as necessary today as it was when the Soviet Union was our primary adversary. It is often said that our intelligence mission today has become much more complicated, with renewed attention being paid to regional conflicts, international drug networks, proliferation of weapons, and even global economic issues. Therefore, releasing the overall amount of money we spend on this important aspect of our national defense should inform our taxpayers that we take quite seriously our need to gather intelligence, and to assess events in a complex world.

I do not favor providing details on funds allocated to individual programs or activities. Our adversaries, whoever they may be at any given moment, should not be given any insights that may indirectly or directly advance their causes.

Finally, let me reiterate that the ultimate decision to release the aggregate budget number for intelligence will still reside with the Commander in Chief, if the Metzenbaum amendment is adopted. This mild proposition will do no harm, and it has already passed Congress in a previous authorization bill.

I urge my colleagues to support the Metzenbaum amendment.

I thank the Chair.

The PRESIDING OFFICER. The majority leader.

UNANIMOUS-CONSENT AGREEMENT—H.R. 3116

Mr. MITCHELL. Mr. President, I ask unanimous consent that, upon the disposition of H.R. 2330, the intelligence authorization bill, the Chair lay before the Senate the conference report accompanying H.R. 3116, the Department of Defense appropriations bill; that there be 2 hours for debate on the conference report, with the time controlled as follows: 1 hour, equally divided and controlled between Senators INOUE and STEVENS, 30 minutes under the control of Senator MCCAIN, and 30 minutes under the control of Senator NUNN; that when all time is used or yielded back, and without intervention action or debate, the Senate proceed to vote on adoption of the conference report.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. MITCHELL. I now ask unanimous consent that it be in order to request the yeas and nays on the adoption of the conference report.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

PROVIDING FOR A RECESS OR ADJOURNMENT OF THE HOUSE AND THE SENATE

Mr. MITCHELL. Mr. President, I now ask unanimous consent that the Senate proceed to the immediate consideration of House Concurrent Resolution 178, a concurrent resolution just received from the House, providing for a recess or adjournment of the House and Senate, and that the concurrent resolution be agreed to and the motion to reconsider laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

So the concurrent resolution (H. Con. Res. 178) was agreed to, as follows:

H. CON. RES. 178

Resolved by the House of Representatives (the Senate concurring). That when the House adjourns on Wednesday, November 10, 1993, it stand adjourned until noon on Monday, November 15, 1993, or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first; and that when the Senate recesses or adjourns at the close of business on Wednesday, November 10, 1993, pursuant to a motion made by the majority leader or his designee, in accordance with this resolution, it stand recessed or adjourned until noon on Tuesday, November 16, 1993, or at such time as may be specified by the majority leader or his designee in the motion to recess or adjourn, or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Speaker of the House and the majority leader of the Senate, acting jointly after consultation with the minority leader of the House and the minority leader of the Senate, shall notify the Members of the House and the Senate, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

Mr. MITCHELL. I thank my colleagues.

I yield the floor.

INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1994

The Senate continued with the consideration of the bill.

Mr. KERREY. Mr. President, I rise in support of the amendment of the Senator from Ohio. The overall, top line amount appropriated for intelligence should be made public because it is constitutionally mandated, because there is no longer a security reason for keeping the figure secret, and because it is time for intelligence to stand on its own feet and compete openly on its own merits with other programs.

The Constitution directs in article 1, section 9, that "no money shall be drawn from the Treasury, but in consequence of appropriations made by law; and a regular statement and ac-

count of the receipts and expenditures of all public money shall be published from time to time." During the cold war we set up an artifice to exempt intelligence from this requirement. We kept the intelligence budget number secret and concealed most of its programs in the Defense budget. We did this for good reason: we had in Moscow an adversary with a large intelligence service that would have taken this figure, had it been available to them, to measure America's effort. So we kept it from them, and rightfully so, even if in the process we kept it from our people as well. But today we have no such adversary. If our present antagonists, countries like Libya, Iran, Iraq, had any idea how much we spent on intelligence, they would be dismayed to learn that we spend far more on intelligence than they do on their whole governments. But they would learn nothing, in my view, that they could use against us.

I noted that it is time for intelligence to stand on its own feet, and I say that for several reasons. First, if intelligence is the valuable commodity that I contend it is in this very uncertain world, a world of new threats but from which the old nuclear threat has not completely faded, if it is the force multiplier that our military commanders say it is, than it ought to be amply funded. If it is tied to Defense with a continuation of the current policy of hiding the intelligence budget inside the Defense budget, then it is at risk of declining along with Defense. Absent new military threats, I believe we all agree that the Defense budget will continue to drop, perhaps steeply. A concurrent drop in the intelligence budget would not be appropriate. That is why I favor letting intelligence compete freely as a separate program. To do that, you have to announce the top-line intelligence budget figure.

Don't misunderstand me. Intelligence and Defense will always be functionally linked. As long as military commanders are the top priority customers for intelligence—and they always will be—the Defense Department should have an active role in managing intelligence programs and the Armed Services Committee should continue to take the intelligence authorization bill on sequential referral. But the top-line figure should be made public.

There's another reason, beyond the decline of the old threat and the shrinking Defense budget, for making the intelligence figure public. This is an age of increasingly open government. Don't take my word for it.

Look at the CIA. They began declassifying documents under the last DCI, Bob Gates, and are continuing to do so under Jim Woolsey. We all recall the recent release of previously classified documents on the assassination of President Kennedy. A great many other documents have been declassified and released as well.

The intelligence community is working with the scientific community to provide scientifically useful data on such things as whale migration and climate change, data collected by systems designed to pinpoint enemy submarines.

The CIA is seeking more of its information from open source material. It has even joined the Internet computer network, which means that virtually anyone can go online with them.

A Presidential panel is charting a whole new system of Government information security which will bring forth a more open system that will limit secrecy.

Intelligence topics like imagery and cryptology are now discussed in the public media, with surprising accuracy.

The Intelligence Committees of the House and Senate have an increasing number of open hearings.

Let's face it. Openness is the order of the day, and unless a threat as formidable and as lethal as the old Soviet Union comes along, our society and Government will steadily become more open. Our task is to make intelligence more useful to more Americans, not hoard it. I know that Bill Clinton understands this—his support for openness in Government is one of the driving factors behind this trend. That's why I can't believe that he personally opposes this amendment.

I also can't believe that stating the top-line intelligence figure would hurt the intelligence community. I know from my service on the Intelligence Committee that our extraordinarily capable intelligence structure is both priceless and a bargain. It can compete successfully with other Government programs.

Finally, I reject the argument that stating the top-line figure will lead to an additional peeling of the onion, a steady revelation of more secrets. This won't happen if we do it right: One way would be to simply require the President to state two figures when he submits the annual budget; the amount appropriated for the last fiscal year, and the amount the President requests be appropriated for the next fiscal year. In that way there would be no opportunity to compare the bills of different committees or to compare outlay versus budget authority. This would be one way to avoid the slippery slope, and I am sure there are others, which the Senator from Ohio's amendment leaves the President free to suggest.

The power to change is the power to keep our democracy vibrant and young. The budget secrecy that was necessary during the cold war is today at best dysfunctional. We can do better in the sunshine. Both our intelligence community and our democracy will be healthier for it. I urge adoption of the amendment.

Mr. METZENBAUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, I wish to say a concluding word to my colleagues.

In 1991, the Senate passed a provision to require disclosure of the budget total—to require it. That provision was watered down in conference, but the Senate had approved requiring disclosure.

This proposal does not require it. It is just a sense-of-Congress resolution as to our policy, that it should be disclosed. We enacted the same sense-of-Congress language in the 1991 conference report and again in 1992. All we are saying today is, pass again something that is really much less than that which the Senate passed in 1991.

Mr. WARNER. Mr. President, is all time yielded back?

The PRESIDING OFFICER. Has the Senator from Ohio yielded back all time?

Mr. METZENBAUM. I yield it back.

The PRESIDING OFFICER. All time is yielded back.

Mr. WARNER. Mr. President, I move to table the amendment and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Virginia [Mr. WARNER] to table the amendment of the Senator from Ohio [Mr. METZENBAUM]. The yeas and nays have been ordered and the clerk will call the roll.

The assistant legislative clerk called the roll.

The result was announced—yeas 49, nays 51, as follows:

[Rollcall Vote No. 366 Leg.]

YEAS—49

Bennett	Faircloth	McCain
Bond	Ford	McConnell
Breaux	Gorton	Nickles
Brown	Gramm	Nunn
Burns	Grassley	Packwood
Chafee	Gregg	Pressler
Coats	Hatch	Reid
Cochran	Helms	Roth
Cohen	Hutchison	Shelby
Coverdell	Jeffords	Simpson
Craig	Johnston	Smith
D'Amato	Kassebaum	Stevens
Danforth	Kempthorne	Thurmond
Dodd	Lieberman	Wallop
Dole	Lott	Warner
Domenici	Lugar	
Exon	Mack	

NAYS—51

Akaka	Dorgan	Kohl
Baucus	Durenberger	Lautenberg
Biden	Feingold	Leahy
Bingaman	Feinstein	Levin
Boren	Glenn	Mathews
Boxer	Graham	Metzenbaum
Bradley	Harkin	Mikulski
Bryan	Hatfield	Mitchell
Bumpers	Heflin	Moseley-Braun
Byrd	Hollings	Moynihan
Campbell	Inouye	Murkowski
Conrad	Kennedy	Murray
Daschle	Kerry	Pell
DeConcini	Kerry	Pryor

Riegle	Sarbanes	Specter
Robb	Wasserman	Wellstone
Rockefeller	Simon	Wofford

So the motion to lay on the table the amendment (No. 1157) was rejected.

Mr. DECONCINI. I urge the adoption of the amendment of the Senator from Ohio.

The PRESIDING OFFICER. Is there any further debate? If there is no further debate, the question is on agreeing to the Metzenbaum amendment.

Mr. DECONCINI. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

Mr. WARNER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MITCHELL. I ask unanimous consent that further proceedings under the quorum call be dispensed with.

Mr. WARNER. Mr. President, I object. I object two times.

The PRESIDING OFFICER. Objection is heard.

The bill clerk continued the call of the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, parliamentary inquiry. What is the pending matter?

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Ohio [Mr. METZENBAUM].

Mr. WARNER. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk called the roll.

The PRESIDING OFFICER (Mr. AKAKA). Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 52, nays 48, as follows:

[Rollcall Vote No. 367 Leg.]

YEAS—52

Akaka	Glenn	Mikulski
Baucus	Graham	Mitchell
Biden	Harkin	Moseley-Braun
Bingaman	Hatfield	Moynihan
Boren	Heflin	Murkowski
Boxer	Hollings	Murray
Bradley	Inouye	Pell
Bryan	Johnston	Pryor
Bumpers	Kennedy	Riegle
Byrd	Kerry	Robb
Campbell	Kerry	Rockefeller
Conrad	Kohl	Sarbanes
Daschle	Lautenberg	Sasser
DeConcini	Leahy	Simon
Dorgan	Levin	Specter
Feingold	Lugar	Wellstone
Feinstein	Mathews	Wofford
Ford	Metzenbaum	

NAYS—48

Bennett	Durenberger	McCain
Bond	Exon	McConnell
Breaux	Faircloth	Mack
Brown	Gorton	Nickles
Burns	Gramm	Nunn
Chafee	Grassley	Packwood
Coats	Gregg	Pressler
Cochran	Hatch	Reid
Cohen	Helms	Roth
Coverdell	Hutchison	Shelby
Craig	Jeffords	Simpson
D'Amato	Kassebaum	Smith
Danforth	Kempthorne	Stevens
Dodd	Lieberman	Thurmond
Dole	Lott	Wallop
Domenici	Lugar	Warner

So the amendment (No. 1157) was agreed to.

Mr. METZENBAUM. Mr. President, I move to reconsider the vote.

Mr. DECONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. Is there further debate on the bill?

Mr. DECONCINI. Mr. President, how much time is remaining?

The PRESIDING OFFICER. The Senator from Arizona has 3 minutes, 2 seconds. The Senator from Virginia has 14 minutes 7 seconds.

Mr. DECONCINI. Mr. President, I yield back the remainder of my time.

Mr. WARNER. Mr. President, I thank the Senate for its indulgence in having a second vote on this very important issue. If the Senate feels so strongly that it wants to pass a sense-of-the-Senate, I wish it would have the courage to step up and pass the law then. I yield the remainder of my time.

The PRESIDING OFFICER. The clerk will read the bill for the third time.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. Under the previous order, the Intelligence Committee is discharged from further consideration of H.R. 2330, and the Senate will proceed to the immediate consideration of the bill.

The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 2330) to authorize appropriations for fiscal year 1994 for intelligence and intelligence-related activities of the United States Government and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The PRESIDING OFFICER. Under the previous order, all after the enacting clause is stricken and the text of S. 1224 is inserted in lieu thereof.

The clerk will read the bill for the third time.

The bill (H.R. 2330) was ordered to a third reading and was read the third time.

Mr. WELLSTONE. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is not a sufficient second.

Mr. DECONCINI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. WARNER. Mr. President, is this to be done by voice vote, in which case or Senator from Virginia has no objection?

Mr. DECONCINI. The Senator is correct.

Mr. WARNER. The request for yeas and nays has been withdrawn?

Mr. DECONCINI. It was never formulated or consummated.

Mr. WARNER. Mr. President, this is to be done by voice vote?

The PRESIDING OFFICER. If no one requests the yeas and nays, yes.

The bill having been read the third time, the question is, Shall the bill pass?

So the bill (H.R. 2330) was passed.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. DECONCINI. Mr. President, I ask that the Chair appoint conferees, and they are before the Chair.

The PRESIDING OFFICER. Under the previous order, the Senate insists on its amendments, requests a conference with the House on the disagreeing votes, and the Chair is authorized to appoint conferees on the part of the Senate.

The Chair appoints the following conferees.

The legislative clerk read as follows:

From the Select Committee on Intelligence: Mr. DECONCINI, Mr. WARNER, Mr. METZENBAUM, Mr. GLENN, Mr. KERREY, Mr. BRYAN, Mr. GRAHAM, Mr. KERRY, Mr. BAUCUS, Mr. JOHNSTON, Mr. D'AMATO, Mr. DANFORTH, Mr. GORTON, Mr. CHAFEES, Mr. LUGAR, Mr. WALLOP, and Mr. STEVENS.

From the Committee on Armed Services: Mr. NUNN and Mr. THURMOND.

The PRESIDING OFFICER. Under the previous order, S. 1301 is indefinitely postponed.

The Senator from Arizona is recognized.

Mr. DECONCINI. Mr. President, that finishes the authorization.

I thank my distinguished vice chairman for his counsel and advice. I know he feels very strongly about this subject matter. We spent a good part of the afternoon, and I respect his position on this. I hope we can work in the future to maybe find a little better way to handle it. I pledge to him to continue to work with him.

I thank the dedicated staff on both the majority and minority side for their work in putting this bill together.

The PRESIDING OFFICER. The Senator from Virginia is recognized.

Mr. WARNER. Mr. President, I thank my distinguished chairman, colleague, and friend. I join him in commending our staff. We have an excellent staff. We try as best we can to perform in a bipartisan manner such important issues to this Nation as its intelligence. I yield the floor.

DEPARTMENT OF DEFENSE APPROPRIATIONS ACT OF 1994—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the clerk will report the conference report accompanying H.R. 3116.

The legislative clerk read as follows:

The committee on conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3116) making appropriations for the Department of Defense for the fiscal year ending September 30, 1994, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective houses this report, signed by all of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of November 9, 1993.)

The PRESIDING OFFICER. The Senator from Hawaii [Mr. INOUE] is recognized.

PRIVILEGE OF THE FLOOR

Mr. INOUE. Mr. President, before proceeding, I ask unanimous consent that the following persons be given floor privileges during consideration of this conference report: Denise Baken, Paul Joula, Nancy Lescavage, Karen Miller, and John J. Young, Jr.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. Mr. President, I am pleased to offer the conference report (H. Rept. 103-339) making appropriations for the department of Defense for fiscal year 1994. The conference report before you provides funds to operate, maintain and equip the Defense Department and our military forces during fiscal year 1994.

The bill provides \$240.6 billion for DOD, a reduction of \$1.4 billion from the President's budget request. It is within the subcommittee's 602(b) allocation. Discretionary outlays from the bill will be \$255.2 billion, a reduction of \$3.2 billion from the budget request and less than \$50 million below the subcommittee's allocation.

Mr. President, this is a very lean bill. The budget authority in this bill is \$13.5 billion below the level funded for fiscal year 1993, and nearly \$40 billion lower than funds provided 10 years ago not counting inflation. I must advise my colleagues that not every worthwhile program could be accommodated in this austere bill, but the conferees

have done their best to produce a bill which meets the needs of our men and women in uniform.

MILITARY PERSONNEL

The bill provides a total of \$70.6 billion for military personnel pay, allowances and related costs. This amount includes \$1.1 billion to fully fund a 2.2-percent pay raise for our uniformed personnel. Military end strength will decline by 103,000 active duty personnel during fiscal year 1994. Guard and reserve strengths are above the administration's request by 5,300, reflecting the increased requirements to be levied on our reserve components.

OPERATION AND MAINTENANCE

To operate and maintain our forces, the conference agreement recommends \$77.1 billion. This is \$1.6 billion below the budget request, but most of this reduction is from fact of life savings in fuel pricing, undermanning of civilian personnel and lower costs of foreign currency.

In addition, funding has been added to the President's request for aircraft and ship maintenance programs, unit training activities, and for returning excess Army equipment from Europe. We began this year by emphasizing the need to maintain the readiness of and quality-of-life for our troops. I believe this bill does preserve that critical readiness for another year.

Also in title II, funds were added for select defense conversion programs supported by many Members in this body. For example, the conference agreement adds funds for military youth programs, economic development programs in California, Florida, Michigan, and many other States affected by base closures, and aid for school districts.

PROCUREMENT

The bill would fund \$44.7 billion for procurement, a decrease of \$300 million from the request. Mr. President, this amount is \$10 billion below the levels funded in fiscal year 1993.

Significant army highlights of this action include providing a \$275 million in increases for Apache and AHIP helicopters.

For the Navy, the agreement provides funds to support the three DDG-51 destroyers as requested. Full funding is provided for the Trident Missile Program and the purchase of 36 F/A-18 aircraft.

BQG-5 WIDE APERTURE ARRAY

Mr. President, the conferees agreed to provide \$33 million for the BQG-5 wide aperture array program, as noted in the statement of the managers. Unfortunately, the table which accompanies the statement of the managers does not include funding for the program. Mr. President, I want it to be clear that the conferees funded this program, and the Navy is directed to adjust the amounts shown in the tables to reallocate funds from other pro-

grams which were not increased above the budget request in the other procurement Navy appropriation to fund this important program.

Mr. President, one issue that is of interest to many Members is funding for the CVN-76 aircraft carrier. The Senate bill included \$3.4 billion to complete the financing of the next nuclear aircraft carrier. The House committee included \$1 billion to finance a portion of the costs; however, the specific earmark for using these funds for the carrier was deleted on the House floor.

I made a statement on the Senate floor on October 26, explaining the reasons that the Senate provided funds for the carrier and urging the conferees on the Defense authorization bill to include authorization for the balance of the carrier. I will not repeat all the arguments here, but just remind my colleagues that funding the carrier in 1994 instead of 1995 would have saved U.S. taxpayers \$200 million.

Unfortunately, the Defense authorization bill did not authorize the remaining balance for the aircraft carrier. While many of my colleagues agree that the authorization granted in 1993 to begin financing the ship is sufficient authorization to complete payment for the ship, there are those here and in the House who believe that this issue should await additional authorization.

It is somewhat ironic that, while we are discussing this issue today in the Senate, tomorrow, in Newport News, VA, a new nuclear aircraft carrier will be christened. Some of my colleagues will remember that, in 1987, Congress authorized \$644 million in advance procurement funds to partially fund this carrier and then appropriated \$6.2 billion, the full amount required to fund two aircraft carriers. I think that is important to keep in mind.

Mr. President, I was not chairman during that period. My predecessor, Senator John Stennis, was the chairman. It was Senator Stennis who spearheaded the effort to fund the two carriers. Senator Stennis knew a good deal when he saw it. By fully funding the two carriers in 1 year instead of funding them incrementally over several years, the Congress, at Senator Stennis' urging, saved the taxpayer about \$1 billion. Some shortsighted individuals complained at that time that the ships were not authorized completely, but in that instance, reason prevailed. It is even more ironic to note that tomorrow this new carrier will appropriately be christened the *John C. Stennis*.

Mr. President, I am sorry to report that the conferees on the Defense appropriations bill were unable to convince the House of the merits of this case. In a compromise, the conferees agreed to provide \$1.2 billion in additional national defense sealift funds which may be used to help purchase

the CVN-76, if subsequent authorization is provided. I would note that, if authorization is not granted, these funds could be used for chartering roll-on/roll-off vessels, or for constructing additional sealift ships.

Significant highlights for Air Force procurement include providing \$2.2 billion to buy six C-17 aircraft this year and advance procurement funds for buying eight in fiscal year 1995. The conferees also agreed to purchase 12 F-16 aircraft, for \$400 million.

Mr. President, the conference report reflects the strong support of the Senate regarding National Guard and Reserve equipment. While the House earmarked funds for specific projects, the Senate did not.

The conference agreement allows the chiefs of the Reserve components to determine which specific items will be purchased. The statement of the managers earmarks \$400 million for miscellaneous equipment and lists items which it believes should be given priority, but does not mandate which equipment must be acquired. In addition, the statement earmarks \$800 million for new transport aircraft. The conferees intend that these aircraft can be either new production or newly refurbished aircraft.

RESEARCH AND DEVELOPMENT

Mr. President, in order to preserve readiness and still live within the funding constraints imposed upon the committee, the conferees made significant reductions in research and development. A total of \$3.4 billion was cut from the budget request of \$38.6 billion. Included in the reductions, the bill terminates the Army's Sadarm Precision Submunition Program, terminates the Navy's AF/X attack aircraft, and slows down the F-22 program, cutting the request for that aircraft by \$168 million.

In other highlights, the agreement fully funds the Army's Comanche helicopter, fully funds the Navy's F/A-18 E/F program, and the Navy's new attack submarine.

Mr. President, the conferees provided \$2.6 billion for ballistic missile defense. For the first time, the conferees agreed to recommend a number of discrete reductions in this program.

The discrete reductions recommended by the conferees provide the level of funding for theater and national missile defenses as we expect will be authorized. The full Senate previously approved virtually all of the recommended reductions.

The ballistic missile defense organization also recently decided to terminate several projects in preparing to adjust to a lower level of fiscal year 1994 spending. The conference recommendations include these reductions.

Mr. President, I believe the discrete spending recommendations in this conference report are an important first step in demystifying the Ballistic Missile Defense Program. The Congress

should evaluate the ballistic missile defense research and development programs just like other Pentagon programs. We should endorse those programs which are militarily-justified and cost effective. We should reduce programs which are lower priority, unjustified or duplicative.

Mr. President, this is not micro-management. This is prudent oversight of the taxpayers resources. Within the overall ballistic missile program we are talking about a number of large acquisition programs, each receiving hundreds of millions of dollars. The Congress should have a voice in the allocation of funds to major acquisition programs such as Patriot, Thaad, and the many other major acquisition efforts embodied in the overall ballistic missile defense program.

The conference report recommendations express that voice as it should be expressed. It is essential that the Defense Department understand the seriousness with which I view this action to begin exercising the same oversight over these programs as Congress exercises over other defense programs.

The Department should heed these words and follow the recommendations to make the discrete reductions highlighted in the conference report. Should the Pentagon wish, based on new information or some better justification than so far provided, to change these discrete funding allocations, it is my strong opinion that DOD should consult with, and notify, the committee well in advance of taking any such action.

The conference recommendation clearly indicates the Congress' priorities. I look forward to working with the leadership in the Department of Defense to assure that our views are reflected in their allocations of fiscal year 1994 funds.

In other matters, the conference report affirms the position of the Senate regarding U.S. peacekeeping activities. The Byrd amendment restricting United States forces in Somalia is incorporated in the conference agreement as are amendments adopted by the Senate regarding Haiti, Bosnia, and command and control of United States forces. A new general provision has been added which expresses the sense of the Congress that the President should consult with Congress prior to undertaking any new humanitarian or peacekeeping deployment and pay for such operations through supplemental appropriations.

Mr. President, this has been a tough year for the Defense Subcommittee. The funding constraints that the committee must meet required that \$3 billion in outlays be reduced from the bill. After 9 straight years of reducing defense spending, that is not an easy task. The Senate was up to the challenge in its passed bill, and I am happy to say the conferees have also responded to that difficult challenge.

The conference report reflects a good compromise between the priorities of the Senate and the House. But most importantly, it is a good agreement which will provide for the safety and support of our men and women in uniform. I urge all Members to support the conference report.

Mr. President, before I conclude, I would like to say a few words about the staff of this subcommittee. These dedicated professionals have earned the respect and admiration of their colleagues in the Senate and in the executive branch. They have served individual Senators—and the Senate as an institution—in a most exemplary fashion.

I know them, I trust them, I am grateful to them.

It is not a large staff, just a dozen in number. Their names are: Richard L. Collins, Charlie Houy, Steve Cortese, Dick D'Amato, Peter Lennon, Jay Kimmitt, David Morrison, Mary Marshall, Mazie Mattson, Susan Char, Jim Morhard, and Donna Patty.

As in past years, this staff has been supplemented by a departmental support group: John Young, Denise Baken, Paul Joula, and Karen Miller.

Mr. President, this is an extraordinary staff. Their well earned reputation for a thorough and reasoned analysis of the President's budget for defense appropriations was enhanced this year when, in an unparalleled achievement, through their study and analysis, this subcommittee met the challenge posed by the sharply circumscribed allocations it received in the budget process. It was only through their study and analysis that Senator STEVENS and I were able to do this, and I would note that, of all of the Defense committees, this subcommittee was the only one to meet its target.

Mr. President, this kind of an achievement does not rest on the efforts of one person alone; it requires a team effort, and they all deserve recognition. And yet, as many know, in the years that I have been chairman of this subcommittee, I have thought it appropriate, each year, to single out an individual for special recognition.

This year, I am in a position to do both, because this year I want to give recognition to an individual who exemplifies the team effort which has made Senator STEVENS and me so proud of our subcommittee.

Steve Cortese is the minority staff director of the Senate Subcommittee on Defense Appropriations. He is a patriot, a trusted advisor, and a friend. He works for my good friend, TED STEVENS; he serves us all.

This year Steve and his wife, Eileen, had a baby girl, Lauren Elizabeth, who has kept him up late at night, almost as often as the Senate has. And yet, he is invariably good-humored, well-informed, and ready to contribute. And, most capable of advancing the goals

and objectives of his party within the Senate.

Mr. President, I am pleased to have an opportunity to recognize the contributions of a dedicated public servant. Steve Cortese has served the vice chairman of this subcommittee, Senator STEVENS, and myself in an exceptional manner. He has served the Senate in an exceptional manner. He serves his country every hour of every day, without complaint and without expectation of great reward. In doing so, he rewards us all.

And, for that, I am grateful.

The PRESIDING OFFICER. The Chair recognizes the Senator from Alaska [Mr. STEVENS].

Mr. STEVENS. Mr. President, let me, on behalf of my good friend and assistant and associate, Steve Cortese, thank the Senator from Hawaii for his usual graciousness, and the kind words he has said about our minority staff director for this subcommittee. It is a great pleasure to have worked with him, and with Senator INOUE.

I want to go quickly through some points on this bill. But I, too, would remember that it is not quite 6 years ago that I offered the amendment to name the new nuclear aircraft carrier, the *John C. Stennis*. That was on December 11, 1987. I think we mentioned this carrier not only because of our great love for John Stennis—and on that day I mentioned I have never known a man like John Stennis in my life, who had the stamina and the will to continue and the great love for country that John Stennis had; but we mentioned the *John C. Stennis*' christening tomorrow, and Senator COCHRAN I know will be there to do that; unfortunately, we are not able to be there—primarily because of the time lag in authorizing an aircraft carrier, and getting it to the point where the *John C. Stennis* will be tomorrow, where it can be christened.

On the conference committee that approved the *John C. Stennis* were John Stennis, Senator Proxmire, Senator Chiles, Senator Burdick, Senator Weicker, Senator McClure, Senator Garn, Senator Kasten, and Senator Rudman. In 6 years, all of those Senators have departed from this body and we are just getting the *John C. Stennis* to the first stage of its service in the U.S. Navy. It takes the time of a lot of people to bring a major ship on the line in the United States Navy. We have been only able to take a very small step toward the next aircraft carrier.

I want to emphasize what the Senator from Hawaii said concerning the money that is earmarked in this bill for that carrier, in the event that it is authorized. And I do urge the authorization committee to promptly authorize it next year, keeping in mind this very, very long time before that aircraft carrier will become a part of the U.S. Navy.

The bill we present to the Senate is \$511 million below the President's request. Every Member of the Senate can be confident that this bill accommodates the priorities of the Joint Chiefs as well as the theater commanders in the field. Senator INOUE and I have personally visited with them this year, prior to the preparation of this bill. It is a bill that has \$1.2 billion in a modernization initiative for the National Guard and Reserve, taking into account the new burden that falls upon those forces in their overall plan for our country's defense.

We have not this year earmarked any of the funds for specific systems. The authority to allocate the funds for the Guard and Reserve rests with the commanders of those forces, of course under the control of the President and his appointees. But it is a new initiative.

I think of interest to our conferees is the funding provided for aircraft to modernize the Guard fleet. We expect the Guard and Reserve to procure either new aircraft or refurbished or modified aircraft to best meet their mission requirements. And the Congress in this bill will give them the discretion to make the best decisions to give us the best force possible.

A success story has been in the procurement of an especially modified C23-B aircraft for the National Guard, existing planes with alterations, dedicated to a Guard-specific mission. This conference reports the authorized level of funding for the Ballistic Missile Defense Program, with the accounts for Patriot, Erint, and Arrow programs. They are fenced, but that is to ensure the full funding of those programs. There is no constraint on the funding for Brilliant Pebbles, and \$140 million is provided to continue the program for the Brilliant Eyes initiative.

We have a new provision that I wish to discuss. That makes available \$100 million to initiate contractor provided logistic support for United States and United Nations forces in Somalia. While I support this provision as an important step to accomplish withdrawal of our forces by March 31, as is indicated by the action of the Congress and as stated by the President, I do express my concern for the safety and protection of these American civilian contract workers in Somalia.

I am sure that the matter will be settled expeditiously. We should take steps to ensure that no Americans will be at risk in Somalia as part of our national and United Nations support for the effort there.

This is a new initiative. We did assure ourselves that it has total support of the Commander in Chief and, therefore, we have initiated this money for contractor-supported logistics for those forces in Somalia. I again state, however, that it is not contrary to the position taken by the Senate to require

the withdrawal of U.S. forces by no later than March 31.

The proposed bill supports the Army structure as it has been outlined to us by the authorization program. There still is a question about the rest of the 5-year program. That has not been initiated yet by the authorization committee.

The Army organization is at 540,000 military personnel and 12 divisions. In my judgment, we should not go any further. We have accomplished our reduction in force for the Army, so far as this Senator is concerned. The troops deployed over the past 5 years in Panama, Desert Shield, Desert Storm, Somalia, and Hurricane Andrew—so many events in these past 5 years—have demonstrated the flexibility of preparedness and professionalism of our United States Army. It cannot stand any further reductions at this time. It is a precious asset for a democracy such as ours to have such a professional military force as we have in the U.S. Army.

I am not neglecting the Air Force and the Navy, but I do believe it is time to draw the line and say there should not be any more cuts. There should be a floor under the 12 divisions, as far as the Army is concerned.

I express our thanks to the Senator from Hawaii and his distinguished assistant, Richard Collins. The four of us have traveled, literally, throughout the world. We get some criticism for it, but we visit remote places in this world to see what is happening and why we have forces where we do have them around the world in this period. It is a matter of great pride to me that we continue to serve together, as I have stated to this Senate previously. In the time I have worked on this bill with my friend, which is almost 25 years now, we have never had a basic disagreement.

I again close as I started, Mr. President. I know of no Member of the Senate that served a longer period of time and dedicated his soul and his existence to the concept that this Nation deserves a total defense than John Stennis. He served as chairman and then when I was chairman of the subcommittee, he was the ranking member. He became chairman again for a short time, and my friend from Hawaii then became the chairman.

We have worked together as a team on this defense appropriations concept. We feel, I think—the two of us—that we are sort of the students of John Stennis, and since tomorrow will be John C. Stennis Day, I hope the Senate will take the time to commemorate the service of this distinguished gentleman who will now have his name prolonged in the history of the U.S. Navy he loved so well in the form of this great new carrier, the *John C. Stennis*.

The PRESIDING OFFICER. Who yields time?

Mr. MCCAIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona [Mr. MCCAIN] is recognized for 30 minutes.

Mr. MCCAIN. Mr. President, I would like to express my concurrence with the views concerning Senator Stennis just voiced by my two colleagues. He is, indeed, a wonderful giant of a man, a great leader, one I had the privilege of serving with on the Armed Services Committee in my first years in the Senate. He will stand as one of the giants of the U.S. Senate.

I have one question for either my colleague from Alaska or the Senator from Hawaii, to begin with.

Is there a printed copy available of the appropriations bill?

Mr. INOUE. It has been printed in the CONGRESSIONAL RECORD.

Mr. MCCAIN. Fine. I say it is too bad we do not have a printed copy on our desks, as we should have. I want to alert my two colleagues, next year if the appropriations bill is not printed and available for me and my staff—as is the custom here—to read, I will object to consideration of a \$241 billion bill until such time as I have the opportunity to look at it. I think that is something we have a right to.

I repeat, I believe that appropriations bills should be printed and on the desk—

Mr. STEVENS. Will the Senator yield?

Mr. MCCAIN. Yes.

Mr. STEVENS. I am informed that my staff spent an hour or more going over every sheet of this bill with the Senator prior to this being printed in the CONGRESSIONAL RECORD.

Mr. MCCAIN. With the Senator?

Mr. STEVENS. It is printed in full in the RECORD.

Mr. MCCAIN. No member of your staff has been over anything with me. They may have been over it with my staff.

Mr. STEVENS. With your staff.

Mr. MCCAIN. Fine. I believe I should have the right myself to be able, as every other Member, to have a copy of the bill on our desk. I believe it is customary in the Senate.

Mr. STEVENS. It is on the Senator's desk. It is in the CONGRESSIONAL RECORD.

Mr. INOUE. If the Senator will yield.

Mr. MCCAIN. My staff tells me it is not printed in the CONGRESSIONAL RECORD.

Mr. INOUE. If I may respond, it is in the CONGRESSIONAL RECORD and it has been the tradition, I have been advised, as to the printing of the bill itself, the Government Printing Office does that after the President signs the bill. So what we have before us is the conference report, and it is in the CONGRESSIONAL RECORD of November 9, 1993, on page H8978.

Mr. MCCAIN. Thank you for that information. I am not going to take too

much time. It is my understanding that it was not available until this afternoon. That is not a lot of time to examine a bill that entails \$241 billion.

What I am complaining about, obviously, is that in the days, weeks and months to follow, we will find unauthorized appropriations, special pork-barrel projects, which this Senator is going to continue to do everything I can to bring to a stop.

I see special earmarks for defense conversion: New London State Pier, \$3.7 million; Miami Dade County Community College, \$10.5 million; Aviation Technology and Training Center—I have no idea where—\$4.5 million; World Language and Cultural Studies Center at Pfeiffer College, \$250,000; Health Care Network, New York, \$2.5 million; CFC Free Refrigeration Technology Project, \$200,000—on and on and on and on—the list goes on and on. And cuts to these appropriations, by the way, require the consent of all four appropriations committees—these I just read—there are some 56 of them, coming up to over \$221 million, which are special congressional interests. That despite the fact that an amendment of Senator BROWN was accepted and I understand it was accepted in the Senate bill:

None of the funds appropriated or otherwise made available by this act may be used for a defense technology reinvestment project that is not selected pursuant to the applicable competitive selection and other procedures set forth in chapter 148 of title 10, U.S. Code.

The intent of the Brown amendment was to prevent this, and yet I see that funds are earmarked for projects that have, as far as I can see, absolutely nothing to do with national defense, at the same time, at the very same time—and I sound a little emotional about this over and over again—we are going to cut 103,000 men and women out of the military. We are going to tell 103,000 men and women in the military that we cannot afford to keep them because we have to cut the defense budget—103,000 of them, many of them on short notice. Most of them had wanted to stay in the military for a career.

What are we going to do? We are going to spend \$2 million to establish a marine environmental research facility in Astoria, OR; \$1.3 million for a replacement landfill in Kotzebue, AK. I am sure I mispronounced that name. \$500,000 for environmental remediation and wells on Walker River Paiute tribal lands; \$1.5 million for the purchase and rehabilitation of an LCU ship as a commercial cargo vessel to be transferred to the Government of American Samoa; \$7 million for an MDIS tele-imaging medical diagnostic program at Madigan Army Medical Center in Washington State; and \$2.3 million for cell adhesion molecule research. Get this:

The \$2.3 million for cell adhesion molecule research; specifies that the research be done

at a "nonprofit foundation in the northeast by an integrated team of scientists with extensive experience in the molecular analysis of the immune system. The scientific team must have extensive experience in the identification and analysis of cell adhesion, signal transduction pathways, cytokine production and gene regulation."

Mr. President, that must be some place in somebody's district. What in the world, what in the world has that to do with national defense? I am all for investing in cell adhesion molecule research. What does it have to do with national defense?

What do I tell these young men and women who are in my State, who are saying, "Senator, I do not want to leave the military. I wanted to stay in the military for a career. And now I am being separated because they say they cannot afford to keep me."

Mr. President, the fact is that what we are doing is not acceptable. My greatest fears about defense conversion were that the money for defense conversion that we appropriated would not be used to help with conversion of industries which need help, but they would be used for pork barrel projects.

The World Language and Cultural Study Center in Pfeiffer College is going to get \$250,000. What is the requirement for defense conversion?

New London State pier. I do not know what that has to do with defense conversion. It is earmarked. I am sure that there will be answers for all of these.

I am sure that the Paiute Indians need to have something paid for and cleaned up. What do the Paiute Indians have to do with national defense? There are no greater supporters in this body than this Senator and the Senator from Hawaii for Native Americans. I have yet to see any connection between Paiute Indians, who are going to get \$500,000, and at the same time that is called national defense.

I would like to talk for a minute about the *Seawolf* submarine, a fantastic example of what is wrong with the system here, Mr. President.

The *Seawolf* submarine, a \$5.2 billion weapons system, which no military person in the world will say there is a requirement for—not a one, not any Navy, not any Army, not any Air Force official, no one will say there is a threat to this Nation's national security that requires the presence of a *Seawolf* submarine. The amendment that I had added during the Senate debate on this bill, which was accepted, said that there would be a cap placed on the expenditures for the two previous submarines, the SSN-21 and 22.

Now, I was not trying to kill it. We went through that. We went through the attempt to terminate the program. But all I asked for was a cap. I used the cap which was stated in the letter from the Secretary of the Navy of September 13. The letter that I got from the Secretary of the Navy, which I in-

cluded in the RECORD at that time, said we need no more than those funds. So I thought, well, if the Secretary of the Navy says they do not need any more money than that, approximately \$4.673 billion—\$4.673 billion—surely that would be enough. But that amendment was dropped in conference. The Department of Defense said as follows from their appeal letter:

This cap greatly curtails our flexibility in managing the shipbuilding account. *** While the Department feels confident that an estimate of \$4,673.4 million for the SSN-21 and 22 is currently achievable, it should be recognized that it is difficult to provide absolute assurance in overall costs. *** The Department urges the conferees to exclude this provision.

We contacted Electric Boat Co., the people who make the submarine, and asked, is \$4.673 billion enough for you for two submarines? Two, count them, two submarines. They said "yes." In fact, they told us they would write us a letter and say yes.

So I thought it was reasonable perhaps to tell the American taxpayers that we were not going to spend any more than what the shipbuilder and the Secretary of the Navy said they needed.

What happened? Dropped in conference, Mr. President, because there is no fiscal discipline. We could have taken this \$5 billion boondoggle and paid each one of those workers whose jobs we are saving somewhere around \$200,000 each.

Mr. STEVENS. Will the Senator yield right there?

Mr. MCCAIN. I will be happy to yield.

Mr. STEVENS. I want the record to show that at times the Senator from Arizona and I have slightly disagreed on these matters. But on this one, I am entirely in accord with the Senator, as the Senator knows. I fought the *Seawolf*. I have opposed the *Seawolf*. I continue to oppose the *Seawolf*, as I did the battleships when they were refloated and now we are putting them back as museums.

But the majority wins in these matters, and I appreciate the statement the Senator is making. But I do remind him that we have lost that battle every time we fought it in this Chamber. As a consequence, there is nothing much we can do about it except I do commend him once again for making the record that we do not need the *Seawolf*; it is a waste of money, and I hope he will continue reminding people of that fact. But the fact remains that the action taken by the conference was in accordance with the opposition bill.

Mr. MCCAIN. Let me tell my friend from Alaska that I understand that it is in accordance with the authorization bill, and I do not intend to sign the authorization bill. I intend to vote against the authorization bill for that and a variety of reasons, including our dramatic derogation in readiness and capability that is the result of a steady decline in defense spending.

Let me just remind my friend from Alaska that there were two issues that I brought before the Senate with regard to the *Seawolf* submarine. One was to kill it. The other was to put a cap on the expenditure as a result of the letter that I received from the Secretary of the Navy.

That amendment was accepted and approved by the Senate. Obviously, the House must have felt differently and the House prevailed. I regret enormously that the position of the House obviously prevailed which caused my amendment, which had been accepted by the Senate on a voice vote, to be dropped. But what it proves is that this system is so broken that we cannot even put caps on expenditures for a weapons system that both the Navy and the people who are building the ship say they can adhere to. We cannot even do that. At the same time—this is what galls me so much—we tell these young men and women, "I am sorry; we are paying you \$30,000 a year." That is the average salary of a young enlisted person. "We cannot afford to keep you. But our expenditures on the *Seawolf* submarine are basically without caps, without limit."

Mr. President, I was able to compile last July a very interesting document, at least interesting to me, called "Going Hollow." And they were not my thoughts. They were the thoughts of the various chiefs of staff who I asked various questions. For example, the Commandant of the Marine Corps stated in response to my request:

The Marine Corps is underfunded by \$101 million it needs to compensate for readiness funds it had to use to pay for humanitarian and peace keeping operations.

It has current combat equipment backlogs that would cost \$93 million to cure, and the cost of correcting these backlogs will rise to \$165 million in 1994.

Combat training is underfunded by \$7.8 million.

The Marine Corps has only received \$115 million of the \$230 million in DBOF 1993 cash transfers needed to maintain proper readiness.

The Marine Corps has reached a critical point in modernizing medium lift.

We are funding Marine Corps real property maintenance at \$250 million versus \$430 million we really need.

These are all statements I got from the various chiefs of the services.

The Chief of Staff of the Army said:

Although Operational tempos have been kept high at the cost of other forms of readiness, the amount of money spent on OPTEMPO per division has still dropped by 21% from FY1985 to FY1989—from \$124 million to \$98 million.

The amount of base operations support per division has dropped by 14%, measured relatively to a FY1985-FY1989 baseline. It has declined from \$107,000 to \$92,000 per soldier, severely reducing the quality of life for military personnel.

Total operations and maintenance expenditure per soldier has dropped by 36%.

The funding of supplies and related maintenance per division has dropped by 22%.

This is a drop from \$244 million to \$191 million per division.

That list goes on.

The same is true of the Navy. The same is true of the Air Force. Each service is well documented in this document by their statements and warnings—not mine—that we are approaching a hollow military.

Then we turn around and do this. I wish I did not understand it. I am not happy with it. I will continue to do whatever I can to stop it, and to publicize this because the American taxpayers deserve better. The American fighting men and women deserve better. Sooner or later they are going to get better.

I spend a lot of time in my State of Arizona for a variety of reasons. The fact is the people in my State are angry. They are upset, and they are fed up. They think that this kind of thing has to stop.

I have been made keenly aware that this may cause my State or military installations in my State to suffer. It already has—and that there will be all kinds of problems that I am generating, that I should go along with this system. I have been advised to go along with this system.

Mr. President, I cannot. Life is too short. Life is too short for me to go along with a system both in the authorizing process and in the appropriating process that may cause us to repeat again the errors of the last century, four times in this century, where we have allowed our military to decline to the degree where lives are wasted as we restore our military viability and again are required to fight and engage in conflict when we are not prepared to do so.

Mr. President, let me focus now on the broader context of this bill before I address the specifics once again.

Our debate takes place at a time of crisis in many areas of the world. The importance of this bill increases in the context of post-cold war global instability and the potential threat of proliferation of weapons of mass destruction. The decisions the Congress makes today will determine the ability of this Nation in the future to play an effective role in world affairs and to protect our own security and that of our friends and allies. Therefore, the debate in the Senate today is not about just another defense bill—it is a debate about ensuring our security far into a challenging future.

Of particular importance, then, are the decisions of this body as we attempt to reconcile our local and special interests with our legitimate national security needs—all within the limited dollars of a defense budget which continues to decline to levels well below what I believe to be prudent in this time of uncertainty. Every special request, every special interest item, every bit of pork, comes at the

expense of direct national security requirements of the United States, and at the expense of the careers of hundreds of thousands of men and women who serve in our military. In making our choices in this body, we must not lose sight of this and several other important facts.

We all know that economic considerations have forced us to continue to cut the defense budget and the military forces of this Nation. Real defense spending has been cut steadily every year since 1985. According to a recent estimate by the Congressional Research Service, we have cut defense spending, in constant 1994 dollars, from \$388 billion in 1985 to \$278 billion in 1993. The budget resolution requires that we cut the defense budget to \$263 billion this year.

The Clinton administration budget submitted earlier this year plans to cut defense spending to \$234.1 billion by 1998. This is a total cut in real defense spending of roughly 43 percent—in only slightly more than a decade.

Because of these huge funding cuts, we are forcing hundreds of thousands of men and women out of the military. Our defense industrial base is being cut to the bone. We are accepting compromise after compromise in our military capabilities. The United States has eliminated all programs to modernize our strategic deterrent forces, even though a great degree of uncertainty exists as to the status of such programs in the former Soviet Union. We are cutting readiness, and some aspects of our forces are rapidly becoming hollow. We must draw the line, and draw it now.

Mr. President, the new strategy and reduced force posture just announced by the Clinton administration in the Bottom-Up Review is seriously underfunded, by nearly \$100 billion, according to some of our best defense experts. Even if the Congress never spent one dime of the defense budget on pork and special interests, we could not afford to pay for the force posture called for in the Bottom-Up Review with the funds that the Clinton administration has allocated in its future years defense plan [FYDP].

Yet I have no indication that the Clinton administration plans to find the additional funding required to pay for the new force structure. It is imperative that the Congress insist on honest budgeting and adequate resources to ensure the national security of this Nation. I intend to continue to work hard to halt the decline in defense spending at this point; I do not believe we can safely cut any more.

This funding shortfall, however, is only the tip of the iceberg. It assumes there will be no more raids on the defense budget for peacekeeping operations or domestic programs, like cancer research and environmental restoration. It also assumes that defense

dollars will not be diverted to other needs. But, as I have said and will repeat many more times, consider the Defense appropriations conference report before the Senate today. Money that is vitally needed for Defense programs goes to special interests and programs that have absolutely nothing to do with the defense of our Nation. This is not a new problem. But it must be remedied now. Our future security depends on our responsible actions today.

Mr. President, on October 18 and 20, during the Senate's earlier consideration of the Defense appropriations bill, I spoke at length about the history of congressional funding for unrequested, unauthorized appropriations—to the tune of \$28.7 billion over the period fiscal years 1990-93, according to CRS. In short, as our national defense budget dropped steadily during those 4 years, the Congress spent nearly \$30 billion on unauthorized activities and programs, on pork barrel projects, and on other special interests.

My colleagues know my views on this issue. Programs which are not authorized should not be funded in appropriations bills. That is the process in the Senate; we should follow it. Or we should change it. And I intend to propose changes that will strengthen the process.

We have an established budgetary process. We hold hearings with the civilian and military leadership of the Pentagon—whose appointments and promotions are approved by this very body—to determine the accuracy and adequacy of the budget request. We have scores of staff members who collect data from contractors, consultants, and the military in an effort to recommend authorizations for only those items which will guarantee the best military forces and weapons for the money.

After all this information is gathered, processed, and debated, the Congress votes on an authorization bill which reflects the collective judgment of the members of the Armed Services Committee on the appropriate mix of programs in the Defense budget. The entire Congress participates in this process and votes on passage of the authorization legislation. At times, this legislation is not officially completed when the appropriators are conducting their conference, but the substantially completed recommendations of the authorization conference are always available to the appropriators in a timely fashion.

But the appropriators routinely ignore the authorization process and provide funding for billions of dollars of programs for which there is no request and no authorization. In the very short time that this conference report has been available to me, I surveyed one account—Army research and development—and found that nearly \$380 million was provided for line items in ex-

cess of the amount contained in the Defense authorization conference report. If I had the time, I'm sure the amount of unauthorized appropriations would be substantial.

Mr. President, the authorized appropriations contained in this bill are hurting the military. These expenditures threaten the viability of a necessarily smaller Defense force and the long-term security of our Nation. But in an immediate sense, unrequested and unauthorized spending take away the jobs of men and women in Defense industry who earn those jobs by working on programs the country really needs. And they drive highly skilled men and women out of the military services, including many minorities, and make it more difficult to attract capable men and women to enter into the military as a career.

Mr. President, I receive requests on a daily basis from my constituents who serve in the military and desire above all else to remain on active duty. These are hard-working, patriotic Americans whose jobs are valuable to the country. But these young men and women are being forced to leave the service because we can no longer afford to pay for their services. We can't afford to pay for their services, but we can afford to appropriate billions of dollars for projects that have little or no military value. We displace thousands of dedicated, highly trained people who serve all the people of this country, just to create a few jobs which benefit specific districts and States.

I have made this plea many times to my colleagues. We have a process in this body; we should follow it. And I will work to ensure that we are forced to follow our own procedures.

Mr. President, I also spoke at length during the Senate's debate on the Defense appropriations bill about the practice of earmarking scarce Defense dollars for special projects at particular institutions or organizations which are important to particular Senators. I provided an extensive listing of earmarks in the fiscal years 1990-93 Defense appropriations bill, compiled by CRS, which demonstrates just how egregious earmarking of appropriations has become.

At that time, I offered an amendment, together with Senators NUNN, BINGAMAN, THURMOND, and SMITH, which would have required competitive award of contracts and grants, regardless of any earmarks in the bill, for projects involving community adjustment assistance, environmental restoration, strategic environmental research, and university research. The managers of the bill accepted my amendment, and it was included in the Senate-passed version of the Defense appropriations bill.

Mr. President, the amendment I offered was just a start. But I thought that, at least, my colleagues on the Ap-

propriations Committee, having accepted the amendment, would take to heart its intent. Unfortunately, that is not the case.

My amendment to permit competitive award of contracts and grants was dropped in the conference. There is no language restricting the earmarks in this bill.

In the short time this conference report has been available to me, I have found innumerable examples of earmarks in a number of areas, and most of these are programs which I discussed in the earlier debate on this bill. Let me list just a few of these.

The sum of \$2.3 million for cell adhesion molecule research; specifies that the research be done at a nonprofit foundation in the northeast * * * by an integrated team of scientists with extensive experience in the molecular analysis of the immune system * * * the scientific team must have extensive experience in the identification and analysis of cell adhesion, signal transduction pathways, cytokine production, and gene regulation.

The sum of \$7 million for a MDIS teleimaging medical diagnostic program at Madigan Army Medical Center in Washington State.

The sum of \$1.5 million for the purchase and rehabilitation of an LCU ship as a commercial cargo vessel to be transferred to the Government of American Samoa.

The sum of \$2 million to establish a marine environmental research facility at Astoria, OR.

The sum of \$1.3 million for a replacement landfill in Kotzebue, AK.

The sum of \$500,000 for environmental remediation and wells on Walker River Paiute tribal lands.

The sum of \$12 million for AKAMAI medical project at Tripler Army Medical Center in Hawaii.

And, Mr. President, I particularly want to highlight the earmarked programs for which the conferees provided language which reads as follows:

The conferees recommend that the following conversion projects be funded. * * * DD Form 1414 shall show them as items of special congressional interest, a funding decrease to which requires prior congressional approval. * * *

Mr. President, the conferees provided this protection for 56 separate projects in the defense conversion account, for which funds are earmarked totaling nearly \$222 million. I ask unanimous consent that the listing of these projects be included in the CONGRESSIONAL RECORD following my statement.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. MCCAIN. Mr. President, to meet the targets of the budget resolution, the Armed Services Committees of both Houses cut \$2 billion out of the operations and maintenance accounts

of the Department of Defense, the lifeblood of military readiness. Then, the members of the Appropriations Committees in both houses are informed that they may divide among themselves \$4 billion in member add-ons in this year's defense budget.

Objections to the extravagance of spending \$4 billion on unnecessary, unrequested, and indefensible programs are rejected by appropriators with assurances that such extravagance has been much worse in the past. Granted, the House-passed version of the DOD appropriations bill included over \$6.5 billion in earmarks. But \$4 billion dollars' worth of pork-barrel spending is thus defended as an example of congressional discipline and fiscal responsibility.

Mr. President, \$4 billion in pork projects is a model of congressional discipline that this country can ill afford. It is irresponsible. It is unacceptable. And I will not vote for it.

This bill contains abundant evidence of just how dysfunctional our budget process has become. Mr. President, it is well past time for Congress to begin repairing a process that serves the parochial interests of members at the unaffordable expense of denying this country all the goods and services it requires for an adequate defense.

Mr. President, the most egregious example of a pork-barrel project is the *Seawolf* submarine program—a \$5.2 billion boondoggle. I argued during the floor debate on the Defense appropriations bill that the *Seawolf* is typical of what happens with pork-barrel projects: they grow far beyond their original cost and live on indefinitely.

Mr. President, my colleagues agreed with my amendment to cap the costs of the SSN-21 and SSN-22 submarines, costs which, I hasten to point out, have already grown far beyond any reasonable projections. My colleagues agreed that the cost of these submarines had to be controlled. My colleagues agreed to impose fiscal responsibility on both the Navy and the contractors building *Seawolf*.

Apparently, however, pork-barrel politics is stronger than fiscal responsibility. As the appropriators went into conference on this measure, the Department of Defense sent an appeal of the *Seawolf* spending caps to Congress. The appeal stated:

This cap *** greatly curtail(s) our flexibility in managing the shipbuilding account. *** While the Department feels confident that an estimate of \$4,673.4 million for the SSN-21 and SSN-22 is currently achievable, it should be recognized that it is difficult to provide absolute assurance in overall costs. *** The Department urges the conferees to exclude this provision.

Mr. President, I am curious about the Department's aversion to a cost cap on this program, when the Secretary of the Navy assured the Congress in a letter dated September 13, 1993, that \$4.673 billion was sufficient to complete work

on the first two submarines. So I contacted the Electric Boat division of General Dynamics to get their view on the cost cap. Officials of Electric Boat advised that they could live with the cost cap as stated in the amendment.

Electric Boat, the builder of *Seawolf*, said that they could live with the cost cap, yet DOD says that the cost cap would hinder the construction of these submarines. In other words, the Defense Department cannot live within the highly inflated means that defense contractors are willing to accept. I strongly suggest that the Department of Defense thoroughly examines its budgeting procedures to see if they have any relation at all to fiscal responsibility and the defense needs of this Nation.

Not surprisingly, the appropriations conference committee dropped the cost cap amendment which had been agreed to by the Senate. By so doing they have sent an emphatic message: no matter how great the cost overruns, no matter how useless the projects, no matter how detrimental to the nation's security, Congress will accept no limits on its appetite for pork.

Mr. President, when will we learn the lesson that pork projects, once appropriated, become an entitlement for the Department which manages the project and the people in the districts who benefit from that project? As we all know, entitlements rarely die. All the pork in this bill, like *Seawolf*, cell-adhesion molecule research, and the Astoria marine environmental research facility should be removed and the funds re-applied to legitimate national security needs.

We have disillusioned our military personnel. No matter how hard they work, no matter how much they sacrifice in service to the country, they can be sent home whenever the costs of their service conflicts with spending habits of Congress. No matter how much they try to explain why modern weapons are needed, or why improvements are necessary to prevent weapons from becoming obsolete, they will continue to go into harm's way inadequately armed and trained because the cost of preparation conflicted with the costs of pork-barrel spending.

We previously spent money to train our military personnel. Now, we have to pay for their involuntary separations, pay for their retraining, and pay for their unemployment benefits. But at least we still have funds to pay for the requirements of our constituents, even if their most important requirement—their security—erodes.

Mr. President, our continued practice of pork-barrel spending has jeopardized the ability of this country to defend our national interests. We have diminished the stature of our defense forces and contributed to the decline in our economy. The Congress is doing the opposite of what it was charged to do by the Constitution.

Dollars earmarked for pork are dollars taken away from identified, high priority, military requirements of the Department of Defense. They are dollars which are required to pay the salaries of the dedicated men and women who make up our all volunteer force today. They are dollars taken away from programs which directly support the training and welfare of our active duty military personnel. Pork-barrel programs are not free. Their cost is the continued degradation of the readiness of our military forces at a time of continuing instability in the world.

Every one of these pork-barrel projects—from the smallest earmark to the *Seawolf* submarine boondoggle—should be eliminated from this bill and the funds allocated to national defense programs—not local economic enhancement programs. I urge my colleagues to join me in opposing these special interest set-asides by voting against this conference report. Send this agreement back to the drawing table with instructions to appropriate money for the defense of our Nation, and not the special interests of a few.

I urge my colleagues to demonstrate their commitment to good government and responsible leadership. I urge my colleagues to vote against this conference report.

EXHIBIT 1

Defense conversion earmarks

Southeastern Pennsylvania Consortium for Information Technology and Training	\$875,000
Western Michigan University School of Aviation Sciences/Fort Custer Industrial Park	6,000,000

Total	221,975,750

Mr. MCCAIN. Mr. President, I want to assure my colleagues on the Appropriations Committee of my continued respect and admiration for their work.

I also want to assure them of my continued criticism and steadfast opposition to a process that gives us this kind of result.

I yield the remainder of my time.

Mr. INOUE. Mr. President, I received word from the Senator from Georgia [Mr. NUNN], that he has no desire to participate in this debate, and he asks that the time that was set aside for him be deleted.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. If all time is returned, I urge that the Senate adopt the conference report.

The PRESIDING OFFICER. All time has been yielded.

Under the previous order, the question before the Senate is the adoption of the conference report. On this question, the yeas and nays have been ordered, and the clerk will call the roll.

Mr. INOUE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mrs. BOXER). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. INOUE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUE. Madam President, I urge adoption of the conference report.

Mr. DOLE. Mr. President, as we turn to the consideration of the Defense appropriations conference report, I want to commend the chairmen and the ranking Republicans of both the House and Senate Defense Subcommittees for their work in crafting this legislation. Their task has become increasingly difficult as the defense budget continues to shrink.

In fact Mr. President, it is this trend in our defense spending which concerns me. Over the past several months, the United States has expanded its mili-

tary commitments around the world. And yet, at the same time, the administration has sent defense budget proposals to Congress which will gut the Nation's defenses. In my view, we have embarked upon a very dangerous path, and if we are not careful, we will end up with another hollow military. It seems others are starting to realize this too. Just this week Defense News reported that Pentagon officials are concerned that the Navy "may soon become overextended" as a result of increased "overseas commitments and a declining force structure." Additionally, when the Senate first considered this bill last month, the distinguished chairman and the ranking member of the Defense Appropriations Subcommittee both voiced their concerns about a continually declining defense budget. How can anyone square the fact that we are undertaking more missions and expanding our presence around the world while the Congress continues its slash and burn policy toward the defense budget? We are not cutting defense. We are gutting it. If we continue down this path which the President has planned, we will most certainly threaten our Nation's ability to defend itself and its vital interests. I know the administration likes to characterize our current health care system, unemployment, and many of our domestic problems as threats to national security. These domestic issues are critically important, and need to be addressed, but unless we start paying attention to the threats posed by some foreign powers, we won't have to worry about dealing with domestic problems. There are some that say the United States no longer has any real enemies or faces any real threats. But as I have pointed out before, North Korea, as well as, India and Pakistan, continues to develop its nuclear weapons capabilities. China continues its massive arms build-up, and the conflict in the Balkans is threatening to draw in surrounding nations. Let us not also forget our old friends in Iraq and Iran. Furthermore, our new friend, Russia, has just released a new military doctrine which establishes guidelines for using nuclear weapons, and makes it quite clear that Russian forces will conduct offensive, as well as defensive operations. Yet, some Members of this body think we should slash all of our strategic programs and our intelligence budgets. Mr. President, the truth remains, the world is still a dangerous place, and the United States must be prepared to face any future threat.

Congress and the administration are cutting the defense budget too far and too fast. The defense appropriations bill for fiscal year 1994 is approximately \$13 billion less than last year's bill. Last year, we reduced defense spending from the previous year's level by \$17 billion. In fact, this year's bill represents a 33-percent reduction in defense spending since 1985. That is one-

third less than what it was just 9 years ago. By the end of the Clinton budget plan, defense spending will have been reduced by 43 percent since 1985. Mr. President, I believe the conference committee has done the best it possibly can to ensure that vital accounts are adequately funded. However, this will become increasingly difficult in the coming years. I urge my colleagues to closely examine the defense cuts which have been imposed over the last few years. We simply cannot continue to cut defense spending like this. If we do, we will not be prepared to face the uncertainties that await us.

Mr. WARNER. Mr. President, as vice chairman of the Intelligence Committee, I want to express my appreciation to Senators INOUE and STEVENS, the chairman and ranking Republican of the Defense Appropriations Subcommittee, for their cooperation with the Intelligence Committee.

That cooperation assured proper coordination of the intelligence authorization and appropriations processes.

I would note that the Defense Appropriations Act contains a provision, section 8152, requested by the select committee on Intelligence to ensure that intelligence funding may lawfully be obligated and expended prior to enactment of the fiscal year 1994 Intelligence Authorization Act. Absent section 8152 of this act, such obligation and expenditure would be prohibited by section 504 of the National Security Act.

Mr. SASSER. Mr. President, I rise today to voice my support for the Defense appropriations conference agreement. The defense community, and indeed the Nation, I believe owe a debt of gratitude to Senator INOUE, the distinguished chairman of the Appropriations Subcommittee on Defense. I am very pleased that we have succeeded in forging an agreement which meets the budget caps for new budget authority and fiscal year 1994 outlays, while generously providing for our Nation's real national security needs.

This bill provides \$77.1 billion for operations and maintenance. Although that is \$1.6 billion below the budget re-

quest, most of the reductions come from pricing adjustments which reflect lower than expected costs for items such as fuel and foreign currency. The committee added over \$1 billion to the budget request to improve readiness, with funding for activities such as unit readiness training. This bill is consistent with the recent amendment that cut over \$700 million from the budget request for the strategic defense initiative, which the Senate approved during consideration of this year's Defense authorization bill. The research and development and procurement accounts receive over \$120 billion.

One decision made by our committee which I believe to be of the highest importance is the allocation of over \$1 billion not requested by the Defense Department to fund a 2.2-percent pay raise for our military personnel effective January 1, 1994. The men and women serving our country in uniform, whether on active duty or in the Guard and Reserve components, are far and away the most important safeguard of our national security.

I am deeply convinced, and I think any commander in the field would agree, that the unmatched excellence of the men and women serving under arms in the U.S. military is our greatest national military asset, and the greatest deterrent to any potential adversary of the United States. Far more than star wars or the B-2 bomber, it is the world renown for the valor and professionalism of our Armed Forces which will give pause to those who might consider challenging our vital national interests.

The 2.2-percent pay raise will both acknowledge and reward our outstanding service members. Just as importantly, it will help preserve the most important resource of our Armed Forces—an unsurpassed tradition of excellence.

STATEMENT ON DEFENSE APPROPRIATIONS CONFERENCE REPORT

Mr. SASSER. Mr. President, the Senate Budget Committee has examined H.R. 3116, the Defense appropriations conference report, and has found that the bill as reported out of conference is

under its 602(B) allocation by \$58 million in budget authority and \$43 million in outlays.

I would like to compliment the distinguished manager of the bill, chairman INOUE and the ranking member, Senator STEVENS, for their excellent work in bringing this bill back to the Senate under its 602(b) allocation. Mr. President, every year we hear from the advocates of large military expenditures that the spending levels approved by the Appropriations Committee will bring about the complete collapse of our military forces and their morale. And this year, like previous years, the Defense Appropriations Committee has met its targets while maintaining our highly trained military forces.

Mr. President, I have a table prepared by the Budget Committee which displays the official scoring of the Defense appropriation conference report and I ask unanimous consent that it be inserted in the RECORD at the appropriate point.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

SENATE BUDGET COMMITTEE'S SCORING OF H.R. 3116

DEFENSE APPROPRIATIONS
[In millions of dollars]

Bill summary	Budget authority	Outlays
Discretionary total:		
New spending in bill	240,378	161,005

PRINCIPLES OF APPROPRIATIONS LAW

Mr. HATFIELD. Mr. President, during Senate consideration of the fiscal year 1994 Department of Defense appropriations bill, the junior Senator from Arizona [Mr. MCCAIN] made a presentation to the Senate concerning what he views to be unauthorized appropriations, and used material developed at his request by the Congressional Research Service of the Library of Congress.

Senator MCCAIN's arguments were rebutted quite forcefully and effectively by Senators INOUE and STEVENS, and I saw no need to participate in the discussion at the time. Upon reading the CRS study prepared for Senator MCCAIN, however, I was concerned that it did not reflect a thorough understanding of appropriations law or of Senate procedure. I discussed the matter with the Librarian of Congress, and suggested that perhaps the American Law Division of CRS might take another look at the issue with these legal and procedural questions in mind.

Last Friday, CRS Director Joseph Ross sent me a memorandum prepared by the American Law Division on the subject of authorization vs. appropriations. As we consider the conference report on the fiscal year 1994 Defense appropriations bill, I thought it useful to bring this memorandum to the attention of the Senate.

I will emphasize two points the memorandum makes. First, the rules of the Senate provide that the Committee on Appropriations may recommend appropriations in excess of amounts authorized, or indeed in the complete absence of authorization. Of course, the Senate is free to reject such a recommendation, but the Committee on Appropriations is free to make it. And it is good that we are, for we often lack authorization for entire Federal departments.

Second, it is quite clear that one committee's report language has no binding effect on another committee's recommendations, the Senate's action on them, or an agency's implementation of them. So to assert that a program, project, or activity is authorized or not authorized by virtue of its inclusion or exclusion from a committee report expands the definition of authorization beyond the limits established in Senate procedure and principles of appropriations law.

Mr. President, I ask unanimous consent that the November 5, 1993 memorandum from the American Law Division of the Congressional Research Service, together with the transmittal

memorandum from CRS Director Joseph Ross, be printed in the RECORD at this point.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

CONGRESSIONAL RESEARCH SERVICE,
Washington, DC.

To: Hon. Mark Hatfield, Senate Appropriations Committee.

From: Joseph Ross, Director.

Subject: Memorandum on "Unauthorized" Appropriations.

Attached is a memorandum that addresses certain questions you raised regarding the posture of appropriations that depart from provisions in an authorization committee report.

CONGRESSIONAL RESEARCH SERVICE
Washington, DC, November 5, 1993.

To: Hon. Mark Hatfield, Senate Committee on Appropriations.

From: American Law Division.

Subject: Binding Nature of Authorization Committee Report Language.

You have inquired as to the legal issues that might be raised in the situation where an appropriation item in funding legislation may be inconsistent with a provision contained in an authorization committee report.

In essence your inquiry raises the fundamental question as to the legally binding nature of report language or other species of legislative history in the area of appropriations law, which requires that our analysis begin by asking the preliminary question, "binding on whom?"

If the report language standing alone is meant to bind an agency, a court is likely to hold that it will fail in its object. The Supreme Court in *Lincoln v. Vigil*, 113 S. Ct. 2024 (1993), most recently reiterated the rule that legislative history is not legislation in the context of a dispute over whether repeated references to a particular program in appropriations legislative histories thereby bound an agency to spend a portion of a lump-sum appropriation on that program. "[A] fundamental principle of appropriations law is that where 'Congress merely appropriates lump-sum amounts without statutorily restricting what can be done with those funds, a clear inference arises that it does not intend to impose legally binding restrictions, and indicia in committee reports and other legislative history as to how the funds should or are expected to be spent do not establish any legal requirements on the agency,'" quoting *LTV Aerospace Corp.*, 55 Comp. Gen. 307, 319 (1975). 113 S. Ct. at 2031. See also *American Hospital Ass'n v. NLRB*, 111 S. Ct. 1539, 1545 (1991) (statements in committee reports do not have the force of law); *Tennessee Valley Authority v. Hill* 437 U.S. 153, 191 (1978) ("Expressions of committees dealing with requests for appropriation cannot be equated with statutes enacted by Congress."). Judge (now Justice) Scalia succinctly stated the rule as follows: "The issue here is not how Congress expected or intended the Secretary to behave, but how it required him to behave, through the only means it can . . . require anything—the enactment of legislation." *United Auto Workers v. Donovan*, 746 F.2d 855,

860-61 (D.C. Cir. 1984), cert. denied sub. nom. *Automobile Workers v. Brock* 474 U.S. 825 (1985). And see 2 U.S. General Accounting Office, Principles of Federal Appropriations Law, 6-159 (2d ed. 1992) (Principles).

If the report language in question is meant to bind another committee or the House in which it originates, different considerations arise but the ultimate conclusion is likely to be the same: the report language is not binding.

Pursuant to its constitutional authority "to determine the rules of its proceedings," Art. I, sec. 5, cl. 2, each House has established rules with respect to the relationship of authorization and appropriations legislation and how (and whether) matters may be included in appropriations measures. See, House Rule 21 and Senate Rule XVI. The particular application or non-application of those rules is essentially non-reviewable by a court. See e.g., *Nixon v. United States*, 113 S.Ct. 732 (1993); Principles at 1-18.¹ Thus, in the first instance, resort must be made to the language and practice under the respective House rules for authoritative guidance.

While it is the general practice of Congress to create programs and authorize appropriations for them in authorization legislation and then to provide the budget authority to fund those programs in one or more appropriations acts, the rules of each House provide varying means to deviate from this strict order.

House Rule 21 controls more stringently than the Senate consideration of appropriations for which there is no authorization. While House rules do not expressly require authorizations, they do bar unauthorized appropriations. Rule 21(2). Under the rules, before the House can consider most appropriations measures, the purposes for which the money is to be provided has to be authorized by law. The House sometimes waives the rules against unauthorized appropriations by adopting a "special rule" before taking up the appropriations bill. Also, the rule against unauthorized appropriations applies only to general appropriations bills. Under the precedents of the House, a continuing resolution is not deemed to be a general appropriations bill. Hence, unauthorized programs can be funded in it. See, generally, Manual on the Federal Budget Process, CRS Report No. 91-902, 117 (1991)(Budget Manual). Otherwise, appropriations in excess of the

¹The principle, as stated by GAO, is that: The potential effect of a rule or statute subjecting a provision to a point of order is limited to the pre-enactment stage. If a point of order is not raised, or raised and not sustained, the provision if enacted is no less valid. To restate, a rule or statute subjecting a given provision to a point of order has no effect or application once the legislation or appropriation has been enacted. *Principles of Appropriations Law at 1-18.*

There are a few statutory requirements for authorization prior to appropriation in specific statutes (e.g., 10 U.S.C. 114(a)) but as GAO notes a "statutory requirement for prior authorization is . . . essentially a congressional mandate to itself." *Principles at 2-35.* There is also the provision prohibiting State Department obligation of funds that have not been previously authorized, 22 U.S.C. 2680. The provision may, however, be waived in the appropriations law. See, Manual on the Federal Budget Process, CRS Report No. 91-902 GOV at 121 (1991).

amount authorized by statute or in absence of any statutory authorization are subject to a point of order. House Rule 21(2)(a).

Neither the Standing Rules of the Senate nor Senate precedents establish a general prohibition against making appropriations for a project or program in the absence of an authorization: "The Committee on Appropriations, under Rule XVI, may propose to increase appropriations or propose a new item of appropriation in excess of authorizations or even in the absence of any legislative authority as long as the proposed amendment does not contain legislation." Riddick's Senate Procedure, S.Doc. 101-28, 101st Cong., 2d Sess. 188 (1992). See also, Fisher, "The Authorization-Appropriations Process in Congress: Formal and Informal Practices," 29 *Cath. U.L. Rev.* 51, 62-63 (1979). However, an amendment offered on the floor that proposes such an appropriation is subject to a point of order "unless it be made to carry out the provisions of some existing law, treaty stipulation, or act or resolution previously passed by the Senate during that session; or unless the same be moved by direction of the Committee on Appropriations or of a committee of the Senate having legislative jurisdiction of the subject matter, or proposed in pursuance of an estimate submitted in accordance with the law." Rule XVI.1. See, Budget Manual at 118. Thus the Senate rule does not create an insurmountable obstacle to appropriations without authorizations.

The language of both the House and Senate rules would appear particularly pertinent to the question under consideration. In neither rule is there any reference to the language of reports accompanying authorization legislation before it. ("No appropriation shall be reported in any general appropriation bill, or shall be in order as an amendment thereto, for any expenditure not previously authorized by law." House Rule 21(2)(a); Senate Rule XVI, quoted above). Implicit in the rules is the recognition that report language is not legislation but rather the expression of the views and recommendations of another congressional committee which is to be accorded no more or less weight than that of other committees. Thus there is some analogy to the rationale underlying the reluctance of the courts to accord legally binding authority to committee report language and other expressions of intent in sources of legislative history. More compelling, however, is the fact that congressional practices which depart from so-called principles of appropriations law have no legal consequences outside the legislative process; are disciplined by the internal politics of each House; and are ultimately constrained by the constitutional lawmaking requirements of Article I, section 7 mandating bicameralism and presentment.

ARMY NATIONAL GUARD ASSISTING U.S. BORDER PATROL

Mrs. BOXER. It is my understanding that the conferees did not address Senate report language directing the Army National Guard to train personnel to assist the U.S. Border Patrol because there was no dissent among the conferees on this provision. I ask the chairman, is my understanding correct?

Mr. INOUE. The Senator from California is correct.

Mrs. BOXER. Is it the understanding of the chairman that the Senate report language remains in full effect? Is it

his understanding that the Army National Guard is directed to train personnel to assist the U.S. Border Patrol in the manner outlined in the Senate committee report?

Mr. INOUE. The Senator from California is correct. The Army National Guard is so directed.

NATIONAL GUARD AND RESERVE EQUIPMENT

Mr. JOHNSTON. Mr. President, I would like to ask the distinguished chairman of the defense subcommittee to clarify for me an item contained in the National Guard and Reserve equipment section of the conference report.

Mr. INOUE. I would be pleased to assist the Senator from Louisiana.

Mr. JOHNSTON. Mr. President, the conference report lists several programs to be considered priorities by the heads of the guard and reserve components for miscellaneous equipment. I noticed an inadvertent error in that the name of one of the programs agreed to by the conferees was not listed. An additional program intended to be included by the conferees is the AN-AQS-14 airborne mine countermeasure trainer. This program is in addition to the AN-AQS-14 MATE program listed in the conference report. The AN-AQS-14 program was begun last year and requires an additional appropriation to be completed. I would ask the distinguished chairman if I am correct in my statement.

Mr. INOUE. The Senator from Louisiana is correct. The intent of the conferees was to include the AN-AQS-14 airborne mine countermeasure trainer for the Naval Reserve.

Mr. JOHNSTON. I thank the chairman and yield the floor.

COMPETITION AND EARMARKS

Mr. BINGAMAN. Mr. President, I would like to engage in a colloquy with the distinguished chairman of the Defense Appropriations Subcommittee about the conference report, which I have had only a very brief opportunity to review.

As the Senator from Hawaii knows, I have been very concerned about the earmarking of Federal funds to specific entities and projects without competition. I cosponsored the amendment offered by Senator MCCAIN when the defense spending bill was before the Senate. That amendment was intended to reinforce current statutory requirements for competition for programs in community adjustment assistance, university and strategic environmental research, and environmental restoration.

I also was very supportive of the committee's action to retain the House recommended bill language—known as the Brown amendment—to reinforce competition and cost sharing requirements for funds in the Technology Reinvestment Defense Conversion Program.

I would like to ask the distinguished chairman whether my understanding is correct that the McCain amendment

was dropped in conference and that the Brown amendment language was retained?

Mr. INOUE. My colleague from New Mexico is correct. There was a general consensus among the conferees to retain the Brown amendment. Such a consensus was not possible with respect to the McCain language.

Mr. BINGAMAN. I applaud the retention of the Brown amendment. I naturally am disappointed that the McCain amendment did not survive the process. I also would like to ask the distinguished chairman several questions about the conference report bill and statement of managers language regarding earmarks for specific projects.

Mr. INOUE. I would be happy to respond to the Senator's questions.

Mr. BINGAMAN. I note that the statement of managers contains many earmarks for defense conversion projects to be financed with operations and maintenance and technology reinvestment research funds. Does the chairman believe that these report language earmarks override the statutory requirements for the distribution of funds for these purposes?

Mr. INOUE. It is clear to me that statutory language outweighs report language in terms of guiding the distribution of Federal funds. Report language, while important, cannot override statutory language.

Mr. BINGAMAN. I appreciate the Senator's answer. Would the chairman's response also apply in the case of earmarks for specific research projects at colleges and universities?

As the chairman knows, section 2361 of title 10 of the United States Code requires competition in the award of research grants and contracts to institutions of higher education unless specifically waived.

Mr. INOUE. My colleague from New Mexico again is correct. I would point out that, unlike in past years, the conference report now before us does not contain any bill language specifically waiving this competition requirement.

Mr. BINGAMAN. I also have been concerned about the prospects for earmarking funds for specific projects in the defense environmental restoration account, or DERA. I know that the Senator from Hawaii has been a leader in shaping the Department's environmental programs. Could he share with us the conference report's position on DERA earmarks?

Mr. INOUE. At the Senate's initiative, the conferees clearly rejected earmarks in DERA. The statement of managers says "the conferees continue to strongly agree that individual site cleanup projects should not be specifically earmarked within the DERA account."

Mr. BINGAMAN. I thank the chairman. Finally, I would ask what has been the disposition of the House earmarks in the Strategic Environmental Research and Development Program?

Mr. INOUE. The Senate conferees were able to reduce the dollar impact of the proposed earmarks. As my colleague understands, a conference report represents compromise and a balancing of Senate and House positions on dollar amounts, and bill and report language. I believe that the Senate conferees did the best they could to mitigate the earmarks in this program.

Mr. BINGAMAN. I recognize the efforts by the Senate conferees during what, I am sure, was a difficult conference.

In summary, I am confident that the Senate conferees did their best on all these issues. However, I remain concerned that Congress has not adequately resolved the issue of earmarking defense funds.

We had a very good discussion when the defense appropriations bill originally came before the Senate about this general problem. I think there was general agreement at that time that it was the primary responsibility of the authorizing committees to set broad policy guidelines in this area. Unfortunately, the Armed Services Committee was unable to make as much progress as I would have hoped on this issue in its conference with our House counterparts.

I hope that much more progress can be made next year and I look forward to working with the chairman of the Defense Subcommittee to arrive at a satisfactory solution.

Mr. INOUE. I stand ready to work with my distinguished colleague from New Mexico on this matter. I know how carefully he has considered this issue. He has become a leader on the Armed Services Committee in the defense acquisition area, and we look forward to hearing his views next year on this important subject.

The PRESIDING OFFICER (Mrs. BOXER). The question is on agreeing to the conference report.

The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. FORD. I announce that the Senator from Louisiana [Mr. JOHNSTON] and the Senator from Arkansas [Mr. PRYOR] are necessarily absent.

Mr. SIMPSON. I announce that the Senator from South Dakota [Mr. PRESSLER] is necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 88, nays 9, as follows:

[Rollcall Vote No. 368 Leg.]

NOT VOTING—3

Johnston	Pressler	Pryor
----------	----------	-------

So the conference report was agreed to.

Mr. INOUE. Madam President, I move to reconsider the vote by which the conference report was agreed to.

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

PUERTO RICO VOTES ON STATEHOOD

Mr. STEVENS. Madam President, on November 14, the people of Puerto Rico will be voting on their future. They will vote on whether they will become our 51st State, remain a territory or become an independent nation. This plebiscite may be the most important vote in the history of Puerto Rico.

The United States annexed Puerto Rico after the Spanish-American War in 1898. Puerto Rico is now a commonwealth associated with the United States. The U.S. Congress is responsible for governing Puerto Rico, but Congress has allowed it broad powers of self-rule. Puerto Rico gained this local autonomy in 1952 when the United States agreed to a constitution that provided for a locally elected Governor and a bicameral legislature.

Luis Ferre, a statehooder, was elected Governor of Puerto Rico in 1968 and continues to work for statehood today. Carlos Romero Barcelo, who is currently the Congressman from Puerto Rico and a former Governor, is also a proponent of statehood.

The current Governor, Pedro Rossello, also is prostatehood and was elected by a landslide in 1992. In that same election statehood candidates won 20 of 29 Senate seats, 36 of 53 seats in the House, and 54 of 78 municipalities.

Now, for only the second time, there will be a referendum held in Puerto Rico regarding self-determination. I

support this important process and will work to see that Congress supports the decision of the citizens of Puerto Rico. The people of Puerto Rico must communicate their status preference to the United States before Congress can take action.

Congress considered legislation from 1989 to 1991 that would have authorized a status referendum and would have bound Congress to implement the status option adopted by the people of Puerto Rico. None of the bills passed. Many Members of Congress maintain that Puerto Rico should vote first on self-determination and then communicate their choice to Congress. That will happen on November 14.

As a Senator from one of the last States accepted into the Union, I am very familiar with the statehood process. My advice to the Puerto Rican people is to get out and vote on November 14 for their self-determination and should Puerto Rico choose statehood, they must be prepared to work hard and keep a steady course in their efforts. The fight for Alaska statehood was lengthy and arduous—as I expect it will be for Puerto Rico.

It took 42 years from when an Alaska statehood bill was first introduced in Congress in 1916 until 1958 when Congress finally approved Alaska statehood. In 1946 there was a referendum in the territory of Alaska and about 60 percent of the people supported statehood. The territorial legislature created a committee of private citizens to work on the goal of statehood.

After the plebiscite and persistent efforts of the Alaska Statehood Committee, the issue was given much more attention by Congress. Efforts to partition the territory and efforts to make Alaska a commonwealth were defeated.

I was very involved in that process from when I first moved to Alaska until the 1958 passage of the Statehood Act. I was working as an assistant to Secretary of the Interior Fred Seaton when we finally achieved statehood.

In 1955, the territorial Governor called a constitutional convention. In 1956, Alaskans adopted a constitution and a provisional form of government which included two nonvoting Senators and one nonvoting Representative to help fight for statehood in Congress. In 1958, Congress came to final debate on the Alaska Statehood Act. Alaska's neighbor and friend, Senator Henry "Scoop" Jackson led the bipartisan supporters in a 6-day debate on the Senate floor to fend off efforts to change a House-passed bill.

On June 30, 1958, by a 64 to 20 vote, the battle for statehood was won. President Eisenhower signed the Alaska Statehood Act on July 1, 1958.

The Alaska Statehood Act required that Alaskans vote for statehood. In August of 1958, Alaskans again voted on the statehood issue. This time it was approved by an overwhelming 83

percent of the citizens. The Presidential proclamation making Alaska the 49th State of the Union was signed on January 3, 1959.

I do not want to mislead the Puerto Rican people. There are problems which must be faced by a new State. Some of the commitments that were made by Congress under the Alaska Statehood Act, such as the provision granting Alaska the right to select 103 million acres of public lands and providing 90 percent of the proceeds for coal, gas and oil and other mineral leases on Federal lands in Alaska have been impeded by acts of later Congresses. The State of Alaska is currently suing the Federal Government to seek compensation for broken statehood promises. I support the Governor's efforts in that suit.

But on the whole, statehood has been very meaningful for Alaska and our people. Representation here in Congress gave us the voices needed to settle our Alaska Native land claims; to achieve approval of the trans-Alaska pipeline; to obtain extension of U.S. jurisdiction to 200 miles to protect our fisheries from foreign destruction practices; and to obtain title to some of the land owned by the Federal Government—so we could try to build our economy. Prudhoe Bay oil discoveries were made on State-owned lands—lands Alaskans would never have profited from if we had not obtained Statehood.

Like Puerto Rico, Alaska, and Hawaii, the 49th and 50th States, are a good distance from the 48 contiguous States. In fact, one of the arguments that was made against Alaska and Hawaii statehood was the distance from the other States.

The distance argument was overcome, and the great contributions that Alaska and Hawaii have provided the United States has proven those critics wrong. If Puerto Rico should choose statehood, these experiences we had with Alaska and Hawaii should help them in their efforts. In both cases, statehood was good for our States because it gave them representation and a voice in Washington, DC.

I look forward to seeing the results of this momentous November 14 vote by the Puerto Rican people—and I look forward to working with them to deal with the outcome of the plebiscite here in Congress. This vote could prove to be one of the most important events in the history of the island—just as it was for my great State. My message to the people of Puerto Rico is the decision is yours.

VIOLENT CRIME CONTROL AND LAW ENFORCEMENT ACT OF 1993

The PRESIDING OFFICER. The pending business is S. 1607, the crime bill.

The Senate continued with the consideration of the bill.

Mr. STEVENS. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BRADLEY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. FEINSTEIN). Without objection, it is so ordered.

SUPPRESSING VOTER TURNOUT

Mr. BRADLEY. Madam President, I would like to call the attention of the Senate to an article that appeared on the front page of the Washington Post this morning. The headlines said: "Rollins"—referring to Mr. Ed Rollins—"Rollins: GOP Cash Suppressed Black Vote."

That is the headline. The story goes on to quote Mr. Ed Rollins, who was the campaign manager of the successful gubernatorial campaign in New Jersey just completed, that in New Jersey, roughly \$500,000 was spent to suppress the black voter turnout.

I now quote from the article. Mr. Rollins now speaking:

"Here is how we used it," he said, the walking around money, he implies. "Here is how we used it. We went into the black churches and basically said to ministers who had endorsed Florio:—the Democratic candidate—"Do you have any special project [that needs financial support]? We see you have already endorsed Florio. That's fine. But don't get up in the Sunday pulpit and preach. * * * Don't get up there and say it's your moral obligation to vote on Tuesday, to vote for Jim Florio."

When asked how the payments were made, Mr. Rollins said: "We made contributions to their favorite charity."

Madam President, I do not know how any other Member of the Senate felt when they read this story today in the Washington Post, but if it is true, I think it is reprehensible. Any political party should not try to discourage people from voting, they should try to encourage people to vote.

In one State senate district in Newark, NJ, about 16,000 people voted; in another one, about 23,000 people voted. In a suburban Senate district, heavily Republican, about 76,000 people voted, roughly the same populations. When I saw those numbers, I was surprised, to say the least. Then I read the story in today's paper that offers some explanation—that \$500,000 was spent to suppress the voter turnout of African-Americans in urban New Jersey.

This is not the first time this has happened in New Jersey. Often people think about intimidation of voters, particularly African-American voters, as taking place somewhere in the South. Well, it is taking place in New Jersey. It is taking place in New Jersey all too often.

In 1981, during the gubernatorial race, there was a special ballot security task force established by the State party, as I remember, that stood outside polling places, where there were heavy turnouts of African-Americans several yards down, intimidating the voters not to vote. That was taken to the Federal court afterwards, of course. From that point forward, every other attempt to intimidate voters, whether it was in Louisiana, or Texas, or anywhere else, came under that precedent. But, unfortunately, that precedent was set in New Jersey.

It seems that from Mr. Rollins' quotes the technique has become a little more sophisticated. You do not stand outside the polling booth and try to intimidate voters now. That is too obvious. What you do is go to those opinionmakers and attempt to buy them off so they do not go out and tell people to vote.

The true irony of this story, Madam President, is that the Governor put his career on the line 4 years ago to dramatically increase funding for public schools in urban areas, and here was an attempt to suppress voter turnout in districts that specifically benefited from that program.

I must say that if this story is true, it is not only the Republican Party or whatever special interest group might have been behind this if it was not the Republican Party, but it is also those who took the money who also have some explaining to do.

The reality is that if there is one pageant of American history we can be proud of, it is broadening participation in the voting process. I have often on this floor done a 60-second history of voter participation in America. When the Constitution was written, the only people who could vote were white males with property. In the 1830's, white males without property were given the right to vote. In the 1860's, black males were given the right to vote. In 1919, for the first time, women in America were given the right to vote. In the 1950's and early 1960's, 18- to 21-year-olds were given the right to vote, and in 1960, some of the obstacles for people of color participating in the process were eliminated.

Yet, it took us 3 years to get a motor-voter registration bill passed. In last year's Presidential election, if 40 percent of the voting age population wanted to vote, they would have been denied the right to vote because they were not registered. Why? Because obstacles have been put in the path of their registering.

Then we have this story on the front page of the Washington Post saying in very clear language by the campaign manager on the other side that there was \$500,000 spent attempting to buy off opinionmakers in the African-American community and workers in the precincts to depress turnout; in other words, to deny people the vote.

Some people say it did not deny them the right to vote. No, they did not deny them the right to vote. It is much more sophisticated. You buy off those people who are followed or who are responsible for getting a group of senior citizens from a housing project to the polls. Buy them off; pay them some money not to have the bus come at a particular time to take them to the polls.

Madam President, if that is true, it is reprehensible, and I think, frankly, the Attorney General should look into this. My distinguished colleague, Senator LAUTENBERG, and I have sent a letter asking her to look into this, to see if any law was broken. I know this is just a story on the front page of the Washington Post. It might not be true. People are going to be trying tomorrow and the next day to escape the words that appeared in black and white and that were broadcast throughout my State on radio because there were reporters in the room that taped these comments.

Madam President, this was a sad day. When I saw those turnouts in the districts—16,000 votes in one and 76,000 votes in another; 23,000 votes in one and 60,000 votes in another—I wondered if something was not wrong. Maybe the message did not get through about what the Governor had attempted to do. Maybe people feel so disenfranchised, disconnected, frustrated and hopeless because they do not believe the political process can produce anything that will change the circumstances of their lives as they live everyday amidst joblessness, family disintegration and increasing violence.

I looked at those numbers and thought, well, maybe that is what happened, for which we all bear some responsibility. That includes those who do not make the extra effort to get to the polls, notwithstanding the fact that they might be feeling hopeless, because if there is any lesson in American history it is that voting is the only way to change circumstances in America.

So I had all those thoughts, and then I read this paper this morning, read this story, and will await further developments in order to see if this one can be explained away, too. Back in 1981, I think the election was 1,000 votes or so—a very narrow election. Easily that number could have been intimidated in 1981 with off-duty police and security personnel a certain distance from the polling place asking for identification: What do you have? Do you have your identification card? You know, if you go in there and vote, you might be subject to prosecution if you vote and you do not have proper identification.

Maybe that is what happened in that election in 1981. But it kind of drifted away. The court took over. The precedent was set. And they tried to do it in

Louisiana in 1986. The New Jersey precedent came into action and, indeed, it backfired. Here we have the next iteration, the next innovation in modern campaign techniques, the next brainstorm of a genius political operation. It is to discourage people from voting, pay people off so they do not vote.

Madam President, if this is true—and I can read the words that were said by Mr. Rollins—a lot more people are going to have to answer for this than are today willing to step forward and say what happened and why. That is why I hope the Attorney General will look into this.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum has been suggested. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. LEVIN). Without objection, it is so ordered.

VIOLENT CRIME CONTROL AND LAW ENFORCEMENT ACT OF 1993

The Senate continued with the consideration of the bill.

UNANIMOUS-CONSENT AGREEMENT

Mr. MITCHELL. Mr. President, I ask unanimous consent that the pending Feinstein and Levin amendments be laid aside; that the present consent agreement governing consideration of this bill be modified by the provisions of this agreement; that on Tuesday, November 16, at 8 a.m., the Senate proceed to the consideration of S. 636, a bill to permit individuals to have freedom of access to certain medical clinics; that there be 1 hour for debate on the bill and the committee substitute amendment to be modified by Senator KENNEDY, with the following amendments as the only floor amendments in order to that bill and limited to 40 minutes each for debate, unless otherwise noted, equally divided in the usual form, with second-degree amendments in order if they are relevant to the first-degree amendments, with the second-degree amendments to be considered also under 40 minute time limitations.

The amendments are: 1. An amendment by Senator HATCH regarding assaults during labor disputes, 90 minutes equally divided; 2. An amendment by Senator HATCH regarding assaults interfering with religious exercise; 3. An amendment by Senator HATCH to punish violent offenses more severely than nonviolent and exempt peaceful offenses; 4. An amendment by Senator HATCH to limit protection to legal abortions; 5. An amendment by Senator HATCH to strike State Attorney

General authority to sue; 6. An amendment by Senator HATCH to protect first amendment rights and give cause of action; 7. An amendment by Senator SMITH or his designee that is relevant; 8. An amendment by Senator HATCH to protect other constitutional rights; that Senator HATCH or his designee may offer his amendments; that the 90 minute amendment will be offered at 8 a.m. on Tuesday, November 16; that at that time Senator HATCH or his designee will indicate which two of the remaining seven amendments shall be stricken from the list; that at the conclusion or the yielding back of time and the disposition of the above amendments, the bill be read a third time; and the Senate without any intervening action or debate vote on passage of S. 636, as amended, if amended; that upon the disposition of S. 636, the Senate turn to the consideration of S. 1657, a habeas corpus bill, to be introduced by Senator SPECTER, attached to this agreement and placed on the calendar upon the granting of this request; that there be 3 hours for debate on that bill divided as follows: 2 hours under Senator SPECTER's control, 1 hour under Senator BIDEN's control; that the only amendment in order thereto be a relevant Biden amendment to be considered under a 30-minute time limitation equally divided in the usual form; that upon the use or yielding back of time on the bill and the disposition of the amendment, if offered, the Senate vote without any intervening action or debate on or in relation to Senator SPECTER's bill, as amended, if amended; that upon the disposition of Senator SPECTER's bill, the Senate resume consideration of S. 1607, and vote without any intervening action or debate on Senator FEINSTEIN's amendment, number 1152; to be followed by a vote on Senator LEVIN's amendment number 1151, as amended, if amended; that upon the disposition of Senator LEVIN's amendment, number 1151, the habeas corpus provisions be stricken; that prior to the passage of the crime bill, it be in order for each manager to offer one package of cleared amendments with the concurrence of the two leaders; that if one package is not acceptable, that it then not be in order to offer either package of cleared amendments; that upon the striking of the habeas corpus provisions, Senator DOLE be recognized to offer a relevant amendment under a 2-hour time limitation; that second-degree amendments which are relevant to the Dole amendment be in order, with 30 minutes for debate, on such second-degree amendments; that the list of amendments in order to S. 1607 be reduced to the following: that they be the only floor amendments remaining in order for the bill to be considered under 30-minute time limitations, unless otherwise noted, with no second-degree amendments in order thereto; that the first of

the listed amendments is to be offered upon the disposition of Senator DOLE's amendment; that all debate times be equally divided in the usual form; 1, an amendment by Senator HUTCHISON regarding Pell grants and prisons; 2, an amendment by Senator HELMS regarding prison caps; 3, an amendment by Senator D'AMATO regarding drug kingpin death penalty; 4, an amendment by Senator SMITH regarding local law enforcement; 5, an amendment by Senators KEMPTHORNE and HATCH regarding minimum population grants; 6, an amendment by Senator GRAHAM of Florida regarding aliens and prisons; 7, an amendment by Senator HEFLIN regarding funding for State judges; 8, an amendment by Senator KERRY of Massachusetts regarding community policing and police corps; 9, an amendment by Senator BOXER regarding departments of motor vehicles; 10, an amendment by Senator LEVIN regarding mandatory life imprisonment in lieu of death penalty on which amendment there be 1 hour for debate; that upon the disposition of the above listed amendments, the bill be read a third time, and the Senate proceed to the consideration of H.R. 3355; that all after the enacting clause be stricken, and the text of S. 1607 be inserted in lieu thereof, and the Senate vote on passage of H.R. 3355, as amended; that the Senate insist on its amendment, request a conference with the House on the disagreeing votes of the two Houses; and that the Chair be authorized to appoint conferees; that in both the case of S. 636 and S. 1607, the amendments shall be considered in the order listed in this agreement; that if a Senator is not ready with his or her amendment upon the disposition of the preceding amendment, that his or her amendment shall no longer be in order.

The PRESIDING OFFICER. Is there objection?

Mr. DOLE. Mr. President, reserving the right to object, I shall not object, I think it is fair to say that at least there is an understanding that there will be no further habeas corpus amendments offered for the balance of this year.

Mr. MITCHELL. That is my understanding. I believe it would be appropriate for the distinguished chairman of the committee to respond to that.

Mr. BIDEN. That is my understanding. The condition upon which we remove habeas from the underlying bill is that there be no habeas amendments or bills this year other than the one, the one vote contained in the unanimous consent agreement by Senator SPECTER and a possible second amendment by me.

I thank the leaders for clarifying that.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, I thank the Republican leader, Senator

BIDEN, Senator HATCH, and the many Senators who have devoted more than 24 nearly consecutive hours to negotiating this agreement.

Under this agreement, so that every Senator can arrange his schedule accordingly, the Senate will return to session next Tuesday, November 16, at 8 a.m. At that time, it is in order for an amendment to be offered under a 90-minute time limitation. So it is possible that a vote will occur as early as 9:30 a.m. on Tuesday, November 16.

Pursuant to this agreement, there will be as many as 17 measures presented during the day, and although I do not expect that every one of them will require a vote, it is clear that many of them will require votes. Then we will proceed to final action on the crime bill.

So I strongly urge all Senators to be certain that they are present when the Senate returns to session early next Tuesday morning and are prepared to remain here throughout the day to vote on these important measures.

We will then be in session for each day next week, including Saturday and possibly Sunday, if necessary.

It remains my hope that we can complete this session of Congress prior to Thanksgiving, and the obtaining of this agreement is a major step toward our achieving that objective.

Mr. DOLE. Mr. President, first, I have a note that I intend to offer three of the amendments tonight on behalf of three of my colleagues, and insert their statements, which I think will save some time on Tuesday, which would be contrary to the agreement. But I guess it should not be offered until after disposition of an amendment which I may offer on Tuesday.

Mr. MITCHELL. Mr. President, I think it would be entirely in order for the Senator simply to offer them out of order.

Mr. DOLE. I will ask unanimous consent to do that.

Further, Mr. President, I thank the majority leader, and the distinguished chairman of the committee, Senator HATCH, and members of our staff, particularly on this side, Elizabeth Greene, who has been working since 9 o'clock this morning contacting Member after Member after Member.

In my view, we may have saved ourselves a great deal of time. I know a lot of people were wondering what was happening throughout the day. We disposed of two conference reports in the meantime. We have gone from about 200 amendments down to 10 or 11—well, maybe more than that if you look at the access provision.

But anyway, the number has been sharply reduced because of the cooperation of Members on each side, giving up amendments that they would otherwise have offered.

So it seems to me, unless we have overlooked something, we have tried to

let everybody know. We have had hotlines, we have had staff, and I hope somebody does not come in on Tuesday saying somebody failed to contact me or somebody may be upset with the agreement which we have been working on it since 9 o'clock this morning, almost every minute since 9 o'clock this morning; I know Elizabeth Greene has. I hope that our colleagues understand that we have done the best we could with lots and lots and lots of amendments. I think the chairman will introduce some agreed-to amendments tonight, and we will, if we can find ours, offer agreed-to amendments, and there will be other opportunities on Tuesday, if amendments can be agreed to, for each manager, Senator HATCH and Senator BIDEN, to offer one additional package.

I thank the majority leader. I think we have a good agreement, and I hope it means we can expedite the business of the Senate.

Mr. BIDEN. Mr. President, I want to echo the comments of the Republican leader. I am sure there are some Senators on the Democratic side that may not be overwhelmingly happy with the chairman of the Judiciary Committee, but I thank them all for their cooperation. I do want to thank the Republican leader's staff and the majority leader's staff. I will have a long list on Tuesday, but particularly Cynthia Hogan, chief counsel for the Judiciary Committee; and Cathy Russell, Chris Putala, Demetra Lambros, Tracy Doherty, Mark Disler and Manus Cooney. With a great deal of help from a lot of people, they have been basically driven nuts during the last 12 to 15 hours. They have done an incredible job, and I thank them. And also the staffers of the Appropriations Committee, particularly Dorothy Seder, who has been here the entire time. There are a number of people I would like to name. I think what they have done in the last 15 hours was above and beyond the call. I personally want to thank them all.

I thank the leader for yielding those few minutes.

AMENDMENT NO. 1158

(Purpose: To amend the Higher Education Act of 1965 to prevent the awarding of Pell Grants to prisoners)

Mr. DOLE. Mr. President, I send an amendment to the desk on behalf of Senator HUTCHISON and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE], for Mrs. HUTCHISON, proposes an amendment numbered 1158.

Mr. DOLE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of subtitle G of title XXIX, add the following:

SEC. . AWARDS OF PELL GRANTS TO PRISONERS PROHIBITED.

(a) IN GENERAL.—Section 401(b)(8) the Higher Education Act of 1965 (20 U.S.C. 1070a(b)(8)) is amended to read as follows:

“(8) No basic grant shall be awarded under this subpart to any individual who is incarcerated in any Federal State or local penal institution.”.

(b) CONFORMING AMENDMENTS.—

(1) COST OF ATTENDANCE.—Section 472 of such Act (20 U.S.C. 108711) is amended—

(A) by striking paragraph (6); and

(B) by redesignating paragraphs (7), (8), (9), (10) and (11) as paragraphs (6), (7), (8), (9) and (10), respectively.

(2) TECHNICAL AMENDMENTS.—Section 401(b)(93)(B) of such Act (20 U.S.C. 1070a(b)(3)(B)) is amended—

(A) by striking “472(8)” and inserting “472(7)”; and

(B) by striking “472(9)” and inserting “472(8)”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to periods of enrollment beginning on or after the date of enactment of this Act.

PELL GRANTS FOR PRISONERS AMENDMENT

Mrs. HUTCHISON. Mr. President, an editorial from Monday's Houston Chronicle stopped me dead in my tracks, and ought to give all of my colleagues reason for pause, as well. Permit me to read to my colleagues a short paragraph.

Something is wrong with the system when federal Pell Grants, which were intended to help low- and middle-income students to go to college, are being used to pay for higher education of criminals in prison.

Pell grants ought to be awarded on the basis of common sense. The bottom line is that the honest and the hard-working are being elbowed out of the way by the criminals. This blatant misuse of the grants needs to be stopped.

Mr. President, I offer an amendment to prohibit Pell grants to those who are behind bars for committing crimes against their fellow Americans. Let me explain my reasons.

According to advocacy groups, up to \$200 million in Pell grants are awarded each year to imprisoned convicts; \$200 million, courtesy of the American taxpayer, to allow thousands of convicted felons to graduate directly from sentencing and imprisonment to college.

This \$200 million annual figure is an exponential increase over just a few years ago. Why? In part, because some convicts have figured out that Pell grants are a great scam: rob a store, go to jail, and get your degree.

Also, some unscrupulous trade school operators have figured out that they can get away with practically any approximation of a training or education program, and collect Pell grant money on behalf of convicts. In fact, until the Department of Education cut it off a few years ago, some of these schools collected room-and-board money, as well as tuition, for prisoners who received Pell grants.

Pell grants, as we all know, were created to help children from families of modest means. They are awarded on a needs basis. If, for instance, you are a Pell grant applicant who has no income, you go to the head of the line. And of course, prisoners have no income. Therefore, as more prison inmates and more schools that specialize in prisoners catch on each year, more convicts go to school for free each year, courtesy of the Pell Grant Program. This past year, the \$200 million in Pell grants claimed by convicts deprived about 100,000 law abiding kids of federal assistance.

The Department of Education apparently is aware that as many as 100,000 youngsters are being elbowed aside by those behind bars. Education Department personnel concede that the current situation isn't what Congress had intended.

Mr. President, I am all for encouraging prisoners to try to rehabilitate themselves while they serve time in prison. Education, technical training, learning a skill—all are integral parts of turning from a life of crime to respectability and productivity.

A person who has made a mistake deserves a second chance. We currently spend upwards of \$100 million each year on different education and training programs for prisoners, money that we all should hope is well spent. But the issue here is that students for whom Pell grants were intended are being denied a first chance.

If we do not act to curb this abuse, we are, in effect, sanctioning the diversion of money from a program established by Congress for the express purpose of helping to educate the sons and daughters of lower income families.

Mr. President, I repeat: a person who makes a mistake deserves a second chance—but not at the expense of a student who has behaved, studied hard, and earned an opportunity. It is those who steal, assault and murder who owe a debt to society, not the other way around.

Mr. President, the Senate sought to address this issue last year, when this body approved by voice vote an amendment—similar to mine—offered by the distinguished senior Senator from North Carolina, Senator HELMS. But it was watered down in conference to restrict use by those on death row or sentenced to life in prison without parole.

But one year later, the amount of Pell grant moneys apportioned to those behind bars has risen. At the current rates of increase, Mr. President, we will soon have the best educated prison population in the world—but we will have sacrificed the hopes and dreams of hundreds of thousands of our young men and women, who always have been good citizens, who always have done what society has expected of them, who have earned a chance to further their educations and better their lives.

In closing, this is not a matter of turning our backs on those who have erred and want to pay their debt to society. This is a question of preserving opportunities for those who are children of low income working people and have not committed crimes, and who by dint of their attentiveness to school have already hoisted themselves up towards a better life. Ninety-five percent of Pell grant recipients come from families with annual incomes of \$30,000—70 percent from families with under \$15,000 in income.

A police patrolman and his wife, living in Colebrookdale, Pennsylvania, adopted a daughter at the age of 15. They weren't able to plan for her college.

They both work and their combined incomes are \$46,000. Their daughter cannot qualify for a Pell grant—so she is living at home and commuting to Penn State. Her parents are borrowing money to give her this chance.

Patrolman Dotterer was outraged when he learned that the criminals he puts behind bars can get the Pell grant that his daughter cannot—and his hard-earned tax dollars are paying for it. Those dollars could help the daughter he and his wife are struggling to educate. He said in a recent newspaper article that the wrong message is being sent to potential criminals: put in some jail time and get a free education.

“If that is the case,” fumed Dotterer, “Maybe I'll take my badge off and rob a store.”

Let us stand up for those who make sacrifices to build better lives for themselves and their children, who work hard simply to put food on the family table, a roof over their heads, and to experience the American dream of seeing their children get a better education than they were able to have. If we value what they contribute to our society, if we value their hard work and honesty, we should approve this amendment and give up to 100,000 more needy, deserving students the opportunity to attend college.

AMENDMENT NO. 1159

(Purpose: To repeal the prison caps and provide for reasonable and proper enforcement of the eighth amendment)

Mr. DOLE. Mr. President, I send an amendment to the desk on behalf of Senator HELMS, and others, and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE], for Mr. HELMS for himself, Mr. GRAMM, and Mr. GRAHAM, proposes an amendment numbered 1159.

Mr. DOLE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end, add the following:
SEC. . APPROPRIATE REMEDIES FOR PRISON OVERCROWDING.

(a) AMENDMENT OF TITLE 18, UNITED STATES CODE.—Subchapter C of chapter 229 of part 2 of title 18, United States Code, is amended by adding at the end the following new section:

"§ 3626. Appropriate remedies with respect to prison crowding

"(a) REQUIREMENT OF SHOWING WITH RESPECT TO THE PLAINTIFF IN PARTICULAR.—

"(1) HOLDING.—A Federal court shall not hold prison or jail crowding unconstitutional under the eighth amendment except to the extent that an individual plaintiff inmate proves that the crowding causes the infliction of cruel and unusual punishment of that inmate.

"(2) RELIEF.—The relief in a case described in paragraph (1) shall extend no further than necessary to remove the conditions that are causing the cruel and unusual punishment of the plaintiff inmate.

"(b) INMATE POPULATION CEILINGS.—

"(1) REQUIREMENT OF SHOWING WITH RESPECT TO PARTICULAR PRISONERS.—A Federal court shall not place a ceiling on the inmate population of any Federal, State, or local detention facility as an equitable remedial measure for conditions that violate the eighth amendment unless crowding is inflicting cruel and unusual punishment on particular identified prisoners.

"(2) RULE OF CONSTRUCTION.—Paragraph (1) shall not be construed to have any effect on Federal judicial power to issue equitable relief other than that described in paragraph (1), including the requirement of improved medical or health care and the imposition of civil contempt fines or damages, where such relief is appropriate.

"(c) PERIODIC REOPENING.—Each Federal court order or consent decree seeking to remedy an eighth amendment violation shall be reopened at the behest of a defendant for recommended modifications at a minimum of 2-year intervals."

(b) APPLICATION OF AMENDMENT.—Section 3626 of title 18, United States Code, as added by paragraph (1), shall apply to all outstanding court orders on the date of enactment of this Act. Any State or municipality shall be entitled to seek modification of any outstanding eighth amendment decree pursuant to that section.

(c) TECHNICAL AMENDMENT.—The subchapter analysis for subchapter C of chapter 229 of title 18, United States Code, is amended by adding at the end the following new item:

"3626. Appropriate remedies with respect to prison crowding."

(d) SUNSET PROVISION.—This section and the amendments made by this section are repealed effective as of the date that is 5 years after the date of enactment of this Act.

Mr. HELMS. Mr. President, countless thousands of prisoners are being released from prisons early because of the prison "caps" or ceilings limiting the number of prisoners whom the federal courts will allow to be confined in specific jails or prisons.

Criminals are free to strike again, committing murders and rapes that wouldn't have happened if the federal judges had not imposed unreasonable ceilings on prison occupancy. If North Carolina had not had such a court-ordered cap, Michael Jordan's father would not have been killed and two

Charlotte police officers would still be alive.

Mr. President, let me share a letter that tells an all too familiar story:

My name is Robert E. Stafford and I am writing in regards to the murder of my brother. I have recently discovered that the two men who shot and killed my brother * * * were convicted felons and were released early. I would like to know how many more murderers, robbers, rapists etc. are going to be released? My brother * * * left behind a wife and two children * * *. People are losing faith in our laws and government as far as protecting them.

Mr. President, the pending amendment will go a long way toward cutting back on the number of violent criminals being released to commit more crimes. There are thousands of murders committed by hoodlums who should still be behind bars. The courts clearly protect what they regard as criminals' rights far more than the rights of innocent, law-abiding citizens.

Mr. President, the federal courts will allow only 21,200 prisoners in North Carolina prisons. As a result, in 1992, more than 26,000 prisoners were released early from North Carolina prisons, including 88 murderers and 37 rapists. In 1993, 17 paroled prisoners have been rearrested and jailed on murder charges.

Mr. President, as a result of the prison caps in North Carolina, criminals serve only 18 percent of their prison terms, and then are turned loose on an innocent, law-abiding public.

There is a bloody abundance of one-line horror stories. Tony Gist got out early, went home and murdered his girlfriend. Odell Cawthorn got out early and murdered his wife. These stories are repeated, over and over again.

Michael Jordan's father, James Jordan, is allegedly murdered by an individual who got out of jail early.

Alden Harden is charged with killing two Charlotte police officers: he has 19 arrests and 9 convictions, but spent less than 6 months in prison.

Mary White was shot to death in Raleigh, June 1993 by Woody Herring: Herring served only 15 months of a 4-year sentence for selling drugs.

Jerry Evans was murdered in Winston-Salem, August 1992 by Aaron Baity: Baity served only 22 months of a 5-year sentence for robbery.

This amendment changes the rules on the federal courts. This amendment specifies that a judge cannot hereafter merely hand down a general ruling that prison conditions are cruel and unusual for the entire population of a prison. The judges must find the conditions are cruel and unusual, or whatever, as to each individual prisoner.

Mr. President, I have been assured by constitutional scholars that this amendment is constitutional. It merely sets a specific standard. For example, Bruce Fein has assured me that "The proposed amendment follows the teachings of the United States Supreme

Court and thus easily passes constitutional muster."

No doubt we will be met with a prediction that this will not work; or that prisoners need comfortable prison cells. Such arguments beg fundamental questions, such as, how much is an innocent life worth? Is the comfort of a murderer really more important than the life of Robert Stafford's brother, and countless other innocent people who have been slain by criminals set free by Federal judges?

Mr. President, we must keep criminals behind bars. If this amendment passes, there will be more room if the courts stop imposing unreasonable specifications on the States—that each prisoner needs 50 square feet, and that three-level bunks are illegal.

Finally, everyone agrees about the need to build more prisons. I insist that we use military bases to do it. Thank the Lord that a good first step was taken last week when a bi-partisan prison amendment was adopted, including the military base proposal.

Mr. President, North Carolinians—indeed, Americans everywhere are fed up. Dozens of victims in my State have filed a lawsuit protesting that North Carolina's prison cap is unconstitutional. Here are a few examples of the victims:

Mary White: Son, 19, shot to death in Raleigh, June 1993 by Woody Herring:

Prior Sentence: 4 years for selling drugs—Time Served: 15 months.

Jerry Evans: Son, 33, murdered in Winston-Salem, Aug. 1992 by Aaron Baity:

Prior Sentence: 5 years for robbery—Time Served: 22 months.

Louis Gadrinab: 47, kidnaped, assaulted, and forced to witness the sexual assault of daughter by Michael Brown:

Prior Sentence: 12 years for robbery—Time Served: 4 years.

John K. Gallaher: Daughter, 37, kidnaped, robbed, sexually assaulted and choked, September 1992 by Ernest Cherry:

Prior Sentence: 14 years for breaking and entering—Time Served: 3 years.

Mr. President, this travesty must stop. Courts must be told to stop forcing States to release criminals early. The great need is to protect the innocent citizens, instead of murderers and rapists. This amendment is a step in the right direction.

I ask unanimous consent that a letter from Bruce Fein to me, dated November 3, 1993, be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

BRUCE FEIN,
 ATTORNEY AT LAW.

Great Falls, VA, November 3, 1993.

Hon. Senator JESSE HELMS,
 U.S. Senate,
 Washington, DC.

DEAR SENATOR HELMS: This letter responds to your request to evaluate the constitutionality to a proposed amendment to S. 1488

that would prescribe the evidentiary showing necessary to prove a violation of the Eighth Amendment based on prison or jail crowding, and to limit the equitable power of a federal court to place a ceiling on inmate populations if a violation is established. The proposed amendment follows the teachings of the United States Supreme Court and thus easily passes constitutional muster.

The proposed amendment declares that plaintiff inmates must prove in federal courts that prison or jail crowding is inflicting cruel and unusual punishment on them, individually, as a condition to finding a constitutional transgression. In other words, a federal court cannot declare crowded conditions unconstitutional in the abstract. Instead, it must find that cruel and unusual punishment is being inflicted on identifiable plaintiff inmates because of crowding as an indispensable foundation for holding the crowding unconstitutional.

The proposal accords with a seminal Supreme Court precedent. In *Rhodes v. Chapman*, 452 U.S. 337 (1981), the Court denied that double celling, simpliciter, violated the Eighth Amendment. The Court declared that the totality of circumstances must be examined to determine whether prison conditions, including crowding, inflicted cruel and unusual punishment on the inmates. The touchstone of the Eighth Amendment inquiry, the Court stressed, is the effect on the imprisoned, not some utopian penological ideal, see 452 U.S. at 366-368. Thus, *Rhodes* endorses the proposed required evidentiary nexus between crowding and the infliction of cruel and unusual punishment as regards particular plaintiff inmates.

The proposal would also limit equitable relief when such proof is forthcoming to the least necessary to remove the unconstitutional conditions of confinement. That rule accords with the Supreme Court's doctrine that equitable relief for a constitutional violation should be generally confined to creating the conditions that would have obtained absent the infraction, see e.g., *Dayton Bd. of Ed. v. Brinkman*, 433 U.S. 406, 420 (1977).

The proposal would further explicitly prohibit ceiling caps on inmate populations as an Eighth Amendment remedy unless crowded conditions are found to be inflicting cruel and unusual punishment on the plaintiff inmate. That stipulation is constitutional because, for the reasons amplified above, an Eighth Amendment violation premised on crowding cannot be established under *Rhodes* absent proof that the crowding is imposing cruel and unusual punishment on one or more of those who are imprisoned.

Finally, the proposed would permit reopening of final federal court judgments that impose remedies for Eighth Amendment violations to determine whether modifications would be justified in light of changed factual or legal conditions. The opportunity created by the proposal to modify a remedy in accord with constitutional standards is legally irrevocable. See generally *Rufo v. Inmates of Suffolk County Jail*, 112 S. Ct. 748 (1992).

Sincerely,

BRUCE FEIN.

AMENDMENT NO. 1160

Mr. DOLE. Mr. President, I send an amendment to the desk on behalf of Senator SMITH and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE], for Mr. SMITH, proposes an amendment numbered 1160.

Mr. DOLE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, add the following:

"SEC. . (a) IN GENERAL.—Section 506 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3756) is amended by adding at the end the following new subsection: "(g)(1) For any fiscal year beginning more than 2 years after the date of the enactment of this subsection—

(A) 50 percent of the funds allocated under subsection (a), taking into consideration subsections (e) and (f) but without regard to this subsection, to a State described in paragraph (2) shall be distributed by the Director of such State; and

(B) 50 percent of such amount shall be allocated equally among States that are not affected by the operation of subparagraph (A).

"(2) Paragraph (1)(A) refers to a State that does not have in effect, and does not enforce, in such fiscal year—

(A) truth in sentencing with respect to any felony crime of violence involving the use or attempted use of force against a person, or use of a firearm against a person, for which a maximum sentence of 5 years or more is authorized that is consistent with that provided in the Federal system in chapter 229 of title 18, United States Code, which provides that defendants will serve at least 85 percent of the sentence ordered and which provides for a binding sentencing guideline system in which sentencing judges' discretion is limited to ensure greater uniformity in sentencing;

(B) pretrial detention similar to that provided in the Federal system under section 3142 of title 18, United States Code;

(C) sentences for firearm offenders, where death or serious bodily injury results, murderers, sex offenders, and child abuse offenders that, after application of relevant sentencing guidelines, result in the imposition of sentences that are at least as long as those imposed under Federal law (after application of relevant sentencing guidelines); and

(D) suitable recognition for the rights of victims, including consideration of the victim's perspective at all stages of criminal proceedings.".

Mr. SMITH. Mr. President, last week the Senate adopted an amendment that sets forth certain requirements with which States must comply in order to qualify to send their violent offenders to the new regional prisons for violent criminals that this bill establishes. There are four such requirements.

First, in order to qualify, States must provide truth in sentencing with respect to felony crimes of violence against persons such that violent offenders serve at least 85 percent of their sentences. In addition, States must have binding sentencing guideline systems.

Second, in order to qualify, States must have pretrial detention similar to the Federal system.

Third, in order to qualify, States must provide sentences for violent firearm offenders, murderers, sex offenders, and child abuse offenders that are

at least as long as those provided under Federal law.

And fourth, in order to qualify, States must give suitable recognition for victims' rights.

Mr. President, the purpose of my amendment is to provide the States with an additional incentive to comply with these requirements. But before I explain how my amendment accomplishes this goal, let me take a few moments to put the matter in perspective.

Mr. President, violent crime in America is out of control. Last month, the FBI reported that 1,932,274 violent crimes were committed in the United States during 1992. That figure represented an increase of 1.1 percent over the previous year.

A violent crime occurs every 22 seconds in the United States.

These statistics demonstrate all too clearly that the first freedom of all Americans—the freedom from fear of crime—is not secure in the United States today.

One of the principal reasons why Americans are not free from the fear of violent crime today is that our criminal justice system has lost its credibility. According to the Bureau of Justice Statistics at the U.S. Department of Justice, the typical prison sentence for a violent crime is 5 years. But the median sentence that actually is served by violent offenders is only 2.16 years, or just 42 percent of the sentence.

The median sentence for murder is 15 years, but, sadly enough, the convicted murderer only serves 5½ years behind bars. A typical rapist is sentenced to 8 years in prison, but serves only 3 years behind bars.

The examples of violent crimes that are committed by criminals out on parole are legion, but let me cite just one recent example.

In March of 1991, Daniel Andre Green was sentenced to 6 years in prison after he assaulted another young man with an ax, causing permanent brain damage to the young victim. A little more than 2 years later, the brutally violent 19-year-old was free again—let out of prison early on parole.

Just think about that for a minute, Mr. President. A man attacks someone by driving an ax into his brain and he is out on parole in 2 years.

Last August—when he should have still been in jail under his sentence—Green was one of two men arrested for the brutal murder of basketball star Michael Jordan's father, James Jordan. The unfortunate Mr. Jordan had pulled off of an interstate highway to rest for awhile when he was murdered in cold blood.

Mr. President, not every victim of a violent criminal on parole is a relative of a famous person. But every such victim is a person who had a right to expect that society would do its level best to keep him or her safe by making violent criminals serve their full sentences.

Mr. President, the American people are sick and tired of liberal parole policies. A Gallup poll taken just last month and cited in Sunday's Washington Post reported that fully 82 percent of Americans want to make it more difficult for criminals to get out of jail early on parole. That figure is up sharply from 68 percent four years ago.

Given the size of those poll figures, it is not surprising that George Allen, who ran for Governor of Virginia on a platform that featured his promise to abolish parole for violent offenders, won a landslide victory in last Tuesday's election.

This body seems to have gotten the message. Barely 48 hours after George Allen's smashing election victory, the Senate voted overwhelmingly for the tough truth-in-sentencing, pretrial detention, sentencing for violent offenders, and victims rights provisions that I described a few moments ago.

Mr. President, this Senator would have preferred that we went further. I believe that violent offenders should serve not 85 percent, but 100 percent of their sentences. As the now-famous phrase so aptly puts it, if you do the crime, you should do the time—all the time. But I voted for that provision last week because I believe that it is such a major step forward.

Mr. President, I believe that we need to take yet another step forward. Under the regional prisons provision that was adopted last week, some States may choose not to comply and thus to forego the opportunity to send some of their violent offenders to the new regional Federal prisons. It certainly is their right to do so. I may strongly disagree with them, but under the amendment adopted last week, they can decline to comply.

But I do have a problem, Mr. President, with those States continuing to receive their full share of Federal funding under the state and local law enforcement assistance grants program.

My amendment, therefore, is quite straight-forward. Under my amendment, which would take effect in two years, any State that does not meet the same set of requirements that it must satisfy in order to send its violent offenders to the new Federal regional prisons will be entitled to only 50 percent of the Federal financial assistance for its criminal justice programs that it otherwise would receive under the Omnibus Crime Control and Safe Streets Act of 1968.

By the same token, those States that step up to the plate and meet those requirements would share in the equal distribution of the 50 percent of the funds that the States that choose not to comply would not receive.

Mr. President, my amendment takes the same approach that the Congress took in 1990 when it enacted a provision cutting the allocation of such criminal justice assistance funds by 10

percent for those States that do not choose to enact laws requiring sex offenders to undergo AIDS testing at the request of their victims.

Mr. President, my amendment is entirely consistent with the approach that we took last week. Under the regional prisons provision now in this bill, the States remain free not to enact truth-in-sentencing laws under which violent criminals serve at least 85 percent of their sentences. But if they do not, they cannot send their violent offenders to the regional prisons. Under my amendment, the States remain free not to meet those standards. But if they do not, they cannot get the full amount of Federal assistance to their criminal justice programs to which they otherwise would be entitled.

Thank you, Mr. President. I urge my colleagues to vote to adopt my amendment. I ask for the yeas and nays.

Mr. DOLE. Mr. President, on the three amendments just offered on behalf of my colleagues, I yield back all but 5 minutes of the time on each amendment.

Mr. MITCHELL. Mr. President, I want every Senator to be aware of the provision in this agreement contained in the last clauses of the agreement which states:

The amendments shall be considered in the order listed in this agreement; that if a Senator is not ready with his or her amendment upon the disposition of the preceding amendment, his or her amendment shall no longer be in order.

That is with the exception of the three which by unanimous consent the Republican leader has introduced this evening. That means with regard to every Senator on this list, if that Senator is not present when the disposition of the preceding amendment occurs, the Senator's amendment will no longer be in order.

In this last week of the session, we are not going to tolerate the lengthy delays that usually occur while we wait for a Senator to appear to offer an amendment. Under this agreement, it is self executing, and the amendment simply will not be in order. I alert all Senators to that. I am well aware that most of them are not now listening to this, but I hope their staffs are, and I know that both Senator DOLE's staff and mine will be sure to call this to the attention of all Senators who are on the list prior to next Tuesday.

I believe the chairman is going to proceed now with some other cleared amendments, and I am awaiting his presence.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. FORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. FORD. Mr. President, as if in morning business, I ask unanimous consent that Senators be allowed to speak for up to 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

REAL WORK REMAINS FOR FEDERAL GRAZING POLICY

Mr. DORGAN. Mr. President, for the sake of completing our Interior appropriations bill for the year, and I believe, for the sake of Western ranchers, it is best that the leadership has agreed to remove the proposed Federal grazing amendment from the appropriations bill.

Despite his best intentions to work out a compromise that is fair to ranchers, Senator REID's withdrawal of his proposed amendment is a step in the right direction. The amendment proposed not only an increase in grazing fees but also more than a dozen provisions of new law on range land management, most of which have never had a hearing in the Congress.

I had to agree with my North Dakota constituents that it was unfair to saddle family ranchers with a whole new set of provisions dealing with range land management that had never been the subject of congressional hearings and on which our ranchers have never had the opportunity to comment.

We are going to see an increase in grazing fees. I think most ranchers on public lands understand and accept that. I've consulted closely with North Dakota family ranchers and I feel strongly that they deserve the opportunity to be a part of the discussions about not only grazing fees but also range land management and improvement reforms.

These changes in law should be the subject of hearings and our North Dakota ranchers and others concerned or affected by public land policies deserve the opportunity to testify and to help shape this change in public policy.

TRIBUTE TO SPC. JAMES SMITH, COMPANY B, 3D BATTALION, 75TH RANGER REGIMENT

Mr. LAUTENBERG. Mr. President, I stand before you today to pay tribute to Spc. James Smith, a Ranger tragically killed in the recent clash with Somali forces loyal to warlord Mohamed Farah Aided. Along with 11 other U.S. soldiers, Mr. Smith died when he was pinned down near the crash site of a U.S. helicopter.

James Smith, a New Jersey native, graduated from West Morris Central High School, Long Valley, NJ. While growing up, he participated in the Boy Scouts and varsity lacrosse and football. Following the family tradition, Jamie, as his family and friends knew

him, decided to try for the elite Ranger unit with which his father had served in Vietnam. In October of 1990, he enlisted in the Army and trained in Fort Benning, GA. He was sent to Somalia on a mission of mercy at the end of August.

Specialist Smith was the leader of the five-man unit trained for fast, highly violent confrontations. After entering the Army, James not only became more dedicated and responsible, he also became extremely focused on his commitment to the U.S. Army.

Like his comrades, Specialist Smith died a hero. This country is indebted to him for his service. As the more than 800 mourners at his memorial service demonstrated, his passing leaves a void in the lives of many. His commitment to his nation, his strength of character, and his love of family and friends will always be remembered.

TRIBUTE TO SPC. DOMINICK M. PILLA, COMPANY B, 3D BATTALION, 75TH RANGER REGIMENT

Mr. LAUTENBERG. Mr. President, I stand before you today to pay tribute to Spc. Dominick M. Pilla, a Ranger tragically killed in the recent clash with Somali forces when his helicopter was shot down by a rocket-propelled grenade.

Dominick Pilla, a New Jersey native, was a recent graduate of Vineland High School, Vineland, NJ. While still a student he enlisted in the Army, following the family tradition. Dominick's father, Ben, served in Vietnam, while his older brother, Frank, is a Navy veteran of the Persian Gulf war. Dominick, however, knew from the beginning that he wanted to try for the elite Ranger unit trained for fast, highly violent confrontations.

Specialist Pilla had honorably served 3 years of a 4-year enlistment. He was sent to Somalia this past August as part of a mission of mercy. As a machine gunner, Pilla's duty was to guard the door of the Blackhawk helicopter in which he was killed.

Like his fellow soldiers, Specialist Pilla died a hero. The United States is indebted to him for his service. He will be remembered not only for his dedication to his nation, but also for his strength of character and his love of family and friends. His passing leaves a void in the lives of many.

TERESA HEINZ

Mr. SPECTER. Mr. President, today I take note of some poignant remarks delivered last week by a good friend of mine, Mrs. Teresa Heinz.

Mrs. Heinz, as you know, is the widow of our late esteemed colleague, Senator John Heinz. Many of our colleagues know from direct experience that Teresa is a dedicated and capable leader. On issues as diverse as the envi-

ronment, children's health, nutrition, the rights of the elderly and education, Teresa has demonstrated time and again, throughout her life, that leadership is not confined to politics.

I borrow that phrase from some observations made by Teresa last Friday, when she announced to the disappointment of many in our State that she would not seek election to the U.S. Senate in 1994. In announcing her decision, she shared some personal and I think highly relevant thoughts on the political process. They come from a woman who knows whereof she speaks, and I believe her thoughts deserve to be shared with every Member of this institution, as well as with the American public.

This was a difficult and personal decision for Teresa, but I respect her deeply for having made it. I respect her all the more for using this opportunity to remind those of us who are in public service—on both sides of the aisle—of the challenges we face in regaining the confidence of the American people.

I ask unanimous consent that the full text of Mrs. Heinz' statement be entered in the RECORD as well as a copy of an editorial from the Pittsburgh Post Gazette.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STATEMENT OF TERESA HEINZ, NOVEMBER 5, 1993

Thank you all for coming out here today. This has been a difficult and intensely personal decision for me, and I wanted to feel comfortable in sharing it with you. My home is the perfect place for me to do that. Thank you for giving me the liberty to share my decision with you in this unconventional setting.

I know you want to hear about what that decision is. But to me, the most important aspect of this decision isn't so much the what—it's the why. So please bear with me and let me begin with that.

Ultimately, my decision has hinged on one deceptively simple question: Where can I be most effective in addressing the issues that most concern me—whether they be national or local?

For me, those issues are compelling. Ours is a time of pain and possibility. Far too many Americans today have no fonder wish than for something the President recently wished for the people of the Middle East: "the quiet miracle of a normal life." Today, many people believe American is failing them, and too often, they are right. Schools that are supposed to teach, do not. Streets that are supposed to be safe, are not. Careers that were supposed to last a lifetime, will not. What, we wonder, can we rely on?

Americans today, even Americans with good jobs and intact families, live in a state of almost constant dread. One by one, it seems, the building blocks of a normal life are being taken away and replaced with uncertainty and fear. We want our schools back * * * we want our streets back * * * we want our jobs back * * * most of all, we want our dreams back.

But no one—no one—is going to give those things back to us. We will have to take them back, each of us, as individuals.

This is a critical moment—not just in the history of our state and nation, but in the

history of our world. It is a time when those blessed with the opportunity to lead must choose to do so.

I understand the essence of leadership. True leadership is confined to politics. Leadership occurs at all levels, among all kinds of people, in all walks of life. It is fundamentally an individual act that begins with one person's concern and a decision to act on that feeling. To me, that is the defining act of being American. That is the American spirit.

I believe America's future rests with its ability harness that power. That may seem like an odd statement. At a time when the American spirit seems so beleaguered, when we are struggling to find our way in a world seemingly gone mad with hate and violence, how can that spark inside of us represent our hope for the future? And yet it does. Without that spark there is no light in the world—this country and its people must provide it.

The question I have forced myself to think through, carefully and in detail, is how I can best be part of that. It may not be fashionable these days, but I have tremendous respect for Congress as an institution. I believe in public service, and take very seriously the power that a Senator can wield. The impact that our legislators can and do have on our daily lives is more awesome in its scope than most people realize. I have seen the first hand, both the incredible good and the terrible bad that government can do. Public office is, even in our cynical age, a high responsibility.

It is sad how often, in pursuing public office, candidates are willing to sacrifice in the very principles that make politics a noble act. Government cannot be made more effective by people who defile the institution. I believe Americans are fed up with the politics of negativism. We are looking for solutions, not insults.

Washington can be part of the solution. But today's most creative thinking is not happening in Washington. It is happening in our neighborhoods, community centers, activist groups, churches, schools. Onto these groups has fallen the responsibility to craft the truly innovative solutions—solutions that the government may eventually act on, but no longer has the flexibility to create.

The best ideas for change unfortunately no longer come from political campaigns. Today, political campaigns are the graveyard of real ideas, and the birthplace of empty promises. Those good ideas that do not surface are vitiated by party labels and lose their impact in rancorous, partisan politics. The political process, which should be healing and unifying, instead too often is divisive, dismissive and destructive.

We need a new politics of inclusion, in which people are invited and encouraged to join together and participate in something bigger than themselves. The sort of thinking our society needs most desperately is the sort that bubbles up from the enthusiasm and creativity of individuals energized by the simple realization that they have the power to make a difference.

Through the work that I have been doing these past two years, I have had the opportunity to help individuals and groups and communities learn to unleash the phenomenal power that is locked within them. I have been blessed to be able to help them discover their own personal spark of leadership.

And that brings me to my decision. When my husband John died, I lost my best friend. I would like to have discussed this decision with him, as we discussed every other major decision in our lives. But this decision I

must make on my own, and I have decided to follow my own path and not seek election to the U.S. Senate in 1994.

The Senate does not represent the best place for me at this moment to have a sustained impact in changing the course of our economy, bringing nutrition and health care to millions of American children, helping to guarantee that growing old does not equate with poverty, or developing pragmatic solutions to our environmental challenges.

Like many other people in this state, I came to this country as an immigrant. Maybe it takes somebody from another place to truly appreciate how great this country really is, and how much greater it still can be. We have, even today, extraordinary potential.

The ultimate keeper of that potential is not Congress. It is you and I. Americans truly are different, simply because they believe they can change the world. And as long as we believe that, and we must, it will be true.

I want to thank this country and the people of Pennsylvania for giving me the opportunity to even consider running for office. But the best way for me to contribute is as I always have, as a thinking, practical private citizen—working on behalf of Pittsburgh, our state and our nation.

[From the Pittsburgh Post-Gazette: Nov. 6, 1993]

MRS. HEINZ PASSES; HER ABSENCE WILL TILT THE GOP SENATE RACE RIGHTWARD

Teresa Heinz's elaborate waltz around the issue of whether to run for the U.S. Senate ended unexpectedly yesterday when she turned in her dance card.

"I want to thank this country and the people of Pennsylvania for giving me the opportunity to even consider running for office," she said during a press conference at her Fox Chapel home. "But the best way for me to contribute is as I always have, as a thinking, practical citizen—working on behalf of Pittsburgh, our state and nation." So much for the speculation that she would seek the seat once held by her late husband John Heinz.

Her statement was at once a tribute to what is right about America and a warning about what is wrong. "Ours is a time of pain and possibility," she said, talking of schools that don't teach, streets that aren't safe and careers that don't last.

It was also a pointed assault on the meaning (or meaninglessness) of campaigning. "Today, political campaigns are the graveyard of real ideas, and the birthplace of empty promises." Sounding something like Bill Clinton during his campaign for the presidency, she complained of a political process that is divisive, dismissive and destructive rather than healing and unifying.

Her withdrawal from consideration likely means a less divisive Republican primary and a clearer path for U.S. Rep. Rick Santorum of Mt. Lebanon, who probably is having a hard time containing his glee. Rep. Santorum represents the conservative wing of the party while Mrs. Heinz represents the increasingly fragile moderate or liberal wing.

We regret that because of her decision, this point of view may not be well-heard during the primary. And it may lead to a more ideologically charged general election than this state is accustomed to—with a potential matchup of classic liberal Democrat Sen. Harris Wofford and conservative Rep. Santorum.

But it is hard to argue with her assessment that she can do more through the Heinz charities than as a freshman senator. We

wish her well as she tackles her daunting and worthy list of challenges: "to have a sustained impact in changing the course of our economy, bringing nutrition and health care to millions of American children, helping to guarantee that growing old does not equate with poverty, [and] developing pragmatic solutions to our environmental challenges."

IN PRAISE OF THOMAS PELLIKAAN, EDITOR OF THE DAILY DIGEST

Mr. HATFIELD. Mr. President, a gentleman who had become almost an institution in this body recently celebrated 30 years of service to the U.S. Senate. Mr. Thomas Pellikaan, editor of the Daily Digest, has contributed much during his time here, and I would like to take a moment to share with my colleagues an account of his work.

When I came to the Senate in 1967, Thom Pellikaan had already been here 4 years. Having come to this town with Senator Edward Long of Missouri, Thom established himself early on as a helpful assistant and somehow did not manage to go home to Missouri quite as soon as he had planned.

He ended up serving over a decade as the Senate press liaison, a position crucial to keeping the public informed of our workings in the days before C-SPAN. Having served during the turbulent sixties and into the seventies, Mr. Pellikaan witnessed incredible events on the floor of the U.S. Senate.

Perhaps the most memorable of these times was the sad day that President Kennedy was assassinated. Mr. Pellikaan was the first to break the news to the U.S. Senate, telling Senator Everett Dirksen first of the news. He watched as word spread quickly from one senator to another. Witness to the genuine and heartfelt reactions of usually stoic public figures, Mr. Pellikaan carries with him today a true understanding of the humanness of the Senate. It is a perspective which served him well during his later years at the Daily Digest.

Of the 291 Senators who have served in the U.S. Senate during Mr. Pellikaan's years here, only 5 of the original Members remain. In that same span of time, 8 Presidents have occupied the White House. Nine Vice Presidents have presided over the U.S. Senate. Most all of us are junior to Mr. Pellikaan in seniority.

I have known Thom throughout my tenure in the Senate. His perspective on our work in this Chamber has been as valuable to my colleagues and me as has been the friendliness he extends to all he encounters. I appreciate his service very much.

ANTONIO MOLINA, JR.

Mr. KERRY. Mr. President, today I pay tribute to a brother Vietnam veteran, Antonio Molina, Jr., U.S. Marine. Mr. Molina was the first Hispanic-

American wounded in Vietnam. For his gallantry and bravery, Staff Sergeant Molina was awarded the Purple Heart, the Presidential Unit Citation and six other decorations.

That same commitment to country is still being demonstrated today as Sergeant Molina has become a leader in his community. Here he has fought in a different type of battle, the war against teenage dropouts. He has served as a liaison between the Hispanic community and city government. He has developed youth programs and established nursing exchange programs with Puerto Rico.

Currently he runs El Universal, a Hispanic newspaper that has served as a catalyst for the development of community activities.

As a soldier fighting for freedom in a foreign country or as a soldier fighting for the freedom of opportunity in America, Staff Sergeant Molina has lived by the code of Semper Paratus. I commend him for both his military record and his civilian services, and express the hope that all of us—and particularly those who live in his community—will continue to benefit from his contributions.

THE 55TH ANNIVERSARY OF KRISTALLNACHT

Mr. DODD. Mr. President, few episodes in history evoke the bitter anger and the silent anguish that is brought on by the memory of Kristallnacht, the night of broken glass. This week we honor that memory by pausing to observe the 55th anniversary of Kristallnacht, and by paying tribute to the victims of this dreadful human tragedy.

On November 7, 1938, a young Jewish student by the name of Herschel Grynszpan shot to death a German official in Paris after receiving the news that his parents had been deported to Poland. Within hours of the official's death 2 days later, Adolf Hitler and the rest of the Nazi party decided on their revenge. Early on the morning of November 10, soldiers in Germany and Austria set out on a violent anti-Semitic pogrom, smashing storefronts, destroying synagogues, and looting homes and shops owned by Jews. They chose to call it Kristallnacht—Crystal Night.

In the ensuing violence, some 7,500 Jewish businesses were ransacked, 267 synagogues were burned, 91 Jews were killed, and between 20,000 and 30,000 Jews were taken to concentration camps. But the dreadful toll of Kristallnacht cannot be captured by mere numerical figures. For Kristallnacht was more than a sudden act of retribution by a vengeful and hateful regime; in truth, it was a dry run for the Holocaust itself. The broken glass of Kristallnacht would soon be followed by the shattered dreams of an entire people.

Today, 55 years after Kristallnacht, we look back on the events of November 1938 and seek to make some sense of them. We are revolted by the atrocities committed against the members of the Jewish communities in Germany and Austria and the inhuman hatred that propelled these events. We are equally revolted by the failure of the international community to respond: the denial of visas to Jews; the unwillingness to raise immigration quotas; the deplorable refusal of the world to intervene. These actions of quiet complicity—the unconscionable sins of the silent—gave a green light to the Nazis and their genocidal intentions.

Mr. President, to fully come to terms with Kristallnacht and the Holocaust that followed is in some ways to comprehend the incomprehensible; it cannot be done and perhaps it ought not be done. What we can do—what we must do—is to recall these grisly events of the past and make every effort to impart their lessons to future generations. "Learn," Elie Wiesel once said, "and hope is possible. Forget, and despair is inevitable." On this 55th anniversary of Kristallnacht, those powerful words ring ever true.

ELECTIONS IN JORDAN

Mr. PELL. Mr. President, as events rapidly unfold in the Middle East, I would like to draw the attention of the Senate to recent developments in Jordan. On Monday, Jordan held elections for the Lower House of the Parliament, the second time it has done so after a hiatus of more than 30 years.

Jordan's experiment with the democratic process began in earnest in 1989, with King Hussein's call to establish a National Charter. The National Charter, which was crafted by a broad coalition of prominent Jordanians representing nearly every segment of the population, was intended to serve as a roadmap to a new system of political participation.

Shortly thereafter Jordan held elections resulting in the establishment of a new parliament. Though political parties were still banned at the time, the parliament did represent a range of diverse views, including most notably a significant bloc of Islamist representatives and their independent allies.

This week's elections, which will be followed shortly with the appointment of a new government, were important for a number of reasons. First, as the followup to the 1989 elections, they represent another step forward in Jordan's democratic course. Second, these elections were held under new rules that enabled the participation of political parties, and that provided for a single-member district, one-person, one-vote system. Third, the number of Jordanians voting increased substantially in comparison to the 1989 elections. Finally, the elections resulted in a

diminution of strength in the Islamist bloc, as evidenced by the fact that a woman won a parliamentary seat. Some analysts believe the results demonstrate a public vote of confidence in Jordan's recent overtures to Israel, and are in vindication of Jordan's decision to allow—rather than bar—participation by the Islamists.

Mr. President, I do not wish to give the impression that Jordan has successfully concluded a transition to democracy, or that there are no other issues of concern in Jordan's relationship with the United States. Jordan still has far to go before reaching political maturity. I believe it is important to point out, however, that Jordan is making some progress on the domestic political front, and I wish to ensure that does not get overlooked in the whirlwind of recent developments in the Middle East.

I ask unanimous consent that an article from the New York Times, "Jordanian Vote Endorses Peace Effort," be included in the RECORD at this time.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times, Nov. 10, 1993]

JORDANIAN VOTE ENDORSES PEACE EFFORT

(By Youssef M. Ibrahim)

AMMAN, JORDAN, November 9.—Jordanians have given a strong endorsement to the Middle East peace effort by spurning Islamic militants whose principal platform was opposition to any peace talks with Israel.

The Islamic Action Front won only 16 seats in Jordan's 80-member Parliament in the elections on Monday, according to official results announced today. The Muslim fundamentalist voting bloc, which includes two nominal independents in addition to the Action Front, also shrank significantly from 32 in the last Parliament to 18. Parties were not permitted until after the last elections, which were in 1989.

The relatively large turnout, 68 percent of the estimated 1.2 million eligible voters, appeared to have been a response to King Hussein's repeated appeals to preserve Jordan's participation in the talks with Israel and to elect "responsible" representatives who will preserve Jordan's interest. In the 1989 election, only 49 percent of eligible voters went to the polls.

ARAFAT PREDICTS ACCORD

The results exceeded the expectations of anti-fundamentalist forces here, who were worried about the impact on votes of a recent flurry of secret and public negotiations between Jordanians and Israelis. In Brussels today, the Palestine Liberation Organization chairman, Yasir Arafat, predicted that the two countries will "sign a friendly agreement" within days.

Questioned at a news conference today about his secret contacts with Israeli leaders, King Hussein said only, "We are now engaged in this peace process and we are committed to it." Asked when he might visit Jerusalem or meet publicly with the Israeli Prime Minister, Yitzhak Rabin, the King only smiled and said, "All in good time."

Visibly pleased with the election results announced this morning, he told the news conference, "I don't find in our Islam anything that stands in the way of peace or progress."

MILITANTS REJECTED

The election offered a first look at how much support Muslim militants can gain in a democratic framework after they have compiled a track record. The result was an unmistakable rejection of social and economic programs presented by the fundamentalists over in the past four years, when they had some control over the legislative agenda and had a chance to practice what they preached.

Several leading Muslim fundamentalists, including the Parliament speaker, Abdelatif Arabiyat, lost their seats. Independent supporters of the Islamic bloc were voted down in favor of middle-of-the-road tribal figures who are certain to support the Government and the King, who played heavily on tribal loyalties for those elections.

Voters also elected the first woman parliamentarian in Jordan's history, Tojan al-Faisal. She failed to win a seat in the 1989 parliamentary elections in the face of fierce opposition by fundamentalists to her views and gender.

Mrs. Faisal, 44 years old, is an ardent feminist whom militants have persecuted by attempting to annul her marriage and going so far as to ask immunity for anyone who sheds her blood.

THE FUNDAMENTALISTS LOST

Jordanians said the Palestinian-Israeli peace agreement signed in Washington has pulled the rug from under the militant Jordanian fundamentalists, who based their political message on rejection of any peace with Israel. Improving economic conditions have also marginalized the fundamentalists' domestic program, which consists of opposing economic reforms suggested by the International Monetary Fund.

"The issue in the election was the fundamentalists and the peace process," said Fahd el-Fanek, an economist and columnist. "The answer is the fundamentalists lost. It is evident their power is declining here. It's an important message for the region and other Arab leaders, namely that within a democratic practice fundamentalists do not do well when they adopt strident views."

Several Jordanians, including the King, pointed out that the Jordanian experience should be examined by other Arab governments that are experiencing difficulties with fundamentalist groups. Algeria and Egypt are wrapped in fierce confrontations with militants who are excluded from the political dialogue.

In Jordan, the Islamic bloc still remains the largest single party in Parliament. Ishaq Farhan, a leader of the Islamic Action Front, vowed that even with a reduced presence, the Islamic movement "will confront in the next Parliament all the attempts at normalization with the Jewish state and the Zionist onslaught with all the political means within the law."

The elections were contested by 534 candidates, most of them independents and the rest grouped into 20 parties. Leftist candidates with strong antipeace views were also shunned by the voters, leaving Parliament firmly in the hands of centrists.

Palestinians, who comprise somewhere between 40 percent and 50 percent of the Jordanian population of four million, seemed by and large to vote in favor of candidates who support the Government peace strategy.

"The Palestinian vote was a factor in the sense that those who supported the peace process did enter the race and won," said George Hawatmeh, editor of The Jordan Times.

RANGERS LEAD THE WAY

Mr. INOUE. Mr. President, I recently had an opportunity to visit with some of America's best and bravest young men—members of the Nation's elite 75th Ranger Regiment just back from Somalia. Brothers—black, white, Asian, Hispanic—bonded together by a calling of service to Nation. Like generations of Rangers before them, they have volunteered to take on the toughest missions and, if need be, give up their lives for the needs of the Nation and those of their fellow citizens.

Much has been said and written about the manner in which these Army Rangers acquitted themselves in the recent action in Mogadishu. There has been no shortage of Monday morning quarterbacks criticizing their planning and performance. Some have gone so far as to suggest the unit failed in its mission.

Mr. President, these critics are wrong. These brave men did not fail. The Rangers of the 75th Regiment did not fail their Nation nor did they fail their brothers in arms. They, in fact, accomplished what they set out to do, snaring two dozen key members of Aideed's staff. These brave young men and their fallen comrades epitomize the qualities we expect in American warriors: unequalled skill in their profession, unflinching devotion to duty, gallantry in action, loyalty to both the Nation and one's comrades in arms, and selfless sacrifice. They have done all the Nation could have asked, and more.

Our history is replete with the incredible courage, determination and selfless sacrifice displayed by Roger's Rangers, Francis Marion, "The Swamp Fox," Darby's Rangers, and Merrill's Marauders. No one who has ever stood on the edge of Pointe du Hoc on the Normandy coast and looked down that steep cliffside could ever believe that ordinary men actually scaled those cliffs under withering fire. They were not ordinary, they were Army Rangers.

Throughout their existence, Army Rangers, through action, not words, have set an incredibly high standard. Mentally alert, physically strong, morally straight, they always shouldered more than their share of the task at hand. When they met the enemy they were usually victorious, when they were not, the enemy paid a terrific price for victory. Surrender has never been, and thankfully is still not, in the Ranger vocabulary.

Today's Army Rangers are no different than their predecessors. They met the challenge in Somalia. Not only did they succeed in capturing two dozen key members of Aideed's staff, but when the fog of war engulfed their operation they fought for over 9 hours against incredible odds inflicting far heavier casualties than they themselves took. It is no small coincidence that Aideed agreed to a cease-fire after

the capture of 24 of his top lieutenants and the death of hundreds of his soldiers.

Incredibly, some have criticized these Rangers for staying with their fallen comrades. This criticism strikes at the very foundation of what makes all our service men and women perform together so well under pressure, what makes people give that last full measure for their comrades and for their Nation. I know from my personal experiences as a soldier during the Second World War how critical this bond of trust is between comrades in arms. The Ranger creed states in part: "I will never leave a fallen comrade to fall into the hands of the enemy and under no circumstances will I ever embarrass my country * * *." This is not some anachronistic rhetoric, it is at the very core of the Ranger ethic.

The Nation shares the sorrow of those Rangers whose brothers in arms were killed in Mogadishu and that of the families who lost their loved ones. But above all, these Army Rangers and their families have every right to stand tall and feel proud of their performance under fire, for we, as a Nation, are most proud of them. Their example of gallantry in action, perseverance, loyalty to each other—even unto death, and adherence to their creed, serves as an inspiration to all Americans. Their performance in Mogadishu on October 3 and October 4 is a testament to the skill, bravery, and fortitude of America's finest young men. Their steadfast courage under fire once again proves beyond doubt that "Rangers lead the way."

IRRESPONSIBLE CONGRESS? HERE IS TODAY'S BOXSCORE

Mr. HELMS. Mr. President, anyone even remotely familiar with the U.S. Constitution knows that no President can spend a dime of Federal tax money that has not first been authorized and appropriated by Congress—both the House of Representatives and the U.S. Senate.

So when you hear a politician or an editor or a commentator declare that "Reagan ran up the Federal debt" or that "Bush ran it up," bear in mind that it was, and is, the constitutional duty of Congress to control Federal spending. Congress has failed miserably in that task for about 50 years.

The fiscal irresponsibility of Congress has created a Federal debt which stood at \$4,423,280,357,586.04 as of the close of business yesterday, November 9. Averaged out, every man, woman, and child in America owes a share of this massive debt, and that per capita share is \$17,220.66.

A CRITIQUE OF CLINTONOMICS

Mr. PRESSLER. Mr. President, I rise today to bring to the attention of this

body an insightful article on today's current economic situation by our former colleague, Senator Bob Kasten of Wisconsin, and Cesar Conda, executive director of the Alexis de Tocqueville Institution. Senator Kasten is serving as the chairman of the de Tocqueville Institution's Center on Regulation and Economic Growth.

As the ranking Republican on the Small Business Committee, I found this article of particular interest. Others in the body may, as well. The de Tocqueville article reviews the President's economic agenda, specifically focusing on health reform and the Federal budget deficit.

Mr. President, I am personally concerned about the potentially devastating effects on small business of employer mandates in the President's health care reform plan. Forcing new mandates on already overregulated businesses could further jeopardize economic expansion and cause layoffs of workers in America's small businesses.

I ask unanimous consent that the article appear in the RECORD immediately following my remarks.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

CLINTON'S HEALTH CARE FIGURES DON'T COMPUTE

(By Robert W. Kasten and Cesar V. Conda)

On Oct. 1, the American middle-class was introduced to the first major installment of "Clintonomics." The federal gasoline tax was increased by 4.3 cents per gallon as part of the president's deficit-cutting plan (the so-called "rich" have already paid their "fair share" in taxes because Clinton retroactively raised the top tax rates effective last Jan. 1). And now, the Clintons have proposed a substantial increase in "sin taxes" and employer insurance mandates to finance a federal takeover/overhaul of the nation's health care system.

Unfortunately, both the Clinton budget and health care reform plans are built on a foundation of quicksand. By imposing harmful disincentives and higher costs on the economy, the tax financing mechanisms will raise less additional tax revenue than the administration estimates—and in some cases, actually reduce net tax revenue—leaving a multibillion dollar deficit hole in the federal budget.

Furthermore, given Clinton's proclivity to raise taxes before cutting spending, he may well opt to implement a more dangerous tax to fill these financial gaps—the value added tax (VAT).

The reason budget projections rarely hold up is because the government's estimators and accountants live in the fantasy world of static revenue analysis. Their economic models rarely account for the real world impact that higher taxes and other government-imposed burdens have on human behavior and economic activity—and as a result, their revenue estimates often miss the mark.

For example, in the case of the recent gas tax increase, the government estimators totally ignored the fact that higher gasoline taxes would raise costs at all stages of production for businesses, thereby reducing economic growth. The Institute for the Research on the Economics of Taxation estimated the 4.3-cent gas tax hike will reduce

gross domestic product by some \$16 billion and jobs by 110,000 by 1998. The result is that only \$5 billion will be raised in net additional tax revenue over five years instead of the \$24 billion estimated.

Also during the budget debate, Harvard economist Martin Feldstein argued forcefully that the sharp jump in marginal tax rates in the Clinton budget would collect only one-fourth of the projected \$100-plus billion five-year revenue gain. That's because high-income individuals would work fewer hours and load their portfolios with tax-exempt municipal bonds in order to reduce their taxable incomes and avoid the higher marginal tax rates.

Congress should have learned its lesson when it imposed a 10 percent excise tax on expensive boats in 1990, only to destroy thousands of boat manufacturing jobs and actually reduce net tax revenues for the government. As Jack Kemp, former congressman and Cabinet member, cogently put it, "Virtually every time the government has raised tax rates, the federal deficit has grown even larger."

As with its budget plan, the Clinton administration has disregarded the dampening effect of its health care proposal on the economy and tax revenues. Consequently, the financing mechanisms, to borrow the words of Sen. Daniel P. Moynihan, D-N.Y., "are a fantasy."

First of all, the proposed tax increase of 75 cents a pack on cigarettes would raise less than half of the \$15 billion revenue pickup estimated by the administration, according to professor Robert D. Tollison of George Mason University. Tobacco makes up about 2 percent of the Consumer Price Index and a large tax increase on cigarettes would increase the index by as much as 1 percentage point. This in turn would increase government spending on inflation-adjusted programs such as Social Security and food stamps, and cut tax revenue collected from the standard deduction for federal income taxes.

The employer mandates also would end up depressing the economy and tax revenue. Under the plan, employers would pay for an employee's health insurance equal to 3.5 percent of payroll for businesses with less than 50 employees and 7.9 percent for all others. Businesses would be forced to pass along the added costs to consumers and workers through higher prices, lower wages, and fewer jobs.

Hillary Rodham Clinton recently said that she can't "save every undercapitalized small business in America." But the employer mandates in her health plan would make it more difficult for viable, capitalized small businesses to keep their doors open.

The plan also contains another anti-job provision: In order to qualify for the federal government subsidies that would keep mandated costs to no more than 3.5 percent of payroll, small businesses would limit their size to no more than 50 workers. Employers at or near the threshold would be induced to shed full-time jobs.

The International Mass Retail Association sponsored a recent nationwide survey which found that any employer mandate would put 1.9 million jobs at risk of being eliminated. Other reputable studies predict job losses as high as 3.1 million. Even Laura Tyson, the chairwoman of the president's Council of Economic Advisors, now admits that the burdensome employer mandates in the Clinton health plan could cost as many as 600,000 jobs in its early years.

Fewer people working in taxpaying jobs and more people on unemployment com-

passment programs means less tax revenue, more government spending and bigger deficits. According to economist Feldstein, the Clinton health plan as it now stands would probably reduce tax revenues by at least \$50 billion per year.

To fill these gaping financing holes, President Clinton is likely to resurrect the idea of a valued added tax. Such a tax has long been attractive to politicians because of its ability to generate sizable tax revenues. But as the European experience has shown, it could be a fatal attraction; a VAT tends to hide the true cost of government, and eventually leads to high and oppressive levels of taxation and spending over time. As former treasury secretary William Simon put it, a VAT "would rob us blind."

Instead of new and higher taxes, Congress should support the bipartisan efforts of legislators such as Sen. Bob Kerrey D-Nebr., Rep. Bob Andrews, N-N.J., and Rep. Bill Zeliff, R-N.H., to advance additional spending reductions to cut the deficit. This effort must include a serious effort to reform entitlement programs. Before proceeding with health care reform, Congress should demand realistic cost estimates that factor in the negative impact of the Clinton health plan's taxes and mandates on the economy.

As the old saying goes, "there's no free lunch." The American public must be made aware of the real economic costs of the Clinton agenda.

FACES OF THE HEALTH CARE CRISIS

Mr. RIEGLE. Mr. President, I rise again today in my continuing effort to put a face on the health care crisis facing our country. Today I want to share the story of Patricia Rutkowsky, from Avoca, MI. Patricia, who is 37 years old, has epilepsy.

Patricia's memories of the first 25 years of her life are of the hospital. Her epilepsy was so severe that she suffered as many as six seizures every day. After having brain surgery 12 years ago, she now only endures about two seizures each year. Given her history, however, health insurance companies and employers still consider her to be a high risk.

Up until May 1984, Patricia was covered under her father's health insurance policy at Ford Motor Co. Because Patricia was disabled, she could be covered under her father's policy until she moved out of her parents' home. Ford provided very comprehensive coverage. During this time, Patricia's only medical cost was \$2 per month for prescriptions.

After leaving her parents' house to marry her husband Rick, Patricia looked for 3 years before finding a company that would sell her health insurance because of her history of epilepsy. During this time, she remained uninsured and paid all of her medical costs out of pocket.

Over her lifetime, Patricia has held and then lost 20 jobs. While none of her employers ever came right out and said that her seizures were their reason for letting her go, none was able to offer her sufficient grounds for her dismis-

sal. Because she has not been able to hold a job for any significant amount of time, she has not had an opportunity to be covered through an employer's health insurance. She has also been unable to obtain coverage through her husband's employers because of her preexisting condition.

Patricia now carries an individual policy through Blue Cross/Blue Shield that costs \$195 each month. Although her policy covers most services and prescriptions that she needs with small copayments, it does not cover her regular visits to the doctor. Patricia estimates that she has paid over \$2,000 for her physician visits during the past 2 years.

For the past 2 years, both Patricia and Rick have been unemployed. Rick does not have health insurance, and the Rutkowskys have been told that they are not eligible to receive public assistance because Rick owns a home and 40 acres of land. Patricia and Rick have been living off their savings for the past 2 years. Because of Patricia's medical history they believe that continuing to pay her health insurance is a priority. If the cost of Patricia's insurance continues to go up, however, she could be forced to drop it and join Rick as 1 of the 37 million people in our country who are uninsured.

It is essential that people like Patricia and Rick have a guarantee of health insurance coverage regardless of disabilities of preexisting conditions or employment status. And that coverage must be affordable so that people like the Rutkowskys don't have to deplete their savings to enjoy the peace of mind that coverage brings.

I have been working to fix these problems with our health care system for many years, and I am pleased that we finally have an administration that is providing leadership for this effort. I would just like to say to Patricia and Rick and to everyone else who has faced problems with our health care system that I am going to do everything I can to make sure this Congress passes comprehensive health care reform before the end of next year.

GRAZING DEBATE ON FISCAL YEAR 1994 INTERIOR APPROPRIATIONS BILL

Mr. HATFIELD. Mr. President, I am pleased to note that grazing provisions included in the Interior appropriations bill for fiscal year 1994 have been dropped. I commend my colleagues on both sides of this issue for their stalwart efforts to pursue a course they believe to be correct on grazing fee increases and rangeland reform.

My views on this issue are a little different from a number of my western colleagues. I believe a grazing fee increase is necessary and overdue. I also believe improvements in rangeland management are essential. The

changes in the so-called Reid-Babbitt compromise, however, were inappropriate.

First, an amendment codifying permanent national policy should not have been included on this appropriations bill. I have been chided for the last 4 years by both sides of the forestry debate for codifying a regionally based, 1-year, emergency measure to prevent the national forests of my region from shutting down completely. This agreement, called section 318 of the fiscal year 1990 Interior bill, was forged based on full consultation with my Democrat and Republican House and Senate colleagues in the Pacific Northwest region, including the Governors of Oregon and Washington. Yet to this day, I receive constituent mail telling me "no more riders on appropriations bills." While I reserve the right to propose any action which I believe responds to an unusual or emergency situation, I want my colleagues to know that I generally do not support using authorizing amendments on appropriations bills to resolve substantive problems.

The Reid-Babbitt proposal was one such amendment which had no review, no consultation, no hearings, and was not based on any consensus. There was, in fact, no effort to discuss the issue with Members likely to have concerns prior to its inclusion in the Interior conference report. Equally troubling was the fact that many Members of Congress and interest groups who had opposed authorizing amendments on appropriations bills relating to natural resource policy in the past were now suddenly supporting the Reid-Babbitt amendment because it was politically correct to support grazing reform.

Additionally, I was particularly disturbed by the inconsistent wavering of one of the most important players in this debate: the States. Late last week, a number of State Governors' offices agreed to the Reid-Babbitt proposal as long as changes were included in the language relating to water, sections 406(d) and 406(i)(2), and improvements at projects partially or fully on Federal lands, 406(m). Still, just yesterday, some of these same offices of western attorneys general were backing off their earlier support for the proposal on the grounds that they had found new problems with other elements of the language. These questions are properly answered through the congressional and administrative hearing processes. That is why these processes exist.

Realizing the need for hearings to clarify the questions raised surrounding the Reid-Babbitt provision, I was distressed by the course this debate had taken over the last few weeks. The proponents of Reid-Babbitt pushed an all-or-nothing agenda—accept a fee increase and significant policy changes relating to rangeland management or

accept nothing. Several legitimate and worthy alternatives, however, were offered by my colleagues, Senator BYRD of West Virginia, and Senator BAUCUS of Montana. Senator BYRD offered to drop all grazing-related provisions in the bill and sent it to the House for approval. Additionally, Senator BAUCUS offered to keep the fee increase in the bill, removing all references to rangeland reform, and instead allowing the Secretary to proceed with administrative hearings.

As the ranking member of the Appropriations Committee and a reform conscious westerner, I was torn by the all-or-nothing choice which confronted us. The Founding Fathers of this Nation developed our bicameral Congress with the intention that passing significant legislation would be difficult. The proponents of the Reid-Babbitt grazing proposal, however, attempted to ram this legislation through both Houses of Congress on a 1-year appropriations bill with no hearings, no debate, and no consensus.

Let my colleagues be quite clear about one thing: increasing the grazing fee is not the issue. Grazing fees are going to increase. This issue is how the Congress will set policies regarding natural resources use during the remainder of this administration. By striking deals between small groups of congressional Members with no consideration for what the rest of the 430 Members and their constituents think? By setting water, forestry, mining, and other natural resource policies through the appropriations process every year? I certainly hope not. The proper forum for these discussions is the authorizing committees of Congress: the Committee on Energy and Natural Resources in the Senate, and the Committee on Natural Resources in the House. I look forward to and encourage hearings as soon as possible.

It is on these grounds—setting permanent, nationwide policy on appropriations bills and the presence of two specific alternatives—that I would have opposed the cloture motion on the interior conference report yesterday. I commend Senators on both sides of this issue and the Secretary on the Interior for their commitment on both the issues of rangeland management reform and the people of the west dependent on public rangeland for their livelihood.

DIGITAL SWITCHING IN ABERDEEN: AN UPDATE

Mr. PRESSLER. Mr. President, on several occasions I have addressed my colleagues regarding efforts to bring advanced telecommunications technologies to Aberdeen, SD. I have been working for a number of months with the Aberdeen community to upgrade Aberdeen's analog switch to digital. Today, I have good news.

Recently, Mayor Tim Rich, the Aberdeen Development Corp., and US West announced that a new digital switch will be installed by March 1, 1994. AT&T also will upgrade its equipment in Aberdeen, which will allow the new switch to be fully utilized. I was pleased to participate in this announcement in Aberdeen via a videotaped message. Everyone involved should be proud. In particular, I would like to commend the efforts of Mayor Tim Rich, Jim Barringer, executive vice president of the Aberdeen Development Corp. Vi Stoia and all the members of the Community Action Resource Team, and the citizens of Aberdeen. I also commend the State public utilities commission—Chair Laska Schoenfelder, Vice Chair Ken Stofferahn, and Commissioner Jim Burg—Paul Knecht, Deputy Commissioner of the Governor's Office of Economic Development, and representatives of US West and AT&T. It truly was a team effort.

Early this summer Mayor Rich and other leading citizens informed me of their goal to upgrade Aberdeen's analog switch to digital technology. When digital switching is the first subject a mayor discusses with his U.S. Senator, we know the world is changing. Why was this important to the people of Aberdeen? The reason is simple: they recognized this technological change is vital for economic development. At the dawn of our country, the boom towns were those along the coast or a major river. And not long ago, proximity to major interstate highways determined whether a community would expand or contract. Soon, access to the information superhighway will determine a community's long term economic fate.

We are at the dawn of a new technological age. It seems that every time we pick up a newspaper or turn on a television, we learn of yet another exciting telecommunications breakthrough. The Nation awaits the coming of an age when information can be sent to any person, at any place, and at any time. Families ponder the ominous and exciting possibilities of 500 television channels. Those young in age and young at heart look forward to playing interactive computer games with friends and family thousands of miles away.

Policymakers await the implications. As a member of the Senate Commerce, Science and Transportation Committee, I will work to ensure that the benefits of advanced telecommunications are shared by all Americans. The challenge of policy makers is not favoring particular technologies. Rather, we must make sure technology is universally shared. We must make sure communities have the opportunity to progress with the changing times.

The Commerce Committee currently is considering legislation designed to

stimulate investment in telecommunications networks by encouraging competition. I favor competition where it can work. However, everyone predicts that competition would bring new services to major metropolitan markets long before these services reach small cities and towns. Why? Part of the reason is that technology is far outpacing the ability of competition to carry it to every corner of the Nation. Without initiative from community leaders and Federal, State and local officials, a two-tiered telecommunications world of haves and have nots would be created. That must not happen. We cannot leave small communities behind.

We must combine competition with grassroots initiative. That may be easier said than done. The prospect of technological change has touched off an unprecedented multibillion dollar media merger mania. Recently, we have learned of a proposed \$33 billion merger of Bell Atlantic with TCI—a move that prompted the Senate Judiciary Committee, on which I also serve, to hold hearings on the impact of these media mergers. Clearly, the battle is for the larger markets. The citizens of South Dakota will not benefit significantly from these mergers, if all they bring is 500 channels of television. The information age should promise much more than this.

The proposed information superhighway could be the artery of future economic development. Communities like Aberdeen have a great deal to offer in terms of quality of life. Many more people would choose to live there if they could be assured of a good job. The Aberdeen community knows advanced telecommunications capabilities are essential for attracting and securing economic opportunities. Their new switch promises precisely such opportunities. It will attract new business. It will enable existing business to expand. It will provide their on-ramp to the information superhighway.

Aberdeen's digital switch will be equipped to provide Signaling System Seven [SS7] and Integrated Services Digital Network [ISDN]. SS7 is a network architecture feature that permits network signaling to be done out of band. This means signaling information can be transmitted separately from voice and data traffic. SS7 is a building block for advanced services. Services like ISDN, which provide two data channels and one voice channel that can be used simultaneously, are already known. Other new services are yet to be developed.

I cannot stress enough the importance of community action. US West did not realize there was demand for video conferencing before Aberdeen began surveying its potential communications needs. Previously, only a Fortune 500 company could afford video conferencing. With digital switching, small- and medium-sized companies

will have access to video conferencing on a dial-up basis. Switched high-speed data services also will be available for small- and medium-sized companies that cannot afford private lines. US West and AT&T have pledged to work with the Aberdeen community to identify additional services the new switch can provide. The lesson for communities like Aberdeen is clear: Community action can have positive results.

Once a community has the technology, future possibilities are limited only by our imaginations. Nonetheless, Aberdeen's first digital switch is merely the beginning. Whether digital services become widely available in northeast and north central South Dakota will depend on the continued efforts of citizens, policymakers and telecommunications providers. The city of Aberdeen proved it can be done. Cities and towns like Aberdeen can and should participate in the vast telecommunications developments that await us. I stand ready to work with South Dakotans, my colleagues, and all Americans to ensure no one is left behind. They must not be left behind. Citizens of small cities, towns and rural areas deserve to be in the driver's seat and on the fast lane in tomorrow's information highway.

HOW THE HEALTH SECURITY ACT BENEFITS OUR NATION'S VETERANS

Mr. DASCHLE. Mr. President, as Veterans Day approaches, many of us will be reflecting on the debt we owe to veterans across the Nation, those citizens who risked their lives to further the goals of democracy and freedom around the world.

As we engage in this collective reflection, let us remember that one of the most important ways we can show our appreciation to these men and women is to give them something far too few of them have now—health security.

For this holiday should not only remind us of the terrible costs of war, but of the pain that lingers afterward. Long after the battle is fought, we must deal with one of war's most tragic consequences—the pain and suffering that comes from sustained illness or injury.

Unfortunately, I fear that we have failed to fulfill our promise to ease the pain of our veterans, to ensure that they will have health care that is always there.

While our VA system makes an outstanding contribution to our Nation's health care, it is pressured by far too many financial and bureaucratic obstacles that must be surmounted in order for those who use the system to experience the feeling of security that veterans, indeed all citizens, of other western nations take for granted.

It has been a long, hard battle for those of us who have been fighting to

ensure that all veterans have the kind of health security they so richly deserve. But there really is a light at the end of this tunnel, and that light is health reform.

Reform brings with it a means of resolving the major issues that now confront the VA, issues whose resolution is long overdue.

WHAT THE PRESIDENT'S PLAN DOES FOR VETERANS

Finally we have a President whose commitment to health reform has caught up with the public's demand for it. President Clinton recently presented to the Congress the Health Security Act, a plan that guarantees health security—health care that is always there—for every American, especially our Nation's veterans.

The plan is designed to preserve the important contributions of the VA to the Nation's health care system, while offering solutions to the problems the VA currently faces. It maintains and enhances the benefits veterans receive by preserving free health care for those veterans with service-connected disabilities or low incomes, and providing all veterans with choices that they have not had before.

This represents the best of all possible worlds for veterans.

Under the reform plan, the VA will become a viable health care choice for millions of veterans who, today, are unable to access the VA system. Every veteran will have the right to enroll in a VA plan, while major new resources will be made available to provide more comprehensive services. At the same time, veterans will be allowed to choose any of the health plans available to other Americans, with the added option of joining health plans specifically designed for veterans.

Specifically, the VA may organize its facilities into health plans, or they may serve as providers contracting with other plans or providers. And all health plans, including VA plans, will be required to provide the comprehensive benefits package guaranteed by the Health Security Act. These benefits include full coverage of hospital care, preventive services, prescription drugs, rehabilitation services, durable medical equipment, hospice, home health, and extended care services.

In addition, the VA health plans will offer specialized services such as treatment for posttraumatic stress disorders and other services that are available under the current VA medical system.

Finally, VA facilities will be able to provide services on a reimbursable basis to veterans who are members of other health plans and to higher income, non-service-connected veterans with Medicare coverage.

Under such a plan, the VA system can be a national model for successful integration of the continuum of care, from outpatient to acute hospital to

long-term services. And a fiscally sound system ensures that the VA can continue its support of research in basic science and clinical applications and its role in training tens of thousands of health care professionals.

Veterans Affairs Secretary Jesse Brown, in a recent visit to my home State of South Dakota stated that veterans will be "1,000 percent" better off under this plan.

Is this hyperbole? Maybe. But even if he's only half right, we will have come a very long way.

Unfortunately, none of the other major health plans introduced to date address the VA health system's problems in such a comprehensive fashion as the Health Security Act. In fact, the plan authored by Senator CHAFEE and the Cooper/Breaux bill barely mention this important component of our health care system.

As a consequence of the attention the President's proposal gives to VA health care, the major associations representing veterans have endorsed the Health Security Act's approach to veterans' health care. These organizations include the American Gold Star Mothers, The American Legion, AMVETS, American Ex-Prisoners of War, the Blinded Veterans Association, Catholic War Veterans, Disabled American Ex-Prisoners of War, the Blinded Veterans Association, Catholic War Veterans, Disabled American Veterans, Legion of Valor, the Military Order of Purple Heart, the Noncommissioned Officers Association, Paralyzed Veterans of America, Veterans of Foreign Wars, Vietnam Veterans of America, and the Polish Legion of American Veterans, USA.

Let me quote from some of their letters:

The Paralyzed Veterans of America wrote to Mrs. Clinton:

Beyond the VA initiative, your efforts in health care reform offer, for the first time, a substantial new program of long term care and assistive services offering new hope for millions of Americans with disabilities. Your efforts afford new prospects for those Americans who have experienced catastrophic disability for a more dignified and cost-effective alternative to institutional care.

The Vietnam Veterans of America wrote to Mrs. Clinton:

This letter is intended to express the sincere appreciation of my organization for your inclusiveness and openness in responding to the concerns of the organized veterans community on health care issues throughout your work in crafting a comprehensive health plan for the nation. The veterans community provided you with its preferences and you delivered.***

The American Legion added:

Clearly, you and the members of the health care task force took our concerns seriously, and we are most appreciative of the efforts each of you made to ensure that veterans will be treated with equity and dignity.

Finally, the Veterans of Foreign Wars wrote to Mrs. Clinton:

We are particularly appreciative that you have solicited our views, and the views of our fellow veterans service organizations, throughout the process. We believe the health reform concept proposed by the Administration is a good one. Further, we believe the role assigned the VA health care system under this plan is good for America and in the best interest of veterans. We are pleased to offer our support.

Only the Health Security Act has received such a warm welcome from our veterans organizations.

CONCLUSION

"To care for him who shall have borne the battle and for his widow and his orphan." Those words, spoken by Abraham Lincoln in 1865, appear at the entrance to the VA's central headquarters in Washington. It is my hope and my belief that enactment of comprehensive health reform will help fulfill that promise to our Nation's veterans.

As we consider alternative health reform plans, we must not allow the VA system to be an afterthought of the debate. Our Nation's veterans deserve more than that.

They deserve a future secure in the understanding that they will always have comprehensive health coverage. Benefits that can never be taken away. Health care that is always there.

I ask unanimous consent that the letters from veterans organizations appear in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

PARALYZED VETERANS OF AMERICA,
Washington, DC, September 22, 1993.

Mrs. HILLARY RODHAM CLINTON,
The White House, Washington, DC.

DEAR MRS. CLINTON: On behalf of the members and officers of the Paralyzed Veterans of America (PVA), I want to thank you and commend you and all the individuals involved with the "American Health Security Act of 1993," to secure health-care reform for all Americans. As a veterans' service organization chartered by Congress with the mission of ensuring that the needs of veterans who have experienced catastrophic spinal cord injury or dysfunction are met, we applaud and support your efforts to secure appropriate, affordable health care for all Americans.

I want to extend PVA's appreciation for the time you spent this past Saturday, September 18, briefing us on the outlines of the proposal and listening to our concerns. As you advised, we are working with the Secretary of Veterans Affairs, Jesse Brown, to clarify those issues which remain a concern to our members and we have conveyed those issues to the Secretary in a separate letter.

PVA is extremely pleased that the plan, as outlined, provides for a national, independent veterans health care system. And, we support your initiative to incorporate additional resources such as Medicare funding into the income stream available for veterans' health care.

Beyond the VA initiative, your efforts in health care reform offer, for the first time a substantial new program of long term care and assistive services offering new hope for millions of American with disabilities. Your efforts afford new prospects for those Ameri-

cans who have experienced catastrophic disability for a more dignified and cost-effective alternative to institutional care.

PVA supports the concept of your program and we look forward to working with the Administration and the Congress, to bring about this much needed change. We thank you and all involved in this endeavor.

Respectfully,

GORDON H. MANSFIELD,
Executive Director.

VIETNAM VETERANS OF AMERICA, INC.,
Washington, DC, September 20, 1993.

HON. HILLARY RODHAM CLINTON,
The First Lady,
Old Executive Office Building, Washington, DC.

DEAR MRS. CLINTON: This letter is intended to express the sincere appreciation of my organization. Vietnam Veterans of America (VVA), for your inclusiveness and openness in responding to the concerns of the organized veterans community on health care issues throughout your work in crafting a comprehensive health plan for the nation. The veterans community provided you with its preferences and you delivered by sustaining VA's health operations as an independent entity within the overall national health plan.

It is gratifying to note that the extraordinary hospitality you and the President have shown the veterans organizations is without parallel in recent memory. In this connection, it is hoped the demonstration of hubris by a representative of one of the veterans groups at last Saturday's meeting is not mistaken for a representation of ingratitude by all of the veterans groups.

Mrs. Clinton, even without having reviewed the important details of your plan, you may feel free to assume with considerable confidence that VVA is prepared to place the full weight of its advocacy efforts on Capitol Hill behind your plan. It may also interest you to know that unlike most of the other veterans groups, the availability of choices for VA-dependent veterans in selecting health providers, as your plan makes possible for the first time, is even more important to VVA than the maintenance alone of an independent VA health system.

Under the circumstances, our involvement in the legislative effort to achieve national health will be focused not only on VA, but instead on the overall program. This is because we are convinced that the better the program for the nation as a whole, the better the choices for veterans. The only difference we have with you on this program has more to do with assumptions than with substance. We have less confidence than perhaps you have in how successful VA will be in becoming user-friendly and therefore competitive in attracting paying subscribers to VA health facilities. What we are certain of however, is that VA health cannot survive in a national health environment absent your program for veterans.

As the battle lines begin to take shape in this titanic struggle to achieve national health, we look forward to playing a role in supporting both you and the President. It should be added here that the reach of our efforts will extend well beyond the Veterans Affairs Committees. It is indeed ironic that Vietnam veterans have never enjoyed the privilege of being able to rely on the Veterans Affairs Committees alone.

Sincerely,

PAUL S. EGAN,
Executive Director.

VETERANS OF FOREIGN WARS
OF THE UNITED STATES,

Washington, DC, September 22, 1993.

HILLARY RODHAM CLINTON,
The White House, Washington, DC.

DEAR MRS. CLINTON: On behalf of the Veterans of Foreign Wars of the United States I would like to thank you for your efforts in working to reward health care reform. We are particularly appreciative that you have solicited our views, and the views of our fellow veterans service organizations, throughout the process. We believe the health care reform concept proposed by the Administration is a good one. Further, we believe the role assigned the VA health care system under this plan is good for America and in the best interest of veterans. We are pleased to offer our support.

I would also like to commend Secretary of Veterans Affairs, Jesse Brown. On this issue, as with many others, he has encouraged veterans to become part of the process thereby ensuring our concerns are addressed and voices heard.

As the health care debate begins the VFW looks forward to continued dialogue with both the Administration and Congress. Tough and difficult battles lie ahead. We are preparing for future battles confident that we will ultimately succeed.

Sincerely,

GEORGE R. CRAMER,
Commander in Chief.

MILITARY ORDER OF PURPLE
HEART OF THE USA,

Springfield, VA, September 21, 1993.

HILLARY RODHAM CLINTON,
The White House, 1600 Pennsylvania Avenue,
Washington, DC.

DEAR MRS. CLINTON: It gives me a great deal of pleasure to inform you that the Military Order of the Purple Heart of the USA, an organization of combat wounded veterans, endorses the VA Participation in the National Health Plan as outlined by Secretary Brown in a recent briefing to the Veterans Service Organizations. We hope that the Secretary's plan will be adopted as part of the National Health Plan.

Sincerely,

MICHAEL D. TOMSEY,
National Commander.

AMERICAN LEGION,
NATIONAL HEADQUARTERS,
Indianapolis, IN, September 21, 1993.

Mrs. HILLARY RODHAM CLINTON,
The White House,
Washington, DC.

DEAR MRS. CLINTON: Thank you for inviting our staff to participate in the informative briefing on September 18, about how veterans will be affected by the administration's Health Security Act.

The American Legion's Veterans Planning and Coordinating Committee has been discussing this issue for more than 2 years. The recommendations of the VPCC were endorsed by the Legion's National Executive Committee in May 1992, and our plan was published late last year.

From the beginning of your deliberations on a national health care plan we were concerned not so much with what veterans could get out of any change in the delivery of health care nationally, but with the prospect that veterans might be left out of the overall mix of delivery schemes. On several occasions in the past 8 months we have shared our concerns with Secretary Jesse Brown and with you. Clearly, you and the members of the health care task force took our con-

cerns seriously, and we are most appreciative of the efforts each of you made to ensure that veterans will be treated with equity and dignity.

While we do not know the final shape of the Health Security Act, we stand ready to fight to protect the benefits that have been described to us by you and Secretary Brown, and to use the power we have to let members of Congress know how we feel.

The American Legion will not stand by and let VA suffer from the status quo. We are well aware of the importance of the inclusion of VA health care in a national health program, if the system designed for veterans is to survive.

Sincerely,

BRUCE THIESEN,
National Commander.

DISABLED AMERICAN VETERANS,
Washington, DC, September 20, 1993.

First Lady HILLARY RODHAM CLINTON,
The White House,
Washington, DC.

DEAR MS. CLINTON: I am writing to extend the most genuine appreciation and gratitude of the Disabled American Veterans for your taking the time out of what must be a most hectic schedule to meet with the Veterans' Service Organizations this past Saturday to apprise us of the role identified for the Department of Veterans Affairs (VA) in the quest to make meaningful health care reform a reality for the citizens of our nation.

At the conclusion of the meeting, there were, I believe, three salient points that emerged. First, was the President's deep, personal feelings and commitment to the importance of maintaining and preserving an independent, quality VA health care system whose primary mission will continue to be the treatment of disabled veterans. The DAV agrees this is how it should be.

Secondly, and what we view to be the most central feature of the reform package, is the assurance that veterans now utilizing the VA for their health care needs will not experience a diminution of services. In fact, many veterans will experience an increase in the scope of benefits provided by VA.

Finally, we embrace the concept of securing reimbursement for the care provided certain veterans from Medicare. We agree with you that this is most central to the continued stability of the VA in the years to come.

In summation, Mrs. Clinton, the DAV supports and endorses the role identified for the VA in the Administration's Health Care Reform Plan.

Sincerely,

ARTHUR H. WILSON,
Executive Director,
Washington Headquarters.

AMVETS,
Lanham, MD, September 20, 1993.

Mrs. HILLARY RODHAM CLINTON,
The White House,
Washington, DC.

DEAR MRS. CLINTON: I am writing to express AMVETS' appreciation for your personal involvement to reform the VA medical system and to make it a leading force in national health care.

The plan, as presented at our meeting with you on Saturday, September 18 accomplishes much of what AMVETS has proposed to reform the VA system. AMVETS is confident that relatively small changes will provide greater incentive for the higher income, non service-connected veteran to participate. With the addition of a plan to provide long term care in the basic benefits package, VA

will become a system veterans will use increasingly and take pride in.

We urge a continuing dialogue between the administration and veterans organizations so that we may assist with the details and support the plan in Congress.

Mrs. Clinton, thank you once again for your service to America's veterans. AMVETS looks forward to working with you on this most important issue.

Sincerely,

JAMES J. KENNEY,
Transition National
Executive Director.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nominations:

Calendar 481. Richard H. Stallings, to be Nuclear Waste Negotiator;

Calendar 507. Jonathan Z. Cannon, to be Chief Financial Officer, Environmental Protection Agency;

Calendar 508. Robert T. Watson, to be an Associate Director of the Office of Science and Technology Policy;

Calendar 509. Jane M. Wales, to be an Associate Director of the Office of Science and Technology Policy;

Calendar 510. Mary Rita Cooke Greenwood, to be an Associate Director of the Office of Science and Technology Policy; and

Calendar 511. Those officers named to be rear admiral (lower half) in the U.S. Coast Guard.

I further ask unanimous consent that the nominees be confirmed, en bloc, that any statements appear in the RECORD as if read, that upon confirmation, the motions to reconsider be laid upon the table, en bloc, that the President be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed, en bloc, are as follows:

OFFICE OF THE NUCLEAR WASTE NEGOTIATOR

Richard H. Stallings, of Idaho, to be Nuclear Waste Negotiator.

ENVIRONMENTAL PROTECTION AGENCY

Jonathan Z. Cannon, of Virginia, to be Chief Financial Officer, Environmental Protection Agency.

EXECUTIVE OFFICE OF THE PRESIDENT

Robert T. Watson, of Virginia, to be an Associate Director of the Office of Science and Technology Policy.

Jane M. Wales, of New York, to be an Associate Director of the Office of Science and Technology Policy.

Mary Rita Cooke Greenwood, of California, to be an Associate Director of the Office of Science and Technology Policy.

IN THE COAST GUARD

The following officers of the United States Coast Guard for appointment to the grade of rear admiral (lower half):

Douglas H. Teeson, II.

Robert C. North.

Edward J. Barrett.
Timothy W. Josiah.

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the following nomination reported today by the Committee on Energy and Natural Resources: Martha Anne Krebs, to be Director of the Office of Energy Research, Department of Energy.

I further ask unanimous consent that the nominee be confirmed, that any statements appear in the RECORD as if read, that the motion to reconsider be laid upon the table, that the President be immediately notified of the Senate's action, and that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination was considered and confirmed, as follows:

DEPARTMENT OF ENERGY

Martha Anne Krebs, to be Director of the Office of Energy Research.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Edwin R. Thomas, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT ON THE NATIONAL EMERGENCY WITH IRAN—MESSAGE FROM THE PRESIDENT—PM 70

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs.

To the Congress of the United States:

I hereby report to the Congress on developments since the last Presidential report on May 14, 1993, concerning the national emergency with respect to Iran that was declared in Executive Order No. 12170 of November 14, 1979, and matters relating to Executive Order No. 12613 of October 29, 1987. This report is submitted pursuant to section 204(c) of the International Emergency

Economic Powers Act, 50 U.S.C. 1703(c), and section 505(c) of the International Security and Development Cooperation Act of 1985, 22 U.S.C. 2349aa-9(c). This report covers events through October 1, 1993. The last report, dated May 14, 1993, covered events through March 31, 1993.

1. There have been no amendments to the Iranian Transactions Regulations, 31 CFR Part 560, or to the Iranian Assets Control Regulations, 31 CFR Part 535, since the last report.

2. The Office of Foreign Assets Control (FAC) of the Department of the Treasury continues to process applications for import licenses under the Iranian Transactions Regulations.

During the reporting period, the U.S. Customs Service has continued to effect numerous seizures of Iranian-origin merchandise, primarily carpets, for violation of the import prohibitions of the Iranian Transactions Regulations. Office of Foreign Assets Control and Customs Service investigations of these violations have resulted in forfeiture actions and the imposition of civil monetary penalties. Additional forfeiture and civil penalty actions are under review.

3. The Iran-United States Claims Tribunal (the "Tribunal"), established at The Hague pursuant to the Algiers Accords, continues to make progress in arbitrating the claims before it. Since my last report, the Tribunal has rendered two awards, both in favor of U.S. claimants. Including these decisions, the total number of awards has reached 547, of which 369 have been awards in favor of American claimants. Two hundred twenty-two of these were awards on agreed terms, authorizing and approving payment of settlements negotiated by the parties, and 147 were decisions adjudicated on the merits. The Tribunal has issued 36 decisions dismissing claims on the merits and 83 decisions dismissing claims for jurisdictional reasons. Of the 59 remaining awards, 3 approved the withdrawal of cases and 56 were in favor of Iranian claimants. As of September 30, 1993, the value of awards to successful American claimants from the Security Account held by the NV Settlement Bank stood at \$2,351,986,709.40.

The Security Account has fallen below the required balance of \$500 million almost 50 times. Iran has periodically replenished the account, as required by the Algiers Accords, by transferring funds from the separate account held by the NV Settlement Bank in which interest on the Security Account is deposited. The aggregate amount that has been transferred from the Interest Account to the Security Account is \$874,472,986.47. Iran has also replenished the account with the proceeds from the sale of Iranian-origin oil imported into the United States, pursuant to transactions licensed on a case-by-case basis by FAC. Iran has

not, however, replenished the account since the last oil sale deposit on October 8, 1992, although the balance fell below \$500 million on November 5, 1992. As of September 28, 1993, the total amount in the Security Account was \$213,507,574.15 and the total amount in the Interest Account was \$5,647,476.98.

Iran also failed to make scheduled payments for Tribunal expenses on April 13 and July 15, 1993. The United States filed a new case (designated A/28) before the Tribunal on September 29, 1993, asking that the Tribunal order Iran to make its payment for Tribunal expenses and to replenish the Security Account.

4. The Department of State continues to present other United States Government claims against Iran, in coordination with concerned Government agencies, and to respond to claims brought against the United States by Iran. In June and August of this year, the United States filed 2 briefs and more than 350 volumes of supporting evidence in Case B/1 (claims 1 and 2), Iran's claim against the United States for damages relating to the U.S. Foreign Military Sales Program. On September 29, the United States submitted a brief for filing in all three Chambers of the Tribunal concerning the Tribunal's jurisdiction over the claims of dual nationals who have demonstrated dominant and effective U.S. nationality. In addition, the Tribunal issued an order accepting the U.S. view that Iran has to support all aspects of its claim in Case A/11, in which Iran claims the United States has breached its obligations under the Algiers Accords, rather than to ask the Tribunal to first decide "interpretative issues" separate from the merits of its case. In another case, the Tribunal declined Iran's request that it stay a case against Iran in U.S. courts for an alleged post-January 1981 expropriation, where the plaintiffs' case at the Tribunal had been dismissed.

5. As reported in November 1992, Jose Maria Ruda, President of the Tribunal, tendered his resignation on October 2, 1992. No successor has yet been named. Judge Ruda's resignation will take effect as soon as a successor becomes available to take up his duties.

6. As anticipated by the May 13, 1990, agreement settling the claims of U.S. nationals for less than \$250,000.00, the Foreign Claims Settlement Commissions (FCSC) has continued its review of 3,112 claims. The FCSC has issued decisions in 1,568 claims, for total awards of more than \$28 million. The FCSC expects to complete its adjudication of the remaining claims in early 1994.

7. The situation reviewed above continues to implicate important diplomatic, financial, and legal interests of the United States and its nationals and presents an unusual challenge to the national security and foreign policy of the United States. The Iranian Assets

Control Regulations issued pursuant to Executive Order No. 12170 continue to play an important role in structuring our relationship with Iran and in enabling the United States to implement properly the Algiers Accords. Similarly, the Iranian Transactions Regulations issued pursuant to Executive Order No. 12613 continue to advance important objectives in combatting international terrorism. I shall continue to exercise the powers at my disposal to deal with these problems and will continue to report periodically to the Congress on significant developments.

WILLIAM J. CLINTON.
THE WHITE HOUSE, November 10, 1993.

MESSAGES FROM THE HOUSE

At 10:12 a.m., a message from the House of Representatives, delivered by Mr. Dendy, one of its clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3116) making appropriations for the Department of Defense for the fiscal year ending September 30, 1994, and for other purposes.

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 1036. An Act to amend the Employee Retirement Income Security Act of 1974 to provide that such Act does not preempt certain State laws.

The message further announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 170. A concurrent resolution directing the President pursuant to section 5(c) of the War Powers Resolution to remove United States Armed Forces from Somalia.

At 12:13 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House had agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 178. A concurrent resolution providing for an adjournment of the House from Wednesday, November 10, 1993 to Monday, November 15, 1993 and an adjournment or recess of the Senate from Wednesday, November 10, 1993 to Tuesday, November 16, 1993.

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3276. An Act to make technical corrections to title 23, United States Code, the Federal Transit Act, and the Intermodal Surface Transportation Efficiency Act of 1991, and for other purposes.

ENROLLED BILLS SIGNED

At 5:36 p.m., a message from the House of Representatives, delivered by

Mr. Hays, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 2520. An Act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1994, and for other purposes.

The enrolled bill was subsequently signed by the President pro tempore (Mr. BYRD).

At 6:27 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following joint resolution, without amendment:

S.J. Res. 131. A joint resolution designating the week beginning November 14, 1993, and the week beginning November 13, 1994, each as "Geography Awareness Week."

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3436. An Act to amend the Food Stamp Act of 1977 to ensure adequate access to retail food stores by recipients of food stamps and to maintain the integrity of the Food Stamp Program.

ENROLLED JOINT RESOLUTION SIGNED

At 6:42 p.m. a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the Speaker has signed the following joint resolution:

S.J. Res. 131. Joint Resolution designating the week beginning November 14, 1993, and the week beginning November 13, 1994, each as "Geography Awareness Week."

The enrolled joint resolution was subsequently signed by the President pro tempore (Mr. BYRD).

ENROLLED BILL SIGNED

A message from the House of Representatives, announced that the Speaker has signed the following enrolled bill:

H.R. 3116. An Act making appropriations for the Department of Defense for the fiscal year ending September 30, 1994, and for other purposes.

The enrolled bill was subsequently signed by the President pro tempore (Mr. BYRD).

MEASURES REFERRED

The following measure was read the first and second times by unanimous consent, and referred as indicated:

H.R. 1036. An Act to amend the Employee Retirement Income Security Act of 1974 to provide that such Act does not preempt certain State laws; to the Committee on Labor and Human Resources.

H.R. 3276. An Act to make technical corrections to title 23, United States Code, the Federal Transit Act, and the Intermodal Surface Transportation Efficiency Act of 1991, and for other purposes; to the Committee on Environment and Public Works.

H.R. 3436. An Act to amend the Food Stamp Act of 1977 to ensure adequate access to retail food stores by recipients of food stamps and to maintain the integrity of the Food Stamp Program; to the Committee on Agriculture, Nutrition and Forestry.

The following measure, previously received from the House of Representatives, was read, and referred as indicated:

H. Con. Res. 170. A concurrent resolution directing the President pursuant to section 5(c) of the War Powers Resolution to remove United States Armed Forces from Somalia; to the Committee on Foreign Relations.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-1740. A communication from the Comptroller General of the United States, transmitting, pursuant to law, a report of deferrals of budget authority in the General Services Administration building programs; referred jointly, pursuant to the order of January 30, 1975, as modified by the order of April 11, 1986, to the Committee on Appropriations, to the Committee on the Budget, and to the Committee on Environment and Public Works.

EC-1741. A communication from the Under Secretary of Defense (Acquisition), transmitting, pursuant to law, a report relative to contracts awarded in support of Saudi Arabian Armed Forces; to the Committee on Armed Services.

EC-1742. A communication from the Director of the Congressional Budget Office, transmitting, pursuant to law, a report evaluating the costs of expanding the CHAMPUS Reform Initiative into Washington and Oregon; to the Committee on Armed Services.

EC-1743. A communication from the Acting Administrator of the Farmers' Home Administration, transmitting, pursuant to law, a report on the FmHA Housing Demonstration program for fiscal year 1993; to the Committee on Banking, Housing, and Urban Affairs.

EC-1744. A communication from the Assistant Legal Adviser (Treaty Affairs), Department of State, transmitting, pursuant to law, a report of the texts of international agreements and background statements; to the Committee on Foreign Relations.

EC-1745. A communication from the Secretary of Energy, transmitting, pursuant to law, a report on the status of Exxon and Stripper Well oil overcharge funds; to the Committee on Energy and Natural Resources.

EC-1746. A communication from the Secretary of Education, transmitting, pursuant to law, notice of final regulations for the Talent Search Program; to the Committee on Labor and Human Resources.

EC-1747. A communication from the Secretary of Education, transmitting, pursuant to law, a report on the implementation of the Individuals with Disabilities Education Act; to the Committee on Labor and Human Resources.

EC-1748. A communication from the Treasurer of the Army and Air Force Exchange Service, transmitting, pursuant to law, report of the retirement annuity plan; to the Committee on Governmental Affairs.

EC-1749. A communication from the Chairman of the Thrift Depositor Protection Oversight Board, transmitting, pursuant to law,

the report of the Office of Inspector General for the period for fiscal year 1993; to the Committee on Governmental Affairs.

EC-1750. A communication from the Office of the District of Columbia Auditor, transmitting, pursuant to law, a report of the analysis of the District of Columbia water and sewer utility administration's commercial and residential accounts receivable; to the Committee on Governmental Affairs.

EC-1751. A communication from the Office of the District of Columbia Auditor, transmitting, pursuant to law, a report of the review of the University of the District of Columbia President's Representation Fund for fiscal years 1990, 1991 and 1992; to the Committee on Governmental Affairs.

EC-1752. A communication from the Office of the District of Columbia Auditor, transmitting, pursuant to law, a report of the comparative analysis of the structure of the District of Columbia Water and Sewer Enterprise Fund; to the Committee on Governmental Affairs.

REPORTS OF COMMITTEES

The following report of committee was submitted:

By Mr. BYRD, from the Committee on Appropriations:

Special Report entitled "Further Revised Allocation to Subcommittees of Budget Totals From the Concurrent Resolution for Fiscal Year 1994" (Rept. No. 103-175).

By Mr. BAUCUS, from the Committee on Environment and Public Works, with an amendment in the nature of a substitute:

S. 657. A bill to reauthorize the Indoor Radon Abatement Act of 1988, and for other purposes (Rept. No. 103-176).

By Mr. RIEGLE, from the Committee on Banking, Housing, and Urban Affairs, with amendments:

S. 423. A bill to provide for recovery of costs of supervision and regulation of investment advisors and their activities, and for other purposes (Rept. No. 103-177).

By Mr. FORD, from the Committee on Rules and Administration, with an amendment in the nature of a substitute and an amendment to the title:

S. 716. A bill to require that all Federal lithographic printing be performed using ink made from vegetable oil, and for other purposes (Rept. No. 103-178).

By Mr. KENNEDY, from the Committee on Labor and Human Resources, with an amendment in the nature of a substitute:

S. 1361. A bill to establish a national framework for the development of School-to-Work Opportunities systems in all States, and for other purposes (Rept. No. 103-179).

By Mr. KENNEDY, from the Committee on Labor and Human Resources, with an amendment in the nature of a substitute:

S. 1125. A bill to help local school systems achieve Goal Six of the National Education Goals, which provides that by the year 2000, every school in America will be free of drugs and violence and will offer a disciplined environment conducive to learning, by ensuring that all schools are safe and free of violence (Rept. No. 103-180).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. JOHNSTON, from the Committee on Energy and Natural Resources:

Martha Anne Krebs, of California, to be Director of the Office of Energy Research, Department of Energy.

By Mr. NUNN, from the Committee on Armed Services:

Henry Allen Holmes, of the District of Columbia, to be an Assistant Secretary of Defense;

R. Noel Longuemare, Jr., of Maryland, to be Deputy Under Secretary of Defense for Acquisition; and

Gilbert F. Casellas, of Pennsylvania, to be General Counsel of the Department of the Air Force.

(The above nominations were reported with the recommendation that they be confirmed, subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

By Mr. KENNEDY, from the Committee on Labor and Human Resources:

Harold Varnus, of California, to be Director of the National Institutes of Health.

(The above nomination was reported with the recommendation that he be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. BINGAMAN:

S. 1647. A bill to provide a fair process, with maximum opportunity for public comment, that will help eradicate from this Nation those weapons for which no legitimate purpose exists and which are so lethal that they constitute an unreasonable risk to law enforcement and the public at large, while at the same time ensuring that the law-abiding public has full access to firearms created for legitimate purposes, including firearms intended for hunting and recreational use; to the Committee on the Judiciary.

By Mr. GLENN (for himself, Mr. INOUE, and Mr. D'AMATO):

S. 1648. A bill to direct the Secretary of Transportation to demonstrate on vessels ballast water management technologies and practices, including vessel modification and design, that will prevent aquatic nonindigenous species from being introduced and spread in the Great Lakes and other United States waters, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. WELLSTONE:

S. 1649. A bill to amend title 38, United States Code, to make improvements in the procedures used by the Department of Veterans' Affairs in adjudicating claims for veterans' benefits, and for other purposes; to the Committee on Veterans Affairs.

By Mr. WARNER:

S. 1650. A bill to designate the United States Courthouse for the Eastern District of Virginia in Alexandria, Virginia, as the Albert V. Bryan United States Courthouse; to the Committee on Environment and Public Works.

By Mr. D'AMATO (for himself and Mr. FAIRCLOTH):

S. 1651. A bill to authorize the minting of coins to commemorate the 200th anniversary of the founding of the United States Military Academy at West Point, New York; to the

Committee on Banking, Housing, and Urban Affairs.

By Mr. BENNETT:

S. 1652. A bill to amend the National Trails System Act to designate the Great Western Trail for potential addition to the National Trails System, and for other purposes; to the Committee on Energy and Natural Resources.

S. 1653. A bill for the relief of The Triax Company, a Utah corporation; to the Committee on the Judiciary.

By Mr. INOUE:

S. 1654. A bill to make certain technical corrections; to the Committee on Indian Affairs.

By Mr. JEFFORDS:

S. 1655. A bill to reform certain statutes regarding civil asset forfeiture; to the Committee on the Judiciary.

By Mr. BENNETT (for himself and Mr. SIMON):

S. 1656. A bill to amend chapter 44 of title 18, United States Code, to strengthen Federal standards for licensing firearms dealers and heighten reporting requirements, and for other purposes; to the Committee on the Judiciary.

By Mr. DOLE (for Mr. SPECTER):

S. 1657. A bill to reform habeas corpus procedures.

By Mr. HATCH (for himself and Mr. THURMOND):

S. 1658. A bill to establish safe harbors from the application of the antitrust laws for certain activities of providers of health care services, and for other purposes; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. PRYOR (for himself, Mr. BUMPERS, Mr. LIEBERMAN, Mr. BOREN, and Mr. HOLLINGS):

S. Res. 163. A resolution to express the sense of the Senate regarding positive consideration of crime fighting activities by financial institutions under the Community Reinvestment Act of 1977; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. MOYNIHAN (for himself, Mr. KENNEDY, Mr. D'AMATO, Mr. LAUTENBERG, Mr. HATCH, and Mr. GRASSLEY):

S. Res. 164. A resolution expressing the sense of the Senate commemorating the bombing of Pan Am Flight 103; to the Committee on the Judiciary.

STATEMENT ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BINGAMAN:

S. 1647. A bill to provide a fair process, with maximum opportunity for public comment, that will help eradicate from this Nation those weapons for which no legitimate purpose exists and which are so lethal that they constitute an unreasonable risk to law enforcement and the public at large, while at the same time ensuring that the law-abiding public has full access to firearms created for legitimate purposes, including firearms intended for hunting and recreational use; to the Committee on the Judiciary.

FIREARMS LEGISLATION

Mr. BINGAMAN. Mr. President, I first congratulate the Senator from California and the Senator from Michigan for their very serious and credible effort to deal with the problems of semiautomatic assault weapons. I share their concern over the proliferation of those weapons throughout our country.

However, I have concern about the way the amendment was crafted. It would legislate an extensive list of prohibited weapons and another even more extensive list of acceptable weapons. I believe that making these determinations requires substantial expertise, as technology rapidly changes and new technologies and new weapons are introduced. I do not believe that Congress is well-equipped to make these expert determinations or to do so on the ongoing basis that is required, because new weapons are coming onto the market at all times.

I have expressed these concerns to the Senator from California, and because of those concerns, I voted to table the Senator's amendment.

A preferable alternative, in my view, would be to authorize the Attorney General to make rules in this area under the Administrative Procedures Act. These rules would be made only after receiving recommendations from a standing commission on semiautomatic assault weapons that would be established to investigate the danger posed by particular weapons and to recommend, based upon that investigation, the proper restrictions to be imposed upon weapons sale and distribution. Any such regulations would not then become effective until Congress had had a chance to override the Attorney General's rule.

Mr. President, today I rise to introduce legislation incorporating that basic idea. Although the procedural situation in the Senate does not make it possible for me to offer this as an amendment to the pending measure at this time, I hope that it can be considered in the coming days, and I encourage my colleagues to review the bill.

The job of the Congress should be to set general policy. When we get into legislating very specific provisions about brands and models of weapons, we are presuming more expertise than we have. This is particularly true in an area like this where the technology is changing very rapidly and the ability of gun manufacturers to produce new variations of weapons is almost infinite.

Our law enforcement agencies are where the necessary expertise resides, and my proposal is for the Attorney General to establish a standing commission on semiautomatic assault weapons with eight members. The membership of this commission would be as follows: First, the Assistant Attorney General for the Criminal Divi-

sion in the Department of Justice; second, the heads, or their designees, of the FBI, the Bureau of Alcohol, Tobacco and Firearms, and the Drug Enforcement Agency. Next would be two representatives of national citizens organizations concerned with protecting the rights of the law-abiding public to keep and bear arms. And, finally, two representatives of national citizens organizations concerned with protecting the public safety and the needs of the Nation's law enforcement officers.

This commission would be established within 30 days of the effective date of the act. It would have as its duty to investigate on an ongoing basis and make recommendations to the Attorney General on restricting the manufacture, sale, distribution, and possession of domestic-made semiautomatic assault weapons and large-capacity ammunition-feeding devices.

Once a recommendation is received by the Attorney General, she would determine whether to accept it in whole or in part. If some or all of the recommendations were accepted, she would then proceed to publish notice, as called for in the Administrative Procedures Act. And after following the procedures of that act, the Attorney General would have the authority to issue a regulation governing that weapon.

The regulations would be submitted to the committees of jurisdiction in the Congress once the Administrative Procedures Act procedures were complete. The effective date of the regulations would be delayed for 90 days, during which they could be overridden by the passage of a joint resolution of the Congress.

Mr. President, I am aware that my proposed amendment is objectionable to people on both sides of this debate. The National Rifle Association objects because it does not want the authority to restrict gun sales delegated to any nonelected official. The gun control supporters object because they would see some additional months of delay before prohibition of sales would become effective.

But while my proposed legislation is not the first choice of either group, I do believe it is a responsible course to follow and it ultimately will lead to a better system for restricting sale of these semiautomatic assault weapons.

By Mr. GLENN (for himself, Mr. INOUE and Mr. D'AMATO):

S. 1648. A bill to direct the Secretary of Transportation to demonstrate on vessels ballast water management technologies and practices, including vessel modification and design, that will prevent aquatic nonindigenous species from being introduced and spread in the Great Lakes and other United States waters, and for other purposes; to the Committee on Commerce, Science, and Transportation.

INNOVATIVE BALLAST MANAGEMENT ACT

• Mr. GLENN. Mr. President, I introduce the Innovative Ballast Management Act—legislation to create a voluntary program to demonstrate promising ballast management technologies and practices which will help prevent the introduction and spread of aquatic nonindigenous species into U.S. inland and saltwater systems. Senators INOUE and D'AMATO join with me in this important effort.

This bill calls for the Secretary of Transportation to undertake a study of ballast water technologies and practices that may prevent the introduction and spread of aquatic nonindigenous species into the Great Lakes and other U.S. waters. Based, in part, on the study's recommendations, the Secretary will conduct an 18-month ballast water management demonstration program, involving the retrofitting of current vessels and the possible inclusion of technologies into future ship designs.

Ballast water, which is necessary to insure ship's stability, appears to be the main culprit in the movement of foreign aquatic species to U.S. waters. Unwanted plant and animal species, and even pathogens, may hitch a ride to U.S. waters from foreign ports of call in the ballast tanks of merchant ships. Upon entering our waters, these aquatic pests may become established and proliferate to wreak havoc on our coastal environments and economies.

In the Great Lakes, the zebra mussel is the most notorious of several exotic species that have arrived via ballast water. The zebra mussel now costs industrial water users millions of dollars annually and has spread well outside the Great Lakes basin. Exotic species also infest our marine coastal systems creating significant environmental and economic impacts. For example, in San Francisco Bay, the Asian clam has dramatically displaced native mollusks. In 1991, the Coast Guard documented the presence of human cholera in oyster beds near Mobile, AL. Upon further study, the Coast Guard concluded that ballast discharge was the likely vector.

I authored the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (Pub. L. 101-646) because our Nation lacked a national policy or program to prevent and control unintentional introductions of aquatic nuisance species to U.S. waters. To me, the prevention provisions are the most significant part of this legislation. Regulations originating from the act were put into effect in May 1993, and require special ballast water management practices for each vessel entering the Great Lakes/St. Lawrence system. Currently, the primary method of compliance is a saltwater ballast exchange outside the exclusive economic zone. But this method is regarded as an interim solution because it is unreliable and cannot be applied to all situations.

For example, some freshwater species may survive a saltwater exchange. Also, ballast exchange is not effective for coastwise ship movements or intra-Great Lakes basin voyages. Furthermore, safety concerns may preclude ballast exchange during rough seas.

Innovative ballast treatment technologies and practices show promise for providing a permanent technological solution, making ballast exchange unnecessary. The nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 called for a shipping study to characterize the role shipping plays in the transfer of aquatic exotic species. The study also indicated several technologies that may help prevention efforts. Filtration, lethal heat, and ultraviolet treatments are just a few ideas that may be applicable.

A sense of urgency exists in the Great Lakes to move forward with this bill. The European ruffe, discovered in Duluth Harbor of Lake Superior in 1986, has displaced several native species, including the yellow perch. Movement of this small but aggressive fish to the other Great Lakes, where yellow perch and walleye proliferate, could devastate the fishery. A technological approach may be the only way to prevent the ruffe's movement through ballast transfer.

It is for this reason that I call for quick action on my bill. The examination and demonstration of these new approaches is a logical and progressive step in our efforts to prevent aquatic stowaways from entering and infesting our waters. Such a solution would be welcomed by shipowners and environmentalists alike.

Aquatic nonindigenous species are causing problems worldwide; there is an emerging need for these technologies, not only for vessels visiting our waters, but for international commerce in general. As a result, this bill could help U.S. industries take the lead in an emerging environmental technology of international proportions.

I look forward to the support of my colleagues in gaining enactment of this important legislation.

Mr. President, I ask unanimous consent that the text of this legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1648

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Innovative Ballast Management Act".

SEC. 2. DEFINITIONS.

For purposes of this Act—

(1) the term "Aquatic Nuisance Species Task Force" means the task force established under section 1201 of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4721);

(2) the term "ballast water" means water and sediments taken into or expelled out of the ballast system of a vessel;

(3) the term "nonindigenous species" means any species or other viable biological material that enters an ecosystem beyond its historic range, including any such organism transferred from one country into another;

(4) the term "Secretary" means the Secretary of Transportation; and

(5) the term "United States waters" means navigable waters and territorial waters of the United States.

SEC. 3. BALLAST MANAGEMENT STUDY.

(a) IN GENERAL.—The Secretary shall study ballast water technologies and practices that prevent aquatic nonindigenous species from being introduced into and spread through ballast water in the Great Lakes and other United States waters.

(b) IDENTIFICATION OF TECHNOLOGIES AND PRACTICES FOR DEMONSTRATION.—Based on the study conducted pursuant to subsection (a), the Secretary shall identify for demonstration under section 4, technologies and practices that—

- (1) may be retrofitted on existing vessels or incorporated in new vessel designs;
- (2) are operationally practical;
- (3) are safe for vessel and crew;
- (4) are environmentally sound;
- (5) are cost-effective;
- (6) the vessel operator can monitor; and
- (7) are effective against a broad range of nuisance organisms.

(c) REPORT.—Not later than 18 months after the date of enactment of this Act, the Secretary shall prepare and submit a report to Congress on the results of the study conducted pursuant to this section, including a list of the technologies and practices identified for demonstration.

SEC. 4. BALLAST WATER MANAGEMENT DEMONSTRATION PROGRAM.

(a) IN GENERAL.—The Secretary shall conduct an 18-month ballast water management demonstration program to demonstrate technologies and practices, including technologies and practices identified under section 3, to prevent aquatic nonindigenous species from being introduced into and spread through ballast water in the Great Lakes and other United States waters.

(b) UNITED STATES SHIPYARDS AND SHIP REPAIR FACILITIES.—Installation and construction of the technologies and practices shall be performed in a United States shipyard or ship repair facility.

(c) VESSEL SELECTION.—In demonstrating technologies and practices on vessels under this section, the Secretary shall—

- (1) use only vessels that—
 - (A) have ballast systems conducive to testing technologies and practices applicable to a significant number of merchant vessels;
 - (B) are documented under the laws of the United States; and
 - (C) are publicly or privately owned and are in active use for trade or other cargo shipment purposes during the demonstration; and
- (2) seek to use—
 - (A) vessels that call on ports in the United States and on the Great Lakes and vessels that are operated along the other major coasts of the United States and inland waterways; and
 - (B) a variety of vessel types.

(d) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall prepare and submit a report to Congress on the demonstration program conducted pursuant to this section. The report shall include findings and recommendations.

SEC. 5. AUTHORITIES; CONSULTATION AND COOPERATION WITH INTERNATIONAL MARITIME ORGANIZATION AND AQUATIC NUISANCE SPECIES TASK FORCE.

(a) AUTHORITIES.—In conducting the study under section 3, and the demonstration program under section 4, the Secretary may—

- (1) enter into cooperative agreements with other Government agencies and private entities;
- (2) accept funds, facilities, equipment, or personnel from other Federal agencies; and
- (3) accept donations of property and services.

(b) CONSULTATION AND COOPERATION.—The Secretary shall consult and cooperate with the International Maritime Organization and the Aquatic Nuisance Species Task Force in carrying out this Act.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated \$2,000,000 to carry out this Act.●

● Mr. D'AMATO. Mr. President, I rise today to join with my colleagues Senator GLENN and Senator INOUE to introduce legislation to study ways to lessen the impact that aquatic pests manifest in U.S. waters. This legislation, the Innovative Ballast Management Act, will provide for the study and demonstration of ballast management technologies and practices to help prevent the infestation of our waters with non-indigenous aquatic species.

My State of New York enjoys a long tradition of shipping and is blessed with ports on both the Great Lakes and the Atlantic Ocean. However, these waters have been hard-hit by aquatic nuisances, most notably the zebra mussel infestation in the Great Lakes. Such pests cause countless dollars' worth of damage to industry and the environment. We must do what we can to protect our waters from further invasions of nonindigenous aquatic species. This bill will help address that effort.

Mr. President, our Nation's waters are still of vital importance to commerce and recreation. The impact of nonindigenous aquatic nuisances is something that we have now come to realize is a threat that must be managed. This bill will help investigate methods to combat future introductions of such pests into our Nation's waters. I commend my colleague, Senator GLENN, for introducing this important legislation, and I urge our colleagues to join us in cosponsoring this bill.●

By Mr. WELLSTONE:

S. 1649. A bill to amend title 38, United States Code, to make improvements in the procedures used by the Department of Veterans' Affairs in adjudicating claims for veterans' benefits, and for other purposes; to the Committee on Veterans' affairs.

VETERANS ADJUDICATION PROCEDURES ACT OF 1993

● Mr. WELLSTONE. Mr. President, today I am introducing the Veterans Adjudication Procedures Act of 1993.

This legislation is designed to reduce delays in processing veterans' claims and appeals of denied claims for VA benefits, ensure greater equity in adjudicating appeals of certain claim denials, and provide Congress and the Department of Veterans Affairs with the data they need to determine whether veterans claims and appeals are being handled as expeditiously as possible and pinpoint the problem areas.

There is no question that the growing delays in handling veterans claims and appeals are reaching crisis proportions. Secretary of Veteran Affairs Brown has pointed out that the average response time to veterans appeals has increased from 139 days 2 years ago to a projected 441 days by the end of this year. To make matters even worse, the Board of Veterans Appeals is estimating that by the end of fiscal year 1994 the average response time will soar to almost 2 years. And, a ranking Veterans Affairs Department official conceded that it is already taking about 2 years between the time a VA regional office reaches a decision on a claim to review by the Court of Veterans Appeals. Secretary Brown has characterized the situation as being unacceptable. I couldn't agree with him more.

As alarming as this situation is, it could well get worse as a consequence of such factors as a continued downsizing of the military and an increasing number of Persian Gulf war veterans filing benefit claims. From fiscal year 1991 to fiscal year 1993, original compensation claims filed are expected to have increased by nearly 54 percent, rising from 104,000 to 160,000. Clearly, the time for action is now. Delay in addressing the veterans claims and appeals crises can only produce a calamitous situation where veterans lose faith in the willingness of their Government to honor its obligations to them.

Mr. President, I can't emphasize enough that the causes of the sharp increases in the time it takes to handle veterans appeals are complex and the problem is not amenable to quick fixes. While several factors have led to the current situation, let me briefly outline one of the more important ones.

The establishment by Congress of the Court of Veterans Appeals in 1988 and followup legislative action and judicial decisions to strengthen due process protections have had a profound effect on claims and their adjudication. While the quality of adjudication decisions clearly has improved and veterans are now required to receive statements of the reasons for adverse VA decisions and a summary of the evidence used in reaching decisions, these changes have tended to slow decisionmaking. Moreover, Court of Veterans Appeals precedents are not only applied prospectively but also to similar pending claims dating back as far as 2 years. To some extent, this also contributes to

the long waits veterans experience before final decisions are reached. Workloads of both the VA regional offices and the Board of Veterans' Appeals have grown as a consequence of Court of Veterans' Appeals decisions. For example, the percentage of cases remanded by the Court has increased from 23 percent in fiscal year 1990 to an estimated 55 percent in fiscal year 1993, greatly affecting VA regional offices around the country. Court decisions have reduced the productivity of Board of Veterans' Appeals personnel and helped produce an odd situation where the number of appeals the Board receives is declining but the number of pending cases at year's end is rising. This is in no way intended as a criticism of the Court of Veterans' Appeals, which is doing an effective job of ensuring that veterans receive due process protection and fair treatment throughout the adjudication process, but merely intended to highlight an important element underlying the frustrating delays veterans face.

I believe the measure I'm introducing will contribute to more timely claims and appeals decisions, ensure greater equity for veterans filing appeals, and make the adjudication system more transparent, permitting us to more readily identify bottlenecks and take remedial action. But let me stress that my bill is not a quick fix or magic bullet. The fact is there are no quick fixes or magic bullets. Much more needs to be done by the Congress, the VA, and veterans groups acting in concert.

Such key issues as adequate staffing levels, training of adjudication personnel, and optimal use of modern technology to speed appeals processing are not addressed in my bill, but need to be addressed on an urgent basis.

To his credit, Secretary Brown has taken some important steps recently to cope with the situation, including submission of legislation aimed at improving the veterans' appeals process which was introduced by Senator ROCKEFELLER, chairman of the Veterans' Affairs Committee, as S. 1445. Major veterans groups acting collectively have also addressed this issue, drafting a series of recommendations to increase timeliness and enhance the quality of claims appeal decisions at the request of Congressman JIM SLATTERY, chairman, Subcommittee on Compensation, Pension and Insurance of the House Veterans Affairs Committee. My bill incorporates features of both S. 1445 and the veterans' groups recommendations.

The Veterans Adjudication Procedures Act of 1993 has four key elements. First, VA employees who adjudicate claims would no longer receive credit for work on a claim until a final decision is reached. Under the present system, an environment exists in which high volume, low quality results are encouraged and rewarded. My pro-

posal would change the work measurement standards. This change has been recommended by the major veterans groups, who argued persuasively that the current system of work credits used by the VA provides incentives for case churning rather than emphasizing quality and that current work standards "don't give a true picture of the amount of time it takes for a claim to be processed from beginning to end."

Second, this legislation mandates that the Secretary of Veterans Affairs submit an annual report to Congress on the status of benefit claims during the preceding fiscal year. The report will provide detailed data on the average number of days elapsing after a claim is initially received by the VA until decisions are reached both by regional VA offices and the Board of Veterans Appeals. To give the VA adequate time to modify its information collection and processing system to provide the required data, the first report would not be required until the third fiscal year ending after the bill is enacted. This reporting requirement is consistent with the recommendation of a May 1990 GAO report on reducing waiting time on veterans appeals decision. Noting that the VA wasn't accurately reporting appeals processing times, the GAO argued that the VA can neither assess how well its appeals process serves veterans nor identify improvements needed unless it has accurate and complete data on the appeals process. The GAO recommended that the VA modify its collection data methods "to account for the time spent on appeals, thereby providing more complete data for management and the Congress." This is precisely what my bill seeks to accomplish.

Third, the legislation provides that an individual rating official at the regional office may make initial determinations on all original and reopened claims and an individual Board of Veterans Appeals member may make determinations at Board proceedings. Currently, at both the regional office and the Board, decisions must be made by panels of officials. These steps should reduce backlogs for both regional offices and the Board of Veterans Appeals without affecting the quality of decisions. Secretary Brown estimates that allowing individual Board members to make decisions would permit the Board of Veterans Appeals to boost the number of decisions issued in 1994 by more than 25 percent. It should be noted that most major veterans groups support instituting single-member decisions at both regional and Board levels.

Finally, the measure permits decisions made at the regional office or at the Board of Veterans Appeals to be revised on the grounds of clear and unmistakable error at any time after the decision is made. This provision would codify what now exists only by virtue

of a long-standing VA regulation. The VA is interpreting this regulation as giving claimants a right to a review of a previous final VA regional office decision based on clear and unmistakable error regardless of the time that has elapsed since the decision, but not to a previous final Board decision. The VA is proposing a rule that would allow a claimant only 45 days after a Board decision was reached to file for a review based on clear and unmistakable error. Our bill will level the playing field so that clear and unmistakable error claims would be treated identically for both regional office and Board decisions. Major veterans groups have supported similar provisions to those in our bill.

Mr. President, hundreds and possibly even thousands of Minnesota veterans have complained to me about the excessive time that elapses before decisions are made on their claims and appeals. There is little question in my mind that their complaints are amply justified.

We recently distributed a questionnaire to Minnesotans to elicit their views on the claims and adjudication process. We heard from veterans and their families, veterans groups, county veteran service officers, veteran claims representatives, and even the chair of the Board of Veterans Appeals and the VA Deputy Under Secretary for Benefits. About 90 percent of those responding considered the problems of timeliness of claims decisions and claims backlogs to be either serious or very serious. Respondents ranked improving the claims and appeals process as one of the highest veterans' legislative priorities.

I found many of the comments received with the questionnaire to be quite moving, reinforcing my determination to reform the handling of veterans claims and appeals. For example, one veteran stressed the issue was very serious "because it sometimes leads to the death of a veteran by suicide over frustration and injustices suffered." In a similar vein, a county veterans service officer lamented that "veterans * * * die before their claims have been adjudicated," and a VA psychologist observed that "veterans are losing homes, selling personal belongings, and committing suicide while waiting 1 to 3 years for their claims to be adjudicated."

I know of many instances where veterans have been compelled to wait 3 to 4 years, sometimes longer, for their claims to be finally resolved. In fact, a veteran recently asked for my assistance on an appeal for service-connected benefits. He desperately needed help because his appeal was bouncing back and forth between the St. Paul Regional Office and the Board of Veterans Appeals for over 4 years while his family was suffering financial hardship. This is completely unacceptable.

For the sake of veterans who have risked so much for this country, we can't allow this intolerable situation to continue and I will do all that I can to see that it doesn't.

Mr. President, in closing I would like to note that Representative LANE EVANS introduced a companion bill in the House of Representatives last month and I express my appreciation to him for his close cooperation on this legislation. Representative EVANS is a tireless champion of the interests of all veterans and I commend him for his outstanding work on their behalf.

I urge my colleagues to support this legislation, and I ask consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1649

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; REFERENCES TO TITLE 38, UNITED STATES CODE.

(a) **SHORT TITLE.**—This Act may be cited as the "Veterans Adjudication Procedures Act of 1993".

(b) **REFERENCES TO TITLE 38, UNITED STATES CODE.**—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

SEC. 2. WORK RATE STANDARDS FOR ADJUDICATIVE EMPLOYEES.

(a) **IN GENERAL.**—(1) Chapter 7 is amended by adding at the end the following new section:

"§ 713. Work rate standards for adjudicative employees

"(a) The Secretary shall provide that under the work rate standards that apply to employees of the Department who adjudicate claims for benefits that have been submitted to the Secretary, those employees do not receive credit for work on a claim until the decision on the claim becomes final. Such a decision shall not be considered to have become final until the claimant has exhausted, or failed to timely exercise, the right to appellate review by the Board of Veterans' Appeals."

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"713. Work rate standards for adjudicative employees."

(b) **EFFECTIVE DATE.**—Section 713 of title 38, United States Code, as added by subsection (a), shall apply with respect to claims for benefits that are submitted to the Secretary of Veterans Affairs after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 3. ANNUAL REPORT ON STATUS OF CLAIMS FOR BENEFITS.

(a) **IN GENERAL.**—(1) Chapter 5 is amended by inserting after section 529 the following new section:

"§ 530. Annual report on status of claims for benefits

"(a) The Secretary shall submit to Congress an annual report on the status of claims for benefits before the Department

during the preceding fiscal year. The report for any fiscal year shall be submitted in conjunction with the report under section 7101(d) of this title for that year.

"(b)(1) Each report under subsection (a) shall separately set forth, with regard to claims for benefits in which a decision of the agency of original jurisdiction or the Board of Veterans' Appeals became final during the preceding fiscal year, the average number of days that passed from the date on which the claim was initially received by the Department until the following dates, as applicable:

"(A) The date on which the notice of decision was provided to the claimant, for those cases in which the claimant did not file a timely notice of disagreement (along with the number of such cases).

"(B) The date on which the statement of the case was provided to the claimant, for those cases in which the claimant filed a timely notice of disagreement, and the agency of original jurisdiction did not conduct a hearing, and the claimant did not file a timely substantive appeal to the Board of Veterans' Appeals (along with the number of such cases).

"(C) The date on which the statement of the case was provided to the claimant or the date on which the notice of the decision rendered after the conduct of a hearing of the agency of original jurisdiction, whichever is later, for those cases in which the claimant filed a timely notice of disagreement, and agency of original jurisdiction conducted a hearing, and the claimant did not file a timely substantive appeal to the Board of Veterans' Appeals (along with the number of such cases).

"(D) The date on which the notice of the Board of Veterans' Appeals decision was provided to the claimant, for those cases in which the Board of Veterans' Appeals did not remand to the agency of original jurisdiction before issuing its decision and neither the agency of original jurisdiction nor the Board of Veterans' Appeals conducted a formal hearing (along with the number of such cases).

"(E) The date on which the notice of the Board of Veterans' Appeals decision was provided to the claimant, for those cases in which the agency of original jurisdiction conducted a hearing, and the Board of Veterans' Appeals issued a decision on the appeal of the claim without conducting a formal hearing and without remanding the appeal to the agency of original jurisdiction before issuing its decision (along with the number of such cases).

"(F) The date on which the notice of the Board of Veterans' Appeals decision was provided to the claimant, for those cases in which the agency of original jurisdiction conducted a hearing and the Board of Veterans' Appeals issued a decision on the appeal of the claim after conducting a formal hearing and without remanding the appeal to the agency of original jurisdiction before issuing its decision (along with the number of such cases).

"(G) The date on which the notice of the Board of Veterans' Appeals decision was provided to the claimant, for those cases in which the agency of original jurisdiction did not conduct a hearing, and the Board of Veterans' Appeals issued a decision on the appeal of the claim after conducting a formal hearing and without remanding the appeal to the agency of original jurisdiction before issuing its decision (along with the number of such cases).

"(H) The date on which the notice of the Board of Veterans' Appeals final decision

was provided to the claimant, for those cases in which the Board of Veterans' Appeals did not conduct a formal hearing and remanded the case on one or more occasions to the agency of original jurisdiction before issuing its final decision (along with the number of such cases).

"(1) The date on which the notice of the Board of Veterans' Appeals final decision was provided to the claimant, for those cases in which the Board of Veterans' Appeals conducted a formal hearing and remanded the case on one or more occasions to the agency of original jurisdiction before issuing its final decision (along with the number of such cases).

"(2) Each report under subsection (a) shall also set forth the number of claims for benefits pending a final decision as of the end of the fiscal year preceding the submission of the report."

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 529 the following new item:

"530. Annual report on status of claims for benefits."

(b) EFFECTIVE DATE.—(1) Section 530 of title 38, United States Code, as added by subsection (a), shall apply only with respect to claims for benefits that are received by the Secretary of Veterans Affairs more than 180 days after the date of the enactment of this Act.

(2) The Secretary of Veterans Affairs shall submit the first annual report under section subsection (a) of such section 530, as so added, for the third fiscal year ending after the date of the enactment of this Act.

SEC. 4. OFFICIALS DETERMINING ORIGINAL AND REOPENED CLAIMS FOR BENEFITS.

(a) IN GENERAL.—Subchapter I of chapter 51 is amended by adding at the end the following new section:

"§ 5109A. Officials acting on behalf of Secretary

"(a) The functions of the Secretary under this chapter in making determinations on a claim for benefits filed under this chapter shall be carried out in each case by a single official (known as a 'rating official'). A single rating official (rather than a board of officials) shall make the initial determination of the Secretary on all original and reopened claims filed with the Secretary.

"(b) Whenever a hearing is requested following a decision of a rating official denying (in whole or in part) a claim for benefits, the official who conducts the hearing shall make a determination in the case without referring the case back to the rating official who initially decided the case (or another rating official) and shall issue a decision on the case in the manner prescribed in section 5104 of this title."

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 5109 the following new item:

"5109A. Officials acting on behalf of Secretary."

SEC. 5. BOARD OF VETERANS' APPEALS PROCEDURES.

(a) TERMINATION OF ACTION BY BVA THROUGH SECTIONS.—(1) Sections 7102 and 7103 are amended to read as follows:

"§ 7102. Decisions by the Board

"A proceeding instituted before the Board shall be assigned to an individual member of the Board (other than the Chairman). A member who is assigned a proceeding shall

make a determination thereon, including any motion filed in connection therewith. The member shall make a report under section 7104(d) of this title on any such determination, which report shall constitute the member's final disposition of the proceeding.

"§ 7103. Reconsideration; correction of obvious errors

"(a) The decision of the member of the Board determining a matter under section 7102 of this title is final unless the Chairman order reconsideration of the case. Such an order may be made on the Chairman's initiative or upon motion of the claimant.

"(b) If the Chairman orders reconsideration in a case, the case shall upon reconsideration be heard by a section of the Board. Any such section shall consist of not less than three members of the Board (and may include the Chairman). The member of the Board who made the decision under reconsideration may not serve as a member of the section.

"(c) When a case is heard by a section of the Board after such an order for reconsideration, the decision of a majority of the members of the section shall constitute the final decision of the Board.

"(d) The Board on its own motion may correct an obvious error in the record, without regard to whether there has been a motion or order for reconsideration."

(2) The items relating to sections 7102 and 7103 in the table of sections at the beginning of chapter 71 are amended to read as follows:

"7102. Decisions by the Board.

"7103. Reconsideration; correction of obvious errors."

(b) CONFORMING AMENDMENTS.—(1) Section 7110 is amended by striking out "section" both places it appears and inserting in lieu thereof "member".

(2)(A) The heading of section 7110 is amended to read as follows:

"§ 7110. Traveling members".

(B) The item relating to section 7110 in the table of sections at the beginning of chapter 71 is amended to read as follows:

"7110. Traveling members."

SEC. 6. REVISION OF DECISIONS BASED ON CLEAR AND UNMISTAKABLE ERROR.

(a) ORIGINAL DECISIONS.—(1) Chapter 51 is amended by inserting after section 5109A, as added by section 4, the following new section:

"§ 5109B. Revision of decisions on grounds of clear and unmistakable error

"(a) A decision by the Secretary under this chapter is subject to revision on the grounds of clear and unmistakable error. If evidence establishes the error, the prior decision shall be reversed or revised.

"(b) For the purposes of authorizing benefits, a rating or other adjudicative decision that constitutes a reversal or revision of a prior decision on the grounds of clear and unmistakable error has the same effect as if the rating or decision had been made on the date of the prior decision.

"(c) Review to determine whether clear and unmistakable error exists in a case may be instituted by the Secretary on the Secretary's own motion or upon request of the claimant.

"(d) A request for revision of a decision of the Secretary based on clear and unmistakable error may be made at any time after that decision is made.

"(e) Such a request shall be submitted to the Secretary and shall be decided in the same manner as any other claim."

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 5109A, as added by section 4, the following new item:

"5109B. Revision of decisions on grounds of clear and unmistakable error."

(b) BVA DECISIONS.—(1) Chapter 71 is amended by adding at the end the following new section:

"§ 7111. Revision of decisions on grounds of clear and unmistakable error

"(a) A decision by the Board is subject to revision on the grounds of clear and unmistakable error. If evidence establishes the error, the prior decision shall be reversed or revised.

"(b) For the purposes of authorizing benefits, a rating or other adjudicative decision of the Board that constitutes a reversal or revision of a prior decision of the Board on the grounds of clear and unmistakable error has the same effect as if the rating or decision had been made on the date of the prior decision.

"(c) Review to determine whether clear and unmistakable error exists in a case may be instituted by the Board on the Board's own motion or upon request of the claimant.

"(d) A request for revision of a decision of the Board based on clear and unmistakable error may be made at any time after that decision is made.

"(e) Such a request shall be submitted directly to the Board and shall be decided by the Board on the merits, without referral to any adjudicative or hearing official acting on behalf of the Secretary.

"(f) A claim filed with the Secretary that requests reversal or revision of a previous Board decision due to clear and unmistakable error shall be considered to be a request to the Board under this section, and the Secretary shall promptly transmit any such request to the Board for its consideration under this section."

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"7111. Revision of decisions on grounds of clear and unmistakable error."

(c) EFFECTIVE DATE.—(1) Section 5109B and 7110 of title 38, United States Code, apply to any determination made before, on, or after the date of the enactment of this Act.

(2) Notwithstanding section 402 of the Veterans Judicial Review Act (38 U.S.C. 7251 note), chapter 72 of title 38, United States Code, shall apply with respect to any decision of the Board of Veterans' Appeals on a claim alleging that a previous determination of the Board was the product of clear and unmistakable error if that claim is filed after, or was pending before the Department of Veterans Affairs, the Court of Veterans Appeals, the Court of Appeals for the Federal Circuit, or the Supreme Court on the date of the enactment of this Act.●

By Mr. WARNER:

S. 1650. A bill to designate the U.S. Courthouse for the Eastern District of Virginia in Alexandria, VA, as the Albert V. Bryan United States Courthouse; to the Committee on Environment and Public Works.

ALBERT V. BRYAN COURTHOUSE ACT OF 1993

● Mr. WARNER. Mr. President, I introduce legislation to transfer the name of the Albert V. Bryan United States Courthouse to the new Federal courthouse in Alexandria, VA, upon its completion.

The current Federal courthouse at 200 South Washington Street in Alexandria, VA, bears the name of one of Virginia's most distinguished jurists, Albert V. Bryan.

My legislation simply ensures that when the new courthouse is opened it shall be known as the Albert V. Bryan United States Courthouse.

Mr. President, the recognition of the many accomplishments and contributions of Judge Bryan to his chosen profession—the law—and to his community is not a new matter for this body.

On October 9, 1986, the Senate passed by unanimous consent S. 2890 to designate the Federal courthouse in Alexandria in honor of Judge Bryan's lifetime of public service. Since 1987, the Alexandria courthouse has carried his name.

Appointed to the U.S. district court in 1947 by President Truman and promoted to the appeals court by President Kennedy in 1961, Judge Bryan developed a record as a legal conservative and a strict constructionist. He was known for his tolerance on the bench, demonstrating reluctance to cut off lawyers in mid argument, and reacting sternly to those who flouted his judicial orders.

Throughout his 37 years on the Federal bench, Judge Bryan was known to be fair, firm and thorough. His was a low-key personality, his demeanor marked by modesty, politeness and courtliness spiked with a good dose of dry wit. Chief Judge Harrison L. Winter of the Fourth Circuit Court of Appeals once remarked that Judge Bryan represented "old Virginia at its very best."

Judge Bryan's renowned wit was further evidenced in his dislike of pomposity. He worked diligently to ensure that his writing were clean and precise, often laboring lengthily to identify the exact wording he sought. Once, seeking a simple synonym for "gravamen," the essential part of a legal complaint, he rejected such complexities as "quintessence," settling instead on the word "nub."

Born in 1899, Judge Bryan grew up in Alexandria just one block from the courthouse where he would later preside. He attended Alexandria public schools, then distinguished himself at the University of Virginia and, ultimately, its law school. He is said to have taken great pride in having been named rector of the University in later life.

Returning to Alexandria in 1921, he became something of a fixture in the city. He was comfortable riding the bus to his west end home, and he was frequently seen taking lunch in modest, small restaurants near the courthouse.

A conservative on racial issues, Judge Bryan, while a district court judge, ordered that four black students be enrolled in Arlington's all-white Stratford Junior High School in 1958.

The students' admission the following February marked the first day of desegregation in Virginia. He also served on the Federal judicial panel that ordered racial integration for Prince Edward County's public schools. The Prince Edward case later became part of the Supreme Court's historic *Brown versus Board of Education* decision.

In 1969, Judge Bryan and two additional appeals judges struck down Virginia's tuition grant program—the last vestige of massive resistance to integration. One year later, he gained considerable notice when he rejected an appeal by Yippie leader Jerry Rubin, sending the Vietnam protestor to jail for 30 days for disorderly conduct during a 1967 demonstration at the Pentagon.

Judge Bryan is credited with writing 322 opinions as a circuit judge and an additional 18 opinions while he was a district judge. He was reversed in only four cases—a dramatic record which few could equal.

Judge Bryan's accomplishments are perhaps best summarized by the comments made at the original courthouse dedication in 1987, by Supreme Court Justice Lewis Powell, Jr.

He was indeed an exceptionally able and scholarly judge. Every lawyer who ever argued a case before the Fourth Circuit Court was happy to find Judge Bryan had been assigned to the panel.

Judge Powell also quoted a beautiful tribute to Judge Bryan made by Chief Judge Harrison Winter at the Fourth Circuit Judicial Conference: "Albert Bryan was a man of love, a man to respect, and a man to emulate."

The General Services Administration soon will break ground to begin construction for a new Federal courthouse in Alexandria to be located at Courthouse Square South and Jamieson Avenue. My legislation provides that when this facility is completed it shall be known as the Albert V. Bryan Courthouse.

Mr. President, as the Environment Committee's ranking member of the subcommittee responsible for the naming of Federal buildings, I am pleased that Chairman BAUCUS has committed to favorable action on this bill early next session.

Mr. President, I ask unanimous consent that additional material be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DISTRICT COURT,
EASTERN DISTRICT OF VIRGINIA,
Alexandria, VA, November 8, 1993.

Hon. JOHN WARNER,
U.S. Senate, Russell Senate Office Building,
Washington, DC.

DEAR JOHN: Enclosed you will find a copy of the resolution of the Judicial Council of the Fourth Circuit urging that the United States Congress transfer the designation of the Albert V. Bryan United States Courthouse from the present location to the new courthouse in the Eisenhower Valley.

With kind personal regards, I remain
Very truly yours.

JAMES C. CACHERIS,
Chief Judge.

RESOLUTION

Whereas a new United States Courthouse is being constructed in the Alexandria Division of the Eastern District of Virginia and

Whereas Circuit Judge Albert V. Bryan, Sr., served as both a United States District Judge and a Judge of the United States Court of Appeals for the Fourth Circuit with great distinction and

Whereas Circuit Judge J. Michael Luttig and the district judges and magistrate judges of the Alexandria Division are of the unanimous view that the new courthouse should carry the name of the "Albert V. Bryan United States Courthouse": Now, therefore

The Judicial Council of the Fourth Circuit adopts this Resolution urging that the United States Congress transfer the designation of the Albert V. Bryan United States Courthouse from the old courthouse on South Washington Street, Alexandria, Virginia, to the new courthouse in Eisenhower Valley, Alexandria, Virginia.

For the Council:

SAMUEL W. PHILLIPS,
Secretary.●

By Mr. D'AMATO (for himself
and Mr. FAIRCLOTH):

S. 1651. A bill to authorize the minting of coins to commemorate the 200th anniversary of the founding of the U.S. Military Academy at West Point, NY; to the Committee on Banking, Housing, and Urban Affairs.

U.S. MILITARY ACADEMY BICENTENNIAL
COMMEMORATIVE COIN ACT OF 1993

Mr. D'AMATO. Mr. President, I rise today on the eve of Veterans Day to introduce, and urge my colleagues to support, the United States Military Academy Bicentennial Commemorative Coin Act of 1993. I am introducing this bill on behalf of myself and my colleague, Senator FAIRCLOTH. My fellow New Yorker Congressman HAMILTON FISH and 54 of his colleagues are introducing identical legislation in the House of Representatives today.

This legislation would provide for the minting of coins to commemorate the bicentennial of the U.S. Military Academy located in West Point, NY. The Academy will celebrate its bicentennial on March 16, 2002.

The Military Academy has provided our Nation with the core of its military officers. It was founded in 1802, principally as a result of the vision of George Washington. West Point has been the source for most of our Nation's great military leaders, like Robert E. Lee, Ulysses S. Grant, John Pershing, Dwight Eisenhower, and Norman Schwarzkopf. However, West Point is much more than a training school for military leaders; it has always been a national bedrock of values which are best expressed by the Academy's motto, Duty Honor, Country.

West Point graduates have continued to lead and contribute in virtually every profession and walk of life even

after they have left the military. Among these are: engineers like George Goethals who built America's bridges, railroads, highways, and canals; medical doctors, like the late Dr. Thor Sundt of the Mayo Clinic; Presidents Grant and Eisenhower; businessmen like Robert Wood, the CEO of Sears Roebuck; and astronauts like Frank Borman.

Mr. President, the money raised from the surcharges in the bill would be used by the Association of Graduates to provide direct support to the academic, military, physical, moral, and ethical development programs of the Corps of Cadets at the U.S. Military Academy. The Association of Graduates provides important activities and programs for the cadets in hopes of helping each young person adjust to the tough and demanding 4 years at West Point. These activities and programs are not funded by the taxpayers.

Young men and women from all 50 States dream of attending West Point. West Point is perhaps the most competitive and demanding institute of higher learning in our country. Tomorrow, as we participate in Veterans Day activities back in our home State, I hope each of us will think of the young people who choose to attend West Point and dedicate themselves to serving their country instead of attending a conventional college or university.

Mr. President, I urge Congress to support this legislation. The U.S. Military Academy plays a vital role in defending and leading our Nation. I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1651

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "United States Military Academy Bicentennial Commemorative Coin Act of 1993".

SEC. 2. COIN SPECIFICATIONS.

(a) FIVE DOLLAR GOLD COINS.—

(1) ISSUANCE.—The Secretary of the Treasury (hereafter in this Act referred to as the "Secretary") shall issue not more than 50,000 \$5 coins, which shall weigh 8.359 grams, have a diameter of 0.850 inches, and shall contain 90 percent gold and 10 percent alloy.

(2) DESIGN.—The design of the \$5 coins shall be emblematic of the United States Military Academy and its motto "Duty, Honor, Country". On each such coin there shall be a designation of the value of the coin, an inscription of the year "2002", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(b) ONE DOLLAR SILVER COINS.—

(1) ISSUANCE.—The Secretary shall issue not more than 250,000 \$1 coins, which shall weigh 26.73 grams, have a diameter of 1.500 inches, and shall contain 90 percent silver and 10 percent copper.

(2) DESIGN.—The design of the \$1 coins shall be emblematic of the United States

Military Academy and its motto "Duty, Honor, Country". On each such coin there shall be a designation of the value of the coin, an inscription of the year "2002", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(c) HALF DOLLAR CLAD COINS.—

(1) ISSUANCE.—The Secretary shall issue not more than 350,000 half dollar coins, each of which shall weigh 11.34 grams, have a diameter of 1.205 inches; and be minted to the specifications for half dollar coins contained in section 5112(b) of title 31, United States Code.

(2) DESIGN.—The design of the half dollar coins shall be emblematic of the United States Military Academy and its motto "Duty, Honor, Country". On each such coin there shall be a designation of the value of the coin, an inscription of the year "2002", and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(d) LEGAL TENDER.—The coins issued under this Act shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. 3. SOURCES OF BULLION.

(a) SILVER BULLION.—The Secretary shall obtain silver for the coins minted under this Act only from stockpiles established under the Strategic and Critical Materials Stock Piling Act.

(b) GOLD BULLION.—The Secretary shall obtain gold for the coins minted under this Act pursuant to the authority of the Secretary under existing law.

SEC. 4. SELECTION OF DESIGN.

The design for each coin authorized by this Act shall be selected by the Secretary after consultation with the Commission of Fine Arts and the Bicentennial Steering Group, Association of Graduates, United States Military Academy. As required by section 5135 of title 31, United States Code, the designs shall also be reviewed by the Citizens Commemorative Coin Advisory Committee.

SEC. 5. ISSUANCE OF THE COINS.

(a) GOLD COINS.—The \$5 coins authorized under this Act may be issued in uncirculated and proof qualities and shall be struck at the United States Bullion Depository at West Point.

(b) SILVER AND HALF DOLLAR COINS.—The \$1 coins and the half dollar coins authorized under this Act may be issued in uncirculated and proof qualities, except that not more than 1 facility of the United States Mint may be used to strike any particular combination of denomination and quality.

(c) COMMENCEMENT OF ISSUANCE.—The coins authorized under this Act shall be available for issue not later than March 16, 2002.

(d) SUNSET PROVISION.—No coins shall be minted under this Act after December 31, 2002.

SEC. 6. SALE OF THE COINS.

(a) SALE PRICE.—The coins issued under this Act shall be sold by the Secretary at a price equal to the sum of the face value of the coins, the surcharge provided in subsection (d) with respect to such coins, and the cost of designing and issuing such coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) BULK SALES.—The Secretary shall make bulk sales at a reasonable discount.

(c) PREPAID ORDERS.—The Secretary shall accept prepaid orders for the coins prior to the issuance of such coins. Sales under this subsection shall be at a reasonable discount.

(d) SURCHARGE REQUIRED.—All sales shall include a surcharge of \$25 per coin for the \$5 coins, \$5 per coin for the \$1 coins, and \$1 per coin for the half dollar coins.

SEC. 7. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

No provision of law governing procurement or public contracts shall be applicable to the procurement of goods or services necessary for carrying out the provisions of this Act. Nothing in this section shall relieve any person entering into a contract under the authority of this Act from complying with any law relating to equal employment opportunity.

SEC. 8. DISTRIBUTION OF SURCHARGES.

The total surcharges collected by the Secretary from the sale of the coins issued under this Act shall be promptly paid by the Secretary to the Association of Graduates, United States Military Academy to assist the Association of Graduates' efforts to provide direct support to the academic, military, physical, moral, and ethical development programs of the Corps of Cadets, United States Military Academy.

SEC. 9. AUDITS.

The Comptroller General of the United States shall have the right to examine such books, records, documents, and other data of the Association of Graduates, United States Military Academy as may be related to the expenditure of amounts paid under section 8.

SEC. 10. NUMISMATIC PUBLIC ENTERPRISE FUND.

The coins issued under this Act are subject to the provisions of section 5134 of title 31, United States Code, relating to the Numismatic Public Enterprise Fund.

SEC. 11. FINANCIAL ASSURANCES.

(a) NO NET COST TO THE GOVERNMENT.—The Secretary shall take all actions necessary to ensure that the issuance of the coins authorized by this Act shall result in no net cost to the United States Government.

(b) ADEQUATE SECURITY FOR PAYMENT REQUIRED.—No coin shall be issued under this Act unless the Secretary has received—

(1) full payment therefore;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution whose deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration Board.

By Mr. BENNETT:

S. 1652. A bill to amend the National Trails System Act to designate the Great Western Trail for potential addition to the National Trails System, and for other purposes; to the Committee on Energy and Natural Resources.

THE GREAT WESTERN TRAIL ACT

Mr. BENNETT. Mr. President, I am introducing today a bill which would direct the U.S. Forest Service, in consultation with the Department of the Interior, to study the Great Western Trail to determine if it should be included in the National Scenic Trail System.

The Great Western Trail promises to deliver some of the greatest outdoor and natural experiences the West has to offer. The trail will be a continuous, multiple-use route from Mexico to Canada. It encompasses a series of existing

trails on mostly public lands running through a Western corridor extending border to border from the northern tip of Idaho to the southern tip of Arizona. Included along its path are recreational opportunities for the entire trails community as it passes through areas rich in Western heritage as well as some of the most spectacular scenery in the world.

Mr. President, the Great Western Trail would provide a positive experience for all users in conjunction with land and resource capability, public safety, and administrative requirements. It is beneficial because it takes advantage of volunteer construction, maintenance, and management of the trail system. The Great Western Trail will become a significant and vital addition to America's system of national trails.

By Mr. BENNETT:

S. 1653. A bill for the relief of the Triax Co., a Utah corporation; to the Committee on the Judiciary.

TRIAx CO. RELIEF LEGISLATION

Mr. BENNETT. Mr. President, I am introducing today a private bill for the relief of the Triax Co., a Utah firm that has provided construction contracting services for the U.S. Government for well over 20 years. In the early 1980's, Triax won a contract for a construction project with the Memphis Naval Air Station in Millington, TN. As the company fulfilled its contract, the Navy made over 20,000 changes to the contract during the course of the work, and Triax lost well over \$2 million as a result. They have brought suit to recover the damages, and the case has now dragged on for 8 years.

On April 28 of this year, a ruling was handed down by Judge Loren A. Smith of the U.S. Court of Federal Claims, in which he acknowledged the Government's moral obligation to Triax, but said, in effect, that the strict application of the law prevented him from meeting that obligation—a somewhat amazing statement, in my opinion.

I do not wish to put words in Judge Smith's mouth, so I will quote his ruling directly. However, in the interest of clarity, I will take words out of his mouth. His opinion was delivered orally and is somewhat rambling and hard to follow, which is why I have taken the liberty of editing it. I am submitting the transcript of Judge Smith's exact words and ask unanimous consent that this document be printed in the RECORD at the conclusion of my remarks.

Mr. President, here is the core of what Judge Smith said, stripped of his side comments:

I would hope that there is some possibility the parties can settle * * * (given) the moral factor that * * * the plaintiff was hurt by the Form A's and the Form B's * * * I think it's the Government's interest to look at things as not only what the legal issues are, but what's the right thing to do * * * I hope that

counsel * * * is committed to doing what is right and just.

I hope there is some possibility of working that out. The Court will be happy to use its good offices to that extent. * * * In this case, I think there are good reasons for settlement.

Mr. President, I find that an incredible statement from a judge who has just ruled that Triax is not going to get anything from the Government. How can counsel do what is right and just when the judge has just told counsel for the Navy that, legally, they do not have to pay Triax a dime. References to the court's willingness to use its good offices to pursue a result that is right and just strike this layman as, in layman's terms, a moral cop-out.

That is why I am introducing this bill. I agree with the judge that it is the "Government's interest to look at * * * the right thing to do," and the right thing to do is to make Triax whole for the damage that it suffered as a result of this contract. This bill will accomplish that purpose.

In addition to righting an acknowledged wrong, this bill will have another effect—it will allow Triax to survive. As I said, the Triax Co. has been in business for over 20 years, employing hundreds of people and providing the U.S. Government with services worth millions of dollars, bidding below its competitors. It is, in Judge Smith's words, "a good contractor," run by "decent and honorable people," who suffered, again in the judge's words, "a legitimate loss. It is a real loss, and I have no reason to believe it was not in the \$2.8 million range."

Mr. President, at this time in the economy, we constantly hear talk of jobs, jobs, jobs. Here we have a firm that is providing jobs, with a track record of solid accomplishment and sound management. By passing my bill, the Government will therefore do two things—right a wrong, which Judge Smith says he is willing to use his good offices to assist, and at the same time, preserve hundreds of jobs. If ever there was justification for a private bill, this combination of circumstances meets the criteria.

Mr. President, I ask unanimous consent that additional material be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[Transcript]

BENCH RULING BY JUDGE LOREN A. SMITH,
APRIL 28, 1993

The CLERK: The United States Court of Federal Claims is now in session. The Honorable Loren Smith presiding.

The COURT: Please be seated. As counsel have probably talked to you, Mr. Nixon is really the main interested party in the room, so this is kind of a—I guess, Mr. McKay as a witness for the Government, I'm sure is interested, but it's kind of directed to you on the record.

I think counsel talked to you, and it always is, I think, it is important for the Judge to give the decision when the Judge feels most able to do it, and I think the fact that counsel have asked, or it's when they're both wanting to have a bench ruling at this time is good in the sense that The Court feels that it wouldn't have a different decision, it might have a little more articulate decision after several weeks or several months.

On the other hand, I think in fairness to the parties, this case has waited a lot longer than it should have for a decision, and giving it now is probably as good in meeting that need as can be done at this time. The Court also is somewhat sensitive to the fact that if the case is appealed, and the plaintiff chooses to appeal, there's probably an obligation to them, and to the defendant, and to the Federal Circuit to put it a little more coherently. So what I'm doing is this is a tentative Bench Ruling.

I mean, it's not tentative in the sense that the conclusions will change, but it's tentative in the sense that depending on what counsel want to do, and they're going to confer over the next couple of weeks, The Court will be willing to make it a final Bench Ruling, and from The Court's point of view, obviously that ends when otherwise is an additional burden on The Court.

On the other hand, I think that burden owed to the parties and to the Court of Appeals it, indeed, there is a need to appeal. So I leave that really on the recommendation or advice, even if there's a need to appeal, if parties don't feel a need for a written decision, and if the timing is desired to be rapid, I'll consider making this the final decision.

As I said, that's something I'll leave to both counsel to discuss, but I think it's important to the parties to have that discussion.

The other thing that I've suggested to counsel, and obviously have discussed it with clients, is I think there is some argument here that—in fact, not only some, but a significant argument here that the law may mandate one decision, but to the extent that this decision is by no means the classic bright line case, there is some good and logical reasons, I think, for seeing if a settlement can be worked out.

I suggested a figure which counsel mentioned, but I think that's still a worthwhile goal. And I don't suggest that when I think this is all on one side, or another decision. I've had a lot of cases where I would in effect—one of this magnitude where I recommended that the decision should be greater in favor of the contractor.

It was a Navy case as well, and a settlement was worked out, and in others where I felt that the Air Force—it was an Air Force case—where they were willing to give the contractor at the beginning of the trial a sum of money, and I recommended that at the end of the trial, they give them half that. That would be the only thing in settlement I would recommend.

This case, I think, is different. I think this is not the easy 90/10, or more appropriate, I'm surprised at how many 99/1's I get, or 1/99's. This is not that. This is a 40/60, maybe not in terms of how the amount would come out, but at least in terms of the clarity. I feel no discomfort in giving it because 60/40 is a good margin.

On the other hand, this contractor, I think, was a good contractor. The contractor tried his best, as Mr. Snuffer said in oral argument at the end, and I don't have any doubt. I found the witnesses of the contractor credible, and I find them decent and honorable

people who, I think in their best interests, were trying to do the best job possible under our free market system.

However, under the rule of law, that doesn't—it isn't motives or intentions of people that decide the law. The law is what the legal rights are. The best person who invests—they make a bad investment, they lose their money.

The worst person buys a lottery ticket, or buys an unknown stock, and is totally a bad person, if the stock goes, they make money. So that's our basic system. It's not a moral judgment on the person or the fact that the contractor tried his best, and I can do that with my students when I'm teaching law school and I give a certain percentage of points for doing your best.

On the other hand, I don't think, as a judge, it was up to me, probably I couldn't do that. But if it's under my oath, I think I have to decide what the facts show me and what the laws apply. The decision we render will be in favor of the defendants, and it's not, as I said, because there's no loss. I do believe the loss the plaintiff suffered was a legitimate loss. It was a real loss, and I have no reason to disbelieve it was in the two point eight million dollar range.

I don't think that the plaintiff, however, has met its burden of proof of showing that that loss was caused by the Form A's and Form B's. I don't think that in reviewing the evidence—and I've agonized over this case probably more than any other case that I've had in my eight years, partly because of the volume of the case, but partly because it is so much closer to a close issue that at no point did the bad guy or good guy emerge, as often happens, and surprisingly often happens.

You find that the contractor is awful, or the contracting officer just didn't know what they were doing and was outrageous. In this one, that never occurs, and I think Mr. McKay, who is sitting in the room, his testimony was very helpful because I saw him very candidly saying that on the stand when I asked him the question.

He was obviously a very strong Government witness, and yet he had the same quandaries and doubts which I find refreshing that an expert witness admits that often. There's absolutely no doubts. They knew exactly why the contractor or the Government, or whoever they were working for—why the other side messed up.

And he had the same puzzlement that I did, and it may be that there is no cause, but the only way I can grant the plaintiff recovery is if they can prove with preponderance of evidence, that it was the Form A and Form B system, and that just hasn't been done.

One of the statements made frequently by the plaintiff's witnesses, and I think credibly in their own terms—I don't think they were lying, or I don't think they were doing anything other than giving their best testimony—was the flaw of the Form A's and the large number of Form A's. Well, I think that's a fairly common characteristic when there's a problem. You're engulfed by it.

In my other hat, as chief judge manager, you've probably seen me sometimes during a trial come back, and they will come back. I mean, it will come back and say this is outrageous, this conduct of GSA, or the conduct of our people in our own organization, or whatever the particular problem.

It does engulf you, and it does seem terrible, and I've gone through periods when, you know, everything is going badly, and all the people who seem to deal with their incompetence, and you are limited particu-

larly in management of a contract for construction by what we see and experience. And I'm sure there were periods when that added to and affected the managers and colored their testimony.

In fact, I think the facts, however, don't support that. The accounting of Form A's and Form B's, it was not a—become a flood. They would give the impression they were coming in every few minutes. There were one Form A interior for each unit. There was one Form A exterior for not quite all the units. They were for buildings.

There were the Form B's, which generally were relatively short in terms of dollar volume. The magnitude did not compare with the lump sum changes. That's the sort of first sentence.

The second, and I think most powerful bit of evidence that tends to support that is the fact there was a smooth flow, and apparently an ability to schedule after Mr. Barbre and Mr. Bergovoy came forward.

And while I don't think Mr. Vallet was incompetent by any means, I think he was a good project manager, as was Mr. Durst, for whatever the reason is, they couldn't get a handle on the job, and the fact that Mr. Barbre and Bergovoy did; it seems to me, very strong proof that it wasn't the Form A's and Form B's that caused the problem primarily. I mean, they may have played a part in the problem, but that isn't the basis for awarding damages.

I think Mr. Carlson's testimony, to the contrary, was not particularly convincing. I think Mr. Carlson was attempting to do something probably way more sophisticated. His testimony raised surprising questions to The Court of putting all the Form A's and Form B's on the computer and was taking, I think he said, over a year to do that.

Some of the ideas that Mr. McKay suggested seemed to me feasible ways of scheduling the job. Again, the ultimate reinforcement is what Mr. Bergovoy and Mr. Barbre actually did in saying that his is not—Mr. McKay was not just doing this as an expert who's speculating.

The fact that Mr. Bergovoy and Mr. Barbre did do that, and that we did seek to have 80 percent flowing relatively smoothly just is inconsistent with, I think the basic theory the plaintiff puts forward.

Also, the Navy, in their concessions—I've seen cases where I consider the Government, the Navy, and two in particular, a thing of acting outrageously, and acting to a contractor as if the contractor was the enemy, and when the Navy had messed up. And yet, this case, had none of that. Mr. Fulmar was a credible witness. He was, I thought, an excellent witness, and probably my real concern in this case when I read the transcript was Mr. Fulmar's testimony was very powerful then. I found his testimony highly consistent with what he said in the first trial.

I found him to be a good witness, not in the sense of speaking, or demeanor, or those kinds of attitudes, although he wasn't bad in those, but he was a good witness in those, but he seemed to be an outstanding witness for the government in that his credibility was very unshaken.

Mr. Snuffer, as I said, is one of the better counsel I've seen. I don't say that lightly. In this Court, we get an extremely good bar. His cross-examination, I thought, was excellent, and I think it's probably the most powerful tool for finding the truth that humans have yet come up with, and yet, with what I thought was a well wielded tool, he didn't make any significant impacts on Mr. Fulmar's testimony which, to me, indicates

it was highly credible, and his actions were highly consistent.

The few things that were mentioned, the statements that Mr. Fulmar had made, were highly consistent with the manager who again is experiencing the same kinds of frustrations, concerns that Triax managers were their overstatements. That doesn't seem to me to do anything to his credibility.

His administrative conduct was credible, and there were also—I mean, I've said things to my staff that I wouldn't say to a third party because it would be misleading and unfair, but to my staff, I'd say we need this instantly when you really don't need it until the next day, but you know that if you say you need it instantly you'll probably get it before the next day. John being an exception.

The other thing, I guess, which is sort of a secondary reason for looking at the—or supports the conclusion that the burden of proof has not been met were that there were other problems that were raised, to The Court at least, were not rebutted wholly, and help—or further to reinforce The Court's view that the Form A's and the Form B's were not the total problem.

The lump sum mods were probably the first, and the order of magnitude of those was about three times the Form A's and Form B's, and it just was not shown to the extent that the Form A's and Form B's proved a significant impact. The met lump sums would not have proved a much more significant impact.

The problem, at least from the flow of work that The Court was able to analyze—and I think I've chewed on this case more than I've ever done any other case—is that those management—those lump sums fit into a pattern of management problems.

Management problems existed during Mr. Durst and Mr. Vallet's period, not because Mr. Durst or Mr. Vallet were incompetent, but whatever the reason is, they existed. The submittals, some of the labor problems, I don't think it was shown that they caused the impacts of delays. But at least they were indicative that the management wasn't flowing smoothly early in the job.

With respect to labor and efficiencies, maybe that's another aspect of that. They, themselves, were not the problem, but both the management problems that existed undercut the plaintiff's and really convinced The Court, or take away the convincing that the plaintiff has to make that the burden of proof that the plaintiff has, that it was the Form A's and Form B's that caused the problem.

The bid adequacy also raised some questions in The Court's mind. The fact we don't have the bid, the fact that there was a significant loss, labor was significantly higher than the actual trial balance that Mr. Simmons prepared was almost three—not quite three times what it had been estimated to be, two-and-a-half times.

And that really relates to the management of labor, given the amount of Form A and Form B work, The Court does not think the explanation that this was called caused by the Form A and Form B explains those labor problems.

There's some other issues that are somewhat peripheral, but I think they've been raised, so no need to give maybe quick reasons. That's the core of the opinion. I don't believe that the plaintiff has met its burden in proving the Form A and Form B's were the problem, and in fact, the evidence into The Court indicates they weren't the primary problem, although it is also The

Court's believe that they did impact negatively on the plaintiff, which is again why I suggested that there are reasons for settling this case on the basis of fairness.

The site visit, I don't think, was a problem. The plaintiff—none of the impact the plaintiff had on the contract—or the site visit—let me rephrase that. The Government alleged that the failure to make the site visit was a contributing cause. I don't think that's true in any way.

As Mr. McKay admitted, and I think it enhanced his credibility, he admitted that same thing, and I thought, again, that that reinforced his analysis. A site visit was what I had indicated before in the sense of a red herring. Mod 7 is a closer call, but I think it seems to be clear that the Plaintiff did not into an accord and satisfaction.

I did have some questions about Mr. Barbre's testimony as being a little bit inconsistent on citing Mod 7, but I don't think we needed to get to that. It was clear that all through this, the plaintiff was engaged in a controversy, but before Mod 7 and after Mod 7, it's just not credible that Mod 7 was intended to work in accord and satisfaction.

The issues of shop submittals, and the various quality problems that were raised as possible causes, again by the Government of the problems, I don't think there was any proof that the shop submittals significantly delayed the project nor the quality problems. On the other hand, they do win further support that the problem was management at the job site and not at least in the early part of the contract, at the job site rather than Form A and B's.

Some other things in that same category were stealing. I didn't see any indication that there was anymore stealing on this project, or anymore drunkenness, or anymore absenteeism than there are on other construction projects, and those were not the causes.

And I guess, frankly, The Court is not still a hundred percent sure what the causes were, but it has to make a decision on the plaintiff's burden of proof, and The Court believes the plaintiff has not met its burden of Proof that Form A and Form B system was the cause, and in fact, it feels fairly, I guess, strongly that the Government has proven that that wasn't the sole cause, or even the primary cause.

One of the things that was cited in a lot of the testimony, so I should comment on it, is the fact that the plaintiff was an experienced and successful renovation contractor. And I think that was proven. There was support for that. It was a credible position and I saw no evidence to really disprove that; in fact, some to support that.

On the other hand, that can't count as the same kind of weight that certain other types of past practice count as when we're dealing with documents. The fact that one has processed 50,000 documents in a certain way puts very strong evidence on the fact that the document in question was processed the same way, and that's almost proof itself. In fact, in the Federal Rules of Evidence in the business records area, and the burden is totally on the other side to prove that wasn't the case.

In this kind of situation, however, it seems the fact that plaintiff was a successful and competent contractor and its officials and people were competent can't count very much as proof, in this case, it was competent simply because even the best companies make bad mistakes, or miscalculations, or do things that are not what you would expect, and that isn't a way that a court can

judge something because the contractor is a good contractor that counts as a significant part of evidence in the case.

I mean, maybe if there were 50,000 contracts and this is the first one that anything went bad with, you're starting to get to the business records level of certainty. Given the history of Triax, if one was evaluating it to hire it as a contractor, it would certainly count for a lot, and I think it's a competent contractor.

To the extent that that proves that it didn't make either mistakes in its bid, or mistakes in the management of the job, that doesn't count for much weight because the fact that you've had 20 contracts that have been well run doesn't mean that one out of 20 a mistake is bad.

These are tragic mistakes and crazy people, although it can cost a great deal of money, but they're mistakes that were made in bidding, which is a complex thing, or a mistake in the general management of a job.

I'm still puzzled by the loss, why it became as great as it was and had the impact it had on the Plaintiff. I don't know the answer to that. I guess that's one of the things that's probably most disturbing to me because I think the worst thing as a judge that you can do is if there's any harm to a party, that they don't deserve to suffer, you want to remedy that harm.

You want to provide that party with redress. I guess that's what courts are for, in general, and in the specific instance when we can't do that, it's always unsettling. I mean, I hate to—hate is maybe too strong of a word. I find it very tough to issue a decision on the Statute of Limitations question when the party looks like it's clearly entitled to the relief, but for the Statute of Limitations question.

But that, after all, is the role of the law. It's not—if we wanted just to appear whenever the person is right and good, we wouldn't have rules like the Statute of Limitations, or other structural rules. So you don't, when there is real harm that's legally been suffered and to which the parties should not legally have to suffer, it's very hard not to give relief.

And that's why, I guess, I've agonized over it as much, but I just have not been able to seem that that harm was caused by the Form A and Form B primarily, or that the burden of proof was met to show that that was the cause, and therefore, I have to enter judgment in favor of the defendant.

I would hope that there is some possibility the parties can settle, or obviously the possibility of an appeal, and so I think the moral factor that I think the plaintiff was hurt by the Form A and Form B's, and therefore, in looking at this, as I think it's the Government's interest to look at things as not only what the legal issues are, but what's the right thing to do, and I hope that counsel—encouraging to me that the counsel in this case on both sides, I thought very reasonable on both sides, is committed to doing what is right and just.

I hope there is some possibility of working that out. The Court will be happy to use its good offices to that extent and as I said, I have not been hesitant in the past about telling when I think settlement is appropriate of caving in, or when settlement is appropriate of giving the party, not even the money they retained from them because the parties acted egregiously, and in this case, I think there are good reasons for settlement.

I thank both counsel and all the witnesses, and I think that The Court has been well served by its counsel.

By Mr. INOUE:

S. 1654. A bill to make certain technical corrections; to the Committee on Indian Affairs.

INDIAN LAND AND WATER CLAIMS TECHNICAL CORRECTIONS ACT OF 1993

Mr. INOUE. Mr. President, I rise to introduce a bill to provide technical amendments to certain laws enacted to resolve Indian land and water claims against the Federal Government and for other purposes.

I ask that the bill and the explanation of amendments be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1654

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. NORTHERN CHEYENNE INDIAN RESERVED WATER RIGHTS SETTLEMENT ACT OF 1992.

(a) ENVIRONMENTAL COSTS.—Section 7(e) of the Northern Cheyenne Indian Reserved Water Rights Settlement Act of 1992 (Public Law 102-374, 106 Stat. 1186 et seq.) is amended by adding at the end thereof the following new sentences: "All costs of environmental compliance and mitigation associated with the Compact, including mitigation measures adopted by the Secretary, are the sole responsibility of the United States. All moneys appropriated pursuant to the authorization under this subsection are in addition to amounts appropriated pursuant to the authorization under section 7(b)(1) of this Act, and shall be immediately available."

(b) AUTHORIZATIONS.—The first sentence of section 4(c) of the Northern Cheyenne Indian Reserved Water Rights Settlement Act of 1992 (Public Law 102-374; 106 Stat. 1186 et seq.) is amended to read as follows: "Except for authorizations contained in subsections 7(b)(1)(A), 7(b)(1)(B) and 7(e), the authorization of appropriations contained in this Act shall not be effective until such time as the Montana water court enters and approves a decree as provided in subsection (d) of this section."

(c) EFFECTIVE DATE.—The amendments made by this section shall be considered to have taken effect on September 30, 1992.

SEC. 2. SAN CARLOS APACHE TRIBE WATER RIGHTS SETTLEMENT ACT OF 1992

(a) AMENDMENT.—Section 3704(d) of the San Carlos Apache Tribe Water Rights Settlement Act of 1992 (Public Law 102-575) is amended by deleting "reimbursable" and inserting in lieu thereof "nonreimbursable".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall be considered to have taken effect on October 30, 1992.

SEC. 3. TRIBALLY CONTROLLED COMMUNITY COLLEGES.

The part of the text contained under the heading "BUREAU OF INDIAN AFFAIRS", and the subheading "OPERATION OF INDIAN PROGRAMS", in title I of the Department of the Interior and Related Agencies Appropriations Act, 1994, which reads "Provided further, That any funds provided under this head or previously provided for tribally controlled community colleges which are distributed prior to July 1, 1994 which have been or are being invested or administered in compliance with section 331 of the Higher Education Act shall be deemed to be in compliance for current and future purposes with

title III of the Tribally Controlled Community Colleges Assistance Act." is amended by deleting "section 331 of the Higher Education Act" and inserting in lieu thereof "section 332(c)(2)(A) of the Higher Education Act of 1965".

SEC. 4. WHITE EARTH RESERVATION LAND SETTLEMENT ACT OF 1985.

Section 7 of the White Earth Reservation Land Settlement Act of 1985 (25 U.S.C. 331, note) is amended by adding at the end thereof the following:

"(f)(1) The Secretary is authorized to make a one-time deletion from the second list published under subsection (c) or any subsequent list published under subsection (e) of any allotments or interests which the Secretary has determined do not fall within the provisions of subsection (a) or (b) of section 4, or subsection (c) of section 5, or which the Secretary has determined were erroneously included in such list by reason of misdescription or typographical error.

"(2) The Secretary shall publish in the Federal Register notice of deletions made from the second list published under subsection (c) or any subsequent list published under subsection (e).

"(3) The determination made by the Secretary to delete an allotment or interest under paragraph (1) may be judicially reviewed in accordance with chapter 7 of title 5, United States Code, within 90 days after the date on which notice of such determination is published in the Federal Register under paragraph (2). Any legal action challenging such a determination that is not filed within such 90-day period shall be forever barred. Exclusive jurisdiction over any legal action challenging such a determination is vested in the United States District Court for the District of Minnesota."

EXPLANATION OF AMENDMENTS

Section 1 clarifies provisions regarding funding and responsibility for environmental compliance associated with the repair and enlargement of Tongue River Dam. The amendment is a revised version of Senate language that was deleted from the Energy and Water Appropriations bill while in conference following receipt of an objection from the Administration. The committee understands that the revised language is acceptable to the Administration.

The Northern Cheyenne Settlement Act ratifies a Water Rights Compact negotiated by the Tribe, the State of Montana, and federal representatives. The Act and the Compact provide for the United States and Montana to fund jointly the work on the currently unsafe Tongue River Dam. All of the additional water resulting from the enlargement would benefit the Tribe.

Section 7(b) of the Act authorizes \$31.5 million in federal appropriations through fiscal year 1997 for the dam project. \$700,000 is authorized for each of fiscal years 1993 and 1994; however, Section 4(c) of the Act conditions the effectiveness of the remaining authorizations on the Montana water court's entering and approving a settlement decree.

Section 7(e) contains a separate authorization for "such sums as are necessary" for fiscal year 1993 and each fiscal year thereafter, "to carry out all necessary environmental compliance associated with the Compact, including mitigation measures adopted by the Secretary (of the Interior)".

After the settlement was enacted, it became apparent that the State and Interior's representatives held different views regarding the settlement's provisions regarding environmental compliance. To clarify the mat-

ter, the Montana delegation and Senators Inouye and McCain, in a February 24, 1993, letter to Secretary Babbitt, wrote:

"Environmental compliance due to the raising of the reservoir is clearly a federal responsibility since all additional storage has been allocated to the Northern Cheyenne Tribe. The intent of the legislation is to authorize funding for environmental compliance in addition to the funding for project construction contained in Section 7(b). The Congressional Budget Office estimate of total authorizations contained in both the House and Senate Committee reports for P.L. 102-374 reflects this intent".

To clarify this intent in the statute and to authorize federal reimbursement to Montana prior to the water court's issuing a settlement decree, the Senate added language to the Fiscal 1994 Energy and Water Appropriations bill. Regrettably, the proposed language inadvertently eliminated the Section 4(c) condition that the Montana water court decree must be issued before the authorizations of 1995 through 1997 fiscal year funding become effective. The Administration objected, and the language was dropped.

The revised amendment is intended to accomplish three purposes: (1) to amend section 7(e) to make clear that all costs of environmental compliance and mitigation associated with the Compact, including mitigation measures adopted by the Secretary, are the sole responsibility of the United States; (2) to make clear that section 7(e) environmental compliance funds are authorized in addition to funds authorized in section 7(b)(1) for the Tongue River Dam project; and, (3) to amend section 4(c) to make clear that section 7(e) funds can be expended prior to the Montana water court's issuance of a settlement decree.

Sec. 2 would correct an error in the text of the San Carlos Apache Tribe Water Rights Settlement Act, Title 37 of the Omnibus Reclamation amendments, P.L. 102-575, 106 Stat. 4600, by changing the word "reimbursable" in the last sentence of subsection 3740(d) to "nonreimbursable". Failure to correct this error could jeopardize implementation of the settlement.

The Central Arizona Water Conservation District (CAWCD), which operates the Central Arizona Project (CAP), charges contractors of municipal and industrial category water for a portion of the CAP's construction cost, together with a share of operation and maintenance costs, for each acre-foot of water. Construction costs for the Indian category water are deferred under the Leavitt Act and are not a reimbursable cost for the CAWCD. Where the parties to Arizona water rights settlements have agreed that some amount of CAP non-Indian M&I water will become Indian water, the obligation to pay construction costs associated with that water ceases to be a reimbursable obligation of the CAWCD and becomes a deferred obligation of the United States (operation and maintenance costs are usually paid by the tribe or by its lessees).

Subsections (a), (c) and (d) of Section 3704 each provide for reallocating CAP water from the M&I category to the Indian category. The last sentence of each subsection is intended to make clear, in identical language, that with the reallocation the CAWCD shall no longer be obligated to pay any construction costs associated with that water. The last sentence of subsections (a) and (c) read as follows:

"The Secretary (of the Interior) shall exclude, for the purposes of determining the allocation and repayment of costs of the CAP

(Central Arizona Project) as provided in Article 9.3 of contract No. 14-0906-09W-09245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be *nonreimbursable*." (emphasis added)

Inexplicably, the last word of the same sentence in subsection (d) appeared in the final version of the act as "reimbursable". The amendment would change it to "non-reimbursable" as intended by the committee and all parties to the settlement. Without the change, the subsection does not make sense and as such would operate to deny the Tribe the opportunity to lease or otherwise benefit from the water.

Sec. 3 corrects a citation in the Department of the Interior and Related Agencies Appropriations Act, 1994, to conform with the intention stated by the Interior Appropriations Subcommittee in S. Rept. 103-114 to "continue to permit the investment of tribal colleges' endowment funds in Government securities, rather than in federally insured banks or savings and loan institutions." The corrected citation will accomplish this intention. The citation struck, Section 331 of the Higher Education Act of 1965, was repealed by P.L. 102-325.

Sec. 4 corrects problems that have arisen as a result of the publication of the identification of parcels of land in the Federal Register. Pursuant to the Act, there have been a number of parcels of land listed in the Federal Register as consisting of allotments or interests therein which had been determined to fall within one or more of the provisions food Sections 4(a), 4(b) or 5(c) of the Act but which determinations were, in fact, erroneous. These erroneous determinations occurred for a variety of reasons, including simple typographical errors in the land descriptions. The majority of the parcels, however, were determined to qualify under the Act based on information thought to be complete at the time, but upon receipt of additional information, such as precise birth dates of allottees or heirs, they have subsequently been determined not to qualify.

Because listing of a parcel in the Federal Register pursuant to Section 7 of the Act requires that a compensation determination be made with respect to moneys owned for loss of that allotment or interest therein, it is necessary to delete those parcels as to which compensation is not owed. There is currently no authorization to correct errors previously made or to delete parcels erroneously included on previous lists.

It is also necessary to limit the ability to make such deletions, so that there will be no uncertainty with respect to the title clearing benefits of previous publications. It is also necessary, however, to permit a limited time within which to challenge inclusion of a parcel on the list of deletions to be published in the Federal Register, in the event anyone with an interest in a given parcel has relied on a previous listing, possibly to his detriment.

By Mr. JEFFORDS:

S. 1655. A bill to reform certain statutes regarding civil asset forfeiture; to the Committee on the Judiciary.

CIVIL ASSET FORFEITURE REFORM ACT

• Mr. JEFFORDS. Mr. President, I introduce the Civil Asset Forfeiture Reform Act [CAFRA]. This bill would reform certain statutes to make the procedures used in connection with civil

asset forfeiture proceedings more equitable.

Many Vermonters who saw the "60 Minutes" program or any of the many other media reports on this topic over the past few years were surprised to learn about the mere existence of forfeiture laws. Further, they were shocked and dismayed by the abuses which these reports have documented. I suspect that they are like most Americans in this. Those who have contacted me opposing these laws did so primarily because of the devastating psychological impact that the confiscation of homes can have on the innocent children who live in them.

In the State of Vermont, this issue has been widely discussed in connection with the case of the Manning family. The Manning parents were accused, and eventually convicted, of Federal drug violations. The Government also commenced a civil forfeiture action against the Manning's sole asset, the farm on which they lived with their four children. I was active in the Manning case in attempting to get the U.S. attorney to think in terms of a trust for the kids and to allow them to continue living on the farm even if confiscated. That idea has been adopted and proceedings to establish the beneficial trust for the children are now almost complete. However, achieving that result required extraordinary efforts on the part of a large number of people. The need for all that extra effort would be unnecessary if the reforms contemplated in this bill are enacted.

Mr. President, the idea of the Government confiscating assets that drug traffickers and other criminals have used in connection with their criminal enterprises, or bought with their ill-gotten profits, is a good one. I do not want to hinder the legitimate pursuit of this objective. The value of these seizures in 1992 was over half a billion dollars. Those funds are available for use by Federal, State, and local law enforcement agencies in their continuing efforts to fight crime, and this is good.

However, the problem is that too often the property or cash taken are not owned by criminals, but by parties innocent of any crime. As much as 80 percent of the people whose property is seized are never charged with, let alone convicted of, a crime. Further, because forfeiture is a civil proceeding, not a criminal one, the seizure process is easily accomplished by the Government, but is extremely difficult for the property owner to reverse.

We should be able to accomplish these goals without trampling on the rights of innocent citizens or creating perverse incentives for law enforcement officers to cross the lines of propriety and engage in the types of abuses which increasingly have been disclosed in the media.

The bill which I introduce today, Mr. President, was first offered in the

House of Representatives by my good friend and colleague Representative HENRY HYDE. I give him full credit for advancing this issue as he has in the other body. Further, it gives me great pleasure that we share our views on this issue and share the support of the American Civil Liberties Union and the National Association of Criminal Defense Lawyers. I see this as strong indication that those across the political spectrum can see gross injustice which can result from civil asset forfeiture and take action to address the need for reform.

Mr. President, I have spoken with the distinguished chairman and ranking member of the Judiciary Committee regarding my interest in this matter, and they have agreed to work with me in pursuing legislative reforms to address the abuses which exist. I thank them for their cooperation and look forward to working with them and our other interested colleagues to advance this legislation.

The terms of the bill are relatively simple, and its objectives are modest at best. I hope that my colleagues will give it the serious consideration which it deserves, and I invite those of you who are like-minded on this issue to join me in sponsoring this measure.

Mr. President, I ask unanimous consent that the text of the bill and additional material be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1655

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Civil Asset Forfeiture Reform Act".

SEC. 2. LIMITATION OF CUSTOMS AND TAX EXEMPTION UNDER THE TORT CLAIMS PROCEDURES.

Section 2680(c) of title 28, United States Code, is amended by striking "law-enforcement officer" and inserting "law enforcement officer, except that this chapter and section 1346(c) shall apply to a claim based on the negligent destruction, injury, or loss of goods or merchandise (including real property) while in the possession of an officer of customs or excise or any other law enforcement officer".

SEC. 3. LONGER PERIOD FOR FILING CLAIMS IN CERTAIN IN REM PROCEEDINGS.

Rule C(6) of the Supplemental Rules for Certain Admiralty and Maritime Claims to the Federal Rules of Civil Procedures (28 U.S.C. App.) is amended by striking "10 days" and inserting "60 days".

SEC. 4. CLAIM AFTER SEIZURE.

Section 608 of the Tariff Act of 1930 (19 U.S.C. 1608) is amended to read as follows:

"SEC. 608. SEIZURE; CLAIMS; REPRESENTATION.

"(a) IN GENERAL.—

"(1) FILING OF CLAIM.—At any time within 60 days after the date on which a notice of seizure is first published, a person who claims a vessel, vehicle, aircraft, merchandise, or baggage seized under a law described in section 605 may file with the appropriate

customs officer a claim stating the person's interest in the property.

"(2) CONDEMNATION.—On filing of a claim under paragraph (1), the customs officer shall transmit the claim, with a duplicate list and description of the articles seized, to the United States attorney for the district in which the seizure was made, who shall proceed to a condemnation of the merchandise or other property in the manner prescribed by law.

"(b) COURT-APPOINTED COUNSEL.—

"(1) IN GENERAL.—If a person filing a claim under subsection (a), or a claim regarding property seized under another law that incorporates by reference the seizure, forfeiture, and condemnation procedures of the customs laws, is financially unable to obtain representation of counsel, the court may appoint appropriate counsel to represent the person with respect to the claim.

"(2) COMPENSATION.—(A) The court shall set the compensation for counsel appointed under paragraph (1) in an amount that is equivalent to that provided for counsel appointed under section 3006A of title 18, United States Code.

"(B) Compensation of counsel appointed under paragraph (1) shall be paid from the Justice Assets Forfeiture Fund established under section 524 of title 28, United States Code."

SEC. 5. BURDEN OF PROOF IN FORFEITURE PROCEEDINGS.

Section 615 of the Tariff Act of 1930 (19 U.S.C. 1615) is amended to read as follows:

"SEC. 615. BURDEN OF PROOF IN FORFEITURE PROCEEDINGS.

"(a) IN GENERAL.—In a suit or action described in subsection (b), the burden of proof is on the Government to establish by clear and convincing evidence that the property is subject to forfeiture.

"(b) SUITS AND ACTIONS DESCRIBED.—A suit or action is described in this subsection if it is—

"(1) a suite or action (other than a suit or action arising under section 592) brought for the forfeiture of a vessel, vehicle, aircraft, merchandise, or baggage seized under any law relating to the collection of duties on imports or tonnage; or

"(2) a suit or action brought for the recovery of the value of any vessel, vehicle, aircraft, merchandise, or baggage, because of a violation of that law."

SEC. 6. RELEASE OR SEIZED PROPERTY FOR SUBSTANTIAL HARDSHIP.

Section 614 of the Tariff Act of 1930 (19 U.S.C. 1614) is amended—

"(1) By inserting "(a) RELEASED UPON PAYMENT.—" before "If"; and

"(2) by adding at the end the following new subsection:

"(b) RELEASE OF SEIZED PROPERTY FOR SUBSTANTIAL HARDSHIP.—

"(1) REQUEST FOR RELEASE.—(A) A claimant is entitled to immediate release of seized property if continued possession by the Government would cause the claimant substantial hardship.

"(B) A claimant seeking release of property under this subsection shall—

"(i) request possession of the property from the appropriate customs officer; and

"(ii) state in the request the basis for such release.

"(2) CIVIL ACTION.—(A) If, within 10 days after the date on which a request is made under paragraph (1), the subject property has not been released, the claimant may file a complaint in any district court that would have jurisdiction over forfeiture proceedings relating to the property.

"(B) A complaint under subparagraph (B) shall state—

"(i) the nature of the claim to the seized property;

"(ii) The reason why the continued possession by the United States Government pending the final disposition of forfeiture proceedings will cause substantial hardship to the claimant; and

"(iii) the steps that the claimant has taken to secure release of the property from the appropriate customs officer.

"(3) RETURN OF PROPERTY.—If a complaint is filed under paragraph (2), the district court shall order that the property be returned to the claimant, pending completion of proceedings by the United States Government to obtain forfeiture of the property, if the claimant shows that—

"(A) the claimant is likely to demonstrate a possessory interest in the seized property; and

"(B) continued possession by the United States Government of the seized property is likely to cause substantial hardship to the claimant.

"(4) CONDITIONS. The court may place such conditions on release of the property as the court finds are appropriate to preserve the availability of the property or its equivalent for forfeiture.

"(5) TIME FOR DECISION.—The district court shall render a decision on a complaint filed under paragraph (2) no later than 30 days after the date of the filing, unless such 30-day limitation is extended by consent of the parties or by the court for good cause shown."

SEC. 7. JUSTICE ASSETS FORFEITURE FUND.

Section 524(c) of title 28, United States Code, is amended—

(1) in paragraph (1)—

(A) in the matter preceding subparagraph (A) by striking "law enforcement";

(B) by redesignating subparagraphs (H) and (I) as subparagraphs (I) and (J), respectively; and

(C) by inserting after subparagraph (G) the following new subparagraph:

"(H) payment of court-awarded compensation for representation of claimants pursuant to section 608(b) of the Tariff Act of 1930;"; and

(2) in paragraph (9)(A), by striking "(H)" and inserting "(I)".

SEC. 8. CLARIFICATION REGARDING FORFEITURES UNDER THE CONTROLLED SUBSTANCES ACT.

Section 511(a)(7) of the Controlled Substances Act (21 U.S.C. 881(a)(7)) is amended by striking "without the knowledge or consent of that owner" and inserting "either without the knowledge of that owner or without the consent of that owner".

SEC. 9. APPLICABILITY.

The amendments made by this Act apply with respect to claims filed under section 608 of the Tariff Act of 1930 and suits and actions filed under section 615 of that Act on or after the date of enactment of this Act.

SUMMARY: CIVIL ASSET FORFEITURE REFORM ACT

What Does the Civil Asset Forfeiture Reform Act (CAFRA) Do?

1. Switches the Burden of Proof:

Currently, the property owner, not the government, must meet the burden of proof when her or she tries to get property back. All the government needs to do is make an initial showing of probable cause that the property is "guilty"; the property owner must then establish by a preponderance of the evidence that the property is innocent or otherwise not subject to forfeiture.

"This probable cause standard for seizure allows the government to dispossess property owners based only upon hearsay or innuendo—'evidence' of insufficient reliability to be admissible in courts of law." Reed, American Forfeiture Law: Property Owners Meet the Prosecutor 3 (CATO Institute Police Analysis No. 179, 1992).

While it has been argued that civil forfeiture is criminal (punitive) in nature and, therefore, should require the government to prove its case, courts have not accepted this argument. See Stahl, Asset Forfeiture, Burdens of Proof and the War on Drugs, 83 J. Crim. L. & Criminology 274 (1992).

CAFRA switches the burden of proof to the government. It would have to prove by clear and convincing evidence that the property is subject to forfeiture—that the unlawful act on which the forfeiture is based actually occurred and that there is a sufficient nexus between the property and the unlawful act. [The bill amends 19 U.S.C. Sec. 1615 because most federal forfeiture statutes rely on this provision of the customs law to set the burden of proof in forfeiture proceedings.]

The clear and convincing evidence standard is used by the State of New York in its drug forfeiture law. See New York CPLR Sec. 1311(3). It is also the standard that the Supreme Court of Florida ruled was mandated by the due process clause of that State's constitution:

"In forfeiture proceedings the state impinges on basic constitutional rights of individuals who may never have been formally charged with any civil or criminal wrongdoing. This Court has consistently held that the [Florida] constitution requires substantial burden of proof where the state action may deprive individuals of basic rights."—*Department of Law Enforcement v. Real Property*, 588 So.2d 957, 967 (Fla. 1991).

2. Provides Counsel for Indigent Property Owners:

Currently, there is no effective right to appointed counsel in civil forfeiture cases. (Before *Lassiter v. Department of Social Services*, 452 U.S. 18 (1981), a constitutional right to appointed counsel was only recognized in cases where a litigant might lose his or her physical liberty. While *Lassiter* set up a balancing test in other situations, the Alaska Supreme Court in *Resek v. State*, 706 P.2d 288 (Alaska 1985), rejected the argument that counsel should be appointed in civil forfeiture cases.)

CAFRA would provide representation for counsel for whomever is financially unable to obtain representation to challenge a federal civil forfeiture. Maximum compensation would not exceed \$3500 per attorney for representation at the district court level, and \$2500 per attorney for appellate court representation. [These sums are equivalent to the maximums for appointed counsel in federal felony cases. See 18 U.S.C. Sec. 3006A(d)(2).]

Further, in cases of "extended or complex" representation, waivers may be obtained from the chief judge of the circuit for payments in excess of the minimums. 18 U.S.C. 3000A(d)(3). Money for this purpose will come from the Justice Assets Forfeiture Fund. 21 U.S.C. 881(a)(7).

3. Protects Innocent Real Property Owners:

Real property used or intended to be used in any manner to commit or facilitate a federal drug crime is forfeitable unless the violation was "committed or omitted without the knowledge or consent of [the] owner. 21 U.S.C. Sec. 881(a)(7). This language is meant to protect innocent owners. However, a num-

ber of federal courts have seriously eroded the provision's protections by ruling that the owner must both have had no knowledge of and provided no consent to the prohibited use of the property. See e.g., *United States v. Lot 111-B, Tax Map Key 4-4-03-71(4)*, 902 F.2d 1443 (9th Cir. 1990).

This interpretation of Sec. 881(a)(7) would mean that property owners like Jesse Bunch would be out of luck. Mr. Bunch owned a bar and residential apartments in a highly active drug trafficking area. He did know of the drug selling activity, but took many steps to prevent it. He fired two bartenders after they were arrested at the bar for drug violations, evicted two residents following their arrests, restricted use of the restrooms, posted signs advising patrons that they were subject to search and seizure, restricted the bar's hours of operations and periodically called police to report drug activity in the vicinity of his property. However, the drug activity continued and his property was seized by the government. See *United States v. All Right, Title & Interest in Property Known as 710 Main Street, Peekskill, N.Y.*, 744 F. Supp. 510 (S.D.N.Y. 1990).

Luckily for Mr. Bunch, the court ruled that he was protected by the innocent owner defense because of his lack of consent to the illegal drug trafficking and his reasonable efforts to put it to an end. "Mr. Bunch, who was trying to eke out an income from a business located in a drug-infested area that posed great risks to the safety of him and his family * * * fulfilled his legal obligation." *United States v. All Right, Title & Interest in Property Known as 710 Main Street, Peekskill, N.Y.*, 753 F. Supp. 121, 125 (S.D.N.Y. 1990). This is only fair and should be the proper interpretation of the innocent owner defense. CAFRA would clarify that lack of consent to (including reasonable efforts to prevent) illegal activity is a valid defense to forfeiture by a property owner.

4. Eliminates the Cost Bond Requirement:

Under current law, a property owner wanting to contest the seizure of property must post a bond in the amount of the lesser of \$5000 or 10% of the seized property's value (but not less than \$250). 19 U.S.C. Sec. 1608. This money is to cover court and storage costs should the government win. The cost bond requirement is unconstitutional as applied to indigent claimants. See *Wren v. Eide*, 542 F.2d 757, 763-64 (9th Cir. 1976). Further, it serves little purpose in other cases.

There is no reason that a person whose property is seized by the government should have to post a bond to defray the government's litigation and storage expenses in order to have a right to day in court to contest forfeiture. This requirement, along with the high cost of obtaining legal counsel, is a prime reason why so many forfeitures are not contested.

CAFRA would abolish this cost bond requirement.

5. Provides a Reasonable Time for Challenging a Forfeiture:

Under current law, a property owner wanting to challenge a forfeiture must "file his claim with 10 days after process has been executed." Supp. Rule of Civil Procedure for Certain Admiralty and Maritime Claims C(6). [This is the date when a U.S. court takes possession of the property through "arrest" by a federal marshal, not the date of initial seizure by a law enforcement officer.] This time period is woefully inadequate.

"Even assuming that notice is published the next day after process is executed, the reader of the notice will have a mere nine

days to file a timely claim. Most local rules require that notice be published for three consecutive weeks, on the assumption that interested parties will not necessarily see the first published notice. But by the time the second notice is published, more than ten days will have elapsed from the date process was executed. Thus anyone who misses the first published notice will be unable to comply with the exceedingly short time limitation for filing a claim."—Smith, Prosecution and Defense of Forfeiture Cases Sec. 9.03(1).

Even though this time limit is sometimes ignored in the interests of justice, failure to file a timely claim can result in judgment in favor of the government.

CAFRA would lengthen this period to 60 days.

6. Provides a Remedy for Property Damage Caused by Government Negligence:

Under current law, the federal government is exempted from liability under the Federal Tort Claims Act for damages caused by negligent handling or storage of property detained by law enforcement officers. See *Kosak v. United States*, 465 U.S. 848 (1984).

"Seized conveyances devalue from aging, lack of care, inadequate storage, and other factors which awaiting forfeiture. They often deteriorate—engines freeze, batteries die, seals shrink and leak oil, boats sink, salt air and water corrode metal surfaces, barnacles accumulate on boat hulls, and windows crack from heat. On occasion, vandals steal of seriously damage conveyances."—United States Gerald Accounting Office, Better Care and Disposal of Seized Cars, Boats, and Planes Should Save Money and Benefit Law Enforcement ii (GAO/PLRD-83-94, 1983).

Vacant and boarded-up real property is especially subject to deterioration. Further, government agents sometimes destroy seized property in the futile searches for contraband goods.

CAFRA would simply allow property owners to sue the government for negligent damage to their property.

7. Allows for the Return of Property Pending Final Disposition of a Case:

Under current law, seized property can be released pending the outcome of a case upon payment of a full bond (*i.e.*, the case value of the property). See 19 U.S.C. Sec. 1514. However, a property owner who cannot afford to secure such a bond is out of luck. In cases where the property is used in a business, its lack of availability for the extended time necessary to win a victory in court can force an owner into bankruptcy. Often, the property owner must settle with the government, even where the government's case is weak, merely to regain active use of the property.

CAFRA specifies that property can be released if continued possession by the government would cause the claimant substantial hardship. However, such conditions may be placed on release as are necessary and appropriate to preserve the availability of the property (or its equivalent) for forfeiture should the government eventually prevail.

CAFRA Does Not Affect State Asset Forfeiture Laws.

At least 45 states have adopted their own forfeiture laws. CAFRA would not directly affect these statutes. However, the bill would discourage the practice known as "adoptive forfeitures." Under this practice, state law enforcement officers seize property under state law and bring it to a federal agency for federal forfeiture (provided that violation of a federal statute is alleged to have occurred and the property is forfeitable under federal law). The feds then return 85% of the net proceeds to the state or local agency that initi-

ated the case. Adoptive forfeiture is often relied upon to circumvent state laws allocating forfeited assets to non-law enforcement uses. For example, in Missouri, all forfeited funds go to the state's general fund. See Mo. Ann. Stat. 513.623. Since CAFRA would make the procedural going rougher for the government in federal court, many state officials would presumably decide to stick with their state courts. The result would be more money going to education, drug treatment, and other services funded by forfeiture under state laws.

Enactment of CAFRA would also take away the ability of state law enforcement officials to seize property under federal law to get around state procedural safeguards.●

By Mr. BENNETT (for himself and Mr. SIMON):

S. 1656. A bill to amend chapter 44 of title 18, United States Code, to strengthen Federal standards for licensing firearms dealers and heighten reporting requirements, and for other purposes; to the Committee on the Judiciary.

FEDERAL FIREARMS LICENSE REFORM ACT OF 1993

Mr. BENNETT. Mr. President, I rise today to introduce the Bennett Simon bill on Federal firearms license reform and to clarify the intent of the legislation. The legislation I am introducing today makes improvements in the application process for a Federal firearms license and tightens some of the parameters for conducting a legitimate retail firearms business. The changes that will occur upon the enactment of this legislation will in no way hamper or restrict the ability of a federally licensed dealer to conduct business as usual. Indeed, the intent of this legislation is to codify the accountability of responsible dealers—in effect, these changes will be little noticed by legitimate and responsible firearms dealers.

It has been brought to my attention that allegations of harassment on the part of the Bureau of Alcohol, Tobacco and Firearms [BATF] in the past have made many responsible small gun shop owners leery of the agency established to monitor and regulate the sale of guns in our country. While this legislation includes a provision which will allow BATF additional flexibility in conducting a compliance inspection associated with the trace of a gun used in committing a crime, it is in no way our intent to give free rein to BATF to conduct unmerited compliance inspections on legitimate and responsible gun dealers. I believe that many of my colleagues in this body would join me in condemning such harassment by the Federal Government. Again, I wish to reiterate, the intention of this amendment is to strengthen current law in an effort to improve the Federal Firearms License Program.

I also want to acknowledge the leadership of my distinguished colleague, Senator PAUL SIMON, for his assistance in working out the issues contained in this legislation.

By Mr. HATCH (for himself and Mr. THURMOND):

S. 1658. A bill to establish safe harbors from the application of the anti-trust laws for certain activities of providers of health care services, and for other purposes; to the Committee on the Judiciary.

THE HEALTH CARE ANTITRUST IMPROVEMENTS ACT OF 1993

Mr. HATCH. Mr. President, there have been dramatic changes in the health care marketplace since I came to the Congress.

We have seen the government encourage hospital construction, with Federal aid from the Hill-Burton Program.

And, we have seen the government encourage hospital closures and consolidations, with the pressures for efficiency forced by the Prospective Payment System and other Medicare reimbursement changes.

We have seen the government work to limit the flow of technological advances to the marketplace, with implementation of the Health Planning and Resources Development Act, Public Law 83-641.

And, we have seen the government recognize that consumers want and need access to the latest medical technology breakthroughs. As a matter of fact, I helped lead the efforts in 1986 to repeal the health planning.

We have seen the government encourage the education of health care providers, with programs such as the National Health Service Corps, graduate medical education under Medicare, and the health manpower programs authorized in title VII of the Public Health Service Act.

And we have seen Federal support for those programs cut back as resources dwindled in the 1980's and 1990's, and as oversupplies of certain specialties led to inefficient use of precious health care resources.

We have seen doctors, hospitals, and other providers band together to build efficient, cost-effective delivery systems which extend services to our citizens, especially those who live in the most underserved rural and urban areas.

And we have seen the long arm of the Justice Department and the Federal Trade Commission reach down to stymie the most effective of those collaborations, in all areas of our country, large and small.

Evolution of the health care marketplace will continue, and should continue, with or without a dramatic restructuring of our health care system. Effective and creative alliances will be forged between all types of health care providers in all areas of this country.

I believe that government should be a catalyst for such alliances, rather than an impediment to their formation. I believe that it is the function of government to foster the provision of quality health care services, rather than to

concoct burdensome mandates and other disincentives which drive up the cost of care and price it out of the marketplace for many.

Today Senator THURMOND, a long-time champion of reducing government intervention, joins me to introduce S. 1658, the Health Care Antitrust Improvements Act of 1993, a measure to ensure that all players in the health care marketplace have the opportunity to pursue appropriate alliances and joint ventures that will provide better services and lower costs for health care consumers. Our good friend and colleague, Congressman BILL ARCHER, the senior Republican on the Ways and Means Committee, worked closely with us in developing this legislation. Today he is introducing the House counterpart.

Representative ARCHER, Senator THURMOND, and I have a long history of working for reforms in the antitrust laws that apply to the health care industry. The committees on which we serve, Finance, Judiciary, and Ways and Means, have held extensive hearings into the issue of our antitrust laws and how they can harm, rather than protect, those who receive health care services.

We have heard countless stories of costly duplications of services, inefficient arrangements which communities cannot even begin to address because the very act of initiating discussions could trigger antitrust action by the Federal Government.

We have heard testimony from the Ukiah Valley Medical Center president, ValGene Devitt, who told us of his 43-bed, not-for-profit hospital's 4½-year ordeal after it sought to buy the assets of a 51-bed hospital nearby. Last year, a court found that the transaction benefited consumers and would lead to an improvement in quality care.

More recently, we have seen two Utah hospitals, the University of Utah's University Hospital and Primary Children's Medical Center, needlessly spend over \$7 million just to prove to the Justice Department that their joint work in pediatrics helped patients, not harmed them. This investigation should have never happened. The \$7 million these hospitals were forced to pay in lawyer fees could have gone toward patient care.

My extensive study of this issue has forced me to question the government's motive in challenging such mergers.

Is it against our citizens' interests to see rural hospitals combine and improve their efficiency?

Is it against our citizens' interests for a community to effect millions of dollars in cost savings while eliminating duplicative services and staffing?

Or, more importantly, is it against our citizens' interests for the government to spend millions on needless litigation, millions which could have been spent on patient care, to satisfy this Washington witch hunt?

As a responsible Member of Congress, I cannot stand by and allow the Federal Trade Commission and the Justice Department to drive up health care costs through such unwise antitrust actions.

While I applaud the administration's attention to reforming health care, I am concerned that its bill, the Health Security Act, offers little in the way of antitrust revision. The administration has offered general operating guidelines, but they are nonbinding and have no effect whatsoever in reducing the costs of private party antitrust litigation.

I believe that it is possible to craft a carefully balanced change to the statute that will both continue Federal protections against self-serving monopolies and institute the measure of flexibility necessary to foster resource-sharing alliances and group ventures.

My legislation sets out specific safe harbors for the cooperative activities of health care providers. This will lead to lower costs while increasing provider quality and consumer access to needed services. My bill also directs the Attorney General to undertake three specific tasks. First, to develop needed guidelines for providers developing joint ventures. Second, to administer a program for expediting reviews and granting of waivers. Third, to develop additional safe harbors as warranted by the changing needs of the health care industry and consumers.

This legislation was developed after extensive consultations with representatives of the health care provider community. We have designed the Health Care Antitrust Improvements Act of 1993 to respond to the needs of today's health care marketplace as well as the evolving marketplace of the future.

In introducing this legislation, we recognize that our national dialog on health care reform will continue to evolve as the marketplace is evolving.

We recognize that changes in this bill will be necessary to accommodate unforeseen issues. We want to work with all in the health care arena to make those changes, be it health care facilities, such as hospitals, nursing homes, or home health agencies; licensed health care providers, such as physicians, nurse practitioners, or chiropractors; or other critical players in the health care marketplace, such as insurance companies.

In a similar spirit, we wish to work with our colleagues to refine this bill as it moves through the legislative process. It is abundantly clear to us that the Federal Government needs to take immediate action to clarify the rules of the game so that those in the health care community who wish to undertake alliances are assured a stable, predictable playing field. That is the intent of the Health Care Antitrust Improvements Act of 1993.

Mr. President, this legislation is the result of a great deal of time and effort

by many people, and I particularly want to pay tribute to the senior Senator from South Carolina and to Representative ARCHER. They have provided me with invaluable insight and expertise.

As we move toward health care reform, it is imperative that we address the inequities found in our current antitrust laws. This legislation meets that goal.

Mr. THURMOND. Mr. President, I rise in support of the Health Care Antitrust Improvements Act of 1993, which I am cosponsoring with Senator HATCH. This bill addresses antitrust issues which are crucial in our efforts to improve America's health care system.

Health care reform is very likely to be a key issue under consideration by the Congress during the next session. In order to reduce costs and eradicate waste, various health care reform proposals seek increased collaboration and integration by medical providers into larger, more efficient groups. Since the antitrust laws require unfettered competition, not collaboration, it is not surprising that health care reform raises significant antitrust issues. The antitrust laws should continue to protect competition, but must be able to accommodate evolving health care markets in order to promote high quality, affordable health care.

In order to permit more efficient activities and organization by health care providers, the legislation we are introducing today provides safe harbors for certain categories of conduct which should not be subject to the antitrust laws. In addition, because of the difficulty in determining where to draw the lines in changing markets, the Attorney General is given the tasks of developing guidelines and additional safe harbors for desirable conduct by providers, as well as reviewing and issuing certificates to providers to cover specific situations. Finally, our legislation reduces antitrust penalties for health care providers upon notification of their joint activities to the Attorney General, following the pattern of the production joint venture bill that passed the Congress and was signed into law this year.

Mr. President, this legislation begins the process of establishing a framework for adjusting the antitrust laws to changing health care markets, to achieve the ultimate goal of more efficient, higher quality medical services at reasonable prices for the benefit of all Americans.

ADDITIONAL COSPONSORS

S. 27

At the request of Mr. SARBANES, the names of the Senator from Pennsylvania [Mr. WOFFORD], and the Senator from Michigan [Mr. LEVIN] were added as cosponsors of S. 27, a bill to authorize the Alpha Phi Alpha Fraternity to

establish a memorial to Martin Luther King, Jr., in the District of Columbia.

S. 265

At the request of Mr. SHELBY, the name of the Senator from Nebraska [Mr. KERREY] was added as a cosponsor of S. 265, a bill to increase the amount of credit available to fuel local, regional, and national economic growth by reducing the regulatory burden imposed upon financial institutions, and for other purposes.

S. 289

At the request of Mr. REID, the name of the Senator from Montana [Mr. BURNS] was added as a cosponsor of S. 289, a bill to amend section 118 of the Internal Revenue Code of 1986 to provide for certain exceptions from rules for determining contributions in aid of construction, and for other purposes.

S. 483

At the request of Mr. SHELBY, the names of the Senator from Kansas [Mrs. KASSEBAUM], the Senator from West Virginia [Mr. ROCKEFELLER], and the Senator from Montana [Mr. BAUCUS] were added as cosponsors of S. 483, a bill to provide for the minting of coins in commemoration of Americans who have been prisoners of war, and for other purposes.

S. 687

At the request of Mr. ROCKEFELLER, the name of the Senator from Tennessee [Mr. MATHEWS] was added as a cosponsor of S. 687, a bill to regulate interstate commerce by providing for a uniform product liability law, and for other purposes.

S. 839

At the request of Mr. HOLLINGS, the name of the Senator from Washington [Mr. GORTON] was added as a cosponsor of S. 839, a bill to establish a program to facilitate development of high-speed rail transportation in the United States, and for other purposes.

S. 985

At the request of Mr. INOUE, the name of the Senator from Alabama [Mr. SHELBY] was added as a cosponsor of S. 985, a bill to amend the Federal Insecticide, Fungicide, and Rodenticide Act with respect to minor uses of pesticides, and for other purposes.

S. 1125

At the request of Mr. DODD, the name of the Senator from Ohio [Mr. GLENN] was added as a cosponsor of S. 1125, a bill to help local school systems achieve Goal Six of the National Education Goals, which provides that by the year 2000, every school in America will be free of drugs and violence and will offer a disciplined environment conducive to learning, by ensuring that all schools are safe and free of violence.

S. 1288

At the request of Mr. AKAKA, the names of the Senator from South Dakota [Mr. DASCHLE], the Senator from Louisiana [Mr. BREAUX], and the Sen-

ator from Colorado [Mr. CAMPBELL] were added as cosponsors of S. 1288, a bill to provide for the coordination and implementation of a national aquaculture policy for the private sector by the Secretary of Agriculture, to establish an aquaculture commercialization research program, and for other purposes.

S. 1329

At the request of Mr. SASSER, his name was added as a cosponsor of S. 1329, a bill to provide for an investigation of the whereabouts of the United States citizens and others who have been missing from Cyprus since 1974.

S. 1361

At the request of Mr. SIMON, the name of the Senator from Vermont [Mr. JEFFORDS] was added as a cosponsor of S. 1361, a bill to establish a national framework for the development of School-to-Work Opportunities systems in all States, and for other purposes.

S. 1408

At the request of Mr. ROTH, his name was added as a cosponsor of S. 1408, a bill to repeal the increase in tax on Social Security benefits.

S. 1443

At the request of Mr. EXON, the name of the Senator from Kentucky [Mr. MCCONNELL] was added as a cosponsor of S. 1443, a bill to amend the Internal Revenue Code of 1986 to repeal the excise tax on luxury passenger vehicles.

S. 1463

At the request of Ms. MIKULSKI, the name of the Senator from Nevada [Mr. BRYAN] was added as a cosponsor of S. 1463, a bill to amend the Elementary and Secondary Education Act of 1965 to address gender equity in mathematics and science education and to assist schools and educational institutions in the elimination of sexual harassment and abuse.

S. 1489

At the request of Mr. METZENBAUM, the name of the Senator from Nevada [Mr. REID] was added as a cosponsor of S. 1489, a bill to redesignate the J. Edgar Hoover Federal Bureau of Investigation Building located at Ninth and Pennsylvania Avenue, NW Washington, D.C., as the Federal Bureau of Investigation Building.

S. 1495

At the request of Mr. ROTH, his name was added as a cosponsor of S. 1495, a bill to repeal the reduction in the deductible portion of expenses for business meals and entertainment.

S. 1517

At the request of Mr. HOLLINGS, the name of the Senator from Alaska [Mr. MURKOWSKI] was added as a cosponsor of S. 1517, a bill to establish a marine biotechnology program within the National Sea Grant College Program, and for other purposes.

S. 1533

At the request of Mr. LOTT, the name of the Senator from Utah [Mr. BEN-

NETT] was added as a cosponsor of S. 1533, a bill to improve access to health insurance and contain health care costs, and for other purposes.

SENATE JOINT RESOLUTION 41

At the request of Mr. SIMON, the name of the Senator from North Carolina [Mr. HELMS] was added as a cosponsor of Senate Joint Resolution 41, a joint resolution proposing an amendment to the Constitution of the United States to require a balanced budget.

SENATE JOINT RESOLUTION 52

At the request of Mr. PACKWOOD, the names of the Senator from Kansas [Mrs. KASSEBAUM], the Senator from South Carolina [Mr. THURMOND], and the Senator from West Virginia [Mr. ROCKEFELLER] were added as cosponsors of Senate Joint Resolution 52, a joint resolution to designate the month of November 1993 and 1994 as "National Hospice Month."

SENATE JOINT RESOLUTION 140

At the request of Mr. LAUTENBERG, the names of the Senator from Idaho [Mr. KEMPTHORNE], the Senator from Texas [Mrs. HUTCHISON], and the Senator from Pennsylvania [Mr. SPECTER] were added as cosponsors of Senate Joint Resolution 140, a joint resolution to designate December 7, 1993, as "National Pearl Harbor Remembrance Day."

SENATE RESOLUTION 163—RELATIVE TO THE COMMUNITY REINVESTMENT ACT OF 1977

Mr. PRYOR (for himself, Mr. BUMPERS, Mr. LIEBERMAN, Mr. BOREN, and Mr. HOLLINGS) submitted the following resolution; which was referred to the Committee on Banking, Housing, and Urban Affairs:

S. RES. 163

Whereas the United States is experiencing an explosion of violent crime that is destroying families, devastating communities, and causing senseless loss of life;

Whereas banks, savings associations, and other financial institutions are important community institutions that can assist in fighting the causes of violence and in preventing crime by providing credit and investments in high crime neighborhoods;

Whereas activities undertaken by financial institutions that help to fight the causes of violence and to prevent crime are important community investments and should be recognized as such in the implementation of the Community Reinvestment Act of 1977; and

Whereas it is the purpose of this resolution to encourage financial institutions to provide credit and to make investments that may assist in fighting the causes of violence and that help prevent crime in their immediate and extended communities: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) in any effort by the Federal financial institution regulatory agencies to reform regulations implementing the Community Reinvestment Act of 1977, such agencies should consider giving financial institutions credit in evaluations conducted under that

Act for providing credit and investments which may assist in fighting the causes of violence and of preventing crime in their communities, including—

(A) loans to police officers and firefighters who establish their residences in high crime neighborhoods;

(B) loans for community recreation facilities in high crime neighborhoods;

(C) loans for job creating activities that will train or employ youths or adults who might otherwise become involved in crime; and

(D) other similar credit and investment activities;

(2) regulations promulgated or amended under the Community Reinvestment Act of 1977 should give positive consideration under that Act to investments made by financial institutions in other financial intermediaries which have the effect of stabilizing neighborhoods and fighting the causes of violence and preventing crime in those neighborhoods, including—

(A) community development corporations;

(B) community development credit unions;

(C) community development loan funds;

(D) specialized small business investment companies;

(E) community development financial institutions; and

(F) other similar institutions;

(3) loans and investments extended by a financial institution for the purpose of fighting the causes of violence and preventing crime outside of its normal lending area or geographic community should be considered legitimate community reinvestment activities; and

(4) reformed regulations under the Community Reinvestment Act of 1977 should not define a financial institution's "local community" so narrowly that loans and investments provided to fight the causes of violence and help prevent crime will not be positively considered under that Act simply because they are extended outside of the area normally delineated by the financial institution as its "local community".

Mr. PRYOR. Mr. President, I submit a resolution which contains the points I have just discussed with the distinguished chairman of the Banking Committee. This resolution is known as the Credit for Crime Fighting Resolution of 1993, and I am joined in the introduction of this resolution by Senators BUMPERS, LIEBERMAN, BOREN, and HOLLINGS.

As we all know, crime is not a simple problem, and it will not be solved with simple solutions. No single approach, no single strategy, and no single program will eliminate this scourge from our communities. Every individual and every institution in our society must play a role in preventing and fighting crime. Banks, savings and loans, and other financial institutions are powerful, influential institutions in their communities, and we need their help making our neighborhoods and our streets safer and more peaceful.

This resolution does not direct financial institutions to undertake any new activities, nor does it place any new burdens on them. Far from placing new burdens on banks, this resolution gives banks and other financial institutions new opportunities for earning CRA

credit. I do not believe CRA should be used to compel financial institutions to undertake activities that are inconsistent with their traditional function of providing credit within the guidelines of safety and soundness.

This resolution is very consistent with the traditional function of CRA. What is new about this resolution is that it is an attempt to spur lenders' consciousness about their community reinvestment role. With this resolution we are trying to get the regulators and the banks to think about community reinvestment in a slightly different way, in hopes that new types of CRA activities can be initiated which will help reduce the crime and violence that rob many people of the very kinds of opportunity and prosperity that CRA is designed to enhance.

I ask the Federal banking regulators and financial institutions to review this resolution and consider how they can use their resources to make our communities safer. We all have a role to play in this fight, and I hope this resolution will provide both the encouragement and the reward to lenders who will play their role.

I rise to express my concern about the explosion of violent crime that is destroying families, devastating neighborhoods, and causing senseless loss of life. I believe that banks, saving and loans, and other regulated financial institutions can play an important role in assisting our efforts to fight the causes of disenfranchisement among residents of economically distressed neighborhoods which leads to crime and violent behavior. Lending and investment activities by financial institutions can create jobs and opportunity for small businesses and residents of these neighborhoods. I believe the Federal Government can and should encourage financial institutions to provide credit and make investments that will help prevent crime in distressed communities and adjacent neighborhoods.

Mr. RIEGLE. I wish to commend my distinguished colleague for raising this important issue. I concur with his assessment that lack of access to credit and investment capital starves many neighborhoods. Without credit or investment capital, economic activity ceases and residents are left without jobs, businesses, and hope. This lack of opportunity results in many people turning to crime. The Banking Committee has held many hearings over the last several years about impact of redlining and lending discrimination. Testimony at these hearings clearly indicates that community credit needs have not been fully met. Like my colleague, I believe that banks, thrifts, and other regulated financial institutions can play a significant role in reversing disinvestment in distressed, high crime neighborhoods.

Mr. PRYOR. I thank my colleague, the chairman of the Banking Commit-

tee, for his remarks. I believe that the Federal Government can provide incentives for regulated financial institutions to invest in high crime areas through the Community Reinvestment Act [CRA]. Currently, the bank regulatory agencies are in the process of developing a reform package to improve implementation of CRA.

In determining CRA compliance, I believe the reform package should take into consideration lending and investment activities undertaken by financial institutions in high crime neighborhoods which assist in preventing crime. Examples of activities that may reduce crime include home mortgage loans to police officers and firefighters who establish their residences in high crime neighborhoods; financing for community recreation facilities; business lending in distressed neighborhoods which encourages the creation or retention of job opportunities for residents or facilitates the ownership of businesses by residents; or other activities that provide skills and opportunities for youths and young adults who might otherwise become involved in crime.

I also believe bank regulatory agencies should take into consideration activities by regulated financial institutions that assist in stabilizing distressed communities by investing in community development financial institutions. Community development financial institutions have a primary mission of promoting community development and pursue comprehensive strategies for revitalizing distressed communities. Such community development financial institutions include community development banks, community development credit unions, community development loan funds, community development corporations, micro-enterprise funds, and specialized small business investment companies.

Mr. RIEGLE. The administration's CRA reform package should take into account a variety of community investment activities undertaken by financial institutions—including lending and investments that reduce crime in distressed neighborhoods. Such activities are currently given favorable consideration by regulators in determining CRA compliance. It is anticipated such activities will also be given favorable consideration under the CRA reform package.

As my colleague indicated, the bank regulatory agencies are in the process of revising current CRA implementation practices. The administration's CRA reform effort is scheduled for completion in early 1994. As chairman of the Banking Committee, I support these efforts and look forward to seeing the reform package when it is complete. It is my understanding that the regulators are actively reviewing CRA enforcement to shift its focus to performance and minimize paperwork burden. It is anticipated they will clarify

CRA performance standards and make them more objective as well as reform regulations and supervision to improve performance.

The administration is working hard to develop a reform package that is fair, balanced, and will catalyze investment in under-served communities. Regulators have held many hearings and heard from over 200 witnesses in cities including Washington, San Francisco, Los Angeles, Albuquerque, New York, Chicago, and Henderson, NC. Regulators are soliciting comments for changes from the public, community groups, and the banking and thrift industries.

Mr. PRYOR. I also look forward to the administration's forthcoming reform package. I believe we need to find ways to utilize the resources of regulated financial institutions to help catalyze investment in crime ridden neighborhoods.

SENATE RESOLUTION 164—COMMEMORATING THE BOMBING OF PAN AM FLIGHT 103

Mr. MOYNIHAN (for himself, Mr. KENNEDY, Mr. D'AMATO, Mr. LAUTENBERG, Mr. HATCH, and Mr. GRASSLEY) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 164

Whereas, 259 passengers and crew members of Pan American Airways Flight 103 and 11 persons on the ground in Lockerbie, Scotland, were killed by a terrorist bomb on December 21, 1988;

Whereas, 189 Americans were victims of this heinous attack along with citizens from 20 other nations;

Whereas, this was effectively an attack on the United States and on all nations which support the rule of law;

Whereas, the families and friends of the victims of this outrageous and criminal act have suffered an incalculable loss and have worked actively to diminish the possibility of future attacks;

Whereas, on December 21, 1993, five years will have passed without the terrorists who murdered the passengers and crew of Pan Am Flight 103 being brought to justice;

Whereas, the United States must never forget the victims of this crime nor weaken in its resolve to bring their murderers to justice;

Whereas, it is appropriate and fitting that the United States set aside a day to commemorate the bombing of Pan Am Flight 103 as an act of remembrance for the victims, an expression of solidarity with their loved ones and a token of the abiding United States commitment to obtain justice for their murderers; now, therefore be it

Resolved by the Senate, That December 21, 1993 is designated a "Fifth Anniversary Day of Remembrance for the Victims of the Bombing of Pan Am Flight 103," and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe this day with appropriate ceremonies.

AMENDMENTS SUBMITTED

INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1994

DECONCINI (AND OTHERS) AMENDMENT NO. 1154

Mr. DECONCINI (for himself, Mr. WARNER, and Mr. DANFORTH) proposed an amendment to the bill (S. 1301) to authorize appropriations for fiscal year 1994 for intelligence activities of the U.S. Government and the Central Intelligence Agency Retirement and Disability System, and for other purposes; as follows:

On page 11, after line 2, insert the following:

SEC. 304. REPORT ON INTELLIGENCE GAPS.

(a) REPORT.—The Director of Central Intelligence and the Secretary of Defense jointly shall prepare and submit by February 15, 1994, to the Select Committee on Intelligence, the Committee on Armed Services, and the Committee on Appropriations of the Senate, and to the Permanent Select Committee on Intelligence, the Committee on Armed Services, and the Committee on Appropriations of the House of Representatives a report described in subsection (b).

(b) CONTENTS OF REPORT.—The report required by subsection (a) shall—

(1) identify and assess the critical gaps between the information needs of the United States Government and intelligence collection capabilities, to include the identification of topics and areas of the world of significant interest to the United States to which the application of additional resources, technology, or other efforts would generate new information of high priority to senior officials of the United States Government;

(2) identify and assess gaps in the ability of the intelligence community (as defined in section 3(4) of the National Security Act of 1947) to provide intelligence support needed by the Armed Forces of the United States and, in particular, by the commanders of combatant commands established under section 161(a) of title 10, United States Code; and

(3) contain joint recommendations of the Director of Central Intelligence and the Secretary of Defense on appropriate means, to include specific budgetary adjustments, for reducing or eliminating the gaps identified under paragraphs (1) and (2)."

Page 2, line ____, insert the following after the item relating to Section 303 (as added by Committee amendment No. ____):

"Sec. 304. Report on Intelligence Gaps."

DECONCINI (AND OTHERS) AMENDMENT NO. 1155

Mr. DECONCINI (for himself, Mr. WARNER, and Mr. D'AMATO) proposed an amendment to the bill S. 1301, supra; as follows:

On page 11, after line 2, insert the following:

SEC. 303. TEMPORARY PAY RETENTION FOR CERTAIN FBI EMPLOYEES.

(a) The Federal Employees Pay Comparability Act of 1990 as contained in Section 529 of the Treasury, Postal Service and General Government Appropriations Act, 1991

(Public Law 101-509) is amended by striking section 406 and inserting in lieu thereof:

"SEC. 406. FBI NEW YORK FIELD DIVISION.

"(a) No employee of the Federal Bureau of Investigation assigned to the New York Field Division prior to September 29, 1993 in a position covered by the demonstration project created by section 601 of the Intelligence Authorization Act for Fiscal Year 1989 (Public Law 100-453), as amended, shall have his or her total pay reduced as a result of the termination of the demonstration project, unless that employee ceases or has ceased at any time after that date to be employed in a position covered by the demonstration project; *Provided that*, beginning on September 30, 1993, any periodic payment under section 602(a)(2) of the Intelligence Authorization Act for Fiscal Year 1989 for any such employee shall be reduced by the amount of any increase in basic pay under title 5, United States Code, including an annual adjustment under section 5303, locality-based comparability payment under section 5304, initiation or increase in a special pay rate under section 5305, promotion under section 5334, periodic step increase under section 5335, merit increase under section 5404, or other increase to basic pay under any provision of law."

"(b) The amendment made by subsection (a) shall take effect as of September 30, 1993, and shall apply to the pay of employees to whom the amendment applies that is earned on or after that date."

(b) On page 2, line 2, insert in the table of contents the following after the item relating to section 302:

"Sec. 303. FBI New York Field Division."

DECONCINI (AND WARNER) AMENDMENT NO. 1156

Mr. DECONCINI (for himself and Mr. WARNER) proposed an amendment to the bill S. 1301, supra; as follows:

On page 11, after line 2, insert the following:

SEC. 303. AMENDMENT TO SECTION 307 OF THE NATIONAL SECURITY ACT AND RATIFICATION OF A PAST TRANSACTION.

(a) AMENDMENT TO SECTION 307 OF THE NATIONAL SECURITY ACT OF 1947.—Section 307 of the National Security Act of 1947 is amended by striking "provisions and purposes of this Act" and inserting in lieu thereof "provisions and purposes of this Act (other than the provisions and purposes of sections 102, 103, 104, 105 and titles V, VI, and VII)".

(b) RATIFICATION OF FUNDING TRANSACTION.—Funds obligated or expended for the Accelerated Architecture Acquisition Initiative of the Plan to Improve the Imagery Ground Architecture based upon the notification to the appropriate committees of Congress by the Director of Central Intelligence dated August 16, 1993 shall be deemed to have been specifically authorized by the Congress for purposes of Section 504(a)(3) of the National Security Act of 1947.

On page 2, line 2, insert in the table of contents the following after the item relating to Section 302:

Sec. 303. Amendment to Section 307 of the National Security Act of 1947 and Ratification of Past Transaction.

METZENBAUM (AND OTHERS) AMENDMENT NO. 1157

Mr. METZENBAUM (for himself, Mr. BOREN, Mr. MURKOWSKI, Mr. INOUE,

Mr. MOYNIHAN, Mr. DURENBERGER, Mr. LEAHY, Mr. BUMPERS, Mr. HARKIN, Mr. FEINGOLD, and Mr. WOFFORD) proposed an amendment to the bill S. 1301, supra; as follows:

Insert at the appropriate point the following new section:

"SEC. . SENSE OF CONGRESS REGARDING DISCLOSURE OF ANNUAL INTELLIGENCE BUDGET.

"It is the sense of Congress that, in each year, the aggregate amount requested and authorized for, and spent on, intelligence and intelligence-related activities should be disclosed to the public in an appropriate manner."

OMNIBUS CRIME LEGISLATION

HUTCHISON AMENDMENT NO. 1158

Mr. DOLE (for Mrs. HUTCHISON) proposed an amendment to the bill (S. 1607) to control and prevent crime; as follows:

At the end of subtitle G of title XXIX, add the following:

SEC. . AWARDS OF PELL GRANTS TO PRISONERS PROHIBITED.

(a) IN GENERAL.—Section 401(b)(8) of the Higher Education Act of 1965 (20 U.S.C. 1070a(b)(8)) is amended to read as follows:

"(8) No basic grant shall be awarded under this subpart to any individual who is incarcerated in any Federal, State or local penal institution."

(b) CONFORMING AMENDMENTS.—

(1) COST OF ATTENDANCE.—Section 472 of such Act (20 U.S.C. 108711) is amended—

(A) by striking paragraph (6); and
(B) by redesignating paragraphs (7), (8), (9), (10) and (11) as paragraphs (6), (7), (8), (9) and (10), respectively.

(2) TECHNICAL AMENDMENTS.—Section 401(b)(3)(B) of such Act (20 U.S.C. 1070a(b)(3)(B)) is amended—

(A) by striking "472(8)" and inserting "472(7)"; and
(B) by striking "472(9)" and inserting "472(8)".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to periods of enrollment beginning on or after the date of enactment of this Act.

**HELMS (AND OTHERS)
AMENDMENT NO. 1159**

Mr. DOLE (for Mr. HELMS for himself, Mr. GRAMM, and Mr. GRAHAM) proposed an amendment to the bill S. 1607, supra; as follows:

At the end, add the following:

SEC. . APPROPRIATE REMEDIES FOR PRISON OVERCROWDING.

(a) AMENDMENT OF TITLE 18, UNITED STATES CODE.—Subchapter C of chapter 229 of part 2 of title 18, United States Code, is amended by adding at the end the following new section:

"§ 3626. Appropriate remedies with respect to prison crowding

"(a) REQUIREMENT OF SHOWING WITH RESPECT TO THE PLAINTIFF IN PARTICULAR.—

"(1) HOLDING.—A Federal court shall not hold prison or fail crowding unconstitutional under the eighth amendment except to the extent that an individual plaintiff inmate proves that the crowding causes the infliction of cruel and unusual punishment of that inmate.

"(2) RELIEF.—The relief in a case described in paragraph (1) shall extend no further than necessary to remove the conditions that are causing the cruel and unusual punishment of the plaintiff inmate.

"(b) INMATE POPULATION CEILINGS.—

"(1) REQUIREMENT OF SHOWING WITH RESPECT TO PARTICULAR PRISONERS.—A Federal court shall not place a ceiling on the inmate population of any Federal, State, or local detention facility as an equitable remedial measure for conditions that violate the eighth amendment unless crowding is inflicting cruel and unusual punishment on particular identified prisoners.

"(2) RULE OF CONSTRUCTION.—Paragraph (1) shall not be construed to have any effect on Federal judicial power to issue equitable relief other than that described in paragraph (1), including the requirement of improved medical or health care and the imposition of civil contempt fines or damages, where such relief is appropriate.

"(c) PERIODIC REOPENING.—Each Federal court order or consent decree seeking to remedy an eighth amendment violation shall be reopened at the behest of a defendant for recommended modification at a minimum of 2-year intervals."

(b) APPLICATION OF AMENDMENT.—Section 3626 of title 18, United States Code, as added by paragraph (1), shall apply to all outstanding court orders on the date of enactment of this Act. Any State or municipality shall be entitled to seek modification of any outstanding eighth amendment decree pursuant to that section.

(c) TECHNICAL AMENDMENT.—The subchapter analysis for subchapter C of chapter 229 of title 18, United States Code, is amended by adding at the end the following new item:

"3626. Appropriate remedies with respect to prison crowding."

(d) SUNSET PROVISION.—This section and the amendments made by this section are repealed effective as of the date that is 5 years after the date of enactment of this Act.

SMITH AMENDMENT NO. 1160

Mr. DOLE (for Mr. SMITH) proposed an amendment to the bill, S. 1607, supra; as follows:

At the appropriate place, add the following:

"SEC. (a) IN GENERAL.—Section 506 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3756) is amended by adding at the end the following new subsection:

"(g)(1) For any fiscal year beginning more than 2 years after the date of the enactment of this subsection—

(A) 50 percent of the funds allocated under subsection (a), taking into consideration subsections (e) and (f) but without regard to this subsection, to a State described in paragraph (2) shall be distributed by the Director to such State; and
(B) 50 percent of such amount shall be allocated equally among States that are not affected by the operation of subparagraph (A).

"(2) Paragraph (1)(A) refers to a State that does not have in effect, and does not enforce, in such fiscal year—

(A) truth in sentencing with respect to any felony crime of violence involving the use or attempted use of force against a person, or use of a firearm against a person, for which a maximum sentence of 5 years or more is authorized that is consistent with that provided in the Federal system in chapter 229 of title 18, United States Code, which provides

that defendants will serve at least 85 percent of the sentence ordered and which provides for a binding sentencing guideline system in which sentencing judges' discretion is limited to ensure greater uniformity in sentencing;

(B) pretrial detention similar to that provided in the Federal system under section 3142 of title 18, United States Code;

(C) sentences for firearm offenders, where death or serious bodily injury results, murderers, sex offenders, and child abuse offenders that, after application of relevant sentencing guidelines, result in the imposition of sentences that are at least as long as those imposed under Federal law (after application of relevant sentencing guidelines); and

(D) suitable recognition for the rights of victims, including consideration of the victim's perspective at all stages of criminal proceedings."

**PATENT AND TRADEMARK OFFICE
AUTHORIZATION ACT OF 1993**

GLENN AMENDMENT NO. 1161

Mr. FORD (for Mr. GLENN) proposed an amendment to the bill (H.R. 2632) to authorize appropriations for the Patent and Trademark Office in the Department of Commerce for fiscal year 1994; as follows:

At the end of the bill insert the following:
SECTION 1. PATENT TERM EXTENSION FOR OLESTRA.

(a) IN GENERAL.—The terms of United States patents numbered 4,005,195, 4,005,196, and 4,034,083 (and any reissues of such patents) shall each be extended for a period beginning on the date of its expiration through December 31, 1997.

(b) POST-MARKET SURVEILLANCE.—The holders of the patents extended under this section shall, following the first permission for marketing olestra, undertake a post-market program that shall provide data regarding the influence of olestra-containing products upon the overall dietary intake of fats. Such data shall be subject to the usual standards of professional peer review. At the end of the study period, such data shall be submitted to the Food and Drug Administration for review. Such study data shall be in a format which shall be made available to Congress for public review. The requirements of this subsection shall not in any manner preempt the authority of the Food and Drug Administration to request and to receive any other information it determines necessary in the course of its ongoing regulatory activities.

SEC. 2. PATENT TERM EXTENSIONS FOR AMERICAN LEGION.

(a) BADGE OF AMERICAN LEGION.—The term of a certain design patent numbered 54,296 (for the badge of the American Legion) is renewed and extended for a period of 14 years beginning on the date of enactment of this Act, with all the rights and privileges pertaining to such patent.

(b) BADGE OF AMERICAN LEGION WOMEN'S AUXILIARY.—The term of a certain design patent numbered 55,398 (for the badge of the American Legion Women's Auxiliary) is renewed and extended for a period of 14 years beginning on the date of enactment of this Act, with all the rights and privileges to such patent.

(c) BADGE OF SONS OF THE AMERICAN LEGION.—The term of a certain design patent

numbered 92,187 (for the badge of the Sons of the American Legion) is renewed and extended for a period of 14 years beginning on the date of enactment of this Act, with all the rights and privileges pertaining to such patent.

SEC. 3. INTERVENING RIGHTS.

The renewals and extensions of the patents under section 2 shall not result in infringement of any such patent on account of any use of the subject matter of the patent, or substantial preparation for such use, which began after the patent expired, but before the date of the enactment of this Act.

SEC. 4. EFFECTIVE DATE.

The provisions of this Act shall take effect on the date of the enactment of this Act.

OMNIBUS CRIME LEGISLATION

MCCONNELL AMENDMENT NO. 1162

Mr. DOLE (for Mr. MCCONNELL) proposed an amendment to the bill S. 1607, supra; as follows:

SECTION 1. AGREEMENT TO ASSIST IN LOCATING MISSING CHILDREN UNDER THE PARENT LOCATOR SERVICE.

(a) IN GENERAL.—Section 463 of the Social Security Act (42 U.S.C. 663) is amended by adding at the end the following new subsection:

"(f) The Secretary shall enter into an agreement with the Attorney General of the United States, under which the services of the Parent Locator Service established under section 653 of this title shall be made available to the Office of Juvenile Justice and Delinquency Prevention upon its request for the purpose of locating any parent or child on behalf of the Office of Juvenile Justice and Delinquency Prevention. The Parent Locator Service shall charge no fees for services requested pursuant to this subsection."

(b) CONFORMING AMENDMENT.—Section 463(c) of such Act (42 U.S.C. 663(c)) is amended by striking "(a), (b) or (e)" and inserting "(a), (b), (e), or (f)".

(c) EFFECTIVE DATE.—The amendments made by this section shall become effective on October 1, 1994.

COHEN (AND OTHERS) AMENDMENT NO. 1163

Mr. DOLE (for Mr. COHEN, for himself and Mr. KOHL) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place in subpart II of subtitle C of title VI, insert the following:

"SEC. 235. MENTAL HEALTH SCREENING.

(a) SENSE OF THE CONGRESS.—It is the sense of the Congress that no child should have to be incarcerated in a State youth center or detention facility solely in order to receive mental health treatment.

(b) IN GENERAL.—Not later than two years after the date of enactment of this subpart, the Attorney General, acting through the Administrator of the Office of Juvenile Justice and Delinquency Prevention, in collaboration with the Secretary of Health and Human Services, acting through the Administrator of Substance Abuse and Mental Health Services Administration, shall, subject to the availability of appropriations—

(1) study the nature and prevalence of mental illness among youth in the juvenile justice system at several different points in the system, including the arrest stage, the adjudication and dispositional stage, and the commitment stage;

(2) develop a model system that the States can use to assess, diagnose, and treat the mental health needs of youth who come in contact with the juvenile justice system for mental illness; and

(3) disseminate the results of the study and the model to each State's Juvenile Justice Advisory Group.

(c) STUDY.—The study should include analysis of—

(1) national prevalence of rates of the different clinical categories of mental illness for youth who come in contact with the juvenile justice system;

(2) the prevalence of multiple mental disorders among youth who have come in contact with the juvenile justice system;

(3) recommendations to the Committee on the Judiciary of the Senate and the Committees on Education and Labor of the House of Representatives on the appropriateness and need for further Federal action; and

(4) such other analysis as is appropriate.

(d) MODEL.—The model should provide—

(1) guidelines for accurate and timely assessment, diagnosis, and treatment at several different points in the juvenile justice system including the arrest stage, the adjudication and dispositional stage, and the commitment stage;

(2) a method for fostering collaboration between the mental health agencies, juvenile justice agencies, educational agencies, social services agencies, substance abuse treatment agencies, police, and families;

(3) a funding mechanism for the model; and

(4) such other guidelines as are appropriate."

Section 233 of subpart II of subtitle C of title VI is amended by—

(1) redesignating paragraph (2) as paragraph (3) and striking "paragraph (1)" in such paragraph and inserting "paragraphs (1) and (2)"; and

(2) inserting after paragraph (1) the following:

"(2) Such sums as are necessary to carry out section 235; and"

MCCONNELL AMENDMENT NO. 1164

Mr. DOLE (for Mr. MCCONNELL) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place, insert:

TITLE II—PUBLIC CORRUPTION

SEC. 201. SHORT TITLE.

This title may be cited as the "Anti-Corruption Act of 1993".

SEC. 202. PUBLIC CORRUPTION.

(a) OFFENSES.—Chapter 11 of title 18, United States Code, is amended by adding at the end the following new section:

"§ 226. Public corruption

"(a) STATE AND LOCAL GOVERNMENT.—

(1) HONEST SERVICES.—Whoever, in a circumstance described in paragraph (3), deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of a State or political subdivision of a State of the honest services of an official or employee of the State or political subdivision shall be fined under this title, imprisoned not more than 10 years, or both.

(2) FAIR AND IMPARTIAL ELECTIONS.—Whoever, in a circumstance described in paragraph (3), deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of a State or political subdivision of a State of a fair and impartially conducted election process in any primary, run-off, special, or general election through one or more of the following means, or otherwise—

"(A) through the procurement, casting, or tabulation of ballots that are materially false, fictitious, or fraudulent or that are invalid, under the laws of the State in which the election is held;

"(B) through paying or offering to pay any person for voting;

"(C) through the procurement or submission of voter registrations that contain false material information, or omit material information; or

"(D) through the filing of any report required to be filed under State law regarding an election campaign that contains false material information or omits material information, shall be fined under this title, imprisoned not more than 10 years, or both.

"(3) CIRCUMSTANCES IN WHICH OFFENSE OCCURS.—The circumstances referred to in paragraphs (1) and (2) are that—

"(A) for the purpose of executing or concealing a scheme or artifice described in paragraph (1) or (2) or attempting to do so, a person—

"(i) places in any post office or authorized depository for mail matter, any matter or thing to be sent or delivered by the Postal Service, or takes or receives therefrom any such matter or thing, or knowingly causes to be delivered by mail according to the direction thereon, or at the place at which it is directed to be delivered by the person to whom it is addressed, any such matter or thing;

"(ii) transmits or causes to be transmitted by means of wire, radio, or television communication in interstate or foreign commerce any writings, signs, signals, pictures, or sounds;

"(iii) transports or causes to be transported any person or thing, or induces any person to travel in or to be transported in, interstate or foreign commerce; or

"(iv) uses or causes the use of any facility of interstate or foreign commerce;

"(B) the scheme or artifice affects or constitutes an attempt to affect in any manner or degree, or would if executed or concealed affect, interstate or foreign commerce; or

"(C) in the case of an offense described in paragraph (2), an objective of the scheme or artifice is to secure the election of an official who, if elected, would have any authority over the administration of funds derived from an Act of Congress totaling \$10,000 or more during the 12-month period immediately preceding or following the election or date of the offense.

"(b) FEDERAL GOVERNMENT.—Whoever deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of the United States of the honest services of a public official or a person who has been selected to be a public official shall be fined under this title, imprisoned not more than 10 years, or both.

"(c) OFFENSE BY AN OFFICIAL AGAINST AN EMPLOYEE OR OFFICIAL.—

"(1) CRIMINAL OFFENSE.—Whoever, being an official, public official, or person who has been selected to be a public official, directly or indirectly discharges, demotes, suspends, threatens, harasses, or in any manner discriminates against an employee or official of the United States or of a State or political subdivision of a State, or endeavors to do so, in order to carry out or to conceal a scheme or artifice described in subsection (a) or (b), shall be fined under this title, imprisoned not more than 5 years, or both.

"(2) CIVIL ACTION.—(A) Any employee or official of the United States or of a State or political subdivision of a State who is discharged, demoted, suspended, threatened,

harassed, or in any manner discriminated against because of lawful acts done by the employee or official as a result of a violation of this section or because of actions by the employee on behalf of himself or herself or others in furtherance of prosecution under this section (including investigation for, initiation of, testimony for, or assistance in such a prosecution) may bring a civil action and obtain all relief necessary to make the employee or official whole, including—

“(i) reinstatement with the same seniority status that the employee or official would have had but for the violation;

“(ii) 3 times the amount of backpay;

“(iii) interest on the backpay; and

“(iv) compensation for any special damages sustained as a result of the violation, including reasonable litigation costs and reasonable attorney's fees.

“(B) An employee or official shall not be afforded relief under subparagraph (A) if the employee or official participated in the violation of this section with respect to which relief is sought.

“(C)(1) A civil action or proceeding authorized by this paragraph shall be stayed by a court upon certification of an attorney for the Government that persecution of the action or proceeding may adversely affect the interests of the Government in a pending criminal investigation or proceeding.

“(ii) The attorney for the Government shall promptly notify the court when a stay may be lifted without such adverse effects.

“(d) DEFINITIONS.—As used in this section—

“(1) the term ‘official’ includes—

“(A) any person employed by, exercising any authority derived from, or holding any position in the government of a State or any subdivision of the executive, legislative, judicial, or other branch of government thereof, including a department, independent establishment, commission, administration, authority, board, and bureau, and a corporation or other legal entity established and subject to control by a government or governments for the execution of a governmental or intergovernmental program;

“(B) any person acting or pretending to act under color of official authority; and

“(C) any person who has been nominated, appointed, or selected to be an official or who has been officially informed that he or she will be so nominated, appointed, or selected;

“(2) the term ‘person acting or pretending to act under color of official authority’ includes a person who represents that he or she controls, is an agent of, or otherwise acts on behalf of an official, public official, and person who has been selected to be a public official;

“(3) the terms ‘public official’ and ‘person who has been selected to be a public official’ have the meanings stated in section 201 and also include any person acting or pretending to act under color of official authority;

“(4) the term ‘State’ means a State of the United States, the District of Columbia, Puerto Rico, and any other commonwealth, territory, or possession of the United States; and

“(5) the term ‘uses any facility of interstate or foreign commerce’ includes the intrastate use of any facility that may also be used in interstate or foreign commerce.”

(b) TECHNICAL AMENDMENTS.—(1) The chapter analysis for chapter 11 of title 18, United States Code, is amended by adding at the end the following new item:

“226. Public corruption.”

(2) Section 1961(1) of title 18, United States Code, is amended by inserting “section 226

(relating to public corruption),” after “section 224 (relating to sports bribery).”

(3) Section 2516(1)(c) of title 18, United States Code, is amended by inserting “section 226 (relating to public corruption),” after “section 224 (bribery in sporting contests).”

SEC. 203. INTERSTATE COMMERCE.

(a) IN GENERAL.—Section 1343 of title 18, United States Code, is amended—

(1) by striking “transmits or causes to be transmitted by means of wire, radio, or television communication in interstate or foreign commerce, any writings, signs, signals, pictures, or sounds” and inserting “uses or causes to be used any facility of interstate or foreign commerce”; and

(2) by inserting “or attempting to do so” after “for the purpose of executing such scheme or artifice”.

(b) TECHNICAL AMENDMENTS.—(1) The heading of section 1343 of title 18, United States Code, is amended to read as follows:

“§ 1343. Fraud by use of facility of interstate commerce”.

(2) The chapter analysis for chapter 63 of title 18, United States Code, is amended by amending the item relating to section 1343 to read as follows:

“1343. Fraud by use of facility of interstate commerce.”

SEC. 204. NARCOTICS-RELATED PUBLIC CORRUPTION.

(a) OFFENSES.—Chapter 11 of title 18, United States Code, is amended by inserting after section 219 the following new section:

“220. Narcotics and public corruption

“(a) OFFENSE BY PUBLIC OFFICIAL.—A public official who, in a circumstance described in subsection (c), directly or indirectly, corruptly demands, seeks, receives, accepts, or agrees to receive or accept anything of value personally or for any other person in return for—

“(1) being influenced in the performance or nonperformance of any official act; or

“(2) being influenced to commit or to aid in committing, or to collude in, or to allow or make opportunity for the commission of any offense against the United States or any State,

shall be guilty of a class B felony.

“(b) OFFENSE BY PERSON OTHER THAN A PUBLIC OFFICIAL.—A person who, in a circumstance described in subsection (c), directly or indirectly, corruptly gives, offers, or promises anything of value to any public official, or offers or promises any public official to give anything of value to any other person, with intent—

“(1) to influence any official act;

“(2) to influence the public to commit or aid in committing, or to collude in, or to allow or make opportunity for the commission of any offense against the United States or any State; or

“(3) to influence the public official to do or to omit to do any act in violation of the official's lawful duty,

shall be guilty of a class B felony.

“(c) CIRCUMSTANCES IN WHICH OFFENSE OCCURS.—The circumstances referred to in subsections (a) and (b) are that the offense involves, is part of, or is intended to further or to conceal the illegal possession, importation, manufacture, transportation, or distribution of any controlled substance or controlled substance analogue.

“(d) DEFINITIONS.—As used in this section—

“(1) the terms ‘controlled substance’ and ‘controlled substance analogue’ have the meanings stated in section 102 of the Controlled Substances Act (21 U.S.C. 802);

“(2) the term ‘official act’ means any decision, action, or conduct regarding any question, matter, proceeding, cause, suit, investigation, or prosecution which may at any time be pending, or which may be brought before any public official, in such official's official capacity, or in such official's place or trust or profit; and

“(3) the term ‘public official’ means—

“(A) an officer or employee or person acting for or on behalf of the United States, or any department, agency, or branch of Government thereof in any official function, under or by authority of any such department, agency, or branch of Government;

“(B) a juror;

“(C) an officer or employee or person acting for or on behalf of the government of any State, territory, or possession of the United States (including the District of Columbia), or any political subdivision thereof, in any official function, under or by the authority of any such State, territory, possession, or political subdivision; and

“(D) any person who has been nominated or appointed to a position described in subparagraph (A), (B), or (C), or has been officially informed that he or she will be so nominated or appointed.”

(b) TECHNICAL AMENDMENTS.—(1) Section 1961(1) of title 18, United States Code, is amended by inserting “section 220 (relating to narcotics and public corruption),” after “Section 201 (relating to bribery).”

(2) Section 2516(1)(c) of title 18, United States Code, is amended by inserting “section 220 (relating to narcotics and public corruption),” after “section 201 (bribery of public officials and witnesses).”

(3) The chapter analysis for chapter 11 of title 18, United States Code, is amended by inserting after the item for section 219 the following new item:

“220. Narcotics and public corruption.”

COHEN (AND OTHERS) AMENDMENT NO. 1165

Mr. DOLE (for Mr. COHEN for himself and Mr. HATCH, and Mr. DOLE) proposed an amendment to the bill S. 1607, supra; as follows:

On page 161, strike lines 1 and 2, and insert the following:

TITLE VIII—SEXUAL VIOLENCE AND ABUSE OF CHILDREN, THE ELDERLY, AND INDIVIDUALS WITH DISABILITIES

On page 161, strike line 21 and all that follows through page 167, line 15, and insert the following:

Subtitle B—Protection of Children, the Elderly, and Individuals With Disabilities

SEC. 811. SHORT TITLE.

This subtitle may be cited as the “National Child, Elderly, and Individuals with Disabilities Protection Act of 1993”.

SEC. 812. PURPOSES.

The purposes of this subtitle are—

(1) to establish a national system through which organizations that care for children, the elderly, or individuals with disabilities may obtain the benefit of a nationwide criminal background check to determine if persons who are current or prospective care providers have committed abuse crimes or other serious crimes;

(2) to establish minimum criteria for State laws and procedures that permit organizations that care for children, the elderly, or individuals with disabilities to obtain the benefit of nationwide criminal background checks to determine if persons who are current or prospective care providers have committed abuse crimes or other serious crimes;

(3) to provide procedural rights for persons who are subject to nationwide criminal background checks, including procedures to challenge and correct inaccurate background check information;

(4) to establish a national system for the reporting by the States of abuse crime information; and

(5) to document and study the problem of child abuse by providing statistical and informational data on child abuse and related crimes to the Department of Justice and other interested parties.

SEC. 813. DEFINITIONS.

For the purposes of this subtitle—

(1) the term "abuse crime" means a child abuse crime, a crime against the elderly, or a crime against an individual with disabilities.

(2) the term "abuse crime information" means the following facts concerning a person who is under indictment for, or has been convicted of, an abuse crime: full name, race, sex, date of birth, height, weight, a brief description of the abuse crime or offenses for which the person has been arrested or is under indictment or has been convicted, the disposition of the charge, and any other information that the Attorney General determines may be useful in identifying persons arrested for, under indictment for, or convicted of, an abuse crime;

(3) the term "authorized agency" means a division or office of a State designated by a State to report, receive, or disseminate information under this subtitle;

(4) the term "background check crime" means an abuse crime, murder, manslaughter, aggravated assault, kidnapping, arson, sexual assault, domestic violence, incest, indecent exposure, prostitution, promotion of prostitution, burglary, robbery, embezzlement, larceny, fraud, and a felony offense involving the use or distribution of a controlled substance;

(5) the term "child" means a person who is a child for purposes of the criminal child abuse law of a State;

(6) the term "child abuse" means the physical or mental injury, sexual abuse or exploitation, neglectful treatment, negligent treatment, or maltreatment of a child by any person in violation of the criminal child abuse laws of a State, but does not include discipline administered by a parent or legal guardian to his or her child provided it is reasonable in manner and moderate in degree and otherwise does not constitute cruelty;

(7) the term "child abuse crime" means a crime committed under any law of a State that establishes criminal penalties for the commission of child abuse by a parent or other family member of a child or by any other person;

(8) the term "care" means the provision of care, treatment, education, training, instruction, supervision, or recreation to children, the elderly, or individuals with disabilities;

(9) the term "domestic violence" means a felony or misdemeanor involving the use or threatened use of force by—

(A) a present or former spouse of the victim;

(B) a person with whom the victim shares a child in common;

(C) a person who is cohabiting with or has cohabited with the victim as a spouse; or

(D) any person defined as a spouse of the victim under the domestic or family violence laws of a State;

(10) the term "elderly" means a person who is sixty-five years old or older.

(11) the term "exploitation" means child pornography and child prostitution;

(12) the term "mental injury" means harm to a person's psychological or intellectual functioning, which may be exhibited by severe anxiety, depression, withdrawal or outward aggressive behavior, or a combination of those behaviors or by a change in behavior, emotional response, or cognition;

(13) the term "national criminal background check system" means the system maintained by the Federal Bureau of Investigation based on fingerprint identification or any other method of positive identification;

(14) the term "negligent treatment" means the failure to provide, for a reason other than poverty, adequate food, clothing, shelter, or medical care so as to seriously endanger the physical health of a child, elderly person, or individual with disabilities;

(15) the term "individual with a disability" means an individual with a disability (as defined in section 3(2) of the Americans With Disabilities Act of 1990 (42 U.S.C. 12102(21)));

(16) the term "physical injury" includes lacerations, fractured bones, burns, internal injuries, severe bruising, and serious bodily harm;

(17) the term "provider" means—

(A) a person who—

(i) is employed by or volunteers with a qualified entity;

(ii) who owns or operates a qualified entity; or

(iii) who has or may have unsupervised access to a person to whom the qualified entity provides care; and

(B) a person who—

(i) seeks to be employed by or volunteer with a qualified entity;

(ii) seeks to own or operate a qualified entity; or

(iii) seeks to have or may have unsupervised access to a person to whom the qualified entity provides care;

(18) the term "qualified entity" means a business or organization, whether public, private, for-profit, not-for-profit, or voluntary, that provides care or care placement services, including a business or organization that licenses or certifies others to provide care or care placement services;

(19) the term "sex crime" means an act of sexual abuse that is a criminal act;

(20) the term "sexual abuse" includes the employment, use, persuasion, inducement, enticement, or coercion of a child to engage in, or assist another person to engage in, sexually explicit conduct or the rape, molestation, prostitution, or other form of sexual exploitation of children or incest with children; and

(21) the term "State" means a State, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, and the Trust Territories of the Pacific.

On page 172, lines 16 and 17, strike "child to whom the qualified entity provides child care," and insert "person to whom the qualified entity provides care;"

On page 173, line 25, strike "child" and insert "person".

On page 174, line 1, strike "child".

On page 177, lines 11 and 13, strike "National Child Protection Act of 1993" and insert "National Child, Elderly, and Individuals with Disabilities Protection Act of 1993".

There are authorized to be appropriated for grants under paragraph (1) a total of \$40,000,000 for fiscal years 1995, 1996, and 1997.

SPECTER AMENDMENT NO. 1166

Mr. DOLE (for Mr. SPECTER) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place in the bill, insert the following new section:

SEC. . AMENDMENTS TO THE DEPARTMENT OF EDUCATION ORGANIZATION ACT AND THE NATIONAL LITERACY ACT OF 1991.

(a) TECHNICAL AMENDMENT.—The matter preceding paragraph (1) of section 214(d) of the Department of Education Organization Act (20 U.S.C. 3423a(d)) is amended by striking "under subsection (a)" and inserting "under subsection (c)".

(b) ESTABLISHMENT OF A PANEL AND USE OF FUNDS.—Section 601 of the National Literacy Act of 1991 (20 U.S.C. 1211-2) is amended by—

(1) by redesignating subsection (g) as subsection (i); and

(2) by inserting after subsection (f) the following new subsections:

"(g) PANEL.—The Secretary is authorized to consult with and convene a panel of experts in correctional education, including program administrators and field-based professionals in adult corrections, juvenile services, jails, and community corrections programs, to—

"(1) develop measures for evaluating the effectiveness of the programs funded under this section; and

"(2) evaluate the effectiveness of such programs."

"(h) USE OF FUNDS.—Notwithstanding any other provision of law, the Secretary may use not more than five percent of funds appropriated under subsection (i) in any fiscal year to carry out grant-related activities such as monitoring, technical assistance, and replication and dissemination."

HATCH AMENDMENT NO. 1167

Mr. DOLE (for Mr. HATCH) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place, insert the following new section:

SEC. . PREVENTION, DIAGNOSIS, AND TREATMENT OF TUBERCULOSIS IN CORRECTIONAL INSTITUTIONS.

(a) GUIDELINES.—The Attorney General, in consultation with the Secretary of Health and Human Services and the Director of the National Institute of Justice, shall develop and disseminate to appropriate entities, including State and local correctional institutions and the Immigration and Naturalization Service, guidelines for the prevention, diagnosis, treatment, and followup care of tuberculosis among inmates of correctional institutions and persons held in holding facilities operated by or under contract with the Immigration and Naturalization Service.

(b) COMPLIANCE.—The Attorney General shall ensure that prisons in the Federal prison system and holding facilities operated by or under contract with the Immigration and Naturalization Service comply with the guidelines described in subsection (a).

(c) GRANTS.—

(1) IN GENERAL.—The Attorney General shall make grants to State and local correctional authorities and public health authorities to assist in establishing and operating programs for the prevention, diagnosis, treatment, and followup care of tuberculosis among inmates of correctional institutions.

(2) FEDERAL SHARE.—The Federal share of funding of a program funded with a grant under paragraph (1) shall not exceed 50 percent.

(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$20,000,000 to carry out this section.

GRASSLEY AMENDMENT NO. 1168

Mr. DOLE (for Mr. GRASSLEY) proposed an amendment to the bill S. 1607, supra; as follows:

On page 184, between lines 4 and 5, insert the following:

CHAPTER 2—CHILD PORNOGRAPHY SEC. 824. PENALTIES FOR INTERNATIONAL TRAFFICKING IN CHILD PORNOGRAPHY.

(a) IMPORT RELATED OFFENSE.—Chapter 110 of title 18, United States Code, is amended by adding at the end the following new section: "**§ 2258. Production of sexually explicit depictions of a minor for importation into the United States**

"(a) USE OF MINOR.—A person who, outside the United States, employs, uses, persuades, induces, entices, or coerces any minor to engage in, or who has a minor assist any other person to engage in, or who transports any minor with the intent that the minor engage in any sexually explicit conduct for the purpose of producing any visual depiction of such conduct, intending that the visual depiction will be imported into the United States or into waters within 12 miles of the coast of the United States, shall be punished as provided in subsection (c).

"(b) USE OF VISUAL DEPICTION.—A person who, outside the United States, knowingly receives, transports, ships, distributes, sells, or possesses with intent to transport, ship, sell, or distribute any visual depiction of a minor engaging in sexually explicit conduct (if the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct), intending that the visual depiction will be imported into the United States or into waters within a distance of 12 miles of the coast of the United States, shall be punished as provided in subsection (c).

"(c) PENALTIES.—A person who violates subsection (a) or (b), or conspires or attempts to do so—

"(1) shall be fined under this title, imprisoned not more than 10 years, or both; and

"(2) if the person has a prior conviction under this chapter or chapter 109A, shall be fined under this title, imprisoned not more than 20 years, or both."

(b) TECHNICAL AMENDMENT.—

(1) CHAPTER ANALYSIS.—The chapter analysis for chapter 110 of title 18, United States Code, is amended by adding at the end the following new item:

"2258. Production of sexually explicit depictions of a minor for importation into the United States."

(2) FINE PROVISIONS.—Section 2251(d) of title 18, United States Code, is amended—

(A) by striking "not more than \$100,000, or" and inserting "under this title,";

(B) by striking "not more than \$200,000, or" and inserting "under this title,"; and

(C) by striking "not more than \$250,000" and inserting "under this title".

(c) SECTION 2251 PENALTY ENHANCEMENT.—Section 2251(d) of title 18, United States Code, is amended by striking "this section" the second place it appears and inserting "this chapter or chapter 109A".

(d) SECTION 2252 PENALTY ENHANCEMENT.—Section 2252(b)(1) of title 18, United States Code, is amended by striking "this section" and inserting "this chapter or chapter 109A".

(e) CONSPIRACY AND ATTEMPT.—Sections 2251(d) and 2252(b) of title 18, United States

Code, are each amended by inserting ", or attempts or conspires to violate," after "violates" each place it appears.

(f) RICO AMENDMENT.—Section 1961(1) of title 18, United States Code, is amended by striking "2251-2252" and inserting "2251, 2252, and 2258".

(g) TRANSPORTATION OF MINORS.—Section 2423 of title 18, United States Code, is amended—

(1) by striking "(a) Whoever" and inserting "(a) TRANSPORTATION WITH INTENT TO ENGAGE IN CRIMINAL SEXUAL ACTIVITY.—A person who"; and

(2) by adding at the end the following new subsection:

"(b) TRAVEL WITH INTENT TO ENGAGE IN SEXUAL ACT WITH A JUVENILE.—A person who travels in interstate commerce, or conspires to do so, or a United States citizen or an alien admitted for permanent residence in the United States who travels in foreign commerce, or conspires to do so, for the purpose of engaging in any sexual act (as defined in section 2245) with a person under 18 years of age that would be in violation of chapter 109A if the sexual act occurred in the special maritime and territorial jurisdiction of the United States shall be fined under this title, imprisoned not more than 10 years, or both."

SEC. 825. SENSE OF CONGRESS CONCERNING STATE LEGISLATION REGARDING CHILD PORNOGRAPHY.

It is the sense of the Congress that each State that has not yet done so should enact legislation prohibiting the production, distribution, receipt, or simple possession of materials depicting a person under 18 years of age engaging in sexually explicit conduct (as defined in section 2256 of title 18, United States Code) and providing for a maximum imprisonment of at least 1 year and for the forfeiture of assets used in the commission or support of, or gained from, such offenses.

CHAFEE (AND HATCH) AMENDMENT NO. 1169

Mr. DOLE (for Mr. CHAFEE for himself and Mr. HATCH) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place, insert the following:

TITLE.—FIREARMS

SEC. 01. PERSONS SUBJECT TO RESTRAINING ORDERS.

Section 922(d) of title 18, United States Code, is amended—

(1) by striking "or" at the end of paragraph (6);

(2) by adding "or" at the end of paragraph (7); and

(3) by adding after paragraph (7) the following new paragraph:

"(8)(A) is subject to an order, issued by a Federal or State court after a hearing about which that person received actual notice and at which that person had the opportunity to participate, restraining that person from harassing, stalking, threatening, or engaging in other such conduct that would place another person in fear of bodily injury or the effect of which conduct would be to place a reasonable person in fear of bodily injury; and

(B) whom the court issuing the order finds under this subsection to represent a credible threat to the physical safety of that other person;"

Section 922(g) of title 18, United States Code, is amended—

(1) by striking "or" at the end of paragraph (6);

(2) by adding "or" at the end of paragraph (7); and

(3) by adding after paragraph (7) the following new paragraph:

"(8)(A) who is subject to an order, issued by a Federal or State court after a hearing about which that person received actual notice and at which that person had the opportunity to participate, restraining that person from harassing, stalking, threatening, or engaging in other such conduct that would place another person in fear of bodily injury or the effect of which conduct would be to place a reasonable person in fear of bodily injury; and

(B) whom the court issuing the order finds under this subsection to represent a credible threat to the physical safety of that other person;"

Section 926(a) of title 18, United States Code, is amended—

(1) by striking "and" at the end of paragraph (1);

(2) by replacing ", " with "; and" at the end of paragraph (2); and

(3) by adding after paragraph (a)(2) the following new paragraph:

"(3) regulations providing for effective receipt and secure storage of firearms relinquished by or seized from persons described in sections 922(d)(8) or 922(g)(8)."

Section 924(d)(1) of title 18, United States Code, is amended—

(1) by striking all between "trial," and "firearms" and inserting the following:

"or lapse of or court termination of the restraining order to which he is subject, the seized or relinquished"

PRESSLER AMENDMENT NO. 1170

Mr. DOLE (for Mr. PRESSLER) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place, add the following:

SEC. . SOLICITATION OF MINOR TO COMMIT CRIME.

(a) DIRECTIVE TO SENTENCING COMMISSION.—(1) The United States Sentencing Commission shall promulgate guidelines or amend existing guidelines to provide that a defendant 18 years of age or older who has been convicted of an offense shall receive an appropriate sentence enhancement if the defendant involved a minor in the commission of the offense.

(2) The Commission shall provide that the guideline enhancement promulgate pursuant to paragraph (1) shall apply for any offense in relation to which the defendant has solicited, procured, recruited, counseled, encouraged, trained, directed, commanded, intimidated, or otherwise used or attempted to use any person less than 18 years of age with the intent that the minor would commit a Federal offense.

(b) RELEVANT CONSIDERATIONS.—In implementing the directive in subsection (a), the Sentencing Commission shall consider—

(1) the severity of the crime that the defendant intended the minor to commit;

(2) the number of minors that the defendant used or attempted to use in relation to the offense;

(3) the fact that involving a minor in a crime of violence is frequently of even greater seriousness than involving a minor in a drug trafficking offense, for which the guidelines already provide a two-level enhancement; and

(4) the possible relevance of the proximity in age between the offender and the minor(s) involved in the offense.

MCCAIN AMENDMENT NO. 1171

Mr. DOLE (for Mr. MCCAIN) proposed an amendment to the bill S. 1607, supra; as follows:

On page 177, line 13, strike out "1993" and insert in lieu thereof "1993, and the information and records referred to in section 406 of the Indian Child Protection and Family Violence Prevention Act".

KASSEBAUM (AND SIMPSON)
AMENDMENT NO. 1172

Mr. DOLE (for Mrs. KASSEBAUM for herself and Mr. SIMPSON) proposed an amendment to the bill S. 1607, supra; as follows:

On page line insert the following:

"(a) FINDINGS.—The Congress finds that—
(1) in the last decade applications for asylum have greatly exceeded the original 5,000 annual limit provided in the Refugee Act of 1980, with more than 150,000 asylum applications filed in FY93, and the backlog of cases growing to 340,000;

(2) this flood of asylum claims has swamped the system, creating delays in the processing of applications of up to several years;

(3) the delay in processing asylum claims due to the overwhelming numbers has contributed to numerous problems, including:

(A) an abuse of the asylum laws by fraudulent applicants whose primary interest is obtaining work authority in the United States while their claim languishes in the backlogged asylum processing system;

(B) the growth of alien smuggling operations, often involving organized crime;

(C) a drain on limited resources resulting from the high cost of processing frivolous asylum claims through our multi-layered system; and

(D) an erosion of public support for asylum, which is a treaty obligation;

(4) Asylum, a safe haven protection for aliens abroad who cannot return home, has been perverted by some aliens who use asylum claims to circumvent our immigration and refugee laws and procedures;

(5) a comprehensive revision of our asylum law and procedures is required to address these problems.

(b) POLICY.—It is the sense of the Congress that—

(1) asylum is a process intended to protect aliens in the United States who, because of events occurring after their arrival here, cannot safely return home;

(2) persons outside their country of nationality who have a well-founded fear of persecution if they return should apply for refugee status at one of our refugee processing offices abroad;

(3) the immigration, refugee and asylum laws of the United States should be reformed to provide:

(A) a procedure for the expeditious exclusion of any asylum applicant who arrives at a port-of-entry with fraudulent documents, or no documents, and makes a non-credible claim of asylum; and

(B) the immigration, refugee and asylum laws of the United States should be reformed to provide for a streamlined affirmative asylum processing system for asylum applicants who make their application after they have entered the United States.

HATFIELD AMENDMENT NO. 1173

Mr. DOLE (for Mr. HATFIELD) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place, insert the following:

SEC. . ESTABLISHMENT OF COMMUNITY PROGRAMS ON DOMESTIC VIOLENCE.

The Family Violence Prevention and Services Act (42 U.S.C. 10401 et seq.) is amended by adding at the end the following new section:

"SEC. 316. DEMONSTRATION GRANTS FOR COMMUNITY INITIATIVES.

"(a) IN GENERAL.—The Secretary shall provide grants to nonprofit private organizations to establish projects in local communities involving many sectors of each community to coordinate intervention and prevention of domestic violence.

"(b) ELIGIBILITY.—To be eligible for a grant under this section, an entity—

"(1) shall be a nonprofit organization organized for the purpose of coordinating community projects for the intervention in and prevention of domestic violence;

"(2) shall include representatives of pertinent sectors of the local community, which may include the following—

"(A) health care providers;

"(B) the education community;

"(C) the religious community;

"(D) the justice system;

"(E) domestic violence program advocates;

"(F) human service entities such as State child services divisions;

"(G) business and civic leaders; and

"(H) other pertinent sectors.

"(c) APPLICATIONS.—An organization that desires to receive a grant under this section shall submit to the Secretary an application, in such form and in such manner as the Secretary shall prescribe through notice in the Federal Register, that—

"(1) demonstrates that the applicant will serve a community leadership function, bringing together opinion leaders from each sector of the community to develop a coordinated community consensus opposing domestic violence;

"(2) demonstrates a community action component to improve and expand current intervention and prevention strategies through increased communication and coordination among all affected sectors;

"(3) includes a complete description of the applicant's plan for the establishment and operation of the community project, including a description of—

"(A) the method for identification and selection of an administrative committee made up of persons knowledgeable in domestic violence to oversee the project, hire staff, assure compliance with the project outline, and secure annual evaluation of the project;

"(B) the method for identification and selection of project staff and a project evaluator;

"(C) the method for identification and selection of a project council consisting of representatives of the community sectors listed in subsection (b)(2);

"(D) the method for identification and selection of a steering committee consisting of representatives of the various community sectors who will chair subcommittees of the project council focusing on each of the sectors; and

"(E) a plan for developing outreach and public education campaigns regarding domestic violence; and

"(4) contains such other information, agreements, and assurances as the Secretary may require.

"(d) TERM.—A grant provided under this section may extend over a period of not more than 3 fiscal years.

"(e) CONDITIONS ON PAYMENT.—Payments under a grant under this section shall be subject to—

"(1) annual approval by the Secretary; and

"(2) availability of appropriations.

"(f) GEOGRAPHICAL DISPERSION.—The Secretary shall award grants under this section to organizations in communities geographically dispersed throughout the country.

"(g) USE OF GRANT MONIES.—

"(1) IN GENERAL.—A grant made under subsection (a) shall be used to establish and operate a community project to coordinate intervention and prevention of domestic violence.

"(2) REQUIREMENTS.—In establishing and operating a project, a nonprofit private organization shall—

"(A) establish protocols to improve and expand domestic violence intervention and prevention strategies among all affected sectors;

"(B) develop action plans to direct responses within each community sector that are in conjunction with development in all other sectors; and

"(C) provide for periodic evaluation of the project with a written report and analysis to assist application of this concept in other communities.

"(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

"(1) \$20,000,000 for fiscal year 1995; and

"(2) such sums as are necessary for fiscal years 1996, 1997, and 1998,

to remain available until expended.

DOLE AMENDMENT NO. 1174

Mr. DOLE proposed an amendment to the bill S. 1607, supra; as follows:

Section 1(b)(1) of the Hate Crime Statistics Act (Public Law 101-275, 104 Stat. 140) is amended by adding "disability," after "religion."

DOMENICI (AND OTHERS)
AMENDMENT NO. 1175

Mr. DOLE (for Mr. DOMENICI for himself, Mr. BYRD, and Mr. D'AMATO) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place in the bill, insert the following:

SEC. .

(a) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR THE FEDERAL JUDICIARY.—

(1) There is authorized to be appropriated for the activities of the Federal Judiciary not to exceed \$20,000,000 for fiscal year 1994, and not to exceed \$70,000,000 for each of the fiscal years 1995, 1996, 1997, and 1998 to help meet the increased demands for judicial activities which will result from enactment into law of this Act.

(b) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR THE DEPARTMENT OF JUSTICE.

(1) There is authorized to be appropriated for the activities and agencies of the Department of Justice, in addition to sums authorized elsewhere in this section, not to exceed \$25,000,000 for fiscal year 1994, not to exceed \$125,000,000 for fiscal year 1995, and not to exceed \$150,000,000 for each of the fiscal years 1996, 1997, and 1998 to help meet the increased demands for Department of Justice activities which will result from enactment into law of this Act.

(c) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR THE FEDERAL BUREAU OF INVESTIGATION.—

(1) There is authorized to be appropriated for the activities of the Federal Bureau of Investigation not to exceed \$20,000,000 for fiscal

year 1994, not to exceed \$50,000,000 for fiscal year 1995, and not to exceed \$60,000,000 for each of the fiscal years 1996, 1997, and 1998 to help meet the increased demands for Federal Bureau of Investigation activities which will result from enactment into law of this Act.

(d) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR UNITED STATES ATTORNEYS.—
(1) There is authorized to be appropriated for the account Department of Justice, Legal Activities, "Salaries and expenses, United States Attorney" not to exceed \$10,000,000 for fiscal year 1994, and not to exceed \$35,000,000 for each of the fiscal years 1995, 1996, 1997, and 1998 to help meet the increased demands for litigation and related activities which will result from enactment into law of this Act.

(e) Funds appropriated pursuant to this section are authorized to remain available for obligation until expended.

(f) Funds authorized under this section may be appropriated from the Trust Fund established by section 1321C of this Act.

DURENBERGER (AND SIMON) AMENDMENT NO. 1176

Mr. DOLE (for Mr. DURENBERGER for himself and Mr. SIMON) proposed an amendment to the bill S. 1607, supra; as follows:

At the end of the bill, add the following:

TITLE I—GENERAL PROVISIONS

SEC. 101. SHORT TITLE.

This Act may be cited as the "Family Unity Demonstration Project Act".

SEC. 102. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) an increasing number of children are becoming separated from their primary caretaker parents due to the incarceration of the parents in prisons and jails;

(2) such separation of children from their primary caretaker parents can cause harm to children's psychological well-being and hinder their growth and development;

(3) a significant number of children are born shortly before or during the incarceration of their mothers and are then quickly separated from their mothers, preventing the parent-child bonding that is crucial to developing in children a sense of security and trust;

(4) maintaining close relationships with their children provides a powerful incentive for prisoners to participate in and successfully benefit from rehabilitative programs; and

(5) maintaining strong family ties during imprisonment has been shown to decrease recidivism, thereby reducing prison costs.

(b) PURPOSE.—The purpose of this Act is to evaluate the effectiveness of certain demonstration projects in helping to—

(1) alleviate the harm to children and primary caretaker parents caused by separation due to the incarceration of the parents;

(2) reduce recidivism rates of prisoners by encouraging strong and supportive family relationships; and

(3) explore the cost effectiveness of community correctional facilities.

SEC. 103. DEFINITIONS.

In this Act—

"child" means a person who is less than 6 years of age.

"community correctional facility" means a residential facility that—

(A) is used only for eligible offenders and their children under 6 years of age;

(B) is not within the confines of a jail or prison;

(C) has a maximum capacity of 50 prisoners in addition to their children; and

(D) provides to inmates and their children—

(i) a safe, stable environment for children;

(ii) pediatric and adult medical care consistent with medical standards for correctional facilities;

(iii) programs to improve the stability of the parent-child relationship, including educating parents regarding—

(I) child development; and

(II) household management;

(iv) alcoholism and drug addiction treatment for prisoners; and

(v) programs and support services to help inmates—

(I) to improve and maintain mental and physical health, including access to counseling;

(II) to obtain adequate housing upon release from State incarceration;

(III) to obtain suitable education, employment, or training for employment; and

(IV) to obtain suitable child care.

"Director" means the Director of the Federal Bureau of Prisons.

"eligible offender" means a primary caretaker parent who—

(A) is sentenced to a term of imprisonment of not more than 7 years or is awaiting sentencing for a conviction punishable by such a term of imprisonment;

(B) except in the case of an offender awaiting sentencing, is incarcerated currently to serve that sentence;

(C) is not eligible currently for probation or parole until the expiration of a period exceeding 180 days; and

(D) has not engaged in conduct which—

(i) knowingly resulted in death of serious bodily injury;

(ii) is a felony for a crime of violence against the person;

(iii) constitutes child neglect or mental, physical, or sexual abuse of a child.

"primary caretaker parent" means—

(A) a parent who has consistently assumed responsibility for the housing, health, and safety of a child prior to incarceration; or

(B) a woman who has given birth to a child after or while awaiting sentencing hearing and who expresses a willingness to assume responsibility for the housing, health, and safety of that child, a parent who in the best interest of a child, has arranged for the temporary care of the child in the home of a relative or other responsible adult shall not for that reason be excluded from the category "primary caretaker".

"State" means 1 of the States or the District of Columbia.

SEC. 104. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—There is authorized to be appropriated to carry out this Act \$8,000,000 for each of fiscal years 1995, 1996, 1997, 1998 and 1999.

(b) AVAILABILITY OF APPROPRIATIONS.—Of the amount appropriated under subsection (a) for any fiscal year—

(1) 90 percent shall be available to carry out title II; and

(2) 10 percent shall be available to carry out title III.

TITLE II—GRANTS TO STATES

SEC. 201. AUTHORITY TO MAKE GRANTS.

(a) GENERAL AUTHORITY.—The Director may make grants, on a competitive basis, to States to carry out in accordance with this title family unity demonstration projects that enable eligible offenders to live in community correctional facilities with their children.

(b) PREFERENCES.—For the purpose of making grants under subsection (a), the Director

shall give preference to a State that includes in the application required by section 202 assurances that if the State receives a grant—

(1) both the State corrections agency and the State health and human services agency will participate substantially in, and cooperate closely in all aspects of, the development and operation of the family unity demonstration project for which such a grant is requested;

(2) boards made up of community residents, local businesses, corrections officials, former prisoners, child development professionals, educators, and maternal and child health professionals will be established to advise the State regarding the operation of such project;

(3) the State has in effect a policy that provides for the placement of all prisoners, whenever possible, in correctional facilities for which they qualify that are located closest to their respective family homes;

(4) unless the Director determines that a longer timeline is appropriate in a particular case and notifies the Attorney General in writing of the length and reason for such extension, the State will implement the project not later than 180 days after receiving a grant under subsection (a) and will expend all of the grant during a 1-year period;

(5) the State demonstrates that it has the capacity to continue implementing a community correctional facility beyond the funding period to ensure the continuity of the work;

(6) for the purpose of selecting eligible offenders to participate in the project, the State will—

(A) give written notice to a prisoner, not later than 30 days after the State first receives a grant under subsection (a) or 30 days after the prisoner is sentenced to a term of imprisonment of not more than 7 years (whichever is later), of the proposed or current operation of the project;

(B) accept at any time at which the project is in operation an application by a prisoner to participate in the project if, at the time of application, the remainder of the prisoner's sentence exceeds 180 days;

(C) review applications by prisoners in the sequence in which the State receives such applications;

(D) not more than 50 days after reviewing such applications approve or disapprove the application; and

(7) for the purposes of selecting eligible offenders to participate in such project, the State authorizes State courts to sentence an eligible offender directly to a correctional facility, provided that the court gives assurances that the offender would have otherwise served a term of imprisonment.

(c) SELECTION OF GRANTEEES.—The Director shall make grants under subsection (a) on a competitive basis, based on such criteria as the Director shall issue by rule and taking into account the priorities described in subsection (b).

(d) NUMBER OF GRANTS.—In any fiscal year for which funds are available to carry out this title, the Director shall make grants to no fewer than 4 and no greater than 8 eligible States geographically dispersed throughout the United States.

SEC. 202. ELIGIBILITY TO RECEIVE GRANTS.

To be eligible to receive a grant under section 201(a), a State shall submit to the Director an application at such time, in such form, and containing such information as the Director reasonably may require by rule.

SEC. 203. REPORT.

(a) IN GENERAL.—A State that receives a grant under this title shall, not later than 90

days after the 1-year period in which the grant is required to be expended, submit a report to the Director regarding the family unity demonstration project for which the grant was expended.

(b) CONTENTS.—A report under subsection (a) shall—

(1) state the number of prisoners who submitted applications to participate in the project and the number of prisoners who were placed in community correctional facilities;

(2) state, with respect to prisoners placed in the project, the number of prisoners who are returned to that jurisdiction and custody and the reasons for such return;

(3) describe the nature and scope of educational and training activities provided to prisoners participating in the project;

(4) state the number, and describe the scope of, contracts made with public and nonprofit private community-based organizations to carry out such project; and

(5) evaluate the effectiveness of the project in accomplishing the purposes described in section 102(b).

TITLE III—FAMILY UNITY DEMONSTRATION PROJECT FOR FEDERAL PRISONERS

SEC. 301. AUTHORITY OF THE ATTORNEY GENERAL.

(a) IN GENERAL.—Ten percent of the funds authorized under this Act shall be used for defendants convicted of Federal offenses.

(b) GENERAL CONTRACTING AUTHORITY.—In implementing this title, the Bureau of Prisons may enter into contracts with appropriate public or private agencies to provide housing, sustenance, services, and supervision of inmates eligible for placement in community correctional facilities under this title.

(c) USE OF STATE FACILITIES.—At the discretion of the Attorney General, Federal participants may be placed in State projects, as defined in title II. For such participants, the Attorney General shall, with funds available under section 104(b)(2), reimburse the State for all project costs related to the Federal participant's placement, including administrative costs.

SEC. 302. REQUIREMENTS.

For the purpose of placing Federal participants in a family unity demonstration project under section 301, the Attorney General shall—

(1) consult with the Secretary of Health and Human Services regarding the development and operation of the project; and

(2) submit to the Director a report containing the information described in section 203(b).

INOUYE (AND MCCAIN) AMENDMENT NO. 1177

Mr. BIDEN (for Mr. INOUYE, for himself, Mr. MCCAIN, Mr. DECONCINI, Mr. REID, Mr. DURENBERGER, and Mr. CONRAD) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place in subtitle G of title XXIX, insert the following:

"SEC. . CONTROL AND PREVENTION OF CRIME IN INDIAN COUNTRY.

"(a) DEFINITION.—As used in this Act, the term "Indian tribal government" means the governing body of a tribe, band, pueblo, nation, or other organized group or community of Indians, including an Alaska Native village (as defined in or established under the Alaska Native Claims Settlement Act, (43 U.S.C. 1601 35 et seq.), that is recognized as

eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

"(b) CONFORMING DEFINITION.—As used in this Act, the term "State" means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and Indian tribal governments.

"(c) MATCHING REQUIREMENTS.—Funds appropriated by the Congress for the activities of any agency of an Indian tribal government or the United States Government performing law enforcement functions on any Indian lands may be used to provide the non-Federal share of the cost of programs or projects funded under this title.

"(d) NONSUPPLANTING REQUIREMENT.—Funds made available to Indian tribal governments shall not be used to supplant funds supplied by the Department of the Interior, but shall be used to increase the amount of funds that would, in the absence of Federal funds received under this Act, be made available from funds supplied by the Department of the Interior."

METZENBAUM AMENDMENT NO. 1178

Mr. BIDEN (for Mr. METZENBAUM) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place in the bill, insert the following new section:

SEC. . CIVIL STATUTE OF LIMITATIONS FOR TORT ACTIONS BROUGHT BY THE RTC.

(a) RESOLUTION TRUST CORPORATION.—Section 11(d)(14) of the Federal Deposit Insurance Act (12 U.S.C. 1821(d)(14)) is amended—

(1) in subparagraph (A)(i), by inserting "except as provided in subparagraph (B)," before "in the case of";

(2) by redesignating subparagraph (B) as subparagraph (C);

(3) by inserting after subparagraph (A) the following new paragraph:

"(B) TORT ACTIONS BROUGHT BY THE RESOLUTION TRUST CORPORATION.—The applicable statute of limitations with regard to any action in tort brought by the Resolution Trust Corporation in its capacity as conservator or receiver of a failed savings association shall be the longer of—

"(i) the 5-year period beginning on the date the claim accrues; or

"(ii) the period applicable under State law."; and

(4) in subparagraph (C), as redesignated—

(A) by striking "subparagraph (A)" and inserting "subparagraphs (A) and (B)"; and

(B) by striking "such subparagraph" and inserting "such subparagraphs".

(b) EFFECTIVE DATE; TERMINATION; FDIC AS SUCCESSOR.—

(1) EFFECTIVE DATE.—The amendments made by subsection (a) shall be construed to have the same effective date as section 212 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

(2) TERMINATION.—The amendments made by subsection (a) shall remain in effect only until the termination of the Resolution Trust Corporation.

(3) FDIC AS SUCCESSOR TO THE RTC.—The Federal Deposit Insurance Corporation, as successor to the Resolution Trust Corporation, shall have the right to pursue any tort action that was properly brought by the Resolution Trust Corporation prior to the termination of the Resolution Trust Corporation.

WELLSTONE AMENDMENT NO. 1179

Mr. BIDEN (for himself and Mr. WELLSTONE) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place insert the following:

TITLE —DOMESTIC VIOLENCE

SEC. 1. SHORT TITLE.

This title may be cited as the "Domestic Violence Firearm Prevention Act".

SEC. 2. FINDINGS.

The Congress finds that—

(1) domestic violence is the leading cause of injury to women in the United States between ages of 15 and 44;

(2) firearms are used by the abuser in 7 percent of domestic violence incidents and produces an adverse effect on interstate commerce;

(3) individuals with a history of domestic abuse should not have easy access to firearms.

SEC. 3. PROHIBITION AGAINST DISPOSAL OF FIREARMS TO, OR RECEIPT OF FIREARMS BY, PERSONS WHO HAVE COMMITTED DOMESTIC ABUSE.

(a) PROHIBITION AGAINST DISPOSAL OF FIREARMS.—Section 922(d) of title 18, United States Code, is amended—

(1) by striking "or" at the end of paragraph (6);

(2) by striking the period at the end of paragraph (7) and inserting "; or"; and

(3) by inserting after paragraph (7) the following new paragraph:

"(B)(A) has been convicted in any court of an offense that—

"(i) involves the use, attempted use, or threatened use of physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person; or

"(ii) by its nature, involves a substantial risk that physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person may be used in the course of committing the offense; or

"(B) is required, pursuant to an order issued by any court in a case involving a person described in subparagraph (A), to refrain from any contact with or to maintain a minimum distance from that person or to refrain from abuse, harassment, or stalking of that person."

(b) PROHIBITION AGAINST RECEIPT OF FIREARMS.—Section 922(g) of title 18, United States Code, is amended—

(1) by striking "or" at the end of paragraph (6);

(2) by inserting "or" at the end of paragraph (7); and

(3) by inserting after paragraph (7) the following new paragraph:

"(B)(A) has been convicted in any court of an offense that—

"(i) involves the use, attempted use, or threatened use of physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person; or

"(ii) by its nature, involves a substantial risk that physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person may be used in the course of committing the offense; or

"(B) is required, pursuant to an order issued by any court in a case involving a person described in subparagraph (A), to refrain from any contact with or to maintain a minimum distance from that person, or to refrain from abuse, harassment, or stalking of that person;"

**SIMON (AND OTHERS)
AMENDMENT NO. 1180**

Mr. BIDEN (for Mr. SIMON, Mr. BENNETT, Mr. KENNEDY, Mrs. FEINSTEIN, Mr. METZENBAUM, Mr. LAUTENBERG, and Mr. KOHL) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place insert the following:

TITLE —FIREARMS

SEC. 01. FIREARMS LICENSURE AND REGISTRATION TO REQUIRE A PHOTOGRAPH AND FINGERPRINTS.

(a) FIREARMS LICENSURE.—Section 923(a) of title 18, United States Code, is amended in the second sentence by inserting "and shall include a photograph and fingerprints of the applicant" before the period.

(b) REGISTRATION.—Section 5802 of the Internal Revenue Code of 1986 is amended by inserting after the first sentence the following: "An individual required to register under this section shall include a photograph and fingerprints of the individual with the initial application."

SEC. 02. COMPLIANCE WITH STATE AND LOCAL LAWS AS A CONDITION TO LICENSE.

Section 923(d)(1) of title 18, United States Code, is amended—

(1) by striking "and" at the end of subparagraph (D);

(2) by striking the period at the end of subparagraph (E) and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(F) the applicant certifies that—
"(i) the business to be conducted under the license is not prohibited by State or local law in the place where the licensed premise is located;

"(ii)(I) within 30 days after the application is approved the business will comply with the requirements of State and local law applicable to the conduct of the business; and
"(II) the business will not be conducted under the license until the requirements of State and local law applicable to the business have been met; and

"(iii) that the applicant has sent or delivered a form to be prescribed by the Secretary, to the chief law enforcement officer of the locality in which the premises are located, which indicates that the applicant intends to apply for a Federal firearms license."

SEC. 03. ACTION ON FIREARMS LICENSE APPLICATION.

Section 923(d)(2) of title 18, United States Code, is amended by striking "forty-five-day" and inserting "60-day".

SEC. 04. INSPECTION OF FIREARMS LICENSEES' INVENTORY AND RECORDS.

Section 923(g)(1)(B)(ii) of title 18, United States Code, is amended to read as follows:

"(i) for insuring compliance with the record keeping requirements of this chapter—

"(I) not more than once during any 12-month period; or

"(II) at any time with respect to records relating to a firearm involved in a criminal investigation that is traced to the licensee."

SEC. 05. REPORTS OF THEFT OR LOSS OF FIREARMS.

Section 923(g) of title 18, United States Code, is amended by adding at the end the following new paragraph:

"(6) Each licensee shall report the theft or loss of a firearm from the licensee's inventory or collection, within 48 hours after the theft or loss is discovered, to the Secretary and to the appropriate local authorities."

SEC. 06. RESPONSES TO REQUESTS FOR INFORMATION.

Section 923(g) of title 18, United States Code, as amended by section 05, is amended by adding at the end the following new paragraph:

"(7) Each licensee shall respond immediately to, and in no event later than 24 hours after the receipt of, a request by the Secretary for information contained in the records required to be kept by this chapter as may be required for determining the disposition of 1 or more firearms in the course of a bona fide criminal investigation. The requested information shall be provided orally or in writing, as the Secretary may require. The Secretary shall implement a system whereby the licensee can positively identify and establish that an individual requesting information via telephone is employed by and authorized by the agency to request such information."

SEC. 07. NOTIFICATION OF NAMES AND ADDRESSES OF FIREARMS LICENSEES.

Section 923 of title 18, United States Code, is amended by adding at the end the following new subsection:

"(1) The Secretary of the Treasury shall notify the chief law enforcement officer in the appropriate State and local jurisdictions of the names and addresses of all persons in the State to whom a firearms license is issued.

**DECONCINI AMENDMENTS NOS.
1181-1182**

Mr. BIDEN (for Mr. DECONCINI) proposed two amendments to the bill S. 1607, supra; as follows:

AMENDMENT NO. 1181

On page 22, line 4, insert "(1)" before "Notwithstanding".

On page 22, between lines 8 and 9, insert the following:

"(2) Notwithstanding subsection (a), an applicant that is an Indian tribe or tribal law enforcement agency may submit an application for a grant under this part directly to the Attorney General.

On page 23, strike lines 8 through 13 and insert the following:

"(a) NOTSUPPLANTING REQUIREMENT.—Funds made available under this part to State or local governments or to Indian tribal governments shall not be used to supplant State or local funds, or, in the case of Indian tribes, funds supplied by the Department of the Interior, but shall be used to increase the amount of funds that would, in the absence of Federal lands received under this part, be made available from State or local sources, or in the case of Indian tribes, from funds supplied by the Department of the Interior.

On page 28, line 4, after "part Q." insert "In view of the extraordinary need for law enforcement in Indian country, an appropriate amount of funds available under part Q shall be made available for grants to Indian tribes or tribal law enforcement agencies."

On part 447, after line 23, add the following:

SEC. 2973. TREATMENT OF INDIAN TRIBES UNDER TITLE I OF THE OMNIBUS CRIME CONTROL AND SAFE STREETS ACT OF 1968.

(a) MATCHING FUND SOURCE.—
(1) IN GENERAL.—Section 817 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789m) is amended—

(A) by amending the heading to read as follows:

"DISTRICT OF COLUMBIA AND INDIAN TRIBE
MATCHING FUND SOURCE";

(B) by inserting "(a) DISTRICT OF COLUMBIA.—" before "Funds"; and

(C) by adding at the end the following new subsection:

"(b) INDIAN TRIBES.—Funds appropriated by the Congress for the activities of any agency of an Indian tribal government or the United States Government performing law enforcement functions on any Indian lands may be used to provide the non-Federal share of the cost of programs or projects funded under this title."

(2) TECHNICAL AMENDMENT.—The table of contents of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended by amending the item relating to section 817 to read as follows:

"Sec. 817. District of Columbia and Indian tribe matching fund source."

DEFINITION.—Section 901 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791) is amended—

(1) by striking "and" at the end of paragraph (22);

(2) by striking the period at the end of paragraph (23) and inserting "; and"; and

(3) by adding at the end the following new paragraph:

"(24) 'Indian tribe' means a tribe, band, pueblo, nation, or other organized group or community of Indians, including an Alaska Native village (as defined in or established under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians."

AMENDMENT NO. 1182

At the appropriate place, insert the following:

TITLE —MISSING AND EXPLOITED CHILDREN

SECTION 01. SHORT TITLE.

This title may be cited as the "Morgan P. Hardiman Task Force on Missing and Exploited Children Act".

SEC. 02. FINDINGS.

The Congress finds that—

(1) the victimization of children in our Nation has reached epidemic proportions; recent Department of Justice figures show that—

(A) 4,600 children were abducted by non-family members;

(B) two-thirds of the abductions of children by non-family members involve sexual assault;

(C) more than 354,000 children were abducted by family members; and

(D) 451,000 children ran away;

(2) while some local law enforcement officials have been successful in the investigation and resolution of such crimes, most local agencies lack the personnel and resources necessary to give this problem the full attention it requires;

(3) a majority of the Nation's 17,000 police departments have 10 or fewer officers; and

(4) locating missing children requires a coordinated law enforcement effort; supplementing local law enforcement agencies with a team of assigned active Federal agents will allow Federal agents to pool their resources and expertise in order to assist local agents in the investigation of the Nation's most difficult cases involving missing children.

SEC. 03. PURPOSE.

The purpose of this title is to establish a task force comprised of law enforcement officers from pertinent Federal agencies to work with the National Center for Missing and Exploited Children (referred to as the "Center") and coordinate the provision of Federal

law enforcement resources to assist State and local authorities in investigating the most difficult cases of missing and exploited children.

SEC. 04. ESTABLISHMENT OF TASK FORCE.

Title IV of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5771 et seq.) is amended—

(1) by redesignating sections 407 and 408 as sections 408 and 409, respectively; and

(2) by inserting after section 406 the following new section:

"TASK FORCE

"SEC. 407. (a) ESTABLISHMENT.—There is established a Missing and Exploited Children's Task Force (referred to as the "Task Force").

"(b) MEMBERSHIP.—

"(1) IN GENERAL.—The Task Force shall include at least 2 members from each of—

"(A) the Federal Bureau of Investigation;

"(B) the Secret Service;

"(C) the Bureau of Alcohol, Tobacco and Firearms;

"(D) the United States Customs Service;

"(E) the Postal Inspection Service;

"(F) the United States Marshals Service; and

"(G) the Drug Enforcement Administration.

"(2) CHIEF.—A representative of the Federal Bureau of Investigation (in addition to the members of the Task Force selected under paragraph (1)(A)) shall act as chief of the Task Force.

"(3) SELECTION.—(A) The Director of the Federal Bureau of Investigation shall select the chief of the Task Force.

"(B) The heads of the agencies described in paragraph (1) shall submit to the chief of the Task Force a list of at least 5 prospective Task Force members, and the chief shall select 2, or such greater number as may be agreeable to an agency head, as Task Force members.

"(4) PROFESSIONAL QUALIFICATIONS.—The members of the Task Force shall be law enforcement personnel selected for their expertise that would enable them to assist in the investigation of cases of missing and exploited children.

"(5) STATUS.—A member of the Task Force shall remain an employee of his or her respective agency for all purposes (including the purpose of performance review), and his or her service on the Task Force shall be without interruption or loss of civil service privilege or status and shall be on a non-reimbursable basis.

"(6) PERIOD OF SERVICE.—(A) Subject to subparagraph (B), 1 member from each agency shall initially serve a 1-year term, and the other member from the same agency shall serve a 1-year term, and may be selected to a renewal of service for 1 additional year; thereafter, each new member to serve on the Task Force shall serve for a 2-year period with the member's term of service beginning and ending in alternate years with the other member from the same agency; the period of service for the chief of the Task Force shall be 3 years.

"(B) The chief of the Task Force may at any time request the head of an agency described in paragraph (1) to submit a list of 5 prospective Task Force members to replace a member of the Task Force, for the purpose of maintaining a Task Force membership that will be able to meet the demands of its case-load.

"(c) SUPPORT.—

"(1) IN GENERAL.—The Administrator of the General Services Administration, in coordination with the heads of the agencies de-

scribed in subsection (b)(1), shall provide the Task Force office space and administrative and support services, such office space to be in close proximity to the office of the Center, so as to enable the Task Force to coordinate its activities with that of the Center on a day-to-day basis.

"(2) LEGAL GUIDANCE.—The Attorney General shall assign a United States Attorney to provide legal guidance, as needed, to members of the Task Force.

"(d) PURPOSE.—

"(1) IN GENERAL.—(A) The purpose of the Task Force shall be to make available the combined resources and expertise of the agencies described in paragraph (1) to assist State and local governments in the most difficult missing and exploited child cases nationwide, as identified by the chief of the Task Force from time to time, in consultation with the Center, and as many additional cases as resources permit, including the provision of assistance to State and local investigators on location in the field.

"(B) TECHNICAL ASSISTANCE.—The role of the Task Force in any investigation shall be to provide advice and technical assistance and to make available the resources of the agencies described in subsection (b)(1); the Task Force shall not take a leadership role in any such investigation.

"(e) TRAINING.—Members of the Task Force shall receive a course of training, provided by the Center, in matters relating to cases of missing and exploited children.

"(f) CROSS-DESIGNATION OF TASK FORCE MEMBERS.—The Attorney General shall cross-designate the members of the Task Force with jurisdiction to enforce Federal law related to child abduction to the extent necessary to accomplish the purposes of this section."

BOXER AMENDMENT NO. 1183

Mr. BIDEN (for Mrs. BOXER) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place in the bill, insert the following:

SEC. . PENALTIES FOR DOCUMENT FRAUD.

(a) IN GENERAL.—Section 274C(3) of the Immigration and Nationality Act (8 U.S.C. 1324c(3)) is amended—

(1) in subparagraph (A), by striking "not less than \$250 and not more than \$2,000" and inserting "not less than \$1,000 and not more than \$5,000"; and

(2) in subparagraph (B), by striking "not less than \$2,000 and not more than \$5,000" and inserting "not less than \$5,000 and not more than \$10,000".

(b) FRAUD AND MISUSE OF VISAS, PERMITS, AND OTHER DOCUMENTS.—(1) Section 1546 of title 18, United States Code, is amended—

(A) in subsection (a), by striking "not more than five years" and inserting "not more than ten years"; and

(B) in subsection (b), by striking "not more than two years" and inserting "not more than five years".

(2) Whoever commits an offense under section 1546(a) or 1546(b) of title 18, United States Code, shall be fined, in addition to the fines provided under such section, \$10,000 or \$5,000, respectively.

(c) APPLICABILITY.—This section, and the amendments made by this section, shall apply to offenses committed on or after the date of enactment of this Act.

LIEBERMAN AMENDMENT NO. 1184

Mr. BIDEN (for Mr. LIEBERMAN) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place insert the following:

SEC. . USE OF ANTILOITERING LAWS TO FIGHT CRIME.

The Attorney General shall—

(1) study the ways in which antiloitering laws can be used, without violating the constitutional rights of citizens as enunciated by the Supreme Court, to eradicate open-air drug markets and other blatant criminal activity;

(2) prepare a model antiloitering statute and guidelines for enforcing the statute in such a manner as to prevent, deter, and punish illegal drug activity and other criminal activity; and

(3) make the results of the study and the model statute and guidelines available to Federal, State, and local law enforcement authorities.

MOSELEY-BRAUN AMENDMENT NO. 1185

Mr. BIDEN (for Ms. MOSELEY-BRAUN) proposed an amendment to the bill S. 1607, supra; as follows:

On page 218, line 19, after "States," insert "and whether the State plan expressly considers the role of race in procedures for jury selection in the State."

LEAHY (AND OTHERS) AMENDMENT NO. 1186

Mr. BIDEN (for Mr. LEAHY, Mr. HEFLIN, and Mr. PRESSLER) proposed an amendment to the bill S. 1607, supra; as follows:

On page 312, after line 24, insert the following:

Subtitle C—Rural Domestic Violence and Child Abuse Enforcement

SEC. 1421. RURAL DOMESTIC VIOLENCE AND CHILD ABUSE ENFORCEMENT ASSISTANCE.

(a) GRANTS.—The Attorney General may make grants to units of State and local governments of rural States, and to other public or private entities of rural States—

(1) to implement, expand, and establish cooperative efforts and projects between law enforcement officers, prosecutors, victim advocacy groups, and other related parties to investigate and prosecute incidents of domestic violence and child abuse;

(2) to provide treatment and counseling to victims of domestic violence and child abuse; and

(3) to work in cooperation with the community to develop education and prevention strategies directed toward such issues.

(b) DEFINITION.—In this section, "rural State" has the meaning stated in section 1501(b) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796bb(b)).

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There is authorized to be appropriated to carry out this section \$10,000,000 for each of fiscal years 1995, 1996, and 1997.

(2) ADDITIONAL FUNDING.—In addition to funds received under a grant under subsection (a), a law enforcement agency may use funds received under a grant under section 103 to accomplish the objectives of this section.

BIDEN (AND OTHERS) AMENDMENT NO. 1187

Mr. BIDEN (for himself, Mr. HATCH, and Mr. REID) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place insert the following:

SEC. . VICTIMS OF CHILD ABUSE PROGRAMS.

(a) COURT-APPOINTED SPECIAL ADVOCATE PROGRAM.—

(1) REAUTHORIZATION.—Section 218(a) of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13014(a)) is amended to read as follows:

“(a) AUTHORIZATION.—There are authorized to be appropriated to carry out this subtitle—

“(1) \$7,000,000 for fiscal year 1995; and
“(2) \$10,000,000 for each of fiscal years 1996, 1997, and 1998.”

(2) TECHNICAL AMENDMENT.—Section 216 of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13012) is amended by striking “this chapter” and inserting “this subtitle”.

(b) CHILD ABUSE TRAINING PROGRAMS FOR JUDICIAL PERSONNEL AND PRACTITIONERS.—

(1) REAUTHORIZATION.—Section 224(a) of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13024(a)) is amended to read as follows:

“(a) AUTHORIZATION.—There are authorized to be appropriated to carry out this subtitle—

“(1) \$7,000,000 for fiscal year 1995; and
“(2) \$10,000,000 for each of fiscal years 1996, 1997, and 1998.”

(2) TECHNICAL AMENDMENT.—Section 221(b) of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13021(b)) is amended by striking “this chapter” and inserting “this subtitle”.

(c) GRANTS FOR TELEVIEWED TESTIMONY.—Title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended—

(1) by amending section 1001(a)(7) (42 U.S.C. 3793(a)(7)) to read as follows:

“(7) There are authorized to be appropriated to carry out part N—

“(A) \$3,500,000 for fiscal year 1995; and
“(B) \$5,000,000 for each of fiscal years 1996, 1997, and 1998.”

(2) in section 1401 (42 U.S.C. 3796aa) by striking “and units of local government” and inserting “, units of local government, and other public and private organizations”;

(3) in section 1402 (42 U.S.C. 3796aa-1) by striking “to States, for the use of States and units of local government in the States”;

(4) in section 1403 (42 U.S.C. 3796aa-2)—
(A) by inserting “, unit of local government, or other public or private organization” after “of a State”; and

(B) in paragraphs (3) and (4) by inserting “in the case of an application by a State,” before “an assurance”;

(5) by striking section 1405 (42 U.S.C. 3796aa-4); and

(6) in the table of contents by striking the item for section 1405.

HOLLINGS AMENDMENT NO. 1188

Mr. BIDEN (for Mr. HOLLINGS) proposed an amendment to the bill S. 1607, supra; as follows:

At the appropriate place in the bill, insert the following new section:

SEC. . LAW DAY U.S.A.

(a) FINDINGS.—Congress finds that—

(1) the first day of May of each year has been designated as “Law Day U.S.A.” and set aside as a special day to advance equality and justice under law, to encourage citizen support for law enforcement and law observance, and to foster respect for law and an understanding of the essential place of law in the life of every citizen of the United States;

(2) each day, police officers and other law enforcement personnel perform their duties unflinchingly and without hesitation;

(3) each year tens of thousands of law enforcement personnel are injured or assaulted in the course of duty and many are killed;

(4) law enforcement personnel are devoted to their jobs, are underpaid for their efforts, and are tireless in their work; and

(5) law enforcement personnel perform their duties without adequate recognition.

(b) EXPRESSION OF GRATITUDE.—In celebration of “Law Day, U.S.A.”, May 1, 1994, the grateful people of this Nation give special emphasis to all law enforcement personnel of the United States, and acknowledge the unflinching and devoted service law enforcement personnel perform as such personnel help preserve domestic tranquility and guarantee the legal rights of all individuals of this Nation.

DODD AMENDMENT NO. 1189

Mr. BIDEN (for Mr. DODD) proposed an amendment to the bill S. 1607, supra; as follows:

Insert at the appropriate place the following:

Of the amounts available to be expended for the Violent Crime Reduction Trust Fund \$75 million is authorized to be expended to constitute an Ounce of Prevention Fund, to be administered as follows and for the following purposes:

“(i) The Ounce of Prevention Fund shall be for the purpose of encouraging and supporting the healthy development and nurturance of children and youth in order to promote successful transition into adulthood and for preventing violent crime through substance abuse treatment and prevention.

“(ii) Activities to be supported by the Ounce of Prevention Fund include—

“(I) after school and summer academic enrichment and recreation conducted in safe and secure settings and coordinated with school curricula and programs, mentoring and tutoring and other activities involving extensive participation of adult role models, activities directed at facilitating familiarity with the labor market and ultimate successful transition into the labor market; and

“(II) substance abuse treatment and prevention program authorized in the Public Health Service Act including outreach programs for at-risk families.

“(iii) Except for substance abuse treatment and prevention programs, the children and youth to be served by Ounce of Prevention programs shall be of ages appropriate for attendance at elementary and secondary schools. Applications shall be geographically based in particular neighborhoods or sections of municipalities or particular segments of rural areas, and applications shall demonstrate how programs will serve substantial proportions of children and youth resident in the target area with activities designed to have substantial impact on the lives of such children and youth. The Ounce of Prevention Council created herein shall define more precise statistical and numerical parameters for target areas, numbers of children to be served, and substantially of impact of activities to be undertaken.

“(iv) Applicants may be cities, counties, or other municipalities, school boards, colleges and universities, nonprofit corporations, or consortia of eligible applicants. Applicants must show that a planning process has occurred that has involved organizations, institutions, and residents of target areas, including young people, as well as cooperation between neighborhood-based entities, municipality-wide bodies, and local private-sector representatives. Applicants must demonstrate the substantial involvement of neighborhood-based entities in the carrying out of the proposed activities. Proposals

must demonstrate that a broad base of collaboration and coordination will occur in the implementation of the proposed activities, involving cooperation among youth-serving organizations, schools, health and social service providers, employers, law enforcement professionals, local government, and residents of target areas, including young people. The Ounce of Prevention Council shall set forth guidelines elaborating these provisions.

“(v) The Ounce of Prevention Council shall be chaired by the Attorney General and the Secretaries of Education and Health and Human Services, and shall include the Secretaries of Agriculture, Housing and Urban Development, and Labor, and the Director of the Office of National Drug Control Policy. Such sums as shall be necessary shall be appropriated for staff of the Ounce of Prevention Council, which will be headed by a Director chosen by the Council. The Council shall make grant awards under this program and develop appropriate guidelines for the grant application process.

“(vi) The portion of the costs of a program, project, or activity provided by a grant under the Ounce of Prevention Fund may not exceed 75 percent, unless the Ounce of Prevention Council waives, wholly or in part, the requirement under this subsection of a non-Federal contribution to the costs of a program, project, or activity. Grants may be renewed for up to 4 additional years after the first fiscal year during which a recipient receives an initial grant, provided the Council is satisfied that adequate progress is being made toward fulfillment of proposal goals. The provision of section 1705(a) concerning nonsupplantation, section 1705(b) concerning limits on administrative costs, section 1706 concerning performance evaluation, and section 1707 concerning revocation or suspension of funding shall apply to the program created by this subparagraph.”

NOTICES OF HEARINGS

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. JOHNSTON, Mr. President, I would like to announce for the public that a hearing has been scheduled before the Committee on Energy and Natural Resources.

The hearing will take place Thursday, November 18, 1993, at 2 p.m. in room 366 of the Senate Dirksen Office Building in Washington, DC.

The purpose of the hearing is to receive testimony from Christine Ervin, nominee to be Assistant Secretary of Energy for Energy Efficiency and Renewable Energy.

For further information, please contact Rebecca Murphy at 202-224-7562.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. FORD, Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be allowed to meet during the session of the Senate on Wednesday, November 10, 1993, at 2:30 p.m. in SR-332 on S. 1288, the National Aquaculture Development, Commercialization, and Promotion Act of 1993.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED SERVICES

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet on Wednesday, November 10, 1993, at 9:45 a.m., in open session to consider the following nominations: Mr. R. Noel Longuemare, Jr., to be Deputy Under Secretary of Defense for Acquisition; Ambassador Henry Allen Holmes to be Assistant Secretary of Defense for Special Operations and Low Intensity Conflict; and Mr. Gilbert F. Casellas to be General Counsel of the Department of the Air Force.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate, 9:30 a.m., November 10, 1993, to consider pending calendar business.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FINANCE

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Finance be permitted to meet today at 10 a.m. to hear testimony on the subject of the Uruguay round of the GATT.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, November 10, 1993, at 10 a.m. to hold nomination hearings. An agenda is attached.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. FORD. Mr. President, I ask unanimous consent that the Governmental Affairs Committee be authorized to meet on Wednesday, November 10, for a hearing on the subject: NAFTA job claims: Truth in statistics?

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON LABOR AND HUMAN RESOURCES

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Labor and Human Resources be authorized to meet for a hearing on long-term care: security for senior citizens and individuals with disabilities, during the session of the Senate on November 10, 1993, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON LABOR AND HUMAN RESOURCES

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Labor and Human Resources be authorized to meet on November 10, 1993, at 9:55 a.m., for an executive session to

consider the nomination of Harold Varmus to be Director of the National Institutes of Health.

The PRESIDING OFFICER. Without objection, it is so ordered.

PERMANENT SUBCOMMITTEE ON INVESTIGATIONS

Mr. FORD. Mr. President, I ask unanimous consent that the Permanent Subcommittee on Investigations of the Committee on Governmental Affairs, be authorized to meet during the session of the Senate on Wednesday, November 10, 1993, to hold a hearing on the INS Criminal Alien Program.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SECURITIES

Mr. FORD. Mr. President, I ask unanimous consent that the Subcommittee on Securities of the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on Wednesday, November 10, 1993, at 10 a.m. to hold a hearing on the mutual fund industry.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

HISPANIC WOMEN'S CORP.

• Mr. DeCONCINI. Mr. President, I rise today to recognize the accomplishments of the Hispanic Women's Corp. The corporation will hold its ninth annual conference on December 10 and 11 in Phoenix with the appropriate theme "Hispanas: La Vision y La Fuerza—The Vision and the Strength.

The Hispanic Women's Corp. was founded in 1981 as the result of a series of meetings among eight Hispanic women who brought together diverse backgrounds in business, government and education to achieve a common goal. What began as an informal association has evolved into a nationally recognized organization which has dramatically empowered Hispanic women throughout our Nation.

For 12 successful years, the Hispanic Women's Corp. has actively sought to achieve the following goals: To ensure that Hispanic women are active and vital participants in our expanding work force; to recognize and address the challenges and opportunities inherent in the diverse cultural, social and linguistic heritage of the Hispanic woman; to promote the potential of Hispanics within the educational system, the work world and the community; and to assure the continued participation in and support of its three primary programs: The Hispanic Women's Conference, the Hispanic Women's Leadership Institute and the Hispanic Scholars Program.

Much of the success of the Hispanic Women's Corp. is due to the hard work and dedication of its board of directors, corporation president Eufemia Amabisca, conference chairwoman

Peggy Jordan, conference cochairs Toni-Marie Avila and Janie Mollon, and the conference executive planning committee.

We welcome the Hispanic Women's Corp. to Arizona and wish this outstanding organization a most successful and productive national conference. •

STOPPING YOUTH VIOLENCE

• Mr. SIMON. Mr. President, I would like to include in the RECORD an article from the Denver Post about ending urban violence. The op-ed is a unique collaboration in itself: the authors are the Governor of Colorado, the mayors of two of Colorado's largest cities and the dean of Colorado's congressional delegation. They, and many other Coloradans, throughout the public and private sector, have come together to creatively address youth violence in their State.

Colorado's Call to Action, an organization committed to stopping youth violence, has recently been recognized by Attorney General Janet Reno. This Partnership of Federal, State, and local agencies has focused on what Attorney General Reno calls "the single greatest crime problem in America today." Offering a comprehensive approach, Colorado's Call to Action is setting an example of how a community can work together with its officials, educators, businessmen and law enforcers to develop solutions to youth violence. Communities around the country are grappling with the problems of violence. We all have much to learn, and to be heartened by, from Colorado's experience. I ask that this article be printed in the RECORD in its entirety.

The article follows:

[From the Denver Post, Oct. 23, 1993]

TOGETHER, WE CAN STOP YOUTH VIOLENCE
(By Pat Schroeder, Wellington Webb, Paul Tauer, and Roy Romer)

Two days ago, Attorney General Janet Reno announced that five federal agencies—the Department of Justice, the Department of Health and Human Services, the Department of Housing and Urban Development, the Department of Education and the Department of Labor—will joint our ongoing efforts in Colorado to curb urban violence, in particular, youth violence.

Next Thursday, Oct. 28, we will all meet in Denver for Colorado's Call to Action, a summit on ending urban violence. At the summit we will focus on youth violence, what Attorney General Reno calls "the single greatest crime problem in America today." We concur with the attorney general's opinion that while our young people need to know that there are also consequences for their violence, communities need to know that there are also consequences for ignoring the problems of our youth.

Colorado's Call to Action will be enriched by the expertise of the federal government as well as Aurora's six years of success in curbing gang violence. It is an effort that builds upon the partnerships created by Denver's Safe City Summit and the lessons learned

and goals accomplished in Colorado's recent special legislative session on juvenile violence.

We will look comprehensively at the problem of urban violence in our communities. We know you can't treat youth violence without addressing child abuse and a lack of jobs for teens. We understand you can't end domestic violence without providing support for families in need. And we know that kids are in gangs because they want to belong somewhere.

On Thursday, our community leaders and experts will meet with Deputy Attorney General Philip Heymann and high-ranking officials from five federal agencies to discuss how we can best work together on urban violence. It's a historic opportunity for Colorado and for all of us who believe that everyone in our state has a stake in creating an atmosphere where children can thrive, families can be secure, and people treat each other with respect.

We will have the opportunity not only to get at the heart of violence here, but also to set an example for the entire country of how a community can come together by pooling its resources, brainpower, energy and commitment to deal with violence in a different way.

In July, we asked the attorney general for advice and help on how the Denver area could better deal with the summer of violence that plagued us. Colorado's Call to Action and the cooperation of federal agencies in developing it are part of her swift, comprehensive and thoughtful response.

Never before have we seen a project that cross-cuts five federal agencies and state and local government. The number one watchword has been teamwork. It's rare in government and politics. But here, under the leadership of Attorney General Reno, it has ruled the day.

We have teamwork among federal and state agencies and local governments. But more importantly, we have teamwork among our local entities. Law enforcement, schools and even the business community have welcomed the challenge of putting together a plan of action on urban violence.

It's our can-do spirit that convinced the attorney general that our community stands ready, willing and able to honestly assess our problems and develop our own solutions. One of the remarkable aspects of this is that we will be the architects of our plan on youth violence. The federal government is not going to play Big Brother on this. Instead, they will look at the plan we devise based upon our problems in Colorado and share their expertise and technical assistance on how we can best implement our programs.

Our effort is also budget-conscious. While we will spare no expense to keep our community safe, we know that resources and dollars—be they city, state or federal—are limited. This effort is not about throwing money at the problem. What the five federal agencies bring to the table is their expertise. We will be able to tap into national expertise on the violence issue. That is a precious commodity when you are rethinking a problem as overwhelming as urban violence.

It's this partnership that is so historic and groundbreaking about Colorado's Call to Action. Colorado's Call to Action is about creating partnerships outside government as well. That's why we are calling in experts from the fields of education and training, law enforcement and corrections, public health and social services, neighborhood and advocacy groups, and the business and foun-

dation communities. These groups all have a role in creating a climate where the culture of violence cannot take root.

We are proud that Attorney General Reno has taken note that this community is determined to end the culture of violence. It's going to be an evolving process, but we are in this battle for the long haul. So let's get to it. We have no time to waste. ●

NATIONAL FAMILY WEEK

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of House Joint Resolution 79, a joint resolution relating to National Family Week; just received from the House; that the resolution be deemed read a third time, passed, that the motion to reconsider be laid upon the table and that any statements relative to the passage of this item appear at the appropriate place in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

So the joint resolution (H.J. Res. 79) was deemed read a third time and passed.

NATIONAL WOMEN VETERANS RECOGNITION WEEK

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on (S.J. Res. 142) a joint resolution designating the week beginning November 7, 1993, as "National Women Veterans Recognition Week."

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the resolution from the Senate (S.J. Res. 142) entitled "Joint resolution designating the week beginning November 7, 1993, as 'National Women Veterans Recognition Week'", do pass with the following amendments:

Page 2, line 3, strike out "week beginning November 7, 1993, is" and insert "weeks beginning November 7, 1993, and November 6, 1994, respectively, are each".

Amend the title so as to read: "Joint resolution designating the week beginning November 7, 1993, and the week beginning November 6, 1994, each as 'National Women Veterans Recognition Week'".

Mr. FORD. Mr. President, I move that the Senate concur, en bloc, in the amendments of the House.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Kentucky.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UNITED STATES GRAIN STANDARDS ACT AMENDMENTS OF 1993

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a mes-

sage from the House of Representatives on S. 1490, an act to amend Public Law 100-518 and the United States Grain Standards Act to extend the authority of the Federal Grain Inspection Service to collect fees to cover administrative and supervisory costs, and for other purposes.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1490) entitled "An Act to amend Public Law 100-518 and the United States Grain Standards Act to extend the authority of the Federal Grain Inspection Service to collect fees to cover administrative and supervisory costs, and for other purposes," do pass with the following amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) *SHORT TITLE*.—This Act may be cited as the "United States Grain Standards Act Amendments of 1993".

(b) *TABLE OF CONTENTS*.—The table of contents for this Act is as follows:

Sec. 1. Short title and table of contents.

Sec. 2. Limitation on administrative and supervisory costs.

Sec. 3. Authorization of appropriations.

Sec. 4. Inspection and weighing fees; inspection and weighing in Canadian ports.

Sec. 5. Pilot program for performing inspection and weighing at interior locations.

Sec. 6. Licensing of inspectors.

Sec. 7. Prohibited acts.

Sec. 8. Criminal penalties.

Sec. 9. Equipment testing and other services.

Sec. 10. Violation of subpoena.

Sec. 11. Standardizing commercial inspections.

Sec. 12. Elimination of gender-based references.

Sec. 13. Repeal of temporary amendment language; technical amendments.

Sec. 14. Authority to collect fees; termination of advisory committee.

Sec. 15. Comprehensive cost containment plan.

Sec. 16. Effective dates.

SEC. 2. LIMITATION ON ADMINISTRATIVE AND SUPERVISORY COSTS.

Section 7D of the United States Grain Standards Act (7 U.S.C. 79d) is amended—

(1) by striking "inspection and weighing" and inserting "services performed"; and

(2) by striking "1993" and inserting "2000".

SEC. 3. AUTHORIZATION OF APPROPRIATIONS.

(a) *REAUTHORIZATION*.—Section 19 of the United States Grain Standards Act (7 U.S.C. 87h) is amended by striking "during the period beginning October 1, 1988, and ending September 30, 1993" and inserting "1988 through 2000".

(b) *LIMITATION*.—Such section is further amended by striking "and 17A of this Act" and inserting "7B, 16, and 17A".

SEC. 4. INSPECTION AND WEIGHING FEES; INSPECTION AND WEIGHING IN CANADIAN PORTS.

(a) *INSPECTION AUTHORITY*.—Section 7 of the United States Grain Standards Act (7 U.S.C. 79) is amended—

(1) in subsection (f)(1)(A)(vi), by striking "or other agricultural programs operated by" and inserting "of"; and

(2) in the second sentence of subsection (i), by inserting before the period at the end "or as otherwise provided by agreement with the Canadian Government".

(b) *WEIGHING AUTHORITY*.—Section 7A of such Act (7 U.S.C. 79a) is amended—

(1) in the second sentence of subsection (c)(2), by inserting after "shall be deemed to refer to" the words "'official weighing' or";

(2) in the second sentence of subsection (d), by inserting before the period at the end "or as otherwise provided by agreement with the Canadian Government"; and

(3) in the first sentence of subsection (i), by inserting before the period at the end "or as otherwise provided in section 7(i) and subsection (d)".

SEC. 5. PILOT PROGRAM FOR PERFORMING INSPECTION AND WEIGHING AT INTERIOR LOCATIONS.

(a) **INSPECTION AUTHORITY.**—Section 7(f)(2) of the United States Grain Standards Act (7 U.S.C. 79(f)(2)) is amended by inserting before the period at the end "except that the Administrator may conduct pilot programs to allow more than 1 official agency to carry out inspections within a single geographical area without undermining the policy stated in section 2".

(b) **WEIGHING AUTHORITY.**—The second sentence of section 7A(i) of such Act (7 U.S.C. 79a(i)) is amended by inserting before the period at the end "except that the Administrator may conduct pilot programs to allow more than 1 official agency to carry out the weighing provisions within a single geographic area without undermining the policy stated in section 2".

SEC. 6. LICENSING OF INSPECTORS.

Section 8 of the United States Grain Standards Act (7 U.S.C. 84) is amended—

(1) in subsection (a)—

(A) in paragraph (1) of the first sentence, by inserting after "and is employed" the phrase "(or is supervised under a contractual arrangement)"; and

(B) in the second sentence, by striking "No person" and inserting "Except as otherwise provided in sections 7(i) and 7A(d), no person";

(2) in the first proviso of subsection (b), by striking "independently under the terms of a contract for the conduct of any functions involved in official inspection" and inserting "under the terms of a contract for the conduct of any functions"; and

(3) in subsection (d)—

(A) by inserting after "Persons employed" the words "or supervised under a contractual arrangement"; and

(B) by inserting after "including persons employed" the words "or supervised under a contractual arrangement".

SEC. 7. PROHIBITED ACTS.

Paragraph (11) of section 13(a) of the United States Grain Standards Act (7 U.S.C. 87b(a)(11)) is amended to read as follows:

"(11) violate section 5, 6, 7, 7A, 7B, 8, 11, 12, 16, or 17A.".

SEC. 8. CRIMINAL PENALTIES.

Section 14(a) of the United States Grain Standards Act (7 U.S.C. 87c(a)) is amended by striking "shall be guilty of a misdemeanor and shall, on conviction thereof, be subject to imprisonment for not more than twelve months, or a fine of not more than \$10,000, or both such imprisonment and fine; but, for each subsequent offense subject to this subsection, such person".

SEC. 9. EQUIPMENT TESTING AND OTHER SERVICES.

Section 16 of the United States Grain Standards Act (7 U.S.C. 87e) is amended—

(1) in subsection (b), by striking the third sentence; and

(2) by adding at the end the following new subsections:

"(g) **TESTING OF CERTAIN WEIGHING EQUIPMENT.**—(1) Subject to paragraph (2), the Administrator may provide for the testing of weighing equipment used for purposes other than weighing grain. The testing shall be performed—

"(A) in accordance with such regulations as the Administrator may prescribe; and

"(B) for a reasonable fee established by regulation or contractual agreement and sufficient to cover, as nearly as practicable, the estimated costs of the testing performed.

"(2) Testing performed under paragraph (1) may not conflict with or impede the objectives specified in section 2.

"(h) **TESTING OF GRAIN INSPECTION INSTRUMENTS.**—(1) Subject to paragraph (2), the Administrator may provide for the testing of grain inspection instruments used for commercial inspection. The testing shall be performed—

"(A) in accordance with such regulations as the Administrator may prescribe; and

"(B) for a reasonable fee established by regulation or contractual agreement and sufficient to cover, as nearly as practicable, the estimated costs of the testing performed.

"(2) Testing performed under paragraph (1) may not conflict with or impede the objectives specified in section 2.

"(i) **ADDITIONAL FOR FEE SERVICES.**—(1) In accordance with such regulations as the Administrator may provide, the Administrator may perform such other services as the Administrator considers to be appropriate.

"(2) In addition to the fees authorized by sections 7, 7A, 7B, 17A, and this section, the Administrator shall collect reasonable fees to cover the estimated costs of services performed under paragraph (1) other than standardization and foreign monitoring activities.

"(3) To the extent practicable, the fees collected under paragraph (2), together with any proceeds from the sale of any samples, shall cover the costs, including administrative and supervisory costs, of services performed under paragraph (1).

"(j) **DEPOSIT OF FEES.**—Fees collected under subsections (g), (h), and (i) shall be deposited into the fund created under section 7(f).

"(k) **OFFICIAL COURTESIES.**—The Administrator may extend appropriate courtesies to official representatives of foreign countries in order to establish and maintain relationships to carry out the policy stated in section 2. No gift offered or accepted pursuant to this subsection shall exceed \$20 in value."

SEC. 10. VIOLATION OF SUBPOENA.

Section 17(e) of the United States Grain Standards Act (7 U.S.C. 87f(e)) is amended by striking "the penalties set forth in subsection (a) of section 14 of this Act" and inserting "imprisonment for not more than 1 year or a fine of not more than \$10,000 or both the imprisonment and fine".

SEC. 11. STANDARDIZING COMMERCIAL INSPECTIONS.

Section 22(a) of the United States Grain Standards Act (7 U.S.C. 87k(a)) is amended by striking "and the National Conference on Weights and Measures" and inserting "the National Conference on Weights and Measures, or other appropriate governmental, scientific, or technical organizations".

SEC. 12. ELIMINATION OF GENDER-BASED REFERENCES.

(a) Section 3 (7 U.S.C. 75) is amended—

(1) in subsection (a), by striking "his delegates" and inserting "delegates of the Secretary"; and

(2) in subsection (z), by striking "his delegates" and inserting "delegates of the Administrator".

(b) Section 4(a)(1) (7 U.S.C. 76(a)(1)) is amended by striking "his judgment" and inserting "the judgment of the Administrator".

(c) Section 5 (7 U.S.C. 77) is amended—

(1) in subsection (a)(1), by striking "his agent" and inserting "the agent of the shipper"; and

(2) in subsection (b), by striking "he" and inserting "the Administrator".

(d) Section 7 (7 U.S.C. 79) is amended—

(1) in subsection (a), by striking "he" and inserting "the Administrator";

(2) in subsection (b)—

(A) by striking "he" and inserting "the Administrator"; and

(B) by striking "his judgment" and inserting "the judgment of the Administrator"; and

(3) in subsection (e)(2)—

(A) by striking "he" and inserting "the Administrator"; and

(B) by striking "his discretion" and inserting "the discretion of the Administrator".

(e) Section 7A(e) (7 U.S.C. 79a(e)) is amended by striking "he" and inserting "the Administrator".

(f) Section 7B(a) (7 U.S.C. 79b(a)) is amended by striking "he" and inserting "the Administrator".

(g) Section 8 (7 U.S.C. 84) is amended—

(1) in subsection (a), by striking "him" and inserting "the Administrator"; and

(2) in subsections (c) and (f), by striking "he" each place it appears and inserting "the Administrator".

(h) Section 9 (7 U.S.C. 85) is amended—

(1) by striking "him" and inserting "the licensee"; and

(2) by striking "his license" and inserting "the license".

(i) Section 10 (7 U.S.C. 86) is amended—

(1) in subsection (a), by striking "he" each place it appears and inserting "the Administrator"; and

(2) in subsection (b), by striking "he" and inserting "the person".

(j) Section 11 (7 U.S.C. 87) is amended—

(1) in subsection (a), by striking "he" and inserting "the Administrator"; and

(2) in subsection (b)—

(A) in paragraph (1), by striking "he" and inserting "the producer"; and

(B) in paragraph (5), by striking "he" each place it appears and inserting "the Administrator".

(k) Section 12 (7 U.S.C. 87a) is amended—

(1) in subsection (b), by striking "his judgment" and inserting "the judgment of the Administrator"; and

(2) in subsection (c), by striking "he" and inserting "the Administrator".

(l) Section 13(a) (7 U.S.C. 87b(a)) is amended—

(1) in paragraph (2), by striking "his representative" and inserting "the representative of the Administrator";

(2) in paragraphs (7) and (8), by striking "his duties" each place it appears and inserting "the duties of the officer, employee, or other person"; and

(3) in paragraph (9), by striking "he" and inserting "the person".

(m) Section 14 (7 U.S.C. 87c) is amended—

(1) in subsection (a), by striking "he" and inserting "the person"; and

(2) in subsection (b), by striking "he" each place it appears and inserting "the Administrator".

(n) Section 15 (7 U.S.C. 87d) is amended by striking "his employment or office" and inserting "the employment or office of the official, agent, or other person".

(o) Section 17(e) (7 U.S.C. 87f(e)) is amended by striking "his power" and inserting "the power of the person".

(p) Section 17A (7 U.S.C. 87f-1) is amended—

(1) in subsection (a)(2), by striking "he" and inserting "the producer"; and

(2) in subsection (c), by striking "he" and inserting "the person".

SEC. 13. REPEAL OF TEMPORARY AMENDMENT LANGUAGE; TECHNICAL AMENDMENTS.

(a) **REPEAL.**—Section 2 of the United States Grain Standards Act Amendments of 1988 (Public Law 100-518; 102 Stat. 2584) is amended, in the matter preceding paragraph (1), by striking "Effective for the period October 1, 1988, through September 30, 1993, inclusive, the" and inserting "The".

(b) **TECHNICAL AMENDMENTS.**—(1) Section 21(a) of the United States Grain Standards Act (7 U.S.C. 87j(a)) is amended—

(A) by striking "(1)"; and

(B) by striking paragraph (2).

(2) Section 22(c) of such Act (7 U.S.C. 87k(c)), is amended by striking "subsection (a) and (b)" and inserting "subsections (a) and (b)".

SEC. 14. AUTHORITY TO COLLECT FEES; TERMINATION OF ADVISORY COMMITTEE.

(a) **INSPECTION AND SUPERVISORY FEES.**—Section 7(j) of the United States Grain Standards Act (7 U.S.C. 79(j)) is amended by adding at the end the following new paragraph:

"(4) The duties imposed by paragraph (2) on designated official agencies and State agencies described in such paragraph and the investment authority provided by paragraph (3) shall expire on September 30, 2000. After that date, the fees established by the Administrator pursuant to paragraph (1) shall not cover administrative and supervisory costs related to the official inspection of grain."

(b) **WEIGHING AND SUPERVISORY FEES.**—Section 7A(1) of such Act (7 U.S.C. 79a(1)) is amended by adding at the end the following new paragraph:

"(3) The authority provided to the Administrator by paragraph (1) and the duties imposed by paragraph (2) on agencies and other persons described in such paragraph shall expire on September 30, 2000. After that date, the Administrator shall, under such regulations as the Administrator may prescribe, charge and collect reasonable fees to cover the estimated costs of official weighing and supervision of weighing except when the official weighing or supervision of weighing is performed by a designated official agency or by a State under a delegation of authority. The fees authorized by this paragraph shall, as nearly as practicable, cover the costs of the Service incident to its performance of official weighing and supervision of weighing services in the United States and on United States grain in Canadian ports, excluding administrative and supervisory costs. The fees authorized by this paragraph shall be deposited into a fund which shall be available without fiscal year limitation for the expenses of the Service incident to providing services under this Act."

(c) **ADVISORY COMMITTEE.**—Section 21 of such Act (7 U.S.C. 87j) is amended by adding at the end the following new subsection:

"(e) The authority provided to the Secretary for the establishment and maintenance of an advisory committee under this section shall expire on September 30, 2000."

SEC. 15. COMPREHENSIVE COST CONTAINMENT PLAN.

Section 3A (7 U.S.C. 75a) is amended—

(1) by striking "There is created" and inserting "(a) ESTABLISHMENT.—There is created"; and

(2) by adding at the end the following new subsection:

"(b) **COST CONTAINMENT PLAN.**—(1) The Administrator shall develop and carry out a comprehensive cost containment plan to streamline and maximize the efficiency of the operations of the Service, including standardization activities, in order to minimize taxpayer expenditures and user fees and encourage the maximum use of official inspection and weighing services at domestic and export locations.

"(2) Not later than 180 days after the date of enactment of this subsection, the Administrator shall submit a report that describes actions taken to carry out paragraph (1) to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate."

SEC. 16. EFFECTIVE DATES.

(a) **IN GENERAL.**—Except as provided in subsection (b), the amendments made by this Act shall take effect on the date of the enactment of this Act.

(b) **SPECIAL EFFECTIVE DATE FOR CERTAIN PROVISIONS.**—The amendments made by sections

2, 3, and 13(a) shall take effect as of September 30, 1993.

Amend the title so as to read: "An Act to amend the United States Grain Standards Act to extend the authority of the Federal Grain Inspection Service to collect fees to cover administrative and supervisory costs, to extend the authorization of appropriations for such Act, and to improve administration of such Act, and for other purposes."

Mr. BURNS. Mr. President, I rise to engage the ranking member of the Agricultural Research, Conservation, Forestry and General Legislation Subcommittee of the Senate Committee on Agriculture, Nutrition, and Forestry, Mr. CRAIG, in a brief colloquy prior to the passage of S. 1490, a bill to reauthorize the Federal Grain Inspection Service. S. 1490 presents this Senator with several troubling aspects of our current grain inspection system. First, local country elevators such as those along Montana's HiLine are having great difficulty matching protein testing levels with those conducted under the authority of FGIS at the point of export. FGIS, in my view must work to ensure that protein tests at both country elevators and export elevators are compatible to the maximum extent possible.

The second point that I would like to raise is the issue of Canadian grain quality entering the United States. Montana, and other States have been inundated with Canadian grain moving into the United States. Montana's negative experiences with Canadian inspections of beef entering the United States lead me to urge great caution before extending the same privileges to Canadian grain.

I would like to seek assurances from the ranking member of the subcommittee of jurisdiction, in consultation with the chairman, and other members, that a complete review of Federal Grain Inspection Service policies and procedures be undertaken in the not to distant future so that this Senator and those experiencing these and other difficulties might have an opportunity to present our views.

Mr. CRAIG. Mr. President, I can assure the Senator from Montana that I welcome his input and that issues such as those he has raised, as well as others, will be the focus of our subcommittee as we prepare for the 1995 farm bill. Further, it is my understanding that the chairman of the subcommittee, Mr. DASCHLE, is of a like mind, and intends to continue his close attention to grain inspection issues.

Mr. BURNS. I thank the Senator.

Mr. DASCHLE. Mr. President, I am pleased to bring to the floor S. 1490, the Federal Grain Inspection Service reauthorization bill, as amended by the U.S. House of Representatives. Passage of this legislation will clear it for the President's signature.

S. 1490 is the product of considerable discussion among Members of the House and Senate Agriculture Commit-

tees, and I believe it meets our dual goal of reauthorizing and strengthening our country's grain inspection system.

The U.S. Department of Agriculture's Federal Grain Inspection Service [FGIS] performs three essential roles. It is responsible for setting grain standards that establish end-use characteristics of grain, maintaining and enforcing the official grain inspection system, and conducting mandatory inspections of export grain.

Our Nation's farmers produce the highest quality and safest food in the world. It is our job through FGIS to ensure that when that grain is marketed its quality is assured.

S. 1490 extends the U.S. Department of Agriculture's Federal Grain Inspection Service inspection operations and authorizes appropriations for FGIS through 2000. It also allows FGIS to conduct fee-based testing of weighing equipment and commercial inspections. This bill, as amended, is very similar to the version passed by unanimous consent by the Senate on September 29, 1993.

One issue that has received serious attention by the Senate and House Agriculture Committees has been the addition of water to grain. The committees looked at this issue from both a quality and safety perspective. Their goal was to assure the United States continues to deliver the highest quality grain in the world, and evaluate both the efficacy, and the effect on quality, of dust control systems to promote safety.

A major difference between this bill and the original version adopted on September 29 by unanimous consent is that section 7 of the bill, which would have placed a statutory ban on the use of water, has been removed. That section also would have allowed FGIS the flexibility to permit the use of water-based dust suppression systems—if and only if such systems were consistent with the goals of preserving grain quality and banning abusive grain handling practices—and set severe penalties for the unauthorized addition of water to grain.

After listening to the concerns of all interested parties, I have concluded that the best alternative at this time is to let FGIS address this issue through the regulatory process, rather than rely on a legislative solution.

No one should misinterpret the removal of this section as a decision by the House or the Senate to ignore the issue. To the contrary, I believe the burden lies with those who want to use water to prove that adding water to grain is necessary for safety reasons and will not harm grain quality or grain markets. At this point, that remains to be demonstrated. In the

meantime, I favor a ban on the addition of water to grain. But I am convinced that the regulatory process offers the best hope of delivering an objective, fair solution based on the goals of preserving grain quality, fair domestic marketing practices, and the U.S. grain export market. During that process, all interested parties will have an opportunity to air their concerns.

Currently the Department of Agriculture is seeking comments to a proposed rule to ban the addition of water to grain. I believe the USDA process is an appropriate forum for addressing the abuses that can occur when water is added to grain. In addition, the Subcommittee on Agricultural Research, Forestry, and General Legislation, which I chair, will conduct oversight hearings next year to determine whether the regulatory process is adequately protecting the integrity of our Nation's grain inspection system, thereby reassuring our domestic and international customers that we can be counted on to consistently deliver safe, high-quality grain.

Another point that should be made to clarify the legislative history on this issue is that section 7 of S. 1490 as originally passed by the Senate, was interpreted by some to have the potential to interfere in ongoing Federal investigations of allegedly abusive practices involving the addition of water to grain. As the author of S. 1490, I want to make it clear that no such interference was intended. Furthermore, in subsequent discussion with members of the House and Senate Agriculture Committees who have been involved in this legislation, there has been unanimous agreement that we would exclude from the legislation any provisions that could possibly be interpreted as interfering with the ongoing investigations. Our intention is to have no effect on either the ongoing Federal investigations or the ongoing regulatory process.

S. 1490 is the product of extensive oversight hearings, with input from producers, the grain industry, and USDA officials. Its enactment is essential to guarantee the quality, quantity, content, and grade of our Nation's grain marketing system, and I urge my colleagues to support it.

Mr. FORD. Mr. President, I move that the Senate concur, en bloc, in the amendments of the House.

The PRESIDING OFFICER. The question is on agreeing to the motion. The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

PATENT AND TRADEMARK OFFICE AUTHORIZATION ACT OF 1993

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed

to the immediate consideration of Calendar Order No. 240, H.R. 2632, a bill to authorize appropriations for the Patent and Trademark Office.

The PRESIDING OFFICER. The Clerk will report.

The legislative clerk read as follows:

A bill (H.R. 2632) to authorize appropriations for the Patent and Trademark Office in the Department of Commerce for fiscal year 1994.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill.

There being no objection, the Senate proceeded to consider the bill.

Mr. DECONCINI. Mr. President, I rise in support of H.R. 2632, the Patent and Trademark Office Authorization Act of 1993. H.R. 2632 authorizes appropriations for the Patent and Trademark Office [PTO] for fiscal year 1994 and authorizes an increase in the trademark application fee.

The bill authorizes \$103,000,000 in appropriations for PTO from the PTO surcharge fund created by section 10101 of the Omnibus Budget Reconciliation Act of 1990. PTO is a completely user fee funded agency and the bill authorizes the expenditure of all fees collected, subject to appropriations. I would like to inform the Congress at this time that I do intend to continue my pursuit of legislation to insure that the full amount of fees collected by the Office are available to the Office.

Trademark application fees will be increased \$35, from \$210 to \$245. The Congressional Budget Office [CBO] estimates this will raise approximately \$4 million for the Office. The PTO needs statutory authority for any fee increase over a cost-of-living increase. For many years the Trademark Office of the PTO operated at a surplus. However, a recent relocation of the trademark legal offices and the need to pay a percentage of office overhead justifies the need for this increase. The increase was worked out with interested individuals and associations, including the International Trademark Association, formerly the U.S. Trademark Association.

Senator GLENN is offering an amendment to this bill that would extend the patents for olestra and the design patents for the American Legion. The amendment is identical to legislation that passed the Senate by unanimous consent on July 14 (S. 409). The contents of this amendment have been thoroughly reviewed and debated for two Congresses. Over that time it has been the subject of three congressional hearings and a General Accounting Office report. Therefore, I urge the Senate to support the bill and the Glenn amendment.

AMENDMENT NO. 1161

(Purpose: To extend the terms of various patents and for other purposes)

Mr. FORD. Mr. President on behalf of Senator GLENN, I send an amendment

to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. GLENN, proposes an amendment numbered 1161.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendment is as follows:

At the end of the bill insert the following:

SECTION 1. PATENT TERM EXTENSION FOR OLESTRA.

(a) IN GENERAL.—The terms of United States patents numbered 4,005,195, 4,005,196, and 4,034,083 (and any reissues of such patents) shall each be extended for a period beginning on the date of its expiration through December 31, 1997.

(b) POST-MARKET SURVEILLANCE.—The holders of the patents extended under this section shall, following the first permission for marketing olestra, undertake a post-market program that shall provide data regarding the influence of olestra-containing products upon the overall dietary intake of fats. Such data shall be subject to the usual standards of professional peer review. At the end of the study period, such data shall be submitted to the Food and Drug Administration for review. Such study data shall be in a format which shall be made available to Congress for public review. The requirements of this subsection shall not in any manner preempt the authority of the Food and Drug Administration to request and to receive any other information it determines necessary in the course of its ongoing regulatory activities.

SEC. 2. PATENT TERM EXTENSIONS FOR AMERICAN LEGION.

(a) BADGE OF AMERICAN LEGION.—The term of a certain design patent numbered 54,296 (for the badge of the American Legion) is renewed and extended for a period of 14 years beginning on the date of enactment of this Act, with all the rights and privileges pertaining to such patent.

(b) BADGE OF AMERICAN LEGION WOMEN'S AUXILIARY.—The term of a certain design patent numbered 55,398 (for the badge of the American Legion Women's Auxiliary) is renewed and extended for a period of 14 years beginning on the date of enactment of this Act, with all the rights and privileges pertaining to such patent.

(c) BADGE OF SONS OF THE AMERICAN LEGION.—The term of a certain design patent numbered 92,187 (for the badge of the Sons of the American Legion) is renewed and extended for a period of 14 years beginning on the date of enactment of this Act, with all the rights and privileges pertaining to such patent.

SEC. 3. INTERVENING RIGHTS.

The renewals and extensions of the patents under section 2 shall not result in infringement of any such patent on account of any use of the subject matter of the patent, or substantial preparation for such use, which began after the patent expired, but before the date of the enactment of this Act.

SEC. 4. EFFECTIVE DATE.

The provisions of this Act shall take effect on the date of the enactment of this Act.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1161) was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. If there is no further debate, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

H.R. 2632

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Patent and Trademark Office Authorization Act of 1993".

SEC. 2. AUTHORIZATION OF AMOUNTS AVAILABLE TO THE PATENT AND TRADEMARK OFFICE.

(a) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Patent and Trademark Office for salaries and necessary expenses the sum of \$103,000,000 for fiscal year 1994, to be derived from deposits in the Patent and Trademark Office Fee Surcharge Fund established under section 10101 of the Omnibus Budget Reconciliation Act of 1990 (35 U.S.C. note).

(b) FEES.—There are also authorized to be made available to the Patent and Trademark Office for fiscal year 1994, to the extent provided in advance in appropriation Acts, such sums as are equal to the amount collected during such fiscal year from fees under title 35, United States Code, and the Trademark Act of 1946 (15 U.S.C. 1051 and following).

SEC. 3. AMOUNTS AUTHORIZED TO BE CARRIED OVER.

Amounts appropriated or made available pursuant to this Act may remain available until expended.

SEC. 4. ADJUSTMENT OF TRADEMARK FEES.

Effective on the date of the enactment of this Act, the fee under section 31(a) of the Trademark Act of 1946 (15 U.S.C. 1113(a)) for filing an application for the registration of a trademark shall be \$245. Any adjustment of such fee under the second sentence of such section may not be effective before October 1, 1994.

Mr. FORD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

REVISION OF AUTHORITY RELATING TO PERSHING HALL, FRANCE

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar Order No. 263, S. 1621 relating to Pershing Hall, France; that the bill be read a third time and passed; that the motion to reconsider be laid upon the table; and that any statements relative

to the passage of this item appear at the appropriate place in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

So the bill (S. 1621) was passed, as follows:

S. 1621

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REVISION OF AUTHORITY RELATING TO PERSHING HALL, FRANCE.

(a) INCREASE IN TRANSFER AUTHORITY.—Subsection (d)(2) of section 403 of the Veterans' Benefits Programs Improvement Act of 1991 (36 U.S.C. 493(d)(2)) is amended by striking out "\$1,000,000" and inserting in lieu thereof "\$1,250,000".

(b) DISPOSAL AUTHORITY.—Such section is further amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following new subsection (e):

"(e) DISPOSAL AUTHORITY.—(1) Subject to paragraph (2), the Secretary of Veterans Affairs may sell or otherwise dispose of all right, title, and interest of the United States in and to Pershing Hall.

"(2) The Secretary may not sell or otherwise dispose of Pershing Hall under this subsection unless the Secretary determines that—

"(A) the sale or other disposal is in the best interests of the United States; and

"(B) the consideration to be paid for such sale or other disposal is acceptable.

"(3)(A) Except as provided in subparagraph (B), the Secretary shall deposit in the general fund of the Treasury of the United States an amount equal to the amount of any cash consideration paid to the United States for the sale or other disposal of Pershing Hall under this subsection.

"(B) The Secretary may utilize an amount not to exceed \$250,000 of such cash consideration to recoup the cost of administrative expenses incurred by the Secretary with respect to the sale or other disposal of Pershing Hall."

(c) CLOSING OF REVOLVING FUND UPON DISPOSAL OF PERSHING HALL.—Subsection (d) of such section is amended by adding at the end the following new paragraph (7):

"(7) Upon sale or other disposal of all right, title, and interest of the United States in and to Pershing Hall under subsection (e), the Secretary shall—

"(A) pay out of funds in or proceeds from the sale or redemption of interest-bearing obligations credited to the Revolving Fund all outstanding liabilities of the Revolving Fund, including any unpaid expenses of the Revolving Fund and reimbursements of any funds transferred to the Revolving Fund under paragraph (2);

"(B) transfer any funds that remain in the Revolving Fund after the payment of the liabilities described in subparagraph (A) into the general fund of the Treasury of the United States; and

"(C) close the Revolving Fund."

Mr. MURKOWSKI. Mr. President, I urge the Senate to take quick and favorable action on S. 1621, an original bill ordered reported to the Senate by the Committee on Veterans' Affairs on November 3. The committee voted to report this measure as an original bill after approving, without dissent, an amendment with the identical language which I offered at the committee's October 28 markup.

This bill would authorize the Department of Veterans Affairs [VA] to sell Pershing Hall, a VA owned building in Paris, France. Proceeds of the sale would go to the Treasury except that VA could retain an amount equal to its expenses in selling the property, not to exceed \$250,000. The bill would also authorize transfer into the Pershing Hall revolving fund of the \$250,000 needed to finance administration of the sale. The money would come from funds already appropriated to VA's construction reserve.

Pershing Hall was created in the 1920's when the American Legion acquired the building and used it as a memorial to General Pershing as well as a meeting place for Paris Post 1.

The Legion eventually gave the building to the United States government but no specific agency had responsibility for, or authority over, the building. In time, the Legion abandoned the building when the burden of maintaining and administering it became too great.

With no owners providing hands-on management, the occupants of the building constituted themselves as the Pershing Hall Operating Committee. The occupants made no improvements and spent only minimal amounts for maintenance. As a result, the building deteriorated physically. In addition, the building was used in ways incompatible with its status as a memorial. The General Pershing memorabilia were neither maintained nor secured.

As a result, in 1990 the Congress gave VA responsibility for the building along with authority to repair and maintain the building and to lease it to a commercial developer.

The upfront costs of this effort were to be covered by a transfer of \$1 million from VA's construction reserve. VA expended the funds in taking control of the building, bringing it up to code, and soliciting bids for a lease. They had to evict the occupants of the building and defend against a countersuit filed by the occupants.

VA also made minimal necessary repairs to the plumbing and wiring to preserve the building from water and fire damage. There were 4 fires before VA hired an on site building manager and provided security for the building.

The law transferring responsibility for the building authorized them to lease the building for up to 35 years. VA's consultants report that this term is inconsistent with French commercial practice and that, as a consequence, VA is unlikely to receive offers reflecting the actual value of the property.

The fiscal year 1994 Construction Authorization Bill, signed earlier this year, gave VA the authority to lease for up to 99 years. VA has now come to the Committee on Veterans' Affairs seeking authority to transfer an additional \$250,000 to the Pershing Hall Revolving Fund in order to resolicit for

the longer period and to sustain the property while negotiations are completed.

VA has spent over \$1.5 million in taking possession of the property, evicting the occupants, maintaining and safeguarding the property and soliciting for lease proposals. As of now, neither the taxpayers nor veterans have any return for this money.

VA states that if they are to seek a 99-year lease or sell the property, they will need the additional \$250,000 to maintain the property, pay taxes, and finance a new solicitation. Otherwise, available funds will be exhausted before February 1994.

VA got this property as a gift, and over a 2-year period has spent over \$1.5 million with no tangible return for its efforts.

Some gift!

Many more gifts like this and our country will be broke. What has the Congress and the American taxpayer purchased with the money invested in Pershing Hall?

Over \$800,000 in personnel costs.

Almost \$160,000 in legal fees.

Over \$177,000 for consultants.

Almost \$50,000 for French property taxes.

\$144,000 for Paris utilities.

Over \$82,000 for travel expenses.

Over \$15,000 in printing and advertising costs.

Mr. President, this gift was not a gift for veterans. It was a gift for French beltway bandits.

The first rule for business success is stick to the things you know and do well. VA serves veterans. It knows that mission well. But VA has no expertise in the Paris real estate development business. As a result, this property has not provided a benefit for veterans. Instead, it has proven to be a drain on VA staff and resources.

After spending \$1.5 million, VA has again come to the Congressional well and asked for another \$250,000 for this property. VA says they will be unable to pay French taxes if we don't bail them out. I don't want VA to violate the Antideficiency Act. Nor do I want the United States to be a French tax deadbeat. But, there is only one way I would be able to look the veterans of Alaska in the eye after voting to pour another quarter million dollars into this dilapidated black hole. I must be able to say that this is the last time. There is only one way to ensure that this is the last time Congress will be called upon to bail this property out—that is for VA to sell the property.

Only a sale will get this albatross off the back of VA—and off of the back of the Congress, America's veterans and our Nation's taxpayers.

VA already has authority to lease, but even the best lease can come back to haunt a property owner. Just a few weeks ago, the Washington Post reported that the operators of the Old

Post Office development on Pennsylvania Avenue here in Washington are facing foreclosure. If that example of a mixed government and private sector development, swarming with customers every day, can't make it, how can VA guarantee that if they lease Pershing Hall, located thousands of miles away in Paris, France, they won't be back here asking once again for more money if their lessee defaults?

The Committee on Veterans' Affairs already voted once this year to provide VA with the authority to sell the property. Unfortunately, that provision of the fiscal year 1994 Construction Authorization Bill was dropped prior to Senate consideration in order to comply with the Budget Act.

This bill will provide VA with the authority to sell Pershing Hall. It would avoid Budget Act problems by sending the proceeds of the sale directly to the Treasury. It also authorizes the \$250,000 fund transfer requested by VA in order to finance the sales solicitation and would allow VA to recover that \$250,000 from the sale proceeds.

This bill is good policy and should put the problems presented by Pershing Hall to VA and the Congress behind us at last. I ask my colleagues to support the legislation.

THE INDIAN ENVIRONMENTAL GENERAL ASSISTANCE PROGRAM ACT OF 1992 AMENDMENTS ACT OF 1993

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 654, a bill to amend the Indian Environmental General Assistance Program Act of 1992 to extend the authorization of appropriations.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 654) entitled "An Act to amend the Indian Environmental General Assistance Program Act of 1992 to extend the authorization of appropriations," do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. EXTENSION OF AUTHORIZATION.

Subsection (h) of the Indian Environmental General Assistance Program Act of 1992 (42 U.S.C. 4368(h)) is amended by striking "and 1994" and inserting ", 1994, 1995, 1996, 1997, and 1998".

SEC. 2. REPORT TO CONGRESS.

The Indian Environmental General Assistance Program Act of 1992 (42 U.S.C. 4368b) is amended by adding at the end the following:

"(i) REPORT TO CONGRESS.—The Administrator shall transmit an annual report to the appropriate Committees of the Congress with jurisdiction over the applicable environmental laws and Indian tribes describing which Indian tribes or intertribal consortia have been granted approval by the Administrator pursuant to law to enforce certain environmental laws and the effectiveness of any such enforcement."

SEC. 3. MISCELLANEOUS.

(a) GENERAL ASSISTANCE PROGRAM.—Subsection (d)(1) of the Indian Environmental Gen-

eral Assistance Program Act of 1992 (42 U.S.C. 4368b(d)(1)) is amended by inserting "consistent with other applicable provisions of law providing for enforcement of such laws by Indian tribes" after "programs".

(b) EXPENDITURE OF GENERAL ASSISTANCE.—Subsection (f) of the Indian Environmental General Assistance Program Act of 1992 (42 U.S.C. 4368(b)(f)) is amended by adding at the end the following: "Such programs and general assistance shall be carried out in accordance with the purposes and requirements of applicable provisions of law, including the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.)."

Mr. MCCAIN. Mr. President, I am pleased that we are considering S. 654, a bill to extend the authorization for the Indian Environmental General Assistance Program Act. I do regret that the House did not agree that this program should be extended for 10 years, but I am pleased that we were able to agree on a 5-year extension. During the next 5 years, I am confident that Indian tribal governments will be able to demonstrate the value of this modest Federal effort to assist them in the implementation of Federal environmental laws. I thank everyone who has worked on this bill, particularly my good friends Senator INOUE and Representative RICHARDSON.

I also want to take this opportunity to address a situation which has arisen in region 6 of the Environmental Protection Agency with regard to implementation of this act. It has been brought to my attention that the Regional Administrator has determined that all funding made available to tribal governments under this act will only be made available to intertribal consortia. Mr. President, this arbitrary interpretation of the act is contrary to its intent and is destructive of the government-to-government relationship which is embodied in the Indian Self-Determination and Education Assistance Act as well as EPA's own Indian Policy Statement of 1984. I want to make it absolutely clear that the Regional Administrator has misinterpreted this act. I call upon Administrator Browner to act immediately to correct this problem. I sincerely hope that it will not be necessary for us to act legislatively to provide detailed direction to EPA with regard to the implementation of this act.

Mr. FORD. Mr. President, I move that the Senate concur in the House amendment.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

PERMITTING THE BURIAL IN NATIONAL CEMETERIES OF CERTAIN DECEASED RESERVISTS

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar Order No. 262, S. 1620, relating to the eligibility for burial in a veterans cemetery, and that the bill be read a third time.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill was ordered to be engrossed for a third reading and was read the third time.

Mr. FORD. Mr. President, I ask unanimous consent that the Veterans' Affairs Committee be discharged from further consideration of H.R. 821, the House companion measure; that the Senate proceed to its immediate consideration; that all after the enacting clause be stricken and the text of S. 1620 be inserted in lieu thereof; that the bill be advanced to third reading and passed; that the motion to reconsider be laid upon the table; and that any statements relative to the passage of this item appear in the appropriate place in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

So the bill (H.R. 821), as amended, was passed, as follows:

(The text of the measure as passed the Senate today will be printed in the next issue of the RECORD.)

Mr. AKAKA. Mr. President, I rise in support of S. 1620, legislation unanimously reported by the Senate Veterans' Affairs Committee on November 2 that would extend eligibility for burial in the national cemetery system, including the 40 State veterans cemeteries that conform to Department of Veterans' Affairs [VA] eligibility standards, to members of the National Guard and Reserve, and their dependents, who have served a minimum of 20 years and are eligible for retirement pay. The House recently approved similar legislation authored by Representative HENRY BONILLA.

S. 1620 is derived from legislation I introduced earlier this year, S. 1128, that was cosponsored by Senators CRAIG, DASCHLE, DECONCINI, DORGAN, FORD, HATCH, HEFLIN, INOUE, JEFFORDS, KERREY, PRESSLER, ROBB, and SHELBY. S. 1128, in turn, is based on original legislation I introduced in the 102d Congress, S. 2961, that called for providing headstones, burial flags, as well as the interment benefit to career reservists. Congress managed to approve the headstone and burial flag provisions of S. 2961 last year, but deferred consideration of the interment benefit until this session.

Mr. President, an estimated 235,000 reservists gallantly served in the Persian Gulf war. Their outstanding performance alongside active duty soldiers amply fulfilled the aim of our total force policy. The desert conflict

foreshadowed the military's post-cold war trend toward greater reliance on the Reserve component. Indeed, today's Guard and Reserve train to the same standards as their active duty counterparts and are increasingly undertaking missions for the active duty military. In effect, today's reservists are continuous members of the Total Force, indistinguishable in performance from the regular military.

S. 1620 recognizes the growing importance of the Guard and Reserve by extending to the most dedicated among them, the career reservists who have devoted at least 20 years of their lives to our defense, the final and most basic right of burial in a national cemetery.

Mr. President, this legislation will have only minimal impact on VA's ability to provide burial benefits to veterans. According to our best estimates, the bill will only result in between 365 and 828 additional burials annually, approximately 1 percent or less of VA's current annual interment rate of nearly 70,000. Even this figure is probably overstated, because some reservists are likely to choose burial in State veterans cemeteries rather than in national cemeteries, which is permitted under this measure. In addition, given the fact that there are some 608,000 developed gravesites available at both the 59 open national cemeteries and the 40 State veterans cemeteries which conform to VA eligibility criteria—with a potential of 2.7 million more spaces if undeveloped land is developed at these facilities—it is clear that making career reservists eligible for burial benefits will have only a negligible effect on veterans.

Mr. President, according to the Congressional Budget Office, the bill will cost less than \$500,000 annually; therefore, it has no pay-as-you-go implications. The Veterans' Affairs Committee held hearings on this initiative last year, at which major veterans and military service organizations indicated their support for the measure.

I urge my colleagues to support this legislation. The least we can do to recognize the contributions of career reservists, the backbone of the Reserves, is to provide them with an honored resting place in our National Cemetery System, alongside others who have worn the uniform.

I ask unanimous consent that a copy of a letter of endorsement from the Military Coalition, which represents 24 major veterans and military advocacy organizations, be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

THE MILITARY COALITION,
Alexandria, VA, October 19, 1993.

HON. DANIEL AKAKA,
U.S. Senate,
Washington, DC.

DEAR SENATOR AKAKA: The Military Coalition, a consortium of 24 military and veter-

ans' organizations, representing more than 3.5 million officer and enlisted members—active, National Guard, reserve, retired, veterans, plus their families and survivors, is writing to express its strong support for S. 1128. The Coalition believes the extension burial benefits to National Guard and reserve component veterans who are retired or eligible for retired pay, would focus greater recognition on the valuable service which National Guard and reserve members daily provide as full partners in the Total Force.

National Guard and reserve members have served honorably and with distinction in every war or conflict involving the United States during the Twentieth Century. Their contributions and capabilities were superbly demonstrated during Operations DESERT SHIELD and DESERT STORM, Operation PROVIDE HOPE, and currently in the relief missions to Bosnia.

Lesser known outside the military community, but clearly no less important to our Nation's security, are the contributions and services provided by guard and reserve members who were not called to active service during times of conflict. Literally thousands of these individuals, during inactive duty training (drills) or as uncompensated volunteers, flew operational missions, loaded supplies and equipment, provided intelligence services, or other valuable support. All stood ready to answer the call if needed.

There are 226,000 burial sites available in 59 of the 114 National Cemeteries which are currently open. S. 1128 offers the potential for an additional 1.72 million sites if current undeveloped land is brought into conformance with VA standards. Under current eligibility rules for burial in a National Cemetery, the interment rate is approximately 70,000 annually. Passage of S. 1128 would result in less than a one percent increase in the current annual interment rate. The Congressional Budget Office (CBO) has estimated that 700 burials would result from this legislation with an estimated total annual cost of \$400,000, to low to score.

It is clear that during the past twenty years an expanding reliance has been placed on the Reserve/Guard Forces. That dependency will continue to grow in the future as active forces are reduced and defense budgets shrink. The passage of S. 1128 would provide the recognition that National Guardsmen and Reservists have earned as members of the Total Force.

The members of The Military Coalition (roster enclosed) respectfully request that you support S. 1128 and provide career reservists with the option for burial alongside of their comrades-in-arms.

Sincerely,

PAUL W. ARCARI,
Colonel, USAF (Ret), The Retired Officers
Assn, Co-Chairman.

MICHAEL OUELLETTE,
Sergeant Major, USA (Ret), Non Commis-
sioned Officers Assn, Co-Chairman.

Mr. FORD. Mr. President, I ask unanimous consent that Calendar Order No. 262 be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE CALENDAR

Mr. FORD. Mr. President I ask unanimous consent that the Senate proceed, en bloc, to the immediate consideration of Calendar Order Nos. 265, 266, and 267; that the joint resolutions be deemed read three times and passed, en bloc; that the resolution be agreed to and the motion to reconsider laid upon the table en bloc; further, that any statements relating to these calendar items appear at the appropriate place in the RECORD; and that the consideration of these items appeared individually in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

APPOINTING FRANK ANDERSON SHRONTZ TO THE BOARD OF REGENTS OF THE SMITHSONIAN INSTITUTION

The joint resolution (S.J. Res. 143) providing for the appointment of Frank Anderson Shrontz as a citizen regent of the Board of Regents of the Smithsonian Institution was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S.J. RES. 143

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, in accordance with section 5581 of the Revised Statutes of the United States (20 U.S.C. 43), the vacancy on the Board of Regents of the Smithsonian Institution, in the class other than Members of Congress, occurring by reason of the resignation of Robert James Woolsey, Jr., of Maryland on April 2, 1993, is filled by the appointment of Frank Anderson Shrontz of Washington. The appointment is for a term of 6 years and shall take effect on the date on which this joint resolution becomes law.

APPOINTING MANUEL LUIS IBÁÑEZ TO THE BOARD OF REGENTS OF THE SMITHSONIAN INSTITUTION

The joint resolution (S.J. Res. 144) providing for the appointment of Manuel Luis Ibáñez as a citizen regent of the Board of Regents of the Smithsonian Institution was considered, ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S.J. RES. 144

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, in accordance with section 5581 of the Revised Statutes of the United States (20 U.S.C. 43), the vacancy on the Board of Regents of the Smithsonian Institution, in the class other than Members of Congress, occurring by reason of the resignation of Anne Legendre Armstrong of Texas, is filled by the appointment of Manuel Luis Ibáñez of Texas. The appointment is for a term of 6 years and shall take effect on the day after the effective date of the resignation of Anne Legendre Armstrong.

AUTHORIZING THE PRINTING OF THE SENATE ELECTION GUIDE-BOOK

The resolution (S. Res. 161) to authorize the printing of a revised edition of the Senate Election Law Guidebook was considered and agreed to as follows:

S. RES. 161

Resolved, That the Committee on Rules and Administration hereby is directed to prepare a revised edition of the Senate Election Law Guidebook, Senate Document 102-15, and that such document shall be printed as a Senate document.

Sec. 2. There shall be printed 600 additional copies of the document specified in section 1 of this resolution for the use of the Committee on Rules and Administration.

AUTHORITY FOR COMMITTEES TO REPORT

Mr. FORD. Mr. President, I ask unanimous consent the Senate committees may file committee reported legislative and Executive Calendar business on Friday, November 12, from 10 to 12 noon.

The PRESIDING OFFICER. Without objection, it is so ordered.

VIOLENT CRIME CONTROL AND LAW ENFORCEMENT ACT OF 1993

The Senate continued with the consideration of the bill.

Mr. DOLE. Mr. President, are there amendments pending?

The PRESIDING OFFICER. The Senator is correct.

Mr. DOLE. I ask unanimous consent they be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENTS NOS. 1162-1176 EN BLOC

Mr. DOLE. Mr. President, on behalf of Senator HATCH, I am going to send a little pile of amendments up there. I will list the amendments: Senator MCCONNELL, parent locator; Senator COHEN, juvenile justice; Senator MCCONNELL, public corruption; Senator COHEN, elderly abuse; Senator SPECTER, education; Senator HATCH, tuberculosis and prisoners; Senator GRASSLEY, pornography; Senator CHAFEE and Senator HATCH, stalking; Senator PRESSLER, youth violence; Senator MCCAIN, relating to Indians; Senator KASSEBAUM, relating to asylum; Senator HATFIELD, relating to domestic violence; Senator DOLE, hate crimes—adding disability; Senators BYRD and DOMENICI, appropriations; Senator DURENBERGER, family unity.

These are very general descriptions. I will send the amendments to the desk and ask for their immediate consideration en bloc. They have been agreed to by the managers on each side. I wish everyone luck.

The PRESIDING OFFICER. Without objection they will be considered en bloc.

The legislative clerk will report the amendments.

The legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE] proposes amendments en bloc numbered 1162 through 1176.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendments en bloc.

The en bloc amendments (Nos. 1162-1176) were agreed to as follows:

AMENDMENT NO. 1162

SECTION 1. AGREEMENT TO ASSIST IN LOCATING MISSING CHILDREN UNDER THE PARENT LOCATOR SERVICE.

(a) IN GENERAL.—Section 463 of the Social Security Act (42 U.S.C. 663) is amended by adding at the end the following new subsection:

“(f) The Secretary shall enter into an agreement with the Attorney General of the

United States, under which the services of the Parent Locator Service established under section 653 of this title shall be made available to the Office of Juvenile Justice and Delinquency Prevention upon its request for the purpose of locating any parent or child on behalf of the Office of Juvenile Justice and Delinquency Prevention. The Parent Locator Service shall charge no fees for services requested pursuant to this subsection."

(b) **CONFORMING AMENDMENT.**—Section 463(c) of such Act (42 U.S.C. 663(c)) is amended by striking "(a), (b) or (e)" and inserting "(a), (b), (e), or (f)".

(c) **EFFECTIVE DATE.**—The amendments made by this section shall become effective on October 1, 1994.

AMENDMENT NO. 1163

(Purpose: To direct the Attorney General, in collaboration with the Secretary of Health and Human Services, to study and make recommendations for improvement of mental health assessment, diagnosis, and treatment within the juvenile justice system)

At the appropriate place in subpart II of subtitle C of title VI, inserting the following: "**SEC. 235. MENTAL HEALTH SCREENING.**

(a) **SENSE OF THE CONGRESS.**—It is the sense of the Congress that no child should have to be incarcerated in a State youth center or detention facility solely in order to receive mental health treatment.

(b) **IN GENERAL.**—Not later than two years after the date of enactment of this subpart, the Attorney General, acting through the Administrator of the Office of Juvenile Justice and Delinquency Prevention, in collaboration with the Secretary of Health and Human Services, acting through the Administrator of Substance Abuse and Mental Health Services Administration, shall, subject to the availability of appropriations—

(1) study the nature and prevalence of mental illness among youth in the juvenile justice system at several different points in the system, including the arrest stage, the adjudication and dispositional stage, and the commitment stage;

(2) develop a model system that the States can use to assess, diagnose, and treat the mental health needs of youth who come in contact with the juvenile justice system for mental illness; and

(3) disseminate the results of the study and the model to each State's Juvenile Justice Advisory Group.

(c) **STUDY.**—The study should include analysis of—

(1) national prevalence of rates of the different clinical categories of mental illness for youth who come in contact with the juvenile justice system;

(2) the prevalence of multiple mental disorders among youth who have come in contact with the juvenile justice system;

(3) recommendations to the Committee on the Judiciary of the Senate and the Committees on Education and Labor of the House of Representatives on the appropriateness and need for further Federal action; and

(4) such other analysis as is appropriate.

(d) **MODEL.**—The model should provide—

(1) guidelines for accurate and timely assessment, diagnosis, and treatment at several different points in the juvenile justice system including the arrest stage, the adjudication and dispositional stage, and the commitment stage;

(2) a method for fostering collaboration between the mental health agencies, juvenile justice agencies, educational agencies, social services agencies, substance abuse treatment agencies, police, and families;

(3) a funding mechanism for the model; and
(4) such other guidelines as are appropriate."

Section 233 of subpart II of subtitle C of title VI is amended by—

(1) redesignating paragraph (2) as paragraph (3) and striking "paragraph (1)" in such paragraph and inserting "paragraphs (1) and (2)"; and

(2) inserting after paragraph (1) the following:

"(2) Such sums as are necessary to carry out section 235; and".

Mr. COHEN. Mr. President, I rise today to offer an amendment to the crime bill which will help prevent juvenile crime by helping States to recognize and address the needs of mentally ill children in the juvenile justice system.

Many of my colleagues, during the past few days, have spoken with conviction about the need to punish youthful offenders who commit violent crimes. I agree. Those juveniles who cannot be rehabilitated through less restrictive means and who pose a danger to the community should be imprisoned. At the same time, we must be cognizant of the differences between the adult and juvenile justice systems.

The juvenile justice system, unlike the adult system, is not designed to be driven solely by a desire to conclude either guilt or innocence. Assessing and responding to a child's needs are just as important to the mission of the juvenile justice system as is determining culpability. Similarly, when a juvenile has admitted blame for a crime, the outcome is not intended to be to a simple choice between prison and parole. The results of a juvenile proceeding are not, in theory, discrete choices between two or three possibilities. Rather, they are intended to be fluid, providing juvenile justice officials with a wide array of alternatives to dealing with our troubled youth.

In reality, however, States and local governments do not always provide their juvenile courts with a wide array of diversionary programs and sentencing alternatives. In fact, the juvenile courts, too often, have only two practical options: incarceration or a slap on the wrist.

As a result, the juvenile justice system is only capable of fulfilling one half of its mission: to commit those juveniles whose violent and chronic criminal behavior pose a serious danger to society. The second half of the juvenile justice system's mission and that which distinguishes it from the adult system—to treat those children who need special attention or whose conduct is not serious enough to merit incarceration—is often neglected and ignored. A youth should not have to become a violent or chronic criminal before the juvenile justice system takes action.

One specific population of children, which some experts assert comprise 60 percent of those in the juvenile justice

system and for whom early intervention is critical to preventing future offenses are those with serious mental health problems. However, the various states' juvenile justice system face a number of barriers to providing effective and timely assessment, diagnosis and treatment. For example, juveniles who are flagged as potentially mentally ill are frequently referred to youth centers for a psychiatric work-up. Too often, they spend months in detention and, in the end, are released without ever receiving a comprehensive screening.

The amendment which I am offering today would require the Office of Juvenile Justice and Delinquency Prevention and the Department of Health and Human Services to study the nature and extent of mental illness within the juvenile justice system. It would also direct these agencies to develop a model system that the states could use to assess, diagnose and treat the mental health needs of youth who enter the juvenile justice system.

My amendment would also express the sense of the Congress that no youth should have to be incarcerated solely in order to receive mental health treatment. It is not a crime to suffer from a mental illness. While detaining a juvenile for a short period in order to perform a psychiatric evaluation is sometimes necessary, too often mentally ill juveniles, who are not chronic or violent criminals and do not deserve to be treated as such, are incarcerated because no other assessment, diagnostic and treatment alternatives exist. No one, especially our youth, should be neglected in this way.

My amendment is not a panacea to the problems facing our juvenile justice system. However, it provides an important step in preventing juvenile crime and responding to the needs of mentally ill children in the juvenile justice system.

AMENDMENT NO. 1164

(Purpose: To combat public corruption)

At the appropriate place, insert:

TITLE II—PUBLIC CORRUPTION

SEC. 201. SHORT TITLE.

This title may be cited as the "Anti-Corruption Act of 1993".

SEC. 202. PUBLIC CORRUPTION.

(a) **OFFENSES.**—Chapter 11 of title 18, United States Code, is amended by adding at the end the following new section:

"§ 226. Public corruption

"(a) **STATE AND LOCAL GOVERNMENT.**—

"(1) **HONEST SERVICES.**—Whoever, in a circumstance described in paragraph (3), deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of a State or political subdivision of a State of the honest services of an official or employee of the State or political subdivision shall be fined under this title, imprisoned not more than 10 years, or both.

"(2) **FAIR AND IMPARTIAL ELECTIONS.**—Whoever, in a circumstance described in paragraph (3), deprives or defrauds, or endeavors

to deprive or to defraud, by any scheme or artifice, the inhabitants of a State or political subdivision of a State of a fair and impartially conducted election process in any primary, run-off, special, or general election through one or more of the following means, or otherwise—

“(A) through the procurement, casting, or tabulation of ballots that are materially false, fictitious, or fraudulent or that are invalid, under the laws of the State in which the election is held;

“(B) through paying or offering to pay any person for voting;

“(C) through the procurement or submission of voter registrations that contain false material information, or omit material information; or

“(D) through the filing of any report required to be filed under State law regarding an election campaign that contains false material information or omits material information,

shall be fined under this title, imprisoned not more than 10 years, or both.

“(3) CIRCUMSTANCES IN WHICH OFFENSE OCCURS.—The circumstances referred to in paragraphs (1) and (2) are that—

“(A) for the purpose of executing or concealing a scheme or artifice described in paragraph (1) or (2) or attempting to do so, a person—

“(i) places in any post office or authorized depository for mail matter, any matter or thing to be sent or delivered by the Postal Service, or takes or receives therefrom any such matter or thing, or knowingly causes to be delivered by mail according to the direction thereon, or at the place at which it is directed to be delivered by the person to whom it is addressed, any such matter or thing;

“(ii) transmits or causes to be transmitted by means of wire, radio, or television communication in interstate or foreign commerce any writings, signs, signals, pictures, or sounds;

“(iii) transports or causes to be transported any person or thing, or induces any person to travel in or to be transported in, interstate or foreign commerce; or

“(iv) uses or causes the use of any facility of interstate or foreign commerce;

“(B) the scheme or artifice affects or constitutes an attempt to affect in any manner or degree, or would if executed or concealed affect, interstate or foreign commerce; or

“(C) in the case of an offense described in paragraph (2), an objective of the scheme or artifice is to secure the election of an official who, if elected, would have any authority over the administration of funds derived from an Act of Congress totaling \$10,000 or more during the 12-month period immediately preceding or following the election or date of the offense.

“(b) FEDERAL GOVERNMENT.—Whoever deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of the United States of the honest services of a public official or a person who has been selected to be a public official shall be fined under this title, imprisoned not more than 10 years, or both.

“(c) OFFENSE BY AN OFFICIAL AGAINST AN EMPLOYEE OR OFFICIAL.—

“(1) CRIMINAL OFFENSE.—Whoever, being an official, public official, or person who has been selected to be a public official, directly or indirectly discharges, demotes, suspends, threatens, harasses, or in any manner discriminates against an employee or official of the United States or of a State or political subdivision of a State, or endeavors to do so,

in order to carry out or to conceal a scheme or artifice described in subsection (a) or (b), shall be fined under this title, imprisoned not more than 5 years, or both.

“(2) CIVIL ACTION.—(A) Any employee or official of the United States or of a State or political subdivision of a State who is discharged, demoted, suspended, threatened, harassed, or in any manner discriminated against because of lawful acts done by the employee or official as a result of a violation of this section or because of actions by the employee on behalf of himself or herself or others in furtherance of prosecution under this section (including investigation for, initiation of, testimony for, or assistance in such a prosecution) may bring a civil action and obtain all relief necessary to make the employee or official whole, including—

“(i) reinstatement with the same seniority status that the employee or official would have had but for the violation;

“(ii) 3 times the amount of backpay;

“(iii) interest on the backpay; and

“(iv) compensation for any special damages sustained as a result of the violation, including reasonable litigation costs and reasonable attorney's fees.

“(B) An employee or official shall not be afforded relief under subparagraph (A) if the employee or official participated in the violation of this section with respect to which relief is sought.

“(C)(1) A civil action or proceeding authorized by this paragraph shall be stayed by a court upon certification of an attorney for the Government that persecution of the action or proceeding may adversely affect the interests of the Government in a pending criminal investigation or proceeding.

“(2) The attorney for the Government shall promptly notify the court when a stay may be lifted without such adverse effects.

“(d) DEFINITIONS.—As used in this section—

“(1) the term ‘official’ includes—

“(A) any person employed by, exercising any authority derived from, or holding any position in the government of a State or any subdivision of the executive, legislative, judicial, or other branch of government thereof, including a department, independent establishment, commission, administration, authority, board, and bureau, and a corporation or other legal entity established and subject to control by a government or governments for the execution of a governmental or intergovernmental program;

“(B) any person acting or pretending to act under color of official authority; and

“(C) any person who has been nominated, appointed, or selected to be an official or who has been officially informed that he or she will be so nominated, appointed, or selected;

“(2) the term ‘person acting or pretending to act under color of official authority’ includes a person who represents that he or she controls, is an agent of, or otherwise acts on behalf of an official, public official, and person who has been selected to be a public official;

“(3) the terms ‘public official’ and ‘person who has been selected to be a public official’ have the meanings stated in section 201 and also include any person acting or pretending to act under color of official authority;

“(4) the term ‘State’ means a State of the United States, the District of Columbia, Puerto Rico, and any other commonwealth, territory, or possession of the United States; and

“(5) the term ‘uses any facility of interstate or foreign commerce’ includes the intrastate use of any facility that may also be used in interstate or foreign commerce.”

(b) TECHNICAL AMENDMENTS.—(1) The chapter analysis for chapter 11 of title 18, United States Code, is amended by adding at the end the following new item:

“226. Public corruption.”

(2) Section 1961(1) of title 18, United States Code, is amended by inserting “section 226 (relating to public corruption),” after “section 224 (relating to sports bribery).”

(3) Section 2516(1)(c) of title 18, United States Code, is amended by inserting “uses or causes to be used any facility of interstate or foreign commerce”; and

(4) by inserting “or attempting to do so” after “for the purpose of executing such scheme or artifice”.

(b) TECHNICAL AMENDMENTS.—(1) The heading of section 1343 of title 18, United States Code, is amended to read as follows:

“§ 1343. Fraud by use of facility of interstate commerce.”

(2) The chapter analysis for chapter 63 of title 18, United States Code, is amended by amending the item relating to section 1343 to read as follows:

“1343. Fraud by use of facility of interstate commerce.”

SEC. 204. NARCOTICS-RELATED PUBLIC CORRUPTION.

(a) OFFENSES.—Chapter 11 of title 18, United States Code, is amended by inserting after section 219 the following new section:

“§ 220. Narcotics and public corruption

“(a) OFFENSE BY PUBLIC OFFICIAL.—A public official who, in a circumstance described in subsection (c), directly or indirectly, corruptly demands, seeks, receives, accepts, or agrees to receive or accept anything of value personally or for any other person in return for—

“(1) being influenced in the performance or nonperformance of any official act; or

“(2) being influenced to commit or to aid in committing, or to collude in, or to allow or make opportunity for the commission of any offense against the United States or any State,

shall be guilty of a class B felony.

“(b) OFFENSE BY PERSON OTHER THAN A PUBLIC OFFICIAL.—A person who, in a circumstance described in subsection (c), directly or indirectly, corruptly gives, offers, or promises anything of value to any public official, or offers or promises any public official to give anything of value to any other person, with intent—

“(1) to influence any official act;

“(2) to influence the public to commit or to aid in committing, or to collude in, or to allow or make opportunity for the commission of any offense against the United States or any State; or

“(3) to influence the public official to do or to omit to do any act in violation of the official's lawful duty,

shall be guilty of a class B felony.

“(c) CIRCUMSTANCES IN WHICH OFFENSE OCCURS.—The circumstances referred to in subsections (a) and (b) are that the offense involves, in part of, or is intended to further or to conceal the illegal possession, importation, manufacture, transportation, or distribution of any controlled substance or controlled substance analogue.”

"(d) DEFINITIONS.—As used in this section—
 "(1) the terms 'controlled substance' and 'controlled substance analogue' have the meanings stated in section 102 of the Controlled Substances Act (21 U.S.C. 802);

"(2) the term 'official act' means any decision, action, or conduct regarding any question, matter, proceeding, cause, suit, investigation, or prosecution which may at any time be pending, or which may be brought before any public official, in such official's official capacity, or in such official's place of trust or profit; and

"(3) the term 'public official' means—
 "(A) an officer or employee or person acting for or on behalf of the United States, or any department, agency, or branch of Government thereof in any official function, under or by authority of any such department, agency, or branch of Government;
 "(B) a juror;

"(C) an officer or employee or person acting for or on behalf of the government of any State, territory, or possession of the United States (including the District of Columbia), or any political subdivision thereof, in any official function, under or by the authority of any such State, territory, possession, or political subdivision; and

"(D) any person who has been nominated or appointed to a position described in subparagraph (A), (B), or (C), or has been officially informed that he or she will be so nominated or appointed."

(b) TECHNICAL AMENDMENTS.—(1) Section 1961(1) of title 18, United States Code, is amended by inserting "section 220 (relating to narcotics and public corruption)," after "Section 201 (relating to bribery)."

(2) Section 2516(1)(c) of title 18, United States Code, is amended by inserting "section 220 (relating to narcotics and public corruption)," after "section 201 (bribery of public officials and witnesses)."

(3) The chapter analysis for chapter 11 of title 18, United States Code, is amended by inserting after the item for section 219 the following new item:

"220. Narcotics and public corruption."

Mr. MCCONNELL. Mr. President, I am going to preface my remarks by reading from an editorial which appeared in my home State's Lexington Herald-Leader on this last election day. The headline: "An Insult to Democracy."

The editorial starts:

Somewhere in Kentucky, people are getting ready to spit on everything this nation stands for.

No, they're not planning to burn a flag or turn traitor.

They're about to buy and sell votes.

Over the years, Kentuckians have become accustomed to this Election Day activity, so accustomed that some no longer recognize it for what it is: a betrayal of this nation's ideals and an insult to everyone who cherishes those ideals.

In recent years, more and more citizens have come to regard this tawdry practice with the contempt it deserves. The legislature has passed new laws that have helped curtail vote buying. Nonetheless, the commerce in votes still continues in some places.

Finally, Mr. President, this election-day editorial from the Lexington Herald-Leader closed by urging voters to call an (800) hotline if they observed any evidence of vote fraud.

Now, election fraud certainly is not confined to the rural areas of the Blue-

grass State. About New York City's mayoral election, it was written on Election Day that: "Voter fraud is on everyone's mind." There were reports of "ghost" voters like "Bill Loquinto"—who died in 1989 but somehow registered to vote in 1993. We have motor-voter, absentee ballots and now, it appears, ghost-voting via Ouija (Wee-Gee) Board. These revelations threw a close election into further doubt.

The Washington Times wrote last week, "The more things change, the more they stay the same. In scenes reminiscent of the Tammany Hall days a century ago, reports about the Big Apple's mayoral contest Tuesday included the usual tales of voter fraud."

The amendment I am offering, known as the Anti-Corruption Act, perhaps should be renamed the "Ghostbuster Bill." My amendment passed the Senate as part of the 1990 and 1991 crime bills, and the 1989 drug bill.

It was supported by the Attorney General, and the Public Integrity Section of the Justice Department under President Bush.

The Anti-Corruption Act has been a bipartisan bill. It is the product of Senator BIDEN's and my efforts over the years to develop a comprehensive law enforcement response to the problems of election fraud and public corruption, especially in the wake of the Supreme Court's McNally decision.

This amendment restores much of what was lost in terms of jurisdictional authority needed to go after corrupt officials. In addition, this amendment does a great deal more to enhance the Federal Government's ability to combat election fraud.

Mr. President, it is imperative that the Federal Government be given the authority to prosecute election fraud offenders in Federal court. That is what Congress did in the Voting Rights Act of 1965. It used the Federal Government's power to protect people's voting rights from entrenched local discrimination.

Today, public corruption and election fraud continue to undermine the legitimacy and integrity of our democratic government.

During the 100th Congress, I joined forces with the Justice Department and members of the Judiciary Committee to reverse the McNally decision which threatened to bring down a string of successful public corruption prosecutions like a house of cards. We were largely successful.

Nevertheless, when the 101st Congress convened, Senator BIDEN and I felt there was more that needed to be done. The Justice Department agreed, and gave us their invaluable input. The result is the amendment before us.

The fact is that those who abuse the public trust and seek to defraud the government are clever in their deceit. They are further aided by the uncer-

tainty over whether the Federal Government can investigate and prosecute certain acts of election fraud and public corruption.

This amendment makes every act of election fraud—at every level of government—a Federal offense. It widens the jurisdictional scope for Federal prosecutors to investigate and punish entrenched local corruption.

It also raises the maximum penalty for both election fraud and public corruption to 10 years in the penitentiary and a \$10,000 fine.

I cannot stress enough the importance of this legislation. In some parts of the country, if you are caught buying or selling votes, you go see your friend the judge and get a slap on the wrist.

This amendment assures that anyone caught in election shenanigans will be facing a Federal grand jury and a ticket to Federal prison.

Hopefully, the passage of this legislation will have a chilling effect on fraud. The issue certainly merits a Federal solution, as government at all levels increasingly is seeing its credibility called into question, if not its legitimacy. Further, the amendment is carefully structured so as to extend Federal jurisdiction only so far as a clear Federal nexus can be demonstrated.

This amendment also gets at the broader problem of "public corruption" as it relates to drug trafficking. The facilitation by public officials of drug trafficking would be classified as a Class B felony under Title 18 of the United States Code. Moreover, anyone attempting to bribe or actually bribing a public official for help in drug trafficking would be guilty of a Class B felony.

Drug trafficking is a lucrative business. Aiding and abetting it can offer a huge stipend to public officials, worth many times their government salaries. This amendment would make drug stings sting a lot more—for the pushers and for corrupt politicians.

Mr. President, I thank my colleagues for supporting this amendment and particularly the ranking member, Senator HATCH, for his effort in getting it included in the manager's package. It gives Federal law enforcement officials the valuable tools they need to fight public corruption and election fraud.

AMENDMENT No. 1165

(Purpose: To expand the scope of title VIII of the bill to address violence against the elderly and the disabled)

On page 161, strike lines 1 and 2, and insert the following:

TITLE VIII—SEXUAL VIOLENCE AND ABUSE OF CHILDREN, THE ELDERLY, AND INDIVIDUALS WITH DISABILITIES

On page 161, strike line 21 and all that follows through page 167, line 15, and insert the following:

Subtitle B—Protection of Children, the Elderly, and Individuals With Disabilities

SEC. 811. SHORT TITLE.

This subtitle may be cited as the "National Child, Elderly, and Individuals with Disabilities Protection Act of 1993".

SEC. 812. PURPOSES.

The purposes of this subtitle are—

(1) to establish a national system through which organizations that care for children, the elderly, or individuals with disabilities may obtain the benefit of a nationwide criminal background check to determine if persons who are current or prospective care providers have committed abuse crimes or other serious crimes;

(2) to establish minimum criteria for State laws and procedures that permit organizations that care for children, the elderly, or individuals with disabilities to obtain the benefit of nationwide criminal background checks to determine if persons who are current or prospective care providers have committed abuse crimes or other serious crimes;

(3) to provide procedural rights for persons who are subject to nationwide criminal background checks, including procedures to challenge and correct inaccurate background check information;

(4) to establish a national system for the reporting by the States of abuse crime information; and

(5) to document and study the problem of child abuse by providing statistical and informational data on child abuse and related crimes to the Department of Justice and other interested parties.

SEC. 813. DEFINITIONS.

For the purposes of this subtitle—

(1) the term "abuse crime" means a child abuse crime, a crime against the elderly, or a crime against an individual with disabilities.

(2) the term "abuse crime information" means the following facts concerning a person who is under indictment for, or has been convicted of, an abuse crime: full name, race, sex, date of birth, height, weight, a brief description of the abuse crime or offenses for which the person has been arrested or is under indictment or has been convicted, the disposition of the charge, and any other information that the Attorney General determines may be useful in identifying persons arrested for, under indictment for, or convicted of, an abuse crime;

(3) the term "authorized agency" means a division or office of a State designated by a State to report, receive, or disseminate information under this subtitle;

(4) the term "background check crime" means an abuse crime, murder, manslaughter, aggravated assault, kidnapping, arson, sexual assault, domestic violence, incest, indecent exposure, prostitution, promotion of prostitution, burglary, robbery, embezzlement, larceny, fraud, and a felony offense involving the use or distribution of a controlled substance;

(5) the term "child" means a person who is a child for purposes of the criminal child abuse law of a State;

(6) the term "child abuse" means the physical or mental injury, sexual abuse or exploitation, neglectful treatment, negligent treatment, or maltreatment of a child by any person in violation of the criminal child abuse laws of a State, but does not include discipline administered by a parent or legal guardian to his or her child provided it is reasonable in manner and moderate in degree and otherwise does not constitute cruelty;

(7) the term "child abuse crime" means a crime committed under any law of a State

that establishes criminal penalties for the commission of child abuse by a parent or other family member of a child or by any other person;

(8) the term "care" means the provision of care, treatment, education, training, instruction, supervision, or recreation to children, the elderly, or individuals with disabilities;

(9) the term "domestic violence" means a felony or misdemeanor involving the use or threatened use of force by—

(A) a present or former spouse of the victim;

(B) a person with whom the victim shares a child in common;

(C) a person who is cohabiting with or has cohabited with the victim as a spouse; or

(D) any person defined as a spouse of the victim under the domestic or family violence laws of a State;

(10) the term "elderly" means a person who is sixty-five years old or older.

(11) the term "exploitation" means child pornography and child prostitution;

(12) the term "mental injury" means harm to a person's psychological or intellectual functioning, which may be exhibited by severe anxiety, depression, withdrawal or outward aggressive behavior, or a combination of those behaviors or by a change in behavior, emotional response, or cognition;

(13) the term "national criminal background check system" means the system maintained by the Federal Bureau of Investigation based on fingerprint identification or any other method of positive identification;

(14) the term "negligent treatment" means the failure to provide, for a reason other than poverty, adequate food, clothing, shelter, or medical care so as to seriously endanger the physical health of a child, elderly person, or individual with disabilities;

(15) the term "individual with a disability" means an individual with a disability (as defined in section 3(2) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102(2)));

(16) the term "physical injury" includes lacerations, fractured bones, burns, internal injuries, severe bruising, and serious bodily harm;

(17) the term "provider" means—

(A) a person who—
(i) is employed by or volunteers with a qualified entity;

(ii) who owns or operates a qualified entity; or

(iii) who has or may have unsupervised access to a person to whom the qualified entity provides care; and

(B) a person who—
(i) seeks to be employed by or volunteer with a qualified entity;

(ii) seeks to own or operate a qualified entity; or

(iii) seeks to have or may have unsupervised access to a person to whom the qualified entity provides care;

(18) the term "qualified entity" means a business or organization, whether public, private, for-profit, not-for-profit, or voluntary, that provides care or care placement services, including a business or organization that licenses or certifies others to provide care or care placement services;

(19) the term "sex crime" means an act of sexual abuse that is a criminal act;

(20) the term "sexual abuse" includes the employment, use, persuasion, inducement, enticement, or coercion of a child to engage in, or assist another person to engage in, sexually explicit conduct or the rape, molestation, prostitution, or other form of sexual

exploitation of children or incest with children; and

(21) the term "State" means a State, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, and the Trust Territories of the Pacific.

On page 172, lines 16 and 17, strike "child to whom the qualified entity provides child care," and insert "person to whom the qualified entity provides care";

On page 173, line 25, strike "child" and insert "person".

On page 174, line 1, strike "child".

On page 177, lines 11 and 13, strike "National Child Protection Act of 1993" and insert "National Child, Elderly, and Individuals with Disabilities Protection Act of 1993".

There are authorized to be appropriated for grants under paragraph (1) a total of \$40,000,000 for fiscal years 1995, 1996, and 1997.

Mr. COHEN. Mr. President, when we put our loved ones in the care of others, we expect that they will be safe from harm and will be cared for adequately. Unfortunately, from time to time our hopes and dreams are dashed by the cruel and savage acts of those who would take advantage of the most vulnerable and innocent members of our society.

One of the sections of the bill before us now attempts to address such situations by dealing with the problem of child abusers who are placed in positions of responsibility for child care.

Specifically, the bill establishes a national system through which child care organizations can obtain a nationwide criminal background check to determine if persons who are current or prospective child care providers have committed child abuse or related crimes.

This should go far in allaying the concerns of working parents who depend on child care centers and providers for the safekeeping and development of their children, and I fully support the committee's action.

Today, I am introducing an amendment that will extend the bill's protections to similarly vulnerable populations—our elderly and individuals with disabilities, whose families seek home care, nursing home care or other types of long-term care.

Mr. President, I want to state right up front that the vast majority of home care and other providers of services to the elderly and persons with disabilities are honest, dedicated individuals, and this amendment in no way attempts to place these devoted workers and volunteers in a bad light.

However, it is important to have systems in place to allow agencies providing care to adequately review the qualifications of potential workers and weed out those who have criminal backgrounds.

Just as working parents put their trust in child care workers, so do families depend on home health care agencies and other service providers for the care of their loved ones. As anyone who has ever had to deal with this matter

knows, it is a very emotional, heart-wrenching experience, at times because the person needing care is disoriented because of Alzheimer's disease or frustrated by having to be dependent on someone else for their daily activities.

Many families seek help from service providers as a means of retaining some measure of independence for their elderly parent or disabled family member. While the vast majority of these situations work out well, think of the emotional devastation that occurs when the caregiver abuses the elderly person or individual with disabilities, either physically, financially, or emotionally.

As the Judiciary Committee found through compelling testimony, child abusers are often attracted to jobs or volunteer organizations where they can have unsupervised contact with children. Some of the same patterns of behavior can occur for individuals who seek to prey on the elderly or persons with disabilities.

In addition to the threat of physical abuse, home care and other unsupervised care of the elderly raises the threat of financial abuse by those who would steal or defraud the elderly once gaining access to that individual's home, possessions, credit cards, or bank accounts.

Abuse of our senior citizens by service providers on whom families and frail seniors depend for independent living is serious. It is a widely under-reported problem, and it has the potential for increasing for several reasons:

Census Bureau figures indicate that, if current trends continue, the elderly population will expand from 12 percent of the total population to over 25 percent in the year 2020, reaching the level of 72 million individuals.

Home health care represents one of the fastest growing segments of the health care industry, with an annual growth rate of 5 percent through the year 2005.

There is a growing emphasis on home care as a long-term care strategy, as reflected in the administration's new health care proposal and in many state programs.

Like child abuse, current statistics indicate that the greatest number of elderly abuse cases—over 75 percent—are caused by family members or acquaintances. This aspect of the problem has been recognized by Congress and is being handled through the aging network and other agencies, which are hard at work publicizing and identifying the causes of elder abuse in the hopes of preventing its spread.

The problem I am focusing on today is another facet of the elder abuse problem. Statistics issued by the National Resource Center on Elder Abuse in 1991 indicate that abuse of the elderly by service providers constituted 6.3 percent of total elder abuse cases. While this figure is not in itself over-

whelming, I would like my colleagues to consider some specific cases and the horror they invoke:

In 1988, a 72-year-old Florida woman hired a home health care worker while recuperating from surgery. Because no criminal background checks were required at the time, no one knew that the home care worker had just been released from prison after being convicted of stealing \$8,000 worth of jewelry from another elderly patient. In this case, however, she did not stop at robbing the Florida woman; rather, she murdered her with a chainsaw.

On Christmas Day, 1992, an 85-year-old New York woman was beaten unconscious by her home care worker because she surprised him when he was using her telephone.

In Massachusetts, a 91-year-old widow was found in her home comatose and alone, suffering from dehydration, malnutrition and bruises. This woman had also signed the ownership of her home to her home care worker, who then abandoned her.

In 1989, an 87-year-old New York man returned home to recuperate from a stroke, which left the left side of his body paralyzed. On his first day on the job, the care provider hired by the family robbed and killed the older man, and was later convicted of murder.

The amendment I am offering today attempts to address this issue before it becomes a greater horror story and before Congress has to react to a crisis. It would put in place a mechanism by which organizations providing care or care-placement services could access nationwide criminal information in order to run background checks on potential care providers.

While some States currently provide criminal history records for convictions within the States, access to nationwide criminal records is necessary to ensure that a potential service provider has not been convicted of a crime in another State. This information is currently not available for background checks.

My amendment would extend access to the FBI's National Crime Information Center to agencies which provide individuals to care for frail elderly and individuals with disabilities.

The goal is to identify those who have a criminal record in specific areas so that they would not be caring for a dependent senior citizen or disabled person.

AMENDMENT NO. 1166

(Purpose: To make technical corrections to the Department of Education Organization Act and to amend the National Literacy Act of 1991 to include new provisions with respect to the development of a panel and the use of funds)

At the appropriate place in the bill, insert the following new section:

SEC. . AMENDMENTS TO THE DEPARTMENT OF EDUCATION ORGANIZATION ACT AND THE NATIONAL LITERACY ACT OF 1991.

(a) TECHNICAL AMENDMENT.—The matter preceding paragraph (1) of section 214(d) of the Department of Education Organization Act (20 U.S.C. 3423a(d)) is amended by striking "under subsection (a)" and inserting "under subsection (c)".

(b) ESTABLISHMENT OF A PANEL AND USE OF FUNDS.—Section 601 of the National Literacy Act of 1991 (20 U.S.C. 1211-2) is amended by—

(1) by redesignating subsection (g) as subsection (i); and

(2) by inserting after subsection (f) the following new subsections:

"(g) PANEL.—The Secretary is authorized to consult with and convene a panel of experts in correctional education, including program administrators and field-based professionals in adult corrections, juvenile services, jails, and community corrections programs, to—

"(1) develop measures for evaluating the effectiveness of the programs funded under this section; and

"(2) evaluate the effectiveness of such programs."

"(h) USE OF FUNDS.—Notwithstanding any other provision of law, the Secretary may use not more than five percent of funds appropriated under subsection (i) in any fiscal year to carry out grant-related activities such as monitoring, technical assistance, and replication and dissemination."

AMENDMENT NO. 1167

(Purpose: To direct the Attorney General to develop guidelines for the prevention, diagnosis, and treatment and followup care of tuberculosis among inmates of correctional institutions and persons held in INS holding facilities)

At the appropriate place, insert the following new section:

SEC. . PREVENTION, DIAGNOSIS, AND TREATMENT OF TUBERCULOSIS IN CORRECTIONAL INSTITUTIONS.

(a) GUIDELINES.—The Attorney General, in consultation with the Secretary of Health and Human Services and the Director of the National Institute of Justice, shall develop and disseminate to appropriate entities, including State and local correctional institutions and the Immigration and Naturalization Service, guidelines for the prevention, diagnosis, treatment, and followup care of tuberculosis among inmates of correctional institutions and persons held in holding facilities operated by or under contract with the Immigration and Naturalization Service.

(b) COMPLIANCE.—The Attorney General shall ensure that prisons in the Federal prison system and holding facilities operated by or under contract with the Immigration and Naturalization Service comply with the guidelines described in subsection (a).

(c) GRANTS.—

(1) IN GENERAL.—The Attorney General shall make grants to State and local correction authorities and public health authorities to assist in establishing and operation programs for the prevention, diagnosis, treatment, and followup care of tuberculosis among inmates of correctional institutions.

(2) FEDERAL SHARE.—The Federal share of funding of a program funded with a grant under paragraph (1) shall not exceed 50 percent.

(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$20,000,000 to carry out this section.

Mr. HATCH. Mr. President, this is a small but important amendment which

addresses a large but growing problem: tuberculosis in the inmate population.

It is no secret that TB is a major health issue in correctional facilities, especially in State prisons and local jails. The National Commission on Correctional Health Care estimates that TB cases occur on average at least three times more often in correctional facilities than in the general population. In fact, NCCHC estimates that, in facilities where inmates have received TB screening, infection levels often range from 10 to 20 percent of the population.

Exacerbating the situation are prison overcrowding, old facilities with inadequate ventilation, and the fact that the prison population is frequently made up of individuals who are highly vulnerable to TB, including the economically disadvantaged, minorities, intravenous drug users, and those who are HIV positive.

And the problem is worse than it might seem. Not only are prisoners infected, they are infecting others—other prisoners and prison employees, such as guards, friends and relatives when they are released, and hospital patients and employees if they become hospitalized. Last fall, an outbreak in the New York State correctional system led to 13 inmates deaths, and 1 officers death as well.

Any efforts we undertake now can save significant money in the long term. Once patients begin successful treatment, they are no longer infectious. And once patients successfully complete treatment, they are not at risk of developing multidrug-resistant drug strains. The Centers for Disease Control estimates that it costs \$10,000 to \$15,000 to treat a regular TB patient, but a multidrug-resistant case can be as high as \$250,000.

My amendment does three things: First, it directs the Attorney General to work with the Secretary of Health and Human Services and the National Institute of Justice to develop and disseminate to appropriate entities, including States and localities, guidelines for the prevention, diagnosis, treatment, and followup care of TB among inmates of correctional institutions.

My language would extend to Immigration and Naturalization Service holding facilities, both those operated by INS and those operated on contract, since detainees have high rates of TB infection. The Office of Technology Assessment has found that, while INS follows Department of Justice guidelines for TB screening in the INS-run detention facilities, those guidelines are not followed in the contract facilities.

The second provision of my amendment would direct the Attorney General to ascertain that her Department is following those guidelines in all its operations. The Office of Technology Assessment's excellent report, "The

Continuing Challenge of Tuberculosis," released last month, found that many Federal correctional facilities may not fully comply with current DOJ guidelines.

Finally, the third provision of my amendment authorizes a small grants program so that State and local correction authorities and public health authorities may increase efforts to prevent, diagnose, and treat both inmates with TB and inmates with TB who are later released from facilities. To hold down costs, I have inserted a provision requiring a one-to-one match of Federal to State or local funds.

Frankly, I wish we could do more. The whole issue of inmate health is one which must be examined very carefully—hepatitis B, HIV, and TB are all serious problems. But, I believe TB is the most serious in that it is highly contagious and can spread easily in the prison population.

Mr. President, last week, this body approved without a single objection, S. 1318, legislation to increase our Federal effort on TB prevention, treatment, and research. The scope of that legislation, however, did not extend to the prison population. My amendment will complement our action in passing S. 1318, and will make a large impact in our Federal efforts to stem the spread of TB. I urge its adoption.

AMENDMENT NO. 1168

(Purpose: To provide penalties for international trafficking in child pornography and encourage the States to enact legislation to combat child pornography)

On page 184, between lines 4 and 5, insert the following:

CHAPTER 2—CHILD PORNOGRAPHY

SEC. 824. PENALTIES FOR INTERNATIONAL TRAFFICKING IN CHILD PORNOGRAPHY.

(a) IMPORT RELATED OFFENSE.—Chapter 110 of title 18, United States Code, is amended by adding at the end the following new section:

"§ 2258. Production of sexually explicit depictions of a minor for importation into the United States

"(a) USE OF MINOR.—A person who, outside the United States, employs, uses, persuades, induces, entices, or coerces any minor to engage in, or who has a minor assist any other person to engage in, or who transports any minor with the intent that the minor engage in any sexually explicit conduct for the purpose of producing any visual depiction of such conduct, intending that the visual depiction will be imported into the United States or into waters within 12 miles of the coast of the United States, shall be punished as provided in subsection (c).

"(b) USE OF VISUAL DEPICTION.—A person who, outside the United States, knowingly receives, transports, ships, distributes, sells, or possesses with intent to transport, ship, sell, or distribute any visual depiction of a minor engaging in sexually explicit conduct (if the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct), intending that the visual depiction will be imported into the United States or into waters within a distance of 12 miles of the coast of the United States, shall be punished as provided in subsection (c).

"(c) PENALTIES.—A person who violates subsection (a) or (b), or conspires or attempts to do so—

"(1) shall be fined under this title, imprisoned not more than 10 years, or both; and

"(2) if the person has a prior conviction under this chapter or chapter 109A, shall be fined under this title, imprisoned not more than 20 years, or both."

(b) TECHNICAL AMENDMENT.—

(1) CHAPTER ANALYSIS.—The chapter analysis for chapter 110 of title 18, United States Code, is amended by adding at the end the following new item:

"2258. Production of sexually explicit depictions of a minor for importation into the United States."

(2) FINE PROVISIONS.—Section 2251(d) of title 18, United States Code, is amended—

(A) by striking "not more than \$100,000, or" and inserting "under this title,";

(B) by striking "not more than \$200,000, or" and inserting "under this title,"; and

(C) by striking "not more than \$250,000" and inserting "under this title".

(c) SECTION 2251 PENALTY ENHANCEMENT.—Section 2251(d) of title 18, United States Code, is amended by striking "this section" the second place it appears and inserting "this chapter or chapter 109A".

(d) SECTION 2252 PENALTY ENHANCEMENT.—Section 2252(b)(1) of title 18, United States Code, is amended by striking "this section" and inserting "this chapter or chapter 109A".

(e) CONSPIRACY AND ATTEMPT.—Sections 2251(d) and 2252(b) of title 18, United States Code, are each amended by inserting ", or attempts or conspires to violate," after "violates" each place it appears.

(f) RICO AMENDMENT.—Section 1961(l) of title 18, United States Code, is amended by striking "2251-2252" and inserting "2251, 2252, and 2258".

(g) TRANSPORTATION OF MINORS.—Section 2423 of title 18, United States Code, is amended—

(1) by striking "(a) Whoever" and inserting "(a) TRANSPORTATION WITH INTENT TO ENGAGE IN CRIMINAL SEXUAL ACTIVITY.—A person who"; and

(2) by adding at the end the following new subsection:

"(b) TRAVEL WITH INTENT TO ENGAGE IN SEXUAL ACT WITH A JUVENILE.—A person who travels in interstate commerce, or conspires to do so, or a United States citizen or an alien admitted for permanent residence in the United States who travels in foreign commerce, or conspires to do so, for the purpose of engaging in any sexual act (as defined in section 2245) with a person under 18 years of age that would be in violation of chapter 109A if the sexual act occurred in the special maritime and territorial jurisdiction of the United States shall be fined under this title, imprisoned not more than 10 years, or both."

SEC. 825. SENSE OF CONGRESS CONCERNING STATE LEGISLATION REGARDING CHILD PORNOGRAPHY.

It is the sense of the Congress that each State that has not yet done so should enact legislation prohibiting the production, distribution, receipt, or simple possession of materials depicting a person under 18 years of age engaging in sexually explicit conduct (as defined in section 2256 of title 18, United States Code) and providing for a maximum imprisonment of at least 1 year and for the forfeiture of assets used in the commission or support of, or gained from, such offenses.

AMENDMENT No. 1169

(Purpose: To amend section 922 (d) and (g) of title 18, United States Code, to prohibit possession of a firearm by a person subject to a restraining order)

At the appropriate place insert the following:

TITLE—FIREARMS

SEC. 01. PERSONS SUBJECT TO RESTRAINING ORDERS.

Section 922(d) of title 18, United States Code, is amended—

(1) by striking "or" at the end of paragraph (6);

(2) by adding "or" at the end of paragraph (7); and

(3) by adding after paragraph (7) the following new paragraph:

"(8)(A) is subject to an order, issued by a Federal or State court after a hearing about which that person received actual notice and at which that person had the opportunity to participate, restraining that person from harassing, stalking, threatening, or engaging in other such conduct that would place another person in fear of bodily injury or the effect of which conduct would be to place a reasonable person in fear of bodily injury; and

(B) whom the court issuing the order finds under this subsection to represent a credible threat to the physical safety of that other person;"

Section 922(g) of title 18, United States Code, is amended—

(1) by striking "or" at the end of paragraph (6);

(2) by adding "or" at the end of paragraph (7); and

(3) by adding after paragraph (7) the following new paragraph:

"(8)(A) who is subject to an order, issued by a Federal or State court after a hearing about which that person received actual notice and at which that person had the opportunity to participate, restraining that person from harassing, stalking, threatening, or engaging in other such conduct that would place another person in fear of bodily injury or the effect of which conduct would be to place a reasonable person in fear of bodily injury; and

(B) whom the court issuing the order finds under this subsection to represent a credible threat to the physical safety of that other person;"

Section 926(a) of title 18, United States Code, is amended—

(1) by striking "and" at the end of paragraph (1);

(2) by replacing "." with "; and" at the end of paragraph (2); and

(3) by adding after paragraph (a)(2) the following new paragraph:

"(3) regulations providing for effective receipt and secure storage of firearms relinquished by or seized from persons described in sections 922(d)(8) or 922(g)(8)."

Section 924(d)(1) of title 18, United States Code, is amended—

(1) by striking all between "trial," and "firearms" and inserting the following:

"or lapse of or court termination of the restraining order to which he is subject, the seized or relinquished."

AMENDMENT No. 1170

(Purpose: To direct the United States Sentencing Commission to amend the sentencing guidelines to provide a sentence enhancement for soliciting a minor to commit a crime)

At the appropriate place add the following:

SEC. . SOLICITATION OF MINOR TO COMMIT CRIME.

(a) DIRECTIVE TO SENTENCING COMMISSION.—(1) The United States Sentencing Commission shall promulgate guidelines or amend existing guidelines to provide that a defendant 18 years of age or older who has been convicted of an offense shall receive an appropriate sentence enhancement if the defendant involved a minor in the commission of the offense. (2) The Commission shall provide that the guideline enhancement promulgate pursuant to paragraph (1) shall apply for any offense in relation to which the defendant has solicited, procured, recruited, counseled, encouraged, trained, directed, commanded, intimidated, or otherwise used or attempted to use any person less than 18 years of age with the intent that the minor would commit a Federal offense.

(b) RELEVANT CONSIDERATIONS.—In implementing the directive in subsection (a), the Sentencing Commission shall consider

(1) the severity of the crime that the defendant intended the minor to commit;

(2) the number of minors that the defendant used or attempted to use in relation to the offense;

(3) the fact that involving a minor in a crime of violence is frequently of even greater seriousness than involving a minor in a drug trafficking offense, for which the guidelines already provide a two-level enhancement; and

(4) the possible relevance of the proximity in age between the offender and the minor(s) involved in the offense.

USE A KID, GO TO PRISON

Mr. PRESSLER. Mr. President, as a member of the Judiciary Subcommittee on Juvenile Justice, I am concerned, as we all are, about the rising wave of juvenile violence. My amendment deals with the particularly heinous circumstance of an adult criminal using children to commit their crimes. My amendment is simple and straightforward. It sends a strong message to dangerous criminals: If you use a kid, you will go to prison.

That is it.

If an adult uses a child under 18 years of age to commit a Federal offense—either on the adult's behalf or together with him—my amendment would increase the penalty he would normally receive. Specifically, the bill directs the Sentencing Commission to establish higher penalties—beyond the penalty levels that would have applied—if a defendant intentionally uses or attempts to use a minor in any Federal offense.

The sentencing guidelines already require an increase in the sentence of about 25 percent if a convicted felon uses a minor in a drug-trafficking offense. My amendment uses this same general approach across the board on all Federal offenses in which the defendant used a minor. Moreover, this amendment would direct the Commission to account for two crucial factors to make certain that tough penalties are handed down. First, the Commission is to account for the fact that using minors to commit serious crimes, such as bank robbery, should probably result in a greater than 25 percent sen-

tence increase. Second, the Commission is to write guidelines ensuring that the use of multiple minors to commit an offense represents especially serious conduct.

What does this mean? A typical bank robbery case serves as a useful illustration. If a typical armed bank robber with an average criminal record holds up a bank for a few thousand dollars, this felon would receive a sentence of about 8 years in prison with no parole.

Now, assume the bank robber used one minor to assist in this bank robbery. Under my amendment, the bank robber's sentence would be in the vicinity of 11 years in prison, real-time, no parole, and could be as high as about 13 years. This is an increase of some 3 to 5 years in actual prison time for this single instance of using a minor.

Finally, let us assume that the bank robber used more than one minor to perpetuate his robbery—let us say he used four. My proposal would ensure that this felon would receive a sentence for a single bank robbery that I expect would not be less than 20 years in prison, with no parole. The Sentencing Commission could well set this sentence even higher. Of course, if the bank robber used minors to commit more than one bank robbery, the sentence would go up even more under the current guideline structure. In short, if you use more kids to commit more crimes, you will do more time.

My amendment is aimed at two types of crime, both of which are spreading across our Nation. Both need to be stopped.

The first type is gang crimes. Gang violence is rising as fast as the age of gang members is declining. Gang crime is becoming more organized and sophisticated. Clearly, young gang members do not have the knowledge and experience to pull off sophisticated crimes, such as illegal gambling, money laundering, and extortion. They must be taught—and they are—by adults.

The second type of crime this amendment targets is something out of a Charles Dickens novel. The October 31 edition of the New York Times carried an article which detailed how some adults recruit vulnerable young kids, mostly drug addicts, and train them in the ways of crime. But instead of teaching them how to pick pockets as in Dickens' "Oliver Twist," these modern-day Fagans teach kids how to rob banks and knock off jewelry stores.

Bank robbery, in particular, has become the in vogue crime among these youth terrorist teams. Teams of kids, some as young as 13, are taught to commit take-down robberies, which are high profile, shoot-'em-up style crimes. Instead of quietly handing a bank teller a note, these youths charge into a bank with guns blazing. Meanwhile, outside the bank, a safe distance away, the adult supervisor sits, ready to abandon the team if things go wrong.

Mr. President, I ask unanimous consent that the New York Times article be printed in the RECORD.

Mr. President, something must be done. Today, instead of being recruited for the football or debating teams, many of our Nation's youth are encouraged by adults to join another kind of team—criminal gangs. Sometimes the inducement to join a gang is voluntary. Sometimes it is coerced by threats against the child or the child's family.

I should make an important point here. This new provision is not dependent on a crime actually being committed by the child. Any young person who has been solicited or encouraged by an adult to commit a crime should know that the law is on his side. With my amendment, the law will be.

Adults who use our children to commit crimes should be made to pay—and pay dearly. They must be punished not just because of the crime itself. They must be punished for attempting to recruit and train the next generation of criminals.

Once children are turned down the path of crime and violence, it becomes difficult, if not impossible, to turn them away.

Our young people are this country's most valuable human resource. However, they are our most vulnerable resource. If we do not act, the promising futures of many kids could be lost.

This amendment represents our resolve to honor our promise to our kids, to our families, to our communities. It sends an equally strong message to the criminals of this Nation: If you use a kid, you will go to prison—for a long time. I urge my colleagues to join with me to send that message to these thugs and keep our promise to our kids.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times, Oct. 31, 1993]
MODERN-DAY "FAGINS" ADMIT TO SERIES OF BANK ROBBERIES

(By Robert Reinhold)

LOS ANGELES, October 30.—They were modern-day Fagins, training young boys not to pick pockets, as in Dickens' "Oliver Twist," but to invade banks with automatic weapons, terrorize patrons and tellers and flee with money in high-speed freeway getaways in stolen cars.

There was never any physical evidence to implicate these Fagins, Robert Sheldon Brown, better known as "Cas" on the streets of South-Central Los Angeles, and Donzell Lamar Thompson, or "C-Dog." For they stayed several blocks away, supervising sometimes as many as five bank robberies a day over four years, using boys as young as 13.

At just 23 years old, Mr. Brown has been implicated in 175 bank robberies, more than anyone else in American history.

On Monday, the two men will be sentenced in Federal District Court. They pleaded guilty to seven bank robberies; Mr. Brown faces 30 years in prison and Mr. Thompson 25 years.

In their memorandum, two assistant United States attorneys describe the men as "appalling corrupters of youth."

LIFE IMITATES ART

"Boys do not rob banks unless someone shows them how," they write. "Brown and Thompson showed how. They took disadvantaged and miserable teen-agers and turned them into felons of the most serious degree.

"Dickens invented Fagin as the exploiter and debauchee of youth to inspire horror and revulsion in his Victorian audience. Brown and Thompson inspire the same horror and revulsion today. The difference is that Fagin was only fiction."

The arrests appear to have put a dent in the alarming rise of brazen "takeover" robberies by armed bands that have helped make Southern California the bank-robbery capital of the United States. According to the Federal Bureau of Investigation, 1992 saw a record of 2,641 bank robberies in this area, 448 of them takeovers. By contrast, there were 537 robberies in the New York area last year.

The takeover differs from old-style robberies, called "note jobs" by the police, in which the robber tries to avoid attention by handing a teller a note and quietly exiting. By contrast, the takeover robbers invade in bands of three or four, some firing weapons, others carrying pillow cases and jumping over teller booths to scoop up cash as customers and tellers cower.

Mr. Brown and Mr. Thompson appear to have applied the technique to mass production. "They go in with a lot of automatic weapons and they are not afraid to use them," said John Hoos, spokesman for the F.B.I. here.

IMPLICATED BY CHARGES

But the trouble with the Brown-Thompson program was that their young charges were so inexperienced or frightened that they often got caught. Ultimately, some of them implicated the two men, members of a street gang called the Rollin' Sixties Crips, and they were arrested last May 28.

The prosecutors, John S. Wiley Jr. and Michael R. Davis, said that the men, like Fagin, kept far away from the scene of the crimes.

The two "trained others to rob banks, let the others take the risk, and split their profit when the coast was clear," they wrote. "Brown and Thompson just added high powered weapons and freeway chases to the mix."

In an interview, Mr. Wiley said: "There was no physical proof linking Brown and Thompson, only the testimony of the people getting caught. They went through many disposable henchmen."

In one robbery to which Mr. Brown pleaded guilty, three teen-agers entered a Wells Fargo Bank branch in Downey, Calif., on Aug. 14, 1992, while a getaway driver waited outside in a stolen car. One of the boys struck a woman with his gun, and then sprayed the ceiling with bullets.

As the boys started to scoop up money, the police arrived. The teen-agers smashed out a window to escape, but two were caught. A third fired at a police officer, who shot him to death; he was 15 years old.

As in other cases, Mr. Brown supervised from a safe distance in his own car and drove away when things went bad.

CHAMPION BANK ROBBER

The police say Mr. Brown was involved in 175 robberies in all, making him by far the champion bank robber in American criminal annals, eclipsing the previous record holder, Edwin Chambers Dotson, the so-called "Yankee Bandit," who robbed 64 banks in Southern California in 1963 and 1964. He was easy

to spot because he usually wore a New York Yankees baseball cap.

According to William J. Rehder, an F.B.I. special agent who is an expert on bank robberies, this is how Mr. Brown and Mr. Thompson recruited and trained their "disposable henchmen":

The young recruits usually came from the Rollin' Sixties or other gangs, or were young "wannabees," the teenagers who aspire to gang membership. They were offered money, thrills and sometimes drugs. In many cases addicts were given drugs in return for driving the getaway car, usually a stolen or carjacked vehicle dubbed the "G-ride," for "gangster ride." The youngest known recruit was 13.

"Brown used up a lot of henchmen," Mr. Rehder wrote in an affidavit. "Police captured his workers on a regular basis. He needed steadily to replenish his supply."

"Robert Brown armed boys with the latest in death technology, coached them in the fine points of bank robbery, and drove them to the scene. Excited boys with loaded guns and no sense of their own mortality created an unbelievable potential for violence."

FIVE IN ONE DAY

Mr. Brown was so brazen, so wholesale, that he directed a team that hit five banks on one day, Aug. 20, 1991. It began in Los Angeles with a First Interstate Bank on La Cienega Boulevard and worked east on the freeways, striking banks in Eagle Rock, Pasadena, Monterey Park and Montebello before calling it a day.

In all, the robbers fired shots in 20 of the robberies during the four-year spree and assaulted 5 customers and 15 bank employees, none fatally. They would usually abandon the G-ride a couple of blocks from the bank and switch to another car.

In all cases, Mr. Brown and Mr. Thompson stayed well clear of the scene. When Mr. Brown suspected he was under surveillance, he began using evasive measures, making abrupt stops and turns.

The prosecutors said Mr. Brown has a long criminal history that began with a conviction for first-degree burglary at age 14.

"He has no legitimate job," they wrote in their sentencing report. "For four years all he has done is to organize and pull off bank robberies with the drive of a fanatic."

They added, "Brown has a loving mother and the rest of his family lives in an intact home."

Since the arrests, bank robberies in this area have declined. According to the F.B.I., as of Friday there were only 1,433 robberies this year, down 28 percent from last year.

The sentencing, said Mr. Hoos of the F.B.I., "will definitely get the word out definitely be a deterrent."

AMENDMENT NO. 1171

(Purpose: To improve certain information and records relating to Indian children)

On page 177, line 13, strike out "1993" and insert in lieu thereof "1993, and the information and records referred to in section 406 of the Indian Child Protection and Family Violence Prevention Act".

Mr. MCCAIN. Mr. President, the following amendment to section 816 entitled, "Funding for Improvement of Child Abuse Crime Information," is proposed to afford tribes which fall under the definition of "units of local governments" for purposes of the above-referenced act access to State and Federal criminal justice records,

including criminal histories and fingerprint records:

On page 177, line 13, strike out "1993" and add the following language:

"1993, and the information and records referred to in section 406 of the Indian Child Protection and Family Violence Prevention Act of 1990."

In preparation for the October 28, 1993 Senate Committee on Indian Affairs Oversight Hearing on child abuse, it was revealed that the Department of Justice was unaware of section 406 of the Indian Child Protection and Family Violence Prevention Act. Section 406 was intended to afford tribes with access to Department of Justice information necessary to investigate and treat child abuse incidents and to conduct background and character investigations on potential tribal employees having access to children. The Federal Bureau of Investigations, however, reported that they currently did not share character and background investigative information to tribes.

The added language would alert the Department of Justice of their obligations to "provide information and records to those agencies of any Indian tribe, any State, or the Federal Government that need to know the information in performance of their duties" as stated in the Indian Child Protection and Family Violence Prevention Act of 1990. Finally, adding broad language may encourage states to share child abuse crime information with tribes.

AMENDMENT No. 1172

(Purpose: To encourage asylum reforms that would prevent current abuse of the law)

On page , line , insert the following:

(a) FINDINGS.—The Congress finds that—

(1) in the last decade applications for asylum have greatly exceeded the original 5,000 annual limit provided in the Refugee Act of 1980, with more than 150,000 asylum applications filed in FY93, and the backlog of cases growing to 340,000;

(2) this flood of asylum claims has swamped the system, creating delays in the processing of applications of up to several years;

(3) the delay in processing asylum claims due to the overwhelming numbers has contributed to numerous problems, including:

(A) an abuse of the asylum laws by fraudulent applicants whose primary interest is obtaining work authority in the United States while their claim languishes in the backlogged asylum processing system;

(B) the growth of alien smuggling operations, often involving organized crime;

(C) a drain on limited resources resulting from the high cost of processing frivolous asylum claims through our multi-layered system; and

(D) an erosion of public support for asylum, which is a treaty obligation;

(4) Asylum, a safe haven protection for aliens abroad who cannot return home, has been perverted by some aliens who use asylum claims to circumvent our immigration and refugee laws and procedures;

(5) a comprehensive revision of our asylum law and procedures is required to address these problems.

(b) POLICY.—It is the sense of the Congress that—

(1) asylum is a process intended to protect aliens in the United States who, because of events occurring after their arrival here, cannot safely return home;

(2) persons outside their country of nationality who have a well-founded fear of persecution if they return should apply for refugee status at one of our refugee processing offices abroad;

(3) the immigration, refugee and asylum laws of the United States should be reformed to provide:

(A) a procedure for the expeditious exclusion of any asylum applicant who arrives at a port-of-entry with fraudulent documents, or no documents, and makes a non-credible claim of asylum; and

(B) the immigration, refugee and asylum laws of the United States should be reformed to provide for a streamlined affirmative asylum processing system for asylum applicants who make their application after they have entered the United States.

AMENDMENT No. 1173

(Purpose: To amend the Family Violence Prevention and Services Act to authorize the Secretary of Health and Human Services to administer a Federal demonstration program to coordinate response and strategy within many sectors of local communities for intervention and prevention of domestic violence)

At the appropriate place, insert the following:

SEC. ____ ESTABLISHMENT OF COMMUNITY PROGRAMS ON DOMESTIC VIOLENCE.

The Family Violence Prevention and Services Act (42 U.S.C. 10401 et seq.) is amended by adding at the end the following new section:

"SEC. 316. DEMONSTRATION GRANTS FOR COMMUNITY INITIATIVES.

"(a) IN GENERAL.—The Secretary shall provide grants to nonprofit private organizations to establish projects in local communities involving many sectors of each community to coordinate intervention and prevention of domestic violence.

"(b) ELIGIBILITY.—To be eligible for a grant under this section, an entity—

"(1) shall be a nonprofit organization organized for the purpose of coordinating community projects for the intervention in and prevention of domestic violence;

"(2) shall include representatives of pertinent sectors of the local community, which may include the following—

"(A) health care providers;

"(B) the education community;

"(C) the religious community;

"(D) the justice system;

"(E) domestic violence program advocates;

"(F) human service entities such as State child services divisions;

"(G) business and civic leaders, and

"(H) other pertinent sectors.

"(c) APPLICATIONS.—An organization that desires to receive a grant under this section shall submit to the Secretary an application, in such form and in such manner as the Secretary shall prescribe through notice in the Federal Register, that—

"(1) demonstrates that the applicant will serve a community leadership function, bringing together opinion leaders from each sector of the community to develop a coordinated community consensus opposing domestic violence;

"(2) demonstrates a community action component to improve and expand current intervention and prevention strategies

through increased communication and coordination among all affected sectors;

"(3) includes a complete description of the applicant's plan for the establishment and operation of the community project, including a description of—

"(A) the method for identification and selection of an administrative committee made up of persons knowledgeable in domestic violence to oversee the project, hire staff, assure compliance with the project outline, and secure annual evaluation of the project;

"(B) the method for identification and selection of project staff and a project evaluator;

"(C) the method for identification and selection of a project council consisting of representatives of the community sectors listed in subsection (b)(2);

"(D) the method for identification and selection of a steering committee consisting of representatives of the various community sectors who will chair subcommittees of the project council focusing on each of the sectors; and

"(E) a plan for developing outreach and public education campaigns regarding domestic violence; and

"(4) contains such other information, agreements, and assurances as the Secretary may require.

"(d) TERM.—A grant provided under this section may extend over a period of not more than 3 fiscal years.

"(e) CONDITIONS ON PAYMENT.—Payments under a grant under this section shall be subject to—

"(1) annual approval by the Secretary; and

"(2) availability of appropriations.

"(f) GEOGRAPHICAL DISPERSION.—The Secretary shall award grants under this section to organizations in communities geographically dispersed throughout the country.

"(g) USE OF GRANT MONIES.—

"(1) IN GENERAL.—A grant made under subsection (a) shall be used to establish and operate a community project to coordinate intervention and prevention of domestic violence.

"(2) REQUIREMENTS.—In establishing and operating a project, a nonprofit private organization shall—

"(A) establish protocols to improve and expand domestic violence intervention and prevention strategies among all affected sectors;

"(B) develop action plans to direct responses within each community sector that are in conjunction with development in all other sectors; and

"(C) provide for periodic evaluation of the project with a written report and analysis to assist application of this concept in other communities.

"(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

"(1) \$20,000,000 for fiscal year 1995; and

"(2) such sums as are necessary for fiscal years 1996, 1997, and 1998,

to remain available until expended.

AMENDMENT No. 1174

Section 1(b)(1) of the Hate Crime Statistics Act (Public Law 101-275, 104 Stat. 140) is amended by adding "disability," after "religion,".

AMENDMENT No. 1175

SEC. (a) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR THE FEDERAL JUDICIARY.—

(1) There is authorized to be appropriated for the activities of the Federal Judiciary

not to exceed \$20,000,000 for fiscal year 1994, and not to exceed \$70,000,000 for each of the fiscal years 1995, 1996, 1997, and 1998 to help meet the increased demands for judicial activities which will result from enactment into law of this Act.

(b) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR THE DEPARTMENT OF JUSTICE.—

(1) There is authorized to be appropriated for the activities and agencies of the Department of Justice, in addition to sums authorized elsewhere in this section, not to exceed \$25,000,000 for fiscal year 1994, not to exceed \$125,000,000 for fiscal year 1995, and not to exceed \$150,000,000 for each of the fiscal years 1996, 1997, and 1998 to help meet the increased demands for Department of Justice activities which will result from enactment into law of this Act.

(c) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR THE FEDERAL BUREAU OF INVESTIGATION.—

(1) There is authorized to be appropriated for the activities of the Federal Bureau of Investigation not to exceed \$20,000,000 for fiscal year 1994, not to exceed \$50,000,000 for fiscal year 1995, and not to exceed \$60,000,000 for each of the fiscal years 1996, 1997, and 1998 to help meet the increased demands for Federal Bureau of Investigation activities which will result from enactment into law of this Act.

(d) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR UNITED STATES ATTORNEYS.—

(1) There is authorized to be appropriated for the account Department of Justice, Legal Activities, "Salaries and expenses, United States Attorneys" not to exceed \$10,000,000 for fiscal year 1994, and not to exceed \$35,000,000 for each of the fiscal years 1995, 1996, 1997, and 1998 to help meet the increased demands for litigation and related activities which will result from enactment into law of this Act.

(e) Funds appropriated pursuant to this section are authorized to remain available for obligation until expended.

(f) Funds authorized under this section may be appropriated from the Trust Fund established by section 1321C of this Act.

Mr. BYRD. Mr. President, the Senate has deliberated at some length the merits of this bill, the Violent Crime Control and Law Enforcement Act of 1993. Earlier, the Senate adopted an amendment, which I offered, to make it possible to fund the new initiatives authorized in this bill, such as joint regional prisons, 100,000 State and local police officers, expanded gang prevention grants, and a number of other important new initiatives to combat the rising tide of violent crime throughout the Nation.

Nevertheless, I believe that the bill so far has not provided adequate resources to the key Federal law-enforcement entities which provide support to and work hand-in-hand with State and local governments in administering existing programs, as well as the new initiatives authorized in this bill.

Under the tight budgetary constraints that we have faced in the past several years and will continue to face in the coming 5 years under the discretionary caps, we have been unable to provide adequate resources to these Federal law enforcement agencies to enable them to carry out, to the fullest

extent possible, their existing responsibilities. To expect these same agencies to be able to take on the additional responsibilities that they will be required to undertake under this very important legislation, without providing any additional resources to them, would be short-sighted to say the least.

Therefore, I am pleased to cosponsor this amendment, along with Senators DOMENICI and D'AMATO, to authorize these additional appropriations over the coming 5 years for Federal law enforcement personnel for the Justice Department and for the Federal judiciary.

More specifically, the amendment would authorize up to \$20 million for fiscal year 1994, and up to \$70 million in each of the subsequent 4 years for the Federal judiciary.

With regard to the Department of Justice, Senator DOMENICI, Senator D'AMATO, and I originally proposed an authorization of up to \$80 million for fiscal year 1994 and \$230 million for each of the subsequent 4 years. We believed that such an approach would provide the President and the Attorney General the maximum flexibility in formulating their recommendations for the distribution of the funds throughout the constituent agencies of the Department of Justice. This approach appeared to be acceptable.

However, some Senators expressed concern that the amendment, as so drafted, would be too general. Consequently, the amendment was modified to authorize up to \$25 million for fiscal year 1994, up to \$125 million for fiscal year 1995, and up to \$150 million for each of the subsequent 3 fiscal years for Department of Justice activities resulting from enactment of the crime bill; up to \$20 million for fiscal year 1994, up to \$50 million for fiscal year 1995 and up to \$60 million for each of the subsequent 3 fiscal years for crime bill activities of the Federal Bureau of Investigation; and up to \$10 million for fiscal year 1994 and up to \$35 million for each of the subsequent 4 fiscal years for United States' attorneys to help meet the increased demands for litigation and related activities which will result from enactment of the crime bill.

These modifications were made to the original amendment to meet the concerns expressed by some Senators. Now that the modifications have been made, I believe the amendment is acceptable to both the distinguished chairman, Mr. BIDEN, and the able ranking minority member, Mr. HATCH, of the Judiciary Committee.

I urge the adoption of this amendment.

Mr. DOMENICI. Mr. President, I rise today to offer an amendment to authorize additional appropriations for the Federal judiciary and the Department of Justice. The amendment would authorize additional appropriations of \$300 million over 5 years for the judici-

ary, and a total of \$1 billion over the next 5 years for the operations of the Department of Justice.

Mr. President, this crime bill would authorize dozens of new programs, most of them grants to State and local governments. In addition, it would authorize billions of dollars for boot camps and other prisons. However, it does not address the increased demands that will be placed on the Justice Department and the Federal judiciary.

The reason for the amendment is simple; in this act we establish a number of penalties and crimes which cannot help but lead to increased requirements for law enforcement, litigation, and adjudication. We must recognize that in providing additional criminal penalties, laws, and procedures, we are placing increased demands on the operations of the Justice Department and the Federal judiciary.

Compared to the budgets of these organizations, the authorizations are relatively modest; the judiciary would receive authority to expend an additional \$20 million in fiscal year 1994, and \$70 million annually thereafter through 1998 to help meet increased expenses due to passage of this act. This compares to a fiscal year 1994 appropriation level of \$2.7 billion for the Federal judiciary.

Within the Department of Justice, the FBI would receive a total of \$250 million over the next 5 years, and the U.S. attorneys would receive \$150 million. The Department of Justice would also receive a total of \$600 million for its various activities, including the U.S. Marshals Service, Support of U.S. Prisoners, the Immigration and Naturalization Service, and so forth.

Frankly, I'm not sure these sums are sufficient to fund all the increases in judicial and Justice Department activity that will result from passage of this act. In addition, I can't claim to know for certain how much in additional funding will be needed in each part of the Justice Department and the judiciary. I would prefer that we merely authorize such sums as necessary until we have accurate cost estimates, but the managers are uncomfortable with that approach. Therefore this amendment provides specific amounts for the U.S. attorneys and the FBI, and generic but specific dollar authorizations for the justice Department and the Judiciary.

As ranking Republican on the Appropriations Subcommittee on Commerce-Justice-State, I believe it is important we recognize that passage of this crime bill will require increased resources for Federal law enforcement, litigation, and adjudication.

Mr. President, this is a noncontroversial amendment, and I urge its adoption.

I ask unanimous request that a letter from the Honorable John F. Gerry, chairman of the executive committee

of the Judicial Conference, be included in the RECORD at this point.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

JUDICIAL CONFERENCE
OF THE UNITED STATES,
Washington, DC, November 9, 1993.

Hon. JOSEPH R. BIDEN, Jr.,
Chairman, Committee on the Judiciary, U.S.
Senate, Washington, DC.

DEAR MR. CHAIRMAN: It is apparent in tracking the progress of the "Violent Crime Control and Law Enforcement Act of 1993" (S. 1607) that the bill as it will emerge from the Senate will place a substantially increased burden on the federal courts. The proponents of amendments to create a new and augmented federal participation in the national effort against violence, drugs, guns, gangs, and repeat offenders invoke the obligation of government to ensure the safety of its citizens, and note that the resources to do the job should be provided. A major increase in federal investigative and prosecutorial resources will have a direct impact on the Judiciary.

I simply urge you at this critical juncture of considering the bill to ensure that the resources made available to the federal courts are commensurate with the increase in federal jurisdiction which will occur as a result of the passage of this legislation.

Sincerely,

JOHN F. GERRY.

AMENDMENT NO. 1176

(Purpose: To authorize the National Institute of Corrections to make grants to States to carry out family unity demonstration projects, and for other purposes)

At the end of the bill add the following:

TITLE I—GENERAL PROVISIONS

SEC. 101. SHORT TITLE.

This Act may be cited as the "Family Unity Demonstration Project Act".

SEC. 102. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—
(1) an increasing number of children are becoming separated from their primary caretaker parents due to the incarceration of the parents in prisons and jails;

(2) such separation of children from their primary caretaker parents can cause harm to children's psychological well-being and hinder their growth and development;

(3) a significant number of children are born shortly before or during the incarceration of their mothers and are then quickly separated from their mothers, preventing the parent-child bonding that is crucial to developing in children a sense of security and trust;

(4) maintaining close relationships with their children provides a powerful incentive for prisoners to participate in and successfully benefit from rehabilitative programs; and

(5) maintaining strong family ties during imprisonment has been shown to decrease recidivism, thereby reducing prison costs.

(b) PURPOSE.—The purpose of this Act is to evaluate the effectiveness of certain demonstration projects in helping to—

(1) alleviate the harm to children and primary caretaker parents caused by separation due to the incarceration of the parents;

(2) reduce recidivism rates of prisoners by encouraging strong and supportive family relationships; and

(3) explore the cost effectiveness of community correctional facilities.

SEC. 103. DEFINITIONS.

In this Act—
"child" means a person who is less than 6 years of age.

"community correctional facility" means a residential facility that—

(A) is used only for eligible offenders and their children under 6 years of age;

(B) is not within the confines of a jail or prison;

(C) has a maximum capacity of 50 prisoners in addition to their children; and

(D) provides to inmates and their children—

(i) a safe, stable environment for children;

(ii) pediatric and adult medical care consistent with medical standards for correctional facilities;

(iii) programs to improve the stability of the parent-child relationship, including educating parents regarding—

(I) child development; and

(II) household management;

(iv) alcoholism and drug addiction treatment for prisoners; and

(v) programs and support services to help inmates—

(I) to improve and maintain mental and physical health, including access to counseling;

(II) to obtain adequate housing upon release from State incarceration;

(III) to obtain suitable education, employment, or training for employment; and

(IV) to obtain suitable child care.

"Director" means the Director of the Federal Bureau of Prisons.

"eligible offender" means a primary caretaker parent who—

(A) is sentenced to a term of imprisonment of not more than 7 years or is awaiting sentencing for a conviction punishable by such a term of imprisonment;

(B) except in the case of an offender awaiting sentencing, is incarcerated currently to serve that sentence;

(C) is not eligible currently for probation or parole until the expiration of a period exceeding 180 days; and

(D) has not engaged in conduct which—

(i) knowingly resulted in death or serious bodily injury;

(ii) is a felony for a crime of violence against the person;

(iii) constitutes child neglect or mental, physical, or sexual abuse of a child.

"primary caretaker parent" means—

(A) a parent who has consistently assumed responsibility for the housing, health, and safety of a child prior to incarceration; or

(B) a woman who has given birth to a child after or while awaiting her sentencing hearing and who expresses a willingness to assume responsibility for the housing, health, and safety of that child.

A parent who, in the best interest of a child, has arranged for the temporary care of the child in the home of a relative or other responsible adult shall not for that reason be excluded from the category "primary caretaker".

"State" means 1 of the States or the District of Columbia.

SEC. 104. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—There is authorized to be appropriated to carry out this Act \$8,000,000 for each of fiscal years 1995, 1996, 1997, 1998 and 1999.

(b) AVAILABILITY OF APPROPRIATIONS.—Of the amount appropriated under subsection (a) for any fiscal year—

(1) 90 percent shall be available to carry out title II; and

(2) 10 percent shall be available to carry out title III.

TITLE II—GRANTS TO STATES

SEC. 201. AUTHORITY TO MAKE GRANTS.

(a) GENERAL AUTHORITY.—The Director may make grants, on a competitive basis, to States to carry out in accordance with this title family unity demonstration projects that enable eligible offenders to live in community correctional facilities with their children.

(b) PREFERENCES.—For the purpose of making grants under subsection (a), the Director shall give preference to a State that includes in the application required by section 202 assurances that if the State receives a grant—

(1) both the State corrections agency and the State health and human services agency will participate substantially in, and cooperate closely in all aspects of, the development and operation of the family unity demonstration project for which such a grant is requested;

(2) boards made up of community residents, local businesses, corrections officials, former prisoners, child development professionals, educators, and maternal and child health professionals will be established to advise the State regarding the operation of such project;

(3) the State has in effect a policy that provides for the placement of all prisoners, whenever possible, in correctional facilities for which they qualify that are located closest to their respective family homes;

(4) unless the Director determines that a longer timeline is appropriate in a particular case and notifies the Attorney General in writing of the length and reason for such extension, the State will implement the project not later than 180 days after receiving a grant under subsection (a) and will expend all of the grant during a 1-year period;

(5) the State demonstrates that it has the capacity to continue implementing a community correctional facility beyond the funding period to ensure the continuity of the work;

(6) for the purpose of selecting eligible offenders to participate in the project, the State will—

(A) give written notice to a prisoner, not later than 30 days after the State first receives a grant under subsection (a) or 30 days after the prisoner is sentenced to a term of imprisonment of not more than 7 years (whichever is later), of the proposed or current operation of the project;

(B) accept at any time at which the project is in operation an application by a prisoner to participate in the project if, at the time of application, the remainder of the prisoner's sentence exceeds 180 days;

(C) review applications by prisoners in the sequence in which the State receives such applications;

(D) not more than 50 days after reviewing such applications approve or disapprove the application; and

(7) for the purposes of selecting eligible offenders to participate in such project, the State authorizes State courts to sentence an eligible offender directly to a correctional facility, provided that the court gives assurances that the offender would have otherwise served a term of imprisonment.

(c) SELECTION OF GRANTEES.—The Director shall make grants under subsection (a) on a competitive basis, based on such criteria as the Director shall issue by rule and taking into account the priorities described in subsection (b).

(d) NUMBER OF GRANTS.—In any fiscal year for which funds are available to carry out this title, the Director shall make grants to no fewer than 4 and no greater than 8 eligible

States geographically dispersed throughout the United States.

SEC. 202. ELIGIBILITY TO RECEIVE GRANTS.

To be eligible to receive a grant under section 201(a), a State shall submit to the Director an application at such time, in such form, and containing such information as the Director reasonably may require by rule.

SEC. 203. REPORT.

(a) IN GENERAL.—A State that receives a grant under this title shall, not later than 90 days after the 1-year period in which the grant is required to be expended, submit a report to the Director regarding the family unity demonstration project for which the grant was expended.

(b) CONTENTS.—A report under subsection (a) shall—

(1) state the number of prisoners who submitted applications to participate in the project and the number of prisoners who were placed in community correctional facilities;

(2) state, with respect to prisoners placed in the project, the number of prisoners who are returned to that jurisdiction and custody and the reasons for such return;

(3) describe the nature and scope of educational and training activities provided to prisoners participating in the project;

(4) state the number, and describe the scope of, contracts made with public and nonprofit private community-based organizations to carry out such project; and

(5) evaluate the effectiveness of the project in accomplishing the purposes described in section 102(b).

TITLE III—FAMILY UNITY DEMONSTRATION PROJECT FOR FEDERAL PRISONERS

SEC. 301. AUTHORITY OF THE ATTORNEY GENERAL.

(a) IN GENERAL.—Ten percent of the funds authorized under this Act shall be used for defendants convicted of Federal offenses.

(b) GENERAL CONTRACTING AUTHORITY.—In implementing this title, the Bureau of Prisons may enter into contracts with appropriate public or private agencies to provide housing, sustenance, services, and supervision of inmates eligible for placement in community correctional facilities under this title.

(c) USE OF STATE FACILITIES.—At the discretion of the Attorney General, Federal participants may be placed in State projects, as defined in title II. For such participants, the Attorney General shall, with funds available under section 104(b)(2), reimburse the State for all project costs related to the Federal participant's placement, including administrative costs.

SEC. 302. REQUIREMENTS.

For the purpose of placing Federal participants in a family unity demonstration project under section 301, the Attorney General shall—

(1) consult with the Secretary of Health and Human Services regarding the development and operation of the project; and

(2) submit to the Director a report containing the information described in section 203(b).

AMENDMENTS NOS. 1177–1189 EN BLOC

Mr. BIDEN. Mr. President, I send 13 amendments to the desk which I will now identify.

The PRESIDING OFFICER. Without objection, the pending amendments are set aside.

Mr. BIDEN. An Inouye amendment on Indian nations eligible for grants in

this legislation; a Metzenbaum amendment on the RTC; A Wellstone amendment relating to guns and domestic violence; a Simon-Bennett amendment relating to gun dealers; a DeConcini amendment relating to Indian nations and missing children—two separate amendments; one Boxer amendment relating to immigration document forgery; and a Lieberman amendment relating to antiloitering; a Moseley-Braun amendment relating to racial bias; a Leahy amendment relating to rural domestic violence; a Biden amendment relating to child abuse; a Hollings amendment relating to gratitude to law enforcement personnel; and one last amendment a Dodd amendment to prevent crime.

I ask their immediate consideration en bloc.

The PRESIDING OFFICER. Without objection, the amendments will be considered en bloc. The clerk will report.

The legislative clerk read as follows:

The Senator from Delaware [Mr. BIDEN] proposes amendments en bloc numbered 1177–1189.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendments en bloc.

The en bloc amendments (Nos. 1177–1189) were agreed to as follows:

AMENDMENT No. 1177

(Purpose: To provide for the inclusion of Indian tribal governments as eligible units of government in programs for the control and prevention of crime)

At the appropriate place in subtitle G of title XXIX, insert the following:

“SEC. . CONTROL AND PREVENTION OF CRIME IN INDIAN COUNTRY.

“(a) DEFINITION.—As used in this Act, the term ‘Indian tribal government’ means the governing body of a tribe, band, pueblo, nation, or other organized group or community of Indians, including an Alaska Native village (as defined in or established under the Alaska Native Claims Settlement Act (43 U.S.C. 1601, 35 et seq.), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

“(b) CONFORMING DEFINITION.—As used in this Act, the term ‘State’ means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and Indian tribal governments.

“(c) MATCHING REQUIREMENTS.—Funds appropriated by the Congress for the activities of any agency of an Indian tribal government or the United States Government performing law enforcement functions on any Indian lands may be used to provide the non-Federal share of the cost of programs or projects funded under this title.

“(d) NONSUPPLANTING REQUIREMENT.—Funds made available to Indian tribal governments shall not be used to supplant funds supplied by the Department of the Interior, but shall be used to increase the amount of funds that would, in the absence of Federal funds received under this Act, be made available from funds supplied by the Department of the Interior.”

AMENDMENT No. 1178

At the appropriate place in the bill, insert the following new section:

SEC. . CIVIL STATUTE OF LIMITATIONS FOR TORT ACTIONS BROUGHT BY THE RTC.

(a) RESOLUTION TRUST CORPORATION.—Section 11(d)(14) of the Federal Deposit Insurance Act (12 U.S.C. 1821(d)(14)) is amended—

(1) in subparagraph (A)(ii), by inserting “except as provided in subparagraph (B),” before “in the case of”;

(2) by redesignating subparagraph (B) as subparagraph (C);

(3) by inserting after subparagraph (A) the following new subparagraph:

“(B) TORT ACTIONS BROUGHT BY THE RESOLUTION TRUST CORPORATION.—The applicable statute of limitations with regard to any action in tort brought by the Resolution Trust Corporation in its capacity as conservator or receiver of a failed savings association shall be the longer of—

“(i) the 5-year period beginning on the date the claim accrues; or

“(ii) the period applicable under State law.”; and

(4) in subparagraph (C), as redesignated—

(A) by striking “subparagraph (A)” and inserting “subparagraphs (A) and (B)”;

(B) by striking “such subparagraph” and inserting “such subparagraphs”.

(b) EFFECTIVE DATE; TERMINATION; FDIC AS SUCCESSOR.—

(1) EFFECTIVE DATE.—The amendments made by subsection (a) shall be construed to have the same effective date as section 212 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

(2) TERMINATION.—The amendments made by subsection (a) shall remain in effect only until the termination of the Resolution Trust Corporation.

(3) FDIC AS SUCCESSOR TO THE RTC.—The Federal Deposit Insurance Corporation, as successor to the Resolution Trust Corporation, shall have the right to pursue any tort action that was properly brought by the Resolution Trust Corporation prior to the termination of the Resolution Trust Corporation.

AMENDMENT No. 1179

(Purpose: To amend title 18, United States Code, to prevent persons who have committed domestic abuse from obtaining a firearm)

At the appropriate place insert the following:

TITLE —DOMESTIC VIOLENCE

SEC. 1. SHORT TITLE.

This title may be cited as the “Domestic Violence Firearm Prevention Act”.

SEC. 2. FINDINGS.

The Congress finds that—

(1) domestic violence is the leading cause of injury to women in the United States between the ages of 15 and 44;

(2) firearms are used by the abuser in 7 percent of domestic violence incidents and produces an adverse effect on interstate commerce; and

(3) individuals with a history of domestic abuse should not have easy access to firearms.

SEC. 3. PROHIBITION AGAINST DISPOSAL OF FIREARMS TO, OR RECEIPT OF FIREARMS BY, PERSONS WHO HAVE COMMITTED DOMESTIC ABUSE.

(a) PROHIBITION AGAINST DISPOSAL OF FIREARMS.—Section 922(d) of title 18, United States Code, is amended—

(1) by striking “or” at the end of paragraph (6);

(2) by striking the period at the end of paragraph (7) and inserting "; or"; and

(3) by inserting after paragraph (7) the following new paragraph:

"(8)(A) has been convicted in any court of an offense that—

"(i) involves the use, attempted use, or threatened use of physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person; or

"(ii) by its nature, involves a substantial risk that physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person may be used in the course of committing the offense; or

"(B) is required, pursuant to an order issued by any court in a case involving a person described in subparagraph (A), to refrain from any contact with or to maintain a minimum distance from that person, or to refrain from abuse, harassment, or stalking of that person."

(b) PROHIBITION AGAINST RECEIPT OF FIREARMS.—Section 922(g) of title 18, United States Code, is amended—

(1) by striking "or" at the end of paragraph (6);

(2) by inserting "or" at the end of paragraph (7); and

(3) by inserting after paragraph (7) the following new paragraph:

"(8)(A) has been convicted in any court of an offense that—

"(i) involves the use, attempted use, or threatened use of physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person; or

"(ii) by its nature, involves a substantial risk that physical force against a person who is a spouse, former spouse, domestic partner, child, or former child of the person may be used in the course of committing the offense; or

"(B) is required, pursuant to an order issued by any court in a case involving a person described in subparagraph (A), to refrain from any contact with or to maintain a minimum distance from that person, or to refrain from abuse, harassment, or stalking of that person."

AMENDMENT NO. 1180

(Purpose: To amend chapter 44 of title 18, United States Code, to strengthen Federal standards for licensing firearms dealers and heighten reporting requirements, and for other purposes)

At the appropriate place insert the following:

TITLE —FIREARMS

SEC. 01. FIREARMS LICENSURE AND REGISTRATION TO REQUIRE A PHOTOGRAPH AND FINGERPRINTS.

(a) FIREARMS LICENSURE.—Section 923(a) of title 18, United States Code, is amended in the second sentence by inserting "and shall include a photograph and fingerprints of the applicant" before the period.

(b) REGISTRATION.—Section 5802 of the Internal Revenue Code of 1986 is amended by inserting after the first sentence the following: "An individual required to register under this section shall include a photograph and fingerprints of the individual with the initial application."

SEC. 02. COMPLIANCE WITH STATE AND LOCAL LAW AS A CONDITION TO LICENSE.

Section 923(d)(1) of title 18, United States Code, is amended—

(1) by striking "and" at the end of subparagraph (D);

(2) by striking the period at the end of subparagraph (E) and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(F) the applicant certifies that—

"(i) the business to be conducted under the license is not prohibited by State or local law in the place where the licensed premise is located;

"(ii)(I) within 30 days after the application is approved the business will comply with the requirements of State and local law applicable to the conduct of the business; and

"(II) the business will not be conducted under the license until the requirements of State and local law applicable to the business have been met; and

"(iii) that the applicant has sent or delivered a form to be prescribed by the Secretary, to the chief law enforcement officer of the locality in which the premises are located, which indicates that the applicant intends to apply for a Federal firearms license."

SEC. 03. ACTION ON FIREARMS LICENSE APPLICATION.

Section 923(d)(2) of title 18, United States Code, is amended by striking "forty-five-day" and inserting "60-day".

SEC. 04. INSPECTION OF FIREARMS LICENSEES' INVENTORY AND RECORDS.

Section 923(g)(1)(B)(ii) of title 18, United States Code, is amended to read as follows:

"(ii) for insuring compliance with the record keeping requirements of this chapter—

"(I) not more than once during any 12-month period; or

"(II) at any time with respect to records relating to a firearm involved in a criminal investigation that is traced to the licensee."

SEC. 05. REPORTS OF THEFT OR LOSS OF FIREARMS.

Section 923(g) of title 18, United States Code, is amended by adding at the end the following new paragraph:

"(6) Each licensee shall report the theft or loss of a firearm from the licensee's inventory or collection, within 48 hours after the theft or loss is discovered, to the Secretary and to the appropriate local authorities."

SEC. 06. RESPONSES TO REQUESTS FOR INFORMATION.

Section 923(g) of title 18, United States Code, as amended by section 05, is amended by adding at the end the following new paragraph:

"(7) Each licensee shall respond immediately to, and in no event later than 24 hours after the receipt of, a request by the Secretary for information contained in the records required to be kept by this chapter as may be required for determining the disposition of 1 or more firearms in the course of a bona fide criminal investigation. The requested information shall be provided orally or in writing, as the Secretary may require. The Secretary shall implement a system whereby the licensee can positively identify and establish that an individual requesting information via telephone is employed by and authorized by the agency to request such information."

SEC. 07. NOTIFICATION OF NAMES AND ADDRESSES OF FIREARMS LICENSEES.

Section 923 of title 18, United States Code, is amended by adding at the end the following new subsection:

"(1) The Secretary of the Treasury shall notify the chief law enforcement officer in the appropriate State and local jurisdictions of the names and addresses of all persons in the State to whom a firearms license is issued.

AMENDMENT NO. 1181

(Purpose: To provide for application by Indian tribes under certain grant programs)

On page 22, line 4, insert "(1)" before "Notwithstanding".

On page 22, between lines 8 and 9, insert the following:

"(2) Notwithstanding subsection (a), an applicant that is an Indian tribe or tribal law enforcement agency may submit an application for a grant under this part directly to the Attorney General.

On page 23, strike lines 8 through 13 and insert the following:

"(a) NONSUPPLANTING REQUIREMENT.—Funds made available under this part to State or local governments or to Indian tribal governments shall not be used to supplant State or local funds, or, in the case of Indian tribes, funds supplied by the Department of the Interior, but shall be used to increase the amount of funds that would, in the absence of Federal funds received under this part, be made available from State or local sources, or in the case of Indian tribes, from funds supplied by the Department of the Interior.

On page 28, line 4, after "part Q," insert "In view of the extraordinary need for law enforcement in Indian country, an appropriate amount of funds available under part Q shall be made available for grants to Indian tribes or tribal law enforcement agencies."

On page 447, after line 23, add the following:

SEC. 2973. TREATMENT OF INDIAN TRIBES UNDER TITLE I OF THE OMNIBUS CRIME CONTROL AND SAFE STREETS ACT OF 1968.

(a) MATCHING FUND SOURCE.—
(1) IN GENERAL.—Section 817 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789m) is amended—

(A) by amending the heading to read as follows:

"DISTRICT OF COLUMBIA AND INDIAN TRIBE MATCHING FUND SOURCE";

(B) by inserting "(a) DISTRICT OF COLUMBIA.—" before "Funds"; and

(C) by adding at the end the following new subsection:

"(b) INDIAN TRIBES.—Funds appropriated by the Congress for the activities of any agency of an Indian tribal government or the United States Government performing law enforcement functions on any Indian lands may be used to provide the non-Federal share of the cost of programs or projects funded under this title."

"(2) TECHNICAL AMENDMENT.—The table of contents of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended by amending the item relating to section 817 to read as follows:

"Sec. 817. District of Columbia and Indian tribe matching fund source."

(b) DEFINITION.—Section 901 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791) is amended—

(1) by striking "and" at the end of paragraph (22);

(2) by striking the period at the end of paragraph (23) and inserting "; and"; and

(3) by adding at the end the following new paragraph:

"(24) 'Indian tribe' means a tribe, band, pueblo, nation, or other organized group or community of Indians, including an Alaska Native village (as defined in or established under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians."

AMENDMENT No. 1182

(Purpose: To establish a Missing and Exploited Children Task Force)

At the appropriate place insert the following:

TITLE —MISSING AND EXPLOITED CHILDREN

SECTION 01. SHORT TITLE.

This title may be cited as the "Morgan P. Hardiman Task Force on Missing and Exploited Children Act".

SEC. 02. FINDINGS.

The Congress finds that—

(1) the victimization of children in our Nation has reached epidemic proportions; recent Department of Justice figures show that—

(A) 4,600 children were abducted by non-family members;

(B) two-thirds of the abductions of children by non-family members involve sexual assault;

(C) more than 354,000 children were abducted by family members; and

(D) 451,000 children ran away;

(2) while some local law enforcement officials have been successful in the investigation and resolution of such crimes, most local agencies lack the personnel and resources necessary to give this problem the full attention it requires;

(3) a majority of the Nation's 17,000 police departments have 10 or fewer officers; and

(4) locating missing children requires a coordinated law enforcement effort; supplementing local law enforcement agencies with a team of assigned active Federal agents will allow Federal agents to pool their resources and expertise in order to assist local agents in the investigation of the Nation's most difficult cases involving missing children.

SEC. 03. PURPOSE.

The purpose of this title is to establish a task force comprised of law enforcement officers from pertinent Federal agencies to work with the National Center for Missing and Exploited Children (referred to as the "Center") and coordinate the provision of Federal law enforcement resources to assist State and local authorities in investigating the most difficult cases of missing and exploited children.

SEC. 04. ESTABLISHMENT OF TASK FORCE.

Title IV of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5771 et seq.) is amended—

(1) by redesignating sections 407 and 408 as sections 408 and 409, respectively; and

(2) by inserting after section 406 the following new section:

"TASK FORCE

"SEC. 407. (a) ESTABLISHMENT.—There is established a Missing and Exploited Children's Task Force (referred to as the "Task Force").

"(b) MEMBERSHIP.—

"(1) IN GENERAL.—The Task Force shall include at least 2 members from each of—

"(A) the Federal Bureau of Investigation;

"(B) the Secret Service;

"(C) the Bureau of Alcohol, Tobacco and Firearms;

"(D) the United States Customs Service;

"(E) the Postal Inspection Service;

"(F) the United States Marshals Service; and

"(G) the Drug Enforcement Administration.

"(2) CHIEF.—A representative of the Federal Bureau of Investigation (in addition to the members of the Task Force selected

under paragraph (1)(A)) shall act as chief of the Task Force.

"(3) SELECTION.—(A) The Director of the Federal Bureau of Investigation shall select the chief of the Task Force.

"(B) The heads of the agencies described in paragraph (1) shall submit to the chief of the Task Force a list of at least 5 prospective Task Force members, and the chief shall select 2, or such greater number as may be agreeable to an agency head, as Task Force members.

"(4) PROFESSIONAL QUALIFICATIONS.—The members of the Task Force shall be law enforcement personnel selected for their expertise that would enable them to assist in the investigation of cases of missing and exploited children.

"(5) STATUS.—A member of the Task Force shall remain an employee of his or her respective agency for all purposes (including the purpose of performance review), and his or her service on the Task Force shall be without interruption or loss of civil service privilege or status and shall be on a non-reimbursable basis.

"(6) PERIOD OF SERVICE.—(A) Subject to subparagraph (B), 1 member from each agency shall initially serve a 1-year term, and the other member from the same agency shall serve a 1-year term, and may be selected to a renewal of service for 1 additional year; thereafter, each new member to serve on the Task Force shall serve for a 2-year period with the member's term of service beginning and ending in alternate years with the other member from the same agency; the period of service for the chief of the Task Force shall be 3 years.

"(B) The chief of the Task Force may at any time request the head of an agency described in paragraph (1) to submit a list of 5 prospective Task Force members to replace a member of the Task Force, for the purpose of maintaining a Task Force membership that will be able to meet the demands of its caseload.

"(c) SUPPORT.—

"(1) IN GENERAL.—The Administrator of the General Services Administration, in coordination with the heads of the agencies described in subsection (b)(1), shall provide the Task Force office space and administrative and support services, such office space to be in close proximity to the office of the Center, so as to enable the Task Force to coordinate its activities with that of the Center on a day-to-day basis.

"(2) LEGAL GUIDANCE.—The Attorney General shall assign a United States Attorney to provide legal guidance, as needed, to members of the Task Force.

"(d) PURPOSE.—

"(1) IN GENERAL.—(A) The purpose of the Task Force shall be to make available the combined resources and expertise of the agencies described in paragraph (1) to assist State and local governments in the most difficult missing and exploited child cases nationwide, as identified by the chief of the Task Force from time to time, in consultation with the Center, and as many additional cases as resources permit, including the provision of assistance to State and local investigators on location in the field.

"(B) TECHNICAL ASSISTANCE.—The role of the Task Force in any investigation shall be to provide advice and technical assistance and to make available the resources of the agencies described in subsection (b)(1); the Task Force shall not take a leadership role in any such investigation.

"(e) TRAINING.—Members of the Task Force shall receive a course of training, provided

by the Center, in matters relating to cases of missing and exploited children.

"(f) CROSS-DESIGNATION OF TASK FORCE MEMBERS.—The Attorney General shall cross-designate the members of the Task Force with jurisdiction to enforce Federal law related to child abduction to the extent necessary to accomplish the purposes of this section."

AMENDMENT No. 1183

(Purpose: To increase penalties for document fraud)

At the appropriate place in the bill, insert the following:

SEC. . PENALTIES FOR DOCUMENT FRAUD.

(a) IN GENERAL.—Section 274C(3) of the Immigration and Nationality Act (8 U.S.C. 1324c(3)) is amended—

(1) in subparagraph (A), by striking "not less than \$250 and not more than \$2,000" and inserting "not less than \$1,000 and not more than \$5,000"; and

(2) in subparagraph (B), by striking "not less than \$2,000 and not more than \$5,000" and inserting "not less than \$5,000 and not more than \$10,000".

(b) FRAUD AND MISUSE OF VISAS, PERMITS, AND OTHER DOCUMENTS.—(1) Section 1546 of title 18, United States Code, is amended—

(A) in subsection (a), by striking "not more than five years" and inserting "not more than ten years"; and

(B) in subsection (b), by striking "not more than two years" and inserting "not more than five years".

(2) Whoever commits an offense under section 1546(a) or 1546(b) of title 18, United States Code, shall be fined, in addition to the fines provided under such section, \$10,000 or \$5,000, respectively.

(c) APPLICABILITY.—This section, and the amendments made by this section, shall apply to offenses committed on or after the date of enactment of this Act.

AMENDMENT No. 1184

At the appropriate place insert the following:

SEC. . USE OF ANTILOITERING LAWS TO FIGHT CRIME.

The Attorney General shall—

(1) study the ways in which antiloitering laws can be used, without violating the constitutional rights of citizens as enunciated by the Supreme Court, to eradicate open-air drug markets and other blatant criminal activity;

(2) prepare a model antiloitering statute and guidelines for enforcing the statute in such a manner as to prevent, deter, and punish illegal drug activity and other criminal activity; and

(3) make the results of the study and the model statute and guidelines available to Federal, State, and local law enforcement authorities.

AMENDMENT No. 1185

(Purpose: To require that a study of the role of race in a State's criminal justice system that is funded under section 1021 expressly consider the role of race in procedures for jury selection in the State)

On page 218, line 19, after "States," insert "and whether the State plan expressly considers the role of race in procedures for jury selection in the State."

AMENDMENT No. 1186

(Purpose: To authorize rural domestic violence and child abuse assistance)

On page 312, after line 24, insert the following:

Subtitle C—Rural Domestic Violence and Child Abuse Enforcement

SEC. 1421. RURAL DOMESTIC VIOLENCE AND CHILD ABUSE ENFORCEMENT ASSISTANCE.

(a) GRANTS.—The Attorney General may make grants to units of State and local governments of rural States, and to other public or private entities of rural States—

(1) to implement, expand, and establish cooperative efforts and projects between law enforcement officers, prosecutors, victim advocacy groups, and other related parties to investigate and prosecute incidents of domestic violence and child abuse;

(2) to provide treatment and counseling to victims of domestic violence and child abuse; and

(3) to work in cooperation with the community to develop education and prevention strategies directed toward such issues.

(b) DEFINITION.—In this section, "rural State" has the meaning stated in section 1501(b) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796bb(B)).

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There is authorized to be appropriated to carry out this section \$10,000,000 for each of fiscal years 1995, 1996, and 1997.

(2) ADDITIONAL FUNDING.—In addition to funds received under a grant under subsection (a), a law enforcement agency may use funds received under a grant under section 103 to accomplish the objectives of this section.

AMENDMENT NO. 1187

(Purpose: To reauthorize programs added by the Victims of Child Abuse Act of 1990)

At the appropriate place insert the following:

SEC. . VICTIMS OF CHILD ABUSE PROGRAMS.

(a) COURT-APPOINTED SPECIAL ADVOCATE PROGRAM.—

(1) REAUTHORIZATION.—Section 218(a) of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13014(a)) is amended to read as follows:

"(a) AUTHORIZATION.—There are authorized to be appropriated to carry out this subtitle—

"(1) \$7,000,000 for fiscal year 1995; and

"(2) \$10,000,000 for each of fiscal years 1996, 1997, and 1998."

(2) TECHNICAL AMENDMENT.—Section 216 of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13012) is amended by striking "this chapter" and inserting "this subtitle".

(b) CHILD ABUSE TRAINING PROGRAMS FOR JUDICIAL PERSONNEL AND PRACTITIONERS.—

(1) REAUTHORIZATION.—Section 224(a) of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13024(a)) is amended to read as follows:

"(a) AUTHORIZATION.—There are authorized to be appropriated to carry out this subtitle—

"(1) \$7,000,000 for fiscal year 1995; and

"(2) \$10,000,000 for each of fiscal years 1996, 1997, and 1998."

(2) TECHNICAL AMENDMENT.—Section 221(b) of the Victims of Child Abuse Act of 1990 (42 U.S.C. 13021(b)) is amended by striking "this chapter" and inserting "this subtitle".

(c) GRANTS FOR TELEVISED TESTIMONY.—Title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended—

(1) by amending section 1001(a)(7) (42 U.S.C. 3793(a)(7)) to read as follows:

"(7) There are authorized to be appropriated to carry out part N—

"(A) \$3,500,000 for fiscal year 1995; and

"(B) \$5,000,000 for each of fiscal years 1996, 1997, and 1998."

(2) in section 1401 (42 U.S.C. 3796aa) by striking "and units of local government" and inserting "units of local government, and other public and private organizations";

(3) in section 1402 (42 U.S.C. 3796aa-1) by striking "to States, for the use of States and units of local government in the States";

(4) in section 1403 (42 U.S.C. 3796aa-2)—
(A) by inserting "unit of local government, or other public or private organization" after "of a State"; and

(B) in paragraphs (3) and (4) by inserting "in the case of an application by a State," before "an assurance";

(5) by striking section 1405 (42 U.S.C. 3796aa-4); and

(6) in the table of contents by striking the item for section 1405.

AMENDMENT NO. 1188

(Purpose: To express gratitude to law enforcement personnel)

At the appropriate place in the bill, insert the following new section:

SEC. . LAW DAY U.S.A.

(a) FINDINGS.—Congress finds that—

(1) the first day of May of each year has been designated as "Law Day U.S.A." and set aside as a special day to advance equality and justice under law, to encourage citizen support for law enforcement and law observance, and to foster respect for law and an understanding of the essential place of law in the life of every citizen of the United States;

(2) each day, police officers and other law enforcement personnel perform their duties unflinchingly and without hesitation;

(3) each year tens of thousands of law enforcement personnel are injured or assaulted in the course of duty and many are killed;

(4) law enforcement personnel are devoted to their jobs, are underpaid for their efforts, and are tireless in their work; and

(5) law enforcement personnel perform their duties without adequate recognition.

(b) EXPRESSION OF GRATITUDE.—In celebration of "Law Day, U.S.A.", May 1, 1994, the grateful people of this Nation give special emphasis to all law enforcement personnel of the United States, and acknowledge the unflinching and devoted service law enforcement personnel perform as such personnel help preserve domestic tranquility and guarantee the legal rights of all individuals of this Nation.

AMENDMENT NO. 1189

(Purpose: To authorize the use of 6.25 percent of the funds used to prevent violent crime through programs to support healthy child development and substance abuse treatment and prevention)

Insert at the appropriate place the following:

Of the amounts available to be expended for the Violent Crime Reduction Trust Fund \$75 million is authorized to be expended to constitute an Ounce of Prevention Fund, to be administered as follows and for the following purposes:

"(i) The Ounce of Prevention Fund shall be for the purpose of encouraging and supporting the healthy development and nurturance of children and youth in order to promote successful transition into adulthood and for preventing violent crime through substance abuse treatment and prevention.

"(ii) Activities to be supported by the Ounce of Prevention Fund include—

"(I) after school and summer academic enrichment and recreation conducted in safe and secure settings and coordinated with school curricula and programs, mentoring

and tutoring and other activities involving extensive participation of adult role models, activities directed at facilitating familiarity with the labor market and ultimate successful transition into the labor market; and

"(II) substance abuse treatment and prevention program authorized in the Public Health Service Act including outreach programs for at-risk families.

"(iii) Except for substance abuse treatment and prevention programs, the children and youth to be served by Ounce of Prevention programs shall be of ages appropriate for attendance at elementary and secondary schools. Applications shall be geographically based in particular neighborhoods or sections of municipalities or particular segments of rural areas, and applications shall demonstrate how programs will serve substantial proportions of children and youth resident in the target area with activities designed to have substantial impact on the lives of such children and youth. The Ounce of Prevention Council created herein shall define more precise statistical and numerical parameters for target areas, numbers of children to be served, and substantially of impact of activities to be undertaken.

"(iv) Applicants may be cities, counties, or other municipalities, school boards, colleges and universities, nonprofit corporations, or consortia of eligible applicants. Applicants must show that a planning process has occurred that has involved organizations, institutions, and residents of target areas, including young people, as well as cooperation between neighborhood-based entities, municipality-wide bodies, and local private-sector representatives. Applicants must demonstrate the substantial involvement of neighborhood-based entities in the carrying out of the proposed activities. Proposals must demonstrate that a broad base of collaboration and coordination will occur in the implementation of the proposed activities, involving cooperation among youth-serving organizations, schools, health and social service providers, employers, law enforcement professionals, local government, and residents of target areas, including young people. The Ounce of Prevention Council shall set forth guidelines elaborating these provisions.

"(v) The Ounce of Prevention Council shall be chaired by the Attorney General and the Secretaries of Education and Health and Human Services, and shall include the Secretaries of Agriculture, Housing and Urban Development, and Labor, and the Director of the Office of National Drug Control Policy. Such sums as shall be necessary shall be appropriated for staff of the Ounce of Prevention Council, which will be headed by a Director chosen by the Council. The Council shall make grant awards under this program and develop appropriate guidelines for the grant application process.

"(vi) The portion of the costs of a program, project, or activity provided by a grant under the Ounce of Prevention Fund may not exceed 75 percent, unless the Ounce of Prevention Council waives, wholly or in part, the requirement under this subsection of a non-Federal contribution to the costs of a program, project, or activity. Grants may be renewed for up to 4 additional years after the first fiscal year during which a recipient receives an initial grant, provided the Council is satisfied that adequate progress is being made toward fulfillment of proposal goals. The provision of section 1705(a) concerning nonsupplantation, section 1705(b) concerning limits on administrative costs, section 1706

concerning performance evaluation, and section 1707 concerning revocation or suspension of funding shall apply to the program created by this subparagraph."

VICTIMS OF CHILD ABUSE ACT

Mr. REID. Mr. President, I want to commend Senator BIDEN for reauthorizing the Court-Appointed Child Advocate Program and the Child Abuse Training Program under the victims of Child Abuse Act. An act we worked together on back in 1989.

In 1989, I introduced a bill that offered many protections for children both in and outside the Federal court system. The bill allowed children to testify in a room other than the courtroom in order to reduce trauma; allowed the use of a child's recorded deposition; allowed the use of anatomical dolls, puppets, or other toys to help a child describe possible sexual abuse; allowed for the child to be accompanied to a court proceeding by a parent, counselor, or court-appointed guardian; and ensured a speedy trial to minimize the time and length of a child's stress.

Further, protections which extend beyond the courtroom included: mandatory criminal background checks of those who work with children in Federal facilities or on Federal lands; mandatory reporting of suspected child abuse by certain people who work with children in Federal facilities or on Federal lands; a prohibition on the release of a child witness' name and address; and an extension of the statute of limitations so that there is no limit on prosecution if a victim of abuse was under 18 years of age at the time of the crime.

As I said, Senator BIDEN and I worked very hard together on this issue, and I was happy to see that much of my bill was included in the Victims of Child Abuse Act which finally became law.

Today, we are here to reauthorize the Court-Appointed Special Advocate Program and the Child Abuse Training Programs for Judicial Personnel, and I want to again complement my colleague, Senator BIDEN, for taking this up at this time.

This amendment is absolutely necessary to protect children who have been victimized. Children must have special protection as victims or witnesses in the justice system because of their age and vulnerability, and deserve safeguards to assure that their rights to be free from further emotional harm and trauma occasioned by judicial proceedings is protected by the court.

Our treatment of child victims has been a classic case of society showing more concern for alleged criminals than for victims. We have a separate juvenile court system for children accused of committing crimes. We have a separate juvenile court system for children accused of committing crimes. We recognize that these children should be

treated differently than adults. But when children are the victims, how can we throw them into our adult court system without special treatment? Children are special and should be treated that way.

Over the last few years, the Victims of Child Abuse Act has been a great success, and, once again, I am very happy to see that we are taking the time to reauthorize it here today.

Mr. BINGAMAN. Mr. President, before the Senate completes action on S. 1607, the Violent Crime Control and Law Enforcement Act of 1993, I would like to comment on two provisions of the bill. These provisions, which I authored, address the growing problem of youth crime and drug abuse along our country's international borders, a region of the United States that includes my home State of New Mexico.

The 2,000-mile border between the United States and Mexico is one of the fastest growing regions of both countries. Between 1950 and 1980, the population of Mexico's six border states tripled from 3.7 to 10.7 million. During the same 30-year period, our four United States-Mexico border States doubled in population, from 19.8 million in 1950 to 41.9 million in 1980. This rapid population growth has created many economic opportunities for residents of both sides of the border.

Unfortunately, this tremendous growth has also led to an increase in a number of social and family problems, including the serious problems of crime and illegal drug use. Auto theft, illegal immigration, and drug smuggling are among the more well-publicized crimes occurring along our borders. But more and more frequently, evidence is pointing toward a growth in other crimes; and more and more frequently, these crimes, whether robbery, arson, drug trafficking, or illicit drug use, involve young people—our Nation's school-age children.

The provisions I authored are specifically targeted at these children. First, I propose that we add a modest, yet extremely beneficial, grant program to the Antigang Grants Program authorized under title XV of the Youth Violence Act. The grants will help States, local governments, and nonprofit organizations develop and implement effective, innovative programs aimed at addressing the unique problems border communities and their juvenile residents face in dealing with the temptations of crime and illegal drug and alcohol use.

The second provision directs the Commission on Crime and Violence, which this legislation would create, to expand its purpose and responsibilities to include the issue of border crime. I believe this added duty could be a crucial part of the comprehensive and effective crime control plan the Commission is charged with developing. Unless it addresses the growing national prob-

lem of crime along our international borders, the Commission's national blueprint for action in the 1990's will be incomplete.

Mr. President, the House of Representatives is scheduled to vote on the North Atlantic Free-Trade Agreement 1 week from today. If the House approves the NAFTA, the Senate will consider it shortly thereafter. If approved, the NAFTA will increase trade with our neighbor to the south and further boost population expansion on both sides of the border.

Already, we have taken steps to provide for the tremendous growth on the border. We are, for example, increasing our ports of entry along the border. In my home State of New Mexico, a border crossing at Santa Teresa was approved last year by both the governments of Mexico and the United States. This border crossing is the first border crossing in New Mexico near a major metropolitan area and is expected to result in increased trade between my State and Ciudad Juarez in Mexico. I anticipate that a second port in the Las Cruces-El Paso area will soon be established at Sunland Park, NM.

While these ports of entry will allow New Mexico to reap some of the potential benefits of trade with Mexico, they will also provide greater opportunity for criminal activity. I am especially concerned about the increased potential for criminal activity, particularly involving children and teens, that border growth could stimulate.

In addition to providing for increased trade with Mexico and establishing new ports of entry along the border, I believe we must begin to provide for a social infrastructure on the border. We must begin to support the border States like New Mexico in their effort to coordinate law enforcement on the border. This is why I have advocated that two duties be added to the Commission on Crime and Violence's mandate. As part of its development of a comprehensive and effective crime control plan, the Commission should:

Recommend improvements in the coordination of local, State, Federal, and international border crime control efforts; and

Examine the impact of enhanced new international trade agreements, immigration, and increasing numbers of international ports of entry on crime and violence in the United States.

In my opinion, these two additions are essential if the Commission's report is truly to be a blueprint for national action on crime control in the 1990's.

Mr. President, I believe both the provisions I have discussed are important, and I am pleased that they have been included in the Violent Crime Control and Law Enforcement Act of 1993.

Mr. DOLE. Mr. President, I move to reconsider the votes on the amendments I sent to the desk and also the

amendments of the Senator from Delaware.

Mr. BIDEN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BIDEN. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BIDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR TUESDAY, NOVEMBER 16, 1993

Mr. BIDEN. Mr. President, on behalf of the majority leader, I ask unanimous consent that when the Senate completes its business today, it stand in recess until 8 a.m. Tuesday, November 16; that following the prayer, the Journal of proceedings be deemed approved to date; that the time for the two leaders be reserved for their use later in the day; that immediately following the announcement of the Chair, the previous order relating to S. 636 be executed; that on Tuesday, the Senate stand in recess from 12:30 p.m. to 2:15 p.m., in order to accommodate the respective party conferences; further, that with respect to S. 1607, the Hutchison, Helms, and Smith amend-

ments be laid aside to recur upon disposition of the Dole amendment and in the original order as provided for in the previous agreement governing these amendments.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS UNTIL TUESDAY, NOVEMBER 16, 1993, AT 8 A.M.

Mr. BIDEN. Mr. President, if there is no further business to come before the Senate, other than to wish Senator BOXER happy birthday, I now move that the Senate stand in recess until 8 a.m., Tuesday, November 16, as provided under the provisions of House Concurrent Resolution 178.

The motion was agreed to, and at 12:25 a.m., the Senate recessed until Tuesday, November 16, 1993, at 8 a.m.

NOMINATIONS

Executive nominations received by the Senate November 10, 1993:

DEPARTMENT OF STATE

MELVYN LEVITSKY, OF MARYLAND, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF CAREER MINISTER, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE FEDERATIVE REPUBLIC OF BRAZIL.

DAVID NATHAN MERRILL, OF MARYLAND, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF CAREER MINISTER, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE PEOPLE'S REPUBLIC OF BANGLADESH.

THE JUDICIARY

DANIEL T. K. HURLEY, OF FLORIDA, TO BE U.S. DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF FLORIDA VICE JAMES C. PAINE, RETIRED.

DEPARTMENT OF JUSTICE

BRIAN C. BERG, OF NORTH DAKOTA, TO BE U.S. MARSHAL FOR THE DISTRICT OF NORTH DAKOTA FOR THE TERM OF 4 YEARS VICE ERROL LEE WOOD.

FLOYD A. KIMBROUGH, OF MISSOURI, TO BE U.S. MARSHAL FOR THE EASTERN DISTRICT OF MISSOURI FOR THE TERM OF 4 YEARS VICE WILLIE GREASON, JR.

CHARLES WILLIAM LOGSDON, OF KENTUCKY, TO BE U.S. MARSHAL FOR THE WESTERN DISTRICT OF KENTUCKY FOR THE TERM OF 4 YEARS VICE RALPH A. BOLING.

CONFIRMATIONS

Executive nominations confirmed by the Senate November 11, 1993:

DEPARTMENT OF ENERGY

MARTHA ANNE KREBS, OF CALIFORNIA, TO BE DIRECTOR OF THE OFFICE OF ENERGY RESEARCH, DEPARTMENT OF ENERGY.

ENVIRONMENTAL PROTECTION AGENCY

JONATHAN Z. CANNON, OF VIRGINIA, TO BE CHIEF FINANCIAL OFFICER, ENVIRONMENTAL PROTECTION AGENCY.

OFFICE OF THE NUCLEAR WASTE NEGOTIATOR

RICHARD H. STALLINGS, OF IDAHO, TO BE NUCLEAR WASTE NEGOTIATOR.

EXECUTIVE OFFICE OF THE PRESIDENT

ROBERT T. WATSON, OF VIRGINIA, TO BE AN ASSOCIATE DIRECTOR OF THE OFFICE OF SCIENCE AND TECHNOLOGY POLICY.

JANE M. WALES, OF NEW YORK, TO BE AN ASSOCIATE DIRECTOR OF THE OFFICE OF SCIENCE AND TECHNOLOGY POLICY.

MARY RITA COOKE GREENWOOD, OF CALIFORNIA, TO BE AN ASSOCIATE DIRECTOR OF THE OFFICE OF SCIENCE AND TECHNOLOGY POLICY.

THE ABOVE NOMINATIONS WERE APPROVED SUBJECT TO THE NOMINEES' COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

IN THE COAST GUARD

COAST GUARD NOMINATIONS BEGINNING DOUGLAS H. TEESON, II, AND ENDING TIMOTHY W. JOSIAH, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON OCTOBER 14, 1993.

HOUSE OF REPRESENTATIVES—Wednesday, November 10, 1993

The House met at 9:30 a.m. and was called to order by the Speaker pro tempore [Mr. MAZZOLI].

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
November 10, 1993.

I hereby designate the Honorable ROMANO L. MAZZOLI to act as Speaker pro tempore on this day.

THOMAS S. FOLEY,
Speaker of the House of Representatives.

PRAYER

Dr. Chaim E. Schertz, rabbi, Keshar Israel Congregation, Harrisburg, PA, offered the following prayer:

Our tradition requires that when one is in the presence of august and prominent human beings, he recite the following benediction: “* * * blessed art Thou God our Lord, King of the universe who has bestowed His glory upon flesh and blood * * *”

This is a fitting benediction on this occasion, for the Members of the House of Representatives of the United States of America represent the people of, not only the most powerful nation in recorded human history, but the most decent as well.

The Almighty is a lawgiver whose laws reflect above all the ability to combine the absolute demands of justice with the grace which is expressed in mercy.

We pray that God grant that clarity of vision to the lawmakers of our country. Without just laws no nation can long prevail. Without merciful human beings, no nation should prevail.

We offer this prayer on the eve of Veterans Day. We remember the men and women who offered their lives so that this Nation may continue to rest on the twin pillars of justice and mercy.

May God grant that the efforts of this House continue to give meaning and significance to their sacrifice.

May God bless the United States of America.

Let us say amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. The gentleman from Mississippi [Mr. MONTGOMERY] will lead the House in the Pledge of Allegiance.

Mr. MONTGOMERY led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair announces there will be no 1-minute speeches today, with the exception of one 1-minute requested by the gentleman from Pennsylvania [Mr. GEKAS].

WELCOME TO RABBI CHAIM SCHERTZ

(Mr. GEKAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEKAS. Mr. Speaker, in the section of Harrisburg, PA, which is lovingly known as Uptown, there is one of the nicest institutions in the whole area. Keshar Israel Synagogue. The rabbi of that institution was the individual who rendered the opening prayer today.

He is recognized, as were many of his predecessors, as one of the leading citizens in our community. This particular rabbi is recognized for his learning and his teaching in various parts of the Talmud and the Hebrew scriptures, and is recognized not only as a teacher and a learner, but as one who influences others on a regular basis.

He and his wife and children live in that very same area, very close to the synagogue. He is close to the heart of our community.

CONFERENCE REPORT ON H.R. 3116, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 1994

Mr. FROST. Mr. Speaker, by direction of the Committee on Rules I call up House Resolution 301 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 301

Resolved, That upon adoption of this resolution it shall be in order to consider the

conference report to accompany the bill (H.R. 3116) making appropriations for the Department of Defense for the fiscal year ending September 30, 1994, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

The SPEAKER pro tempore. The gentleman from Texas [Mr. FROST] is recognized for 1 hour.

Mr. FROST. Mr. Speaker, for purposes of debate only, I yield 30 minutes to the gentleman from New York [Mr. SOLOMON], pending which I yield myself such time as I may consume. All time yielded during the debate on this resolution is for the purposes of debate only.

Mr. Speaker, House Resolution 301 is a simple rule facilitating the consideration of the conference report to accompany H.R. 3116, the Department of Defense Appropriations Act for fiscal year 1994. The rule waives all points of order against the conference report and against its consideration. The rule also provides that the conference report shall be considered as read.

As Members are aware, the third continuing resolution expires at midnight tonight and, therefore, it is imperative that the House complete its consideration of this conference report as quickly as possible. The conferees have brought back an agreement which deletes the provision providing for replacement carrier funding, thus satisfying the Committee on Armed Services, which had objected to the inclusion of these funds by the Senate. The conference agreement recommends a total of \$240.6 billion in new budget authority for fiscal year 1994 and falls within the section 602(b) discretionary budget authority allocation.

Mr. Speaker, Chairman MURTHA has brought us a bill which was developed under trying circumstances: the need to cut spending while at the same time preserving the ability of our Armed Forces to provide for our national defense. I congratulate him and his colleagues for a job well done and urge adoption of the resolution so that the House may proceed to the consideration of this vital conference report.

Mr. Speaker, I reserve the balance of my time.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, on behalf of all former marines, present marines, and on behalf of the gentleman from Pennsylvania [Mr. MURTHA] sitting in back of the gentleman from Texas [Mr. FROST], we thank him for his words.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Mr. Speaker, I will just briefly say that I support the gentleman from Texas [Mr. FROST] in urging all Members to support this rule.

As Members know, Mr. Speaker, time is of the essence.

This conference report for Defense appropriations is the last outstanding general appropriations bill that must be enacted for the new fiscal year.

It must be signed into law before midnight tonight in order to avoid the necessity of enacting another continuing resolution. I think none of us want to do that.

Mr. Speaker, this rule provides for expeditious action by the House.

Mr. Speaker, as the gentleman from Texas [Mr. FROST] has also indicated, this rule waives all points of order against the conference report itself and against its consideration.

The principal reason for the blanket waiver is simply the fact that the House has not yet taken its final action on the Defense authorization bill for fiscal year 1994.

I understand that a conference agreement has been reached for that legislation, and I hope we will be considering that soon.

But as of this moment, in the absence of a completed authorization bill, the waivers contained in this rule are necessary and, in my opinion, they are justified.

Mr. Speaker, I am convinced that the distinguished chairman of the Defense Appropriations Subcommittee, the gentleman from Pennsylvania [Mr. MURTHA], and the ranking Republican, the gentleman from Pennsylvania [Mr. MCDADE], have done everything humanly possible to accommodate the concerns of authorizing committees.

Indeed, the Rules Committee did not receive any testimony to the contrary, and I can forego my usual skepticism concerning blanket waivers and urge all Members to support this rule.

I do have to say, Mr. Speaker, that I have substantial reservations about the conference report itself.

My concerns are not in any way a negative reflection on the work of Mr. MURTHA and Mr. MCDADE.

Mr. Speaker, I cannot think of any two Members in this House to whom I would be more willing to entrust the security of the country than JOHN MURTHA and JOE MCDADE.

They and the other members of the Committee on Appropriations have done the best they could while having to labor under some extraordinary conditions and some extraordinary restrictions.

It is those larger restrictions, outlined by the administration and contained in the budget resolution, that concern me very, very much.

Mr. Speaker, there is not a single Member of Congress who should rest easily in the knowledge that the planned defense expenditures over the

4-year span of the Clinton administration come in far below what the administration's own Bottom-Up Review has defined as the minimum amount necessary to protect the security of the country and defend our vital interests around the globe.

Mr. Speaker, I referred to a 4-year lifespan for the Clinton administration deliberately, and not sarcastically.

Believe me, Mr. Speaker, this administration is going to be sorely tested overseas in the couple of years ahead.

I pray that test does not come in Korea, because the stakes are so high.

With 70 percent of North Korea's total military capability now poised at the 38th parallel, tens of thousands, even hundreds of thousands or more could be killed in a new Korean war, especially if nuclear weapons become involved. And we all know that that nuclear capability is almost there for North Korea.

□ 0940

I just have to express my profound fear that this administration simply is not up to it. It simply does not appear capable of managing an international crisis. And I think that Members on both sides of the aisle had better sit down and had better talk to our President to make sure that we have a coherent foreign policy that is going to be respected around the world.

An administration which announces its defense cuts first, and then tries to figure out what the country actually needs to defend itself, is not on top of the situation. So I must express my great reservations about this conference report.

But I do believe the process must go forward here today, and I urge support for the rule.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. FROST. Mr. Speaker, I have no requests for time, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

The motion to reconsider was laid on the table.

Mr. MURTHA. Mr. Speaker, pursuant to House Resolution 301, the rule just adopted, I call up the conference report on the bill (H.R. 3116) making appropriations for the Department of Defense for the fiscal year ending September 30, 1994, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 301, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of Tuesday, November 9, 1993, at page 28000.)

The SPEAKER pro tempore. The gentleman from Pennsylvania [Mr. MUR-

THA] will be recognized for 30 minutes, and the gentleman from Pennsylvania [Mr. MCDADE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. MURTHA].

GENERAL LEAVE

Mr. MURTHA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks, and include extraneous matter, on the conference report presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. MURTHA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I bring to the House the conference report on the fiscal year 1994 Department of Defense Appropriations Act.

First, I would like to thank all the members of the Subcommittee but especially the three new members of the Defense Subcommittee, Congressmen VISCLOSKY, DARDEN, and SKEEN. They all provided valuable assistance to the subcommittee during the hearings, the markup and the conference with the Senate.

Mr. Speaker, regarding the fiscal year 1994 Defense appropriations conference report, I would like to make a few points:

A total of \$240.6 billion in budget authority is provided in this legislation;

The total is \$13.5 billion below the fiscal year 1993 level;

It is over one-half billion dollars below the budget request;

It is below the 602(b) allocation set by the Appropriations Committee; and

It is in agreement with the authorization conference report regarding funding for major systems.

As in any conference with the Senate, there was considerable give and take, and we had to include various provisions and funding levels for programs which were not in compliance with the original House position.

The conference report contains funding in the amount of \$474 million for the technology reinvestment program an addition of \$150 million to the budget request. Realizing the high priority the administration places on this important program to help defense industries convert their technologies for commercial use, the committee encourages the Department to submit a reprogramming or a supplemental budget request for additional funding for the Technology Reinvestment Program which will then be given priority consideration by the committee.

I would like to insert a table outlining the conference recommendations by title at this point in the RECORD.

BUDGET AUTHORITY

	Fiscal year—		Conference
	1993 enacted	1994 estimates	
RECAPITULATION			
Title I—Military personnel	76,275,025,000	70,083,770,000	70,624,044,000
Title II—Operation and maintenance	69,405,963,000	74,239,308,000	76,616,787,000
Title III—Procurement	55,375,931,000	45,067,328,000	44,663,078,000
Title IV—Research, development, test and evaluation	38,234,848,000	38,620,327,000	35,191,491,000
Title V—Revolving and management funds	1,737,200,000	1,451,895,000	2,643,095,000
Title VI—Other Department of Defense Programs	11,027,823,000	11,082,748,000	11,021,820,000
Title VII—Related agencies	246,600,000	312,088,000	343,588,000
Title VIII—Economic conversion	472,000,000		
General provisions	380,925,000		-569,025,000
Additional transfer authority	(1,500,000,000)	(2,000,000,000)	(2,500,000,000)
Total, Department of Defense	253,156,315,000	240,857,464,000	240,534,878,000
Scorekeeping adjustments	956,424,000	224,067,000	35,067,000
Prior year outlays including H.R. 2118			
Grand total	254,112,739,000	241,081,531,000	240,569,945,000

DECLINE IN DEFENSE SPENDING

Mr. Speaker, in the report accompanying the House-passed bill last September, we spelled out the extent of the decline in Defense spending in the past decade. For example:

First, the fiscal year 1994 budget represents the ninth consecutive year of reductions in budget authority for Defense when measured in constant dollars.

Second, by the end of fiscal year 1994, the active force level will be 513,000 below the level in place when the Berlin Wall came down in 1989. This number is higher than all the forces we had stationed overseas in 1989 and equal to the entire force we deployed to the Persian Gulf during the war with Iraq in 1991.

Third, by the end of fiscal year 1994, the number of civilians employed by the DOD will be 198,000 below the level in place when the Berlin Wall came down.

Fourth, the reduction of 711,000 military and civilians since the Berlin Wall came down is approximately equal to the entire population of San Francisco or Baltimore.

Fifth, the projected uniformed strength by 1997 of 1,400,000 would be the lowest number of personnel in the Armed Forces in 57 years.

Sixth, this year's spending level for Defense as a percent of the gross national product is projected to be the lowest it has been since before World War II with the exception of fiscal year 1948.

Seventh, U.S. military presence either has or soon will be ended, reduced or placed on standby at over 800 overseas installations.

Eighth, a rapid reduction in the U.S. base structure is ongoing.

Ninth, millions of jobs are being eliminated in the private sector as a result of these reductions.

Tenth, the procurement account has declined by 64 percent in 9 years.

Eleventh, budget outlays for national defense as a percentage of the Federal budget are the lowest since before World War II.

In historical perspective and in the perspective of America's total wealth,

the funds provided in this budget for Defense are indeed modest.

At this point, I would like to briefly outline some of the highlights of the bill:

TITLE I.—MILITARY PERSONNEL

Bill provides a total of \$70.6 billion for military personnel.

Funds provide \$1.1 billion over the budget for a pay increase of 2.2 percent for uniformed personnel.

Active force structure declines by 105,000 personnel from fiscal year 1993 level.

Increased the personnel level in the Guard and Reserve by 5,300 above the budget request. This increase for the Marine Corps Reserve, provides for the increase recommended in the Secretary of Defense's Bottom-Up Review.

TITLE II.—OPERATION AND MAINTENANCE

The conferees recommend \$76.6 billion, a reduction of \$657 million from the budget for Operation and Maintenance.

The conferees added significant amounts to the budget request to redress readiness and operations shortfalls. These include adds for:

	Millions
Depot Maintenance	\$236
OPTEMPO	220
Air Force Spare Parts	280
Retrofitting Equipment withdrawn from Europe	154
Maritime and Afloat Prepositioning of War Reserves	65

The conferees fully funded the request of \$400 million to continue the demilitarization program for the former Soviet states.

The conferees denied the Administration's request of \$448 million for a Global Cooperation Initiatives account which would have financed peacekeeping and humanitarian assistance operations.

As a result of savings from foreign currency rates, the conferees adopted \$420 million in savings throughout the O&M accounts.

TITLE III.—PROCUREMENT

Provided \$44.7 billion for procurement, a decrease of \$10.7 billion from the 1993 level. Highlights follow:

Army:

Apache Helicopters: Added \$150 million over the budget for 10 Apache Helicopters, as authorized.

AHIP Helicopters: Added \$123 million over the budget for 18 AHIP helicopters, as authorized.

Navy:

DDG-51 Destroyers: Fully funded request of \$2.6 billion for 3 destroyers;

F/A-18 C/D Attack Fighters: Funded requested level of 36 aircraft (\$1.5 billion);

Trident D-5 Missile: Fully funded request of \$938 million for 24 missiles;

Sealift: Increased budget request by \$1.2 billion, plus added \$50 million for shipbuilding loan guarantees;

Air Force:

C-17 Airlift Aircraft: Funded the request of 6 aircraft at \$1.9 billion;

F-16 Fighter Aircraft: Funded 12 aircraft at \$400 million, as authorized;

Guard and Reserve Equipment: Conferees added \$1.2 billion over budget for a wide variety of equipment for the Guard and Reserve, including \$800 million for aircraft procurement.

TITLE IV.—RESEARCH, DEVELOPMENT, TEST AND EVALUATION (RDT&E)

Provides \$35.2 billion for RDT&E, a decrease of \$3.4 billion from the budget request. Highlights include:

Army:

SADARM: Terminated the SADARM precision submunition.

Comanche Helicopter: Fully funded the RDT&E request of \$367 million.

Navy:

AFX: Terminated the AFX tactical aircraft program at a savings of \$400 million.

New Attack Submarine: Fully funded the budget request of \$476 million.

F/A-18 E/F Attack Fighters: Provided \$1.5 billion for continued development.

Air Force:

F-22 ATF (Advanced Tactical Fighter): Provided \$2.1 billion, a reduction of \$168 million from the budget request.

MILSTAR Communications Satellite: Provided \$932 million for continuing the MILSTAR program.

Defense Agencies: Ballistic Missile Defense (formerly SDI): Provided \$2.6 billion, the authorized level, and a decrease of almost \$1 billion from the budget request.

DEFENSE ECONOMIC CONVERSION

The conferees provided \$2.5 billion for defense economic conversion. These funds assist defense workers, military personnel, defense industries and various communities to transition to non-defense commercial enterprises because of the severe impact of the continuing decline in defense spending.

PEACEKEEPING

The conferees agreed to:

First, the Byrd amendment restricting the mission in Somalia and requiring that United States forces withdraw by March 31, 1994;

Second, sense-of-the-Congress provisions stating that there be prior congressional authorization before deployments to Haiti and Bosnia; and

Third, a new general provision expressing the sense of Congress that the President consult with Congress prior to any new peacekeeping or humanitarian deployment and that such operations be funded through new supplemental appropriations.

In conclusion, Mr. Speaker, I would like to reiterate the points I made earlier. The conference report:

Is \$13.5 billion below the fiscal year 1993 level;

Is below the 602(b) discretionary budget authority allocation;

Is in compliance with the authorization conference in terms of funding for major programs.

I urge adoption of the conference report.

Mr. MURTHA. Mr. Speaker, I yield 2 minutes to the gentleman from Kentucky [Mr. NATCHER], the distinguished chairman of the full Committee on Appropriations.

Mr. NATCHER. Mr. Speaker, I want to thank my friend from Pennsylvania for yielding me this time, and I want you and all of the members to know that I rise in support of the Defense appropriations conference report. Upon adoption of this conference report, the House will have concluded action on all of our 13 regular appropriations bills. Mr. Speaker, yesterday we completed action on the Interior conference report and I understand that the Senate will take up this conference report today, clearing it for the President.

Mr. Speaker, I want to thank everyone for the help they have given me and the committee. I want to thank the 12 other committee chairmen and the 13 ranking members on the subcommittees and especially my good friends, JOE MCDADE, and JOHN MURTHA of Pennsylvania. These are two of the able Members of the House, and I want you to know that I appreciate your help at all times.

My appreciation applies not only to the members of the committee, but also to our excellent staff, Mr. Speaker, when we are at our homes here in Washington at night, our staff is still here on the Hill working on our bills.

Mr. Speaker, on the Appropriations Committee, we try to do it right—we work together—both sides of the aisle—to get our work done. We all work together as a team to do a good job the right way.

Mr. Speaker, the current continuing resolution expires at midnight, tonight. Yesterday, out of an abundance of caution, I introduced House Joint Resolution 288 which was a simple date extension to the current continuing resolution until November 16. I did this in the event the Interior or Defense conference reports were not acted on by midnight today. Because action on these conference reports is expected to be completed today, there is now no reason to extend further the continuing resolution, and therefore I will not

be calling up House Joint Resolution 288.

Again, I want to thank all Members for their cooperation at every step of the way this year as we acted on our fiscal year 1994 regular appropriations bills. On the Committee on Appropriations, we appreciate this cooperation.

Mr. Speaker, we support this conference report.

Mr. MCDADE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this conference report and urge its adoption.

I must begin by expressing my deep appreciation to all the members of the conference committee for one of the smoothest and workman-like sessions I've seen in my 29 years as a member of the Appropriations Committee.

We confronted dozens of tough issues, but throughout addressed them forthrightly and without rancor—and for that I must point to the leadership of my colleague from Pennsylvania, as well as that of the senior Senators from Hawaii and Alaska who as always helped guide us to a satisfactory conclusion. And I must recognize the Members on our side—BILL YOUNG, BOB LIVINGSTON, JERRY LEWIS, and the newest member of the Defense Subcommittee, JOE SKEEN, for their contributions in the conference and throughout the year.

Mr. Speaker, it is no secret that I and many Members in this Chamber are gravely concerned about the future of our military and security posture, given the direction that the administration wants to take us in terms of deep defense cuts.

I simply don't believe we can meet our global commitments while maintaining a quality force under the 5-year budget numbers for Defense that we are looking at. In particular, we are running a very real risk of returning back to the days of a hollow force.

That concern has overshadowed each and every decision taken in the Defense Subcommittee this year. And I am pleased that same philosophy carried through to our conference with the Senate. That is why I support this conference report.

Throughout this bill you will find a series of actions targeted toward maintaining a quality military:

Some \$1.1 billion added over the budget for a military pay raise;

Over \$1 billion added to the operating accounts, attacking shortfalls in training and maintenance funding;

And nearly \$300 million over the budget for medical care for military families.

There's many other good decisions, such as robust funding for sea and air-lift all targeted to give us a flexible and responsive force.

Regarding major weapons decisions—such as ballistic missile defense, F-16 production, and the like, this agree-

ment incorporates the decisions made by the Defense Authorization conferees.

To sum up, while not perfect, this bill shapes the continuing build-down in a way that keeps our forces flexible and responsive. The real challenges will come next year and beyond—when the Clinton defense cuts really begin to bite. Let me remind all of you, the vast majority of the Clinton cuts—over \$110 billion—have yet to be seen. Mr. Speaker, just wait until next year and beyond.

Then, I fear all of us will be confronted with a hard question: Do we in fact want to keep a quality military, capable of responding to the growing requirements of an increasingly troubled world? If we do, then we will have to pay for it.

In the meantime, we need to do what we can to sustain and support our men and women who continue to go in harm's way, in the midst of so many changes. We have done our best to do just that, in the face of continued cuts and reductions, and as a result I ask for quick and favorable consideration of this conference agreement.

Mr. Speaker, I yield back the balance of my time.

Mr. MURTHA. Mr. Speaker, I want to compliment the gentleman from Pennsylvania, JOE MCDADE, and the whole committee. This was the toughest bill we have had.

Mr. FALEOMAVEGA. Mr. Speaker, I rise in support of section 8137 of the Defense appropriations conference report. This section would do two things.

First, it directs the Department of the Navy to modify and transport a small landing craft to the territory of American Samoa. Second, it authorizes the Department of Defense to transport surplus medical equipment to American Samoa.

Mr. Speaker, American Samoa has been undergoing significant financial problems for the past several years. There is only one hospital in American Samoa, and that hospital is operated by the local government. The government's deficit and cash-flow have gotten so critical in recent years that the local hospital no longer has the basic medical equipment and supplies that are necessary to meet the needs of the Americans living in the territory. Even the territory's pharmaceutical supplies have been depleted at various times over the past months.

Another example of the poor condition at the hospital is with only one sterilizer which at times it is not operable, there are times when surgical tools are boiled in an effort to sterilize them. This eventually leads to the use of unsafe, rusty equipment. Even equipment such as beds and bed sheets are in short supply.

Mr. Speaker, the conditions at the hospital are so serious, that 2 weeks ago, the Governor of American Samoa declared a state of a medical emergency. A copy of that declaration is attached to the end of my statement.

As the Government slowly works its way out of its deficit, the assistance from the Department of Defense in transporting this medical

equipment will ease the pain of the suffering, probably save some lives, and eventually save some taxpayer money by improving the efficiency of the Government's medical operations.

Mr. Speaker, the land portion of American Samoa is comprised of five inhabited islands, which are nearly 200 miles apart. There is an immediate need for a vessel to transport cargo, freight, and passengers among the various islands of the territory. The last operable boat in Samoa capable in transporting heavy cargo among the islands is decades old and on its last legs. Regularly, this vessel is undergoing repairs, and during those times there is no vessel available to transport the diesel oil needed to provide electricity to the outer islands. Even basic items of personal comfort such as stoves and refrigerators cannot be transported without such a vessel.

Finally, Mr. Speaker, each trip to the outer islands costs the government approximately \$2,800 is fuel alone. Currently, because there is no certified vessel, the local government is prohibited by Federal law from charging for the transportation of personnel, cargo, or equipment to the various islands of Samoa. The requirement to provide a certified vessel to meet this need will enable the local government to recover some of its costs in providing transportation among the islands.

DECLARATION OF MEDICAL EMERGENCY

Whereas, there exists a medical emergency which threatens to disrupt the social order and imperil the public health and safety of the residents of American Samoa; and

Whereas, the LBJ Tropical Medical Center has great difficulty meeting even the most basic needs of its patients on a daily basis due to the lack of adequate medical supplies; and

Whereas, the American Samoa Government is in a state of fiscal crisis and is currently unable to purchase medical supplies through the normal channels as its regular suppliers will no longer accept its purchase orders; and

Whereas, there exist a large number of medical supply items which have been identified and set aside in several U.S. mainland locations for the use of American Samoa; and

Whereas, the LBJ Tropical Medical Center is in dire and urgent need of these surplus items; and

Whereas, the American Samoa Government is without the means to pay for the transportation costs of these supplies,

Now, Therefore, by the authority vested in the Governor of American Samoa under Article IV, Section 6 of the Revised Constitution of American Samoa and Title 4, Chapter 01, Section 0111(b) of the American Samoa Code, I, A.P. Lutali, Governor of American Samoa, do declare that a Medical Emergency exists due to a lack of basic medical supplies and the inability to transport the surplus supplies which are available.

Further, I request the full cooperation of the United States government in this time of Medical Emergency.

Mr. BROWN of California. Mr. Speaker, it seems that everywhere we go, as Members of this august institution, we hear critics tell us that we can't get anything done, that we engage in endless debate and disputation, that we are gridlocked. But today we witnessed a shining example of this legislative body moving with a speed that was blinding. What am

I talking about? The passage of H.R. 3116, the Defense appropriations bill. That bill containing more than \$254 billion in spending went through the House in approximately a quarter of an hour. If you had blinked, you would have missed it. Members with offices on the fifth floor of Cannon would not have had time to catch an elevator, walk across the street and participate in the voice vote on final passage. In fact, if they didn't have C-SPAN on, they might not have known a vote was occurring.

The way this bill moved through this body, under the cover of darkness, or, more accurately, wrapped in the protective embrace of the Appropriations Committee, eloquently symbolizes all that is wrong about the old ways in this institution. The process is unfair, it denies nine-tenths of the Members of this body any role in participation, and it leads to a misallocation of our scarce resources based on the directives of a handful of Members of Congress. I want to elaborate on these three themes in the time remaining today.

AN UNFAIR PROCESS

The Defense appropriations conference report went to the Rules Committee just last night, November 9, at 5 p.m. There was no notice or time established for that session. My staff received a call at 4:52 indicating that the Defense conference report had been received, we were welcome to come over and scan a copy, and, by the way, the Rules Committee was meeting at 5 p.m.

We did send a staffer to look at the more than 220 amendments and 312 pages of the statement of managers. While the staffer reviewed the text, the Rules Committee was busy providing a rule that waived all points of order against the bill. Such points of order are the sole guarantee authorizers have that they can act to block elements of appropriations bills that attempt to legislate. My feeling is that points of order should never be waived and I hope that is a position my colleagues will endorse when we move toward reinventing this institution in the next Congress.

In any case, this morning the House came into session a half hour earlier than originally scheduled. Instead of the usual round of 1-minutes by our colleagues, the House moved directly to consideration of the rule for the Defense appropriations bill. That rule was accepted on a voice vote. We then moved directly to consideration of the bill. That bill was then accepted on a voice vote. The entire package moved through the House in approximately 15 minutes. The important point to note is that the bill moved before the amendments and statement of managers were made widely available to Members or staff. The Congressional Record containing the conference report was not available until almost noon—2 hours after we passed the legislation. It is difficult to claim that we engage in informed legislative deliberation when we move legislation before Members have even had a chance to see its contents.

THE MAJORITY OF MEMBERS ARE DENIED A VOICE

The process used to move the Defense appropriation conference report denied 97 percent of the Members of the House any participatory role. Setting aside the process by which the conference report was passed, I would like to focus attention on an activity that

is just as pernicious: the use of legislative reports and statements of managers to earmark appropriated funds.

The Defense appropriations conference report is replete with earmarks. I invite Members to take a moment to flip through the research, development, testing and evaluation section. On the very first page of that section, the second paragraph, the statement of conferees reads: "Items of special congressional interest: Funds for projects noted to be of special interest in either the House or the Senate reports remain so, even if the dollar value of these items has changed in conference or even if not specifically mentioned in this report, unless indicated to the contrary in this report." Throughout the legislative reports and statement of conferees, these items of special congressional interest are noted as requiring a DD 1414 form. What does this mean? It means that any desire by the Department of Defense or the Services to spend those moneys in any other way or to spend less than the designated amount requires the prior approval of the appropriators.

Through this arcane reporting mechanism, the Defense Appropriations Subcommittees seek to force the Department of Defense to spend our scarce national security dollars on the programs, projects and contractors nearest and dearest to the appropriators' hearts. The items are fenced off from reprogramming and the Department of Defense and our Armed Services must spend those moneys in the way directed by the appropriators or simply lose the money.

How many Members of this body were allowed to participate in determining which would be items of special congressional interest? Exactly 14. Fourteen out of 435 Members of Congress—just 3 percent of us—played a role in the conference. We all know the game of musical chairs. Well, the way the appropriators play it, 1 out of every 31 of us gets to sit when the music stops playing and it comes time to earmark money. The rest of us are left to stand around, watching the bill sail past. I do not want to see that process change so that more of us get to sit at the table; what I want to see is a process whereby sitting at the table does not allow someone the ability to earmark huge sums of tax dollars for the benefit of their district without consideration for the Nation's needs and interests.

And what was done when the music stopped and the appropriators sat down, behind closed doors, to divvy up the Defense Department? That is the real outrage because it appears that several billion dollars in earmarks were made—we can find approximately \$2 billion in the research, development, testing and evaluation [RDT&E] section alone.

EARMARKED DOLLARS IN DEFENSE RDT&E ACCOUNTS

The number and extent of earmarks are difficult to accurately count in less than 24 hours, but that is how much time every member of this body—save the lucky few who are on Appropriations—has had to analyze the bill and report. My staff have analyzed several sections of RDT&E and what they find should disturb all the members of the House and the people they represent.

EARMARKS IN DEFENSE CONVERSION

There are two glaring areas of defense conversion moneys that the Defense Appropriations Subcommittees have attempted to earmark: those in operations and maintenance accounts and those in dual use technology.

The O&M conversion funds were appropriated at a level of \$377 million by the conferees. Of this amount, it appears that \$145.6 million has been earmarked—the vast majority of that amount by House conferees. Earmarked funds represent 39 percent of all moneys provided in this account; this is a great improvement over the 63 percent of funds earmarked in the original House legislative report, but it is hardly reassuring.

Dual use funds appropriated by the conferees equal \$474 million—\$150 million less than the House position. Of the \$474 million, at least \$103.8 million, 22 percent of all funds, have been earmarked. My colleagues will recall that I originally objected to House report language earmarks and that the chairman of the House Defense Appropriations Subcommittee gave his support to an amendment offered on the floor that restates that all technology reinvestment program funds will be competitively awarded and require matching funds by the recipients. That language was also adopted in the Senate and will be included in the bill. It reiterates the law of the land on the way in which TRP moneys are to be spent. At the same time, the Defense Appropriations Subcommittee has attempted to fence off their earmarks by indicating in report language that those are items of special congressional interest and tying the dollars to DD 1414 reporting requirements.

I want all of my colleagues to note the creative wizardry involved in this maneuver. The Defense Appropriations Subcommittees have sponsored a bill here today that will require competitive awards and matching dollars as the law of the land. At the same time, they have attached to that bill report language that instructs DOD to spend almost \$104 million on specific projects the Appropriations Committee members desire to see funded. In effect, they have instructed DOD to choose between breaking the law by spending the money or lose the money—money that this Nation's companies and workers desperately need as they negotiate the transition to a post-cold war economy.

This is an intellectually dishonest act. How can Members of this, the highest law-making institution in the Nation, explain that it is their recommendation that DOD break the laws passed by that body? How can we expect the citizens we represent to respect the laws we pass when before the ink is even dry some of our own Members are encouraging executive agencies to violate those laws.

Just as importantly, it violates the trust the American people have put in the Government to administer our defense conversion moneys in a way that is both fair and wise. What signal does it send to the nearly 3,000 consortia who spent time, energy and cash competing for TRP money in the last round of awards to see some of their competitors jumping the line by getting a powerful member of Appropriations to put the fix in for them? I think it tells them there are two systems: one for the politically connected and one for the rest of them.

The politically connected do not have to compete and can skim the cream off the top while the rest of our consortia—people who probably have better ideas, but neglected to hire a high-priced lobbyist or win the ear of an Appropriations member or staffer, have to scramble for the scraps.

Further, the earmarks eat into funding for a program that was probably underfunded even at the higher House appropriation number of \$624 million—much less the lower conference number of \$474 million. The almost 3,000 consortia that were competing for these funds last year applied for a total of more than \$8.5 billion in support. Now we certainly cannot afford to support every good idea, but with so many good ideas competing for support we cannot afford to let a handful of Members choose winners based on such important criteria as whether the consortia is in their district or whether the consortia has a lobbyist that is a former staff member.

I want to remind the Secretary of Defense that these earmarks in report language are not binding. Further, the direction that the Department of Defense treat these as items of congressional interest may not be binding either since that request is contained in report language which does not have the status of law and was not endorsed by the Congress. I hope that the Secretary will resist these instructions to ignore the law. I promise to work with the Department of Defense to help provide some support in this institution.

OTHER EARMARKS IN RDT&E

For my colleagues' information, I want to draw their attention to earmarks in four other areas of the RDT&E: Medical research, Army accounts, Air Force accounts and Defensewide accounts. I want to warn my colleagues that not every item of congressional interest is necessarily an earmark—sometimes it may simply reflect an item that Congress has been wrangling with the Pentagon over and Congress wants to make sure that the Pentagon understands how important the item is. But with less than 24 hours to look at the bill, using such items as a surrogate for earmarks is the most practical step.

MEDICAL RESEARCH EARMARKS

The RDT&E medical research account is replete with items of congressional interest. By my staff's calculation, 38 percent of the total provided for medical research is so designated. That amounts to almost \$196 million out of \$518 million that has been set aside at the direction of the Defense Appropriations Subcommittee members. These items can be broken out by Service: The Army has to set aside \$129.5 million out of its \$359.5 million appropriation; the Navy has been told to set aside \$40 million of its \$93 million appropriation; it is recommended that defense agencies set aside \$26.3 million of their \$59.3 million for purposes specified by the Appropriations Subcommittee members. Only the Air Force escapes unscathed, but their appropriation amounts to a mere \$6.3 million, apparently too little to carry significant earmarks.

DEFENSEWIDE RDT&E

Defensewide RDT&E \$8.8 billion. Of that amount, \$838.7 million—almost 10 percent—is identified as an item of congressional interest. Not all of these moneys may be earmarked.

The fact is that all of the technology reinvestment program dollars are identified as items of interest even though the reports identify only \$145.6 million for specific projects. If we assume that the remaining TRP dollars are recommended by conferees to be competed, that leaves approximately \$468.6 million in items of congressional interest.

Some of the more important DOD initiatives appear to be largely hijacked by earmarks. Two examples: \$17.5 of \$21.8 million in the manufacturing technology account are set aside, \$31.25 million of the \$46.25 million in electric vehicle technology are set aside. This is a very disturbing situation and I hope that the chairman of the Defense Subcommittee can provide some light on this situation.

ARMY RDT&E

The Army received a \$5.4 billion appropriation for RDT&E. Of that amount, \$297.3 million are identified as items of congressional interest. Again, some specific programs seem to be particular targets: Environmental quality technology received \$54.1 million while \$24.9 is set aside; manufacturing technology has \$28.2 million of its \$43.2 million appropriation set aside; \$6 million of the \$17.3 million in materials technology has been set aside.

NAVY RDT&E

The Navy received an \$8.4 billion appropriation for RDT&E. Items of congressional interest in the Navy accounts add up to \$379.4 million. Favorite categories for such interest include: Advanced technology transition, which received \$85.9 million but had \$49.7 million set aside; interest in manufacturing technology is particularly high with \$140.2 million out of the \$142.2 million appropriated identified as an item of interest.

AIR FORCE RDT&E

Appropriations for Air Force RDT&E amount to \$12.3 billion. Items of interest total \$319 million. There is a wider spread of items of interest in the Air Force appropriation. Advanced radiation technology has \$39.3 million of its \$94.7 million set aside as items of interest. Of the \$14.1 million appropriated for computer resource technology transfer, \$7 million is set aside. At the same time, many of the Air Force earmarks are not identified as items of interest, apparently because they were included in the legislation itself. These items amount to \$76 million and were included in amendment No. 100.

A complete analysis of the Defense Appropriations bill will take weeks of work, but this quick check indicates that there are probably several billion in earmarks folded into the bill and accompanying reports. Most of these earmarks are associated with efforts to direct research dollars to favored contractors, bases or universities. This process keeps the taxpayer from getting the best return on their tax dollars and denies the Nation the benefits of letting the best ideas win and the best products move forward.

I continue to be disappointed in the level of report-language earmarks included with the bill. I am also disappointed with the process by which this bill was brought to the floor—there was nothing deliberative or particularly public about it. I know we can do better and I ask my colleagues to join me in working for reforms to our own rules as well as calling on

the White House to issue an Executive order that would help get report-language earmarks under control.

Mr. CUNNINGHAM. Mr. Speaker, I rise today in support of the conference report on H.R. 3116. While I wish the overall levels in the bill could be higher, I think that given the constraints placed upon them, the distinguished gentlemen from Pennsylvania, Representatives JOHN MURTHA and JOE MCDADE, have done an outstanding job.

I want to specifically address an issue of critical importance to our national security and one which has generated some controversy; namely, the decision to build a new nuclear aircraft carrier. As a former naval aviator and one who has served eight tours on aircraft carriers at sea, I would contend that this is a subject with which I am somewhat familiar. Furthermore, as a member of the Armed Services Committee, I have spent a considerable amount of time reviewing our national security requirements and the deliberations surrounding Secretary Aspin's Bottom-Up Review.

Clearly, the world remains a dangerous place and we will continue to have a need for a strong national defense. The question facing the House is how much defense and what kind of defense.

While I do not agree with all of the conclusions of the Bottom-Up Review, I strongly endorse its recommendations on aircraft carriers. The review concludes that carriers must remain a core element in our military force posture. They provide a highly mobile and capable military force that can be deployed anywhere in the world. Secretary Aspin and his advisors have rediscovered or at least revalidated a conclusion that every president since World War II has known. Aircraft carriers are an essential tool both diplomatically and militarily. Aircraft carriers have been called upon more than 140 times since the end of World War II to go to the scene of a crisis. In more than 90 percent of those instances, the crisis was resolved peacefully. The presence of an aircraft carrier is a stabilizing influence and provides a very tangible indication of American interest and resolve.

In those instances where carriers have been called upon to fight, they have proven their worth overwhelmingly. The most recent example is the Persian Gulf War, where carriers were used not only to prevent Saddam Hussein from invading Saudi Arabia, but were also an integral part of the attacks on Iraq.

Mr. Speaker, the Congress this year is faced with the decision of whether to fund a new aircraft carrier to keep the fleet at the level necessary to protect American interests. The administration has concluded that a minimum of 12 aircraft carriers is necessary to the national security. I personally believe that even that figure may be too low.

President Clinton has found himself with a well-equipped, superbly trained military because of decisions made in the 1980s. We owe it to our future Presidents to decide to fund CVN-76, so they have the resources to protect American interests in the future.

Some have argued that we can live with fewer carriers now that the cold war is over. But we already are moving to fewer carriers, down from 15 over the most of the last decade. Eight carriers are not enough. Even with

12 carriers, we will not be able to keep one carrier deployed in the western Pacific full time. This should alarm us in view of the continuing tension in Korea. Even with this twelfth carrier, there will be gaps of as much as 4 months, because we will not have the ships available for deployment.

Mr. Speaker, I firmly believe that we are already taking far too many risks by cutting back our defenses. CVN-76 is absolutely essential to preserving even a shadow of strength. I remind the House that with 12 carriers, our sailors will be spending at least 6 months at sea on each deployment. Navy families will be suffering great hardships. Morale, recruiting, and reenlistment will all suffer, and we will be back to the problems we faced in the Carter years.

Both the Bush and Clinton administrations support building a new carrier as essential to projecting power around the world. The conference report before us takes the first important steps to insuring that CVN-76 is a reality. I urge the House to support the conference report and support funding for an additional aircraft carrier.

Ms. SHEPHERD. Mr. Speaker, I rise today to express my objection to the \$1.2 billion provided for a new CVN-76 aircraft carrier in the fiscal year 1994 Defense appropriations conference report. My esteemed colleagues may not even be aware that this money was appropriated, since it was hidden so well. If you read through the bill you won't find anything that says "appropriate \$1.2 billion for a new aircraft carrier." What you will find, if you look closely enough, is that the budget for national defense sealift has ballooned from \$400 million in the House-passed bill to \$1.5 billion in the conference report. Apparently, the supporters of this carrier don't feel it could survive any kind of close scrutiny, so they decided to camouflage it the best they could.

Mr. Speaker, I don't think that this is the way we should be doing business. As you know, this carrier was neither authorized by the House or Senate Armed Services Committee, nor requested by either the Navy or the President. The decision to build a carrier has profound implications for our national force structure and for every defense spending decision we make in the years to come. I personally am not convinced that we need a new nuclear carrier at this time, and many others share my concern, such as Senator NUNN, who has testified that a decision to fund the carrier now will worsen future military budget shortfalls. An investment of this magnitude deserves to be debated by the authorizing committees as part of their hearings on the Bottom-Up Review over the next 6 months. This kind of backdoor funding circumvents rational decisionmaking and makes a mockery of the committee process.

Everyone here should keep in mind that \$1.2 billion spend this year will translate into a \$25 billion commitment down the road to complete the carrier and equip it with planes and support vessels. I don't think we should jump blindly into such a huge, expensive project. We should give the authorizing committees a chance to conduct a reasoned debate where all the facts can come out, and we can really decide whether we need another nuclear aircraft carrier. I strenuously object to this attempt to sneak \$1.2 billion into the

budget through the back door under cover of darkness for a project which has not been fully debated in the House. It is precisely this type of closed-door dealmaking that infuriates the American people and erodes their faith in Congress.

Ms. FURSE. Mr. Speaker, I want to take a moment to call attention to an extremely important provision of H.R. 3116, the 1994 Defense appropriations bill regarding the establishment of a marine and environmental research station at South Tongue Point in Oregon.

My predecessor, Congressman Les AuCoin, and Oregon's senior Senator MARK O. HATFIELD worked diligently on opening a new MHC facility in Astoria, OR. In anticipation of this event, State and local agencies expended countless resources in environmental and strategic planning to ensure that the Navy would be well received. Unfortunately, the Navy announced earlier this year that it would implement a countermeasure consolidation plan which would not include Astoria.

I was contacted by local and State officials who were stunned that their investments in land and facilities would go for naught. I immediately voiced my objection to Admiral Kelso that the State has put considerable resources and time working on this project, and the Navy's decision rendered such worthless. Senator HATFIELD and I had numerous meetings with the Navy and eventually, the Navy reevaluated its initial position and decided to provide the State of Oregon \$2 million for the marine and environmental science station at the South Tongue Point site.

The bill before us today provides \$2 million for the establishment of a marine and environmental research station at the former homeport site at South Tongue Point in Astoria. This center will provide assistance to the Navy, Coast Guard, and National Oceanic and Atmospheric Administration in increasingly important environmental study needs.

The Marine and Environmental Research Center at South Tongue Point will serve as a great resource for the entire community, our State, as well as for our country. It has the ability to combine the work of our local educational institutions—Clatsop Community College, the Oregon Graduate Institute, and Portland State University—with educators, trainees, and students to tackle the environmental and maritime issues facing our region and country. Whether it is conducting salmon research, gaining new understanding of healthy estuaries, teaching marine safety, or developing new fishing methods, the Marine and Environmental Research Station will be a model for the country and an important national resource for years to come.

I also want to extend my thanks to Chairman MURTHA of the Defense Appropriations Subcommittee here in the House for his willingness to work with me on this and other issues. The people of northwest Oregon owe a huge debt of gratitude to Senator HATFIELD for his dedication and hard work on this matter. On behalf of the first district of Oregon, I stand before the House today and welcome the Navy's Marine and Environmental Research Station to South Tongue Point.

Mr. GILMAN. Mr. Speaker, I rise today in support of the conference report on H.R.

3116, the Department of Defense Appropriations Act for fiscal year 1994.

I am particularly pleased that the conferees included \$2,500,000 from the Defense Conversion Program for a health care network in New York. These funds will support a unique regional medical information network being developed by New York Medical College [NYMC] in Valhalla, NY.

This network is being designed to link the resources of NYMC, through a computerized telecommunications system, with over 30 affiliated hospitals, including two Veterans Administration facilities, as well as several community-based primary health care centers and individual medical practitioners in the New York metropolitan area, extending from New York City to the Hudson River Valley.

This advanced technology system will build upon the education work being done by NYMC in helping to provide quality and cost-effective health care services in the region. Studies have shown that such a system can significantly improve the quality of health care for patients, relieve unnecessary burdens on primary care physicians, and reduce costs.

I believe that this project will be a model for defense-related medical facilities and demonstrate the value of telemedicine technology in the training of primary care physicians in both hospitals and community-based settings.

Mr. Speaker, I would like to thank the Chairman, Mr. MURTHA, the ranking minority member, Mr. MCDADE, and the other conferees for their outstanding work on this important legislation.

Ms. PELOSI. Mr. Speaker, I wish to congratulate my colleagues on the Defense Appropriations Subcommittee for a number of initiatives they have brought forward in the conference report before us.

In particular, I commend the creative manner in which they have employed the expertise and program support in a number of diverse Department of Defense agencies to support defense conversion, worker retraining, and health care initiatives.

I would like to note that as part of its ongoing interest in research, the committee provided explicit direction to the Department of the Army to support medical institutions with dedicated breast cancer centers. This support will prove invaluable in meeting the challenge of the breast cancer epidemic which will affect 1 in 9 American women. This language has been the subject of considerable discussions involving the Appropriations Committee staff and the Armed Services Committee staff.

I want to congratulate my colleague, RON DELLUMS, for his continued personal interest in this initiative, as well as the subcommittee chairman, Mr. MURTHA. The criteria the committee has adopted for the awarding of these grants are designed to provide preferential treatment to institutions that have demonstrated expertise in the treatment of breast cancer and which have already undertaken cost containment initiatives through mergers and consolidations.

In my district of San Francisco, CA, the California Pacific Medical Center is one such institution. California Pacific Medical Center does offer new advances in applied research and model systems of health care delivery for breast cancer, including early detection, pre-

vention, treatment, education, and community outreach. It is an institution that has long had a dedicated breast cancer center providing accessible treatment and timely application of new protocols.

California Pacific Medical Center has prior demonstrated experience serving as a regional magnet facility for doctor education and patient services through the most modern teaching and teleconferencing methods. And, as I have noted, California Pacific Medical Center has demonstrated its commitment to cost containment through the recent merger of Pacific Presbyterian Hospital and Children's Hospital.

I look forward to working with my colleagues in the leadership of the Armed Services and Appropriations Committees to assist California Pacific Medical Center in securing timely approval of a \$5 million grant.

Mr. MURTHA. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The conference report was agreed to.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 225

Mr. HOKE. Mr. Speaker, I ask unanimous consent that the gentleman from Ohio [Mr. HOBSON] be removed as a cosponsor of H.R. 225.

The SPEAKER pro tempore (Mr. MAZZOLI). Is there objection to the request of the gentleman from Ohio?

There was no objection.

PROVIDING FOR CONSIDERATION OF H.R. 1025, BRADY HANDGUN VIOLENCE PREVENTION ACT

Mr. DERRICK. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 302 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 302

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for consideration of the bill (H.R. 1025) to provide for a waiting period before the purchase of a handgun, and for the establishment of a national instant criminal background check system to be contacted by firearms dealers before the transfer of any firearm. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and the amendments made in order by this resolution and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on the Judiciary. After general debate the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider an original bill for the purpose of amendment under the five-minute rule the amendment in the nature of a substitute recom-

ommended by the Committee on the Judiciary now printed in the bill, modified by the amendment printed in part 1 of the report of the Committee on Rules accompanying this resolution. The committee amendment in the nature of a substitute, as modified, shall be considered as read. All points of order against the committee amendment in the nature of a substitute, as modified, are waived. No amendment to the committee amendment in the nature of a substitute, as modified, shall be in order except those printed in part 2 of the report of the Committee on Rules. Each amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against the amendment numbered 3 in part 2 of the report are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the amendment in the nature of a substitute made in order as original text. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from South Carolina [Mr. DERRICK] is recognized for 1 hour.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from New York [Mr. SOLOMON], pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 302 is a rule providing for the consideration of H.R. 1025, the Brady handgun violence prevention Act. The rule provides for 1 hour of general debate equally divided and controlled by the chairman and ranking minority member of the Judiciary Committee. The rule waives all points of order against consideration of the bill.

The rule makes in order the Judiciary Committee amendment in the nature of a substitute now printed in the bill and modified by the amendment printed in part 1 of the report, as an original bill for the purpose of amendment. The substitute shall be considered as read. The rule further waives all points of order against the substitute.

The rule makes in order only those amendments printed in the report to accompany the rule. All points of order against amendment number three—the McCollum amendment—are waived and each amendment shall be considered as read. The amendments shall be considered in the order and manner specified in the report and by the Member designated in the report. Each amendment

shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

Finally the rule provides for one motion to recommit with or without instructions.

Mr. Speaker, the Brady Handgun Violence Prevention Act was first introduced 6 years ago. Since 1987, more than 150,000 Americans have been killed by handguns. That is more Americans killed than in World War I, the Korean war, and the Vietnam war combined. The numbers continue to mount. Every day, another 60 Americans are killed with handguns and dozens of others are wounded and injured.

In 1990 handguns were used to murder 13 people in Sweden; 91 in Switzerland; 87 in Japan; 68 in Canada; 22 in Great Britain; 10 in Australia; and 10,567 in the United States. Handguns have pushed our Nation's crime rate to an all-time high. Every year handguns are involved in more than 640,000 felonies in America. While the murder rate has soared over the past 6 years, there has actually been a decrease in murders committed by weapons other than handguns. Handguns alone have been responsible for the entire increase in the national murder rate from 1987 to 1992.

Passage of the Brady bill will tilt the balance of law enforcement in favor of the potential victim and against the criminal. Named for the former White House Press Secretary James Brady, who was shot during the 1981 assassination attempt of President Reagan, this legislation will give police officers an additional tool in combating crime.

The Brady bill provides for a 5-business-day waiting period for the purchase of a handgun. During the waiting period, local law enforcement authorities would check the background of the purchaser to ensure that the sale would not violate Federal or State law. This year's version of the Brady bill also commits this Nation to the creation of a national instant check system and establishes a timetable for its implementation. The Brady bill will be phased out once a national instant check computer hotline is operational. In addition, the bill authorizes funds to State and local governments to computerize their criminal records.

While the Brady bill is not a panacea that will end all handgun crimes, the waiting period will save lives by providing a cooling off period that will prevent handgun purchases in the heat of passion. Having practiced trial law for years, it was my observation that when a handgun was fired in domestic disputes, its bullets all too often struck innocent victims.

The Brady bill will work because many States across the country have already enacted their own laws impos-

ing waiting periods and background checks which are working. Twenty-two States now have either a waiting period or a licensing requirement that require a background check of the purchaser to ensure that the sale is legal. In California, a 15-day waiting period with background check stopped 16,420 illegal gun purchases from January 1, 1993 to September 1, 1993. In Illinois, 2,896 permits were denied and 3,001 revoked because the purchasers had felony convictions.

While most criminals do not buy guns legitimately, 28 percent of State prison inmates reported that they had bought a gun over the counter from a legitimate gun dealer. Although a criminal will still have access to illegal weapons, the Brady bill will limit his options.

The Brady bill has the support of every major law enforcement group in the Nation including the International Association of Chiefs of Police, Fraternal Order of Police, the Police Foundation, the National Sheriff's Association, the Police Executive Research Forum, the International Brotherhood of Police Officers, and the National Association of Police Organizations.

In addition, organizations representing education, children, the medical community, lawyers, clergy, senior citizens, employees, and government have voiced their support for the Brady bill. The bill has been endorsed by the American Bar Association, the U.S. Conference of Mayors, the National Association of Counties, the U.S. Catholic Conference, the League of Women Voters, the National Education Association, the National League of Cities, the American Federation of State, County and Municipal Employees, the AFL-CIO, and the American Medical Association. And, yes, even gun owners endorse a waiting period and background check for the purchase of handguns.

Mr. Speaker, the American people are demanding an end to the growing epidemic of gun violence. I don't believe anyone will stand in the well of the House today and tell you that the Brady bill alone will stop the mindless and senseless violence caused by handguns. I won't. But, the Brady bill is a commonsense measure that can stand on its own merits. It will help deny handguns to persons who are prevented by law from owning them. This bill is simply good public safety legislation.

Mr. Speaker, the President vowed to sign the Brady bill into law. We cannot afford to wait any longer. Too many lives have been lost to handgun violence already. Passage of the Brady bill is long overdue and this Congress should show the courage to send it to the President before we adjourn for the year.

□ 0950

Mr. Speaker, I think it is a national shame that we do not have this bill on

suspension, that we even have to debate it. It seems to me it is so evident that it is so right for our country, it is so right for our citizens, it is the first major attempt that the Congress has taken in many, many years to deal with the rights of the victim instead of the rights of the perpetrator or the criminal.

So, Mr. Speaker, I would ask all of my colleagues, Members of Congress, to vote for the Brady bill. Let us show the American public that we care for them and we care for their children and we care for future generations.

Mr. Speaker, I reserve the balance of my time.

□ 1000

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there is nothing more dangerous than a foot in the door, and these proceedings are a foot in the door.

Mr. Speaker, I rise in the strongest opposition to this rule. There is no good reason why the bill it makes in order should be considered under a restrictive amending process.

Only 17 amendments were submitted to our Rules Committee from this whole body of 435 Members, and two of those had been withdrawn by the time the Rules Committee voted on this rule. The House could have considered every one of those amendments in less than one day.

Mr. Speaker, while I generally oppose the idea of any time limit on the amending process, in this one case I offered to consider one if the Members would not otherwise have been restricted in their ability to offer amendments, but there was no response to my offer. That means all the other Members are going to be gagged in this House again.

Mr. Speaker, a democracy works best when there is an open marketplace of ideas and the ones with the most support win. Just what ideas relating to this bill are so frightening to the other side that they are unwilling to put them to a vote, to let this House work its will.

Even such a respected authority as the Speaker of the House, responding to a question about the Brady bill yesterday in his press conference said, "My commitment has been to see to it that this bill reached the floor, if it was reported by the committee, as it has been, and to let the House work its will on it."

The Speaker then went on to say, "I am just going to let the House make the decision on the specifics of it, rather than intrude myself into the debate."

I agree with the sentiments expressed by our Speaker yesterday, but that is not what is happening today under the provisions of this rule. Members are being prevented from considering and

voting on ideas that should be before this House.

Many of us have made statements back in our districts about the need for Congress to stop directing State and local governments to do things that cost money when we do not provide the funding to pay for them. And yet that is exactly what we are doing today. It is going to cost a lot of money to computerize State and local criminal records and make them readily available to gun sellers.

Yesterday in the Rules Committee when I raised the question about how much this bill was going to cost State and local governments, I was told that no research had been done on the question, and that nobody really knew what it was going to cost.

Mr. Speaker, in my part of the country, local government budgets are already bursting at the seams because of State and Federal mandates. Most of the revenue has to be raised from a tax on real estate, and the taxpayers are already struggling to pay ever increasing school taxes and local government taxes, brought about by these Federal and State mandates.

Several Members, including a Republican from Colorado [Mr. HEFLEY] and a Republican from New Mexico [Mr. SCHIFF] a valuable member of the Judiciary Committee, and a Democrat from California [Mr. CONDT] all offered amendments in the Rules Committee, which would have prevented additional costs from being dumped on State and local governments, but the House will be denied the opportunity to even vote on those proposals because of this restrictive rule. We will not even be able to debate these proposals, because they are prohibited under this rule.

Mr. Speaker, I am not a supporter of the Brady bill, but it seems to me that the supporters of this legislation are creating unnecessary extra problems for themselves by the use of this heavy handed process.

Another amendment which the House should have had an opportunity to consider is one by the gentleman from Missouri [Mr. VOLKMER], a Democrat from the other side of the aisle, a very good Member. The Volkmer amendment provides that the chief law enforcement officer responsible for providing criminal background checks will not be liable for damages if the officer has diligently searched available records which may indicate that the prospective purchaser may not lawfully receive a handgun, and the prevention is due to reasonable reliance upon such records.

Mr. Speaker, without this amendment we are opening up those officials

on a local level responsible for conducting the criminal checks to a large number of lawsuits. The costs of those lawsuits will also end up being borne by the local taxpayers. That is why this bill could fairly be titled the Brady Lawyer Relief Act of 1993.

Mr. Speaker, this rule also represents a major missed opportunity for the House. The Judiciary Committee was scheduled to mark up a crime bill covering a broad range of subjects a week or so ago, but at the last minute dropped it and instead took up six-crime related grant programs which were not actually funded by their own provisions.

So what does that mean?

These bills provided good press releases for some Members, but will do absolutely nothing to fight the crime wave rolling across this nation today. The only other piece of so-called crime legislation reported to the House this year is the Brady bill, which is likely to have little or no effect on serious criminals, and every one in this House knows that.

The gentleman from Florida [Mr. McCOLLUM] gave the Rules Committee an opportunity to do something that would really make a difference in the fight against crime, but the Democrats on a party line vote turned it down again. They are against doing anything about crime in this Nation.

The McCollum amendment would have given this House a chance to consider a comprehensive, anticrime bill dealing with tough issues such as the death penalty strengthening the rights of crime victims, and stopping the revolving door for repeat offenders.

Mr. Speaker, by adopting this rule in its present form the House will have missed an opportunity to take real steps in the fight against crime.

Mr. Speaker, there are a lot of other problems with this bill, but the one that concerns me most is simply that it is a foot in the door which, without exception and without question, will lead to additional steps to take the right to bear arms away from law-abiding American citizens.

If this trend is carried to an extreme, by people like the senior Senator from New York who wants to tax ammunition to pay for the health care program, the most ridiculous proposal I have ever heard come out of a Senator's mouth, we can end up with the sort of crime-ridden situation that we have now in the District of Columbia, which actually has some of the strictest gun laws in the Nation.

The SPEAKER pro tempore (Mr. MAZZOLI). The Chair would remind the gentleman from New York that charac-

terizations of Members of the other body are not permitted under our rule.

Mr. SOLOMON. The Speaker is absolutely right. I appreciate his observation.

If this trend is carried to an extreme, we can end up with the sort of situation nationally that we have now in the District of Columbia, right here where you and I sit today, which have some of the strictest gun control laws in this Nation. The law-abiding citizens have been disarmed in this town, but the law breakers are armed to the teeth, secure in the knowledge that the law-abiding citizens are not going to be able to defend themselves.

This kind of gun control has resulted in over 400 homicides this year alone, and the year is not even over yet, right here in the Nation's capital. Every Member of this House ought to be ashamed of it, especially for not doing anything about it.

Mr. Speaker, it is too bad that we no longer have a President who is willing to stand up for the right of Americans to bear arms.

I hope all the people out there in America know this. If this bill is not stopped here, they can be certain that it will not be stopped anywhere, especially at the White House.

Mr. Speaker, this bill represents a step in the wrong direction. It opens the door to taking away our guns, and both this rule and the bill should be soundly defeated.

Vote no on this rule that severely restricts open and fair debate on this extremely controversial issue.

Mr. Speaker, I include the following material on open versus restrictive rules:

OPEN VERSUS RESTRICTIVE RULES 95TH-103D CONG.

Congress (years)	Total rules granted ¹	Open rules		Restrictive rules	
		Number	Percent ²	Number	Percent ³
95th (1977-78)	211	179	85	32	15
96th (1979-80)	214	161	75	53	25
97th (1981-82)	120	90	75	30	25
98th (1983-84)	155	105	68	50	32
99th (1985-86)	115	65	57	50	43
100th (1987-88)	123	66	54	57	46
101st (1989-90)	104	47	45	57	55
102d (1991-92)	109	37	34	72	66
103d (1993-94)	47	12	26	35	74

¹ Total rules counted are all order of business resolutions reported from the Rules Committee which provide for the initial consideration of legislation, except rules on appropriations bills which only waive points of order. Original jurisdiction measures reported as privileged are also not counted.

² Open rules are those which permit any Member to offer any germane amendment to a measure so long as it is otherwise in compliance with the rules of the House. The parenthetical percentages are open rules as a percent of total rules granted.

³ Restrictive rules are those which limit the number of amendments which can be offered, and include so-called modified open and modified closed rules, as well as completely closed rule, and rules providing for consideration in the House as opposed to the Committee of the Whole. The parenthetical percentages are restrictive rules as a percent of total rules granted.

ROLLCALL VOTES IN THE RULES COMMITTEE ON H.R. 1025, THE BRADY HANDGUN VIOLENCE PREVENTION ACT

1. Open rule—This amendment to the proposed rule provides for one-hour, open rule and makes the Judiciary Committee amendment in the nature of a substitute in order as an original bill for the purpose of amendment under the five-minute rule.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

2. Bartlett (MD)—An amendment in the nature of a substitute which accomplishes the stated goals of the Brady bill. Establishes a national computerized list of convicted felons and persons adjudicated mentally incompetent to be used in conjunction with drivers license renewal and status encoded on license. Dealer would simply run license through a read only machine to determine if the gun could be sold. This would all be done without a five day waiting period or a national registry of gun owners.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

3. Schiff (NM)—This amendment redefines the term "chief law enforcement officer" as the local field director of the Federal Bureau of Investigation, thus transferring the burden of the criminal background check from State and local officials to the federal government.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson,

Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

4. Schiff/Condit—This amendment proposes that the federal government reimburse, at a rate determined in advance by the Attorney General of the United States, the state or local entity responsible for performing the criminal background check.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

5. Schiff (NM)—This amendment will permit a state or local law enforcement agency to perform the criminal history background check, rather than compel such state to do so.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

6. Goodlatte (VA)—Exempts those States that have an online instant check system; clarifies language regarding destruction of records.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

7. Volkmer (MO)—Provides that a chief law enforcement officer responsible for providing criminal background checks, shall not be held liable for damages if the officer has diligently searched available records which may indicate that the person may not lawfully receive a handgun, and the prevention is due to reasonable reliance upon such records.

Vote (Defeated 5-6): Yeas—Solomon, Quillen, Dreier, Goss, Wheat; Nays—Derrick,

Beilenson, Frost, Bonior, Hall, Slaughter. Not voting: Moakley, Gordon

8. McCollum (FL)—Adds the text of H.R. 2872, the Violent Crime Control Act of 1993, at the end of the bill.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

9. Traficant (OH)—Requires that the Justice Department adhere to the Buy American Act of 1933. The amendment also states a Sense of the Congress that states use American made goods when expanding their federal grants to upgrade their criminal files. Finally, the amendment prohibits anyone to receive funds under H.R. 1025 who knowing affixes "Made in America" labels to foreign made goods.

Traficant (OH)—This amendment prohibits the Attorney General from awarding a contract under H.R. 1025 to a foreign firm unless the country where the firm is based has an open trade policy with the United States.

Vote (Defeated 4-6): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Slaughter. Not voting: Moakley, Wheat, Gordon

10. Hefley (CO)—An amendment to require full funding of costs to state and local governments.

Vote (Defeated 4-7): Yeas—Solomon, Quillen, Dreier, Goss; Nays—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter. Not voting: Moakley, Gordon

11. Beilenson Motion—To waive germaneness rule against McCollum #13 (see rollcall #8).

Vote (Adopted 6-5): Yeas—Derrick, Beilenson, Frost, Bonior, Hall, Wheat; Nays—Solomon, Quillen, Dreier, Goss, Slaughter. Not voting: Moakley, Gordon

12. Adoption of Rule—

Vote (Adopted 7-4): Yeas—Derrick, Beilenson, Frost, Bonior, Hall, Wheat, Slaughter; Nays—Solomon, Quillen, Dreier, Goss. Not voting: Moakley, Gordon

Note: The individual amendments would be printed in the Rules Committee report, would not be subject to amendment, would be debatable for 20 minutes each, and appropriate points of order would be waived.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the distinguished gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I thank the gentleman for yielding this time to me, and I thank him for his very eloquent statement, because he put it right down where it is.

Listen, this is not about putting a foot in the door. This is about restoring your rights. You can have your rights if you take responsibility. Somehow we have lost that in the eighties, and this is very important to get us back on track.

□ 1010

What are your rights to a gun.

You don't have rights to a gun if you're convicted, and that is what this is about, if you are convicted of a crime.

Now we do not let them vote if they are convicted of a crime, but we are going to let people have guns? For crying out loud, explain that to me.

This is long overdue, and I am very, very pleased this is coming to the floor, and I want to thank the gentleman from New York [Mr. SCHUMER] and many others who have worked so hard to get it here.

I must say the biggest oversight I saw was the part where we did not get domestic violence included in here. I think people who have been convicted of domestic violence should also be in this, and I also think people who are under restraining orders should be under this because so many of the gun felonies are against people who are in the same family.

However, Mr. Speaker, I am very pleased that the Committee on the Judiciary is going to move on the Violence Against Women Act, and we can deal with it there, because we have been winking at domestic violence for a very long time in this country, and it is time the Federal Government says, and says strongly, "We want the States to take this much more seriously, we want this beefed up, and we really want these moved up to a felony level across the board so they will be in this thing." I think that is going to start happening, and I am pleased that we are going to try and do that before we adjourn because it really has been much too long in doing it.

It has been much too long in moving the Brady bill, so I encourage people

today to vote for this rule and vote for this bill and finally say that we are coming to our senses in this country. We require people to have certain responsible acts to do anything else, drive a car, go to school, do all sorts of things. But here, oh, no, anyone, any age, anywhere, whether or not they have been convicted of a felony, can go out and do that. That is wrong. We are going to correct it today, and I encourage an aye vote and a move to final passage as rapidly as possible.

Mr. SOLOMON. Mr. Speaker, I yield 2 minutes to the very distinguished gentleman from California [Mr. DREIER], a member of the Committee on Rules.

Mr. DREIER. Mr. Speaker, I thank my friend from Glens Falls for yielding this time to me.

If anyone wants to know what is wrong with this institution, they should look at this process that we have got before us right here. It is a fascinating irony. The goal behind this Brady bill is to impose a 5-day waiting period for the purchase of handguns, and yet look at the process around which we are considering this measure. We are waiving the 3-day waiting period for consideration of the bill itself. We are not allowing Members to have the opportunity to even look at this bill.

Mr. Speaker, we had a litany of amendments that we offered up there in the Committee on Rules, and, as is usually the case, we were denied the opportunity even to have those amendments considered here. But actually the amendments, the three amendments that were made in order by this rule, are contained in the report of the Committee on Rules, and that report is not even available for our Members to see yet.

So, Mr. Speaker, it is incredible when we look at the fact that we are trying to increase the availability of information on people with this 5-day waiting period and yet we are not allowing Members of this House the opportunity to even look at the measure that they are going to be voting on, and I urge a no vote on this rule.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Missouri [Mr. VOLKMER].

Mr. SOLOMON. Mr. Speaker, I, too, yield 2 minutes to the gentleman from Missouri [Mr. VOLKMER].

The SPEAKER pro tempore (Mr. MAZZOLI). The gentleman from Missouri [Mr. VOLKMER] is recognized for 4 minutes.

Mr. VOLKMER. Mr. Speaker, I remain opposed to a federally imposed waiting period prior to the sale of a handgun. There is no evidence that a waiting period of any length, including a 5-business day wait as contained in the interim provision of H.R. 1025, prevents violent crime. As a matter of fact waiting periods of any length have not

been effective. Two-thirds of Americans are already living under some type of waiting period. Twenty of 22 States, as well as the District of Columbia, with waiting and/or permit to purchase laws experienced increases in violent crime rates from 1987 to 1991. Most States that have imposed some type of waiting period on firearms purchases have experienced increases in violent crime or homicide rates greater than the national trend. The 5-business day waiting period as required in H.R. 1025 imposes a burden on those who obey the law, with no benefit in terms of crime control.

If we are going to reduce violent crime in this country, we must first keep young people from turning into violent criminals, and second, we must do something about the violent criminals that regrettably we already have.

In the first, the Judiciary Committee, under the chairmanship of Chairman BROOKS, has taken action. Several bills that provide grants for States that will help them try to dissuade young people from becoming violent criminals were reported from the committee. The full house then debated and passed the majority of these measures with my support. On the second point, what are we doing? Debating the so-called Brady bill. I wish I could convince my colleagues who want to infringe on the rights of law abiding citizens to own and use firearms that the answers to solving the crime problems in America has nothing whatsoever to do with gun control. Getting criminals off the street is the only way to solve the crime problems.

I believe the leading immediate cause of violent crime is the revolving door of violent criminals in our prisons where convicted criminals get a substantial portion off of their sentences from prison, and then are allowed back out on the street, and we all know what happens then. It is ludicrous to think that tougher gun laws will stop criminals from using guns in crime. They don't obtain them legally to begin with and they won't stop obtaining them no matter what law is passed.

Another disturbing provision in H.R. 1025, from a civil liberties perspective, is the granting of absolute immunity from damages to Federal, State, and local government officials, including law enforcement, even if the rights of a law-abiding citizen have been violated in an arbitrary manner. The proponents of a waiting period have long suggested that the purpose of such a wait is to allow time to scrutinize handgun purchasers as a means of stopping only criminals from making purchases through retail outlets. However, H.R. 1025 gives government at all levels virtually unchecked veto power over handgun sales, with no threat of penalty for even bad faith abuse of that power. Regardless of the reason for the denial individuals unlawfully denied

their rights would have to bring suit in Federal court and prove that they are not ineligible to purchase a handgun. I believe this goes beyond the bill's objective. I, of course, believe it is appropriate to shield government officials from the threat of damages in the event that they, in good faith, after a diligent effort to review records, prevent a lawful sale.

Another problem is that H.R. 1025 fails to impose a time certain for the implementation of the national instant check system. I believe that a date for the implementation of a Federal point-of-sale screening system should be set, by law, and adhered to. H.R. 1025 leaves it up to the Attorney General to establish timetables and those timetables could well be unreasonably long thereby delaying establishment of the national system for many years. There is no good reason to delay indefinitely the implementation of a national instant check system.

I object to the fact that, when a national instant check system does begin, H.R. 1025 requires that purchasers of all firearms, including rifles and shotguns, be subject to the check. This is unnecessary because of the minuscule use of long guns in crime—according to the uniform crime report, well under 1 percent of all violent crime—and would impose a burden on individuals, firearms dealers, law enforcement, or the Federal Government. It is an unnecessary expense.

The final point I wish to make regarding H.R. 1025 is that it does not impose a uniform national standard for the purchase of handguns once the Federal point-of-purchase system is implemented. The instant check system is already successfully working in five States and once the Federal system comes on, it is only sensible to preempt State laws requiring a wait following the verification of the eligibility of the purchaser.

In conclusion the provisions of H.R. 1025 are a foundation for far more rigorous measures in the near future. Even Sarah Brady agrees that this legislation, or any waiting period, can do little to curb gun related violence. So I would venture to guess that Congress in trying to control crime with Federal gun control legislation will realize that this measure has not been effective. After this realization Congress will demand that even more sweeping and more effective laws are needed at once.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the distinguished gentleman from Ohio [Mr. TRAFICANT].

Mr. TRAFICANT. Mr. Speaker, this debate today is not about handguns, not about bullets, not about hunters. It is not about victims. It is not even about Mr. Brady. Today's vote in the House of Representatives is about U.S. congressional politicians and their relationship with the National Rifle As-

sociation. This is a litmus test. The Brady bill will not do very much, but, if Congress cannot deal with the politics of this issue by passing this simple measure, nothing will be done to turn the tide. My colleagues, America has turned back into Dodge City, and Congress, as sure as hell, is no Wyatt Earp.

□ 1020

There have been 25,000 murders, we have street gangs, drive-through, drive-by, and drive-in shootings. Americans are not safe in their own homes.

Let me say this to the Members: There will be no national Federal firearms policy until the NRA and the police associations and Congress come together. NRA is not the bad guy, but we have been pitted one against the other, and there will be no policy.

I am voting for the Brady bill for one reason. It is a simple litmus test. If Congress cannot deal with this issue, Congress will deal with no issue, and the great sin of Congress is omission, not commission.

The Brady bill is at best the litmus test by which we can start. The NRA is the big cloud hanging over this House today, and it is time that the politicians meet the test.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have great respect for the previous speaker in the well, but for him to deliberately criticize people like me, who belong as lifelong members of the NRA, is something I resent. So do a lot of other law-abiding citizens across this Nation. The NRA represents a broad cross-section of Americans, and it should not be criticized as if it wields some kind of undue influence—it has millions of members who believe in it.

Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin [Mr. SENBRENNER], a distinguished member of the Committee on the Judiciary.

Mr. SENBRENNER. Mr. Speaker, I thank the gentleman from New York for yielding me this time.

Mr. Speaker, I rise in support of this rule, not because it is a good rule, because it is not. I believe that it is much too restrictive in prohibiting legitimate amendments that should be offered to this bill so the House can reach a consensus. But I am supporting this rule because this is our only shot to bring the Brady bill up as separate legislation during this Congress.

The American public deserves an up-or-down vote on the concept of a waiting period, a concept which most polls indicate the public supports by over 85 percent. I think we owe that to our constituents. I think we owe it to them to stand up and be counted on whether we are for the Brady bill and the waiting period or whether we are against it.

If this rule goes down and the House cannot consider the waiting period on its merits, then the waiting period is

going to be folded into a comprehensive overall omnibus crime bill, and the waiting period is going to die next year just like it did last year because of the other controversial issues that are contained in an omnibus crime bill.

So let us get on with voting for the Brady bill. Let us pass the Brady bill because our constituents want it, and the Brady bill will keep guns out of the hands of people like convicted felons and adjudicated mental incompetents and thus protect the right of the legitimate firearms owner to continue getting access to firearms.

Mr. DERRICK. Mr. Speaker, for the purposes of debate only, I yield 2 minutes to the gentleman from Virginia [Mr. MORAN].

Mr. MORAN. Mr. Speaker, many of our conscientious colleagues are opposed to the Brady bill, and while I respect their judgment, I cannot agree with their arguments.

One argument, for example, is that the District of Columbia has the toughest gun laws in the Nation and yet it has the most murders. Well, unless the District of Columbia is going to erect a wall around its boundaries, it cannot stop the infusion of guns from all the other States along the east coast, because it is right on Route 95. States that do not have such strict handgun control laws. This is a good argument for why we do need this national legislation.

People suggest that this is going to deprive people of their ability to hunt and to protect themselves. Look at Canada. The majority of adults in Canada hunt, but there were 8 handgun deaths in Canada; there were 23,000 in the United States, 11,000 homicides. What is the difference? There is an enormous difference. Canada has one of the toughest handgun control laws in the world, and it does not interfere with their ability to hunt. It protects their own individual citizens.

People suggest that this is going to deprive them of the ability to protect themselves. What law-abiding citizen is going to worry about giving their name and address and letting the police check it out for 5 days if they have nothing to hide? No one. In fact, more than 80 percent of handgun owners agree with the 5-day waiting period, but a young felon is certainly not going to give his name and address and wait around for 5 days for the police to track him down.

This is a small step. This is not going to make an enormous difference in our objective to reduce the senseless deaths that are occurring as a result of handguns, but it is an important one. Certainly Sarah and Jim Brady deserve the kind of respect that we ought to accord them today, after fighting for years to prevent the kind of catastrophe that occurred to Jim Brady and that occurs to thousands of people every single year in this country.

MAKING IN ORDER IN A MODIFIED FORM THE AMENDMENT NUMBERED 3 IN PART 2 OF HOUSE REPORT 103-341

Mr. DERRICK. Mr. Speaker, I ask unanimous consent that, during consideration of H.R. 1025 pursuant to House Resolution 302, it may be in order to consider the amendment numbered 3 in part 2 of House Report 103-341 in the modified form that I have placed at the desk.

The SPEAKER pro tempore (Mr. MAZZOLI). The Clerk will report the amendment as modified.

The Clerk read as follows:

Amendment to H.R. 1025, as reported and as modified, offered by Mr. MCCOLLUM: In the matter proposed to be added by section 2(b) of the Committee amendment—

(1) strike the close quotation marks and the following period; and

(2) add at the end the following:

“(6)(A) Notwithstanding any provision of the law of any State or political subdivision thereof that imposes a waiting period before the purchase of a firearm, a licensee may transfer and a person may receive a firearm immediately after compliance with paragraph (1).

“(B) Section 927 shall not apply to subparagraph (A) of this paragraph.”

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we thank the gentleman from South Carolina for making that unanimous-consent request, which affects the McCollum amendment.

Mr. Speaker, I spoke earlier about the gentleman from New Mexico [Mr. SCHIFF], who was denied his right to offer an amendment dealing with the unfunded mandates that appear in this bill.

Mr. Speaker, I yield 3 minutes to the gentleman from New Mexico [Mr. SCHIFF], a very valuable member of the Committee on the Judiciary.

Mr. SCHIFF. Mr. Speaker, I thank the gentleman from New York for yielding this time to me.

Mr. Speaker, H.R. 1045, which is before us today, is not the same Brady bill that the House voted on in the last Congress under the designation of H.R. 7. There was a significant change made in terms of making this bill today an unfunded mandate on the local police departments in this country.

H.R. 7 in the last Congress addressed this issue as follows: “Paragraph 1”—that is the background check—“shall not be interpreted to require any action by a chief law enforcement officer which is not otherwise required.” That is the language in the last bill. The language in this bill has Congress requiring local police departments to take their time and their resources to make a background check without Federal support.

I am asking my colleagues to vote down this rule, and if that occurs, I in-

tend to offer three amendments, any one of which would solve this problem: either an amendment to have the Federal Bureau of Investigation do the check, which I suggest would actually improve the bill, because it would set a common quality standard for this check if it is going to be so valuable. But I believe the Department of Justice would come over here screaming against it if they thought they were actually responsible for enforcing this bill that they have endorsed. Or if that is not acceptable, requiring Federal reimbursement at a rate set by the Attorney General of the United States for the local police agencies to do this check. If the supporters think that this background check is valuable enough, they ought to think that it is worth paying for, and thus far they do not. There is an authorization for the instant background check, but not for the personal background check called for immediately.

Or finally, in the alternative, if the Congress is unwilling to have a Federal agency do this background check, if the Congress is unwilling to pay the local agencies to do the background check, then my third alternative would be to remove the mandate. Keep the 5-day waiting period, but not requiring the local police to do the check. Let them decide if they wish to proceed to do the local check. This is significant, because there is an honest debate about whether there is a net gain or a net loss in terms of law enforcement with a personal background check.

The claim is made that the criminals are kept from getting guns. I wish the time existed to go further into the figures we have heard already this morning. At the very least, I would ask the supporters to say, what happens to anyone denied by a check in those States that do a check? I submit that those individuals are left free on the street, and if they are really criminals, they can get a gun in the next number of hours without any difficulty.

But the argument can be made that since most purchasers of handguns, as it has been accepted today, are honest citizens, how much time and effort is lost by the police checking out the backgrounds of honest citizens? That has to be weighed as a loss to law enforcement.

Now, the point I am making here is, if the supporters have come to the conclusion—and they have—that this is a net plus for law enforcement, let them pay for it. Let them back, with the resources at their disposal, their opinion that this would in fact support law enforcement. If they are not willing to do that, then drop the mandate and drop the unfunded requirement on the local agencies that they have to do it.

□ 1030

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes

to the distinguished gentleman from New York [Mr. OWENS].

Mr. OWENS. Mr. Speaker, the Brady bill is a reasonable first step, and I certainly support the bill and the rule. The United States is far behind other industrialized nations. Only South Africa permits the rampant proliferation of guns in its society as we do. Japan, Great Britain, Germany, and France all had less than 100 homicides last year, while each of our largest cities last year had more than 1,000 homicides with guns.

Unfortunately, this rule does not go far enough. It does not permit the offering of an amendment that would incorporate the provisions of a bill I introduced on September 23, a bill called the Public Health and Safety Act of 1993. My bill is a companion piece to Senator CHAFEE's bill in the other body. It is H.R. 3132.

Mr. Speaker, my bill prohibits the importation, exportation, manufacture, sale, purchase, transfer, receipt, possession, or transportation of handguns and handgun ammunition. It establishes a 6-month grace period for the turning in of handguns. It provides many exceptions for gun clubs, hunting clubs, gun collectors, and other people of that kind. It sets a penalty of \$5,000 or 5 years in prison for people who violate it.

Mr. Speaker, the American people are way ahead of the Brady bill at this point. I understand this has to be a very carefully crafted rule in order to move forward. It is important to take the first step with the Brady bill. But the American people realize this is already too little, too late. They demand more.

Mr. Speaker, there are many bills that have been introduced by my colleagues which do go further. This bill, H.R. 3132, the Public Health and Safety Act, will solve the problem in the future of the proliferation of handguns. We must go forward and stop the carnage on our streets, and the Brady bill is a very important first step.

The SPEAKER pro tempore (Mr. MAZZOLI). The Chair would advise that the gentleman from South Carolina [Mr. DERRICK] has 10 minutes remaining, and the gentleman from New York [Mr. SOLOMON] has 10½ minutes remaining.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we just heard the previous speaker, the gentleman from New York City [Mr. OWENS], let the cat out of the bag by saying what the real intent of the sponsors of this bill is, “It is a reasonable first step.”

It is a reasonable first step to the taking away of guns from law-abiding citizens.

Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Pennsylvania [Mr. GEKAS], a member of the Committee on the Judiciary.

Mr. GEKAS. Mr. Speaker, I rise today with the proverbial mixed emotions. On one hand I am grateful to the Committee on Rules for making in order the Gekas amendment, about which I will speak in a moment; but I am at the same time chagrined that they did not see fit to permit the amendments offered by my colleagues, such as the ones described by the gentleman from New Mexico [Mr. SCHIFF]. These would go a long way toward making the Brady bill more attractive and, on a political basis, really draw more votes on final passage, if indeed it will pass.

In the meantime, I ask Members on the floor and those who are in their offices watching on TV that when the Gekas amendment comes to the floor, we would ask that they consider it fully and support it.

What happens when the Gekas amendment comes up is it becomes a confirmation of what every single Member of this House really wants in this issue, and that is an instant check to be made available nationwide, at every gun dealer in the country, where a purchaser of a handgun in submitting his name and address and the other information will instantly learn through the dealer's computer capacity as to whether or not that individual has been convicted of a felony or is mentally incompetent or is otherwise flawed as a bona fide purchaser.

Mr. Speaker, this is the ultimate that is required for this type of legislation, the instant check, and everybody agrees. I will tell the Members now, that the primary provisions in the bill, as the proponents themselves have enclosed them, is to create a primary and an instant check. Only secondarily do they recommend the waiting period as a temporary period during which the instant check can come on board.

My amendment would give 5 years to the authorities that we would designate to create the instant check. Five years. My first thought was to allow 30 minutes, because our information is that the instant check can come on board within months literally of this date. But 5 years, we now say, we will allow for the installation nationwide of an instant check.

In the meantime the waiting period, if this bill passes, will take effect, and then fold out of existence when an instant check is operable across our Nation. That is a reasonable way to approach the primary target of even the proponents of a waiting period, namely, the instant check.

If we allow the bill to proceed as it is, with an instant check only being out in the atmosphere somewhere to be hoped for, to come into being perhaps some day in the next century, then we have accomplished nothing, and the proponents of the waiting period will fail in credibility if they do not put a time certain on their desire to have an instant check.

Mr. Speaker, I oppose the rule on the basis of solidarity with those of my colleagues whose amendments were rejected by the Committee on Rules, because they would have added greatly to this debate.

Mr. Speaker, if this rule is defeated, then we will have an opportunity for even more salutary features in this legislation.

Mr. DERRICK. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the distinguished gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise in support of both the rule and the Brady bill. The rule is a reasonable rule. The three major amendments that were offered in the Committee on the Judiciary are made in order by the rule.

Mr. Speaker, let us face it: many of the amendments that were offered in committee and offered to the Committee on Rules were offered by Members who would not vote for the Brady bill under any circumstances unless it was totally gutted.

Even the gentleman just in the well, the gentleman from Pennsylvania [Mr. GEKAS], would not vote for the Brady bill, even if his amendment were carried, in my judgment. The gentleman is opposed to it.

It say to those Members whose amendments were not made in order, if you do not want to vote for the Brady bill, do not vote for it. Vote against it. But do not try to kill it with amendments that would gut it. It is a good bill; it is a reasonable bill.

Mr. Speaker, it has a 5-day waiting period. In my State of New Jersey it takes roughly 4 months to turn around a permit for a gun. That is too long. Our hunters and our sportsmen in New Jersey would love to have a 5-day waiting period instead of a 4-month waiting period.

The problem in New Jersey, like many States, is that we do screen out those that have criminal records, those that have mental histories, and those that lie on their applications. In fact, to date we have screened out 19,000 folks that were not entitled to a gun. The difficulty is they can come into other States in the Northeast and buy as many guns as they want and transport them to New Jersey, where they are sold on the black market.

The Brady bill will enable us to run a background check. When someone walks to a gun shop they have to fill out a form. One of the questions is, "Do you have a criminal record?" The second question is, "Do you have a mental record?" If they answer that truthfully, if they do have a criminal record, they are probably not very bright anyway, because nobody is going to check it, so why would they tell the truth? They do not have to in these States where they do not run a background check.

My colleague from New Mexico argues that in the last Brady bill we did not require a background check. Now he wants to make it permissive for the States to run a background check. Well, that is interesting, because in the last Congress the gun lobby made the argument that it was not mandatory, so there was not a background check.

They cannot have it both ways. The mandatory requirement is the right requirement. It improves the bill. I urge my colleagues to support the rule and support the Brady bill. It is a good bill.

□ 1040

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

I would say to the gentleman from New Jersey [Mr. HUGHES] that he knows there were a lot of Democrat Members that had amendments turned down, not allowed. But those Members are going to vote for the Brady bill, so his total argument does not hold water.

The SPEAKER pro tempore. The time of the gentleman from New Jersey [Mr. HUGHES] has expired.

Mr. DERRICK. Mr. Speaker, I yield 15 seconds to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, I say to the gentleman from New York [Mr. SOLOMON], who is a good friend of mine, but he knows that many of the Democrats who are offering amendments are also opposed to the bill. They would not vote for the Brady bill under any circumstances.

I say to my colleagues that are offering these amendments that are dilatory, in some respects, vote against it, but do not try to gut it.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have great respect for the gentleman in the well, but he knows that the gentleman from Ohio [Mr. TRAFICANT] was turned down, and he is going to vote for the bill. If the gentleman would come to the meeting he would understand.

Mr. DERRICK. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa [Mr. SMITH].

Mr. SMITH of Iowa. Mr. Speaker, if a doctor prescribed medicine that had so little to do with a medical problem as this bill has to do with the criminal problem we are talking about, they would be subject to being charged with malpractice. My fear is that people will think they have done something by passing this bill, and I fear they will then not adequately support the legislation we have had underway for 2 or 3 years that will really do something.

Mr. Speaker, violent crimes are not only committed more frequently but also, due to instant communications and television, we are more aware both of the number and how senseless and horrible they are. Law enforcement, paying policemen, prosecutors, judges,

and incarcerating those convicted, is expensive. So, everyone wants a simple inexpensive solution. The current alleged solution to crime is a national waiting period to buy a gun, and a law banning assault weapons. Whether one is for or against those laws, everyone should be aware they will not solve the problems and why much, much more than these laws is needed.

Iowa has a waiting period to buy a handgun. During this waiting period, authorities can probably determine whether or not the applicant has been convicted of a felony in Iowa. The law works well within those limitations. But, most persons who would be ineligible to buy a handgun because of a criminal record can still buy a gun from a dealer (and most acquire them some other way) in a State other than the one in which they have a record. The State of Virginia probably has the most effective instant check handgun law in the country, and they have their felony records available statewide through computers; but a recent survey indicated a high proportion of felons and ex-felons from the New York City area purchased handguns in Virginia. The Virginia records, as would be the case in each State, are limited to crimes which were committed in Virginia.

The Subcommittee on Appropriations which I chair has been actively pursuing an effective solution to this problem as far as buying handguns from a dealer is concerned; but the program we are implementing will take more time. The solution to screening people who buy a gun from a dealer, is to have a national center computerized so that local law enforcement offices can instantly access information from all States. In other words, all States would supply that information to the national center and the national center will have a positive identification system which will identify any applicant for a handgun purchase who has been convicted of an indictable crime no matter which State in the United States the crime was committed.

We have invested \$392 million so far in such a center, about a 4 hour drive from Washington, DC, and we hope to have it completed and equipped in about 2 years. Only the State of Virginia so far has computerized the information which each State would need to supply to the center. When the center is up and running in about 2 years, all those States which have supplied the information and purchased the necessary equipment will be able to access that information from other States in the system. We hope all States will be in the system by 1998 and will supply the information to the center on a continuing basis the way they have automobile licenses. Until it is completed, and all States are in it, it makes little difference whether the waiting period is 5 days or 5 months, it will not be suf-

ficient to answer the problem even for the 17 percent who commit crimes with guns traceable to a purchase from a dealer.

Meanwhile, we will continue to establish the National Identification Center for this and other law enforcement purposes even though it too is one of those projects that some people like to call "pork". Although there is no substitute for the usual expensive law enforcement and punishment efforts, the establishment of this National Identification Center is needed and will be a significant help to local law enforcement.

Washington, DC, which has the strongest gun control laws in the Nation and the highest rate of violent crimes, has discovered that there is no magic or inexpensive way to solve the crime problems. Effective law enforcement still requires financial support of law enforcement agencies and eliminating the causes of criminal behavior. Until that center is completed and operating, the objective of a waiting period law will not be attainable by passing a Federal law; and when it is operating, the identification will become instant and a waiting period law unnecessary.

Mr. Speaker, I am afraid if we pass this bill many States will say, "Well, we have a Federal handgun waiting period. We do not need to cooperate with the records center." I think that what passing this bill will do is misleading people into thinking they are doing something effective when they are just not doing what we need to do.

Mr. DERRICK. Mr. Speaker, I yield myself such time as I may consume.

If I might add, Mr. Speaker, before I call my next speaker, I think the former speaker gave the best argument I have heard for the Brady bill.

Mr. Speaker, for purposes of debate only I yield 2 minutes to the gentleman from New York [Mr. SCHUMER].

Mr. SCHUMER. Mr. Speaker, we are now here. The Brady bill is finally on the floor, after long waiting. Now we have a chance on this rule to determine whether this Congress, this House, will have a chance to vote on it. We have heard every possible reason for delay. We have had every log, every obstacle thrown in its path. Yet now, by one vote, by voting yes on this rule, we can finally get an up-or-down vote on the Brady bill, something that 85 to 90 percent of the American people want.

Mr. Speaker, we have had too much violence in our neighborhoods and on our streets, and even in our schools, in our churches, in our synagogues, too much. In Washington we have all these political arguments, all these little intricacies, but the guy or gal out there back home on the streets is saying, "What the heck are they arguing about? Get with it. Vote for it. It is time, already." Let us not get beltwayized around here. "Well, this

amendment was allowed, that amendment was not." We all know the purpose of the amendments.

As the gentleman from New Jersey [Mr. HUGHES] brought out, the authors of the amendment are voting no on Brady, whether the amendments pass or not. There are attempts to dilute Brady. The rule in its fairness allowed them to come up. I am willing to take that hit. If the Members of this body want to dilute Brady, a modest first step, so be it, but let us vote. Let us vote. The amendments hurt. Not to vote at all kills, literally and figuratively.

I urge that we support this rule and get on with the people's business, and start understanding that the people are angry and anguished about crime in the streets. Brady, without amendment, is the first step to try and deal with that horrible problem.

Mr. GOSS. Mr. Speaker, I yield 3 minutes to my colleague, the distinguished gentleman from Florida [Mr. MCCOLLUM], who is a senior member on the Committee on the Judiciary and a member of the Republican leadership.

Mr. MCCOLLUM. Mr. Speaker, today we are about to undertake consideration of the Brady 5-day waiting bill that we have considered on the floor on other occasions. It may well pass today, but my concern about it is, A, that it is unnecessary, as I have always believed, because we can do in 5 minutes as much checking to see if somebody is a violent criminal who is trying to purchase a handgun from a gun dealer as we are going to be able to do in 5 days.

B, more importantly, in a way, this bill is symbolic in nature only. It is not going to reach out in the real way that we have to reach out and solve the violent crime crisis that is facing this Nation.

Mr. Speaker, America is bleeding, and too many of the Democrats on that side of the aisle are dawdling instead of bringing out meaningful criminal legislation.

The chairman of the Committee on the Judiciary, the gentleman from Texas [Mr. BROOKS] has said, and I believe him, that he is going to do everything in his power to bring out some of these important issues, but it is embarrassing that it is going to be next spring before they are brought out. It is embarrassing to see the other body debating it and bringing a bill out now, when we could also be doing the same thing, and going to conference on a comprehensive crime bill that really will address the problem.

The problem is the revolving door. Too many of the violent felons in this country are going back out on the streets again, instead of being kept in jail. The only answer to violent crime in this country that will work is to take the violent criminals off the streets, lock them up in jail, and throw

away the key. They are only serving an average of 37 percent of their sentences today, the violent criminals. When that occurs, they go back out and commit another violent crime. Eight percent of all the criminals commit 80 percent of the violent crime.

Mr. Speaker, we need to be addressing this from a series of partnerships, regional prisons through relationships with the States, and we need to be making sure that States and others eliminate their parole provisions and require that the violent criminal serve at least 85 percent of their sentences.

We need to restore the Federal death penalty. We need to send a message, put swiftness and certainly of purpose back in the criminal justice system, put deterrents and incapacitation in there. Too many people on that side of the aisle believe crime is a social problem, believe that taking the guns off the streets is going to solve the problem, instead of taking the violent criminals off the streets. It is taking the people who use the guns off the streets that is the critical answer the American public demands.

Today's debate, as important as it is for a lot of people symbolically, is a diversion. The issue is when are we going to get to a major crime bill like the Republicans have produced and we have introduced. We are ready to debate that bill today in every aspect. A comprehensive bill such as the chairman, the gentleman from Texas [Mr. BROOKS], put in ought to be on the floor. If it is not our version, it should be his. Some version should be out here that really gets at the problem, instead of dealing with the issue around the edges that we are dealing with here.

We have a problem with the criminal justice system today. It is not working. We need to fix that justice system throughout this country and put the violent criminals away behind bars and keep them there, and as I said before, throw away the keys.

The Brady bill is not the answer to that. The comprehensive legislation is not here today. I urge a no vote on the rule.

The SPEAKER pro tempore (Mr. MAZZOLI). The Chair would advise that the gentleman from Florida [Mr. GOSS] has 1 minute remaining, and the gentleman from South Carolina [Mr. DERRICK] has 6 minutes remaining.

Mr. DERRICK. Mr. Speaker, I yield 30 seconds to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, I just want to respond to my colleagues from Florida. The problem with the omnibus crime bill, as the gentleman knows, is that unfortunately in the bill there are so many controversial provisions that in the last Congress the omnibus crime bill, which this tracks, died when some members of the Republican Party in the other body filibustered it to death.

What the chairman of the full committee, the gentleman from Texas [Mr.

BROOKS] has done, as the gentleman knows, is pulled those provisions out that are fairly noncontroversial so we can pass what we can. I support many of the initiatives that the gentleman just described, and worked for them in the last Congress. It broke my heart, as it did the gentleman's heart, to see many of those provisions go down the drain because we packaged them in one bill.

Mr. SOLOMON. Will the gentleman yield?

Mr. HUGHES. I yield to the gentleman from New York.

Mr. SOLOMON. The reason the bill did not pass last time is, Members on the gentleman's side of the aisle were irresponsible about things like habeas corpus. That is the only reason.

Mr. HUGHES. Reclaiming my time, the fact of the matter is, it is history. Republican Members in the other body filibustered it to death, ran us out of time. Here we are a year later, and we still do not have a crime bill. They killed it, because it was an omnibus bill. That is why the chairman of the full committee, the gentleman from Texas [Mr. BROOKS] tried for months to try and get a consensus for the entire bill. He could not, and broke it into parts, and sent the parts to the various subcommittees.

□ 1050

That is how this process works around here, I say to my colleague from Florida. He knows it, because he was my ranking Republican on the Subcommittee on Crime when I chaired that for a number of years. And how many bills did we see go down the drain because we could not get a consensus on controversial issues, and we saw good provisions go down with the ones that were controversial.

Mr. GOSS. Mr. Speaker, I yield myself our remaining 1 minute.

Mr. Speaker, as a cosponsor of the Brady bill I am glad this measure is finally coming to the House floor for debate and a vote. I know many colleagues and many people question the effectiveness of a national waiting period in fighting crime—and, frankly, so do I. I think most can support a national system to conduct instant background checks at the point of sale of a handgun. But, even though some States including Florida have an instant check in place, the process for implementing a nationwide check is not yet complete. That is where the Brady bill's 5-day waiting period comes in—it is an interim step that will sunset once the national check is implemented. I think that is reasonable—especially since States that are further along in their technology, like Florida, would not have to change their procedures.

Mr. Speaker, I am dismayed that the majority on the Rules Committee once again decided to shut down this proc-

ess—restricting debate to only 3 of the 13 amendments offered. Sure, the majority will pat themselves on the backs for allowing three Republican amendments. But the debate over open versus restrictive rules is not partisan. There were legitimate Democrat amendments offered in the Rules Committee—including one by Mr. VOLKMER and two by Mr. TRAFICANT—but they too were denied. I am troubled that this rule shuts out amendments designed to tackle the very serious problem of unfunded Government mandates on States and municipalities. As a former local official, I am painfully aware of the enormous problem the Federal Government causes for local governments by heaping one another requirement on them without providing the resources to support the added costs. But perhaps the most embarrassing thing about this rule is the cavalier way in which the Democrat leadership shut out Mr. MCCOLLUM's comprehensive anticrime package. Fact is, the Brady bill is only one very small footnote to the major action desperately needed by this Congress to beef up law enforcement and fight crime. While Americans are demanding tough anti-crime measures, while elections are turning on this issue and even the other body is stepping up to the challenge—this House is hiding behind a few powder puff cosmetics and not facing our responsibility. That is a disgrace. Mr. Speaker, the majority cannot seem to understand that the House of Representatives is supposed to be a deliberative body. We are supposed to air a wide range of views, look at a broad scope of options and exercise our collective wisdom to create the best legislative result. But that is not how it works around here—and so today I urge my colleagues to oppose this rule.

Mr. Speaker, I yield back the balance of my time.

Mr. DERRICK. Mr. Speaker, I yield myself the balance of my time.

Mr. DERRICK. Mr. Speaker, first let us talk about the rule and the fairness of the rule. There was a number of amendments, I think probably 17 or 18, I do not remember exactly, that were brought before the Rules Committee. Many of those amendments were strictly there for one purpose, and that was they were dilatory, they were there to try to weaken the bill, to inflame one segment of the population as opposed to the other, not all, but a large number of them were. There were three I think substantial amendments that the House needs to debate that were presented to the Rules Committee by the minority. These amendments were made in order.

This is a fair rule, a rule that will give us an opportunity to debate the Brady bill, and will give those Members who would like to make adjustments in the Brady bill in its final form an opportunity to debate and to vote on

those amendments. It is one of the fairest rules, I quote frankly, and I think most of our rules are probably fair, but I think it is more fair than most.

So I would ask that Members vote for this rule.

As far as the Brady bill is concerned, let me say this: I think it is a national disgrace that this body, together with the other body across the hall, cannot pass the Brady bill. We are talking about the crime bill. I think it is a national disgrace that we do not have a crime bill before this body today, that we are not dealing with assault weapons, that we are not dealing with criminals who take 10 or 15 years for their sentences to be executed, that we cannot deal with habeas corpus. We had a bill that passed this House last year that said that if you are on death row you have one appeal, and it must be done by a qualified lawyer, and it must be done within a year. We could not get it through the Senate. The reason these people stay on death row for as long as they do is because there are a lot of jailhouse lawyers, other inmates that go to the law library and figure out how to file petitions. We put an end to all this. And I think that should be before the House.

I think a comprehensive crime bill should be before the House. America is bleeding on its streets. And let me say, and it was mentioned, it is not just Washington, DC, it is not just Los Angeles, CA, it is not just New York City where all of this is happening. I can remember in my part of the country years ago we thought the drug problem was confined to the major metropolitan areas of this country, but we soon learned, much to our horror, that the drug problem was not a problem of the large metropolitan areas only, it was a problem of the small communities and bylaws throughout this country. And we are going to find out and are finding out that guns are murdering our citizens, handguns are murdering our citizens in our small communities as well as our large communities.

I will agree the Brady bill is a drop in the bucket toward solving this, but it is a step in the right direction. It is a step in the right direction to keeping guns out of the hands of criminals and keeping guns out of the hands of the criminally insane.

We are going to look back, all of us one of these days, and will never be able to explain to our children why we did not have what it took to pass strong crime legislation and to pass the Brady bill in 1993 if we do not do it.

We get upset, as well as we should, when 17 or 18 marines get killed in Somalia, but we do not get upset when 60 people are killed every day in this country by handguns. The Brady bill is a modest step in the right direction. I ask Members to support the bill and to support the rule.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. GOSS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 238, nays 182, not voting 13, as follows:

□ 1120

Messrs. STRICKLAND, LIGHTFOOT, and WILSON, Ms. DANNER, Mr. HILLIARD, and Mr. LAROCCHO changed their vote from "yea" to "nay."

Mr. DINGELL changed his vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. BARTLETT of Maryland. Mr. Speaker, due to unavoidable circumstances, I was not present for the vote on House Resolution 302, the rule for H.R. 1025, and the vote on the Ramstad amendment.

Had I been here, I would have voted "nay" on House Resolution 302 and "aye" on the Ramstad amendment.

□ 1120

PROVIDING FOR ADJOURNMENT OF THE HOUSE FROM WEDNESDAY, NOVEMBER 10, 1993, TO MONDAY, NOVEMBER 15, 1993, AND ADJOURNMENT OR RECESS OF THE SENATE FROM WEDNESDAY, NOVEMBER 10, 1993, UNTIL TUESDAY, NOVEMBER 16, 1993

Mr. GEPHARDT. Mr. Speaker, I offer a privileged concurrent resolution (H. Con. Res. 178) and I ask for its immediate consideration.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 178

Resolved by the House of Representatives (the Senate concurring), That when the House adjourns on Wednesday, November 10, 1993, it stand adjourned until noon on Monday, November 15, 1993, or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first; and that when the Senate recesses or adjourns at the close of business on Wednesday, November 10, 1993, pursuant to a motion made by the Majority Leader or his designee, in accordance with this resolution, it stand recessed or adjourned until noon on Tuesday, November 16, 1993, or at such time as may be specified by the Majority Leader or his designee in the motion to recess or adjourn, or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Speaker of the House and the Majority Leader of the Senate, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and the Senate, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

The SPEAKER pro tempore (Mr. MAZZOLI). Without objection, the concurrent resolution is agreed to.

Mr. MONTGOMERY. Mr. Speaker, reserving the right to object, and I will not object, I would like to ask the majority leader about the schedule for the rest of the afternoon. Some of us have to catch airplanes to go to our districts for Veterans Day. We just cannot be around here much after 4 o'clock in the afternoon.

Mr. Speaker, can the majority leader tell us what the schedule is?

Mr. GEPHARDT. Mr. Speaker, will the gentleman yield?

Mr. MONTGOMERY. I yield to the gentleman from Missouri.

Mr. GEPHARDT. Mr. Speaker, I thank the gentleman from Mississippi [Mr. MONTGOMERY] for yielding, and I share his concern about the schedule.

Mr. Speaker, we believe that the bill that is in front of us, which is the only piece of business we have today, can be completed in 4½ or 5 hours. Obviously it depends on the length of the debate. We are going to try to hold all of the votes within the 15-minute period, and I urge Members to be here on time to vote so we can process this bill as quickly as possible.

So, we are going to try to get out by 4:30, if at all possible, and, if Members will cooperate in abbreviating their debate and getting here on time, we will get them out on time to be able to get home for Veterans Day events.

Mr. MONTGOMERY. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Without objection, the concurrent resolution is agreed to.

There was no objection.

A motion to reconsider was laid on the table.

BRADY HANDGUN VIOLENCE PREVENTION ACT

The SPEAKER pro tempore. Pursuant to House Resolution 302 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 1025.

□ 1124

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1025) to provide for a waiting period before the purchase of a handgun, and for the establishment of a national instant criminal background check system to be contacted by firearms dealers before the transfer of any firearm, with Mr. SKAGGS in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the bill is considered as having been read the first time.

Under the rule, the gentleman from Texas [Mr. BROOKS] will be recognized for 30 minutes, and the gentleman from Wisconsin [Mr. SENSENBRENNER] will be recognized for 30 minutes.

Mr. SENSENBRENNER. Mr. Chairman, I yield 15 minutes of my time to the gentleman from Florida [Mr. MCCOLLUM] and I ask unanimous consent that he be permitted to yield blocks of time within that amount.

The CHAIRMAN. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The CHAIRMAN. The Chair recognizes the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in opposition to H.R. 1025, as reported from committee. H.R. 1025 provides for a 5-day waiting period for prospective handgun purchasers, which will remain in place until such time as a national instant check on firearms purchasers is certified by the Attorney General.

While I believe that H.R. 1025 is motivated by an understandable desire to keep handguns out of the hands of criminals, I have grave doubts about whether the bill achieves that purpose at all, and most serious, whether it infringes on the rights of law-abiding citizens.

It is important to be realistic about the nature of acquiring handguns in this country. The main market for the purchase and sale of such weapons is the illicit market. That is fact, plain and simple. We are deluding ourselves and the citizens of this country if we attempt to paint this bill as the answer to violent crime or even to the proliferation of handguns.

I cannot support the legislation in its present form. For a number of years, the legislation has been considered by its proponents as akin to "Biblical text." That is not my view, and I believe that it would be wise to keep an open mind throughout this debate about the three reasonable amendments being offered if there is a true wish to move the bill to the President's desk. But, if the goal here is simply to hoist up a banner for gun control in order to keep an issue alive, then we can continue to debate the bill endlessly for years to come.

If the House accepts these simple—yet critically important—amendments, I think there might well be wide support for the legislation. I, for one, would reconsider my position; but only if law-abiding citizens are treated with respect and accorded fundamental due process.

One such amendment to be offered by the gentleman from Minnesota [Mr. RAMSTAD] would merely allow a prospective firearm purchaser to inquire as to why he or she was denied that right—by requiring the law enforcement official to provide the reasons for the denial if asked for those reasons. I am happy to report that there appears to be an agreement on both sides to accept this amendment. I certainly hope so.

Another reasonable amendment to be offered by the gentleman from Florida, Mr. MCCOLLUM, would preempt all existing State law waiting periods—including not just those that are shorter than the 5-day period spelled out in the bill, but also those that are longer. Without the amendment, States without any waiting period will have imposed on them a 5-day waiting period; but, States with longer waiting periods get to keep them even after the instant

background check system—which is supposed to be national—is operational. Now, that turns logic and fairness on its head, just a bit.

A third amendment to be offered by the gentleman from Pennsylvania [Mr. GEKAS] would sunset the 5-day waiting period after 5 years. This amendment would create a time certain for implementation of the national instant background check in the bill. Acceptance of this amendment is proof positive that there is a real commitment to implement the instant background check in H.R. 1025. While the national instant check system is touted as a central premise of the bill in its current form, it is a premise with no teeth at all.

In conclusion, the Brady bill is no panacea for the scourge of violent crime in America. It may make a very modest contribution, however, if it targets with specificity that group of dangerous individuals who are the real problem—the criminal elements of our society. If the proponents decide to accept reasonable amendments to further that end, there may be a resolution of this issue, once and for all. If they don't, then they can take their chances here and in the other body.

□ 1130

Mr. SENSENBRENNER. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Delaware [Mr. CASTLE].

Mr. CASTLE. Mr. Chairman, I thank the gentleman for yielding this time to me, and I rise in support of the Brady bill, H.R. 1025.

Every day, 65 men, women and children in this country are killed with handguns. The Brady bill is not a cure that will completely halt the use of handguns in the tens of thousands of homicides, suicides, and accidents every year. However, it will help keep handguns out of the hands of people who have no business owning them, and it will help reduce the number of handguns on our streets and in our schools.

I need look no further than my home State of Delaware for evidence to support this. When I was Governor of Delaware, I signed into law the State's instant, computerized background check system for the purchase of a handgun. Since this system was implemented in January, 1991, more than 1,150 people who are legally prohibited from owning a handgun were stopped from purchasing one. Nearly 100 hundred persons wanted for crimes ranging from rape to dealing drugs to bank robbery, have been arrested.

Delaware is one of 5 States with the instant background check, which is a system the Brady bill calls to be implemented nationwide. In the meantime, a 5-day waiting period will give local law enforcement officials the time they need to check a person's background.

Let's put the Brady bill in perspective. Twenty-eight States—more than half of the States—already have waiting periods or instant check systems in place and would be exempt from the Brady bill.

For the vast majority of law-abiding citizens who want to buy a handgun, another 5 days, in the overall scheme of things, will not make a difference. In other circumstances, it will allow cooler heads to prevail before someone becomes armed with a lethal weapon. And, just as Delaware's instant background check has demonstrated, the Brady bill will stop convicted criminals from buying a handgun.

I urge my colleagues to pass the Brady bill today—and then, let's get to work on another important measure that I have introduced with my colleague DAN GLICKMAN from Kansas. H.R. 3098 will update this country's 25-year gun control law by closing the loophole that allows children to possess handguns. How many more school shootings by students do we need to wake up to the fact that it's too easy for minors under the age of 18 to get guns? And there's no Federal law to deter them from openly brandishing guns on our streets and in our classrooms.

And passing laws is only one part of the equation. There must also be tougher sentences, increased prevention efforts, and more treatment centers. We need to attack the underlying social problems that lead to gun-related violence by youths and adults.

But we must start somewhere, and the Brady bill is that much-needed first step.

Mr. PICKLE. Mr. Chairman, I yield 15 minutes to the gentleman from New York [Mr. SCHUMER], and I ask unanimous consent that he be allowed to delegate blocks of time within that 15 minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. PICKLE. Mr. Chairman, I yield such time as he may consume to the gentleman from Maryland [Mr. CARDIN].

Mr. CARDIN. Mr. Chairman, I rise in strong support of the Brady bill and in opposition to these amendments that will be offered.

Mr. Chairman, I rise today in strong support of H.R. 1025, the Brady Handgun Violence Protection Act. The Brady bill is a vital part of the overall crime prevention package.

My home State of Maryland has a mandatory 7-day waiting period on the purchase of handguns. Since 1966, when the waiting period was implemented, over 16,000 handgun purchases have been disapproved. On average, 1 to 2 percent of all gun purchase attempts in Maryland are denied because the potential purchaser has a criminal record. For example, from January 1, 1993, through September 30, 1993, 24,704 people had applied

to buy a gun and 264 of those people were disapproved. Clearly, this Maryland law has been very successful.

A mandatory waiting period on a national level would be successful as well and dramatically increase the effectiveness of local efforts like those made in Maryland. A large number of criminals do buy their guns from gun stores. A Bureau of Justice study found that 27 percent of State inmates purchased their guns from retail stores. An additional 28 percent of the State inmates got their handguns from the black market, a drug dealer, or a fence. Gun traces have shown that many of the guns that are being sold on the black market are originally purchased in gun stores in States that do not have waiting periods and/or background checks.

A national mandatory waiting period would stop cross-State purchases. Presently, many teenagers obtain guns through straw purchasers who cross State lines. Earlier this year the National Education Association estimated that more than 135,000 children bring guns to school every day. The growing impact of gun violence on our young people is devastating. A national waiting period on handgun purchases would help curtail the proliferation of weapons among the young in our society.

I am an original cosponsor of the Brady bill and a strong advocate of curbing the use, illegal use, of guns in our society. Since the Brady bill was introduced in 1987, over 150,000 Americans have died in incidents involving handguns. It is time to reduce the avenues through which criminals can obtain handguns. I urge my colleagues to follow the example of Maryland and impose a national waiting period on the purchase of a handgun.

Mr. PICKLE. Mr. Chairman, I yield such time as she may consume to the gentlewoman from California [Ms. PELOSI].

Ms. PELOSI. Mr. Chairman, I rise in strong support of the Brady bill and against the amendments. I wish to commend the gentleman from New York [Mr. SCHUMER] for his leadership in bringing the Brady bill to the floor, which I hope will be a small comfort to those who died in the 101 California street tragedy and all others who have been victims of violence in our country.

Mr. PICKLE. Mr. Chairman, I yield such time as he may consume to the gentleman from California [Mr. TUCKER].

Mr. TUCKER. Mr. Chairman, I rise in strong support of the Brady bill, and I commend the gentleman from New York [Mr. SCHUMER] for his leadership.

Mr. Chairman, my friends to the right argue that the Brady bill is an abridgement of the second amendment. The Brady bill does not impact the right to have weapons, it merely requires a 5-day wait.

Mr. Chairman, my friends opposing the Brady bill argue that they cannot defend their families and property without a gun. The Brady bill does not impact self-defense.

Mr. Chairman, my friends on the other side argue that if the Brady bill passes, only outlaws will own guns. The Brady bill does not restrict gun ownership.

Mr. Chairman, I support the Brady bill, not because I think it will solve crime, it won't. I support the Brady bill because I want to save one life, and do some good. If requiring people to wait 5 days before purchasing a gun will save a life, we will have done our job.

I urge you to support a bill that attempts to curb an insane proliferation of guns in this Nation.

Mr. SCHUMER. Mr. Chairman, I yield myself 3½ minutes.

Mr. Chairman, today is the day for this Chamber to join the American people in saying, "We have had enough." Today is the day to stand up and say enough to the boundless fever for handguns and enough to the senseless killings in every community.

Day after day, night after night, we see the bloody madness. Children kill children. Mothers die trying to protect their families. Parents bury children. Children bury parents. You and I and every one of us in this Chamber know that our neighbors, the American people, are sick and tired of this insanity. My neighbors in Queens and Brooklyn are scared. We are all frightened for our children. We are disgusted with this orgy of handgun slaughter.

Your neighbors, in Ohio and California and Wisconsin and all over America, are just like my neighbors. They want the killings to end. They want it now to end, and they are watching what we do here today.

It is said by the opponents of this bill that "Guns don't kill, people do." People have bad instincts in them, but without guns those instincts often do not result in killing, and with guns those instincts all too often do.

The people of America know there is no magic pill to end violence, but they also have the good common sense to know that waiting periods work, and they want the simple commonsense restraint of the Brady bill. It is well past time. It has been 6½ years during which we have debated this bill. We have been dragged through the thickets of ideological dithering. We have wandered through the forests of delay, and while we have delayed and delayed and delayed, handguns have killed Americans by the tens of thousands. The bullets from those guns have killed people. We must not fail again today.

If we fail to pass the Brady bill again today, our failure will be cast in grief and pain and marked by the waste of more lives needlessly lost.

But there is no reason to fail, there is no reason to delay. The bill is good, solid, well-crafted legislation. It imposes a simple 5-day waiting period on handguns. It will not take a single gun away from law-abiding Americans. It does not offend the second amendment in any way. It does nothing more than give our law enforcement officers, who all support the bill, a modest period of time. They will use that breathing room to keep handguns away from felons and others barred by law from owning firearms. It is that simple.

But there is danger along this last mile. The amendments to be offered today, seemingly innocuous, seemingly offered in the spirit of reason, if adopted, will distort this Brady bill beyond reason. So I urge my colleagues not to support the amendments. They have a common purpose. They are offered by opponents of the Brady bill who seek to eviscerate it.

In conclusion, Mr. Chairman, history is within our grasp today. Let us reach out, lift our hands, and touch it. Let us pass the Brady bill just as it lies before us and reject the mischief of these amendments.

□ 1140

Mr. MCCOLLUM. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, I am opposed to the Brady bill, the waiting period bill today, for two reasons. One, it is unnecessary; two, it is simply symbolic and a distraction from the real issue we ought to be getting at to address the violent crime crisis in America.

The 5-day waiting period in this bill is unnecessary for the simple reason that you can do in 5 minutes, or certainly in 5 hours, in 1 day, the amount of check that you can do with this waiting period to find out if somebody is a felon going to try to purchase a gun from a gun dealer. We have the ability to check the names today through the NCIC system throughout the Nation, through the police systems that are already set up. We do not have to wait for an instant check to find that out. We do need to improve the records. But there are not going to be half a dozen names in a period of a year that will be turned up by a 5-day waiting period that will not be turned up in 5 minutes. So it is unnecessary.

But worst of all, it is symbolic, in the sense that it is conceded by most people not to be the real answer. Too many people on the other side of the aisle in the Democrat Party believe that taking guns off the street is the answer to violent crime.

Mr. Chairman, that is not the answer. The answer is to take the violent criminal off the street, lock him up, and throw away the key. Unfortunately, we do not have that bill out here today. It is embarrassing that the other body has been addressing the problem while we have not.

We need to have regional partnerships with the States to have prisons that will take violent criminals off the streets and lock them up. We need to have provisions that will provide incentives that people who are violent criminals have to serve at least 85 percent of their sentences. The problem is the revolving door of these violent criminals, who go back out and become repeat offenders, again, and again, and again. That is not out here today because Democrats have been in disarray.

Republicans have a comprehensive crime proposal. We are ready to vote

on it today. It should be out here, not this waiting period bill. We are together on the Republican side.

When the Democrats can get together and get their act together, maybe we can really get meaningful anticrime, antiviolen crime legislation out here, that will stop the bleeding the American people are suffering from today.

Mr. Chairman, this waiting period bill is nothing more than symbolism, and it should be defeated.

Mr. BROOKS. Mr. Chairman, I yield 2 minutes to the gentleman from Missouri [Mr. VOLKMER].

Mr. VOLKMER. I thank the chairman for yielding.

Mr. Chairman, I would like to address my remarks not only to my colleagues, but also to the general public, and especially to the media. Yes, Peter Jennings, Brokaw, and all, this is not a national 5-day waiting period bill. This is a fraud. This bill does not apply to the State of New York, or Washington, DC, or California, or my State of Missouri, or the State of Illinois. This bill does not apply to 24 States. Why does it not? Because we already have such a system, either a background check or a waiting period or a permit system. It does not apply to us. It does not apply to the high crime States.

I want somebody on that side to tell me how, by making it necessary for a resident of Cody, Wyoming, or Butte, Montana, to wait 5 days to get a handgun, how does that stop a person in New York City or Washington, DC, from shooting somebody? It does not. And that is what this bill does, because it does not apply to Washington, DC, to New York City, to Los Angeles, to Miami, to San Francisco, to Chicago, to Detroit, and many other of your high crime areas. So where do you get this idea it is a national 5-day waiting period? It is not. It has exemptions in it, and the only States it applies to are not high crime States.

So how do you stop crime by telling a law abiding citizen in Butte, MT, that he has to wait 5 days to get a handgun? No, it is not that. It is not an anticrime bill. This is an antigun bill, that is all it is. And what is it? It is a first step. Who said so? The proponents will tell you that. If you talk to them confidentially, they will admit this is not going to stop any kid from taking a gun to school in New York City, not one.

Mr. SENSENBRENNER. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from New York [Mr. FISH].

Mr. FISH. Mr. Chairman, I rise in support of H.R. 1025. The stated purpose of the Brady bill is well known to all Members of this House as well as to the American public. Proponents of this legislation sincerely believe that it will have an important and significant impact on reducing handgun crime.

This year's version—H.R. 1025—creates a 5-business-day waiting period before a handgun can be obtained. During this time, law enforcement officials will have an opportunity to do a background check on the prospective purchaser. Should the Brady bill become law, the only persons who will be denied a firearm are those who cannot legally own firearms. That is, persons who have been convicted of crimes punishable by imprisonment for more than one year, persons under indictment, fugitives from justice, drug addicts and abusers, persons adjudicated as mentally ill, illegal aliens, persons dishonorably discharged from the Armed Forces, and persons who have denounced their U.S. citizenship.

Some have criticized this legislation as being ineffectual and misdirected. They characterize the bill as a "mere symbol"—legislation that will only raise false hopes. I readily admit that the Brady bill is no panacea for the serious, pervasive problem of violent crime in our society. There is much more that we can contribute in formulating broad-based crime legislation. It is a travesty that the House has been denied this opportunity.

This legislation does hold open the promise that a national instant check system will be established in the near future, one that will accurately identify individuals who should not be allowed to purchase handguns. To me, this is the most important addition contained in this year's version of the Brady bill. The bill now states that the 5-day waiting period will sunset as soon as a national, instantaneous background check is operational. It will also sunset for any individual state which requires a background check. To achieve this goal, H.R. 1025 would authorize \$100 million per fiscal year for a grant program through the Department of Justice to States for the improvement of their criminal history records.

This focuses on the real problem—the sorry state of our criminal records nationwide. We must have an accurate system in place so that an instant background check can be conducted at the point of sale. Some States—Virginia, Illinois, Florida, Delaware, and Wisconsin—already have such a system in operation. We simply need to commit more resources so that the quality and accuracy of criminal arrest records can be upgraded and made available on a nationwide basis. This is our responsibility.

The Brady bill will have no effect in my state of New York. It will not apply to permit holders. It does not affect the long process my State requires for approval.

Mr. Chairman, I urge its passage.

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Kansas [Mr. GLICKMAN], a longtime supporter of the bill and a member of the subcommittee.

Mr. GLICKMAN. Mr. Chairman, as we stand here and again debate about the Brady bill, people are out in our communities and out on the street getting killed. While we talk and talk and talk, people are dying from gunshot wounds and dodging bullets. And many of these bullets are coming from guns bought by people who, by law, cannot purchase them.

Think about how ridiculous this is: Gunshop owners must take the word of criminals that they are not criminals. Right now, to purchase a gun, convicted felons only have to fill out a form and certify that they are not felons. After that they are able to buy a gun. This is absurd. By definition, felons have no regard for the law. They do not care if they lie on a simple form—especially since they know the form will not be reviewed by anyone. We need some way to check to make sure that people who are prohibited from buying guns cannot buy guns. This means that we need to be able to check the records from all States and from the Federal Government. Ideally we would have the ability to immediately punch in a name in a computer and get all the records, and I look forward to the day we can. But we're not there yet.

There has been a great deal of misinformation about this point. So let me reemphasize that, right now, even though some States have the ability to do an instant check, the Federal records are not all computerized and most States aren't either. We do not have the ability to tap into a computer and get information from both Federal and State criminal files. The Brady bill recognizes that someday all of our criminal records will be totally computerized—both Federal and State. And this bill provides that when we get to that day, a Federal waiting period will disappear and an instant check system will take over.

Yet despite the very rational and reasonable approach taken by the Brady bill, in committee and subcommittee there were several amendments offered to immediately institute an instant check system. That will again be offered here on the floor. The simple answer is: We would if we could, but we can't. So until we can, we need to have the waiting period.

Let me step back and say that I support the rights of law-abiding adults to purchase and own guns. I do not support a ban on handguns for adults, and I support the rights of hunters and sportspeople. But I also support the Brady bill because it is entirely consistent with those beliefs and even more, it just makes sense. The Brady bill requires an instant check system to be developed as soon as possible. It is a small price to pay to at least curb, if not stop illegal gun purchases that directly lead to the needless violence and gun deaths we see every day.

But in the end, this political debate is just talk. You don't need to listen to it. But you do need to listen to people like my constituent Jeff Jones. His fiancée Kim was shot, with a gun purchased on the day of the shooting, by an ex-boyfriend who had been convicted several times, in several States. Yet despite his record, on the very day he was scheduled to appear in court on yet another assault charge, this convicted felon was able to walk into a gun dealer, buy a gun and shoot Kim to death. This is not rhetoric, it is cold, hard, deadly facts. We need the Brady bill and we need it now.

I want to commend my colleague Mr. SCHUMER for pushing on with this bill year after year in the face of so much opposition. And I'd like to commend the chairman of our committee, Mr. BROOKS who moved expeditiously to allow this bill to come to the floor. But most of all I'd like to commend Sarah and Jim Brady who have been tireless in their efforts over these past years to get this bill to this stage.

Mr. MCCOLLUM. Mr. Chairman, I yield 1½ minutes to the gentleman from Illinois [Mr. CRANE].

□ 1150

Mr. CRANE. Mr. Chairman, I rise to oppose H.R. 1025. Although proponents of this legislation are well intentioned, the sad reality is that H.R. 1025 will do nothing to reduce violent crime in the United States. The most disturbing irony of the "Brady bill" is that it would not have prevented John Hinckley from purchasing the gun he used in the heinous crime against President Reagan and Jim Brady.

We have seen time and time again States enact waiting periods expecting violent crime and homicides to go away. In almost every instance, the homicide and violent crime rates increased. In my home State of Illinois, we witnessed an increase of 31 percent in violent crime and a 36 percent jump in our homicide rate. Alabama witnessed a 51-percent explosion in their violent crime rate and Massachusetts was helpless as the waiting period led to a 40-percent jump in the homicide rate.

The way to control gun violence is to send a message to criminals that if they do the crime, they do the time. We need to pass increased mandatory minimum sentences for criminals who use guns to commit crimes. We need to enact a comprehensive crime proposal sooner rather than later.

I would like to concur with my colleague, the gentleman from New York, Mr. SOLOMON, who, during debate on the rule, correctly noted that passage of the Brady bill is merely the first step in a series of gun control measures that groups like Handgun Control, Inc. want to see enacted.

If the Brady bill is passed, law abiding Americans will see their second

amendment rights eroded, but the criminals will still obtain guns. The black market is the hottest place for felons in search of firearms, and they need not wait for a background check in a dark alley.

Mr. Chairman, I urge my colleagues to oppose this bill.

Mr. SENSENBRENNER. Mr. Chairman, I yield myself 3 minutes.

Mr. Chairman, I rise in support of H.R. 1025, the Brady bill. This Brady bill is much better than the Brady bill that was passed by the House of Representatives 2½ years ago in May of 1991. It is better in two respects.

First, this year's version of the Brady bill includes the instant check system, which was used by opponents of the Brady bill on two separate occasions as a better alternative to the 5-day or 7-day waiting period that was originally proposed.

Second, this Brady bill sunsets the waiting period when the national instant check system is ready, on line, and so certified by the U.S. Attorney General. That means that once the instant check system is operational, there will be no more national waiting period, because both the police and gun dealers will be able to find out instantly whether or not someone who wishes to purchase a firearm is legally prohibited from doing so.

Classes of people who are prohibited from owning firearms under existing law, which is not changed by this legislation, include convicted felons, adjudicated mental incompetents, minors, illegal aliens, those who have been dishonorably discharged from the Armed Forces, as well as those who are under indictment.

Mr. Chairman, no person who does not fall under these categories will be denied a firearm if this legislation goes through, so this is not gun control for honest people. This is gun control for those who have lost their civil rights based upon a conviction or something else that they have done, and these people presently cannot legally possess a firearm. In doing so, there would be a felony committed on their part.

This piece of legislation is eminently reasonable. I am very, very disappointed that those who have said that the instant check system is better than the Brady bill will not support this legislation that includes instant check. I do not know why they will not support it, but the fact of the matter is that after we, who have supported Brady, have accepted their ideas and have terminated the 5-day waiting period, we still do not pick up their support.

The situation in criminal justice records in this country is a disgrace. This bill will automate those criminal justice records, which will be of benefit to law enforcement and to law-abiding citizens far beyond the whole issue of who should have access to a firearm.

I would urge strong support for this legislation, which is carefully crafted, and hope that it is passed overwhelmingly.

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the gentleman from Virginia [Mr. SCOTT], a strong supporter of the legislation and a member of the committee.

Mr. SCOTT. Mr. Chairman, I appreciate this opportunity to participate in what should be the final passage of the Brady bill by this Chamber. I applaud the work of the chairman, the gentleman from New York [Mr. SCHUMER] in promptly bringing this bill to the committee, and, above all, I commend Jim and Sarah Brady for their dedication and commitment to reducing handgun violence.

Mr. Chairman, in 1991 handguns killed 22 people in Great Britain and 12,000 people in the United States, so it does not take a rocket scientist to acknowledge that there is a problem of epidemic proportions that needs to be addressed.

Those opposed to the Brady bill will simply recommend stiffer sentences for those involved in gun crimes. I feel compelled to challenge my colleagues to take a more preventive approach. We are faced with a choice of preventing violent crime before it occurs or reacting to crime after someone has already been raped, robbed, or murdered.

Mr. Speaker, the Brady bill will not end all crime or prevent all criminals from getting firearms, but it is one step toward stemming the tide of handgun violence. Despite the theories by some in this body, convicted felons do attempt to purchase firearms. Hundreds have been stopped in California, and in Virginia we have denied over 5,000 requests of firearm purchasers who have been convicted of crimes.

Mr. Chairman, in addition, 319 persons who were wanted on crimes were attempting to buy firearms, so for anyone that says that the Brady bill is not effective, I ask them whether or not our communities are safer because wanted individuals are able to drop by their neighborhood shop to pick up their weapons of choice.

Mr. Chairman, I urge my colleagues to support this bill and to oppose amendments No. 2 and 3. We cannot afford any longer to go without the Brady bill.

Mr. MCCOLLUM. Mr. Chairman, I yield 1½ minutes to the gentleman from Utah [Mr. HANSEN].

Mr. HANSEN. Mr. Chairman, today we face a crisis in this country that threatens both individuals and families. There isn't one American who doesn't fear for their own safety, or the security of a friend or family member at one time or another. The pervasive and intrusive problems violent crime has brought to nearly every community in the country cannot be ignored. However, as a husband, father, former

businessowner, and Representative in the First District of Utah, I do not believe that passage of H.R. 1025 will take one step toward alleviating this fear.

A 5-day waiting period will not protect the innocent or disarm the criminals roaming our streets.

In the history of State and Federal gun control legislation, waiting periods, licensing systems, and registration strategies have never showed any discernible impact on reducing crime. There are currently 16 States which have some type of mandated waiting period when purchasing a firearm. None of these States can readily show that a waiting period has effectively reduced the rate of crime. In fact, many of them have experienced various problems, complaints, and unfortunate deaths related to the delay in legally purchasing a firearm.

During the riots in Los Angeles, Californians who wanted to protect their homes and businesses were told to come back in 15 days. Many of these law-abiding citizens admitted to illegally buying a gun off the street. Fifteen days is a long time when your world is in chaos and everything you worked for is being threatened. A waiting period isn't going to alleviate fear, it isn't going to protect honest citizens, it merely forces dealers to contend with more paperwork and mandates that local police provide an expensive service that will take valuable time and dollars away from the job that they do best—protecting a community.

Criminals are not honest and legitimate. They are sneaking around, making deals under the table, and terrorizing innocent people. Offenders are not buying their handguns from the local dealer. They don't mess with the paperwork and certainly are not going to check back after 5 days to see if their purchase has been approved. Whoever believes a waiting period will deter an offender is very naive. Those who have previously committed a crime, or are contemplating it, will either steal from homes and businesses, send a friend with no record to get the gun, or buy right off the street.

Every American who owns a home generally purchases homeowners insurance. Theft is covered under section I of a homeowners policy and I know from personal experience that firearms rank high in paid claims to homeowners who have been robbed. Guns are small, lightweight, very easy to resell, and worth a small profit on the street. In a study conducted by the National Institute of Justice, 84 percent of imprisoned felons admitted that they had never even attempted to purchase firearms legally. Their weapons were either stolen or obtained through an illegal source. They laugh at gun control laws because they know there are easier ways to have their own gun.

Gun ownership plays an important role in preventing crime. Let me offer

an example close to home: In my home State of Utah, I recently met with local officials in Wayne County. They explained to me that statistically, Wayne County residents own more firearms than any other county in the Nation. But, what's interesting is that in the history of Wayne County, there has only been one homicide since the turn of the century. And, this homicide occurred when a man caught his wife with someone else and stabbed the man with a knife. No one has ever used a gun against another person in Wayne County.

Criminals admit that they would not attack a potential victim if they knew that person was armed. Thieves avoid houses when people are at home, they bypass areas that are known to have protection, and they fear being shot during a crime. In most cases, gun owners who have used a gun in self-defense have been successful in preventing the violent attack. There are lawful and legitimate rights which should be upheld to allow citizens to own a weapon. Where I come from, people feel very strongly about their right to protect themselves and their families rights which should be upheld to allow citizens to own a weapon. Where I come from, people feel very strongly about their right to protect themselves and their families from anything that may intend to bring harm. This country was founded on freedoms which allow men and women to rightfully protect what is theirs.

After a gun is legally purchased, the owner may decide to sell it through the classified ads. The original owner can sell a gun at any time. In Utah, the Desert News runs column after column; listing the handguns and rifles for sale. Papers like the Desert News run ads all over the country, auctions are held and people generally don't know who is buying, selling, or trading the gun. By and large, these people are honest, upstanding citizens who collect guns as a hobby, but what is going to stop someone from purchasing a gun out of the paper, then turn around and rob a bank with it? Nothing. A waiting period is not the answer—gun control measures miss the mark, the crazies are always going to know where to find a weapon.

Violent crime is by far the largest problem facing American communities today, however, less than 1 percent of America's population are committing these heinous acts. This 1 percent equals about 2.5 million people who engage in violent acts. These people threaten security and erode our peace of mind. A waiting period is not going to deter them. H.R. 1025 is merely an attempt to place a Band-Aid over a problem that requires complete surgery.

Our system is not tough enough on criminals. The first time a violent crime is committed, we slap the offender's hand, deliver a light sentence, and

put them back on the street as soon as good behavior has been exhibited. It is our responsibility to focus on toughening the law.

Congress needs to enact a real crime reform bill which protects the victims of crime, not the perpetrators. We should place a stiffer penalty on fencing a gun that is known to be stolen; increase fines and mandatory minimums for criminals using a firearm when committing any crime; build more prisons so the revolving door doesn't keep turning; and support capital punishment.

The American public would like to feel safe on their own streets—criminals should not be ruling our neighborhoods. But, H.R. 1025 is not the answer.

Mr. BROOKS. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Kentucky [Mr. MAZZOLI], a member of the committee.

Mr. MAZZOLLI. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I rise in strong support of the Brady bill, and a proper tribute here ought to be given to several people, but, of course, premier among them would be Jim and Sarah Brady. Just a moment ago I was out in the House triangle, and Jim was out there, as he always does, charming the people with whom he was speaking.

The two of them, Jim and Sarah Brady, have taken tragedy and turned it into a national crusade for a good thing. Many people in their situation could very well have gone off in a corner and pretty much cried against fate for having dealt them this tough hand, but they took that hand and they have, with their spirit and zeal and charm and good humor and absolute perseverance, have reached this day, which is very historic, on which we will have a vote on a bill named after them, which takes a very simple step in the direction of bringing down violence in our communities.

□ 1200

I agree with people who say that this bill will not solve all of the problems. Indeed it will not. It has been praised perhaps too highly. It has perhaps even been lionized.

But, in fact, it is one element of a series of elements that go into a multifaceted anticrime package. And I would salute the gentleman from New York [Mr. SCHUMER], and his predecessor in that role, the gentleman from New Jersey [Mr. HUGHES], for having very stalwartly led the legislative fight.

But I think it is a good bill, Mr. Chairman. I believe that it will, if passed, enable the law enforcement authorities in our communities to keep guns out of at least some wrong hands, and in that setting save some lives.

So where we have an opportunity to vote for a bill that will save some lives,

and will be one part of an overall comprehensive anticrime program, then I think we ought to vote for that bill. I hope the Brady bill passes unamended.

Mr. SENSENBRENNER. Mr. Chairman, I yield 2 minutes to the gentleman from Ohio [Mr. OXLEY].

Mr. OXLEY. Mr. Chairman, this is a commonsense approach. I do not stand here and say that my support for the Brady bill is going to bring some kind of a nirvana in law enforcement. We need a lot more in the criminal realm in reforming habeas corpus, in providing capital punishment in various cases. But indeed this is a commonsense approach.

Essentially, what we have today is sale of handguns on the honor system. You walk into the store, you want to buy a handgun. You are presented with a questionnaire. It says are you a convicted felon. And essentially that is how we sell it.

That seems to me to be violative of our commonsense tradition in this country. How else essentially can we determine whether that person that walks in and buys the handgun is under a legal disability to do so? It seems to me at least to do a background check, and by the way, it is a maximum of 5 days, not a minimum, whereby individuals can purchase a handgun.

But the point-of-sale check is clearly the best procedure. And what this Brady bill does is get us one step closer to what everybody wants, and that is a point-of-sale instant check, and it works in a very effective manner in getting the States to bring their records up to date and do exactly that.

We do not need an artificial time limit for that, but it can happen because of the creativity of the committee in putting this bill together.

Mr. Chairman, a couple of years ago I had the honor to attend the opening of the Peace Officers Memorial, just a few short blocks from the Capitol. And it is very much like the Vietnam Veterans Memorial and it lists all of the peace officers who have been killed in the line of duty. And believe me, that list is getting longer every day. And I for one, who have a background in law enforcement, am tired of seeing on the news police officers killed in the line of duty.

Support the Brady bill. It makes common sense. It gets us off the honor system in terms of sales to convicted felons.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the gentlewoman from Florida [Mrs. MEEK].

Mrs. MEEK. Mr. Chairman, I rise in support of the Brady Handgun Violence Prevention Act, and in opposition of any weakening amendments.

Like many of my colleagues, I come from an area where guns are everywhere. The escalation of violence has been frightening. Not even little children are safe. Whether a shooting is deliberate, criminal, done in anger, or accidental, it doesn't matter at all to the

victim, and today there are too many victims.

The leading cause of death in young people is firearms, whether it be homicide or suicide. Among African-American teenagers and young men, homicide is the leading cause of death. We can no longer sit around just wringing our hands about this. It is time to do something. The Brady Bill by itself is not going to solve the problem of violence in our society, but it is a statement that we are at a minimum going to make the attempt to prevent the sale of handguns to felons, illegal aliens, drug addicts, and those adjudicated as mentally ill. If we prevent only a few deaths, this legislation will be worth it.

This bill is named after Jim Brady, who suffered terrible injuries because of a mentally unstable person with a handgun. Perhaps John Hinckley would not have obtained his gun had there been a waiting period or background check. Perhaps the life of someone we know can be saved by a waiting period and background check.

A criminal may find another way to obtain weapons, but why should we make it easy for him? Keeping guns out of the hands of the mentally ill can save lives. Making an angry spouse wait a few days before purchasing a gun could save the life of a husband or wife.

This legislation is common sense legislation, yet there are those who would weaken even this modest bill. I am especially concerned about the McCollum amendment which would preempt State and local laws requiring waiting periods. This would affect my own State of Florida, where a waiting period was adopted by referendum, by a overwhelming 84 percent of the voters. The people of Florida are tired of the violence. The people of America are tired of the violence. Vote for the Brady bill and against weakening amendments.

Mr. MCCOLLUM. Madam Chairman, I yield 1½ minutes to the gentleman from Wyoming [Mr. THOMAS].

Mr. THOMAS of Wyoming. Madam Chairman, I rise today to voice my opposition to the Brady bill. I have thought a great deal about this question, as I suspect most of us have. Some answers come fairly simply and fairly easily, and some do not. This one is not an easy one.

All of us are opposed to crime and crimes committed by people with guns. On the other hand, all of us are opposed to placing unneeded restrictions on the liberties of law-abiding citizens.

We certainly read every day that America is under siege and the Congress has a chance to do something about it, and we are all interested in that. I say "something" is the operative word, and I suspect that is what this is, a chance to do something. Whether or not it is effective is really the question, and is it a solution?

I have concluded that whether it is 5 days or 5 months, it probably does not make much difference. Criminals will still have access to weaponry that they need. They will purchase it from friends, they will get it illicitly, and certainly all we will do is put an obstacle in place for people who buy guns for legitimate purposes and cause criminals to get them in a way that is illegitimate.

One size does not fit all, and that is an issue that we have here. I come from Wyoming, quite a different situation than New York City. And I think to try to attempt to have a blanket system that works for everyone simply is beyond the realm of possibility.

So Madam Chairman, I rise in opposition to this bill which I think simply diverts attention from the real problem, and that is the problem of doing something with criminals.

Mr. BROOKS. Madam Chairman, I yield 2 minutes to the distinguished gentleman from Texas [Mr. SARPALIUS].

Mr. SARPALIUS. Madam Chairman, this amendment has bothered me, the Brady bill, for quite some time because I feel very strongly that it goes against the very belief of the second amendment. And I contacted the Archives, and I asked for some research work on the debate that was said at that time when Samuel Adams made the motion for that particular amendment.

During that debate it was made clear that every American citizen should have the right to own and bear their own arms, to protect themselves.

Now we can pass tough gun control laws. Look at which city has the toughest gun control laws in the country. It is this one, Washington, DC. But what city has more murders than any other city? It is this one, Washington, DC.

If we are going to pass tough gun control laws to prevent people from killing people, why do we not look at passing laws to outlaw knives, or hammers or other weapons?

I think it is important that all of us as American citizens and as Members of this body should do everything we can to help protect that precious amendment that our forefathers gave us in the right of protecting ourselves.

Mr. SENSENBRENNER. Madam Chairman, I yield 1 minute to the gentleman from Michigan [Mr. UPTON].

Mr. UPTON. Madam Chairman, I rise to participate in a colloquy with the gentleman from New York [Mr. SCHUMER] to affirm the legislative intent of H.R. 1025. Would handgun purchases in Michigan be exempt from operation of the Brady 5-day waiting period?

Mr. HOEKSTRA. Madam Chairman, will the gentleman yield?

Mr. UPTON. I yield to the gentleman from Michigan.

Mr. HOEKSTRA. Madam Chairman, I would like to associate myself with the

remarks of my colleague from Michigan and join in the colloquy on this important issue in terms of its impact on the State of Michigan.

Mr. SCHUMER. Madam Chairman, will the gentleman yield?

Mr. UPTON. I yield to the gentleman from New York.

Mr. SCHUMER. Madam Chairman, I thank the gentleman for yielding. What I would say to the gentleman is that while H.R. 1025 exempts handgun transfers if the law of the State provides that a handgun transferee must have a permit to purchase and the permit is issued only after an authorized government official has verified that the information available to that official does not indicate that possession by the transferee would violate the law. Because Michigan law prohibits the issuance by the police of a license to purchase a handgun to anyone prohibited by law from receiving such a gun, the issuance of such a license would itself be a verification that the transfer would not violate the law.

The CHAIRMAN pro tempore (Mrs. LOWEY). The time of the gentleman from Michigan [Mr. UPTON] has expired.

□ 1210

Mr. SCHUMER. Madam Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. COYNE].

Mr. COYNE. I thank the chairman for yielding this time to me.

Madam Chairman, I strongly support House passage of H.R. 1025, the Brady Handgun Violence Prevention Act.

The American people have a right to demand that Congress take action to prevent handgun violence in the streets of our Nation. They know that since the Brady bill was first introduced 6 years ago over 150,000 Americans have been killed by handguns. They know that there is something wrong when a convicted murderer can too easily purchase a handgun in violation of existing Federal law. They know that the Brady bill may not be the complete answer to preventing handgun violence, but Americans have expressed by overwhelming majorities their belief that the Brady bill can help.

There is nothing complicated about the Brady bill.

This bill provides law enforcement officials a 5-day waiting period to review handgun purchase applications and screen out convicted felons and other individuals who are not permitted by law to purchase a handgun. If law enforcement officials do not notify a gun dealer that a sale would violate Federal, State or local law, then that sale would proceed 5 business days after the date of the purchase application.

The Brady bill is just that simple. This bill applies at the Federal level the lessons learned in over 22 States, including Pennsylvania, which show

that waiting periods can stop murderers and other felons from purchasing a handgun. The experience of California offers one of the best examples of how effective a waiting period can be. Between January 1991, and September 1993, when a 15-day waiting period became effective in California, 16,420 illegal gun purchases were stopped, and of these, over 8,000 attempted illegal gun purchases involved individuals who were convicted for crimes of homicide or assault.

As an original cosponsor of the Brady bill, I know that a 5-day waiting period will not eliminate all crime in America, but it seems that saving even one life is worth this effort. President Clinton has stated his strong support for congressional action on the Brady bill. In addition, support for the Brady bill is widespread among many organizations representing members of the law enforcement community, such as the Fraternal Order of Police, the International Brotherhood of Police Officers, the National Association of Police Organizations, the National Sheriffs' Association, the Police Foundation and many others. This bill has also been endorsed by the U.S. Conference of Mayors, the American Medical Association, the National Congress of Parents and Teachers, and former President Ronald Reagan. The Brady bill is a sound proposal and its enactment into law is long overdue.

Madam Chairman, today the House can reaffirm its support for this legislation with the confidence that President Clinton will sign this bill into law. I urge my colleagues to support this bill.

Mr. SCHUMER. Madam Chairman, I yield 1 minute to the distinguished gentleman from California [Mr. TUCKER].

Mr. TUCKER. I thank the distinguished chairman.

Madam Chairman, I rise in strong support of the Brady bill, H.R. 1025.

This is a historic day in the House of Representatives. We expect to pass the bill.

Madam Chairman, we have Jim and Sarah Brady outside in the triangle. It reminds me that just a couple of weeks ago when I was on an airplane with Jim Brady and I saw him walking and writhing in pain, now having been incapacitated by the gunshot wound that he suffered while serving the highest office in this land, the Presidency of the United States.

Madam Chairman, it is unfortunate that it took Mr. Brady and his wife Sarah to have to bring this issue to the American public. But on today we can make their labor one that is not in vain.

Very quickly to my colleagues on the other side of the aisle and those who believe that this bill would do nothing, that it should not be nationalized, I would say, yes, there are States that

have a waiting period and others do not, but all of the States that have waiting periods, because of the natural tendency to buy guns in the States that do not have a waiting period and then go to other States in order to use them, it is time we nationalized this. I am in strong support of the Brady bill without any of the amendments.

Mr. MCCOLLUM. Madam Chairman, I yield 1½ minutes to the gentleman from Oklahoma [Mr. ISTOOK].

Mr. ISTOOK. Madam Chairman, I thank the gentleman for yielding this time to me.

Madam Chairman, this bill says America will spend \$100 million a year—this year and again next year, and the year after that, and so on, until every State has a vast new network of computerized criminal records, accessible at computer terminals at every gun store, gun show, sporting goods stores, and everyplace else that sells firearms.

It is time to ask, will this system work? Will it be worth these untold billions of dollars?

It is silly to spend taxpayers' money on a system that can easily be defeated. It can be thwarted the same way that teenagers get around the alcohol laws, illegal aliens get forged documents, and others disguise their identity. It is called false ID. It does no good to run a criminal check on John Jones, when the person buying a gun is really Sam Smith.

And then this bill also has the 5-day waiting period to buy a handgun. But that is only for those who buy a handgun from a licensed dealer. Check out our prisons. Seventy-three percent of those people did not buy their guns through dealers. They bought them on the street. No waiting period, and no instant-check system is going to stop them. This bill will spend billions of taxpayer's dollars, it will make it harder for honest, law-abiding citizens to protect themselves, it will add another huge layer of redtape and Big Brother government. And all to do what? Just to try to catch the dumbest of the dumb—the poor souls who have a criminal record, and do not know they will be checked. And what happens when they're turned down? They leave the store, and buy their gun anyway, there on the street, where there is no flashy, chrome-plated computer terminal looking over their shoulder.

If a waiting period works, why do you not propose a waiting period on knives? They are used to kill people. And so are cars. And so is rat poison. Why do you not put a waiting period on those, since they are used to kill people?

Let us not throw away our money for a high-tech plan that solves nothing. With this \$100 million a year, we could instead put more cops on the street, build more prisons, hire more judges and prosecutors so they won't be overworked and turn crooks loose through

pleabargains. Instead, they could crack down to lock away the robbers, and the rapists, the muggers, and the killers.

Let us defeat the Brady bill.

Mr. SENSENBRENNER. Madam Chairman, I yield 2 minutes to the gentlewoman from New Jersey [Mrs. ROUKEMA].

Mrs. ROUKEMA. Madam Chairman, I thank the gentleman for yielding this time to me.

Madam Chairman, I rise in the strongest support of this legislation, and urge my colleagues to do what their constituents expect and demand: Pass the Brady bill.

Make no mistake, my colleagues, and let no one tell you otherwise: This bill represents a crucial step in moving to curb handgun crime, and one that our law enforcement officials are calling on us to pass. How much more handgun violence must we endure—how many more lives do we have to lose—before we adopt a minimum Federal standard for handgun purchase?

Let me say to my colleagues that the Brady bill is a matter of simple common sense. Don't be fooled or misled: There can be no substitute for a federal, minimum waiting period. Indeed, this whole debate can be summarized in one sentence: Anyone who needs a gun right now needs a waiting period. Period.

The waiting period afforded by the Brady bill allows local law enforcement 5 days in which to make reasonable efforts to conduct a background check on a prospective handgun purchaser. In this way, we act to stop the ex-convict, or the mentally incompetent, from simply crossing a State line, putting his cash on the table, and walking away with a handgun.

Even more crucial, only this Brady bill allows the waiting period necessary to stop a flash of temper or moment of heated passion from driving a person over the edge, to handgun violence.

This cooling off period is absolutely critical, and the data here are clear: The number of gun-related accidents, and domestic violence incidents committed with handguns, continues to increase! Every piece of evidence demonstrates that crimes of passion and heat of the moment gun-violence continues to rise!

Each one of us—and more important, the police officers and law enforcement officials in each of our districts—can attest to this fact.

It is important for the record to examine objectively the provisions of the Brady bill and dispel some of the myths that the gun lobby would have us believe.

First, the Brady bill in no way provides for a system of national gun registration—quite the opposite. In every instance where a handgun sale is approved under Brady, law enforcement officers must destroy the information they've been provided within 20 days.

Second, there is no case to be made for unreasonable delay. The Brady bill is clear and explicit: After transmitting the name and address of the purchaser to local law enforcement officials, if the dealer has not heard back from law enforcement after 5 days, positively disallowing the sale, the buyer gets his gun. There is no room for delay—it's that precise.

Finally, this bill has no new restrictions on gun purchasers. No one who today is legally entitled to purchase a handgun will be ineligible under Brady. This bill just checks, and reaffirms, existing law.

I need not remind my colleagues that support for this bill is almost universal. From the State attorneys general to the cop on the beat, the men and women who have made crime control their lives' calling are united in their support for Brady. Every legitimate law enforcement organization has endorsed this commonsense, 5-day, waiting period.

More impressive, however, is the grassroots enthusiasm for this bill from our men and women in the field. I have yet to visit a police station in my district where officers did not commend me for my support of the Brady bill. This is the testimony of the front-line troops in the war on crime: How can you my colleagues turn your backs on law enforcement and in support of the gun dealers?

I would take this opportunity to make one point perfectly clear: We must defeat the weakening killer amendments that will be offered on the floor this afternoon. Among the most dangerous is the State preemption amendment, which would require our minimum Federal standard to preempt and prohibit tougher State laws.

This is absolutely ludicrous. The Brady bill is designed to represent a minimum, Federal standard. The idea that we would eliminate all other restrictions would be laughable were it not so offensive.

This is without question the most blatantly irresponsible amendment I have ever heard considered, and a reprehensible cave in to scare tactics of the gun lobby.

I stress gun lobby, because every one of us knows that support for this ill-conceived plan doesn't come from our constituents, the upstanding hunters, sportsmen, and collectors. This is pure political sell out to the NRA and their inside-the-beltway scare tactics.

In my own State of New Jersey, a background check has stopped more than 18,000 purchases, and resulted in more than 10,000 arrests. This law has been in effect for 20 years, and I have seen no evidence that it has led to infringement of constitutional guarantees. The Constitution stands, and sportsmen are still getting their guns.

But under the State preemption amendment we will debate this after-

noon, New Jersey's 20 years of strong, fair, and effective anti-gun-violence protections would be thrown out of the window for political expediency and special-interest payback.

When we even consider an amendment like this, it's no wonder why the American people hold our institution in such disregard. My colleagues, we can not let this reckless amendment stand.

It is unfortunate that any legislative effort to restrict firearms is painted by gun control opponents as an affront to—if not abrogation of—the Constitution. In fact, nothing could be further from the truth. The Supreme court of the United States holds that the second amendment does not allow free or unrestricted ownership of any weapon. Rather, the second amendment allows regulation of firearms so long as the regulation does not impair the maintenance of the active, organized militia of the States—*Miller versus United States, 1939*. The Supreme Court has consistently upheld this reasoning for more than 60 years, across a broad ideological spectrum.

There can be no substitute for the Brady bill, which will start saving lives the day after it becomes law. In contrast, an instant check alternative offers no such guarantee. Even the ambitious timetable established for the Justice Department indicates that the records on which this hotline is based cannot be up and running for years. I would remind my colleagues that when we last addressed this issue, the Attorney General of the United States report to Congress estimates indicates that it would take at least 3 to 5 years for the necessary information to be updated; the Office of Technology Assessment estimated up to 10.

I would add, however, that when the Justice Department certifies that such a system is fully operative, the Brady bill, and the national waiting period, sunsets. Frankly, I would rather that were not the case. The time it takes to bring a national, instant check system on line is but one of the failings of this alternative. Even when criminal records are updated to provide complete and accurate information, and instant check cannot and will not screen out the mentally incompetent, or drug abusers; and most important, as I discussed, this alternative allows no cooling off period for crimes of passion.

Again, my colleagues, this debate comes down to common sense, and simple logic: anyone who needs a gun right now needs a waiting period. Period.

I urge my colleagues stand up to the gun dealers lobby. Follow President Ronald Reagan's example, support law enforcement, and do the right thing for the people.

Pass the Brady bill, today.

Mr. MCCOLLUM. Mr. Chairman, I yield 1½ minutes to the gentleman from Texas [Mr. FIELDS].

Mr. FIELDS of Texas. Mr. Chairman, I think in this debate you have to come to two compelling questions. First of all, do my colleagues believe criminals will be affected by waiting periods or other gun control laws?

Secondly, do my colleagues believe crime rates will go down with waiting periods?

I think you have got to look at the facts and you have to look at where waiting periods have been deployed because this is an emotional debate but it is also a debate that could infringe the right of our citizens under our Constitution, the second amendment.

Let us look at California: When California went from a 2-day waiting period to a 15-day waiting period, the homicide rate rose 126 percent, more than twice the national average. Or you can look at Washington, DC: People have already talked about this particular jurisdiction, the toughest gun control jurisdiction in the world, and yet it has the highest homicide rate in this country.

Waiting periods do not work. This is symbolic, but it is an infringement upon the second amendment rights of every citizen. The problem is not with an inanimate object, which is what a gun is; the problem is with the criminal justice system. There must be a punishment that fits the crime.

If we had strong punishment in this country, crime rates would go down. I think that is important and it is compelling to all my colleagues to separate the emotion and look strictly at the facts.

Mr. MCCOLLUM. Mr. Chairman, I yield 1½ minutes to the gentleman from California [Mr. CUNNINGHAM].

□ 1220

Mr. CUNNINGHAM. Mr. Chairman, some Members on the other side of the aisle said they did not want to support anything that would weaken this bill.

The Brady bill itself recognizes the importance of an instant check system. This amendment merely states, one of the amendments merely states that we should implement that system within 5 years. Most of us agree on both sides of the aisle that we have got too many weapons on the streets. There are too many senseless killings.

How do we stop that? Right now, under the Brady bill, you take paperwork that goes into local law enforcement which is not funded, and it ties up the cops with administrative burdens. The instant check would free that up. An instant check, if you would be a cop on the beat and stop and arrest someone, that could go into a computer right in the car or at the time of arraignment at the local station. If that person gets out on a waiver or bail and goes to another State, they could not buy a weapon under the instant check because that data would be entered automatically.

If that is the case and it is a better system, then the State should implement it and that takes care of the second amendment. So this actually strengthens the Brady bill.

In my district, one of the things that has been recommended is if you commit a crime with a weapon—first of all, if you commit a crime, there is a penalty. If you commit it with a weapon, you take the next level of penalty. If you fire that weapon, the next level. If you hit somebody, the next level, and if you kill somebody, you die.

The "three strikes you are out" which is going around this House floor for no parole, life imprisonment, I think we ought to adopt that.

Mr. Chairman, I ask for support for both amendments to the Brady bill.

Mr. MCCOLLUM. Mr. Chairman, I yield such time as he may consume to the gentleman from Kentucky [Mr. BUNNING].

Mr. BUNNING. Mr. Chairman, I rise in opposition to the Brady bill because I think it is a sham. The bill does not do what it is supposed to do. It nibbles away at gun owners' rights. But it does not accomplish anything else.

We all know that this country has a problem with crime—that is no secret, and I want to put an end to the crime problem as much as anyone else in this Chamber, but the Brady bill does nothing to stop criminals from getting guns.

Supposedly, the goal of the Brady bill is to delay the sale of a handgun by 5 business days to allow the local law enforcement officials time to do a background check on the potential gun purchasers. However, the bill does not ever require that the background check be done. The local chief of police has the option to do a check, but he does not have to do one. In this bill, the wait is mandated—the background check is not. It means the whole idea is an empty promise.

Then you have the fact that the vast, overwhelming majority of people who buy guns from gun dealers are law-abiding citizens. They are not going to use their guns to commit a crime; it is for self-protection or sports.

This means that even if the local law enforcement agencies do decide to use the waiting period for background checks, it accomplishes nothing. They are going to spend a lot of time and a lot of manpower doing background checks on citizens without criminal records. This is a total waste of limited law enforcement resources. I think we need those police officers on the streets battling crime, not behind a desk pushing papers.

Just think about it: What kind of criminal is going to try to buy a gun from a dealer knowing the police is going to do a criminal background check? Only a very stupid criminal. Criminals will keep buying guns where they always have—on the streets, illegally.

Mr. Chairman, this bill will do nothing to reduce crime. Instead, it punishes those who respect and obey the law by not allowing them to purchase a gun when they have the need for one. This just isn't right. Let us focus our efforts on the criminals, not our law-abiding citizens.

Waiting periods have not proven themselves to be of any value in the past and will continue

to be unsuccessful. Waiting period or not, a criminal will find a way to get a gun.

In some States, where waiting periods have been employed, the crime rate has actually increased. In fact, a 1989 FBI crime report shows that of violent crimes committed in the United States, 74 percent were committed in States with mandatory waiting periods, while only 26 percent occurred in States with no waiting period.

The District of Columbia, which has an outright ban on ownership of any firearms, remains the murder capital of the country. In fact, just the past weekend, four victims were gunned down on Saturday night on the streets of D.C. As of Monday, the District of Columbia has reported over 400 murders in 1993.

If gun control does not work, why should we believe a waiting period will do anything? My colleagues who are supporting this bill are looking for a quick fix for our crime problem. Unfortunately, crime control will not come so quickly or easily. All this bill really does is delay law-abiding citizens from purchasing a handgun. It does nothing to curb crime.

If we want to keep criminals from committing violent crimes with handguns, then let us do it with a crime bill, not a gun-control bill. Guns do not kill—people do.

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from California [Ms. PELOSI].

Ms. PELOSI. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in strong support of the Brady Handgun Violence Prevention Act, as it was reported from the chairman's Judiciary Committee.

I urge my colleagues to oppose the Gekas and McCollum amendments offered today, which I believe serve to weaken states' rights and dilute the intent of the Brady bill.

The McCollum amendment to preempt State and local gun laws upon implementation of a national instant check system would undermine State gun laws, such as waiting periods and fingerprint identification systems.

Mr. Chairman, in my own State of California, mental health records are checked to stop those who have been involuntarily committed from purchasing handguns.

I mentioned earlier our tragedy at 101 California Street in which eight people were killed and six wounded. Mr. Chairman, the problem is that even though we have gun laws in California, the guns in that 101 California tragedy were purchased in Arizona. Our colleagues have mentioned the number of murders in the District of Columbia where there are strong gun laws. Even if a State has strong control laws, all one would have to do is cross over a State line to buy a gun. That necessitates a national gun law.

Mr. Chairman, let us take our children out of the crossfire. Let us pass this Brady bill unamended.

Mr. ZIMMER. Mr. Chairman, I rise in support of H.R. 1025.

Two years ago, I voted against an earlier version of the Brady bill, which required a 7-day waiting period for handgun purchases with only an optional background check. I voted instead for alternative legislation that provided for an instant, mandatory background check because it would have been more likely to keep guns out of the hands of criminals while minimizing inconvenience to law-abiding gun purchasers.

The legislation we are voting on today addresses my principal objections to the 1991 Brady bill. The background check is no longer optional and the waiting period will be eliminated as soon as a national instant check system can be implemented. Unlike the 1991 Brady bill, today's legislation authorizes up to \$100 million in Federal grants for State and local governments to computerize their criminal records so the instant check system can actually work.

States that do not follow the Justice Department timetable for implementation of an instant check system will lose a portion of their Federal law enforcement grant money. The Justice Department also has a stake in getting this system on-line. Its budget will be cut if States don't meet their deadlines for implementation.

Even the most ardent supporters of this legislation agree that a background check of persons buying guns from licensed dealers will have only a modest effect on the criminal use of handguns, since the vast majority of firearms used in crimes are obtained illegally.

That is why we need to take stronger measures to convince criminals that it is not worth the risk for them to possess a gun. I have introduced the Felon Gun Penalty Act, which would impose a 5-year mandatory prison term without probation or suspended sentence for unlawful possession of a firearm by convicted felons, illegal drug users, fugitives from justice and buyers and sellers of stolen firearms. Simply put, if a criminal gets caught with a gun, he or she will go to jail for 5 years. No excuses and no time off for good behavior.

My bill would double the penalties for criminals convicted of possessing or using a firearm in the commission of a violent crime or drug trafficking. It would also double the penalties to 10 years in prison for those people who lie to obtain firearms, who illegally sell firearms or illegally transport firearms.

Persons who use guns to commit crimes should receive the harshest possible treatment.

I intend to continue pressing for passage of the Felon Gun Penalty Act, which would appropriately focus law enforcement resources on deterring the illegal use of firearms rather than imposing unnecessary restrictions on the rights of law-abiding citizens.

Mr. SENSENBRENNER. Mr. Chairman, I yield 1 minute to the gentlewoman from Florida [Mrs. FOWLER].

Mrs. FOWLER. Mr. Chairman, I rise today in support of the Brady bill and in opposition to weakening amendments, which could ultimately preempt State laws, including State law in Florida.

In November 1990, by an 84-percent majority, Florida's voters supported the establishment of a 3-day waiting

period for the purchase of handguns, augmenting a statewide instant check system for other weapons.

The entire Florida system has been a model for the rest of the Nation. Between February 1, 1991, and October 31, 1993, Florida authorities conducted 738,157 background checks for individuals seeking to buy firearms. These checks resulted in 18,789 individuals—convicted felons and those adjudicated to be mentally ill—being denied firearms. That is a staggering number of denials.

An unencumbered Brady bill would support Florida law. My district in Florida borders another State without a waiting period, and an individual who is denied a firearm in my district need simply cross the border to obtain one. This is not acceptable to my constituents or to me.

I urge my colleagues to oppose weakening amendments, and to support the passage of this much-needed bill.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from New York [Mrs. LOWEY] who has been a strong advocate of the bill.

Mrs. LOWEY. Mr. Chairman, I rise in strong support of the Brady bill. I congratulate the subcommittee chairman, the gentleman from New York [Mr. SCHUMER], and I urge my colleagues to vote against any weakening amendments.

Mr. Chairman, the issue today is who should we trust for advice when it comes to fighting crime? On one side of this debate—urging us to approve the Brady bill without weakening amendments—are the Fraternal Order of Police, the National Sheriffs' Association, the National Association of Police Organizations, the National State Troopers Coalition, the Major Cities Police Chiefs, the Federal Law Enforcement Officers Association, the Police Foundation, the National Organization of Black Law Enforcement Executives, and the Police Executive Research Forum. These groups together represent 465,047 police officers—from the chiefs of our Nation's largest cities to the regular cops on the beat. These cops want to see guns kept out of the hands of criminals.

On the other side of the debate we have the gun lobby. The National Rifle Association represents the eighth largest PAC in the Nation. They have an army of well-paid lobbyists who are trying to convince people that a waiting period and background check for handgun purchases are unreasonable measures.

I ask my colleagues—whom do you trust on crime? The police or the gun lobby.

Who do you trust on crime? Those who fight crime—or those who fight anticrime legislation?

Who do you trust? Those who safeguard our communities—or those who safeguard their contributions?

Who do you trust? Those who lock up criminals—or those who lock up legislation by promoting gridlock?

I for one will vote along with the vast majority of those who are fighting crime on the streets every day rather than those who sit in their lobbyist offices crafting new ways to block the will of the American people—95 percent of them—for the Brady bill.

Mr. MCCOLLUM. Mr. Chairman, I yield 2 minutes to the gentleman from New Mexico [Mr. SCHIFF], a member of the Committee on the Judiciary.

Mr. SCHIFF. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, if there is any question still remaining about whether a background check and a waiting period actually reduces crime or in fact reduces law enforcement by taking resources away from agencies, checking out backgrounds of honest citizens, I think the key evidence is the position of the Department of Justice in this debate.

The Department of Justice in this administration speaks very much in favor of this bill; however, how are they doing with gun control laws that they now have the responsibility to enforce, that are on the books today?

One of the most effective laws we have is the current Federal law that makes it a crime for a convicted felon to be in possession of a firearm. That is a law that can be used very effectively to prevent a crime before it occurs.

For weeks on end I have contacted the Justice Department and asked them to say how many cases under this law have you prosecuted? How many have you refused to prosecute? And questions like that.

Until a few days ago, I did not get an answer at all. A few days ago I got an answer, "We're trying to get that information for you, Congressman."

Trying to get that information? If gun control laws were really the priority of the Department of Justice, why is there no one in the Department of Justice today monitoring how well the U.S. attorneys are doing in enforcing gun control laws?

This relates back to the fact that H.R. 1045 as written is an unfunded mandate on local law enforcement. If we pass this bill, we are saying that a background check is valuable, but only if the local governments do it at their expense. There is no way that the Justice Department would support this bill if they were responsible for doing the background check.

I think it is the height of inconsistency for the Department of Justice to be over here lobbying for this bill which puts a mandate on local law enforcement at local law enforcement expense, while not saying they can enforce the laws they are responsible for today.

Mr. SENSENBRENNER. Mr. Chairman, I yield 1 minute to the distin-

guished gentlewoman from Maryland [Mrs. MORELLA].

Mrs. MORELLA. Mr. Chairman, few Members supporting this legislation today would dispute opponents' claims that gun control is no cure-all for eliminating criminal activity. However, available reports indicate that not only do nearly 90 percent of Americans, and more than 80 percent of gun owners, support the Brady bill mandating a national 5-working day waiting period for the purchase of a handgun. The facts also indicate that such legislation can be of assistance in fighting crime.

The arguments made by Brady bill opponents that it will have no effect on crime, since criminals do not buy guns from dealers, is not true. The facts clearly demonstrate that criminals do indeed get guns from authorized gun dealers. The Bureau of Justice statistics reported earlier this year that 27 percent of State prison inmates who had owned handguns had purchased them from legitimate gun dealers. In addition, gun traces have shown that many guns bought by criminals on the black market were also originally purchased from retail stores. Furthermore, reports from several States with waiting periods show that waiting periods work. In my own State of Maryland, a stateside 7-day waiting period prevented more than 1,300 illegal purchases in 1990. In New Jersey, which has required a background check for more than 20 years, more than 10,000 convicted felons have been caught attempting to purchase handguns. A 1985 study by the Department of Justice found that 21 percent of criminals got their guns from dealers.

The Brady bill requires that the waiting period eventually be supplanted by an instant check system. But in the meantime, a 5-working day waiting period will assure that handguns are sold only to those legally eligible to possess them. I urge Members to support H.R. 1025 without any weakening amendments.

Mr. SANGMEISTER. Mr. Chairman, I believe it is important that we bring forth statistics from States, of course, that have already had a waiting period—and I am obviously from Illinois, and we have had one there—and I just recently got the 1992 figures, which are the most recent figures that they have, which shows that out of 171,000—in round figures—the people that asked for permits to purchase a gun, 1,234 of those requests were denied because of felony convictions and mental illness with the particular individual.

Now I cannot give my colleagues the figures here of how many people's lives might have been saved, but I will tell my colleagues that out of every 1,234 that were denied, no one can tell me that some lives were not saved.

I think the other question we need to ask here is: "What's the big deal about

waiting a maximum of 5 days to receive the permit for a handgun?"

I say, if you got to have a handgun within less than 5 days, maybe you ought to be talking to law enforcement. Is there some kind of a problem? Is somebody trying to assault you? Does your family need some protection? If so, maybe you ought to be looking to law enforcement rather than being worried about not being able to get the gun within the 5-day period.

As everyone has said here, Mr. Chairman, this bill is no panacea, but I believe it is a step in the right direction, and I think probably that is part of the problem with this bill and one of the questions we all have to resolve in our own minds.

There are people here who cannot disagree that this is good legislation but are afraid of opening the door. Yes, this will open the door. This will be the first step forward at a time when it is one this Nation should take.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the gentleman from New York [Mr. ENGEL].

Mr. ENGEL. Mr. Chairman, I rise today in support of the Brady Handgun Violence Protection Act. Passage of this important legislation is long overdue.

Most of us are familiar with the tragedy of increasing violence that plagues our cities. New York is only one of the many areas around the country that has been particularly hard hit by the proliferation of handgun use. Gun-related crimes have become so prevalent in our society that no place is safe, nor is anyone immune to the escalating violence. The increasing incidence of handgun-related violence in our schools and among our Nation's youth is just one disturbing example. The Brady bill is an important preventive measure addressing the rise of handgun-related violence. How can we not seize this opportunity to stop violence before it has the chance to happen.

Contrary to claims by the opposition, waiting periods and background checks do work. Twenty-two States have enacted some form of legislation similar to the provisions included in the Brady bill. In those States, thousands of illegal purchases have been stopped. However, a national waiting period is crucial to ensuring that these efforts are not in vain. Currently, guns bought in States without waiting periods and background checks show up in the black markets of States that have labored to pass gun control legislation, such as my State of New York.

This is not a definitive solution to crime, but it is an important measure that can potentially save many lives. Ninety-two of Americans support the Brady bill. In addition, all major law enforcement organizations support this legislation. Pass the Brady bill. The Brady bill was introduced in 1987. We

cannot afford to wait any longer for its passage, too many lives are at stake. I strongly urge all of my colleagues to vote in favor of H.R. 1025.

Mr. SENSENBRENNER. Mr. Chairman, I yield back the balance of my time.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from Oregon [Ms. FURSE], a strong supporter of the bill.

Ms. FURSE. Mr. Chairman, I rise today in strong support of H.R. 1025, the Brady Handgun Violence Protection Act, and in opposition to any weakening amendments offered. I want to thank all the members of the Judiciary Committee for their hard work on this bill, particularly the chair of the Crime and Criminal Justice Subcommittee, Mr. SCHUMER. I am a proud cosponsor of H.R. 1025 because I believe that it is an important first step in the ever-growing problem of crime in the United States.

While there are many arguments for and against the Brady bill, the truth is 92 percent of citizens in the United States fully support this bill. Even an overwhelming 87 percent of gun owners support it. We cannot allow a small minority to mislead us and say that the people of the United States are against this bill.

Those opposed to the Brady bill claim that criminals do not purchase hand guns from legitimate gun stores. That is simply not true. The Bureau of Justice found that 27 percent of inmates surveyed said they bought their guns at a retail store. The Brady bill will stop criminals from purchasing guns. In my home State of Oregon, where there is currently a 15-day waiting period in place, local law enforcement agencies disqualified 223 handgun purchases in 1991. This could translate into lives saved. If the Brady bill is passed, it is estimated that in one year, a minimum of 188,000 criminals will be denied the right to buy firearms.

The Brady bill must be passed now. The long delay in its passage has cost lives. Since it was first introduced 6 long years ago, more than 150,000 Americans have been killed by handguns—over 13,000 were murdered with handguns last year. Any amendments which would weaken this bill could cost a life.

There are two amendments before us today which concern me. The first is the sunset amendment which would force States to implement an instant check system in 5 years, regardless if they are ready. Under the Brady bill there is a reasonable timetable for an instant check to be implemented. The second amendment I strongly oppose would preempt all State and local gun purchase laws, including all waiting periods and licensing requirements, once a national instant check system goes into effect. This would mean that in my home State of Oregon, our existing

15-day waiting period to screen purchasers using an automated fingerprint identification system would be overturned. Federal preemption would also prohibit State or local background checks designed to stop the sale of guns to noncriminals who are prohibited under Federal or State law from purchasing a gun, including drug addicts, illegal immigrants, persons with a history of mental illness, spouse abusers, and minors using false identification.

Despite the opposition's concerns, I do not believe that this bill is an infringement on the second amendment's right to bear arms. I believe that the Brady bill is simply a way to keep firearms out of the hands of our criminals. If this bill stops even one criminal from buying a gun and using it on an innocent victim, then I say it is worth it.

Let me end, Mr. Chairman, with a statement made by the chief of police in my district of Portland, OR:

The Brady bill * * * should be passed immediately. It is a national disgrace that we continue this unacceptable level of violence and, in effect, condone it through our inaction. We must join together to ensure that the Brady Bill be passed in Congress and passed now.

I urge my colleagues to support H.R. 1025, the Brady Handgun Violence Protection Act, and oppose any weakening amendments.

Mr. SCHUMER. Mr. Chairman, I yield the balance of my time to the gentlewoman from California [Ms. SCHENK].

The CHAIRMAN. The gentlewoman from California [Ms. SCHENK] is recognized for 1½ minutes.

Ms. SCHENK. Mr. Chairman, I have heard a lot of arguments for supporting a waiting period for handgun purchases, but perhaps the most powerful was made by one of my constituents. She wrote the following:

Last year, on August 29 in Wellesley, MA, my 30 year old brother died. The cause of his death was a self-inflicted gunshot wound to his head—a wound which was caused by a gun he purchased just a couple of hours before he left this life, and left my sister, mother, father, brother-in-law, and three young nieces to grieve for him.

If the Brady bill had already been passed, my family and I might still have this beautiful young man in our lives. As it is now, we have only pictures and memories.

The waiting period is not just a time to run a background check. It is also a cooling off period that can prevent individuals from taking impulsive actions with deadly consequences. I implore my colleagues to think about the individual life each of us may be responsible for saving by voting for the Brady bill without amendments.

Mr. BROOKS. Mr. Chairman, I yield back the balance of my time.

Mr. MCCOLLUM. Mr. Chairman, I yield myself the balance of my time to close just for a minute or so. I would

like to respond, in a way, to some of the things I have heard said about this waiting period today.

Many of the examples, not all, but most of the examples I would say that have been given today about the horror stories that happen when a gun is used, are probably connected with people who are repeat offenders, with violent felons that we all want to take off the streets, and, by passing this bill today, we are not going to take them off the streets. Taking the guns off the streets is not going to keep this type of person from getting hold of a weapon, and that is why I said at the opening of this whole debate that I oppose this bill for two reasons.

One, because it is unnecessary; and, two, because it is primarily symbolic. It is unnecessary because we can do the check required, that is asked for here, a name check, which is all the record system allows right now in a matter of 5 minutes, or certainly no more than 5 hours in a single day. We do not need a 5-day waiting period to find out if somebody trying to purchase a gun from a gun dealer is a felon. And it is symbolic and distracting in the sense it does not get at the real problem. It does not get at the true, violent felon.

I have also heard people talk about my preemption amendment I am going to offer shortly, and I want to assure anybody who might be listening at this point that I am not preempting any State law. Any disability somebody has, if they are under 18, under a State law or if there is any restriction whatsoever on the purchase of a gun by State after the instant check period in this bill, if it passes, goes into effect, would not be preempted. The only thing that would be preempted is the waiting period per se. Since that would no longer be necessary and the purpose of it is to check violent felons to see if they have a record, once we have instant check we do not need it. But my bottom line point out of all of this in the general debate is that the bill is unnecessary and it is symbolic. What we really need out here is what the folks on the other side of the aisle generally have not been able to get together on, and I hope they do next spring. That is a comprehensive bill that is going to address the real problem, the revolving door of felons who commit these violent crimes. We need to lock them up and throw away the key. We need to take away the parole system and amend it, and reform the criminal justice system that puts swiftness and certainty of punishment back into the system again, to put deterrence into the system, to put incapacitation of the really bad folks in there by locking them up.

□ 1240

We can only do that when we get a comprehensive crime bill out here. We are not going to do it with a waiting period.

Mr. TOWNS. Mr. Chairman, our society is self-destructing as a consequence of violence that engulfs families, neighborhoods and communities. Many Americans are paralyzed with fear about the prospect of becoming a victim of violence or having to live or work in close proximity to potential violence.

In a November 1 hearing of violence as a public health issue, which I chaired in my Subcommittee of Human Resources and Intergovernmental Relations, we received testimony that the increase in violence was directly attributable to the use of guns. Surgeon General Joycelny Elders pointed out that firearm injuries cost the health care system almost \$3 billion a year. Our own President has talked about how violence crowds our emergency rooms and drains our health resources. Additionally, gun sales are spiraling as evidenced by the number of Americans arming themselves against an anticipated but unknown assailant. Firearms have accounted for more than 90 percent of the upturn in homicides in young Americans since the mid-80's. Ninety-five percent of the increase in the homicide rate can be directly traced to guns. And in some States, teenagers are even more likely to die from a bullet than they are a traffic accident.

From a public health perspective, prevention of violence is the key. We heard from witnesses who themselves were the victims of violence. All of them stressed that we need to take the guns off the streets of America. But no one expressed this more eloquently than a young promising student-athlete from my district, Ralph Green, whose leg was amputated because of a random shooting. As Ralph stated, "if you want to save the future generations of this country, you take the guns off the street." We should listen to the voices of the Ralph Greens in our community and pass the Brady bill today—without delay and without weakening amendments.

Mr. EWING. Mr. Chairman, I rise in opposition to the Brady bill. After careful consideration, I feel that this bill will do nothing to reduce crime, and by focusing on it we are being distracted from consideration of legislation which would have a real impact on crime.

Crime is a major problem in this country today. Even in my largely rural district crime is becoming a serious problem. We see gangs forming in smaller towns and increased levels of all types of violence. Instead of addressing the problems of criminals and the effects on victims, this legislation is a feel good bill that may make us feel like we are doing something about crime. In reality, it will do very little or nothing at all to reduce the amount of crime on the streets. One need look no further than Washington, DC, which has the strictest gun control in the country as well as the highest crime rates, to see that this policy will not work. Illinois has had a waiting period for several years, but gun violence continues to grow.

Instead of debating a feel good bill, we should be voting on a real crime bill with tough penalties for criminals. For example, Congress should pass the three-time-loser law which imposes a mandatory life sentence on anyone convicted of a Federal violent felony if that person has two or more prior violent felonies on his or her record. We should pass laws to require that criminals who commit crimes with

weapons go directly to jail with no option to plea bargain the weapons offense away. We must reform the appeals process so convicted violent criminals do not tie up the courts or have the chance to get out of prison before their debt to society is paid. Congress should also find ways to keep weapons out of the hands of teenagers and pass laws to hold parents responsible for the actions of their unsupervised teenagers who commit crimes with guns. This is real crime control.

I have several additional concerns about this legislation. First, there is not a guaranteed timetable for implementation of the instant check provisions. In addition, the bill opens the door to corrupting influences where local officials could deny any individual the right to purchase a firearm or decide to ban firearms within the whole community for virtually any reason.

Finally, Mr. Chairman, gun control provisions like this one will only keep guns out of the hands of law-abiding Americans and leave the criminals armed. I am submitting for the RECORD an article from today's edition of USA Today about Ms. Bessie Jones, a 92-year-old woman from Chicago who saved her own life because she was armed when two teenager hoodlums entered her home. Innocent Americans like Bessie Jones should be allowed to defend themselves. In this case, due to Chicago laws outlawing ownership by law-abiding citizens, she is considered the criminal and the thugs are considered victims.

This Congress needs to address the escalating violent crime that is plaguing our country. However, infringing upon the Second Amendment rights of law-abiding citizens is not an effective solution.

[From USA Today, Nov. 10, 1993]

NO "EASY MARK": WOMAN, 92, SHOTS TEEN ROBBER

(By Kevin Johnson)

CHICAGO.—Bessie Jones is 92 and, by most accounts, a sweet old lady who lives alone, owns a revolver and had the gumption to pull the trigger.

Now she's the talk of this town—two days after fatally shooting Muhammed Abdul-Rahmann, 16, who police say forced his way into her tidy brick bungalow Monday and rolled her in her wheelchair around her home in search of valuables to steal.

"If she hadn't got him, he could have got her," says neighbor Lueneal Smith, 86. "We're senior citizens. We don't need this." Police call it self-defense; Jones won't be charged.

Police say Jones retrieved the .38-caliber, blue-steel revolver she called "Bessie" when Abdul-Rahmann went to confer with another youth standing watch.

"When he went back into the house, she told him to leave. When he came near her, that's when she shot him," police Sgt. Ronald Palmer says.

Abdul-Rahmann was shot once in the throat. The lookout fled; no arrest has been made.

Jones was with a relative and not talking Tuesday. But Rosa Bryant, a retired schoolteacher who helps care for her, says Jones phoned immediately after the shooting.

"She felt pretty bad. When she looked at him, she said, 'Oh, a mere baby,'" Bryant says. "I suppose compared to her, he looked like a baby."

Other neighbors in the tightly knit South Shore neighborhood stand by Jones, too.

"I'm happy. . . . Why should she die so some boy could get her money for drugs?" neighbor Maewatha Williams says. "You can . . . bet your boots that all the older people here have guns."

Around Chicago, "the consensus was, 'Good for the lady for defending herself,'" says Karen Lincoln of a WLUP-FM talk show.

Neighbors say Jones has lived alone since 1945, when her husband died of cancer. Two years ago, a slight stroke put her in a wheelchair. Since then, a senior citizens' group and neighbors have provided meals and helped her with housekeeping and chores.

Parties and lawn maintenance—not crime—are usual topics of monthly block club meetings here, neighbors say.

Yet Jones was worried. "She was afraid of being robbed," neighbor Nathaniel Bryant says. "There were several incidents—windows broken, noises at strange hours—where she called the police."

Some knew she had a gun. Before she used a wheelchair, "She would sometimes pat her apron pocket and say, 'I got Bessie here,'" Williams says.

Neighbor Smith arrived at Jones' house shortly after the 2:25 p.m. shooting: "She was just sitting there in her wheelchair. She said, 'Oh, Miss Smith, I feel like crying.'"

The teen she shot probably didn't expect a gun, says police officer Gerald Susarski.

"They just thought she was an easy mark. It's survival of the fittest, you know. But they grabbed the wrong tail."

Mr. HOEKSTRA. Mr. Speaker, I support the Brady bill, with the Ramstad amendment that will guarantee the second amendment rights of citizens by requiring law enforcement officials to provide written documentation for any denials that might be rendered. Such a guarantee is essential so that individuals who are denied permission to purchase a gun might be given a written explanation which they may use in the event that they appeal the decision in Federal court.

I am disappointed, however, that the Brady bill was voted on separately from the larger, omnibus crime bill. This is sending a misleading message to American people, and to my constituents, that the Brady bill alone is the answer to our Nation's violent crime problem. I do not believe gun control is the answer, and I will not support additional efforts to place even more burdens and restrictions upon law-abiding citizens.

The Brady bill is a modest proposal. Michigan law is exempted because it is already tougher than the Brady bill. Liz Welton, supervisor of firearms records for the Michigan State Police, has confirmed that Michigan's permit to purchase and computerized criminal history check fall within the guidelines established by the Brady bill.

It is important to state, in no uncertain terms, my firm philosophical and intellectual belief, that gun control is not a comprehensive deterrent to violent crime in this country.

Many of my colleagues believe that the Brady bill is just a first step, with more antigun laws on the way. I strongly disagree with this view and in no way subscribe to it. When we treat gun control as the be all and end all for crime prevention, we are making an enemy out of law-abiding citizens. Law-abiding citizens are not the problem. Too many violent criminals on the street are the problem. Guns are merely an easy target for liberals who need a scapegoat for lax criminal justice standards that they have supported for years.

I will be criticized for my decision to support the Brady bill. To my critics, let me state once again, that I do not buy into gun control. I will fight against the slippery slope. I am well aware of it, I have spent many hours talking with my constituents about it, and I will keep an eye on my antigun colleagues who will continue to push for more restrictive laws.

Let me reiterate, I do not believe the Brady bill is a comprehensive deterrent to violent crime. I simply believe that checking the background of handgun purchasers is a common sense step toward making sure that criminals and people who are mentally incompetent are not able to walk into gun shops around the country and simply purchase a handgun, or several handguns, without even a raised eyebrow.

It is important to understand the fact that the overwhelming majority of Americans support criminal background checks. Scientific surveys have found that 90 percent of Americans support a criminal background check for the purchase of handguns. In fact, over 80 percent of gunowners support criminal background checks, and over 65 percent of members of the National Rifle Association [NRA] support criminal background checks. The national NRA has officially endorsed a nationwide mandatory computerized point-of-sale background check on handgun purchasers.

I must add at this point a major additional consideration. More than 80 percent of the law enforcement officials from my district—the county sheriffs, the chiefs of police, and the county prosecutors—support the Brady bill and the concept of a nationwide criminal background check. They support the Brady bill in the hopes of establishing a national system whereby criminals who are involved in interstate gun running, and other forms of illegal handgun-related activity, will face additional obstacles while pursuing their criminal trade.

Why is a nationwide background check for the purchase of handguns valid? Because many of the illegal guns which are used in committing crimes are purchased in States that do not have criminal background checks. Consider this. According to recent statistics only 80 percent of the handguns used to commit violent crime in the city of Detroit were purchased in Michigan. Compare this with Dallas, where there is no waiting period or criminal background check; 87 percent of the handguns used to commit violent crime in that city were purchased in Texas.

But in spite of this, I firmly believe that a criminal who is intent on getting a gun will find a way to do it. No gun control is going to stop him. However, there are reasonable things we can do to make it more difficult for criminals to obtain guns, and that is why I am voting for the Brady bill.

Let me address the larger issue at hand. Violent crime in America is reaching epidemic proportions. It is affecting all segments of society. Nobody is safe anymore. Something must be done about it, and antigun laws are not the answer. In fact, I believe they are distracting to the overall issue of crime in America, as I stated earlier.

Stronger criminal justice measures are required for a serious effort at reducing crime in America. Crimes and committed by people, not weapons. People use knives, rope, hands,

feet, and drugs, in addition to guns, to carry out their acts of violence.

We must deal with the criminal if we are serious about crime prevention. Seventy percent of violent crime is committed by only 6 percent of the violent criminals. Four out of five State prison inmates are repeat offenders. Two out of three released criminals will be arrested again within 36 months.

We need stiffer penalties, stronger measures to stem the tide of crime. We need mandatory sentences for crimes committed with guns. I support mandatory life imprisonment for third conviction of a violent or serious felony. We need truth in sentencing by requiring every inmate to serve at least 85 percent of the prison sentence imposed. Currently, violent criminals serve an average of only 35 percent of their sentences. Finally, and most important, we need more prison space, so that we can detain the 6 percent of violent criminals who are committing 70 percent of the violent crime in America.

In conclusion, I believe criminal background checks are fair. I have done what I can to make sure that the Brady bill does not place an undue hindrance upon law-abiding gun owners around the country, and I don't think it does. Michigan law is exempt because it is tougher than the Brady bill.

Furthermore, there is a mechanism in place that guarantees that anyone who is denied the right to purchase a handgun after the background check is given written documentation as to why they were denied. They can then use that evidence to make their case before a Federal court if they are still not satisfied with the decision of local law enforcement.

With this safeguard, I can, in good conscience, support the Brady bill. I hope my constituents will understand that I have taken the time to study and balance every side of this issue. I have sought after and received input from concerned citizens from my district, various organizations, and law enforcement officials. This was not an easy decision, but I trust history will prove that it was the right thing to do.

Mr. JOHNSON of South Dakota. Mr. Chairman, I rise in support of this new, modified version of the Brady Bill. This legislation provides for a temporary 5-day waiting period for the purchase of a handgun, while requiring that a computerized instant check system be established. The instant check system is an approach supported by the NRA, and this legislation requires the waiting period to terminate as soon as an instant check system can be implemented. The bill authorizes \$100 million for assistance to States so that they can establish a computerized instant check system. The waiting period can be waived where there is a need for immediate self-protection.

My vote must necessarily be based on my own evaluation of the net consequences of this legislation. Nonetheless, it is only appropriate that I acknowledge the overwhelming support for this legislation demonstrated to me by ordinary South Dakota citizens at my hundreds of town meetings, the 80 percent support expressed in scientific polls of South Dakotans, and perhaps most importantly, the strong support expressed by virtually every law enforcement organization in the United States.

This bill is supported by the International Association of Chiefs of Police, the Fraternal Order of Police, the Police Foundation, the National Sheriff's Association, the International Brotherhood of Police Officers, and the National Association of Police Organizations. The legislation is also supported by the American Bar Association, the U.S. Conference of Mayors, the National Association of Counties, the U.S. Catholic Conference, the League of Women Voters, the National Education Association, the National League of Cities, and the American Medical Association, among many others.

It is absolutely true that this new version of the Brady bill will have only a modest impact on gun crime in America—most criminals do not buy their handguns from licensed dealers. It is also true, however, that a temporary 5-day waiting period followed by a national instant check system creates only negligible inconvenience to law-abiding handgun owners. We need to bring this annual debate to an end and move on to the rest of an anticrime agenda that will focus on criminals and the conditions that breed criminality.

This House has already taken up legislation which will put more police on the streets and strengthen penalties against repeat violent offenders. Legislation to assist States with innovative sentencing alternatives such as "boot camp" prisons for youthful offenders will soon pass with my support. There is no one single solution to violent crime—we must aggressively move to put all the pieces of an anticrime strategy together. One small but helpful part of that strategy includes passage of this modified Brady bill. I ask that my colleagues join me in support of H.R. 1025, the Brady Handgun Violence Protection Act.

Mr. SMITH of Michigan. Mr. Chairman, I wish to associate myself with the colloquy between Mr. UPTON of Michigan and Mr. SCHUMER of New York. Mr. SCHUMER has indicated that Michigan's law, which prohibits the sale of handguns to convicted felons, exempts Michigan from the 5-day waiting period provisions of H.R. 1025.

Restrictions on guns will do very little to reduce crime in our country. Our greater energies in our efforts to reduce crime must be more effective apprehension, quicker and stricter judicial review and sentencing, assurances that those convicted will serve their time in prison, and most importantly instilling values and moral responsibility in the minds of our Nation's young people.

More specifically, we need: mandatory prison sentences for the most serious offenders; sentencing laws that will not permit armed and violent felons to avoid prison through plea bargaining; mandatory life imprisonment for a third conviction of violent or serious felony similar to the "3 Strikes-You're Out" initiative; death penalty for first degree murder with aggravating circumstances; tough, determinate sentences coupled with prison release policies that require every inmate to serve no less than 85 percent of the prison sentence imposed; adequate prison capacity with authority to privatize institutions; comprehensive effective juvenile justice reform with early intervention for youth at risk; and comprehensive, enforceable constitutional rights for crime victims.

I would also like to add, Mr. Chairman, that in trying to assure a safer society, the role of

the family cannot be understated. Dedicated parents sustain families and the Nation. As models and guides for their children's values they help solve our crime problems. By teaching respect and hard work, families provide the key to a strong and safe economic future.

Mr. EMERSON. Mr. Chairman, I rise today in strong opposition to H.R. 1025, the Brady Bill. It is a shame when folks cannot walk the streets of their communities without fear of robbery or violence. The fact that folks can no longer leave their homes unlocked when they run to the grocery store is a sad reflection on the society in which we live. I agree wholeheartedly something needs to be done about the crime and violence that runs rampant through our society, unfortunately visible in every dark corner; however, I do not believe that the Brady bill will have a substantial impact on crime.

We need real reform, not wishful thinking. The only people who will be affected by this legislation are law-abiding gun owners. A criminal intent on committing a crime with a gun will not be stopped by the fact that there is a law on the books requiring a 5-day waiting period. Statistics prove that the majority of those States that have imposed some type of waiting period on gun purchases have experienced increases in violent crime or homicide rates—greater than the national trend.

The amendments offered by Mr. RAMSTAD, Mr. GEKAS, and Mr. MCCOLLUM are reasonable amendments that will considerably improve this legislation, particularly in regard to insuring protection for the rights of the law-abiding gun owners and I support these amendments wholeheartedly. While all three amendments are steps in the right direction, we are unfortunately down a road which I feel we never should have gone down in the first place. Impeding the constitutional right of American citizens is not in the first place right-minded legislation. Second, it will not stop the spread of crime.

I respect and have empathy for the man for which this legislation is named, however, we could have implemented 20 Brady bills and the unfortunate and tragic crime which occurred to Jim Brady would not have been prevented. I cannot vote for final passage of the Brady bill. I believe this bill sends the wrong sign in regard to crime control and instead that we should be arguing for real crime legislation which will keep criminals behind bars and makes the streets safe for our children.

Mr. FORD of Michigan. Mr. Chairman, I rise today as a cosponsor of the Brady bill and to urge my colleagues to vote "yes" on this important bill and "no" to any weakening amendments.

I am particularly concerned about the amendment offered by Congressman MCCOLLUM which seeks to preempt strong State and local laws with the national instant-check system once the system is in place. A Federal preemption would stop States which have waiting periods from maintaining their strong controls. One of the primary goals of the waiting period was to provide a "cooling off" time to prevent crimes of passion. This 5-day waiting period has always been a critical part of the Brady bill—attempting to prevent an overheated domestic dispute from resulting in a handgun death.

The McCollum amendment would stop States from checking State mental health records to keep those who have been involuntarily committed to a mental institution from acquiring handguns. It also stops States from using fingerprint identification to prevent felons from acquiring handguns with false identification. These higher standards should not be abolished.

There has also been a lot of misinformation about the intent of this legislation. Constituents have been warned that Brady will take away their second amendment rights, that Brady will be the beginning of a ban on guns, and that Brady will prevent law-abiding Americans the right to own a gun. These allegations are untrue.

I am a hunter and a gun owner; I would never support legislation that abolishes my right, or the rights of my constituents, to own guns. The Brady bill limits the sale of handguns to those who have a record of violence or mental illness. That is good public policy.

The Brady bill provides for a uniform, national system to allow enforcement authorities time in which to confirm a handgun purchaser's residency information and to check whether the buyer has a criminal history or a record of mental illness. This background check applies only to handgun sales through licensed dealers. Unless law enforcement officials notify the dealer that the sale would violate Federal, State, or local law, the sale may proceed 5 business days after the date the purchaser signs the statement. The legislation further provides for the 5-day waiting period to be replaced, once a national background check system is fully operational and certified by the Attorney General.

This legislation would not change the gun purchasing procedure that exists in my home State of Michigan. Because Michigan already has a permit-to-purchase law, the State is exempt under the Brady bill. Other States do not have such permit-to-purchase statutes or waiting periods on the purchase of guns. States with fewer restrictions feed black markets in States with restrictions. That is why I believe national legislation is necessary.

The impact of gun violence is being felt in cities and small towns. Americans do not feel safe. Numerous anticrime measures abound. These require and deserve serious consideration. The Brady bill has already been given serious consideration. It has been fine-tuned over 6½ years. It has received bipartisan support and has once again made its way through the legislative process.

Sarah and Jim Brady have taught us all something about perseverance toward intelligent and reasonable goals. President Clinton will sign this legislation. Let us deliver the goods. The Brady bill is not the whole answer to fighting gun violence, but it is a good beginning.

Mr. ANDREWS of Texas. Mr. Chairman, Congress will vote on the Brady bill today, requiring a 5-day waiting period for persons wanting to purchase a handgun. At a time when my home of Houston—not to mention the rest of our country—worries about violent crime, I want to enhance our law enforcement officers without seriously impairing our constitutional right to bear arms. That means supporting the Brady bill.

I have always opposed gun control. As a Member of Congress, I have long opposed any moves that would restrict the rights of Americans to own firearms for sport or security. As a former prosecutor in Harris County, I am convinced that many criminals will find unlawful means to get weapons, especially handguns. As an avid hunter, I believe gun control laws tend to hamper sportsmen far more than criminals.

The Brady bill calls for a waiting period to end once the instant computer system for background checks is fully operational. I support this approach. According to the Justice Department, establishing the system would require coordinating differences in State record-keeping practices. Some States' systems are more sophisticated than others—that is, some States do not even have criminal records on computer yet. I still support an instant-check system, and will work for its implementation. But, realistically, a complete system is years away. A waiting period is a modest step until this national system is ready.

Tougher criminal laws are the best way to fight crime—complicated and unduly restrictive gun control laws are not. Tougher sentencing procedures and changes in criminal evidence rules will help our local police and prosecutors. I have always believed that waiting-period laws would not assist in apprehending criminals because criminals would simply not attempt to purchase guns from licensed dealers in those circumstances. I was wrong. New Jersey has a mandatory background check for handgun purchases. They have caught over 10,000 convicted felons trying to buy handguns. Evidently, many felons are not very smart.

The Brady bill will not be a panacea to crime control—it will, however, help our local police apprehend criminals. And our police need help. This fact was vividly and tragically underscored in Houston a few years ago by the death of Sgt. Bruno Soboleski, an 8-year veteran of the Houston Police Department, who was shot and mortally wounded while conducting a routine search. One of the suspects in the shooting was a convicted felon currently on probation who had illegally purchased his new handgun just days before the murder. A waiting period would have stopped him from making the purchase. The death of Sgt. Soboleski, and many like him year after year, is a primary reason why we need a waiting-period law.

The 5-day waiting period can help prevent felons, drug addicts, and the mentally disturbed from buying handguns. It also provides a "cooling off" period that will reduce crimes committed in the heat of passion. Again, my city of Houston offers a tragic example of a handgun crime that might have been prevented by the Brady bill. A man, on the day his wife filed for divorce, went out and purchased a .45-caliber pistol and that same evening shot each of his four children in the head before turning the gun on himself. Might this slaughter of innocent children have been avoided if the father had not been able to purchase a handgun on the very day he became distraught at his wife leaving him?

The Brady bill contains several safeguards for honest citizens. There is a specific exemption for people whose lives are being threat-

ened, enabling them to purchase a gun without a waiting period. Also, if a clean report comes back from police before the 5-day period has expired the sale may go through at the time the report is received. In addition, a sale will automatically be approved after 5 days, so police cannot stop gun sales by simply failing to get back to the dealer.

The Brady bill is clearly a moderate measure that will simply help us keep handguns out of the wrong hands. The waiting period will be eliminated once an instant-check system is available.

Gun ownership has a long and proud tradition in Texas—so does law and order. Responsibility is an integral part of our right to own firearms—so is common sense. People are restricted from fishing with dynamite or from falsely yelling "fire" in a crowded theater, and not just anyone can purchase a machine-gun. These are commonsense rules we apply to ourselves.

I am fully convinced that we need a 5-day waiting period. The waiting period makes good sense until a national computer system is ready. Voting for it is the right thing to do.

Mrs. LLOYD. Mr. Chairman, I rise in support of H.R. 1025, the Brady Handgun Violence Protection Act of 1993. This piece of legislation is long overdue. Over the last several years we have witnessed a precipitous increase in the rate of violent crimes involving handguns. In 1991 there were 21,505 murders in the United States, up 6 percent from 1990. Guns were involved in 66 percent of the murders. In 1992 violent crimes have increased by 1 percent. Firearms were the weapons used in approximately 7 of every 10 murders. A violent crime takes place every 22 seconds in America. In other words, by the time I finish my statement, approximately three violent crimes will have occurred. This is a disgrace and I am absolutely appalled by the increasing lack of respect for human life.

Let it be known that gun violence is not concentrated in the our cities, it is an epidemic that has reached our small towns and rural districts. Many American schools that were once places of learning and sanctuaries from violence have become shooting ranges. Our hospitals have become inundated with gun shot victims, as if they are treating wounded soldiers in a war. I see these violent occurrences and ask my colleagues if this is what our country is experiencing—a war?

H.R. 1025 takes a major step in preventing criminals from purchasing handguns and making our streets safer. It does not take guns away from law abiding citizens. It would simply require a 5-day waiting period before the sale of a handgun in order to give local police time to check the purchaser's background. In many instances, a background check and sale will be completed in a shorter period of time. The bill specifically exempts States which already require law enforcement officials to verify the purchaser's lawful right to possess a handgun. The Brady bill would not apply to my State because Tennessee already has a 15 day waiting period.

Mr. Chairman, I have long held that law abiding citizens have constitutional guarantees to own firearms and that these guarantees shall be upheld. I believe that the Brady bill protects that right and ensures that guns stay in the hands of law abiding citizens.

Ms. HARMAN. Mr. Chairman, I rise in strong support of the Brady bill because I know it will work.

My State of California has had a 15-day waiting period for several years now, and by any measure, it has been an unqualified success. Since January 1991, the California waiting period has prevented over 16,420 illegal gun purchases, including over 8,000 gun purchases by ex-cons who had been convicted of committing an assault or a homicide.

Nevertheless, this bill is merely a first step. We must address the plague of violence that has deprived every American of the peace of mind to walk our streets. Last month, the Los Angeles Times noted that 30 American soldiers died in peace-keeping operations in Somalia, and that is a tragedy that galvanized and horrified the Nation. However, in 1992, an average of 30 people were shot to death every week in the streets of Los Angeles. This is madness, and it must end.

There is no panacea to solve this problem. Last week the House voted for more funds for prison construction, to put additional police on our streets, and to keep our schools free of violence. These are important steps.

However, if we are to make our streets and neighborhoods safe again, we have to take reasonable steps to regulate the use of firearms that have no legitimate use either for the sportsman or for those who seek self-protection. I feel that the only way to safeguard the American public from gun-related crimes is through commonsense firearm regulation. We must pass the Brady bill. We must pass controls on military-style assault weapons that are designed solely to kill both police and civilians with military-type precision. We must pass legislation to keep handguns and bullets from children who are not yet legally old enough to vote. We must look at innovative proposals like Senator MOYNIHAN'S proposal to tax certain kinds of ammunition purchases.

These gun regulations are long overdue. They make common sense to my constituents. I urge this Congress to act not only on the Brady bill, but on devising a comprehensive policy to ensure that the criminals who bring terror to our streets do not have access to the guns and ammunition that are designed primarily to kill people rather than protect.

Mr. ROSTENKOWSKI. Mr. Chairman, the legislation we're voting on today is both important and overdue. The proliferation of guns on America's streets is a national scandal. The combination of adolescents and firearms makes our neighborhoods minefields of destruction. It is a sad day when we can travel safely to the moon, but are in jeopardy when we visit the neighborhood grocery store.

This bill won't totally solve the problem, but it is an important step forward. Enactment will send two clear messages. One is that we've got to get the guns off our streets. The other is that Congress is finally ready to confront this troubling problem.

I enthusiastically vote for this measure and today want to reaffirm my commitment to working with my colleagues here to put together even more effective legislation to get the guns off our streets.

Our Declaration of Independence promises our people life, liberty and the pursuit of happiness. The glut of guns in America is a threat

to all three of these goals. It is time to take back our streets and return tranquility to our neighborhoods.

Ms. SNOWE. Mr. Chairman, I rise in opposition to H.R. 1025, the Brady bill, which would impose a national 5 business day waiting period on anyone trying to purchase a handgun. While everyone shares the desire of this bill's proponents to reduce violent crimes, the Brady bill should be defeated because it simply won't be effective in reducing crimes committed by people with guns.

I would like to point out to my colleagues that violent crime is not a function of gun ownership. In Maine, approximately 55 percent of households contain a firearm. And yet, the violent crime rate in 1992 was 130.9 per 100,000 inhabitants. This is the fourth lowest violent crime rate in the country. By contrast, 30 percent of households in New York contain a firearm, and the violent crime rate in New York was 1,122.1 per 100,000 inhabitants. And in Washington, DC, 12 percent of households contained a firearm, yet the district had one of the highest violent crime rates, at 2,832.8 crimes per 100,000 inhabitants.

In fact, I propose to my colleagues that the reason there is so much violent crime is because criminals know that they probably will not be caught, and if they are caught, they know that they will not be imprisoned. The rate of serious crime jumped nearly 500 percent from 1950 to 1990, and expected stays in prison fell nearly 70 percent. In fact, according to a study by economist Morgan Reynolds, a murderer spends an average of 2.3 years in prison, a rapist serves an average of 80.5 days, robbers serve 27 days, arsonists serve 12.5 days, and car thieves serve 3.8 days. The best response to the violent crime epidemic would be a comprehensive crime bill, not the Brady bill.

In recent years, gun control organizations have claimed that the Brady bill will reduce violent crimes by allowing local police departments to conduct background checks on people buying handguns. If the police discover that the prospective purchaser is a felon or is mentally ill, the proponents of H.R. 1025 argue, their legislation will allow the police to prevent them from buying handguns. However, it is unlikely that the Brady bill will have the impact on violent crime that its proponents envision.

For example, a 1986 Justice Department study found that 5 out of 6 convicted felons illegally purchased, on the black market, the handguns they used to commit their crimes. Thus, under the Brady bill, police would be unable to conduct background checks on the vast majority, 83 percent of criminals buying handguns.

Supporters of H.R. 1025 also claim that its enforcement would prevent people with a history of mental illness from buying a handgun, but this claim doesn't withstand scrutiny either.

In our society, an individual's medical records are protected by privacy laws. Only someone who has been adjudicated by a court of law as mentally ill would be prevented from buying a handgun under H.R. 1025.

As an example, even if a national 5-day waiting period had been in effect in 1981, it wouldn't have prevented John Hinckley from buying the gun he used tragically to wound

former President Reagan, White House Press Secretary Jim Brady, a Secret Service agent and a local policeman. It wouldn't have worked because at the time, John Hinckley wasn't a convicted felon and hadn't been ruled mentally ill by a court of law.

Another area of concern is that under H.R. 1025, a background check is not even mandatory. Rather, law enforcement agents must make reasonable efforts to check for criminal records. If the police don't have the time, personnel, or funds to conduct a check, it won't be done.

Congress clearly needs to shift the focus of Federal law enforcement activities away from gun control measures aimed at law-abiding citizens and toward effective law enforcement activities aimed at violent crimes. I urge my colleagues to join me in opposing H.R. 1025.

Mrs. CLAYTON. Mr. Chairman, I rise today as a show of support for H.R. 1025—the Brady Handgun Violence Prevention Act.

Firearm fatalities have become far too common in our world today. In the State of North Carolina alone, 6,000 people died as a result of injuries inflicted by firearms from 1988 to 1992. In the same 4 year period, 650 of my constituents were homicide victims—dying at the hands of another wielding a handgun.

The time has come to try to put a stop to these needless and senseless tragedies. The nationwide instant criminal background check, one of the major provisions of this crucial legislation, would block those individuals who should not be in possession of a handgun due to their mental state or from their criminal history from owning one. The second major provision, the 5-day waiting period, would prevent impetuous and impulsive handgun purchases by individuals—fueled by both passion and fury—whose actions most often result in tragedy.

Although I am a firm believer in the rights granted to all Americans by the second amendment—I do not think that either the background check or the 5 day waiting period constitute a punishment for law-abiding citizens. If we lived in an ideal world, there would be no need for this kind of Government intervention—however, I am sorry to report that our world today is far from ideal. My colleagues—your support for the Brady bill will provide a glimmer of hope for the future.

The Brady bill is, however, only a single step in the journey to reduce the amount of crime in our Nation. We must combine this legislation with others, such as H.R. 3355 which authorized \$3.45 billion for the hiring of additional police officers and H.R. 3351, which authorized a total of \$600 million for alternative juvenile punishments programs. Combined together, a difference can be made in the appalling level of crime in our Nation. Your support for H.R. 1025 not only illustrates your commitment to the future of this Nation but also your commitment to the present. The senseless tragedies of handgun violence can be stopped—but only if the Brady bill receives your support.

Mr. SKAGGS. Mr. Chairman, I am pleased that today the House of Representatives will pass the Brady Handgun Violence Prevention Act and in the process will say a resounding no to the National Rifle Association and other organizations that the Washington Post re-

cently described as "handguns-are-great lobbyists." We will be saying no to demagoguery, no to distortions of the truth, no to strong-arm tactics that have bottled up an important and necessary piece of legislation for 6 years, and no to resisting reasonable measures that will save lives.

It is amazing to me that it has taken so long and has been so difficult. The need for this legislation is eminently clear. In the 6 years since this bill was originally introduced, more than 150,000 Americans have died because someone had access to a handgun and decided to use it. A recent survey by the Bureau of Justice Statistics showed that 27 percent of State prison inmates who had owned handguns had purchased them at a retail store.

While I harbor no illusions that passage of this, or any other gun control measure, will eliminate all handgun deaths or stop all would-be criminals from getting guns, I do think that this bill will help significantly to save lives. It is a sensible step to take.

No reasonable person, with a legitimate need for a handgun, should have a problem with waiting 5 business days mandated by the bill. The passions of the moment should not be indulged by immediate access to a deadly weapon. If there is a genuine need—a threat to an individual's safety—local law enforcement officials can provide the necessary waiver to make a handgun available without the waiting period. I do not object to that. But, other than that, the only reason to want a gun immediately is to do harm to oneself or someone else. Why should we make that easier?

Some argue that this law is not needed and won't work. They point to States that have tough gun control laws and high crime rates and say, "See, gun control doesn't work." They are wrong. It does work. The fact that the District of Columbia has tough gun control laws has sent the criminals over the border, into Virginia and Maryland, to get their guns. The tough laws in New York meant gun running from Virginia ran rampant.

Unfortunately, it is not enough to leave it up to the individual States to combat this problem. They cannot do it alone. To stop the flood of guns we must have a uniform national law. Only by stopping illegitimate access to guns all over the country can we make a real difference in how safe we are on our streets, in our homes, and at our schools.

This isn't just my opinion. Every major law enforcement organization in America says we need this law. The Fraternal Order of Police, the National Sheriffs' Association, the Police Executive Research Forum, the Federal Law Enforcement Officers Association, the National Organization of Black Law Enforcement Executives, the National Troopers Coalition, the National Association of Police Organizations, and the Major Cities Chiefs, among others, have written to me asking for my support for this bill.

I support law enforcement efforts to eliminate crime from our streets. Law enforcement supports the Brady bill. Let's support law enforcement. Let's support the Brady bill.

Mr. DE LUGO. Mr. Chairman, today I rise in strong support of H.R. 1025, the Brady Handgun Violence Protection Act.

This important and desperately needed legislation would require a 5-day waiting period

before anyone buying a handgun would be permitted to take possession of it.

My colleagues, this bill is long over due. Had it been passed last year it would have saved thousands of lives. If we pass it today, it will save untold thousands more.

Guns are too readily available in our communities. I am distressed by the horrendous stories we hear and read about in the media due to violent, random criminal activity. It is unfortunate that whole communities are held hostage because too often we do not make the hard decisions.

We must get guns out of the hands of our children. Violence in our schools across the Nation has increased dramatically during the last decade because of guns.

Mr. Chairman, in my district, the Virgin Islands, we have not escaped criminal activity. Innocent victims are suffering needlessly under a State of fear and terror.

Hard-working people should not have to live under these conditions. Despair has become the cry of all of our constituents, communities are pleading for relief from the surge of drugs and random violence.

Mr. Chairman, I urge my colleagues to take a step in the right direction and save our children, our communities, and our law-abiding citizenry. We must begin to take practical measures to address crime, and this bill is an ounce of prevention.

Ms. WOOLSEY. Mr. Chairman, California has a 15-day waiting period for the purchase of guns. But on July 1, 1993, a man entered a San Francisco law firm with an automatic weapon and opened fire. We don't know exactly what made this man do what he did. We do know, however, how he was able to do it. This man drove to Nevada, where there is no waiting period. He walked into a store, gave them a false driver's license, and walked out with an automatic machine gun. Eight people, Mr. Speaker, are dead. Eight people, with jobs, families, and friends, are now dead.

While the Brady bill will not eliminate gun violence, it must be a part of any comprehensive approach to our Nation's crime problem. We need to put more cops on the street, toughen sentences, work to prevent people from committing crimes in the first place, and keep guns out of the hands of criminals. A national waiting period could have saved the lives of the eight people killed in San Francisco, and it will save many lives in the future.

We have heard all the statistics. We know that the American people overwhelmingly support the Brady bill. We know how many people have died from gun violence in this country. Sometimes I think that opponents of this bill are no longer affected by these statistics, because they have heard them over and over again—but Mr. Chairman, this is not about statistics. This is about lives—the lives of the eight people who were killed in San Francisco because there was no waiting period in Nevada, and the lives of all the people who are going to be killed if we don't pass the Brady bill now. I urge my colleagues to support H.R. 1025.

Mr. ARMEY. Mr. Chairman, I rise in opposition to H.R. 1025. This is not the answer to the problems plaguing our Nation. The American people today are extremely concerned by the level of crime in this country and they

have a right to be. That's one reason why it gravely concerns me that we are considering the one solution endorsed by the ACLU, an organization certainly not known for its hostility to criminals.

According to the Bureau of Justice Statistics, violent crime has increased a staggering sevenfold since the 1950's. Every year, nearly 5 million people are victims of violent crime. In our Nation, a murder is committed every 5 minutes; a robbery, every 46 seconds. A car is stolen every 19 seconds, and a burglary is committed every 10 seconds.

Today, an American is more likely to be injured by violent crime than by an auto accident. Americans all over the country fear violent crime and many don't even feel safe in their own homes.

Sadly, the response that we are considering today, a 5 day waiting period, is lacking. Rather than aggressively locking up violent criminals who prey on the defenseless in our society, we're debating a glorified cooling off period. This is gun control, not crime control. We owe the American people more.

What are we going to say to the senior citizen afraid to cash her Social Security check at the neighborhood grocery store? "It's okay to go out now, we've passed the Brady bill." Are we going to tell residents of public housing that they don't have to worry about drug trafficking because now we've passed the Brady bill? What are we going to tell our children? "It's okay to go school now, it's safe—the Brady bill has passed."

Mr. Speaker, I submit that we won't say any of these things to the victims in our society because waiting 5 days isn't the answer. Waiting 5, 7, or 14 days won't make a difference because the problem in our Nation is the violent criminal. Thus our focus should be crime control, not gun control. This body should be debating solutions to locking up the violent criminals that terrorize our cities. We ought to be encouraging States across the Nation to pass Washington State's three times you're out rule which provides a mandatory life sentence for criminals convicted of three felonies. We ought to be debating new methods for challenging the consent decrees and court orders that force many States to let violent felons go free while serving as little as one-fifth of their sentences. We ought to be coming up with new ways to get funds to States and local governments trying to build new prison facilities. We should be here today talking about truth-in-sentencing laws and ending early-release programs. I submit that changes in these areas will make a difference in the crime problem our Nation faces.

Gun control isn't the solution because 93 percent of the firearms obtained by violent criminals are not obtained through lawful transactions. Less than 15 percent of violent crimes even involve the use of a firearm. In fact, a Texas A&M study demonstrated that firearms are used far more often to prevent crimes than to cause them.

Rather than putting felons behind bars where they belong, gun control amounts to tinkering around the edges. The American people deserve better. H.R. 1025 is not a step in the right direction. It's a wasted step. It won't work because it doesn't address the problem in our country, violent criminals. Let's support

the innocent and the defenseless in our Nation. Vote against ACLU endorsed crime bills, and vote against the Brady bill.

Mr. LEVIN. Mr. Chairman, I rise in support of the Brady bill to require a 5-day waiting period. But, Mr. Chairman, the Brady bill, by itself, won't do the job.

Crime is a problem that is out of control in this country. The rising tide of violent crime touches all Americans. Even if you've never been a victim of crime yourself, every one of us pays a high price for the violent crime around us.

We pay the price in the form of higher insurance costs.

We pay the price in higher taxes needed to pay for the trauma care for the thousands of gunshot wounds every year.

We pay the price in terms of billions of dollars of lost productivity.

Most importantly, we pay the steepest price in the loss of innocent lives and because we are afraid. Our families no longer feel safe walking the streets. Even our children pay the price because schools are no longer a refuge from crime and violence.

Denying criminals easy access to firearms is only one element of a comprehensive anticrime agenda. If we are to stem the rising tide of crime and violence in America, we've got to get serious and get tough.

We should start by putting more police on our streets now. It's only common sense that more police on the streets will mean less crime. The House just approved legislation calling for \$3.5 billion over 5 years to put 50,000 more police on our streets. This is the minimum Federal commitment the Federal Government should make. The Senate has agreed to 100,000 additional police. Between us, we will provide the resources to help local governments make our neighborhoods safer. It's about time.

Second, the Federal Government must do a great deal more to help States build prisons. Like other law-abiding citizens, I am outraged when violent criminals are properly arrested, prosecuted, convicted, and sentenced—only to be released back onto our streets before serving their full sentences. If these criminals are being paroled early because our prisons are too crowded, then we must build new prisons. I strongly support the Byrd amendment to the Senate crime bill that provides \$3 billion for prison construction.

Third, we must crack down on gang activity. Toward that end, we must increase the punishment for repeat offenders who are gang members with a prior drug or violent crime conviction. I also support tripling the penalty for using children to sell drugs.

Youth violence demands a tough and certain response; at the same time, we must do more to deter juvenile crime in the first place.

Finally, we need the Brady bill. Every major law enforcement organization in the country—including the Fraternal Order of Police, the National Association of Police Organizations, and the National Sheriffs Associations—supports the bill. The Brady bill is supported by 92 percent of the American people—even 87 percent of all gunowners support the bill.

A 5-day waiting period is no panacea. The States that have already adopted such waiting periods find that they help. For example, in the

20 years that New Jersey has required a background check for handgun purchasers, more than 10,000 convicted felons have been caught trying to buy handguns. That's why the Nation's law enforcement community supports the Brady bill.

Mr. HASTINGS. Mr. Chairman, I rise today with pride to announce my strong support for H.R. 1025, the Brady bill.

It is rare that the Congress has the opportunity to consider such a clear and simple piece of legislation as the Brady bill, a bill which boasts bipartisan support. The National Rifle Association claims that the Brady bill infringes on the freedom of Americans and restricts the purchasing of guns. But the plain fact is, 92 percent of all Americans support Brady and furthermore, 87 percent of all gun owners support Brady.

The Brady bill works. My home State of Florida has a 3-day waiting period. Since enactment in early 1991, this policy has successfully stopped over 18,000 people, who had previously been convicted of a felony, in their attempts to purchase guns. The Brady bill will establish a national network through the Department of Justice to identify and prevent this acquisition of guns before it is too late.

The Brady bill is a necessary first step in combating the violence that is poisoning our communities nationwide. We have the opportunity to curb the vicious and purposeless crime that robs the youth and old alike of the most sacred gift: life.

Mr. KLECZKA. Mr. Chairman, I rise today in strong support of the Brady bill.

As you know, this bill was named after James Brady, a courageous man who was the victim of senseless handgun violence.

His assailant was a man with a record of mental instability, who was able to walk into a store, and walk out with a gun.

It was with this gun that he fired the shots that hit President Reagan in the side, missing his heart by 1 inch. It was with this gun that he fired the shots that hit James Brady in the skull, sentencing Mr. Brady to a wheelchair for the rest of his life.

Mr. Chairman, how many more times must we hear a story like this before Congress acts to curb the criminal use of firearms?

Mr. Brady was shot in 1981, and while we were all shocked by the pictures then, we are numbed to them now. So many times has this scenario been played out that it is no longer shocking. The story of a mentally distraught or criminal individual getting access to a gun and then slaughtering innocent people is now a regular feature on the evening news. This must stop, and it is the duty of Congress to help stop it.

In spite of the propaganda you may hear, waiting periods do work to keep guns out of the hands of criminals. In my home State of Wisconsin, a waiting period was recently enacted. In this short period of time, over 200 convicted felons tried to buy guns and were denied.

Mr. Chairman, it is time to stop worrying about protecting our guns and instead start acting to protect our constituents. I urge all Members to vote "yes" on the Brady bill.

Ms. ESHOO. Mr. Chairman, as an original cosponsor of the Brady bill, I rise today in strong support of its passage.

Over the past few decades, firearms ownership and violent crime have grown hand-in-hand.

In my district alone, east Palo Alto was labeled the "Murder Capital" of the United States last year because it had the highest number of murders per capita.

It's time for Congress to help make the streets safe again by passing the Brady bill.

Waiting periods work.

In California over the past 2 years, our 15-day waiting period helped deny firearms purchases to nearly 12,000 people, including 6,000 people convicted of assaults and 141 people under restraining orders for domestic violence. Instead of children carrying lunch pails to school, they're carrying guns.

Congress needs to take this critical step toward rationality and reject the hue and cry and money of the irrational gun lobby.

In the same spirit, I urge the leadership to bring the Violence Against Women Act to the floor for a vote.

Since 1974, the rate of assaults against women aged 20-24 has increased almost 50 percent and each year, more and more women are victims of weapons in their home.

Let us keep faith with what the people want us to do. I urge my colleagues to cast a courageous vote, a vote which will move our country forward and secure a better, more humane future for us all.

Mr. FRANKS of Connecticut. Mr. Chairman, I rise today as a member of the Sportsman Caucus in strong opposition to H.R. 1025, the so-called Brady bill. I am a firm believer in the second amendment right to keep and bear arms. Many in Congress feel the way to control crime is to eliminate guns. I do not.

In my judgment, eliminating guns will not alleviate the crime epidemic. The cause of the outbreak is the criminal. I believe we can better deter criminals by imposing strict penalties for those who commit crimes. Ultimately, the most effective way to deter crime is to send a message to the criminal that the punishment will be severe and swift.

Mr. Chairman, passage of this legislation is another example of Congress taking the easy way out. Earlier this year I introduced legislation that is cosponsored by the majority of the Republican leadership. My bill would double the Federal mandatory sentences for individuals who commit the most heinous crimes with a firearm in their possession. I believe this is a better approach at tackling the crime problem facing our Nation.

The legislation before us today would establish a 5-day waiting period before gun may be purchased. However, it does not mandate that local law enforcement agencies use this time to carry out a background check on purchasers. Mr. Speaker, I have serious doubts that this bill will reduce our crime problem.

I am pleased that the Gekas amendment establishes a mandatory 5-year timetable for the implementation of a nationwide computer system capable of checking an individual's background instantaneously. This instantaneous check will be conducted before an individual is allowed to purchase a handgun. The State of Virginia and four other States already incorporate such a system with great success. This certainly is not a panacea for our national crime problem, as most criminals procure their

weapons illegally, but I feel this program is a step in the right direction.

Mr. Chairman, I will be unable to support final passage of H.R. 1025 because we failed to pass the McCollum amendment. This sensible amendment would have established a unified Federal policy on waiting periods. Once the national instant background check is implemented, there will be no need for the Brady bill. It is not fair to impose a 5-day waiting period on States that do not have a Brady bill. I believe we have the ability to preempt other State laws when the instant check system is ready. While I am pleased that the Gekas amendment passed, I cannot support the Brady bill without inclusion of the preemptive language.

Like most gun control legislation, this bill will do nothing more than impose on the constitutional rights of law-abiding citizens. So, once again, rather than getting tough on the criminal, we will impede the basic rights of our constituents to protect themselves and their families.

Mr. Chairman, H.R. 1025 is a bad bill. Let's defeat this legislation and finally get down to the business of constructing a legitimate anti-crime package.

Mr. VENTO. Mr. Chairman, I rise in strong support of H.R. 1025, the Brady bill, which establishes a 5-working-day waiting period for handgun purchases. During the waiting period, police are required to check available criminal history records to determine whether the potential buyer has a felony conviction. The bill also directs the Attorney General to develop a national instant background check system so that in the future potential handgun buyers will not have to wait for up to 5 working days. Once such an instant system is established, the waiting period will be abolished under a sunset provision in the bill.

An overwhelming majority of Americans, including a majority of my constituents, support the Brady bill as a reasonable and sensible public safety measure which will pose little or no inconvenience to law-abiding citizens.

Three weeks ago, Attorney General Janet Reno visited my congressional district in St. Paul, MN, and participated in a townhall meeting on "Crime in Our Community." Chief William Finney of the St. Paul Police Department also participated in this event which was attended by some 700 people. The Attorney General, Chief Finney, and I heard firsthand about the concerns of the people of St. Paul for the safety of their streets and neighborhoods. People are outraged by the escalating level of violence on the streets of our cities and by the easy access to the guns which are used in these violent crimes.

Our constituents know that the passage of the Brady bill will not stop all crimes involving guns. But they also understand that it is not unreasonable to require a simple background check on a person who wishes to buy a handgun.

Unfortunately, some of my colleagues in the House are attempting to undermine this legislation by amendment. One amendment would terminate the Brady bill at a certain date regardless of whether a national background check system is in place. Experts from the Justice Department have said that even a 5-year deadline for establishing any kind of efficient national background check system is

probably unrealistic. We need to put our collective efforts into expediting the establishment of this system rather than tearing down the Brady bill before it even is in place.

Another amendment would wipe out all existing State waiting periods and other safeguards once any instant background check system is established. It would also prevent States from enacting any background check measure beyond a telephone check system. The effect of this amendment would be to abolish Virginia's one-handgun-per-month limit aimed at gun-runners. It would also abolish waiting periods of up to 15 days in Maryland, California, Oregon, Florida, Indiana, and Connecticut as well as permit-for-purchase systems in New York, North Carolina, New Jersey, and Michigan.

Mr. Chairman, a recent national poll shows that 71 percent of Americans believe the availability of guns is a key factor in causing crimes. Recent data from the FBI shows that from 1987 to 1992, the rate of handgun homicides increased by 52 percent. The American people know and they expect us to act responsibly.

I urge my colleagues to join me in voting for the Brady bill.

Mr. MANZULLO. Mr. Chairman, today we should be addressing the issue of crime. More cops, more prisons, less parole, and tougher sentences for criminals using guns, as opposed to further gun control, are the keys to reducing crime.

I voted against the Brady bill because waiting periods for guns do not keep guns out of the hands of criminals. The Bureau of Justice statistics shows that the vast majority of the violent crimes committed in which a handgun is used involve illegal possession of that weapon, including black-market and theft.

The State of Illinois has much more restrictive gun laws than Brady. In addition, Wisconsin, Iowa, and Indiana all have some form of a waiting period. It is already illegal for a resident of one State to purchase a handgun in another State. Thus, Brady will not keep guns out of the hands of criminals, and that is why I voted against it. Even Sarah Brady herself stated that "it's * * * not a panacea. It's not going to stop crimes of passion or drug-related crimes."

Therefore, the issue is not guns, but criminals, and therefore I supported the following measures:

First, because it is already a Federal crime for a felon to own a firearm, I support a bill that provides for States to put a magnetic strip on the back of all drivers' licenses—or other State I.D.—encoded to read whether someone is a felon or adjudicated by a court to own or possess a firearm. This would not be that difficult to implement. But, this alone will not stop crime.

Second, the House voted unanimously to put 50,000 more cops on the beat through Federal grants to States and local communities. The Senate version of the bill makes the figure 100,000, and I'll support that. The presence of cops on the street is a proven deterrent to crime.

Third, the Republican crime proposal provides for Federal grants to States to build combined Federal and State regional prisons, provided States make criminals serve at least

85 percent of their sentence. When California increased its prison capacity, crimes fell by 21 percent.

Fourth, I cosponsored a bill that put behind bars for life any person convicted of three violent felonies, and the Senate just passed another version of that 98 to 1.

Fifth, the House voted overwhelmingly for funds for addressing drug trafficking, gang-related activity and providing drug abuse counseling. The Chemical Dependency Services Network in Illinois demonstrates that alcohol or drugs are involved in three out of four crimes. The Illinois program known as Treatment Alternatives for Special Clients states that substance abuse treatment reduces criminal activity. This is why I voted in favor of these programs, although it is important to keep our focus on the fact that criminals should serve out their sentences.

In addition, the Republican crime proposal provides for nondeficit funding of these tough criminal measures, through a reduction in administration expenses of running the Federal Government.

Still yet, the most basic and primary focus of any successful crime initiative—one that will really deter crime—is prosecuting and locking up the criminals. Mr. Speaker, this alone will have the greatest effect of reducing the crime rate than will the Brady bill.

Mr. HUGHES. Mr. Chairman, today the House has an opportunity to vote on a bill which I believe will make a major contribution to our country's fight against gun-related violence and crime.

H.R. 1025, better known as the Brady bill, would establish a mandatory, 5-day waiting period for the purchase of handguns from licensed dealers. The need for this legislation is clear.

According to the Bureau of Justice statistics, handguns are involved in an average 9,200 murders, 407,000 assaults, 210,000 robberies, and 12,000 rapes every year. Indeed, nearly half the murder victims in our country are killed with a handgun, while thousands more use handguns to commit suicide.

These are not just numbers. There are real people and real tragedies behind each and every one of these statistics.

Some years ago, when I had the privilege of chairing the Subcommittee on Crime, we heard from Jim Brady and others, who eloquently and bravely related just what it means to be a victim of a handgun attack.

Indeed, it was the courage of Jim Brady, his wife Sarah and others in coming forward to tell their stories that helped to focus public attention on the senseless tragedy of handgun-related violence. Through their efforts, we have reached the point today where there is overwhelming support among the American people for a handgun waiting period.

Let me take just a few moments to highlight some of the key provisions of this bill.

Essentially, the bill creates a Federal 5-day waiting period before a licensed dealer may transfer a handgun to a private purchaser.

Each prospective handgun purchaser will be required to give the dealer a sworn statement containing some personal identification information, including a statement that the purchaser is not precluded under Federal law from owning a handgun. The dealer is re-

quired to transmit this information to the chief local law enforcement officer within 1 day of the proposed transfer.

Unless law enforcement finds the purchaser is ineligible to buy a handgun, the sale may proceed 5 business days after the statement is first signed. The sale may proceed even quicker if the local law enforcement notifies the dealer that there is no problem with the purchaser's eligibility. It's that simple.

In other words, the police are given a reasonable opportunity to conduct a background check, but they cannot indefinitely delay the sale by stalling or failing to provide a notice of authorization to the dealer. The onus rests entirely with the law enforcement officer, not the dealer or the prospective purchaser.

The Brady bill has several other important features as well.

To help protect the privacy of legal purchasers, it requires that a copy of the statement and other records of the transaction be destroyed within 20 days.

It also authorizes \$100 million in grants to States to help automate their criminal record-keeping systems, and terminates the waiting period requirement as soon as an instant criminal identification system becomes operational nationwide.

Mr. Chairman, there are some who argue that a waiting period doesn't work. They are wrong. I would urge those who doubt the effectiveness of the waiting period to look at our experience in New Jersey, where applicants are required to undergo a rigorous background check every time they apply for a permit to purchase a firearm.

Over the last two decades, more than 19,000 people who applied for a permit in New Jersey have been turned down, because the background check showed they had a criminal or mental history, they lied on their application form, or they were otherwise disqualified from purchasing a gun.

Unfortunately, New Jersey's waiting period law has been undercut by the fact that other nearby States do not have similar requirements. For instance, anyone can walk into a gun shop in Virginia, show a false identification card, lie on the application form and purchase a gun on the spot. All too often, these guns are carried into New Jersey, where they are used to commit crimes.

There are also those who argue that a waiting period is too much of a burden on law-abiding citizens. Let me say to those critics that we all endure waiting periods of one kind or another in most aspects of our lives, whether it's to get a license to operate a business, get a credit card, or for other purposes.

We fill out forms all the time including background information, ship them off and, if we're lucky, within some reasonable period of time we get the license or credit card or whatever else it was we are seeking. This bill does not create a record check which is any different than the kind we all experience dozens of times during our lives.

And if you really want to know what it's like to be inconvenienced, I suggest you talk to Jim and Sarah Brady. They suffer every minute of their lives as a result of a senseless act of violence which may well have been prevented if a waiting period had been in effect the day John Hinckley walked into a gun shop

in Texas, lied on his application form, and walked out with the handgun he used to shoot President Reagan, Jim Brady and others.

Mr. Chairman, I am a gun owner myself, and I value the privilege of owning firearms. I would not support legislation which would prohibit the private ownership of firearms. At the same time, however, I believe that society has every right to protect itself from those who would abuse the privilege of owning firearms.

The Brady bill is a very modest effort to provide a reasonable waiting period, which will help the police keep handguns out of the hands of criminals and mentally deranged persons. It's not the total solution but it's a start.

I urge my colleagues to support this bill, and to let the American people know that we are finally serious about doing something to halt the carnage which is taking place every day in neighborhoods and schoolyards across our Nation.

The American people overwhelmingly support the Brady bill. The time to pass it is now. Thank you.

Mr. NADLER. Mr. Chairman, I rise to express my strong support for H.R. 1025, known as the Brady bill. On behalf of my constituents in New York City, where over 1,500 handgun murders occurred last year, I want to say that it is high time this simple but important piece of legislation became law.

The Brady bill will not deprive any person otherwise entitled under State or Federal law to own a handgun of that right. It will simply ensure effective enforcement of existing laws governing who may and may not purchase a handgun.

Existing statutes place various restrictions on handgun ownership, notably with respect to convicted felons and individuals with histories indicating potential danger. And some States already have in place instant-check systems that make it possible to determine whether a prospective handgun purchaser is legally ineligible. But many States do not have such a system in place.

The Brady bill puts us on the road to having, within 5 years, a nationwide system of checking the background of prospective handgun purchasers. Until that goal is reached, the Brady bill requires a waiting period of 5 business days before a handgun sale is completed, providing time for a background check within the constraints of existing information systems.

Much more is necessary. As Brady bill opponents point out, most criminals do not obtain their handguns legally. Guns are just too easy to come by in this country. But the Brady bill is an elementary first step, providing us with the ability to give meaning to existing laws prohibiting the sale of handguns to convicted felons and to those whose personal histories point to danger. A wait of 5 business days is precious little imposition on the rights of those legally entitled to own a handgun.

I urge my colleagues to give their overwhelming support to the Brady bill, and to vote "no" on the weakening amendments backed by the National Rifle Association. The road to a restoration of safety on the streets of our cities begins with adoption of the Brady bill.

Mr. REED. Mr. Chairman, as an original cosponsor of the Brady bill, I am very pleased to see that this legislation is on the road to pas-

sage this year. This legislation is long overdue. The Brady bill was first introduced in 1987, and the gun lobby has used every tactic in the book to prevent its passage. From arguments about the right to privacy to the second amendment, we have heard it all.

And yet one thing that we have consistently heard is that the American people want the Brady bill. An overwhelming majority of Americans, including a majority of gunowners, support a waiting period. What the American people do not want is more stalling tactics by gun lobbyists.

The Brady bill is not a panacea for the violence that plagues our country, but the Brady bill will go a long way toward keeping guns out of the hands of criminals. Twenty-three States, including my home State of Rhode Island, have waiting periods that do in fact stop criminals.

It is time to stand up to the gun lobby and pass the Brady bill.

Mr. GRAMS. Mr. Chairman, I rise in opposition to H.R. 1025, also known as the Brady bill.

Citizens across America are rightly demanding that we here in Congress take real action to fight violent crime. Unfortunately, that's not what this legislation does. Even supporters of the Brady bill concede that it will do little to stop gun violence in this country.

Instead, what the Brady bill does do is give citizens a false sense of security while providing Congress cover for its failure to genuinely get tough on crime. At the same time, it forces honest citizens to go through needless bureaucracy at taxpayer expense, takes cops off the streets in order to process paperwork and creates a potentially dangerous delay for citizens who feel a need to exercise their right to self-defense.

History clearly demonstrates that this bill will not put an end to violent crime. In many States which have enacted waiting periods on firearms, the violent crime rate has dramatically increased. For instance, California's 15-day waiting period for all firearms has failed to stem a 178-percent increase in violent crime despite the State's waiting period. And in Minnesota, violent crime has increased 118 percent despite a 7-day waiting period for handguns.

In addition, the Brady bill will do little to keep guns out of the hands of violent criminals. Recent studies have indicated that over 75 percent of State inmates who had ever possessed a gun had obtained it by illegal means. Clearly, the most dangerous criminals will not be deterred by a waiting period.

Finally, Brady supporters give citizens the false impression that this bill requires a criminal background check at the time of purchase of a handgun. In fact, Brady makes no such requirements. If no background check is made in 5 days, none will occur.

I believe criminal background checks must be made. Therefore, instead of passing Brady, I believe Congress should enact legislation requiring the establishment of a national system to provide for instantaneous, point of purchase criminal background checks. Such a system would be more effective in screening out criminals, and unlike Brady would not inconvenience law-abiding gun purchasers.

That's why I've cosponsored legislation to provide for this, and wish we had the opportunity to vote on such a proposal today.

Mr. Chairman, the American people deserve real protection from crime, not political cover for politicians. Let's reject the Brady bill today and begin concentrating on meaningful crime control which focuses on punishing criminals and not law-abiding citizens. Let's reform our judicial system, let's put three-time felons away for life, let's build more prisons, and let's make sure prisoners serve their full sentences. In short, let's get tougher on criminals, not lawful citizens.

Mr. STOKES. Mr. Chairman, I rise today in support of H.R. 1025, the Brady Handgun Violence Protection Act. I wish to commend my distinguished colleague from New York, Representative Chuck Schumer on his efforts in bringing this bill to the floor and addressing the critical issue of gun control. I am certain my colleagues would agree that Americans from all walks of life are looking for action on this problem.

H.R. 1025 mandates a 5-day waiting period prior to the purchase of a handgun. During this waiting period, law enforcement officials would be furnished with the opportunity to investigate the background of the purchaser to ensure that the sale would not violate Federal, State, or local law. Moreover, this waiting period would establish a timetable for putting the national instant-check system in place, and authorize funds for State and local government to computerize criminal records.

In the last several years, we have witnessed handgun violence take a devastating toll on our Nation. While we are experiencing what appears to be increased handgun violence in different population groups and in certain areas of the country, the reality of handgun violence is that it occurs throughout America, and not exclusively in the inner-city communities like Washington, DC, New York, or Los Angeles.

Daily, we hear accounts of innocent children wounded by drive-by shootings, schools overrun by gangs with weapons, and other atrocities destroying human life. In 1990, no nation had a higher murder rate than ours. The United States murder rate was quadruple that of the entire continent of Europe and was 11 times higher than Japan. Americans are dying from unnecessary violent deaths in unprecedented terms and there is no doubt that the unrestricted acquisition and use of handguns contributes to this violence. Handguns are involved in an average of 9,200 murders, 12,100 rapes, 210,000 robberies, and 407,600 assaults each year.

These startling statistics should move Congress to enact the Brady bill. While it is not realistic to expect the bill to end all handgun crimes, the waiting period would prevent purchases made in the heat of passion and in the end save many lives. Nearly 92 percent of all Americans and 87 percent of all gunowners are in support of the Brady bill. We all agree that there needs to be an immediate response to this dilemma.

Mr. Chairman, 22 States currently require either a waiting period or a license prior to obtaining a handgun. Last year alone, through California's waiting period, 5,763 purchases were stopped. The Brady bill will allow for protection of States' rights by providing these 22 States with the option of either adopting the

Brady bill or continuing their own waiting periods, background checks and licensing procedures for guns even when the national instant-check system is operational. Presently, only 15 States have fully automated criminal history files. Four States have no automated criminal history files at all. Once the timetable of 80 percent automation of computerized criminal records is in place, the instant-check system will apply to all guns. This measure will reduce crime to the fullest extent possible by providing an instantaneous national system for felon identification.

Too many lives have been lost to handgun violence. The grim reality demands our immediate response. Mr. Chairman, the Brady bill takes a significant step in curbing the rising tide of our Nation's violence. The Brady bill will help to restore safety and sanity to our communities and I strongly urge all of my colleagues to support H.R. 1025.

Ms. NORTON. Mr. Chairman, I rise in strong support of H.R. 1025, the Brady Handgun Violence Prevention Act. Some members are fond of railing against shootings in your Nation's Capital. Yet you can't buy a gun in this town. Unlike the modest 5 days of the Brady bill, the District of Columbia waiting period is perpetual.

Nevertheless, there have been 406 killings as of today in the District. Yet every gun and every bullet comes from where some of you live, my friends. If you are serious about the shootings in this town, you must do something about the guns that come from your towns.

The Brady bill at least keeps guns from the worst menaces—felons, unstable people, and the like, who today often do not have to go far to buy guns legitimately.

Yet the NRA sharks are circling these congressional waters. Without shame, they would knock over baby Brady as the bill takes its first steps. Two amendments offered would effectively abolish State and local laws that are stronger than Brady on the pretense that a national computerized instant-check system would make waiting periods unnecessary.

However, the information on the instant-check system will confirm far less extensive information than some existing waiting periods could uncover.

The very idea of preempting the traditional local option to have stronger anticrime laws than Congress enacts would be shocking if it were not so brazen. My colleagues, if you don't want to reach a higher law enforcement standard, please have the decency not to pull down those of us who have.

Pass the Brady bill.

Mrs. COLLINS of Illinois. Mr. Chairman, I rise in strong support of H.R. 1025, the Brady Handgun Violence Prevention Act. For 6 years we have debated the merits of a 5 day waiting period for persons purchasing a handgun and for 6 years as we have debated I and my constituents have had to watch as children and adults are killed and injured by firearms. I am absolutely disgusted and fed up with the needless, random violence occurring daily, like clockwork in our communities.

Many residents of my district in Chicago have grown accustomed to the terrifying sights and sounds of gunplay. They cannot understand how we in Government can stand by and allow this situation to exist.

The opponents of this bill will claim that it alone will not end crime and deaths associated with firearms and on that point we agree. The Brady bill will not end the 24,000 yearly deaths that result from handguns. It alone is not the panacea for crime, but it will certainly give our police officers an additional way to keep guns out of the hands of persons who are unstable or are known to be criminals. That is why the Fraternal Order of Police, the Police Foundation, and the International Brotherhood of Police Officers have endorsed this bill.

The opponents of this measure argue that law-abiding citizens will be inconvenienced by a waiting period. It is hard for me to listen to arguments about inconvenience when thousands of people are dying daily because of the proliferation of these weapons. If lives are saved by the minor inconvenience of having to wait a few days to purchase a gun than we have accomplished plenty with this measure.

Mr. Chairman, a new handgun is produced every 20 seconds in America, even while injury resulting from one of those guns happens every 2 minutes. At some point we must stop this madness. H.R. 1025 is not the solution to our problem, but it is an important beginning. The American people and the entire law enforcement community overwhelmingly support the Brady bill. It is time for the Congress to catch up to them. I will vote in favor of this bill and I urge my colleagues to do likewise.

Mr. QUINN. Mr. Speaker, I rise today to join many of my colleagues in expressing my disappointment that Congress will adjourn at the end of November without considering a comprehensive crime package.

The Brady bill's instant check system is one part of attacking the national crisis occurring today in our country. We must pass substantive crime legislation to address the blood-bath taking place on the streets of America.

In the city of Buffalo, and in other urban areas the country, crime and violence is becoming more and more frequent and deadly. Just last year, the number of murders in Buffalo increased by 50 percent. According to the Bureau of Justice Statistics, every year in the United States, handguns are involved in an average of 9,200 murders, 12,100 rapes, 210,000 robberies, and 407,600 assaults.

In order to seriously confront America's crime problem, we must enact legislation to build more prisons, reform habeas corpus procedures and extend tougher sentences for repeat offenders. We must also better enforce existing laws and apply the death penalty to heinous offenders.

Without additional crime legislation, our Nation will continue to see its youth killed and its senior citizens imprisoned in their own homes. We must work to alter the disturbing statistic that injury deaths caused by firearms in America are 90 times higher than in any other country.

I think America, the greatest nation in the world, is worth the fight.

Mr. COLEMAN. Mr. Chairman, I rise today in opposition to the Brady bill. I oppose this measure not because of what it does; but for what it fails to do. I agree with the proponents of this measure that we ought to have an automated system by which we can determine whether or not someone is legally barred from

owning a gun. For all his efforts to make such a system a reality, I applaud the gentleman from New York. However, I must oppose this legislation because it is not a crime control solution. The Brady bill will not reduce crime, nor will it prevent handgun violence. Indeed, it will not even prevent those who are legally barred from possessing a gun from doing so.

Let me say that this was not a decision I made lightly or quickly. I have weighed very carefully the arguments on both sides of this debate. Personally, I have found the increasing levels of gun violence, especially among our children, very distressing. Every day, approximately 135,000 children bring a gun to school. Every day 14 children die in gun accidents, suicides and homicides. Every day 30 American children are wounded by guns. Every day. There was a time, not that long ago, when accidents were the leading cause of death among our young people. This is no longer the case. Gun deaths are now the leading cause of death among young people, particularly in minority communities.

However, the Brady bill will do nothing to stem the violence which now confronts our Nation's youth. Handgun Control has stated that 1.2 million elementary aged, latch-key children have access to guns in their homes. I respectfully invite anyone in this body to explain to me exactly how enactment of the Brady bill will change this situation. The truth is no one can, because enactment of the Brady bill will do nothing to reduce a child's access to guns in his or her home. More importantly, this bill does nothing to address the fact that guns are being sold to children in the streets by criminals. Brady will do nothing to reduce, curb or prevent gang and other violence which now threatens our young people because it does not apply to them. Passing the Brady bill will not prevent acts of youth violence.

I also must question just how effective Brady will be in combating other types of violent crime. Just how many violent criminals do we honestly believe will submit to a background check and 5-day wait to purchase their weapons. I suggest that significantly less than 1 percent are likely to do so, the rest will simply continue to purchase their weapons as they are already doing illegally. This measure will not combat crime in the least. The people most impacted by enactment of the Brady bill are those who have a legal right to purchase a firearm and exercise that right through a licensed firearms dealer. If we are attempting to combat crime, then let us do that; to my colleagues I say that we should honestly admit that the Brady bill is not the proper vehicle for achieving that end.

To address the very real problem of violent crime, I respectfully urge my colleagues on the Judiciary Committee to act on measures which will ensure swift justice. If we are serious that we want to get tough on crime let us do that. We should appropriate additional funds for more courts, more prosecutors and more prisons. This vote today on the Brady bill is nothing more than a feel good vote which will do nothing to address the problem of violence in our society. I understand why this legislation is attractive to many; but it simply will not further our nation's efforts to combat crime. In casting my vote against this measure, I urge my colleagues to join me in focusing our attention on

the root causes of crimes and our actions against those who perpetrate them.

Ms. LONG. Mr. Chairman, I rise today in support of H.R. 1025, the Brady Handgun Violence Prevention Act.

In the past, I have voted against waiting periods on the purchase of firearms and have instead supported legislation to establish an instant criminal background check to screen buyers of handguns. In addition, I have never supported restrictions or bans on any type of firearms, nor do I intend to in the future.

The Brady bill that is being voted on by the House of Representatives today is not the same Brady bill that I opposed in the past. It is a bipartisan compromise that establishes a 5-day waiting period for purchases of a handgun in preparation for the establishment of an instant criminal background check on the purchase of firearms. Although there is a waiting period in this legislation, it will last only until the instant check is established or until 5 years has elapsed from the enactment of this legislation.

I opposed the amendment which would have preempted Indiana State law and the laws of other States in controlling violence and crime. Indiana currently has a 7-day waiting period on the purchase of handguns. Crime control begins with local and State initiatives and I believe it is generally best for them to determine exactly which measures are appropriate for the problems they face. The Federal Government should, to the extent possible, allow local and State officials to address this issue.

The Brady compromise is the latest in a number of anticrime measures I have worked on and supported in recent weeks, including funding for more police officers for States and local communities, drug education, and drug treatment. It has become apparent to Members of Congress, Democrat and Republican alike, that violent crime is affecting our society like never before. My district in Indiana has seen the senseless violence that plagues the rest of the country. Just 2 days before this past Halloween, in fact, 15-year-old Ternae Jordan, Jr., son of a minister in my district, was shot randomly in the head as he sat in a Fort Wayne YMCA, waiting for a ride home following a piano lesson. It is because of violence such as this that last week I supported measures to provide our communities with more police officers, better drug education, and drug treatment programs. That is why I will support this compromise version of the Brady bill. These measures will help in our fight against crime.

I commend Chairman BROOKS and the ranking minority member, Mr. FISH, for crafting this legislation and I urge its passage as amended.

The CHAIRMAN. All time for general debate has expired.

Pursuant to the rule committee amendment in the nature of a substitute printed in the bill, modified by the amendments printed in part 1 of House Report 103-341, is considered as an original bill for the purpose of amendment and is considered as read.

The text of the committee amendment in the nature of a substitute, as modified, is as follows:

H.R. 1025

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Brady Handgun Violence Prevention Act".

SEC. 2. FEDERAL FIREARMS LICENSEE REQUIRED TO CONDUCT CRIMINAL BACKGROUND CHECK BEFORE TRANSFER OF FIREARM TO NONLICENSEE.

(a) INTERIM PROVISION.—

(1) IN GENERAL.—Section 922 of title 18, United States Code, is amended by adding at the end the following:

"(s)(1) Beginning on the date that is 90 days after the date of enactment of this subsection and ending on the day before the date that the Attorney General certifies under section 3(d)(1) of the Brady Handgun Violence Prevention Act that the national instant criminal background check system is established (except as provided in paragraphs (2) and (3) of such section), it shall be unlawful for any licensed importer, licensed manufacturer, or licensed dealer to sell, deliver, or transfer a handgun to an individual who is not licensed under section 923, unless—

"(A) after the most recent proposal of such transfer by the transferee—

"(i) the transferor has—

"(I) received from the transferee a statement of the transferee containing the information described in paragraph (3);

"(II) verified the identity of the transferee by examining the identification document presented;

"(III) within 1 day after the transferee furnishes the statement, provided notice of the contents of the statement to the chief law enforcement officer of the place of residence of the transferee; and

"(IV) within 1 day after the transferee furnishes the statement, transmitted a copy of the statement to the chief law enforcement officer of the place of residence of the transferee; and

"(ii)(I) 5 business days (as defined by days in which State offices are open) have elapsed from the date the transferor furnished notice of the contents of the statement to the chief law enforcement officer, during which period the transferor has not received information from the chief law enforcement officer that receipt or possession of the handgun by the transferee would be in violation of Federal, State, or local law; or

"(II) the transferor has received notice from the chief law enforcement officer that the officer has no information indicating that receipt or possession of the handgun by the transferee would violate Federal, State, or local law;

"(B) the transferee has presented to the transferor a written statement, issued by the chief law enforcement officer of the place of residence of the transferee during the 10-day period ending on the date of the most recent proposal of such transfer by the transferee, stating that the transferee requires access to a handgun because of a threat to the life of the transferee or of any member of the household of the transferee;

"(C)(i) the transferee has presented to the transferor a permit that—

"(I) allows the transferee to possess a handgun; and

"(II) was issued not more than 5 years earlier by the State in which the transfer is to take place; and

"(ii) the law of the State provides that such a permit is to be issued only after an authorized government official has verified that the information available to such official does not indicate that possession of a handgun by the transferee would be in violation of the law;

"(D) the law of the State requires that, before any licensed importer, licensed manufacturer, or licensed dealer completes the transfer of a hand-

gun to an individual who is not licensed under section 923, an authorized government official verify that the information available to such official does not indicate that possession of a handgun by the transferee would be in violation of law, except that this subparagraph shall not apply to a State that, on the date of certification pursuant to section 3(d) of the Brady Handgun Violence Prevention Act, is not in compliance with the timetable established pursuant to section 3(c) of such Act;

"(E) the Secretary has approved the transfer under section 5812 of the Internal Revenue Code of 1986; or

"(F) on application of the transferor, the Secretary has certified that compliance with subparagraph (A)(i)(III) is impracticable because—

"(i) the ratio of the number of law enforcement officers of the State in which the transfer is to occur to the number of square miles of land area of the State does not exceed 0.0025;

"(ii) the business premises of the transferor at which the transfer is to occur are extremely remote in relation to the chief law enforcement officer; and

"(iii) there is an absence of telecommunications facilities in the geographical area in which the business premises are located.

"(2) A chief law enforcement officer to whom a transferor has provided notice pursuant to paragraph (1)(A)(i)(III) shall make a reasonable effort to ascertain within 5 business days whether the transferee has a criminal record or whether there is any other legal impediment to the transferee's receiving a handgun, including research in whatever State and local record-keeping systems are available and in a national system designated by the Attorney General.

"(3) The statement referred to in paragraph (1)(A)(i)(I) shall contain only—

"(A) the name, address, and date of birth appearing on a valid identification document (as defined in section 1028(d)(1)) of the transferee containing a photograph of the transferee and a description of the identification used;

"(B) a statement that transferee—

"(i) is not under indictment for, and has not been convicted in any court of, a crime punishable by imprisonment for a term exceeding 1 year;

"(ii) is not a fugitive from justice;

"(iii) is not an unlawful user of or addicted to any controlled substance (as defined in section 102 of the Controlled Substances Act);

"(iv) has not been adjudicated as a mental defective or been committed to a mental institution;

"(v) is not an alien who is illegally or unlawfully in the United States;

"(vi) has not been discharged from the Armed Forces under dishonorable conditions; and

"(vii) is not a person who, having been a citizen of the United States, has renounced such citizenship;

"(C) the date the statement is made; and

"(D) notice that the transferee intends to obtain a handgun from the transferor.

"(4) Any transferor of a handgun who, after such transfer, receives a report from a chief law enforcement officer containing information that receipt or possession of the handgun by the transferee violates Federal, State, or local law shall immediately communicate all information the transferor has about the transfer and the transferee to—

"(A) the chief law enforcement officer of the place of business of the transferor; and

"(B) the chief law enforcement officer of the place of residence of the transferee.

"(5) Any transferor who receives information, not otherwise available to the public, in a report under this subsection shall not disclose such information except to the transferee, to law enforcement authorities, or pursuant to the direction of a court of law.

"(6)(A) Any transferor who sells, delivers, or otherwise transfers a handgun to a transferee shall retain the copy of the statement of the transferee with respect to the handgun transaction, and shall retain evidence that the transferor has complied with subclauses (III) and (IV) of paragraph (1)(A)(i) with respect to the statement.

"(B) Unless the chief law enforcement officer to whom a statement is transmitted under paragraph (1)(A)(i)(IV) determines that a transaction would violate Federal, State, or local law—

"(i) the officer shall, within 20 business days after the date the transferee made the statement on the basis of which the notice was provided, destroy the statement and any record containing information derived from the statement;

"(ii) the information contained in the statement shall not be conveyed to any person except a person who has a need to know in order to carry out this subsection; and

"(iii) the information contained in the statement shall not be used for any purpose other than to carry out this subsection.

"(7) A chief law enforcement officer or other person responsible for providing criminal history background information pursuant to this subsection shall not be liable in an action at law for damages—

"(A) for failure to prevent the sale or transfer of a handgun to a person whose receipt or possession of the handgun is unlawful under this section; or

"(B) for preventing such a sale or transfer to a person who may lawfully receive or possess a handgun.

"(8) For purposes of this subsection, the term 'chief law enforcement officer' means the chief of police, the sheriff, or an equivalent officer or the designee of any such individual.

"(9) The Secretary shall take necessary actions to ensure that the provisions of this subsection are published and disseminated to licensed dealers, law enforcement officials, and the public."

(2) **HANDGUN DEFINED.**—Section 921(a) of such title is amended by adding at the end the following:

"(29) The term 'handgun' means—

"(A) a firearm which has a short stock and is designed to be held and fired by the use of a single hand; and

"(B) any combination of parts from which a firearm described in subparagraph (A) can be assembled."

(b) **PERMANENT PROVISION.**—Section 922 of title 18, United States Code, as amended by subsection (a)(1) of this section, is amended by adding at the end the following:

"(1)(I) Beginning on the date that the Attorney General certifies under section 3(d)(1) of the Brady Handgun Violence Prevention Act that the national instant criminal background check system is established (except as provided in paragraphs (2) and (3) of such section), a licensed importer, licensed manufacturer, or licensed dealer shall not transfer a firearm to any other person who is not such a licensee, unless—

"(A) before the completion of the transfer, the licensee contacts the national instant criminal background check system established under section 3 of such Act;

"(B) the system notifies the licensee that the system has not located any record that demonstrates that the receipt of a firearm by such other person would violate subsection (g) or (n) of this section or any State or local law; and

"(C) the transferor has verified the identity of the transferee by examining a valid identification document (as defined in section 1028(d)(1) of this title) of the transferee containing a photograph of the transferee.

"(2) Paragraph (1) shall not apply to a firearm transfer between a licensee and another person if—

"(A)(i) such other person has presented to the licensee a permit that—

"(I) allows such other person to possess a firearm; and

"(II) was issued not more than 5 years earlier by the State in which the transfer is to take place; and

"(ii) the law of the State provides that such a permit is to be issued only after an authorized government official has verified that the information available to such official does not indicate that possession of a firearm by such other person would be in violation of law;

"(B) the Secretary has approved the transfer under section 5812 of the Internal Revenue Code of 1986; or

"(C) on application of the transferor, the Secretary has certified that compliance with paragraph (1)(A) is impracticable because—

"(i) the ratio of the number of law enforcement officers of the State in which the transfer is to occur to the number of square miles of land area of the State does not exceed 0.0025;

"(ii) the business premises of the licensee at which the transfer is to occur are extremely remote in relation to the chief law enforcement officer (as defined in subsection (s)(8)); and

"(iii) there is an absence of telecommunications facilities in the geographical area in which the business premises are located.

"(3) If the national instant criminal background check system notifies the licensee that the information available to the system does not demonstrate that the receipt of a firearm by such other person would violate subsection (g) or (n), and the licensee transfers a firearm to such other person, the licensee shall include in the record of the transfer the unique identification number provided by the system with respect to the transfer.

"(4) In addition to the authority provided under section 923(e), if the licensee knowingly transfers a firearm to such other person and knowingly fails to comply with paragraph (1) of this subsection with respect to the transfer and, at the time such other person most recently proposed the transfer, the national instant criminal background check system was operating and information was available to the system demonstrating that receipt of a firearm by such other person would violate subsection (g) or (n) of this section, the Secretary may, after notice and opportunity for a hearing, suspend for not more than 6 months or revoke any license issued to the licensee under section 923, and may impose on the licensee a civil fine of not more than \$5,000.

"(5) Neither a local government nor an employee of the Federal Government or of any State or local government, responsible for providing information to the national instant criminal background check system shall be liable in an action at law for damages—

"(A) for failure to prevent the sale or transfer of a handgun to a person whose receipt or possession of the handgun is unlawful under this section; or

"(B) for preventing such a sale or transfer to a person who may lawfully receive or possess a handgun."

(c) **PENALTY.**—Section 924(a) of title 18, United States Code, is amended—

(1) in paragraph (1), by striking "paragraph (2) or (3) of"; and

(2) by adding at the end the following:

"(5) Whoever knowingly violates subsection (s) or (t) of section 922 shall be fined not more than \$1,000, imprisoned for not more than 1 year, or both."

SEC. 3. NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM.

(a) **ESTABLISHMENT OF SYSTEM.**—The Attorney General of the United States shall establish a national instant criminal background check

system that any licensee may contact for information on whether receipt of a firearm by a prospective transferee thereof would violate subsection (g) or (n) of section 922 of title 18, United States Code, or any State or local law.

(b) **EXPEDITED ACTION BY THE ATTORNEY GENERAL.**—The Attorney General shall expedite—

(1) the upgrading and indexing of State criminal history records in the Federal criminal records system maintained by the Federal Bureau of Investigation;

(2) the development of hardware and software systems to link State criminal history check systems into the national instant criminal background check system established by the Attorney General pursuant to this section; and

(3) the current revitalization initiatives by the Federal Bureau of Investigation for technologically advanced fingerprint and criminal records identification.

(c) **PROVISION OF STATE CRIMINAL RECORDS TO THE NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM.**—(1) Not later than 6 months after the date of enactment of this Act, the Attorney General shall—

(A) determine the type of computer hardware and software that will be used to operate the national instant criminal background check system and the means by which State criminal records systems will communicate with the national system, which shall be based upon the Interstate Identification Index ("III") unless the Attorney General finds that the III will not provide a satisfactory basis for the national instant criminal background check system;

(B) investigate the criminal records system of each State and determine for each State a timetable by which the State should be able to provide criminal records on an on line capacity basis to the national system; and

(C) notify each State of the determinations made pursuant to subparagraphs (A) and (B).

(2) The Attorney General shall require as a part of the State timetable that the State achieve, by the end of 5 years after the date of enactment of this Act, at least 80 percent currency of case dispositions in computerized criminal history files for all cases in which there has been an event of activity within the last 5 years and continue to maintain such a system.

(d) **NATIONAL SYSTEM CERTIFICATION.**—(1) On the date that is 30 months after the date of enactment of this Act, and at any time thereafter, the Attorney General shall determine whether—

(A) the national system has achieved at least 80 percent currency of case dispositions in computerized criminal history files for all cases in which there has been an event of activity within the last 5 years on a national average basis; and

(B) the States are in compliance with the timetable established pursuant to subsection (c), and, if so, shall certify that the national system is established.

(2) If, on the date of certification in paragraph (1) of this subsection, a State is not in compliance with the timetable established pursuant to subsection (c) of this section, section 922(s) of title 18, United States Code, shall remain in effect in such State and section 922(t) of such title shall not apply to the State. The Attorney General shall certify if a State subject to the provisions of section 922(s) under the preceding sentence achieves compliance with its timetable after the date of certification in paragraph (1) of this subsection, and section 922(s) of title 18, United States Code, shall not apply to such State and section 922(t) of such title shall apply to the State.

(3) Six years after the date of enactment of this Act, the Attorney General shall certify whether or not a State is in compliance with subsection (c)(2) of this section and if the State is not in compliance, section 922(s) of title 18, United States Code, shall apply to the State and

section 922(t) of such title shall not apply to the State. The Attorney General shall certify if a State subject to the provisions of section 922(s) under the preceding sentence achieves compliance with the standards in subsection (c)(2) of this section, and section 922(s) of title 18, United States Code, shall not apply to the State and section 922(t) of such title shall apply to the State.

(e) **NOTIFICATION OF LICENSEES.**—On establishment of the system under this section, the Attorney General shall notify each licensee and the chief law enforcement officer of each State of the existence and purpose of the system and the means to be used to contact the system.

(f) **ADMINISTRATIVE PROVISIONS.**—

(1) **AUTHORITY TO OBTAIN OFFICIAL INFORMATION.**—Notwithstanding any other law, the Attorney General may secure directly from any department or agency of the United States such information on persons for whom receipt of a firearm would violate subsection (g) or (n) of section 922 of title 18, United States Code, or any State or local law, as is necessary to enable the system to operate in accordance with this section. On request of the Attorney General, the head of such department or agency shall furnish such information to the system.

(2) **OTHER AUTHORITY.**—The Attorney General shall develop such computer software, design and obtain such telecommunications and computer hardware, and employ such personnel, as are necessary to establish and operate the system in accordance with this section.

(g) **CORRECTION OF ERRONEOUS SYSTEM INFORMATION.**—If the system established under this section informs an individual contacting the system that receipt of a firearm by a prospective transferee would violate subsection (g) or (n) of section 922 of title 18, United States Code, or any State or local law, the prospective transferee may request the Attorney General to provide the prospective transferee with the reasons therefor. Upon receipt of such a request, the Attorney General shall immediately comply with the request. The prospective transferee may submit to the Attorney General information to correct, clarify, or supplement records of the system with respect to the prospective transferee. After receipt of such information, the Attorney General shall immediately consider the information, investigate the matter further, and correct all erroneous Federal records relating to the prospective transferee and give notice of the error to any Federal department or agency or any State that was the source of such erroneous records.

(h) **REGULATIONS.**—After 90 days notice to the public and an opportunity for hearing by interested parties, the Attorney General shall prescribe regulations to ensure the privacy and security of the information of the system established under this section.

(i) **PROHIBITIONS RELATING TO ESTABLISHMENT OF REGISTRATION SYSTEMS WITH RESPECT TO FIREARMS.**—No department, agency, officer, or employee of the United States may—

(1) require that any record or portion thereof maintained by the system established under this section be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or political subdivision thereof; or

(2) use the system established under this section to establish any system for the registration of firearms, firearm owners, or firearm transactions or dispositions, except with respect to persons prohibited by section 922 (g) or (n) of title 18, United States Code, from receiving a firearm.

(j) **DEFINITIONS.**—As used in this section:

(1) **LICENSEE.**—The term "licensee" means a licensed importer, licensed manufacturer, or licensed dealer under section 923 of title 18, United States Code.

(2) **OTHER TERMS.**—The terms "firearm", "licensed importer", "licensed manufacturer", and "licensed dealer" have the meanings stated in section 921(a) (3), (9), (10), and (11), respectively, of title 18, United States Code.

SEC. 4. REMEDY FOR ERRONEOUS DENIAL OF HANDGUN.

(a) **IN GENERAL.**—Chapter 44 of title 18, United States Code, is amended by inserting after section 925 the following:

"§925A. Remedy for erroneous denial of handgun

"Any person who is denied a handgun pursuant to section 922(s) of this title due to the provision of erroneous information relating to the person by any State or political subdivision thereof, or by the national instant criminal background check system established under section 3(a) of the Brady Handgun Violence Prevention Act, and who has exhausted the administrative remedies available for the correction of such erroneous information, may bring an action against any official of the State or political subdivision responsible for providing the erroneous information, or against the United States, as the case may be, for an order directing that the erroneous information be corrected. In any action under this section, the court, in its discretion, may allow the prevailing party a reasonable attorney's fee as part of the costs."

(b) **CLERICAL AMENDMENT.**—The table of sections for such chapter is amended by inserting after the item relating to section 925 the following:

"925A. Remedy for erroneous denial of handgun."

SEC. 5. FUNDING FOR IMPROVEMENT OF CRIMINAL RECORDS.

(a) **IMPROVEMENTS IN STATE RECORDS.**—

(1) **USE OF FORMULA GRANTS.**—Section 509(b) of title 1 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3759(b)) is amended—

(A) in paragraph (2) by striking "and" after the semicolon;

(B) in paragraph (3) by striking the period and inserting "and"; and

(C) by adding at the end the following new paragraph:

"(4) the improvement of State record systems and the sharing with the Attorney General of all of the records described in paragraphs (1), (2), and (3) of this subsection and the records required by the Attorney General under section 3 of the Brady Handgun Violence Prevention Act, for the purpose of implementing such Act."

(2) **ADDITIONAL FUNDING.**—

(A) **GRANTS FOR THE IMPROVEMENT OF CRIMINAL RECORDS.**—The Attorney General, through the Bureau of Justice Statistics, shall, subject to appropriations and with preference to States that as of the date of enactment of this Act have the lowest percent currency of case dispositions in computerized criminal history files, make a grant to each State to be used—

(i) for the creation of a computerized criminal history record system or improvement of an existing system;

(ii) to improve accessibility to the national instant criminal background system; and

(iii) upon establishment of the national system, to assist the State in the transmittal of criminal records to the national system.

(B) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated for grants under subparagraph (A) a total of \$100,000,000 for fiscal year 1992 and all fiscal years thereafter.

(b) **WITHHOLDING STATE FUNDS.**—Effective on the date of enactment of this Act the Attorney General may reduce by up to 50 percent the allocation to a State for a fiscal year under title 1 of the Omnibus Crime Control and Safe Streets Act of 1968 of a State that is not in compliance

with the timetable established for such State under section 3(c) of this Act.

(c) **WITHHOLDING OF DEPARTMENT OF JUSTICE FUNDS.**—If the Attorney General does not certify the national instant criminal background check system pursuant to section 3(d)(1) by—

(1) 30 months after the date of enactment of this Act the general administrative funds appropriated to the Department of Justice for the fiscal year beginning in the calendar year in which the date that is 30 months after the date of enactment of this Act falls shall be reduced by 5 percent on a monthly basis; and

(2) 42 months after the date of enactment of this Act the general administrative funds appropriated to the Department of Justice for the fiscal year beginning in the calendar year in which the date that is 42 months after the date of enactment of this Act falls shall be reduced by 10 percent on a monthly basis.

The CHAIRMAN. No amendment to the substitute, as modified, is in order except the amendments printed in part 2 of House Report 103-341. Each amendment may be offered only by a Member designated in the report, shall be considered as read, is not subject to amendment, and is not subject to a demand for a division of the question.

Debate time on each amendment will be equally divided and controlled by the proponent and an opponent of the amendment.

It is now in order to consider Amendment No. 1 printed in part 2 of House Report 103-341.

AMENDMENT OFFERED BY MR. RAMSTAD

Mr. RAMSTAD. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. RAMSTAD: In paragraph (6) of the matter proposed to be added by section 2(a)(1) of the Committee amendment, add at the end the following:

"(C) If a chief law enforcement officer determines that an individual is ineligible to receive a handgun and the individual requests the officer to provide the reasons for the determination, the officer shall provide such reasons to the individual within 20 business days after receipt of the request."

The CHAIRMAN. Pursuant to the rule, the gentleman from Minnesota [Mr. RAMSTAD] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. RAMSTAD].

Mr. RAMSTAD. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I would first like to thank Chairman SCHUMER of the Crime and Criminal Justice Subcommittee for working with me on this amendment. I am also pleased that he and Chairman BROOKS have agreed to consider my amendment as a friendly amendment to H.R. 1025, the Brady bill.

Mr. Chairman, my amendment is very straightforward. It states that if a person is determined to be ineligible to purchase a handgun during the bill's 5-day waiting period, that individual

may request and receive the reasons for this determination, within 20 business days from local law enforcement.

Both the Fraternal Order of Police and the National Association of Police Organizations have agreed that 20 business days allow adequate time for local law enforcement to research felony convictions and other history and provide reasons for denial of a handgun purchase.

This amendment would also make the bill's interim provision—the waiting period—consistent with its permanent provision, the national instant-background check system.

Under the current bill's section entitled "Correction of Erroneous System Information," an individual may request reasons for denial of a firearm by the instant check system. But there is no comparable provision while the waiting period is in effect.

Mr. Chairman, all this amendment does is rectify this discrepancy. Again, I sincerely thank Chairman BROOKS, Chairman SCHUMER and Members on both sides of the aisle for their bipartisan support of it.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. Does any Member seek recognition in opposition to the amendment?

Mr. BROOKS. Mr. Chairman, although I am not in opposition, I ask unanimous consent to control the time on this side on the amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BROOKS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in strong support of the amendment offered by the gentleman from Minnesota.

Mr. Chairman, in our American system of justice, the Federal Government is constrained under our Constitution and under our laws from exercising its powers with a heavy hand. Rather, each person in this country has a right to due process of law. Yet, as this bill is written, a person can be denied the right to make a lawful handgun purchase—without any cause, and without any explanation.

What could be more fundamental to due process than to require the Government to tell you why you cannot exercise a right that is being exercised by others every day?

This amendment is even more modest than that. With the burden placed on the person—not the Government—it only applies if the affected person makes a request of the Government official.

This amendment is a small—but absolutely necessary—effort to uphold the tradition of this House in defending our constitutional right of due process. Every year, we take to this floor to guard against any possible encroach-

ment of due process rights for this group or that group of Americans. We do so not for the group involved, but for the principle at stake. We should do no less now.

I understand this amendment is agreeable to both sides, and I strongly urge its adoption.

Mr. Chairman, I yield such time as he may consume to the gentleman from New York [Mr. SCHUMER].

Mr. SCHUMER. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I want to commend the gentleman from Minnesota [Mr. RAMSTAD] on this amendment. I have had some reservations about it, but I think we have worked an agreement out that seems to me to be fair.

Mr. Chairman, it seems to me that when somebody gets a criminal record and are told they are not allowed to have a gun, they ought to be able to be told the reason why. Therefore, it is a good amendment. It allows for followups with local police departments, but it does not put any unreasonable or unfeasible restrictions on them.

Mr. Chairman, the gentleman from Minnesota [Mr. RAMSTAD] has been fair in working with me on this amendment. I congratulate the gentleman and urge its adoption.

Mr. RAMSTAD. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I wish to again thank the gentleman from New York [Mr. SCHUMER]. The gentleman proves we can work in this body in a bipartisan way to craft responsible legislation, and I commend him for that.

Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. BROOKS. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Minnesota [Mr. RAMSTAD].

The question was taken; and the chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. SCHUMER. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 431, noes 2, not voting 5, as follows:

NOES—2

Moran Nadler

NOT VOTING—5

Bartlett	Romero-Barcelo
Brown (CA)	(PR)
Moakley	Underwood (GU)

□ 1306

Mr. KLEIN changed his vote from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 2 printed in part 2 of House Report 103-341.

AMENDMENT OFFERED BY MR. GEKAS

Mr. GEKAS. Mr. Chairman, I offer an amendment.

The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. GEKAS: In paragraph (1) of the matter proposed to be added by section 2(a)(1) of the Committee amendment, strike "the Attorney General" and all that follows through "section," and insert "is 60 months after such date of enactment".

In paragraph (1)(D) of the matter proposed to be added by section 2(a)(1) of the Committee amendment, strike "except" and all that follows through "Act".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, insert "is 30 days after" before "the Attorney".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "certifies under section 3(d)(1)" and insert "notifies licensees under section 3(e)".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "(except as provided in paragraphs (2) and (3) such section)".

In paragraph (1)(B) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "(B)" and all that follows through "firearm" and insert the following:

"(B)(1) the system provides the licensee with a unique identification number; or

"(1) 1 business day (as defined in subsection (s)(8)(B)) has elapsed since the end of the business day on which the licensee contacted the system, and the system has not notified the licensee that the receipt of the handgun.

In section 3(a) of the Committee amendment, strike "The" and insert "Not later than 60 months after the date of the enactment of this Act, the".

In section 3(c) of the Committee amendment—

(1) strike "(1)";

(2) strike "(A) determine" and insert "(1) determine";

(3) strike "(B) investigate" and insert "(2) investigate";

(4) strike "(C) notify" and insert "(3) notify";

(5) strike "subparagraphs (A) and (B)" and insert "paragraphs (1) and (2)"; and

(6) strike paragraph (2).

In section 3 of the Committee amendment, strike subsection (d) and insert the following:

(d) OPERATION OF THE SYSTEM.—

(1) GENERAL RULE.—If a licensee contacts the national instant criminal background check system with respect to a firearm transfer, the system shall, during the contact or by return contact without delay—

(A) review available criminal history records to determine whether receipt of a firearm by the prospective transfer would violate subsection (g) or (n) of section 922 of title 18, United States Code, or any State or local law; and

(B)(i) if the receipt would not be such a violation—

(I) assign a unique identification number to the transfer;

(II) provide the licensee with the identification number; and

(III) immediately destroy all records of the system with respect to the contact (other than the identification number and the date the number was assigned) and all records of the system relating to the transferee or the transfer or derived therefrom; or

(ii) if the receipt would be such a violation—

(I) notify the licensee that the receipt would be such a violation; and

(II) maintain the records created by the system with respect to the proposed transfer.

(2) SPECIAL RULE.—If a licensee contacts the national instant criminal background check system with respect to a firearm transfer and the system is unable to comply with paragraph (1) during the contact or by return contact without delay, then the system shall comply with paragraph (1) not later than the end of the next business day.

In section 4(a) of the Committee amendment—

(1) strike all that precedes "Section 509(b)" and insert "(a) USE OF FORMULA GRANTS.—";

(2) strike "(A) in" and insert "(1) in";

(3) strike "(B) in" and insert "(2) in";

(4) strike "(C) by" and insert "(3) by";

(5) strike "(2) ADDITIONAL FUNDING" and insert "(b) ADDITIONAL FUNDING";

(6) strike "(A) GRANTS" and insert "(1) GRANTS";

(7) strike "(1)" and insert "(A)";

(8) strike "(11)" and insert "(B)";

(9) strike "(111)" and insert "(C)";

(10) strike "(B) AUTHORIZATION" and insert "(2) AUTHORIZATION"; and

(11) strike "subparagraph (A)" and insert "paragraph (1)".

In section 4 of the Committee amendment, strike subsection (b).

The CHAIRMAN. Pursuant to the rule, the gentleman from Pennsylvania [Mr. GEKAS] will be recognized for 25 minutes, and a Member opposed to the amendment will be recognized for 25 minutes.

Mr. SCHUMER. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from New York [Mr. SCHUMER] will be recognized for 25 minutes.

Mr. GEKAS. Mr. Chairman, I ask unanimous consent that the amendment we are now considering be considered as conforming to the amendment at the desk.

The CHAIRMAN. The gentleman from Pennsylvania [Mr. GEKAS] will state his request to the Chair again.

Mr. GEKAS. Mr. Chairman, I ask unanimous consent that the amendment that we are about to consider be considered as conforming to the amendment that is at the desk.

□ 1310

The CHAIRMAN. The only form that is in possession of the Chair is the form printed in the report.

Mr. GEKAS. That is correct. The problem is that there was some technical error that was reported to us by the Parliamentarian's office that requires us to consider the amendment as the one that is now at the desk rather than the one that we have in our possession. It is only a question of clause B or clause D or some technicality like that.

The CHAIRMAN. The Chair does not have any modification along those lines. We will proceed with the debate and consider the gentleman's technical changes later in the proceedings.

Mr. SCHUMER. Mr. Chairman, I have been consulted by the gentleman as to what the change was, but I would like to see what it is at the desk and hear what is read before it is approved.

The CHAIRMAN. We will proceed with the debate time presently.

The gentleman from Pennsylvania [Mr. GEKAS] will be recognized for 25 minutes, and the gentleman from New York [Mr. SCHUMER] will be recognized for 25 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. GEKAS].

Mr. GEKAS. Mr. Chairman, I yield myself as much time as I may consume.

Mr. Chairman, as I outlined in the debate on the rule, the amendment that we, now place before Members is one that can and should bring us together. That is, the opponents of the Brady bill or any waiting period should support this measure because it brings into play, at long last, as a mandate, the instant check. The supporters of the Brady bill and the waiting period that it inculcates should support my amendment because it brings to the floor and brings to the American people that which the proponents themselves have said is the ultimate in

background check, namely the instant check. As a matter of fact, the proponents of the Brady waiting period, as outlined in the bill, take pains to emphasize that that is the gist of this bill, the heart and soul of this bill, the instant check, and then they relegate the waiting period to a temporary concept that should not go into effect until we can get the perfect instant check that we all desire, and the goal for which we are have made statements, make that a possibility nationwide.

So what are we talking about here? If my amendment is adopted, we will have a 5-day waiting period that the Brady bill in its concept claims. Then we have a time certain, 60 months, within which the instant check system must go into effect. That is every little to ask by way of a mandate when you consider that in committee and in conversation among people interested in this issue, many of us felt that 30 months would have been enough, and in conversations I had with the chairman of the full committee, the gentleman from Texas, Mr. BROOKS, we felt that maybe 48 months would be sufficient at one point.

Now we are making it foolproof. There is no reason under the Sun, when considering all of the technology that we have at our disposal, that we cannot put into effect a high-charged instant check system by which background checks can be made on potential purchasers of handguns. Sixty months, a mandate, reasonable.

We ask Members to accept this amendment in the spirit of bringing the sides together and making instant check work, not to leave the instant check illusory and atmospheric as it is now in the Brady bill.

The Brady bill now, if we leave it untouched, if we do not amend it through amendment, would say the waiting period will evaporate when and if some day in the next century perhaps when the instant check might come into effect. No Attorney General has the mandate unless you adopt my amendment.

Mr. Chairman, I reserve the balance of my time.

MODIFICATION TO AMENDMENT OFFERED BY MR. GEKAS

The CHAIRMAN. The Chair has now been informed of the modification the gentleman originally referenced in his opening unanimous-consent request.

The Clerk will report the modification.

The Clerk read as follows:

Modification to the amendment offered by Mr. GEKAS: In the last two references to section 4 of the committee amendment change the reference to section 5.

The CHAIRMAN. Is there objection to the request of the gentleman from Pennsylvania that the amendment be modified?

There was no objection.

Amendment, as modified, offered by Mr. GEKAS: In paragraph (1) of the matter pro-

posed to be added by section 2(a)(1) of the Committee amendment, strike "the Attorney General" and all that follows through "section)," and insert "is 60 months after such date of enactment".

In paragraph (1)(D) of the matter proposed to be added by section 2(a)(1) of the Committee amendment, strike " , except" and all that follows through "Act".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, insert "is 30 days after" before "the Attorney".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "certifies under section 3(d)(1)" and insert "notifies licensees under section 3(e)".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "(except as provided in paragraphs (2) and (3) of such section)".

In paragraph (1)(B) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "(B)" and all that follows through "firearm" and insert the following:

"(B)(1) the system provides the licensee with a unique identification number; or

"(1) 1 business day (as defined in subsection (s)(8)(B)) has elapsed since the end of the business day on which the licensee contacted the system, and the system has not notified the licensee that the receipt of the handgun".

In section 3(a) of the Committee amendment, strike "The" and insert "Not later than 60 months after the date of the enactment of this Act, the".

In section 3(c) of the Committee amendment—

(1) strike "(1)";

(2) strike "(A) determine" and insert "(1) determine".

(3) strike "(B) investigate" and insert "(2) investigate";

(4) strike "(C) notify" and insert "(3) notify";

(5) strike "subparagraphs (A) and (B)" and insert "paragraphs (1) and (2)"; and

(6) strike paragraph (2).

In section 3 of the Committee amendment, strike subsection (d) and insert the following:

(d) OPERATION OF THE SYSTEM.—

(1) GENERAL RULE.—If a licensee contacts the national instant criminal background check system with respect to a firearm transfer, the system shall, during the contact or by return contact without delay—

(A) review available criminal history records to determine whether receipt of a firearm by the prospective transferee would violate subsection (g) or (n) of section 922 of title 18, United States Code, or any State or local law; and

(B)(1) if the receipt would not be such a violation—

(I) assign a unique identification number to the transfer;

(II) provide the licensee with the identification number; and

(III) immediately destroy all records of the system with respect to the contact (other than the identification number and the date the number was assigned) and all records of the system relating to the transferee or the transfer or derived therefrom; or

(1) if the receipt would be such a violation—

(I) notify the licensee that the receipt would be such a violation; and

(II) maintain the records created by the system with respect to the proposed transfer.

(2) SPECIAL RULE.—If a licensee contacts the national instant criminal background

check system with respect to a firearm transfer and the system is unable to comply with paragraph (1) during the contact or by return contact without delay, then the system shall comply with paragraph (1) not later than the end of the next business day.

In section 5(a) of the Committee amendment—

(1) strike all that precedes "Section 509(b)" and insert "(a) USE OF FORMULA GRANTS.—";

(2) strike "(A) in" and insert "(1) in";

(3) strike "(B) in" and insert "(2) in";

(4) strike "(C) by" and insert "(3) by";

(5) strike "(2) ADDITIONAL FUNDING" and insert "(b) ADDITIONAL FUNDING";

(6) strike "(A) GRANTS" and insert "(1) GRANTS";

(7) Strike "(i)" and insert "(A)";

(8) Strike "(ii)" and insert "(B)";

(9) Strike "(iii)" and insert "(C)";

(10) Strike "(B) AUTHORIZATION" and insert "(2) AUTHORIZATION"; and

(11) strike "subparagraph (A)" and insert "paragraph (1)".

In section 5 of the Committee amendment, strike subsection (b).

Mr. SHUMER. Mr. Chairman, I yield 2½ minutes to the gentleman from Oklahoma [Mr. SYNAR] a distinguished member of the committee in opposition.

Mr. SYNAR. Let us be honest with ourselves and with the American people. This amendment, which would sunset the 5-day waiting period after 5 years, is being supported by those who would prefer to have no 5-day waiting period altogether. This is simply a very clever attempt to derail the 5-day waiting period.

There are two simple facts. The first is that the Brady bill legislation already has a very reasoned scheduled flexible provision with respect to sunset. When the instant check is up and running, the 5-day waiting period expires.

Second, the 5-day waiting period works. Whether you live in rural or urban America, across this country we have seen success with waiting periods. In California in 1991 and 1992 literally thousands of guns were not on the market because of the waiting period. In Atlanta, Illinois, Delaware, Maryland, Nebraska, New Jersey, and Oregon, the success is there. In Palm Beach County, FL, in 1985 we had a 60-percent dropoff in homicides because of the waiting period.

This amendment flies in the face of those two simple facts. Using the common sense in this amendment, it is like one who quits giving CPR emergency help to a heart attack victim after 5 minutes, regardless of recovery, or regardless of whether the paramedics have arrived.

The Brady bill was introduced in 1987. Six long murderous years have passed. One hundred and fifty thousand of our best and brightest citizens have been killed by handguns since it was first introduced. This is three times the number of casualties in Vietnam.

Law enforcement across the country, an overwhelming majority of our fellow citizens, and a growing majority of

our gun owners agree that reasoned gun legislation such as the Brady bill is long overdue. Let us stay the course. Let us answer the call. Let us pass the Brady bill unamended.

Today's vote on the Brady handgun bill is long overdue. Since the Brady bill was first introduced in 1987, 150,000 people have been killed by handguns. That's almost 3 times the number of United States casualties in the Vietnam war. That war was ended by one of the most aggressive protest movements in our Nation's history. Sadly, however, while the vast majority of our Nation wants real progress in the war on illegal handgun use we now rely on a patchwork of various State laws, plenty of cheap rhetoric and very little leadership from our Federal Government. Today's vote gives the House of Representatives a real chance to stem the violence on our streets and calm the fear of our citizens.

Anyone who argues that the 5-day waiting period in the bill won't work hasn't looked at the facts. California has a 15-day waiting period that, according to the California Department of Justice, Firearm Program, Criminal Information and Analysis Bureau stopped 5,859 prohibited firearm sales during 1991 and 5,763 during 1992. Those stopped from buying guns since 1991 include: 71 convicted of homicide; 14 convicted of kidnaping; 141 under restraining order for domestic violence; 203 convicted of sex crimes; 537 found to be under age; 884 convicted of burglary or robbery; 1,283 convicted of dangerous drug offenses; and 5,772 convicted of assaults.

Similar results have been recorded in Atlanta, GA (15-day waiting period), Illinois, Delaware, Maryland, Nebraska, New Jersey, Oregon. In Palm Beach County, FL police attributed a 60-percent drop in homicides in 1985 to a waiting period enacted in 1984.

This past spring the Department of Justice Bureau of Justice Statistics did a survey of State prison inmate characteristics. That study found that 46 percent of the inmates who had committed a violent crime used a weapon. In the cases where a weapon was used, 24 percent used handguns, 11 percent used a knife and 6 percent used a rifle, shotgun or assault weapon. The study also found that of those prisoners who had ever possessed a handgun, 27 percent had purchased the gun from a retail outlet. Those that argue that criminals get their guns illegally ignore the facts. The Justice survey shows that more than a quarter of all criminals walk into a gun store to buy their gun. This bill will make it harder for criminals to get guns, period.

Because this bill makes it tougher for criminals to get guns, illegal handgun use will be reduced—it's just that simple. That's why I can't understand those who want to sunset the waiting period in 5 years, whether or not the instant-check system is in place. That's like saying you should stop giving emergency CPR to a heart attack victim after 5 minutes, regardless of whether the victim has recovered or the paramedics have arrived.

The bill as drafted already phases out the waiting period when an instant-check system is up and running. In addition, the bill includes a specific timetable for developing State instant-check systems with penalties against the States and the Justice Department if time-

tables aren't met. But the bill does not, and must not, phase out the 5-day waiting period before the instant check system is in place. If instant check isn't in place, and the bill sunsets, criminals will once again be able to buy guns without a background check. That will put more guns in the hands of criminals and that's unacceptable.

The time for debating the Brady bill is over. The majority of the country agrees that the Brady bill is a solid, commonsense approach to ending violence by denying guns to criminals. Let's pass this bill and get on with the business of saving lives.

Mr. GEKAS. Mr. Chairman, I yield 2½ minutes to the distinguished gentleman from Texas [Mr. Brooks], chairman of the full Committee on the Judiciary.

Mr. BROOKS. Mr. Chairman, I thank the gentleman for yielding the time.

Mr. Chairman, I rise in support of the amendment offered by the gentleman from Pennsylvania.

A national instant background check system has been in the works now since 1988, when the Anti-Drug Abuse Act was adopted by the Congress and enacted into law.

Five years have passed since the enactment of that law, and we still see no instant background check system on the horizon—even in the face of the technological revolution that has occurred in this country during those years. Minnesota-built Cray supercomputers run our worldwide nuclear detection system; and yet, we still can't seem to develop a computer system to keep track of a few felons in the 50 states. I might add it took the wonderful Commonwealth of Virginia less than a year to bring its instant background check on line.

If a national instant background check system cannot be put into place in the next 5 years, it is never going to be put into place. We should not be here misleading the American people by pretending otherwise. While the national instant check system is touted as a "central premise" of the bill in its current form, it is a premise with no teeth at all.

As I said earlier during general debate, acceptance of this amendment will be proof positive that there is a real commitment to implement the instant background check in H.R. 1025.

Not having a time certain for implementation of a national instant background check system actually serves as a disincentive to ever getting it in place. If in 3 years, 4 years, or 5 years, there's still no such system, Congress can always take action. But to duck the issue now is utterly irresponsible. This amendment establishes a time certain and demonstrates that we are keeping our good faith with the American people. I strongly urge its adoption.

□ 1320

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the distinguished

gentleman from Ohio [Mr. OXLEY], in opposition to the Gekas amendment.

Mr. OXLEY. Mr. Chairman, I rise in opposition to the amendment, not necessarily because it is such a bad amendment, because I think the gentleman from Pennsylvania [Mr. GEKAS] has a good idea here. I am just concerned that by setting an artificial deadline as he does, that it does not recognize the ability of some States or the inability of some States to put together the kind of records that they need to in that period of time.

I had my office check with the FBI. The FBI told us that under the very best of circumstances they might be able to put together this national system within that time period but everything would have to happen exactly right. I think the way the bill is crafted makes good sense. That is, it essentially phases out the waiting period when each State is able to incorporate and put together the information as well as the technology to do this.

Now, the technology clearly is there. No one would argue with that. But the fact is that a lot of States' records are a horrible mess and it is going to take a long time for them to put that together.

Indeed the information in the NCIC computer is meaningless unless the information is correct and up to date.

That is why I think it is important that we reject the Gekas amendment. I like the idea of putting some pressure on to get the records done, but I am not sure that by setting this deadline we do that and accomplish the mission that we want to accomplish.

So I would say I just, on balance, think the Gekas amendment puts a stranglehold on the ability of the FBI and other law enforcement officials and State officials to get the information necessary.

Mr. Chairman, we had this, if you will recall, those Members who were here before, with the Staggers amendment, which in many ways was an effort to derail the potential for a 5-day waiting period, as well as phasing in this point-of-sale check. This is essentially Staggers-II, and I think it is a wrongheaded approach, even though I respect the gentleman from Pennsylvania.

Mr. GEKAS. Mr. Chairman, I yield 2 minutes to the gentleman from Virginia [Mr. GOODLATTE].

Mr. GOODLATTE. I thank the gentleman for yielding this time to me.

Mr. Chairman, this is a bad bill that does not do anything effective to keep weapons out of the hands of criminals, but burdens law-abiding citizens. But this is a reasonable and essential amendment which guarantees we will have a national instant check system in 5 years. We could have this in place in 30 months or sooner if we resolve to do so, but we certainly must do it within 5 years.

Mr. Chairman, as written, H.R. 1025 gives the Attorney General unfettered discretion to maintain the waiting period forever and there will be pressure from waiting period advocates to do just that.

The national instant check is the only system that will keep guns out of the hands of criminals and protect the rights of lawabiding citizens. That is why we must guarantee that it is in effect within 5 years.

Five years is a more than adequate amount of time to complete work on the FBI instant record retrieval system. Remember, the FBI has been working on its system for 5 years already and Congress has appropriated considerable amounts for that task.

Instant check has been proven to work in five States, including my State of Virginia, Virginia, Delaware, Florida, Illinois, and Wisconsin now successfully operate point-of-sale background check systems which they implemented in less than 1 year's time and at relatively modest cost.

To date the Virginia system has processed over one-half million transactions and has denied over 5,500 purchases. In addition, 318 wanted felons were identified because of the check. Clearly the system is doing what it is intended to do.

My question is, Why wait when the technology for instant check is available? I urge my colleagues to support this reasonable amendment.

Mr. SCHUMER. Mr. Chairman, I yield 2½ minutes to the distinguished gentleman from Georgia [Mr. LEWIS].

Mr. LEWIS of Georgia. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise to support the Brady bill and to oppose the Gekas amendment.

The Brady bill is a first step down the long road toward stopping the proliferation of handguns. It is a step toward ending the violence that is sweeping our country. It is a step we must take.

We have seen too many tragic deaths in Atlanta, here in Washington, throughout the Nation. I have been to too many funerals of the very young, of police officers, and the many others who have been killed by guns. We must act to stop the bloodshed, to stop the killing.

Throughout our Nation, the homicide rate has reached an all-time high. Gun violence is increasing and something has to be done.

As lawmakers, we have a responsibility to stop the killing. Law enforcement officers around the country, the people who must deal with the guns, the violence, the deaths, law enforcement officers agree, passing the Brady bill will help stop the violence.

The Gekas amendment could have us get rid of the waiting period before the instant-check system is in place. It could have us go back to selling guns

to people without checking to see if they are criminals, or insane.

I ask my colleagues, is 5 days too long to wait to ensure that we are not arming the violent? Is 5 days too long to wait to save lives? To ensure that innocent children are not shot?

Let me say to my colleagues that it is time to stop the violence. It is time to stop the killing to save lives. It is time to give people time to cool off. Do not sunset the Brady bill. Support the Brady bill. Oppose the Gekas amendment.

Mr. GEKAS. Mr. Chairman, I yield 2 minutes to the gentleman from Georgia [Mr. BISHOP].

Mr. BISHOP. Mr. Chairman, I rise in support of the Gekas amendment. Those who champion the Brady bill tell us they want to stop illegal handgun sales. If that is the case, the best way to achieve this goal would be by scrapping the interim waiting period in favor of immediate implementation of a national point-of-sale screening system. This amendment requires it within 5 years.

We all agree there is limited utility in screening retail handgun purchasers because, according to the Justice Department, the vast majority of criminals do not attempt to purchase firearms at retail outlets. But to the extent such a system is worthwhile, a point-of-purchase check best meets this goal. That is why it is absolutely necessary that a time certain for the actual on-line implementation of such a system be designated.

There are no enforceable standards in the Brady bill with regard to timetables, goals, or penalties. The bill essentially leaves the implementation to the discretion of the Attorney General. Further, it provides no funding to local law enforcement to pay for the interim mandatory background checks, mandates without funding.

Penalties will ostensibly be levied against the Department of Justice's monthly administrative fees.

□ 1330

A strong case can be made that the ability of Congress to rescind funds appropriated by one Congress if standards imposed by this bill are not met in a subsequent Congress, is constitutionally prohibited.

There are about 2½ million new handgun purchases yearly, as compared to 70 million plus credit care checks, which are conducted each month. The notion that adequate technology exists to prevent shoppers from overcharging their credit cards, but does not exist to check the identification of a handgun purchaser against a list of existing criminal records, is absurd.

The fact is, all background checks are exactly the same. They use the same information data. That is the FBI Interstate Identification Index, which is the base on which we should be rely-

ing and which is currently being used for exactly this purpose.

At this point, the best public policy result is to set the date to implement the same system on a national and uniform basis. If we can check credit card purchases instantaneously, if we can have our policemen check driving records instantaneously, then certainly we can check criminal histories instantaneously.

Support the Gekas amendment.

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the distinguished vice chairman of the Democratic caucus, the gentleman from California [Mr. FAZIO].

Mr. FAZIO. Mr. Chairman, I believe the new sunset provision, the Gekas amendment, is really nothing more than an effort to undermine the whole Brady bill. There is already a sunset provision in place. The gentleman from Oklahoma [Mr. SYNAR] described it very accurately. There is a specific timetable for getting the instant check system up and running, and I think we all want that to occur. As soon as the system is operating as it should be, the waiting period sunsets; but the Gekas amendment wipes out the 5-day waiting period in 5 years and replaces it with the instant check system, in spite of the fact that all the experts have indicated that the instant check system will not be ready then. Five years down the road, the Gekas amendment will bring us right back to where we are today wherever the instant check system is not ready. So let us keep the pressure on to put the instant check system in place first before we eliminate the 5-day waiting period.

The Brady bill is not intended as a panacea for crime, not the kind of crime that is plaguing us in city suburbs and rural areas; but it is our best effort toward stemming gun-related violence. It is the most realistic, efficient, and accurate option currently available to us.

In California, our 15-day waiting period is already working. Last year alone, my State stopped 5,763 illegal handgun purchases.

So now the time has come for us as a nation to take this first of many steps toward keeping guns out of the wrong hands, and preventing the tragedy that results from the easy availability of guns to the wrong people.

Surely this is a small price to pay to curb the unnecessary and senseless violence caused by handguns, and surely we understand that we cannot simply have State laws that do not allow for people in all States to be secure.

We need a national law that sets a standard, not the highest standard, but a reasonable standard that is fair to all the States that have acted.

We will get instant check, but until then we need the Brady bill.

Mr. GEKAS. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Chairman, my friend, the gentleman from California, is dead wrong. The Brady bill itself recognizes the value of an instant check system.

Let us take a look under the present system of the Brady bill or the 5-day check. Local law enforcement gets a request and has to process it within 5 days. Does anyone in the inner cities have enough dollars for their local law enforcement? This is an unfunded mandate. We would rather have those cops on the street, not dealing with administrative burdens.

Second, the instant check would give not just the District of Columbia or Virginia or any other State a local look at who should purchase weapons, but a national system. If you have someone who has checked into a police station and filed, that automatically would go on to a system where Virginia or California or anyone else would know whether that person should or should not purchase a weapon. It is a better system. It has been agreed that it is a better system. The problem is cost.

So if it is a better system, it seems logical that we set a 5-year period.

I have also checked, as has my friend, the gentleman from Ohio [Mr. OXLEY] with the FBI, and it will be implemented and could be within 5 years. That is why we set the time.

If this is the case, then we need to go to an instant check.

Will it keep guns off the street? No, it will not, Mr. Chairman. We need tough crime laws, but the same people who are opposing this amendment, I would ask them to support habeas corpus, the death penalty, search and seizure, three-time loser, life without parole.

In California, 13 percent of all illegal aliens are felons. We need to help with that system, which the Federal Government is not doing.

Mr. Chairman, I would ask my friend, the gentleman from California, to support these issues and a strong crime bill and support the instant check, which would be a better system.

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the gentleman from Illinois [Mr. PORTER], in opposition to the Gekas amendment.

Mr. PORTER. Mr. Chairman, our society is overwhelmed with violence. Our entertainment news almost encourages this kind of violence.

The question is what to do about it?

Some say, and the previous speaker was one who just said it, that we need stronger penalties, more expeditious appeals and the deterrent effect of punishment. Others say we need restraint on the availability of handguns and assault weapons.

We really need both. It is not an either-or question. We ought to do both.

The Gekas amendment, it seems to me, is simply an attempt to derail the

Brady bill. The instant check system will not be ready when this provision sunsets. It will leave criminals to buy guns without restraint by the Federal Government, and adoption of the pre-emption amendment, without any restraint by State law, either, seems to me mindless.

We need a restraint on the ready availability of firearms and we need stronger penalties, more expeditious appeals and the deterrent effect of punishment and we ought to pursue both.

The Gekas amendment should be defeated. The Brady bill should be adopted as is. I strongly urge the Members to oppose the Gekas amendment.

Mr. GEKAS. Mr. Chairman, will the gentleman yield?

Mr. PORTER. I yield to the gentleman from Pennsylvania.

Mr. GEKAS. Mr. Chairman, does the gentleman from Illinois believe that the sponsor of the Gekas amendment does not have guidance or conscience or his own to propel this amendment, or does the gentleman feel it is NRA driven?

Mr. PORTER. No, I do not believe that.

Mr. GEKAS. Then the gentleman's references to the NRA are general, not specifically to the author of the amendment?

Mr. PORTER. Yes, to NRA, yes. I think the NRA would strongly support the gentleman's amendment.

Mr. GEKAS. Mr. Chairman, I yield 2 minutes to the gentleman from Minnesota [Mr. MINGE].

Mr. MINGE. Mr. Chairman, I rise as a supporter of the time-certain amendment for two reasons. First, I believe most all Americans—both supporters and opponents of the Brady bill—agree that an instant check system for the purchase of handguns should be implemented. Second, it should take far less than 5 years to install the technology needed to conduct these instant background checks.

The Brady bill is written so that once all States are on-line for national instant-checks, the waiting period is phased out. Because the instant check is the goal and since it is easily allowable—it only makes sense that the legislation have a firm time limit for instant check. The instant check system is more effective in keeping guns out of the hands of criminals and those subjected to restraining orders because it identifies them immediately and records in a nationwide computer system that a certain violent individual attempted to purchase a handgun.

I support this amendment because I want rapid installation of the instant-check technology. Under the measure, the nationwide instant-check system would be established when 80 percent of current criminal records nationwide are available to the system. It should not take more than 5 years to computerize these records.

We are all familiar with credit cards. When we use a company's credit card to make a purchase, their computer systems can—in a matter of seconds—analyze our entire credit history. Credit card companies have been doing this for years.

Why cannot the Justice Department and the States be able to computerize their records by the year 1999?

I disagree with the opponents of this amendment and remain optimistic about this country's technology. How can we support billions of dollars for information superhighways and expect to reform the healthcare system in two years if we can't get on-line with an instant-check system in 5 years?

The technology is available. Let us take advantage of it. And sooner—rather than later—let us get to the crux of this bill and provide a real incentive for immediate and instant background checks.

I urge my colleagues to vote "yes" on the Gekas time-certain amendment.

□ 1340

Mr. SCHUMER. Mr. Chairman, I yield 1½ minutes to the distinguished gentlewoman from Connecticut [Ms. DELAURO], a strong advocate in opposition.

Ms. DELAURO. Mr. Chairman, there are children in my district whose parents will not let them play outside because they are afraid they are going to be killed, children who live in fear of handguns. One student in my district came to school and told her teacher that she could not take an important test, and the teacher asked why. The young woman said she was too upset because on her way to school that morning she saw someone get shot in the head.

Mr. Chairman, students in my district describe in frightening detail the guns owned by people that they know.

Mr. Chairman, if we adopt the amendment offered by the gentleman from Pennsylvania [Mr. GEKAS] we are turning our backs on our children. Keep the pressure on for an instant check, but, if we let this amendment pass, criminals will be able to buy guns without a background check if the waiting period sunsets before instant check is ready. We cannot take that chance.

This is an attempt to cripple the Brady bill, but the American people today are demanding serious action to stop senseless violence. Do not cripple the Brady bill. It is one step that we can and must take today to help to stop the bloodshed and to remove that fear of death that is overwhelming too many of our children.

Mr. Chairman, I urge my colleagues to oppose the Gekas amendment.

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN. The Chair admonishes our guests in the gallery that they should refrain from expressing either agreement or disagreement with

any of the remarks being made on the floor.

Mr. GEKAS. Mr. Chairman, I yield 1 minute to the gentleman from Virginia [Mr. PAYNE].

Mr. PAYNE of Virginia. Mr. Chairman, I rise in support of the Gekas amendment to the Brady bill. Each of us in the Congress is concerned about the rising violence in this country, and each of us share a common goal, and that is to keep the guns out of the hands of criminals. I believe that setting a time certain of 5 years for the implementation of a national instant check system will go a long way in keeping guns out of the hands of criminals.

My own State of Virginia has had a successful instant background check run by the State police since November 1989. The system was operational in just 6 months after initiation with a startup cost of just over \$300,000, and since 1989, Mr. Chairman, Virginia has fielded over one-half million purchase requests. Of these requests, almost 6,000 were denied based on lawful ineligibility.

Mr. Chairman, I believe a nationwide background check implemented within 5 years is a positive step in reaching our common goal, which is keeping the guns out of the hands of criminals, and I urge my colleagues to support the Gekas amendment.

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from California [Mr. EDWARDS], a member of the committee and an expert on criminal justice.

Mr. EDWARDS of California. Mr. Chairman, I thank the gentleman from New York [Mr. SCHUMER] for yielding this time to me, and, coming from California, Mr. Chairman, I can certify that a waiting period is very valuable. In the last couple of years we have over 16,000 people who were disqualified from purchasing weapons. Eight thousand of these people had convictions of homicide or of assault. These were vicious people that should not be buying guns.

Now my friend, our colleague, the gentleman from Pennsylvania, is an opponent, a strong opponent, honorable opponent, of the Brady bill. He voted against it in committee and has always been against the Brady bill, and I think it is very clear, and I am sure he will admit that this amendment is designed as a destroyer of the Brady bill because it will. It destroys the waiting period after 5 years.

The subcommittee that I chair has jurisdiction over the FBI. The FBI is complying with the law passed in 1988. The McCollum amendment does provide for an instant check system and to have spent in the last 5 years nearly \$50 million in implementing an instant check system. But they are quite a long way from getting there, Mr. Chairman. There are over 25 million ar-

rest records, a third of them, perhaps more than a third of them, do not have connected to them whether or not there was a conviction, and you cannot use a naked arrest record without finding out whether or not this is a conviction. That would be a wrong thing to do.

So, Mr. Chairman, all the amendment is designed to do is shut down the system after 5 years, and there is no way that the FBI can complete this work. It is going to take more than 5 years, and then the automatic ending of the waiting period will come into effect as provided in the Brady bill, and the instant check system will work very well then, and we are all for it.

Mr. GEKAS. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Michigan [Mr. DINGELL].

Mr. DINGELL. Mr. Chairman, I rise in strong support of the Gekas amendment. I commend the gentleman from Pennsylvania and the distinguished chairman of the Committee on the Judiciary for authoring and supporting this proposal. Our objective is to prevent crime and to prevent criminals and persons with criminal records from obtaining firearms. I say to my colleagues, you can accomplish this by a simple point of sales screening system for handgun purchasers. That's the way that you prevent crime, and keep criminals from having handguns.

This amendment makes good sense. The amendment simply requires 5 years to accomplish this purpose. At the conclusion of 5 years, the Brady bill would cease to be functional. Clearly we have the offer of a better systems of dealing with the acquisition of handguns by criminals.

Mr. Chairman, a criminal, or person who is ineligible to purchase a handgun, will be, under this system, identified instantly at the point of sale. Five States already have programs of this kind. They are working splendidly. I see no reason why it should not occur nationwide, and why we should not have a nationwide system which will provide a mandate that the Attorney General, and State law enforcement authorities bring this system into being. Five years is long enough.

I urge my colleagues to support this amendment. It is sensible; it is fair; it is something which sportsmen and others can support; it is an amendment which I can support; and, I urge my colleagues to join me in supporting the distinguished gentleman from Pennsylvania, the distinguished chairman of the Committee on the Judiciary and responsible sportsmen in supporting this proposal.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Pennsylvania [Mr. BLACKWELL].

Mr. BLACKWELL. Mr. Chairman, I rise in support of H.R. 1025, the Brady Handgun Violence Prevention Act.

Drug-driven violence and crime is engulfing this Nation like the recent California fires, destroying everything in its path, disrupting families, taking lives.

The problem is so pervasive and so penetrating that, according to a recent Washington Post report, young, adolescent people are planning their funerals, instead of planning their futures.

These young people believe that they are destined to die because handguns are as easily and readily available as hot dogs and candy.

Unfortunately, the fears of our young are well placed. In America today, a young man is more likely to die from handgun violence than he is from automobile accidents, disease, or other methods of death.

The Brady bill offers a simple, yet effective solution to this national plague. It requires potential handgun purchasers to wait 5 days before purchasing, thereby allowing the police an opportunity to check their eligibility.

If you are not underage, if you are not a convicted felon, or if you are not otherwise incompetent, you can buy a gun. Why would anyone who intends to use a gun lawfully have a problem with the waiting requirement?

We are moving quickly to strengthen law enforcement and provide more resources. The crime bill will allot \$22.3 billion for anticrime efforts and put 100,000 more officers on the street.

The bill authorizes \$100 million annually to help States update their criminal records and make use of a national registry.

But, unless we take the guns from the hands of those who would misuse them, including young people who are not even old enough to drive, handgun homicides will continue to dominate our death statistics for years and years to come.

Time is running out. It will take 5 to 10 years to put an effective system in place. Must we put at risk another generation of those who, in the dawn of their lives, think more about how they want to die than how they want to live?

Let us plan the funeral for handgun violence. Let's give our youth a chance at life. Let us pass the Brady bill.

□ 1350

Mr. GEKAS. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. BAKER].

Mr. BAKER of California. Mr. Chairman, the Gekas amendment is about fighting crime instead of making headlines. Like most Americans, I want to pass legislation to keep guns out of the hands of criminals and unstable individuals. We have to prevent criminals from getting guns while still allowing law abiding citizens to obtain arms for sport and self-protection, without undue government harassment. That is why I support an instant check.

An instant check would provide immediate information about a gun purchaser's criminal history. But let me be clear: waiting periods alone do not work. In 1985, California passed a 15-day waiting period. Before that time, we had a homicide rate well below the U.S. rate. After that time, the rate has skyrocketed. There is no correlation between waiting periods and crime. But an instant check would be able to say we will take the guns out of the hands of those who have an unstable record or who are criminals.

There are 200 million guns in circulation. Are we being honest when we tell the public that if you pass a 5-day waiting period, we will stop dangerous crime in its tracks? We are not being honest.

The instant check will keep any criminals or unstable individuals from getting guns. Liberals want to keep guns out of the hands of dangerous persons. Conservatives want to do that, and protect the rights of homeowners, sportsmen, and business owners.

If we support the instant check, as well as the Brady bill, we can stop making headlines, start making good law, and protect the people of the United States of America.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from New York [Mrs. MALONEY], who has been a strong advocate of this bill.

Mrs. MALONEY. Mr. Chairman, I rise in opposition to the sunset amendment, and in support of the bill.

The Brady bill is long overdue. It is overdue for Jim Brady. It is overdue for John Lennon and Robert Kennedy and all the tens of thousands of Americans who are killed or maimed every year by deranged or angry people.

Handguns play a leading role in virtually every category of crime throughout our country. They are easy to buy, easy to hide, and easy to use.

That's why I am particularly opposed to this sunset amendment, which would arbitrarily cancel the waiting period even if an effective computerized checking system were not yet in place.

Under this amendment, criminals would be able to buy guns without a background check, if instant-check has not gone on line.

That makes no sense at all, and allows a technology timetable to derail our need to protect innocent people from those who should not have handguns.

Please vote against the sunset amendment, and for the Brady bill.

Mr. GEKAS. Mr. Chairman, I yield 2 minutes to the gentleman from Oklahoma [Mr. BREWSTER].

Mr. BREWSTER. Mr. Chairman, I rise today in support of the amendment of the gentleman from Pennsylvania [Mr. GEKAS]. The gentleman's amendment would establish a time certain of

5 years for implementation of the national instant-check system. History shows that such a timeframe is eminently workable. Virginia was the first State in the Nation to adopt a system of instant background checks. The legislation was passed in March 1989 and the system went online November 1, 1989, 10 months later. The time which elapsed shows that it can certainly be done. In very similar timeframes systems went online in the States of Delaware, Wisconsin, and Illinois. Florida passed an instant-check system in 1989 that took effect in early 1991.

History also shows the instant-check system works. Virginia's State police lieutenant, Jim Snow, a records management officer, was asked last June if an extra 5 days would allow a more thorough check. His answer to the Washington Post was, "No, not really. We can check what needs to be checked in 2 minutes or less."

Today two-thirds of America's population lives under a waiting period program similar to Brady. Those States also have the highest murder rates and the highest crime rates in America.

The instant-check system makes sense because it works. I think that it is time that this Nation moves toward checking violent criminals. But, make no mistake, the only thing that deters crime is punishment or fear of punishment. Justice must be swift and sure.

Today's criminal justice system is broken. In New York alone it takes 5 years for the average felony to go to trial.

I would encourage my colleagues to support the Gekas amendment. It moves in the right direction to stop the crime wave in this Nation.

Mr. SCHEUER. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Kentucky [Mr. MAZZOLI] a long-time supporter of the bill.

Mr. MAZZOLI. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I rise in strong opposition to the amendment of the gentleman from Pennsylvania [Mr. GEKAS]. I really think that, were this amendment to be adopted, the Brady bill itself will be eviscerated. I think it will have relatively less meaning.

Mr. Chairman, I would remind my colleagues that in the bill, as fashioned by the gentleman from New York [Mr. SCHUMER], in it is very strong encouragement to the Justice Department to get moving with the task of developing this instant check system, because the Department can lose money if it fails to move forward. Then there are encouragements, as well as dissuasions, to the States on getting the computerization of their State records done. So we already have in the bill strong incentives to reach this 5-year deadline for putting instant check in service.

Mr. Chairman, I do not think we need this further amendment, which would, of course, create possibly a gap in

background checks once the five years of Brady end. So you would have a gap possibly before instant check went in.

I do not think it is a good idea. I think the amendment should be defeated.

Mr. GEKAS. Mr. Chairman, I yield such time as he may consume to the gentleman from Texas [Mr. SMITH].

Mr. SMITH of Texas. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I rise in support of this amendment. Some Members feel they can vote for this legislation because the waiting period is only temporary, before a national instant-check system is established. But as the saying goes, there is nothing more permanent than a temporary government program.

Under this bill, the waiting period can be postponed indefinitely if the Attorney General decides to do so.

It took Virginia less than a year to bring its instant-check system on line. Shouldn't we hold the implementation by other States to a similar time frame? Thirty months is a reasonable amount of time to give States to implement the instant check provisions. Sixty months, as Mr. GEKAS proposes in his amendment, is more than enough time to bring this national system on-line.

Do not be fooled. Opponents of this amendment have only one wish—to drag out the waiting period indefinitely.

H.R. 1025 contains more loopholes than a bandolier. For any number of reasons, the Attorney General can postpone the certification of the national instant-check system—meanwhile infringing upon the constitutional rights of law-abiding citizens.

The only real answer to gun violence is swift, severe, and guaranteed punishment for people who misuse guns. That is what we should be considering here today.

Instead, we are likely to help the criminal more than we are the victim with this bill by placing restrictions on the self defense of law-abiding citizens.

I urge my colleagues to support the Gekas amendment and provide a sunset provision to the 5-day waiting period.

Mr. GEKAS. Mr. Chairman, I yield 1½ minutes to the gentleman from Texas [Mr. GENE GREEN].

Mr. GENE GREEN of Texas. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I rise today in support of the Gekas amendment which will set a 5-year period for there to be a national instant check system for the purchase of a handgun. Background checks work; waiting periods do not. By passing this amendment, we can achieve the objectives of the Brady bill by identifying criminals who attempt to purchase handguns immediately. We need to keep handguns out of the hands of criminals.

We will also protect the rights of law-abiding citizens by not delaying their right to purchase a handgun. By passing the Gekas amendment we will have the assurance that in the future an instant check system will be in

place. This system will be safer than a waiting period and far more effective keeping guns out of the hands of criminals.

□ 1400

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the gentleman from Maryland [Mr. HOYER], the distinguished chairman of the Democratic caucus.

Mr. HOYER. Mr. Chairman, I rise in support of the Brady bill, a bill which will impose a 5-day waiting period before an individual can purchase a handgun. I would like to commend the chairman of the Judiciary Committee, JACK BROOKS, and subcommittee chairman, CHUCK SCHUMER, for their diligence and hard work in crafting a bill that takes a serious approach to fighting crime in our communities.

Mr. Chairman, violence associated with guns in America is reaching epidemic proportions. For this reason, this Nation is in urgent need of passage of the Brady bill. The bill before us today seeks to return an element of safety and security back to us by waging a fast and furious war against crime.

Mr. Chairman, the Brady bill has been held hostage for much too long. It does not, as opponents argue, undercut the rights of individuals who have a legitimate reason to own a gun. Twenty-two States, including my own State of Maryland, have already implemented procedures similar to and more stringent than the Brady provisions. As Federal lawmakers, it is time we do the same.

Mr. Chairman, too many law enforcement personnel and Americans have suffered severe losses due to the increased use in handguns. Therefore, we must pass this legislation for law enforcement to aid them in their daily battles on the streets of America and we must pass this legislation for the American people so that we can move a step closer to eliminating their fears.

Mr. Chairman, we cannot stand for a weakening of the Brady bill. The Gekas amendment offered here today seeks to dilute the substance of this bill. The sunset provision offered by Congressman GEKAS would effectively abolish the waiting period after 5 years without regard to the readiness of the national insta-check system.

According to the bill in its present form, States will be required to have 80 percent of their recent case dispositions computerized within 5 years. At that time, the insta-check system would replace the 5-day waiting period. Thus, there is no need to modify this section of the bill with an amendment that will diminish the hard work we all have put in to finally making the Brady bill a reality.

Mr. Chairman, this bill is not going to eradicate crime in our society, but it is a big step in the right direction.

The Brady bill can effectively deter those individuals who might be able to purchase a handgun for unlawful purposes.

Mr. Chairman, I would urge the opponents of the Brady bill to face reality and understand; it is better to save at least one life by passing this legislation than to lose a life by not passing it.

Mr. GEKAS. Mr. Chairman, I yield such time as he may consume to the gentleman from Missouri [Mr. VOLKMER].

Mr. VOLKMER. Mr. Chairman, I rise in support of the Gekas amendment.

Mr. GEKAS. Mr. Chairman, I yield 1½ minutes to the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, this instant check was provided for in the original gun bill language with no teeth, no incentive to really do it. Now the waiting period created in H.R. 1025—which some think is written in stone somewhere—has just been picked out of thin air. It is only a means to an end.

What they are trying to achieve is a check on criminals who attempt to purchase guns,—felons. That is what they are trying to get.

My theory is this, why wait 5 days? Why wait 3 days? Why wait 2? Why wait 1? Why not just do it instantly. Put the system on the line, put an instant check availability in every State in this country. It can be done technologically, off-the-shelf. It is that simple. It is already done in five States. It can be done in 50.

There is no excuse for not adopting this amendment which provides a real incentive for instant check in this bill. Instant check is in the bill as originally written, and I think that this bill is enhanced considerably by instant check that would take effect in 5 years with no mistake about it.

We have a good case for this amendment. The gentleman from Pennsylvania [Mr. GEKAS] has worked hard trying to perfect it, trying to make this bill workable. I think we ought to support this amendment.

Mr. SCHUMER. Mr. Chairman, I yield myself 2½ minutes.

Mr. Chairman, here we are, debating this amendment, and I think this amendment is some small sign of progress. Those opposed to the Brady bill altogether, even they have conceded that it ought to exist for at least 5 years. And so the NRA and those in opposition, realizing they cannot beat Brady head on, realizing they cannot even, as last year, replace Brady with instant check, have now said something that seems alluring: "Let's have a sunset after 5 years when the instant check goes into effect."

The thing we have to understand, my colleagues, is there is already a sunset in this bill, but it is a logical sunset. It says, when instant check is in place,

whenever that may be, because there is a great deal of dispute as to when it will be, then Brady sunsets.

If, as the experts say, the Attorney General, the FBI, the nonpartisan Research Group, which is the expert group on criminal records, that it will take more than 5 years to get this system in place, which we know it will, because criminal records are a mess, they are not like credit card records. They have been done by local governments, not by a big profitmaking institution. They are in shoe boxes. They are not coordinated. Then we have to go to each courthouse and see if the case was overturned.

It will not be done in 5 years. And so I would say to every one of my colleagues, if they vote for this amendment, they are voting for 5 years of progress and then regression when there will be nothing.

I would particularly speak to the small number of my colleagues who have the balance of power in this amendment, who support Brady but are thinking of voting for this amendment.

I ask my colleagues to ask themselves, everyone who has offered this amendment and spoken for this amendment has one thing in common, even if this amendment passes, they will vote against Brady. They are not supporters of a waiting period at all. They are not supporters of doing anything logical about guns, in my judgment.

This amendment is intended by the opponents of Brady to weaken Brady. So if my colleagues are a supporter of Brady, if they are thinking of voting for Brady, do not try to fool everybody by saying, "Well, I will vote yes on this, please the NRA, and then vote yes on Brady." It will not work.

Mr. GEKAS. Mr. Chairman, I yield myself such time as I may consume.

The argument is over for the purposes of delivering one's vote on the Gekas amendment, but I repeat, one thing is clear, or I hope it is clear to the American public, even the opponents of the Gekas amendment concede, or they should concede, that the instant check is the methodology to utilize for background checks of would-be purchasers of guns at the gun dealer's shop.

The instant check, why is that so preferable to everyone?

First of all, the law-abiding citizen, who has some kind of an emergency, a crime spree in the neighborhood, a series of rapes that have aroused the fears among women in a certain area who feel that they must have a weapon at their disposal, for those people who need the emergency type of help and for law-abiding citizens who have nothing to fear from any background check, naturally, the instant check is the preferable way to go.

And the proponents of the waiting period must concede that this is preferable, too, because the felon who dares

to go to a gun dealer's shop to purchase a gun, the few that do, most of them steal them or get them through the black market, those individuals who are not caught give reason and rationale to the instant check that we are espousing.

And so when we propose now a 5-year period within which the Attorney General, already having 5 years to develop technology, I believe we are on the verge of completion of a nationwide system. Only 80 percent is almost done, we believe. One hundred percent can be completed well within the 5 years.

So are we not in the same ballpark? Should not that compromise that the gentleman from New York [Mr. SCHUMER] is articulating apply to support of the Gekas amendment, not to the defeat of it? Because support of the Gekas amendment says that Members prefer the instant check. Everybody does. The proponents of the waiting period prefer the instant check, and we prefer it.

The only legal and proper and legislative way to push the Attorney General and our technology experts to the finalization of the instant check system, the Gekas amendment can make that prevail.

□ 1410

Mr. SCHUMER. Mr. Chairman, I yield my remaining time to the distinguished gentleman from South Carolina [Mr. DERRICK], a supporter of the bill and an opponent of the amendment offered by the gentleman from Pennsylvania [Mr. GEKAS].

The CHAIRMAN. The gentleman from South Carolina [Mr. DERRICK] is recognized for 3 minutes.

Mr. DERRICK. Mr. Chairman, I rise in opposition to the amendment.

Clearly America is fighting some kind of internal war, which is escalating, destroying more and more lives. It is a crisis intensified by the easy availability of handguns on our streets. Finally Congress is taking a hard look at the situation. The Brady bill honestly begins to deal with the problem. It is a sane, compassionate and effective way to start getting the handgun crisis under control. The pending amendment could pre-condemn this attempt to failure.

The Brady bill is meant to establish a minimum standard of handgun purchase regulation. Before the 5-day waiting period and the local background check required is lifted, the instant-check system must have access to at least 80 percent of all State and Federal criminal-case dispositions for the last 5 years. Even this will not be a complete check. Even a fully operational instant-check system will never have access to as much information as is available to local law enforcement officials, who can review criminal records not yet entered into any Federal or State database.

The implementation of a reliable instant-check system is at least 5 years away. Only 15 States have fully automated criminal record systems. Four States have no automated criminal record system at all. Twenty-nine are backlogged in the entry of criminal records into their systems and twenty have no method for identifying which offenses are felonies.

The Gekas amendment could gut the provisions in the bill designed to prevent the sale of handguns to felons before an effective instant-check system is in operation resulting in the uninhibited purchase of handguns by criminals. In other words, make no mistake about it: This amendment is a killer. It could lead to more gun-inflicted deaths, and it will certainly kill the Brady bill. No one who is honestly interested in controlling escalating handgun violence could possibly vote for a Brady bill containing an amendment that could leave criminals with unrestricted access to firearms. That is what this amendment does. This amendment is an attempt to utterly debase and kill it. I urge all Members who are ready to take the first steps toward a honest national policy of handgun violence control to kill this amendment, and save the Brady bill.

The CHAIRMAN. The question is on the amendment, as modified, offered by the gentleman from Pennsylvania [Mr. GEKAS].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. GEKAS. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 236, noes 198, not voting 4, as follows:

[Roll No. 559]

AYES—236

Allard	Camp	English (OK)

NOT VOTING—4

Dellums	Romero-Barceló	Underwood (GU)
Moakley	(PR)	

□ 1434

Mr. LAZIO changed his vote from "aye" to "no."

Messrs. PAXON, VALENTINE, SPRATT, and REGULA, and Mrs. LLOYD changed their vote from "no" to "aye."

So the amendment, as modified, was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 3, printed in part 2 of House Report 103-341.

AMENDMENT AS MODIFIED OFFERED BY MR. MCCOLLUM

Mr. MCCOLLUM. Mr. Chairman, I offer amendment No. 3 as modified, printed in the report.

The CHAIRMAN. The Clerk will designate the amendment, as modified.

The text of the amendment, as modified, is as follows:

Amendment, as modified, offered by Mr. MCCOLLUM:

In the manner proposed to be added by section 2(b) of the Committee amendment—

(1) strike the close quotation marks and the following period; and

(2) add at the end the following:

"(6) A Notwithstanding any provision of the law of any State or political subdivision thereof that imposes a waiting period before the purchase of a firearm, a licensee may transfer and a person may receive a firearm immediately after compliance with paragraph (1).

"(B) Section 927 shall not apply to subparagraph (A) of this paragraph."

The CHAIRMAN. Pursuant to the rule, the gentleman from Florida [Mr. MCCOLLUM] will be recognized for 25 minutes, and a Member opposed will be recognized for 25 minutes.

Mr. SCHUMER. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from New York [Mr. SCHUMER] will be recognized for 25 minutes.

Mr. MCCOLLUM. Mr. Chairman, I ask unanimous consent to yield one-half of my time, or 12½ minutes, to the gentleman from Texas [Mr. BROOKS] for the purpose of yielding it to whomever he may designate.

The CHAIRMAN. Is there objection to the request of the gentleman from Florida?

There was no objection.

The CHAIRMAN. The gentleman from Florida [Mr. MCCOLLUM] will be recognized for 12½ minutes, the gentleman from Texas [Mr. BROOKS] will be recognized for 12½ minutes, and the gentleman from New York [Mr. SCHUMER] will be recognized for 25 minutes.

The Chair recognizes the gentleman from Florida [Mr. MCCOLLUM].

Mr. MCCOLLUM. As most of the folks here know, I have not been enamored with the idea of a waiting period, for many reasons, primarily that I do not think it is necessary because you do the check right now that you can do in 5 minutes. You do not need 5 days to do it. It is, as I said earlier, largely symbolic.

However, I have always believed that we should do what we can to develop a system and put it in place that would prevent a felon from getting control of a gun and being able to buy from a gun dealer. I have always believed this could be improved upon, the records could be improved upon, and the so-called instant check system, which was adopted in one form on a bill here several years ago that I offered and is in the Brady bill as a follow-on to the waiting period that is in this bill, I have always believed that this was a good idea and a procedure we should follow.

Consequently, I have been pleased at least with a portion of this bill dealing with the waiting period, the portion of the bill that says, in essence, that once, now under the Gekas amendment that was accepted, that a 5-year period passes and presumably the efforts are made and fully implemented to put this check system in around the country, you will now at that point in time, at the end of that period, be able through all 50 States to do an instant check to the best of the records available, to find out if somebody who is going in to purchase a gun is a felon, but for many more things.

In fact, the bill the way it is drafted here right now, under the bill as it is drafted before us today, when the instant check system is in place, the way that is going to work is that a dealer, a gun dealer, is going to have to go through a system set up by the Federal and State governments to find out if somebody is privileged to be able to buy a gun or whether they are not eligible. The system requires that the State entity report back to the gun dealer almost instantly, within that day, to tell him whether or not there is a State law, for example, that says this person is not eligible. Maybe he is under 18 or has not qualified by not getting a permit or maybe he is simply a felon as we are all most concerned about in this bill today. But for whatever reason, if the State law says that you cannot get this gun or you are not eligible or the Federal law says that, then and in that case the gun dealer

may not transfer the gun. In any other case, he can.

My amendment, which I am proposing today, would simply say that once that becomes the law, once the instant check is in place, once we can do this right away, through all 50 States, then we have no business having any waiting periods.

□ 1440

There is no reason for a waiting period, because we can find the answer when a person goes to buy the gun just like that, instantly. That is the idea behind that provision in the bill.

My amendment would preempt all State laws that would have waiting periods in the face of this.

I would like to make it very, very clear, contrary to what some of the opponents of some of this amendment will be telling you and have already said earlier today, this amendment would leave intact all the laws of the 50 States that would indeed say that somebody is not eligible to get a gun.

For example, after my amendment passes, after the instant check provision is in place, if the State has a law that says somebody has to have a permit to buy a gun, then they are still going to have to have the permit. If they have not bought one, the system is going to say to the gun dealer, "You cannot give or sell a gun to this person."

The same thing is true like in Illinois for an owner to have an I.D. card. That law will still be valid. My amendment would not touch it, or if somebody is otherwise disqualified because they are a drug addict or an illegal alien or mentally defective or a spouse abuser or whatever other disability a state law says that person has that will not allow them to buy a gun, at the point in time when they go to buy the gun from the gun dealer, after the McCollum amendment is passed, after this instant check system is in place, they still will not be able to buy a gun.

So do not be fooled by any rhetoric. State laws in this case are not affected.

What my amendment does is very simple. It says why should we have a waiting period after we have an instant check system in place? There is no reason for it. That is the reason for the instant check system. Then let us simply do away with the State waiting periods, and not have them anymore.

The only other argument I have heard against the amendment is some idea that we are invading States rights. Well, I want to tell you that we are invading States rights right now by this bill itself, by imposing a waiting period on those States that do not have one today.

So what is wrong with going the other step and being symmetrical about this, and when this is all in place and finally we have the instant check, let us simply do away with all waiting

periods. They will not be necessary. State laws will still be in place and all people who are not eligible to have guns at that point in time within the time they go in the bill will be able to buy one. That is all my amendment does. It says let us just simply be symmetrical, be honest, and allow the gun purchasers and no waiting period once the instant check is in place.

Mr. SCHUMER. Mr. Chairman, I yield such time as she may consume to the gentlewoman from California [Ms. HARMAN].

Ms. HARMAN. Mr. Chairman, I rise in strong support of the Brady bill because I know it will work.

My State of California has had a 15-day waiting period for several years now, and by any measure, it has been an unqualified success. Since January 1991, the California waiting period has prevented over 16,420 illegal gun purchases, including over 8,000 gun purchases by ex-cons who had been convicted of committing an assault or a homicide.

Nevertheless, this bill is merely a first step. We must address the plague of violence that has deprived every American of the peace of mind to walk our streets. Last month, the Los Angeles Times noted that 30 American soldiers died in peace-keeping operations in Somalia, and that is a tragedy that galvanized and horrified the Nation. However, in 1992, an average of 30 people were shot to death every week in the streets of Los Angeles.

There is no panacea to solve this problem. Last week the House voted for more funds for prison construction, to put additional police on our streets, and to keep our schools free of violence. These are important steps.

However, if we are to make our streets and neighborhoods safe again, we have to take reasonable steps to regulate the use of firearms that have no legitimate use either for the sportsman or for those who seek self-protection, I feel that the only way to safeguard the American public from gun-related crimes is through commonsense firearm regulation. We must pass the Brady bill. We must pass controls on military-style assault weapons that are designed solely to kill both police and civilians with military-style precision. We must pass legislation to keep handguns and bullets from children who are not yet legally old enough to vote. We must look at innovative proposals like Senator MOYNIHAN's proposal to tax certain kinds of ammunition purchases.

These gun regulations are long overdue. They make common sense to my constituents. I urge this Congress to act not only on the Brady bill, but on devising a comprehensive policy to ensure that the criminals who bring terror to our streets do not have access to the guns and ammunition that are designed primarily to kill people rather than protect.

Mr. SCHUMER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the last amendment that passed hurt Brady, but make no mistake about it, if this amendment passes it will eviscerate Brady.

Those of us who seek rational laws on guns will be worse off than if we had nothing at all.

This is a radical amendment. There have been no hearings on the amendment. It was raised for the first time a week ago, but if it will pass, if this amendment passes, it will be the biggest rollback of gun control legislation in history.

Simply put, what this amendment does, it will wipe out laws in 23 States, plus hundreds of cities and counties. If your State is on this list, if this amendment passes, the laws that your State legislatures have passed will be preempted.

Alabama, California, Connecticut, Florida, Illinois, Indiana, Iowa, Maryland, Massachusetts, Michigan, Minnesota, Nebraska, New Jersey, New York, North Carolina, Oregon, Pennsylvania, Missouri, South Dakota, Tennessee, Washington, and Wisconsin, all of those laws would be rolled back.

I see one of my colleagues clapping. If you agree with him and you want no laws in any of the States and all these State laws preempted, then vote for this pernicious amendment.

Some States have desired a fingerprint check. They want to check fingerprints before issuing a gun. They could not.

Some States have wished to give a class on gun safety. They would want a class on gun safety before they would issue a gun. Under this amendment, they could not.

Some States would wish simply to have a waiting period so there might be a cooling-off period. Those States as well would have their laws rolled back.

The only thing that the instant check system checks for are felonies. The waiting period that States might allow you to check if someone was mentally incompetent, if somebody had done other things, spousal abuse, that they would not want in their State legislatures' own wisdom to get a gun. It could not be done under this amendment.

So let us be very clear. This amendment will do countless harm. It will tell each State that they cannot pass their own types of laws, and it will be a dramatic step backward in the cause of rationalizing what we do with guns in this country.

Mr. BILBRAY. Mr. Chairman, will the gentleman yield for one question?

Mr. SCHUMER. I am happy to yield to the gentleman from Nevada.

Mr. BILBRAY. Mr. Chairman, I was curious, my State does not have a State law, but by local ordinance we have delays. Would it also strike down the local ordinances as well as the State laws?

Mr. SCHUMER. Mr. Chairman, I thank my friend, the gentleman from Nevada, for asking the question.

It would indeed strike down local ordinances that are in place in places like Atlanta, Salt Lake City, the gentleman's State, and local ordinances throughout the country. It would strike those down as well.

Mr. BROOKS. Mr. Chairman, I yield myself such time as I may require.

Mr. Chairman, I rise in strong support of this amendment offered by the gentleman from Florida.

After the national instant background check is established, this amendment would preempt the patchwork of different State waiting period laws—and only those waiting period laws. The whole idea of a national instant background check is to have a uniform system in place for doing background checks. This amendment allows such a uniform system.

What do we presently have in House Resolution 1025? As explained by a strong proponent of the legislation during our committee markup, the 5-day waiting period is supposed to be a stop-gap measure—a temporary device—until such time as the national instant background check system comes on-line.

During this nationally imposed stop-gap period, all States which do not have a waiting period or which have periods of less than 5 business days are automatically preempted—States' rights notwithstanding. It is clear that the proponents of this bill have no problem with State preemption there.

But, then they argue that when the so-called national background check system is in place, one should forget all about uniformity and let the States create disparate waiting periods all over again.

Where is the logic of this? It's OK to interfere with the laws of some States, but it's not OK to interfere with the laws of other States. The whole bill is a mandate on the States to have background checks whether they want to or not. Either you have a national system with a uniform standard or you don't. You can't have it both ways, and that's precisely what the opponents of this amendment are seeking.

To get that national system uniformly applied throughout this great land, you must vote in support of this amendment, plain and simple.

□ 1450

Mr. SCHUMER. Mr. Chairman, I yield 2 minutes to the gentleman from Virginia [Mr. MORAN].

Mr. MORAN. Mr. Chairman, I rise in very strong opposition to the amendment offered by the gentleman from Florida [Mr. MCCOLLUM] to the Brady bill. It could gut gun laws in at least 23 States.

The Brady bill is the minimum standard of the gun control legislation we should pass.

Twenty three States and hundreds of localities have implemented gun laws stricter than the Brady bill. They see the need to go beyond this 5-day waiting period to effectively address gun violence in their State or locality. The McCollum amendment would negate this progress by reducing every gun

control measure to the lowest common denominator—the background check.

Take Virginia. Virginia was the first State to establish an instant background check system. In fact, Virginia's system is the model for the national system we are trying to implement. But this background check was not enough. Criminals were obtaining fraudulent driver's licenses and buying large numbers of guns in Virginia's shops. They were paying Virginia citizens to make straw purchases where they would pay thousands of dollars to buy 20 or 30 weapons for the black market dealer. Virginia's model instant background check system does not prevent this abuse. Criminals are manipulating this system to run guns from the shops of Virginia to the streets of the District of Columbia, Philadelphia, New York City, and every major urban area on the eastern seaboard. From the pages of *Batman* to the pages of every newspaper in the country, Virginia earned the reputation of being the point of purchase for the black-market in guns. The Bureau of Alcohol, Tobacco and Firearms, in doing a trace search, found that more than 40 percent of the guns used in a crime in New York City and more than 60 percent of the firearms used in a crime in the District of Columbia were purchased in Virginia.

So this year, the Commonwealth of Virginia acted to stop the gun-runners and stop the flow of firearms by passing a tough one-gun-a-month law. Now Representative McCOLLUM and others are trying to overturn Virginia's State law.

Do not be fooled by this amendment. Its proponents claim that it only preempts laws made unnecessary by the establishment of the national instant check system. The McCollum amendment overturns Virginia State law restricting gun purchases to one a month by making it impossible to enforce.

The instant check system established by this bill mandates that records be destroyed immediately. This was a concession to the NRA. But the only enforcement mechanism Virginia has for its one-gun-a-month law is for the police to know who has bought a gun in the past 30 days. In Virginia, records on gun purchases are kept for 30 days. Under the McCollum amendment, this would not be allowed.

The McCollum amendment is simply bad policy. If State and local governments want to enact stricter gun control measures to stop violence in their jurisdictions, we should encourage them, not thwart them.

I urge my colleagues to vote against the McCollum amendment.

Mr. MCCOLLUM. Mr. Chairman, for purposes of a colloquy I yield myself such time as I may consume and I yield to the gentleman from New York [Mr. FISH].

Mr. FISH. Mr. Chairman, I thank the gentleman from Florida [Mr. MCCOL-

LUM], my friend, for yielding this time to me, and, Mr. Chairman, I think the previous speaker in the well points up the need for some clarification that I needed, too, on this amendment which says that notwithstanding any provision of law of any State that imposes a waiting period before the purchase of a firearm and then certain things will follow. Now, imposes a waiting period before the purchase of a firearm; surely the imposition of a limitation on the number of handguns that can be purchased in a month's period is not a waiting period in the eyes of the—

Mr. MCCOLLUM. Mr. Chairman, if I might reclaim my time, the gentleman is correct in the sense like for the permitting purposes of his State and other States that require permits. My amendment does not affect that.

For the question of that one gun a month question the gentleman from Virginia [Mr. MORAN] raised, my amendment would not affect that. Any State law that is not specifically affecting a waiting period would not be affected. It is only the essence of a pure waiting period, or cooling off period which is a waiting period, that would be affected. But gun safety laws, as the gentleman mentioned up there from New York a minute ago, certain States could say you got to have done safety provisions before you can buy a gun.

None of those laws would be affected. They still would have to be complied with even if my amendment were adopted.

Mr. FISH. Mr. Chairman, will the gentleman yield?

Mr. MCCOLLUM. I yield to the gentleman from New York.

Mr. FISH. The gentleman used the phrase "permit to purchase." Now is that what is meant in States like Pennsylvania and New York where one has to go through a fairly lengthy process of law enforcement recommendation followed, in my State, by a member of the bench, a judge, having to OK the right for someone to have a permit?

Mr. MCCOLLUM. The gentleman is correct. That was my understanding. We are not disallowing those types of things where there is another purpose intended besides a simply pure wait, that we are not affecting any laws of the State that is out there or that are out there already on the books at all whatsoever except those which are just for the purpose of a waiting period.

Mr. FISH. Mr. Chairman, I thank the gentleman.

Mr. MORAN. Mr. Chairman, will the gentleman yield?

Mr. MCCOLLUM. I yield to the gentleman from Virginia.

Mr. MORAN. Mr. Chairman, I thank the gentleman from Florida because this is terribly important to understand.

Virginia interprets its one-gun-a-month law as a waiting period before

one can buy an additional gun. In other words, one can buy 12 guns in a span of a year, but they have to wait a month. In order to make sure that a person is waiting that month they have to retain files for at least 30 days. They can do that.

Mr. MCCOLLUM. Reclaiming my time, Mr. Chairman, this amendment would not affect the law in the gentleman's State as I see it or as it has been written. That is very clear from a reading of the amendment and the bill itself that incorporates the existing language in Brady.

Mr. SCHUMER. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, this is an example of a last-minute amendment that was drawn up, and I think any reading on its face is different from what the gentleman from Florida [Mr. MCCOLLUM] has said. It says any State or political subdivision thereof that imposes a waiting period. It does not say a waiting period only for the purposes of a waiting period. It does not clarify what the waiting period is for.

In New York State, I would say to the gentleman from New York [Mr. FISH], if one must wait so the fingerprint check can be done, that is a waiting period. In the State of Mr. MORAN, Virginia, if one has to wait before they can buy another gun, that is a waiting period. If the legislation were intending to do what the gentleman said, there is easy language to write it in. In fact, Mr. Chairman, I had tried to do that previously at the request from another gentleman on the other side. You could say only a waiting period without identification, without testing, without any of those other things.

I submit to every one of my colleagues here that they should read the legislation, and I say, if you can be sure that it doesn't preempt your own State, then vote for this. But I would say to you that, if you took a hundred scholars, lawyers, average people, and asked them to read this, they would say any State that imposes a waiting period, not for only one purpose, but any waiting period at all.

Mr. Chairman, I yield 1 minute to the gentleman from Maryland [Mr. MFUME].

Mr. MFUME. Mr. Chairman, I would ask that the gentleman from New York [Mr. SCHUMER] join me in a brief colloquy for the purposes of clarification.

Is it true that there have not, as I understand, been any hearings on the legislation before us, open and public regular hearings?

Mr. SCHUMER. Mr. Chairman, will the gentleman yield?

Mr. MFUME. I yield to the gentleman from New York.

Mr. SCHUMER. Mr. Chairman, the gentleman is exactly correct. There has not been a single hearing on this. We have not had anyone testify. This legislation, important as it is, is being

interpreted without any legislative history at all.

Mr. MFUME. Mr. Chairman, I thank the gentleman for that clarification.

Could the gentleman tell me whether or not, if a State already has as part of its requirement a requirement to fingerprint individuals, if that law or that policy would be preempted by passage of this amendment?

Mr. SCHUMER. It will indeed be preempted because you could not fingerprint immediately, and it would require a period of waiting. It would indeed be preempted.

Mr. MFUME. Mr. Chairman, I thank the gentleman for that clarification.

Could the gentleman tell me, if a State happens to require gun safety classes as part of an already existing set of laws, would those classes then in that procedure be preempted by passage of this?

Mr. SCHUMER. It seems quite clear again, because you would have to wait before you got the gun to take the class, that it would indeed.

Mr. MFUME. I thank the gentleman; I see.

So, therefore, it is fair to assume that waiting periods are not defined by the legislation before us; is that correct?

Mr. SCHUMER. That is correct.

Mr. MFUME. And would the gentleman clarify in the State of Maryland, where I come from, which has already gone ahead of us in terms of trying to prevent some of the abuses that occur, would the laws of Maryland be preempted by passage of this?

□ 1500

Mr. MFUME. Would 22 other State laws be preempted?

Mr. SCHUMER. They would, indeed.

Mr. MFUME. I thank the gentleman for the clarification.

Mr. BROOKS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the laws of Maryland are already preempted by the Brady bill, as reported, and there is no reason whatsoever to think that fingerprinting would be prohibited by this amendment whatsoever. That may be the opinion of the distinguished Member from New York, but that is not the way the law reads. I do not believe that that would be the case at all.

Mr. Chairman, I yield 2 minutes to the gentlewoman from Washington [Mrs. UNSOELD].

Mrs. UNSOELD. Mr. Chairman, no parent, no husband or wife, no brother or sister or friend who has felt the effects of the criminal misuse of firearms can escape the deep feeling of anguish and anger that result. I know, because my daughter has been both mugged in New York City and held at gunpoint outside her home in Los Angeles.

Our society is far too violent—and there is no question that the use of firearms is a particularly dangerous

part of this violence. This is what appeals to those who call for a 5-day waiting period. But it just won't work.

The Seattle Post-Intelligencer—a daily newspaper in my State that has supported past gun restriction efforts—editorialized it this way.

The Brady bill, mandating a 5-day waiting period * * * is more symbolic than substantive. Washington State has a 5-day waiting period, but it has failed to bring any appreciable decline in handgun violence.

Even Sarah Brady acknowledges this point. The March 1991 issue of the Washingtonian quotes her as saying the Brady bill won't "stop crimes of passion or drug-related crimes."

So I suggest we debate the Brady bill for what it is: A politically and emotionally satisfying solution to a problem with which so many of us are struggling. We know the Brady bill will not reduce crime because most criminals buy their guns from other criminals, not legitimate licensed dealers.

We also know that instant background checks are feasible now because they are in place in many States across the country. So why not mandate instant background checks if we want to stop felons from buying handguns from legitimate dealers? Why are we proposing a bill that simply permits police to do background checks—particularly when we know that police already have this authority?

Mr. Chairman, a great tragedy in American politics occur every time a groundswell of support for reform is dissipated on symbolic measures, band-aids that leave the real problem untouched. We must recognize that unless we return to the root of the problem, we will never truly heal our society.

We need to invest in that basic fabric of our country—our children. Programs such as Head Start must be improved and fully funded. Drug prevention programs such as DARE must get to young children before they get into drugs. We need to provide more early childhood education and a nurturing environment for the child who lacks a family and positive role models. We need to ensure that foundational values necessary for civilized life are instilled in our children. We need to counter the glorification of violence.

The siren call for stricter gun laws is appealing, Mr. Chairman. But such quick fixes as a 5-day waiting period do little more than trample on both the rights of law-abiding citizens and the Bill of Rights.

Without this amendment, I strongly oppose this bill.

I support the McCollum amendment.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Nevada [Mr. BILBRAY].

Mr. BILBRAY. Mr. Chairman, I have consistently voted against the Brady bill because I believe it is the right of the States to determine how they will govern the sale of guns and weapons in

their States. I still believe that, and will vote against the bill.

But I also think equally wrong is an amendment that would prohibit the States from setting their own standards. I believe if the States do not want a waiting period, they should not be forced to have one. If they want one, they should have the right to put it in. It is the same reason I vote for the District of Columbia to be able to conduct their own future, because I think the people of that State and their leaders should be able to choose what they want to do as far as gun control is concerned within their purview.

Mr. Chairman, I urge Members that believe in States' rights, that believe in the rights of the States to determine their future, with regard to gun control or any other area, to vote against this amendment, and to vote against the bill at the end.

Mr. MCCOLLUM. Mr. Chairman, I yield 1½ minutes to the gentleman from Indiana [Mr. BUYER].

Mr. BUYER. Mr. Chairman, I rise in support of the McCollum amendment. I am also going to have a few questions for the gentleman from Florida [Mr. MCCOLLUM].

Mr. Chairman, I am going to vote against the Brady bill itself, but I have some real concerns that I would like to ask the gentleman about. I live in Indiana. Indiana does have a check, a 5-day waiting period.

Mr. Chairman, under the amendment of the gentleman from Florida, under the preemption provisions, would the gentleman tell me how it is going to affect us in Indiana and other States?

Mr. MCCOLLUM. Mr. Chairman, if the gentleman will yield, once the instant check provision is in place under the Brady bill, the waiting period in the gentleman's State under my amendment would end. If the gentleman's State has some prohibition on somebody getting a gun, like they have to take a test or go to a class or get a permit, my amendment will not affect that. But the waiting period per se, just for the sake of having a waiting period ends. It is very clear, because my amendment is tied to the language of the Brady bill that leaves in place prohibition on anybody being able to receive a gun if it is in violation of any State or local law.

All I am saying is that if there is just a waiting period per se, that is no longer going to be allowed.

Mr. BUYER. Mr. Chairman, reclaiming my time, part of the driving substance of Brady is the instant background check. So when you have the instant background check, it is in place, then it is very proper to have the preemption conditions to set the standard codification for the entire country.

Mr. MCCOLLUM. Mr. Chairman, if the gentleman will yield further, that is right. There is no point in having any kind of period of waiting once this

is in place. I do not happen to particularly like mandates, but, as the gentleman from Texas [Mr. BROOKS] has stated, this whole bill is a mandate. This whole bill is imposing waiting periods on States that do not want them. Once we have this in place, why should we have waiting periods anywhere?

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Indiana [Mr. ROEMER].

Mr. ROEMER. Mr. Chairman, as I grew up in the State of Indiana, where we have a 7-day waiting period and we have had it on our books for almost 10 years, we had natural disaster teams regularly come into our schools, and we would listen to these people warn us about tornadoes and what to do if a tornado hit. I am sure other Members in this body know that if you lived in California, the disaster team told you about an earthquake, and in Florida what would happen if a hurricane hit.

Today, Mr. Chairman, these disaster teams come into our schools and warn our children what they should do when a gun is pointed at them. Thirteen children every day die because of firearms. I think this body should act on this bill, without weakening our State laws where we have waiting periods, and begin to do something about the escalating violence in our schools, in our neighborhoods, and in our streets.

I do not think, Mr. Chairman, that the Brady bill goes too far. This is a step of concern and, combined with reforms and habeas corpus and the exclusionary rule, we will make progress in fighting crime.

Mr. MCCOLLUM. Mr. Chairman, I yield 30 seconds to the gentleman from Indiana [Mr. BUYER].

Mr. BUYER. Mr. Chairman, I join my colleague from Indiana that just spoke about the importance of combatting violence in America, having even been a former prosecutor. Perhaps there are different approaches though. Many say, "Well, what we can do is just take the handguns out of the marketplace, and that will solve the problem." I think we realize though that criminals are going to get hold of guns. Even here in Washington, DC, where it is illegal to even purchase a weapon in this town, look at the crime rate that is here. We have the waiting period in Indiana that the gentleman is aware of.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the gentleman from Ohio [Mr. FINGERHUT].

Mr. FINGERHUT. Mr. Chairman, I thank the gentleman for yielding, and thank him for his leadership. I also want to acknowledge publicly on the floor that I follow in the 19th Congressional District of Ohio my former Congressman, Ed Feighan, who has been a leader on this issue as well.

Mr. SCHUMER. Mr. Chairman, if the gentleman will yield, Ed Feighan has been a wonderful leader on this issue, and I hope he will be happy with the results today.

Mr. FINGERHUT. Mr. Chairman, I also hope he will.

Mr. Chairman, I strongly support the Brady bill, but that is not the issue on this amendment. The sponsor wants to use the opportunity of the consideration of the Brady bill to go beyond this issue and to reach out to State and local legislation that has been passed all over the country with respect to handgun control. This action, in my judgment, would be contrary to good principles of democratic government. We have citizens all over this country who have worked for years to lobby their local officials and their State officials to enact legislation. It should be up to them to decide whether or not they want to continue all of the laws, some of the laws, or none of the laws after we adopt this basic minimum standard of responsibility across the country.

Mr. Chairman, if we pass the Brady bill, we honor the actions of all those activists, led by Jim and Sarah Brady, across this country. But if we pass this amendment, with all due respect to the gentleman from Florida [Mr. MCCOLLUM], we dishonor all of their activities.

Mr. Chairman, let them decide. Pass the Brady bill. Defeat the McCollum amendment.

□ 1510

Mr. BROOKS. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Maryland [Mr. BARTLETT].

Mr. BARTLETT of Maryland. Mr. Chairman, I thank the gentleman for yielding time to me.

A waiting period has an emotional appeal for controlling crime. But in point of fact, I know of hardly a shred of evidence that a waiting period or any other gun control law has anything to do with controlling crime.

I will tell Members, a waiting period does have to do with something else, and that an infringement of what I think are individual rights that are guaranteed by the Constitution.

Now, ordinarily I would be up here stoutly defending States' rights and their right to enact laws as they see fit, because what I read in amendment 10 of the Bill of Rights in the Constitution, it says that "All of those powers not delegated to the United States are reserved to the States."

But also in these important 10 amendments that were enacted just 4 years after the Constitution was enacted, I read, in the second amendment that the right of people to keep and bear arms is a responsibility of the U.S. Congress.

I stand in full, wholehearted support of this amendment. What this amendment does, very clearly, is to mitigate the harmful effects of the Brady bill, and it makes it maybe not an acceptable bill but a less onerous bill.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished

gentleman from New Jersey [Mr. KLEIN].

Mr. KLEIN. Mr. Chairman, I rise in strong opposition to this amendment, because it would gut the strong handgun restrictions that have proven so successful in my State.

We have set an example for the Nation by cracking down on illegal gun trafficking. Since 1987, New Jersey's mandatory criminal background check and other provisions have kept guns out of the hands of nearly 3,400 ineligible, would-be purchasers.

Mr. Chairman, in the same 6-year period of time more than 150,000 Americans died from handguns. By contrast, only 840 homicides by handguns occurred in New Jersey.

We have one of the lowest homicide rates by handguns in the entire Nation. It proves the effectiveness of a strong handgun law. If the gentleman wants to gut handgun control, let him do it in Florida. Do not do it at the risk of the lives of the people in New Jersey. I oppose this amendment.

Mr. MCCOLLUM. Mr. Chairman, for the purpose of engaging in a colloquy to speak a little bit about New Jersey, I yield 1½ minutes to the gentleman from New Jersey [Mr. ZIMMER].

Mr. ZIMMER. Mr. Chairman, I thank the gentleman for yielding time to me.

I am from New Jersey, and I am very interested in learning what the sponsor believes the impact of this amendment would be on gun control in our State.

We do not have, in New Jersey, a formal waiting period. But as a practical matter, it takes 3 or 4 months to get a permit to buy a handgun. One needs a separate permit for each handgun purchased. They have to have their fingerprints taken each time. There is an FBI check. There is a check of State criminal records. There is a check of mental institution records. There is a requirement of personal references as to the reliability of the would-be purchaser.

It is a very time-consuming process, takes far more than 5 days. It takes generally now 3 or 4 months.

What I would like to know from the sponsor of this amendment is what impact the amendment would have on New Jersey's existing law.

Mr. MCCOLLUM. Mr. Chairman, will the gentleman yield?

Mr. ZIMMER. I yield to the gentleman from Florida.

Mr. MCCOLLUM. Mr. Chairman, first of all, when the bill is in place and the instant check provision in 5 years kicks in, a lot of the things that permitting time is consumed to do will be done within a matter of a few minutes. There will not be any time delay involved to get the permit. But the law will still remain on the books and be unaffected by my amendment.

There are several things the gentleman listed that would have to be complied with before the individual

seeking the gun could be eligible. And if that took a little time to do, then, of course, it is going to take that amount of time.

What would be stricken by my particular amendment would be a pure waiting period just for the sake of a waiting period.

If someone got a permitting requirement and it really takes that long to get something else done that is not covered by the Brady amendment, it would not be affected by this amendment.

Mr. SCHUMER. Mr. Chairman, I yield a minute and a half to the distinguished gentleman from New Jersey [Mrs. ROUKEMA].

Mrs. ROUKEMA. Mr. Chairman, I rise in opposition to this amendment, and urge my colleagues to join me in voting down this killer amendment.

Let me make one point perfectly clear: We must defeat this State preemption amendment, which would require our minimum Federal standard to preempt and prohibit tougher State laws.

This is absolutely ludicrous. The Brady bill is designed to represent a minimum, Federal standard. The idea that we would eliminate all other restrictions would be laughable were it not so offensive. This guts the intent of the Brady Bill.

Let me explain what the effect of this maneuver is. In my own State of New Jersey, a background check has stopped more than 18,000 purchases, and resulted in more than 10,000 arrests. This law has been in effect for 20 years, and I have seen no evidence that it has led to infringement of constitutional guarantees. The Constitution stands, and sportsmen still get their guns.

But under this State preemption amendment New Jersey's 20 years of strong, fair, and effective anti-gun-violence protections would be thrown out the window, that is gutted.

New Jersey is not alone: Hard-fought victories for sensible gun control advocates will all be negated by the McCollum amendment. Under this preemption amendment, waiting periods in dozens of States would be violated. Permit-to-purchase systems across the country in 23 States would be turned out overnight. National, pioneering limits on handgun purchases, firearm abuse by juveniles, and scores of other commonsense restrictions would become moot.

I find it even more incredible that this amendment is supported today by some of our more ardent States' rights advocates. How they can justify the striking down of all State laws by one Federal standard strains the bounds of logic, if not common sense.

When we even consider an amendment like this, it's no wonder why the American people hold our institution in such disregard. In other words the

public should understand that this is a way for Members to appease both factions and have it both ways.

Again, my colleagues, this debate comes down to common sense, and simple logic: Anyone who needs a gun right now needs a waiting period. Period.

I urge my colleagues—stand up to the gun dealers lobby. Oppose this amendment and do the right thing: Pass the Brady bill.

Mr. Chairman, I would like to call on my colleague; this is New Jersey day here. We seem to have a division of opinion here.

It is my conviction, and I would like to ask a member of the Committee on the Judiciary, also from New Jersey, for his opinion here.

It is my opinion here that this amendment, indeed, not only guts the bill, the Brady bill and the intention for a minimum Federal standard, but beyond that, it would make it totally untenable and illegal for New Jersey to have its background checks as presently conducted.

Is that the understanding of the gentleman from New Jersey?

Mr. HUGHES. Mr. Chairman, will the gentleman yield?

Mrs. ROUKEMA. I yield to the gentleman from New Jersey.

Mr. HUGHES. Mr. Chairman, the gentleman is absolutely right. I do not know how the gentleman from Florida can read it any other way, because in New Jersey, as the gentleman knows, we require a fingerprint check. We cannot turn a fingerprint check around instantaneously in New Jersey.

We wipe that out by McCollum. We wipe out the background check that New Jersey does, under McCollum, because in essence we have a waiting period in order to do the background check and the fingerprint check.

Mrs. ROUKEMA. Mr. Chairman, I would suggest there is no way to check the medical records of anyone during that background check, under this system of instant check. So it really guts New Jersey law, a law that has stood us in such good stead for more than 20 years.

Mr. HUGHES. Mr. Chairman, if the gentleman will continue to yield, it wipes out all the laws like that throughout the country. That is what it does.

Mr. MCCOLLUM. Mr. Chairman, I yield myself 30 seconds.

I just want to respond, if I could, that this is simply a charade with regard to quibbling over words. This is very, very clear.

Whatever the State laws are, they are on the books today. They are not going to be affected, unless they are truly a waiting period. Some of the New Jersey law is a waiting period, and that is why we have the instant check provision.

Once they are in place, yes, we are going to preempt every waiting period in this country. We should be doing that. We do not need a waiting period any more, if we can do the instant check to find out, as this bill says it can on its face, that there is, indeed, a mental defect or there is a felony background or a lot of other things in here.

If indeed it does require a little additional time to do a permit because of some other reasons in the State law, we do not affect it. It is just as simple as that.

Mr. BROOKS. Mr. Chairman, I yield 1½ minutes to the distinguished gentleman from Georgia [Mr. KINGSTON].

Mr. KINGSTON. Mr. Chairman, I thank the gentleman from Texas for yielding time to me.

Opponents of this amendment have crafted some clever but absurd arguments against it. They cry that they want to preserve States' rights, while they support a bill that usurps States' rights. It is like an elephant stampeding in a chicken yard and saying, "Every man for himself."

All the McCollum amendment is doing is trying to preserve the chickens, just trying to help them out a little bit.

States' rights are being trampled on by the Brady bill. The McCollum amendment is just trying to help the States out a little bit.

We have heard today, from a previous speaker, that handguns have killed 13 children. I am sure that the speaker truly believes that, but I have got news for him. Those handguns did not kill 13 children. It was the people who held the handguns in their hands. Those people pulled the trigger because of broken homes, because of mixed up morals, because of early parole and myriad other special ills, which the Brady bill does not and will not and cannot address.

Mr. Chairman, let us support this amendment. Let us vote "no" on the bill.

□ 1520

Mr. MCCOLLUM. Mr. Chairman, might I inquire of the Chair what amount of time each of us has remaining?

The CHAIRMAN (Mr. SKAGGS). The gentleman from Florida [Mr. MCCOLLUM] has 1 minute remaining, the gentleman from New York [Mr. SCHUMER] has 7½ minutes remaining, and the gentleman from Texas [Mr. BROOKS] has 6½ minutes remaining.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. FOGLETTA].

Mr. FOGLETTA. Mr. Chairman, I rise today in strong support of H.R. 1025, the Brady Handgun Violence Prevention Act, and in opposition to the McCollum amendment.

Today, in my district, the discussion will not be about NAFTA. If a public

issue is talked about, it will be crime, and mostly gun-related crime.

The only free trade zones that cause concern in my district are the corners and schoolyards where crack and guns are sold. Guns are shooting up our neighborhoods, turning our communities into fire zones, endangering police officers as they do their job and our children as they play. Guns are bankrupting urban hospitals and stealing away our very freedom to walk our streets or sit on our front steps.

We have delayed long enough on this issue. Year after year, our efforts to pass this bill have been blocked by the gun lobby.

The McCollum amendment is another attempt to divert efforts away from meaningful gun control legislation. An instant check system, while helpful to local law enforcement, may not be enough to keep guns out of the hands of criminals.

Further, I believe States must have the right to enact stronger legislation if they want to. Already there are States which have stricter statutes. Congress should not preempt such laws in the name of gun control.

We take the first step in the fight to cut down the number of guns today. Vote for the Brady bill, and oppose the McCollum amendment.

Mr. SCHUMER. Mr. Chairman, I yield 1½ minutes to the distinguished gentlewoman from New York [Ms. SLAUGHTER].

Ms. SLAUGHTER. Mr. Chairman, my district includes Rochester, NY. Our city does not usually make the national headlines as a murder capital. But just yesterday, the newspapers reported two more local homicides, bringing this year's death toll to 58. Rochester is on course for a murder record in 1993—and my constituents are frightened and outraged by the rising tide of violence.

I am glad to say that many in our city have refused to give in to fear and despair. When Janet Reno visited Rochester last summer, we had the chance to visit with a neighborhood watch group. She and I patrolled their area with its members, and we saw the pride they feel as they take their streets back from the gangs and the drug pushers.

The most poignant example of our community's response to violence came just a few weeks ago. More than 300 people joined together in a silent procession. As they walked through the rain, they held unlit candles to signify the extinguished potential of the city's young murder victims—people like 16-year-old Malik Henton, who was caught in a gang crossfire on his way home from Bible school.

Mr. Chairman, the McCollum amendment is an attack on brave people like those marchers all across America. In response to their urgent pleas, some two dozen States and countless towns

and cities have already enacted gun laws. This amendment would destroy them all.

For example, New York uses fingerprint identification to screen handgun purchasers. This system is obviously more secure than the minimum required in the Brady bill. The McCollum amendment would dismantle this excellent system, even though the majority of New Yorkers support it.

State and local governments everywhere have heard the public demand for concrete action. They have carefully crafted gun laws that are tailored to local needs. The McCollum amendment would replace those laws with a national standard that is only intended as a minimum standard.

The people who marched through the rain last month are looking to this House for leadership, just as they have looked to the State government before. They need the swift establishment of a national background check for gun purchasers.

They do not want Congress to pass a version of the Brady bill that makes guns easier to purchase in New York. I urge Members to empower my community, and all the local communities of the United States. Oppose this destructive amendment, and vote for the Brady bill.

Mr. SCHUMER. Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from Florida [Ms. BROWN].

Ms. BROWN of Florida. Mr. Chairman, I rise today in support of H.R. 1025, the Brady bill, and to oppose the McCollum amendment. Some 84 percent of the people of Florida voted for a 3-day waiting period; this amendment would ignore the mandate of Florida voters. This bill has been debated for 6 years—and in that time, 138,000 Americans were killed by handguns. The National Education Association, which supports this bill, estimates that more than 135,000 children bring guns to school every day. The American Medical Association says this bill is good medicine for America. It is one of the most effective means of treating the crisis in our emergency rooms by avoiding the violence of easy access to handguns. Gunshot wounds, including homicides, suicides, and unintentional shootings, are the leading cause of death for both African-American and white teenage males. Guns kill more teenage boys than all natural diseases combined. For young African-American men and women aged 15 to 24, homicide is the No. 1 cause of death.

The Brady bill is supported by 92 percent of all Americans. Even 87 percent of all gun owners support the bill. Every major law enforcement organization in the country supports the bill. In Florida, we call this kind of amendment loving a bill to death.

Mr. Chairman, let us kill this amendment.

Mr. McCOLLUM. Mr. Chairman, I yield myself 30 seconds.

Mr. Chairman, with all due respect to my colleague, the gentlewoman from Florida [Ms. BROWN], I simply do not think that she has the point of this. The waiting period in Florida and in any other State will be obsolete for the purposes of being a waiting period. The reason it was passed was in order for us to be able to do the things that the Brady bill does and the instant check provisions do. Once that becomes the law, there is no need for a waiting period in my State or anywhere else. That is why I propose this preemption, so we do not have a multitude of diverse laws out there that confuse everybody.

Let us be on the same sheet of music. If we are going to be on that same sheet for the waiting period in this bill, we ought to be on it when the instant check is in place.

Mr. BROOKS. Mr. Chairman, I yield 3 minutes to the distinguished gentleman from Florida [Mr. McCOLLUM], author of the amendment, and a man who has done an awful lot to try to resolve the issues in the Committee on the Judiciary, particularly on this particular bill. It is the kind of an amendment that helps make this bill viable.

Mr. McCOLLUM. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I think this is a good point in time to, at this juncture, summarize some of the critics out there and discuss where it is going on this. We have a complicated little bill here called the Brady bill. It is simple, on the one hand, but complicated in its scope.

We are dealing with preempting the States' rights now in this bill. We are telling every State that does not have a waiting period today if this bill passes that they are going to have to have one. It is going to be a 5-day waiting period, in order to be able to buy a gun at any gun dealer's store.

The primary reason for the waiting period that everybody has said for years, including the authors of this bill, is to be able to check to find the felons who are purchasing guns or trying to purchase guns at gun dealers' stores. That is a tiny fraction of the big problem. The big problem the American public wants to get at is how do we take most of the felons off the streets who are using these guns, and lock them up and throw away the key. That is the purpose of this bill, to get at that tiny fraction.

I am not opposed to that. I have always believed it was unnecessary to do that, because the check system we have in place now is not as good as it could be, but it is as good as it is going to be, and it can be done in 5 minutes or so.

Over a period of time, though, when this bill goes in effect, after it is mandated to these States that have to have

the waiting period, and some States already have a waiting period, and everybody is going to have one, there is going to be developed an instant check system, something that is going to be required of every State.

There are certain purposes set out in the bill that says that this instant check system is going to go through a process when it is in place at the end of the time, and before a gun dealer can sell a gun, if there is any State or local law, it says under this instant check system in the bill now, the way it is worded, you are not going to be, if it says you cannot buy a gun, you are not going to be able to buy a gun from the gun dealer.

All my amendment does is say, "Look, that is fine. I am all for that." Whatever States have that, that law stays on the books. If you have a permitting system, that is certainly part of that in any State or local law. We are specking at flies out here in every sense of the word when we try to distinguish things like some of these folks are doing out here.

All my amendment does is, it says that a pure waiting period is no longer going to be valid once this instant check system comes into place. That is all it does.

Mr. BROOKS. Mr. Chairman, will the gentleman yield?

Mr. MCCOLLUM. I am glad to yield to the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, if a State had a test as to age, they say that nobody under the age of 18 could buy handguns.

Mr. MCCOLLUM. Right.

Mr. BROOKS. If the gentleman will continue to yield, or that they had to have fingerprints, or that they had to have a high school education, or a little background check as to felonies and other little matters they might have been involved in, would that be precluded in any way by the gentleman's amendment?

□ 1530

Mr. MCCOLLUM. Reclaiming my time, Mr. Chairman, it would not be precluded in any way by my amendment. Once my amendment is in place, all of those laws would still be on the books, still be valid, and those checks would still have to be hurdled before somebody could buy a gun.

I thank the gentleman.

Mr. SCHUMER. Mr. Chairman, I yield myself 30 seconds. I just simply say again, read the language. It does not say that it imposes a waiting period just because it is a waiting period; it imposes waiting periods, any waiting period, waiting period for fingerprinting, waiting period for class, waiting period just for waiting period, all knocked out by the bill. We have spoken to the Attorney General's office. That is how they interpret it as

well. And again, this could knock out laws in 25 States.

Mr. Chairman, I yield 1 minute to the gentleman from North Dakota [Mr. POMEROY].

Mr. POMEROY. Mr. Chairman, I rise today as an opponent of the Brady bill. I will be voting against the Brady bill this afternoon.

I will also be voting against this amendment, however, which I find has nothing to do with gun control, but everything to do with the relationship between the Federal Government and local governments.

I came to Washington believing that Washington tries to put a one-size-fits-all stamp on the localities and the States of this country. All too often in my State, Washington preemption has caused all kinds of problems in any number of areas. We do not want to add to the problem of Washington preempting local decisionmakers accountable to different localities all across this country.

This is about the relationship of the Federal Government to local government, and I do not favor this expansion of the long arm of the Federal Government in this way.

Vote against this amendment.

Mr. BROOKS. Mr. Chairman, I yield myself a half a minute to inquire of the author of the amendment, 25 State laws they say will change. That is the statement of my friend from New York. That might be true. We question that.

But I would say there is no question about it that the bill, as now printed, already contravenes more State laws than that in mandating what that waiting period has got to be.

Mr. MCCOLLUM. Mr. Chairman, if the gentleman will yield, that is correct.

Mr. BROOKS. They want to play it both ways. Is that your understanding of the situation?

Mr. MCCOLLUM. That is my understanding, and our amendment is very narrow in what it does. That is my understanding.

Mr. BROOKS. Mr. Chairman, I yield 2 minutes to a distinguished friend and leader in this Congress for many years, the gentleman from Michigan [Mr. DINGELL], chairman of the Committee on Energy and Commerce.

Mr. DINGELL. Mr. Chairman, I thank my good friend, the gentleman from Texas [Mr. BROOKS] for yielding me this time.

Mr. Chairman, this is an excellent amendment. I commend its author. I urge my colleagues to support it.

This does one thing. It says that once a system of instant check is in place that all States must rely on it, all citizens will be under that law and treated equally. The only thing that it addresses is the waiting period and the instant check.

I urge my colleagues to recognize that everyone in the country should be

treated alike. There is no difference in the way a citizen of one community with regard to waiting periods would be treated than in any other. If this is good national policy for Detroit, or Chicago, or New York, or if it is a good national policy for Provo, UT, or Salt Lake City, or San Francisco, or Portland, OR, and indeed for Sheboygan, it is good for everybody else.

I would urge my colleagues to vote with me, my good friend, JACK BROOKS, and the distinguished author of this amendment for uniformity. Let us treat everybody alike. There is absolutely no reason for differentiation between different classes of citizens because they live in different places.

If this is going to halt crime, let us do it uniformly in all places. And I would urge my colleagues to vote for this amendment, to support the chairman of the committee who has wisely led us through this difficult thicket.

I would have my colleagues know that when the chairman of the Judiciary Committee, perhaps the foremost and most skilled and senior lawmaker in this place speaks, the House should listen, and we should understand that uniformity, equality, fairness in all parts of this country under the law with regard to firearm ownership is indeed desirable.

I urge my colleagues to vote for the amendment, to support the Honorable JACK BROOKS, and to vote for good sense and uniformity.

Mr. SCHUMER. Mr. Chairman, I yield myself 30 seconds.

I just have a letter that I would like to read into the RECORD from the Attorney General, Janet Reno.

I have consulted with Walter Dellinger, * * *

It is his opinion that the amendment, if adopted, would likely be interpreted by the courts to preempt not only State and local provisions that are explicit waiting periods, but also many other provisions that operate as de facto waiting periods, such as requirements of safety training before a purchaser can take possession of a firearm.

Mr. Chairman, I reserve the balance of my time.

Mr. MCCOLLUM. Mr. Chairman, I yield such time as he may consume to the gentleman from California [Mr. DORNAN].

Mr. DORNAN. Mr. Chairman, I have here a message from myself. It is dynamic in support of the amendment.

Mr. Chairman, I rise in opposition to the Brady bill. This Brady approach will have absolutely no effect on the incidence of violent crime.

The rationale behind a waiting period is that gun dealers would have the opportunity to determine if a potential customer is medically incompetent or a convicted felon, and if so prohibit them from obtaining a firearm. Yet the Brady bill does not require local law enforcement agencies to use this time to carry out even a minimal background check on purchasers. Nor does this bill provide any funding to pay for the administrative costs associated

with background checks. In reality then, the Brady bill is nothing more than a mandated suggestion.

Additionally, it is a myth that criminal records at State and Federal levels are complete and accurate enough for a background check to be effective. In fact, a task force of the U.S. Attorney General studied ways to identify felons attempting to purchase, firearms and determined that a vast number of felony convictions—40–60 percent—are not accessible electronically, making a felony check moot. Moreover, the absence of a national, comprehensive list of felons further impedes efforts by local law enforcement agencies to determine if individuals have criminal records.

Contributing to the inadequacy of criminal registers is our overcrowded criminal justice system. In most major cities, courts are so backed up with cases that prosecutors are routinely forced to plea bargain, leaving would-be felons to be charged with misdemeanors. The case of Patrick Purdy is an excellent example. This mass murderer lawfully purchased handguns in California under the 15-day waiting period. But because his previous felony arrests had been reduced to misdemeanors, background checks on him revealed nothing. The Brady bill will not change this predicament.

What is particularly disturbing about the Brady bill is its underlying assumption that criminals purchase handguns from federally licensed dealers. That is absurd. Criminals buy their weapons off the streets or steal them. In fact, only 7 percent of the guns obtained by violent criminals are obtained through lawful means. So the Brady bill will not inconvenience street thugs for a minute. Indeed, passage of the Brady bill will likely feed an already burgeoning black market for guns.

More importantly, most States with high crime rates already have waiting periods, along with a number of other draconian gun laws. Indeed there exists nearly 20,000 local, State, and Federal firearms regulations today. Yet these restrictions have had little—if any—effect on the number of violent crimes committed in areas with such laws. Not even the Gun Control Act of 1968, which placed a host of tough restrictions on gun ownership and transfers nationwide, has had a significant effect on crimes involving firearms. Just the opposite, statistics show that crime has increased almost threefold since its passage.

Clear and tragic examples of the failure of gun laws are Washington, DC, and New York City, which have some of the strictest gun restrictions in the Nation. Even in my home State of California, where the waiting period had been increased to 15 days, homicide rates have risen nearly twice as fast as the national increase after such a measure was enacted. The Brady bill will do nothing to stem this tide.

There are 200 million guns that remain in the hands of private citizens today. That's an enormous arsenal. How would the Brady bill, which only affects new purchases, control the number of guns already in circulation? The answer is, it would not. Which means somewhere down the line gun control advocates will redirect their efforts to confiscating those guns already in circulation. This would hardly be effective, since the most extensive scientific

study of gun control to date revealed that it would take several thousand [confiscated guns] to get just one that would otherwise be used to bring about someone's death.

Mr. Chairman, do my colleagues honestly believe that criminals will suddenly obey new gun restrictions, even though they clearly ignore the ones we already have? What makes anyone think that criminals will have a change of heart in the way they do business? Isn't it logical to assume that only law-abiding citizens abide by the law? Don't the statistics bear this out? Isn't that why crime is so rampant? Indeed gang members, armed robbers, and street thugs have made their careers out of breaking the law. No Brady bill can change this fact. Like drug addicts who will always find ways to get dope, criminals will always find ways to get guns. It's that simple.

With all of this in mind, I strongly believe that armed robberies, schoolyard violence, drive-by shootings, and other gang warfare cannot be prevented by the passage of the Brady bill. Not even the shooting of Jim Brady himself would have been prevented by this measure. Brady was shot with a gun that was purchased legally by John Hinckley weeks before he used it.

Mr. Chairman, gun control hardly addresses the real issue which is our turnstile justice system. If we are to reduce violent crime in America, we should make sure those responsible for such crime go to jail and stay there for a long time and, in many cases, forever. Unfortunately, our criminal justice system has become so lenient that criminals routinely serve pathetically short sentences and are allowed to walk free to abuse us again.

What we need is swift and sure justice with tough, mandatory sentences for criminals, including the death penalty for particularly heinous criminals who snuff out the lives of innocent victims and rip the hearts of their families. We also need an effective juvenile justice reform system that sends a powerful message to young people that criminal behavior will be severely punished. Furthermore, adequate prison facilities are necessary to ensure that all violent criminals are locked safely behind bars. Only these and other tough measures will help make headway against the rampant crime that is tearing our Nation apart.

While passage of the Brady bill may appear to be a common sense approach to combating crime, it will only succeed in impeding those law-abiding citizens who wish to purchase a gun for sport, hunting, collecting, or, most importantly, for protection—all of which are perfectly good reasons to own a gun. As looting during the Los Angeles riots and following Hurricane Andrew in southern Florida clearly demonstrated, waiting periods often leave law-abiding citizens disarmed and defenseless during grave emergencies.

In conclusion, I ask my colleagues to take a serious look at the source of crime in this Nation. It is not guns alone, but the criminals with illegally obtained guns who are maiming and killing our family, friends, neighbors, and fellow Americans. Let us pass a bill that addresses true criminal justice reform. Attack crime, not law-abiding citizens.

Mr. McCOLLUM. Mr. Chairman, I yield myself the balance of the time.

Mr. Chairman, I believe very distinctly this amendment has been ar-

ticulated well for everybody. I think it is very clear. It is something that will make uniformity out of this law.

If we are going to pass a waiting period, and then get an instant check eventually for those who are going to go and buy guns from gun dealers, we ought to have uniformity. There is absolutely no reason for a waiting period. All of the other arguments we have been hearing out here today are hogwash.

The interpretation of reading this bill and the language and what I have proposed in this amendment is very clear that the laws of the States will only be preempted when the instant check law is in place and everybody is going to be able to go out and find out what the rules of the game are. Then they ought to be preempted, and that is what my amendment does, and that is all it does.

Mr. BROOKS. Mr. Chairman, I yield back the balance of my time.

Mr. SCHUMER. Mr. Chairman, I yield my remaining time to the distinguished gentleman from New Jersey [Mr. HUGHES], a member of the Committee on the Judiciary.

Mr. HUGHES. Mr. Chairman, I thank the gentleman from New York for yielding the time and salute him on his leadership on this issue.

Let me tell Members, you buy this McCollum amendment and you are ready to buy the Brooklyn Bridge in the district of my colleague from New York. I mean, this would gut the bill. I mean we are going to recommend to the chairman of the committee, and I am sure I am not going to be alone, to vote against the bill if it carries, because what we have done is we have adopted Gekas, which is a sunset. In 5 years it is going to sunset. That is whether or not we have instant record check turnaround or not. It is going to sunset. It is going to leave.

In fact, the law, because it is sunset, means that if we do not have the ability, if we do not have the resources to automate and create a database that will enable us to create the instant check, it means that we will have no Brady bill at the Federal level.

If we pass this amendment, the McCollum amendment, it in essence is saying that whether or not we have an instant check or not we are going to wipe out all of the State laws throughout the country, whether or not we have a Brady bill or an instant check or not.

Well, folks, let me tell you we are going in the wrong direction. I can understand why my colleagues who are adamantly opposed to the Brady bill, like my colleague from Florida, and I respect that, and my distinguished chairman who are adamantly opposed to the Brady bill, I can understand why they would embrace this, because we are moving backwards. I would like to be able to say to my colleagues from

the States, some 25 around the country, how are you going to go back to your jurisdictions and explain to them that you just voted basically to repeal all of the State laws, including this one? These are the States that have had the courage to do something about the proliferation of guns, to require a check to see whether they have a criminal record or a mental history. They had the courage to do that.

□ 1540

And you are going to reward them for that courage by basically repealing the laws.

Mr. Chairman, we have to reject this; it is a killer amendment.

Let me tell you it is better to have no bill than to have this in the present bill.

Mr. Chairman, I urge my colleagues to reject McCollum.

Mr. BUYER. Mr. Chairman, I rise in support of the McCollum amendment and in opposition to the Brady bill.

Mr. Chairman, here we go again. Congress is whitewashing the will of the people with the usual rhetoric. The people have spoken, all across the Nation. America's families are demanding that this Government address our crime problems. They want to feel safe when they walk along their streets, while they sit on their front porch, and while they sleep at night.

Many lawmakers are claiming they are tough on crime and have fulfilled their responsibility by voting for the four token crime bills last week and for supporting the Brady bill today. It is obvious that Congress continues to hack away at our Nation's crime problem with a butter knife.

We all know that if criminals want guns, they can get them. So, why does Congress continue to profess with all the warm and fuzzies that now, all of a sudden, criminals and children will no longer be armed or have access to guns? Over 70 percent of States already have some form of a waiting period and background check. Yet Congress, with this measure, is going to swoop down and solve the problem. It is obvious this won't happen.

History has proven that waiting periods are ineffective. They merely redirect policy from fighting crime.

Congress has got to provide law enforcement officials with the real tools to fight crime.

Mr. Chairman, the intent of this bill is to get firearms out of the hands of criminals and thereby reduce the amount of crime. Congress has shown it is not willing to do what is necessary.

The protection of our families, children, and seniors should be foremost in our concerns. Congress needs to enact new and increased mandatory minimum sentences for crimes which are committed with the use of a firearm as well as for other violent crimes and drug-related crimes. We must expand the use of the death penalty to send the message to criminals that their actions will not be tolerated. We must end the deplorable rate of recidivism, by enacting the LIFER provision. We must also build new prisons to house these criminals and keep them off the streets to replace the revolving door with a barred one.

Mr. Chairman, the waiting period provision in the Brady bill is just another unfunded Federal mandate passed on to our State and local governments. Congress needs to provide States with a computerized, national instant background check system, as well as a tough, comprehensive crime bill.

The CHAIRMAN. The question is on the amendment, as modified, offered by the gentleman from Florida [Mr. McCollum].

The question was taken, and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. McCOLLUM. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 175, noes 257, not voting 6, as follows:

NOT VOTING—6

Faleomavaega (AS)	Murphy	Underwood (GU)
Moakley	Romero-Barcelo (PR)	Waters

□ 1559

Messrs. PETRI, NEAL of Massachusetts, ORTIZ, AND HALL of Texas changed their vote from "aye" to "no."

Mr. WILLIAMS and Mr. CANADY changed their vote from "no" to "aye."

So the amendment was rejected. The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Ms. WATERS. Mr. Chairman, on roll-call 560 I am recorded as not voting. Had I been present, I would have voted "no."

I ask that my statement appears in the RECORD immediately following the vote.

The CHAIRMAN. The question is on the committee amendment in the nature of a substitute, as modified, as amended.

The committee amendment in the nature of a substitute, as modified, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

□ 1600

Accordingly the Committee rose; and the Speaker pro tempore (Mr. MURTHA) having assumed the chair, Mr. SKAGGS, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 1025) to provide for a waiting period before the purchase of a handgun, and for the establishment of a national instant criminal background check system to be contacted by firearms dealers before the transfer of any firearm, pursuant to House Resolution 302, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the committee amendment in the nature of a substitute, as modified, as amended, adopted by the Committee of the Whole?

Mr. SOLOMON. Mr. Speaker, I demand a separate vote on the so-called Ramstad amendment and also on the so-called Gekas amendment.

The SPEAKER pro tempore. The Clerk will report the first amendment on which a separate vote has been demanded.

The Clerk read as follows:

Amendment: In paragraph (6) of the matter proposed to be added by section 2(a)(1) of the Committee amendment, add at the end the following:

"(C) If a chief law enforcement officer determines that an individual is ineligible to receive a handgun and the individual requests the officer to provide the reasons for the determination, the officer shall provide such reasons to the individual within 20 business days after receipt of the request.

Mr. SENSENBRENNER (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. SOLOMON. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 425, noes 4, not voting 4, as follows:

[Roll No. 561]

Moran

Schenk

NOT VOTING—4

McCurdy

Murphy

Moakley

Payne (NJ)

□ 1618

Mr. PALLONE changed his vote from "aye" to "no."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Ms. SCHENK. Mr. Speaker, today, during rollcall vote 561, I inadvertently voted "no" on the Ramstad amendment to H.R. 1025. During consideration of the same amendment in the Committee of the Whole, I voted "aye" and intended to vote "aye" in the whole House.

PERSONAL EXPLANATION

Mrs. KENNELLY. Mr. Speaker, during consideration of the Brady bill I

voted "no" on the Ramstad Amendment when it was revoted in the House on rollcall 561. I meant to vote "yes" on the amendment, as I did during consideration in the Committee of the Whole.

The SPEAKER pro tempore (Mr. MURTHA). The Clerk will report the second amendment on which a separate vote has been demanded.

The Clerk read as follows:

Amendment: In paragraph (1) of the matter proposed to be added by section 2(a)(1) of the Committee amendment, strike "the Attorney General" and all that follows through "section)," and insert "is 60 months after such date of enactment".

In paragraph (1)(D) of the matter proposed to be added by section 2(a)(1) of the Committee amendment, strike "except" and all that follows through "Act".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, insert "is 30 days after" before "the Attorney".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "certifies under section 3(b)(1)" and insert "notifies licensees under section 3(e)".

In paragraph (1) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "(except as provided in paragraphs (2) and (3) of such section)".

In paragraph (1)(B) of the matter proposed to be added by section 2(b) of the Committee amendment, strike "(B)" and all that follows through "firearm" and insert the following:

"(B)(i) the system provides the licensee with a unique identification number; or

"(ii) 1 business day (as defined in subsection (s)(8)(B)) has elapsed since the end of the business day on which the licensee contacted the system, and the system has not notified the licensee that the receipt of the handgun".

In section 3(a) of the Committee amendment, strike "The" and insert "Not later than 60 months after the date of the enactment of this Act, the".

In section 3(c) of the Committee amendment—

- (1) strike "(1)";
- (2) Strike "(A) determine" and insert "(1) determine";
- (3) strike "(B) investigate" and insert "(2) investigate";
- (4) strike "(C) notify" and insert "(3) notify";
- (5) strike "subparagraphs (A) and (B)" and insert "paragraphs (1) and (2)"; and
- (6) strike paragraph (2).

In section 3 of the Committee amendment, strike subsection (d) and insert the following:

(d) OPERATION OF THE SYSTEM.—

(1) GENERAL RULE.—If a licensee contacts the national instant criminal background check system with respect to a firearm transfer, the system shall, during the contact or by return contact without delay—

(A) review available criminal history records to determine whether receipt of a firearm by the prospective transferee would violate subsection (g) or (n) of section 922 of title 18, United States Code, or any State or local law; and

(B)(i) if the receipt would not be such a violation—

(I) assign a unique identification number to the transfer;

(II) provide the licensee with the identification number; and

(III) immediately destroy all records of the system with respect to the contact (other than the identification number and the date the number was assigned) and all records of the system relating to the transferee or the transfer or derived therefrom; or

(i) if the receipt would be such a violation—

(I) notify the licensee that the receipt would be such a violation; and

(II) maintain the records created by the system with respect to the proposed transfer.

(2) SPECIAL RULE.—If a licensee contacts the national instant criminal background check system with respect to a firearm transfer and the system is unable to comply with paragraph (1) during the contact or by return contact without delay, then the system shall comply with paragraph (1) not later than the end of the next business day.

In section 4(a) of the Committee amendment—

(1) strike all that precedes "Section 509(b)" and insert "(a) USE OF FORMULA GRANTS.—"

(2) strike "(A) in" and insert "(1) in";

(3) strike "(B) in" and insert "(2) in";

(4) strike "(C) by" and insert "(3) by";

(5) strike "(2) ADDITIONAL FUNDING" and insert "(b) ADDITIONAL FUNDING";

(6) strike "(A) GRANTS" and insert "(1) GRANTS";

(7) strike "(i)" and insert "(A)";

(8) strike "(ii)" and insert "(B)";

(9) strike "(iii)" and insert "(C)";

(10) strike "(B) AUTHORIZATION" and insert "(2) AUTHORIZATION"; and

(1) strike "subparagraph (A)" and insert "paragraph (1)".

In section 4 of the Committee amendment, strike subsection (b).

Mr. WALKER (during the reading).

Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. WALKER. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—yeas 238, nays 192, not voting 3, as follows:

[Roll No. 562]

NOT VOTING—3

Moakley	Murphy	Shuster
---------	--------	---------

□ 1626

Mr. HALL of Texas and Mr. MOLLOHAN changed their vote from "no" to "aye."

Mr. MINETA changed his vote from "aye" to "no."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. MURTHA). The question is on the committee amendment in the nature of a substitute, as modified, as amended.

The committee amendment in the nature of a substitute, as modified, as amended, was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read a third time.

MOTION TO RECOMMIT OFFERED BY MR. SCHIFF

Mr. SCHIFF. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. SCHIFF. I am, Mr. Speaker, in its present form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. SCHIFF moves to recommit the bill, H.R. 1025, to the Committee on the Judiciary with instructions to report the same to the House with such amendments as may be necessary to—

(1) eliminate the requirement that a State or local official conduct a background check of a prospective handgun transferee; or

(2) ensure that the costs of such background checks (as determined by the Attorney General of the United States) are fully funded by the Federal Government.

Mr. SCHIFF (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Mexico?

There was no objection.

The SPEAKER pro tempore. The gentleman from New Mexico [Mr. SCHIFF] is recognized for 5 minutes in support of his motion to recommit.

Mr. SCHIFF. Mr. Speaker, I will be brief.

In rejecting the McCollum amendment a few minutes ago, we made a resounding statement in favor of State and local government prerogatives to pass gun laws that they think are appropriate for their locations. I agree with that decision.

My motion to recommit, if adopted, would further that very same policy. The bill, as written now, is an unfunded mandate on local police and local sheriffs, unlike H.R. 7, the predecessor bill in the last Congress, which did not make a requirement upon chief law enforcement officers.

□ 1630

Mr. Speaker, the bill as written now, H.R. 1025, imposes an unfunded mandate on local government. This did not occur under the predecessor bill, H.R. 7, which made no requirement to chief law enforcement officers that they take any kind of action.

The motion to recommit I have offered directs the Committee on the Judiciary to remove the unfunded mandate by either removing the requirement now in the bill that chiefs of police and sheriffs take action, or requires that the Federal Government fund the action that we are ordering them to take. Either solution will solve this problem.

Mr. Speaker, I want to conclude by saying that although we do have an authorization of funds in this bill, that is for the instant check and the computer records upgrade. There is no authorization of funding to do a personal background check, but that is what we are ordering the local police and sheriffs to do. If we are for State prerogatives, which we have just voted to support in rejecting the McCollum amendment, and if we are against unfunded mandates, which most of us have stated, I ask for adoption of this motion.

The SPEAKER pro tempore (Mr. MURTHA). Does the gentleman from Texas [Mr. BROOKS] wish to be heard on the motion to recommit?

Mr. BROOKS. Yes, Mr. Speaker.

The SPEAKER pro tempore. The gentleman from Texas [Mr. BROOKS] is recognized for five minutes in opposition to the motion to recommit.

Mr. BROOKS. Mr. Speaker, I am opposed to the motion to recommit. Despite the tremendous effort of my good friend, the gentleman from New Mexico [Mr. SCHIFF], I would oppose the motion to recommit. I do not think we need to send that bill back to the Committee on the Judiciary, not this year, anyhow.

Mr. SCHUMER. Mr. Speaker, will the gentleman yield?

Mr. BROOKS. I yield to the gentleman from New York.

Mr. SCHUMER. Mr. Speaker, this is the first time my beloved chairman, the gentleman from Texas [Mr. BROOKS] and I have agreed on an issue today, but I also oppose the motion to recommit, and in the interest of time I will not elaborate.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. SCHIFF. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 5 of rule XV, the Chair announces that the vote on final passage will be reduced to 5 minutes.

The vote was taken by electronic device, and there were—yeas 200, nays 229, not voting 4, as follows:

[Roll No. 563]

NOT VOTING—4

McCandless	Murphy
Moakley	Shuster

□ 1648

Mr. LANCASTER changed his vote from "no" to "aye."

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. MURTHA). The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SENSENBRENNER. Mr. Speaker, on that I demand the yeas and nays. The yeas and nays were ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 238, nays 189, not voting 6, as follows:

(Roll No. 564)

NOT VOTING—6

Deal	McCandless	Murphy
Kopetski	Moakley	Shuster

□ 1655

The Clerk announced the following pair:

On this vote:

Mr. Moakley for, with Mr. Murphy against.

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. KOPETSKI. Madam Speaker, I was unavoidably detained, I was meeting with some officials from Oregon State University, and missed rollcall vote No. 564.

Had I been present, I would have voted against passage of the measure, H.R. 1025.

PERSONAL EXPLANATION

Mr. DEAL. Madam Speaker, I was unavoidably called off the floor during rollcall vote No. 564. Had I been present, I would have voted "no."

PERSONAL EXPLANATION

Mrs. BENTLEY. Madam Speaker, it has come to my attention that on final passage, rollcall No. 564, the Brady bill today, my vote was incorrectly recorded. I voted "aye", but the printed rollcall listed me as a "no" vote. I favor the bill, have voted for it in the past, and I ask that my statement in support of the Brady bill appear in the RECORD.

GENERAL LEAVE

Mr. BROOKS. Mr. Speaker, I ask unanimous consent that all Members shall have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore (Mr. MURTHA). Is there objection to the request of the gentleman from Texas?

There was no objection.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 2401, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1994

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a conference report on the bill (H.R. 2401) to authorize appropriations for fiscal year 1994 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

The SPEAKER pro tempore (Mr. MURTHA). Is there objection to the request of the gentleman from Mississippi?

There was no objection.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2401, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1994

Ms. SLAUGHTER, from the Committee on Rules, submitted a privileged report (Rept. No. 103-351) waiving points of order against the conference report to accompany the bill (H.R. 2401) to authorize appropriations for fiscal year 1994 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 1994, and for other purposes, which was referred to the House Calendar and ordered to be printed.

ELECTION AS MEMBERS TO CERTAIN STANDING COMMITTEES

Mr. HOYER. Mr. Speaker, I offer a privileged resolution (H. Res. 306) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 306

Resolved, That the following named Members be, and they are hereby, elected to the following standing committees of the House of Representatives:

Committee on Foreign Affairs: Luis V. Gutierrez, Illinois.

Committee on Science, Space, and Technology: Bobby L. Rush, Illinois.

The resolution was agreed to.

A motion to reconsider was laid on the table.

CONTINUATION OF SERVICE AS CHAIRMAN AND MEMBER, RESPECTIVELY, OF THE PERMANENT SELECT COMMITTEE ON INTELLIGENCE

Mr. HOYER. Mr. Speaker, I ask unanimous consent, that notwithstanding the provisions of clause 1(C) of rule XLVIII, Representative GLICKMAN of Kansas and Representative RICHARDSON of New Mexico may continue to serve as chairman and member, respectively, of the Permanent Select Committee on Intelligence for the remainder of the 103d Congress.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Ms. Michele Payer, one of his secretaries.

LEGISLATIVE CALENDAR

(Mr. MICHEL asked and was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I requested this 1-minute in order that I

might inquire of the distinguished chairman of the Democratic caucus, the gentleman from Maryland [Mr. HOYER], what we have in store for us next week.

Mr. HOYER. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to the gentleman from Maryland.

Mr. HOYER. I thank the gentleman, my friend, for yielding, our distinguished minority leader.

As the minority leader knows, we will be attempting to adjourn for the district work period through December on November 22. Therefore, next week will be a very busy week. We will be going in on Monday, we do not expect any votes until 4 p.m. We will not have votes until 4 p.m. There are 21 bills on suspension:

H.R. —, to authorize appropriations for carrying out the Earthquake Hazards Reduction Act of 1977 for fiscal years 1994, 1995, and 1996;

H.R. 3318, Federal Employees Clean Air Incentives Act;

H.R. 2884, School-to-Work Opportunities Act of 1993;

H.R. 3186, Arceneaux Courthouse;

H.R. 3356, Edwin Ford Hunter Court-

house;

H.R. 2868, John Minor Wisdom Court-

house;

H.R. 2559, Richard Bolling Federal Building;

H.R. 881, Smoking ban;

H.R. 3445, Hazard Mitigation and Flood Damage Reduction Act of 1993;

H.R. 2121, Negotiated Rates Act of 1993;

H.R. 3460, Hazardous Materials Transportation Act;

H.R. 3321, Low Income Home Energy Assistance Program;

S. 433, To convey certain lands in Cameron Parish, LA, and for other purposes;

H.R. 3286, To amend the act establishing Golden Gate National Recreation Area;

H.R. 2620, BLM expansion of Gene Chappie Shasta OHV Area;

H.R. 1137, Old Faithful Protection Act of 1993;

S.J. Res. 19, To acknowledge the 100th anniversary of the 1893 overthrow of the Kingdom of Hawaii, and to offer an apology to native Hawaiians on behalf of the United States;

H.R. 1425, American Indian Agricultural Resources Management Act;

H.R. 3313, Veterans Health Improvements Act of 1993;

H.R. 3456, Surviving Spouses' Benefits Act of 1993; and

H.R. 3000, the Friendship With Russia, Ukraine and Other New Independent States Act.

Let me say that we will go in at noon on Monday and consider those suspensions, but there will be no votes before 4.

There is also, in addition to the suspensions on Monday, H.R. 2401, the Defense authorization conference report, will be on the floor.

Mr. MICHEL. Did I hear the gentlemen say we would not expect any rollcalls until after 4?

Mr. HOYER. The gentleman is correct.

Mr. MICHEL. On Monday.

Mr. HOYER. That is correct, 4 or later.

On Tuesday and the balance of the week we will have a number of pieces of legislation: The Mineral Exploration and Development Act, subject to a rule; Department of Environmental Protection Act, subject to a rule; the North American Free-Trade Agreement, subject to a rule; the Freedom of Access to Clinic Entrances Act of 1993, subject to a rule; reinventing Government, the REGO legislation; as well as the legislation out of the Appropriations Committee on rescissions; the campaign finance reform bill we expect to have on the floor, the lobbying reform, and all of these subject to rules; and the unemployment compensation program extension conference report, which resulted from the vote we had this week.

□ 1700

I would say to my distinguished friend that we expect to be meeting on Saturday and Sunday to provide for us getting out on the 22d, because our load is heavy.

We probably will go in at 12 o'clock on Saturday and 2 on Sunday, although that has not been set and is subject to further discussion, but probably those are the times.

Mr. MICHEL. Mr. Speaker, I think I heard from the other body a suggestion of the 23d for their getaway day. Does that put us on notice that we are striving for the 22d, but we may have to be here the 23d?

Mr. HOYER. The minority leader has had more experience than I in that and probably is more correct in that than I would like to be, but I think the gentleman is correct. I think Members would be well advised to make sure that their schedules are not taken up on the 23d because obviously with this heavy agenda of those items on our calendar to complete, the 23d may well be a possibility.

Mr. MICHEL. Mr. Speaker, I thank the distinguished gentleman.

DISPENSING WITH CALENDAR
WEDNESDAY BUSINESS ON
WEDNESDAY NEXT

Mr. HOYER. Madam Speaker, I ask unanimous consent that the business rule be dispensed with on Wednesday, November 17, 1993.

The SPEAKER pro tempore (Ms. SLAUGHTER). Is there objection to the request of the gentleman from Maryland?

There was no objection.

AMENDING FOOD STAMP ACT OF 1977 TO ENSURE ADEQUATE ACCESS TO RETAIL FOOD STORES BY FOOD STAMP RECIPIENTS

Mr. STENHOLM. Madam Speaker, I ask unanimous consent for the immediate consideration in the House of the bill (H.R. 3436) to amend the Food Stamp Act of 1977 to ensure adequate access to retail stores by recipients of food stamps and to maintain the integrity of the Food Stamp Program.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. ROBERTS. Reserving the right to object, Madam Speaker, I shall not object. I rise in support of the bill, H.R. 3436, and I yield to the distinguished gentleman from Texas to explain to the House the nature of the bill.

Mr. STENHOLM. Madam Speaker, H.R. 3436 has two important objectives. First, this bill will ensure that food stamp recipients continue to have adequate access to a variety of retail stores to acquire nutritious food. It will do so by correcting an unintended situation which threatens to eliminate the authorization for thousands of small retail stores to accept food stamps for food purchase.

Second, the bill provides additional authority to the Secretary to enhance the Department's efforts at reducing fraud and abuse in the Food Stamp Program.

Let me briefly explain the circumstances that led to the Agriculture Committee's interest in these issues and the drafting of the legislation before us.

Last winter the Food and Nutrition Service [FNS] of the U.S. Department of Agriculture began its process of reauthorizing food stamp retailers. During that reauthorization process, FNS decided that a number of small retailer establishments no longer meet the technical definition of retail food store in the Food Stamp Act, even though many have participated in the program for years.

USDA has informed the Committee on Agriculture that these stores will soon have their authorization to participate in the Food Stamp Program withdrawn.

This action threatens to deny ready access by food stamp households to food stores. This could create an acute problem in many rural areas and in inner cities where there are few supermarkets. H.R. 3436 will remedy this situation.

Currently, the Food Stamp Act requires that an eligible retail food store have over 50 percent of its food sales volume in staple foods.

H.R. 3436 would make a retail food store eligible to participate in the Food Stamp Program if it meets one or the other of the following conditions:

If the store has over 50 percent of its total sales volume, not simply its food sales volume, in staple foods, or;

If the store offers, on a continuous basis, a variety of food in each of four categories of staple foods, and sells perishable foods in at least two of these categories of staple foods.

Either of these requirements will ensure that only those stores which sell a significant number of staple foods will be eligible to participate. The bill defines staple food categories as: meat, poultry, and fish; bread or cereals; vegetables or fruits; and dairy products.

H.R. 3436 does not change the current prohibition on the participation of certain types of stores, such as those that sell only accessory foods, including spices, candy, soft drinks, tea or coffee, ice cream vendors, and doughnut shops.

The bill also amends the Food Stamp Act to strengthen the authority of the Secretary to maintain program integrity. It would permit the use and disclosure of information provided by retail food stores and wholesale food concerns to law enforcement and investigate agencies investigating abuses of the Food Stamp Act or other Federal or State laws.

The bill imposes penalties on those who publish, divulge, or disclose to any of the information obtained in such an investigation if not authorized by Federal law.

Finally, H.R. 3436 requires that the Secretary use up to \$4 million for specific kinds of demonstration projects. This funding is provided only to help State or local food stamp agencies test new ideas for working with State or local law enforcement agencies to investigate and prosecute street food stamp trafficking. Trafficking in food stamps has always been prohibited by the Food Stamp Act.

The Congressional Budget Office [CBO] indicates sections 1, 2, 3, and 5 of H.R. 3436 have insignificant costs. Section 4, which authorizes up to \$4 million for demonstration projects to test activities directed at street trafficking in coupons, is subject to appropriations.

This legislation was supported in the Committee on Agriculture by both sides of the aisle. In addition, it is supported by the administration. I urge its immediate adoption.

Mr. ROBERTS. Madam Speaker, I rise in support of H.R. 3436, a bill to amend the Food Stamp Act. To redefine which retail food stores can accept food stamp coupons. Additionally H.R. 3436 will strengthen the enforcement of this provision; allow information provided by retail food stores to be shared with law enforcement officials; and, require that the Secretary spend up to \$4 million on pilot projects designed to improve the investigation and prosecution of food stamp trafficking.

The 1990 farm bill authorized the U.S. Department of Agriculture to conduct

periodic reauthorizations of retail food stores. In 1992, USDA proposed to remove several hundred stores, primarily convenience food stores, that did not meet the qualifications included in the Food Stamp Act. This action was subsequently rescinded this year by the Secretary of Agriculture and he recommended that Congress revise the definition of a retail food store for the Food Stamp Program.

Several retail food stores in Kansas advised me of the need to change this definition in order to move away from only a sales-based test and take into account the variety of staple foods sold in convenience food stores.

I believe it is essential, to protect the integrity of the Food Stamp Program, that any new definition of a retail food store adheres to the purposes of the Food Stamp Act and provides for improved levels of nutrition for needy families. Only stores that are primarily food stores should be authorized to accept food stamp coupons. Additionally, USDA must exercise its responsibility to ensure that only those stores meeting the requirements of the act can participate in the Food Stamp Program.

H.R. 3436 meets those tests.

The bill requires that in order to accept food stamps, a retail food store must either: offer for sale, on a continuous basis, a variety of foods in each of four staple food categories—meat, poultry, or fish; bread or cereals; vegetables or fruits; and dairy products; or, have over 50 percent of its total sales in staple foods. The current definition requires that stores have over 50 percent of food sales in staple foods.

The bill also requires the Secretary to issue regulations providing for periodic reauthorization of stores and requires periodic notice regarding the definition of retail food stores, staple foods, eligible foods, and perishable foods. Also, the bill allows the use and disclosure to State and Federal law enforcement officials of information provided by stores for the purpose of administering and enforcing the provisions of the Food Stamp Act or other Federal or State laws. Penalties are established for those misusing any of this information.

That provision was a part of the Food Stamp Anti-Fraud Act, H.R. 1887, introduced here in the House by Congressman EWING and by Senator MCCONNELL in the Senate. I am pleased that this provision has been included in the bill being considered today.

Finally, the bill requires the Secretary to use up to \$4 million of demonstration project funds to test innovative ideas to investigate and prosecute trafficking in food stamps by recipients, buyers, and retail food stores.

The administration supports enactment of H.R. 3436 and States there is no budgetary impact due to the changes in the retail food store definition. CBO es-

timates that the direct cost of H.R. 3436 is less than \$500,000.

Madam Speaker, I urge support for H.R. 3436.

Madam Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3436

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FOOD STAMP ACT DEFINITIONS.

Effective on the date of enactment of this Act, section 3 of the Food Stamp Act of 1977 (7 U.S.C. 2012) is amended by—

(1) amending clause (1) of subsection (k) to read as follows:

“(1) an establishment or house-to-house trade route which sells food for home preparation and consumption and (A) offers for sale on a continuous basis a variety of foods in each of the four categories of staple foods as defined in subsection (u), including perishable foods in at least two such categories, or (B) has over 50 percent of its total sales in staple foods as defined in subsection (u) of this section, as determined by visual inspection, sales records, purchase records, counting of stock keeping units, or other inventory or accounting recordkeeping methods that are customary or reasonable in the retail food industry.”;

(2) adding the following new sentence at the end of subsection (k): “An establishment or house-to-house trade route that is authorized at the time of implementation of clause (1) may be considered to meet this definition until its periodic reauthorization or until such time as the eligibility of the firm for continued participation in the food stamp program is evaluated for any reason.”; and

(3) adding a new subsection (u) at the end thereof to read as follows:

“(u) ‘Staple foods’ means foods in the following categories: (1) meat, poultry, or fish; (2) bread or cereals; (3) vegetables or fruits; and (4) dairy products; but does not include accessory food items such as coffee, tea, cocoa, carbonated and uncarbonated drinks, candy, condiments and spices.”.

SEC. 2. PERIODIC NOTICE.

Section 9(a)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2018(a)(2)) is amended to read as follows:

“(2) The Secretary shall issue regulations providing for a periodic reauthorization of retail food store and wholesale food concerns, and providing for periodic notice to participating retail food stores and wholesale food concerns of the definitions of ‘retail food store’, ‘staple foods’, ‘eligible foods’, and ‘perishable foods.’”

SEC. 3. USE AND DISCLOSURE OF INFORMATION PROVIDED BY RETAIL FOOD STORES AND WHOLESALE FOOD CONCERNS.

Section 9(c) of the Food Stamp Act of 1977 (7 U.S.C. 2018(c)) is amended—

(1) in the second sentence by inserting after “disclosed to and used by” the following: “Federal law enforcement and investigative agencies and law enforcement and investigative agencies of a State government for the purposes of administering or enforcing the provisions of this Act or any other Federal or State law and the regulations issued under this Act or such law, and”;

(2) by inserting after the second sentence the following: “An officer or employee of an

agency described in the preceding sentence who publishes, divulges, discloses, or makes known in any manner or to any extent not authorized by Federal law any information obtained under the authority granted by this subsection shall be subject to section 1905 of title 18 of the United States Code.”; and

(3) in the last sentence by striking “Such purposes shall not exclude” and inserting the following: “Such regulations shall establish the criteria to be used by the Secretary to determine that such information is needed. Such regulations shall not prohibit”.

SEC. 4. DEMONSTRATION PROJECTS TESTING ACTIVITIES DIRECTED AT STREET TRAFFICKING IN COUPONS.

Section 17 of the Food Stamp Act of 1977 (7 U.S.C. 2026) is amended by adding a new subsection (1) at the end thereof as follows—

“(1) The Secretary shall use up to \$4 million of funds provided in advance in appropriations Acts for projects authorized by this section to conduct projects in which State or local food stamp agencies test innovative ideas for working with State or local law enforcement agencies to investigate and prosecute coupon street trafficking by recipients, buyers, and authorized retail food stores.”.

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. STENHOLM

Mr. STENHOLM. Madam Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. STENHOLM: Strike out all after the enacting clause and insert in lieu thereof the following:

SECTION 1. FOOD STAMP ACT DEFINITIONS.

Section 3 of the Food Stamp Act of 1977 (7 U.S.C. 2012) is amended by—

(1) amending clause (1) of subsection (k) to read as follows: “(1) an establishment or house-to-house trade route that sells food for home preparation and consumption and (A) offers for sale on a continuous basis a variety of foods in each of the four categories of staple foods as defined in subsection (u), including perishable foods in at least two such categories, or (B) has over 50 percent of its total sales in staple foods, as determined by visual inspection, sales records, purchase records, counting of stock keeping units, or other inventory or accounting recordkeeping methods that are customary or reasonable in the retail food industry.”;

(2) adding a new subsection (u) at the end thereof to read as follows—

“(u) ‘Staple foods’ means foods in the following categories: (1) meat, poultry, or fish; (2) bread or cereals; (3) vegetables or fruits; and (4) dairy products. Staple foods do not include accessory food items such as coffee, tea, cocoa, carbonated and uncarbonated drinks, candy, condiments, and spices.”.

SEC. 2. PERIODIC NOTICE.

Section 9(a)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2018(a)(2)) is amended to read as follows:

“(2) The Secretary shall issue regulations providing for a periodic reauthorization of retail food stores and wholesale food concerns, and providing for periodic notice to participating retail food stores and wholesale food concerns of the definitions of ‘retail food store’, ‘staple foods’, ‘eligible foods’, and ‘perishable foods.’”

SEC. 3. USE AND DISCLOSURE OF INFORMATION PROVIDED BY RETAIL FOOD STORES AND WHOLESALE FOOD CONCERNS.

Section 9(c) of the Food Stamp Act of 1977 (7 U.S.C. 2018(c)) is amended—

(1) in the second sentence by inserting after "disclosed to and used by" the following: "(1) Federal law enforcement and investigative agencies and law enforcement and investigative agencies of a State government for the purposes of administering or enforcing the provisions of this Act or any other Federal or State law and the regulations issued under this Act or such law, and (2)";

(2) by inserting after the second sentence the following: "Any person who publishes, divulges, discloses, or makes known in any manner or to any extent not authorized by Federal law, or the regulations issued under this Act, any information obtained under this subsection shall be fined not more than \$1,000, or imprisoned not more than one year, or both."; and

(3) in the last sentence by striking "Such purposes shall not exclude" and inserting the following: "Such regulations shall establish the criteria to be used by the Secretary to determine that such information is needed. Such regulations shall not prohibit".

SEC. 4. DEMONSTRATION PROJECTS TESTING ACTIVITIES DIRECTED AT TRAFFICKING IN COUPONS.

Section 17 of the Food Stamp Act of 1977 (7 U.S.C. 2026) is amended by adding a new subsection (1) at the end thereof as follows:

"(1) The Secretary shall use up to \$4,000,000 of the funds provided in advance in appropriations Acts for projects authorized by this section to conduct demonstration projects in which State or local food stamp agencies test innovative ideas for working with State or local law enforcement agencies to investigate and prosecute coupon trafficking by recipients, buyers, and retail food stores."

SEC. 5. CONTINUING ELIGIBILITY.

An establishment or house-to-house trade route that is otherwise authorized to accept and redeem coupons under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) at the time of enactment of this Act shall be considered to meet the definition of "retail food store" in section 3(k) of the Food Stamp Act of 1977, as amended by section 1 of this Act, until its periodic reauthorization or until such time as the eligibility of the establishment or house-to-house trade route for continued participation in the food stamp program is evaluated for any reason.

Mr. STENHOLM (during the reading). Madam Speaker, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from Texas [Mr. STENHOLM].

The amendment in the nature of a substitute was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. STENHOLM. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 3436, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

GEOGRAPHY AWARENESS WEEK

Mr. WYNN. Madam Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 131) designating the week beginning November 14, 1993, and the week beginning November 13, 1994, each as "Geography Awareness Week" and ask for its immediate consideration in the House.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

Mr. ROBERTS. Madam Speaker, reserving the right to object, I will not object, but I should simply like to inform the House that the minority has no objection to the legislation now being considered.

I am delighted to yield to the distinguished gentleman from Maryland to further explain anything that he would like in regard to the bill, if he would so choose.

Mr. WYNN. Madam Speaker, I thank the gentleman from Kansas.

Mr. KILDEE. Madam Speaker, I rise today in support of House Joint Resolution 197, legislation designating the week of November 14, 1993, and November 13, 1994, as "Geography Awareness Week." As a former school teacher, and as the chairman of the Subcommittee on Elementary, Secondary, and Vocational Education, I realize the great need for geography education for American students. Madam Speaker, the need for geographic knowledge was identified by the national goals for education as one of the core subjects in which American students should demonstrate competency. This need has also been highlighted in a 1988 study that found Americans between the ages of 18 and 24-years-old ranked last in an international comparison of geographic knowledge, and American adults of all ages scored among the bottom third. In addition, 3 in 4 Americans surveyed—132 million Americans in all—could not locate the Persian Gulf on a map, and 1 in 4 could not identify the Pacific Ocean. Madam Speaker, this news alarms me because our young people must have knowledge of other lands and other cultures if we are to compete effectively in a global economy.

Geography Awareness Week will serve as one way to emphasize and stress the importance of geographic knowledge so that today's students, and America's future leaders, will be prepared to compete in the international marketplace. Now more than ever, we must continue to support such efforts to ensure that our children grow up to be geographically literate.

Madam Speaker, I am pleased that a majority of my colleagues have joined me in supporting this bill, and I urge the House to adopt this bill.

Mr. ROBERTS. Madam Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 131

Whereas geography is the study of people and their planet, offering a framework for understanding ourselves, our interdependence with other peoples, our relationship to the Earth, and world events;

Whereas the United States has both worldwide involvements and influence that demand an understanding of geography, different cultures, and foreign languages;

Whereas a thorough knowledge of geography, different cultures, and foreign languages is essential to maintain the Nation's stature in the international community in matters of business, politics, the environment, and global events;

Whereas a geographic perspective is needed to understand the relationship between human activity and the condition of our planet in this time of increasing environmental problems;

Whereas our Nation's Governors, in their National Education Goals, explicitly identified geography along with English, mathematics, science, and history as the 5 core subjects in which American students should demonstrate competency;

Whereas world standards are being developed as benchmarks for student performance in each of the core subject identified in the National Education Goals; and

Whereas a knowledge of world geography is essential for citizens of the United States to assume a responsible role in the future of an increasingly interconnected and interdependent world: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week beginning November 14, 1993, and the week beginning November 13, 1994, each be designated as "Geography Awareness Week", and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such weeks with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. WYNN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on Senate Joint Resolution 131, the Senate joint resolution just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

REPORT ON DEVELOPMENTS CONCERNING NATIONAL EMERGENCY WITH RESPECT TO IRAN—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 103-164)

The SPEAKER pro tempore laid before the House the following message

from the President of the United States; which was read, and, without objection, referred to the Committee on Foreign Affairs and ordered to be printed.

To the Congress of the United States:

I hereby report to the Congress on developments since the last Presidential report on May 14, 1993, concerning the national emergency with respect to Iran that was declared in Executive Order No. 12170 of November 14, 1979, and matters relating to Executive Order No. 12613 of October 29, 1987. This report is submitted pursuant to section 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(c), and section 505(c) of the International Security and Development Cooperation Act of 1985, 22 U.S.C. 2349aa-9(c). This report covers events through October 1, 1993. The last report, dated May 14, 1993, covered events through March 31, 1993.

1. There have been no amendments to the Iranian Transactions Regulations, 31 CFR Part 560, or to the Iranian Assets Control Regulations, 31 CFR Part 535, since the last report.

2. The Office of Foreign Assets Control (FAC) of the Department of the Treasury continues to process applications for import licenses under the Iranian Transactions Regulations.

During the reporting period, the U.S. Customs Service has continued to effect numerous seizures of Iranian-origin merchandise, primarily carpets, for violation of the import prohibitions of the Iranian Transactions Regulations. Office of Foreign Assets Control and Customs Service investigations of these violations have resulted in forfeiture actions and the imposition of civil monetary penalties. Additional forfeiture and civil penalty actions are under review.

3. The Iran-United States Claims Tribunal (the "Tribunal"), established at The Hague pursuant to the Algiers Accords, continues to make progress in arbitrating the claims before it. Since my last report, the Tribunal has rendered two awards, both in favor of U.S. claimants. Including these decisions, the total number of awards has reached 547, of which 369 have been awards in favor of American claimants. Two hundred twenty-two of these were awards on agreed terms, authorizing and approving payment of settlements negotiated by the parties, and 147 were decisions adjudicated on the merits. The Tribunal has issued 36 decisions dismissing claims on the merits and 83 decisions dismissing claims for jurisdictional reasons. Of the 59 remaining awards, 3 approved the withdrawal of cases and 56 were in favor of Iranian claimants. As of September 30, 1993, the value of awards to successful American claimants from the Security Account held by the NV Settlement Bank stood at \$2,351,986,709.40.

The Security Account has fallen below the required balance of \$500 mil-

lion almost 50 times. Iran has periodically replenished the account, as required by the Algiers Accords, by transferring funds from the separate account held by the NV Settlement Bank in which interest on the Security Account is deposited. The aggregate amount that has been transferred from the Interest Account to the Security Account is \$874,472,986.47. Iran has also replenished the account with the proceeds from the sale of Iranian-origin oil imported into the United States, pursuant to transactions licensed on a case-by-case basis by FAC. Iran has not, however, replenished the account since the last oil sale deposit on October 8, 1992, although the balance fell below \$500 million on November 5, 1992. As of September 28, 1993, the total amount in the Security Account was \$213,507,574.15 and the total amount in the Interest Account was \$5,647,476.98.

Iran also failed to make scheduled payments for Tribunal expenses on April 13 and July 15, 1993. The United States filed a new case (designated A/28) before the Tribunal on September 29, 1993, asking that the Tribunal order Iran to make its payment for Tribunal expenses and to replenish the Security Account.

4. The Department of State continues to present other United States Government claims against Iran, in coordination with concerned Government agencies, and to respond to claims brought against the United States by Iran. In June and August of this year, the United States filed 2 briefs and more than 350 volumes of supporting evidence in Case B/1 (claims 1 and 2), Iran's claim against the United States for damages relating to the U.S. Foreign Military Sales Program. On September 29, the United States submitted a brief for filing in all three Chambers of the Tribunal concerning the Tribunal's jurisdiction over the claims of dual nationals who have demonstrated dominant and effective U.S. nationality. In addition, the Tribunal issued an order accepting the U.S. view that Iran has to support all aspects of its claim in Case A/11, in which Iran claims the United States has breached its obligations under the Algiers Accords, rather than to ask the Tribunal to first decide "interpretative issues" separate from the merits of its case. In another case, the Tribunal declined Iran's request that it stay a case against Iran in U.S. courts for an alleged post-January 1981 expropriation, where the plaintiffs' case at the Tribunal had been dismissed.

5. As reported in November 1992, Jose Maria Ruda, President of the Tribunal, tendered his resignation on October 2, 1992. No successor has yet been named. Judge Ruda's resignation will take effect as soon as a successor becomes available to take up his duties.

6. As anticipated by the May 13, 1990, agreement settling the claims of U.S. nationals for less than \$250,000.00, the

Foreign Claims Settlement Commission (FCSC) has continued its review of 3,112 claims. The FCSC has issued decisions in 1,568 claims, for total awards of more than \$28 million. The FCSC expects to complete its adjudication of the remaining claims in early 1994.

7. The situation reviewed above continues to implicate important diplomatic, financial, and legal interests of the United States and its nationals and presents an unusual challenge to the national security and foreign policy of the United States. The Iranian Assets Control Regulations issued pursuant to Executive Order No. 12170 continue to play an important role in structuring our relationship with Iran and in enabling the United States to implement properly the Algiers Accords. Similarly, the Iranian Transactions Regulations issued pursuant to Executive Order No. 12613 continue to advance important objectives in combatting international terrorism. I shall continue to exercise the powers at my disposal to deal with these problems and will continue to report periodically to the Congress on significant developments.

WILLIAM J. CLINTON.

THE WHITE HOUSE, November 10, 1993.

APPOINTMENT OF JOHN W. LAINHART IV AS INSPECTOR GENERAL FOR THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore. Pursuant to the provisions of section 2(b) of rule 6, the Speaker, majority leader, and minority leader jointly appoint Mr. John W. Lainhart IV to the position of inspector general for the U.S. House of Representatives effective November 14, 1993.

WEST POINT COIN

(Mr. FISH asked and was given permission to address the House for 1 minute.)

Mr. FISH. Madam Speaker, today I join my distinguished colleague from New York, Senator AL D'AMATO, in introducing legislation authorizing the minting of coins to commemorate the 200th anniversary of the founding of the U.S. Military Academy at West Point. I am very proud that 51 Members of the House have signed on as original cosponsors.

The bicentennial of West Point on March 16, 2002, will commemorate the Military Academy's two-century tradition of educating, training, and inspiring young men and women to serve our Nation in uniform. It will also celebrate the Academy's past, present, and future commitment to building the character, leadership, and intellectual foundation so essential to becoming officers in the U.S. Army, and leaders in government, industry, and the community.

Madam Speaker, West Point is truly a special place which inspires young people with "Duty, Honor, Country." I urge all my colleagues to join me in celebrating this 200-year tradition of excellence by cosponsoring the coin legislation I am introducing today.

□ 1710

GOP WELFARE PLAN

(Ms. WOOLSEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WOOLSEY. Madam Speaker, today my Republican colleagues are introducing a so-called welfare reform bill.

Madam Speaker, I differ from every other Member of this House, because I am the only Member of Congress who was a welfare mother. So, my opinions are not based on theory, they are based on real-life experience.

Madam Speaker, the Republican proposal takes a complicated, emotionally charged social problem and puts forward a simplistic and punitive solution.

The bill says that the two causes of welfare are illegitimacy and nonwork.

Madam Speaker, this concept is illegitimate and it will not work.

The real issue is how to make it possible for poor single parents—like I was 25 years ago to support their families.

This bill does nothing to address the real problem. It does not give families the tools to make themselves self-sufficient—no better child care, health care, child support, and no jobs creation.

Madam Speaker, I am drafting a real welfare reform bill—one that will ensure that people who play by the rules win, and that families are not punished for needing help.

NAFTA IS ENVIRONMENTAL DISASTA

(Mr. FILNER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FILNER. Madam Speaker, we have been told by the administration and supporters in the House of Representatives that NAFTA will be the vehicle to clean up the environmental mess which currently exists along the United States-Mexican border. Supposedly, billions of dollars will be dedicated to this task. The environmental side agreement is the panacea which will turn sewage into wine and toxic waste into ambrosia.

But as a Congressman who represents San Diego, CA—the biggest city on the United States-Mexican border—I can tell you first-hand that this NAFTA is a bad deal for the environment on both sides of the border. The side agreement

provides no guarantees against the weakening of Federal or State environmental laws by our trading partners.

It does not address the serious impacts NAFTA will have on the conservation of natural resources—such as mining, timber, and agriculture. It does not safeguard laws which protect us against products produced in an environmentally destructive manner. It does nothing to solve the ongoing problem of U.S.-owned companies failing to return toxic wastes to the United States for proper treatment.

It does not provide one penny for infrastructure improvements. As a result, NAFTA will ensure greater exploitation of our natural resources with little, if any, true cleanup or conservation.

The environment simply cannot afford this NAFTA.

ASSOCIATION OF AMERICAN PHYSICIANS AND SURGEONS, ET AL., VERSUS HILLARY RODHAM CLINTON, ET AL.

(Mr. DORNAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. DORNAN. Madam Speaker, the other night, Friday, I was coming back on a small turboprop-driven Army airplane from Fort Campbell where I had an opportunity to meet with the heroic young helicopter pilot Michael Durant who had been held prisoner for a week and a half in Somalia, and, as I landed at Andrews, I was told by the young lieutenant there that the First Lady was arriving in a few minutes alone on a C-20 Gulf Stream jet. Now I know that First Ladies cannot travel around the country commercially, but I did wonder to myself where Miss Hillary had been off to, probably on health care business.

So, this struck me. On the front page of today's newspaper a judge demands health panel's papers from the White House, and here is the language used in the legal document which I will put in the RECORD with this 1-minute. It is stunning. It talks about meritless, archaic, preposterous, egregious, thwarted, germane, and then it ends up saying that he is going to charge the First Lady legal fees if they stonewall the 511-member task force with no doctor on it and how they came to arrive at this strange health care plan.

[U.S. District Court for the District of Columbia, Civil Action No. 93-0399 (RCL)]

ASSOCIATION OF AMERICAN PHYSICIANS AND SURGEONS, INC., ET AL., PLAINTIFFS, VERSUS HILLARY RODHAM CLINTON, ET AL., DEFENDANTS.

MEMORANDUM AND ORDER

This matter comes before the court on plaintiffs' motion to compel answers to interrogatories and production of documents. The Court has carefully read each of defendants' responses, along with all memoranda in

support of and in opposition to plaintiffs' motion. On October 20, 1993, counsel also presented oral arguments to the court.

The exception to the Federal Advisory Committee Act applying to each working group body must be on the basis that the group is composed wholly of full-time government employees. (Court of Appeals slip op., p. 26). When the body (be it a sub-group or whatever) is asked to render advice or recommendations as a group, it is a Federal Advisory Committee Act advisory committee unless it is composed wholly of full-time government employees. (*Id.*, p. 29). This court's task is to inquire into:

1. The formality and structure of the working group and its sub-groups to determine if there are advisory committees within the working group, even if the working group itself is not an advisory committee.

2. The truth of the government's claim that all members of the working groups are full-time officers or employees of the government.

3. The status of the special government employees, where they came from, how many hours they worked, and whether they were full-time.

4. The status of the consultants—did each only come to a one-time meeting, or is his or her role functionally indistinguishable from other members of the group or subgroup. Any consultant who regularly attended and fully participated in meetings should be regarded as a member of that group or subgroup, and the consultant's status as a private citizen would then disqualify that group or sub-group from exempt status under the Federal Advisory Committee Act.

The Court of Appeals specifically cautioned that the Federal Advisory Committee Act cannot be avoided by simply appointing, for example, "10 private citizens as special government employees for two days, and then have the committee receive the section 3(2) exemption as a body composed of full-time government employees." (*Id.*, pp. 31-32).

Importantly, Circuit Judge Buckley, in this concurring opinion, noted the importance of the government's argument regarding compliance with ethics laws: "Mr. Magazine *** took pains to stress the fact that every member of and consultant to the group—whether a regular or special government employee, whether working full time or part, for pay or without—was required to file a financial disclosure statement and to comply with other requirements of these laws." (Court of Appeals slip op., Buckley, J. Concurring, at 11-12.) Discovery into the truth of Mr. Magazine's affidavit on this point, then, also appears to be warranted.

Rule 26 must be liberally construed to allow discovery into any factual matter that is germane to any of the remaining legal issues in this case, and that may lead to the discovery of admissible evidence or may relate to circumstantial evidence.

Defendants have submitted meritless relevancy objections in almost all instances, and incomplete and inadequate responses in most instances, and plaintiffs' motion to compel shall be granted as set forth herein.

The court rejects defendants' objection that because the current complaint has no specific allegation that "the interdepartmental working group, its cluster groups or subgroup or any other groups were subject to the FACA" plaintiffs are not entitled to seek discovery on these issues. The complaint can be amended to conform to the evidence discovered, and there is no basis at this late stage—on remand, after full briefing—to now raise an archaic technical pleading objection. After full discovery, the court will require an amended complaint to be filed that

conforms to the evidence and frames the issues for deciding dispositive motions or, if necessary, trial.

The court also rejects defendant's interpretation of their obligations to respond to outstanding discovery on an on-going basis. For example, in defendants' response to discovery request No. 2 (at p. 8), defendants noted that "there are a few additional individuals listed who may have maintained expert or consultancy agreements * * * [who] are not designated as having been retained by a particular governmental entity pending the results of a continuing search for pertinent documentation." The proper response by the government would have been to file its incomplete information and move to enlarge time for filing its complete answer, with an estimate of how much time would be needed. Instead, the government decided it would file an incomplete answer and then supplement it whenever it pleased, effectively divesting this court of control over the discovery process and ensuring that during the briefing process on the motion to compel the government would continue to produce dribbles and drabs of information at its convenience. This has unnecessarily complicated judicial review by providing a constantly changing target. The court condemns this litigation tactic and will not tolerate it in future responses in this case.

Defendants initially submitted a preposterous response to plaintiffs' request for lists of individuals who participated with each working group, saying that for Groups 1A and 22A-D "no such list was ever created." The lack of a formal, pre-existing list obviously did not excuse defendants from complying with plaintiffs' request. Apparently even defendants now recognize that, since they have now filed supplemental responses regarding the individuals in Groups 1A and 22A-D. Again, the court rejects this improper litigation tactic.

Even more egregious, however, is the defendants' response that the lists of meeting participants they created "should not be understood as fully exhaustive or completely accurate lists * * *." Defendants go on to say that given "the fluidity and informality of the process by which individuals participated in the interdepartmental working group * * * [the lists] contain the names of some individuals who did not attend any meetings or who only attended one or two. Similarly, some individuals who attended some working group meetings are undoubtedly not listed." Defendants admitted at oral argument that no effort was made to check the records of each working group for agendas, meeting minutes, and lists of participants, because such documents were not "routinely" prepared. This does not justify the government's refusal to find and produce those documents that were prepared—albeit perhaps pursuant to a protective order.¹ Defendants also admitted at oral argument that they made no effort to check Secret Service records of meeting participants. Again, while such records would not be complete—since some people with appropriate passes would not be listed—they would be probative, since the names plaintiffs are most likely seeking are those most likely to need special clearances for meetings. Defendants cannot simply check the records that happen to be in Mr. Magaziner's office, a "sampling" of other records, and then claim to have properly responded. Defendants have again improperly thwarted plaintiffs' legitimate discovery requests.²

Defendants have refused to provide full information on what they call "audit groups"

that were outside the interdepartmental working group, and have provided no information whatsoever on the "drafting group." The court rejects the argument that plaintiffs are not entitled to all germane information about all of the groups and sub-groups at the White House that dealt with health care reform issues. It matters not what label or title the group or sub-group had. Plaintiffs are entitled to inquire into the formality and structure of all these groups and sub-groups, and defendants are again improperly withholding the germane information.

Time and attendance records and records of payments made (for per diem or other work or for travel and other expenses) are clearly germane evidence since they may provide circumstantial evidence that plaintiffs can use to argue that the government's labels as special government employees as well as consultants are a sham. The same is true for financial disclosure or ethics forms—the signature and date and fact the form was or was not completed is germane to plaintiffs' contentions. The court will allow redaction of those other parts of the forms that are not already publicly available. Defendants have, however, even refused to provide to plaintiffs forms that are already publicly available. Defendants have no even arguable basis for such improper withholding.

Plaintiffs' Motion to Compel is GRANTED as set forth herein. Defendants shall, within 20 days of this date, file their final supplemental discovery responses.

Plaintiffs are entitled to their attorney's fees, having prevailed on their motion to compel, and such an award of fees is not unjust under Rule 37 of the Federal Rules of Civil Procedure. Plaintiffs' detailed statement of fees and costs shall be filed within 10 days. Defendants may comment thereon within 5 days thereafter.

So ordered, Royce C. Lamberth, U.S. District Judge, Nov. 1993.

FOOTNOTES

¹The court understands the defendants' concerns about production of substantive working group documents which will be publicly released only if plaintiffs ultimately prevail. The court does not understand, but is willing to consider, any argument defendants might make for a protective order for agendas or minutes, to preclude use except in connection with this litigation. The court is doubtful that a protective order is warranted for participant lists. What the court has no doubt whatsoever about, however, is plaintiffs' entitlement to have an appropriate search conducted to locate all such agendas, minutes, and lists. To the extent that plaintiffs' original wording was overbroad, it has now been refined. Plaintiffs are entitled to try to gather evidence to show that "consultants" are the functional equivalents of fully participating members of groups and sub-groups.

²Defendants' burdensome argument is categorically rejected. This court does not accept such arguments without specific estimates of staff hours needed to comply, and defendants submitted no such estimates.

MAKING GUN CONTROL A REALITY

(Ms. MARGOLIES-MEZVINSKY asked and was given permission to address the House for 1 minute.)

Ms. MARGOLIES-MEZVINSKY. Madam Speaker, I think today, a lot of Americans are saying "it's about time." Passage of the Brady bill is only a first step, but it is a significant one.

If only one American had died as a result of handgun fire since the Brady bill was introduced 6 years ago, that would be one life too many; one life too many wasted because this body had not

had the courage to face up to the special interests and do what is right for America.

But sadly, it is not one life which we mourn today, it is 150,000 of those lives; 150,000 American men, women, and children. More Americans than died in the 9 years of the Vietnam war.

Madam Speaker, I am proud to be here on the day when Congress finally starts to honor its pledge to protect the American people.

Waiting periods work. Waiting periods save lives. California's waiting period prevented 16,420 illegal gun purchases in the first 8 months of this year alone.

I am proud my colleagues passed the Brady bill. This is just a first step; I hope we can move on from here to make gun control a reality, and to pass a comprehensive crime prevention bill.

LOOKING AT THE FACTS ABOUT NAFTA

(Mr. EDWARDS of Texas asked and was given permission to address the House for 1 minute.)

Mr. EDWARDS of Texas. Madam Speaker, last night's debate was not even a close fight. The results are in. Ross Perot was gored by the Vice President's facts. Mr. Perot huffed and puffed, but all his one liners and all his threats simply could not blow down the facts of NAFTA.

The fact is that the United States has a \$5.7 billion trade surplus with Mexico. The fact is NAFTA will increase United States jobs by leveling the playing field of tariffs with Mexico. The fact is that NAFTA, not the status quo, will improve working and environmental standards in Mexico.

It is clear that the fear tactics of NAFTA's opponents are wearing thin as more and more Americans are looking at the facts about NAFTA.

Madam Speaker, Congress should join every living U.S. President and Nobel laureate in economics in putting aside the tales of fiction and fear and conclude that NAFTA means more jobs and better jobs for U.S. workers.

ROLE MODELS OF SUCCESSFUL TRADE POLICY?

(Mr. TAYLOR of Mississippi asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TAYLOR of Mississippi. Madam Speaker, in last night's debate Vice President GORE echoed what has now become the Clinton party line on NAFTA when he said that five living Presidents have come out in support of NAFTA. Since the speaker before me said that we should stick to the facts, Madam Speaker, I will do just that.

Of the five living Presidents who have endorsed this pact, only one had a trade surplus during his Presidency.

Now that was President Ford, and, as my colleagues know, he has not been very vocal about NAFTA. On the other hand, President Bush had a \$362 billion trade deficit during his administration; President Carter, a \$99 billion trade deficit during his administration; President Clinton, a \$77 billion trade deficit during his administration. President Nixon broke even, and Ronald Reagan, President of the United States, had a \$736 billion trade deficit during his administration.

Madam Speaker, to hold these people and their administrations as models of successful trade policy is no more accurate than to say that Madonna is a model of abstinence.

□ 1720

SALUTING VETERANS ON VETERANS DAY

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BENTLEY. Madam Speaker, tomorrow, we observe Veterans Day, honoring all of our brave men and women who have given so much of themselves while serving in the Armed Forces. I will bet many persons forget exactly why we will be on a holiday tomorrow. You may recall that November 11 was referred to as Armistice Day, because it was on November 11, 1918, at 11 a.m. in the morning, that peace was declared to end World War I.

Let us salute all of our brave men and women who serve and have served in our Armed Forces, and who have sacrificed so much that we may enjoy the freedoms that belong to us as Americans.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed without amendment bills of the House of the following titles:

H. Con. Res. 178. Concurrent resolution providing for an adjournment of the House from Wednesday, November 10, 1993, to Monday, November 15, 1993, and an adjournment or recess of the Senate from Wednesday, November 10, 1993, to Tuesday, November 16, 1993.

VACATING SPECIAL ORDER AND GRANTING SPECIAL ORDER

Mrs. BENTLEY. Madam Speaker, I ask unanimous consent to vacate my 60-minute special order this evening in lieu of a 5-minute special order forthwith.

The SPEAKER pro tempore (Ms. SLAUGHTER). Is there objection to the request of the gentlewoman from Maryland?

There was no objection.

CONGRESSIONAL REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. BILIRAKIS] is recognized for 5 minutes.

Mr. BILIRAKIS. Madam Speaker, this year, Congress again failed in its most basic duty under our Constitution—to provide comprehensive spending measures for the Federal Government. We failed to approve all 13 regular spending bills on time—not once but three times. Consequently, Congress has been forced to approve three continuing resolutions in order to keep the Government running.

In an effort to curb this sort of irresponsibility, I have introduced H.R. 1922, the Congressional Pay for Performance Act. My bill would require Congress to pass the other 12 bills before the appropriation for the legislative branch. In addition, to make sure that Congress had adequate incentives in this regard, H.R. 1922 would hold back the permanent appropriation for congressional salaries until all appropriation bills are approved.

The intent of my bill is simple. I think it is outrageous for Congress to approve money for its own operations or our own salaries while we consistently delay, avoid, and fail to approve many regular appropriation bills by the end of the fiscal year.

We almost yearly bring the Government to a halt and create anxiety among the beneficiaries of Federal programs—while we approve our own budget months ahead of the October 1 deadline. My bill would not cure all institutional flaws, but it would represent a change in thinking and attitude. I think people would prefer to see Congress step to the back of the line for a change.

Madam Speaker, it is abundantly clear that our constituents also want to curb the flagrant spending habits of Congress. Discipline is sorely needed in the congressional budget process—a process which must be changed to produce sensible, enforceable guidelines for Federal spending.

For example, many of our constituents do not know that Federal law sets a specific limit on the amount of money that the Federal Government can borrow. As a matter of law, our ability to borrow and spend is supposedly curtailed.

Unfortunately, this law accomplishes little from a practical point of view, because Congress routinely votes to increase the debt limit. We set a limit—and then when it looms on the horizon, we refuse to stop spending. Instead, we simply expand debt limit authority and put the day of reckoning further off into the future.

While the national media paid little attention, the 1990 budget agreement permanently increased the debt limit from \$3.1 to \$4.1 trillion. Then, earlier this year, the Clinton budget plan ap-

proved earlier this year further increased the debt limit to \$4.9 trillion. As a result of this fiscal irresponsibility, the national debt is now approaching \$4.4 trillion.

To make matters worse, the House of Representatives can increase the debt limit without even casting a specific vote on the issue. Under House rules, the debt limit can be increased automatically upon adoption of the conference report on the budget resolution.

That's like having a charge card where you never have to pay off the balance and your total line of credit keeps expanding to keep up with your spending. It may sound great, but you know it can't go on forever—and you certainly wouldn't give it to your kids. Madam Speaker, I don't think the U.S. Congress can be trusted with this type of credit account, either.

That's why I am a strong supporter of legislation to repeal this rule and require a separate vote on any proposal to increase the debt limit. If we are going to run up the national charge card, we should at least do it in public, with a recorded vote. Self-executing rules allowing debt expansion without an up-or-down vote are an affront to our basic duty as representatives of the people.

In everyday life, we wouldn't borrow money in another person's name without their permission—even a child would know that's not right. How then can we, as an institution, permit endless borrowing without the accountability inherent in a recorded vote?

I also believe there is a simple alternative to further increasing the debt limit—we must attack the underlying problem of excessive Government spending.

Many of us have supported a number of reforms to accomplish this goal, including a line-item veto to add teeth to the present law controlling congressional budgeting. Many also support a tax limitation/balanced budget amendment to require Congress to enact a balanced budget, while strictly limiting any new taxes to the overall growth in national wealth.

Altogether, I believe it will take strict adherence to budget guidelines to bring spending under control and deficits down to a balanced level.

In closing, I challenge my colleagues to wholeheartedly embrace congressional reform. What we need is a real, honest consensus on what is right for America. That is what our system is all about: Equality and fairness.

The American people should demand no less, and we should deliver far more.

VETERANS DAY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. FISH] is recognized for 5 minutes.

Mr. FISH. Madam Speaker, tomorrow is Veterans Day, a day set aside to pay tribute to the more than 27 million American men and women alive today who have served in defense of this Nation, the more than 1 million who have died in military service, and to those MIA's and POW's still serving in Southeast Asia.

There is no duty or honor higher than responding to our country's defense in a time of war, and there is no greater debt owed by our Nation than the debt it owes our veterans—those who served when our country called—the dead, the wounded, and those lucky enough to return whole. For every veteran was there when his country needed him—ready to lay his life on the line that his country could live in freedom.

We must never forget our country's debt to those who did return—those who need our country's help now as much as our country needed them in time of war.

The Congress has appropriated and the President just signed the largest budget ever for Federal veterans' programs, including a record level of funding for veterans' medical care. Even this, however, falls short of the funding level needed to meet the operating costs of a number of VA hospitals across the Nation.

I am committed to assuring that the VA medical system is retained as a separate entity for the sole use of veterans in any health reform Congress may consider. We must make absolutely certain that our veterans needs are not forgotten—brushed aside by budget cutters as only one more costly entitlement program. For veterans are different. Veterans are not just another entitlement program. As I have said so many times before, we have a special covenant with our Nation's veterans who have risked their lives to defend our freedom.

NAFTA VOTES BECOMING EXPENSIVE

The SPEAKER pro tempore. Under a previous order of the House, the Gentlewoman from Maryland [Mrs. BENTLEY] is recognized for 5 minutes.

Mrs. BENTLEY. Madam Speaker, recent developments in the NAFTA battle, developments reported in the media, should have some of the early supporters of NAFTA reconsidering their commitment to the agreement.

Many of the believers in unfettered free trade also are fiscal conservatives and walked this very floor this summer making statements that if political deals were cut that threatened to either pull back from the agreed to free trade provisions of the NAFTA, or, if the cost of the NAFTA would push our budget deficit up, then they no longer would support the NAFTA.

The time is getting short. And I must ask the billion dollar question. How

much is too much? On spending: \$700 million to a possible \$1.4 billion for six C-17 cargo planes, the cost of one Texas vote; \$10 million for a trade institute in Texas, one more Texas vote; \$600 million, for starters, on the NAFTA development bank, one California vote, and this bank is expected to go to at least \$2 or \$3 billion, and maybe even as high as \$12 billion, over the years.

□ 1730

The total proposed deficit—as of yesterday according to the Joint Economic Committee—is likely to be at least \$20 billion and the bartering for votes is not ended.

The Joint Economic Committee also says that the direct cost of implementing NAFTA over the next 5 years could be 30 percent higher than the current estimates being used by the administration. The JEC study also argues that the administration allocation of \$138 million for dislocated worker programs is extremely low, but this underestimate is not included in the JEC 5-year calculations, because the additional costs of worker dislocation programs were not immediately required as part of the implementing legislation. By contrast, the Bush administration originally proposed \$335 million a year for NAFTA-related dislocated worker programs, more than 12 times what is now being suggested.

Now if that's not enough for changing promises—the trade hawks on the Hill should examine the slippage on agriculture and flat glass and appliances.

There's another proposal being discussed—to barter for votes—and that is an Executive order by the President to permit the use of trade sanctions against nations that hunt endangered animals. Of course, were this to be done to win NAFTA votes, then we would have to fight GATT, because they don't want porpoises protected.

Oh what a tangled web is being woven in these international trade agreements. And how very dangerous it is to try to pull the wool over the eyes of the American people.

Americans believe a deal is a deal.

Americans want to believe that when their Representative makes statements of true concern—they will be followed through.

I urge every one of you—in this House—to look to your promises and your constituents—all 600,000 of them before you cast your vote.

MORE ON SOMALIA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. DORNAN] is recognized for 60 minutes.

Mr. DORNAN. Madam Speaker, I have been on the floor several times with this photograph. I am going to raise it up higher for our excellent crew downstairs so they can come in

steady on this and show what I think is the great tragedy of Somalia and what was for a while the focal point of our debate.

And on the eve of Veterans Day, tomorrow, I want to discuss again, to make this point very clear to all the Members of this Chamber, some of them may have the TV's on in their office on C-SPAN, getting ready to go back to their districts for this weekend, many of them will participate in veterans ceremonies. I think that they will want to have answers for the veterans across this country as to why there was no armor to back up our 18 killed in action Rangers and Special Forces soldiers in that special ops operation on the afternoon of October 3 that turned into the longest fire fight since Vietnam, equal in ferocity to some of the major engagements with German armor in World War II, when it degenerated into, with the armor knocked out, into an automatic weapons fire battle.

One of the Army people referred to as the fire fight from hell. The young wounded Rangers and veterans, and I keep saying young, I guess that is my point of view. But there are mature family men, wives, many children, in their late 20's and early 30's. There were only a few young private first classes and corporals, Rangers from this great 75th Ranger Regiment, that were killed in that shootout.

Now, here are Russian-designed, and I am not sure if they are Soviet-built and purchased by the nation of India or built under license in a big tank plant outside of Delhi, the capital city of India, but this is a picture that I took from a UH-60 Blackhawk aircraft that belonged to the 10th Mountain Division. General Montgomery was in the helicopter with me. He is the commander of our quick-reaction force. We were not out of the International Airport of Mogadishu 3 or 4 minutes when I looked down at the Indian compound on the southwest side of the city of Mogadishu. And I am looking at these white painted main battle tanks. That is a military term, MBT.

I said "What are those?" I thought at first they might be British Challenger 1's. He says, "Those are Russian-designed T-72's."

That is the Indian flag. It is flying over. There is a U.N. flag here. The Indian flag was over here.

I am getting my camera adjusted and trying to zoom in on this with the .70 millimeter zoom lens. Here is an armored personnel carrier. Here are four of what I found out were 14 T-72 tanks.

Now, I looked over at General Montgomery, a good man, Silver Star from Vietnam, several Bronze Stars with "V" for valor, Air Medals, a well-rounded general. He could almost read my mind through my eyes.

I said, "Tell me they weren't here October 3." He said, "Congressman, I

called the Indians. They said they would have to call Delhi."

This was on the afternoon of a Sunday. Given the time advantage, it was already into the—time disadvantage. The world was rotating toward New Delhi's direction. So it was 2 or 3 times zones later than the Horn of Africa, probably 2. And so it was already dinner time in India.

He said they could not get permission to supply him with this armor, which is probably about 8 to 10 minutes, tank driving speed, 30 to 35 miles an hour, to the C-4 circle that our Rangers had gone through when they reached Aideed's headquarters in about 10 minutes from the Ranger headquarters at the international airport.

The more I investigate this, the more fascinating it becomes. Here is what I have been able to determine by pressing the United Nations using the Intelligence Committee, the Library of Congress Research Committee and a beginning of less resistance from my friends who I highly admire in the Pentagon in the structure of the Joint Chiefs of Staff.

Italy had M-60 tanks, about a dozen of them. The general, later, in his office, General Montgomery told me he called Italy. They had to check with Rome.

Now, since Rome is one time zone to Egypt, one to Rome, it is a 2-hour time zone advantage; in other words, at 5 o'clock, when all hell was breaking loose on Sunday afternoon on this high ground near the Olympic Hotel in Aideed's headquarters in Mogadishu, in Italy it was only 3 o'clock. But it was a Sunday in Rome. That is a Christian nation so that was the Lord's Day. Why we could not have a hot line to whatever the Pentagon is called in Rome or wherever their military headquarters is to unleash 12 M-60 tanks.

The M-60 tank was used by our U.S. Marine Corps in Desert Storm. They did not have their full complement of M-1 Abrams. To have an M-1 tank there, we have got a dozen of them now, which weighs 139,000 pounds, that is almost 70 tons, that is amazing, would have been ideal. But look at what an M-60 weighs or, for example, Pakistan, after all, we were supposedly avenging the killings by ambush and the total mutilation of the bodies of 24 peacekeepers from the nation of Pakistan, ambushed by Aideed's people.

Pakistan had 12, at least a dozen, M-48 tanks. An M-48 is about 105,000 pounds so it is over 52 tons. The M-60's that the Italians had are 107,000 pounds, again, about 54 tons, perfectly suited to crushing road blocks and getting in in a rescue operation to perform a blocking operation. All you would need would be four of them at the four main streets around the intersection around the two intersections where helicopters went down.

□ 1740

It would have been very nice to have eight, backed up by armored personnel carriers, to pull out wounded men. This lack of coordination between the U.N. forces is why I voted, even though I am against any date-setting at all, why I voted for us to be out at the end of January, early February, rather than the end of March. At either date picked by this House, January 31 or March 31, we have put ourselves in a very untenable situation against a dedicated, ferocious killer of a warlord, Mohamed Farah Aideded.

This man has been threatening us all week long in a firefight that his henchmen started near the Malaysian compound. The Malaysians are in a panicky mood. They engaged in a much bigger firefight, and I am not going to second-guess them, and their judgment was whatever it was on scene, but they ended up killing a father of eight children who was a good Somali, the security chief for one of the major volunteer compounds, a wonderful world organization, CARE; the CARE security chief, father of eight, killed in this firefight because Aideded's snipers were sniping at the Malaysians, and several wounded on that side.

These are very dangerous times in, to paraphrase Mr. Kissinger, the new world order. The United States in many cases may be the only force for justice in the world.

If we get into situations like this where we do not have a clear battle plan, or civilians in the Pentagon are denying requests for sufficient protection for our men and young women, in many cases, in the field, then we are going to be in a situation where the isolationists of the world, growing now in both great parties of this country, are going to prevail in every argument, because when we put Americans in harm's way, the Colin Powell, Dick Cheney, George Bush, but principally Ronald Reagan-Cap Weinberger theory of overwhelming force, with the support of the people, that means their elected Representatives and Senators voting in affirmation, or at least counseling with the leadership members and the experienced people on the Intelligence and Armed Services Committees in both Chambers, this will of the people, an overwhelming force, is the only way Americans are going to be able to help anybody in this world.

If we have people at the Pentagon of the background of Morton Halperin, a designee, who the Under Secretary of Defense for Policy has admitted to Senators, and this is Frank Wisner, with a distinguished background as Ambassador to the Philippines, to an African country, to an Indonesian nation, he has a fine ambassadorial background, he admitted to Senators, and maybe I should not say "admitted," it is a guilt word, he discussed with Senators that Morton Halperin, not yet

confirmed by the Senate, in a created Under Secretary position with a very romantic title, Under Secretary of Defense for Peacekeeping and Democracy, that he weighed in on this decision to jerk the AC-130 Specter gunships, with a huge cannon on them, holding tons of ammunition, multiple gatling guns, trains with the Rangers and our Special Forces folks all the time, can fly above 5,000 feet, that is above rocket-propelled grenade or small arms fire, and give unbelievable protective firepower support to any Rangers or Special Ops guys trapped on the ground. Why was Morton Halperin weighing in on this?

Let me spend some of this special hour on this eve of Veterans Day on Mr. Halperin. Here is an article from *Army Times*; the same *Army Times*, by the way, which has a superb article that, if my staff gets it over here, because I realize I do not have it, has an article by an acquaintance of mine, Tom Donnelly. It is the first definitive article in any publication on this firefight from hell.

I enjoyed meeting with a vice president of *Reader's Digest* last night at a friend of mine's affair at the Capitol Hill Club, at the Friends of Pat Nolan affair. I met this VP who said that Malcolm McConnell, one of the finest military writers, or writers, period, at *Reader's Digest*, will be working over the next few months on doing the definitive piece in a magazine that sells 14 million copies a month, so all of these heroes and their great widows, wives, fiances, and families who have suffered so much, particularly the ones who are going to suffer with loved ones with arms missing or in wheelchairs for the rest of their lives, leg and arm gone in the case of one hero rescuer, Christopher Reid, who is up at Walter Reed right now, and I was humbled to visit with this fine young Marine sergeant of African-American descent, who gave his arm and leg to try and just retrieve the remains of three Americans burned to death in the back of the first Blackhawk that was shot down on September 25.

For these men on Veterans Day, I want to see what I can do to bring Les Aspin to his senses, and his bosses in the White House, to ask Morton Halperin to do the decent thing and withdraw his nomination.

Madam Speaker, again, if my staff is listening, and they should be, if they will bring over this fine article by Tom Donnelly in this week's *Army Times* on the firefight, I will put that in the *RECORD* with my remarks tonight.

In that article, in that *Army Times*, an article by Rick Maze, one of their staff writers in *Army Times*, it says, "Halperin as peacekeeper?" Subtitle "Qualified," that is arguable, "Qualified but controversial nominee draws fire." Then it shows the two sides of Morton Halperin, how he is going

through a transformation, like a caterpillar to a butterfly, I guess.

Here is the old, the old Morton Halperin: "All of the genuine security needs of the United States can be met by a simple rule which permits us to only intervene when invited to do so by a foreign government," as in Grenada. That was 1979, 6 years after we had left Vietnam. It was in the *Nation* magazine.

He also said more recently, just at the beginning of the summer, in *Foreign Policy*, and this is still the old Halperin.

The United States should explicitly surrender the right to intervene unilaterally in the affairs of other countries by overt military means or by covert operations. Such self-restraint would bar interventions like those in Grenada or Panama unless the United States first gained the explicit consent of the international community acting through the Security Council.

Here is the new Morton:

We must ensure that other nations clearly understand that the United States is prepared to use force unilaterally when it determines its interests are threatened.

That was a memorandum to the Senate Committee on Armed Services, which can call him before that committee before they confirm him. That looks like it was a 30- to 45-day switcheroo when he realized his nomination was in trouble.

Here is another one from the same month of August:

I can support the conduct of Sekirk operations conducted pursuant to the requirements of law.

So now he is hedging his lifelong stance against any covert operations whatsoever. I wonder if Mr. Clinton cleared the launching of 23 Tomahawk missiles, each one with a thousand pound warhead, against the massive and brand newly opened intelligence building in Baghdad, I wonder if Clinton checked with Halperin before he launched that Navy attack to avenge the alleged, proved to my satisfaction, assassination attempt on George Bush, or thwarted attempt against a former President of the United States.

Here is what Rick Maze's article says:

The nomination of a long-time Washington insider to a new Pentagon post overseeing peacekeeping operations has turned into a firestorm of criticism aimed at the nominee and President Clinton's recently foreign policy setback. On the surface, it would appear that Halperin would make an ideal nominee for the newly-created post of Assistant Secretary for Diplomacy and Peacekeeping, an important job in the post-Cold War world.

What is that, kind of a downgraded title, now?

The 55-year-old Brooklyn native has taught nuclear strategy and arms control policy at major universities: Columbia, Harvard, MIT, Yale. He served in the Pentagon as Deputy Assistant Defense Secretary for International Security Affairs during the Johnson Administration, and then worked on the National Security Council staff under Nixon. He was a hold-over.

Critics have scrutinized his history and foreign policy opinions, finding fault and discrepancies.

My friend, Senator BOB SMITH, who came to this Congress here in the 1984 election and served here with great distinguished service, particularly with a heart as big as his 6-foot-4 frame for our missing in action and their families, BOB SMITH, Republican, New Hampshire, says, "Mr. Halperin is no stranger to Washington, and he is not a stealth nominee either." BOB is on the Armed Services and the Intelligence Committees, like myself, albeit in the other Chamber.

He has a very long and sordid track record.

□ 1750

More importantly perhaps, his nomination for a post-setting policy for U.S. military involvement in nontraditional roles comes as the first of two post-cold war peacekeeping missions of the Clinton administration which have failed. Halperin's hearings will become a forum to examine Clinton's foreign and military policies, predicts Senator TRENT LOTT, Republican, Mississippi. Another respected, I will say graduate of this Chamber over to the Senate. He now represents the whole State of Mississippi instead of one-fifth of the State of Mississippi. TRENT LOTT rose up to be our No. 2 man, and I told him maybe he should reconsider going to the Senate. I always thought I would live to see him the Speaker of the House of Representatives, and that deed, seeing him sitting in the chair where you are, Madam Speaker, as the Speaker, would have certainly finally put the grievances of the Civil War to rest after almost a century and 30 to 40-some years.

But TRENT chose to go to the Senate, and he serves his great State of Mississippi well over there.

TRENT LOTT said that Halperin has played a role—exactly what role is not clear—in drafting presidential order PDD 13.

I have been speaking about this Presidential directive for 6 months on this floor, or at least for 4 months when I first heard about it.

This PDD 13 would expand the role the United States plays in U.N.-led peacekeeping missions, where we are always the combat teeth, the sword, the cutting edge, and those taking the most casualties. We have taken, if you take into consideration the Pakistanis had three more men killed from ambush, and their death toll stands at 27 in this peacekeeping operation in Somalia, we are at 30 killed violently and 4 more who died of nonbattle deaths and that is 34. But we have wounded way over 100. No nation comes close to suffering in blood and death, and of course not in treasure. Sure, we still are assessed more than 35 percent of the U.N. role. I was with General Sec-

retary Mr. Boutros Boutros-Ghali at lunch yesterday, and that high price we pay for peacekeeping around the world, whether we have a say or not, we get the bill on a lot of these peacekeeping operations.

Keep in mind that the United States pays the bill for peacekeeping in India and that goes back to 1948 when Nehru, with much leadership by Mahatma Gandhi, separated the country into two Muslim nations on either side, which eventually split off into Bangladesh and Pakistan, and the main part of India remaining a Hindu nation. We are still there, we are still paying 35 percent of the bill, you, the taxpayers who follow this House, and as you well know, 1,300,000 people are listening to us right now, Madam Speaker.

You taxpayers have paid the bill for peacekeeping in Cyprus since 1964, and the bill went up in 1974 when the Turks were using F-100D's that we gave them. And I saw the tail member on a plane on the evening news rolling in, close shots taken in formation, rolling in on the Gold Coast along Nicosia, tearing up gigantic tourist hotels with an airplane that I had flown on active duty about 17 years before.

What a staff I have. Thank you, Timothy Harroun. Here is that article, "Anatomy of a Firefight: Our Rangers in Somalia," the first after-action report. If you cannot get a hold of the *Army Times*, Mr. and Mrs. America whose sons and daughters serve in our military, then Madam Speaker, they can get it out of the CONGRESSIONAL RECORD of the 218th birthday of the Marine Corps, today, November 10, 1993.

Now back to Mr. Morton Halperin. Under Senate procedures, Halperin's opponents could block the nomination indefinitely. Instead they decided they want confirmation hearings so that they can grill Halperin, and at the same time blast Clinton. Then, after the bruising hearings, they hope to either defeat Halperin outright, or use Senate procedures to block action.

Now hear is the prostitute of the Reagan administration who works at Brookings, Lawrence J. Korb. Because he is introduced as a former Reagan appointee, and he left under a cloud with much prejudice on the part of Cap Weinberger and the President himself, Ronald Reagan, Lawrence J. Korb is the mouthpiece they roll out when they want to put the name Reagan following somebody's name. And then he proceeds to talk about how great it will be to have bisexuals in the military who can date the whole base as long as they do not cross the enlisted/officer barrier, and any time the media, the liberal dominant media culture wants to attack anything conservative in the military they roll out Larry Korb. So of course Mr. Korb says what they are doing, the Senators, is unfair and despicable. He usually quotes Daffy

Duck. And here is a former Reagan administration defense official, but they never put in parenthesis who left under a cloud and left in disgrace with prejudice.

"There are a lot of things at play here," Korb says, "that have nothing to do with Halperin's merits. Republicans are trying to get back at Democrats for blocking the nomination of John Tower to be Defense Secretary during the Reagan Administration," Korb said.

That is absolutely hogwash. I do not think my friends, BOB SMITH, U.S. Senator from New Hampshire, or TRENT LOTT, U.S. Senator from Mississippi, are dredging up the past back to the spring of 1989, not that they did not think it was horribly unfair to gut on the merest innuendo against John Tower, the longest serving Navy chief, chief, chief, master, master officer in the U.S. Navy Reserves, try to destroy him, and of course we put a good man in his place, who went through in a breeze because they felt so guilty about it over in the Senate. We got Dick Cheney in there by March. But it was terrible what happened to John Tower, a former chairman under President Reagan in 1981 through the year 1986 of the same Senate Armed Services Committee that stabbed him in the back.

Korb says we are playing some revenge game. No, no, no, Larry Korb, we are going after Halperin on the merits of his life, because he did get a ticket, paid for by we do not know whom, and maybe we can find out at the hearings, to fly to England when they were trying to kick out a sleazy Benedict Arnold, Philip Agee, who had printed the names in some sleazy magazine of our CIA station chiefs at many of our embassies all around the world. And one of them, a fellow Catholic with children, was murdered in the streets of Athens, Dick Welsh. So no, no, Larry Korb. We have plenty to deal with on the merits with Morton Halperin.

"Emotions of Vietnam, a war Halperin came to oppose, are also at play," Korb says. There might be some truth to that.

"One moderate Republican, JOHN WARNER of Virginia," and that title, moderate Republican, may come back to haunt JOHN when he comes up for reelection in 4 years, "has suggested that Clinton withdraw the nomination." So even the moderates are rallying against Halperin over in the Chamber at the north end of this great building. "It seems to me," WARNER says, that "it is timely for the President and the Secretary of Defense to take a second look, and a very careful look at this nomination." WARNER, of course, is the ranking Republican on the Select Committee on Intelligence, and I think he is No. 2 on the Armed Services Committee.

"Halperin, through a Pentagon spokesman, declined to be inter-

viewed." When your nomination is in such jeopardy, it is good to take a very low profile, stay underground. But a senior Pentagon official, faceless, nameless, anonymous, said Les Aspin continues to support him. "This nomination is winnable, the [unnamed] official said. Halperin is being tarred for the very reasons he was selected."

What reasons could that be? That he brags that he helped defeat in this Chamber and in the Senate, working behind the scenes as head of the Washington, DC, ACLU, the amendment that at first was winning hands down to make it a crime to bring the American flag in front of veterans in wheelchairs, which is what they were approving, this beautiful flag that flies here under those great words, "In God We Trust." And the ACLU, by the way, wants "God" in the "In God We Trust" off this wall. In the Senate Chamber it is on the opposite wall. The President of the Senate, who is the Vice President of the United States, in tough times of breaking tie votes, he sees those words right in front of him. It is right under the clock, right here on their staff door in the Senate Chamber, the same words, "In God We Trust." The ACLU wants it off, off that wall. And Halperin bragged. He did not just brag, he said this was the greatest achievement of my life up to that point a few years ago that I played the key role in stopping Senator BOB DOLE's amendment to make burning Old Glory a crime, and that he did the same to us in this House where he lost in a very close vote after days of passionate debate.

Is that one of the reasons he was selected, this unnamed official, civilian official I am sure?

"He is one of the few people who has thought about a world in which there is no East-West conflict and about a U.S. foreign policy that involves more than worrying about the next war."

Well, he sure has done a lot of thinking. And I would like to come back to an article that I put in the CONGRESSIONAL RECORD. I am reading from our own CONGRESSIONAL RECORD, not in a circuitous, sly way here. I put this in the RECORD on last Thursday, November 4. But it is an article from one of Ronald Reagan's two favorite publications for bedside reading.

□ 1800

Nancy Reagan, our former great First Lady, confirmed this to me.

Now, the National Review, Bill Buckley's great publication, and Human Events—that is what kept Ronald Reagan's heart stout as a conservative even when he was being undermined by the Mike Deavers on his own staff. Here is Human Events, September 25, ironically that is the date that our first H60 Black Hawk was shot down with the loss of three men in the back burned to death. I have spoken to one
